The conference was begun i Downing street at ten o'clock this morning. The British ministers at morning. The British ministers at the meeting were Prime Minister Bon ar Law, Lord urzon, secretary for foreign affairs, and the Earl of Derby secretary for war with the Frenc cabinet represented by M. Letrocquer minister of public works.

It is understood, as the conference started, that the French request for additional transport facilities through the British zone was being received sympathetically. The British main-tain that the French have little need or more railway lines to handle coal shipments to France, but it is realized that the French have a problem equally serious in the transporting of

supplies from France into the occu-pied territory.

The question may be settled temporarily by the transfer of a six mile section of the British zone containing souble track railway line, to the

Associated Press Despatch.

New York, Feb. 15.—A permanent embargo on coal shipments into Canada was urged yesterday by Representative J. J. Rogers of Massachusetts and opposed by Charles A. Magrath of Ottawa, Chairman of the International Joint Commission at the Interstate Commerce Commission hearing into the embargo question and coal distribution problems.

Canada, Mr. Rogers said, had plenty of coal for its needs in 1922 and has more this year because of and has more this year because of heavy shipments from Pennsylvania.

Mr. Magrath contended that Canada, in proportion to its population, is exporting more coal into the United States than she is importing from it.

He declared that he did not believe

Fulfilled Terms. "We have lived up to the terms of he agreement we made at the Philadelphia conference last year with rep-resentatives of the federal and Penn-sylvania fuel administrations," he declared. "We expected we would be

reated as formerly.

"It is true that the United States has been shipping more than 4,000-000 tons of anthracite annually into Canada, and that Central Canada has been drawing heavily upon the United States for its bituminous supply. We pay betwen \$50,000,000 and \$140,000,000 to the United States

"During the years 1919, 1920 and 1921 the average annual tonnage of coal, both anthracite and bituminous, exported from the United States was 19,633,933 short tons. But we sent back 2,105,183 tons of our coal, and ve are one-twelfth your size.

Would Be Unjust. "During the current year up to January 15, we exported 1,184,904 tons, or about one-seventh of the American production. We have used substitutes as much and as well as we our power to live up to the agreements

Mr. Magrath declared that Canada did not welcome the idea of an embargo, and had no official intention of changing the source of its anthracite supply from the United States. Southern Church Holds Annual Meeting, Reporting Progress.

The congregation was well represented at the annual meeting of the Southern Congregational Church held Wednesday evening in the Sunday school room which was prettily decorated for the occasion of St. Valentine's Day. The pastor, Rev. H. B. Storey, was

in the chair and in his brief address spoke of the value of a church united in all its activities for the kingdom of God. Reports of the various societies were given and in each case much progress was noted.

Reference was made to the growing

interest of the people of the community in the church and to the large attendance at Sunday services. A decision was reached to rais one thousand dollars this year for church improvements the re-decorating of the hurch auditorium to be commenced at once.

The church renovation fund was

organized, Dr. H. D. Taylor being appointed treasurer. The church so-icties pledged their support and a canvas of the congregation will also be made shortly.

A pleasing incident of the evening was the presentation of a beautiful umbrella to L. R. Anderson for his

efficient services as secretary. The presentation was made by Bert Wherry and Dr. Taylor read an address of appreciation. The following board of managers was re-elected: W. Powell J. Bacon,

Rev. J. F. Reycraft, of the First Methodist Church in his address of "Father and Son Relationship," stated that if all the fathers in Canada would realize that their greatest resaw. From this sponsibility in life was to direct their the sons aright, and to show a kindly insimple gearing of terest in all their activities, it would machine is be a great forward step in the building up of our country. To the boys, Mr. Reycraft said that the one thought he wanted to leave with them was "that they should

play fair with dad." He pointed out that it was impossible for a father to train his boy without the assistance of others, and cited a case of a Methodist minister tho made up his mind that his boy would receive all his training from is own dad. This young chap went through college and received one or two degrees but apart from his academic training he failed utterly, and when the time came and he had to shift for himself he was entirely unable to cope with the great issues of life. OF COAL EMBARGO

J. B. Campbell Endeavoring To Secure Details of Shipments to Canada.

Special to The Advertiser. New York, Feb. 15.-New York and New England fuel administrators and railway men will carry their fight for an embargo on coal shipments to Canada direct to congress, according to indications today.

