High School Re-Opening

The Athens High School opened on Tuesday, Sept. 2, with Mr. Campbell the principal, teacher in Mathematics, Mr. Elder, Science teacher and Boys Physical Instructor; Miss Warren, teacher of English and History, and Girls' Physical Instructor; and Miss de Renzy, teacher of Languages; comprising the staff.

There is an increase in attendance of about twenty pupils over last year, Form I alone having an increase of ten.

A section of school activity undertaken at A. H. S. for the first time is the Upper School or Fifth Form work. There will be a class of nine or ten this year in this branch, and the subjects to be taken will include those fitting pupils for First Class Certificates, i. e., Algebra, Geometry, Trigonometry, Mechanics, Modern History, English.

It is expected that a very active year in Athletic Sports will be undertaken. It is expected that the Boys' Rugby Team, which met with very fair success last year, will be associated again with the Inter-Scholastic Rugby League, comprising towns in this district, such as Athens, Brockville, Smiths Falls, Gananoque, and Prescott. The girls Baseball team have just completed the schedule and are winners of the district League Cup.

As soon as the Gymnasium in the new School is completed there will be considerable activity in Basketball.

Athens Wins Softball Cup

The Athens Girls Softball team are now in possession of the coveted Trophy, having won the majority of games in this series.

The last game of the series was played at New Dublin on Wednesday, Sept. 3, when Athens defeated New Dublin twenty runs to three. The Athens team as a whole played a very good game, while, although the New Dublin battery was excellent, their fielding was poor, with the foregoing result. The Athens team scored in every innings except the sixth, while New Dublin secured their three runs in the fifth.

The score by innings:—

	1	2	3	4	5	6	7	8	9	Total
Athens	3	5	2	2	1	0	1	2	4	20
New Dublin	0	0	0	0	3	0	0	0	0	3

The team were composed as follows: Athens—M. Kerr, p., H. Morris, c., B. Bulford, B. Parish, N. Davis, V. Halliday, Miss de Renzy, C. Purcell, T. Parish.

New Dublin—M. Moore, p., M. Gabriel, c., N. Healy, B. Acheson, I. Moore, A. Acheson, E. Bowen, C. Davis, E. Acheson, K. Davis.

The Umpires were Mr. A. D. Campbell and Mr. A. R. B. Maude, and the Score-keeper was Mr. F. Flood.

Those who went down from Athens were served an excellent lunch by the New Dublin girls after the game, after which those who wished remained and participated in a dance in the Town Hall.

An exhibition Game will be played at Delta Fair on Tuesday, Sept. 16, between Delta and Athens softball teams.

KNAPP-MOULTON

A very pretty wedding was solemnized at St. Paul's rectory, September 3rd at ten o'clock when Rev. Rural Dean L. E. Davis united in holy bonds of matrimony Miss Laura Jane, youngest daughter of Mr. and Mrs. Joshua Moulton, Athens, to Mr. Leonard Knapp, only son of Mr. and Mrs. Bert Knapp of Plum Hollow. The bride was attired in a powder blue duchess satin with grey shoes and stockings and hat to match. Miss Thelma Tye of Elseville acted as bridesmaid. She was gowned in sand silk and wool crepe. Byron Moulton brother of the bride assisted the groom.

Mr. and Mrs. Knapp left on the 12.40 train for Toronto to spend their honeymoon. The bride's travelling suit was navy blue gabardine.

Mrs. Eyre and daughter, Miss Bernice, of North Augusta, with their friend, Miss Rhyne, were guests of Mrs. Herbert Knowlton on Monday and called upon other relatives in the village.

Mr. and Mrs. Harold Russell, Toronto, and Miss Loreen Phelps, Delta, spent Tuesday at the home of E. A. Whitmore.

Mrs. Ernest Stevens and son, Guy, of Athens, and Mrs. Williamson, Oak Leaf, visited their relatives, Mrs. A. Wright and Mr. and Mrs. H. R. Stevens, here last week.

Mrs. Maggie Sherwood, of Smiths Falls, spent a couple of days at the home of Harry Coon this week.

BORN

On Aug. 20th, 1924, to Mr. and Mrs. E. W. Derry, Kitchener, a son.

SOCIAL RECENTLY HELD AT TOLEDO IS GREATLY ENJOYED

Parliamentarians and Clergymen Are Among Speakers.

NEWS OF THE DISTRICT

Rev. George W. Conners Occupies Pulpit of Baptist Church at Phillipsville.

Toledo, Aug. 27.—The chicken pie social given by the members of the Union church on Friday evening, the 26th inst., was, as usual, a successful one. The large crowd present gave ample proof of its appreciation of the abundant feast served by the ladies, while the able leadership of Bandmaster Wood, discoursed excellent music. Later in the evening several addresses were thoroughly enjoyed by an appreciative audience. The speakers included H. A. Stewart, K.C., M.P., of Brockville, A. E. Donovan, of Athens; Rev. Mr. Upham, of Athens; Rev. Mr. Ford, of Easton's Corners; Rev. Mr. Townsend, resident pastor of Frankville.

Herbert Bellamy spent a few days recently visiting his brother, Harold Bellamy, of Kemptville.

The Misses Helen and Gertrude Walsh are holidaying in Elgin at the home of their aunt, Mrs. Moore.

Miss Anna Hull returned home on Saturday from her holidays.

A solemn memorial service was held in St. Philip Neri church on Thursday, the 21st inst., it being the anniversary of the death of Pte. Frank Morrissey, killed in action during the Great War. Rev. Father McDonald was the officiating clergyman.

Mr. and Mrs. Duncan McClure and son, Denton, are enjoying a motor trip through Western Ontario.

The Misses Ellen, Emily and Victoria Campbell, of Yule, motored to the home of their uncle and aunt, Mr. and Mrs. R. Crumney, on Sunday.

