ST. JOHN, N. B., SATURDAY, JUNE 29, 1918

TWELVE PAGES—ONE CENT.

AT THE GERMANS BEFORE THE ENEMY REALIZED DANGER

SENDS A BULLET THROUGH TEMPLE

Lieut. A. McClintock Suicide in New York

WON D. S. O. WITH CANADIANS

Lieut. A. McClintock, U. S. R., of Lexington, Ky., honored by King George of England for gallantry in action while serving with the Canadian forces, shot and killed himself here yesterday.

While an officer from the contingent was in the city searching for him McClintock sent a bullet through his temple in a room at the Murray Hill hotel.

McClintock, who was twenty-eight years old, enlisted in 1916 in the 87th (Montreal) Canadian Infantry Battalion and soon won promotion to the rank of sergeant.

In September, 1916, he led a party of sixty men ordered to bomb German trenches under a heavy fire. He was wounded, but brought in two comrades who had fallen.

For his heroism he was awarded the Distinguished Conduct Medal, which King George personally conferred upon him in a hospital.

Imprisoned to his wounds, McClintock was later honorably discharged from the Canadian army. He then entered the Plattsmouth training camp and won a first lieutenant's commission.

He had been assigned to duty with the depot brigade at Camp Dix. During the time succeeding Lieutenant McClintock's return from overseas service with the Canadians, he kept and published his book "Best of Luck," and a series of stories detailing his war experiences which were published in many newspapers in the United States and Canada.

ST. JOHN OBSERVANCE OF DAY OF PRAYER FOR OUR CAUSE IN WAR

Special Features in the Churches of the City on Sunday Arranged

Tomorrow, the day set apart by the federal government for special prayer, application and humiliation in view of the crisis in the war, will be quite generally observed in St. John from indications gleaned today.

The Evangelical Alliance at their monthly session on June 10, requested Ottawa to set aside a week-day for this purpose, as did similar bodies throughout the dominion.

However, the government decided upon a Sabbath—the 30th of the day.

Protestant churches will hold services at which the dominant note will be prayer for divine help and guidance for fighting men and counselors in the present time of peril.

The Times knows of several families who will be detained in town from their usual week-end camping visit to observe the government suggestion with regard to prayer and supplication. In fact, it is assumed the day will be generally and seriously observed.

In the Cathedral of the Immaculate Conception there will be exposition of the Most Blessed Sacrament after the 11.30 mass, continuing until evening. At vesper the Miserere will be chanted and there will be special prayers.

TO LAUNCH 94 SHIPS ON JULY 4, ALSO 5 EAGLES, 20 DESTROYERS

Washington, June 29.—The Shipping Board now promises that forty-four ships will be launched on July 4. The previous estimate was eighty-nine.

This total is exclusive of the navy vessels. A late telegram from the Pacific coast says that eight destroyers in addition to the Emergency Fleet Corporation purchases would be floated. It is probable that there will be nearer twenty.

Henry Ford will also launch five or more Eagles on that date.

RECORD NUMBER OF CASES FOR THE DIVORCE COURT

At Least a Dozen For Judge Crockett To Hear

SITTING NEXT TUESDAY

Fitzradolph New Trial Not Likely at Present—Report That Defense May Apply for Jury Trial

Fredericton, June 29.—When the New Brunswick divorce court opens its July sitting on next Tuesday it will have the largest docket in its history unless present expectations prove false.

There is much conjecture concerning the action of Fitzradolph vs. Fitzradolph, in which a trial was ordered by the appeal court, when judgments were handed down last week.

West of Merrill, the British and German lines here had been jammed up almost against the edge of the Nieppe Forest in places, with the result that the British felt a lack of elbow room for operations.

The objectives lay along the winding little stream known as La Platte Becquo, which bowed out toward the east in a semi-circle back of the German lines.

As two strongly fortified farms near the centre of the line the enemy fought bravely, but was unable to stand out long against the furious onslaught of the British, who attacked them from all directions.

The losses among the storming infantry for the entire engagement were extremely light which was due largely to the fact that the show was over before the enemy was able to organize serious resistance.

As a special feature of the programme, British troops on the left of the column carried out a simulated attack of their own which had an amusing result, adding nearly half a hundred prisoners to the bag.

The British were over the top and at the entry before the latter realized that they were being attacked.

Machine gun posts were stormed and cleaned out with hand grenades and bayonets. They had expected to be holding a stretch of trench the attacking troops rushed up with rapid fire and swept the ditches with an intense fire that annihilated the defenders.

The morale of the prisoners taken today was not high. These men and others captured recently in this sector have appeared to be much disheartened by their failure to get bigger results in their offensive. They had expected to get ahead much faster than they have.

400 Prisoners

London, June 29.—In their successful attack in Flanders east of Nieppe Wood yesterday the British took more than 400 prisoners. Two German field guns, in addition to the machine guns and trench mortars taken also, were captured in this attack.

The French Attack

With the French Army in France, June 28.—(By the Associated Press)—The fighting notes of the day were on this front occurred early this morning when the French executed a partial offensive in the direction of the southwest of Soissons on the borders of the Forest of Villers Cotterets, where were captured several positions whose continual possession would have permitted the enemy to prepare a future offensive.

The French attack occurred at dawn along a front of 6,000 yards and the fighting proceeded throughout the day.

By late afternoon, when this despatch was filed, the French had advanced considerably, taking some prisoners and more were coming in. The Allied troops had reached the outskirts of the Fosse Bas Cutry and St. Pierre Hill, where a most determined struggle was progressing.

The Germans had been ejected from a portion of the forest of Villers-Cotterets southward to St. Pierre. The French artillery was completely dominating the enemy guns.

RETURNED SOLDIER IS CANDIDATE IN VICTORIA

Victoria, B. C., June 29.—To fill the seat in the provincial house left vacant by the death of Premier Brewster, Victoria electors today chose Frank Gholson, returned soldier, in a field of three other candidates.

THE PARLOUR OF PEACE

The Man In The Street

Saturday to Tuesday, looks like a real holiday.

Here's many happy returns of the day to the Dominion.

A good day's work in the war garden would be an especially justified celebration of Dominion Day.

There was just enough cross firing over the counsel table at the power company hearing yesterday to suggest that there may be some lively engagements before the campaign is over.

The proposal to restrict voting among the non-resident Indians has nothing to do with the stock raising.

Wonder if the St. John King George bought is getting back the money yet?

From now on the popular question will be "Have you your coat in?"

By winter time the question will be "What are you using instead of coal?"

Friends of the C. P. will hope that it is not any dearer than керенды was.

The Union street High School Alumni reception in the large room of the school building was a continuation of the informal social life, of the splendid function in the forenoon.

The hall was filled with fair maidens and young men, including many former graduates, teachers and officials. Floral and patriotic decorations were on every side.

Mr. Kenneth Machum and bride, of Victoria (B. C.), are at Millville visiting Mr. Machum's mother.

Mrs. C. P. Holden, Fredericton, is the guest of her mother, Mrs. James J. Taylor, Princess street.

Mrs. George McAvity and Miss Rosewood McAvity, after spending a fortnight at the Halifax Hotel, are going to the west, where he will take charge of the official organ of the United Mine Workers of America, in British Columbia and Alberta.

Mrs. William A. Welford has returned after a pleasant trip to Providence and Boston.

Arthur Kyle of the C. P. R. telegraph service in Calgary, accompanied by Mrs. Kyle, has arrived in the city. Mr. and Mrs. Kyle are the guests of the Misses Cline, St. James street.

BRIDGEPORT STRIKERS RETURN TO WORK

Bridgeport, Conn., June 29.—Having been given full assurance by the Federal Labor Board that the strike would be ended by the government, the strikers here engaged in essential war work, were to return to their work to their respective shops today.

SHOW REGISTRATION TO TRAVEL ON TRAIN

St. Catharines, June 28.—Registrar W. R. Robertson reports that the federal government has notified the railway companies that no one will be allowed in future to travel on street cars or trains where the fare is more than five cents without showing a registration receipt.

Persons attempting to travel without receipts are to be treated as trespassers by the companies.

BUILDING AT LOW EBB

AMERICAN BATTALIONS ON VISIT TO CANADA

One in Toronto, One in Montreal—Given a Great Welcome

Toronto, June 29.—For the first time in 106 years armed American troops paraded the streets of Toronto yesterday. The visitors were the 3rd battalion, 268th regiment from the state of Washington. From the moment it arrived to the moment it left, it was entertained royally.

Thousands of people turned out to see the parade to Queen's Park and vast numbers gathered at the park to hear official addresses of welcome from the lieutenant-governor of Ontario, Sir John Hendrie, the premier, Sir William Hearst, Mayor Church and Colonel H. C. Black, commanding this military district.

A feature was the presentation of twenty-three medals won in France by Canadian soldiers.

Montreal, June 29.—Twelve hundred soldiers belonging to the United States army were the guests of the dominion government here yesterday. The programme for the entertainment of the visitors included a tour around Montreal in automobile, a luncheon at the barracks of the Quebec regiment, and a review by the governor-general of Canada, Lord Bessborough.

The city was decked with bunting and the route chosen for the parade was along the main thoroughfares of the city.

Propose New Grip on Russia

Germany To Send Troops "To Restore Order"

CONDITIONS TERRIBLE

Famine in Petrograd and Hunger Revolts Daily in Moscow—American Plans Are Announced

London, June 29.—The German government, according to German newspapers, is taking preparatory measures with a view to intervention in Russia, says a despatch to the Exchange Telegraph Company today from Zurich.

Under this plan, it is said, troops will be sent to restore order, assisted by Maximilian forces.

London, June 29.—A Stockholm despatch to the Morning Post says that a Swedish editor who returned from Petrograd yesterday reports the situation there more critical than ever.

A terrible famine prevails at Petrograd and in Moscow hunger revolts are the order of the day.

