

EUROPE MAY INSIST UPON MILITARY DISARMAMENT AS WELL AS NAVAL VACATION

Opinion Growing in Old World, Especially in France and Italy, That Conference of the Powers Should Demand Reduction of All Standing Armies.

FRANCE HAS ALREADY ACCEPTED INVITATION ISSUED BY HARDING

Hon. A. J. Balfour, Admiral Beatty, Premier Briand Likely to be Present But Lloyd George's Presence is Not Yet Certain—Viscount Grey May be Sent in His Place.

London, July 12.—The disarmament conference continues to be the most prominent topic of discussion dividing honours with the Irish peace conference. No doubt is felt in London that all the nations invited will accept, and as the French premier, M. Briand, seems already to have decided to go to Washington, it is considered all the more likely that the British Prime Minister will also go, always provided that the state of affairs at home at that time will permit his absence and that his health will permit him to make the trip, as there has been talk of the premier taking a long rest in Switzerland by advice of his physicians.

British Representatives

The belief prevails among the members of his entourage, however, that the premier is strongly inclined to visit the United States, and that Sir Auckland Geddes, British Ambassador at Washington, is pressing him to go. It is assumed as a certainty that A. J. Balfour, Lord President of the Council, will be a delegate, and probably also Admiral Lord Beatty, Lord Lee, of Fareham, First Lord of the Admiralty, and Sir Laming Worthington Evans, Secretary for War.

Will Germans Come?

Much interest is shown in the question as to whether Germany and Russia will be invited to send delegates to the conference, and in the unobscured press comment on the fact that invitations are not confined to those powers especially interested in Pacific problems, but go also to France and Italy, which, it is held, will introduce the more

complex problem of general disarmament, military as well as naval.

The premier's statement in the House of Commons yesterday, welcoming President Harding's suggestion for a conference to discuss the limitation of armaments, probably will be the only announcement of the attitude of Great Britain on the subject until Washington has indicated the exact nature of the proceedings for organization of the conference and other details, which will be handled through the customary diplomatic channels.

Lloyd George Uncertain

Pending conclusions of those arrangements, Downing street officials declared this afternoon that it was impossible to say definitely whether the premier would go to Washington for all or part of the conference sitting, but that it was "quite possible" that he would make the trip, if only to attend the final plenary sitting after the details of the proposed international agreement had been worked out with the assistance of the premier's representative. Viscount Grey's name figures prominently in the conjecture as to who might be entrusted with this task.

France Has Accepted

Washington, July 12.—Receipt of the formal acceptance by France of President Harding's invitation to join in an international conference on limitation of armaments and the Eastern problems was announced today by the State Department. This was the first formal reply to the invitation to be received.

Express Wages Down Six Cents Per Hour But Rates Stay Up

Eight Million Dollars Will be Saved by Cut Affecting About 75,000 Employees.

Chicago, July 12.—The United States Express labor board today ordered wages of employees of the American Railway Express Company reduced six cents an hour beginning August 1st.

No reduction of express rates is contemplated at this time as a result of the wage cut, express company officials said. It is estimated that approximately eight million dollars will be saved off the annual labor bill of the company by the reduction. The company employs between 70,000 and 75,000 workers.

POLICE RESCUED DE VALERA FROM LONDON FRIENDS

Mobs of Sinn Feiners Give Tumultuous Welcome to Irish Republican "Pres."

BANNERS ARE OUT ON EVERY SIDE

De Valera Lost His Hat in the Jam and Had His Clothing Badly Torn.

London, July 12.—Eamon De Valera and the other Irish Republican leaders who are to participate in the conference with Prime Minister Lloyd George here Thursday, arrived in London from Dublin this evening. They received a tumultuous reception at Euston Station.

The arriving Irish delegates were met by a crowd of several hundred, including officers and members of the Irish Self-Determination League headed by Art O'Brien and his wife, who are to assist in the entertainment of the delegates when they are in London. Defeating cheers resounded the moment De Valera stepped from his compartment, his admirers crowding and pushing forward in a mass in their eagerness to grasp his hand.

Rescued by Police.

Eventually a squad of police rescued him from the attentions of his enthusiastic friends and escorted him to his motor car, in company with Mr. and Mrs. O'Brien. The Republican leader's clothing suffered during the jam, and his hat was lost, but ultimately was recovered.

All the members of the greeting party wore the Sinn Fein emblem of the League and bore huge green banners. There were vociferous calls for a speech, to which the Irish leader, however, did not respond.

The crowd swarmed over the motor car which when it finally got free noisily proceeded through Trafalgar Square and the Mall, past Buckingham Palace, to the hotel which is to be De Valera's headquarters, not far from the United States Embassy. The other delegates followed De Valera's car in carriages.

MONCTON WAS HOST TO 1,000 ORANGEMEN

Estimated That at Least Five Thousand Visitors Were in the City to Celebrate Twelfth.

Moncton, July 12.—With five bands and a thousand Orangemen in regalia and carrying banners, the parade this afternoon was the feature of the Grand Orange Lodge celebration of the Battle of the Boyne here today. Several of the principal streets were paraded, and heading the procession, as King William, was Stephen B. Bustin, Grand Master, of St. John.

The parade was held with the thermometer standing at 88, but there were no protestations from heat so far as could be learned. It started and ended at the speedway, and there was no unusual occurrence to mar the success of the celebration.

A departure was made in the usual programme, there being no speech-making at the conclusion of the parade. It is estimated that Orangemen and visitors to the city numbered about five thousand, special trains bringing contingents from St. John and Fredericton.

DUBLIN SANG TO DAYBREAK AFTER TRUCE

Entire Island Calm for "12th" and Only Clashes Reported Were in Belfast.

ALL POLICE HAVE BEEN DISARMED

Some Quit Office When They Were Deprived of All Their Revolvers.

Belfast, July 12.—The calmness with which the anniversary of the Battle of the Boyne was celebrated here was not attributed to the truce in Ireland, the proclamation of which was met with a mixed reception here.

"Hospitality" kept busy all day as a result of clashes, and the death roll was added to by the shooting of a youth in the Falls district by an sniper, York street, where the rival forces intermingled somewhere in the city, simmered with excitement until a late hour.

The police, both regular and special, have been disarmed throughout the province, and the special in civilian garb have been dispensed with where they did not resign on being deprived of their revolvers.

Island is Calm

Dublin, July 12.—Since the advent of the truce, no disturbance of any kind has been reported from any part of Ireland other than Belfast, according to an official statement issued from Dublin Castle today. On the other hand there have been many scenes of ardent rejoicing over the new peace development. All Dublin gave itself over last night to celebrating the truce and sang and cheered until daybreak.

SOLDIER BONUS BILL DANGEROUS

Adoption Would Imperil Financial Stability of the Nation, Pres. Harding Says.

Washington, July 12.—Enactment of the present form of adjusted compensation legislation for veterans of the war would imperil the financial stability of the nation, President Harding told the United States Senate today in the second address he has made to that body during his administration.

