ST. JOHN DELEGATION SAW MINISTER TODAY

They Were Closeted With Dr. Pugsley for Over Two Hours

Proposed Improvements on the West Side the Matter Under Discussion—Delegates Will Not Make Statement But Say Conference is Satisfactory.

Ottawa, Ont., Feb. 4.—(Special)—The St. John delegation met the minister of public works this morning and were in consultation for two hours with him.

The C. P. R. was not represented at the conference, but it is understood that there were telephonic communications with the head office of the railway in Montreal and that the negotiations proceeded satisfactorily.

The delegates said there was nothing to give out at present as no conclusion had been reached and none would be until they could meet the C. P. R. people.

A Mysterious Disappearance
By Gordon Holmes
A Great Detective Story

(Continued.)

"Do you go out much to theatres, now?"

"Very little. It is lonely by oneself, and there are so few plays worth seeing."

Bruce wondered why she insisted so strongly upon the isolation of her existence. In his new-found sympathy he forebore to question, and she continued:

"When I do visit a theatre I cannot myself mostly by silent criticism of the actors and actresses. Not that I could do better than many of them, or half so well, but it passes the time."

"I hope you do not regard killing time as your main occupation?"

"It is so, I fear, however hard I may strive otherwise. And again that shadow of regret darkened the fair face."

Some one in front turned round and stared at her. Bruce, who was sitting next to her, turned round and saw the same person. It was the same person who had been seen at the theatre. He was looking at her with a peculiar expression.

Claude focused his eyes on the face of the woman who had been seen at the theatre. He was looking at her with a peculiar expression.

True, it was not the writer's habit to jump at conclusions. There might be a perfectly valid motive for the journey. If the man did not desire his whereabouts to be known, why did he leave his address at the post-office?

And, then, what possible reason could Lady Dyke have in visiting him voluntarily and secretly at his chambers in Raleigh Mansions? This virtuous and high-principled lady, could have nothing in common with a careless adventurer, taking the most lenient view of his sister's description of him. And as Bruce's subtle brain strove vainly to match the queer fragments of the puzzle, his keen eyes roved over the stage in a dazed way.

Suddenly they paused. His power of vision and mental analysis were alike inadequate to the new and startling fact which had obtained itself unasked and unthought for, upon his sight.

Among the most prominent of the chorus girls, posturing and moving with the stiffness and visible anxiety of the novice, who is not yet accustomed to the glare of the footlights upon undraped limbs, was one in whose every gesture Bruce took an absorbing interest.

It was endowed in full measure with that prime requisite in the detection of criminals, an unusually good memory for catching the true expression.

Hence it was that, after the whirl of a dancing chorus had for a few seconds brought this particular member of the company close to the proscenium, Bruce became quite sure of having developed at least one branch of his inquiry within measurable distance of its conclusion.

The girl on the stage was Jane Harding. Lady Dyke's maid.

When her features first flashed upon his untroubled gaze he could hardly credit the discovery. But each instant of prolonged scrutiny placed the fact beyond doubt. Not even the make-up and the elaborate wig would conceal the contour of her pretty face, and a slight trick she had of drooping the left eyelid when thinking confirmed him in his belief.

So astounded was he at this sequel to his visit to the theatre, that he utilized every opportunity of a full stage to examine still further the appearance and style of this strange apparition.

When the curtain fell and Jane Harding had vanished, he was brought back to actuality by Mrs. Hillmer's voice.

"Fie, Mr. Bruce. You are talking altogether too much notice of one of the fair ladies in front. Which one is it? The tall standard bearer or the little girl who prattles so gracefully?"

"Neither, I assure you. I was taken up by wondering how a young woman manages to secure employment in a theatre for the first time."

"I think I can tell you. Influence goes a long way. Talent occasionally counts. Then, a well-known agent may, for a nominal fee, get an opening for a handsome, well-built girl who has taken lessons from either himself or some of his friends in dancing or singing, or both."

"Is such a thing possible for a domestic servant?"

Fashion Hint for Times Readers

A CHINCHILLA HAT ON THE NEW SMALL LINES.

All the Paris hats are growing smaller, and this jaunty little model is a fresh arrival from the French style mart. Chinchilla, with its soft gray color, is the fur which looks best with all lavender and purple shades and this hat is intended to accompany an afternoon, wedding frock of pale wistaria satin. The rolling brim of the hat is faced with panne velvet of a soft amethyst color. The entire top of brim and crown is of chinchilla, the only trimming being the saucy loops of wistaria ribbon. This saucy arrangement is very smart this season and is made by puffing out wide ribbon between tight little bands which are sewed on separately. The chinchilla hat is, of course, matched by a neckpiece.