Despite the fact that President Harding has expressed himself as against any such action, the question will be threshed out at the hearing before J. B. Campbell, inter-state commerce commissioner, who is en-deavoring to get at the details of the coal shipments to the United States and Canada. With the preliminaries completed, and the groundwork for a thorough investigation of distri-bution well established, the delegates begun work on a system for supply-ing fuel to the heatless sections of New York and New England. Representatives John J. Rogers of Massachusetts led the forces in

favor of an embargo, while Pennsylvania delegates fought for continued Canadian shipments. Rogers contended that, especially in the face of several embargoes which Canada has at different times placed on the United States, this country should not subject its citizens to useless suffering, when it actually has sufficient coal to sup-ply their needs. The shipments to Canada, which for the years have averaged 4,000,000 tons annually, would greatly relieve situation, if diverted to Upper York and New England. A

# When you buy your next corset

THERE are two ways to save your corset dollars. L One is to buy an article of a cheaper grade; the other and better way is to buy a substantial article that will wear longer and need not be replaced so quickly. Nemo Corsets are decidedly in the latter class. Once a woman has experienced the comfort and economy of wearing a Nemo, she rarely changes to any other make.

Each of the three basic Nemo styles illustrated at the right has a distinct hygienic function and is designed for a distinct type of figure. Each style is made in a number of different models and many sizes. Thus, no matter how much difficulty you may have had in securing the right corset, you can be fitted in a Nemo Corset which will meet your exact individual requirements.

When you buy your next corset, ask to have the proper Nemo model correctly adjusted to your figure. Its superior features will be at once evident to you. And, as you wear it week after week-you will be more than delighted with the improvement it has made in your general health and appearance.

Many Troubles May Be Avoided If the Blood Is Kept Pure.

Do not let your blood get thin this winter. For people who have a tendency towards anaemia or bloodlessness, winter is a trying season. Lack of exercise, lack of fresh air, and a more restricted diet are among the things that combine to lower the tone of the body and weaken the blood.

Scrappy Game Departs From Hockey Rules in Third Period.

Special to The Advertiser. Wiarton, Feb. 14.-Wiarton Redmen go to Stratford with a two-goal lead in the third round of the intermediate O.H.A., having defeated the Stratford Indians by 4 to 2 in the best hockey game seen here this winter. The Redmen led throughout the game, Dad Ashley scoring the first goal on a pass from Miers in 20 seconds of play. The locals were not customed to the strict refereeing that Lou Marsh handed out, and as a result drew many penalties for minor fouls in the first period. It was while Miers, F. Gildner and N. Stratford was going condition they had gained in the games in the "big four" group, and used their substitutes but seldom. Wiarton was able to travel at great speed through frequent use of their substitutes. Wiarton supporters are firmly convinced that the Redmen will be able to hold their lead as they are a good round team. #### WOODSTOCK MUCH BETTER. Special to The Advertiser.

Woodstock, Feb. 14.-Woodstock intermediates put Brantford out of the O. H. A. running in a fast strenuous game here to night, winning by a score of 6-1, and copping the round special train full of confidence and they swelled the near-capacity crowd that swarmed into the arena The locals sailed in and stuck in four goals in the first period, settling down thereafter to garner one in each of the remaining spasms. The first period was clean and lightning fast, but in the second the teams began to rough it, and in the third period it was one continuous session of vicious body-checking and cross-checking with not much real hockey exhibited. The red and white were never threatened, and they are now set to enter the fourth round of the O. H. A. semi-finals.