Every obligation is to the disabled and dependent, he said, and the executive branch of the United States Government owed it to the country to frankly state the difficulties "we are daily called upon to meet, and the added peril this measure (soldiers' bonus bill) would bring."

After four months' survey of conditions, the president said, he was fully persuaded that three things were essential to restoration. These, he said, were the revision, including reduction, of internal taxation the refunding of the war debt, and the adjustment of United States foreign loans.

CHAS. WHITTLE DEAD

Moncton, N. B., July 12.—The death of Charles Whittle occurred this morning. He has been ill with heart trouble for some weeks past. He leaves to mourn his wife, who is a native of England, and one son, four years old. He was forty years of age, a native of England, and came to this country about twenty years ago, since which time he has resided in Moncton and Sunny Brae. Mr. Whittle was a valued member of the Knights of Pythias, which society have charge of the funeral arrangements.

NAVAL EXPENSE BILL IS SIGNED

Washington, July 12.—The annual naval appropriation bill was signed today by President Harding. The bill carries approximately \$410,000,000.

The bill represents a decrease of about \$85,000,000 in the original Senate figures and an increase of about \$14,000,000 over those first advocated by the House.

HEAT KILLS HORSES

Montreal, July 12.—During the last ten days of the heat wave here at least fifty-eight horses have succumbed in Montreal as a direct result of the excessive temperature. These are the numbers reported, but it is probable that there are others unrecorded. Since many of these horses are highly bred animals, an estimate of \$20,000 in respect of losses sustained is regarded as a low figure. Many of these could have been saved if the advice of the S. P. C. A. had been heeded.

ITALY FAVORS HOLIDAY

Rome, July 12.—The proposal of President Harding for a conference of restriction of armaments has been favorably received in Italian official circles, and especially by Premier Bonomi and Foreign Minister Della Torretta. It was indicated today. This leads to the belief that Italy undoubtedly would accept an invitation to such a conference.

France Will Stay On The Rhine Until Hun Trial Proper

Scandalous War Criminal Hearings Excite Wrath of Premier Briand.

Paris, July 12.—France has informed Germany she will continue the occupation of the Rhine region until Germany has complied with the conditions of the treaty of Versailles relative to the punishment of those who violated the rules of civilized warfare in the world war, Premier Briand told the Senate today. Replying to a question, he characterized the findings of the League of Nations court as "scandalous."

M. Briand said the government had decided to show Germany that France still had strength, and expressed the hope that the other Allied countries would join in the French viewpoint.

LOYAL ORANGE ORDER SCORES IRISH LEAGUE

Use of French Language Except in Specified Places in Canada Condemned.

SEPARATE SCHOOLS ARE CONDEMNED

Moncton Gathering Tenders Sympathy and Offers Aid to Irish Brethren.

Moncton, N. B., July 12.—At the Orange celebration here today the following resolutions were passed:

1.—Moved by H. T. Brewer, D.G.M., Fredericton, seconded by E. H. Penwarden, G. Chapter, of Harcourt:

"Resolved, that this body of Orangemen and Protestants assembled at Moncton on the 12th of July do hereby express our unswerving allegiance to the person and throne of King George V., and we hereby declare our alterable opposition to any movement which may tend to the disintegration of the British Empire."

2.—Resolved, that we hereby declare our continued belief in the principles of the Orange Association, believing that they express true democracy, Christianity and British loyalty and tend to the uplift of humanity and the extension of liberty.

Sympathy for Ireland

3.—Resolved, that we hereby extend our entire sympathy with our brethren in Ireland in their fight against the rule of the Sinn Fein, and declare that the Orangemen of Moncton are prepared to tender them any assistance possible in their magnificent struggle."

4.—Resolved, that the meeting declares that all separate schools in the Dominion of Canada should be abolished, and that the principle of national schools throughout the length and breadth of the land tends to unification of the youth of Canada tending ultimately to a consolidation of the entire Dominion.

Self-Determination League

5.—Resolved, that this meeting is of the opinion that in as much as the French language is only entitled to status as an official language in the Province of Quebec, Federal Parliament and the Supreme Court of Canada that bilingualism in British North America should cease to exist, except as herein before stated.

6.—Resolved, that we as loyal subjects of His Majesty, King George V., do hereby assert that the Self-Determination League for Ireland should find no place in this Dominion, and we call upon all British loyalists from the Atlantic to the Pacific to protest strongly against the unreasonable utterances of this league fostered by the Pope of Rome and his satellites.

PREMIERS WANT PACIFIC PROBLEMS SOLVED BEFORE THEY LEAVE FOR HOMES

Australia and New Zealand Anxious to Call Conference at Once to Avoid Long Trip.

MEIGHEN IS ANXIOUS TO GET BACK HOME

Still Planning to Sail from Liverpool for Canada About July 21st.

(By GRATTAN O'LEARY)
Canadian Press Staff Correspondent

London, July 12.—In consequence of official conferences which took place here today, it is not improbable that the British Government will make an effort to have a separate conference on Pacific problems held in London before the Washington conference. President Harding's idea and the original idea held here was that both conferences should be held in Washington, the first dealing with disarmament and embracing all of the great powers, and the second, arising out of the first, to be confined to nations having an especial interest in the Pacific.

Premier Hughes, of Australia, and Premier Massey, of New Zealand, however, have pointed out that it would be practically impossible to go home and return to Washington also immediately.

Meighen is Anxious

If their desires prevail the conference will be brought on here some time in August, and Premier Meighen, who has become universally recognized as one of the fathers of the idea, and who has fought strenuously for such a gathering, will be able to return to Canada on July 21st, as planned.

Premier Meighen would much prefer to be in a position to return to Canada by August 1 and an attempt to put his political house in order before proceeding to Washington.

As the representative of Canada, which more than any other part of the Empire has an interest in the Pacific, and also as the hardest fighter for the conference of all imperial statesmen, he realized that it would be wrong and impossible for him to absent himself from the Pacific conference when or where it is held. The question, of course, is not definitely divided, although the present outlook favors London instead of Washington. The conference had two sessions today.

Boy Removed \$150 In Bills Stole Quietly Into Store and Took Money from Cash Register.

Montreal, July 12.—One of the most daring bare-faced thefts in a long time took place here today, when a boy about ten years of age, dressed in a cash register and removed a roll of bills amounting to \$150.

Mr. Barber, storekeeper at 237 St. Lawrence boulevard, the victim of the youthful robber, had his attention directed to arranging his stock of candies, when he heard the faint tinkling of the cash register bell. When he took his head from the show case, there was no one in sight, but bending over the counter, he saw a slight form near the door, and he got from behind in quick time. When he ran to the street the knee pants and bared legs were not to be seen. Examining the register he discovered that his roll of bills had gone with the lad.

But Fog Was So Thick That First Attempt to Reach Scene Was a Failure.

Halifax, N. S., July 12.—A boat which put off from Sable Island today in search of the wrecked tug Fabia at present engaged in attempting to salvage the international ocean schooner Esperanto, which was wrecked on account of a thick fog and was consequently unable to deliver a radiogram offering to despatch assistance to the wreckers according to a despatch received here tonight. Realizing the difficulties which Captain Bob Wharton and the crew of the Fabia have labored under since they undertook salvaging of the Gloucester schooner almost a month ago, it has been arranged to send a rescue steamer with provisions and auxiliary wrecking apparatus to the scene at short notice.