PUT SENATORS TO DEATH FOR RAILWAY DISASTERS

Toronto Minister Tells How the Mosaic Law Would Work Out on People Who Are Responsible for Level Crossing Railway Wrecks and the Killing of Infants by Impure Milk.

(Toronto Telegram.)

Applying the commandment "Thou shalt not kill" to this city and country today, Rev. Mr. Findlay at St. Zion's Presbyterian church last night emphatically denounced the individuals and interests responsible for the slaughter of people at level crossings and the killing of infants by allowing milk to contain impurities. That these conditions should be considered intolerable he showed by quoting from the Mosaic law that if an ox killed anyone it should die, but that if the owner of the ox had previously been told of the viciousness of the animal both ox and owner should be put to death.

"Perhaps there is nothing we need more in Ontario," he said, "than a more just interpretation of the Mosaic principle along the line of the ox precedent."

SENATORS WOULD DIE.

"Supposing Moses were applying this principle today, what would he have done with the men who were responsible for the death of those five people?"

"That was the case of an unprotected railway crossing where the railway had had their attention called to it, and where it was known to be an exceedingly vicious crossing—I may use that term."

"A bill was introduced last term to protect people at level crossings. It reached the senate, but by the influence of railway lobbyists was quietly and effectively strangled."

"Under the principle of Moses the Senate would be held in a strong railway away Jew as responsible for the death of those five people."

"We need a realization that responsibility, for human life cannot be covered by a charter, however many it may include. The responsibility must be traced back to where it belongs."

CENSURES RAILWAYS.

"Criminal carelessness was punished by death in the Mosaic legislation. Here in Canada only within the last three years has the public conscience been aroused to a realization of the appalling death rate of the transportation service. And it's only several months since there was an attempt to fix the responsibility."

"The Mr. Findlay strongly censured the hypocrisy of making rules and then fixing the running time of trains so that they can't be obeyed, and permitting the encouraging of the breaking of the rules."

RAILWAY SLAUGHTER.

"In the year 1908," he said, "the railways of Canada killed 329 people and injured 1,229. On July 25, 1914 the Americans fought the British at Lundy's Lane for the possession of Ontario, but last year the railways of Ontario killed twice as many of our people as the Americans killed at Lundy's Lane."

"We can't afford to go on doing business on these lines—not even for a seven per cent. preferred dividend."

"Last year the railways of Canada killed 69 more people than in the year before, and they injured 740 more than in the year before. In the last six weeks the number of people killed at open crossings in Ontario is half as many as the number of Canadians killed at the battle of Passchendaele."

ORGANIZED MURDER.

"When there is a realization of the relation of guilt between man and other life, the nations will see it that organized murder, through the carelessness and dirt that gets into children's food through organized greed, must cease."

"We must protect ourselves against the people we have given power to. We need to protect ourselves against ourselves."

"Reverence for man is the true basis of the sixth commandment. Man was made in the image of God. He's too great to be needlessly maimed and slaughtered."

QUEBEC WANTS BIG DRY DOCK

Delegation of Shipping Men Interview the Premier and Dr. Pugsley—They Ask for Floating Dock Now and Permanent One Later.

Ottawa, Feb. 3.—A deputation representing the shipping interests of the St. Lawrence and including Rev. Montagu Allan, W. D. Campbell and Mr. MacPherson, as well as representatives of the Quebec harbor commission, waited today upon the prime minister and the minister of public works and urged that dry dock facilities, commensurate with the increasing trans-shipment of goods, be provided for the harbor of Quebec.

They pointed out that the St. Lawrence traffic would cost about \$2,000,000. The cost of a floating dock would be about \$800,000.

Both the prime minister and Hon. Dr. Pugsley promised to give the request their earnest consideration.

Hon. George F. Graham, minister of railways and canals, gave this evening the first ministerial dinner of the session. The banquet was held in the new restaurant of the parliament buildings and was attended by about 100 Liberal members and senators.

Being "Dressed Up"

Funny the difference that being dressed up means to women of all grades from the "washday" to the lady of extreme fashion. Walk on the principal street of any city on a shopping day, and no matter what Dame Fashion may demand you will find as many different styles of being "dressed up" as you will find women. To the clothes of the average man there is a certain sameness, certain formal lines of cut and makeup, but with women it is different.

Hats are not as diversified in shape and trimming and size as ever they were, but girls of all classes from Miss Right-Thing to the buxom young Miss Scrubb clinging tenaciously to the large floral variety of the parliament buildings and with the large and brilliant plunage and the oceans of trimming.

No matter how ridiculous the balance of a girl's costume may be, she is "always there with the gay and verdant lid," as her brother would express it. She may wear last year's coat and the skirt of the year before turned and returned for economy's sake, but the hat is the contention. Of course, the hats vary in quality to as great a degree as do the pocketbooks that supply them, but they are always the same, irresistible things that attract attention from the remainder of the girl's apparel.

