Vote for Richter and Business Management of London's

If You Were Making Your Will and Wanted an Executor, Would You Choose Richter or Graham?

Voting Slips Might Be Tickets to Chinese Raffle So Far as Information They Convey to Casual Ratepayer Is Concerned.

On a par with the city hall efforts to prevent the separation, the waterworks and electrical departments, is he preparation of the bylaw ballot on which Londoners will be expected to express their decision in the question tomorrow. Absolutely no information is furnished the elector as to what he s voting for. The ambiguous words, "Vote on bylaw respeting control of the London waterworks," is the only explanation found on the ballot. What the "control" refers to, the reason for having the second vote on the question that received the indorsation of an overwhelming majority of London citizens, last year, is unexplain-

Merely An Omission. The bylaw is supposed to be for the revision of the one passed a year ago. It conveniently omits to say so, however. Further than this, the ballot in the form in which it goes to the elec-

tors would convey to many the meanwas never carried out, thanks to the Graham clique in the council. Those who voted in favor of the separation of the departments a year ago could quite naturally make the mistake of voting "yes" on the ballot that will be

handed them tomorrow. Rather Ambiguous. The ambiguous meaning of the ballot information is palpably in favor of those who have publicly declared that the vote of a year ago was "snap judgment," while at the same time it imposes an almost unsurmountable handicap to those who held, and still hold, the view that the departments should be divorced in order that the true earning capacity of each can be

ascertained.

Tried To Fill 60 Foot Break In Intake Conduit With Steel Pipes.

PACKING GIVES WAY

Humorous Editor at Westmount, a Saburb, Invites People To Come to Bath Parties.

Montreal, Dec. 31.—Owing to the failure this morning of the plan adopted by the city engineer's department for giving Montreal temporary relief from the water famine caused by the collapse of the intake pipe leading to the waterworks pumping station the city will be without water for to-day and most likely tomorrow. The famine began on Christmas Day.

The plan adopted called for the filling in of the 60-foot break in the conduit with steel pipes. The water had only been turned into the tube two hours when the packing connecting the steel pipe and the old concrete conduit was forced out, and pumping operations had to be suspended. Not Without Humor.

The situation, bad as it is, has not been without its humor. Some enterprising printer in Westmount, a suburk of Montreal, which has its own water system, prepared a number of cards which bore an inscription inviting friends to "bath parties." They were eagerly bought by Westmount folk and sent to friends in Montreal, who were not slow to accept the invitation. It has become a regular thing now for men to carry home bottled string water at night, while bottles of water have been sent around by people to friends as presents.

The proposals in order of merit, according to Mr. Churchill, are:

No. 1. The contribution by Canada to the admiralty of \$35,000,000, to be applied by the admiralty on the payment of three battleships now under construction in the yards of Great Britain.

Program No. 2. That which was presented to the Canadian Parliament last session, passed by the Government through the Commons, and rejected by the Senate. It provides for the construction of three new battleships for the British fleet at a cost of \$35,000.000.

Program No. 3. The contribution of a fixed annual sum by Canada to the British admiralty, to be used as it deems best, and application for further vessels for Canadian coast defence. Some of these to be constructed in Canada if possible.

There was a great deal of cable correspondence over these proposals. Many messages passed between the Governments and Mr. Perley before the latter left England.

The Government hesitated to make a choice on the information which it received by wire, and decided to defer decision until Mr. Perley arrives to lay before the Government reasons for the various program and arguments which can be put forward in support of them.

The choice will be made at a full meeting of the Government to be called soon after the return of Mr. Perley to Ottawa. Every member of the cabinet will be present except Hon. Geo. E. Foster, who has just been sent across the Atlantic.

Graham will go home and stay there, as regards civic honor. Now, Mr. Hackett, of Talbot street, wrote a short but true letter.