DEPART U. S. SEAMEN

Montreal, July 12.—Owing to the shipping strike in the United States a number of American seamen have been drifting to this port looking for berths. But the fact that Captain Grey, the local shipping master, has had 17 of them deported, in a body, is expected to discourage others from coming here. Shipping here is plentifully supplied with sailors and firemen.

'PHONE CABLE UNDER RIVER

Now Possible for 600 Conversations at Once Between Windsor and Detroit.

Windsor, Ont., July 12.—With prominent officials of the Bell Telephone Company of Canada and the Michigan State Telephone Company present, the largest submarine cable in the world was laid today on the bed of the Detroit River between Detroit and Windsor. The cable carries 408 pairs of wires and will make it possible to conduct 600 conversations simultaneously between the two cities.

Work Was Brief.

Half an hour was needed to complete the actual work of laying the cable, the work being done by the barge international, which was towed across by the tug Samson J. Day.

Witnesses at the bottom reached addresses Judge F. C. Kuhn, president of the Michigan State Telephone Company, and L. B. McFarlane, president of the Bell Telephone Company of Canada, shook hands and expressed the hope that the cable would result in cementing more securely the ties of friendship between the two countries. The cable weighs 50,870 pounds, is 3,000 feet in length and 10 1/2 inches thick.

Mr. Raney Replies To O. J. C. Secretary

Club Had Full Warning and Was Told Drinking Must Stop on Grounds.

Windsor, July 12.—Hon. W. E. Raney, attorney-general, replied to the attack made upon him by Secretary W. P. Fraser, of the Ontario Jockey Club, over the \$1,000 fine imposed upon Mr. Fraser as a club official over the drinking of liquor in the club bar at the spring meet.

The attorney-general declared that the club had been told about the bringing of whiskey into the clubhouse bar and its use unchecked right under the nose of the club employees. The provincial police had warned Secretary Fraser that trouble would follow if the practice was not stopped.

"General Elliott, provincial commissioner of police, told me that he had telephoned Mr. Fraser personally and had warned him that this thing must stop or there would be trouble. It did not stop and there was trouble," said Mr. Raney.

"The Ontario Jockey Club does not take punishment like a sportsman," said the attorney-general. "Having been convicted in the police court and pending its appeal to the county court, it kicks our friend sub-judice just as if there were no rules of the legal game. To the adjetives and epithets I shall pay no attention."

NIPIGON REGULATES TRAFFIC BEFORE THE PREMIER ARRIVES

Stubbington, Ont., July 12.—On Thursday Nipigon will receive a visit from Premier Drury, who is going there to inspect the fisheries. But this is not the only notable occurrence of late to help put this village on the map.

Nipigon possesses but four motor cars, most of them new arrivals, and the other day it had its first case of speeding. Hans Rudt speeded down the main street of the village his first time out in his new car.

Constable Ole Steen estimated the giddy pace at 25 miles an hour and decided that Nipigon couldn't stand such a pace. Magistrate O'Brien agreed, and turned over to the village council the fine of \$20 and costs.

Trying To Find Cure For Elephantiasis

Unnamed Canadian Physician in Samoa Inoculates Himself With Germ.

Vancouver, July 12.—In order to study the terrible tropical disease of elephantiasis, an unnamed Canadian physician in Samoa has just had himself inoculated by bites of mosquitoes that had fed on men suffering from the malady. Captain David Ritchie of the Canadian-Australasian freighter Waiwaka, told on arrival here of his talk with the pucky Canadian scientist who has dedicated his life to find a cure.

In the tropics the natives of many countries are subject to the terrible elephantiasis. Science has striven for many years to find the remedy, but to no effect.

Carried by Mosquitoes.

It has been learned that the germs are carried by mosquitoes, and that inoculation occurs when a mosquito feeds on its victim. The disease-carrying pests are confined to those that have first fed off an elephantiasis sufferer and transmission of germs can only take place on the twenty-ninth day after the insect has bitten the diseased person. The life of many mosquitoes is not that long; still there are enough whose span of existence permits them to carry the deadly germ.

The doctor told Captain Ritchie that the progress of the malady if he were suffering from it himself. He could watch every phase of development and would thus be in better position to find a cure. It takes from nine to ten months to develop. If the scientist can not solve the problem he has set before himself he will eventually suffer the terrible end that comes to all elephantiasis victims.

Canoe Upset, Two Girls Are Drowned

Swell from Motor Boats Capsized Frail Craft—One Clung to Boat and Was Saved.

Hamilton, Ont., July 12.—Trapped in the swell of two motor boats as they were returning home in a canoe from Wabaso Park last night, Nancy Whitlaw, Toronto, 21, and Margaret Caldwell, Galt, Ont., 29, were drowned in Hamilton Bay last night, when the boat capsized.

Margaret Bell, Toronto, 24, clung to the side of the overturned craft and after waiting for half an hour, was rescued.

Miss Bell said she thought the other two girls were clinging to the other side. She cried to them to hang on until help came, but when no answer came she knew they were lost. She bravely fought for her own life, knowing that her two companions were drowned. She is in a hysterical condition, but not serious.

HARRY G. HAWKER FAMOUS AVIATOR BURNS TO DEATH

Won Notice First When He Attempted the Trans-Atlantic Flight.

RESCUED BY "MARY" IN MID-ATLANTIC

While Flying Yesterday at Hendon, Eng., His Machine Descended in Flames.

London, July 12.—Harry G. Hawker, the famous aviator, was killed on the Hendon flying field today. His machine burst into flames as it alighted on the field.

Hawker achieved fame in May, 1919, when he attempted a trans-Atlantic flight from the Canadian coast to Ireland but failed, his machine falling into the water in mid-ocean. He was rescued by the Danish steamer "Mary." On his return to Great Britain he was decorated by King George. The trans-Atlantic crossing was achieved a month later by Captain Sir John Alcock, who himself died in December, 1919, as a result of injuries received in a crash to earth near Cotterdun, France.

COST OF LIVING LOWER IN JUNE

May Figures for Family of Five Were \$12.35—June Only \$11.16 is Report.

Ottawa, July 12.—The average weekly cost of the family budget (allowing for five) in sixty Canadian cities at the beginning of June was \$11.16, as compared with \$12.35 for May. One half of the decrease for the month in food, as reported by the statistics branch of the labor department, was in butter, the cost of which for three pounds fell 59 cents. Eggs were down three cents per dozen, and cheese between 3 and 7 cents per pound.

Some Other Declines.

There were slight decreases in nearly all the other items, beef falling half cent, and other fresh meats one to three cents. Coal and coal oil were down slightly, but rent averaged slightly higher. The cost of the same articles for a family of five in June, 1920, was \$16.92; for June, 1919, \$13.72; for June, 1918, \$12.77 and for June, 1914, just before the war, \$7.35.