At Petrograd, German occupation is generally expected, if it is not forestalled by Czecho-Slovaks who have more than 100,000 well disciplined troops and are now being rapidly joined by Siberian Cossacks.

Amsterdam, June 29.—A telegram from Kiev, Russia, to the Berlin newspaper, says that an agreement has been reached in the peace negotiations between Russia and the Ukraine, in regard to the frontier boundaries, to the effect that all disputes arising after the conclusion of peace shall be settled by a court of arbitration.

Both delegations were ready to exclude any idea of annexations or forcible seizure of territory. With due regard to political, economic and other interests of the two peoples, a whole-hearted decision that the ethnographic principle should govern in forming the frontiers.

Washington, June 29.—Plans of the American government for aiding Russia in rehabilitating herself reveal that the first step contemplated is informal assistance through American business and industry.

SISLER AT HEAD

First Place Among American League Batemen

Outs Burns By Making Ten Hits in Six Games—Merkle Is At Top in National League

Chicago, June 29.—Driving out ten hits in his last six games, George Sisler, St. Louis star, takes first place in the American League list of batemen, according to averages released today. He is batting .361, seven points ahead of George Burns, of Philadelphia, the leader a week ago. Sisler also is leading the league in base stealing, having twenty-nine thefts to his credit.

"Babe" Ruth, the Boston pitcher, bagged another home run during the week, bringing his total up to nine. Sean, of Boston, with twenty, continues to lead in sacrifice hitting. New York leads in team batting with .288, and Boston in fielding with .974. Leading batters are: Sisler, St. Louis, .361; Burns, Philadelphia, .354; Baker, New York, .356; Ruth, Boston, .335; Cobb, Detroit, .324.

In the National League Fred Merkle, the Chicago first baseman, is getting even with those who dubbed him a "home-head." Merkle continues to lead in batting with an average of .363, and is tied with Kauff, of the Giants, for total base hitting, each having stretched their blows for 100 bases.

In fifty-seven games, Merkle has cranked out 74 hits. His record includes sixteen doubles, two triples and two home runs. Carey, of Pittsburgh, retains the honors in stolen bases, his total being twenty-seven. Boucher, of Cincinnati, and Mann, Chicago, are tied for sacrifice hitting honors with fourteen. Chicago leads the league in team fielding with .978, and New York in club fielding with .970. Leading batemen are: Merkle, Chicago, .363; Kauff, Brooklyn, .347; Smith, Boston, .346; Groh, Cincinnati, .337; Kauff, New York, .324.

MEDAL COMES TO MOTHER

Honor in War Won by Bombarrier M. N. Hayes of Westmorland Road

The military medal won by Bombarrier M. N. Hayes, son of Mr. and Mrs. Robert Hayes of 26 Westmorland road, has been received by General Macdonnell for presentation to the soldier's mother. As Mrs. Hayes has modestly refused a public presentation of the medal will be forwarded to her today.

Bombarrier Hayes enlisted in the first contingent and went over with Major Magee. He has been at the front ever since, having been wounded several times but always remaining on duty after having his injuries dressed. The medal was awarded for bravery on the field. Before going overseas, he was engaged as a car driver with the I. C. B. He was a member of the Sons of England Band and had many friends in the city who will learn of the honor conferred on him with much satisfaction.

DEPUTY MINISTERS REPLY TO HALIFAX

Halifax, June 29.—Mayor Hawkins received a reply from Deputy Minister Desbarats to his telegram to the navy department, Ottawa, protesting against allowing ships laden with high explosives to proceed up Halifax harbor to Bedford Basin, by anchorage.

The deputy minister, after quoting from a letter on the same subject written by Hon. Mr. Ballantyne, minister of marine and fisheries, to F. F. Martin, M. P., when he was mayor of Halifax, says: "Your present request is much more reactionary than that forwarded by Mayor Martin to Hon. Mr. Ballantyne. If it were conceded, it would mean the removal of the Atlantic naval base from Halifax to some other port and the building at that other harbor of the repair and shipping facilities which the government is now endeavoring to have established at Halifax. As almost every ship sailing from Canada for the seat of war carries high explosives, as does also every warship, your proposal would result in all these ships avoiding the harbor of Halifax. I can hardly imagine that you wish to bring about such a condition of affairs."

Deaths of Rev. Dr. Allen

Toronto, June 29.—Canadian Methodist lost another prominent figure in the death of Rev. Dr. James Allen, secretary of home missions, today. He was taken ill while attending a service in the Metropolitan church, four weeks ago. Dr. Allen was born in Ireland.

THREE FROM HEART DISEASE

The death record at the Board of Health for the week is as follows: Heart disease, three; senility, two; pneumonia, cerebral tumor, puerperal eclampsia, carcinoma uteri, carcinoma of stomach, one each; total, ten.

NO BOTTLE LIQUOR TRADE IN NEW YORK AFTER 8 P. M.

New York, June 29.—No alcoholic beverages will be allowed to be sold in New York city after 8 p. m., unless they are drunk on the premises where sold, according to an order of the governor, William. The act that sold to saloons and restaurants, but not to saloons and saloons in some instances have been able to obtain liquor, although they were not personally served where it was purchased, led the governor to take this action.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BABY OSBORNE AND THE EAGLE'S EYE AT THE GEM

The Gem has a very attractive list of picture offerings for today and Monday's holiday. The feature is Baby Marie Osborne in "Daddy's Girl".

IMPERIAL ON MONDAY

Imperial Theatre will have a remarkably fine holiday bill Monday. The leading feature will be Madame Olga Petrova in her third special production, "The Life Mask".

THE SPEED FLEET

Our correspondent of three days ago has fast driving does not seem to relish our advocacy of the repression of the speed maniac. We are sorry for this because we firmly believed that every fair minded and intelligent man would agree with our views.

In brief, they are as follows: The automobile is a time saver, therefore let it save all the time possible. It has the speed, therefore let it exercise the speed, and the mischief take the rest of the community.

Now if the fellows who rush over the road at thirty or forty miles an hour all belonged to the class whose every minute was valuable, there might be some force to the argument. Not one in one hundred belongs to this class, and our respondent is quite wrong in this regard.

This is far from being the case however. The automobile is a vehicle of high power running over the public highways where there is no separate roadway.

Notice of Births, Marriages and Deaths, 50c.

BIRTHS

REYNOLDS—On the 28th inst. to Mr. and Mrs. Wesley Reynolds, a daughter—Mary Agnes.

DEATHS

WILSON—In this city on the 27th inst. Mary Ethel, wife of Augustus Wilson, leaving husband, father, three brothers and three sisters.

ESTABROOK—At Upper Gagetown on the 28th inst. E. Estabrook, leaving, besides wife, three sons and one daughter.

KIRBY—In this city, at the residence of her parents, a Cedar Grove Crescent, on the 27th inst. Phyllis Marion Kirby, aged nine years, and six months, eldest daughter of Charles C. and Alice M. Kirby, leaving, besides her parents, one sister to mourn.

IN MEMORIAM

BOLTON—In loving memory of William Bolton, who died June 30, 1917. One year has passed, Our heart's still sore, As time goes on we miss him more, His memory is as dear today, As at the hour he passed away.

MUNDEE—In loving memory of my beloved daughter, Gladys R. Munde, who suddenly left us June 20, 1918. Until the day break and the shadows flee away.

MOTHER, MRS. PARKS.

OFFICER WELL KNOWN HERE WAS ON THE MEDORA

C. P. R. Steamship Which Submarine Sank

Peculiar Case of Second Engineer of the Pomeranian, Only One of Crew of Sixty Known to Have Survived Torpedo Attack

An officer who is well known in St. John was on board the steamer Medora when it was destroyed by a German submarine.

When they were held up by the U-boat with no chance of escape, a small boat was put off from the steamer and officers boarder were recommended.

The other members of the crew were given no time to save any of their effects. After they had entered the small boats, the crew of the submarine fired twenty rounds of shot at them.

The members of crew drifted around for ten hours in the open boat before they were picked up.

The captain of a steamship which arrived at Atlantic port of this fact brought news of the sinking of the Pomeranian and the Medora.

The sinking of the Pomeranian, said the captain, "is a mystery to shipping men in England and to the Admiralty, because only one member of the crew of sixty officers and men were seen to have survived."

The second engineer, who said that he never saw a single member of the crew of sixty officers and men were seen to have survived.

The ship lurched heavily to starboard and the second engineer, who was standing on the ship like an explosion in the hold.

The second engineer said he thought the lifeboats had floated off the top deck when the ship went over and that he saw the people at large have to pay for the upkeep of the public highways and the cost of heavy at best.

The torpedoes fired during the last six months by the German submarines have not been so heavy. They made less noise and did not cause the same havoc in the interior of the vessels.

The explosion of the torpedo near the boiler room was so slight that it did not rouse the pilot, who was taking forty winks in the chart room, and he could not believe the ship had been hit.

The German commander said sternly and in perfectly good English, "Stop that nonsense to the captain, chief wireless operator, and chief gunner do not give yourselves up at once I will send you all to the bottom."

"Not wishing to sacrifice his crew, the captain stood up in the first lifeboat and the Marconi operator followed his example. Then there was a search for the gunner, and the second gunner gave himself up to the commander of the submarine with the chief's cap, because the latter was a married man with a family and the other was single with no domestic ties.

The three men were taken on board the U-boat, and then the commander turned to the lifeboats and said, "Give my compliments to Lloyd George."

Before leaving the scene the submarine fired twenty shells from the six-inch bow gun into the Medora. An hour later, seeing from a distance of five miles that the steamship was still afloat, he returned and fired five more shells, which finished the business and the wreck

EIGHT DEAD AMONG CASUALTIES THAT ARE ANNOUNCED TODAY

Ottawa, June 29.—Today's list of fifty-eight casualties includes five killed in action, one died of wounds, two died of disease, one missing, two prisoners of war, thirty-one wounded, three gassed and five ill. Those from the maritime provinces are:

Wounded. C. E. Burke, Malpeque, P. E. I.; J. B. Malone, Halifax; J. Peters, Lunenburg; and P. E. I. W. Doyle, Miramichi; P. E. I. C. Porter, Wedgeport, N. S.; G. E. McManus, Halifax; A. E. MacPhee, North Lochaber, N. S.