Toledo and Judgeville baseball teams indulged in a friendly game recently here, the game going in favor of Toledo.

Ernie Challis is on the sick list but is slightly better. Dr. Throop, of Frankville, is in attendance.

We are glad to report that Charles Gray is able to be out again after his recent very severe illness.

Dr. Hurley, Mrs. Hurley and two children, of Rochester, N.Y., motored here recently and are at present the guests of Mrs. Hurley's mother, Mrs. Lena Briggingshaw.

Phillipsville

Phillipsville, Aug. 27.—Mr. and Mrs. Winfield Leonard, of Canton, N. Y., visited relatives here the past week-end.

Mr. and Mrs. W. W. Wood, of Syracuse, N.Y., called on friends Thursday on their way home after having visited in this vicinity for several weeks.

Mr. and Mrs. Silas Davison visited relatives here before returning to their home in Syracuse, N.Y.

Mrs. A. Davison and daughter, Isabel, of Regina, and Mrs. A. Street and daughter, Bell, of Gananoque, are guests in the home of Mr. and Mrs. Thomas Webster.

Several from here are attending the annual field day at Elgin to-day.

Mrs. Cecil MacMachen and children have returned after having spent a week at Adams Centre, N.Y.

Miss Clella McVeigh, Smiths Falls, was the guest of relatives here last week.

Rev. George Conners, of Mount Forest, Ont., occupied the pulpit of the Baptist church on Sunday morning.

Service in the Methodist church on Sunday afternoon was conducted by G. F. Warren, of Elgin, in the absence of the pastor, who is taking a holiday of two weeks. Services for next Sunday have been withdrawn.

M. L. Brown and R. C. Haskins left for Toronto on Tuesday night to attend the exhibition.

Mr. and Mrs. C. F. Myers, son and daughter, of Portland, visited Mr. and Mrs. Hilliard Davison on Sunday.

Members and friends of the Sunday school and Young People's League of the Methodist church picnicked at Sheldon's Point, Rideau Lake, on Friday last.

Mrs. Eyre and daughter, Miss Bernice, of North Augusta, with their friend, Miss Rhyne, were guests of Mrs. Herbert Knowlton on Monday and called upon other relatives in the village.

Mr. and Mrs. Harold Russell, Toronto, and Miss Loreen Phelps, Delta, spent Tuesday at the home of E. A. Whitmore.

Mrs. Ernest Stevens and son, Guy, of Athens, and Mrs. Williamson, Oak Leaf, visited their relatives, Mrs. A. Wright and Mr. and Mrs. H. R. Stevens, here last week.

Mrs. Maggie Sherwood, of Smiths Falls, spent a couple of days at the home of Harry Coon this week.

ANNUAL SOCIAL OF THE PRESBYTERIANS AT BISHOP'S MILLS

Interesting Programme Rendered Proceeds Are \$175.

NEWS NOTES OF DISTRICT

Bishop's Mills, Sept. 1.—The annual social under the auspices of the Presbyterian church, held on Wednesday evening, August 27, was well patronized and proved a great success. The ladies of the congregation served an excellent supper and a most entertaining programme followed. Rev. J. McArthur, the pastor, presided and addresses were given by Rev. J. Leach and Rev. Mr. Clark, of Hallville. The Bishop's Rapids brass band was present and rendered many good musical selections throughout the evening, which were highly appreciated. The Giffordville quartette delighted the audience with their singing and Mr. Money contributed a solo which was warmly encouraged. M. Carson, of Bishop's Rapids, gave habitant recitations which were highly appreciated, and Miss Marguerite Ferguson, whose ability as an elocutionist is well known, also contributed humorous selections. Letters of regret that they were unable to be present were received by the committee from Premiers Ferguson and Rt. Hon. Arthur Meighen. The proceeds of the social amounted to \$175.

Mr. and Mrs. Robert Tassie, Smiths Falls, were town visitors on Saturday.

Mr. and Mrs. Warren, Miss G. Warren, Mrs. L. Warren and Mrs. Warren, of Easton's Corners, motored here on Friday and were town visitors at the home of Geo. Atkinson.

Bernice McKinley, of Patterton's Corners, was a guest at the home of Mr. and Mrs. Arthur Wier on Saturday.

Mr. and Mrs. Sherrad and E. Montague returned home after a week at Carthage, Ont.

Mr. and Mrs. Ross Ferguson, of Easton's Corners, James Connell, Jr., and Mrs. Connell were visitors at J. S. Ferguson's this week.

Mr. and Mrs. Samuel Buker and Miss Helen Buker visited Prescott on Thursday last.

Mr. and Mrs. Joseph Todd, Miss Mary Todd and Mr. and Mrs. William Walker, of Oxford Mills, were recent visitors at Thomas Street's on the excursion to the Northwest.

Mr. and Mrs. Omar Truesdell and Miss Doris Truesdell, Miss E. Wolward, of Montreal, Misses Margaret and Eleanor Cochrane, of Madoc, Ont., Master Delmar Cochrane, of Brockville, Mr. and Mrs. Harold and sons, Arnold and Orville, of Kars, Mr. and Mrs. J. Pratt, of North Gower, were recent visitors at the home of Mr. and Mrs. R. D. Cochrane, Main street east.

Mrs. Bissell, of Easton's Corners, is the guest of Mrs. Robert McLellan, Easton's Corners.

Mrs. Meiss and Miss Dorothy Meiss, of Montreal, are visitors at the home of Mrs. W. Greer.

Mr. and Mrs. Ross Atkinson, Mrs. George Atkinson, Mr. and Mrs. Chas. Sherrad motored to Easton's Corners last Sunday.

Fred Carley, Earl Carley, Misses Gladys Carley, Miss Horne, of Three Rivers, Que., were visitors at William Quinn's on Saturday last.

