AFTER THE BATTLE. Chicago, Ill., Nov. 4.-The morning sun smiled as it rose today upon the scene of yesterday's political carnage and the Republicans of the United States who had gone home late last night exhilarated with the certainty of victory, smiled back upon the sun as if its golden rays were an omen of the dawn of prosperity. All through the hours of darkness the wires had been busy with tidings from the far west, bringing some straw, it is true, for the Bryan bundle, but not enough to swell it to the dimensions of the McKinley sheaf, and it was clearly evident that not enough "doubtful" States could be counted in the Bryan column to substantiate the Democratic claims. Doubt still remained on the result in a few of the 45 States, but whichever way they had gone would not affect the rock-ribbed result. It may require an official count in Nebraska, for instance to pick out the winners. Kansas was very dilatory in making returns. Washington also was backward. But the following table will be found approximately correct, as

THE LORNES' COMPLAINT, Toronto Mail-Empire: At 12 o'clock Lornes returned to Toronto from Lon-don, and they were indeed a tired lot. Manager "Will" Morrison's heart was glad, and his enthusiasm knew no bounds. During the past ten days his team have been breaking all rec-ords heretofore established in the football arena, and he had reason to be happy. Three hard-fought games played in a week and a day, and two winning games in successive days, are records that will stand for many years. At the finish in London seven junior players were in the melee, and five of the Lornes had been knocked out. games that the Lornes have been called upon to play, and they say that their opponents on this occasion proved themselves the roughest Rugby men in the business, not forgetting that Queen's have earned a "rep." in this respect. The Londons, the Lornes allege, played a scrapping game from gentlemanly tactics, the majority of the Lornes declare, London would have won. It was one long, continue fight, in which the Lornes possessed enough stamina, not only to do their The Westminster Gazette states that with the election of McKinley a great scare vanishes for the moshare in the fighting line, but to indulge occasionally in some brilliant play. One player in particular on the guished himself by his brutality, and as he played last year with the Lornes, the members of that club are very bitter in their denunciation of his conduct. The doctor who attended Guy Argles after he had been struck viciously in the eye by an opposing player, thought that the youngster would sustain a lasting injury to his sight, if not become blind completely in one eye. He is better, however, and the doctor believes that he will suffer no serious consequences. The methods employed by the Lornes after they had secured their lead in the first half of the extra play were precisely the same as they used in defeating 'Varsity II. more dangerous consequences.

The Pall Mall Gazette, during the Wilson would heel out to McMurrich, who either fell on the ball or attempted to buck the line. In this way they kept the oval between them, eating up time. Wilson's wonderful work against London's scrimmagers, the lightest of whom tipped the scales at 199 pounds, earned for him the name of the "Iron Man." Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound we might ... . But we're not. Gold Mining and Milling Company, Ltd.

Offers one of the best mining properties yet placed on the market, with a shatt already sunk 110 feet, which is 5 feet by 7 feet in solid paying ore.

This company is now being incorporated under the laws of British Columbia to take over and operate the Smuggler Mine, considered the best mine in Fairview Camp, British Columbia, lying about 60 miles west of Rossland and south of Vernon, the branch terminus on the Canadian Pacific Railway. The location is 52 acres in extent and the title is perfect, the Crown grant having already been issued. The shaft, which has been sunk 110 feet, goes through a CONTINUOUS LEDGE OF ORE from two or two and one-half feet wide at the surface to FIVE FEET WIDE AT THE BOTTOM OF THE SHAFT, WITH ONLY THE HANGING WALL EXPOSED. There is every indication of a continuous width of 10 feet at this point. 400 TONS OF ORE ARE MINED and on the dump ready for treatment so soon as the necessary machinery is erected. The greater part of this is FREE-MILLING ORE of a very high grade. Eleven assays of ore taken from various depths show results varying from the lowest of \$42 49 per ton to as high as \$503 32 per ton, or AN AVERAGE ASSAY VALUE OF OVER \$147 PER TON. A MILL TEST of 6,043 lbs (over three tons) was made by the Tacoma Smelting Company. of Tacoma, Washington, with the following results: Gold, 5.92 ounces per ton; silver, 65 ounces; VALUE PER TON, \$153 70. THE GOVERNMENT REPORT SPEAKS IN THE HIGHEST TERMS OF THIS MINE, and refers to another test of 1,600 lbs of unassorted ore, giving a return of \$48 75 per ten in gold. THE ORE IS LARGELY FREE-MILLING IN CHARACTER AND CAN BE SUCCESS-FULLY TREATED BY A STAMP MILL AND CYANIDE PROCESS.

The capital is \$1,000,000, divided into shares of \$1 each, of which 300,000 are set aside as development stock. 100,000 of these shares are now offered to the public (fully paid up and non-assessable) at the price of 25c per share in blocks of not less than 100 shares. The proceeds of the sale of this stock will be used to complete payments on the property and erect a ten-stamp mill and cyanide plant for treating the ore already mined, and to proceed with further development and mining.

