TAX CUT FORECAST IN THRONES SPEECH

MARITIME CASE ALSO LIKELY TO BE INCLUDED

Income, Sales and Stamp Levy Reductions Expected

GUNS BOOM OUT Parliament Opening Takes on Glittering Aspect of Days Gone By

OTTAWA, Ont., Jan. 8.—The speech from the throne, which His Excellency the Governor-General opens Parliament this afternoon, will, it is expected, indicate a seasonal program, including: Reduction in taxation, probably by changes in income, sales and stamp taxes. Scheme of rural credits. Immigration and land settlement schemes. Inquiry commission on Maritime rights. Completion of Hudson Bay Railway. Return of natural resources to Alberta.

Guns boomed from Nepean Point as His Excellency Baron Byng of Vimy, formally opened Canada's fifteenth parliament. Clattering mounted guard accompanied His Excellency through the parliament buildings and lined up before the building as guard of honor.

GLITTERING CEREMONY. Within the buildings, too, were all the glitter, show and formality of days gone by. In the Senate chamber, where His Excellency read the speech from the throne, glittering uniforms, the sash and ermine of Supreme Court judges, evening gowns in the ladies' galleries gave color and light to the scene.

It was a few minutes to three when members of the Commons met in their own chamber. Mr. Speaker Lemieux was in the chair, and the mace, symbol of his authority, lay upon the table. He rose as the bowing Black Rod summoned Commons to the bar of the Senate, and, preceded by the sergeant-at-arms, now bearing the mace, headed members in their second excursion to the Upper House.

SPEAKER INDUCTED. Standing at the bar of the Senate, Mr. Speaker Lemieux informed His Excellency of his appointment as Speaker of the house. In phrase steeped in tradition, he made formal request that any errors he made might be imputed to him and not to the Commons whose servant he was. And then, in words which ran away back to days of conflict between Parliament and King at Westminster, he made formal claim to all the rights and privileges of the House of Commons.

His Excellency rose with the speech from the throne, announcing the seasonal programme of the Government. Then, again, Commons, headed by their Speaker, returned to their chamber to begin the actual business of the session.

CARDINAL MERCIER IS STILL HOPEFUL Says Operation Complete Success, But Stomach Has Failed Him

BRUSSELS, Jan. 8.—The condition of Cardinal Mercier continues stationary. "I know that many prayers are being offered for me, and that all hopes are not yet lost," the aged primate told a priest when he insisted upon receiving, despite his precarious condition. "My operation was a complete success, but my stomach has failed me, or almost failed me. There is nothing more the doctors can do."

Declaring that the Holy Sacrament was administered Wednesday at his own request, he added: "When my health was good, I always said I wished to receive the last sacrament not when I was compelled to receive it, and I feel myself a little better since."

Lays Longevity To Moderate Indulgence

NEW YORK, Jan. 8.—Moderate indulgence in all so-called vices was given as the secret of longevity by Dr. Adolf Lorenz, 71-year-old Viennese surgeon, when he arrived yesterday on the Berengaria.

"To reach a ripe old age," he said, "and still be of service, one should indulge moderately in all the so-called vices. I have done it all my life. I have always partaken moderately of alcoholic drinks, because alcoholic in medicinal quantities is the best thing for the system."

City Council To Ask Legislation Deferring Mayoralty By-Election

Sold Booze At Low Prices, So Mercy Asked

CHICAGO, Jan. 8.—Selling good whiskey at reasonable prices was termed sufficiently meritorious in these "trying days" to warrant mitigation of sentence at the trial yesterday of Charles S. Young, Aurora, Ill., saloon proprietor.

"I would say that it is more than a mitigating circumstance," his attorney argued. Young was sentenced to 60 days in prison, and the bartender was fined \$200 and costs.

STREET CARS AGAIN RUN IN LONDON, ONT.

TIEN, Which Started New Year's Eve, Ends; Competition Question Raised

LONDON, Ont., Jan. 8.—Street car service was resumed in London this morning, after a tieup that has lasted since New Year's Eve.

The street cars go back into operation unconditionally, though it is expected that a 60-day agreement will be brought forward which may assure the street cars a share of the business which will be no business competition here.

A group of representative business men met the City Council last night and a resolution behind closed doors preceded the company's decision to resume service this morning.

Late last night the company started operation of track sweepers to clear away the snow that had fallen during the day.

CANADA FIRE LOSS CUT; N. B. HIGHER

Figures For 1925 Given Out; \$600,000 Increase in This Province

TORONTO, Ont., Jan. 8.—Fire losses in Canada in 1925 are estimated by the Monetary Times at \$80,890,090, the lowest since 1921. The loss in 1922 was \$48,748,000, in 1923, \$34,819,230, and in 1924 \$38,819,609. These estimates include all reported fires and \$6,000,000 annually for unreported fires. The January loss of \$6,300,200 was the heaviest in 1925, and that of October \$1,885,800, was the lowest. By provinces compared with 1924, the reported losses include: New Brunswick, 1924, \$926,800; 1925, \$1,254,600. Nova Scotia, 1924, \$1,609,200; 1925, \$1,415,000. P. E. I., 1924, \$80,000; 1925, \$10,000. Quebec, 1924, \$7,084,900; 1925, \$8,084,282.

House At Chatham Head Is Destroyed

NEWCASTLE, Jan. 8.—Fire in Peter Ramsay's house at Chatham Head this morning completely destroyed the house and all its contents. Mr. Ramsay was at work outside, but it was impossible to save anything. It is not known whether Mr. Ramsay has any insurance.

THUNBERG TO REACH HERE JAN. 21 FOR WORLD'S SKATING MEET

Gorman Leaves Tomorrow to Measure Speed With the Sturdy Finn, Charlie Jewtraw and Joe Moore, at Madison Square Garden.

CHARLIE GORMAN, 1924 Middle Atlantic skating champion, leaves tomorrow for New York, where on Tuesday night next he will take part in the special mile race at Madison Square Garden against Jas Thunberg, Olympic and world's amateur champion; Charlie Jewtraw, former international champion; Joe Moore, international indoor champion, and others. This race will mark Thunberg's first effort in competition since his arrival in this country three weeks ago.

According to word received by D. J. American debut at Bear Mountain, Corr, secretary of the Saint John Skating Association, over the long distance telephone from New York last evening, Thunberg now is preparing for his mile event—against Thunberg and the others at Madison Square Garden on January 18. He will return immediately for the world's meet here on January 26, 27 and 28 while Thunberg will arrive here on January 21. The Garden meet is being arranged under the auspices of the Metropolitan Skating Association and is sanctioned by the International Skating Union.

Plans for the entertainment of visiting newspapermen and the skaters were discussed at the noonday meeting today of the skating association executive. P. D. McAvity is chairman of the entertainment committee.

LONDON WOMEN RAISE UPROAR; PROTEST STRIKE

Wives of Seamen Pass Resolution Denouncing Promoters

NOT UNANIMOUS

Denunciation of Men Divides Meeting, Several Babies Adding to Din

LONDON, Jan. 8.—London had a novel strike development yesterday, when some hundreds of wives of seamen met at Cannon, East London, to protest against the recent outbreak of strike of British seamen and a proposal that Tom Walsh, the Australian Seamen's leader and who was responsible for the prolongation of the strike, come to London.

The women had been specially organized into a vigilance association and it probably was the first occasion where the wives of strikers have taken such a step to register indignation over the loss of money for family upkeep through husbands quitting work.

MEETING IN UPROAR. Mrs. Drummond, another speaker, in making an unfavorable allusion to men, brought forth another uproar, this time among the women themselves. After this, order entirely disappeared. The women divided into sections, yelling against one another. Babies, which many of the women carried, joined in the chorus.

It was a long time before enough silence was obtained to carry out the purpose of the meeting. Finally a majority was obtained for a resolution demanding the promoters of the seamen's strike and protesting against a visit by Tom Walsh, having as its object the stirring up of further strife.

Rescued Crew of N. S. Vessel Lands

HAVANA, Jan. 8.—Captain F. O. Randle and his crew of eight men, rescued from the sinking Nova Scotian schooner "Maid of England" by the German steamer Rio Bravo, arrived here today.

The schooner lost her sails and commenced to leak badly shortly before the Rio Bravo was sighted. When the crew left the schooner she was set on fire. The British consul is arranging transportation home for the crew.

Plans for the entertainment of visiting newspapermen and the skaters were discussed at the noonday meeting today of the skating association executive. P. D. McAvity is chairman of the entertainment committee.

One of the novel features proposed for newspapermen, if it can be arranged, will be a dinner on board one of the Canadian Pacific liners in port with New Brunswick sea food featuring the menu. Tickets to the hockey matches, the boxing matches, theatres and the carnival will be given the skaters. The Knights of Pythias will hold a dance in the Pythian Castle on Thursday night of the skating meet week, it was reported to the meeting.

FIGHT FANS SPEND \$2,500,000 SACRAMENTO, CAL., Jan. 8.—Fight fans of California spent approximately \$2,500,000 for the pleasure of watching boxing bouts during 1925. Of this total the state commission's share was \$146,709.

Dictum, Ordering Australian Cricketers To Travel Without Wives, Is Approved In London

LONDON, Jan. 8.—A new order by the Australian Cricket Board of Control that players in the Australian "test" team must not be accompanied by their wives during their forthcoming tour of England, and their wives must not even leave Australia while their husbands are absent, for fear they should join them abroad, has been received with interested approval here. Not only cricket captains, but theatrical managers and orchestra leaders endorse it from their own experience.

There has been, in fact, a chorus of approval highly unflattering to the married state as a condition precedent of peace and harmony.

It has long been admitted husbands and wives cannot play games successfully in partnership; but it has come rather as a shock to find many who, like the Australian cricket board, believe wives should be removed from the picture altogether.

A London theatrical manager admitted today that practically every director of touring companies is against joint engagements by which husband and wife travelled in the same company.

"The presence of husbands and wives," he said, "nearly always leads to friction, which weakens the team spirit so essential to a company."

The secretary of the London Symphony Orchestra said it was an understood thing players should not be accompanied by their wives. When the orchestra went to the United States one or two wives journeyed to New York, but were not allowed to accompany the orchestra on tour.

The leader of another orchestra, asked his reason for taking the same attitude said: "Where there are women there are quarrels."

300 SCOTCHMEN HIKE TO LONDON; PLANNING TO SETTLE IN CANADA

Success of Reduced Rate Plan Already Assured—Many Applications Made in Old Land by Prospective Settlers in This Country.

LONDON, Jan. 8.—The success of the reduction of immigration rates to Canada is already assured. Queues form daily in Trafalgar Square at the Canada building, composed of men anxious to emigrate, while the number of written inquiries has surpassed all expectations.

Three hundred farmers walked the whole distance from Scotland to London to apply for immediate sailing permits to Canada. The applicants are of all classes, teachers, dreamers, clerks, and stenographers, but they all recognize that domestic work will be their first duty when they arrive in Canada.

The Times today gives the fullest publicity to the Alberta scheme under which 30,000 acres of land in the Verulam district of Alberta will be set aside for emigrants. Most of these are expected to be Roman Catholics.

HIRAM LODGE AT CAPITAL INSTALLS

100,000 READY TO TAKE PART IN AUSTRIAN COUP

Soldiers and Police in Sympathy With Royalist Plot

REGEN'T BACKS IT

Admiral Horthy Willing to Quit to Make Way For Archduke

BUDAPEST, Jan. 8.—More than 100,000 men are said by investigators of the alleged plot to have been available for the coup d'etat which was to have placed the Archduke Albert on the Hungarian throne. Regulars of the national army numbering 37,000, controlled by Admiral Horthy, the regent, 25,000 police, gendarmes and customs officers and about 40,000 Fascist comprised the body.

It is claimed that Regent Horthy was fully in sympathy with the movement and willing to relinquish the Regency in order that Albert might ascend the throne without hindrance.

COUNTERFEIT PLOT. The latest facts in the situation seem to tend to show that Prince Ludwig Windisch Graetz, at least among the conspirators in the thirty billion franc counterfeiting plot, did not act entirely from political motives. It has been stated that the money obtained from floating the spurious notes was to have been used in furthering the ambitions of Archduke Albert to secure the crown of Hungary.

The semi-official Hungarian telegraph agency points out in this connection that those arrested for participation in the counterfeiting belong to different political parties and that this fact does not tend to bear out the charges that they were acting with political ends in view. Archduke Albert has issued a disclaimer declaring that he has had no relation, direct or indirect, with Windisch-Graetz for several years past.

SIX ARRESTED. The police have succeeded in establishing the fact that the spurious franc notes were printed in the Hungarian Government's map bureau. Six employees have been arrested.

An official note says that the investigation into the counterfeiting conspiracy having been rewarded with definite results and that Regent Horthy hoped, in the interests of the country, the investigation by the authorities would be crowned at an early date with complete success.

FAMILY FOUND IN DESTITUTE SHAPE

Mother Sent to Hospital—Only Bough Bed For Five in Shack

Special to The Times-Star. FREDERICKTON, Jan. 8.—A family found at Ripples, Sumbury county in destitute circumstances was reported to the Department of Health. Dr. O. E. Moorehouse, district medical health officer, who investigated, found that the family consisted of a man, his wife and three little children with the birth of another child imminent. No food was in the dwelling which consisted of a shack with walls full of cracks. The only bed consisted of spruce boughs and straw. The woman alleged that she was sick and that her husband could not work because he had to care for her. She was ordered taken to Victoria Hospital and the children given in the care of the commissioner. The health officer announced of burning the shack as soon as the weather is mild enough to permit and says he is amazed that human beings can exist under such conditions.