Died. N. F. Pearce, Springhill, N. S.

JAMAICA GINGER AS BEVERAGE

Mixed With Bay Rum It Results In Death of Woman

Toronto, June 29.—Evidence submitted at Coroner F. J. Snodgrass's inquest into the death of Kate Sheridan, 187 John street, showed how easily Jamaica ginger may be purchased.

The woman was found dead in bed. Scattered about the room were about two dozen empty bottles which had contained Jamaica ginger.

The ginger was offered for sale by a local patent medicine firm. It was presented for sale as Jamaica ginger and stout.

The dose for children was "in proportion." The sale was authorized under the Patent Medicine Act.

If the woman had shared the fate of her colleagues when the police raided a Chatham street house recently visited by the police, she would not have died.

DOVSAGIRLS Clear Away Pimples and Dandruff with Cuticura

The Soap to Cleanse and Purify The Ointment to Soothe and Heal These fragrant, super-creamy emollients stop itching, clear the skin of pimples, blotches, redness and roughness, the scalp of itching and dandruff, and the hands of chaps and sores.

In parry, delicate medication, refreshing fragrance, convenience and economy, Cuticura Soap and Ointment meet with the approval of the most discriminating. Ideal for every-day use.

For complete directions, see box and circulars. Sold by druggists throughout the world.

COOL WEATHER HOLDING BACK GROWTH IN ONTARIO

Toronto, June 29.—In many parts of Ontario crops have been making very slow progress at a time when strong growth should have been made.

Hay yields generally in this province will be much below what was anticipated earlier in the season. There are some excellent crops of red clover and alfalfa, but these are in the line of comparatively limited.

Timothy, even if we have favorable weather from now until cutting time, will be short. With a continuation of cool days and high winds, it will go much below average.

Straw Likely to Be Short. Spring grain generally now promise to be short in straw. With good growing weather heads will still fill well, but if the sort of weather that has marked most of June continues until harvest time even the yield in grain will be disappointing.

The season has been decidedly unfavorable for corn so far, but in most sections a good stand has been secured, and there is yet ample time for the making of this important crop. Potatoes are doing remarkably well and promise large yields.

Cattle are doing well on pastures. Cool days and comparative absence of flies, with plenty of grass, have provided ideal conditions for dairying.

The season's outlook generally, while cause for anxiety, does not furnish reason for discouragement. But unless we have warmer weather, with frequent showers during the balance of the growing season, a full average harvest can hardly be expected.

That is how the situation stands generally, although more hopeful reports still come from some quarters.

This report of the Ontario department of agriculture states that beans are looking well in the province generally, and one Dundas county farmer has 100 acres in this crop. All root crops are making good progress, sugar beets being especially promising. Potatoes are already in bloom, and Essex tomatoes are on the market.

BROOKVILLE PRIZE WINNERS

An excellent programme of recitations and patriotic songs was given by the pupils of the Brookville school, under the direction of their efficient teacher, Miss Grace M. Hayes, at the closing exercises yesterday. Prizes for the boy and girl making the best showing in general efficiency had been offered by George N. Brown of the trustee board. The trophy was awarded to Hazel Knobel, but as two girls tied for first place, Mr. Brown's prize went to Helen Rice and Miss Knobel.

Disease To Be Bar To Marriage

Ontario Government Proposes Drastic Law Must Apply To Doctors

Prescription Required For Certain Medicines—Similar to New Brunswick Health Act

(Toronto Mail and Empire.) Drastic regulations based upon the Venereal Disease Prevention Act adopted by the legislature last session, have been passed by the Ontario government.

They strike hard at the plague which has been undermining social life in this province, as in other countries. Perhaps the most sweeping provision contained in the act is that any person suffering from venereal disease, and any act that is likely to result in the spread of the disease, is to be regarded as a serious offence.

In both cases heavy fines may be imposed and the offender sent to prison for a year.

The regulations as finally approved are quite as radical, but not so extensive, reaching in their scope as those favored by the Provincial Board of Health and the medical experts who held several conferences upon the subject some time ago. It was at first thought well to carry the fight against venereal disease into the barber shops and public wash-rooms throughout the province by requiring careful sterilization of barber instruments and the use of the common towel. Further consideration of the subject, however, has convinced the authorities and as finally adopted are far-reaching enough as a beginning.

The act goes into effect on July 1 and arrangements are now being made to supply medical officers with the necessary forms. At the same time the chief sanitary officer will be brought into the province to inspect the premises of all hospitals, asylums, reformatories, and other institutions where venereal diseases are treated, under the regulations, reported daily every new case of infection.

Dr. J. H. Seay, secretary of the Ontario department of health, said that the regulations provide that where a person is suspected of being affected or is known to be affected by venereal disease, he may be notified by the local M. O. to present himself before a medical officer for examination within a specified period of time.

The regulations provide that where a person is suspected of being affected or is known to be affected by venereal disease, he may be notified by the local M. O. to present himself before a medical officer for examination within a specified period of time.

FEWER DELEGATES TO BAPTIST CONVENTION

Harvard Plan of Accommodation for Woodstock Gathering—Effect of War Conditions

The Baptists of the Maritime Provinces have decided to dwindle their annual convention plans to an absolute minimum this year in keeping with the strictest ideas of conservation.

The convention, which is always a large and important gathering in peace-and- plenty times, will meet at Woodstock, N. B., in October. Instead of a number of lay delegates accompanying the pastor from each church in New Brunswick, Nova Scotia and Prince Edward Island, this year's roll will contain the names of the clergyman and one delegate only.

Instead of these delegates being billeted at the homes of members of the Baptist churches at the place of meeting, hospitality will be limited to bed and breakfast. The mid-day and evening meals will be bought by delegates on what is known as the Harvard plan—a central food depot under some patriotic scheme or church endeavor. In fact in every possible way the convention will be reduced to a basis of economy and conservation that will not make it difficult for the good people of the Carleton county shire.

The Women's Baptist Missionary Union convention, usually held previous to the general convention, will meet at the homes of members of the Baptist churches at the place of meeting, hospitality will be limited to bed and breakfast. The mid-day and evening meals will be bought by delegates on what is known as the Harvard plan—a central food depot under some patriotic scheme or church endeavor. In fact in every possible way the convention will be reduced to a basis of economy and conservation that will not make it difficult for the good people of the Carleton county shire.

HERE'S GOOD NEWS FOR RHEUMATIC SUFFERERS!

At last a medicine has been marketed that will forever banish Rheumatism. No longer need the most dreaded of all ills run uninterrupted.

DR. ASKLEPIOS' M.M.M. (three M) RHEUMATISM CURE is guaranteed to cure the most severe case of rheumatism.

Scores of persons right here in St. John's—many for years—have been tormented by rheumatism—have been completely relieved after using one of two bottles of this remedy.

Easy and pleasant to take; and results are immediately felt.

Let us tell you of the many cases of relief that have come to our attention—many of them possibly your friends.

QUEBEC TO MAKE REVOLVERS FOR THE AMERICAN ARMY

Toronto, June 29.—Canada is to have another new and important industry to be located at Quebec city. The line to be manufactured is automatic revolvers for the United States Army.

Originally the business was offered to the Russell Motor Car Company, in Toronto, but as the order was so extensive and latter company so busily employed in other work, it was found necessary to organize a new company for the purpose.

In this new company, however, Russell interests are largely represented. The company will be known as the North American Arms Company, Limited, and will be capitalized at \$2,000,000. The manufacturing will be carried on in the old Ross rifle plant at Quebec.

IS AN AIR MAN. John J. Quirk of the Royal Flying Corps, arrived yesterday from Ontario to visit his mother, Mrs. L. W. McGrath of 57 St. Patrick street. Before returning he may visit his uncle, John Hill of Campbellton. Mr. Quirk was employed in the government offices in Winnipeg before enlisting for the air service last fall. He spent the winter at Camp Borden and recently has been at the training camp in the west aviation grounds.

SAW MILL DESTROYED. A portable saw mill located near Nauwigawac was destroyed by fire last night. The mill was owned by Alexander McLeod, who was saving for W. Malcolm Mackay of this city. The mill was valued at about \$2,000.

On a Fishing Trip YOU NEED SNAP

It removes fishy, gamey smells from the hands, and keeps the skin smooth and soft.

The Italian Military Administration is authorized to requisition for its own use all wool produced in Italy (colonies excepted) by shearing, and all wool from skins either Italian or foreign origin, according to a despatch from U. S. Consul-General D. F. Wilber of Genoa. The ministerial decree to this effect also stipulates that commerce between private parties in such wool is forbidden. Prices to be paid for the different grades of wool and the procedure to be followed in classifying it are set forth in detail.

The Evening Times and Star

ST. JOHN, N. B., JUNE 29, 1918. The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act, 1884.

DOMINION DAY.

The anniversary on Monday of the formation of the Dominion of Canada will find the Canadian people more than ever devoted to their country and proud of the highest sense of its achievements. A comparison with Germany is at this time irresistible. The German Empire was not constituted until 1871, but its development since then has been striking contrast to that of Canada.

THE WAR NEWS

Both British and French, striking at points one hundred miles apart, have driven the Germans back and materially strengthened their own position. They have anticipated the expected German drive and made the enemy's task much harder. Their airmen have also been very busy and on Thursday brought down twenty-nine enemy machines.

According to a statement made at the annual meeting of the Council of the Ontario College of Physicians and Surgeons by Dr. A. T. Callum of Niagara Falls, medical examination of the manhood of Canada for military purposes reveals the fact that the percentage of unfit varies from 40 to 70 per cent.