The company will be managed by the following energetic Provisional Board of Directors: W. Hartley Dewart, County Crown Attorney, York County, Toronto, President; W. Hanson Boorne, Vice-President Canadian Silicates and I. E. Co., Vancouver, B. C., Vice-Presi-

As the readers of the Mercantile and Financial Times belong largely to that class, so numerous in the East, who have sums of money which they find rate of interest, with absolute security stock, permanent stock and debentures issued by the above company. The prepaid stock of this company is simply the ordinary installment (accumulative) stock, paid for in advance at the rate of \$50 per share, no further payments being required. To this sum profits are added half-yearly, until the maturity value of \$100 is reached at about eight years, when it may be

withdrawn. The holder of this stock has also the privilege after two years of withdrawing the full amount paid in, with 4 per cent interest added. There are probably few of our read ers who will question that an invest-ment which will double itself in eight years is an exceptionally attractive one; but many may say that it is not the dividends earned, but the safety of the principal that is the paramount consideration. This latter proposition is not possible to dispute, but it is easy to prove that the security furinvestors by the Globe Savings and Loan Company is absolute and ideal. The investments of this company are limited to first mortgages on real estate located in the most prosperous and progressive communities in the Dominion. Loans are made to shareholders in the company only, and in every instance are se cured by property worth considerably more than the amount loaned thereon, at a conservative appraisal of what the property would bring under fore closure. The security to investors is

steadily increasing by reason of the monthly payments by borrowers of in terest and premiums, together with a portion of the principal. These nounts are again reloaned and repaid in a like manner, thus enabling the company to compound the interest twelve times yearly, and all this is accomplished without imposing any onerous burdens on borrowers. cause they, too, are shareholders in the company, participating in its profits. Thus it will be seen that the element of loss is practically eliminated-something which can be in no way encompassed save through build-

ing and loan associations. The certificates of this company are preferable to any individual investment in notes or mortgages, because the business of loaning, appraising, collecting and supervising can be effected at less cost than to an individual, and this economy insures largest net returns with greater se curity to the principal invested. Under this system of collective investments the risk is distributed instead of be ing concentrated in the one risk of

an individual note or mortgage. The permanent stock of the "Globe' is limited to 5,000 shares (\$500,000) of \$100 each. The greater part of this been taken up-the balance is offered at \$110 (the premium of per cent going to the reserve fund). Interest at the rate of 6 per cent per annum is being paid on this stock, and at the price asked it will net 5.45 per cent interest. The holder will bonus out of the balance of the profits at lowest city prices.

We have called attention particularly to the prepaid stock, permanent stock, and debentures issued by this company, because either of these are, to our mind, the best forms of investment obtainable for that large class of people who are discontented with the meager rate of interest paid by conservatively-managed savings banks both in Canada and the United States. chairs at Lorne avenue kindergarten The prepaid stock offers larger profits with greater security for the principal than any other form of legitimate investment that we know of. Permanent stock and debentures are especially adapted to the requirements of administrators, trustees, guardians, officials, attorneys, and others holding or controlling trust funds. One thing we feel called upon to say in recommending the stock of Canadian building and loan organizations like the "Globe," and that is that invest-ors can rely upon the redemption of the stock in money worth 100 cents to the dollar, the world over, the Do-minion being irrevocably committed to a sound money policy and undisturbed by any financial heresies. Deputy Reeve Moore felt a little disconcerted when the letter from the village solicitors was read, vetoing the scheme of exempting all new buildings for two years. The letter

"As to the legality of the proposed bylaw for exempting new buildings, we would say the council has no power, and that the only powers of exemption are contained in section 366, of the Municipal Act of 1892, which says every municipal council shall. by a two-thirds vote, have the power of exempting any manufacturing, any establishment, or any building for the storage of ice, for commercial purposes, or any waterworks, or water company, from taxation, except as to school rates, for any period not longer than two years, and to renew the exemption for a period not exceeding ten years." A letter from the clerk of Walkerville was read, describing the steps taken to pass a similar bylaw in that town, and which was working very satisfactorily. After considerable diswhich Deputy Reeve Moore and Councilor Hamilton differ-

Wheat has been steady all the week. The outside markets have fluctuated about as usual, but at the close we find the gain to be only

slight. Red wheat brought \$1 27 to \$1 30 on this market, and white \$1 30 to \$1 33. There was a good demand both for milling and shipping. Outs were quite active for the

greater part of the week, and the price was well maintained until the close, when best qualities fell off about 2c per 100 pounds, and 60c to 68c was the closing price for new oats, with 70c for old. The demand was steady and the supply good.

Barley came in quite freely for this season of the year, and was in good demand. The range of prices was 45c to 60c as a rule. Peas came in moderately well, and brought from 65c to 70c, mostly the

latter figure. Corn was scarce, only one load offered, the price paid being 60c per 100 pounds, and the sample good. Buckwheat was steady; the demand was not so keen as was expected; sale at 50c to 55c per 100 pounds, mostly

Rye-Sales were made at 50c as general thing; demand steady.

Very little business was done in beans owing to small receipts; 50c was paid for unpicked: 60c for prime, and 65c for hand-picked.

Eggs sold off 1c per dozen. There was a steady demand at 16c to 17c per dozen, by the basket. The supply increased a little over last week. Butter did not show any alteration, and closed steady, at 12c to 14c, according to quality. The demand for all kinds of meat

seemed light, and trade was only fair, no alteration in values. Hides and skins were in good demand. The supply was quite good, but

prices did not change any. Very little trade was done in tal-Hay made a gain of 50c per tor during the first part of the week, and

held steady to the advance all the way Straw came in very irregularly-some days plenty and other days none. The

usual prices were \$2 50 to \$3 per Potatoes and other vegetables show little change since a week ago, the former being lower, if anything. Quotations:

There are fads in Come other things," said a busy druggist, "but the most remedies all come back to Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this great medicine was keep up while others come to sight entirely.

"Why is it?" "O, simply because Hood's Barsaparilla has more real curative merit than any medicine I ever sold."

This is of daily occurrence in almost every drug store. Hood's Sarsaparilla has cured more sickness, and made more happiness through restoration to health than any other medicine.

