WILL FIGHT FOR THE RIGHTS OF THE PORT

Ignition Over The Steamer Matter Growing

CHANGE UNWARRANTED

Sound Reason Why This City as Cut Off—Big Rally on Monday Night For St. John, regardless of Political Affiliations

Determination of the citizens of a secure fair treatment in the of the sailings of the mail steamers to be increasing in strength day to day. The principal topic discussion around the city is the sent which this city has received here are very few who attempt to excuses for the change in the sailings.

far not a sound reason why the e should have been made has been ed, while there are reasons galore t it. Nobody believes, A. R. might as made the terms of the mail ers as the result of a comparison merits of the two ports. There any good reasons why St. John be the terminus if the matter decided upon business principles. argument has been advanced that zainers will not have to pay adl freight on much of their cargo, y will be able to fill up with cargo ing in Nova Scotia, but this is pposed to all past experience. It ain that the steamers cannot find charges in Nova Scotia without ng them past St. John without nal charges for the extra freight he I. C. R. is carrying the traf- ing. It is said that when one steamers attempted to cross a last winter without sufficient for stiffening and ballast that she o near getting into trouble in a that the experiment is not likely as been suggested that the C. P. ship of the St. John for transfer it possible for them to carry to Halifax without great ex- pense but the cost of hand- e freight at St. John for transfer e car to the bay steamer and the steamer to the cars again at would be as much as the freight from here to Halifax as the fact t the steamers are to secure the s at Halifax somebody will have the freight and there seems to be eter position to discuss this money the business could be done much at St. John.

though there are a few apostata arrangements they are hard put to find a reason for the faith that other than their belief that vernment is responsible for it and vernment can do no wrong. The liberal minded men of both parties reed on the necessity of fighting raiment and it is expected that ill be another occasion on which lines will be forgotten in the fight John's rights.

or Frink is gathering data e plans of the Grand Trunk for St. John and other s relating to the arrange- for their terminals here. When ork is completed the city will eter position to discuss this money the management of the trans- tial. With the promise of a of a West India service, and the ned loss of the mail boats the overnment is preparing to put up ouldly hard fight for the G. T. nals and they are anxious that e should be left undone that nake it easier for the railway to access to this port and to find al facilities ready for them as u they are ready to supply the

or Frink had intended to take ter up with the other city oners this morning but he was cal- of the city yesterday and did not untill noon when it was too late al with such an important sub- re should be a great rally at the of trade rooms on Monday night.

NOW WITH JURY he circuit court today the case of va. Burgess was sent to the jury.

iz and Pherdinand WEATHER BULLETIN

Issued by authorment of Marine and Fisheries, H. F. Stur- part, director of meteorological service.

opis—The disturbance which was in middle Atlantic coast yesterday ving slowly eastward, south of Scotia, while that in the west is entered in Nebraska. The weather last day has been fine in all parts e dominion except the maritime es, where rain has been general. Fair for Sunday.

time—Strong northeast and north with occasional rain; Sunday, with occasional rain; Friday, north and northwest winds, fair.

JOE JACKSON IS THIRD MAN NOW

Cobb and Hendrickson Lead Him in Race For Baseball Honors

(Canadian Press)

Chicago, Ill., Oct. 4.—Joe Jackson dropped to third place among American league batters this week. Cobb still leads, but the Cleveland slugger must have found the pace too swift, for Olaf Hendrickson of Boston, back in the game once more, crowded into second place, close on the heels of the Detroit man. The unofficial averages are:—Cobb, .391; Hendrickson, .385; Jackson, .367. Speaker of Boston, is in fourth place with .364.

The rest of the men hitting .300 or better are:—Collins, Philadelphia, .340; Baker, Philadelphia, .339; Gilboe, New York, .337; Lajoie, Cleveland, .335; Melnis, Philadelphia, .331; Gandil, Washington, .329; D. Murphy, Philadelphia, .315; Lelievre, Cleveland, .314; Crawford, Detroit, .314; Bauman, Detroit, .303; Stovall, St. Louis, .303.

Milan, of Washington, and Moeller, of Washington, are still one-two among the base stealers, the former with sixty-eight, and the latter with fifty-nine.

Walter Johnson tops the pitchers in games won and lost. The first five rank: Player. Place Won. Lost. P.C. Johnson, Wash. .... 36 7 .837 Walsh, Chicago .... 8 3 .737 Henick, Wash. .... 18 7 .722 Wood, Boston .... 12 5 .707 Bender, Phila. .... 21 9 .700

Indianapolis, Ind., Oct. 4.—The Indianapolis American Association baseball club was sold here last night by Sol Meyer, owner, to James C. McGill, George A. Wahlgreen, and Jack Hendricks of Denver. The purchase price, said to be \$165,000, is believed to be the largest ever paid for a minor league organization.

SING NO ONCE MORE FOR THE GALLANT SLOOP

Compliments Anew For The Eilhu Burritt and Her Disputatious Crew

Right down at the foot of King street, tied quite unnecessarily by a hawser to the dock, lies the bonnie sloop Eilhu Burritt. At high tide the sloop Burritt is visible only by masts; at low tide it keels gracefully over as far as the hawser will allow.

There is a story connected with the Eilhu. Several people could tell you if you asked them. There was a Magistrate Ritchie knows the details perfectly well. He do attorneys Ritchie and H. J. Smith, and so do Captain Gillespie, master of the Eilhu, and Herman Funck, first officer, and Hans Olsen, able seaman and chef to Commander Gillespie.

It happened this way. About a week ago Captain Gillespie had his first mate and his chief arrested. There was very cogent reason for this action of the gallant captain, Hans and Herman constituting the sole and sufficient crew to commit suicide by going to sea in the Eilhu Burritt.

Hans and Herman turned up in court, and testified that they had left the sloop under pressure, as they might say, to desert with an axe. Questioned as to the exact reason for their not going back to the sloop, they testified that, as they devoutly hoped to live quite a long while yet, they did not see why they should be forced to commit suicide by going to sea in the Eilhu Burritt.

"She's seaworthy as a log!" indignantly expositulate the captain. "Seaworthy nothing!" retorted Funck and Olsen. "Why, she's got a hole under her bottom as big as your head!" The question was put up to the court and it was discovered that, in order to condemn the sloop it would be necessary to remove the deck-load of lumber. This Captain Gillespie positively refuses to do. Also, Magistrate Ritchie says that he has no authority to have the lumber removed, and the port authorities say they'll be dud-blanked if they go to work and take the wood away.

In desperation the people to whom the lumber is consigned were appealed to, but their answer was that until they got good and ready the lumber would stay where it was.

So the situation rests. Herman and Hans are wavering between jail and liberty, according to whether there actually is a hole in the Eilhu Burritt's anatomy. Captain Gillespie is desperately endeavoring to prevent the port authorities taking away his means of livelihood. Mr. Ed. Ritchie and Mr. Smith, the lawyers in the case, are pulling strings different ways; and the court necessarily is in a state of fine perplexity.

Australia Gets an Expert London, Oct. 4.—Sir Maurice Fitzmaurice, an eminent engineer, who supervised several big Canadian undertakings, has been invited to proceed to Australia to advise the commonwealth government on the establishment of a chain of naval bases.

POLICE COURT A boy, charged with the theft of \$6, was remanded until Monday in police court this morning. James Davis, charged with vagrancy, was remanded, and two prisoners for drunkenness were disposed of in the usual way.

ROOSEVELT OFF TO SOUTH AMERICA

Spend Six Months, Much Of Time In Interior

FAREWELL POLITICAL SPEECH

Denies Reported Return to Republican Party — Canadian Apples Will Cost Him 20 Cents Each at Buenos Ayres

(Canadian Press)

New York, Oct. 4.—Theodore Roosevelt set out today for the second time since he left the White House, upon a long journey into the Southern Hemisphere.

The sailing of the Lamport and Holt line steamship Vanduyck, upon which he had booked passage for South America, was timed for one o'clock, but the former president and members of his party were astir early with final preparations for embarking, and many of the Progressive party leaders, who tendered him a great farewell dinner on top of the White House, were still on hand at the dock in Brooklyn.

Like his South African trip, the South American journey is undertaken with the colonel proposing to make it one of many aspects aside from the pleasure of it. His chief interest probably lies in the proposed penetration of the interior of Brazil, with a party of fellow naturalists, under auspices of the American Museum of Natural History but the earlier part of the six months which he will spend in South America will be devoted to addresses upon American democracy, which he has been invited to deliver before universities and other bodies.

A trip into Patagonia to visit an out-of-the-way mission, and two crossings of the continent, to Santiago de Chile and back to Buenos Ayres, will be other features of his journey.

Those who prepared to embark with him today were Mrs. Roosevelt and Miss Margaret Roosevelt, who will make the round trip on the Vanduyck, and Charles Alaska, a Polar explorer, who has charge of the equipment; G. K. Cherry and Leo L. Miller, naturalists, and Frank Harper, Colonel Roosevelt's secretary.

Addressing some 2,000 men and women who gathered in his honor at the New York roof garden last night, the colonel made a speech, in which he apparently sought to put a quietus on published reports that he intends to return to the Republican party.

"I warn our opponents that the fight has only just begun," he said. "I will continue to fight for the principles to which our Progressives have pledged ourselves. The wildest enthusiasm greeted his assertion. The steamer Vanduyck carries 30 tons of choice Canadian and New England apples to be sold in Buenos Ayres. Although the colonel could buy the same apples at Broadway fruit stands at five cents each, or less, he will find that the apples will cost him twenty cents in the Argentine capital, where select North American apples are highly valued. The apple shipment is carried in the same compartment from which the first shipment of Argentine beef to this country was unloaded here recently.

GOVERNMENT MEETING ON FRIDAY EVENING

Fredericton Wedding With Honey-moon Trip to Europe

Fredericton, N. B., Oct. 4.—The local government will meet here on Friday evening.

The wedding of Robert H. Maccaun and Miss Louise Edgecombe, daughter of Fred B. Edgecombe, was solemnized on Wednesday next. The honeymoon will be spent in the old country.

The annual banquet of the men of St. Paul's church was held last evening and passed off very successfully. A feature was an illustrated address on Palestine by Rev. J. McP. Scott of Toronto.

GOOD TIME MADE IN BROCKTON MARATHON

Boston, Oct. 4.—Joseph M. Lordan, of St. Mary's G. A., of Cambridge, won the Brockton Marathon race yesterday. His time was 2h. 36m. 30s. He took the lead about two miles from the finish, having been well up all the way over the course.

After disposing of Cliff Horn, who had been in the van, he won as he pleased over Tom Lilly of the North Dorchester A. C., who was second and nearly half a mile behind.

Lilly's time was 2h. 36m. 53 3/8s. Horn, third, 2h. 41m. 28s. Weiss, of Germantown Boys' Club, Philadelphia, 2h. 44m. 7 1/2s. Brown, of Chelsea, 2h. 45m. 46 1/2s. Clark, of Chelsea, was sixth, and Peabody, of Lynn, seventh.

POLICE REPORTS C. E. Harrison, of Cedar street, found a carriage robe in City road this morning. It awaits an owner at North End police station.

Between nine and ten o'clock last evening the police were summoned to extinguish a bonfire in Prospect street.

THE LAURENTIC Dominion White Star liner Laurentic was reported 130 miles west of Intra-hull at nine o'clock last evening.

BANKER SCHIFF PHOTOGRAPHED ON WITNESS STAND IN SULZER CASE

Jacob H. Schiff, New York banker, testifying in Sulzer Impachment trial.

"I gave Governor Sulzer my check for \$2,500 with the understanding that he was to do with it as he liked," said Banker Schiff on the witness stand, adding, "Afterwards he offered to return the check if I would take it."

