REPORT,

&c.

IN presenting the THIRD REPORT of the WESLEYAN MISSIONARY AUXILIARY SOCIETY of the NEW-BRUNSWICK District, the Committee feel much satisfaction in meeting the friends of this good cause in a tone of congratulation on the efficiency of their past exertions, and with the most lively sentiments of gratitude to Almighty God, for the encouraging success which has attended the parent Institution in the widely extended field of its operations.

The progress of Christian Missions in the arduous but merciful enterprize, to enlighten and bless the world, cannot be contemplated by a pious mind without feelings of the deepest interest: every year adds to the number of their victories; and by hastening the period of their universal triumph over the polluting superstitions which have so long debased and afflicted mankind, strengthens the confidence and invigorates the efforts of their benevolent supporters.

We are warranted by the faithful word of prophecy, connected with the signs of the times, in believing that the sublime and glorious object to which the united prayers and energies of the whole Christian Church are directed, will be certainly, and perhaps speedily realized. The Protestant Church, which has been for some time increasingly *Catholic* in its *spirit*, is already, in no small degree, *Catholic* also in its *extent*; and encircles in its pale people of many nations, and kindreds, and tongues. It is true, the aggregate number of converts made by all Missionary Societies taken collectively, is comparatively small; but then they are the first fruits of nations:—they prove, by actual experiment, that *universal man* may be evangelized. If our dove of peace has returned with but one olive branch in its mouth, we have satisfactory assurance that the wasting waters of that deluge, by which the earth has for so many ages been made desolate, are beginning to retire; and that the soil is prepared to receive and supply the labours of the husbandman;—peace, joy, and righteousness have already visited the shores of many Continents and Islands, over which a dark and dreary winter has long held its desolating reign; and they are the harbingers of a universal spring. The time of the singing

of birds is come, and the earth shall soon yield her increase, and God, even our own God, shall give it his blessing.

Many obstacles may oppose themselves to the spread of the Gospel and the conversion of sinners, but God has promised that his knowledge shall cover the earth as the waters cover the channels of the great deep; and for this purpose he has given his only begotten Son, "for a light to the Gentiles, that he may be his salvation unto the ends of the earth." The Redeemer and Saviour of man shall not labour in vain, nor spend his strength for nought; for he shall be glorious in the eyes of the Lord, and God shall be his strength. Kings shall see and arise, Princes also shall worship him, because of the Lord that is faithful. Your Committee entertain no doubt whatever of the fulfilment of God's faithful word, and are therefore encouraged to proceed in humble dependence upon the influence of the Holy Spirit, knowing assuredly, "the Lord will make bare his arm, in the eyes of all the nations; and all the ends of the earth shall see the salvation of-God." "And the loftiness of man shall be bowed down, and the haughtiness of men shall be made low: and the Lord alone shall be exalted in that day. And the idols he will utterly abolish." The signs of the times bear witness to the dawn of these glorious events. The awakened zeal of all true Christians is a coincidence that should not be overlooked—the powerful Auxiliary of a Bible Society—the promptitude and Christian ardour of promising young men—the talents of eloquent Preachers to plead the cause of missions—the engerness of the Heathen world to receive missionaries—the piety of humble Christians to pray down success, and the liberality of opulent persons to afford support, show that we are not going before, but following after the divine purpose.

The number of Missionary Stations at present occupied by the Wesleyan Missionary Society, is 138, and the number of Missionaries regularly employed is 190, exclusive of Catechists, Schoolmasters, &c. &c. The number of members in our Foreign Societies amounts to 36,917, being an increase for this year of 2025. Of these 22,590 are *Slaves*, and 6470 Free Negroes and persons of Colour, in the West Indian Colonies. The returns of the numbers of Children in the Mission Schools, so far as received are 17,033.

The income of the Society for the year ending 31st December, 1828, was £50,005 19s. 4d.; being an advance on the preceding year of £6770 11s. 7d., and considerably exceeding that of any other year since the formation of the Society. The Committee say, "that claims the most urgent and most affecting continue to be preferred for missionary instruction, and new

Piety and benevolence prompt to energy; and Christian Charity exclaims, "I am debtor to the Greek and to the Barbarian, to the wise and to the unwise."