The come is a fact the western cattle yards today were light, but prices were no better. There were 10 are lambs, 1,800 hogs, 20 milch cows and springers, and a dozen calves. Buying of butchers' cattle for Montreal was slow, only seven carloads going through. In export cattle, trade was very draggy, there being only a few dealers operating of golng at 4c per lb. In butchers' cattle there was a pretty bad market. Trade was quiet, and a good deal of poorer stuff never left the drovers' hands. The general run of prices was from 2 1-2c to 3c per lb, the latter was a weak tone, nearly everyone being fully supplied. Good feeders sold at from \$2 60 to \$2 75 per owt, the ruling price, mostly for good stockers, being 2c per lb. Light stockers were not in much demand, and several were unsold. Bulls were a little quieter today. Export buils sell at from 2 3-4c to 3 1-2c per lb, the latter figure being seldom paid. Only good s traight bulls brought TORONTO CATTLE MARKET. Ib, the latter figure being seldom paid. Only good s traight bulls brought 3 1-c per lb. Quite a large quantity sold at 2 1-2c per lb; others at 2 3-4c per lb, and a few at 3 1-4c per lb.
Sheep and Lambs—There is a good inquiry for choice shipping sheep at from \$2 to \$2 90 per cwt. Lambs

> the former going at 3c per 1b, and the latter at from \$2 50 to \$3 per Calves steady; prices ruled from \$4 to \$6 per head for good to choice. Offerings were light, and all sold

steady, the ruling figures being from 3c to 3 1-8c per fb. For the very best

sheep, picked out of fancy lots, prices ruled from 3 1-4c to 3 3-8c per lb, for immediate export to the United States.

Butchers' lambs and sheep are quiet,

Milch cows and springers were selling well today, the market being de-cidedly firmer; nothing went lower than \$30 per head. Choice cows are in demand. Hogs steady; choice selections are holding firm, at 3 7-8c per lb, weighed off the cars. Prospects are for a firm market the next few days.

STATES. San Francisco, Nov. 4.—California gives 4,500 majority for McKinley. Omaha, Neb., Nov. 4.—Two hundred and thirty precincts outside of Omaha give McKinley 22,180; Bryan, 21,685.

Two years ago: Republicans, 20,798; Democrats and Populists, 18,420. Cheyenne, Wyo., Nov. 4.—In the northwestern part of the State snow fell, making the returns slow coming The Democratic and Republican committees claim the State by majorities of from 1,500 to 2,000. Early

returns favor Bryan. Portland, Oregon, Nov. 4.—Returns from the State of Washington indicate the sucess of Bryan electors, and the entire fusion State ticket, including two Congressmen.

Nashville, Tenn., Nov. 4.-Further returns show that Bryan has carried the State; that Taylor (Dem.) is elected Governor; that 8 out of 10 representatives are Democrats, and that the Legislature is Democrat by a good ough, closing steady at \$7 50 to majority. An exceedingly large vote was polled.

THE NEXT CONGRESS. The Chicago Times-Herald prints a table of the next House of Representatives, as follows: Total Republicans, 245; Democrat-Populists, 12; Anti-Silver Republicans, 232; Anti-Silver Democrat-Populists, 3; Republicans for silver, 3; Democrat-Populists for silver, 119; sound money majority, 113. The present complexion of the House is 224 Republicans, 105 Democrats, and 6 Populists, and 1 Silver

The New York Tribune's estimate of the next Senate of the United States is as follows: Republicans, 42; Democrats, 23; Gold Standard Democrats, 4; Populists, 5; doubtful, 6.

AT McKINLEY'S HOME. Canton, Ohio, Nov. 4.-The fever of excitement into which Canton, the home of McKinley, was plunged last night was taken up again early this morning. In fact, there was no intermission, and last night was joined with today by an uninterrupted din of screeching steam whistles, pulled open to their full capacity, and tooting a savage chorus, bands and drum corps marching and counter-marching, uniformed and ununiformed clubs parading, artillery companies shaking the town with cannon salute, and the townspeople en masse joining in the demonstration of enthusiastic rejoicing over the result of the election.

KANSAS. Topeka, Kansas, Nov. 4.-It seems practically certain that Bryan has carried Kansas by a small majority. Democrats claim the State by 13,000, but Chairman Simpson, of the Republican State committee, declares that the complete returns will show a victory for the Republicans.

WASHINGTON. Tacoma, Wash., Nov. 4.-The Bryan and Fusion State ticket have apparently carried the State by a majority of less than 5,000, and will control the

CHAIRMAN JONES' CLAIM. Lincoln, Neb., Nov. 4.-A telegram to Mr. Bryan from Chairman Jones says: "I all along counted on 156 southern votes, and 68 west of the Missouri River, which leaves 7 for us to get to be successful. I counted on Indiana, Michigan and Minnesota, and we have no information except what the press dispatches sent out, to the contrary. The only southern State I concede is Maryland."

KENTUCKY FOR MCKINLEY. Louisville, Ky., Nov. 4.—Kentucky seems safe for McKinley, though the majority is close. In 1,265 precincts out of 1,663 his plurality is 3,506. The counties not heard from include strong Republican as well as silver counties. Based on a percentage of the vote al-ready recorded, the gains would give the State to McKinley by 4,744.