Funny, too, how we go from the hat to the feet in arranging our wardrobe. The shoes come next in importance. Every woman wants the most exclusive, the most comfortable, the most stylish and then my hat was expensive, but I had to have it. I feel dressed up now.

The statement was pathetic but true. While the girl was talking a country woman walked the remainder of her clothing revealed that her suit was thin and shiny, that her gloves were carried in her hand because she was too shabby to wear them, that her face was pinched and showed that her body was weak for want of proper food. A good-looking girl, dressed up, might come her way, but she felt "dressed up."

A business girl, a bachelor girl, if you wish, passed a few moments later. She was hard to prevent one's self from being a companion. Her hat was simple but chic and businesslike. Her feet were encased in common-sense shoes, with a goodly amount of sole. Her clothing looked comfortable, and she was dressed for comfort and not for show, and if she showed signs of being a companion, it was only because she was a companion. Her feet were encased in common-sense shoes, with a goodly amount of sole. Her clothing looked comfortable, and she was dressed for comfort and not for show, and if she showed signs of being a companion, it was only because she was a companion.

To the society woman "dressed up" as a burden and a species of the hardest kind of work. In the morning she is "dressed up" if she wears the proper halibutons for the time of day as prescribed by Fashion's dictates, but she is "dressed up" all through the day, shopping in her shopping clothes, dining at her dinner given and then too shabby to be seen in the theatre and the rest of it.

And so it goes with all women. The sense of being "dressed up" is tangible in everyone of them. The amirant at Lin gate with her bright shawl, her apron, and her handkerchiefs of many colors, that around her head is "dressed up" in her own estimation.

It's the little things that go to make the individual point of view that mark the "dressed up."

Many Different Styles of Being "Dressed Up" Are Seen.

To Be Dyspeptic Is To Be Miserable.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taking the stomach with indigestible food, eating too rapidly without allowing the food sufficient time for mastication, indulging in hot biscuits, pastry, pickles, confectionery, etc.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, flatulence, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic. Burdock Blood Bitters regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, remove acidity, purifies the blood, and tones up the system to full health and vigor, and thereby cures dyspepsia and all its tributary diseases.

Mr. Amos Sawler, Gold River, N.S., writes:—"I was greatly troubled with dyspepsia, and after trying several doctors to no effect, I commenced taking Burdock Blood Bitters and I think it is the best medicine there is for that complaint."

THE POULTRY SHOW

The first annual show of the New Brunswick Poultry Association, which opened yesterday, is proving a great success. There was a fine display of poultry and during the day there were many appreciative visitors. The exhibition will be open till the 6th inst. in the deers building, King street, and the management hopes that the public will take full advantage of the opportunity, as the show of birds is really a fine one.

Dr. Grant, the judge, did not go until late yesterday afternoon, but he finished his work early, and the results of his work are given.

In judging the birds, it was understood that first prize birds must score ninety points, the second eighty-eight, and the third eighty-five points. The following were the prize winners:

Burred F. R. hen—G. Campbell, 2nd.
Barred F. R. cockerel—F. V. Haman, 1st and 2nd.
White F. R. pullet—J. P. Bain, two birds.
White F. R. hen—J. E. Warren, W. Appleton and F. V. Haman, first and second.
Silver Wyandotte, cock, hen, cockerel and pullet—C. Lemou, first in each.
Golden Wyandotte, cock and hen—H. C. Brown, third in each.
S. C. Rhode Island Red cock—James Brown, 2nd in each.
J. Brown, 3rd; pullet, D. B. Holman, 1st.
Buff Cochinchina—J. Jackson, 2nd.
Andalusian hen—C. Lemou, 1st; pullet, H. Clark, 1st.

STATE CARE OF INEBRIATES IS ADVOCATED IN ENGLAND

Recommendations of the Home Office Committee—Guardianship and Detention of the Victim of Over-indulgence
State inebriate reformatories, detention of an inebriate on first conviction, and compulsory detention of an inebriate are the main recommendations of the British Home Office Committee for a new law on the subject, which, they state is urgently needed.

WHO ARE INEBRIATES?
The chief recommendations for a new act to replace the present acts are:
An "inebriate" (which should be used instead of "habitual drunkard") is a person who habitually takes or uses any intoxicating thing or things and while under that influence or in consequence of the effects of...

APPOINTING GUARDIANS.
Inebriates should be allowed to enter before a J. P. into a legal obligation to abstain for not less than a year, or to apply for an order of guardianship for not more than a year.

WHAT THE GOVERNMENT WILL DO FOR ST. JOHN

Elaborate Plans for the Development of Both the East and West Sides of the Harbor in the Public Works Report - The Work in Other Parts of the Province.