Mr. and Mrs. Barrington, Wallace Barrington, Mr. Allison, of Russell, motored here on Sunday and were guests at the home of James Keegan.

GOSFORD

Gosford, Sept. 1.—Mrs. Fred Hurdman, of New York, is visiting her sister, Mrs. Harry Thompson.

George Durham and Miss Bath, of Montreal, are guests of Mr. and Mrs. John Durham.

Miss Hilda Philpott and Miss Jean Marlow, of Brockville, spent a week with Mrs. Ernie McBratney.

Mr. and Mrs. Joe Burke, of Prescott, Mr. and Mrs. Alex. Brown and Mrs. Gallinger, of North Augusta, were Sunday visitors of Mr. and Mrs. John Kirkby.

Mr. and Mrs. J. S. Orr and son and Mr. Barr, of Providence, R.I., spent Wednesday with Mr. and Mrs. J. W. Marshall.

Mrs. Robert Perrin, Miss Mabel and Egbert have returned from having spent a week at the camp meeting of the Standard church at Lake Elvida.

Mr. and Mrs. C. Greenwood, of Brockville, and Mr. and Mrs. Hale Eyre motored to Smiths Falls on Sunday.

The school house is receiving a fresh coat of paint and some other improvements. The school will open on Tuesday under the able management of Mrs. J. B. Checkley.

Mr. and Mrs. A. Metcalfe spent Sunday with Mr. and Mrs. Ed. Dawson, Lord's Mills.

E. F. Neff, of Athens, agricultural representative, installed sheep dipping tanks last week at J. B. Checkley's and W. H. Landon's.

PLUM HOLLOW

Plum Hollow, Aug. 27.—Miss Gladys Chant is spending a few days visiting her friend, Miss Geneva Garret, of Soperton.

Mr. and Mrs. W. B. Newsome spent the week-end at Brownville, N. Y., with their daughter, Mrs. J. N. Leahy and Mr. Leahy.

Mr. and Mrs. Charles Wilkie attended the funeral of Mrs. Wilkie's niece, little Evelyn Mavey, at Brockville on Saturday.

Miss Audrey Jackson spent last week in Delta visiting her friend, Miss Eula Huffman.

A number from here attended the Brockville fair last week.

Claude Kilborn, of Great Bend, N. Y., is visiting relatives here for a few days.

A number from here attended the camp meeting at Elvida on Sunday.

Mr. and Mrs. Albert Topping and family, of Fulton, N. Y., called on friends here recently.

The meeting of the Women's Mission Circle will be held at the home of Mrs. L. Kilborn, Elvida, on September 3rd.

Recent visitors:—Mrs. Gifford and children, of U. S. A., at C. Chant's; Mrs. Jack Young and Miss Bennett, of Ogdensburg, N. Y., at Elwood Jackson's; Mrs. Percy Scharf, of Larivière, Man., and Mrs. Alvah Anderson and children, of Arran, Sask., and Ernest Anderson and Miss Mae Joynt, of Newboyme, at J. J. Chapman's; Leslie Wing, of New Bedford, Mass., Mr. and Mrs. William Wing and son, of Lyndhurst, and Mr. and Mrs. Claude Gifford and daughter, of Delta, at Warren Gifford's.

Mr. and Mrs. Elmer Best attended the funeral of Mrs. Best's sister, Helen Flood, at Oak Leaf on Saturday.

Mrs. Edward Burt and daughter, Edna, spent a few days in Smiths Falls last week.

Mr. and Mrs. Mariel Stevens visited at D. M. Kilborn's, Greenbush, on Friday.

The Union social held here on August 14 was a decided success.

Mr. and Mrs. John Wilkie spent Sunday with Mr. and Mrs. Leander Chapman, Hard Island.

Mr. and Mrs. M. D. Barber spent Sunday at Charleston.

On Monday morning, August 25, the home of Mr. and Mrs. Harry Talbot was made very sad and lonely by the death of their eldest son, Lindon Sidney, aged eight years and three months, who passed peacefully away after an illness of two weeks of scarlet fever. He was an active, bright, cheerful little fellow and until a few days ago gave no indication that he was soon to enter the Great Beyond. He leaves to mourn his loss, besides his grief stricken parents, one little brother, Winfred, and little sister, Helen. Interment took place in the Baptist cemetery on Monday afternoon. Rev. Mr. Upmohr had charge. A memorial service will be held when the quarantine has been lifted. To the sorrowing parents and family the sympathy of the community is extended.

Mrs. D. Wood, of Chantry, is spending a few weeks with her daughter, Mrs. H. Talbot.

Miss Martha Carl will leave shortly for Picton, where she is engaged week to teach school.

Master Ford Jackson is suffering from an attack of summer gripple.

Mrs. Ross Miller, of Cornwall, is her duties as teacher at the Lake spending a few days with Mrs. Elodie school. We wish her every success.

Mr. Upham, of Athens; Rev. Mr. Ford, of Easton's Corners; Rev. Mr. Townsend, resident pastor of Frankville.

Herbert Bellamy spent a few days recently visiting his brother, Harold Bellamy, of Kemptville.

The Misses Helen and Gertrude Walsh are holidaying in Elgin at the home of their aunt, Mrs. Moore.

Miss Anna Hull returned home on Saturday from her holidays.

A solemn memorial service was held in St. Philip Neri church on Thursday, the 21st inst., it being the anniversary of the death of Pte. Frank Morrissey, killed in action during the Great War. Rev. Father McDonald was the officiating clergyman.

Mr. and Mrs. Duncan McClure and son, Denton, are enjoying a motor trip through Western Ontario.

The Misses Ellen, Emily and Victoria Campbell, of Yule, motored to the home of their uncle and aunt, Mr. and Mrs. R. Crumney, on Sunday.

Toledo and Judgeville baseball teams indulged in a friendly game recently here, the game going in favor of Toledo.