NORTH CAROLINA. Raleigh, N. C., Nov. 4.-Returns at

Inferior to choice, \$1.75 to \$3.25; lamba, \$2.30 to 2 p.m. indicated that Bryan carries 172 and 174 Dundas Street. North Carolina by 10,000. Republicans will not yet concede the State

SOUTH DAKOTA. Yankton, S. D., Nov. 4.—Out of 30,000 votes cast and so far counted, McKinley has 1,500 majority. It is not impossible that Bryan may get a major-ity when all the votes are in.

OREGON. Portland, Ore., Nov. 4.-Nearly threefourths of the total vote of Oregon has been received. McKinley's plurality is 4,724. Precincts yet to be heard from will reduce McKinley's plurality perhaps to 3,000.

St. Louis, Mo., Nov. 4.—This morning less than half the election precincts of Missouri had been heard from. They show a lead for Bryan which justifies Chairman Cook's claim that the State has gone Democrat.

WEST VIRGINIA. Wheeling, W. Va., Nov. 4.—Returns from the State show Republican gains over 1892, and there is little doubt the State has gone for McKinley.

Considerable excitement was occasloned at Twenty-ninth and Halsted streets, Chicago, where one of the polling places is located, when it was discovered that a boy had died there right and another was dying. Steps were at once taken to move the polling

A special from Ashland, Ky., says: "Tobe Stanley, a mine superintendent, was shot and fatally wounded on the way to the polls yesterday by Ike Barker, who put three bullets in his victim's abdomen. Stanley opened lostilities by cutting Barker across the face with a buggy whip. Family troubles were at the bottom of the fight.

VOTED, THEN DIED. Middletown, N. Y., Nov. 4.-Charles Horton, a wealthy and aged resident of this city, went to the polls and voted for McKinley. He fell dead on returning home. He was the father of G. B. Horton, of Brooklyn, of the United States Leather Company.

BRYAN DIDN'T WORRY. Lincoln, Neb., Nov. 4.—Mr. Bryan received the election returns at his home over a special wire. He remained during the evening in his private room in the second story of his house, leaving the first floor to the newspaper correspondents. He told them if he had any communications to make to them he would notify them. He spent the afternoon sleeping, and was very little disturbed by callers.

ELECTION BLOOD. Lexington, Ky., Nov. 4.-About 20 fist fights occurred near the polls yesterday. Pistols were drawn in half of them. About 3 o'clock P. T. Farnsworth, managing editor of the Evening Argonaut (silver daily), attempted to assault Col. W. C. Breckenridge The colonel is reported to have drawn his pistol, when bystanders interfered The affair caused great excitement and more trouble is feared.
St. Louis, Nov. 4.—John Keeley, a

Democrat, was shot and mortally wounded in an election row at Tenth States number 264; of the Bryan States, 119; of the doubtful States, 64; John Egan, a Republican ward

The death, in Detroit, of Mr. Edward Galpin, father of Messrs. A. R. and T. H. Galpin, of this city, removes one who was a citizen of London for many years. Mr. Galpin was formerly a leading produce merchant, and afterwards kept the hotel on Clarence street, known as the Victoria. Eleven years ago he moved to Detroit, where he remained until his death, the cause of which was a murderous attack made upon him by burglars two years ago in Florida. Mr. Galpin was visiting at the time in that state, when the house was entered by thieves, and in the conflict that ensued he was struck on the head by a blunt instrument and left for dead. He never fully recovered from the injury. The deceased, who was a native of Dorsetshire, England, was a life member of St. George's Society, of this city. Besides A. R. and T. H. Galpin, of this city, Mr. Galpin leaves a son in Toledo, the inspector Gendron Company; two sons in good commercial positions in Detroit, a daughter in Florida, and a daughter in Detroit. The remains will be brought to London for interment, the funeral taking place tomorrow. Many old friends will hear of his demise with regret.

BEFORE THE FOOTLIGHTS

Side-Tracked Thursday Night - James O'Neill as Monte Cristo-Human Hearts. "STDE-TRACKED.

This popular scenic comedy-drama will appear at the Grand tomorrow complete mechanical equipments. As the title of the play suggests, Horatio Xerxes Booth, the wanderer, becomes apparent because he is "side-tracked." The box-car in which he pursues his transcontinental peregrination is upon events which lead up to a tragedy, in which he becomes a most important witness. The Boston Herald says of the performance there on Aug. 17: "Several specialties are introduced into the action of the play, and the scenery carried by the company is new and appropriate. plot is well constructed, and affords opportunities to display in a natural manner the light and dark sides of life on the rail. There is enough interest in the development of the story to attract every class of the-ater-goers, as was evidenced by the applause from every portion of the house. The mechanical effects deserve

special mention.' JAMES O'NEILL AS MONTE CRISTO.

The eminent romantic actor, Mr. James O'Neil, comes to this city in a scenic revival of "Monte Cristo. ten years he has appeared in Alexander Dumas' famous drama, and although he has played the part of Edmund Dantes over three thousand times, he has never missed a single performance. In the public's mind ne has become so identified with the main character of Dumas' romantic tale, that it absolutely refuses to see any other actor attempt to portray roll that Mr. O'Neill created in this country. During his coming engagement at the Grand, on Monday, he will be supported by a select company. The scenery is all new, and the costumes are said to be correct

"HUMAN HEARTS" ON TUESDAY. If you would love to go back to the days of your childhood, when you had no other care but that of happy nnocence and the love of a mothe attending your every want, see Hal Reid's natural play, "Human Hearts," for in it. so all the critics of our great dailies say: "Mr. Reid has picked at every chord of the human heart with a touch so tender, so thoroughly sweet that laughter and tears are combined so often that one scarcely knows which of the two are affecting him." Mr. Reid argues that people who go to the theater wish to see something which will be of benefit to them, and in this sweet, simple story of the Arkansas hills there is nothing but that will prove most entertaining.