Chilton Childs, the Woodstock goaler, splayed his most wonderful game this season, and that is saying volumes. Whenever the Brants did get in on him, he was there to stop them, and for 55 minutes he held the visitors scoreless, Freeman getting full time. Carson played hockey, get ting three of Woodstock's goals, King, Garvey, and all the rest of the boys, did great work. For the visitors, Haas and Freeman were easily

Two minutes after the game opened, Woodstock scored, Carson going down to beat Summerhayes on a waist-high shot. Play see-sawed for 11 minutes, then Carson and King went down, Carson taking King's perfect pass at the goal mouth for number two. In fourteen minutes Parker hooked the puck from Balkwell just as he was starting a rush and went right in on Summerhayes, who had no chance to prevent the score. A minute later, King and Douglas combined, King drilling in Douglas' pass from four feet out. In the second period Brantford forced things, and with Woodstock content to play a defensive game and not extend themselves, the visitors showed an edge in spots.

Two minutes before the frame end-

ed, the locals let loose again and Carson took Douglas' pass to make it five. As has been said, the third period was of the rough and tumble variety. Baird of Brantford, who showed a disposition to mix things found plenty of takers, and the checking and bodying was hard and heavy. A slight sensation occurred when a Brantford rooter reached over the pards and punched Garvey, the local defenceman in the face as he and a Brantford player crashed into the boards. The crowd started to get on the ice, but the uproar was speedily elled and the game went on. Freeman saved his team from a goose egg, when he wormed through a hole

in the defence to score from a foot out. Garvey came back, and with 30 seconds of the game left, he went through alone and scored number The line-up:

The Lorne avenue crew are not at all downhearted, however, and say they will have no trouble in overcoming a four-point lead in the final contest.

Yesterday's set-to was largely an exhibition of long shooting, with Mills of Boyle and Haidane of Lorne the principal parabolo makers.

Mills rang in the first tally for the winners two minutes after play started, and Reynolds got their second in another two minutes with a long shot from the side.

Each team worked hard in the opening period, but both were relying too much upon individual rushes and long shots. Play centered largely in the losers' territory, and Black, their goalle was stopping hot ones from all sides.

Jim Mills, Boyle captain, was the outstanding star of the game, and in the middle of the first period brought every rooter in the rink to his toes when he skated through the entire opposing team and sent in Boyle's third counter from Territorial Rights Involved

# AS IDEA IS ANALYZED

Make Its Launching Seem Impossible.

By JOHN B. FOSTER. Copyright.

New York, Feb 14.—It was perhaps only natural that the prime topic of the cossips in these parts today was that umor that a new minor league might estarted. Let it be said right at the tart that it was contracted. be started. Let it be said right at the start that it was only a rumor without any confirmation that could be found anywhere where baseball men gath-

anywhere where baseball men gathered.

Of course, they'll tell you that most any old thing is possible, but nevertheless and notwithstanding here is the situation on that new league rumor.

Establishment of such a new league under the rules of baseball would require not only the approval and sanction of the American League—for American League territory would be invaded—but also it would require sanction from the International League, for be it remembered that the International League is part and parcel of organized baseball.

Under any other conditions establishment of such a league would mean war, and the very folks who would like, for so-called disciplinary reasons to see the International League suffer for the stand it took Monday, will hasten to admit that war is unthinkable.

So that much for that.

CITY CHAMPIONSHIPS

New Competition Starts Out
With Rush—Much Interest
Shown by Clubs.

Eleven rinks, picked from the best of the curling club talent in London and piloted by some of the best skips the city boasts, start off Friday morning at 9 o'clock sharp at the Thistle Club in the city championships. This is the maiden voyage of a new competition in London curling circles, which it is hoped to make an annual event.

The start is a promising one, and the competition is sure to prove a popular one. It brings to the winter programs some of the club competitive spirit, and should develop healthy rivalry.

Punctuality is one of the requests of the committee, of which F. N. Allen, Thistles, is chairman. The games will be 12-end affairs, with 14 ends for the finals in two events.

London's hockey spirit is pretty well beyond hope of resuscitation, if iewed from the ice accommodation and past O. H. A. season angles, but he spirit displayed by supporters of the two public school teams, Boyle Territorial Rights Involved and Lorne, yesterday as they mingled after the game on an east-bound car rather gives the lie to surface appearances. Some of the young supporters were incoherent over the game; some on the dangerous and humiliating verge of tears. Probably when they grow up they'll be able to play their game in an up-to-date arena. Maybe.

