### Substitute economy for waste.

Use only such foods as contain the greatest amount of nourishment, with the least possible waste. No food meets these requirements more perfectly than

BOVRIL

### Don't be Dyspeptic

The dyspeptic has thought only of the stomach when the real source of trouble is in the Liver, Kidneys and Bowels. Dr. Chase's Kidney-Liver Pills thoroughly cleanse and purify the digestive and excretory system and in this way put the organs of digestion into splendid working condition. A little patient urging one of these organs when sluggish will restore the habit of healthful digestion.

## HARTLAND PROCLAIMED A TOWN

Last Week's Royal Gazette Contains the Official Announcement

The Royal Gazette of last week contained the following proclamation which will for ever be of historic interest to all present and future citizens of the new town:

Whereas Albion R. Foster, Esquire, High Sheriff of the County of Carleton, has made a return to the Provincial Secretary Treasurer setting forth that an election of the ratepayers of the Town of Hartland in the County of Carleton was held on the 28th day of September, A. D. 1918 to determine whether the inhabitants thereof should be incorporated under the provisions of Chapter 166 of the Consolidated Statutes, 1903, intituled "The Towns Incorporation Act"; that at said election there were one hundred and two (102) votes cast in favor of incorporation and fifty-two (52) votes cast against incorporation; that the boundaries of the said Town are as follows: "Beginning where the western prolongation of the southern line of Lot Number 49 in the Parish of Brighton in said County granted by the Crown to Robert Hallett strikes the center or middle line of the River Saint John, thence southerly along said centre line of said river and following the western channel thereof, between the lower Beauséjour Island, or Matheson's Island, so called, and the western bank or shore of said river to a point where the said western prolongation of the north side of the road leading from the main highway road on the eastern side of the said river, below Flemming's mill, so called, to Ashland and Highgate strikes said centre line of said river, thence easterly along said westerly prolongation and the north side of said road to the rear or base line of the granted lands fronting on the eastern side of said River Saint John, thence northerly along said rear or base line to said southern line of said Lot Number 49, and thence westerly along the same and the western prolongation thereof to the place of beginning."

And it appears by said return that the majority of the ratepayers within the said bounds had voted in favor of incorporation, I do therefore proclaim that the said Town comprised within said bounds hereinafter described, be incorporated under and by virtue of the Towns Incorporation Act, under the name of the Town of Hartland.

Given under my hand and seal at Fredericton, this Second day of October, in the year of our Lord one thousand nine hundred and eighteen, and in the Ninth year of His Majesty's Reign. By Command of the Lieutenant Governor.

ROBERT MURRAY.

An election for mayor and aldermen will be held in a short time. The exact date will probably be announced next week. In addition to the name of W. D. Keith for mayor (that of J. T. G. Carr is also frequently mentioned).

### Progress of Victory Loan Organization

On Tuesday evening Chairman Miller met the residents of west Wicklow and secured a strong committee in that wealthy community. Granville Page is chairman, Harry Miller secretary, and Councillor Tracey and Percy Simonds other members of the committee.

An organization meeting was held at La Keville last evening.

Don't let the peace talk give you the idea that the new loan will not be necessary. It is so absolutely needed—the new Canadian and the United States loans—that in some diplomatic circles it is considered that the peace talk is a German scheme to discourage Canadian and American investors. Victory is sure. Peace is in sight, at a great distance. It is still a long way off and there is

need for hundreds of millions and much bitter fighting before the foe is brought to actual submission.

## INFLUENZA IS NOW ABATING

But Danger of Widespread Infection is Not Past

Throughout all the infected districts Spanish influenza appears to be abating, thanks to the prompt measures of the provincial and local Boards of Health. Possibly one reason of its abatement is that practically every person susceptible to the contagion in the towns most severely scourged has had the disease and it is dying out for want of fresh victims.

The danger of contagion is by no means over, and it is very likely only the prompt measures adopted to prevent the disease becoming widespread has kept its ravages within bounds.

In Carleton and Victoria the situation is less alarming than a week ago. In and near Hartland there have been only one or two cases of the real "flu" although there is a great deal of sickness from ordinary colds.

The public is warned to continue strict measures of prevention. Have plenty of fresh air and exercise in it. Avoid crowds and travelling.

### Waterville Warblings

Mr. and Mrs. C. P. Palmer and Miss Valma Palmer spent Sunday with Mr. and Mrs. Wallie Birmingham at Lower Brighton.

Mr. and Mrs. Harry Lipsett and family spent Sunday with Edwin and Mrs. Lipsett.