Scene of the Horror Visited by Large Crowds.

Latest Reports-Theory That Financial Difficulties Led to the Deed.

Large crowds visited the scene of the Evelyn tragedy yesterday and today. The latest reports state that Lackie got up earlier than usual yes-terday morning, fed the hens, and quarters in Montreal. These visits are lit the fire in the kitchen. When he first went outside the painter who was putting the finishing touches on the new house said, "Why! you are

will build it. The Board of Education secured \$2,560 from the City Council with which to purchase the Waterloo street south school house, but the board have preferred to rent rooms instead. Inspector Carson, at last night's meeting, asked for more room in the third ward. This may result in the board buying the Waterloo street property, which is used for Presbyterian mission purposes now.

The Postmaster-General has decided that from this out the department will redeem stamps in sums of not less than \$1, at a discount of 1 per cent, the same discount which the vendors get. The stamps must be pasted upon sheets of paper and sent to the department at Ottawa, when a check for the amount of the stamps so returned will be forwarded to the party sending them in. This will be a very acceptable arrangement.

The interest of Canadians in the United States Presidential election was shown in a marked manner last night. In every city of the Dominion special bulletins were posted by the leading newspapers. In this city The Advertiser bulletins were early scanned by large crowds, and interest did not cease till it was certain that McKinley had been elected by an overwhelming majority. The interest was passive, not rejoicing. There were no cheers, as in a Canadian election.

A few days ago we said there would be no revolutionary movement in the United States. The election returns vindicate the good sense of the people. They can be trusted to support law, order, and public honesty when they are assailed. Partisanship is strong, as is the case in all countries where there is a popular franchise, but there is always a saving element ready to support country before party.

It was decided to have a plunge bath put in the new building at once. It will be 15 building, which, it is expected, will be

finished some time this month. A LONDON BOY ORDAINED. Special services of much interest were held in the First Presbyterian Church, Newburgh, N. Y., on Wed-

nesday evening last, the occasion being the ordination of Mr. W. H. Sallmon as an evangelist. Mr. Sallmon is an old London boy, a son of Mr. Sallmon, Hill street, and when here he took an active interest in Y. M. C. A. matters, and was also a member of Dundas Street Center Sunday school. For the past five or six years he has been attending Yale University, New Haven, Conn., fitting himself for the work to which he has given himself. His many friends in London wish him every success in the Master's service. THE LATE MR. JOHN SHEERE. Much regret is elicited by the death yesterday of Mr. John Sheere, of this city, though it was not entirely unexpected. Mr. Sheere had been in declining health for a long period. An extended sojurn in Phoenix, Ariz., and other health resorts wrought no improvement, and he returned home in the summer, despairing of recovery, though still able to be up and about.

He was not long confined to his bed before the end came. Mr. Sheere was only 26 years old, and leaves a wife, the daughter of Mr. John Long, and a daughter 3 years old. The deceased was extensively related in the city, and for his family, his wife and child, the utmost sympathy is felt. THE POLICE COURT.

The police magistrate this morning had only two drunks to deal with. James McKenna pleaded for liberty, and vowed to sign the pledge if allowed to go. Chief Williams said Mc-Kenna had been a teetotaler for two or three years previous to a few months It was only a short time since ago. he had been given a week at his own request to sober up. The magistrate looked at him compassionately, and gave him another week for the same yesterday wandered into a house on Dundas street east. He was requested to leave, and on his refusal was ejecta deep and ugly cut about two inches long-the effect of his fall. On promising never to come back he was discharged, and thanked the magistrate

NEW STREET RAILWAY ENGINE. The street railway company have purchased a fourth engine, which will greatly increase the production of electrical power. The new engine was built by the Armington & Sims Company, of Providence, R. I., and has a capacity of 536 electrical horse power. It is to be connected with a 400 k-w generator, made by the Walker Manufacturing Company, of Cleveland, Ohio, and is of such construction that no belting is required with it. The generator cost \$4,816, and the engine about the same. The foundation for the en-gine, which was put in several weeks ago, is eighteen feet thick, and contains 35,000 briks. The latest addition to the plant is large enough to operate the entire system excepting in busy hours-early morning, noon and evening-and gives the company a combined horse power of 1,500. The old engines, built by the Armington Company, are of 300 horse power each, and the generators operated by them were built by the General Electric Company, of Schenectady, N. Y.

# The Seventh Battalion

Reports That It Intends to Disband and That Col. Lindsay Will Resign,

Both Rumors Denied by the Colonel and the D. A. G.

The Seventh Battalion put in their final appearance last night to complete arrangements for the inspection by Col. Otter, of Toronto, at the drill shed tonight. The turnout was not as large as that of Tuesday night, but the men have picked up wonderfully. Lieut.-Col. Lindsay was seen last

night, and asked if the battalion could stand the inspection all right. "I have no doubt about it," he replied. "The men are in splendid ficed comfort and money to fill applied. "The men are in splendid pointments that many others might form, and the battalion is overstrength "Then there is no possibility of the

battalion disbanding, as has been reported? "Not the slightest," replied the colonel. "Is there any truth in the rumor

that you are going to resign?" was asked. Col. Lindsay smiled, and said "There is not the slightest foundation for the rumor. There are so many stories going around the streets that I have cautioned the reporters to be on their guard, and be sure before

they say anything." "Then, will you answer this question, 'Have you any intention of resigning?' "Such a thing has never entered my head. Of course, no one can tell what a day may bring forth, and I may resign in a month, but at present have no intention of resigning. Since

enlisted 363 men. Some of them are out of the city. I grant you." Col. Smith, D. A. G., if there was any probability of the Seventh going to pieces, replied: ness when applied externally, as well "There is no reason that I know of as swelled neck and crick in the back; feet wide and 40 feet long, with a why it should. As far as I, either heating apparatus. Other matters personally or officially, know, the were discussed in connection with the Seventh is on as good footing as most other militia battalions. I will defy any man to point out a manding officer who works harder to promote the interests of his battalion or increase its efficiency than Col.