Montreal Foresters Fight It Lodges Unite In Action to Combat Recent Decree of Supreme Court — A Moncton Meeting

Montreal, Oct. 4.—At a meeting of representatives of various lodges of the Independent Order of Foresters it was decided to take immediate action to combat, if possible, the recent important decree of the supreme court. A committee consisting of Messrs. Biloiseau, Harry Upton and Henry Hurst was appointed and empowered to take counsel's opinion regarding the legality to place a lien on the policies of those members who had joined previous to 1899 and to charge compound interest at the rate of 4 per cent. per annum on the unpaid balance.

The meeting enthusiastically endorsed the view of Chairman Gagnon that the first action in the matter ought to be to test the legality of the decision, and the representatives of all the courts present decided to test the case in take courts. Following is a formal motion which was unanimously adopted: "That Bros. Upton, Hurst and Biloiseau be authorized to get legal advice with regard to the ruling of the supreme convention of last August re reducing policies and charging compound interest on said reduction."

Among the lodges represented at the meeting were: Balmoral, Fortune, Carnival, Prince Arthur, Lachine, Penet, St. Hubert, Victoria, C. P. R., St. Etien, Champlain, Notre Dame, Carillon, Morin, St. Louis, Cote des Neiges, St. Andre, Clarendon, Fulham, St. Roche, Dolard, Mount Royal, Cheliffin, St. Brigid, Sault au Recollet, Cieliste, Outremont, Montclair, Montreal and Cote St. Paul.

The meeting dispersed after the committee had been instructed to call a French and an English lawyer into consultation in the matter.

SIX SOCIALIST PASTORS FORCED OUT OF AUSTRALIAN NAVY

London, Eng., Oct. 4.—Captain Hughes Onslow, of the Royal Navy, whom the admiralty last year lent to the Australian naval authorities, has been suddenly relieved of his duties. It is an open secret that there has been considerable friction for some time between the British officers and the Australian naval board, owing to the manner in which the latter have interfered with the former in the discharge of their duties according to the prescribed customs of the British naval service.

The president of the board is Senator Pearce, minister of defence.

EIGHT DAYS A PRISONER IN MINE; TOSHERKY IS FREED

(Canadian Press) Centralia, Pa., Oct. 4.—Thomas Tosherky, a miner, was rescued from the Continental mine at 7:25 o'clock this morning, after being entombed for eight days.

Tosherky walked into the open air a free and comparatively well man at twenty-two minutes before eight o'clock this morning. He was taken to his home in Centralia, three miles away from his underground prison and at once put to bed, apparently none the worse for his remarkable experience.

It was 7:15 o'clock when the last bar of coal was driven away and Tosherky crawled through the opening from his prison chamber into the tunnel, which had been steadily driven toward him by eager, willing rescuers. Seven minutes later, the first intimation was given to the outside world, that the big task was completed, and the prisoner was free. This was when a miner crawled to the mouth of the tunnel and called to the top of the pit for blankets and hot water to be sent down.

Tosherky walked with astonishing agility, considering his experience. The most noticeable thing about him was a pallor which showed through the grime on his face, contrasting strangely with the other black faced miners, whose rudely dust showed even through the coat of color.

Tosherky climbed the path to the rim of the pit, almost unaided. A stretcher had been taken to the foot, and there were plenty of willing hands to carry him, but he would have none of it. His whole attitude from the time of the rescue, until he disappeared beneath the blankets in his own bed at home was one of semi-stolidity. Tosherky was glad to get out of his prison, but he acted as if it were an old story to him, and nothing over which to make a great fuss. Once before in his career as a miner, he had been entombed for nearly forty-eight hours.

BUSY DAYS FOR THE CUSTOMS MEN

RECORD FIELD FOR THE 'CYCLE RACE HERE ON NEXT WEDNESDAY

Eight Already Entered and Oulton Expected—Seven to Try in Ten Mile Road Race

The pick of the maritime provinces will compete in the twenty mile bicycle race and the ten mile road race under the auspices of the St. John Lodge of Moose on next Wednesday afternoon. Oulton of Amherst has not yet sent in his entry for the bicycle race, but it is confidently expected he will do so. The other competitors in this race will be: Winchester of Charlottetown, who is the present holder of the cup; Cochrane of Bloomfield, who has been a keen contestant in previous races for the big trophy; Gallet of St. John, who made a good showing in this race three years ago, and the following new men: Walsh, Milton, Spearman, Martin and Beddingford, all of St. John. This will certainly be a great field, and is the largest that has ever entered for the trophy.

For the ten mile road race the entries include no fewer than five from the city of Halifax, as follows:—Rogers, one of the fastest men in the provinces; Thornton, who finished second in the ten mile race at St. John last year; Holmes, who was third in the Herald and Mail races in Halifax last year; Mackin, who also made a good showing in that race; and Yates who defeated Thomas last summer. The other entries are, Chambers, who won the Labor Day road race at Moncton, and the ten mile race last year, and Peterson, who made a good showing in the ten mile race two years ago.

A great deal of interest has been aroused in these races, and as it is the first entry of the Moose into the field to encourage and conduct clean amateur athletic sports, the members are determined to make the affair a success.

'PRENTICE BOYS TO HAVE PARADE TO CHURCH

Three Lodges to Unite in March to Zion on Sunday, Oct. 12

The 'Prentice Boys of the city, West End and Fairville are to have a joint parade to Zion church on Sunday afternoon, October 12. This was decided upon last Thursday evening, when a meeting was held in the rooms of King Edward Lodge, in West End.

The members of the three lodges will assemble at the Germain street hall on the Sunday mentioned, and, headed by the Rev. William Lawson will march at three o'clock, going by way of Princess, Charlotte, Coburg, Garden and Wall streets to Zion church, where the service will begin at half-past three. The return will be by way of the same streets. Rev. William Lawson will be the preacher.

SHIPWRECKED ONES ARE RESCUED; WOMAN AND BABE AMONG NUMBER

Honolulu, Oct. 4.—Carrying fourteen members of the crew of the barkentine Amaranth, which was wrecked on August 30 on Jarvis Island, the steamer Ventura sailed last night for San Francisco. Among the survivors on board are the wife and baby of the barkentine's captain.

After the loss of the vessel two small life-boats were manned and a thirteen day voyage made to Pago Pago, the last five days of which were marked by suffering caused through lack of water.

While on Jarvis Island the refugees said they found only graves and a sign of a fertilizing company reading: "No trespassing."

What Am I Bid? Going—Going—Gone!

The auctioneer's way was the old way. The advertiser's way is the new and better way.

Through the columns of live newspapers like The Telegraph and Times the progressive merchants and manufacturers are bidding for your support.

They are vying with each other in fair and open competition. Everything is in the open. They bring their claims to your doorsteps and let you decide.

You are the umpire of their fair. Competition means lower prices or better service for you. You win all the time.

It pays to read the advertising and it usually pays to trade with the men who have faith enough in their goods to advertise.

Rush To Get Goods Out At New Rates

MORE MEN PUT AT WORK

In New York Merchandise Worth \$70,000,000, in Boston \$17,000,000 Stored in Bond Awaiting Tariff Cut — West Feels First Effects in Imports From Australia

(Canadian Press)

New York, Oct. 4.—The first effect of the new tariff law to which President Wilson's signature was written last night was seen early today, when the clerical force at the customs house was increased by fifteen men in anticipation of one of the busiest days in the history of this port. The customs officials began business an hour earlier than usual to take care of the flood of applications for release of great stores of imports, which have accumulated in warehouses awaiting the tariff cut. In no customs district in the country will there be greater activity during the first few days of the new tariff than at the port of New York, for in the forty-eight bonded warehouses there is more than \$70,000,000 worth of goods awaiting withdrawal.

Importers have been impatient to get their goods on the market, and it was expected they would attempt to draw more than half of this great store at once. There is almost every conceivable thing in the warehouses, but the chief things are cottons, linens, woollens, furs, silks, nuts, leather goods, dried fruits, pickled fish, and leaf tobacco.

The collector of customs will, however, continue to assess duties on the basis of the Payne-Aldrich act, but returns, where necessary, will be made when official copies of the new laws are received.

The situation confronting importers today was the reverse of what it was four years ago, when the Payne-Aldrich law became effective. Then, instead of holding goods in bond, and releasing them at reduced rates, steamships raced to port to be under the wire, as it were, with commodities on which higher duty was to be charged. Several vast consignments came in just in the nick of time. In addition to the tremendous amount of goods which will pour out of the warehouses in the next few days, huge shipments will soon begin to arrive from abroad. The cables were busy today with messages advising foreign houses that President Wilson had affixed his signature to the tariff bill.

Boston, Oct. 4.—More than \$17,000,000 worth of imported merchandise is now in the bonded warehouses here ready for release under the new tariff. Wool, fine grade cotton, toys, preserves and crackers are some of the articles said to be stored in quantities larger than ever before.

On the Pacific

San Francisco, Oct. 4.—First effects of the new tariff law on the Pacific coast it was agreed here today, will be felt in importations of foodstuffs from Australia.

In San Francisco the release of great quantities of butter, held in customs store houses, was expected to affect the local market.

Eighteen thousand pounds of Australian butter arrived on Thursday and 50,000 pounds more will be here in a few days. Australian meats are selling at prices lower than those charged for domestic meats, and the quantities imported are to be increased. Butcher's advice their patrons that the imported meats shrink somewhat in cooking, because of refrigeration.

Germany

Washington, Oct. 4.—Germany will be the first to advise the advance of that section of the new tariff act which provides for the negotiation of reciprocity arrangements embodying mutual concessions in customs taxes. Already the initial steps have been taken to secure such an arrangement in anticipation of the signing of the bill by the president. The chancellor of the German embassy, acting in the absence of Ambassador Bernstorff, has been in communication with the state department and it is expected a rough outline draft of such an arrangement as is referred to in that section soon will be ready for consideration.

As it emerged from conference this section no longer contains the retaliatory provisions inserted in the senate, and is made looking toward freer trade relations and further reciprocal expansion of trade and commerce.

New Speed Records

Oklahoma City, Oct. 4.—Disbrow and "Wild Bill" Endicott established what are declared to be new speed records for half mile circular dirt tracks here yesterday. Disbrow drove his machine a mile in one minute and five seconds, and Endicott travelled two miles in 2:17. The previous mile record was 1:08, and for two miles 2:28 1/2.

The Kirmess
A well attended meeting of the executive of the Playgrounds Association was held last evening when Mrs. G. L. Wetmore reported on the kirmess. At the conclusion of the meeting the members of the executive adjourned to the old Nickel Theatre, where they saw ten pairs of the leaders of the younger social set go through some features of the kirmess. The performance was of very high standard and those present were much impressed with the skill of the dancers.

The men who are building the tunnel through the Rocky Mountains at Selkirk, B.C., will live in houses raised on 8-foot stilts. The reason is that in winter the snow usually drifts so high as to make this elevation necessary.

Doctors Endorse

If we did not believe doctors endorsed Ager's Cherry Fectoral for coughs and colds, we would not offer it to you. Sold for 70 years. Ask Your Doctor.

'Thank You, Mother—'
'You've made my head so much better. That Mentholated 'Vaseline' is wonderful, isn't it?'
'Yes, dear. There is nothing that soothes and relieves a headache so quickly.'

Mentholated Vaseline

Mentholated 'Vaseline' is a wonderful relief for nervous and tired headaches. It is simply a blending of menthol and 'Vaseline.' It is absolutely pure and harmless and has no bad 'after-effects.'

Mentholated 'Vaseline' also relieves cramps, neuralgia, etc. Put up in handy tin tubes. Druggists everywhere. Do you know our other 'Vaseline' specialties—Capsicum 'Vaseline,' for colds; 'Vaseline' Camphor Ice, for chapped hands and lips; Carbolated 'Vaseline,' for cuts and scratches, and the 'rest' they will help you cut down the doctor's bills for a lot of minor hurts and ailments.