He asks a question and he answers it. What has Graham done for London? He answers it truthfully in one word, NOTHING. Alderman Richter is the man for mayor. He is a man every inch of him; he does not boast of what he can do, but he goes and does

it. His valued services in the council, his kindly actions to his fellow citizens, have made Ald. Richter a favorite throughout the city. C. M. R. Graham's (don't forget, Mr. Editor, to put the C. M. Detective Robert Eggleton arrested T. H. Luscombe, a well-known Lon don lawyer, at noon today on a warrant for his arrest charging the prisoner with stealing \$1,600 from Robert McCracken.

At the Carling street police station Mr. Luscombe declined to give out any statement for publication. The prisoner had dinner brought in to him, and at a late hour he had not been locked in a cell, but was held in the detectives' office.

Mr. Luscombe appeared in police court Tuesday charged with misappropriating \$1,101.81 of funds belonging to William Whitehall, for whom he acted as solicitor. He was bailed on this charge to appear on Jan. 12. The prisoner was allowed to use the police telephone a number of times in an effort to get bondsmen, but late in the afternoon he had failed to secure any.

Saturday, Sam appeared Squire Chittick on a similar charge, and earnestly requested to be given ninety days in jail. As he was strong and healthy, and a good workman at his trade, Squire Chittick did not accede to his request, but discharged him and advised him to look for work. Sam was not discouraged by this failure to become a boarder at Carter Castle, but immediately set out for Ailsa Craig, where he had no difficulty in persuading the authorities that he was a vagrant. Magistrate F. B. Smith sentenced him to three months in jail, and he is now safely ensconced where winter winds do not penetrate and where the meals come at regular

intervals. It is possible that he will be sent to Central Prison to put in his term, as quite frequently men with a trade who are sentenced to three months or more are sent there. Crockett is a broommaker, and is said to be skilful at his

This Store Was Built for Western Ontario and a Greater London

And the increase in the number of customers from outside places who come regularly to the store or do their purchasing from our catalogue (which is issued spring and fall) through our free delivery mail order service, is most gratifying, as is also the increase in population of our city, which shows a steady, healthy and permanent growth. The census returns showing an increase of about 10,000 in the past five years, from which this store can modestly claim a fair share of patronage, and now that we are well over the 50,000 mark our rise to a city of 100,000 should be rapid, for the bigger we grow the longer our stride.

Let All Get Started to Work

At this very moment, the beginning of the new year, it is necessary that manufacturers and merchants put their shoulders against the wheel of business and drive on without stopping. What ever others do we are not among the croakers and gloomifiers. Tomorrow a full page announcement in this paper will tell you we have not been idle behind the Christmas scenes, as you will find the whole store has been transformed (as in a night) into one great sea of white, to begin on the very Clean Your Waste-Clogged Liver first business day of the year 1914, the most extensive white sale ever inaugurated here, which will affect every section on first and second floors, where white goods are carried. See window displays Dundas and Richmond Streets.

We take this opportunity to wish you one and all a happy and prosperous new year, and to thank you for your patronage, which we hope was merited, and which helped to make this the record year in the history of your store.

Through one of the men in his office he had learned that Hayden, of the Suburban Electric, was seeking to consolidate that road, which had fallen into partial disrepute day I was to start up here, poor Kendrick under his management during the illness of Thornhill, the president, with the Civic. The consolidation would raise the den. Seven years ago he and Hayden value of the Suburban nearly two million dollars-at the public's expense. Hayden

The safe had been left open by Rutter; Bland did not have the combination. He put the package inside, swung shut the door and awaited the arrival of the mayor." "I was present," smiled Magee, "at the ceremony you mention"

Not long ago he discovered that the matter in which he and Hayden had offended had never been disclosed after all. He hurried back to the States. You can imagine his bitterness. there was, at this late day, no crime committed in the eyes of the law. He also told Kendrick how matters stood, and of cautions unnecessary. But Hayden was firm; this spot, he pointed out, was ideal, and the mayor laughingly gave in. The money involved was well worth taking a little trouble to gain."