Lindsay does." Another officer, when asked about the matter, said "It all rests with the Government after the inspection to say whether or not the battalion will continue to exist or not."

WHO STOLE THE BIKE? John Johnston's Wheel Taken While He

Was at Supper. John Johnston, of No. 5 Prospect avenue, now mourns the loss of his supper. While thus engaged, someone made off with the bike, and when he went to look for it, it was nowhere to be found. He immediately notified the police, and gave a description of his property. It was numbered 7,150, of the new Hudson make, and enameled a dark red.

OVER A. CLIFF. A Drunkard Falls Into the Passaio

River. Paterson, N. J., Nov. 4.-Hugh Mc-Keoun, a machinist, aged 54, was instantly killed here by falling 90 feet over one of the cliffs at the Passaic Falls. He struck one of the many rocks in the chasm, and death must have been instantaneous. It was his custom when intoxicated to sleep at night under the trees on the cliffs at the falls, and it is supposed that while

wandering about the cliffs he fell over. WE WANT TO KNOW.

# Lover's Triumph.

This view of the affair made him very indignant toward the supposed perpetrators of the deed, and tenfold nore tender toward the unfortunate victim of such an inhuman transaction, and one day, upon returning from his business in New York, he was accompanied by one of the most skillful physicians in the city, To him the pitiable but interesting

innocent was submitted for examina-The noted M. D. at once became absorbed in and enthusiastic over the peculiar case.

"He would be a remarkable boy but for the torpidity of his intellect," he asserted. "He was not born so. His present condition was caused either by me acute disease of the brain or by some injury to it-the latter, most probably

"Possibly a great wrong has been perpetrated, and he has been desented in this mysterious way to conceal the deed," suggested Mr. Huntress gravely.

"I should not be at all surprised," returned the physician. "He may be the heir to some large property, and jeal-ousy has brought him to this pass. Everything about him, save his idiocy, betrays that he came of refined parentage. His physical condition is sound, although he is not fully developed as he should be, but that is owing, undoubtedly, to his mental incapacity. He is evidently about 15 years of age."
All this was the result of but a su-

perficial examination. A more critical one confirmed one of the doctors theories: there proved to be a depression of the skull which must have been caused by some accident to or violent blow upon the head. "It was done a number of years

Would the risk be so great, that were the boy your own son, you would hesitate to attempt it?" "No; I would have it done at once. Still, the trouble is of such long standing that I could not answer for the success of the operation in restoring the boy to his normal condition, ever should he survive the shock to his system; and yet—"

Well?" almost excitedly questioned Mr. Huntress. He was becoming greatly excited over the matter. Somehow a conviction had taken possession of his heart that such an operation would result favorably, and he longed to have his hopes confirmed. "It would be a great triumph of science if the trial could be made, and he should have his reasoning powers restored," returned the physician

Would he be able to talk? Would his power of speech be regained?"
"Yes, I believe so. I suspect that a
portion of the skull, which was broken at the time of his injury, is pressing upon his brain, causing not only loss of memory, but also a partial paralysis of the hypoglossal nerve. If this pressure can be relieved, and the piece of skull lifted to its place, or removed altogether, and the aperture trepanned, I see no reason why he should not recover the full use of all his faculties," the doctor explained.

"I wish it might be done. Doctor, I wonder if it would be right for me to assume the responsibility of ordering this operation to be performed?" said Mr. Huntress reflectively. "It would be a great blessing to the

Well, the matter stands like this.' "Well, the matter stands like this," said Mr. Huntress, after another thoughtful pause. "I have done my best to find the lad's friends, but there is evidently no one, at least in Brooklyn or New York, who will claim him. I am unaccountably interested in him. I will not send him to an insane asylum. I cannot cast him forth again upon the street to wander about at

upon the street to wander about at the mercy of the rabble. I have resolved to care for him as I would wish a son of mine cared for under similar circumstances, and yet his presence, in this imbecile state, is a constant pair to me. What shall I do?"

"If you intend to give him a fatheria."

"If you intend to give him a father's care, I see no reason why you should not exercise a parent's judgment and authority in the matter of his possible restoration," Dr. Scherz responded, thoughtfully.

"Then will you take charge of the case and treat it as your judgment and skill diotate? The expense and risk shall all be mine, yours the re-ward and fame if a cure is effected." Dr. Scherz did not reply to this request for several minutes. He appeared to be considering and reviewing the matter in all its points, and evidently regarded the undertaking as one of grave responsibility and importance.

At length he looked up, and Mr. Huntress was more encouraged by the expression on his pale, thoughtful face than he had yet been over anything that he had said about the case. He felt sure that the man would act con-scientiously, and exert himself to the

extent of his skill. "I think I will attempt it," he said, slowly. "But before I do, I would like to consult with a friend in the profession and get his opinion upon the un-dertaking. I will see you again in a few days; meantime, do your best to build up the boy's strength with a nourishing diet."

With this, the two men separated. CHAPTER VI.