> The Chicago bootleg sales will probably be reported as having fallen off during the dizzy six-day bike grind.

Public opinion is swinging back in favor of Willard getting another chance. Corbett, Fitzsimmons, Ketchell, Nelson and Gans all had their second chances. Ketchell was the only one that demonstrated that he wasn't through. Some argue that the only way for Willard to realize that he is through is to give him a chance to sprawl over a large portion of canvas again. Willard, if he doesn't get his chance, will probably go to his grave soured individual because he'd always believe that he could have come back. And if 100,000 fans, at an average of seven berries a throw, are philanthropically enough inclined to prevent such a sordid ending to the former champ's life, there doesn't seem to be any real reason why the rest of the public shouldn't let them.

When Joe Gans got his return match with Battling Nelson after being knocked out by the "Durable Dane" and losing the lightweight title, the colored fighter had no hallucinations about his own fighting ability. He had contracted tuberculosis and he knew it, but he also figured that, sick as he was, he could keep Nelson away from him for twenty rounds.

The defeat had been unexpected by Gans, and many of his followers had lost money betting on the negro. With the return match arranged, Gans told all of his followers to bet that he would last twenty rounds. "I am all in and can't whip Nelson," he said. "But I can last twenty rounds with him, and you can all win your money back."

Gans did not train for this return bout. Any exertion would have exhausted him. He simply went through the motions of training, and again he faced Nelson for the last time. He kept his word. He lasted the twenty rounds, and then came out to collapse in the twenty-first. It was just the shadow of Gans fighting in that bout, but even that shadow was formidable enough to keep Nelson, in his prime, at bay for the time that Gans promised This was one return match which was utterly hopeless, but at the same

Kitchener, Feb. 14.—Announcement was made today by the executive of the local senior hockey association to the effect that the appreciation fund for "Snoozer" Trushinski, who is likely to lose his eyesight as a result of his last hockey accident, is being boosted in all Ontario circles. The International League passed a resolution that it would not take play-position that it would not take play-position league. Knotty Lee, the business manager of the Leafs, laughlooked the resolution over and reversed it by saying that the International would take the compulsory draft or get no players, and there they stand, just like two beetles fighting over a dead ant, with the American League still to be heard from. The latter organization will unlimber its oratorical howitzers next Monday at Philadelphia.

The players have little to worry about for the moment, for the issue is not going to reach the exploding point before June 15. The majors can cling to forty players each up to that time, and by then everybody may have had a seperiences that will serve to bury the winter animosity.

Toronto, Feb. 14.—A communication received today by Vice-President W. A. Both games played by these teams resulted in a tie 2-2 at St. Marys, and 4-4 at Woodstock. Indications point to a large attendance at the game.

While no decision has been announced, attention has been drawn to the fact that the local O H. A. juniors are eligible to compete for the Rounds trophy. This series is open to group winners, and there are many local fans who doubtless would like to see the homesters in action again, especially in view of the fact that they were ousted by Clinton by only a one-goal margin.

## JEWTRAW BREAKS MARK **BUT TRAILS ON POINTS**

ternoon, when Charles Jewtraw of Lake Placid clipped one-fifth of a second off the mark set up for the 220 yards by Joe Moore of New York earlier in the season. Jewtraw's performance, although the most spectacular of the day, did not net him as many points as those earned by Harry Kasky of Chicago, who by winning the three-quarter mile in a driving finish and taking third place in the 220, garnered forty points to the Lake Placid star's thirty. Charles Gorman, St. John, also earned thirty points by finishing second in the 220 and third in the three-quarter mile.

Miss Gladys Robinson of Toronto won the 440 yards ladies' race in 48 seconds with Rose Johnston of Chi

Asked if baseball men in any of the other cities mentioned in the proposed loop were taking any action, Mr. Dawson stated that he did not think so. This means Sarnia will be thrown back on city league and independent baseball next year, though there is a growing interest in the idea of getting a franchise in the Western Ontario baseball series next year, the only thing standing in the way being the out of the way location of this city from the closest team in that series.

