## AWFUL STORIES OF OUTRAGE AND SLAUGHTER

### Fiends in Human Form Broke Loose at Krushevo--Bodies Left Lying on Streets Were Eaten by Dogs.

London, Sept. 12.—The powers are evidently still exerting pressure, both at Constantinople and Sofia, to avert a Turko-Bulgarian war, apparently with some temporary success, but meantime an increasingly terrible tale of atrocities committed in Macedonia shows the situation is daily becoming aggravated. The news that a French squadron is going to the Levant is also considered ominous, and this step by the French government will probably be followed by similar action on the part of other powers.

The Turkish embassy in London, in its denial issued daily of Turkish atrocities, to-day declares it to be "absolutely false" that Ottoman troops are burning villages, the truth being that it is the Bulgarians, who, at the approach of troops, use explosives to burst the villages before leaving them, and then accuse the Turkish troops of such abominable deeds.

The same communication says that there were only eight persons killed and fifteen wounded in the affair at Beyrou, and that many fugitives to Lebanon are returning to their homes. The officials of the German embassy here, to-day informed the Associated Press that there was no truth in the statement made by the Constantinople correspondent of the London Standard that there was reason to believe that Germany was encouraging Turkey to rigorously suppress the Macedonian insurrection, without regard for European remonstrances.

More Atrocities.  
Sofia, Sept. 11.—The revolutionary headquarters here has received from Burgas news of fearful atrocities committed by the Turkish and Albanian soldiers in the vilayet of Adrianople. A squadron of Turkish cavalry, which has been operating near the Bulgarian frontier, has intercepted and slaughtered 60 fugitives attempting to cross into Bulgaria.

The whole district of Losengrad is filled with Albanian troops, who are burning villages and massacring the inhabitants. They have killed over 100 persons, eighty families fleeing from various villages towards the frontier having been literally cut to pieces.

A large body of infantry and cavalry, with three mountain batteries, attacked an insurgent band in the mountains about Vasilako and lost twenty killed and many wounded.

Further Fighting.  
Salonica, Sept. 11.—According to official reports, one hundred and three Bulgarians were killed in a fight at Resma on Wednesday. Severe fighting has taken place at several other points.

Growing Worse.  
Paris, Sept. 11.—Reports received by the foreign office here from Constantinople say there is renewed agitation among the Mussulmans within the city, and fears are expressed of a possible Mussulman attack on the Christian population. This agitation followed the appearance in the Turkish papers of accounts of the Bulgarians dynamiting trains and blowing up the steamboat Vasque. The official report says the Mussulmans are eager to avenge the outrages, and states that the feeling is so intense that if the Bulgarians commit further destruction, the Mussulmans are likely to take redress by attacking the Christian population.

Beyrou's New Governor.  
Washington, Sept. 11.—The state department has advised that Governor-General Mazin, of Damascus, who has been appointed acting governor of Beyrou, is a trustworthy and broad-minded man, and Minister Leishman has been instructed to advise the Sublime Porte that the Washington government is greatly pleased at the immediate granting of its request for the removal of the governor of Beyrou and the appointment in his stead of a responsible man and one favorable to foreigners.

Chelik Bey, the Turkish minister, was an early caller at the state department to-day, bringing further reassuring advices that the condition of peace has been established at Beyrou. The minister received over night a cablegram from his foreign office confirming the news of disturbances at Beyrou, stating that eight were killed and about fifteen wounded.

Of the killed four, it is said, were Christians. The cablegram stated that the disturbance had no other bad results and that a "condition of perfect calm" has been established.

Withheld Note.  
Constantinople, Sept. 11.—The Porte

last week prepared a memorandum refuting the statements made in the Bulgarian note to the powers, which denounced the administration of Macedonia, and asking the powers to intervene at Sofia and put an end to the proceedings of the Macedonian committee. It now transpires that at the last moment the Porte abandoned the issuance of the memorandum, seemingly on the advice of the powers, who represented to the Ottoman government the inadvisability of aggravating the already previous situation. The telegrams from Beyrou state that calm continues there. Nazim Pasha is acting with energy. United States Minister Leishman's demand for the dismissal of the wali of Beyrou was supported by the British, French and Italian ambassadors.

Brutality of Turks.  
London, Sept. 12.—Private letters from Monastir state that the Wallichian inhabitants of Krushevo fully confirm the charges made by the Bulgarians that the Turkish soldiers and Bashibazouks outraged and slaughtered defenceless women and children there, the atrocities continuing two days and nights. As the Wallichians hate the Bulgarians their testimony in this instance carries considerable weight. Hilmi Pasha has admitted that thirty Bashibazouks stole 4,000 cattle, all of which have been restored to the owners.

A pitiful condition of affairs still exists at Krushevo, where the wounded people are lying on the bare floors with their dressed wounds bound in soiled rags. The only doctor in the town was killed and the drug store destroyed. The Turkish official now will neither permit a doctor to go to the town, nor the wounded to Monastir for treatment. The wounded are mostly women and children.

It appears that for diabolical reasons the women were especially outraged, how many will never be known, but a large number of cases have been fully authenticated. Many dead bodies were eaten by street dogs and their skulls and bones are still lying on the ground.

