LANGUISH IN JAIL

Appear Before Chatham Magistrate on a Charge of Theft

[Special to The Advertiser.] Chatham, July 21.—Charged with stealing \$30, Joseph Stanley and Mrs. Elizabeth Darton appeared in police court yesterday. They are the runaway couple whom the police of Canada and the United States have been following ever since they left Chatham over a month ago. They were arrested in Cleveland, and afterwards in Windsor, and brought here for trial. The woman, becoming infatuated with Stanley, who was formerly a porter in the C. P. R. Hotel here, left her husband and little baby and eloped. Even the police court could not dampen their love. During their hearing they sat as close as possible to each other. Mrs. Darton is a rather striking brunette, and Stanley is a good-looking young man. She is the

wife of a Palmyra farmer. Both pleaded not guilty to the charge of stealing the money, and elected to be tried by Magistrate Houston. They will come up Monday. Meanwhile they are lodged in the county jail. Walter Mills, K.C., of Ridgetown, appeared for them.

THE WORLD'S COTTON SUPPLY.

Practically all the world's cotton erop is grown between the 40th degree of north latitude and the 20th degree of south latitude, and about two-thirds of the commercial crop is produced in the southern portion of the United States. It is true the production has extended elsewhere, notably to India and Russia, but Indian cotton, which comprises nearly 20 per cent of the world's mill supply, is not suited for either European or American requirements. and. aside from home use, goes largely to Japan. Meanwhile Great Britain continues the world's greatest cotton manufacturer, her imports of the raw material for the past three years being valued at \$845,423,922. It is this cotton that keeps the English mills running, and the incomparable Lancashire spinner busy, and enables the United Kingdom to export the product of British labor.

Seattle, Wash., July 21.-Orders for housands of barrels of flour are pouring into Puget Sound millers from the Orient, marking a revival of business that has been almost dead for several years. The orders have been ming in for two weeks, and already business has been booked for delivery aboard steamers sailing during July and August to keep the mills constantly busy at a time when they are ordinarily idle or undergoing summer overhauling. Local millers estimate that the July and August flow of shipments to china will aggregate a quar-

Police Find Gems Worth \$6,500 When They Take in Stately Widow.

Detroit, July 21.-Mrs. Anna Scholes, a stately widow of 40 years, was arrested last night by Detectives Lally and Ed. Fox, charged with being an accomplice in a sensational diamond robbery that occurred about ten days ago in St. Louis.

With her arrest the detectives recovered diamonds from a \$6,500 brooch, which is said to have been the article stolen. Joseph Lucas, an electrician, who is alleged to be the one who took the brooch, is in jail in St. Louis. It was through his confession that the woman is now in custody. According to the story received by the police here, the brooch was stolen from J. C. Jones, a prominent St. Louis attorney. Lucas was working

in the Jones residence, installing some wires. The brooch was in a safe in the house. The door was shut, but unlocked, and Lucas is supposed to have opened it and removed the brooch. Its loss was not discovered rested until last Monday. He denied everything at first, but Tuesday morning broke down. He admitted the theft and said he had given the property to Mrs. Scholes, and that she had come to Detroit as soon as she re-

ceived the jewels.

Previous to that he had secured a description of her from Wright, Kay Co., where she had gone to have the diamonds from the brooch reset. She told Detective Fox she had been in Detroit a week. She had stopped at a number of downtown hotels, never F. D. Monk has definitely thrown in his remaining longer than a night in

The stones had all been taking from their setting in the brooch, but they were all recovered. Of the diamonds there were 36, two of them being twocarat stones. These two the police Cartier should take so narrow-minded a did not secure, until she had had a conversation with Lucas, over longdistance telephone. The 34 small jewels were in the hands of the poice and when they asked for the other two she smilingly said she did not have them.

Hard To Get Big Stones. "You had better give them up," said Lieut. Lally, "for Lucas says you have them." She looked a trifle skeptical, so Lally said she had better talk to him. The connection was secured and she took the phone, but refused to believe that Lucas was on the other end.

"Talk of some private matter and see if it isn't," said Lally. He stepped back, the woman said several words in a low tone through the transmitter, received a reply and smiled. When the conversation was ended she took off her hat and extracted the two large diamonds from the lining. A number of pearls that were also set in the brooch were recovered with the smaller diamonds Mrs. Scholes is a tall, well-proportioned woman, with a dignified man-

Corporation Gives In After Six Years' Struggle Over Open Shop.