# ARREST IRREGULARS

Encircling Movement Over 25 Miles Square Begins in County Cavan.

DE VALERA REPLIES Accepts Proposals of President long confinement in the state house Cosgrave To Cease Fighting.

Associated Press Despatch Dublin, Feb. 15 .- The concentration

of Free State troops around a district of about 25 square miles in the Arigna Mountains, County Cavan, which Irregular bands have converted into a stronghold, is now complete, and an advance was begun today on all sides, the Free State columns being everywhere greeted enthusiastically by the inhabitants.

Already many arrests have been made, and escape of the rebels within the district is declared to be impossible, as all the roads in Leitrim and neighboring counties are held by Free State guards. No news confirmatory of the re-port of heavy firing in that district has been received here.

## OF FT. NORMAN DRILLING

Special to The Advertiser.

Edmonton, Alta., Feb. 15.—F. H.
Stover, of Chatham, Ontario, who has been in charge of the drilling operations of the Fort Norman Oil Company for the past two years, is in the city and is looking into the arrangements necessary for the 1923 program of his company in the north. He is also interested in the Mackenzle River Oil Company, of which C. Miller, Toronto, president of the Alberta and Arctic Transportation Company, is the head.

The Fort Norman Company began work on an oil well prospect on the Mackenzie north of the Imperial Oil Company's Discovery well in the summer of 1921, reaching a depth of 1,500 feet before operations were discontinued. Last year's work carried on the drilling at the same site and some important geological survey work was also done. The results were regarded as highly promising of a good strike of oil yet being made in the far north.

WALL STREET

New York, Feb. 15. — Noon. The rapidity of the advance in most sections of the list during the morning indicated that the supply of stocks for sale at current prices was small. Industrials were again the speculative favorites, but ralls also moved to higher ground, though at a slower pace. N. Y. Central and Great North. pfd., being the leader of that group. American Can, was again the individual feature, touching 99¼, a new top and five points above last night's close. Heavy accumulation also was apparent in the copper, steel, equipment and oil shares, but sugar issues continued reactionary in reflection of the chaotic condition of the market for Cuba raw futures and the refined product. ## WEATHER CONDITIONS PROVE BIG OBSTACLE

Country Roads Are Impassable and Threatened Shortage of Supplies Imminent.

The decidedly unfavorable weather of the past few days has certainly made everything look quiet on the market

The only dealers coming in this morning were three market gardeners from the Springbank district, and after look ing around the barren square a few minutes they each decided to dispose of their wares by the store-to-store method. Owing to the inability of farmers to reach the city on account of the storm, it is impossible to gather

of the storm, it is impossible to gather any definite information as to the condition of the roads, but from the meagre reports received it is thought that they are absolutely impassable. The London, Huron and Bruce is badly drifted with snow, and it is felt that this condition is general in every direction.

The effect of this is being felt in the absence of supplies. Butter seems to be due for an upward trend in prices, one local dealer predicting that before the end of the week 50c per pound will be quoted for creamery. At present the prices are 45c and 47c, and there is a great scarcity.

Eggs are steady in price at 55c retail, and unless conditions improve they are also likely to advance in the near future.

Green stuff prices are also firm, but

is a great scarcity.

Eggs are steady in price at 55c retail, and unless conditions improve they are also likely to advance in the near future.

Green stuff prices are also firm, but no advance has as yet taken place.

The prospects for Saturday's market are not brilliant at this time. Not since last week has the supply of foodstuffs been up to the average, and if there is not a great chappe in weather contained.

On the bulges in price, however, profittaking sales became larger and brought taking sales became larger an

Canadian Press Despatch.

Toronto, Feb. 15.—On the petition of creditors Mr. Justice Middleton has made an order winding up the National Fruit and Wine Company, Limited, of this city, and appointing G. T. Clarkson authorized trustee.

R. C. Levesconte, for the company, pointed out that the bulk of the claims against the company did not come due until next October. If the wine in process of manufacture was allowed to mature the company would have a good chance of getting on its feet again. If it was sold before being allowed to mature the business would be killed.