The military hospital at Monastir is filled with over 1,000 wounded soldiers, the majority lying on the floor amid filthy surroundings.

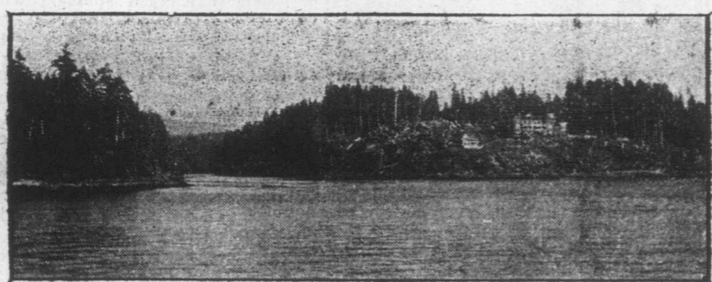

Nearly 100 families from Smilevo arrived outside the town, but were not permitted to enter. At the request of the American consul, Hilmi Pasha allowed a few of the seriously wounded to be brought into the hospital. The other refugees were told to return to their burned villages.

Serious fighting occurred at Mohoyo on September 5th, when the insurgents who occupied a strong position are said to have killed 100 Turks, while their own loss was insignificant. The same night the great monastery of Chereban at Mohoyo was thoroughly looted. The servants of the place, who were sent to Monastir to complain of the outrage, were killed on the way. The Daily Mail's correspondent at Monastir, in a dispatch dated September 6th, claims that himself, the British vice-consul, MacGregor, and an American missionary named Bond, are the intended victims of Turkish revenge because they reported the Turkish atrocities. If their murder could be compassed it would be fathered upon the Bulgarians.

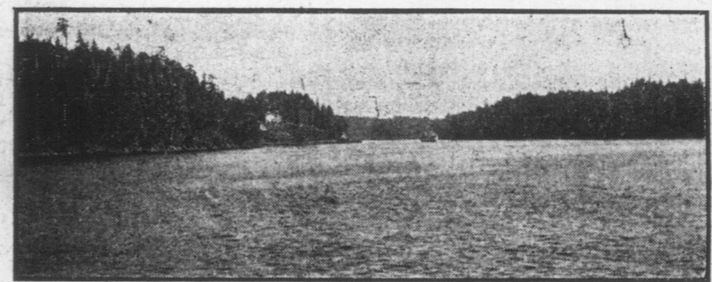

The correspondent describes further atrocities by soldiers. In one case they flayed a little girl's head, while in another they dug flesh from under a woman's arm with pocket knives or

## Views of the Cable Station

CABLE STATION, TUGWELL CREEK ON THE LEFT.

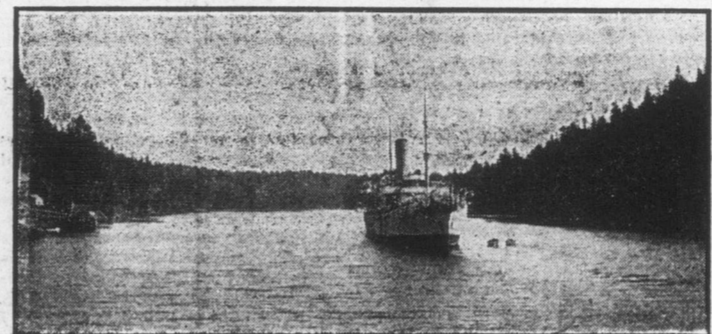

CABLE SHIP IN ALBERNI CANAL.

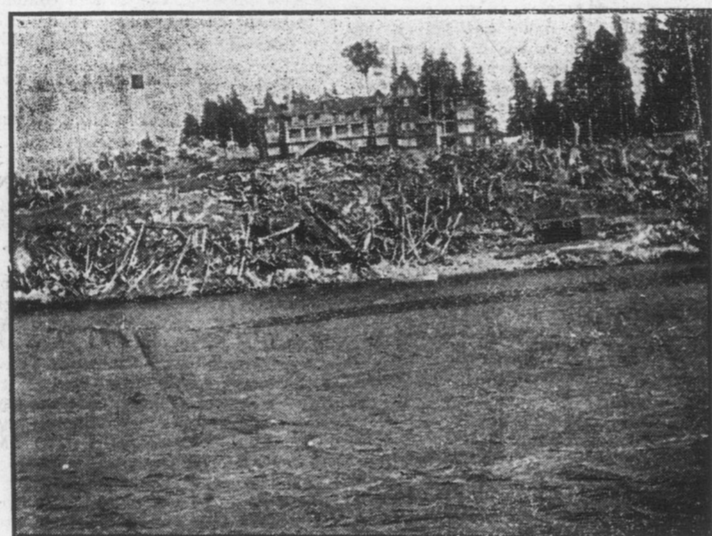

The accompanying illustrations from photographs taken by Miss Watson, of this city, give the reader an excellent idea of the Pacific cable station at Bamfield. Of the half dozen isolated points which have been made the station of a staff of experts on the line of the all-red cable, that at Bamfield creek is perhaps the one most to be desired as a place of residence.