MUSIC EXAMINATIONS 1914

Opens to the Pupils of all Teachers of Music.
The Annual Examinations in Practical Music and Theory will be held throughout Canada in May and June, 1914. An examination in Theory only will be held November 15th 1913; application to be made by October 1st.
An Exhibition value about \$500 offered annually; also Gold and Silver Medals.
Syllabus, Music for the examinations and all particulars may be obtained on application to
M. WARING DAVIS, 777 Shuter Street, Montreal. (Resident Secretary for Canada.)
Parents and Teachers wishing to enter their pupils for these examinations should communicate with the Secretary at once and have their names placed on mailing list.

THE 'SNOW BABY OF THE ARCTIC' WILL WED MAN WHO FOLLOWED HER FATHER TO REGIONS OF ICE AND SNOW

Miss Mary Peary, the Crown up 'Snow Baby'

St. John's, Nfld., Oct. 1.—Miss Mary Peary, the "snow baby" is reported engaged to Donald MacMillan, who was with Admiral Peary on his dash to the north pole.
What could be more fitting than that the "most northerly born child in the world" should choose a polar explorer for a husband?

Miss Peary's mother was the first white woman to travel with an Arctic expedition, and the "snow baby" was born during the trip.
The Eskimos, who were very early acquaintances of Admiral Peary's tiny daughter, looked upon her with tremendous admiration and positive awe. They named her "Amigito," meaning the "Snowbird."

THE WIFE OF A 'LITTLELANDER'

"Happy? Oh, yes, and perfectly contented."

I looked into the bright, fresh face, framed in a homely sunbonnet, and wondered how many of her sisters in the city would be contented as mistress of a one-acre farm and tented as mistress of a one-acre farm and a two-hundred-dollar cottage. Perhaps she divined something of my thought, for there was just a little touch of a smile in her voice when she spoke again.

"We don't own much, to be sure, but we are independent. And how much better off than thousands in the great cities, struggling to make both ends meet—yes, and as likely as not spending more than they can afford, merely to keep up appearances."

"And you?"

"We don't have to pretend to be anything but what we are, and don't want to. No man has any claim against us. We own our farm outright."

"It is wonderful," I said at length. "Simply wonderful that you can make a living out of a mere dot of land like this."

"So many strangers say that," she answered, with a laugh in which I detected a note of pleasurable pride. "But there is no great secret in it. Every square inch of soil is made to produce as much as it can. It is tilled and fertilized with just as much care as the rich man's gardener gives to his hot-house plants. My father has a sixteen-hundred-acre farm back in Vermont. One-half of it isn't turned to any account worth mentioning, and the other half doesn't yield one-tenth of what it would if it was handled in the way we handle our land. Why, one acre on that farm isn't of any account at all."

"If you treat mud as a wise man treats money."

"Yes, and nothing is wasted. That's another great point. I suppose you don't know that dish-water is a fertilizer. Well, it is, and every drop of mine goes onto the ground where it will do some good. Then when it comes to marketing, we don't need to waste a handful. Say we have a dollar's worth of odd truck on hand that it wouldn't pay to send to San Diego by itself. Our community wagon comes along and picks it up. It is put with other small lots of our neighbors, and perhaps a cartload is made up that way."

AGREED WITH BABY

This Mother Found The Right Food For Her Baby Girl.

Mrs. Arthur Prince of Meaford, Ont., writes, on Sept. 12th, 1913: "Some time ago, you were good enough to send me a sample of Neave's Food. Baby liked it so well and it agreed with her, so I am using it right along and think it is excellent."

"I have a friend with a very delicate baby. She cannot nurse it and has tried six different foods, but it does not thrive at all—she always sick and wretched with indigestion. I strongly recommended your food. Will you please send her a sample?"

Mrs. Prince wrote again on Sept. 27th, 1913. "My friend's baby has grown wonderfully. I can scarcely credit it. Her next baby, which she expects in five months, will be fed on Neave's Food right from the start—she thinks it is so good."

Mothers and prospective mothers may obtain a free tin of Neave's Food and a valuable book "Hints About Baby" by writing Edwin Uley, 14 Front Street East, Toronto, who is the Agent for Canada. (Mention this paper.)

Neave's Food is sold in 1 lb. air tight tins by all Druggists in Canada.

BATH TUBS Cleaned Quicker & Better

Nothing keeps bath-tubs so fresh and bright as Old Dutch Cleanser. Simply sprinkle a little of it on a brush or cloth—rub briskly, then wash with clean, warm water. Dirt, scum and discolorations, that nothing else will remove, disappear instantly. Many other uses and directions on large Sifter—Can 10c.

USE THE WANT AD. WAY

Daily Hints For the Cook

Queen Cake

Three eggs, 2 cups sugar, large 1/2 cup butter, 1 cup milk, 1 teaspoon soda, 2 teaspoons cream of tartar, 4 cups flour. Flavor to taste. This makes 2 quite good-sized loaves or a large sheet. It can be divided and put 8 whites in one loaf and 8 yolks in the other. Then use 1 1/2 cups of flour to each loaf and halve everything else in proportion.

Mock Cherry Pie

One cup of cranberries, 1/2 cup of raisins, cut in halves, 1 cup sugar, 1 teaspoon of vanilla, 1 cup of water, 1 tablespoon of flour. Cook all together on the stove for a few minutes. Bake with pie crust the same as you would a cranberry pie.

Raised Biscuits

Warm 1 pint milk, add 1/2 yeast cake, 1/2 teaspoon salt, 1 tablespoon butter and flour enough to mold. Mix in the morning and let stand over night for supper.

Drop Cookies

One cup sugar, 2 1/2 cups flour, 2-3 cup milk, 1/2 cup butter and lard, 2 teaspoons cream of tartar, 1 teaspoon soda or use 2 teaspoons baking powder. Drop from spoon.

1,375 DIAMONDS ARE FOUND IN ARKANSAS

(Engineering and Mining Journal)
Diamonds were first discovered in Arkansas, August 1, 1906, near the mouth of Prairie Creek, in the vicinity of Murfreesboro, Pike County, and since that time approximately 1375 stones, aggregating .280 carats, are reported to have been found in this locality. The diamonds in Arkansas occur in peridotite, and search for further areas of the rock has been made. Three new areas have been found, the known extent of which is much smaller than that near Murfreesboro. They lie within an area of one square mile, about three miles from Murfreesboro. These localities were visited by Hugh D. Miser, of the U. S. Geological Survey.

LABOR MEN PASS SUFFRAGE VOTE

(Woman's Journal)
The Missouri Federation of Labor, at its recent annual meeting in Springfield, endorsed woman suffrage by a unanimous vote of the 215 delegates. Resolutions were also passed in favor of mother's pensions and against child labor. The suffrage resolution reads:

Whereas, we, the Missouri Federation of Labor, in convention assembled, recognize the existence of the ever-growing number of women forced into the industrial field, due to the increasing simplicity of machine production, which makes women labor more profitable to the employing class than men's; and Whereas, when thrust into the industrial arena to battle for her food, clothing and shelter, she is forced to face every problem and every danger that confronts the workman; and is thereby entitled to every weapon, which defense possessed by her brother, workman; and Whereas, the social purity of the home is largely in the hands of the mother of the race, and they are rendered helpless to maintain this purity so long as they are denied a voice in shaping the conditions controlling that home; and Whereas, recognizing that women constitute one-half of the working class, and that only in the hands of the mother is there strength; therefore be it Resolved, That we, the Missouri Federation of Labor, in convention assembled, hereby endorse the growing demand for equal suffrage; that we urge upon our National Congress to take such measures as will give suffrage to the women of this nation upon the same terms as to men; and that we urge upon our state legislature and upon the voters of Missouri to hasten the day when the women of this state shall be given complete enfranchisement.

Crisp and Snapp Full of "Chews" Full of Nutriment

TRISCUIT

the Shredded Whole Wheat wafer, which contains all the body-building elements in the whole wheat grain made digestible by being steam-cooked, shredded, compressed into a wafer and baked by electricity crisp and brown—a delicious, wholesome substitute for white flour bread, toast or crackers. A delicious snack for luncheons, for the bungalow in the woods, for automobile trips, for excursions on land or sea. It should always be heated in the oven to restore crispness and served with butter, soft cheese or marmalades.

Have You Seen The Very Latest in Mattresses?

THE "DIXIE NO TUFT" stands pre-eminent as the acme of comfort and cleanliness. It has all the good points of the ordinary felt mattress, but has distinctive qualities which place it head and shoulders above anything else on the market.

The above cut illustrates its construction, and a glance at it will convince you of the truth of our statement. It is made up of ten compartments and each compartment is practically a distinct and perfect miniature mattress. The absence of tufts does away with the hard spots which tufting inevitably produces, and with the depressions at every tuft which are gathering places for dust, dirt and germs. Our space is too limited to describe in detail why the Dixie has twenty-five per cent. more elasticity than the tufted type, why it presents a better appearance at first, and why it keeps that appearance after other mattresses have spread and sagged out of shape.

But if you will write or phone us for a circular which fully describes all these points, or, better still, call and let us show you samples, we feel sure that your next mattress-purchase, and all future ones, will bear the "Dixie" trade mark.

SAYS THE DAY OF THE LECTURE HAS PASSED

Sir William Osler Says Medical Training Is Wrong

WORK WHAT SHOULD COUNT

Lectures Should Be Reduced and There Should Be No Written Papers at Final Examination—Study Made Intolerable Burden

London, Oct. 4.—Sir William Osler, professor of medicine at Oxford University, in an address at the re-opening of the Medical School of St. George's Hospital, denounced the existing system of training medical students, especially the lecture and examination features. Sir William contended that the work of the students from the day they enter the school ought to count for more qualification and that the students ought not to be under the continual fear of examination. He said the existing system of education which is directed to a single end, the passing of examinations, shows perfectly the blighting influence of examinations and how they sterilize the imagination.

"The great chasm between education and examination is continued," shown by the statistics of aspirants to the Royal College of Surgeons. Half of the entrants fail, yet these are the very pick of the students. The lecture ought to be reduced. The day of the lecture is past. It ought to be an offence on the part of a senior student to attend a lecture. "In the case of inefficient students parents ought to be told after a year or two they would never make decent doctors. There ought to be no written papers at the final examination. Watch the man handle a patient. Fifteen minutes at the bedside is worth three hours at the examination table. The student needs that the incus of examination should be lifted from his soul. We make the study of our profession an intolerable burden by examinations and the enormous expansion of the subjects of the curriculum." The address was greeted with loud cheers.

EVE WAS FIRST ON EARTH, SAYS NOTED BIOLOGIST

Dr. Paul S. Hunter Asserts Ruled Universe Until Man Overthrew Her by Force—Tells of Adamless Eden

Was Eve on earth in advance of Adam or any other man? Was Eve's appearance followed by another of her sex, and she by a third, and so on without a break in the sex order, thus making the Garden at the beginning and for ages thereafter the exclusive and supposedly contented habitation of femininity? Something to talk about—especially for women. Dr. Paul S. Hunter, a physician with a mind keen for investigation and research, whose faith in biology is unshaken by argument or controversy, publicly asserts that Eve got only antedated Adam but that women ruled the universe unchallenged by man until, with the lapse of time, it was established in order suited to the time. Thereafter came man—came man when the machine primary civilization was already in motion; came man with the assumption of superiority; came man as the advance agent of the great world drama. And the Adamless Eden was no more! Dr. Hunter, as a member of the Wisconsin State Board of Health, is well known, particularly in the west. He says: "Eve's sex at first ruled the universe. Then man came and finally developed the stronger body and the brute force which enabled him to take control. Consequently it was easy for him to begin hoarding and taking credit for what he had done. He claimed the creation of woman, and in this science disputes him."