Ottawa, Feb. 3.—Hon. Dr. Pughley tabled in the house today the report of the department of public works for the fiscal year 1908. In reference to St. John, the report says: "At the port of St. John (N. B.), the winter export and import business of which is developing with great rapidity, extensive dredging has been performed on the western side of the harbor, affording, at low tide, berths with thirty and thirty-two feet clear depth, accommodating the large Express steamers of the Canadian Pacific Railway, the Donaldson, and the Allan Lines. "A further systematic development of the west side is about to be commenced, and the department has under consideration the establishment of an ideal deep water terminal in that part of the harbor known as Courtney Bay, where complete surveys are now being made. "It is well also to emphasize the fact that in the construction of her national ports, Canada is profiting by the experience gained at the other harbors of Europe, and is laying out in each case a comprehensive scheme of development, the commencement of which can be begun modestly as the means of a young country proceeds and the needs of trade war."

From the above, it will be seen that Canada is fully conscious of the immense possibilities which the future holds for her, and that every effort which prudence and enterprise can suggest is being used to improve existing opportunities. "It is most interesting to note what the results have been so far. There has been a vast increase in shipping from the great lakes to the sea; Boston and New York have lost the European grain trade to Montreal; St. John is now in a position to successfully compete with Portland for the winter trade; and the Canadian route is being recognized as the quickest and shortest for through transportation from Europe to Asia. "On the subject of expenditure generally, the deputy minister says: "The continued expansion of this large branch of the public service is shown by the accountant's statement of expenditures for the fiscal year 1907-8, which reached a total of \$11,199,284.94, an increase of \$1,851,939.63 over that for the year 1906-7, which must be used for purposes of comparison as, owing to the change in the fiscal year, the preceding report for 1906-7 covered only a period of nine months. "The details of the expenditure follow under the various divisions of departmental operation: Harbor and river works.....\$2,447,882.00 Dredging and plant.....3,344,209.50 Sables and beams.....14,716.50 Roads and bridges.....19,158.84 Public buildings.....4,331,001.40 Telegraph lines.....462,226.40 Miscellaneous.....449,188.12 Total.....\$11,199,284.94 In the year 1907 the total expenditure was \$1,744,654.21. This had grown by the year 1900 to the sum of \$3,565,026.34. The total expenditure for 1904 reached \$6,422,273.52, while the amount expended as shown in detail above for the year 1908 amounted to \$11,199,284.94. Reference is also made in the report to the following expenditures on other New Brunswick works during the fiscal year: Anderson's Hollow, breakwater, 9471 Back Bay fishing station, Charlotte county, on wharf.....190 Busonche, Kent county, wharf.....3,200 Busonche Beach, breakwater.....6,652 Campbell, wharves.....5,174 Cape Tormentine Breakwater.....2,170 Caneguet Wharf.....2,100 Chatham Custom House wharf.....1,400 Cheok Fish, Kent county, deepening channel.....1,400 Dalhousie Harbor improvements.....22,348

Was Troubled With Weak Back For Years. Could Not Perform Household Duties. Doctors Attended Without Avail.

Mrs. Arch. Schmale, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me with out-aid and tried liniments and plasters, but nothing seemed to do me any good. It was about a year ago that I was advised to try Doan's Kidney Pills, and I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

Doan's Kidney Pills are a purely vegetable medicine, yielding quick, permanent relief, without any after ill effects. A medicine that will absolutely cure Backache and all forms of Kidney and Bladder Disease. A medicine that strengthens the kidneys as well as the bladder, and cures the most poisonous uric acid from the blood and prevent the chief cause of Rheumatism. Price 50 cents per box, or 3 for \$1.35, at all druggists. W. M. Doan & Co., Limited, Toronto, Ont.

In ordering specify "Doan's." negotiations are in progress with the Vancouver Dry Dock & Shipping Company for the construction of a dry dock under the act of last session. Sir Wilfrid Laurier, replying to Mr. Graham, said no complaints had been received from any Japanese board of trade in Japan, the formalities were delayed, or Japanese newspapers criticizing W. T. R. Preston's work as Canadian trade commissioner. On the other hand there had been some praise by Japanese newspapers.