Ernie Challis is on the sick list but is slightly better. Dr. Theoprop, of Frankville, is in attendance.

We are glad to report that Mrs. Charles Gray is able to be out again after her recent very severe illness.

Dr. Hurley, Mrs. Hurley and two children, of Rochester, N.Y., motored here recently and are at present the guests of Mrs. Hurley's mother, Mrs. Lena Brigginslaw.

Phillipville

Phillipville, Aug. 27.—Mr. and Mrs. Winfield Leonard, of Canton, N. Y., visited relatives here the past week-end.

Mr. and Mrs. W. W. Wood, of Syracuse, N.Y., called on friends Thursday on their way home after having visited in this vicinity for several weeks.

Mr. and Mrs. Silas Davison visited relatives here before returning to their home in Syracuse, N.Y.

Mrs. A. Davison and daughter, Isabel, of Regina, and Mrs. A. Street and daughter, Bell, of Gananoque, are guests in the home of Mr. and Mrs. Thomas Webster.

Several from here are attending the annual field day at Elgin to-day.

Mrs. Cecil MacMachen and children have returned after having spent a week at Adams Centre, N.Y.

Miss Clella McVeigh, Smiths Falls, was the guest of relatives here last week.

Rev. George Connors, of Mount Forest, Ont., occupied the pulpit of the Baptist church on Sunday morning.

Service in the Methodist church on Sunday afternoon was conducted by G. F. Warren, of Elgin, in the absence of the pastor, who is taking a holiday of two weeks. Services for next Sunday have been withdrawn.

M. L. Brown and R. C. Haskins left for Toronto on Tuesday night to attend the exhibition.

Mr. and Mrs. C. F. Myers, son and daughter, of Portland, visited Mr. and Mrs. Hilliard Davison on Sunday.

Members and friends of the Sunday school and Young People's League of the Methodist church picnicked at Sheldon's Point, Rideau Lake, on Friday last.

Mrs. Eyre and daughter, Miss Bernice, of North Augusta, with their friend, Miss Rbyn, were guests of Mrs. Herbert Knowlton on Monday and called upon other relatives in the village.

Mr. and Mrs. Harold Russell, Toronto, and Miss Loreen Phelps, Delta, spent Tuesday at the home of E. A. Whitmore.

Mrs. Ernest Stevens and son, Guy, of Athens, and Mrs. Williamson, Oak Leaf, visited their relatives, Mrs. A. Wright and Mr. and Mrs. H. R. Stevens, here last week.

Mrs. Maggie Sherwood, of Smiths Falls, spent a couple of days at the home of Harry Coon this week.

ANNUAL SOCIAL OF THE PRESBYTERIANS AT BISHOP'S MILLS

Interesting Programme Rendered Proceeds Are \$175.

NEWS NOTES OF DISTRICT

Mrs. J. B. Checkley Again in Charge of School House at Gosford.

Bishop's Mills, Sept. 1.—The annual social under the auspices of the Presbyterian church, held on Wednesday evening, August 27, was well patronized and proved a great success. The ladies of the congregation served an excellent supper and a most entertaining programme followed. Rev. J. McArthur, the pastor, presided and addressed the assembly. Rev. J. Leach and Rev. Mr. Clark, of Hallville, The Bishop's Rapids brass band was present and rendered many good musical selections throughout the evening which were highly appreciated. The Kemptville quartette delighted the audience with their singing and Mrs. Cheney contributed a solo which was heartily enjoyed. M. Carson, of Bishop's Rapids, gave habitant recitation which were highly appreciated, and Miss Margaret Ferguson, whose ability as an elocutionist is well known, also contributed humorous selections. Letters of regret that they were unable to be present were received by the committee from Priscilla Ferguson and Rt. Hon. Arthur Meighan. The proceeds of the social amounted to \$175.

Mr. and Mrs. Robert Tassie, Smiths Falls, were town visitors on Saturday last.

Mr. and Mrs. Warren, Miss G. Warren, Mrs. L. Pugh and Mrs. Warren, of Easton's Corners, motored here on Friday and were visitors at the home of Geo. Alton.

Bernice McKinley, of Patterson's Corners, was a guest at the home of Mr. and Mrs. Arthur Wier last week.

James J. Sherrad and E. Montague have returned home after spending a week at Carthage, N.Y.

Mr. and Mrs. Ross Ferguson, of Patterson's Corners, James Connell, jr., and Mrs. Ferguson were visitors at J. S. Ferguson's last week.

Mr. and Mrs. Samuel Baker and Miss Helen Baker visited Prescott on Thursday last.

Mr. and Mrs. Joseph Todd, Miss Mary Todd and Mr. and Mrs. William Walker, of Oxford Mills, were recent visitors at Thomas Streight's.

Donald Greer left recently on the excursion to the Northwest.

Mr. and Mrs. Omar Truesdell and Miss Doris Truesdell, Miss E. Wolard, of Montreal, Misses Margaret Ont., Eleanor Cochrane, of Madoc, Ont., Master Delmar Cochrane, of Brockville, Mr. and Mrs. Harold and sons, Arnold and Orville, of Kars, Mr. and Mrs. J. Pratt, of North Gower, were recent visitors at the home of Mr. and Mrs. R. D. Cochrane, Main street east.

Mrs. Bissell, of Easton's Corners, is the guest of Mrs. Robert McLellan. Miss Hazel McLellan is visiting at Easton's Corners.

Mrs. Meiss and Miss Dorothy Meiss, of Montreal, are visitors at the home of Mrs. W. Greer.

Mr. and Mrs. Ross Atkinson, Mrs. George Atkinson, Mr. and Mrs. Chas. Sherrard motored to Easton's Corners last Sunday.

Fred Carley, Earl Carley, Misses Gladys Carley, Miss Home, of Three Rivers, Que., were visitors at William Quinn's on Saturday last.