Blames Adam for Human Ills

Addressing the annual convention of Associated States of America not long ago, Dr. P. D. Quick said that at least some of the human ills which increase the sick benefits of the orders could no doubt be traced to Adam himself. Living in a time before sanitation, mosquito screens and pajamas, Adam was probably not over-robust, and then the removal of a rib could not have done him any good. Quite otherwise is the recently expressed opinion of Sir William Wilcox, British Adviser to the Turkish Minister of Public Works. After a study of the territory from the sea coast to the Holy Land Sir William gave it as his belief that the killing of Abel by his brother Cain was the outgrowth of a family feud.

PROMINENT POLITICIAN TOOK GATLIN 3 DAY LIQUOR TREATMENT!

A prominent politician who was constantly under the effects of strong drink, becoming obliged to get free from the habit, took the Gatlin Treatment. He was cured of the habit in 3 days, and expressed grateful appreciation of the satisfactory results. This is only one of the many cases of people in all walks of life. Remember this cure is not an experiment, but a scientific treatment for the Liquor Habit. No case being too difficult, and a written Guarantee to cure is given each patient. The Gatlin Institute has nothing whatever to do with any other Cure for the Liquor Habit, whether 3 Day Cure or longer period whatsoever. Write, call or telephone today for Booklet and full particulars. Cut out this coupon and send by mail today.

The Gatlin Institute Co., Ltd., 46 Crown St., St. John, N. B. Please send me Booklet and information regarding your Three Day Cure for the Liquor Habit.

GOVERNOR WILL NOT ALLOW THEM TO STRIKE

Boston, Oct. 3.—Governor Foss sent a letter last night to the officials of the Brotherhood of Locomotive Engineers in which he stated that if this organization declared a strike on the New Haven road that he would call for a special session of the legislature and ask for the passage of a law prohibiting strikes of railroad employees in Massachusetts. The governor's statement of his attitude on the question of railroad strikes is most drastic. In his letter he plainly sets himself up in opposition to the contention of the big railroad organization that its men should be promoted in the order of their seniority, the governor holding "that seniority without regard to fitness lowers the efficiency of the labor force." He says that the real question at issue is the safety of the travelling public. Mr. Foss takes a bold stand against one of the most powerful labor organizations in the country. The letter is of great interest at this time because of the governor's announcement, made some time ago, that he would make as one of the principal issues of his independent campaign, a fight for government control of organized labor.

"77" A hard stubborn Cold that hangs on, is broken up by Humphreys' "Seventy-seven" COLDS

"While on my vacation on a farm I suffered from an old-fashioned Cold. Everyone had a different suggestion finally three agreed on 'Seventy-seven' and it helped me," a girl writes. Mention any ailment from Sprue & Gout, and everyone has a pet remedy to suggest. Mention a Cold and nearly everyone recommends "Seventy-seven" as their own particular remedy. "Seventy-seven" is a small packet of pleasant pellets, fits the vest pocket. All Drug Stores, 25c. and \$1.00, or mailed on receipt of price. Humphreys' Homeo. The Evening Times and Star

ST. JOHN, N. B., OCTOBER 4, 1913

The St. John Evening Times is printed at 112 1/2 Canterbury Street every evening (except on Sundays and public holidays) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

ST. JOHN'S CRISIS

This is certainly an instance which calls for united action for St. John regardless of politics. In this sentence Mr. J. M. Robinson, president of the board of trade, corrects the situation with regard to the sudden change of policy which has deprived St. John of the mail steamships.

Why did the Canadian Pacific Railway Company suddenly decide to withdraw the Empress steamers from St. John after announcing that they would come here? Was it for this that Sir Thomas Shaughnessy was recently summoned to Ottawa by Premier Borden?

These questions are not partisan questions. They are questions affecting the interests and the reputation of the port of St. John. How can we boast that St. John is Canada's great national port when it is to be turned down and lose the big mail and passenger steamers?

The Standard this morning prints the sailings of certain of the Allan boats from this port: The new mail steamers Calgarian and Alsatian are not in the list.

The Halifax Chronicle says further that the additional traffic for these big steamships will "absolutely swamp the present equipment of the Halifax and St. John division" (of the I. C. R.), and that therefore special provision must be made for handling it.

The Halifax Chronicle says further that the additional traffic for these big steamships will "absolutely swamp the present equipment of the Halifax and St. John division" (of the I. C. R.), and that therefore special provision must be made for handling it.

The Halifax Chronicle says further that the additional traffic for these big steamships will "absolutely swamp the present equipment of the Halifax and St. John division" (of the I. C. R.), and that therefore special provision must be made for handling it.

The Halifax Chronicle says further that the additional traffic for these big steamships will "absolutely swamp the present equipment of the Halifax and St. John division" (of the I. C. R.), and that therefore special provision must be made for handling it.

made such enormous expenditures during the last twenty-five years. This is not a case where Halifax is getting some new business upon which that port might fairly be congratulated by the citizens of St. John.

The Standard says that St. John has "received absolutely a fair deal and will gain more than it loses." It says that "there has been no injustice to St. John on the part of the government."

Consider this last statement. It is not true. The C. P. R. decided in favor of St. John, made all its arrangements, and announced the sailings of the mail steamers direct from this port.

It would be most unfortunate if partisan politics were permitted to divide the citizens of St. John in a matter which affects the vital interests of this port. For more than a quarter of a century, the people of St. John have patiently and earnestly, in the face of much discouragement and of bitter opposition from other ports, striven to bring St. John up to a point which was reached when it was announced a few days ago that the mail steamers would come to this port during the coming winter.

The board of trade injunction, "do it for St. John," should appeal to St. John business men at the present time.

When we speak of the port of St. John, must we express regret that it is not quite as good a port as Halifax?

Halifax may be relied on to say all that is necessary in its own behalf in this matter of the mail steamers. Let St. John men talk St. John.

Halifax is entitled to whatever it may be able to secure in the matter of through traffic, provided it is not secured at the expense of the port of St. John.

Some More Magazine Poetry The rain drops pattered on the window pane. His features set the man within gazed out.

BIRTHDAYS OF NOTABILITIES

SATURDAY, OCTOBER 4 Hon. A. R. Angers, K. C., veteran lawyer and politician, was born in Quebec on October 4, 1838. He has had a long career as a public man, being successively member of the Quebec government, judge of the supreme court of Quebec, lieutenant-governor of Quebec, member of the dominion cabinet. He is now head of a law firm in Montreal, having been for fifty-three years a member of the profession.

The Right Rev. George Thornloe, Anglican Bishop of Algoma, was born in Coventry, England on October 4, 1849. He had a brilliant academic career at Lamoilleville and after filling various charges was elected bishop in 1896. He is one of the leading men in the Church of England in Canada.

SUNDAY, OCTOBER 5. David MacLaren, president of the Bank of Ottawa and a prominent resident of the capital, was born in Ottawa County, P. Q., on October 5, 1848. He entered the lumber business as a young man and has risen to a place of importance in the financial and industrial life of the country.

Thomas Mower Martin of Toronto, one of Canada's leading artists, was born in London, England, seventy-five years ago today. He was one of the founders of the Ontario Society of Artists and a charter member of the Royal Academy. High Patron of Montreal, director of many companies and one of the richest men in Canada was born in Renfrewshire, Scotland on October 5, 1838. He made his start in the forwarding business being connected with the Shelden Company for many years.

LIGHTER VEIN The assessor was doing the very best he could, but the farmer was shrewd and wary. "How many acres of farming land have you?" he inquired, wearily.

"About twenty, I guess," said Reuben. "Twenty? Why it looks to me like nearly 120. Come, now, can't you increase that a little? There are surely more than twenty acres in that tract. Suppose you stretch that a little."

"Say, feller," said the farmer, "this ain't no rubber plantation."

"I suppose," remarked Mr. Brown, "now aviators are becoming so numerous and are actually holding aeroplane contests, that we may expect to see a weekly paper published in their interests."

"O," said Smith, "there has been a suitable paper on sale for a long time now."

"Indeed! What is its name?" "Fly paper."

A cultured daughter, home from boarding school, had just been driving the fat and antiquated family horse from which all speed and spirit had departed some fifteen years before.

"Mamma," she called daintily, though in sudden alarm, "I can't leave Dobbin standing, can I?"

The matter-of-fact mother replied briskly, "You can. Unless he prefers to sit."

Flattery Flattery—What you consider the most delicate form of flattery? Cynthia—Telling a married man he doesn't look it.

Cure of Blood Poisoning of Bacterial Origin

**INFANTILE PARALYSIS**

Rockefeller Institute Physicians Succeeded in Cultivating Germ Responsible For This Disease Which Has Been Responsible For So Many Deaths

Berlin, Oct. 4.—Information regarding an important medical discovery is just made known at Frankfurt-on-Main by a young American physician, Dr. Lewis Hart Marks.

As a result of several years' experiments, Dr. Marks, it is said, has found a cure for blood poisoning of bacterial origin.

New York, Oct. 4.—Dr. Simon Flexner, director of the Rockefeller Institute for medical research, and Dr. Hideyo Noguchi, one of his distinguished fellow workers in the institution, have succeeded at last in cultivating artificially the germ that is responsible for epidemic poliomyelitis, commonly known as infantile paralysis. After describing hitherto unsuccessful attempts to demonstrate the micro-organism under the microscope and develop it in artificial cultures, the writer says:

"During the several years that epidemic poliomyelitis has prevailed in the eastern United States, we have collected many specimens from affected human beings and monkeys. Portions of nervous and other organs were regularly set aside in 60 per cent. sterile glycerine in the refrigerator. Hence there were available for the cultivation tests both fresh specimens yielded by recent autopsies upon human beings and monkeys and material preserved for periods ranging from a few days to many months."

"The new experiments in cultivation were begun in the summer of 1912, when many acute cases of poliomyelitis were being cared for in the hospitals of the Rockefeller Institute. Autopsies were performed upon fatal cases. Thus the cultivation was carried out simultaneously upon fresh, sterile or practically sterile (for ordinary bacteria) specimens derived from human beings and from monkeys' experimentally inoculated, and upon glycerinated specimens from both sources."

"In a series of thirty-three experiments with the nervous tissue of monkeys, comprising thirteen specimens of brain tissue, two of brain emulsion, and eighteen filtrates of brain and spinal cord from twenty-four animals infected from two different strains of virus, an initial growth was obtained in nineteen instances, of which sixteen proved to be pure and three mixed cultures."

"Under the microscope, when properly strained, the micro-organisms were found to be of very acute size, globular in form, hanging together in short chains, pairs and small masses, devoid of independent mobility."

**HAD A STROKE OF PARALYSIS**

And Found a Cure in Dr. Chase's Nerve Food

It is always better to prevent serious diseases of the nerves. There are many warnings, such as sleeplessness, irritability, headaches and nervous indigestion. Prostration, paralysis and locomotor ataxia only come when the nervous system is greatly exhausted. Even though your ailment may not yet be very serious, there is a great satisfaction in knowing that Dr. Chase's Nerve Food will cure paralysis in its earlier stages.

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Little Bertha was invited out to dinner with her father and mother; before she went, however, it was firmly impressed upon her mind that she must not speak unless spoken to. All went smoothly for a while, but when some time elapsed, and no notice was taken of her, she began to get uneasy. Finally, the hostess, seeing something was wrong, asked her what she would like to eat.

"I should like to have you begin to ask me questions," was the polite reply.—Lippincott's.