The cable board has made provision in the erection of the building for the comfort of the staff which is maintained there, and amusements of various kinds make the time pass pleasantly enough. There are also included among the half-tones, views of the cable ship Iris taken at different places in the Alberni canal while laying the line from Bamfield to Alberni.

The telegraph line between these two

to see the working of her lungs. A Constantinople dispatch to the Daily Mail, dated September 10th, says the Porte telegraphed to Washington asking to have the American squadron recalled from Beyrou, but the request was refused. Mr. Leishman declared that it would remain until the departure of the late Vali Reshid Pasha.

More Villages Destroyed.  
Sofia, Sept. 12.—Further details of the villages burned and massacres in the vilayet of Monastir have reached here from reliable sources at Salonica. The names are given of 84 villages in the Kaza of Okrida, which have been burned by the Turks. At Velgoshit, near Ortakol, 12 men and women perished in the flames. Sixty peasants were killed in this neighborhood, most of the bodies being left unburied. Nine villages and a large forest area have been burned in the Kaza of Velas, has been plundered.

The town of Kilsura is filled with refugees from the burned villages in the district, including many wounded women from the neighborhood of Kilsura and Nevaska.

PRINCE FERDINAND OF BULGARIA.

THE SULTAN OF TURKEY.

to suppress the outbreak in the vilayet as has been used in Monastir, and it is feared that when the Asiatic troops reach the district, even more appalling atrocities will be committed. The insurrection in Eastern Macedonia is progressing slowly. General Zouitchoff has been engaged in three skirmishes with the Turks in the district of Djoumaia. The Turkish artillery has utterly destroyed the village of Debrovani, Monastir vilayet. Many of the inhabitants were killed.

Sails at Once.  
Paris, Sept. 12.—After conferences between the officials of the marine ministry and of the foreign office, it has been decided to send the cruiser Latouche-Treville to Turkish waters, without waiting for other ships of the French squadron ordered to be in readiness to sail for the Levant. The Latouche-Treville will probably be followed immediately by the cruiser Du Chayla. Their special points of observation will be Salonica, Beyrou and Smyrna, but they will not go directly to these places. The warships will rendezvous at the small Greek island of Syria, off the coast, and within easy steaming distance of the disturbed districts. Admiral Jaugerabery and his flagship will remain at Toulon, ready to replace the two cruisers with a large naval force in case of a more serious turn of events.

Reshia Bey Deposed.  
Washington, Sept. 12.—The following bulletin was posted at the state department to-day: "Minister Leishman telegraphs under date of yesterday that a proclamation has appeared in the newspapers of Constantinople: By command of His Imperial Majesty, the Sultan, Reshia Bey, governor-general of Beyrou, has been deposed."

MAYBRICK CASE ADJOURNED.  
New York, Sept. 10.—The hearing in the matter of the trustees of the Holbrook estate in which Mrs. Florence Maybrick has a reversion, has been adjourned until September 22nd.

John H. Judge, the referee, said the adjournment was taken because all the defendants have not been served with notice to attend.

The reference is on the application of Hayden & Yarrow, Washington lawyers, representing Mrs. Maybrick and her mother, for an accounting of the estate of Darius Blake Holbrook, Mrs. Maybrick's grandfather.

The estate was originally valued at more than \$1,000,000.

CANADIAN NOTES.

Two Bodies Washed Ashore—The Trip of English Members of Parliament.

Sydney, N.S., Sept. 10.—The Eastern party of the British commerce delegates arrived here to-day, and to-morrow will visit the steel plants and the coal mines.

Bodies Found.  
St. Thomas, Sept. 10.—Two bodies were washed up on the beach at Port Stanley to-day. They were badly decomposed and identification was impossible. They are supposed to belong to some American vessel's crew and were victims of a wreck. One hundred and five dollars were found in the pockets on one body.

Counterfeit Bills.  
Winnipeg, Sept. 10.—A gang of Americans entered the province at Emerson yesterday on their way to Winnipeg. They succeeded in passing off several counterfeit bills of \$5 and \$1 denominations. The notes are a good sample of counterfeits. They are all on the State Bank at New Brunswick, New Jersey, and bear no signature.

Parliamentary Party.  
The British parliamentary party, headed by Lord Lynden, which is touring Canada, will arrive in the city to-morrow morning, and will leave half an hour later for the West.

Fire.  
Toronto, Sept. 10.—The grand stand and bar at the Island were destroyed by fire this evening. The loss is five thousand dollars. The property was owned by the Toronto Ferry Company.

Alleged Smuggling.  
Montreal, Sept. 10.—Sensational developments in connection with the passing of the English tailor-made goods from Canada into the United States without payment of duty are expected shortly. Large consignments of these goods lately have been brought out from England and shipped in trunks to New York, marked as having been examined by customs officials. There is a duty of 90 per cent. on such goods brought from England into the United States, but the duty from Canada is 33 per cent. It is claimed that large quantities of these goods have been smuggled through to New York with the connivance of some customs officials, and investigation will follow. Seizures of some of the goods already have been made at New York by order of United States customs officials.

FIREMEN AND UNIONS.

Action of Chief Engineers Now in Session at Atlantic City.