FORD TO MOVE ROAD.

BOSTON, Jan. 8.—Henry Ford fears for the safety of his Wayne Inn at Sudbury, and plans to move the old Boston road 800 feet from the door at a cost of \$80,000 in order to lessen jarring from motor vehicles. It is the country's oldest hostelry.

Conferees Pass Resolution of Sympathy For Family

FUNERAL PLANS

Service at House Will be Followed by Ceremony at Queen Sq. Church

THE City Council this morning, in special session, following the death of Mayor F. L. Potts, decided to ask the N. B. Legislature at the coming session to pass an act making legal the deferring of a mayoralty by-election in Saint John at the present time to fill the vacancy in the council. Commissioner J. H. Frink was chosen Acting Mayor and Commissioner of Finance and Public Affairs, to act until the new council meets on May 1.

The council also passed a resolution of regret on the death of Mayor Potts and adjourned to meet at the Court House tomorrow afternoon at 2 o'clock to attend the funeral.

RESOLUTION PASSED. The council was called to order by Commissioner Frink, who, after referring to the death of Mayor Potts, moved the following resolution:

"WHEREAS, this council has heard with deep regret of the death, after a short illness, of FRANK LESLIE POTTS, Mayor of the city and who for several years at different periods had represented the city in the Common Council;

"AND WHEREAS, this council has heard with deep regret of the death, after a short illness, of FRANK LESLIE POTTS, Mayor of the city and who for several years at different periods had represented the city in the Common Council;

"AND FURTHER RESOLVED, that this council does now desire to put on record its sense of the loss the city has sustained by his death, and who for several years at different periods had represented the city in the Common Council;

"AND FURTHER RESOLVED, that a copy of this resolution be forwarded by the Common Clerk to the widow of the deceased, and that he be at the same time conveyed to her the sincere sympathy of this council with her and her son in their bereavement."

This was seconded by Commissioner Wigmore, who in his tribute to the memory of the mayor made special reference to the interest which His Worship had taken in all public affairs at City Hall. Commissioners Bullock and Harding also paid tribute to the work of His Worship and the motion carried unanimously.

CITY GOVERNMENT. The following report from the committee of the whole was adopted: "Your committee find that, owing to the death of His Worship the Mayor, it will be necessary to make provision for the carrying on of civic business until the next council is organized in May next. They would therefore recommend that a communication be Continued on Page 2, column 1.

PRIZE OFFERED FOR OLD PHOTOGRAPH

Imperial Theatre is offering a cash prize of \$5 for the most interesting old-time photograph of skating flyers on other days, particularly those who became provincial, national and international figures. The idea is to display these specimens on the curtain and also in a specially arranged selection for the display window.

The pictures will not be marred in any way and the one adjudged as outstanding in interest will receive the little cash prize. Each contributor to the loan collection will be granted some courtesy tickets.

On a previous occasion, about 15 years ago, the Imperial people—then of the old Nickel—secured a comprehensive collection of prize pictures of Saint John, which in their collective form were of considerable interest. It is hoped the present effort will be similarly successful.

Interest in the coming world's meet here inspires the idea.

Stmr. Clackmas And Cargo Disposed Of Canadian Press. HALIFAX, N. S., Jan. 8.—In the Admiralty Court here yesterday at the suit of the owners of the Lumber, N. S. schooner Cape D'Or, her cargo and freight, Sheriff Hall sold the Sydney, N. S., steamer Clackmas, 2,000 tons gross, her cargo and freight, to Captain Neil Hall of Halifax for \$1,200.

The Clackmas, formerly a United States Shipping Board steamer, collided with the Cape D'Or off Liverpool, N. S., on April 30 last. The Cape D'Or was under way at noon and the Clackmas was in the stream. Repairs will be carried out at once. McLean-Kennedy are local agents for the steamer.

Safeguarded Advertising!

The amount of advertising done by J. Marcus, Ltd., is proof enough that they know how widely their messages are read.

A merchant who maintains a good reputation and stocks the things the public want, of attractive quality and price, performs a service to himself and his public by keeping them informed of the facts.

So long as he sticks to the facts as they are without "laying it on" the public will have confidence in his statements.

Since, as stated, J. Marcus, Ltd., have been heavy advertisers for years shows the public stand in with them on their policy of plain truth in advertising. It is the only kind that pays in the long run, the only kind that holds a permanent place in the paper.

Have a Care For Your Eyes

Your eyes don't affect you so violently as other organs when overstrained. But you have just as much need for sight precaution as any other kind. Your eyes are just as valuable. You want nothing short of full and complete service from your sight. How can you tell whether you are getting it? How can you tell when they are handicapped? The eyes of four in five are handicapped to the point of needing Glasses to lift the strain. Be cautious, have yours examined. You don't have to fret about the possible price. Dollar payments do just as well.

SAINT JOHN, N. B., JANUARY 8, 1926.

A DIFFICULT TASK

The social and philanthropic organizations which have constantly to deal with applications for relief for the unfortunate, particularly in the winter season, carry on a highly necessary work and one requiring no little sacrifice of time and effort on behalf of the community.

In 1878, a private bank in Springfield, Ill., owned by one J. Bunn, failed, and the depositors lost heavily. Bunn hoped to repay them, but died before he was able to do so.

It is evidently thought necessary to better co-ordinate a great deal of highly commendable work, weeding out some duplication of services, probably enlisting a larger number of active workers, and still avoiding anything like a merely bureaucratic administration.

London Sights for Sore Eyes

(Wynndham Lewis in London Graphic). There is no doubt of the valuable work performed by the Royal London Ophthalmic hospital, and never was it more valuable than today, when there are so many sore eyes about London to give a man sore eyes. Among these are: Regent street. Side-whiskers. "Advanced" poets. Critics of the same. Electric signs.

What Becomes of Them.

Posters advertising quick ointments, and Do not, by the way, confuse the eye-disease caused by such sights with the eye-disease to which a New Year honors peer is liable. When the new noble meets you in the street and appears not to see you, that is not ophthalmia, but—as a character in one of Mr. Monckton Hoffe's plays, I think, explains—social myopia.

As You Like It.

Of course, people speak vaguely of me as an anarchist, a visionary, and a crank. I am none of these things, but their opposites. I only want a few perfectly practical reforms which shall enable a decent and reasonable life, without having to submit to the very great injustices and the petty annoyances which meet you at every turn.

Times to Take Thought.

How can we change the world? By reason. Nothing is more powerful than reason. The chain formed of strong reason and lofty thoughts cannot be broken. Reason, like the sling of David, brings to earth the violent and prostrates the mighty. It is the one invincible weapon. Lacking it, the world would belong to armed brutes. What head ever Saturday night, and it's never a ad-noid kin I find?

BOSTON AND NEW YORK CALL FOR LITTLE N. B. FISH FADES OUT

Heavy North Shore Catches, Imports From Holland, Mild U. S. Weather Cause Drop From 10 and 15 to Six Cents

SHEDIAC, Jan. 7.—Smelt fishermen sail along the Strait of Northumberland and Gulf of St. Lawrence shores received unfavorable news today, when they learned that the market in Boston and New York had collapsed. Prices on the ice, which all the season have ranged from 10 to 15 cents a pound, sagged to six cents generally.

Emilie Patrice, of Shediac, whose company does a heavy smelt business in Westmorland and Kent, said that the outlook was extremely unfavorable, the prospects being that the United States markets would be in bad shape during the remainder of the season.

Heavy catches in the Miramichi, Tabusintac and other northern streams, the importation of smelts by the United States from Holland, the slow demand during the long holiday season and unusually mild weather in Boston and New York were contributing factors in the collapse of the market, Mr. Patrice said.

OF VARYING DEGREES. Smelt fishing in the Scoudouc and Shediac Rivers, both emptying into Shediac Bay, has been practically a failure this season, but in Kent and other northern counties fishing has been from fair to good. Considerable fish have been caught in the Aboujigon River and at Shomogue. At Richibucto fishing has been and is still fair.

Near Butouche, the fishermen of St. Mary's had a splendid run of luck this season. Recently 15 fishermen collectively there earned \$30,000 in a short time, selling heavy hauls at 15 cents a pound on the ice.

PAROLED PRISONER IS HELD IN SLAYING

Edward Rousseau, Leominster, Mass., Denies Guilt in N. B. Girl's Death

SHEDIAC, Jan. 7.—Edward Rousseau, of Leominster, Mass., has been ordered held for the Worcester County Grand Jury which will convene on Jan. 26 on a charge of being responsible for the death by suffocation of Miss Lena Le Blanc, formerly of Moncton and Shediac at Leominster on or about Dec. 16, last.

The body of Miss Le Blanc, who was aged 21, was found encased in ice of a park lake on Dec. 19, after she had been missing for several days.

District Attorney Baker has interviewed and summoned several witnesses who say they saw Rousseau with Miss Le Blanc on a street near the park at the time she was last seen.

Medical Examiner Harry P. Bissett, of Leominster, has received a report from the Harvard University Medical School that no poison was found in the vital organs of Miss Le Blanc.

A Worcester report that Miss Le Blanc may have been frightened to death by some person is not regarded seriously by the State detectives and District Attorney.

It is announced that should Rousseau be freed of charge in the Le Blanc case he will be returned to the Vermont State prison at Windsor, in which institution he has served 4 years and 10 months sentence for attacking a woman with intent to rob. He was paroled last winter, but has violated his parole conditions by committing burglary in Leominster, according to the report. He is 21 years old and a neighbor of the Le Blanc family.

DENIES CHARGE. Rousseau still denies that he was responsible for the girl's death. He admits talking to her about the time she disappeared, saying that he met her while on his way to search for work at the factory where Miss Le Blanc was employed.

Chief of Police Michael T. Conlon, of Leominster, has received a letter from a former Canton, Ohio, resident now living in St. Petersburg, Florida, telling of deaths of two girls similar to that of Miss Le Blanc, which occurred in Canton late in 1924. The letter also gave the information that the suspect is now living in Massachusetts. Both Canton girls died of suffocation, their bodies being found in lonely spots, one in a park pond. It is possible that Chief Conlon will investigate the movements of the Canton suspect, whose name he declines to disclose.

Many former residents of Shediac and the parish reside in Leominster and the adjacent section of northern Worcester county.

Makes Skating Safe By Taking Water Away

ROSSDORF, Hessen, Germany, Jan. 8.—The people of Rossdorf are claiming the year's first safety-first prize for their burgomaster. Hoping to popularize himself with the skaters of the town—and most of the voters state—he changed the village bell and announced that the community's large outdoor swimming pool was frozen and ready for skating. But skating enthusiasts found the ice cracked and sagging so that it touched the bottom of the pool. The burgomaster explained that he had drained all the water out to prevent drowning should any one break through.

Schr. Eugene Owen Mackay Abandoned; Wabana Saves Crew

Both Vessels Have Visited Saint John Frequently—Schooner Capt. of Family of Seamen

Wireless reports yesterday told of the rescue of the crew of the four-masted schooner Eugene Owen Mackay by the steamer Wabana when the former vessel had to be abandoned about 200 miles off Halifax. Both vessels are well known in this port as they have been frequent visitors here. The Wabana is operated by the Dominion Coal Co. and the schooner is handled by Kerrison & Linton, local agents.

According to wireless reports the schooner had lost her rudder and sails during a storm and was leaking badly. The Wabana was bound from Sydney to Vancouver, B. C., via the Panama Canal.

The Eugene Owen Mackay was commanded by Captain George B. Merriam, who is a brother of Captain Joseph C. Merriam, of the schooner Victory Chimes, now in this port. He also has another brother captain of a schooner, while his father is also sailing in command of still another vessel. All these men are very well known in this port.

C. M. Kerrison, of Kerrison & Linton, said, this morning that the Eugene Owen Mackay loaded her last cargo in the Maritimes at Eum Secum, N. S., for New York. After discharging there she sailed for Tur's Island in ballast and loaded salt for Luenburg. It was on this voyage that she met with mishap. The schooner is owned by Captain C. B. Merriam, of Parrsboro, a cousin of the vessel's captain. She was built at Diligent River in 1918 and is of 501

Sussex Man Believed To Be Sole Survivor of Originals In Royal Canadian Regiment

FREDERICTON, Jan. 7.—Today is the fortieth anniversary of the first enlistment of the Royal Canadian Regiment, originally known as the Infantry School Corps of Canada. The late Capt. Thomas McKenzie, of Saint John, was the first man enlisted and reverted in rank from his position in the old New Brunswick militia to become sergeant-major. James M. Torrance, of Sussex, who was enlisted as a bugler, is believed to be the sole survivor of the men enlisted for the original company.