That the friends of this institution may be furnished with every information as to those scenes of labour in which the Wesleyan Missionaries are employed, and the prospects which present themselves to them, your Committee now proceed to give such a view thereof as the limits of this report will allow.

THE IRISH MISSION.

"The accounts from the Missions in IRELAND, to which the Committee first direct their attention, continue to be of a favourable description. Thirteen Districts are still occupied in that country by twenty-one Missionaries, who are unwearied in their zeal, successful in their exertions, and specially cheered by that brighter dawning of the spiritual day with which the sister country is at present favoured. The Schools also, which are established for the instruction of children, and to which the youth of every denomination are admitted, are widely disseminating the uncorrupted principles of Scriptural truth among large masses of the youthful population."

MISSIONS ON THE CONTINENT OF EUROPE,
AND IN THE MEDITERRANEAN.

"The reports from FRANCE are cheering. Many of the Protestant churches, in the southern parts of the country, continue to manifest a prompt and willing disposition to receive the doctrines which their fathers and founders advocated. A new station has been formed at *Niort*, and a pious young graduate of the College of Montauban has been called out into the Missionary field. In *Paris*, a strong desire is expressed for regular and frequent instruction: and if a more convenient and eligible place of worship could be obtained, there is a probability of success, especially among the French inhabitants."

"From GIBRALTAR, interesting information has been received, relative to the success of the work of God on that station. The Sacrament of the Lord's Supper has been administered in the Spanish language; several Spaniards have received it from the hands of the Missionaries, and have made a public profession of the Protestant faith; while a late communication affords the pleasing intelligence, that, in the very bosom of Spain, there are persons who sigh over its religious desolations, and fervently desire to obtain Scriptural instruction."

"Peace, and some evidences of prosperity continue to attend the labours of Mr. KÆLING and Dr. NAUDI, at MALTA. This station, and the one at ALEXANDRIA, in Egypt, derive additional interest from their contiguity to the strong holds of Papal and Mohammedan darkness, a circumstance which may ultimately furnish facilities for conveying the "truth as it is in Jesus," into the very centre of those regions where Antichrist reigns with daring impiety and superstition, or where the Crescent has maintained almost undisputed sway; and where the votaries of the Mosque, in violation of every principle of truth, have persisted to regard a compound of ambition and impurity as the great prophet of God."

"At STOCKHOLM considerable interest is produced by the presence and labours of our Missionary, and many encouraging tokens of success have already appeared."

"The IONIAN ISLES, to which a Missionary has but recently been appointed, the Committee regard as affording a valuable post of observation, from which suitable preparations may be made for the communication of Scriptural influence to different parts of Greece. At present, Mr. CROGGER is principally occupied in private instruction, the opportunities of exercising his public ministry being only occasional. Recently Dr. BIAL-

MISSIONS IN CEYLON AND CONTINENTAL INDIA.

"In this quarter of the world, the Missionaries have had to encounter the most formidable systems of Pagan idolatry; systems consecrated by immemorial antiquity, wrapped in all the subtleties of metaphysical sophistry; imbedded in books of poetry and philosophy, venerable in the eyes of the people for talent and age; inculcated by a numerous and learned priesthood, and intimately associated with every circumstance of civil and domestic life: systems too, which avowedly encourage the vilest passions of the human heart, promote an utter dereliction of sacred principle, and reduce the glorious privilege of immortality to an imaginary state of unimpassioned repose, in which no joy shall gladden and no pain afflict, no activity arouse, and no desire ruffle: but in which the human mind of "large discourse" and lofty presage, shall sink into eternal quiescence and annihilation. Yet Truth is prevailing even over these forms of error. Several of the priests have become "obedient to the faith," and many of the people have joyfully renounced the boasted advantages of their former worship for the "unsearchable riches of Christ."

SOUTH SEA MISSIONS.