Professor Bolton paused, and blinked his dim old eves. too. So, without making his return known in Reuton, three nights ago he accompanied me here. Three nights—it seems J. Carter, James Cutt, John Mains, T. years. I had secured keys for us both Hill, H. Horney, W. Johnston, R. R. from John Bentley. As we climbed the mountain, I noticed your light, and we agreed that it would be best if only one White W Phillips. The meeting then of us revealed ourselves to the intruders in the inn. So Kendrick let himself in by a side door, while I engaged you and Bland in the office. He spent the night on the third floor. The old man paused and shook his head wonderingly.

"Then melodrama began in dead earnest," he continued. "I have always been a man of peace," and the wild scuffle that claimed me for one of its leading actors from that moment will remain in my memory as long as I live. Cargan dynamited the safe. Kendrick held him up; you held up Kendrick. "You—the curtains were down," interrupted Magee.
"I found a half-inch of open space," explained the old man. "Yes, I actually lay on my stomach in the snow and watched you. In the morning, for the first time in my life, I committed robbery. My punishment was swift and sure. Bland swooped down upon me. Again this afternoon, I came upon the precious package, after a long search, in the hands of the Hermit of Baldpate. I thought we were safe at last when I handed the package to Kendrick in my room tonight—but I to Kendrick in my room tonight—but I had not counted on the wild things a youth like you will do for love of a designing

like you will do for love of a designing maid."

Twelve o'clock! The civic centre of Upper Asquewan Falls proclaimed it. Mr. Magee had never been in Reuton. He was sorry he hadn't. He had to construct from imagination the great Reuton station through which the girl and the money must now be hurrying—where? The question would not down. Was she, as the professor believed designing?

"No," said Mr. Magee, answering aloud his own question. "You are wrong, sir. I do not know just what the motives of Miss Norton were in desiring this money, but I will stake my reputation as an honest hold-up man that they were perfectly ail right."

"Perhaps," replied the other, quite uncontracts.

fectly all right."

"Perhaps," replied the other, quite unconvinced.

"But what honest motive could she have? I am able to assign her no role in this little drama. I have tried. I am able to see no connection between her and the other characters. What—"

"Pardon me," broke in Magee. "But would you mind telling me just why Miss Thornhill came up to Baldpate to join in the chase for the package?"

Thornhill came up to Baldpate to join in the chase for the package?"

"Her motive," replied the professor, "does her great credit. For several years her father, Henry Thornhill, has been forced through illness to leave the management of the railway's affairs to his vice-president, Hayden. Late yesterday the old man heard of this proposed bribe—on his sick bed. He was nearly insane at the thought of the disgrace it would bring upon him. He tried to rise himself and prevent the passing of the package. His daughter—a brave, loyal girl—herself undertook the task."

"Then," said Mr. Magee, "Miss Thornhill is not distressed at the loss of the hill is not distressed at the loss of the most important evidence in the case."

The stylish appearance of these jellies will win the admiration of your guests at the tea hour. And when they taste them they will be eager to get your recipes.

These jellies are only three of the many kinds, both plain and fancy, which you can make with Shirriff's Jelly Powder. There are recipes inside of every package. These recipes have been tested by an authority in Domestic Science Cookery

connected with a Government School. Many are out of the ordinary. All are worth trying.

Shirriff's Jellies are high-class, pure-food products. There are over a dozen "fruity" flavors. Many women like them so well they buy from a half-dozen to a dozen packages at a time. Six packages cost but 50 cents—81/3 cents a package. Very little to pay your grocer for a dessert so delicious.

LONDON, WEDNESDAY, DEC. 31.

JOHN G. RICHTER.

London has the chance to put a big man at the head of its affairs for 1914.

The man is John G. Richter, a who for the last four years has the welfare of his home town.

Ald. Richter has no passion for fresh endeavor. for public life. He would prefer tried to choose a few months itous service to his city; he into the field.

We do not believe that there is anything but imitation opposition to Ald. Richter for mayor. All that his opponents are suf- gentleness, unselfishness, high and I fering from is the summer heat clean-thinking, less beautiful things, of the electrification campaign; they are silly with it. The electrification campaign is a thing of the past; there is no one in London who wishes anything an excellent thing to drop bad habits, but success for the undertaking, The Advertiser included. Ald. Richter, because of his proven efficiency, will do more to make the undertaking a success than any other man in public life in to blame, to do a little more than our

He is a man who loves his home life and his home city. He has man in a personal way. He has never been a politician, but if anything has been a natural Conservative. He has registered his vote for Hon. Adam Beck on more than one occasion, and would do so again, if he believed in the particular measure that Mr. Beck was advocating.