The appearance of the German submarine on the American coast is a reminder of what Germany would do to the United States and Canada if she could. Its appearance also reminds us of what should be done to Germany, and of our responsibility to see that it is done.

Does it make for the best citizenship to turn thousands of children loose for nearly two months without proper playgrounds, proper supervision, or vacation school opportunities for part of the time?

THE NAVY LEAGUE.

The Navy League in Canada is growing in numbers and enthusiasm. In a recent speech Lieut. Col. G. Williams, field secretary, said: "When Germany sought sea-power the Kaiser at once encouraged in every way the formation of a German Navy League, and literally millions of members were enrolled and systematically educated in the belief that with a navy to back up her army, Germany could conquer the world."

The aims of the League are thus stated: (1) To make a thoroughly organized campaign.

(2) To raise funds for British and Canadian sailors, sailors' institutes, and for the welfare of seamen and their dependants.

(3) To encourage naval brigades for young men and boys who they can receive practical and theoretical education to fit them for either the mercantile marine or the navy.

That Canadian sailors will uphold the traditions of the British navy was shown by Lieut. Col. Williams in the address from which we have already quoted. He said: "Our own Canadian navy has an illustration of sacrifice and heroism that reads like a romance, but in the multiplicity of heroic deeds, not a line has yet been written about it."

Bangor Commercial: The work on right order is expected to add about a quarter of a million men to Uncle Sam's army. New York city figures that about 40,000 men will be contributed from that city as a result of the ruling. The hotels and restaurants will be hit the hardest, although the large department stores and similar business establishments will suffer considerably.

Next week should see some definite action by the city council in relation to playgrounds for the boys who want opportunities for baseball and general athletic games.

Many people will celebrate Dominion Day by working in their war gardens and fighting the Germans by encouraging the growth of the crops.

Sooner or later the Bolsheviki in Russia must be overthrown, and the Russian the better.

Gen. Foch has served notice on the Germans that he is still on the job.

LIGHTER VEIN

He Had to Stand. A story is going the rounds of how Ian Hay, on a lecture tour, went to the barber's in a small town.

A Fly Story.

A story is told by W. W. Jacobs, the humorist writer, of an old man who, loitering outside a butcher's shop, was called in by the proprietor, saying "Henry, I want you."

When Schwab was a boy in the village of Loveto, Pa., the schoolmaster—an enthusiast for geology—told each child to bring him a specimen to describe.

"This," said the schoolmaster holding up the first stone, "is a piece of felspar from the cross-road."

"This," he added, "is a piece of marl from the meadow."

"This," he continued, "we have a piece of argillaceous sandstone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

"This," he said, "is a piece of limestone from the quarry."

SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-TIVES" Instead, And Is Now In Perfect Health.

MME. F. GAREAU.

"For three years I suffered great pain in the lower part of my body, with swelling and bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This I refused to permit."

"I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it."

"The first box gave great relief, and I continued the treatment, taking six boxes more. Now my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-tives' my warmest thanks."

MME. F. GAREAU.

Box a box, 6 for \$2.00, trial size 2c. At all dealers or sent by Fruit-a-tives Limited, Ottawa.

RECENT WEDDINGS

Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says: "I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation. Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 6th St., N. E., Canton, Ohio.

Every Sick Woman Should Try LYDIA E. PINKHAM'S VEGETABLE COMPOUND Before Submitting To An Operation. LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

War Garden Bulletin
PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS ENLISTED IN GREAT-ER PRODUCTION CAMPAIGN

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

100 P. C. USE OF VEGETABLES
The more general use of vegetables substitutes cannot be too often reiterated. Their worth is not half appreciated and with the war gardens flourishing space there is a tendency to be wasteful when such an abundance of garden truck is available.

As a matter of fact, their uses are not exhausted when they have been served as fresh greens, made into salads or boiled according to custom. Much of the sugar and mineral content, so valuable and pleasant to the taste, is generally lost in cooking because women do not study ways and means to conserve it. None of the elements should be wasted. For instance, carrots, corn, peas, beets, are rich in sugar and the water in which they are cooked should be saved for soup. Spinach should always be cooked in its own juice and every spoonful saved. Onion water may be used for gravies and soups.

Delicious soup is made by simmering potatoes "diced" with skins left on, peas, onions and seasonings. A thick puree which is combined with a thin cream sauce is made of this composition. Peasods and the cobs from which uncooked corn has been cut may be used to advantage in making soup.

Manchester Robertson Allison, Limited
Stores Open at 8.30, Close at 5.45; Fridays 10 p.m., Saturdays 12.45 p.m.

ISSUED BY THE CANADA FOOD BOARD
"Save your ounce of meat. It is literally a little thing. It is a little thing to do to save your country."

CHILDREN JOIN NAVY LEAGUE

No more pleased and enthusiastic audience ever filled the Imperial than assembled there yesterday afternoon when the Navy League mass meeting was held. Invitations to be present were issued free to all the children of the city, and they attended in full force. Naval pictures, which were greeted with shouts of joy, patriotic songs and a stirring patriotic speech from Colonel E. T. Sturdee preceded the enrollment of those children who seized the opportunity of becoming junior members of the league.

THE FOOL AT THE WHEEL

"How long are Montreal's streets to be used as speedways by fools at the throttle of high-powered motor cars?" asks the Montreal Star. "There is not another city on the American continent where pedestrians are so constantly at the mercy of indifferent or criminally careless speed maniacs. Scarcely a day passes without its record of combined recklessness and cowardice on the part of some motor car driver, recklessness where the lives of others are concerned, arrant cowardice which trusts speed to escape the consequences. The majority of car owners and drivers are not in this category, but they suffer for

the sins of others. Public patience is at the breaking point and will no longer tolerate indifference to what has become more than a mere nuisance and has developed into a public menace. There is one certain method of putting a stop to this business of making our streets into race courses, this disregarding the established rules of the road, and that is a term behind the bars. That is what is inevitably coming to some of the pests which infest our streets. That is what public sentiment demands."

No need of your screen doors or windows ruffling if you will paint them as soon as purchased, with good paint and oil.

SCHOOL CLOSING AT THE ORPHANS' HOME

There were forty-six very happy children in the Protestant Orphans' Home in Britain street yesterday. The closing exercises of the home school were held in the morning at 10.30, and the children who took part in them carried out the programme of songs, recitations, dialogues and flag drill with evident enjoyment and striking success. The programme had been arranged by the teacher, Miss N. B. Vanwart, and the pupils were a great credit to the kind and thoughtful care which she has given them. Forty-one of the children attend the school. After the exercises, the prizes were distributed by W. E. Daymond, W. S. Fisher and Rev. D. Hutchinson, who each spoke a few words to the children.

SAVE SUGAR By Using CROWN BRAND CORN SYRUP for all Sweetening

In 2, 5, 10 and 20 pound tins and 3 lb. "Perfect Seal" Glass Jars.

for making homemade candy—for all baking—as a sauce for desserts—on griddle cakes and hot biscuits—use this delicious table syrup, made from corn—and thus save sugar. Ask your grocer.

THE CANADA STARCH CO., LIMITED, MONTREAL, QUEBEC, PORT WILHELM.

The list of prize winners is as follows: Grade 8, Adeline Armstrong, Aileen Morrissey; grade 5, George Baird; grade 4, Alice Armstrong, David Chambers; grade 3, Helen Foyers; grade 2, Milliege Puddington, Gwen Gallagher, Frank Belding; grade 1, Elsie Rogers, Murray Puddington.

The prize presented by the president, T. H. Estabrooks, to the boy who tried the hardest and aimed the highest, was awarded to David Chambers, who is leaving the Home this summer. The Estabrooks prize is presented every year and is in the form of a watch. There was on view the needlework which had been done by the girls since Christmas, and it made a noteworthy exhibit.

FOR CAPT. BARTLETT

Ottawa, June 28.—The Royal Geographical Society has this year awarded the "Back grant" to Captain R. A. Bartlett for distinguished leadership after the loss of the C. G. S. Karik, according to an announcement made today by the naval department. This grant, which consists of £14, was founded by the celebrated Arctic explorer, the late Admiral Sir George Back, for the reward an encouragement of scientific geographers and discoverers.

You Can Use An Ingersoll Radiolite No Matter What Watch You Carry.

The latest Ingersoll invention is a watch that tells time in the dark.

Luminous dial watches were known only to a few people until Ingersoll by the use of a substance that contains real radium placed them within reach of all. Now you can buy one at your dealers for a very small sum.

There are many uses for a Radiolite—in the trenches, the sick room, the nursery, on rising early, in mines or factories, out of doors, anywhere that you need to know the time in the darkness.

There's no Radiolite but an Ingersoll Radiolite.

ROBT. H. INGERSOLL & BRO., 128 Bleury Street, Montreal.

RADIOLITE 2 IN 1 \$2.75
For desk or dresser, slips out of case for use in pocket.

WATERBURY RADIOLITE \$5.00
Small, jewelled, stylish, sturdy.

INGERSOLL RADIOLITE \$2.50
The regular Ingersoll with luminous dial and hands.

major topics at the annual convention
of the Quebec Homemakers' Clubs to
be held at Macdonald College on June 12
and 13.

The New York State barge canal, con-
necting Lake Ontario with New York
city, was completed on Saturday. It was
begun in May, 1908.

SUMMARY

(By the Associated Press.)

The British troops in Flanders
and the French forces further south
apparently have anticipated the pro-
posed German drive toward the
English channel ports of Paris and
struck first.

Although slight details of the
manoeuvres thus far have been re-
vealed, the Allied troops caught the
enemy unawares at salient points,
and, driving swiftly forward, took
territory which would have bearing
considerable value at the starting
points of enemy attacks. In addi-
tion, a comparatively large number
of prisoners and machine guns were
left in the hands of the Allied
troops.