"In NEW SOUTH-WALES and VAN DIEMAN'S LAND the Missions continue to present occurrences, interesting to both the Christian Philanthropist and the friend of social order. During the year, instances have taken place of true conversion, even among the more vicious and abandoned of the inhabitants; and facilities have been providentially afforded for the more unrestrained and general diffusion of light and mercy. Considerable hopes are indulged of the happy results which may arise from the appointment of a Missionary to the Convict Settlements in *Van Dieman's Land*; while fresh proofs are con-

tinually given of the importance of the labours of Missionaries in the Circuits already formed in *New South Wales*, extending over the greater, as well as more populous, part of the settlements. The charity which "seeks" that it may "save" these outcasts of men is eminently Christian, and is recommended by every consideration that can sway the motives of Christian action. These men are our brethren,—banished, indeed, from their native land for their crimes, and justly exposed to the privations of a foreign dwelling,—yet still claimants on our pity. Happy, when, amid the scenes of their merited banishment, they hear the inviting sounds of Evangelical mercy, and are assisted to secure those inestimable blessings of spiritual rest which, in more favourable circumstances, they had been habituated to despise!"

NEW ZEALAND AND TONGATABOO MISSIONS.

"The Report of last year stated that, by the mysterious permission of Divine Providence, the Missionaries had been compelled to withdraw from New Zealand, their lives having been endangered, and the Mission premises totally destroyed; but that they had retired, indulging a strong persuasion that the seed which they had scattered was not utterly lost, and that, ere long, they would have an opportunity of resuming their beloved though perilous enterprise in that savage land. Their expectations have not been disappointed. Mr. STACK and Mr. and Mrs. HOBBS, with their assistants, have returned to New Zealand, and renewed the Mission in the district of 'Hokianga, agreeably to an invitation from one of the Chiefs. 'HOKIANGA is situated on the western coast, about 40 miles from Wangaroa Bay, the former station, and about 50 miles over land from the Bay of Islands, a station belonging to the Church Missionaries. The population of the neighbourhood is stated at 4000; and the different tribes having their villages upon the banks of a fine navigable river, can be easily and expeditiously visited by a boat. The Missionaries proposed at first to remain at Waihou, the place where they landed, near the residence of PATŪ-ONE, a friendly Chief, of great influence and considerable talent, about thirty-two miles from the mouth of the river; but afterwards they found it necessary to remove about six miles down the river to a place called MANGUNGU, where their design is to erect suitable dwellings, and form a regular establishment, and from thence to visit all the neigh-

MISSIONS IN SOUTHERN AFRICA.

"Of the Missions in SOUTHERN AFRICA, considering the peculiar difficulties with which they have had to struggle, the Committee are still enabled to speak with great pleasure and satisfaction. In almost every place the work advances with multiplied tokens of prosperity and effect. Among the *Little Namacguas*, who, until of late, ranked among the most untutored and degraded of the human species, many are now rejoicing in the prospects which the Christian Revelation expands to the eye of faith and hope, while they are diligently cultivating the habits, and largely partaking of the comforts of civilized life.

"The cordial reception which the Missionaries have obtained from the Chief *HIRWA*,—the high authorities with which they are invested,—the ardent desire which they have found among the people of the *Mambookie* tribes to receive Christian Missionaries,—and the extraordinary influence of a preparatory nature which seems to rest on all the tribes with which they have any intercourse, encourage the belief that a "great and effectual door" is opened among a willing, though deeply benighted population, and that a course of Christian operation is happily commenced, which promises, through that agency which gives life to the dead, to raise some of the most abject of the human race into civilized men, adorned with Christian virtues, and elevated by heavenly hope."

MISSIONS IN WESTERN AFRICA.

"The Missions in WESTERN AFRICA have been prosecuted by the brethren under various discouragements; but with cheering prospects of success. The following extract from a letter, from Messrs. COURTIES and MAY, dated *Sierra Leone*, will be read with pleasure.

"With respect to the work on this station, it has been, and still continues to be, attended with a slow, but gradual revival.

Our numbers continue to increase, and the members, in general, are regular in their attendance at the Classes, and the other means of grace; and of some of them, we believe, it may be said, that they are growing in grace, and in the knowledge of our our Lord and Saviour Jesus Christ.

“Our number of members in this quarter is 146, making an increase of seventeen, besides 10 on trial.”