Clothing and boots showed a decrease of about thirty per cent from the high point of 1920.

Some Quit Office When They Were Deprived of All Their Revolvers.

Continued from Page 1. Belfast, Ire., July 12.—Today's procession, in which many bands and huge drums, occupied three hours passing a fixed point. The leading figure was Sir James Craig who arrived from England this morning.

"Hold What We Have"

Naturally the new developments in Irish politics figured prominently in the speeches, the keynote of which was: "What we have we hold."

Condemn Craig's Plans

At an Orange demonstration at Hillsborough, near Lisburn, attended by 20,000 persons, a resolution was passed calling on Sir James Craig as the Ulster Premier and his government "to disassociate yourselves from the action of the Imperial Government in trafficking with traitors and setting a premium on disloyalty, murder and outrage."

Nothing to Give Away

"Third, it gets into the minds, even of some of our friends, that we have something to give away. While I and my colleagues are there, there will be nothing to give away. Therefore, while it is disastrous to many of us, we are not going to flinch from what we consider our duty to the well-being of our own people in the North."

Situation Changed

Pointing out that the whole situation has changed since June 22, Sir James declared: "I no longer, James Craig, except to my friends, but to those who would tamper Ulster rights I am Prime Minister of Northern Ireland. The way of peace is in our own hands and their own hands only. They way of peace is impossible without the murderers first coming to their senses and stopping murder. All the ones lie upon them."

Fines Collected For Over-Speeding

Constable Gave American Speedsters Merry Chase and Taste of Law.

Provincial Constable Robert Crawford gave the American tourists last night who were burning up Route 104 boulevard with their speed. There were two cars, one with a New York tag and the other showing the license plate of Massachusetts. The first went over the road at a fifty mile an hour clip. Officer Crawford followed the driver of the New York "buggy" overtook him, placed him under arrest and brought him before Magistrate Anderson. The offender, a police officer of the American Metropolis, pleaded guilty, paid a fine of \$10 with costs and continued his journey smiling.

Many in British Columbia.

Coming nearer home, the lecturer somewhat amazed his audience by declaring that there were fairies in many parts of Canada, but British Columbia seemed to be more thickly inhabited by the spirits than the other provinces. Several of the settlements or colonies of elves were of a beautiful silver green color, but each differed in degree of remoteness from the others. One bright blue tribe had been observed in the Chilliwack Valley, 80 miles from Vancouver, their activities extending over a considerable stretch of country, though they seemed to centre chiefly in the neighborhood of the hop fields, where they could be seen in the twilight dancing among the tendrils of the trailing plants.

WINDSOR FARES UP.

Windsor, Ont., July 12.—Increased fares on Windsor street railway, operated by the Ontario Power Commission, have been put into effect. The fare is now five cents straight, instead of six tickets for a quarter. The engineers of the Commission have told the councils of the municipalities the increases are necessary to pay for improvements to the system, which will be made at a cost of more than \$100,000. A bond issue for this amount has been approved by all municipalities and the Ontario Government.

HELP THE ORPHANS.

Charlottetown, P. E. I., July 12.—The "Twelfth" was celebrated here today by Orangemen with the usual parade on the exhibition grounds, where addresses were delivered by provincial grand master McIlwain and others, who spoke mostly of the new Protestant orphan's home, which Orangemen of the island are erecting at a cost of one hundred thousand dollars.

Such Yet to Learn.

Concerning the evolution of the fairies, Mr. Taylor confessed there was still a great deal to learn. It remained to be learned whether the theosophical conception that the existence of elves is established beyond cavil, Mr. Taylor quoted such authorities as Sir Arthur Conan Doyle, Maurice Hewitt, and Lytton, Rev. S. Burdett Gould, Mr. Leadbeter, Sir Oliver Lodge, Maurice Maeterlinck and a number of lesser lights who have spoken or written in support of spiritism in its various forms.

Number of Ships to Russia.

There is an increasing number of trading ships going to South Russian ports, mostly British, Greek and Italian. To date, no American ship has gone, partly because of the lack of political facilities, but they prefer to speculate in exchange. They claim the risks are smaller. Banking business for the present consists in good part of such speculations on the part of customers.

Dearest Place to Live In.

In the face of such a situation, Constantinople remains the dearest of world capitals, from the point of view of living. Retailers of foods and clothing have formed practically a trust to keep up prices. They claim they bought their goods at high prices and must sell them so. As there is no such thing as price controls or public opinion here, retailers are permitted to gouge the refugee population at will.

AMERICAN WHOLESALE

American wholesalers in many cases have preferred to take their losses on merchandise sent here in consignment and re-ship to the United States. Other wholesalers attempted to get rid of stocks locally by organizing a "buyers' club" into street vendors of articles like tea and chocolate and small drygoods, but the plan hasn't worked well because the vendors, in many instances, failed to make returns.

APPOINTED GUARDIANS

In chancery yesterday morning, before Chief Justice Hazen, application for guardians for the three minor children of John H. Hickman, deceased, of Dorchester, was made by M. G. Todd, K. C. The estate of the late Mr. Hickman including both real and personal, amounted to some \$71,000 after 334 debts had been paid. The Chief Justice made an order appointing the two brothers and one sister who had reached the age of 21 or over as guardians of the property and person of the younger children.

EXHAUSTED IRON

Helps make rich, red blood and revitalizes weak nerves

A CAUSE OF WOMEN'S ILLS

WOMEN OFTEN THINK THEY HAVE HEART TROUBLE, INDIGESTION, NEURALGIA, SHORTNESS OF BREATH, PAIN ACROSS THE BACK ETC. ARE DUE TO A SIMPLE IRON STARVATION OF THE BLOOD.

Many women believe they are weak and nervous as a result of age, worry and overwork; they think that their distorted digestion, headaches, heart palpitation, shortness of breath, pain across the back etc. are due to some serious disease instead of the real cause—iron starvation of the blood. This is proven by the fact that when many of these same women take organic iron for a while all their alarming symptoms quickly disappear and they become strong, robust and healthy. Iron is absolutely necessary to enable your blood to change food into living cells and tissue. Without it nothing you eat does you the proper amount of good—you do not get the strength out of it.

If you are not strong and well do not wait until you go all to pieces and collapse in a state of nervous prostration, but take some organic iron—Nuxated Iron—once. But be sure it's organic iron and not metallic iron which people usually take and which is made merely by the action of strong acids on small pieces of iron. Organic NUXATED IRON is like the iron in your blood and like the iron in apples, lemons and other fruits and it often increases the bodily and mental vigor of weak, worn-out women in two weeks' time.

Beware of substitutes. Look for the word "Nuxated" on every package and the letters N. I. on every tablet. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all drugists.

BUSINESS AT STANDSTILL IN CONSTANTINOPLE

Everybody Owes But None Are Paying Bills to Each Other.

TURKISH CAPITAL DEAREST IN WORLD

Improvement Expected When Stable Gov't Established in Turkish Empire.

Number of Ships to Russia.