BABYLON STENOGRAPHERS

Modern times have a remarkable counterpart 4,000 years ago in ancient Babylon, says "Capper's Weekly." Women in business were by no means rare then. Tablets exhibited by Edward Chiera, American Assyriologist, show they worked in factories and engaged in trade on their own account. They had a monopoly of the saloon business, but the saloons of ancient times were even less respectable than the modern institution, consequently the women barkeepers were not held in high esteem. There were stenographers then, most of them women. The so-called cuneiform writing was so complicated it took many years to learn it, consequently almost every one simply dictated letters to scribes, who sat at tables near the gates of cities. These ancient stenographers held positions of influence and responsibility, as they were lawyers as well, and saw to it that all contracts were legally worded. We greatly underrate the knowledge and culture of the ancients.

Watch Out for the Beauty Who Has All Her Stock in the Front Window; the Cat Girl, Whose Claws are Sharp; the Pious Girl, Who Prays for You; the Man Girl, Who is Out for Scalps, and the Business Girl, Who Knows You Too Well.

CONSIDER the ways of women, son, and grow wise. Observe the beauty. The human peach. She of the golden hair, the rosy cheeks and sparkling eyes. A man just naturally reaches out for her as a baby does for a glittering toy.

DOROTHY DIX

Go slow, son. The beauty is a shopkeeper who has her whole stock in the front window. Nature is a sign-gardly jade that seldom deals a full hand to any one person, and the woman whose head is gorgeously up-poddered outside is mighty apt to have it skimpily furnished within. Perhaps there are maidens who are both brilliant and beautiful, but the combination is as scarce as hen's teeth.

As a matrimonial risk, the beauty may be compared to a speculation in one of the hot-air companies where you get a gorgeously engraved stock certificate for your money. A man invests his all in it and is chasty about his deal for a few months and bankrupt the balance of his life.

FOR the man who marries for beauty is bound to lose out. A few years fade the roses in the fairest face and streak the most golden locks with gray. Then nothing is left but the memory of vanished charms, and from the woman who has once been beautiful and has no hold-over but the air and vanity and selfishness of former good looks—good Lord, deliver you!

Then there is the cat girl, son, who is kittenish when she is young and tabby when she is old. She has cute little ways and she purrs under your hand when you stroke her for the right way, but watch out for her claws, son.

SAY to her, "What a pretty girl Mary Jones is," and she will smile sweetly and reply, "Isn't she wonderful? I think she makes up better than any girl I know."

Also the cat girl may be known by the ease with which she puts her back up about nothing. She is all suavity and amiability as long as everything goes her way, but the minute her little feelings are ruffled she spits fire.

Beware of the cat girl, son, for she is cruel and cold and selfish. She likes to play with a heart as if it were a mouse. And if a man loves her, even if she doesn't intend to marry him, she never lets him go. She keeps him forever dangling after her until the best years of his life are wasted and his whole life embittered.

And when she marries she makes the saddest kind of a wife, who always has to have the warmest brick by the fire, who laps up all the cream and deserts her husband when the fire grows low and the larder gets empty.

THEN there is the bossy girl. It is a pity that men who devote so much time to admiring the female countenance spend so little time in studying it. Physiognomy may not be an exact science, but it makes some mighty good guesses. Therefore, instead of admiring the curve of a cheek or a chin, bear in mind what those features indicate. Thus may you be saved from being heckled out of your immortal soul.

You cannot lead a thin-lipped maiden with quivering nostrils and glittering eyes to the altar without carrying home with you a bunch of feminine nerves and temper that is going to keep you walking on eggs the balance of your life. Nor need you espouse a lady with a square jaw and a heavy chin, with the look of a Missouri mule in her eyes, and expect to find that you are united to a sweet and yielding disposition that you can mold over to your own pattern.

OBSERVE, also, if a girl is given to running societies and clubs and if she is efficient thereat. If she can pull off a church fair without getting nervous prostration she will likewise be perfectly capable of running you without turning a hair. Furthermore, she will do it.

Then there is the man girl. Every man comes her way is her meat, but she cares for no man. She is rude to women, she is dull and stupid and frowny when only women are around, but just let a man leave in sight and she wakes up and is all animation and charm and amiability.

INASMUCH as it is a man, and not his sisters and his cousins and his aunts, who marries a woman, it wouldn't so much matter how a girl treated other women; if only her adoring attitude would last toward the man she marries. But it doesn't.

The man girl is a sportsman whose blood is only kindled by the chase, and as soon as she captures a victim she loses interest in him and goes after fresh prey, and she makes the sort of a wife who keeps the divorce courts busy because she is always on a still hunt for fresh game.

THEN there is the pious girl, who is filled with high ideals and who feels that she has a call to do missionary work in your behalf. She is dangerous, because in a way she represents a man's ideal of what a woman should be, but she makes a pretty trying sort of wife. Angels are not adapted for domestic life on this mundane sphere, and it is one thing to be preached to before you are married and another thing to be preached at after you are securely tied to a lady who has the legal right to deliver certain lectures on your faults.

Therefore, son, sidestep when a girl begins to tell you that she will pray for you every night, because if you don't make a getaway then and there you will be elected to be prayed on the balance of your life.

AND there's the business girl, who is nice and sensible and chummy, and who is a preferred risk in matrimony except for one thing. And that is that she has got your number, son. She has worked for men and with men, and she knows all of their little tricks and their manners, and there will be no putting over anything with her about business conferences and customers from Ohkosh.

If you marry her you will have a good, square life partner who can talk shop with you, who won't be jealous of your business, who will make many excuses for you that the purely domestic woman doesn't know enough to make and who will take care of your money, but you will have to give her as square a deal as you would another man and go fifty-fifty with her on the earnings of the firm of Benedict & Co.

GERMANY now has a stable currency and the German budget is balanced," said S. Parker Gilbert, agent-general for reparations payments under the Dawes plan, now on a visit in the United States, in an interview. He also stated that the reparations plan had notable results.

In discussing reparations Gilbert said: "The first annuity of one thousand gold marks was all paid within the year, four-fifths out of the proceeds of the German external loan and the balance by the German Railway Company in the form of interest on its reparation bonds. In the second annuity year, over three months of which have passed, the amount to be paid rises to 1,220 millions of gold marks and involves for the first time a charge on the German budget. These payments Germany is making each month with the utmost promptitude. The various creditors, on their part, have been receiving reparation deliveries and payments regularly ever since the plan went into effect.

PLAN IS A SUCCESS. "It would be futile to draw conclusions now as to the ultimate possibilities of reparations. The fact remains, however, that the plan has succeeded

SEE-SAWING ON BROADWAY

MONTH by month the picturesque cosmothen with their phantoms, baroques and surries to rent seem to fade from the New York picture. But one there is who gives no heed to the taxicab invasion and who is as well known on Broadway as the nose electric chewing gum sign. "Sippi," he is called and he is Broadway's official lackman. Nobody seems to know the name of the old darkey, but actors, night club habitués, butler-and-egg men and all the rest of the bright lights crowd have known him for years. The story goes that recently "Sippi's" interest in horses spread to certain race tracks and shortly thereafter his Victoria and nag were missing from the street-of-astoria. Inquiry revealed that the race track horses had not been faithful as his own. The sad fact seemed to be that "Sippi" had had to put his famous outfit in hook.

"Sippi" appeared on Broadway, but on foot. The tale continues that he met Al Jolson, the backface comedian, told his tearful tale and departed smiling happily, a check in his pocket. Since that time "Sippi" can be found in placing the whole problem on a new basis. It has put aside bickerings and the world has been able for the first time in many years to stop talking about reparations. The plan has made it possible instead to find out in a practical way what the payments are and how far it is feasible in actual practice for reparations to be paid by Germany and transferred to the creditor powers. The plan proved to be the turning point in the view of German reconstruction from the disorder and disorganization of the inflation."

ADVENTURES of the TWINS

by OLIVE ROBERTS BARTON THE GOBLINS AND THE ICE POND

That night Jack Frost did another kind thing. He blew his breath on the pond and froze it almost solid. In the morning, when the children sled it, they all cried, "Hurrah! Now we can try our new skates and hockey sticks that Santa Claus brought us for Christmas!" It wasn't more than fifteen minutes until the pond was simply black with children skating. They were doing plain skating and making circles and the double roll and playing hockey and shouting and laughing, and having such a merry time that if Jack Frost was around anywhere he surely must have been pleased. But Nancy and Nick were not there! They were away off on Sled Track Hill with Inch o' Pie looking for the bad little goblin who had spoiled the sled track the day before. You remember, don't you, how he had spilled salt all over it and ruined it for skating? For salt will melt ice about as quickly as soap removes dirt. The Fairy Queen was so upset when she heard about it that she sent a special delivery letter to Inch o' Pie which said: "Dear Elf: If you and the Twins don't catch that naughty goblin, Tweeeknose, soon, the children will have their Christmas vacation entirely ruined. He has already spoiled one party and a lot of toys, and I hear that he has recently ruined a sled track. Watch out for him and catch him if you can. "Lovingly, "The Fairy Queen."

So Inch o' Pie and the Twins were waiting on Sled Track Hill to see if the goblin would show up. And all the time they should have been somewhere else. The other children went on sitting and shouting and having a grand time, never noticing a small figure slipping on a stone beside the pond. This little fellow had no skates. He hadn't even an overcoat or a sweater or gloves or gaiters. But he didn't seem cold. He had a funny pointed cap, and funny pointed shoes and a long funny pointed nose and little sharp eyes that saw everything. By and by he got up and walked away. But as soon as he was out of sight beyond the woods, he took to his heels and ran like a deer. And by and by he came to a little round door under a big rock which said "Front Door of Goblin Land."

And in he went without knocking. Of course you have guessed that he was Tweeeknose and you are exactly right. And he was up to mischief. "Hi, there, Crookshanks and Jigabump and Slip Scissors and Zimber Ears and

"These days are gone forever" . . . except for the "little theatre" groups. To break into Broadway one must use everything but burglar's tools these days. Managers are no longer interested in speculative chances. They must be insured against loss, no matter what the attraction. The advance deposits must be large and fat. Because of this situation the greatest theatre town in the world was astounded to learn the other day that one producer, George C. Tyler by name, had decided to go back to the old one-night-stand idea in order to find out if Sheridan's classic "School for Scandal" would still draw a crowd.

This is the first time Broadway has seen a one-night stand since the cows grazed in Fifth Avenue. JAMES W. DEAN.

ADVANCES IN PRICES OUTNUMBER LOSSES ON SAINT JOHN MART

ADVANCES outnumbered declines on the local market during the past week, and among those commodities listed at higher prices were potatoes, small pork, fowl, cranberries, evaporated milk, finnan haddies, medium and bonafide herring. The market was fairly quiet after the holiday season.

In wholesale country market potatoes sold at \$5.50 to \$6 a barrel. Small pork showed a one to four cent advance at 18 to 19 cents a pound.

Fresh extras in eggs were down five cents at 85 cents a dozen, and pullet extras made a similar drop at 50 cents a dozen. Storage herring were down two cents, at 45 cents a dozen, and storage seconds were selling at 40 cents. Fowl at 25 to 30 cents a pound were up five cents.

POTATOES UP CENT.

In the retail green goods list potatoes were up one cent a pound and selling at four to five cents. Cape Cod cranberries were five cents a quart dearer, at 20 to 25 cents.

Protests of Russian Women Block New Marriage Code

RIGA, Jan. 8.—The expected passage of the revised code of Soviet marriage laws, which was to place all forms of cohabitation on an equal basis whether registered or unregistered, has received a setback at the hands of Russian women.

The law had already passed the Central Committee of the Soviet Party, and several other government departments and when introduced before the Central Executive Committee, or "Red Parliament" as it is sometimes called, it was supposed that its passage would be but a matter of ordinary routine.

But the reading of the revised code was greeted with cries of protest on the part of many women present. They pointed out that the revised code permitted even looser relations than now existed in the family tie, and that present conditions were bad enough.

Loose marriage regulations, together with the facilities and inducements for divorce, they argued, had filled the country with vagrant, outcast children and divorced wives. Although under the present code some men had married and divorced as many as 10 women in one year, they felt, they felt, that the present law afforded the women more protection than that provided under the new law.

In the face of this unexpected storm the Executive Committee decided to postpone the passage of the revised code. President Kallin then announced that the measure would for the time being be withdrawn and not reintroduced until it has been thoroughly discussed in the lower village Soviets, district Soviets, women's departments and in the press.

Officers Elected at Annual Meeting—Planning For Winter Activities

Peter's choir enrolled Wednesday night as the result of a special plea made by the president of the choir at the weekly social of the Holy Name Society of the parish held in the society's rooms.

The annual meeting of the choir was held immediately after the social and the newly enrolled members were welcomed. Rev. J. Clarrin, C. S. R., in an inspiring address made a plea for co-operation and greater interest in the work of the choir and promised to do all in his power to aid the choir. The officers elected were as follows: President, William J. Grannan; vice-president, Edward Corkery; secretary-treasurer, Robert Butler; additional members of the executive, G. C. Hanson and Patrick Graham. Arrangements were made for a meeting on Friday evening when plans for the winter activities will be made.

WANT ALLIANCE TO EVANGELIZE LOCAL CHINESE

Women's Missionary Union Ask That Men Now Take Over Task

MRS. A. MORRISEY CHOSEN PRESIDENT

Rev. E. C. Hennigar Tells of Japan—Social Conditions Bad

A RESOLUTION urging the Evangelical Alliance of the city to take up missionary work among the local Chinese was passed unanimously at the annual meeting of the United Women's Missionary Societies of Saint John, held yesterday afternoon in the hall of St. Andrew's church.