## BEARS RAMPANT AT KILBURN

Soldier Returns Home—Cases of Influenza

The farmers in this vicinity who own sheep have been worried recently by bears visiting their flock. Jerry Inman and Joseph Davidson each lost three and Andrew Davidson, of Lower Kincardine, one. Traps were set and Jerry Inman was recently rewarded by the capture of a large bear. Going out in the morning to the place he had left the trap, he found it gone and could easily trace Bruin by the young trees he had gnawed through in his efforts to get away. After following the trail for about one hundred yards, he came upon the bear with one foot securely held by the trap. A rifle shot soon finished his career. Two bears are reported to have been seen in the woods near the Scotch Colony but no further damage has been done.

Pte. Malcolm Adam, son of Wm. Adam of Upper Kincardine, who has been overseas for nearly three years, arrived here last week, having been invalided home. Pte. Adam went overseas with an N. B. Battalion and was drafted to the 26th in France. After a few months of active service he was wounded and for several weeks lay in a critical condition. However, owing to the excellent treatment our soldiers receive in English hospitals he recovered, and is very glad to be home again with the knowledge that he has done his 'bit' in the great fight for Freedom.

Richard Inman received word last week that his son Pte. Le Baron Inman, of the 2nd Canadian Battalion, had been admitted to a hospital in Rouen suffering from gunshot wound in the side. They are anxiously waiting further news of his condition.

Mrs. Fred Grant and Miss Sadie Hunter returned last week from Washburn where they had spent a few days with relatives, also visited Mrs. Grant's son, Herbert, Hunter of the A.E.F., who was home on leave from Camp Devens, Mass.

Mrs. Alice Kilburn received word this week that her daughter, Miss Gertrude Kilburn, who is a student nurse at Toronto General Hospital is ill with Spanish influenza.

## DOUBLE FLIM FLAM

Clever Trick by Which Jeweler Recovered Money.

Had Been Victimized in Really Neat Manner, But All the Honors of War Were His When the Game Ended.

This is a story picked up in New York that has all the elements—save the love of touch—of a modern mystery story. M. Parrish Watson is a wealthy collector of Chinese art. He sends emissaries all over China digging up treasures. One of his agents has just returned.

In Peking he was in the shop of a pawnbroker. A silk-hatted American, a polished man of the world, came in, to secure a loan on a pearl which he took out of a velvet bag. The broker applied the tests and was satisfied the pearl was genuine. He advanced \$10,000. Later in the day one of his experts rushed to him breathlessly with the startling statement that the pearl was the most clever counterfeit he had

ever seen. The broker made another examination and found he had been the victim of a flim flam artist.

Several days afterward he called every jeweler in Peking into a conference. He told them of his experience and he said he was simply going to take his loss, but he thought it was his duty to warn his fellow merchants. He held up the pearl before them.

"Here it is," he said. "To show you what I think of it and that the incident is closed, I am going to destroy it." He placed the pearl on an iron and with a hammer smashed it to tiny fragments with one blow.

The next day all the Peking newspapers carried a story about the way the merchant had been tricked and how he had destroyed the bogus gem. Several weeks went by and the incident was almost forgotten.

One morning the American who had pawned the pearl entered the shop. A clerk recognized him and went toward him. "I have come for my pearl," he said.

The clerk was in a panic. He begged the customer to wait a few minutes and he rushed off to his employer with the news. The broker came out of his private office and met the customer.

"I have come for my pearl," repeated

ed the American.

"You have the money to redeem it?" he was asked.

For answer the American counted out the exact amount and placed it on the counter. The broker went to the safe and brought back the pearl that was pawned. He had cleverly tricked the trickster. He knew there was only one chance of getting his money back and that was to make the customer believe the pearl had been destroyed. He resorted to this ruse and did not destroy the pawned pearl but a substitute. A surprised American walked out of the place with his counterfeit jewel—gnashing his teeth just like the smooth villain in the melodrama of old.

### Service Flag for Grief.

Service flags are displayed all over the big city, and it appears to be quite the patriotic thing for large corporations to outdo each other in showing the largest number of employees engaged in the war game. There are four corporations in New York with a vague sort of community interest, each of which, though entirely independent, insists on placing on its service flag a star for every employee of the four corporations now in service. But a saloonkeeper has the star service banner.

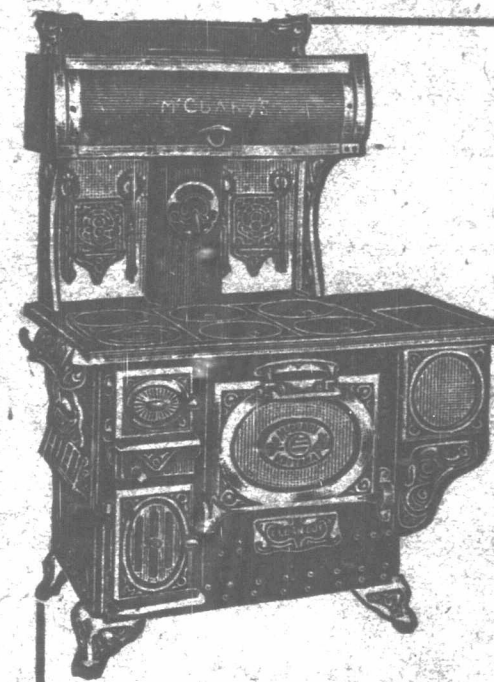

It hangs before his saloon, and he has patriotically placed upon it a star for every one of his customers gone to the front.