There is an increasing number of trading ships going to South Russian ports, mostly British, Greek and Italian. To date, no American ship has gone, partly because of the lack of political facilities, but they prefer to speculate in exchange. They claim the risks are smaller. Banking business for the present consists in good part of such speculations on the part of customers.

Dearest Place to Live In.

In the face of such a situation, Constantinople remains the dearest of world capitals, from the point of view of living. Retailers of foods and clothing have formed practically a trust to keep up prices. They claim they bought their goods at high prices and must sell them so. As there is no such thing as price controls or public opinion here, retailers are permitted to gouge the refugee population at will.

AMERICAN WHOLESALE

American wholesalers in many cases have preferred to take their losses on merchandise sent here in consignment and re-ship to the United States. Other wholesalers attempted to get rid of stocks locally by organizing a "buyers' club" into street vendors of articles like tea and chocolate and small drygoods, but the plan hasn't worked well because the vendors, in many instances, failed to make returns.

APPOINTED GUARDIANS

In chancery yesterday morning, before Chief Justice Hazen, application for guardians for the three minor children of John H. Hickman, deceased, of Dorchester, was made by M. G. Todd, K. C. The estate of the late Mr. Hickman including both real and personal, amounted to some \$71,000 after 334 debts had been paid. The Chief Justice made an order appointing the two brothers and one sister who had reached the age of 21 or over as guardians of the property and person of the younger children.

Half-breed Handcuffed to Constable Freed Himself After Battering Him Badly.

North Bay, Ont., July 12.—With his face swollen and badly battered as the result of a mauling he received during a midnight scuffle in a lake near Bonfield, 15 miles east of this place, on the C. P. R., Provincial Constable Fred Lefebvre is lying in his home here, painfully, but it is believed, not seriously, injured, while special officers are scouring the bush for his assailant Simon Genoux, a half-breed.

EMPIRE GLAD TO ACCEPT THE U. S. INVITATION

Conference Will Probably be Held Some Time in October.

CANADA TO SHARE IN DELIBERATIONS

London Waiting for De Valera and the Meeting Between Him and Premier.

London, July 12.—(By Grattan O'Leary, staff correspondent of the Canadian Press.)—The international and imperial situation as a result of developments over the week-end may be summed up as follows:—The British Empire has welcomed and accepted President Harding's invitation for a conference of the great world powers at Washington on Pacific problems and disarmament.

The Anglo-Japanese treaty still exists, but both Japan and Great Britain have agreed that it shall be brought into line with the covenant of the League of Nations, which means the elimination of the military clauses which Premier Meighan and Smuts most strongly objected.

Edmond De Valera is on his way to London to meet Premier Meighan and George, which means the prospect of a settlement in Ireland.

The British Empire congress of premiers, satisfied that its influence in a matter of such great moment to the world, is the better part of wisdom to make haste slowly and it is obvious that a great deal of preliminary work must be necessary before such a gathering can be got into motion. Practically speaking there will be two conferences. The first is to be confined to Japan, China, the U. S., Canada, Australia, New Zealand and Great Britain, while the second will include all the great world powers, France, Italy, Holland and other European nations probably taking part.

So far as Canada is concerned, it can be definitely stated that she will play a part in both conferences. Premier Meighan's intention, therefore, is to reach Ottawa before the first of August and clear up whatever political and administrative problems that are awaiting him there and prepare to go to Washington.

Meanwhile London awaits Edmond De Valera. The Sinn Fein leader while here will be the guest of the Government and not without amusement Canadian have heard a report that he is to be a fellow guest of Premier Meighan in the sumptuous precincts of Claridge's. To Valera, it is regarded as a good omen, is to be accompanied by Austin Stack, one of the

DROWNS AFTER HEART ATTACK

New London, Conn., July 12.—Seth Shepard, of Washington, a son of former Chief Justice Shepard of the district of Columbia court of appeals, was drowned in the Mystic river. He was working near here yesterday. He was working on board his yacht when he was attacked by heart disease and fell into the river.

CHARTERING STILL LIGHT

Cleveland, July 12.—Chartering in the grain trade is light, and boats that were placed ashore are taking a large part of the business. Rates for prompt loading are 4 1/2 cents from Lake Michigan ports and 1 1/2 cents from the head of the lakes to Buffalo, and some business for late July loading has been done at the first-named figure. Considerable tonnage has been tied up for future loading at 1 1/2 and 2 cents, but some owners will not take late loading grain at the current quoted, owing to the uncertainty of getting coal cargoes, as an early clearing in the latter trade is looked for.

Life—Mrs. Ida Ark, Formerly Her Home at Bickton, Mass.

Brookline, July 12.—While her two young children slumbered peacefully in a room but a few feet away, the life of Mrs. Ida Ark, 32 March street, was ended by Thomas Howley, a lodger, who after seeing bullets breaking into her hair, turned the revolver on himself and fired two shots into his body just below the heart.

He then went in arch of the victim's sister, Mrs. Mel Gebb, the sister, elated the traced man, ducked beneath his arm, he sought to thrust her back by her room and then ran to the kitchen.

Finding the door locked and the key missing, he hid in a closet. Howley staggered into the kitchen in search for.

Courage Atoned Fatal.

One shot riddled in the cylinder, two having been used by Mrs. Park's body and two to his own. "I can't kill myself, I'll kill myself," he muttered as he raised and started to descend the call. Mrs. Ark ran to her room and made her escape through a window, hurrying to the arms of Officer Bernard Casey, who, after the shots were fired, returned to the scene.

Returning to the death house, Officer Casey and the woman found the door still locked, and the office climbed through a window. With his search light he followed the trail of blood to the cellar as discovered Howley, sitting on the floor.

CANADIAN AND AMERICAN FUNDS

A practice has grown up lately among Canadian exporters to Great Britain of demanding that the purchasers shall remit in American funds. The reason for such a demand is of course plain enough, but just the same it is a very short-sighted policy, and if persisted in, cannot but prove detrimental to exports from this country.

The Business-Like Way.

That all bond issues by provinces and municipalities should be sold by public tender is a principle that is being more widely recognized in Canada. The same reasons that make public tendering the safest plan of selling these bonds, make it imperative that all tenders should be opened in public and in the presence of representatives of the tendering bond houses.

Typical Clap-Trap.

In his talk to a gathering of the unemployed last evening George Halcrow, M. L. A., appeared to be moved mainly by a desire to intensify the discontent of his audience. He blamed and criticized the Federal Government, the Drury Government, the Civic Government and manufacturers and employers generally, either for not trying to solve the problem of unemployment or for not doing the right thing.

Impression of Lock. But across the street an idler had stiffened to alertness, and knew as he watched the man sink away that things were getting warm. Just as well as if he had seen it, that watcher knew that when the man dropped a hand for just a second into a side coat pocket, he had deposited there a wax impression of the fashionable lock that barred his entrance.

They closed the building early yesterday. With the Saturday afternoon half-holiday the street soon became deserted, except for a few apparently purposeless men, who wandered about or sheltered themselves from the heat in doorways and who very obviously did not know each other.