WEST INDIAN MISSIONS.

“From the copious documents which the Committee have received relating to the progress of the WEST INDIAN MISSIONS, they might select much pleasing and important intelligence. Nearly all the stations are favoured with great and growing prosperity. The schools are established on a regular and efficient system, and the effects which they are producing on the negro-children are most encouraging.

“To urge the importance of Missionary exertions among the Negro population of the *West Indies*, is almost superfluous. The claims of those islands on Christian philanthropy are now generally understood and acknowledged. Our Missions there are the *oldest*, the most *extensive*, and, it may be added, rapid as is the prevalence of truth in some other sections of the globe, the most *successful* of all that have yet engaged our attention. They are established among a much-injured race; they are hallowed to our best feelings by the toils, the sufferings, and premature deaths of many excellent Missionaries; they have been the means of diffusing innumerable blessings, temporal and spiritual, among those for whom Christian sympathy was slow to awake; they have been honoured by the holy triumph of thousands in the hour of sickness and dissolution: and, amid the victories which they have achieved, and the animating prospects by which they are brightened, they will not now be forgotten in the prayers, and compassions, and liberalities of Christian beneficence.

“JAMAICA.—A spirit of determined hostility, to the exertions of the Missionaries, has again been manifested at the station of St. Ann's Bay. Under pretence of the right of local authorities, to require licenses to be obtained from the Magistrates of every place in which the Missionaries preach, Messrs. WHITEHOUSE and ORTON were imprisoned in the Common Jail. To prevent improper influence, the trial was removed by a writ of *certiorari* to Kingston, and heard before his Hon-

MISSIONS IN BRITISH AMERICA.

"The Missions in BRITISH AMERICA, extending over the Districts of CANADA, NOVA SCOTIA, NEW BRUNSWICK, and NEWFOUNDLAND, are in a state of progressive improvement; and several of them have acquired the stability and consistency of English Circuits."

"The LABRADOR MISSION is, for the present, suspended; principally, in consequence of the removal of the Esquimaux tribes from the coast into the interior of the country, and their general dispersion."

"During the year the following Missionaries have died.

"To record the deaths of active and zealous men is a melancholy task; but such events ought not to produce unbelief or discouragement. The witnesses may die, often prematurely and unexpectedly; but their testimony lives unchanged. Solemn and frequent are our remembrancers of the affecting truth, that "all flesh is as grass, and all the glory of man as the

flower of grass. The grass withereth, and the flower thereof falleth away; but the word of the Lord endureth for ever." That word shall still be published, and its triumphs of mercy be pursued. Soldiers of Christ may fall as they urge their glorious warfare; but others are prepared to occupy their vacant ranks, to prosecute their growing conquests, and to share in their eternal recompense.

CONCLUSION.

YOUR Committee would now call upon both old and young, to further and promote this good work. Shall the men of science hazard their valuable lives to find a plant, survey a ruin, or to explore a river? Shall PARRY plunge among the ices of the Polar Seas? And shall we not come forward in the most momentous cause under the sun, the cause of God, of Christ, of Truth, and of degraded suffering humanity? "Workers with God the call obey," rally round the standard of the Missionary Society.—You are second to none in the Province, in the career of benevolence; but you can only maintain your rank by renewing your efforts. Prosecute therefore what you have so nobly begun, till means shall be afforded of evangelizing the Heathen upon a grander scale; till truth shall prevail, and triumph in every place; and "the whole earth be filled with the knowledge of his glory."

We live in eventful times, in days big with promise. Many are now going to and fro in the earth, and the knowledge of salvation is rapidly increasing. Behold the reign of Jesus our King. His reign shall be prosperous. "He shall have dominion from sea to sea, and from the river unto the ends of the earth." "His name shall endure for ever; His name shall be continued as long as the sun; and men shall be blessed in him, all nations shall call him blessed." Exalted in his glorified humanity at the right hand of God, he is now expecting "until his enemies be made his footstool." He reveals his glory as he rides forth conquering and to conquer, and the time is coming when "all flesh shall see it together." Heaven opens to view, and Angels are bending to shout "The kingdoms of this world are become the kingdoms of our Lord and of his Christ;" and angels, and men, and earth, and heaven, shall soon be blended in one song of universal and harmonious triumph, "Hallelujah! Hallelujah! for the LORD GOD Omnipotent reigneth."