**MEXICANS WILL FIRE** ON UNIDENTIFIED PLANE

Officials Believe Dope and Liquor Is Being Taken Over Border.

Special to The Advertiser.

Mexico City, Feb. 15.—Rifles or machine guns will be used to prevent aeroplanes from crossing the Mexican border if necessary. The Mexican government made this announcement when it became known that a phantom plane was operating nightly between Eagle Pass, Texas, and Piedras Negras.

Galt, Feb. 15 .- The Preston Club as been reorganized for 1923, with treasurer.

Maritime Telegraph and Telephone Co. Common Stock

This company owns or controls through subsidiary companies and operates without competition the telephone business in the provinces of Nova Scotia and Prince Edward Island.

It operates under the jurisdiction of the Nova Scotia Board of Commissioners of Public Utilities. Under this control, the company is permitted to earn, after operating expenses and maintenance, more than sufficient to pay its fixed charges and dividend requirements.

Dividends at the rate of 6 per cent were inaugurated on this stock in September, 1913, and were continued without interruption throughout the difficult war and reconstruction periods.

Since organization, the company has grown steadily and consistently, total assets having increased from \$3,400,000 in 1912 to over \$7,000,000 in 1922. The Bell Telephone Company of Canada owns a large interest in this company.

> Price, \$8.00 per share. Dividend, 6 per cent. Yield 71/2 per cent.

# Better than 8% on your money

That is precisely what you will get if you invest in the Class "A" Preferred Shares of Dominion Stores, Limited. The earnings of this Company have been and are not only sufficient to pay the 8% Preferred Dividends, but they are also paying a dividend of \$1.00 per share on the Common Stock, which is now given away as a Bonus.

So you see when we tell you that you will get better than 8% on your money, we are telling you something that is based upon present fact, not upon hopes or prospects.

Dominion Stores has made a wor success. Its earnings have trebled in three years. Its assets are over \$200 for every

\$100 Preferred Share outstanding. There are no Bonds ahead of these Shares. and none are contemplated. They are the premier security of the Company.

We consider that the Common Stock Bonus alone holds out remarkably bright prospects for increased dividends, because the purpose of the present financing is to open up new Stores and so increase earnings in the same splendid proportion.

We went fully into the affairs of this Company before purchasing its securities. We found it to be in a most excellent financial position. It should be capable of maintaining dividends on its Preferred Shares at all times, and we anticipate that it should earn eventually even greater dividends upon its Common Stock.

If you have funds for investment, we recommend these Shares to you with every degree of confidence.

Send in an order for them now to one of the undersigned, or write for complete prospectus

# Enuresis (Bed-Wetting) and Enuresol Tablets

Incontinence of urine in adults, commonly known as bed-wetting in children is more common in boys than in girls. Incontinence or bed-wetting has been considered incurable when it persists beyond maturity. Incontinence of urine is more common in women than in men. Constant or very frequent urination, day or night indicates some abnormal condition or disease.

Enuresis may be caused by paralysis, the secretion of a large amount of urine, as in diabetes, calculus (gravel), cystitis, irritation of the penis, worms, unduly sound sleep, dreams or gastric disturbances.

It is claimed by many people that bed-wetting will be outgrown. This is true to a certain extent; bed-wetting may stop, but the cause remains. ENURESOL TABLETS removes the cause of which bed-wetting is only a symptom.

This theory has been proven correct by the uniformly good results obtained with ENURESOL TABLETS in young and old, as the following typical cases from our records show, names of which will be furnished

R. D., Minnesota: Girl, age 14 years, had always been a bed-wetter, although apparently well otherwise. Her parents tried many treatments, medical and mechanical, without benefits. Seven weeks after beginning to use ENURESOL TABLETS she stopped wetting the bed, but continued the treatment six week longer and she has had no return of the trouble since.

R. G. Wayne, Michigan: Boy, 11 years. Three years ago his mother ordered four boxes of ENURESOL TABLETS and four months later reported the boy had not wet the bed for six weeks, and since reports the trouble has not returned.