A full week passed before Mr. Huntress heard anything further from Dr. Scherz, and it was a week of anxiety At the end of that time the physician went again to see the Huntress protege, taking a noted hospital sur-

where diseases of the brain were treated, and there the delicate and hazardous operation was performed. The result proved that Dr. Scherz had thoroughly understood the casethat his theory was the correct one. A severe blow upon the head, years previous, fractured the skull, a portion which was crowded in upon the brain, the pressure causing temporary paralysis and idiocy, also loss of energy in the hypoglossal or lingual nerve. This piece of bone was removed, the brain relieved of the unnatural pressure, and the result was both startling

Before the patient had fully recovered from the effects of the ether which had been administered to him, memory and speech both reasserted their functions by completing a sentence which had evidently been interrupted at the time of the accident which had deprived the boy of their use.
"—— tell my papa!" were the words which fell upon the ears of the startl-

ed surgeons, while the large blue eyes of their patient slowly unclosed and gazed up into the faces bending over him, the light of reason once more gleaming in their azure depths. "What will you tell papa?" asked Dr. Scherz, in a quiet tone, while the

other surgeon drew quickly out of "Jack struck Margery," was the instant reply.

"Who is your papa, my boy?"

"Why, he's papa; don't you know?—
my good papa," was the response,

while a puzzled look shot over the lad's Dr. Scherz knew from his manner of speech that he must have been very

"I'm Margery's little man-where is Margery?" he questioned, drowsily, and closing his eyes, he was soon in a The two physicians watched him in silence for a few moments, then they looked up into each other's face; eye held eye for an instant with an elo-

quent glance, the next their hands met in a prolonged and hearty clasp across their patient, for they knew that, if all went well, they had succeeded in an operation that would give them a famous reputation for all time.

motherly nurse was at once appointed to care for him. He seemed to know, however, that she was not "Margery," although he appeared to take to her and was con-

tent to have her attend him. "Where's Jack?" he asked of Dr. Scherz, who still remained with him, determined to watch him most care-

"Jack who?" he asked. "Why, Margery's Jack; but he'isn't good like Margery," from which the physician inferred that "Jack" must have been Margery's husband, and not an over kind one, either. (To be Continued.)

Wallaceburg Couple Going to New Zealand-Hotelmen in Trouble.

There are still fifteen cases of diph-theria placarded in St. Thomas. Monday morning Mrs. Peter Brown, a pioneer of Elgin county, died at Brig-den from heart trouble.

Charles Carman, the young son of Rev. C. I. Scott, St. Thomas, died on Saturday night from diphtheria. During October there were registered with the St. Thomas city clerk 14 births, 8 marriages and 13 deaths. Chatham's customs collections for October were \$4,593 99, an increase of \$1,241 76 over the same month for 1895. Dr. T. H. Bier, of Bright, an old Brantford boy, has been appointed assistant to Dr. Secord, upon the In-

dian Reserve. Judge Bell, of Chatham, has recommended the dismissal of Constable Dennis for alleged conduct unbecoming an officer.

Mr. John Campbell, brother of Mr. N. M. Campbell, principal of the St. Thomas public school, died on Saturday night in East Williams. At Stratford on Monday John Holmes, of Elma, was sent up for trial by Police Magistrate O'Loane, upon a charge under the Charlton Act. Mrs. Peter Brown, one of Moore's oldest residents, died on Monday. She was the widow of the late Peter Brown, who settled on the banks of Bear Creek before the present town Brigden had been thought of, and the family name has been closely connected with the growth and development of the township ever since. The wife of Mr. J. C. Yauch, barber, Dutton, died Saturday night, after a lingering illness of several months with consumption. The death is a particularly sad one, as they had been married only five months. Deceased, who was only in her 24th year, leaves besides her sorrowing husband, two brothers, Patrick and Timothy Crow-ley, who are in Arizona, to mourn her

The following have been appointed officers and directors of the local board of the Canadian Savings, Loan and Building Association for Brigden and vicinity: Henry Shaw, president; Byron Stephons, vice-president; Messrs. James McKellar, Wm. McDonald, Wm. J. Menzies and John W. McDonald, When the boy awoke again he called directors; Dr. A. J. Fisher, secretary-justily for "Margery," and a kind and treasurer; and Mr. John D. McIntosh, valuator.

On Sunday at Dresden D. S. Dolsen (or, as he was familiarly called, Father Dolsen) passed quietly away. Deceased was greatly respected. He was one of Dresden's pioneers, and was a great church worker, having been a Christian for over 60 years. He was the first class leader in a Methodist church in the city of Chatham. Deceased was 83 years old. He leaves a wife and two children.

Three Chatham hotel-keeers have been charged with violating the law. Angus Pennefather was fined \$40 and costs, Theo. Bourrassa \$20 and costs, and Wm. Cameron dismissed. In the course of the first case it transpired that the defendant had given a drink to a guest on Sunday, and this was submitted to be within his rights, but Mr. Houston decided that no liquor could be either given or sold on Sun-

day except by medical certificate. The Windsor police have arrested four men on suspicion of having bur-glarized the wholesale grocery of Smyth & Taylor there. Monday afternoon Sergt. Nash and Officers Giles. Jackson, Lister and Maitre searched the residence of Joe Howard and Geo. Clay, and found a portion of the goods, which they seized, and then arrested the two men. Afterward Da-vid Howard and Thomas Gibbons were arrested. George Carey, who keeps a small grocery on Goyeau street, was also arrested. Carey and Gibbons are white, and the others are

# THE RESORT

Rev. T. C. Mellor, Rural Dean, Christ's Church Rectory, Guysboro, N. S., referred recently to K. D. C. in the following words: "I have much pleasure in bearing testimony to the value of K. D. C. for Indigestion. I have been a victim of Dyspepsia for some time, but your remedy has worked wonders. Whenever the slightest symptoms return I resort to K. D. C. and instant relief is the result. I never fail to recommend K. D. C. wherever I go."