Mr. and Mrs. Barrington, Wallace Barrington, Mr. Allison, of Russell, motored here on Sunday and were guests at the home of James Keegan.

GOSFORD

Gosford, Sept. 1.—Mrs. Fred Hurdman, of New York, is visiting her sister, Mrs. Harry Thompson.

George Durham and Miss Bath, of Montreal, are guests of Mr. and Mrs. John Durham.

Miss Hilda Philpott and Miss Jean Marlow, of Brockville, spent a week with Mrs. Ernie McBratney.

Mr. and Mrs. Joe Burke, of Prescott, Mr. and Mrs. Alex. Brown and Mrs. Gallinger, of North Augusta, were Sunday visitors of Mr. and Mrs. John Kirkby.

Mr. and Mrs. J. S. Orr and son and Mr. Barr, of Providence, R.I., spent Wednesday with Mr. and Mrs. J. W. Marshall.

Mrs. Robert Perrin, Miss Mabel and Egbert have returned from having spent a week at the camp meeting of the Standard church at Lake Elvida.

Mr. and Mrs. C. Greenwood, of Brockville, and Mr. and Mrs. Hale Eyre motored to Smiths Falls on Sunday.

The school house is receiving a fresh coat of paint and some other improvements. The school will open on Tuesday under the able management of Mrs. J. B. Checkley.

Mr. and Mrs. A. Metcalfe spent Sunday with Mr. and Mrs. Ed. Dawson, Lord's Mills.

E. F. Neff, of Athens, agricultural representative, installed sheep dipping tanks last week at J. B. Checkley's and W. H. Landon's.

PLUM HOLLOW

Plum Hollow, Aug. 27.—Miss Gladys Chant is spending a few days visiting her friend, Miss Geneva Garret, of Soperton.

Mr. and Mrs. W. B. Newsome spent the week-end at Brownville, N. Y., with their daughter, Mrs. J. N. Leahy and Mr. Leahy.

Mr. and Mrs. Charles Wiltse attended the funeral of Mrs. Wiltse's niece, little Evelyn Mavety, at Brockville on Saturday.

Miss Audrey Jackson spent last week in Delta visiting her friend, Miss Eula Huffnagel.

A number from here attended the Brockville fair last week.

Claude Kilborn, of Great Bend, N. Y., is visiting relatives here for a few days.

A number from here attended the camp meeting at Elvida on Sunday.

Mr. and Mrs. Albert Topping and family, of Fulton, N. Y., called on friends here recently.

The meeting of the Women's Mission Circle will be held at the home of Mrs. L. Kilborn, Elvida, on September 3rd.

Recent visitors:—Mrs. Gifford and children, of U. S. A., at O. Chant's; Mrs. Jack Young and Miss Bennet, of Ogdensburg, N. Y., at Elwood Jackson's; Mrs. Percy Scharf, of Lariviere, Man., and Mrs. Alvah Anderson and children, of Arran, Sask., and Ernest Anderson and Miss Mae Joynt, of Newboya, at J. J. Chapman's; Leslie Wing, of New Bedford, Mass., Mr. and Mrs. William Wing and son, of Lyndhurst, and Mr. and Mrs. Claude Gifford and daughter, of Delta, at Warren Gifford's.

Mr. and Mrs. Elmer Best attended the funeral of Mrs. Best's sister, Helen Flood, at Oak Leaf on Saturday.

Mrs. Edward Burt and daughter, Edna, spent a few days in Smith's Falls last week.

Mr. and Mrs. Martel Stevens visited at D. M. Kilborn's, Greenbush, on Friday.

The Union social held here on August 14 was a decided success.

Mr. and Mrs. John Wiltse spent Sunday with Mr. and Mrs. Leander Chapman, Hard Island.

Mr. and Mrs. M. D. Barber spent Sunday at Charleston.

On Monday morning, August 25, the home of Mr. and Mrs. Harry Talbot was made very sad and lonely by the death of their eldest son, Lindon Sidney, aged eight years and three months, who passed peacefully away after an illness of two weeks of scarlet fever. He was an active, bright, cheerful little fellow and until a few days ago gave no indication that he was soon to enter the Great Beyond. He leaves to mourn his loss, besides his grief stricken parents, one little brother, Winfred, and little sister, Helen. Interment took place in the Baptist cemetery on Monday afternoon. Rev. Mr. Upham had charge. A memorial service will be held when the quarantine has been lifted. To the sorrowing parents and family the sympathy of the community is extended.

Mrs. D. Wood, of Chantry, is spending a few weeks with her daughter, Mrs. H. Talbot.

Miss Martha Carl will leave shortly for Picton, where she is engaged to teach school.

Master Ford Jackson is suffering from an attack of summer gripe.

Mrs. Ross Miller, of Cornwall, is her duties as teacher at the Lake spending a few days with Mrs. Elvida school. We wish her every success.

PICNIC HELD AT MALLORYTOWN IS DECIDED SUCCESS

Sunday School of Methodist Church Gathers.

SPORTS PROGRAMME HELD

Presentation Made to Mrs. E. M. Sutherland at North Augusta Recently.

Mallorytown, Aug. 29.—A fine day, a good committee in charge, lots of good things to eat, everybody, young and old, taking hold, combined to make ideal the picnic held at Mallorytown Landing under the auspices of the Sunday school of the Methodist church at Mallorytown. H. M. Mallory, E. Hagerman, W. E. Summers, Frank I. Calvert and Rev. Reuben Calvert comprised the committee. The following were the winners of the different events:

Girls, six and under—Pauline McDonald, Ilean Haffie.

Boys, six to ten—Ralph Grier, Lawrence Duffield.

Boys, 13 to 16—Lawrence Hodge, Alfred Hodge.