Mr. Armstrong learned from the minister of customs that the exports of agricultural products to Germany from Canada in 1908 totalled \$551,250. Dr. Spry directed Mr. Graham's attention to the alleged fact that in a recent railway wreck on the Pennsylvania road where both engines and wooden cars were crushed into a mass of ruins a steel Pullman car immediately behind the engine escaped without a scratch. This did the minister propose to forward a letter to steel cars on the I. C. R. Mr. Graham, in answer, pointed out that the cost of changing from wooden to steel cars would preclude the possibility of carrying out the reform for some years to come. Although the matter was unimportant, he was the Lancaster level crossings bill when it was before the house on Monday the member for Lunenburg expressed an expected difficulty this afternoon when the third reading, which was expected to be a matter of some importance, was requested of Mr. Graham, who said he desired to get the opinion of the chairman of the railway committee, who was present in Winnipeg. Mr. Graham was not anxious to delay the further progress of the bill but had stress on waiting till Judge Mackay had expressed his view. Mr. Lancaster made a strong plea for his pet measure. It was delayed in getting to the committee, but he would be glad for amendment it might not be reached again by the commons as was the case last year.

STR. MINTO CLEAR FROM FIELD OF ICE. Pictou, N. S., Feb. 3.—The steamers Stanley and Minto, running between Pictou and Georgetown, are again clear of the ice. The wind changed and came favorable and the Minto got away from the ice and arrived at Pictou this morning. She sails from there tomorrow morning for Georgetown. The Stanley sailed from Pictou this morning.

LOCAL LUMBER MILLS. Stetson, Cutler & Co's two mills at Indiantown and Pleasant Point are the only two in the city running at present. The "Big Mill" will close down soon for a month for repairs. The saw mill of A. Cushing & Co., Union Point will resume operations early in March. Chas. Miller's mill at Pokok will be started later in March, if weather conditions are not too unfavorable. The mill of Miller Bros., Sinit Sloss, will probably not make a start before May due to a scarcity of spruce logs until the upriver logs are available. Hiram Brothers' plant will be under way as soon as the first upriver logs from Fredericton are available, between May 20 and June 1. Randolph & Baker's two-gang mill, at Randolph, will begin operations about the middle of April. The mill of J. R. Warner & Co., Strait Shore, will be in operation as soon as the ice has melted out of South Bay, where they have their logs stored. Murray & Gregory expect to begin sawing spruce and cedar about April 1. John E. Moore's mill at Pleasant Point will begin sawing operations between May 15 and 20.

SWINDLED THE GRAND TRUNK. Five Men Arrested in Toronto on a Charge of Selling Fake Railway Tickets.

Toronto, Feb. 3.—When arraigned in the police court this morning on a charge that they "did conspire, combine, confederate and agree to defraud the Grand Trunk Railway by allowing certain persons to be carried as passengers of said railway without paying their fares," Conductors Daniel Corrigan and Frank McCallum, of the Grand Trunk Railway, and three Hebrews, Jacob Woods, of Toronto; his cousin Joseph Woods, of Montreal, and his brother-in-law, Thomas, of Toronto, all reserved pleas and elections and were remanded for a week. These five arrests are the discovery of a daring ticket swindle scheme, which is supposed to have been in operation on the Grand Trunk trains between Toronto and Montreal for more than three years.

Simultaneous arrest of all five was made by James E. Stelm, manager of the Third Detective Agency, and carried out by the local detective department last night. In three years that this scheme is alleged to have been in operation it is calculated that the G. T. R. has been defrauded out of thousands of dollars. Detectives say that Toronto men were the principal buyers of alleged "fake" tickets and as the trip to Montreal that way would only cost \$1.75 there was a rushing business, which paid great profits. The regular fare is \$10. There were two plans of working the scheme, they allege. One was to issue blank tickets numbered and initialed by the vendors who the buyer would hand to the conductor on a train and would be carried to Montreal. Imperial Bank checks were used to operate this scheme as the color is exactly the same as that of the tickets used by the Grand Trunk. Blue pencil marks with initials on the bottom made the "dummy" look enough like a regular passage ticket to deceive the conductor taking fares. Tickets to or from Montreal could be purchased this way according to the Third best, who have been working up the case for six weeks. Another alleged plan was to sell a ticket for some point near Toronto and then get with him to the train and "fix" it with the conductor. One man is alleged to have worked this game independently of the others.

ASTHMA CAN BE CURED. Mr. Munro Gunn Says Catararhose Cured Him After Six Years of Intolerable Suffering.

Six Mile Brook, N. S., Feb. 4.—For many years Mr. Gunn has been a resident of this town, and his Asthma and rheumatism were so bad that he was completely prostrated, quite unable to work or sleep, and always gasping for breath. "For six years," states Mr. Gunn, "I have suffered from Asthma more than ten can describe. Active using Catararhose I was unable to work or sleep, and never nained one whole night in bed. I would awaken with something sharp and couple of minutes would have to go into the open air. "I do not say I would never get rid of the Asthma, but after using Catararhose I concluded they were wrong. I used the inhaler five minutes every hour, and obtained wonderful relief from the first treatment. When I had used three bottles of Catararhose I was cured, and never felt better in my life than I do today. I am never bothered with Asthma and know Catararhose is a cure cure." "Catararhose is not difficult to use. Simply inhale six times daily and the Asthma will quickly be relieved. Catararhose can hardly fail to cure for the reason that it destroys the cause of the disease. It stops the dreadful cough, cures smothering sensations, and makes breathing easy and regular. "I am now able to be permanently cured of Asthma by Catararhose. Money back if not cured. Two months treatment costs but one dollar, trial size 25c. Sold by druggists or by mail from N. C. Folsen & Co., Kingston, Ont., or Hartford, Conn., U. S. A.