He is the only man other will monopolize the thin skin. in London who has worked out a system for the securing of good roads in London, at the lowest cost. At the present time management of the city affairs. There are sums running into the spent. Richter is a man trained to the conservation of civic resources. He has made it a life study. He feels at the present time that he can do good service for his city.

Let the knocking cease! Richter stands for the square deal for every man in London, and there is not a man in London who does not in his heart feel certain of the candidate's wholehearted interest in his city first But Mr. Borden and company do not of all.

SUNDAY CARS.

The people of London once voted in mouth. favor of Sunday cars by a large majority in the face of solid and sincere opposition on the part of church organizations. There seems no reason to believe that the public mind has changed toward this issue, and if the electors turn out to vote, Sunday cars will be operated.

Those who are agitating against the passing of Sunday cars should first secure a law prohibiting the working of chauffeurs on Sunday, and the use of the automobile for any reason whatsoever. If the rich man is to ride, the poor man must be given the same opportunity. Not all will want to use the cars. Many prefer to walk the easy distances of our leafy avenues, but from the standpoint of convenience, Sunday cars would be a far-reaching benefit.

ON RESOLUTIONS.

A celebrated professional humorist has stated that the best he ever got out of New Year's resolutions was \$25 from the sale of a "turning-over-anew-leaf" joke. It went to pay for his wife's new hat, making it unnecessary for her to "turn" the old one.

SUNDAY CARS

THE LORD'S DAY ALLIANCE Does not make laws or administer them, but endeavors to influence public opinion against encroachments upon the Lord's Day, thus seeking to secure to every man the Lord's Day as a day of rest. We therefore take this opportunity to place before the electors of London our reasons for objecting to the running of cars on that day, and call upon them to vote against the proposed bylaw at the forthcoming election (Thursday) tomorrow.

I. Because it tends to the destruction of the quiet and rest of the Lord's Day, and the secularization of the spirit of the people.

II. Because it means enforced Sunday labor for many employees of the street railway company.

III. Because they will prevent the employees from enjoying the rights and privileges of family life on that day.

IV. Because they are not necessary for church attendance. V. Because they are not needed to take

people to the parks and open spaces of our city for fresh air.

VI. Because it is not fair to make the

VII. Because our population is only 50,000,

whereas Winnipeg had over 100,000 and Toronto over 200,000 before they thought them necessary.

VIII. Because ordinary traffic within the city limits will not pay, the result will be to introduce every attraction to make the day

one of pleasure-seeking. IX. Because the following inducements have already been held out to the company, as reported in the local press, viz.: "Traffic to Springbank was a possibility in the near future," and "The band concerts on Sunday nights would attract thousands."

And above all,

X. Because nearly all the employees of the street railway company do not want to work on the Lord's Day, and appeal to their fellowcitizens to protect them from enforced labor.

Sunday Cars, To the Editor of The Advertiser: The Sunday street cars is one of the features of the present age, an age which subordinates everything to pleasure and convenience. Six days are not enough: the seventh must be invaded This disregard, however, of one of the fundamental laws of the universe, must pay the price. It has made the Lord's day hold the record for deaths and injury through accidents caused by excessive use, on that day, of all the modern means of conveyance for business and

The Grobb Bylaw,

To the Editor of The Advertiser: This loan of \$25,000, if authorized, will cost the city nothing, the rate of interest, 5 per cent, being the same as is paid on city debentures. The bylaw stipulates that the company will continuously employ, for 25 years, a minimum of 110 adults. These will be skilled mechanicscolmakers, molders, blacksmiths and nachinists, whom the company guarantee to pay an average wage of \$2.27 a day. Including salesmen and office help, \$100,-000 a year will be paid in wages, and go to increase the general prosperity of the The company will expend \$40,000 a year in London in materials and supplies.

peting Ontario towns. The passing of this bylaw will provide work for a large number of skilled heads of families not now employed here. Their families will also find employment in London. The city and all ratepayeers gain considrably and lose nothing by the packing of this bylaw. A two-thirds majerity is required. Yours truly, GORDON PHILIP.