Girls, 13 to 16—Florence McDonald, Ruth Hewson.

Boys, 16 and over—Frank Boughty, Haffie McDonald.

Girls, 16 and over—Ivy Trickey, Mrs. Clifford Morris.

Three-legged race—Haffie McDonald and Frank Doughty, Elmer Hodge and Carmon Root.

Bean race—Mrs. E. S. Bissell, Ivy Trickey.

Leap frog—Frank Calvert, B. Leader, Girls' baseball throwing—Anna Monroe, Luella Hodge.

Nail-driving contest—Mrs. H. W. McDonald, Mrs. Clifford Morris.

Married men's race—B. Leader, Leon Hagerman.

Married women's race—Mrs. C. Morris, C. Morris, Mrs. Charles Higgs.

Free-for-all—B. Leader, Leon Hagerman.

Girls' three-legged race—Kate Leader and Vivian Tennant, Ivy Trickey, and Gladys Trickey.

Long distance—B. Leader, Haffie McDonald.

SHELDON'S CORNERS.

Sheldon's Corners, Sept. 1.—Mrs. H. Stewart and family, of LaFargeville, are spending some time with her mother, Mrs. Geo. Cowls.

Miss Gertrude Wilson spent a few days with Mrs. Fred Hollingsworth.

Our school has reopened with our former teacher, Miss O'Neil, back with us again.

Master Bunny Foley has returned home after spending some time at the home of his uncle's.

Mr. and Mrs. J. Topping spent Saturday at Addison, at R. Kelly's.

Mrs. Delbert Bolton has had the pleasure of having her daughter and daughter-in-law and children for this week.

Camp meeting was well attended from this community Sunday.

Miss Ruby Whitmore has started her duties as teacher at the Lake spending a few days with Mrs. Elvida school. We wish her every success.

TENTH of the series dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere

IN LONDON
Threadneedle Street, in the old City section of London, the financial heart of the British Empire, the Bank of Montreal has been representing the interests of Canada since 1870.

Its first London office was located at 27 Lombard Street. Later the Bank established an office at 47 Threadneedle Street E.C., afterwards extending its services to the Pall Mall section of London by creating an important branch at Waterloo Place in the heart of the theatre and shopping districts.

BANK OF MONTREAL
Established over 100 years
Total Assets in excess of \$650,000,000

THE MIND OF MA MAHONEY

BY ALICE MARGARET ASHTON.

Ma Mahoney's mind was on the clock. Eighteen years of unremitting work will train the hands to accomplish the accustomed tasks mechanically, but your mind has to be on the kitchen clock if breakfast is ready in time to get Pa to the six-thirty car and keep the older children's report cards free from tardy marks. Nor can there be any relaxing of vigilance if the children's lunch is spread on the kitchen table when they rush in precisely three minutes after the noon whistle. With such additional duties as washing, ironing, mending and the soothing of childish ills and heart-breaks, how could one's mind find much scope for excursions beyond the tyrannical dictation of the kitchen time-piece?

"Two o'clock," sighed Ma, resignedly laying aside her dish-towel at the vehement behest of her youngest, "and the wash not on the line yet. I wonder why my babies always do their teething in the hottest part of the summer?"

With a practiced hand she picked up wailing Baby Benny from his cradle and cuddled him capably against her deep and motherly breast. "There, there, honey, Ma wasn't scolding you. I did hope you'd hold off with that tooth till the weather cooled a bit, but my children are always just that forward and capable!"

Having gained his desire after persistent effort, Benny clung resolutely to his comforting refuge. Through the open window a perfect "drying" day mocked at her tubs of half-washed clothes. And the relentless hands of the clock moved forward.

"My grief, Mis Mahoney, aren't you ready to come with me to that Mother's Meeting?" The sharp voice of Sarah Bordon calling from the little front entry startled the mother from her efforts at pacifying her clinging infant.

"With my clothes still in the tubs?" she answered with her ready smile. "Not but what I'd like to go, Sarah," she added, with a longing note in her voice.

"It's always the same story," disapprovingly complained Sarah with the freedom of a friend. "It would do you good, Mary Mahoney. You just stay home and slave year in and year out."

"But I can't leave a crying baby alone—nor my wash in the tubs. School will be out in another week. Maybe then I can get away," she prosed hopefully. "Anyway, you come over to-night and tell me everything that's said and done."

Ma's resolute smile lasted until the door had closed behind her neighbor. On her way back to the kitchen she paused to lay the baby, who had dropped asleep in her arms, on the sitting-room lounge away from the heat and light. "I'll never tell why I can't go to those meetings!" she resolved grimly, as she picked up her dish-towel once more, then forgot everything else in her attempt to finish her work before supper time.

In the sultry, dusk of evening Mrs. Mahoney sought the comfort of her back porch when she heard Sarah Bordon's screen door slam. Pa Mahoney had sauntered down street, the older children had disappeared, their mother had not had time to inquire as to their destination. The two youngest had been put to bed.

Evidently indignation had not departed from the heart of Sarah Bordon.

"It's a burning shame you couldn't have been there," she began as soon as they were seated. "That talk was just intended for you, Mary Mahoney. I had as much as I could do not to come back here and take you—washing, baby and all—to that meeting! She said we wasn't to ourselves down to our kitchen tables, although she believes in good housekeeping all right. She wants us to hold meetings in our own houses, but we were all afraid to invite her. She says we must get together and get acquainted with each other and with our own front rooms! You needn't drift whichever way the wind blows," she said. "You can control your own life if you really want to and go about it right."

"How does she say we can do it?" Mrs. Mahoney's mind looked back wearily over the day just spent and over a countless procession of similar days. It was clear that she had had very little to say about her own life.

"You just do it with your mind," explained Sarah in an awed tone. "You think out just what you'd like to do and how you'd like to have things. And then you go right on acting as if it was so. And first thing you know things will be coming out that way."