MONTREAL POLICE HEADS WILL BRING LIBEL SUITS. Montreal, Feb. 3.—The charges and counter charges with regard to the administration of Montreal's police department have at last spread to the courts, and will be thoroughly investigated if the cases go ahead. Chairman Proulx, of the police committee, today entered a libel suit for \$5,000 against R. W. Villeneuve, the most persistent critic of charges against the department, and another for \$10,000 against La Patrie for editorial comments in which it is alleged to have said the police department was rotten to the core. Chief of police Campeau has also entered a libel suit against La Patrie for the same editorial.

HORTICULTURAL SOCIETY. The St. John Horticultural Association at the annual meeting yesterday afternoon in the board of trade rooms went on record as urging the extension of the street railway system to Rockwood Park at an early date. Hon. J. D. Hazen, president of the society, was in the chair. The yearly reports were received and the 1908 directors re-elected. The extension of the local traction system to the park was referred to in a report by George S. Fisher and the resolution mentioned was adopted. G. E. Fairweather, H. B. Schofield and Mr. Fisher were appointed a committee to act in the matter. This was the only business except the adoption of the reports, and the meeting closed at 7:30. ST. JOHN IS DEEPLY CONCERNED IN THIS Grain Shippers Will Meet in Calgary Today to Consider Whether Winter Shipments May Not be Sent Via Vancouver. Calgary, Feb. 3.—Today at Calgary opened the most important conference which has taken place in years and the subject under discussion is whether winter shipments of Alberta wheat shall go in future by St. John or by Vancouver. The rate by St. John is 25 cents a hundred from Alberta to Fort William; 25 cents from there to the Atlantic and about five cents to Liverpool, about 55 cents in all. The rates via Vancouver, and the Charge Union of Paris quote a rate of 22 1/2 cents from Vancouver to Liverpool, with the Suez Canal and calling at Hong Kong. The conference is called by Premier Rutherford and includes shippers of grain, millers, farmers and all interested in transportation questions. Their only difficulty at present is the lack of terminal facilities at Vancouver, the wheat has all to be sacked and this eats up all saved in rates. It will not affect Montreal as in summer the rates via the St. Lawrence are smaller than they can be by the Pacific. It is the long haul from Calgary and west to that of St. John which causes the great expense.

TRURO PASTOR FOR A TORONTO CHURCH (Toronto Telegram) It is expected that the pastor of Deer Park Presbyterian church, recently occupied by Rev. D. C. Hossack, who has retired, will be filled by Rev. George McLeod, of Truro, N. S. If his own Presbytery will release him, it is very probable that Mr. McLeod will accept the Deer Park invitation. Born on a farm at Murray River, P. E. I., Mr. McLeod has worked his way through school. When a boy he succeeded in a trade thereby making enough money to enable him to attend the public school. He was determined to secure a good education, but he hadn't financial aid. A friend loaned him enough money for one term at Prince of Wales College, Charlottetown, where he secured a teacher's license, and since then he has gradually climbed the ladder rung by rung. In 1881 he took the pastorate at the Presbyterian church, Newcastle, Ontario, and for the last six years he has preached to a large congregation in the First Presbyterian church, Truro, N. S.

AWARING TOWNMEN AN EVENING PARTY AND ITS SEQUEL.

How lamentable and yet how true it is that our social pleasures are responsible for most of our ills. This is due largely to neglect and thoughtlessness. A slight chill or cold contracted on leaving an overheated room after the system has been lowered by breathing the poisoned air, develops more rapidly than otherwise.

The pictures given here tell their own story. The timely use of PSYCHINE "The Greatest of All Tonics" has saved many of Canada's fair daughters and her sons from an early grave. The following testimonials prove this:

CHILD'S LIFE SAVED! Mrs. E. Obeldi of Oshewin, Ont., declares that PSYCHINE saved her child's life. It was then suffering from pneumonia. This was in March, 1907. On August 14th, 1908, 17 months after, she writes: "The condition of my family's health is decidedly good. I give PSYCHINE to each member of my family, eight in number, and their good health is due to PSYCHINE which we believe to be the greatest of Tonics."