The attack of the British was de-
flected about midway between
Hendoville and the salient on the front
of nearly three and a half miles
over territory which the Germans re-
cently had been deluging with
shells. Altogether the attack was
productive of an average gain of
good depth, and the deluging with
the taking of several small han-
dles. It is not improbable that the
Allies' commander-in-chief in this
region had set his heart on the
capture of St. Omer and the
salient running then to Calais
and Dunkirk.

The stocks of the French troops
were a still greater force—more
and a half miles—and they at points
also penetrated enemy positions to a
good depth, and some points a mile
and a quarter.

The evident intention was further
to block the gateway to Paris
through the Villers-Cotterets region.
Although the points of attack
were separated by about 100 miles,
the manoeuvres seemingly had been
well considered by General Foch,
the Allied commander-in-chief,
where they were carried out syn-
chronously. The strategy of the
double stroke is apparent when it is
realized that a successful German
thrust where the British struck
would have meant the advanced
ports or a similar movement in the
south would have placed the French
capital in jeopardy.

The Berlin official communication
issued Friday evening takes note of
the Allied thrusts by declaring that
the Germans were busily engaged in
attempts to repel them.

That the Allied forces are not to
be caught napping by the Germans
is indicated by the intensive aerial
operations that are in progress and
behind the battle line. A British
official communication says that in
the last 24 hours twenty-nine
enemy airplanes were accounted for,
twenty of them having been de-
stroyed and others forced to de-
scend out of the control of their
pilots. Fourteen machines of the
British failed to return to their
posts.

There is considerable fighting be-
tween the Austrians and the Italians
in the mountain regions of the
Italian Alps, but quiet pre-
vails on the Piave river, across
which the enemy was driven by the
Italians early in the week.

S W I Z E R L A N D
E C Z E M A
and Skin Diseases

An internal medicine for adults, chil-
dren or infants.

Guaranteed to take and absolutely reliable.
Prescribed and sold in St. John by
Gracie H. Watson, The New Drug Co.,
Limited, Olive's Medical Hall.

ROTHESAY CONSOLIDATED SCHOOL.

highest average, nature study and school
gardening—Winner—Grace Harrison.
Special prize for nature study and
school gardening—Maude Pierce.

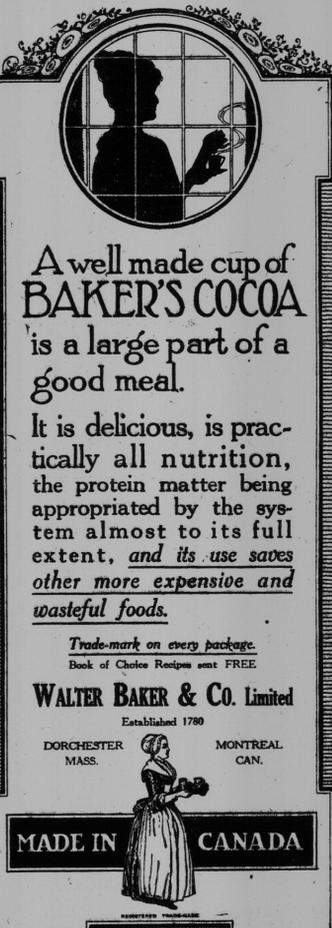

THE LATE J. J. BLOOMFIELD.
Mr. and Mrs. G. Bloomfield of Hamp-
ton this week received the sad news
that their son, Pte. John James Bloom-
field, was killed in action on June 12.
He was but nineteen years old. The
young soldier went overseas with the
182nd Battalion and was transferred to
the N. B. battalion. He is survived by
his mother and father, one sister, Mrs.
J. Carson of Hampton, and three sib-
lings—Edward, at home; William and
George, overseas doing their share in this
great struggle.

Will Reside in Halifax.
Gunner Andrew Craft and his bride,
formerly Miss Ethel May Noddin of St.
John, arrived in Halifax Tuesday and
will make their home there. Gunner
Craft is a returned war veteran and is
now stationed at McNab's Island.

Naval School Closes.
Kingston, June 28—The Royal Naval
School closed today for the summer vaca-
tion, and the cadets have left for their
homes. The staff of the school will move
to the new quarters at Esquimaux in a
week or so.

HARTIN ACQUITTED

The case of the King vs. Hartin was
concluded yesterday afternoon in St. John
at 1.30 p.m. After being out an hour
and a half the jury acquitted the pri-
soner.

Hartin was on trial for theft of wool.
Others charged with him had stood
trial and the jury has disagreed. It is
expected now that all held in connec-
tion with the thefts will be liberated. D.
Mullin, K. C., appeared for a very encourag-
ing report of the Sunday schools and
said that the work had increased con-
siderably during the year. Rev. W. B.
Wington, Rev. H. C. Arche and Rev. P.
J. Trafton gave their reports for the
committee of denominational standards
in Sunday schools. Three encouraging
reports were read from the committees
of Sabbath observance, Social Workers
and quarterly sessions.

New Provost Marshal.
Winnipeg, June 28—Captain A. C.
MacAulay, the man who was in charge
of the raid on the Novitiate in Guelph,
which has raised such a stormy con-
troversy is to be the new provost mar-
shal for M. D. No. 10. It is stated.

A large mastodon tooth has been un-
covered by excavators at Sharon, Ohio.

About Germs and Things, And City's Dental Work

Health Department Dentists in the Toronto Schools and Hospitals Performing Fine Service

(Toronto Star.) The Toronto Health Department's work in the public and separate schools would fall far short of efficiency were it not for the nineteen dentists who spend half their working day in the city's employ. The work to be done among the children is illustrated by the fact that in one city school whole rooms were found where not a single pupil had perfect teeth, the defects ranging from very small to very serious. At one of the open air schools, children were treated recently whose temporary teeth were so uprooted by the permanent ones that the roots were sticking into tongues and cheeks and tearing holes in them. Others are found with temporary teeth abscessed and pus running into the mouth. The physical welfare of a human being is contingent to a very considerable extent upon the digestion of food. The digestion of food, in turn, is facilitated by its proper mastication in the mouth. Mastication depends not only upon sound teeth, but upon teeth which are in the right position to chew efficiently. So if the child has unrotted teeth, or teeth which are thrown out of the proper position (to say nothing of abscessed teeth which send poison into the stomach with the food), stomach trouble is quite likely to follow and the youngster will get the minimum of nourishment from the maximum of food. Care of the temporary teeth, known familiarly as baby teeth, is almost as important as care of the permanent teeth which children acquire in their early school years, for if the temporary teeth are neglected, the permanent ones which follow them may prove crooked and defective.

WHAT SCHOOL DENTISTS ARE DOING IN TORONTO. Without going into the matter further, it will be apparent that the school dentists come into the life of Toronto children at a very important stage, namely, when the temporary teeth are being replaced by the permanent ones, and stay with them throughout the period in life when the temporary teeth are "getting their start." The dentists examine each child once a year, and during the past year they have performed a further service, namely, to give a thorough cleaning to each child's teeth with a portable dental outfit, where such was required, provided that the parents consented. Whether this service can be continued depends upon the department's funds, but it has proved of the utmost value, not only because of the initial benefit to the children, but because a child started off with an absolutely clean mouth is far more likely to pay daily attention to his teeth than one who is handicapped by teeth-stains which the ordinary brush and powder will not remove.

There are sixteen dentists in the public schools and two in the separate schools, under Dr. John A. Bothwell, supervisor of dental service. At the Ordre street school, teeth are extracted by two of these, and children requiring free extractions have to go to that school for them. The dental service includes Friday afternoon clinics for children under school age who are found in the homes visited by city nurses. Protestant and Catholic homes for boys and girls are also visited by the school dentists.

NUMBER WITH DEFECTIVE TEETH IS SURPRISING. When defective teeth are found in school children, the parents are told just what has been discovered, and are advised to see their own dentist about it. If the public health nurse reports that they are unable to afford a dentist, the work is done for them by the school dentists at one of sixteen school clinics. That the dentists are kept busy even aside from this work is indicated by the fact that, during the last quarter of 1917, they cleaned the teeth of 19,487 public school and 4,281 separate school children. They examined the teeth of 27,119 public school and 4,718 separate school children, and found the teeth of 20,067 public school and 4,251 separate school children defective. In other words, 74 per cent. of the public school and 89 per cent. of the separate school youngsters examined had something wrong with their teeth. The difference in percentage between public and separate schools is due to the fact that inspection in the separate schools is an innovation, while in the public schools, the older children's teeth have been regularly under inspection for some years. This difference is in itself a tribute to the necessity of the work.

CITY DENTISTS ALSO WORK IN HOSPITALS. The Health Department does not confine its work to the schools of the city.

Reroof with Brantford Asphalt Roofing

Don't let a leaky roof damage the wall paper, carpets or furniture in your home, the crops in your barn or the goods in your store. Tear off the old shingles or other worn out roofing material and put on a lasting roof of Brantford Asphalt Roofing. This roofing is made of a blend of hard and soft asphalts on a long-fibred felt base. By blending the asphalts a roofing of remarkable elasticity is secured—one that is flexible, durable and capable of resisting all kinds of severe climatic extremes. Brantford Asphalt Roofing is, in addition, surfaced with silica sand on both sides, which adds to its weight, fire-resistance and durability. You may be offered other sanded roofing, but it will not have the quality of material or weight of surface of Brantford Asphalt Roofing. Made in three weights—60 lb., 70 lb., 80 lb. per square. Brantford Rubber Roofing is the same quality as Brantford Asphalt, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandah decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square. Standard Mohawk Roofing consists of the same grade of materials as Brantford Asphalt Roofing but is lighter in weight—a thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction Sanded on one side. One weight—40 lb. per square. Mohawk Rubber Roofing The same quality as Standard Mohawk but with a smooth surface. Used for all classes of temporary work—beds, barns, houses, ramp sites, eavegutters in the trenches. 35 lb., 45 lb., and 55 lb. weights. Leatheroid Roofing Slightly lower quality than Mohawk Rubber. Used for same purposes. 35 lb., 45 lb., and 55 lb. weights. Samples of any of these roofings and prices will be furnished by either the makers or their agents in this locality.