Atlantic City, N. J., Sept. 11.—The International Association of Chief Fire Engineers recalled the paper submitted by Chief A. J. Harris, of Tampa, Fla., entitled "Should firemen become members of labor unions?" which the board of directors shelved on account of the severe attack on unions, and was spread upon the minutes, thereby gaining the approval of the convention. Chief Harris said: "The moment the fireman becomes a labor unionist he ceases to be a true and trusted fireman. Consider the firemen bound by the strict rules of organized labor; the result is horrible to contemplate. Our hazardous experience in Tampa, taught all those who watched the conflict with unprejudiced eyes that the limit of labor unionism had been reached when it seeks to enter the fire service. There are many reasons why firemen should not be unionized. Politics in a fire department is bad enough, but labor unionism is infinitely worse."

IRISH AFFAIRS.  
Proposed Conference to Settle Religious Differences in Connection With Education.

London, Sept. 11.—Another conference looking to the improvement of the condition of Ireland will be called shortly. Capt. Shaw E. Taylor, who was secretary to the recent landlord and tenants conference in Dublin, which was instrumental in securing the Irish land bill, proposes to invite the representatives of the Orangemen, Roman Catholics and Protestants and the heads of the educational institutions in Ireland, to meet in Dublin. The gathering is for the purpose of finding a common ground on which all may stand, thus ending the religious differences in connection with education, which has lasted for centuries, and which has been responsible for many of Ireland's difficulties.

SUICIDE IN SEATTLE.  
Seattle, Sept. 11.—Her mind wandering, Mrs. Emma Curtis stole away from her son's home last evening and drowned herself in the Lincoln Park reservoir. Nearly 60 years of age, she climbed a four-foot wall and a four-foot iron picket fence above it, then threw herself in the water.

Mental affliction, temporary in its nature, was the cause of the suicide.

## THE CONSERVATIVE RETIRES AT COMOX

### MAYOR GRANT HAS WITHDRAWN FROM FIGHT

#### F. McB. Young Will Probably Be Returned by Acclamation—Preparations for the Fight.

(From Saturday's Daily.)

Comox electoral district will more than likely return F. McB. Young, the Liberal nominee, unopposed. The Times special correspondent says:

"Mayor Grant will not contest the Comox constituency. His chances would be but slim were he to attempt it. There is no other eligible man in the constituency on the Conservative side, and there seems to be no outsider who is willing to throw away several hundred dollars in an unequal contest.

"F. McB. Young is on the ground, and will stay here until nomination day. Committee rooms have been opened, and everything is in readiness, except that an opponent is lacking. Any candidate entering the field now could not possibly canvass the whole constituency in the time remaining before election day, so it is probable none will try it."

The Liberals of this city will meet in the A. O. U. W. hall on Tuesday evening for the purpose of making choice of the candidates who will contest the constituency at the election on the 3rd of October. The Conservatives make choice on Monday evening. It is generally conceded that Hon. A. E. McPhillips, H. D. Helmeck and Chas. Hayward will be three of the candidates, with a large list from which to select the fourth one. The nominations of most of those mentioned will be strongly opposed by certain elements of the party, and sufficient feeling may be engendered to put any one of them out of the running.

This evening the Saanich Liberals convened at Colquitz hall to nominate a candidate. Saanich electorate will eventually oppose the return of D. M. Eberts to the next House, and the Liberal candidate will receive the strong support not only of the party followers, but also of the Independents and many of the Conservatives.

Premier McBride has gone to the Mainland to look after his interests there. He will spend a few days in New Westminster, Vancouver and his own constituency, Dewdney, after which he will return to Victoria. It is said that immediately after his return the vacant portfolio will be filled in the cabinet.

He will while at New Westminster be called upon to explain the reason for fixing the date for the election on the most important day of the New Westminster exhibition.

Ex-Mayor A. S. Goodacre, of Rossland, has been selected as the nominee of the Conservative party for that constituency. C. E. Race, the editor of the Miner was also put in nomination, but his name was afterwards withdrawn.

The Liberal party will meet on Monday evening at Rossland to make selection of a candidate.

WRECKAGE WORKED ASHORE.  
It Is Feared Several Vessels Came to Grief During Gale Which Swept Britain.

London, Sept. 11.—From all parts of the country come reports of destruction on land and sea by the terrific gale. The wind has now abated, but telegraphic communication with the outside world is only possible after much delay. In some cases the lines are entirely down. The suburbs of the metropolis are littered with trees and branches which have been blown down.

The breakwater of the new harbor in course of construction at Dover has been entirely swept away, involving the loss of many thousands of pounds. The Channel steamers from France arrived late this morning after perilously riding out the storm for six or seven hours.

Many lifeboat rescues were made, and several fatalities, but many accidents are recorded. Much wreckage is being washed up all around the coast.

THE SERBIAN PLOT.

Belgrade, Serbia, Sept. 10.—The Serbian army officers recently arrested succeeded to-day in publishing a new proclamation calling on all the officers to stand together in demanding the most severe punishment of the murderers of King Alexander and Queen Draga.

The officers declare that either they or the murderers must leave the service. The proclamation concludes with calling for cheers for King Peter.

The Serbian public now openly takes sides with the arrested officers and demands their release.