MOTHER AND BABY BENEFITED. Mrs. Wm. Haystead of Falding, Ont., says: "I was very weak and run down when I commenced using PSYCHINE. I used two bottles and now feel like a new person, also my baby who was always pale and languid. PSYCHINE is now our family remedy." writes Mrs. Agnes Comber, 82 Wellington St., London, Ont.

NO USE FOR DOCTOR NOW. "I am glad to tell you I have not had to have the doctor since I have used PSYCHINE. I am now in good health, also the family. I used PSYCHINE for my boys who were growing too fast and were always pale and languid. PSYCHINE is now our family remedy." writes Mrs. Agnes Comber, 82 Wellington St., London, Ont.

WHAT PSYCHINE IS AND DOES PSYCHINE is the greatest strength restorer and system builder known to medical science. PSYCHINE regulates and tones up all the vital organs. It cures stomach troubles, aids digestion, destroys disease germs in the system. The cure stomach of tonics, it makes the blood pure, rich and healthy, giving renewed vigor and energy to those who are weak and tired and run down.

USE YOUR OWN JUDGMENT! There are times when a choice has to be made between following the advice of a physician and taking the advice of a friend. You have the latter some one that you will be perfectly safe and justified in taking PSYCHINE irrespective of the physician's advice. The physician's advice is to take a course of treatment, but you have the PSYCHINE which has thousands of the most wonderful cures to its credit, cannot but be endorsed by every physician to whom the life and happiness of his patient is of any importance. The best physicians who have without prejudice looked into the great work, PSYCHINE is doing for humanity, are recommending it to many of their patients, and the result is that PSYCHINE is the equal of which the world has never seen.

PSYCHINE tones up every part of the system, and cures when all else fails. At all Drug Stores and at 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

FROM SECTION HAND TO HEAD OF RAILWAY New York, Feb. 3.—William C. Brown, who began his railroad career forty years ago as a section hand on the Chicago, Milwaukee & St. Paul railroad at \$1 a day, is now president of the Great Central of which the N. Y. Central is the chief line.

HIS ONE MISTAKE When the man with the blue goggles on had got through telling a funny story which was laid to President Lincoln, the old veteran spoke up and said: "Goodness, I knew President Lincoln's personality, and the return of his anniversary always gives me a few solemn hours. I may say that he made me what I am, a section hand on the back and gave me a college's worth of education."

Something Bigger He stood on the street corner gazing down the street with great intenceness when an acquaintance came along and slapped him on the back and exclaimed: "Hello, but are you looking for Laucola's birthday?" "No, not exactly," was the reply. "I'm looking for something bigger than that." "Old Abe was a great man." "Yes, I know that, but I'm looking for something bigger than that." "Never had a president like him." "That's what I've read." "And some folks say there will never be another."

HOW HE GOT EVEN. Cook—I told Dinks a funny story last week but he didn't laugh. I got even though. How? Cook—Last night I overheard him repeating it to a friend—then he had the laugh on him.

A PLATE YOU CAN BITE WITH, HELD IN POSITION BY OUR NEWLY INVENTED QUADRUPLE ATTACHMENT.

People don't want artificial teeth to carry around in their pockets nor keep at home in their bureau drawers so they will know where to find them when the door bell rings, they want teeth for service.

If you have a plate that no dentist has been able to make fit, why not try us? We have assisted thousands and why not you? Our teeth are so natural in size, shape, color and the expression they afford to the features as to defy detection EVEN BY A DENTIST unless closely examined.

Our new attachment holds them so solid almost as though they were riveted in the mouth.

A message from Vancouver last night told that in the search for James Semple tracks were found at one point within two miles of Vancouver, but showed that the unfortunate man, becoming bewildered had circled in his own path several times. Search has practically been given up.

The regular meeting of York L. O. L., No. 3 which will be held in the Orange Hall this evening promises to be a very interesting one. The lodge has an entertainment committee, whose function it is to provide a brief programme for lodge meetings. They will furnish an entertainment programme to-night and all members of sister lodges are invited to attend.

A Stoughton, Mass., paper tells of a narrow escape from burning alive of Mrs. (Dr.) T. Estabrook, well known in this city. She is now in bed at her home, a mass of bandages and is suffering terribly from the severe burns which she sustained. She was working in the kitchen when her dress caught fire from some coals. Dr. Estabrook, who was in the yard and who had on a pair of buckskin gloves, rushed in and tore off the dress and skirt and beat out the fire. Dr. Estabrook's cousin, George J. Estabrook and Dr. H. Estabrook, of St. John and Dr. Mrs. Estabrook, are frequent visitors here.

The following is the programme arranged for the concert tonight in the Waterloo street Baptist church, under the auspices of the choir. A FAST TRIP

Schooner Yolanda Came From Boston to St. John in About Forty Hours.