### PRACTICAL HEALTH HINT.

#### Meat and Gout.

Butcher's meat contains a large proportion of fiber, which constitutes one of the most difficult forms of waste matter to get rid of. And the ill effects of this waste matter are more pronounced as people get older, for, however healthy they may be, their systems become less capable of eliminating it.

It is an excellent rule, therefore, for all persons approaching middle age, even for those who have got into the forties, to reduce their allowance of butcher's meat, especially beef, taking it no oftener than once a day and preferably at midday instead of in the evening. Digestion goes on very slowly, if at all, during the hours of sleep, and the habit of eating meat at late dinner or supper is one of the chief causes tending to gout and rheumatism of the gouty type.

## Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must

borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

+ + +

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

**Be ready when the call comes to see your country through in its great war work**

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

### Miss Maude V. Henderson

A promising musical career was cut short by death of Spanish influenza when Maude V. Henderson died in Roosevelt Hospital, New York City, on Friday morning, Oct. 11, after a few days' illness.

Miss Henderson was a brilliant pianist and a great favorite in musical circles in her home town—Woodstock. She studied for years with Miss Ata Dempson, now Mrs. William Williams of New York, next with Mrs. Tappan Adney. For years she was one of the most pleasing performers in Mrs. Adney's concerts. Next she spent two years in Greenville College, South Carolina, and there she gained her first noteworthy successes. A clipping from a Greenville paper states "Miss Henderson was heard in recital last night. She presented a program of considerable difficulty and great beauty, and is talented to an unusual degree." Later the same paper said: "Never in its history has the walls of all G.F.C. re-echoed with more harmonies and soul-thrilling sounds of beautiful classical music than were heard there when Prof. Schaefer presented Miss Henderson. She is a genius as a pianist. Her work gave evidence of versatility and understanding. The audience rose by general impulse and the ovation was beyond compare."

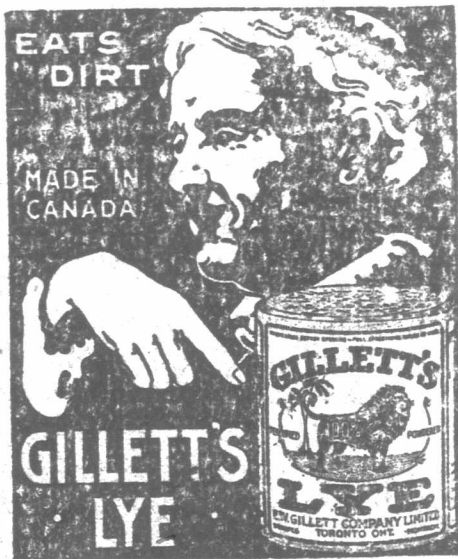

It was Miss Henderson's great ambition to reach that point in musical accomplishment that she could play in Carnegie Hall, New York, and she lived to make this triumph not once but often.

The deceased young lady was a niece of Mrs. S. S. Miller of Hartland, to whom the news of her passing came as a great sorrow. The remains were brought to Woodstock and the funeral was held there on Tuesday.

### Walter Hayward's Death

The following letter is from the Chaplain who ministered to Walter Hayward at the time of his death in France. The letter was written to Mrs. C. E. Hayward:

"Dear Mrs. Hayward: It is with deep regret that I have to convey to you the sad news that your son W. C. Hayward has died of wounds in 57th Casualty Clearing Station. Alas! his wounds rendered him

unconscious and we could not speak to him. He lived only a very short time after he came in.

"We laid him reverently to rest in the cemetery close to 57th C.C. Station. The number of his grave is 58, Plot 4, Row E. If you write to the D.G.R.E., War Office, Winchester House, St. James Sq., London, S. W., he will procure you a photo of it. The cemetery is well kept, and each grave is marked with a cross bearing name and date of death.

"May I express my sincere sympathy with you in your great loss. It's so little that a stranger may say. But I pray that God may comfort and sustain you in your heavy trial. You join with him in laying on the altar the greatest offering a man may make, and Jesus has said there is no love greater than that.

"Yours in sorrow—

"REV. WM. S. KIRKPATRICK."