"That sounds like 'made-believe' when we were children," murmured Ma reminiscently. Then indignation overcame her long-suffering soul.

"Maybe that kind of thing will work for that speaker-woman," she exclaimed scornfully. "But what'd she do, I'd like to know, if she hadn't a decent dud to her back and got only a growl when she asked for anything? What'd she do if she couldn't make her children mind, and if she had more work than two women could do and no one willing to help her do a hand's turn? How would you suppose thinking would help then—tell me that—Sarah Bordon."

"I—I don't know," admitted Sarah faintly, rendered almost speechless by this amazing and unprecedented outburst.

Ma Mahoney drew a long breath.

She hadn't meant to tell a living soul! Well, she didn't care—she wouldn't retract one word she had said.

Ma was too weary to lie awake that night with disturbing thoughts either of regret or anticipation. But next morning a strange excitement grew within her. "It's a simple enough thing to try," she decided at last. "All I've got to do now, is to plan out just how I'd like to have things. And I guess I'll not have time to be much disappointed if it don't work out the way I want!"

By mid-afternoon her trial venture in plans had been completed and the experience had proved exhilarating. Sarah Bordon, called to the dividing fence, had promised to carry a message, the importance which almost staggered her. "Mary Mahoney, of all in this world," she muttered, as she went back to her own kitchen. "And after what she said last night!"

Ma untied the wrappings. Carefully lifting out one of the enclosed cups she held it up for general admiration—delicate decorations of pink and green with touches of gold met their rapt gaze. "Never," she exclaimed, with tears of happiness in her eyes, "never did I expect to own such beautiful cups as these."

"I'll get you the rest of the set when I can," Pa said gruffly. "I'm a little short of money this week. Molly, you wash one of them cups and saucers for your Ma to drink her tea out of!" And handing it as if it were a high explosive, Molly eagerly complied.

Through the sultry heat of Saturday morning Molly and her mother worked happily. The house did look festive indeed with its unworked order and its jars of pretty flowers. Only from the safe precincts of the kitchen doorway were the children allowed to view its splendors.

The beautiful new china cups and plates were arranged on a spotless cloth on the little side-table. The bread was delicately sliced for the sandwiches. Molly had even laid out on her mother's bed upstairs the fresh "wrapper" and the white apron.

Ma, flushed face and hair in curl-papers, was marshaling the young ones round the dinner-table when her husband entered. Again beneath his arm was to be seen a large and aggressive package. He placed the box in his wife's hands.

Beneath the cover was a layer of snowy paper through which something blue and white shimmered softly. "You used to wear one like that," Pa managed to say awkwardly as she lifted out such a dress as she certainly had not possessed in the memory of her astonished and admiring children.

"It's true," she exclaimed in an awed whisper, "as true as fate itself!" "What's true?" questioned Pa, who was looking for more of a demonstration.

"Why," said Ma, coming to herself, "that I have the kindest husband and the best children in all the world!"

At the appointed hour for the meeting the women poured in. If the speaker for the afternoon had lacked inspiration, she certainly could have found it in the radiant face of Mary Mahoney.

Pretty Molly, demurely serving the tea and sandwiches, filled her mother's heart with pride. The children hovering in the background were orderly and clean to an unheard-of degree. Benny Boy was conspicuous by his silence.

"It has done me good to be here," declared the pretty speaker, as she held Ma's hand in parting. "It is the mothers like you who work with their heads and hearts and hands who are doing the real things, Mrs. Mahoney."

"But I couldn't have done it if I hadn't all helped," remonstrated Ma, thinking only of her initial flight into the realms of social eminence. "Molly took care of Benny Boy and made the tea, spread the sandwiches and dusted. And all the children have been so good. I really haven't had anything to do except enjoy myself!"

The speaker smiled on Molly who came and gave the lady her hand with pretty timidity and stood in the little front porch with Ma, while the guests passed down the street.

Pa came in from the back yard where he had spent the afternoon playing with Benny Boy and surreptitiously listening to the talk through the open windows. "You keep on your toes, Ma, and we'll go down to the park to-night and listen to the band play," he suggested rather shyly for a man given to the arbitrary ruling of his household. "Molly will get supper and look after the young ones to-night, I guess."

"Sure, I will," agreed Molly. "You go on up and get Pa's other clothes ready."

In her room upstairs Mary Mahoney listened to the labored preparations for supper going on below. Eight separate times before had she remained in this room listening to the household machinery which always creaked audibly without her supervising guidance. But this time she was not helpless and weary with a warm new little bundle of humanity pressed to her heart. This time she was standing before her mirror, well, radiant, her hair waved back becomingly, the blue dress shining below her blue eyes. And she and Pa were going out together.

"Only to think," murmured Ma Mahoney with a sort of reverent wonder, "that I've brought all this about just with my mind! And it's been that easy! There'll be no telling," she added, with a deep content, "what all my family may accomplish now I'm putting my mind to it!"

Beans With Bugs In.
Every winter comes a flood of complaints about bean weevils—the little black bugs found stored in beans.

Of course, after the bugs appear, it is too late to do much, but if our readers, when putting beans away in fall, would only use carbon bisulphide, they would have no trouble.

This item tells how:
Weevils can be killed in beans and peas by the use of carbon bisulphide. To treat these put them in a jar, tub or other vessel which can be covered tightly. Put into a glass about one teaspoonful of carbon bisulphide for each ten gallons of space in the enclosure and place the glass in with the beans. Allow them to remain in the fumes of the carbon bisulphide over night, then take them out and place in dry storage quarters. Do not take lamps or lighted matches near the material, and do not breathe the fumes.

A High Yielding Variety of Winter Wheat.