Industrial Commissioner

Sunday Cars. To the Editor of The Advertiser:

I notice that a bylaw for the operation of Sunday cars on the streets of our city is to be submitted to its citizens for settlement on next municipal day. On this I beg to say that a question is raised that doesn't come under the jurisdiction of the city of London, or any other city, it matters not what the population may be. It belongs to Him who is the Creator of the heaven and the earth, the sea, and all that in them is. He gave the day to man and in His word He has given directions as to its use, and in these, is its settlement, and that for all time. In His word we are informed that the first seventh day the world ever saw was a Sabbath day. "God finished his work of creation in six days, and rested on the seventh, and blessed and sanctified it." here two things: (1) Man needs oneseventh of his time for rest, and for that provision has been made the Sabbath: (2) Man is not only physical but spiritual—"a living soul"—and is to give himself to that that is spiritual, and to the service of God. Sun-

where the harm comes. men are not taking the rest that was set apart for it, and they are not in the house of the Lord: the street car company has put them to work. The Saviour, when He was here, drove certain men out of the temple. Why? Why they were running business high and strong in the holy place, that turned money into their hand. this street car work that is now before us in London, takes the holv day for its work, for the reason that there is money in it. Is it right? say it is. Who can, I can't. Turn now, effect be on the moral and spiritual side? if you please, to the dialogue chapter, and begin at the eighth verse, "Remember the Sabbath day to keep it opinion also the advantage of having natural gas will give a boom to the consistently vote for Sunday cars, when the work of creation was finished, the Sabbath was instituted. and that it is to be observed in keeping with the name it wears-holy. Read on: "Six days shalt two labor, and do all thy work, but the seventh is the Sabbath of the Lord, thy God; in it thou shalt not do any work." This is the word of the Lord, not mine. Sunday cars run right through it. and they claim that it is admissible for the reason that they carry people to their worship. Well, they may carry some there, but they will carry more somewhere else, and I am a little afraid they will lessen attendance at church. In Montreal a few years ago noticed in two of the big churches in that big city that there were a lot of empty seats, the evening one espewe have a vote of something else of this character until we get Sunday for the cially, and the cars were packed from end to end. Our street railway company here, we are given to understand, has agreed to begin its service two hours later on Sunday morning than it does on any day of the six, and to cut Springbank out. This doesn't help things-work is going on -this is only a bait to secure the ousiness, and that being Springbank car will come on in full equipment, and will run to the big park, and will do it for the money that is in it. Well it is right to make money-the man who will not do it is not worthy the name-but it is not ight to do it at the sacrifice of that that is sacred. I think God has done a wonderful thing for man when He has given him 313 days in the year to provide for his body, and I think that the man who will lay hands on the remaining 52 days, has a good bit of self in him yet. There is a living for the man who will face his work for six days in the week-leave Sunday where God has placed it, it is for man and man has a right to it, and ought to have it—there is a living for him. know a man wno is now in his forty-first year in railway employ. I spent a little while with him a short time ago, and he told me that on one occasion he was offered a position that would bring him \$25 a month more than the one he had, and on another occasion \$30 a month more, but in each case it meant Sunday. and that settled it, and when Sunday came he was with his family, and with the people who kept a holy day. Well. what happened? He and his wife and six children have had enough, and to spare all the way along, and he now looks forward to a quiet eventide on one of the finest farms in the country. There is certain work that may done on Sunday. What is it? It is this: If you have cattle, care for them; the Saviour preached that. have sickness in your home, care for the sick; the Saviour preached that. If you have hungry ones in your home, procure food for them if you can; the Saviour preached that. Do what the Saviour bids vou, do it every time,

men's Canadian Club on Life of Poet-Prophet.