Brantford Roofing Co., Limited Head Office and Factory, Brantford, Canada Branches at Toronto, Montreal, Halifax William Emerson, West St. John A. M. Rowan, Main street, St. John H. G. Enslow, Cor. Union & Brussels streets, St. John

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time. We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as Hay Fever or chronic Asthma, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with asthma, our method should relieve you promptly. We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. We want to show everyone at our own expense, that this new method is designed to end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time.

This free offer is too important to neglect a single day. Write today and begin the method at once. Send no money. Simply mail coupon below. It Today.

FREE ASTHMA COUPON. FRONTIER ASTHMA CO., Room 8785, Niagara and Hudson Sts., Buffalo, N. Y. Send free trial of your method to: _____

A staff of dentists under Dr. Bothwell hold clinics in various hospitals of Toronto. This staff is distinct from that at the schools, but since Dr. Secombe's resignation as head of the school dentists, Dr. Bothwell has had charge of both branches of the city's dental service. In the hospitals of the city a large number of patients are continually maintained at the city's expense, the cost being \$125 per day. It is to the city's financial interest that each patient should stay in hospital the minimum time required for complete recovery. That minimum time is often protracted if the patient has bad teeth which poison his system and retard his return to health. Hence the work of the dentists is an important one from even a business standpoint. They examine the mouths of all "city order" patients and do freely whatever dental work is required. At the General, Grace, St. Michael's, Western and Weston hospitals this service is available for both "in" and "out" patients, the latter including people who are referred to hospitals for dental service by the city nurses. For each of these visits the hospital charges the city thirty-two cents. In the Sick Children's Hospital, the dentists work with "in" patients only. The city dentists also visit the Industrial Refuge on Belmont street.

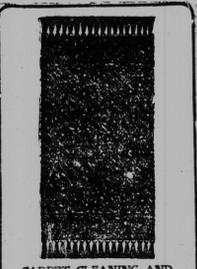

The armies of the allies have been taught the value of an up-to-date dental service by the work of the Canadian Dental Corps. The value of such work in the schools and hospitals of the city was realized long ago and people who once called it a "fad" have been led to see what it means for the present and future generations.

It's Easy Enough

to keep the liver right if you use Dr. Chase's Kidney-Liver Pills occasionally. The liver gets lazy at times and when it does digestion is interfered with and the kidneys fail to act. You soon know it when the liver is awakened by this treatment, for headache, biliousness and stomach troubles disappear and you feel fine. This is an easy prescription for health and happiness.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots. There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any drug store and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion. Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

A GOOD APPETITE A GREAT BLESSING

The Occasional Use of a Tonic will Ensure a Good Appetite and Good Health. Loss of appetite during the summer months is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people—especially women—go too long without food, or eat sparingly because food seems to distress them, and it is no wonder they complain of being constantly tired and unable to stand the hot weather. All this simply means that the digestive system is not doing its proper work and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words the blood is growing thin and watery. In such cases what is needed is a summer tonic, and among all medicines there is no tonic can equal Dr. Williams' Pink Pills. Take a short treatment with these pills and notice how promptly your appetite returns and your power to digest food improves. Your food will then do you good, your strength will return and you will no longer complain that the hot weather tires you out. Mrs. M. Kelly, Windsor, Ont., says: "I suffered from indigestion for several years, and although I was constantly taking doctor's prescriptions they did not cure me, and the result was that I was greatly run down, and as a soon found they were helping me I continued their use until I was fully cured, and am now able to properly digest any food I take. As a tonic and blood-builder I know of no medicine to equal Dr. Williams' Pink Pills, and I recommend them to all in need of a medicine."

CHURCH AND STATE

(Toronto Star.) Some time ago there was a tremendous uproar in Ontario because of a suspicion that Oliver Mowat had consulted Archbishop Lynch in regard to educational policy. At that time it was supposed to be a well-established principle that there should be no connection between Church and State; and if the Archbishop had been actually taken into the cabinet, the disturbance would probably have swollen to the dimensions of an insurrection. Public opinion was evidently undergoing a change, for there is little or no protest against the appointment of an Anglican clergyman as minister of education. There is, however, a protest against his holding at one and the same time the position of minister of education and that of a farmer or a lawyer may follow his regular occupation while acting as a minister of the crown. The answer is plausible but not satisfactory. It is probable that in the public mind there is something more than the objection to a minister being over-worked. The objection to the association between Church and State still lingers, though it may not be as strong as it was a generation ago; and this objection is emphasized by the holding of the two positions.

It was suggested in the U. S. Senate that death was a fitting penalty for those guilty of delaying the aircraft programme.

TALES TOLD TO CIVILIANS—THE FLY

(A. P. H., In Punch.) Have I been at the Front?—O Lor! Was I over the bog?—You bet, They tell me I won the moully star At the Battle of Nouville! The Bombs was terrible thick And the shells was mountain-high, And many a Bosch went back to Base, But I can't say much about what took place. For I had a fly in my eye. We were just getting up to Fritz When the horrible thing occurred, And hang in my eye the blighter sits, The size of a well-fed bird; "Come on," the Officer says; "I says to him 'By-and-by.'" It's all very well to say "Come on!" I would if my arms and legs were gone, But I've got a fly in my eye! Have you been on a bicycle, Sir, And copped it proper the same, And your eye like a red-hot flame, So that you wept great tears, So that you longed to die? Well think what it is when there happened to be a battle you specially came to see, And then get a fly in your eye. They say as there ain't no doubt, What I ought to have gone and done—Turned my upper lid inside out, And over the under one; But I tell you the bombs was thick, And never a man said "Hi!" Just monkey about with your upper lid!" So I blew my nose and I wept, I did, And I still had a fly in my eye. And then, Sir, I just went mad, I groped for my trusty type, And I laid about like a Tyneside lad With a good blind circular swipe; They tell me I killed ten Huns And laid out Corporal Fry; The Huns they took to their heels and fled, And even the Company wished me dead, And I still had a fly in my eye. I fell on my poor old face, I lay in a hole and swore; And now they call me a shell-shock case And tell me I won the War; They gave me the D. C. M., And that's why I seem so shy, But this is the truth I've told to you, And you never can tell what a man won't do With a darned great fly in his eye.

Headache Over the Eyes? Look For Nasal Catarrh

Catarrh Never Stops in One Place—It Spreads Rapidly—Often Retains Health Completely. In this changeable climate it is little colds that drift into Catarrh, unless the inflammation is checked, it passes rapidly from the throat to the bronchial tubes and then to the lungs. You can't make new lungs any more than you can make new fingers or toes, but you can cure Catarrh. The surest cure consists of breathing in the healing balsamic essences of CATARRHOZONE, which is simply a medicated vapor so full of rich curative properties that every trace of Catarrh vanishes before it. "The soothing piney vapor of Catarrhozone is the most powerful medicine I ever used," writes Mrs. Edmond J. Christie, of Saskatoon. "Every breath drawn through the inhaler sends a grateful feeling through the air passages of the nose and throat. Catarrhozone cured me of frightful headaches over the eyes, relieved me of a stuffy feeling in the nose, and an irritable hacking cough that had been the bane of my life for a year. My general health is greatly improved, my appetite and digestion are considerably better than before. Catarrhozone has been the means of giving me such health as I always desired, but never possessed. Catarrh has a firm hold on you, and affects your throat, nose or ears, you can thoroughly cure it with Catarrhozone. Large size, guaranteed, costs \$1.00; smaller size 50c; sample size 25c. All storekeepers and druggists, on The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada. ECZEMA Come in and we will tell you something about what D. D. D. Prescription, made in the D. D. D. Laboratories in Toronto, has accomplished in your own neighborhood. Your money back unless the first bottle relieves you. E. Clinton Brown. D. D. D. The Liquid Wash

National Day of Prayer Observed. 11 a.m.—Preaching subject: "Prayer." 2:30 p.m.—Sunday School. 7 p.m.—Preaching subject: "Christian's Part in the War."

Christian Science Society

141 Union Street. Sermon Sunday at 11 a.m. Subject: "Christian Science." Wednesday evening meeting at 8. Reading room open 3 to 5 p.m. every week-day, Saturdays and legal holidays excepted.

Tip For Germany.

Philadelphia Ledger:—Said former Ambassador J. W. Gerard the other day: "Mr. Lansing dared the Germans to make reprisals against our men if we do not give up von Rintelen. Von Rintelen abused our hospitality, blowing up ships and factories, and if they show any more of their frightfulness, there or here, we will fry German prisoners right here in Bryant Park."

AFFECTS N. B. AND MAINE

(Bangor Commercial.)

The draft treaty between Great Britain and the United States which provides for reciprocal conscription of each other's citizens, has been ratified by the United States senate without a dissenting vote. It is a far reaching action. Under this treaty, Americans who are residents of the British Isles and Canada and who are within the American draft ages are subject to military service unless within a period of sixty days they return to their own country and report for military service. Similarly Canadian and British residents of this country who are between the British draft age of twenty and forty-four, will be subject to American conscription unless they return to their own countries within sixty days.

The natives of sections of the British empire that are not under compulsory military service as Ireland and Australia, are exempt from the workings of this act, but the provision is made that they shall become liable to the workings of the act if Great Britain later extends the draft to those parts in which they hold a residence. The treaty actually provides for military conscription abroad for American residents of the British Empire but an exemption clause prevents its application to those Americans who are between the British draft age of twenty and forty-four, as President Wilson will issue a general certificate of exemption to cover such cases.