Bicycles for Everyone

ANY BOY OR GIRL in the Maritime Provinces can secure a sixty-five dollar "Pathfinder" bicycle, complete with mud-guards, air pump, parcel carrier and stand, with coaster brake, reinforced frame, spring saddle, and in fact everything that goes to make a bicycle complete, and at the same time earn fifteen dollars pocket money, payable in cash.

If there is a boy or girl who does not want a bicycle, any of them may earn a watch or any other prize they desire by the most generous proposition that has ever been made to the young people of the Maritime Provinces.

Pictorial Review is desirous of securing one million additional readers and in order to do so offers the Pathfinder bicycle mentioned above to any boy or girl who will, before October 15th, sell three hundred copies of this popular woman's magazine. Pictorial Review retails at twenty-five cents per copy. Any one who wishes to enter this competition pays only twenty cents per copy for the magazine and thus makes five cents on every copy sold. To win the bicycle it is necessary that you shall send your money and your order for whatever number of copies of the July issue you may require, to H. V. Mackinnon & Son, P. O. Box 1109, St. John. These magazines will be delivered to you free of charge by Dominion Express. Sell them as quickly as you can and order more. A strict account is kept of all you buy and as soon as you have sold three hundred copies the bicycle will be shipped to you; all charges prepaid. In case you do not desire a bicycle write for particulars about the number you have to sell to secure one or other of the various watches which will be given as prizes. Already boys and girls in different places have sold more than one hundred copies of the June issue of Pictorial Review, and at the rate they are going will have earned their bicycles by the middle of July. Any one can do it!

The generosity of this magnificent offer will be realized when it is remembered that three hundred copies of the magazine costs the competitor only sixty dollars and that the bicycle is worth more than the entire sum paid for these magazines. No such offer was ever made to the boys and girls of these provinces. Do not lose time. You can secure scores of customers this month who will take the magazine from you every month, and in a very short time you will have finished your three hundred sales and be in possession of an up to the minute bicycle. Let us hear from you at once.

They worked steadily, unharriedly and without the least fear of failure. In fifteen minutes they had cut a big hole through the door. An arm was thrust inside. They saw a big safe, which had yielded a plunder worth \$7,000 on the occasion of the first raid. Behind its steel doors yesterday was an augmented stock that inventories \$700,000 or more.

Became Suspicious. Steinberg conducts his business so that all the world—or at least that part of it on the other side of Canal street—may see. Big, shadiless windows are a great convenience to daylight burglars. It may be that the trio caught a glimpse of hidden figures in a loft across the way, figures of men who peered cautiously but intently across. Or, perhaps they merely decided that having made the way ready it would be the part of wisdom to retreat and come back in darkness.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. BAKED STUFFED TOMATOES

6 large, firm, even-sized tomatoes. 3 cups breadcrumbs. 1 cup grated strong American cheese. 1 tablespoon melted butter or oleo margarine. 1 tablespoon grated onion. 2 teaspoons finely cut parsley or green pepper. 1 teaspoon salt. 1/2 teaspoon white pepper. 1 egg. 2 teaspoons cornmeal or dry bread crumbs. Wash and cut a slice from stem end of tomato and remove centre. Fill with mixture made as follows: The crumbs are mixed with cheese and seasoning. Fill into tomatoes, round the top; brush with well-beaten egg and sprinkle with cornmeal or breadcrumbs; put on plate or shallow bakeshish; bake 30 minutes in hot oven. Serve in dish in which they are baked.

Confesses Everything

"I save him every bit I stole," sobbed the girl. "He was going to save it and buy a home and then we would have enough to live the rest of our lives. All I ever got out of about \$50,000 was a stinky little \$100. This he handed me in small amounts and I managed to get along. All the time he kept telling me he was looking forward to the time when I wouldn't have to steal any more and when we would be married. And while I was knocking on the penitentiary door for his sake he was chasing around with that black-haired cat he married."

Harding's Attitude on Oil Imports Strengthens Oil Securities at the Outset.

SLIGHT GAINS BY INDUSTRIALS

Call Loans Opened at 6 Per Cent. But Belated Borrowers Pay Higher Rate.

New York, July 12.—Successive periods of strength irregularity and steadiness marked today's desultory and professional operations in the stock market. Total sales of about 350,000 shares approximated the small deal of yesterday.

The higher level of prices at the outset was directly due to President Harding's condemnation of the proposed tariff on oil imports.

Such diversified issues as steels, equipments, shippings, textiles, tobacco, leather and chemicals most of which are leading at premiums because of the small floating supply also made strong gains of one to three points.

Shorts Oppose Advance.

Shorts stubbornly opposed the advance, however, and before the last half of the session was well under way many reactions occurred, although gains predominated at the close, despite the sudden rise of call money. Call loans opened at six per cent. in contrast to yesterday's earlier rate, belated borrowers were obliged to pay 6 1/2 per cent. Time rates were unchanged for short maturities, although the supply was less liberal, interior banks making few offerings.

All foreign exchanges were stronger, sterling recovering about half of its recent loss, the same holding with francs and remittances for neutral countries, but Scandinavian quotations were lower.

Dealings in Liberty bonds fell away appreciably and the tone was mixed. Great Northern, Northern Pacific and Chicago, Burlington and Quincy issues were strong, International showing no definite trend. Total sales, par value, aggregated \$9,500,000.

Cuba centrifugal was quoted at 3 cents, c.i.f. Raw sugar futures opened steady at 4 1/2 to 5 points advance on yesterday's late firmness in the spot market, but weakened under selling inspired by the disturbing Cuban financial situation, and at mid-day were easy at 3 to 10 points net decline. The refined market was steady and unchanged at 5.20 to 5.60 for fine granulated. Refiners were accepting only a small part of the bids at 5.20.

Balks At Windows Looking Into Hers

Miss Herrick Objects to Extension Built Next Door by Columbia Professor.

New York, July 12.—The recent and publicly aired protests by the real Greenview Villagers about conditions caused by intruders in their hamlet in the Supreme Court in an action brought by Miss Celeste W. Herrick, Public Library assistant, of 46 Morton street, to defend the privacy of her bedroom and bathroom.

Miss Herrick has lived continuously in No. 46 for twenty years, and at various other times before that. And members of her family have occupied the premises since the house was built, about 1853. A businessman of her grandfather, Theodore Hyatt, bought the land the year before from Trinity Church.

The intrusion in question is offered by Prof. William F. Montague, a philosophy professor at Columbia University. He has almost completed the extension of a ten in her back yard at No. 44 rear porch to her house and Colley, all representatives of the Victoria syndicate arrived here Saturday and proceeded to work by way of Vancouver Pass.

Miss Herrick applied to Justice Whitaker for a writ restraining further work on the extension. Prof. Montague answered this with an affidavit asserting that the addition was entirely on his own property, and remarking: "I have no intention whatever of annoying or displacing the plaintiff, and both my wife and I feel very sorry that she is annoyed."

Miss Herrick argued that even though windows are of translucent glass they may be opened. But Justice Whitaker apparently decided to trust the professor, for he denied the application for an injunction.

SHIP CATTLE OVERSEAS.