Great dissatisfaction prevails on account of the appointment of General Gyueckis, one of the chief conspirators, to command the army division of Nish.

AGENTS.

DELICIOUS DAY WITH BELEGATES

AN EXCURSION FOR TWO HUNDRED MILES

The Members of Congress Charmed With Their Visit to Victoria—The Trip to Yesterday.

(From Friday's Daily.) One of the most delightful voyages ever made out of this port was completed at midnight, when the steamer Princess Victoria docked at her wharf...

The day, which opened under weather conditions rather forbidding, cleared later in the forenoon, and the steadiness of the ship and the good cheer which was provided kept every one in the best of humor and spirits throughout.

Mr. Bellinger personally took charge of the party and escorted them through the buildings, where the process of converting the ore into slag and matte was exhibited. The excursion cost a large number of pretty little matte caucers and cups, which were eagerly secured by the delegates as souvenirs of the occasion.

At Chemung the visitors were taken in hand by Capt. Gibson and Manager Paterson, who arranged for the excursion through the fine establishment. Even greater interest was manifested here, for the visitors were lost in wonder at the enormous stacks which were heaped up in the lumber and timber under the big saws.

Leaving Chemung at noon a start was made for Nanaimo, the outside passage beyond Valdez Island being selected in order to avoid Dods narrows. The party was made up of the delegates and their families, and the company was very large to accommodate one time (three tables were required, although the dining saloon accommodates over 90 at once), an eager rush was made by the guests for the saloon. So satisfactory were the arrangements for their comfort there that it was nearly 2 o'clock and Nanaimo in sight before the second table sat down.

At Nanaimo the residents turned out en masse, the school children being granted a half-holiday to permit them to participate in the reception. Those who wished to drive were taken about the city and to the company's farms, while launches conveyed others to No. 1 wharf, which they descended and were shown the operation of coal mining under the sea. Time did not permit of a trip throughout the workings on the electric line, but the stables, machinery, etc., six hundred feet below the surface, were visited, and every courtesy shown by these in charge. Some of the ladies of the party pluckily made the descent with those of the stronger sex.

At 4.30 the Princess left the Coal City wharf for Vancouver, where the old sailors were given for the people, for the ladies, for the children, and every other class on the sky line. The Nanaimites caught the infection and there were answering cheers from the Princess as well out into the stream.

A record run to Vancouver brought the party there by 6.30. Here farewells were reluctantly said, and the delegates parted from their guests with the expression of the hope that the friendship would be renewed in the near future, either here or in the Old Land.

of sentiment which existed between Canada and the Mother Country. The nature resources of British Columbia came in for special reference. He was followed by another of the delegates, who represents Birmingham in the Imperial House, and whose remarks were in similar congratulatory and appreciative terms.

In reply Hon. Mr. McPhillips made a patriotic speech, in which he urged that the sentimental bonds between the two countries could be best strengthened by finding heavier trade ties. Amid cheers he voiced the appreciation of this country of the Hon. Joseph Chamberlain, and when he bade the delegates dispel whenever possible the idea that there was a schism of sentiment in this country in favor of annexation with the United States, the tumultuous applause indicated how well he had voiced the feelings of all the Canucks on board.

Hon. Chas. Wilson followed, and in turn Mayor McCordless, in a happy little speech, expressed the pleasure Victorians had felt at having the visitors as guests, and practically told them the string was hanging out whenever they returned. Chas. Hayward, for the Tourist Association, bade them come and do their fishing and hunting here, as well as trade. Capt. Troup was called for, but preferred to stay at the hotel. He was followed by the Hon. A. D. Cameron, who alluded to some of the objections to the formation of such an institute. He could not see that there was need for it. There was nothing in common among the teachers of Vancouver Island which did not exist among the teachers of the whole province. The Provincial Teachers' Institute in her opinion served all the purposes which the new association would fill.

The resolution carried, and a committee consisting of Miss A. D. Cameron, L. Tate and J. Coates was appointed to report to the association. A letter was received from Superintendent Eaton thanking the institute for electing him honorary president.

TACOMA NEWS SPEAKS & HIGHLY OF VICTORIA

Advocates Direct and Fast Steamboat Service Between Two Cities—Paradise for Tourists.

This is what the Tacoma News has to say about Victoria: "The city of Victoria, British Columbia, richly deserves the fame it has acquired as a paradise for tourists and travelers. The situation, climate and attractions of the city are indeed rare and extraordinary attractions are paid to visitors. A Tourist's Association was organized two years ago in Victoria and a centrally located bureau of information is maintained, where strangers are cordially welcomed and courteously directed to various points of interest in and about the capital city of the province of British Columbia. Victoria has some fine hotels and excellent accommodations for visitors, and the Canadian Pacific railway is about to erect a palatial hotel fronting on the stone embankment between the parliament buildings and the post office, which will largely increase the facilities for the entertainment of tourists. Victoria is a beautiful city and a most delightful place to visit.