Mrs. R. A. Jamieson, president, was in the chair and the large attendance taxed the capacity of the hall.

Mrs. Alfred Morrissey was elected president for the ensuing year. Rev. E. C. Hennigar was the speaker of the afternoon. An offering was given in aid of the New Brunswick Protestant Orphanage.

The opening devotional period was conducted by Mrs. W. Johnston, and prayer was offered by Mrs. H. A. Goodwin and Mrs. R. G. Fulton. Mrs. Hugh Miller gave a vocal solo that was greatly appreciated.

LOSS SUSTAINED.

Mrs. J. J. Gillies, secretary, made feeling reference to the death of two leading Women's Missionary Society workers, Mrs. George F. Smith and Mrs. John A. McAvity. Letters of sympathy will be sent to the bereaved.

Mrs. C. F. MacLennan gave the report of the special committee on work among the Chinese in the city.

There are, she said, 100 Chinese in the city. In Trinity Sunday school, conducted for 25 years, there are now six enrolled, and in Central Baptist conducted for 30 years, there are ten enrolled. Because of differences in customs, between the East and West, it was difficult for women to reach Chinese men, and because the Chinese Association meets at the same time as the Sunday schools, the committee advocated petitioning the Evangelical Alliance to take up the work, offering that body any needed co-operation. This recommendation was made a resolution and carried unanimously.

INTER-PROVINCIAL HOME.

Mrs. Jamieson spoke of the opening of the inter-provincial home for women at Moncton on Feb. 2, and told of the immediate need of supplies of bedding for the home.

The home, she said, would take away a great reproach on the Protestant people of these provinces.

It was agreed in future the business of the meetings of the United Societies should be deferred until after the special program.

OFFICERS ELECTED.

The nominating committee's report read by Mrs. Scott, was adopted and officers were elected as follows:

President, Mrs. Alfred Morrissey; vice-president, Mrs. R. A. Jamieson; second, Mrs. N. C. Scott; secretary-treasurer, Mrs. J. J. Gillies; denominational representatives, Anglicans, Mrs. H. Usher Miller, Mrs. C. F. Regan; United church, Mrs. H. C. Rice; Mrs. W. McM. Matthews; Christian church, Mrs. J. S. Flagler; Mrs. Margaret Roberts; Continuing Presbyterians, Mrs. James Armstrong, Mrs. J. A. Morison; Baptist, Mrs. O. T. Clark and Mrs. Norman F. MacLeod.

Hearty applause was given Mrs. Morrissey as she spoke of her appreciation of the honor conferred on her.

In his address Rev. Mr. Hennigar said his own work was entirely evangelical and he had known the joy of founding little churches in about a dozen towns in Japan.

HIS PRESENT FIELD.

His present station was in a city, about the size of Saint John, where there is a Government college in which he conducted a Bible class. This has brought many converts. He found the students were meeting grave temptations in the drink and that the drink habit was universal in the homes in Japan, so he set about trying to remove this evil thing.

He had been able to organize forty-seven different temperance organizations in the province where he was stationed and recently a provincial temperance organization was formed to band the smaller ones together.

AFTER FIFTY YEARS.

Mr. Hennigar said that after fifty years of Protestant missions in Japan there were only 150,000 Protestant Christians in that country. In proportion to the effort he did not think the result was good and he found that another strong enemy of missionary work was the terrible vice conditions. There were 115,000 women in Japan registered as living a life of impurity and the Government licensed brothels. On the other hand there were only 37,000 girls in High Schools in Japan and only 5,000 girls enrolled in lower university courses.

Mr. Hennigar had been organizing

secretary of a movement for doing away with this licensed system in his own province, and had been instrumental in having a petition brought before the provincial government on three successive years. The first year the petition had 1,500 signatures and the following year the number of signatures was 6,500, while in this present year there had been 11,000 signatures to the petition and 18 members in the Legislature had pledged themselves to support the measure, if it was brought before the House next year.

The movement had spread to other provinces already, Mr. Hennigar said.

ANTI-T. B. WORK.

Another social educational work which he had undertaken as a step towards the bringing of Christ's kingdom was anti-tuberculosis work. Tuberculosis was the great scourge of Japan, he said, and the death-rate was three times as great as the tuberculosis death rate in Canada.

The missionaries, with their better heritage of hygiene education and sanitary ideals, could make a great contribution to Japan in the fight against tuberculosis. He had been preaching the gospel of the curative power of sunlight to the poor in Japan and he believed that tracking down sickness and the demon of strong drink, which were the roots of poverty, was more effective work than ministering to the poverty in the slums of Tokio.

NOT FUNCTIONING TO UPLIFT.

Mr. Hennigar explained that although Japan was one of the five great nations of the world the native religions of Japan were not functioning to purify the nation and not one Buddhist priest could be enlisted in any of the work he had spoken of.

The leaders in Japan, he said, were alive to the need of this work and were calling on the missionaries for their help.

A resolution of hearty thanks, was extended to Mr. Hennigar for his address.

Here, Mr. Hennigar left last night for New York, where he will take a special course of study during the next two months.

IS SECOND MEMBER TO DIE SINCE VOTE

Death of F. L. Potts Causes Speculation About Election

FREDERICTON, Jan. 7.—There is speculation in political circles already as to whether the by-election to fill the vacancy created by the death of late John Potts, one of the members for Saint John county, will be held before the approaching session of the Provincial Legislature.

Mr. Potts is the second member-elect of the new Provincial Legislature to die without having taken his seat, an almost unparalleled event in political annals in New Brunswick. The vacancy created by the death of the late J. M. Flewelling, member for St. Stephen-Milltown, was filled by the election by acclamation of A. R. MacKenzie, of St. Stephen.

There is time to fill the vacancy created by the death of Mr. Potts, who was also Mayor of the city of Saint John, before the Legislature meets late in February or early in March.

Hon. L. P. D. Tilley, K. C., president of the executive council, said here last evening that the matter of a by-election had not yet been discussed by the Government.

EACH VOTER COSTS 66 CTS.

OTTAWA, Jan. 7.—It costs the Dominion about 66 cents to obtain the vote of each elector in Canada. The estimate of the cost is about \$2,100,000. The popular vote was roughly 8,157,846. In the general election of 1921 the popular vote totalled about 8,121,844. The cost of the election to the Government was about \$1,700,000.

PROGRAM AT SILVER FALLS IS ENJOYED

Christmas Sunday School Entertainment Given at United Church Last Evening

The annual Christmas treat and entertainment of the Silver Falls United church Sunday school was held last evening and much enjoyed. There was a handsomely decorated tree, the room being attractively decorated with greenery. Fred Snodgrass, the superintendent, was in the chair. Rev. Hugh Miller, pastor, gave a short address and presented the prizes won by the various classes. Stuart Josselyn received a prize for perfect attendance and Ernest Snodgrass a prize for good attendance. Every one present received a bag of candy and an orange.

A pleasing program of recitations, solo, exercises and choruses by the school and choir was nicely rendered. The items of the program included the following: Hymn, "All Hail the Power of Jesus Name", prayer by the pastor; welcome chorus by the scholars; recitations, Audrey Young, Bob Arthur, Gladys Armstrong, Barry Miller, Regina Armstrong, Ralph Shillington, Willie Douglas, Donald Garnett, Kathleen Alexander, Stuart Josselyn and Miles Arthur; choruses by the choir by six girls and by the choir; welcome exercise in chorus by a number of the school members and by seven boys and girls; vocal solos by Ernest Snodgrass and Hazel Hicks; duets, Donald Bustin and Fred Alexander; duet, Kathleen Alexander and Evelyn Alexander; trio, Vera Bustin, Helen Josselyn and Florence Hicks; and reading, by Mrs. Sidney Wyatt.

GETS GOOD START

New Y. M. C. A. Club Has 100 Per Cent. Attendance at First Weekly Supper

The first of the weekly supper meetings of the newly organized club for young men of the Y. M. C. A. was held last night under most auspicious circumstances. The club has a charter membership of 25 and there was 100 per cent. attendance. The president, Edgar Peters, was chairman.

A lively sing song interspersed the various courses of the excellent supper. Mr. Peters outlined the program and activities proposed for the coming year and W. B. Pearce, president of the Y. M. C. A., and honorary president of the new club, gave an address on the general work of the Y. M. C. A. as a world wide organization. A reading was contributed by Ronald Shaw and Leslie Bewick gave a vocal solo. Dr. F. T. Dunlop was the accompanist. The last three are members of the Y's Men's Club of the Association.

The supper was served by a committee of the Ladies' Auxiliary of the Y. M. C. A. with Mrs. G. Wilford Campbell as convener.

Thank goodness! that now, when a woman is weak and haggard and don't weigh what she ought to, she knows where to go for help, as all druggists are now selling McCoy's Cod Liver Extract Tablets, sugar coated, and as easy to take as candy.

And it's a mighty good thing for skinny, rundown men and women to know that they can get the real Cod Liver vitamins in condensed form, that they can easily carry with them wherever they travel.

Men and women, weak, thin and nervous, are urged to put on weight and get back their health and strength with these wonderful tablets.

One woman gained 15 pounds in five weeks and that's going fast enough for anyone.

Only 60 cents for 60 tablets, and if they don't put five pounds of flesh on any thin person in 30 days — why, money back and no quibbling about it, either.

Meeting of City G. W. V. A. Executive Held—Mayor's Death is Mourned

The executive of the city branch of the G. W. V. A. met last night to complete organization for the new year. J. G. Dryden, president, was in the chair and made feeling reference to the death of His Worship Mayor Potts. A resolution of regret at the passing of the Mayor and of condolence to the bereaved relatives was passed and will be carried forward to the general meeting for further endorsement. Copies will be sent to Mrs. Potts.

Those present at the meeting were president, J. G. Dryden, vice-presidents, F. Ashe and J. V. Shea and members, E. Ernest Case, Harry Roberts, W. A. Dougherty, Jr., W. W. Donahue, George Cripps and S. C. Tippetts. Three new members were added to the executive, George R. Reid, F. Phillips and G. Robinson. Conveners were appointed for the following committees. Sports benevolent, ways and means, entertainment, hall and house, and employment. The naming of committees will be completed and they will be announced at the next meeting of the executive.

Meeting of City G. W. V. A. Executive Held—Mayor's Death is Mourned

The executive of the city branch of the G. W. V. A. met last night to complete organization for the new year. J. G. Dryden, president, was in the chair and made feeling reference to the death of His Worship Mayor Potts. A resolution of regret at the passing of the Mayor and of condolence to the bereaved relatives was passed and will be carried forward to the general meeting for further endorsement. Copies will be sent to Mrs. Potts.

Those present at the meeting were president, J. G. Dryden, vice-presidents, F. Ashe and J. V. Shea and members, E. Ernest Case, Harry Roberts, W. A. Dougherty, Jr., W. W. Donahue, George Cripps and S. C. Tippetts. Three new members were added to the executive, George R. Reid, F. Phillips and G. Robinson. Conveners were appointed for the following committees. Sports benevolent, ways and means, entertainment, hall and house, and employment. The naming of committees will be completed and they will be announced at the next meeting of the executive.

RETURNS HOME

D. C. Clark, 341 Charlotte street, West Saint John, returned home Tuesday, after spending four months in Palo Alto, California, with Mrs. Clark, who has been in poor health. Mrs. Clark's friends will be pleased to learn that, although she is not yet able to return home, her health is greatly improved.

IS SECOND MEMBER TO DIE SINCE VOTE

Death of F. L. Potts Causes Speculation About Election

FREDERICTON, Jan. 7.—There is speculation in political circles already as to whether the by-election to fill the vacancy created by the death of late John Potts, one of the members for Saint John county, will be held before the approaching session of the Provincial Legislature.

Mr. Potts is the second member-elect of the new Provincial Legislature to die without having taken his seat, an almost unparalleled event in political annals in New Brunswick. The vacancy created by the death of the late J. M. Flewelling, member for St. Stephen-Milltown, was filled by the election by acclamation of A. R. MacKenzie, of St. Stephen.

There is time to fill the vacancy created by the death of Mr. Potts, who was also Mayor of the city of Saint John, before the Legislature meets late in February or early in March.

PROGRAM AT SILVER FALLS IS ENJOYED

Christmas Sunday School Entertainment Given at United Church Last Evening

The annual Christmas treat and entertainment of the Silver Falls United church Sunday school was held last evening and much enjoyed. There was a handsomely decorated tree, the room being attractively decorated with greenery. Fred Snodgrass, the superintendent, was in the chair. Rev. Hugh Miller, pastor, gave a short address and presented the prizes won by the various classes. Stuart Josselyn received a prize for perfect attendance and Ernest Snodgrass a prize for good attendance. Every one present received a bag of candy and an orange.

A pleasing program of recitations, solo, exercises and choruses by the school and choir was nicely rendered. The items of the program included the following: Hymn, "All Hail the Power of Jesus Name", prayer by the pastor; welcome chorus by the scholars; recitations, Audrey Young, Bob Arthur, Gladys Armstrong, Barry Miller, Regina Armstrong, Ralph Shillington, Willie Douglas, Donald Garnett, Kathleen Alexander, Stuart Josselyn and Miles Arthur; choruses by the choir by six girls and by the choir; welcome exercise in chorus by a number of the school members and by seven boys and girls; vocal solos by Ernest Snodgrass and Hazel Hicks; duets, Donald Bustin and Fred Alexander; duet, Kathleen Alexander and Evelyn Alexander; trio, Vera Bustin, Helen Josselyn and Florence Hicks; and reading, by Mrs. Sidney Wyatt.