**NEW BOOK SCORES VOTE FOR WOMEN MOVEMENT**

Veheement Controversy Expected To Follow Sir A. E. Wright's Work

New York, Oct. 4.—A special London cable to the New York Times says: Sir Almoth E. Wright's new book "The Unexpurgated Case Against Woman Suffrage" is certain to provoke a veheement controversy.

It will be recalled that in March 1912 Sir Almoth wrote to The Times an extraordinary letter on "Militant Hygiene." This letter is printed as an appendix to the new book, which is in complete harmony with the memorable contribution.

The book arraigns the whole feminist movement. Sir Almoth has a great deal to say about the physical force argument. For instance: "Nothing could in the end more certainly lead to war

and revolt than the decline of military spirit and loss of prestige which would inevitably follow if men admitted women into political co-partnership. An extension of the franchise which takes in any woman undermines the physical sanction of laws."

"The woman voter would be pernicious to the state, not only because she could not back her vote by physical force, but also by reason of her intellectual defects."

Here are some of Sir Almoth's obiter dicta:

"If woman had to fight for her position her status would be that which is assigned to her among the Kafirs, not that which civilized man concedes to her."

"All ungrateful women flock to the banner of woman's freedom, the banner of financial freedom for women at the expense of financial servitude for man."

"The vote would not raise the wages of the woman worker and bring to her the financial nor yet the physiological freedom she is seeking. No upright mind can fail to see that woman who lives in a condition of financial dependence upon man, has no moral claim to unrestricted liberty."

The arguments against the women's cause end on this note:

"Failure to recognize that man is the master and why he is the master lies at the root of the suffrage movement."

**LEAPS INTO AUTO, AS IT BEARS HER CHILD AWAY**

New York, Oct. 4.—Mrs. Arthur I. Ferton, of Palisades Park, N. J., leaped into a moving automobile here to prevent a supposed attempt to kidnap her eight-year-old child. In the car were Mrs. Ferton's husband and A. H. C. Ferton in a separation suit.

When she saw the automobile in front

of her house with the child just getting into it, Mrs. Ferton ran screaming across the lawn. The machine started, but she caught it and jumped to the running board. Maligned, fearing she would fall, pulled her in. She was carried to Fairview, where the jury appeared before Justice A. H. Johnson. He refused to entertain the charge of kidnapping, but held Ferton for assault and battery on his wife's complaint.

**EQUITY WATCHES**

made by the Waltham Watch Company have proved their worth, and every wearer has become a boomer for this watch. We have just opened a new lot.

The Equity is a neat size and is a gentleman's watch in nickel case, 7 jewels, for \$5.50; same movement, in gold filled case, 7 jewels, for \$9.50 and in 15 jewels for \$12.50. These watches are without doubt the biggest watch values ever put upon the market.

ACCIDENT

Robert Rooney of High street had his hand badly cut in the Sun's factory this morning. Dr. Allingham dressed the wound.

JIMMY VALENTINE, WELL KNOWN CHARACTER, IS TRACKED TO ST. JOHN

Doyle, Famous New York Detective, Tipped Off by St. John Newspapers as to Whereabouts of 'Alias Jimmy Valentine' Wanted by Springfield, Mass., Authorities

Jimmy Valentine, the world's most noted safe-cracker, although reported as being under an assumed name, has been one of those unfortunates who, try as they will, cannot shake the dust of the prison cell from them. Pursued for the last two years, he has at last been located, and unless something unforeseen occurs, will be forced to submit to arrest by Springfield, Mass., authorities on an old charge of safe-cracking. There is a condition which seems to exist in police circles throughout the world; that is, once a thief, always a thief, and many a criminal, incarcerated for some misdemeanor learns the lesson of uprightness in a gloomy cell and fully decides to lead an honest life when once his term has been served, only to find upon his release that the stain of sin can never be entirely obliterated. He is watched and hounded by authorities; bribed to betray his confederates which, if he refuses to do, causes him no end of trouble. Thus it has been with Jimmy Valentine. For two years he has been a trusted bank clerk, and has become engaged to one of the most prominent citizens of Albany, N. Y. But his days of freedom are apparently numbered, for Doyle, a New York detective, and his most relentless enemy, has at last located him. St. John newspapers, always on the alert, have printed many stories of this well known reformer, and have just received word from Doyle that he will arrive in St. John next Monday night, October 6, and attempt to take Jimmy Valentine at the St. John Opera House. However, Jimmie has the full protection of the Thompson-Woods Steel Company, which is now permanently located at that house, and he feels sure that the men who are endeavoring to fill his week's engagement will not be molested in any way whatever.

WHERE KNOWLEDGE PROFIT

The customers of the firm and the people who know the most about the business and the valuable properties which it controls comprise the larger number of those who are sending their money in to J. S. Gibbon to secure the guaranteed debenture shares soon to be issued by the firm.

WORLD SERIES BASEBALL

Look over the goods displayed in Gilmour's window while you are getting ready for the world's series baseball week. It will be worth your while as we are showing some of the swiftest garments this fall we have ever had the pleasure of putting before the public.

FUNERALS

The funeral of Miss Nellie Ealer was held this afternoon at 2:30 from the residence of her parents at South Bay St. Rose's church, Fairville, where the burial service was read by Father Collins. Many friends attended and there were very many beautiful flowers.

GOT A MOOSE

James Dwyer and William Evans of Milford have returned after a hunting trip through the backlands, bringing a fine moose with antler spread of fifty-seven inches.

ALUMNAE READING CLUB. The monthly meeting of the High School Alumnae Reading Club was held last evening. Miss Lawson, president, discussed the works of Alfred Noyes, a noted English poet who is coming to St. John next month. She also gave a sketch of the author's life. Mr. Noyes will be in St. John on November 4 and will lecture in Keith's assembly rooms.

NEW YORK DETECTIVES FIND TRAIL LEADING TO A GUNMAN. New York, Oct. 4.—The delivery, in a macaroni box, of the body of a golden-haired little girl, apparently murdered, to the Harlem morgue last night, set detectives at work on the theory that the child had been kidnapped for ransom and murdered when hope of obtaining the ransom failed. The child's head was badly bruised and blackened.

WHAT WOMEN APPRECIATE. Madam, you fully appreciate the effect that good silverware lends to snowy linen, good china and bright glass, no matter how good the latter are, the general appearance may be spoiled with tarnished or blackened silverware. We guarantee to make all old silverware as brilliant as the first day it was bought—New J. Grandines, 21 Waterloo street.

SALE OF LADIES' COAT CLOTHS. Commencing Monday morning in the dress goods department, there will be a sale of chinchilla cloths, polo cloths and creeds that these are unusually selected in ladies who have material to purchase for the new autumn coat. These are all new materials in prevailing shades and at the low sale prices will no doubt go rapidly, so be on the scene early to avoid disappointment.

GOD CROPS OF ORANGES AND GRAPEFRUIT. Those who like the most delicious Florida oranges and grapefruit will be pleased to hear that J. S. Gibbon has received word that there is a good crop of oranges, tangerines and grapefruit in his grove this year.

CANADIAN PORTS. Montreal, Oct. 3.—Cleared, stmr Chiltern Range (Br) Hull. Quebec, Oct. 3.—Ard, Stms Andania, London; Wacosta (Nor) Sydney; Kronprinz Olav (Nor) Sydney; Wacama (Br), Matamoras.

AIR CHARTS FOR AVIATORS. Brussels, Oct. 4.—The International Aeronautical Federation with the participation of all its members met yesterday under the presidency of Prince Bole Bonaparte. The committee found that except by keeping to the air had been prepared, little or nothing had been done in this direction during the last year by other countries, owing to lack of support by their governments. A resolution was passed inviting these governments to take upon themselves the task of publishing air charts in the same manner as they do land maps.

ROYAL YEAST CAKES. MOST PERFECT MADE. THE INCREASED NUTRITIOUS VALUE OF BREAD MADE IN THE HOME WITH ROYAL YEAST CAKES SHOULD BE SUFFICIENT INCENTIVE TO THE CAREFUL HOUSEWIFE TO GIVE THIS IMPORTANT FOOD ITEM THE ATTENTION TO WHICH IT IS JUSTLY ENTITLED.

GOLDEN HAIR LITTLE GIRL IS MURDERED. New York, Oct. 4.—The delivery, in a macaroni box, of the body of a golden-haired little girl, apparently murdered, to the Harlem morgue last night, set detectives at work on the theory that the child had been kidnapped for ransom and murdered when hope of obtaining the ransom failed.

ALL PASSENGERS ON THE SPOKANE REPORTED SAFE. Seattle, Wash., Oct. 4.—All passengers of the Pacific Coast Steamship Company's steamer Spokane are reported safe today on board the steamer. Details of the sinking were told them when the Spokane went ashore last night, near Cape Lazo, 100 miles north of Seattle, B. C.

MOTHER AND BABY. Every mother is anxious for the welfare of her little ones—above all she wants them to have good health. Thousands of mothers have learned the secret of keeping their little ones healthy—they have learned that by keeping to Baby's Own Tablets in the house and giving an occasional dose to the little ones that they will escape constipation, vomiting, colic, worms, etc.

A GOOD COAL. Something Special For The Kitchen Range. Here is a coal such as you have been looking for, free burning, quick heating, no clinker, and very little ash, and with it all, good lasting qualities. All this and more can be said of our free burning American Chestnut. It is a very special coal at the regular price. You should, at least, try it. Also the same coal in Nut and Egg sizes for heating purposes. Consumers' Coal Co., Ltd., 381 Charlotte street (opposite Broad street). Phone M-2670.

RECENT DEATHS

A telegram to L. R. Ross was received yesterday from Halifax, telling of the unexpected death of his youngest brother, Charles. Mr. Ross was not very well known in St. John because he had been a military man practically all his life, having joined the forces at Fredericton many years ago, as a young man. From there he went to India, and joined the Imperial forces. He remained in India some fourteen or fifteen years, after which he was sent home on sick leave. Shortly after his return to Canada he joined the forces in Halifax, where he died.

A Savings Account As An Investment

A savings account in the Bank of Nova Scotia is an ideal investment for three reasons. First, it has the most important requisite—Safety. Second, it is always readily available in cash. Third, the interest is certain, and, if you do not wish to use it, it is compounded for you twice a year.

Capital and Surplus, \$17,000,000. Total Assets over \$78,000,000. Independent Outside Audit since 1906.

The Bank of Nova Scotia

BRANCHES OF THIS BANK in every Canadian Province, and in Newfoundland, West Indies, Boston, Chicago and New York.

CATHEDRAL CHURCH NOTES

The mission for women in the Cathedral will close on Sunday and the men's work will begin.

Bishop O'Reilly will pontificate at the Cathedral on Sunday at the eleven o'clock mass and will speak to the men on Sunday evening after the mission services. He will remain for some time in the province.

Of Rev. Father Conway, who is going to Chipman, the new Freeman today says—

The Rev. E. J. Conway, who has received his first pastorate to take charge of Chipman and its missions, is known as a young man of much activity and well qualified to do excellent work of organization and administration in the new parish to which he has been appointed. Father Conway was born at Hampton, educated at St. Joseph's University, passed successfully among the leaders of the Grand Seminary, Quebec and was ordained by Bishop Casey on June 29th, 1907. He was appointed curate to St. Bernard's church, Moncton, and for the past two years has been attached to the Cathedral. Father Conway has been very active among the young people, and has had charge of many successful works of the young people's societies, both in Moncton and St. John, and his good work among them is highly spoken of. He also ranks among the best pulpit speakers in the diocese and will prove to be a priest who will do excellent work now that he has been given charge of a parish of his own. The New Freeman, to whom Father Conway has shown much kindness, extends its best wishes to his success.