"The Washington State Press Association held its annual meeting for 1903 at Victoria last week. It is not strange that the secretary of the bureau of provincial information, who is also provincial secretary to the Premier, the representatives of the Victoria press, and many other gentlemen of the city, were indelible in their attentions to the visitors from Washington. The street railway company and the steam railway extended courtesies to the city's guests; the city hall was placed at their disposal for meetings; and every available hour of the time spent in Victoria was devoted to a systematically arranged programme of entertainment. The Washington State Press Association was graciously received, and most hospitably treated by the people of Victoria. The visit to Victoria will always be recalled with pleasure and satisfaction by the large number of Washington journalists who attended last week's meeting.

"Two weeks ago to-day a party of 600 Victorians visited Tacoma. The people of the two cities have every reason to cultivate friendly and business relations. Tacoma and Victoria have numerous affinities. A direct and fast steamboat service should unite the two cities. Almost all the ocean steamships sailing from this port touch at Victoria, but means of direct local transportation are lacking. The admirable and successful efforts Victoria is making to bring travelers in large numbers to that city would serve to benefit this city also, were such a service inaugurated. The Tacoma Chamber of Commerce would do well to give this subject practical attention."

ARMY REFORMS

Lord Rosebery Recommends That Lord Kitchener Be Given Task of Reorganizing.

London, Sept. 11.—Lord Rosebery has replied to a correspondent on the subject of the recent report of the commission of inquiry into the South African war. He vigorously condemns the cabinet as being severely and individually responsible for the disasters and the ineptitudes of the conduct of the war, and advocates a new departure in military management of Great Britain, commencing by requesting the King to entrust the entire management of the war office to Gen. Lord Kitchener, with the fullest authority to reorganize the present system.

Before he obtained his license a publican at Eppley, Yorkshire, had to promise that he would always keep a bed aired and ready for winter visitors.

MEETING OF THE CITY'S TEACHERS

ISLAND INSTITUTE UNDER DISCUSSION

Number of Excellent Papers Were Read at Yesterday's Session in Y.M.C.A. Hall.

The Victoria Teachers' Institute met yesterday afternoon in the Y. M. C. A. rooms with the president, W. N. Winstry, in the chair.

The secretary, J. Coates, introduced a resolution in favor of appointing a committee of three to take into consideration the forming of an institute for Vancouver Island.

The advantages of such an organization in the way of promoting unity and cooperation were pointed out by different members. A. D. Cameron alluded to some of the objections to the formation of such an institute. He could not see that there was need for it. There was nothing in common among the teachers of Vancouver Island which did not exist among the teachers of the whole province.

Mr. Wallace gave a demonstration of his method of teaching intermediate literature, using Longfellow's "Excelsior" as the example. His address was much appreciated and called forth loud applause.

Mr. Marant read a paper on literature dealing largely with Lamb's Tales. The paper was highly complimented upon the conclusion of its reading. After dealing with the troubles to be encountered owing to the wide variety of pupils which a teacher had to instruct and after giving some of the objections to the tales from Shakespeare being used as literature studies by the scholars, the paper concluded with the following outline of a method to be employed: "May I briefly, therefore, outline our plan of attack on one tale, say 'The Tempest.' The pupil, at home, reads the notes, underlining the annotated words, 'a certain island,' 'a study much affected,' 'by virtue of,' 'sprite,' etc., in the text. At school the tale is carefully read, the meaning of underlined words reviewed and difficult passages explained. Occasionally we find it necessary to write paraphrases or interchange direct and indirect quotation. Next we attend to such details as the origin, date of publication, scenes, cast and climax of the play. Just here I sometimes ask the class to suggest different endings to the play, perhaps changing comedy to tragedy, and vice versa. A map of Italy, and a list of the dramatic personae come next. The pupil now condenses the whole tale by summing up, and condenses the outline into five or six main topics, which he memorizes. These written exercises are done chiefly at home and kept in a large note book for purposes of review. Then follows the test of the student's comprehension and gain of power of expression—the writing out, in his best style, of the plot.

"We are now ready to begin the study of the important characters. Shakespeare's plots were often borrowed from people are always and imitatively his own. Our definite aim being to woo our pupils through Lamb to love Shakespeare, through Shakespeare to study life, and through this to develop character. We must not, dare not, neglect this confessedly difficult part of the work.

"We can arrive at an estimate of a character by observing: (1) What he does. (2) What he says. (3) What others say about him.

"When possible, I read to the class the scenes in their original language, and through this to develop character. We must not, dare not, neglect this confessedly difficult part of the work.

tions of duty in relation to it, surely we have our reward. "What is the best that abides to make the next age better than the last? World-wide is the answer. Methinks I see them rise, a countless throng of youths and maidens, who, with loftier aspirations and higher ideals than we, press on into the future's undiscovered land, when ours have completed the journey.

"Is earth too poor," asks Lowell, "to give us something to live for here that shall out-live us?" "Eureka! Eureka!"

URGENT MINISTERS FOR FISH TRAP LICENSES

A Resolution Passed by the Council of Board of Trade at Meeting Friday.

A meeting of the council of the board of trade was held Friday afternoon with C. F. Todd in the chair, and the following members present: T. W. Paterson, Joshua Kingham, C. H. Lugin, D. W. Higgins, L. G. McQuade, D. R. Ker and the secretary, F. C. Elworthy.