Cincinnati, Ohio, July 21.-Labor leaders are jubilant today over the Bucks Stove and Range Company vicory, declared to be the greatest triumph in the history of organized toilers. Even manufacturers employing non-union help look glum, and admit that the submission of the big St. Louis stove concern yesterday after sturdy fight of six years, is a body

plow to their interests

The victory for the labor union side is unequivocal. The Bucks Stove and Range Company flatly agrees to abandon its open-shop policy, and hereafter employ none but union men. This action is the more remarkable because instead of the American Federation of Labor winning its union fight by stages, beginning with its weakest enemies, it has won over the corporation that for years was the hope and admiration of open-shop manufacturers.

James W. Van Cleave, the head of the Bucks Stove Company, who died last May, was for six years the leader of the anti-union fight. Chloride of Lime Solution Will Remove Iron-Rust, Mildew, and Stains.

Add five pounds washing soda to one gallon cold water and put over fire. When boiling stir in one pound chloride of lime. Remove from fire and when cooled strain through a cloth, and cork up in a jug. Put ruststained, ink-stained or mildewed clothes in enough water to cover, with a cup of chipped soap and a pint of the washing fluid. Boil, stirring occasionally with clothes stick. If the stains do not disappear, add a very little more fluid. Do not use too strong, as it will eat into the clothes. Only white material should be treated by this method as flowered fabrics will be bleached white.

What do you think Dorothy got for a present on her fifth birthday a few weeks ago? Such a cunning little laundry set-a little tub and washboard. and the dearest little rack to hang her clothes on!

There never was such a busy little girl as Dorothy was for a few days Mary Jane and Esmeralda, Jack, the sailor boy, and her whole family dolls, were kept so clean.

But after she had done their clothes all over two or three times, she thought she would like some different things to wash. She wanted to do something useful-something to help mamma.

One day when her mamma had gone down town, she decided to surprise her. knew the very thing to wash. HOT PEPPER POT.

Hot pepper pot is a famous New Orleans dish of vea!. A knuckle of veal is cooked until the meat is ready to drop from the bones; then the meat is removed and cut fine, and added to tripe which has been cooked and cut into small pieces. Then the meat is put back into the broth in which it was cooked, together with a minced onion, two diced potatoes, a sweet red pepper cut in shreds, a sprig of parsley, and a bouquet of herbs. When the pot boils up it is still further seasoned with salt, pepper, and paprika.

FASHIONS

Simplicity of style is the keynote of fashion this summer, but what is lacking in elaboration is made up in color and variety of material.

It is smart to have the hat, parasol, pumps and fan match in material and show similar touches of embroidery.

Wide Hercules braid is coming back into favor as a trimming. It is used as bands on the skirt and trims revers, collars, cuffs and pocket flaps.

The waist line slightly above the normal is favored for evening costumes, but the normal waist line is used for street and formal wear.

At one point we drove again close to the water, but high above it, and there a fine view of the castle, which was our destination, could be had.

It stood boldly on the edge of the bluff, which made down almost sheer to the water below. Wide terraces surrounded by balustrades led about the castle, and on the lake side were built to the very and interest was naturally aroused, and at my urging Karl told me much of Heinrich and his deeds. The telling fascinated me. I learned of tricks he had turned for Zergald, full of boldness, but lined with deep cunning, and I made up my mind we had him to thank for loss of the documents. Passibly if the words my mind we had him to thank for loss of the documents. Possibly, if this were the case, the woman would report to him, and he would be the one to whom the documents would go first. However that might be, our present plan would stop them reaching any one. Zergald had not counted on Karl's knowing who had the envelope from him; thus his plan stood liable to fall.

I so figured out the matter, and figured correctly, too, had not another stepped in and by his scheme and plan, for personal gain, upset our plans. But of that we by balustrades led about the castle, and on the lake side were built to the very edge of the rocks. From the back one could look straight down a hundred feet or over to the lake.

On the sides the terraces led to the gardens, while on the front the massive oaks made in close and the park of trees ran back to the road a good half mile. We paused to view the castle, standing so boldly, for a moment only and then drove on.