## THIS RUNAWAY A SENSATIONAL ONE

Fruitman's Horse, With Sloven, St. John Views of Effect Of U. S. Tariff Cut

**TWO MEN INJURED**  
A. Phinney Struck By Shaft But Joseph C. Kane is Caught Between Wheel and Shaft and Carried Some Distance

A sensational runaway in which two wagons were smashed, one man received a painful injury to his arm and another had a remarkable escape from death occurred early this morning.

The runaway horse was a big animal formerly used by the fire department, but now the property of J. G. Willett, fruit merchant of Dock street. It was attached to his heavy sloven which was loaded with fruit and was in charge of David Akerly. The driver had left the horse standing in Sydney street near Duke while he was making a delivery, when the animal took fright and started on a mad rush down the hill.

It galloped down to St. James street without doing any damage but here the trouble commenced. First it smashed into an express wagon used by A. Phinney, lamp trimmer for the St. John Railway Company. The wagon was ruined, the harness on the horse was badly torn and the contents of the wagon, which included carbons and glass globes, were sent flying in fragments.

The runaway then swerved into the sidewalk where Phinney was standing and struck him with the shaft, causing a painful injury to his arm. At the time Phinney was speaking to Joseph C. Kane barber, of Prince William street and the latter looked on in amazement. The horse swerved it circled over the edge of the sidewalk and caught up Mr. Kane between the shafts and the front wheel. With his involuntary passenger in this precarious position threatened with death at every revolution of the wheels the horse continued his frantic gallop.

Mr. Kane had time to utter a few words as he was in great danger of being shaken off and falling under the horse's hoofs and the heavy sloven. He kept his head, however, and at the last moment his bruises managed cautiously to squirm around until he could get his hands on the reins. With a steady pull he reined in the horse and then swerved it to one side so that it came to a stop against a house.

The runaway caused great excitement in the street and for a few seconds it was believed that Mr. Kane had been killed. He was painfully injured, and considered his escape a fortunate one under the circumstances. He was badly bruised from head to foot, especially around his chest and back. When he escaped he was covered with mud and his clothes were badly cut where he had been in contact with the rapidly revolving wheels.

**IT WILL HELP NEW BRUNSWICK FARMER**  
The new Underwood tariff, which went into effect last evening when President Wilson affixed his signature to the bill, is of considerable importance to this province. The sweeping reductions which are made must have a noticeable effect upon the production of and traffic in the goods which are now subject to lower rates of duty.

It is impossible to anticipate the full effect of the new tariff, as this can be learned only as the readjustment of trade conditions occurs and the result is shown in the actual market transactions.

There is no question, however, regarding the value of the new legislation to the farmers of this province. The larger market which was sought through reciprocity has now been partially opened up, not to such a beneficial extent, as under reciprocity, but still enough to be of considerable value to the producer.

Farm products and food stuffs were the chief items affected by the new tariff and the great reductions in the duty on these offer the farmer of New Brunswick a new market of vast extent. At present the only farm product in which the province produces a surplus of important size is the potato crop, and this has always been seriously affected by the lack of adequate markets. The New Brunswick potatoes are of better quality than those raised in almost every part of the United States, except the neighboring state of Maine, where conditions are similar and there will be little difficulty in disposing of all the potatoes which this province can produce. Judging from recent quotations on prices on both sides of the line the return to the potato growers will be much greater also.

Hay is another produce which will benefit by the new tariff but, apart from these, the province has little in the way of farm produce to export. It is expected that the reductions in the duties will afford a large market the lack of which has been the chief obstacle to successful farming on a large scale.

Predictions have been made that the new tariff will have the effect of bringing greater prosperity to the farmers of the province, of attracting new settlers to the province, and of opening up new land for agricultural development.

A fish dealer said this morning that he did not think fish would be greatly affected as a result of the new tariff. Owing to scarcity of fish in the local markets and the high prices which are received here there is little inducement to ship across the border, as prices there have been but little higher.

The duty on lumber, of \$1.25 per M., has been wiped out by the new tariff, but local operators say that they cannot tell what effect this will have until they learn from experience. At present there is practically no market in the United States for lumber, and the new tariff will even the difference made by the elimination of the duty might not produce a marked effect upon the market. As business begins to pick up again and shipments go forward they will learn of the effect on their business.

A Fredericton dispatch says:—"Exporters of lumber and farm products in this section are looking forward to a big trade with the United States this season as a result of tariff changes. One lumbering concern has been holding thirty-five million feet of lumber pending the passage of the new tariff law."

**THE TROUBLES AND TRIALS OF A JURYMEN**  
Not Enough Pay, Says One, And Then Hear Him as to Some Complications

"So far as I've gone into the matter, it looks as though jury work is a case of getting a dollar a day and paying out ten," said a jurymen in the Times this morning.

"I have been on the panel since the court started and have only in this last case been chosen for a jurymen. For my services at court I shall be paid a dollar a day. But my store will lose at least \$5 a day by my absence, and there are expenses attached to this job too. When we want to go to the theatre we have to pay for our seats, although it seems as though the county might exercise its prerogative and help its jurors to an evening's recreation after a hard day's work sitting absolutely still listening to evidence that in the majority of cases is a first-rate remedy for insomnia.

"Then there are other disadvantages. Some of us like an occasional glass of ale once in a while, but in my jury there were two teetotalers who absolutely refused to set foot inside the hotel bar, and as the guards refused to allow us to separate because that would be disturbing the order of the court, we had to go thirsty. Then on Sundays we all want to go to church, and if there's anyone on your newspaper who is at all bright I wish he'd sit down and figure out how three Presbyterians, three Baptists, three Catholics and three Episcopalians are going to agree on going to one church. I believe there was a time on record when every man in the jury was a Methodist, and everything seemed bright for a Sunday morning's devotion when cold water was thrown on the hopes of the twelve by the guard's statement that he was a Plymouth Brother and couldn't under any circumstance enter a Methodist church!

"Oh, yes, jury work has its trials. I hope the proposed increase in juror's salaries from \$1 to \$8 goes into effect—though even then I won't be any too anxious to take on the job. If only some of those lawyers knew what we have said about them on occasions—under our breath!"

**HOME FOR INCURABLES**  
At a meeting of the Home for Incurables executive on Thursday, it was reported that, while there are several applications for admission, the accommodation is fully taxed. Some time ago Dr. Murray MacLaren, who has been medical attendant at the home for thirteen years, sent in his resignation and this was respectfully accepted at Thursday's meeting. Dr. W. E. Rowley was appointed his successor. Mrs. A. R. Campbell and Dr. T. D. Walker were enrolled as life members, having contributed \$25.

## IMPORTANT MEETINGS IN AMHERST NEXT WEEK

**Methodist Conference on Missions and Meeting of The General Board**

On next Monday a gathering of Methodist ministers and laymen from the maritime provinces will be held in Amherst for a two day conference on missions. The expenses of the convention are being paid through the generosity of a few Amherst men whose names have not been given out.

The conference will last until Wednesday after which the general mission board of the Methodist church in the dominion will also meet in Amherst. All the delegates will be entertained free of charge. There will be five sessions of the conference on the subject of missions; two will be devoted to maritime conditions alone. Prominent ministers and laymen of the church in the dominion will be heard at the services each evening. The meetings will be presided over by Rev. Dr. Carman and Rev. Dr. Chown general superintendents.

Among the prominent men to be present are, Rev. James Allen, M. A., general secretary of the association; H. H. Friderger, Toronto, treasurer, also N. W. Rowley, leader of the opposition in Ontario; Hon. W. H. Cushing of Calgary; Dr. Lavell of Toronto, Hon. James MacLaren of Toronto, George Chesley of Lunenburg, W. H. Good of Montreal, J. H. Ashdown of Winnipeg and Col. F. S. Moore of Charlottetown; Rev. Dr. George Steel of St. John.

**A WELCOME**  
Last evening Mr. and Mrs. Percy Jones of City Line, West Side, were pleasantly surprised by friends and neighbors who dropped in to welcome them to their new home and who tendered them a shower of various useful gifts. Refreshments were served and a pleasant evening spent by all.

**DEATH OF BABY**  
Mr. and Mrs. George Quinlan, of Winslow street, West End, will have the sympathy of many friends in the death of their six weeks old son, James Edward.

STORE OPEN TONIGHT TILL 11 O'CLOCK

## Stanfield's Unshrinkable Underwear

## Oak Hall Quality Clothing For Boys

Combines Individuality, Style, Service

October 4, 1913.

He was a little boy who had been in the habit of wearing his father's cast off clothing out down to fit. One day the father had his big bunch of red whiskers clipped, and the boy sadly asked his mother if he would have to wear the whiskers also.

There are many men, and boys also, who can feelingly appreciate that boy's complaint.

It is a far cry from that condition to the **OAK HALL CLOTHING** for boys today.

Oak Hall Clothing is of a style and quality that make the thoughtful boy more careful with the clothes and the careless boy do it up in a day—if he takes pride in it he will whip the boy that throws mud on him.

Thus you may say that Clothes of the Oak Hall Standard make for character—building in the boy.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

Those fortunate hostesses who can find time to entertain are doing so emphatically the best time of the year. For it is the season when strictly laid table, silver, and when she feels it incumbent to maintain lines of hospitality.

DANGER SIGNAL AT CORNER OF PORTLAND STREET SUGGESTED

Red Light When Fire Alarm Sounds To Warn Main Street Traffic—Fall River Freights Are Heavy—The Mills

Citizens of the North End point out that when the apparatus on No. 3 Hook and Ladder Station of the city fire department in Portland street is called out there is much danger of collision with teams going either way in Main street, and especially with street cars.

Since the old fire bell at the public steps Indian town has been removed the North End has been without a fire alarm to that the fire department in frequent calls out when the people have no idea where the fire is.

The river steamers are beginning to have their usual fall rush of river produce coming to the city and some evenings are quite late on arriving at the city owing to heavy cargoes.

CYRIL MAUDE MONTH IN CANADA Noted English Actor Has Successes From Across Ocean—General John Regan to New York—Late Vaudeville News

Cyril Maude's first American and Canadian tour will begin on Monday, October 6 at the Princess Theatre, Toronto.

He will play a month in Canada, and go to Wallace's Theatre, New York for a limited engagement.

Appearances in Boston and other prominent cities will follow. The famous English actor is supported by his own company from his London Playhouse.

and brings with him the original productions of many of his past successes. "Tudors," "The Second Command," "The Headmaster," "Beauty and the Barge," and "Grumpy" will be included in his repertoire.

During the New York engagement, Louis N. Parker's new version of Goldsmith's "The Vicar of Wakefield" will be staged, with Maude as Dr. Primrose, and his daughter Margaret as Olivia.

At the farewell luncheon given Cyril Maude on the eve of his departure for America, Sir Herbert Tree presided.

Assisted by Sir Squire Bancroft and Sir John Hare, seventy theatre managers were present, representing almost every theatre in the United Kingdom.

A total capitalization of approximately thirty-three million pounds sterling.

The Gazette-Times of Pittsburgh, Pa. offers \$500 for a prize play and guarantee of production.

FROM CHOIR GIRL TO GRAND OPERA STAR—TRENTINI

Romantic Career of Tiny Singer With Great Voice—Melba Her Fairy Godmother

Emma Trentini is only a little mite of humanity—four feet eight inches tall—but she is regarded as one of the greatest coloratura sopranos in the world.

Just six years ago she scored her triumph when Oscar Hammerstein first produced grand opera in his Manhattan Opera House.

Much talk had preceded Trentini; the people had heard Oscar Hammerstein proclaim her a wonder, so that one of two results was bound to come—either a tremendous success or an equally proportionate failure.

The result was assured after the first performance of "Carmen" as it was in that opera that Trentini was introduced to America.

A great voice like Trentini's is a gift. But she had not the financial means for the variety turns by selection of music.