The first subject considered was the granting of licenses for fish traps. On this question the council was unanimous. Members were of opinion that there should be no delay in receiving the licenses necessary, and in this connection the following resolution was passed: "That in the opinion of the council of the Victoria Board of Trade, it is advisable, in the interest of the fisheries industry, that the government fisheries should be enlarged and improved, and that fish traps should be allowed in the British Columbia waters, due regard being paid to the enforcement of proper restrictions for the prevention of waste and the selfish and careless destruction of fish life by those engaged in the business."

It was also decided to refer the resolution to the regular meeting to be held on Friday next.

The secretary was instructed to write Senator Templeman and British Columbia members at Ottawa giving the above expression of the board's opinion, stating that he was now understood that the ministers were anxious with the necessary authority for the granting of the licenses and in view of this inquiring the reason of the delay in receiving the same.

At this juncture D. R. Ker, read a telegram which he had just received from the local secretary of the Manufacturers' Association, Vancouver, and stated that according to the report with him in order to explain matters in connection therewith. The telegram advised that one hundred members of the association might be expected to arrive here about the first of the month, and desired to know what arrangements could be made for the entertainment of the visitors. A banquet was suggested, but this was considered by others present as being a large order, notwithstanding the importance of the occasion. His Worship reported that the treasury funds for such expenditure had already been taxed to their utmost, and it was therefore decided that the board's reception and entertainment committee should be requested to suggest ways and means for the reception of the visitors.

OPPOSITION FOR ROOSEVELT

British Labor Unionists Will Discuss Plans With American Leaders.

London, Sept. 11.—Organized labor in Great Britain is quietly developing a scheme by which a number of its representatives will proceed to America soon to discuss with labor leaders there a plan for opposing President Roosevelt at the next presidential election. The Amalgamated Society of Bookbinders is specially active in getting together the new delegation as a protest against the action of the President in his relations with the Bookbinders' Union in the government offices in the United States. The union men have a strong footing in the government offices here, and it is understood to be their intention to amalgamate with the organized men of America if such an arrangement can be found practicable. If a general election here is not probable this side of Christmas, the delegates will be ready to go to America about the middle of October.

TAKE PRECAUTIONS

Inspecting Steamers From Marseilles, Where Plague Is Reported to Have Broken Out.

Genoa, Sept. 12.—Although no official instructions have yet been received from the government regarding the supposed outbreak of bubonic plague at Marseilles, the local authorities have given orders that ships arriving from Marseilles shall be inspected and disinfected before being allowed to enter the harbor.

BEAUTIFUL WOMEN WHO USE PE-RU-NA.

HEALTHY WOMEN

Praise Pe-ru-na as a Cure and Preventative of Catarrhal Disorders.

Miss Elizabeth Uber, No. 6 Bassett street, Albany, N. Y., writes: "I have always dreaded the fall and winter because of my extreme liability to catch cold, when catarrhal troubles would quickly develop through my entire system which would take weeks to drive away. I am thankful to say that since I have taken Peruna, I do not have any reason to dread this any more. Last fall when I suffered with my old trouble I took Peruna and in nine days was completely cured and since that time I have been able to expose myself to the damp wet or cold weather, I take a dose or two of Peruna and it throws out any hint of sickness from my system. I gladly endorse it."—Miss Elizabeth Uber.

Mrs. Wm. Dewey, Saranac Lake, N. Y., is second cousin of Admiral Dewey. In a recent letter she says: "Peruna is the most valuable of all remedies that I have ever used for coughs, colds, etc. I can heartily recommend it as a certain cure if used according to directions."—Mrs. Wm. Dewey.

Miss Rosa Gerbing, a popular society woman of Crown Point, Ind., writes: "Last winter I took a long drive in the country, and being too thinly clad I caught a bad cold which settled on my lungs, and which could not seem to shake off. I had heard of a great deal of Peruna for colds and catarrh and I bought a bottle to try. I am glad to say that I did for it brought speedy relief. It really cured my troubles and I consider this money well spent."

"You have a firm friend in me, and I not only advise its use to my friends, but have purchased several bottles to give to those without the means to buy, and have noticed without exception that it has brought about a speedy cure wherever it has been used."—Miss Rosa Gerbing.

To neglect a cold is to invite chronic catarrh. As soon as anyone discovers the first symptoms of catching cold he should at once begin the use of Peruna according to directions on the bottle, and the cold is sure to pass away without leaving any bad effects. Unless this is done the cold is almost sure to end in the second stage of catarrh which is making so many lives miserable. If Peruna was taken every time one has a cold or cough, chronic catarrh would be practically an unknown disease. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

AN OPPORTUNITY FOR IRON WORKS

VANCOUVER ISLAND HAS ALL REQUIRED

The Discovery of Limonite and Hematite Ores at Quatsino Supplies Last Need.

The location of what is likely to prove an immense body of limonite and hematite on Quatsino Sound revives the interest in the need for establishing on Vancouver Island the means for utilizing the raw materials from which pig iron and steel might be manufactured.

PRINCE FERDINAND

Has Not Yet Returned to Capital—Action Condemned.

Sofia, Sept. 11.—A committee representing all classes has been organized by the professors of the Sofia University, and is sitting daily to discuss the situation. Bitter attacks on Prince Ferdinand are indulged in for his action in dissolving the sobranje at such a critical moment, which is characterized as treason against the people. Resolutions will be submitted to this committee to-day urging the immediate mobilization of the army against Turkey.