Some exceedingly interesting rem-iniscences of Walt Whitman were given the members of the Women's Canadian Club by Dr. H. A. McCallum Monday afternoon at a well-attended meeting held in the Normal School. Walt Whitman, the speaker stated, was an intimate friend of the late Dr. Bucke, of the London Hospital for the Insane, whose volume, "The Life of Walt Whitman," he urged everyone present to read. It was owing to Dr. Bucke's comprehension of and macy with Whitman that Dr. McCallum came to realize the beauty and pro phecy of his writings and life.

Whitman loved everybody. He loved the poor more than the rich. He gave himself up for more than two years as for young men to smile at young wo- a nurse in the American civil war. REPORT OF SPECIAL COMMITTEE ON NATURAL GAS. London, Dec. 23, 1913.

To the London Board of Trade:

Gentlemen,-Your special committee appointed by the executive council to investigate and report on natural gas, in view of the bylaw to be submitted to the ratepayers on Jan. 1, left London on Friday, the 19th, visiting Chatham, Wallaceburg and Sarnia.

These towns are supplied from the same field as the suggested supply for London, and the gas is similar to that which will be used here in the event of the bylaw being carried.

Your committee wish to acknowledge the consideration shown us everywhere by officials and citizens, and to take this opportunity to record their thanks for courtesy and kindness shown.

We found objection to have this gas piped to London and eastern points, as the feeling is entertained that increased demand would more rapidly diminish the supply.

The following report records actual conditions as found by your committee, who have refrained therein from expressing personal opinions, although willing to do so if called upon. It is significant that whereas the members of your committee left London strongly opposed to natural gas and the bylaw, they are now unanimously in favor of natural gas at moderate prices, and believe the disadvantages and objections raised against it are insignificant in comparison with the advantages to be gained by its use.

We trust, therefore, that this report will receive the favorable consideration which we believe the importance of the subject demands.

Respectfully submitted,

E. C. MITCHELL, Convener. R. C. ECKERT, WM. TURNBULL

Mayor Has Novel Characterization for Those Who Do Not Think As He Does.

Citizens who did not see eye to eye with Mayor Graham in the matter of the electrification of the London and Port Stanley Railway, and voted against it, were last night characterized by him, in the course of an address at Pottersburg school, as chronic grumblers, who were ungrateful for all that Adam Beck had done for them in securing the Horton street wells and the hydro-electric power. were accused of attempting to knife Adam Beck in the back by voting against the electrification project, instead of meekly falling in line, and voting for the electrification bylaw regardless of its merits, in humble re-cognition of all that Adam Beck and his faithful understudy had done in the past.

It was a source of real regret to him, the mayor said, to know that there were such ungrateful people in the city. "They use daily all the benefits of the Horton street wells and h. Tro power, and yet when election day comes they go out and try to knife him in the back by voting against him," he said. "There are some people small enough and mean enough for anything, but it's up to you to say whether you will let them come to the top or not during the coming con-

The saddest part of the mayor's pathetic recital was reached when he told the gathering that on top of all this work and worry he had to contend with the criticism of an opposi-

tion press. "It is not right to listen to an opposition press," he said, "but no man gets thick-skin de enough not to about him. But that is the pay of public service, that is the burden we have to carry," he added in a voice eloquent with self-pity.

After discussing at some length the Grobb and natural gas bylaws the mayor gave way to other municipal Those who addressed the gathering,

his health, has prescribed more outdoor exercise for him, and, acting on the doctor's orders, Riley has decided upon a novel idea. Tuesday he went out into the exercise yard armed with a snow-shovel, and cleared a track about four feet wide all around the yard. This is to be his "cinder path" for little out-door jogs every morning. Today he enjoyed a long run around the track he has made, and bids fair to become a Marathoner if he persists The jail authorities hope that the exercise will strengthen him to withstand the strain of the trial for his life which

RATEPAYERS:

Ten Convincing Reasons Why You Should Vote for the Grobb Manufacturing Co. Bylaw

1. Bylaw authorizes city to loan \$25,000 to establish a New Industry in London.

2. Loan To Be Repaid in 25 equal, annual, consecutive Payments, with Interest.

3. Security of Loan is assured by first mortgage on new buildings, equipment and land to value of \$50,000.

4. Rate of Interest is exactly same as city borrows at. 5. Taxes will be reduced—by increasing amount of assessable

property; also by increasing tax-paying population. 6. The Company Guarantees to employ a minimum of 110

skilled hands—and will pay an average of \$2.27 per man per day. 7. This means \$100,000.00 per year spent in London in wages and salaries, to feed, clothe and house the men and their families. 8. This \$100,000.00 goes to grocer, butcher, clothier, landlord,

amusements, banks, and everyone in London benefits thereby. 9. The Commany will expend in London \$40,000.00 per year

for material and supplies. 10. The high rate of wages guarantees that this will be a white man's shop.

honest and expert financier in the mayor's chair.

BECAUSE the political machine makes no secret of its influence, dictation and coercion of the majority of the present council. The Progressive Slate is strictly non-partisan. Not a candidate is unduly pledged to any party (not even this association), and every candidate stands or falls by his own record, character and ability, and is not a trailer to any politician.

BECAUSE the intelligent citizen is thoroughly disgusted and ashamed of the miserable campaign of slander and malicious misrepresentation in certain quarters, of all fearless, independent aldermen, candidates and citizens. A certain prisoner in our jail is shown more consideration than a man who has given the best of his time and ability to serve the city honestly and well for the past four years. Is it any wonder that good men refuse to stand for election? The crime and shame is on the elector's head, the remedy is in your hands. Vote the Progressive Slate, every man.

BECAUSE it would not be profitable, although interesting, to know why so many of this year's incompetents jumped away from the council board to aspire for a place on the Board of Control, which handles all the money this year.

BECAUSE the Central Progressive body has carefully selected our School Board candidates, with a view to economy and efficiency. We wish a thoroughly representative board, not a ring drawn from one class. We believe all men are only thoroughly efficient in their own business. To a larger or smaller extent they are dominated by their usual environments, and prejudiced, more or less, unconsciously perhaps, to the actual needs and requirements of the greater mass of the public. We want, therefore, representation from all classes, if possible, on the Board of Education, as well as the other public bodies.

BECAUSE we stand for a better consideration of the primary grades, a wider distribution of our institutes of higher education, less centralization of Collegiates, etc. If our children cannot attend school without the additional expense of carfare, let us bring the school to them. We stand for no glorification of war, but for proper physical training with military tendencies eliminated.

LONDON CLUB WILL OPPOSE ATTEMPT TO RAISE CANADIAN LEAGUE TO CLASS "B" BALL

Local Directors Say It Would Not Be a Paying Proposition Charles Ebbets Sr. is Away in Even If Erie Did Come In-Cheaper Managers Will Be the Rule the Coming Season.

If the Canadian League invades Erie, and this question will be settled in the next day or two, will the league seek a higher classification? With the added expense that a class "B" club made to pay. Practically the only clubs in the league would be in the "B" class, and that would mean faster baseball. But would the majority of the cities in the Canadian League at present stand for class "B" baseball?"

If the other clubs in the league are of the same opinion as the London club, directors are opposed to any attempt to make the Canadian League a class "B" to make the Canadian League a class "B" league. They claim that it would uit, mately result in the league "and the point is well taken. It is doubtful if the Canadian League can stand class "B" ball.

Falkenberg Believes He Could Score If Put Third in the Batting Order

Fred Falkenberg, the "Fadeaway King" of the American League pitchers, has a grievance. He wants Manager Birmingham to give him a different location in the batting order next season, so that he may experience the peculiar sensation of scoring a run. The thin one, who, incidentally, struck out 41 times last campaign, took part in 36 games without venturing past third base.

"Is that my fault?" asked the hurler. "Echo, I reiterate, echo answers: 'No' three times. The men who bat behind me are to blame. Look over the statistics (did I pronounce that right?) and you will see that I made 10 hits, one of them a double; walked 10 times, was hit three times, reached first on errors twice, and stole two bases. See, I got on 25 times, and yet Johnston, Leibold and Chapman failed to send me home.