Big Frenchman Has Been Unable

Meet Yank Star's Offerings, New York Globe: When Larry Lajoie, the second-sacker of the Cleveland club, comes up to the bat, there is a buzzing sound goes through the stands which says: 'Watch this big fellow hit." All season the big French man has been poling all kinds of hits against all kinds of pitchers. In looking over what Larry has accomplished it's interesting to note that the leader in the American League race for the batting honors is having the most trouble with Rus Ford, the rising intleman of the pitching world. Ford has pitched three games against the Cleveland club, and Larry did not get a hit. Any time that you say Larry id not get a hit, there is generally a

COWANS EVEN UP WITH M'CLARYS IN POST SERIES

Second Game of Deciding Round in the Commercial League Played at Springbank Last Night,

Cowans defeated McClarys in the second game of the final series at Springbank last night by 4 to 3. It was a close, exciting contest. Cowans got to Pirie in the first inning for four bingles and three runs, but after that they failed to score till the last round, when Baker sent a nice one over second base, scoring Orrand winning the game for Cowans.

The feature was Baker's running catch of O. Pirie's drive to centre field. It was a sensational play, and saved the game for Cowans. Rossiter also helped to save the game by making a good catch when a fluke would have tied the score.

Philadelphia Takes Third Straight From Former Champions.

Philadelphia, July 20.-Philadelphia won Philadelphia, July 20.—Philadelphia won its third straight game from Chicago today, 2 to 0. Coombs kept Chicago's hits scattered, while both of the home team's runs were due to bases on balls. In the second inning Scott gave three bases on balls in succession, and Young, who succeeded him, forced in a runner with another base on balls. Score:

which fell today. One and all termed it "glorious," and they are most optinistic as regards harvests. "Since the close of the dry spell," said one farmer, "the rain has been coming just right for us. Not too much nor too little.

"The showers which have fallen since that time have put the crops in excellent condition." Wheat and barley will not derive great benefit from today's rain, as they are now thoroughly ripened and harvested in some cases. These two crops did not need the rain, however, as they are the best in years.

Oats, potatoes and root crops will

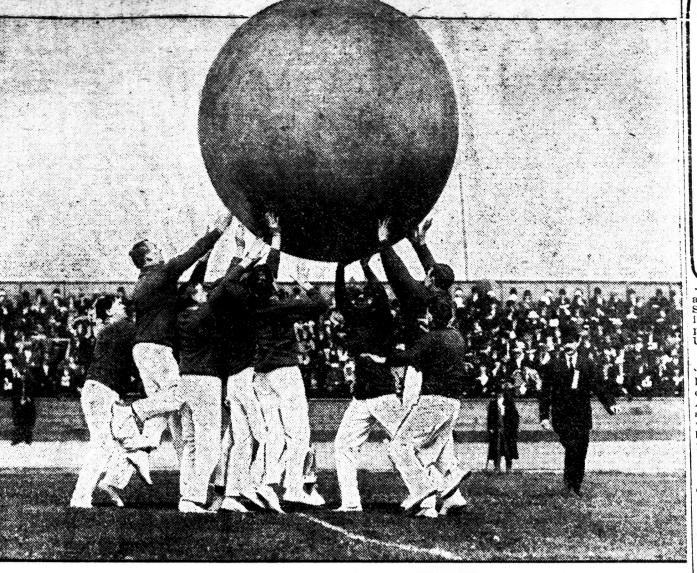

be benefited to a great extent.

BOTH CLAIM VICTORY

Toronto, July 20 .- S. M. Berry, vice-president of the trainmen, says: "The company's troubles will begin when it attempts to move freights.

"There is no doubt as to what the ultimate result of the strike will be. I have learned that the line is completely tied up in the west. The roads are tied up tight. The company is beaten to a frazzle.

"I have been paying close attention to the condition of the railroad service for many years, and I have come to the conclusion that the G. T. R. would never treat their men fairly unless they had to."

"The men are more solid and determined than yesterday," said Chairman Todd, of the striking G. T. R. employees' committee. "We have been receiving reports from all ports of the system, and I am convinced that the whole body of men are unwavering in their loyalty to their obligations. There are, of course, one or two exceptions."

There is no question about it, the men are beaten," said W. G. Brownlee, general master of transportation, today. "In a few days freight as well as passenger trains will be running as usual."

MIDNIGHT CALL TO THANK PREMIER

Polish Settlement Sends a Delegation to Sir Wilfrid.

THE TARIFF REDUCTION

Tells Yokton Audience That It Will Be Reduced From Time to Time.