Mrs. W., Milwaukee, Wis.: Age 44 years, had never had a full night's sleep, having to get up four to eight times a night. Visited Hot Springs, mud baths, sanitariums, and was operated on twice in two different hospitals without benefit. Six weeks of ENURESOL cured her completely three years ago and has had no return of the troublesome nulsance.

F. J., Minnesota, 75 years old, is no less interesting. For over 25 years F. J. suffered with incontinence of urine, day and night. As he grew older the trouble increased, having to pass water every half hour or oftener. Had a stroke of paralysis which increased the trouble to such an extent that only a few drops of bloody urine could be voided with intense pain, causing surgeons to suspect cancer of the bladder. Being placed on ENURESOL at the dose of two tablets every two hours with a glass of cool water or milk, the tenesmus disappeared in twelve hours and had a good restful sleep the next night, and fully recovered perfect last report was still alive and well.

It is important to regulate the diet, and overeating, coffee, and acid foods should be used sparingly.

ENURESOL TABLETS are absolutely safe and harmless, being a tonic for the kidneys, bladder and nervous system. It is dependable for weak, nervous, restless, slow-growing, languid children. A fair trial of ENURESOL TABLETS will convince you of their value.

Several players warned him, but he merely laughed. That afternoon on the field he was overcome by the intense heat. For a moment he staggered and then collapsed, unconscious. He had to be taken to a hospital and was in a serious condition. It is customary on ball clubs to allow the players so much a day for their meals and they may eat where they please, though we encourage them to eat at the hotel where we are stopping as a rule. At the time I have in mind the allowance was one dollar a meal or three dollars a day. Raymond had been in his room-or somewhere-for three days and had not eaten. It was our last day in that city and he figured that he would have to use up all his allowance. So he went down to the dining room the last morning and ate a breakfast that cost him nine dollars! Bernhardt Brewery and Canadian Wagon Company Factory Fall Prey To Flames.

SUFFER \$25,000 LOSS

Two Firemen Hurt While Battling Fire in Worst Blizzard in Years.

Special to The Advertiser. Galt, Feb. 15 .- While one of the worst blizzards that has visited this district in years raged today, a \$25,000 fire occurred in the town of Preston, completely gutting the old Bernhardt Brewery and destroying the plant of the Canadian Wagon and Novelty Company, owned by John and William Werlich. It was estimated that the wind was traveling at a velocity of 25 to 30 miles an hour, and the brewery being on the bank of the

river was in the path of the gale.

The fire was discovered at not and within a short time the building was ablaze, and being fanned by the wind it was impossible to check it, and after several hours of herculean ting it under control and saved nearby buildings, including an ice-house containing 600 tons of ice. The firemen were of the opinion that the fire

started in the boiler house.

The damage to the building owned by Peter Bernhardt was estimated at \$12,000, while the Werlich's placed their loss at \$13,000, partly covered by insurance. Two of the firemen were injured, Wallace Near having an eye burned, while William Tilt was struck by a piece of falling debris. After receiving medical attention they returned to work. During the hours that they were engaged battling the flames the firemen were refreshed with coffee provided by residents living nearby.

#### Fought in Fenian Raid.

Mr. Sare was at that time a sergeant in the 53rd Shropshire Regiment, stationed at Quebec, a unit which was ordered to Canada from

reland to quell the Fenian raids. Interviewed by The Advertiser recently, he vividly recalled his first impressions of Canada and the joy experienced by himself and comrades at the new dominion as compared to conditions in Ireland. The district in the Emerald Isle in which his regi-ment had been stationed was de-scribed as "a hotbed of Fenianism" by Mr. Sare, who related details of the fighting at Waterford to

During his sojourn at the citadel of Quebec, Sergeant Sare was re-ponsible for the entertainment of the then Prince Arthur of Connaught, who is now the Duke of Connaught. With a twinkle in his eye, the veteran related that at this reception more than 1,000 members of Quebec aris-locracy sat down at the banquet to the prince, and 120 dozen bottles of champagne and Madeira were opened on the occasion.