From Boston to St. John in 40 hours is the record of the little schooner Yolanda, Captain William Durant. This time at especially so during the winter. The schooner left Boston at 6 a.m., Tuesday, and arrived in the harbor at 10:30 last night. She is owned by D. A. Huntley, of Parrsboro, and is less than 100 tons. The little vessel is something more than a year old. She has 2500 bags of fertilizer for P. Nase & Sons.

CAPTAIN HOME SHANKLIN

Captain H. J. Shanklin, of the before reported wrecked schooner Golden Bell, lost on Egg Rock, off the coast of Maine, is home.

The captain has been a sea-faring man for over thirty years, and this is the second accident that has happened him during that time.

Captain Shanklin has followed the coast all of his sea-faring life, except for about five years when he sailed to the old country. The cause of the loss of the Golden Bell was the gale that swept the Maine coast recently. The captain is well known along the water front, as a very careful navigator. His many friends are giving him the glad hand over the miraculous escape of himself and crew.

GOES TO SACKVILLE AS TOWN MARSHAL

William J. Sullivan, Formerly of the Local Police Force, Will Keep Order in Tantramar Town

William J. Sullivan, of the city, has been appointed town marshal of Sackville, and left for that place today to enter upon his duties. Mr. Sullivan goes with strong recommendations from leading citizens. He served for over four years on the John police force, and was a good officer. Being over six feet in height, and built in proportion, Mr. Sullivan is not the sort of man to run away from trouble makers. If at the expiration of a month his services are satisfactory to the town council he will be permanent, and his family will be made Sackville.

CAPT. J. E. THOMPSON DIED THIS MORNING

Commander of S.S. Governor Cobb Passed Away in a Brooklyn Hospital as the Result of an Operation.

Word was received this morning by C. E. Leachler, agent of the Eastern Steamship Line, this city, that Captain James E. Thompson, of the steamer Governor Cobb, died at Brooklyn, N. Y., after undergoing an operation for a carbuncle on his neck, this morning.

The captain was on his way to his home in Portland, Maine, from Washington, D. C., where he had been at a gathering of captains, and stopped off at Brooklyn to visit the hospital.

Captain Thompson was well known in this city, and had been in the employ of the present company almost all of his life. He was the son of the late Captain John Thompson, who was also connected with the Eastern steamship line, running between this port and Boston.

Captain James Thompson was one of the most popular commanders of the line, and he will be greatly missed by the travelling public. He was between fifty-five and sixty years of age, and leaves a sorrowing widow at Portland, Maine.

His steamer, the Governor Cobb, has been hauled off the route during the winter months, undergoing repairs, to be placed in commission in the coming spring. He was of a jovial and kindly disposition, and made many appearances, and will be greatly missed by those with whom he came in contact. The citizens of St. John extend their sympathy to his widow and relatives over their loss.

MR. MCKELVIE LIVES WESTERN PROSPECTS

Young Man Well Known Here Writes Entertainingly of Life in Calgary.

A letter from Chas. McKelvie, formerly with the International Harvester Co., St. John, but now living in Calgary, states that he is the accountant with the McPherson Fruit Company, having succeeded Mr. Folkins, a former Kings Co. man, who has been promoted manager of the company's branch at Edmonton. The head office of the company is in Winnipeg, and there are branches in Calgary, Brandon and Edmonton.

Mr. McKelvie writes that from the present outlook, things are likely to boom in Calgary this year. He says: "We will have a street railway by July 1st, a number of big brick blocks will be started as soon as spring opens and it looks now as if two more railways, the C. N. R. and the G. T. P. will commence building here early this year. To my mind, this place has the advantage of all towns from Winnipeg to the coast. The weather here is lovely now. Building operations have been continued right along, except for about three weeks of exceptionally cold weather around Christmas and New Years. When down town today, I saw a large crew of men working on the new city hall, which is to be a \$200,000 stone building. Asphalt pavements, and block pavements on a concrete base, were laid right up till Christmas. Captain Dick, a brother of Hazen J. Dick, has a big ranch west of High River and is doing well. The for anything like overwork is two or three months of ranch life. There are dozens of living testimonials out here to prove it."

FROM WHITE COVE

White's Cove, Feb. 3.—The weather the past week has been very rough and cold, and it looks now as if we would get lots of snow before this month is out.

Mrs. Robert Orchard, who is 80 years of age, has been sick about a week with pneumonia.

Alex. McKinley is suffering from an attack of pleurisy, and is improving very slowly.

Walter Palmer has gone with his team to Hibernia to haul wood.

Rev. Father McLaughlin, of Milltown, who has been visiting his parents, Mr. and Mrs. James McLaughlin, of Mill Cove, for the past week, has returned home.