"Now, I make this threat. I'll go on a hunger strike if Joe does not put me third on the batting order, just ahead of Joe Jackson and Lajole. I ain't going to be the goat of the league any more. Even my daughter turns me down and gives me the laugh."

golfers is contained in a statement by Rober C. Watson, president of the American Gold Association.

"I have the pleasure to announce a bit of news to the golfers that I am sure will be more than welcome," Mr. Watson says in his statement.

"The hockey served up was not of the championship class, neither team getting down to their proper gait. Although the Canadiens came out ahead, their play did not justify it, as their goaler, Vezina, stopped many more shots than Paddy Moran had to attend to. Quebec was certainly in hard luck, for many almost irre-sistible shots sent in by the side did not get past Vezina.

The Canadiens' defence showed up bet

ter than Quebec, as they were attacked with greater vigor and had to repulse Quebec's speedy forwards, aided by Mummery and Hall.

Diver Fails to Get Into Hull of Price

Another Futile Attempt to Look for Bodies-Weather Too Severe.

Port Huron, Mich., Dec. 31.-Captain Robert P. Thompson in command of the tug Sport, went out to the wreck of the steamer Charles S. Price today, but the water was too rough to accomplish anything. On board the tug was Henry Wrathells, a diver, and if there was an opportunity it was the intention of the diver to go below the water and make a search of the Price's hull.

It took Capt. Thompson some time to locate the wreck, as the two buoys which marked the resting place of the boat had he finally located the Price, an anchor was cast over the hull to steady the tug. The sea that was rolling made it impossible for the diver to go down, and one of the flukes of the tug's anchor was also broken. Soundings were made, and while the tug was rolling considerably at times, it was ascertained that there is the steamer and about 15 feet over the The boat is resting in the same position as she was weeks ago when the bow was above water. Captain Thompson and the diver have now given up hope of entering the hull of the Price to ascertain if any bodies are within the boat, until the weather conditions become more

This exceeds therecords of all previous years. Sheep receipts of 237,739 head in one week was another new record established during the year. Because of a shortage, calves reached the price of \$12 50 per cwt. This was the highest price paid for calves in Chicago market years. Heavy cattle did not sell as well as in 1912, because of a liberal marketing. Sheep receipts for the year also fell behind those of the previous year. The hog cholera alone showed an increase over This was caused by an epidemic of cholera in Iowa and Southern Illinois,

work. He was a man of singular ability and varied accomplishments.

He died, however, quite young. At the

time of his death he was a member of

the town council, representing the old

St. George's Ward, and having for his

colleagues John Carling and Wm. Barker. The address gave a good many particulars of London life in the

forties, the early work of the Mechan-

LATE LOCAL NEWS Oxford Street Family That Contracts Disease Quarantined-No Fear of Outbreak.

> The wife of Dexter M. Parker, 149 Oxford street, and her two children, Lois, aged 10, and Lester, aged nine, ed to the isolation hospital this afternoon suffering from smallpox. Another child, Mabel, aged 11, has re-covered from the disease, and is now at home with her father, the house being quarantined.

The cases were brought to the at-tention of the medical health officer, Dr. T. V. Hutchinson, on Tuesday, and he took immediate steps to have the isolation quarters put in shape for the Parker's case is fairly well developed,

"There is nothing serious about this little outbreak," said Dr. Hutchinson to The Advertiser today. "Smallpox is a mere nothing and we haven't had a death from it in 25 years. A couple of years ago there was a big row about vaccination, and a result there has been little or none of it sinca But in about eight years from now you'll see a wave of smallpox sweep over the whole country as a result."

SEARCHING FOR MOTHER

The London police and detective forces are today looking for a Mrs. A. Surrell, whose 17-year-old son is slowly dying in St. Mary's Hospital, Detroit, weakened by a complication of typhoid fever and spinal meningitis. The authorities state that the youth cannot live much longer.

The boy during the past week has muttered a dozen places where