#### "He was a good kid," said Mr. Sare, referring to the Duke of Connaught, and a proper gentleman."

Gets His Discharge. Coming to London a few years later, when he received an honorable flischarge from the army, along with a grant of a tract of land as a reward for meritorious service, Mr. Sare retained his Masonic affiliations and linked his activities with those

of other London brethren.

"We had a little lodge room of Adelaide street," he informed The Adelaide street," he informed The Advertiser, "and that was before a Masonic Temple was ever dreamed of for London. Later, Fed W. Cole of the London Casket Works gave us quarters above his factory, which was located where the Globe Casket Company building now stands. In 1875 I became affiliated with Corinthian Lodge, and am the only living charter member. My mother lodge in Quebec was the only Masonic lodge operating under the grand register of Canada at that time. There were lots of other lodges, but not operating under the register."

Liberal Chieftain Accuses Conservatives of Unfair Tactics in Power Scheme.

Canadian Press Despatch. Toronto, Feb. 15.-Heeding not hat it was St. Valentine's Day, the Ontario Legislature this afternoon staged a series of the bitterest combats which Queen's Park has seen for many a month. It was quite apparent from early in the sitting that there were no cupids in the air, when, during a discussion of the St. Lawrence River power, Wellington Hay, of one of my supporters. The member is not loquacious, but he is a n.an Liberal leader, accused the Conservatives of playing politics in regard to this question, and thereupon joined in a conflict with Hon. Howard Fermura against the Farmer members were insults on all farmers and farmtwo historic parties as to provincial rights and public ownership. But this was only a curtain-raiser to the excitement that followed when Hon.
W. E. Raney spoke in the debate on
the address. The attorney-general
went after the accusers of the government in general, the Conservative members of the house in particular, and most of all, the Conservative leader. It was not long before the stinging words of the minister brought the Conservatives under attack to their feet with questions and objections. A merry time ensued, during which Speaker Parliament had

Dewart Repeats Statement. As if there had not been fireworks enough, there were further heated scenes in reference to H. H. Dewart's scenes in reference to H. H. Dewart's remarks at a Liberal meeting in Elgin yesterday about Peter Cameron of West Elgin. Promier Drury asked if he had been rightly reported as making derogatory remarks to Mr. Cameron, and Mr. Dewart repeated what he had said at the meeting, which proved quite as severe as reported, bringing condemnation from ported, bringing condemnation from the prime minister and R. M. War-ren (Renfrew North), and a statement from Mr. Cameron.

The discussion regarding the St.
Lawrence River power lasted a long time, and was along the lines of the debate a few days previous. R. R. Hall, (Parry Sound), Hon. Howard Ferguson, W. H. Cassleman (Dundas), M. M. MacBride (Brantford), A. C. Lewis (Toronto), G. G. Halorow, Lewis (Toronto), G. G. Premier Drury repeated what he had said on the Police Body Exonerates Conprevious occasion that his govern-ment was in touch with the King government, and there was no danger in his opinion of the interests of the people of Ontario being overlooked. "The people of Canada," said the attorney-general in opening his speech, "have a right to look to their public men and public journals for common honesty." Mr. Dewart remarked that he would have expected the "inarticulate voice of Mr. Cameron to have been raised" if there was any exception to what he had said instead of the premier coming to the rescue. "I said," Mr. Dewart'stated, "that some of the government supporters had been termed rubber stamps, but that would scarcely apply to the member from West Eigin, because a rubber stamp at last leaves an impression. I might say that my remarks might apply to many of the other gentlemen I see across the house."

Their statement of a fact was accepted by the people as a sufficient guarantee that the fact was as stated, or if one of these men was inadvert-ently led into an inaccuracy he took the earliest opportunity to set him-self right. Of late a different atmos-phere has been created. Not only has there been recklessness in dealing with facts, but there have been falsifications of fact—and deliberate falsi-fications by men who had peculiar opportunities of knowing the and who do know it—and these falsi-fications of fact have been reiterated and reiterated throughout the province until the people have become bewildered, and even members of this