She was born of poor parents. At the age of twelve her remarkable untutored voice asserted itself, and the church choir of her native Mantova, Italy, welcomed her.

It was not long after she joined the choir that some wealthy townspeople saw great possibilities for an operatic career in her.

She was raised with her mother's consent, and the songbird was sent away to study under the famous Lombardi.

By the time she was fourteen she was eligible for the operatic stage. A place was secured for her at La Scala, Milan.

She was then fourteen years old. Her career in Milan was brilliant. Her conduct and manners were model.

When she reached seventeen she even played the school's dramatics, "Do not flirt!"

And then, springing with a suddenness, she came to her eighteenth birthday, and the little tragedy which made the duke's daughter.

With five other maids, the duke's brightest proteges, Lisa was to appear for the first time publicly on the Scala stage.

All the audience, she was told, would applaud; and some would throw bouquets.

Lisa was to be famous. Said Lisa, "I have a headache!" and she did not go.

Her father, the duke, and said, tearful-eyed: "I will not dance ever!"

And why? "Because I am going to be a doctor!" she said.

Latin—"Learn Latin!" "Yes, I will!" she said.

Apologizing to the duke, my seigneur, my father, she departed.

Training Ballet Dancers La Scala's dual ballet school is high up under the dome.

The duke's daughter, she was told, would applaud; and some would throw bouquets.

WHERE BALET DANCERS TRAIN Millionaire Millan Duke's School Always Has Long Waiting List—Now Best of Pupils Gives it up to Become Doctor

(Times' Special Correspondence) Milan, Sept. 28.—The millionaire Duke di Visconti Modrona is sad.

Ammonyed by Lisa Panchetti, priestess, almost, nimblest, sweetest of all his Scala ballet school maids—obdurate declines to dance, and makes the pale excuse that she wants to be a doctor.

She has been studying Latin, she says, and she doubts whether dancing is as high a trade as medicine.

Duke di Visconti Modrona is the richest, bluest-blooded, bravest, most generous of Lombardy's dukes.

He is Milan's only Macenas. He plants down the castles in his name, and he supports entirely the Scala ballet school, which aspires heroically to sustain Italian dancing and change the upstart Russians back to their hyperborean dens.

How, much money the municipality spends on this is known only to his banker and himself, \$5,000.

Lisa Panchetti is golden. Duchess di Visconti Modrona first saw that. In Corso Venezia one balmy summer eve, her horse ran down seven-year-old Lisa.

The duchess bore Lisa to her palace, fed her with purple grapes, and bade her sing.—Lisa lifted her ragged skirt and began to dance.

"That is not singing," said the duchess. "It is," said Lisa. "People sing with their lips," said the duchess. "They don't," said Lisa.

The duchess handed her over to the duke as a promising pupil for his beloved Scala ballet school.

Lisa did nothing. She won all prizes. She mastered dancing; and beat rival pupils in everything that is taught—in music, in history, in geography, in physics, in foreign languages.

Her conduct and manners were model. When she reached seventeen she even played the school's dramatics, "Do not flirt!"

And then, springing with a suddenness, she came to her eighteenth birthday, and the little tragedy which made the duke's daughter.

With five other maids, the duke's brightest proteges, Lisa was to appear for the first time publicly on the Scala stage.

All the audience, she was told, would applaud; and some would throw bouquets.

Lisa was to be famous. Said Lisa, "I have a headache!" and she did not go.

Her father, the duke, and said, tearful-eyed: "I will not dance ever!"

And why? "Because I am going to be a doctor!" she said.

Latin—"Learn Latin!" "Yes, I will!" she said.

Apologizing to the duke, my seigneur, my father, she departed.

Training Ballet Dancers La Scala's dual ballet school is high up under the dome.

The Valentine and The Players of Few Years A Some of The Harkins A of Other Days

To the Editor of the Times:— Sir: On my return to the city today last my attention was drawn to an article published in your column a few weeks ago, and which I quote as follows: "It has been noted that the Valentine Stock Company played here for four weeks, etc. The Valentine is amiss in his data. To the Valentine Stock Company's engagement at the Opera House, 1901, and closed on April 23 in this company were Jesse B. Harkins, Arthur Harkins, Ed. R. son, Robt. Evans, Jack Webb, etc. They came here from pgs.—after a long season there as follows: "The Valentine Stock Company played here for four weeks, etc. The Valentine is amiss in his data. To the Valentine Stock Company's engagement at the Opera House, 1901, and closed on April 23 in this company were Jesse B. Harkins, Arthur Harkins, Ed. R. son, Robt. Evans, Jack Webb, etc. They came here from pgs.—after a long season there as follows: "The Valentine Stock Company played here for four weeks, etc. The Valentine is amiss in his data. The Men Who Will Fight For the World's Championship

BY SLOANE GORDON

MURRAY HAS ONE OF THE BEST ARMS OF ANY OUTFIELDER IN THE BIG LEAGUES

JOHN "RED" MURRAY AS A BASEBALL PLAYER, MURRAY IS DISTINCTLY AN INDIVIDUAL AND IN NO SENSE ONE OF THE FISH

JOHN MURRAY, THE SILENT RIGHT FIELDER OF THE GIANTS

New York, Oct. 1—When John Murray (and his initials, by the way, are J. J.), came into the Big League, it was via St. Louis, J. J. probably figuring like a lot of social aspirants, any way to get in. It was in 1909 that J. J. McGraw took pity on Murray's plight and extradited him from St. Louis. Many fans, who make it a daily habit in the summer to go to the Polo Ground, have been trying to figure out ever since whether Murray is an outfielder or a contortionist.

IN THE OLD DAYS AND NOW

FROM T. S. ANDREWS

Milwaukee, Oct. 2—How different it may be twenty years ago. When a fighter who held a title was challenged, the coin was up there was something doing. Now it is all changed.

BY SLOANE GORDON

MY SON HOW ARE YOU GETTING ALONG WITH YOUR ALGEBRA AND FRENCH?

HARRY IS MARRIED AND HAS ONE SON WHOM HE IS TRYING TO PERSUADE NOT TO PLAY BASEBALL

HARRY HAS PRACTICALLY GIVEN UP FIGHT BASEBALL NOW SO THAT HE WILL HAVE TIME TO COACH AND STEAL BISHOPS

HE MIGHT BE CALLED THE ATHLETICS SECRETARY OF STATE BECAUSE HE TAKES CARE OF ALL SOCIAL FUNCTIONS FOR CONNIE

HARRY DAVIS, OF THE ATHLETICS—THE "SECOND CONNIE MACK"

New York, Oct. 1—Among many marks of distinction, Harry Davis has one which stands out like a wine agent at a chorus girl's party. Harry was born and bred in Philadelphia, which city he has long represented honorably on the diamond, with one brief lapse when he went to Cleveland as a manager, but he soon abandoned this town because he did not like its climate nor baseball ways.

THIS WILL BE MURPHY'S FIRST APPEARANCE IN A WORLD'S SERIES

EDDIE MURPHY WHO CONNIE MACK SAYS IS THE BEST "LEADOFF" MAN SINCE THE DAYS OF "TOPSY" HARTZELL

"EDDIE" MURPHY, THE IRISH RIGHT FIELDER OF THE ATHLETICS

New York, Oct. 1—When a Big League manager starts to figure out his batting order previous to the opening of the season, it is like a general arranging his guns before a battle. A great deal of importance is attached to the "lead-off" man or the first batter to face a pitcher in the game. Therefore the purpose of this article is to introduce the modest "Eddie" Murphy, who, "Connie" Mack says, is the best "leadoff" man since the palmy days of "Topsy" Hartzell.

The Magnetic Girl

HOW SHE COMPELS OTHERS TO OBEY HER WILL

100,000 Copies of Remarkable Book Describing Peculiar Psychic Powers to Be Distributed Free to Readers of the St. John Times and Star

"The wonderful power of Personal Influence, Fascination, Mind Control, call it what you will, can surely be acquired by everyone no matter how unattractive or unsuccessful," says Elsie Knowles, author of the new book entitled "The Key to the Development of the Inner Forces."

The book lays bare many astounding facts concerning the practices of the occult. You get and describes a simple though effective system of controlling the thoughts and acts of others. How the love and friendship of those who might otherwise remain indifferent can be won to you quickly and accurately.

HE IS THE BEST COTILLION LEADER ON THE CLUB

HE HAS APPEARED IN THE OUTFIELD FROM TIME TO TIME

OFTEN HE GETS TO GO TO BAT IN THE FIFTH OR SIXTH INNING AND CAN GO TO HIS TELEPHONING

HARRY MCCORMICK, OF THE GIANTS, PINCH HITTER AND SWELL DRESSER

New York, Oct. 1—It has become fashionable within recent years for a big League ball club to carry extra men who might be termed specialists. Washington has two comedy coaches, Schaefer and Altrock, the Athletics have their special coach, Harry Davis, and the Giants have their pinch hitter, Harry McCormick.

Many Momentous "Ifs" In Big Series Writes Chief "Fan," George Cohan

I Have Picked Athletics to Win, But Every Fan Knows Baseball, Says Greatest Fan of Them All

BY GEORGE M. COHAN

(Copyright, 1913, by the Newspaper Enterprise Association.)

"But the best 'if' of all is this: 'If the Athletics don't win the Giants will, 'if it isn't a tie!'"

I've picked the Athletics to beat the Giants, and by this same system have picked the Giants to lose to the Athletics—but every fan knows baseball.

The first "if" is Baker. This terror poked two home runs in 1911 and broke up Washington.

There's another big "if" about McGraw's pitching selections. He will undoubtedly use Mathewson and Marquard at every chance.

There's another big "if" about McGraw's pitching selections. He will undoubtedly use Mathewson and Marquard at every chance.

RIVAL INFIELDS IN THE WORLD'S BASEBALL GAMES

The Rival Infields.

Merkle and McInnes will be the rival first basemen, and McInnes appears to have a decided advantage over the Giants' initial sack guardian.

For the position of third baseman three players must be considered. For the Athletics, John Franklin Baker, of home run fame, is the sole candidate.

Back in 1911 Jack Murray didn't get a hit. In 1912 he hit like a wild man, breaking up two games.

There are a million "ifs" in this business, but I believe the Giants carry a few more than the Athletics.

There's another big "if" about McGraw's pitching selections. He will undoubtedly use Mathewson and Marquard at every chance.

There's another big "if" about McGraw's pitching selections. He will undoubtedly use Mathewson and Marquard at every chance.

EXTENDING THE ALFALFA BELT

Professor Hansen believes, that even rough lands of the high-and-dry kind in the northwest of our country can be made valuable—possibly worth one hundred dollars an acre—if they can be made to grow alfalfa.

Professor Hansen, with a new philosophy of plant life and the discovery of hardy alfalfas in Russia and in the heart of Asia giving promise of a vast extension of the alfalfa belt on this continent and of drought resistant and cold-resistant forage for the high-and-dry uplands.

# City Will Fight For The Mail Steamers

**Their Loss Would Be Serious Blow**

**HEARTY SUPPORT FOR PUBLIC MEETING ON MONDAY**

**Explanation of Sudden Change of Front Will Be Demanded—What Some Prominent Citizens Say**

Ottawa, Oct. 3—There has been a good deal of speculation as to the object of Sir Thomas Shaughnessy's visit to Ottawa a week ago. It is now learned that he was summoned by Premier Borden in consequence of the announcement that the mail steamers would make direct trips this winter between St. John and Liverpool.

Premier Borden, who represents Halifax, received emphatic protest from his constituency against this side-tracking of Halifax.

Within a few days after the conference between the prime minister of Canada and the president of the C. P. R. it was announced that the largest of these Canadian Pacific line steamers and the largest steamers of the Allan line, which company now belongs to the C. P. R., would call at Halifax and omit the St. John call.