GETS GOOD START

New Y. M. C. A. Club Has 100 Per Cent. Attendance at First Weekly Supper

The first of the weekly supper meetings of the newly organized club for young men of the Y. M. C. A. was held last night under most auspicious circumstances. The club has a charter membership of 25 and there was 100 per cent. attendance. The president, Edgar Peters, was chairman.

A lively sing song interspersed the various courses of the excellent supper. Mr. Peters outlined the program and activities proposed for the coming year and W. B. Pearce, president of the Y. M. C. A., and honorary president of the new club, gave an address on the general work of the Y. M. C. A. as a world wide organization. A reading was contributed by Ronald Shaw and Leslie Bewick gave a vocal solo. Dr. F. T. Dunlop was the accompanist. The last three are members of the Y's Men's Club of the Association.

The supper was served by a committee of the Ladies' Auxiliary of the Y. M. C. A. with Mrs. G. Wilford Campbell as convener.

She Was Weak, Thin and Nervous

One of the greatest strength givers and producers of good healthy flesh in the world is Cod Liver Extract—its full of vitamins. A reading was contributed by Ronald Shaw and Leslie Bewick gave a vocal solo. Dr. F. T. Dunlop was the accompanist. The last three are members of the Y's Men's Club of the Association.

The supper was served by a committee of the Ladies' Auxiliary of the Y. M. C. A. with Mrs. G. Wilford Campbell as convener.

Thank goodness! that now, when a woman is weak and haggard and don't weigh what she ought to, she knows where to go for help, as all druggists are now selling McCoy's Cod Liver Extract Tablets, sugar coated, and as easy to take as candy.

And it's a mighty good thing for skinny, rundown men and women to know that they can get the real Cod Liver vitamins in condensed form, that they can easily carry with them wherever they travel.

Men and women, weak, thin and nervous, are urged to put on weight and get back their health and strength with these wonderful tablets.

One woman gained 15 pounds in five weeks and that's going fast enough for anyone.

Only 60 cents for 60 tablets, and if they don't put five pounds of flesh on any thin person in 30 days — why, money back and no quibbling about it, either.

But be sure and get McCoy's, the original and genuine. "Wasson's" two stores, Ross Drug Co., Wm. Hawker & Son and druggists everywhere are selling lots of them.

NO OPPOSITION AS LEMIEUX IS NAMED SPEAKER

Meighen in Concurring With Choice Declares There is No Government

TRIBUTES PAID BY LEADERS OF PARTIES

Forkes Agrees to Selection For Which Lemieux Extends His Thanks

OTTAWA, Jan. 7.—Hon. Rodolphe Lemieux was this afternoon appointed speaker of the House of Commons for the present parliament. The appointment was moved by Hon. Ernest Lapointe, and seconded by Hon. James A. Robb, Minister of Finance. Rt. Hon. Arthur Meighen, Conservative leader, concurred in the appointment as did Robert Forkes, leader of the Progressives. Mr. Meighen observed that Mr. Lapointe, in making his motion, was speaking as a member of the House. Mr. Lapointe, he added, could not speak for the government, "because there is no government."

RETURN FROM SENATE

Returning from the Senate chamber, the Commons re-assembled and Hon. Ernest Lapointe took the floor after Clerk Beauchamp had pointed to him as the first speaker. Mr. Lapointe said that the appointment of a Speaker was most important, because that the occupant of the chair would necessarily influence to a marked degree the character of the debate. The Commons had been fortunate in having for the last four years a Speaker who had filled his office. His tact, his shrewdness, his impartiality had often operated to bring together conflicting elements in the House.

BRITISH RULE SUGGESTED

Mr. Lapointe would suggest that for this occasion, at least, Canada adopt the rule of the British House of Commons and re-elect the same Speaker from one parliament to another. He quoted precedents in Canada, Hon. Joseph Calhoun, first Speaker under Confederation, and Hon. E. N. Rhodes, having been re-elected for a second third term. The re-election of Hon. Rodolphe Lemieux would prove, he believed, to be a bond of union in the House. Hon. Mr. Lapointe's motion was second by Hon. J. A. Robb.

MEIGHEN SPEAKS

Rt. Hon. Mr. Meighen said that it was not customary to challenge the election of a Speaker. With what Mr. Lapointe had said about the qualifications of Mr. Lemieux for the chair he was in hearty accord. He thought he could promise Mr. Lemieux that the Conservative members would give the Speaker the same consideration which they had extended in the last House. Mr. Meighen presumed that Mr. Lapointe brought forward his motion, not as a member of the government, but as a member of the House for an ordinary constituency.

ENDORSED BY FORKE

Mr. Forkes endorsed the appointment of Mr. Lemieux, and the member for Gaspe was then declared elected. He had been sitting at the far end of the chamber and it was noted that he sat between two independent members, Henri Bourassa, of La Belle, and J. S. Woodsworth, Labor leader from Winnipeg.

LEMIEUX SPEAKS

The new speaker was then escorted down the chamber by Mr. Lapointe and Mr. Robb. He stood beside the chair while he made a brief speech of acceptance. He would be often reminded of what had been said of Alexander MacKenzie when he sat in his office. He would continue to try and maintain the dignities, privileges, usages and customs of the mother of parliaments. Mr. Lemieux then took the chair and his first utterance was to declare the motion for his election carried. There was a general laugh mixed with congratulatory applause, which had been accorded the Speaker from time to time as the ceremony proceeded. The mace was simultaneously placed on the table. Beyond the reading of a couple of formal announcements concerning staff, there was no business before the House and the chamber immediately adjourned on motion of Hon. Ernest Lapointe, who is leaving the House in the absence of Premier King.

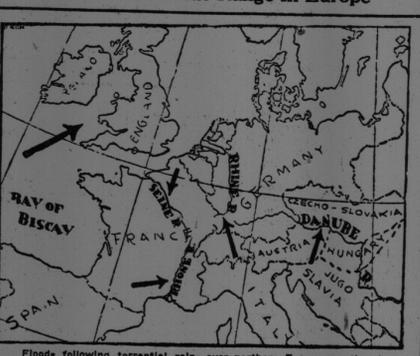

PARTY IN AID OF BATHURST SCOUTS

BATHURST, Jan. 7.—A whist party was held this evening in the British Hall to raise money for uniforms for the local Boy Scouts. About \$44 was realized. The fire department were given a run to West Bathurst this afternoon but on arriving found that some unknown person had turned in a false alarm.

Mrs. Roosevelt Is White House Visitor

WASHINGTON, Jan. 8.—Mrs. Theodore Roosevelt, widow of the former President, called Tuesday on Mrs. Coolidge. It was her first visit to the White House since she retired as mistress in March, 1909. She was accompanied by Mrs. Nicholas Longworth, wife of the Speaker of the House, who was married in the Executive Mansion when her father was President.

Floods Peril Wide Range in Europe

Floods following torrential rains over northern Europe are threatening wide areas with heavy damage. The Seine, Rhone, Danube and Rhine rivers are making many homeless. London is storm swept and steamships crossing the English channel and Bay of Biscay report the worst conditions in years. Map shows where the peril is greatest.

Tourist Family of Eight Lives In Flivver at Florida Camp

CLEARWATER, Fla., Jan. 7.—A flivver is the family bedroom for Mr. and Mrs. William Courtney and their six children, ranging in age from nine years to nine months. The Courtneys, typical of the some 10,000 so-called tin-can tourists in Florida, are "camping out" near here, and their automobile is their home. Courtney is an itinerate salesman for a mail order clothing company. He sleeps on a cot beside his flivver "bedroom." In the rear seat of the car, Mrs. Courtney, with most of their "brood," makes her "nest." Marian, nine, the eldest child, has a "bedroom" of her own in the front seat. Meals are cooked over a camp fire and during the day when Courtney is away taking orders or doing other odd jobs, the children, Katherine, Louise, Rachel, Robert, William, Jr., and Marian play in the big pasture where the camp site is located. Rent for the camp site costs Courtney \$1 a week, wood is free and there are no winter clothes to buy for the children. When it rains, well, like all campers, they expect a soaking occasionally. The Courtneys lived in New Jersey.

Warns About Use of Cheap Beauty Aids

LONDON, Jan. 8.—A warning against cheap, highly-colored and perfumed bath salts and lipsticks was sounded here after complaints of rash and blood disorders began to pour in upon physicians. A lady's maid who thought she had chicken pox was found to be suffering from a rash, which disappeared when she discontinued the habit of languishing daily in a highly-scented bath, according to a West End doctor.

Demonstrates Claim As A Trencherman

NEW YORK, Jan. 8.—William Lacorte of 114 Eighth avenue has the world's biggest appetite. He says so himself. When he admitted his craving for food to a group of Seventh avenue skeptics, the whole party convened to a nearby lunch room, at Greenwich avenue and Bank street, where William was called on to display his talent. He did. Under the eyes of more than a hundred, who came to scoff, but remained to wonder, William downed 12 scrambled eggs, 12 slices of white bread, two large pieces of apple pie, six glasses of milk, and finally, despairing of ever reaching satiety, six glasses of water for a chaser. The skeptics grew tired of paying and the meal was cut short, much to the chagrin of William Lacorte.

Stamp Find

LONDON, Jan. 8.—Nearly \$30,000 was obtained here by auction of a number of postage stamps recently found in a Mayfair attic. One sheet of stamps, issued by British Columbia in 1861, brought about \$3,500, and several other blocks brought prices almost equal.

Bobbing No Crime

DION, France, Jan. 8.—Bobbing the hair of a girl is not a crime, magistrate here has ruled. A hairdresser was charged with disgracement because he bobbed the hair of a young girl without receiving the consent of her parents. The case was dismissed.

Bandits Hanged

DAMASCUS, Jan. 8.—Three Arabs were hanged publicly in Merj Square at dawn. They had been convicted as members of a band which attacked the Bagdad convoy last summer, killing a French captain and wounding several other persons. A large poster detailing the crime was fastened to each body.

Mare to America

LONDON, Jan. 8.—Sunny Jane, winner of the New Oaks in 1917, has been sold to Walter Salmon, American breeder. She will be used in experimental breeding. Lord Astor, her former owner, has announced.

Town Pump Yields Gasoline; Drilling Fails To Locate It

JAMESTOWN, N. D., Jan. 7.—Perseverance of the old town well at Robinson, 75 miles northwest of here, which suddenly started yielding oil where only water was desired or expected, and persistence of more recently drilled wells which refuse despite prayers and exhortations to produce anything but pure water, has created considerable dissatisfaction with nature in this corner of North Dakota. For 20 years the old town well at Robinson, a cavern 600 feet deep, provided a never-failing supply of cold, clear water. It was the best drinking water in the village, and 800 inhabitants, all of Robinson, depended upon it. But one day the bucket emerged from the well containing a liquid con-

laminated with a foreign substance, later identified as oil. The contamination continued with increasing intensity until finally it was the purest mixture of gasoline and petroleum ever found in the United States. The brown fluid tested 62.8 per cent. Only twice before in American oil history had petroleum in its natural state attained a test of 50 per cent. Geologists called upon to investigate said Robinson's oil supply filtered through a formation of quicksand and alkali which accounted for its unusual purity. The oil continued to form a coating over the water in the town well and ruined utterly the formerly faithful source of supply. Many residents bemoaned the condition. But

LANDSLIDE PERILS SECTION OF VILLAGE

GENEVA, Jan. 7.—Part of the village of Schimberg is facing destruction by a 60-acre landslide inexorably approaching it. The slide, which is estimated to weigh a million tons, has caused the inhabitants to demolish and carry their houses from the doomed section, while farmers in the region between the landslide and the village are cutting down their orchards so they can at least save some fire-wood from the coming havoc.

Blast Smashes Windows

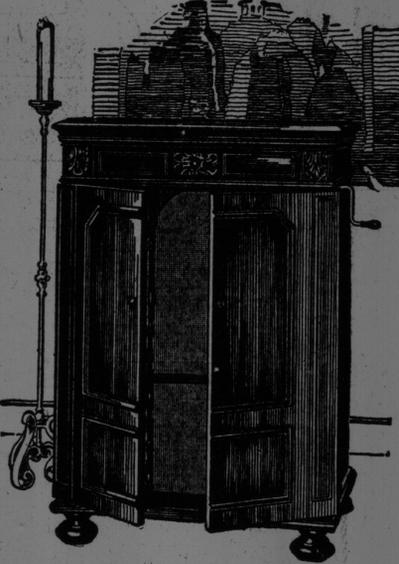

HAMILTON, Jan. 7.—Windows in office buildings and homes nearby were smashed when an explosion occurred in a telephone company's underground cable manhole near one of the main thoroughfares of the city. The force was so great that it blew the iron manhole cover, weighing 100 pounds, about 60 feet in the air.

Great Secret Revealed

WASHINGTON, Jan. 7.—The mystery of the little room at the top of the Capitol dome, which is guarded by a heavy padlocked gate, plastered with warnings of severe punishment to those who ascend the stairs to it, was solved by an inquisitive visitor recently. Braving Senatorial wrath he vaulted the gate and climbed to the highest point in the dome. And there securely guarded lay the secret of the great nation—a well-used mop and pail!