PROCEEDINGS
AT THE
THIRD ANNUAL MEETING
OF THE
WESLEYAN METHODIST MISSIONARY
AUXILIARY SOCIETY,
FOR THE DISTRICT OF NEW-BRUNSWICK;

HELD IN THE WESLEYAN CHAPEL,
ST. STEPHEN, NEW-BRUNSWICK,

ON THE EVENING OF MAY 18, 1829.

GEORGE S. HILL, Esquire, in the Chair.

I. Moved by the Rev. Mr. PICKLES—Seconded by Mr. ROBERT HITCHINGS:

That the Report now read, be adopted, and printed under the direction of the Committee, together with such extracts from the Parent Society's Report as may be deemed interesting for general perusal.

II. Moved by the Rev. A. DESBRISAY—Seconded by Mr. ALBEE:

That this Meeting deeply impressed with the great importance of extending the Kingdom of Christ throughout the world, acknowledges with lively gratitude, the signal success with which Almighty God has crowned the labours of Christian Missionaries in general.

III. Moved by the Rev. Mr. SMITHSON—Seconded by AARON UPTON, Esq.:

That this Meeting desires to acknowledge with gratitude, the success which has attended the Wesleyan Missions in different parts of the world, and especially rejoices in the prosperity of the Missions in the East Indies, in Africa, and in the West India Islands, as furnishing in every step of their progress, the most indubitable evidence of the special agency and approbation of the great Head of the Church.

IV. Moved by the Rev. Mr. BUSBY—Seconded by ABNER HILL, Esq.—and supported by the Rev. Mr. CHURCH, Congregational Minister, U. S. :

That this Meeting fully persuaded that all reasonable hopes of success are founded on the promised effusion of the Holy Ghost, earnestly recommends all the Members and Friends of this Society to unite in fervent and persevering prayer for an outpouring of the Spirit of God on all Missionaries and Missionary stations, and on all flesh.

V. Moved by the Rev. R. WILLIAMS—Seconded by Rev. D. M'COLL :

That it becomes a paramount duty of all who compose the Church of God, seriously to consider the extent and weight of those obligations which devolve upon them, as persons who are destined by the Almighty to be his instruments in extending and establishing the empire of the Lord Jesus Christ through all the earth ; and zealously, perseveringly, and liberally to pursue those plans of piety and charity which are so well adapted to accomplish this great and merciful design, and hereby fulfil the solemn duties of the Christian Stewardship.

VI. Moved by the Rev. J. B. STRONG—Seconded by Mr. MURRAY :

That such are the extraordinary openings for Missionary engagements, and so numerous are the Candidates for Missionary enterprise, men provided by God in answer to the prayers of his people, as to afford satisfactory evidence in behalf of the Divine faithfulness, and to furnish the friends of Christ with the most animating motives to provide the means, to enable these his servants to go into all the world, and preach the gospel to every creature—That therefore it is at once the duty and the privilege of all such friends of the Redeemer, to make every practicable advance upon their former subscriptions with a view to enable the Committee of the Parent Society to send more labourers into the fields already ripe unto the harvest.

VII. Moved by Mr. M'NUTT—Seconded by Mr. BENT :

That the following persons be a Committee for the year ensuing, viz : All the Wesleyan Missionaries in the District ; the Circuit Stewards of the respective Circuits ; and the following gentlemen—St. John, Mr. Henry Hennigar, and Mr. George A. Lockhart—Fredericton, Mr. Thos. Pickard—Westmorland, Harman Trueman, and Andrew Weldon, Esquires—Annapolis, Mr. Joseph Bent—Petitcodiac, Lewis Trites, Esq.—Sussex Vale, Mr. George G. Hayward—St. Stephen's, Mr. Robert Hitchings—Sheffield, Mr. David Cowperthwaite. And also that the Chairman of the District for the Time being be the Treasurer of the Society, and that the Rev. J. B. Strong, be the Secretary for the year ensuing.