Yorkton, Sask., July 20 .- Sir Wilfrid Laurier today addressed the most cosmopolitan gathering of his tour. In addition to a flood of Canadians and settlers of British and American origin, which filed through the curling rink, there were Scandinavians, Germans, French, Italians, Poles, Aus-Armenians, Jews, Doukhobors and Galicians — men, women and children — all of whom gave the Premier a great greeting. The philanthropists in charge of Victoria Hospital observed "tag day," the Premier, Minister of Railways and party being early decorated by the enterprising young ladies.

Visits Wheat Fields. In the morning Sir Wilfrid was driven out into the country, where he waded waist deep in great fields of ripening wheat and oats. The crops he was told. In the afternoon he wa driven around Yorkton, escorted by the Royal Northwest Mounted Police under Major Jarvis, a former Torentonian, and a corps of mounted naval cadets. The streets were decorated elaborately, and magnificent arches of wheat spanned the thoroughfares. Major J. M. Clarke and ciation memorialized the Premier for Government-owned terminal elevators, about all parts of the station studying early construction of the Hudson's Bay Railway. The Premier promised

a response at the meeting. Shortly after midnight there was an earnest knocking at the door of Sir Wilfrid's car. The porter found a quiet, respectably dressed farmer. was difficult to understand his broken

language. "Me message Mr. Laurier," was all the attendant could get out of him.
The Premier had retired after a
busy day, and Hon. Geo. P. Graham was awakened. The minister interviewed the visitor and received a letter to the Premier written in Polish. He urged the anxiously awaiting and earnest caller to interpret as well as he could. Under Mr. Graham's courteous hospitality the big Pole struggled with the English language. Pointing to the missive, he said:

"Me message for Mister Laurier, Polish people meet and sign him. We tell him we whole soul for Canada We same as he say: make Canada big, good. Tell Mister Laurier Poles well satisfied" He gave the name of Kieger, but

A Barn Belonging to Mr. Philip Murphy Destroyed Last Night.

A fire in a barn belonging to Mr. Philip Murphy, Second street, Pottersburg, caused about \$400 damage last night. The cause is attributed to new hay which had just recently been put in the barn. The blaze was dis-covered about 11 o'clock. The barn stands close to the house, and it was with difficulty that the bucket brigade prevented the fire from spreading to the house. The hay and a number of

Lord Northcliffe On Seasickness

Gentlemen,-Your letter of the 14th of September reached me on my return to England from a journey to Newfoundland and back, during which I have seen and heard abundant evidence of the fact that Mothersill's Seasick Remedy appears to be, in nineteen cases out of twenty, an absolute cure for mal-de-mer, and also for what Americans call "Car-sickness."

I have taken it on many occasions, with
excellent effect, and no after-effect. You are quite at liberty to make use of this etter, as I think it a duty to express my opinion on the subject. Yours truly, NORTHCLIFFE.

A GRAND DAY AT THE LAKESIDE

Churches Held Ideal Outings at Port Stanley on Wednesday.

SOME EXCELLENT SPORTS

Empress Avenue Methodist, Knox Church, the Christian Workers and Salvation Army Were There.

Yesterday was another big day at Port Stanley. There were three picnics from London, and one from Woodstock, but in no case was the number taken down very large. A special Pere Marquette train carried down about 120 members of three adult classes of the Empress Avenue Methodist Sunday School. The picnickers left London at 1:10 and spent a most pleasant day by the lake. The sport programme was made up almost entirely of water sports. Some of the events were exceedingly novel. In the 50-yard water race the competitors were stationed 50 yards out in the lake, and told to "beat it" for shore. Needless to say, it was no easy matter to make headway in several feet of water and some of the attempts at speed were ludicrous.

The combination race was a mixed reach the shore gaining the laurels. on the water.

A game of baseball between two picked teams was a feature of the afternoon. Supper was served in the pavilion by the ladies. The return trip was made at 8:35.

Knox Church Outing. The biggest picnic on the grounds was that of Knox Church Sunday School, Woodstock, Fully 450 went down from the Baby City by five special cars. It was found necessary to cancel the sport programme owing to ing the council to issue debentures to the fact that the spot for this purities amount of \$7,500 for the purchase pose was being used by another picnic A lake trip on the Forest City was substituted, and proved a most enicvable substitute, except for the fact that the roughness of the lake made a few of the picnickers sick. Supper was served at 5:30, and the return trin to Woodstock was made at 7 o'clock.