Keep A Tryst

LONDON, Jan. 8.—Carrying out the provisions of a pact made 20 years ago, four men met on the steps of St. Paul's Cathedral. The four, with four others, had agreed in 1906 to meet for a celebration just 20 years later. Two were killed in the war, one has died since, and the fourth has disappeared.

CABINET A WAITS ACTION ON SPEECH

Will Not Fill Vacant Posts Until After Throne Speech Delivered

OTTAWA, Jan. 7.—Once the Speech from the Throne is delivered the Government proposes to assume its normal powers until it should be challenged immediately by the Opposition. If the Government should be so challenged, its future will depend on whether or not it can obtain a majority in the House of Commons.

Premier Macdonald King said tonight that he did not regard the election of the Speaker as a vote of confidence in the Government. The choice of a Speaker was a function of parliament and the selection did not necessarily imply that the Government had the approval of the Commons.

On the other hand, he made it clear that the Government proposes to resume its full powers after the Throne Speech is delivered. The delivery of the speech implied such a resumption of power, he said. It was the right of the Opposition to question the position of the government should it so desire, but failing this the Government functioned in a normal manner.

Since the election, the Government has refrained from entering the power of appointment and consequently a number of vacancies are unfilled. The above statement indicates, however, that until challenged, the Government will go ahead and make such appointments as it considers necessary.

How To Get The Best Results From Your Want Ad.

The small cost of a "Want Ad." is a secondary consideration. The object is results.

Therefore, never compare here and there to save an odd cent or two. By doing so the value of the entire ad. may be destroyed.

When writing your "Want Ad." put yourself in the place of the reader, and answer the questions you yourself would naturally ask.

If you have a flat to rent, the home seeker wants to know more than a plain statement of the fact. He wants to know how many rooms there are; if there is hot water; bath; electric lights; garage, etc., and the amount of the rent.

Your flat may be a \$60 a month home, but if you don't say so in your ad, the \$60 a month tenant may not reply, thinking perhaps it is a \$15 a month flat.

To get the right tenant, quickly, give full information.

To rent a room quickly to the right kind of a roomer, give all particulars. Show that you are anxious to make the roomer comfortable for a reasonable rental.

If you wish to sell anything, do not omit the good selling points. It is far more economical to spend a few extra cents and make the sale, rather than to save a few cents in the cost of the ad. and make no sale.

BOY MADE HOBO BY PAIR OF GLASSES

Fearful of Ridicule in School, Runs Away; Found in New York Park

NEW YORK, Jan. 8.—Hugh McGuire, 15 years old, who lives in Trenton, N. J., was found asleep in the rain on a bench in Battery Park just before dawn. His parents were notified and he was sent to the Society for the Prevention of Cruelty to Children.

Just before Christmas, he said, a defect in his vision was discovered in school and he was directed to get his glasses in his pocket and there they were. His parents equipped him with glasses, he said, but his friends made so much fun of his appearance in them that he was ashamed to wear them. He had invested most of his savings in a ticket to New York.

He had spent two days and two nights in the subway for a total outlay of five cents, but Monday night a special policeman put him out and he had to put up at Battery Park. He had his glasses in his pocket and there they would stay, he said, until he got home and was compelled to wear them.

More Meetings of W. M. A. S. Are Held

The W. M. A. S. of the Charlotte street Baptist Church held its meeting this week at the home of the president, Miss Clara Fullerton, with a good attendance of members. After the devotion the meeting received a call of the general society to observe a week of self-denial and prayer and agreed to carry out this observance. Various topics from the January number of Tidings were referred to and members read selections. Mrs. C. R. Freeman gave a reading. The society decided to hold a Christmas Eve service on Jan. 15 in the church, planning for a tea to be followed by a public meeting in the evening.

The W. M. A. S. of the Lorneville United Church met this week at the home of Mrs. S. E. Galbraith with Mrs. Peter Jackson, president, in the chair. Rev. Peter Jackson led the devotion. The members responded to the roll call by repeating a verse of scripture beginning with the letter "F." Readings were given by Mrs. James McAllister, Mrs. Bertha Ferguson and Mrs. Jackson and Mr. Jackson conducted the lesson from the study book. After the meeting a social half hour was enjoyed and the hostess was assisted in serving refreshments by Mrs. J. McAllister and Miss George King.

How To Get The Best Results From Your Want Ad.

The small cost of a "Want Ad." is a secondary consideration. The object is results.

Therefore, never compare here and there to save an odd cent or two. By doing so the value of the entire ad. may be destroyed.

When writing your "Want Ad." put yourself in the place of the reader, and answer the questions you yourself would naturally ask.

If you have a flat to rent, the home seeker wants to know more than a plain statement of the fact. He wants to know how many rooms there are; if there is hot water; bath; electric lights; garage, etc., and the amount of the rent.

Your flat may be a \$60 a month home, but if you don't say so in your ad, the \$60 a month tenant may not reply, thinking perhaps it is a \$15 a month flat.

To get the right tenant, quickly, give full information.

To rent a room quickly to the right kind of a roomer, give all particulars. Show that you are anxious to make the roomer comfortable for a reasonable rental.

If you wish to sell anything, do not omit the good selling points. It is far more economical to spend a few extra cents and make the sale, rather than to save a few cents in the cost of the ad. and make no sale.

He Was Biggest Turtle

Yale University's new Peabody Museum displays this skeleton of a prehistoric turtle—the largest turtle that ever lived. A member of the museum staff is shown beside it. One of the turtle's feet is gone. The evidence, scientists say, is that this foot was chewed off by a giant lizard some time before the turtle's death.

She Coughed Night and Day Until She Used Dr. Wood's Norway Pine Syrup

Mrs. S. E. Little, 103 Inkerman St., London, Ont., writes: "I got a very severe cold which settled in my bronchial tubes. I coughed night and day, and although I tried several different remedies I could get no relief until a friend advised me to take Dr. Wood's Norway Pine Syrup. This I did, and I must say that it gave me almost immediate relief as I got rid of my cough very quickly. I hope this testimonial will be the means of helping others."

"Dr. Wood's" is put up only by The T. Millbrae Co., Limited, Toronto, Ont.

They Live To Ripe Old Age In This Town

BINGHAM, Eng., Jan. 8.—This small town in Nottinghamshire is winning the name of "Long Life-ville" because of the increasing number of aged residents. Among the citizens here are one octogenarian, five nonagenarians, 95 octogenarians and 96 septuagenarians. In the little Leicestershire village of Sileghing lives a family of three whose ages total 299 years. They are Mr. and Mrs. David Wright, aged 96 and 98, and their youngest daughter, "Tilly," who is 72. A married daughter, Mrs. Thomas Broome, is well over 70.

School Established For Girl Farmers

LONDON, Jan. 8.—To add to the inducements that the English colonies are holding out to prospective colonists it is now proposed to establish a school for girl farmers. While the boys are being trained on one farm in the art of plowing and handling stock, the girls are to be trained in a school nearby in the art of becoming farmers' wives. The first party will consist of 12 girls. They will sail for New Zealand early in February and will receive their training on a fine estate near Palmerston. The expenses of the experiment are being furnished from a fund established by the sheep farmers of New Zealand, a good many of whom, it is said, are minus wives.

THE SEWING MACHINE.

The first sewing machine was invented by Thomas Saint, an Englishman, in 1790, says The Pathfinder. It could sew only plain stitches and was designed chiefly for sewing on leather. Some years later a Frenchman named Thimolier brought out an improved machine for sewing cloth. In 1830 Walter Hunt, an American, introduced the first lockstitch machine, but neglected to take out a patent. About 12 years later Elias Howe produced a machine. Howe was ignorant of the fact that Hunt had previously invented an almost identical one, and Howe's was the first patented lockstitch machine. Sewing machines today are practically the result of constant improvements and modifications of early machines. The chief types now in use include the rotary shuttle, invented by A. B. Wilson, and the reciprocating, or oscillating shuttle, invented by I. M. Singer. In recent years the use of the electric motor to run sewing machines has become extensive.

PADEREWSKI DIDN'T SUIE.

Not long ago Paderewski was a guest at a fashionable hotel in Lucerne, Switzerland, says "The Bridgeport Post." He was sitting in the bar toying with a long-stemmed glass in which liquor least resembling water bubbled, when a man, evidently the bar superintendent, came up to him. "Pardon me, sir, but my bar planist has become ill. I see by the register that you are a pianist. Would you be willing to help me out?" Paderewski pondered, then entered into the spirit of the thing and agreed to play in the bar for 20 francs. He played for ten minutes, when the manager came and asked him to stop, saying that the guests did not like the music and that he could not play sufficiently well. Paderewski was never intended to play for barroom trade. Paderewski thought the hotel proprietor wanted a musician. Whereas he really wanted a piano player.

BOGUS LAWYER IS SENT TO SING SING

NEW YORK, Jan. 8.—Following his plea of guilty last August to grand larceny, William F. Gosner, 33 years old, formerly of 1749 Grand Concourse, the Bronx, was sentenced this week to Sing Sing, by Judge Albert Cohn in the Bronx County Court. It was said Gosner, who practiced law for ten years and then was found never to have been admitted to the bar, defrauded clients out of sums aggregating \$40,000. Sentence was deferred until now on Gosner's promise to make restitution. He failed to do so. The specific charge on which Gosner was arraigned was that he gave a worthless check to William F. Muller of 432 Hoe avenue, the Bronx, in a real estate transaction, keeping for himself the money intended for Muller. Muller's complaint led to an investigation by the Bar Association.

Don't Fuss With Mustard Plasters!

Musterole Works Without the Blister—Easier, Quicker. Don't mix a mess of mustard, flour and water when you can relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure all of mustard and other helpful ingredients in the form of a white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism; lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it may prevent pneumonia).

Royal Castles Are Used For Schools

LONDON, Jan. 8.—Manor houses, royal residences and even ducal castles, are being converted into girls' schools which rival in beauty and comfort of appointment England's most sumptuous homes. A few years ago hygiene and hardihood were the school architects' aims. Now all is changed; luxury is the rule. There are billiards and footmen, carved oaken chairs instead of class desks, while the gymnasiums are hung with ancestral portraits.

Oxford Wars On Balloon Trousers

OXFORD, Eng., Jan. 8.—Doom has been sounded on the Oxford campus against Oxford bags—the wide, wide trousers—and action against the fat trousers has been swift and sure. The crusade has taken a simple form, which is this: When you see Oxford bags on the campus, take them off. It is called "debagging" here. War also has been declared on mauve, high necked jumpers, black Homburg hats, futurist pictures and the burning of incense "digs" before dining.

Seek To Save Boy Sentenced To Die

HARRISBURG, Pa., Jan. 8.—Application for the commutation of the death sentence imposed on William Cavalier, 15-year-old Schuylkill County boy, convicted of killing his grandmother, for purposes of robbery, has been filed with the State Board of Pardons. He is under sentence to die in the electric chair during the week of Feb. 1. The petition contends that young Cavalier is innocent and says infliction of the death penalty would be a "reprobation of the growing humane and Christian attitude throughout the world and a ghastly and shameful blot on Pennsylvania" because of the boy's age.

ROUGHHOUSE WORK FEATURED PRO. HOCKEY GAMES LAST NIGHT

"RED" STUART SCORES, TYING COULDER AT N. Y.

Two Tie Games Played At Montreal and Gotham

ROUGHHOUSE work featured the N. H. L. games last evening. At Montreal, Nelson Stewart drew another major penalty by cracking Couder on the hand. "Hooley" Smith was knocked out by a bad fall on the ice, and it was some time before he came to. At New York, "Red" Green got a broken nose, while Harrington and Randall got bad gashes on the cheek. "Shifty" Green was knocked out for quite a time, and Sprague Cleghorn was ruled off four times for roughness, once for five minutes. The ten party, boys, is getting to the crockery-throwing stage.

MONTREAL, Jan. 8.—Eighty minutes of gruelling hockey, which included the full twenty minutes of overtime play, allowed under the rules—failed to bring a change here last evening in the relative standing of the league leading Ottawa Senators, and the Montreal Maroons, the runners-up in the race. Battling before a crowd of 10,000 at the Forum the two top teams in the National Hockey League series, went the complete route to a 1-1 draw. Weakened by the loss of Frank Nighbor, who was unable to accompany the team, owing to attack of grippe, the Ottawa Senators showed one of the most remarkable examples of fighting team spirit seen in pro. hockey here in many games. Outplayed in the first period by a huge margin, the Senators held the Maroons scoreless and in the second session cut loose with an offensive which matched the scintillating play of the local sextette at its best. Up and down the ice the puck traveled in dazzling fashion in the middle session. Both teams scored once, Montreal's first goal on a smart play by the late Noble, Siebert and Stewart, the latter scoring, being equalled by Ottawa's goal in which Gorman tallied into an open net, cleverly recovering the puck to score on a rebound off the boards from a drive by George Boucher.