The effect of this treaty will be considerable in Maine which has a large number of Canadian residents of the draft age and will be felt especially in the mill towns and cities and in the woods. Eastport, June 26.—Another delegation of Canadian subjects who have been living in this city for many years without taking out their naturalization papers, went to Machias, Monday, to make application for citizenship. Although the registration now going on in Canada does not affect those who have gained a resid-

BABCOCK'S CORYLOPSIS TALC FOR dainty, velvety skins—a talc powder of surpassing smoothness and lightness. With the elusive distinctive scent of Babcock's Corylopsis, a fragrance enchantingly Oriental—a Babcock inspiration. Price 25¢. Made by A. P. BABCOCK COMPANY NEW YORK TORONTO

ence in the states, still those who have lived on this side of the line for many years and gained a residence deem it advisable to apply for citizenship papers so as to be able to enter the service of this country should it become necessary. FISH OIL FUEL. According to the Politiken of Copenhagen, experiments have been made with motors for fishing boats to determine the practicability of using fish oils for operating motors. It is said that this has proven a success, and that it may be possible for the fishermen who now have boats equipped with kerosene motors to make some slight changes which will enable them to operate with fish oil. It is then proposed that the fishermen may make their own cod-liver oil while on the sea for use in their motors. Experts who have studied the question claim that there is no reason why fish oil cannot be used in the present explosive motors, although it may be that certain changes have to be effected in them. However, in the case of Diesel motors there should be absolutely no trouble. A model ship workers' town of 897 houses, averaging \$8,000 apiece is being built by the Emergency Fleet Corporation at Camden, N. J.

The Monthly Cheque That Never Fails. Suppose you were totally and permanently disabled, through accident or illness. What Could You Do? Is it not worth while to set aside only a small amount yearly in order to make sure of a monthly income that would never cease while you live, and which would be paid at a time when you might be helpless without it? The Special Indemnity. This policy, issued by the Canada Life, will pay you \$50.00 a Month or more during your lifetime, if before you reach age 60 you should become totally and permanently disabled by disease or accident, and Five Thousand Dollars or more to your family at your death, without any deduction whatever on account of the monthly payments made to you. Profits will be paid in addition. Premiums are waived when you become totally disabled, but the policy continues in force earning dividends and increasing in cash value. A Popular Plan. Since the Canada Life issued this new policy, a very large proportion of insurers have applied for this double form of protection. It is worth investigating. Think what it may mean to you to be certain of an income right up to the end of life, while unable to earn a living. Ask for Particulars. Canada Life Assurance Company, Toronto. Dear Sir:—Without obligation on my part, please send me particulars of your new Special Indemnity Policy. Name Address Born Day of 19

**NO EXTRA GRAIN
FOR CIVILIANS**

What the Admission of Gen Von Ludendorff Reveals—All Stocks Seized

Amsterdam, June 28.—General von Ludendorff's decision to lend Austria 5,000 tons of grain out of the food resources of the German army reveals significantly the fact that there are no grain reserves whatever for the civilian population of Germany.

This action, coupled with the demand for a speedy repayment of the loan, strengthens the recent admissions by conservative members in the Prussian parliament of the unsatisfactory outlook of Germany's food supply.

Dr. Hoersch said: "We have been unable, so far, to obtain the absolute security of the nation's food supply. We have a steady falling off of production. Things cannot continue as heretofore. For supplies we must look to Russia, and particularly to the Ukraine. Unfortunately Greater Russia is a sharp competitor with us for the food of the Ukraine, and the possibility of obtaining further supplies from Roumania is slender."

The speaker aired the fact that much bad blood has resulted among the German peasantry from the ruthless military confiscation of the last remnants of flour, grain and seed. The peasants and farmers in many cases have been subjected to the indignity of regular military occupation by German troops.

Situation in the Ukraine.
Regarding the situation in the Ukraine, the Cologne Gazette learns from official sources, that "law and order now are quite good in Kiev, though the surroundings are still insecure. The Austrians' present flour shortage is due to the disappointment caused by Bessarabia. There are still great food supplies in the Ukraine, but the peasants refuse to sell because they have money to burn."

"Moreover, organization for getting Ukrainian grain takes time to create. The regulation of the ground question is under way, the crop outlook is not bad. Our military are beloved in the Ukraine, even by the common man."

An official source finds it necessary to add that the relations between the military and political leadership in the Ukraine are good.

Austria's appeal for food to von Ludendorff has revealed that general not only as the virtual military and political

dictator of Germany, but as the economic and food dictator as well. Von Ludendorff today has the last word in the disposition of Germany's food as he has of her human material and other resources.

Austria's inner political crisis appears to be on the eve of a temporary solution. The Polish Club and the German-Austrian party are negotiating for a compromise, and even the Austrian social democracy is falling in line with this action to save the parliament and prevent a ministerial crisis.

Desire to Keep Prisoners.
Importance is attached to the arrival of the first freight train from Russia to Germany with forty-three carloads of "prisoners" for Russian prisoners in Germany. Germany, incidentally, is doing everything possible to hold Russian prisoners, without whose agricultural labor a food catastrophe will be certain. Many Russian prisoners are by no

S.O.S. Soldiers of the Soil

Your S.O.S. Boy goes to do a Man's Work

Give Him a Man's Razor!

His keenness to serve as a "Soldier of the Soil" is not the only sign that your boy is approaching manhood. Look at his chin and that "stiff" upper lip! He would have needed a razor even if he had stayed at home this summer—and in the vigorous outdoor life he's going to, he'll need it even more.

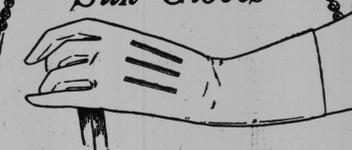

Give him a **GILLETTE SAFETY RAZOR**—the one the older soldiers Overseas prefer, and millions of men at home are using every morning.

He'll have no trouble in the world learning to shave with the Gillette, for at once he'll get the simple knack of the light grip and the angle stroke, and handle it safely—like a veteran. That, you may be sure, will mean much to his pride when he goes to live with strangers.

For a send-off worth while, then, give him—or send him—a Gillette Set. They cost \$5.00—and there's plenty of choice in styles at any good drug, jewelry or hardware store.

ACTOR MARRIES WEALTHY WIDOW

Orin Johnson's Bride Was Left \$20,000,000 by Her First Husband

New York, June 28.—Mrs. Isabel B. Smith, widow of Charles Robinson Smith of Neenah, Wis., and this city, and Orin Johnson, the actor, were married, at the home of the bride, 270 Park avenue here this week by Rev. H. M. Warren in the presence of about fifty relatives and friends.

Mrs. Smith's first husband died at their home in this city, 260 West Seventy-second street, in May, 1916. He was a classmate of President Wilson's at Princeton, and was one of the wealthiest men in Wisconsin. He was a banker and timber man, and his estate at the time of his death was estimated at more than \$20,000,000. He left two sons and a daughter by a former marriage.

Mr. Johnson was born in Louisville, Ky., and made his earliest appearance in New York at the People's Theatre, in 1890, as Jack Rogers, in "The Governor." He has been a prominent leading man for many years. He first appeared as a star in 1903, as the Marquis de Roulerie in "Hearts Courageous."

He was identified in leading parts in the play, in which he appeared were "Squire Kate," "A Bachelor's Romance," "Mice and Men," "Miss Hobbs," "A Royal Family," "The Road to Maryland." In recent years he appeared in "The Commuters," "Father Jerome," and in "Speed," and was also in stock for a season at Low Angeles.

Quebec Shipbuilding & Repair Company yesterday was christened by Mrs. Daniel McLaughlin of St. John, N. B., wife of the superintendent of the yards.

The residence of L. N. Schofield near Norton was destroyed by fire this week. The disappearance of John McCann of Grand Falls last December has been partially cleared up by the identification of the clothes on a body found in the river as his.

General Manager Hayes, Division Superintendent Devonish, Chief Engineer C. B. Brown and other C. G. R. officials have completed an inspection tour of Elgin & Havelock Railway.

TROUBLED WITH CONSTIPATION

From 16 to 20

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after until some serious complication sets in.

If the bowels are properly looked after there will be no constipation, jaundiced sick or bilious headaches, heartburn, coated tongue, sour stomach, floating specks before the eyes, etc.

Milburn's Laxa-Liver Pills will keep your bowels so regulated that in no time the constipation will disappear entirely.

Miss Emma E. Melanson, Halifax, N. S., writes: "I am now 20 years of age, and since I was 16 I have been greatly troubled with constipation, so much so that at times I would be in bed 3 or 4 days a month. I tried all the old-fashioned remedies, castor oil, etc., with only temporary relief until my sister-in-law gave me some of Milburn's Laxa-Liver Pills. From the first they seemed beneficial and I gave them a fair trial. This was two years ago, and with an occasional dose I have kept entirely free from constipation for the period mentioned."

Milburn's Laxa-Liver Pills are 25c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

There once was a Hun called Attila Whose instincts were like a gorilla. He destroyed and he slew, But, between me and you, The Kaiser is worse than Attila.

—Seattle Post-Intelligencer.

ANOTHER BANG-UP NEW OPERA HOUSE BILL

Excellent Variety in the Acts And The Performers Get Great Applause

Patrons of the Opera House last evening enjoyed a programme that has not been surpassed for jollity and variety and general good entertainment and this even without the feature novelty act, "The Brightons." They have a rag picking specialty, something very new, but they were not able to perform as the trunk containing their apparatus went astray. All will be well, however, for today's performances with the programme complete.

The entertainment opens with a very stirring chapter of "The Lion's Claws," showing Marie Walcamp in a series of remarkable jungle adventures and with a heart-racking conclusion to the episode.

Wilbur and Lyke, man and girl, offer a decidedly good act. An outstanding feature is a very clever "little girl" impersonation. Trampolines concludes the set and it is really good and carried vigorous applause.

Fertig and Dunn follow in chatty dialogue, singing and very taking character work, including Chinese and Italian characterizations. Their song numbers were much enjoyed and they won hearty recognition out front.

W. E. Brown had the stage to himself but he needed no aid in entertaining his audience. He is an excellent story teller and has the dialects well at his command. His singing is marked by the dramatic effect and in a patriotic recitation he was very fine. He had to respond to two encores.

