Another Objection Removed.

(From the Montreal Gazette.)

The new railway line which is now being projected from Duluth to Win- ELIGIBLE FARM BY AUCTION, nipeg will afford, when completed, an important outlet for the produce of the Northwest. The engineer-in-chief of the road is now in Duluth with a large MONDAY, the 8th day of August next, that party of engineers, who will at once engage in the survey of the line. The enterprise emanates from Boston, in which city the company has been formed and five million dollars subscribed towards the work, so that the enterprise is a serious one, and is promised to be pushed to an early completion. The projection of this railway is a practical answer to the charge so freely indulged in against the Government last winter, that the arrangement with the Syndicate for the construction of the Pacific Railway involved an absolute monopoly of railway lines in the Northwest by that company. It such a contention were well founded, it would be impossible for this new company to enter upon the construction of a railway from the best assortment I have ever imported. Duluth to Winnipeg. The answer given to the Opposition charge was that a monopoly would be avoided by the granting of local charters by the Manitoba Legislature, and it is to be presumed that the extension of the new line from the boundary to Win-sipeg will be constructed under such

a charter. Having reached Winnipeg CUSTOM TAILORING. the question of monopoly no longer obtains, the contract with the Syndicate, n so far as it excludes independent lines, applying only to those running Railway. The traffic which this new company will obtain must be derived from the country north and west of Winnipeg, and it is probable that the road will be continued beyond Winnipeg in a northwesterly direction, for thus affording a competing line through that country, to the advantage settlers and the promotion of settlement. With the projection of the railment. With the projection of the railment of way from Duluth to Winnipeg disappears before the light of actual experi ence, the last of the charges made against the policy of the Government 45 2 in relation to the construction of the Pacific Railway.