Five minutes before the end of the third period, Montreal rushed the Ottawa goal. Stewart tore down centre ice, and when a shot was driven at Couder, the Montreal checked the Ottawa goalie. He was benched by Referee Marsh and the officials immediately gathered around Couder to see the extent of the injury he had suffered. Couder was standing doubled up in the Ottawa net, holding his hand. He later slumped to the ice, and when he was called. At first it was thought that the little finger of his left hand had been broken. The game was stopped for about twenty minutes while he was patched up. Stewart got a major penalty. This is his second, one more automatically suspending him. In the overtime play, Hooley Smith attempted to body Broadbent as the latter was rushing with the puck. He bounced off Broadbent and hit the ice a resounding crack with his head. The blow to his head rendered the player unconscious, and he was carried from the ice. It took considerable attention to bring him around finally, and when he left the rink he was a badly shaken player, and probably more severely injured than he appeared as he stepped into the taxi to return to his hotel. Gorman was outstanding for the Senators. Couder and Smith ran close seconds. On the Montreal side, Siebert stood out with his speed and courageous play. His rugged frame was flashing over the ice at all times and he was closely marked.

ANOTHER TIE
NEW YORK, Jan. 8.—New York and Boston played a scintillating 2-2 tie last night, at Madison Square Garden in the fastest fray that has been witnessed among the pros this season. The two sextettes struggled bitterly through twenty minutes of overtime and could come to no decision. The game was so rough that it took on the delightfully wild abandon of the Donnybrook Fair.

"Red" Green was knocked out with a broken nose, and a cut face. He came back into the game with slight stitches decorating his front piece. Randall suffered a bad cut on the cheek and Shifty Green was knocked out temporarily. Harrington, of Boston, received a bad gash in the cheek. New York had the whip hand most of the way, but in the third period "Red" Stuart, of Boston, spoiled their chances by shooting the tying score. Sprague Cleghorn was the chief offender in uncourteous rule hockey methods. Four times he was ruled off for roughness, once for a five minute period.

It was swift, rip-scoring hockey, and the game teemed with continual action. Violent checking, slashing of sticks, and it is doubtful if any of the little tricks which are used to upset hockey players, were overlooked by the players on both teams. The overtime play was check-full of action and the New York forwards assaulted the Boston net time and again, only to find Stewart barring the way. At times the players were piled on the ice by the half dozen and it took some time to unangle their sticks and skates. Captain Billy Burch of the New York team, was lightning fast in the first two periods, and he scored both of New York's goals, the first he has registered on the local ice surface. The attendance was about 11,000. Herbster scored the other goal for Boston.

Thunberg Voices Disapproval of Method of Starting Races Here

Along The Sport Trail

By JOHN J. DUNLOP

INTEREST in speed-skating is now pointing toward Madison Square Garden where on Thursday night of next week, Clas Thunberg Olympic champion, will meet his first competition on this side of the water. Definite word as to who will compete against Thunberg is lacking although it is possible the field will include Gorman, Jewtraw, Moore and some others. Thunberg has announced his intention of trying for varying marks up to the three-mile. Thunberg will plan to set indoor marks for the 2 1/2, 3 1/2, 4 1/2 and 5 miles. Now, Mr. Thunberg will never read this and even if he could he probably would not put much stock in it, but the Olympic champion in his efforts to set records should not overlook the fact he will be up against some mighty fast men and that to beat a guy on a surface no bigger than the local Arena calls for more skill in negotiating the corners than it does of extraordinary stamina. Mr. Joseph Moore is no great hulk, but there are few who are his masters on an indoor surface. The long sweeping stroke is alright down the side but in getting around the blocks at the ends you have to hug them—otherwise, the other fellow is going to cut right in. And, there is always the chance of slipping and falling in the stress of the final turns. If Mr. Thunberg wants to win this race, he'd be well advised to forget all about breaking records. You can't break records with three or four other guys worrying the life out of you on a restricted surface. We said yesterday Jewtraw was at a disadvantage training but that is not correct. Wednesday night he skated a five-mile exhibition in a Brooklyn rink.

THE SUSSEX COLTS and the Saint John Bulldogs clash at the Arena tonight. Anyone suffering from heart trouble is advised to stay away.

HOCKEY on ice has been referred to time and again as Canada's national game although strictly speaking the game of Lacrosse carries that honor, hockey being an adaptation of the game played in England for many years on the ground. Strange enough field hockey is largely confined to women's clubs in England at present and only recently a team picked from women players in Ireland toured the United States, meeting with considerable success. In Canada, the game on ice developed to the nth degree until today it is the leading winter pastime of Canada and the United States with Canadian boys getting big money for displaying their hockey talent. But in Upper Canada, the ladies are not ignored altogether and ladies' hockey teams are no longer a rarity. Something along these lines is being attempted here in Saint John now and it is barely possible that a hockey exhibition between two ladies' teams will be one of the features at the Arena during the carnival week. The Y. W. C. A. girls are planning to put a team on the ice and another is being recruited at the Arena. The first practice has been called for the Arena Saturday night for 6:30 o'clock.

THE UPSIDE handed the strong High School basketball team by the tilters from St. Vincent's, 16 to 15, was the biggest surprise of the local basketball season to date. It was the Institute's first victory in five starts.

A LOCAL HOCKEY FAN in discussing Charlie Gorman's criticism of the St. Pats-New York game, stated that he quite agreed with Charlie that the local games provided far more real action. His theory for this difference was that the professionals, with their greater experience have brought their defensive game to almost perfect standard and there was not that looseness of play that provides so much excitement. There is certainly something in this argument, but there is also something further. This section of North America, for many moons been the home of fast skaters, and while the local teams could not contend in stick handling and generalship with the pros, they could doubtless skate them off their feet. This is what gives the impression of action and speed, so that the local fans, while they are certainly not seeing the best hockey by a wide margin, are in all probability watching the fastest hockey being played anywhere. If anyone could judge that feature of the game, Charlie Gorman should be the man and that is his view of it.

PRESENTATION TO CARLETON CURLER

E. R. Taylor Honored on Departure to Join Canadian Team in Scotland

The Carleton Curling Club members gave a banquet in their rooms, Rodney Taylor, last night in honor of one of their first members, E. R. Taylor, who sails on the C. P. S. Metagama this afternoon for Liverpool and from this great port of England will proceed to Scotland to join the Canadian curling team. "Skip" Taylor is a clever curler, is always interested in his game from start to finish and will be a valuable addition to the team that represents the land of the Maple Leaf.

The entry of Curly Taylor on the Canadian team means that Saint John clubs are well represented by some of their best, viz., John S. Malcolm, representing the Thistles, and Fred C. Beattie, representing the St. Andrew's Club, who left last week with the other team members on the C. P. S. Metagama, and when joined by "Skip" Taylor for the three local clubs will certainly show a majority of curlers over any other city in Canada.

The joining of the Canadian team by Mr. Taylor is on special invitation of W. C. Murray, president of the Royal Caledonian Club, and the captain of the all-Canadian team to Scotland.

At the banquet last night H. P. Crouse, president of the Carleton club, was in the chair and on behalf of the club members presented Mr. Taylor with a fine club bag. At the conclusion of the "casts," addresses were delivered by Hon. Dr. J. B. M. Baxter, Premier of the province and honorary president of the club; Fred B. Coombs, secretary of the New Brunswick branch of the Royal Caledonian Club; Charles O. Morris, vice-president of the Carleton Club; W. O. Dunham and others. All wished Mr. Taylor a pleasant voyage over the Atlantic and success for himself and the Canadian curlers during their games in the Mother Country.

The happy gathering concluded with the singing of Auld Lang Syne.

MONCTON, Jan. 7.—In a fast game that required overtime play to decide, the Oxford hockey team and the Sunny Brae Rovers of the central section of the Maritime Hockey Association, clashed tonight at the Brae rink, the score being 4 to 3 in Oxford's favor.

FINN FROWNS ON "JOCKEYING" AND LOAFING

Local Skaters Working Out Daily For Big Meet

STRONG disapproval of North American methods of competition in speed-skating was voiced by Clas Thunberg, Olympic champion, at New Brunswick, during the meet there at which Charlie Gorman showed sensational form. The following from the New Brunswick News is interesting reading to local fans:

Class Thunberg does not approve of the American method of competition, and he didn't hesitate to express himself about it frequently and not in any whisper either yesterday while he was observing the Middle Atlantic Speed Skating Championships. The question of what he thought of the American style was put frankly to the Finn champion while the boys were showing great restlessness at the start of the 200 yard dash, where the getaway means much.

JOCKEY FOR START
"Each one of the finalists was endeavoring to get 'the jump,' and the skaters were being called back frequently and cautioned strongly by the referee and starter until finally one of them suffered penalties. 'All the while Clas was watching them eagerly and ejaculating loudly' in his native tongue. 'What he is saying is a New representation ventured to ask a companion of Thunberg's who could speak English. 'He says that it's awful the way the fellows are trying to beat the gun and that he doesn't like this way of starting a race at all.' This led to further questions in the course of which Clas freely expressed himself of the American method of competition and not approvingly either.

WOULD "SKATE" ALL WAY
"During the course of the mile race while some of the skaters were 'loafing' waiting for the start, Thunberg's writing of course for the opportunity to make a break for the lead, Thunberg remarked, 'Look at that. Why don't they all skate fast?' Thunberg's idea is to go the full length of the starting gun is fired until the finish whether one wins by a mile or less by a mile.

CONACHER OPERATED ON
MONTREAL, Jan. 8.—Lionel Conacher of Pittsburgh, was operated on at the Royal Victoria Hospital last night for a broken nose. The former Toronto rugby star received the injury in the Montreal-Pittsburgh game here recently. The nose was found to be fractured in three places and the "big train" was kept on the operating table for two hours. After the session, he will undergo a further operation, in which a bone will be taken from his rib and the nose rebuilt. He will start against Ottawa at the capital when the Pirates play their next game there on Wednesday.

Intermediates To Open This Evening

IMMEDIATELY following the Sussex-Saint John hockey game in the Arena tonight, the opening of the local intermediate league will take place, with a game between the Nationals last year's champions, and the Canucks. Both teams are greatly strengthened over last year and a good game should result. A splendid sheet of ice has been promised for the big game tonight, and, despite the chilly weather, a big crowd is expected. In this connection, it is interesting to note that rinks are usually from 20 to 25 degrees warmer than outside.

WIN FOR LOCALS NEEDED TONIGHT

Sussex Colts Expected to Offer Considerable Opposition Here

The Saint John hockey team will meet Sussex this evening in an important game at the Arena. A win for the locals will put them on even terms with the league-leading Moncton Atlantics, while a loss will put them a full game behind the railway boys.

FIGHT TONIGHT
NEW YORK, Jan. 8.—Lucien Vinea, lightweight boxing champion of France, faces an important test tonight, when he meets Sid Terris, New York, in a ten round match at the Garden. Vinea has lost a decision to Charley Rosen in this country, but he is a veteran of 488 ring battles has not lost prestige as many boxing critics asserted that he had outplayed Rosen.

TO MEET GREB
OAKLAND, Calif., Jan. 7.—A 10-round boxing contest Feb. 3 with the world's middleweight crown, worn by Harry Greb, at stake, was virtually assured for Oakland today when Tommy Singson, promoter, announced he had received telegraphic acceptance from Greb and Leo Tomski, Pacific coast title-holder.

NOT USED TO STYLE HERE
"In the course of his exhibition against time yesterday, Thunberg still showed evidence that he was not yet accustomed to speed skating on the smaller courses used in this country. It was evident, too, that he missed the long blades which he is accustomed to, in skating the long course, principally straightaway in Europe. It is said that Thunberg's full stroke, using the long blades, measures over 30 feet. The average American stroke used today, it is stated by an authority, will cover about 22 feet. It is obvious, therefore, that Thunberg could seemingly be skating with greater ease than the American skater and yet cover a greater distance in a shorter time. Thunberg misses his long skates," was the comment made by "Billy" Taylor, who while present in France as manager of the American Olympic skating team had opportunity to see Thunberg skate under conditions he is best accustomed to.

USING VICTORIA RINK
Local speed skaters are training faithfully at the Victoria rink and Manager George Hamm is making every effort to provide the boys with the best of attention. Last night after the hundreds of skaters left the ice the blocks were laid out in proper position, the track was swept clear and among the local fliers to be seen training in starts, sprints and long distance grinds were

HONORS MEMORY
NEWBURGH, N.Y., Jan. 7.—Clas Thunberg, Olympic skating champion of Finland, honored the memory of Joseph F. Donoghue, late distance skating champion, for the second time today. Making a special trip to this city, the Finnish flash placed a wreath on the grave of Donoghue, whose records for distances of more than 25 miles still stand.

Accompanied by relatives of the former world's champion, Thunberg also visited Donoghue's birthplace. On New Year's Day Thunberg fired the starting gun for the three mile Donoghue Memorial race, Thome Pavillon, champion of Finland, accompanied the skater.

CHATHAM LOST Beavers Beat Peps

BATHURST, Jan. 7.—Bathurst defeated Chatham here this evening 3 to 1 in the fastest game seen here in years. The game was a northern section M. A. H. A. fixture, and was witnessed by 700 excited fans.

FOR McLELLAN CUP
HALIFAX, N. S., Jan. 8.—Two rinks of curlers from Newcastle, N. B., are scheduled to play the Halifax curling club here next Wednesday in the opening play for possession of the McLellan Cup emblematic of curling supremacy in the Maritime Provinces. Amateur curlers were to have tried for the cup here this week, but the match, postponed on account of the weather has now been set aside until later in the season.