Can more convincing proof be called for than the above. We say emphatically that K. D. C. is the Greatest Cure of the Age for Indirection. The K. D. C. Pills are splendid for the Liver and Bowels and cure chronic constipation when used with K. D. C.

# While You Can

"Strike the fron while it's hot" is an old expression, a good old truism applicable to our everyday life

When personal safety depends on a straight from the shoulder blow, it's a good thing to know when and how to strike it . Take the Kidneys, for instance, the delicate little filters of our blood, working all the time, taking out impurities; must keep going to maintain health; sometimes they become blocked, then to strike means to break the blockade. Easy to do this with the right weapon, can't do it with the wrong. Of course you may let the opportunity go by, but can you afford to? If you are a Kidney sufferer you can appreciate what delay means. You remember the first backache; how you thought it would soon pass off; perhaps it did, but it came back again; called oftener as you became better acquainted, finally settled right down with you, came to stay, and what a lot of misery came with it! A Kidney blocked means Urinary troubles if you let it go, many distressing complaints set in. Everybody should arm themselves with Kidney knowledge, know that backache is Kidney ache; that DOAN'S KIDNEY PILLS will strike a harder blow at Kidney Blockade than any other known remedy. They're made for it, made for Kidneys only. Don't take our word for this; DOAN'S PILLS have cured Toronto citizens, Ask them. Ask Mr. R. P. Watkins, 173 Bay-street, Mr. James J. Quinn, 92 King W, about DOAN'S KIDNEY PILLS. We have many such local references; no room for more here. We will publish them in this paper. Mrs. Foster, of Kent street, has just recovered from a serious attack of La Grippe. This is the second siege she has had of this influenza, the first of which attacked Mrs. Foster about three years ago, and left her with a very troublesome cough, accompanied with chronic bronchitis, and a complication of other diseases which made it almost impossible for her to attend church without disturbing the convregation by coughing, and, indeed. Mrs. Foster assures us that so bad were the spasms that she often feared she would burst a blood vessel during one of these severe attacks. It was very natural that under such circumstances numerous friends would recommend as many different "cure alls." She tried Cherry Pcctoral, Tar, Linseed and other preparations, but was growing generally worse when a friend who had been benefited by Barkwell's Bronchial Balsam advised her to try that, and in a few days she was out of bed, and the best feature is that she is now entirely freed from all symptoms of the Bronchitis, of which she never hoped to be cured. Mr. Millar, a neighbor, also had a bad cough and was completely cured by the same preparation.

# DRESS GOODS

We have decided that not one of this season's imported dress shall be carried over. We have, therefore, reduced the prices on half-just cut them in two to hurry them out. A special count has been devoted to each of the special lots mentioned below.

There is no occasion for us to enlarge on the individual merit of each dress on this counter. We are strictly within the bounds of truthfulness when we say there is not one but is all wool, double fold and worth double the money. Look at our west window-come inside and feel the quality. It's only when you examine them closely that their true worth is made known. 6 yards for \$2.

-Plain Serges, -Fancy Cheviots, -Mohairs,

-Tweeds and -Mohair Twills. All wool, silk and wool, all colors, 45 inches wide. Your choice, 6 yards for \$3.

We invite those who pride themselves on being critics of dress goods values to come and see this lot. Come and tell us how they differ from dollar and a quarter goods elsewhere. We know, of course, that critics can always find fault. We haven't got them in every color, we know, but if you can show equal value in the city we'll withdraw all praises of them and shut them out from the advertising columns henceforward.

FRESH ECGS FROM CHINA.

Queer Manner in Which They Are Imported. "Fresh eggs from China" is a con-

spicuous sign posted in the windows of many of the Chinese stores and restaurants in New York. Only the Chinese notice it, for it is posted in the queer characters of their language. The eggs are a delicacy that comes every fall from China. Thousands of them passed through the custom house during the last month. Each egg is wrapped in a mass of black mud that retains the putty-like consistency for months, even when exposed to the air. They come in boxes holding 25 Chinese dozen-10. Everything that comes from China is purchased by tens. The eggs are as fresh as when they started from China. -New York Journal.

THE SERPENT.

Emblem of Evil on a Young Girl's Coffit -Her Brother so Horrifled That

He Died. Woodbridge, N.Y., Nov. 4.-A strange event with a shocking sequel occurred in the Presbyterian Cemetery here during the funeral of Miss Lulu Lorch, The coffin had just been lowered, when some of the women mourners screamed. A purple snake, four feet long, had wriggled through the crowd and darted into the grave, where it coiled itself on the coffin lid and refused to be dislodged. Panic-stricken, the funeral party fled from the cemetery and

entered their carriages. William Lorch, aged 29, who was married only a week ago to Miss Carrie Sellers, was terribly shocked. He regarded the serpent as the em-bodiment of evil, and looked upon the Effair as a dreadful omen. With his bride of a week he was driven to the louse of his father-in-law, Thaddeus Sellers. The young man had hardly reached the house when he became violently ill, and died within twenty minutes from heart failure. The attack was brought on, the doctors say, by the fright caused by the appearance of the snake on his sister's