### Death of Rev. J. S. McFadden

Many friends in Andover will be grieved to hear of the death of the Rev. J. S. McFadden, B.A., B.D., which occurred at the County Hospital, East St. John, on Thursday. The deceased was for some time pastor of the Baptist church. During his stay amongst us he met with a number of misfortunes. Death claimed his wife after a brief illness from pneumonia on June 20, 1917. Shortly after his health failed him and in time he developed tuberculosis and was confined to his bed. At this time fire destroyed the parsonage, seriously damaging his splendid library and destroying much of his household goods. He was admitted to the Jordan Sanatorium on June 18 and was transferred to the County Hospital at St. John on September 23.

Mr. McFadden was a graduate from the Dorchester High School, and took his first class license from the Provincial Normal School, and graduated from the Acadia University with the degree of B.A., taking the last year at Yale University, which was due to his brilliant work in his senior year. He was associated with the faculty of the Acadia Business College. The following autumn he entered the Rochester theological Seminary, graduating with the degree of B.D. His first church was at Petitcodiac where he was ordained. Later he married Miss Muriel Colpitts daughter of R. W. Colpitts of Forest Glen.

The deceased was the son of Mr. and Mrs. Gideon S. McFadden of Johnsons' Mills. He leaves behind him two or three small children.

### P. B. Quarterly Meeting

The Primitive Baptist Quarterly meeting was held at central Hainesville on Oct. 5, 6 and 7, and despite the terrible storm that raged on Saturday and Sunday, a good assembly of earnest workers availed themselves of the opportunity of being present and acknowledging their Lord and Master. All report a profitable session. Ministers present were C. H. Orser (chairman), G. A. Giberson, Earl Giberson, A. Hatfield, P. J. Quigg, J. M. Mallory and T. Gordon of the N. S. field. Monday evening being the last service of the session, Rev. C. H. Orser gave a sermon from scripture found in Acts 20—37; 38 which was interesting and helpful to listen to. This meeting adjourned to meet first Saturday in Jan. 1919.

### RULES FOR AVOIDING INFLUENZA

and For the Preventive care of Those Sick With It

1. Live as much as possible in the open air, and have houses well ventilated. Admit all the sunlight possible.
2. Avoid all in-door assemblies, and travel as infrequently as possible.
3. If the disease appears in the family, put the patient at once to bed, preferably in an upper room, well aired, but so that the patient be not in a draft.
4. Keep patient by himself permitting only the nursing attendant, the doctor, and the clergyman to see him.
5. Have whoever enters his room to wear a mask of simple gauze over the mouth and nose. The same gauze should not be used for more than two hours, and then burned.
6. Insist upon the patient using a handkerchief to cover coughing or sneezing (paper ones will); these handkerchiefs should be burned at once after use.
7. Do not permit patient to mingle with his family or the public until all fever is gone, and until all discharge from mouth, nose and throat have dried up.
8. Patient, after recovery, should take particular care to avoid exposure to chills and dampness, as pneumonia is quite frequent under these circumstances and constitutes the gravest danger connected with the disease. Remain in house three or four days after feeling well, as this is a critical period after recovery.
9. Call a doctor upon the occurrence of suspicious symptoms as unusual back-ache, headache, chills followed by fever, etc., as it is dangerous to depend upon house-hold treatment in this disease.
10. Do not be too anxious, that is, do not worry respecting the danger of contracting the disease. Such worry serves no good purpose and sometimes renders one more liable to contract it. Follow the above preventive measures and the advice of the physician.
11. If in the family affected, there be no suitable provision for proper isolation of the patient, it is strongly recommended that he be removed to some hospital, or other place temporarily established, for the proper isolation care of those affected.

### NEW HEALTH FOR WOMEN

The most fateful years in a woman's life are those between forty-five and fifty. Many of the sex enter this period under depressing conditions through overwork or worry about the home, or through a condition in which the blood is weak or watery and so they suffer heavily. Among the commonest symptoms are headaches, feverish flushes, palpitation of the heart, dizziness, back-ache, depression and other well recognized disturbances of the health which signalize that the blood requires attention. Women urgently need rich, red blood all their lives, but never more so than in middle-life, when the nerves are also weak and overwrought.

Now every woman can prove the prompt help afforded to her health by renewing and building up the blood. It is a test that any ailing woman can make by taking Dr. Williams' Pink Pills, for these pills make rich, red blood, which in turn stimulates the appetite, strengthens the nerves and restores full robust health. Thousands of women have found in Dr. Williams' Pink Pills new health and strength and with these a new happiness and interest in life.

So if you suffer, avail yourself at once of the splendid home treatment which Dr. Williams' Pink Pills so easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine or may be had by mail at 50 cents or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

### GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall weather is the most severe season of the year for colds—one day is warm, the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent cold or if it does come on suddenly the prompt use of the tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