VICTORIAS WON
QUEBEC, Que., Jan. 8.—Battling through six gruelling overtime periods of five minutes each in addition to the regulation sixty minutes of play, Victorias of Montreal defeated Arsenals of Ireland 8-2 in a hard fought close checking contest, which was featured by a free-for-all in the final minutes of the sixth overtime session. "Big" Slater goes the honor of scoring the winning goal, the Victoria captain netting the rubber on an individual play, ten minutes after eighty-two minutes of play.

IS RE-INSTATED
MONTREAL, Jan. 8.—Billy Boucher, who was suspended after the Canadian-Montreal game at the Forum last Wednesday, for an attack on goal umpire Frank Russell, has been reinstated by President Frank Calder of the National Hockey League, and will start at right wing for his team when they meet the New York Americans at the Arena tomorrow night.

ALL CLEARED UP
The hockey situation in New Brunswick is now cleared up. W. E. Stirling, vice-president of the M. P. B. A. A. U. of C., said last night. Seckville, the last club to affiliate with the union, sent in its papers yesterday. The players' list is expected today, and cards will then be issued to them.

WALKER SAYS HIS TOE NOW IN GOOD SHAPE

Both Champion and Milligan Continue Active Training

NEW YORK, Jan. 8.—Mickey Walker, toes in good shape, is prepared to ask the New York boxing authorities why they have intervened in his proposed fracas with Tommy Milligan, of Scotland, January 22.

The real reason for the commission's edict that Walker's toe would prevent his appearance is said to lie in the welterweight champion's failure to accept terms for the Christmas fund charity bouts.

The commission, at its meeting on Tuesday, decided that Mickey's large toe, which has troubled him a great deal of late, could not possibly mend in time to permit him to meet Milligan at the Garden on the evening of January 22. From Mickey's training quarters in Rumson, N. J., came tidings yesterday that the ailing toe was in good shape once more. The fact that he started training yesterday afternoon would seem to indicate that this rumor was based on fact. It was said that the toe was in such shape that Mickey was even able to step out and do a bit of road work.

Tommy Milligan, unable to believe that the commission has arbitrarily halted the match, was continuing his training at his camp in New England, according to reports that reached Madison Square Garden last night.

Richard Intende to interview the commission on the matter, but from a source close to the commission it was learned last night that this would be merely wasted effort on Rickard's part, as Messrs. Farley and Muldon, while both are aware that there is nothing seriously wrong with any of Mickey Walker's feet, are absolutely opposed to allowing the welterweight champion or his manager, Jack Keenan, to pick up any easy money in this state. The two ducks overlook the fact that this fight may not represent "easy money" for Mickey, as Milligan is just about as rugged a fighting man as England has sent to the United States in the last decade.

PEORIA, Ill., Jan. 8.—Billy Shaw, Detroit, and Morris King, St. Louis, fought to a draw here in a 10-round go last night.

PRINCE LIVING SIMPLE LIFE

Absence from London Revelry Taken as Signs of Marriage Intention

Mourning Period for Queen Mother May Explain Change of Habits

LONDON, Jan. 8.—The Prince of Wales suddenly has shown a disposition to forego the white lights and night air of London for the bucolic pleasures of his country hunting, and the gossip accept this as an additional indication that he will marry 20-year-old Princess Astrid, of Sweden, who will pay an "official" visit to the British court in the spring.

If the Prince has not fallen in love, he certainly gives indications of preparing to settle down to the business of being a King and to the responsibility of providing an heir to succeed to the crown.

CHANGES GAY SCHEDULE. Since his return from Argentina, the Prince of Wales has changed the gay schedule which used to take him into

the west end of London most nights for a theatre, supper and dance until near dawn.

He is spending much time hunting, as usual, but instead of hurrying to the city after the hunt, he is remaining at Melton Mowbray, where his tables are to be fresh for the morning's start.

Although London scarce realized it at the time, the Prince abstained from even New Year's revelry.

With his brothers, the Duke of York and Prince Henry, the Prince spent the eve at Melton Mowbray.

PRINCESS AWAITED. England is eagerly awaiting the arrival of Princess Astrid in the spring, believing that she may be the future Queen of England. It is reported, and there is reason to believe with some basis of fact, that Astrid's betrothal to the Prince of Wales may be announced in the near future.

The young girl, eldest daughter of the Prince's more gentle hunters in the Melton Mowbray country. She is fond of outdoor sports as is the Prince.

MOURNING FOR ALEXANDRA. There is an obvious explanation of the Prince of Wales' sudden simple life in the mourning for Queen Alexandra, who died in November, but even court mourning would not prohibit private social intercourse.

The fact that Astrid's visit is to be "official" is unusual. Young Princesses seldom pay such visits to the British court.

There are, however, two other young

men who must be considered in connection with Astrid. They are Prince Henry, the King's third son, and Prince George, the youngest.

Both are unmarried. George, a 23-year-old naval lieutenant, is in China and Henry is 25 and mostly in London. London clubs and Mayfair drawing rooms are taking seriously the report that the Prince and Astrid will be married this year.

KING ALFONSO is looking for the Fountain of Youth. He passed it on the road several years back, but didn't recognize it at the time.

THE RADIO reaches a lot of people, but it has yet to equal the number of listeners-in provided by a rural telephone party-line.

IT IS possible to buy a good dish-washing machine, but a lot of men still prefer to marry them.

JACK PICKFORD IN TROUBLE WITH WIFE

Mother of Marilyn Miller Admits Breach Widening; Married in 1922

CHICAGO, Jan. 8.—Mrs. Caro Miller, mother of Marilyn Miller, stage star, admitted that there is a widening rift between Marilyn and her husband, Jack Pickford, brother of Mary Pickford and himself a movie star. Mrs. Miller, on her arrival from New York, was

taken to a hotel seriously ill. She was threatened with pneumonia.

"I should not be surprised if they make their separation permanent," she said. "I have not heard of any impending divorce action, but such an action might be expected. I have noticed a growing coolness between them. My daughter is now in New York and Jack Pickford is in Los Angeles."

"Marilyn never discussed her intimate personal affairs with me, so, naturally, I should not now be aware of her plans if the report is true that she intends to divorce Jack."

They were married July 31, 1922, at the home of Douglas Fairbanks and Mary Pickford in Hollywood, Cal. Both previously had been married. Marilyn's first husband, Frank Carter, was killed in an automobile accident, and Olive Thomas, Pickford's first wife, poisoned herself in Paris.

An audience which filled all but very few seats of the Opera House last evening gave a hearty welcome to the Balfour Stock Co., and was rewarded by witnessing a very creditable performance of the three act comedy, "The First Year," as well as an interesting program of entr'acte vaudeville by members of the company. The troupe is booked for a limited engagement only, but judging by the manner in which their initial offering was received, it is practically certain that their stay will be a popular one.

Billie Phillips, cast in the role of Tommy Tucker, a young husband of many yo-yos, gave a clever and realistic performance, while, impersonating the character of his new and very inexperienced wife, Miss Loretta Nicholson, did excellent work. J. E. Balfour, as the bride's father, played a character role to which both nature and his own artistry seemed specially to have adapted him. As his wife, Miss Lillian Hampton, was much at home and her work was favorably commented upon. W. W. Hawkins also was cast in a character part—that of Dr. Myron An-

Prominent in Business Circles and Former Chairman of Civic Power Commission

Ronald A. McAvity, former chairman of the Civic Power Commission, has been appointed manager of the commercial department of the New Brunswick Power Company and will assume his duties on next Monday. He will have full charge of the retail gas and electrical appliances department, and of the contracts for gas and electricity. Mr. McAvity has had a wide business experience in Saint John, Upper Canada and New York. After graduating from McGill, he joined the Canadian Buffalo Forge Co., with whom he remained for three years. Coming back to Saint John, he identified himself with the firm of T. McAvity & Sons, and was with them for a number of years, in the latter of which he was managing director of the Rothery's avenue plant. For the first two years of the Civic Power Commission he was chairman of that body. He has also been with the New York Puritan Mortgage Corporation of New York and the Executive Service Corporation, New York. The years of 1914 to 1919 Mr. McAvity spent overseas in the Great War and was mentioned in despatches. He was gazetted lieutenant colonel on April 4, 1923, and now holds that rank. He enjoys much popularity and many friends will wish a large measure of success for him in his new position.

MUST GET LICENSES Robert Harris, city vehicle inspector, said this morning that the forms which the taxi men had to sign before making application for their 1926 licenses were now ready and could be secured from himself or at the office of the Commissioner of Safety. He said the former licenses expired on December 31 last and that he had not taken out new licenses by the first of next week would be reported and dealt with in the police court.

PRESENTATION MADE Mr. and Mrs. Ralph Cobham, of Dunn avenue, West Saint John, last night entertained about 50 friends at a farewell party for Lieut. Byron Cobham, who has been spending the Christmas holidays with his parents and left this morning to resume his duties in Montreal. George Maxwell, on behalf of those present, made the presentation of a purse of money and other gifts to Lieut. Cobham, who thanked his friends heartily. The evening was pleasantly spent with games and music. The hostess was assisted in serving refreshments by Miss Cobham and Miss K. Fox.

GRATITUDE SHOWN FOR FIRE RESCUE Two Firemen of Hook and Ladder Receive Boxes of Nice Cigars Recognition of a prompt and brave act in the rescue of a young woman from the third story of the residence at the corner of Union and Prince Edward streets during a fire on the night of Dec. 28, came yesterday to the two firemen who performed this meritorious service—Driver Charles McClusky and Tillerman James Mills, whose posts are on the large ladder truck of No. 1 Hook and Ladder Co., King street east. The matter was referred to in the account of the fire at the time, but the unassuming men who had carried the young woman to safety from the smoke-filled apartment by way of the window regarded it just as a matter in line with the fireman's duty. The young woman thought differently and she made inquiries as to the names of her rescuers and sent to each a box of 20 choice cigars. There was a pass-around of the smokes last evening among the men of the station.

FALSE PRETENCE CHARGE WITHDRAWN Myer Budovitch Expresses Regret at Action Taken—May be Civil Case The charge of obtaining money by false pretences from Myer Budovitch, made against Louis Garson on last Tuesday was withdrawn by Budovitch in the Police Court this morning. SEAMAN HELD AT CAPTAIN'S WORD

Declares Some of the Crew Threatened to Cut Him to Pieces

Waiter on Italian Vessel Here is Assured Safety by Commander

Giovanni Pasutti, an Italian seaman employed as a waiter on board the Italian steamship Valleyscura, was charged in the Police Court this morning by absconding himself at divers times between Dec. 28 and Jan. 7 from the ship, and with refusing duty on board the ship. He was remanded to jail by Magistrate Henderson. Both parties were at a loss for English, and John de Angelis was procured as an interpreter. Through him, Capt. Dolibeco told the court that he had signed Pasutti on in New York and that Pasutti had left the ship when he arrived here and had returned, then left again on last Tuesday, and had not been seen again until yesterday, when Capt. Dolibeco had seen him in the Police Court. THREATENED, HE SAYS. Pasutti, in his defence, stated that some members of the crew had threatened to cut him into little pieces with a knife if he remained on board. The court then asked him why he had laid no complaint against the crew, and Pasutti said that that had been his purpose in coming to the Police Court this morning. Magistrate Henderson then asked Capt. Dolibeco what he wished done with the man, and he received a request to put Pasutti in jail and keep him there until the Valleyscura sailed. The accused asked what guarantee he would have for his personal safety when he went back to the ship, and the captain guaranteed that he would personally see to it. This satisfied Pasutti and he was remanded.

REV. J. UNSWORTH WEDS AT WYCLIFFE

Rector of St. George's, West Saint John, and Miss D. Smart Married Wycliffe College chapel, in Toronto, says the Toronto Star, was the scene of a pretty wedding Tuesday evening, when Dorothy Smart, of London, Ont., was united in marriage to Rev. John Unsworth, rector of St. George's church, West Saint John. The ceremony was performed by Rev. Dr. McIntyre and Rev. Canon O'Meara, principal of Wycliffe College. The bride, who was given away by Mrs. G. P. Harrison, London, looked very smart in a gown of white Canton crepe with embroidered veil and wreath of orange blossoms. She also wore a pearl necklace, the gift of her groom, and carried a shower bouquet of white roses and lily of the valley. The bride was attended by Miss Laura Dore, who wore a French frock of orchid georgette and black picture hat and carried a bouquet of chrysanthemums to match her frock. Henry Coleman was best man, and Messrs. Stringer, Alexander and Peacock acted as ushers.

MORE LICENSES FOR AUTOS OUT EARLY Some 600 in Saint John so Far—Warning That Law Must be Observed The provincial authorities intend to take action in the matter of 1926 auto licenses. George L. Lagran said last night. There will be no time allowed. All cars, according to the Motor Vehicles Act, must be licensed from Jan. 1, and the act imposes a penalty of from \$15 to \$200 for infringement. The number of licenses issued through the local office is far in advance of other years, about 600 having been issued to date. In three days last week the office here forwarded more than \$9,000 to Fredericton, \$949 being taken in on a slow account. The total number of cars in the province is approximately 17,000, with 4,800 business cars and trucks and 41 motorcycles.