It is believed that in return for this change of steamship sailings the prime minister has given some undertaking favorable to the C. P. R. in connection with the Valley Railroad and running rights to Halifax over the Intercolonial.

The need of standing shoulder to shoulder to fight for the protection of St. John's interests in the matter of the mail steamer contracts has broken down political barriers in dealing with this important subject.

The call for a public meeting has been warmly welcomed by citizens of every shade of political opinion and the expressions regarding the matter leave no room for doubting that St. John will get its share of the mail service.

The opinions of some of the leading citizens follows:—

**J. M. Robinson.**

"I do not want to discuss the matter publicly in advance of the meeting which is to be held on Monday evening, but my action in calling a meeting of the board of trade to deal with the subject indicates my attitude regarding the

## MEETING OF CITIZENS CALLED

ST. JOHN BOARD OF TRADE, SAINT JOHN, N. B., OCTOBER 3, 1913.

A MEETING OF ALL CITIZENS INTERESTED IN THE WELFARE OF ST. JOHN IS CALLED FOR MONDAY EVENING, 6TH INSTANT, AT EIGHT O'CLOCK, IN THE BOARD ROOMS, TO CONSIDER THE SERIOUS QUESTION OF THE MAIL STEAMSHIP CONTRACTS AS SET FORTH IN THE DAILY PAPERS.

THIS IS CERTAINLY THE TIME FOR UNITED ACTION FOR ST. JOHN, REGARDLESS OF POLITICS, AND WE EXPECT EVERY MEMBER TO BE PRESENT.

(SIGNED) J. M. ROBINSON PRESIDENT.

change in the sailing arrangements, although not as strongly as I might express it otherwise."

**Mayor Frink.**

"If the mail steamers are to stop at Halifax the great amount of freight which is required to fill these large steamers, in addition to the passenger and mails, must be carried by rail between St. John and Halifax. This would entail a tremendous additional expense to the steamers, and there is a general feeling that such an arrangement would not be possible unless there is some special traffic agreement between the steamship owners and the government railway which would amount to a discrimination against St. John."

**R. B. Emerson.**

"When my opinion was asked regarding the necessity of calling a public meeting to take action regarding the change in the plans for the mail steamer sailings I thoroughly approved of the suggestion and I am strongly in favor of an effort being made to secure a re-adjustment of the sailings. Every citizen profits directly or indirectly by the business arising from the steamers making St. John their terminus, and the loss of the four largest vessels to this port is a serious matter. We have always understood that the mail steamers would make St. John their terminus if the decision was left to the management of the lines, and it is hard to believe that the companies have changed their minds regarding the advantage of this port so suddenly."

**W. M. Jarvis.**

"It is only natural that the people of St. John should feel surprised and I would

heartily support any steps which may be taken to have the sailing arrangements of the mail steamers reconsidered. I have always maintained that Halifax and St. John should both have equal advantages in their efforts to provide an outlet for the trade of the country, but there is no reason why St. John should be sacrificed to suit any other port. This city has had to fight for its rights in the past and has only progressed when the citizens stood shoulder to shoulder irrespective of political affiliations. When the C. P. R. line through New Brunswick was being built the local Conservatives found it necessary to join forces with the opposition to prevent St. John being side-tracked. I well remember the indignation meeting in the board of trade rooms addressed by such staunch Conservatives as the late Hon. John Boyd and C. H. Fairweather, when it was proposed to divert the line from Fredericton Junction to Salisbury and side-track St. John. The protest succeeded and there is every reason why a similar protest should be made now."

"The same course was found necessary when we were striving for the establishment of St. John as the winter port."

"These protests were successful and there is every reason why a similar protest should be made now. The time has come when the citizens should unite once more to protect the interests of their port."

**James F. Robertson.**

"The C. P. R. has always expressed its desire to make St. John its mail port, and now that the opportunity has been given and they are not taking advantage of it the people of St. John have the

right to ask why not. If there is any good reason for the steamers stopping at Halifax the city should be informed of it, and if there is no steps should be taken to learn what influence has been brought to bear upon the two companies to force them to adopt Halifax as the terminus for their mail steamers. Apart from the money lost to this city, the decision is a serious blow to the prestige of the port and St. John should not rest until the matter is remedied or satisfactory explanations why the steamers cannot come to this port are given."

The Commissioners.

"The main thing is to find out why the change of front was made so suddenly by the steamship companies after a statement had been published that the C. P. R. and Allan lines would bring their mail boats directly to St. John. I think St. John should have every chance to demonstrate its utility as a mail port."

Commissioner McLellan—"I would rather not say anything about the matter at present."

Commissioner Agar—"Every one is agreed that we want as much business here as we can get. We have, however, got a much greater share of business in the port of St. John than we had anticipated some years ago, and we cannot ignore the fact that Halifax is a port of national importance, apart from the political influence it wields, and I do not think we ought to be feverishly alarmed that some of the shipping should go there. St. John has always preached that the two ports should have equal chances. There will be enough business for both."

"It looks like a political game, but I do not think St. John should be too greedy. The city has always taken the stand of leaving the matter open to the steamship companies, on the ground that there is enough business for both ports. Having one Allan line mail boat weekly should demonstrate how St. John is capable of handling the mail service. As it is, we have so much freight to handle here that I do not think we should grudge Halifax the mail service. Still, if two new wharves had been completed, I think there is no question but that the C. P. R. and Allan line boats would have stuck to their decision of coming to St. John. What is difficult to explain is how the C. P. R. will find it a paying proposition to haul the freight of their Express boats over an extra distance of 275 miles."

**John Keele.**

"It is certainly a very bad thing for St. John that it should be robbed in this way. The city has done a great deal for the development and equipment of the port and it is most unfortunate when we are about to realize on our investment, that an unexpected influence should be brought to bear to prevent the C. P. R. from carrying out their original and expressed intention of making St. John its passenger and mail port."

"It is certainly a strange influence that has caused the steamship companies to make such an unexpected change. A good deal of time was taken to arrange the sailings of the mail steamers to this port, and practically in one night, the calamitous change was made."

**George E. Barbour.**

"It seems too bad that we should lose the mail steamers, especially the Empresses, the most important, and which have been running here ever since they were placed in the service. I hope the citizens will put up an awful howl. The fact that the steamship companies had arranged sailings to this port, and then the whole plan was upset in one night, seems to indicate that a concealed pressure was brought to bear."

**William Hawker.**

"I am very much in sympathy with the effort which is being made to secure the mail sailings which had been promised for this port. We cannot be certain that anything will be accomplished but it would be a great mistake to suffer this loss without making an effort to secure the steamers or to defend the reputation of the port which will suffer as a result of such a change."

**F. W. Daniel.**

"I think it is time the needs of St. John were taken out of politics."

**Postmaster Sears.**

"You may put me down as being absolutely sure all the boats of all the lines, including the Allan lines and the C. P. R. Empresses, will come to St. John. This talk of them going to Halifax is the same that breaks out every year. There's nothing in it but newspaper gossip. Watch and see if I'm not right!"

**Quatrin.**

Let me not lie, self-satisfied, content, A marsh with waters, miser-like, unspent; Rather, a torrent, fling myself away, To end, perchance, a rainbow in the sky, —Mary Eleanor Roberts in October Lippincott's.

## LOOK—AEROPLANE RIDES FOR CHILDREN NO HARM AND JUST HEAPS OF THRILLS

How would Canadian boys and girls like to ride in a real aeroplane in the amusement parks instead of on the merry-go-round? They may be doing it very soon, and that with perfect safety, too. Over in France this new sport for children has taken quite a hold, and the big pleasure resorts of England are taking up the idea. The machine pictured here will seat six children and is guaranteed not to fly more than one foot from the ground, but it is sure-enough flying.

Commissioner McLellan—"I would rather not say anything about the matter at present."

Commissioner Agar—"Every one is agreed that we want as much business here as we can get. We have, however, got a much greater share of business in the port of St. John than we had anticipated some years ago, and we cannot ignore the fact that Halifax is a port of national importance, apart from the political influence it wields, and I do not think we ought to be feverishly alarmed that some of the shipping should go there. St. John has always preached that the two ports should have equal chances. There will be enough business for both."

**CALNAN-BRENNAN.** A nuptial event of much interest took place on Tuesday morning in the Church of the Holy Family in Bathurst Village, when Miss Gertrude Brennan was united in marriage to James Calnan, a popular foreman of the Intercolonial Railway. The ceremony was performed by Mon-

## NEW U. S. TARIFF SIGNED YESTERDAY

Washington, Oct. 3—Surrounded by the leaders of a united democracy, President Wilson signed the Underwood-Simmons tariff bill at 8.08 o'clock night at the White House. Simultaneously telegrams were sent to collectors throughout the country by the treasury department putting into operation the first Democratic tariff vision since 1894.

A happy group of legislators, members of the cabinet, and friends, circled the president as he smilingly down, slowly affixed his signature with two gold pens. He presented to Representative Underwood the pen that he written the word "Underwood" and the one which had completed his name to Senator Simmons, both of whom bowed their appreciation.

In impressive silence the president rose and delivered in easy natural tones an extemporaneous speech that brought prolonged applause.

The president declared that the journey of the legislative accomplishment had only been partly completed, that great service had been done for the rank and file of the country, but the second step in the emancipation of business was currency reform. He earnestly called upon his colleagues to "carry the rest of the journey" with fresh impulse.

In the Mississippi River has been found a cedar bough buried under 21 feet of rock deposits. The geologists figure that the wood has been there at least 6000 years.

### Wanted!

Perfectly healthy men and women who will voluntarily submit to an experiment which may lead to temporary or permanent impairment of health, or possible death.

This experiment to be conducted with the drug, "caffeine," in tea and coffee.

## Would You Apply for the Job?

Thousands are trying the experiment every day in spite of the fact that physicians and government experts have proven:

That the average cup of tea or coffee contains from 1 1/2 to 3 grs. of caffeine;

That caffeine is attributed to be one of the principal causes of headache, biliousness, heart disease, indigestion and kidney, liver and bowel trouble;

That caffeine in doses as small as that contained in two or three average cups of tea or coffee has killed rabbits, guinea pigs and other animals in laboratory tests.

To be sure a guinea pig or a rabbit may weigh but a pound or two, while the average human may weigh 100 times as much.

A few cups of tea or coffee or a single cup (according to the resistance of the individual) will not kill, but the poison is there and can be added to day by day.

That's why so many tea and coffee drinkers suffer from headache, dizziness, indigestion and other symptoms referable to the poison effect on heart, liver, nerves, kidneys and stomach. If you know tea and coffee have no bad effect in your particular case and you like them, why, bless your heart, stick to them, but if tea and coffee drinking leaves a tell-tale mark by some symptoms of physical discomfort or peace of mind, it's a good idea to stop and use

# POSTUM

This pure food-beverage, made of prime wheat and the juice of sugar-cane, makes a rich, seal-brown blend, turning to golden-brown when cream is added, which has a rich, snappy taste, but is absolutely free from the drug, "caffeine," in tea and coffee.

Postum comes in two forms. One, called Regular Postum, must be boiled full 15 minutes.

The other, Instant Postum, is in powder form and a level teaspoonful in a cup of hot water makes the beverage instantly. Grocers keep both kinds.

**"There's a Reason" for POSTUM**

Canadian Postum Cereal Co., Ltd., Windsor, Ont.

Made in Canada

**BAKER'S COCOA**

HAS STERLING MERIT

It is made from carefully selected high-grade cocoa beans, skillfully blended, prepared by a perfect mechanical process, without the use of chemicals or dyes. It contains no added potash, POSSESSES A DELICIOUS NATURAL FLAVOR AND IS OF GREAT FOOD VALUE.