Martin and Courtney in "Bits of Travesty" present a unique bit of comicality and light entertainment. The material is particularly good comical, with a wealth of humor in facial expression and

voice tricks as well as general action. He has excellent support from his girl partner and their fifteen minutes on the stage made a happy time. Opera House patrons will find the new programme fully sustaining the high standard of other weeks.

One life was lost, twenty were injured, and half a million dollars' worth of damage done by the explosion of an ammonia tank in the Merchants Refrigerating plant, New York.

A. H. Smith, who has resigned the presidency of the Y. Y. C. R. R. to take charge of eastern U. S. railroads under McAdoo, is succeeded by W. K. Vanderbilt, Jr.

No matter how fussy you are about your Smokes—the Pippin will satisfy you.

LOCAL NEWS

NO TIMES MONDAY
The Times will not be published on next Monday, Dominion Day.

BIRTHS AND MARRIAGES
The birth of thirty-three infants, twenty-one males and twelve females, and twenty-one marriages were reported to the registrar of vital statistics this week.

GOVERNMENT EXAMINATIONS
Next Tuesday in this city School Inspector William McLean will commence the government examinations for matriculation into the University of New Brunswick, advance in teachers' classification and for entrance into Normal School. Mr. McLean will have the assistance of several supervisors. It is expected there will be quite a large class in the aggregate. The usual number of withdrawals from teaching staffs throughout New Brunswick, due to the war, have not been taken into consideration, and the Normal School entrance examinations are naturally of much concern to the educational authorities.

THE REGISTRAR MUST HAVE THE INFORMATION

Law Will Be Invoked If He Is Not Notified of Births and Deaths

Neglect to register vital statistics is likely to cost the negligent person real money in the future. John B. Jones, local registrar of vital statistics, has been notified that, under the registration act, he is required to make prompt returns of births and deaths each month. A penalty is fixed for non-compliance and in order to protect himself, the registrar will have to see that the law regarding the registration of the statistics is observed, even if it is necessary to invoke the aid of the law in order to accomplish this.

The duty rests upon the parents of newly born infants to report the birth to the registrar immediately. In cases of death, the obligation rests upon those attending the person in their last illness. The physicians and undertakers are familiar with the law and usually observe it, but there is more difficulty with parents, especially in the case of the first addition to the family, as this requirement frequently is overlooked. R. W. L. Tibbets, deputy registrar general, in a communication to the Canada Registration Board, calling his attention to section 86 of the registration act, which reads as follows: "It shall be the duty of every provincial registrar of births and deaths to return, certified under his hand and seal, to the central registrar a statement of return, certified under his hand and seal, of every person of fifteen years of age or upwards whose death is registered or notified to him during the month last preceding; moreover every such provincial registrar shall, at the same time make separate return to the central registrar, certified in like manner, of the number of deaths of persons under the age of sixteen years and of the number of births registered or notified to him during the month last preceding; and the information so communicated to the central registrar shall be recorded and made available by him in such manner as may be directed by instructions of the board."

THEIR GOLDEN WEDDING

Mr. and Mrs. Francis McCafferty Married 50 Years Ago Today

Mr. and Mrs. Francis McCafferty are today receiving congratulations on the fiftieth anniversary of their wedding. On June 29, 1868, they were married by the late Rev. William Foley in the Cathedral of the Immaculate Conception. The bride of that day was Miss Teresa M. Cline, daughter of the late Elliot and Mrs. Richard Cline. Miss Ellen McCafferty, now Mrs. John Murphy of West St. John, was bridesmaid and the late Thomas O. Mullaly, also of Carleton, was groomsmen. Mr. and Mrs. McCafferty have lived all their lives in St. John. Of eleven children born nine are living, but only four now here—Frank L. of The Times newspaper; George T., of Johnston's Hotel; Leck Lonnard; Pamela B., editor of the New Freeman, and Gertrude H., of The Telegraph and Times. Edith is matron of the Canadian Officers' Convalescent Hospital, Mallock Bath, England; Stella is the wife of Dr. Forster Smith, Lowell; Clara is Mrs. Wm. G. Burill of Bangor; Gerald in Boston and Herbert G. is a major in the American army at Camp Dix, New Jersey. Mr. McCafferty in his younger days was prominent in business in the dry goods house of McCafferty & Daily, King street; also in dramatic circles, in Irish societies and in politics in the Liberal party, and has enjoyed a large measure of popular esteem. The happy anniversary is being quietly observed with the members of the family who are at home.

ONE SESSION PLAN ACCOMPLISHED MUCH

Banked fires in the afternoon saved the public schools 190 tons of coal and the school trustees \$7,000 in the estimates placed upon the one-session plan of conservation by Dr. H. S. Briggs, superintendent of schools, in discussing the outstanding features of the term concluded yesterday. The really essential side of the argument, however, was not the saving in cash and fuel to the school but the release of that much coal for other needy cases and the continuance of school studies. If such steps had not been taken, Dr. Briggs feels certain the whole city educational equipment would have been closed down for a considerable period. The remarkably fine showing in promotions, health, grading mark averages and general efficiency which characterized the term's totals seemed to indicate that the coal-saving plan carried out was the best possible in meeting a national difficulty and yet keeping everything going. The school superintendent is naturally highly pleased with the school record of the term just ended and especially because the fuel menace was effectively evaded.

ST. JOHN MAN ON FIVE BOATS SUNK BY SUBS

Now He Wants To Fight, And He Will, Too

WITH THE 26TH AT VIMY

Charles Richards Invalided Home, Used Six Steamers to Cross the Ocean—Then Enlisted Again

It took six ships to bring Charles Richards of this city from London to New York. And five of them were sunk by submarines. But, undaunted, Richards is going to brave the return voyage at once, in order to have another go at the buns.

Walking into the offices of the British and Canadian Recruiting Mission, 250 West Forty-second street, New York, Richards enlisted in the Royal Engineers, and then told his story. It is related in the New York Globe as follows: When the great war began, Richards, thirty-six years old and a native of St. John, N. B., enlisted in the Twenty-sixth New Brunswick Battalion and went across to France. After participating in various engagements he was severely wounded at Vimy Ridge, and when able to leave the base hospital was sent to London to recuperate. Finally, in the last stages of recuperation, he was put aboard a big transport which formerly had been a passenger steamer and bound for Canada.

How it started. "About two days out from England," said Richards, "we were attacked just after dusk. The submarine wasn't the kind that ship's crew could get a shot at once in a while, but was one of this big, newfangled kind. It lay about eight miles off and bagged away with its big guns.

"Well, the first shot of the Hun was a hit, and we took to the boats. The ship went down at once. We drifted around, not very long, and up came a following steamer that picked us up.

"Hardly had we been shifted around in the new ship when she, too, fell victim to a submarine. It was just four hours after we had been picked out of the water that we had to take to the boats again.

"Three more times this was repeated in the next eight days. That made five ships sunk under us. It wasn't stretching to say that we lay about eight days on the water, but it was a long time. The subs didn't give us a chance. They never got close enough to scarp with, but they lay about eight days on the water, and the ship broke the charcoal out came through with us even seeing a sub."

Now He Wants to Fight

It was ten o'clock on the night of the eighth day out from England that Richards and his fellow shipmates met the rescue ship that was to bring them to shore at last. She was a small tramp cargo ship, making for a New England port. What with heavy weather and slow speed, her progress was slow. But she sailed safely through the new danger zone of the American coast and into port at last.

Richards, however, felt that his restful sea journey had fully restored him to health. Old friends at home would have to put off seeing him for another spell. He had other things to do. As soon as he set foot ashore he enlisted for New York, arriving today, made straight for the British recruiting station.

"Get me across in a hurry," he said to Sergeant McNeil. "The devil won't come close to you at sea, so you can't get a crack at 'em, so I want to face them on land."

FIRST MONTH OF AMUSEMENT TAX

Considerable Revenue Results—Theatrical Event in St. John Netted \$226

With the closing of June the returns of the first month of the new amusement tax on New Brunswick theatre patrons goes on record. It appears the measure has been fairly successful and that considerable revenue has accrued to the provincial treasury. While amusements generally throughout New Brunswick are at an unprecedented low ebb, due chiefly to the daylight saving plan and the stringencies of war-time, it is felt the tax on theatre-goers will yield more generally in the fall and winter.

In the small towns and rural districts, where attendance is always small, the government naturally does not get much money, but in St. John, Moncton, Fredericton, St. Stephen, Woodstock, Campbellton and other places the returns will aggregate a substantial sum. Perhaps the most notable instance of quick and large returns was the recent visit of a large travelling company to this city when the amusement tax on performances. The scale in this case ranged from two cents to twenty on each ticket. If St. John were more of a vaudeville town or had a stock company theatre, the ticket tax would reach a much larger total each week. Inspector H. Anderson is already fairly busy man, fitting about among the theatres, seeing that the provisions of the new regulations are being faithfully carried out. He is also kept active supervising theatres with rush orders of tax tickets on short notice.

GOING TOO FAR

For many years it has been the habit of children to resort to the Pettibill wharf on the arrival of a cargo of molasses and gather into vessels of all kinds the sticky sweetness as it worked out of the puncheons. This was not looked upon as stealing. But of late, becoming emboldened by impunity, the little ones have acquired a habit in some cases of filling eight quart milk cans to carry home. This is serious and renders the children liable to arrest.

Men's Blue Suits \$25.00

Our wonderful business at twenty-five dollars proves that this is a low, as well as a popular price for such excellent quality, tailoring, and styles. At this price our "Men's Shop" can now show you a beautiful Fine English Blue Tweed Serge of sufficient weight to give excellent wear, made up in two different styles.

Three-Button, single-breasted, conservative styles, with notch lapel and centre vent. Sizes 36 to 46.

Two-Button Young Men's Belter style with long soft roll lapel. Sizes 34 to 39.