AN OFFENCE

Restaurant Keeper Sold Chocolate Bearing Pictures of Ex-Crown Princess Louise of Saxony.

Berlin, Sept. 12.—The keeper of the restaurant attached to the royal opera house at Dresden, which he has occupied for fifteen years, has been fined a renewal of his license because he sold chocolate bearing pictures of ex-Crown Princess Louise of Saxony (who eloped with the French tutor Girou) and her children.

DOMINION DISPATCHES

Hugh Mann, Railway Contractor, Killed—Commissioner's Report in the Wilkes Case.

Winnipeg, Sept. 11.—The distinguished party of parliamentarians and capitalists, headed by Lord Lyndoch, passed through the city this morning for Calgary.

Protests were filed to-day against the election of three members-elect of the Legislature, all Liberals. The protested seats are: St. Boniface, H. Chevrier; Assiniboia, J. H. Prefontaine; and Rhineland, Valentine Winkler.

Three Years For Forgery. P. Barrel was found guilty of forgery and to-day sentenced by Judge Pender to three years' imprisonment.

Farmer's Death. Wm. Buckland, a Melita farmer, became entangled in a separator belt while threshing to-day, and was hurled around the wheel, receiving fatal injuries.

Contractor Killed. Hugh Mann, a well-known railway contractor and brother of D. D. Mann, vice-president of the Canadian Northern road, was killed on the C. N. E. west of Erwood to-day, where he was inspecting the work of a track-laying machine, of which he was the inventor. Details as to cause of death are lacking. Deceased was about 45 years of age and very popular with all railroaders here.

The Wilkes Case. Toronto, Sept. 11.—The commission appointed by the general assembly of the Presbyterian Church of Canada, which has been sitting since Wednesday in the Wilkes case, and the trouble in the Central India mission to-night, handed out a report. They state the elements of the disturbance have been exaggerated and depreciate the existence of jealousy. With regard to Dr. Wilkie they decided that he cannot with advantage resume his former work in Central India. Without attempting to apportion blame, they state that the charges against senior missionaries of prejudicing junior missionaries against Dr. Wilkie are not supported, that no evidence of his addition to drugs was given, and that his denial is accepted without reserve, that the foreign mission committee find Dr. Wilkie some suitable field in foreign mission work.

A Centenarian. Montreal, Sept. 11.—Madame Juteau is dead at St. Asathe, aged 104 years and eight months. Up to a few days ago she was possessed of excellent health and performed her duties with as much ardor as a woman half her age.

Fire. Amherst, N. S., Sept. 11.—Christie Bros. & Company's casket and trunk factory, with all the contents, were destroyed by fire this morning. The loss is estimated at between thirty and forty thousand dollars. Insurance, \$15,000. One hundred men are thrown out of employment.

CITY BECOMING QUOTE AN EXPERT

IN ENTERTAINING THE VISITING PARTIES

Several Conventions Have Been Held Here This Year—More Contingents Are on the Way.

Visiting notables who take for their subject Victoria's hospitality and let loose a shower of boasts, evidently mean what they say.

Outside of conventions, Victoria has been visited by touring parties of various classification. Clergymen, fresh from the deliberations of the Presbyterian assembly, were lured to the city by the glowing stories of its charms they had heard and were glad they came.

The remnant of the British parliamentary party are expected here on Saturday next, while at the last of the month about a hundred from six members of the Canadian Manufacturers' Association are coming to see what there is in these radiant stories of wealth, prosperity and the promise of a glorious future in the West.

Members of the executive of the Agricultural Association are displaying tireless energy in making preparations for the forthcoming show. As the fair opens on October 6th it will not be long before entries commence to come in bunches of a hundred or so.

One of the most pleasing incidents connected with the visit of the delegates to the recent Congress of the Chambers of Commerce of the Empire was the presentation to each of the visitors by a number of Victoria flowers.

A NOTED OFFICER ARRIVES IN CITY

HEAD OF IMPERIAL FORCES IN CANADA

Major-General Sir Charles Parsons Reached Here Last Evening on a Visit of Inspection.

Major-General Sir Charles Parsons, K.C.M.G., R.A., general officer commanding the Imperial troops in Canada, arrived Thursday on his regular visit of inspection.

Director of Manual Training Schools Married in Yorkshire, Eng.—Toured Old Country.

H. H. DUNNELL BACK. Director of Manual Training Schools Married in Yorkshire, Eng.—Toured Old Country.

Members of the executive of the Agricultural Association are displaying tireless energy in making preparations for the forthcoming show.

FINED TWENTY-FIVE DOLLARS.

Geo. Ross Convicted of Shooting Fawn Out of Season.

In the provincial police court on Friday George Ross was charged with an infraction of the Game Act, having killed a fawn somewhere in the Metochin district a week or so ago.

When Victoria scored the first goal a howl of delight went up from the grand stand. The ball had worked behind the visitors' goal, and Stevens got it and passed inside to Jesse.

Thursday's Gazette contained notice of the places for holding the nominations for candidates for the coming election.