Montreal, July 12.—Nearly eight thousand head of cattle have been shipped overseas through the port of Montreal so far this season, and the traffic is growing. Cattle shippers, however, do not anticipate a speedy revival of the export cattle business to its former proportions. In 1903 cattle shipments through Montreal aggregated 147,000 head.

"It will be a long time before the business attains that mark," said the local government cattle inspector today. "Much of the Canadian country once devoted to grazing is now given over to farming. Of this season's cattle shipments through Montreal, 2,534 head came from the U. S."

Quebec Crops Are Poorest In 20 Years

Hay Crop Only Fifty Per Cent. Average and Grain About 75 Per Cent.

Quebec, July 12.—Reports from the Provincial Experimental Farm state that recent rains were of considerable benefit to the crops but fell short of what was needed. Though conditions at the farm were characterized as good, in view of the unusual drought, figures were given which indicated that prospects for this year are the worst for a period of twenty years. The hay crop is but fifty per cent. of the average while the grain crop is about seventy-five per cent. below the average.

TARIFF BILL BEFORE HOUSE

Washington, July 12.—The House today adopted over almost solid Democratic opposition the special rule governing consideration of the Fordney tariff bill. The vote on the rule was 222 to 190 with four members voting present.

The rule provides for a final House vote on the Fordney bill July 21 and leaves only the dyes, hides, cotton, oils and asphalt schedules open to amendment, from the floor of the House.

Because of the heavy demand for speaking time, Chairman Fordney gave notice that the House would hold night sessions beginning tonight. Requests from the Republican side alone, he said, total 25 hours. Representative Garrett, Democrat, Tennessee, acting Democratic leader, declared that the House voted away its powers in the ways and means committee.

The vessels vanished soon after a search was begun in the federal court by the Russian Socialist-Federated Soviet Republic, through its counsel, Charles Recht, 110 West Fourth Street, to get possession of the craft. On application of counsel, a libel was issued, but by the time the papers were placed in the hands of the U. S. marshal, the ships to be held had weighed anchor.

Search Fruitless.

The search of the entire water front of New York City by deputes from the United States marshal's office without success in a search for the missing vessels, and included all the vacant piers of Manhattan and Brooklyn, even all the creeks and other islets and the drydock.

The activities of two special investigators assigned to the search by counsel for the Soviet Republic also were unproductive of results. At nightfall Recht admitted that he was nonplussed and took himself off to a little island off Babylon, L. I., to try to get cool.

Before leaving search for the vessels to the United States marshal and his own assistants, Recht made inquiries of the port warden to ascertain whether clearance papers were required of the ships, and if so what was their destination. He was informed by the office of the port warden that the vessels were Government-owned ships, and that in such cases it was not customary to require clearance. That ended the last hope the Soviet representatives in this port had of tracing the movements of the two vessels except by their own efforts.

Expect To Find Them.

Recht expressed himself as confident that the fugitive vessels would turn up and that no matter where they were he would use every instrument of the law to bring them back and have the question of ownership decided.

Recht said the ships, whose recovery he is seeking for the Soviet Government, were part of a fleet of 10 small proportioned under the control of Boris Bakmatieff, at one time representative in this country of the Russian revolutionary Government and succeeding counter-revolutionary movements in Russia. Agents of Bakmatieff are said to have obtained possession of the vessels through an attachment issued while they were in Cuban waters.

Claims Sale Unauthorized.

As soon as the libel was issued, Recht wired Secretary of State Hughes requesting him not to grant to Bakmatieff a certificate as Ambassador, which would be a recognition of him before he could appear in a federal court. Recht is prepared to file with the Secretary Hughes' action in this matter, but he was unable to get Bakmatieff, an interpretation favorable to the Soviet republic.

It is set forth in the libel that the two ships are a vessel of about 3,000 tons and Tolbolsk about 2,600 tons; that the possession of the vessels is wrongfully withheld by Ivan V. Shestakovskiy and John Roe and Richard Roe, on alleged ground of title to the possession of the said vessels through a sale, which, if it ever took place was unauthorized.

The two ships, Recht says, are part of the merchant marine the Russian Empire set out to build thirty years ago.

TWO STEAMERS VANISH FROM THEIR PIERS

Suit for Possession Was Started in New York Courts.

SOVIETS CLAIM THEY BELONG TO THEM

Agents of Kerensky's Party Are Believed to be in Possession.

New York, July 12.—Two steamships disappeared from the Hudson River about 15th Street some time between sunset, Friday, and sunrise Saturday, almost as mysteriously as ships have been dropping out of sight in the waters of Cape Hatteras. The missing vessels are the Pema and Tolbolsk of the Russian volunteer fleet, which has headquarters at 44 Whitehall Street.

The vessels vanished soon after a search was begun in the federal court by the Russian Socialist-Federated Soviet Republic, through its counsel, Charles Recht, 110 West Fourth Street, to get possession of the craft. On application of counsel, a libel was issued, but by the time the papers were placed in the hands of the U. S. marshal, the ships to be held had weighed anchor.

\$175,000 In Gems Stolen On Train

N. Y. Merchant on Way to Pittsburgh Misses Bag at Trenton.

New York, July 11.—Police and private detectives from New York, New Jersey and Pennsylvania, joined today in a hunt for \$175,000 worth of uncut diamonds, believed to have been stolen from a Pullman car at Trenton.

Joseph Haskell, a New York Jew, merchant, had the diamonds in a small black handbag, which he placed under his seat in the train for Pittsburgh. He left the car several times, and when the porter came to make up his berth, the bag and gems were gone.

Remaining on the train until it reached Philadelphia, Haskell notified the police there and wired a business associate in New York to put detectives on the trail. He has furnished a list and description of the gems. Haskell was absent from the car from which the bag disappeared twice during his trip, once in the Pennsylvania station here, and again for an hour in the club car while the train was passing through New Jersey. When the train pulled out from Trenton he missed the bag.

Suit for Possession Was Started in New York Courts.

SOVIETS CLAIM THEY BELONG TO THEM

Agents of Kerensky's Party Are Believed to be in Possession.

New York, July 12.—Two steamships disappeared from the Hudson River above 135th Street some time between sunset, Friday, and sunrise Saturday, almost as mysteriously as ships have been dropping out of sight in the waters of Cape Hatteras.

The vessels vanished soon after a suit was begun in the federal district court by the Russian Socialist Federal Soviet Republic, through its counsel, Charles Reicht, 110 West 40th Street, to get possession of the craft.

Search Fruitless. Search of the entire water front from the Hudson to the bay has begun by deputies from the United States marshals office without finding a trace of the ships.

The activities of two special investigators assigned to the search by counsel for the Soviet Republic also were unproductive of results.

Before leaving search for the vessels to the United States marshals and his own assistants, Reicht made inquiries of the port warden to ascertain whether clearance papers were required of the ships, and if so what was their destination.

Reicht expressed himself as confident that the fugitive vessels would turn up and that no matter where they were he would use every instrumentality at his command to bring them back, and have the question of ownership decided.

Reicht said the ships, whose recovery he is seeking for the Soviet Government, were part of a fleet of 10 small propellers under the control of Boris Bakmatieff, at one time representative in this country of the Kerensky revolutionary Government and succeeding counter-revolutionary movements in Russia.

As soon as the label was issued, Reicht wired Secretary of State Hughes requesting him not to grant to Bakmatieff a certificate as Ambassador, which would be required of him before he could appear in a federal court.

It is set forth in the label that the Penna is a vessel of about 2,800 tons and Tobolsk about 2,600 tons; that the possession of the vessels is wrongfully withheld by Ivan V. Shtakowsky, and the Russian volunteer fleet, and John Roe and Richard Roe, on alleged ground of title to the possession of the sail vessels, through a sale, which, if it ever took place was unauthorized.

The two ships, Reicht says, are part of the merchant marine the Russian Empire set out to build thirty years ago.

The Scapole of the Hudson Bay Company, left Montreal on Saturday for her annual trip to Hudson Bay. The steamer carries stores for traders and company's posts in that region, and will bring back their merchandise. The Scapole will be followed up by the Baychimo, now in Montreal, in the next fortnight, and both ships will probably be back in September.

Cable advice received by the local White Star offices states that William H. Johnson, president of the International Association of Machinists, who left the United States early in May for a trip to Europe, with Moscow as the ultimate goal, was not allowed to pass Riga, notwithstanding that he had special credentials to the Soviet Government from the Soviet Mission in New York. Mr. Johnson is now on the Olympic homeward bound.

Russian Emigration. That restrictions on emigration from Russia are being lifted by the Soviet Government is indicated by cable advice just received by the White Star Dominion Line, which is to the effect that it is now permitted to issue prepaid tickets for Russian women and children who may wish to join relatives on this continent.

The managers of the American and Red Star Lines, operated by the M. M. Co., both of which are running ships to Danzig, with service to London, report an increased demand for passages for women and children who are desirous of taking advantage of this new ruling. In view of these demands, the American Line have announced that the next voyage of the Mongolia, carrying first and third class only, from New York to Hamburg, will be extended to Danzig.

Berks Co. Hunters Seek Mammoth Frog

Big as Good-Sized Chicken, "Old Dad" Has Dodged Capture Twenty Years.

Reading, Pa., July 12.—With the opening of the frog season on July 1, Berks frog hunters have renewed their rivalry of years past in efforts to capture "Old Dad," the fabled monster of the dams and marshes, the biggest frog that ever grew in Berks.

"Old Dad" was first reported about twenty years ago, and stories about him indicate that he has traveled extensively in his time. According to all accounts, he weighs as much, judging by his appearance, as a good-sized chicken. He has a voice that booms like a bass saxophone at night, and numerous farmers have said that he "moos" like a cow. More than one calf has jumped to a watery grave in a dam at night, thinking its mother was "moos" for it.

Reported at Pheasantville, in a fishing stream, on year, "Old Dad" has been reported at Gibraltar, in the old canal, the next season. He has also been seen at Gouglersville, in a dam much frequented by anglers. He has broken many a net and dives like a U-boat at the first sign of danger.

Pacific Fur Sealing Comes Back Again. Victoria, B. C., July 12.—Fur sealing has come back and on the west coast of Vancouver alone the Indians this summer will probably capture 2,000 fur seals. Pelagic sealing in British Columbia and Alaskan waters at one time was woven around with all the romance of adventure, wealth and international strife. Then through greed and indiscriminate methods of slaughter practised by the sealers and a lack of international understanding upon the question of conservation, the industry fell off, the seals all but disappeared and their capture was made illegal.

Last year the waters of the west coast of Washington produced two hundred animals. Officials in charge of the industry and its control claim that the North Pacific herd, which once contained as many as 2,500,000 animals, is bound to increase rapidly. There is every probability that as many as 100,000 animals may be taken each year, made up wholly of surplus males selected with reference to their economic value, and Canada

may ultimately be expected to receive half a million dollars annually from this fishery.

THE WEATHER
Toronto, July 12.—Pressure has diminished a little today over the greater portion of the continent, but it still remains very uniform. A few light scattered showers have occurred in the Western Provinces. Otherwise the weather has been everywhere fine and very warm in Ontario and over the greater portion of Quebec.

AROUND THE CITY
LAST OF STRAWBERRY CROP
Digby cherries and gooseberries are being sold in the local stores. The last of the strawberry crop is now in sight, and it is thought that very few if any raspberries will be offered for sale this summer.

BLEW OUT STOPCOCK.
Considerable excitement was caused on Prince William street yesterday afternoon when a stopcock blew out. The water came gushing up and sprayed the store of P. Campbell and Co. until it had been turned off.

AMERICAN TOURISTS.
Accommodations in all the city's hotels were well booked yesterday. There was a large contingent of American tourists in town, and nearly every one of the Eastern and Central States had its representative.

EXPORTS DECLINE.
The total exports to the United States for the quarter ending June 30, 1921, are only valued at \$734,710.34, as compared with \$3,643,277.77 for the same period in 1920, according to figures given out at the office of the American Consul yesterday morning.

RAIN ON THE WAY.
Sir Frederick Stupart, chief weather man for the Dominion, who was in the city yesterday, on an inspection trip, stated his belief that the long dry spell was about to be broken very soon. He has visited Halifax, Sydney and points in Prince Edward Island.

MOVING PICTURE STAGE COMING.
Theda Bara, the motion picture star, who has been visiting at the Plaza, Digby, will be in the city this evening en route to New York, coming over on the Empress. This famous screen artist has been much in the public print of late over her reported marriage to her film director.

AMBULANCE ASSOCIATION.
Colonel C. H. Hodgetts, Director General of the Canadian branch of the St. John Ambulance Association, has sent to Miss Marion Magee, secretary at St. John, a number of pamphlets entitled "What to do in Case of Accident." These will be supplied to the Public Health Nurses who will distribute them in their districts.

TUGS ARE LAID UP.
Three tugboats of the St. John River Log Driving Company, the Flushing, Helen and Laxona, have been laid up as the result of there being more logs towed down river at the present time than can be handled by mills in operation. The boats at South Bay are crowded with lumber and the only mills operating are Murray & Gregory's and J. A. Gregory's.

THE CITY JITNEYS.
Inspector Harris of City Hall, has been busy the past few days bringing to book drivers of taxicabs who have taken up the role of taxi drivers during the present street car blockade. Some ten motorists or more have paid the \$10 license required of all those conducting taxi service within the city limits. The alternative is a fine of \$20 or two months in jail.

SERIOUS EAST ST. JOHN FIRE.
Fire early yesterday morning destroyed two houses rendering two families homeless and causing a loss estimated at from \$11,000 to \$12,000 with about \$5,000 insurance. The fire started in the home of Timothy Chas. Pynn and spread to the home of Jacob Pynn, both buildings being totally destroyed. The families were able to escape but lost practically all their furniture and clothes. No. 1 Chemical engine was sent out and Chief Blake directed its use. While nothing could be done to save the houses a small shed at the rear of the Pynn home was saved through the efforts of the firemen.