The O.A.C. No. 104 variety of winter wheat has surpassed all other varieties in average yield of grain per acre during the past few years in the experiments at Guelph and in the co-operative experiments throughout Ontario. In each of six out of seven years it yielded better than the Dawson's Golden Chaff in the experiments conducted at the homes of the farmers. In 1923 of the seventy-nine varieties, selections and crosses grown in the experimental plots at the College the six highest yielders were new varieties originated at the College by cross-fertilization.

The O.A.C. No. 104 variety is a cross between the Dawson's Golden Chaff and the Bulgarian. It is a white wheat with a white chaff and beardless head and is a vigorous grower. In comparison with the Dawson's Golden Chaff it has been even more hardy, less susceptible to smut, and almost as stiff in the straw. It has been injured by the hessian fly to a less extent than the average of forty varieties under test during the last four years.

This new hybrid wheat will be sent to Ontario farmers, free of cost, in pound lots to those who wish to conduct tests with three varieties of winter wheat this autumn and who apply to the Field Husbandry Dept., O.A.C., Guelph, Ont., for seed for this purpose.

Weeds.

The crop producing capacity of many an acre in Ontario has during the past season been reduced by twenty-five per cent. This is too heavy a charge against the land and only the rich fellows can stand the losses occasioned by weeds.

Keep weeds off the farm by plowing all the land that you intend to plant immediately after harvest. Cultivate as frequently as possible with the springtooth up to the end of October. In early November rip up the land that the weed roots may be exposed to the weather. Ribbing attachments can be placed on the springtooth cultivator which makes it possible to cover a large area in a day.

Insist on careful cleaning of the threshing machine before it comes to your farm. See that all farm machinery is free from the roots of perennial weeds before going to another field.

Rough Handling Decreases Hog Values.

A four-page leaflet has been issued by the Dominion Dept. of Agriculture (Live Stock Branch) guided by which the farmer and breeder may save many dollars. It points out that the hog is easily subject to bruises, which of course mean depreciation in value.

Rough handling is one of the causes, and one that leads to thousands of hogs being placed on the market inflected with bruises. Since, says the leaflet, 2,500,000 hogs are slaughtered in the packing plants annually, of which often 15 per cent., or 375,000 are found to have been bruised or scarred, a loss is entailed of over \$900,000. In a four-month period, during which 34,000 hogs were examined, it was ascertained that in some cases the carcasses were depreciated as much as five dollars in value, and that the average loss amounted to \$2.50 per head. In cattle, the possession of horns is often the cause of much injury and consequent loss.

Storing Apples.

Dealing with the storing of apples, the Dominion Horticulturist, M. W. T. Macoun, says that if the fruit is not disposed of at once, it should, as soon as it is picked or packed, be put where the temperature can be controlled and the fruit kept cool. A cellar often answers the purpose of a store room, but for most varieties a well ventilated room above ground with comparatively dry air, the temperature of which can be kept low, is the best. Apples such as Russets that shrivel easily, keep better in a moist atmosphere. In the autumn the temperature should be kept as cool as possible, but in the winter it should not be allowed to go below 32 to 35 degrees Fahrenheit. The cooler apples are kept without freezing the better. If kept in a private house, care should be taken that while the room is cool there is no danger of rot spreading if the fruit is wrapped in tissue or news paper.

Blue Grass With Sweet Clover.

Summer comes and away goes the blue-grass pasture. Shallow-rooted crop that it is, it cannot withstand a drought very long.

The fact of the matter is that no blue grass pasture should be permitted to grow by itself. Why not go over all the pastures and drill in a little sweet clover? This should be done in the spring for best results. I have seen farmers practicing this and they do not have to repeat the operation for several years afterward. Moreover, the blue grass is all the better and stronger for the companionship of the legume, for it profits by the added nitrogen.

Just as soon as the sweet clover is well started the blue grass becomes more robust. It may not become deep-rooted, but because of its increased nitrogen supply, it is more resistant to drought or to severe winter weather; and all the time the sweet clover continues to store more nitrogen which each year the grass improves.—G. H.

The Sunday School Lesson

SEPTEMBER 1

Jesus Heals a Nobleman's Son, John 4: 46-54. Golden Text—*I am the way, and the truth, and the life.—John 14: 6.*

I. FAITH IN JESUS, 46-50.

II. THE POWER OF FAITH, 51-54.

INTRODUCTION—Jesus has now come from Judea by way of Samaria to Galilee. He is in his own country, but Galilean unbelief warns him that there he must not expect any great success. While he is at Cana, however, there occurs an incident which becomes the occasion for an act of divine healing. We have not hitherto, in our course of studies, come face to face with this aspect of Jesus' ministry. We have seen him offering new spiritual life to men, redeeming one access to the Father for Jews and Samaritans. Now we see Jesus as the healer, both of body and of spirit. A court official of Herod Antipas, whose son is dangerously ill at Capernaum, arrives at Cana with the urgent request that Jesus will come at once to Capernaum. Jesus moved by the intensity of the father's appeal, and by the evidence of his faith, answers that his boy will live.

I. FAITH IN JESUS, 46-50.

Vs. 46, 47. The official who here comes to Jesus is in the service of Herod Antipas, tetrarch of Galilee. Antipas had his seat of government at Tiberias, on the Lake of Galilee, and he would have in his employment a considerable number of administrative officers, of whom the present "nobleman" is one. Whatever was thought of Jesus at Antipas' court, this particular courtier is led to seek the Master's aid by serious illness in his home. His boy is at the point of death in Capernaum.

V. 48. Before acceding to his request, Jesus reminds the officer that the Galilean public is always demanding "signs and wonders" as the condition of faith. They will not accept a Messiah who does not perform miraculous deeds. They will not believe in God except when they see extraordinary manifestations. This is in accordance with the whole Jewish belief that God is outward, and that he is outwardly revealed. It would appear, therefore, that our Lord saw in the healing of the sick, a possible hindrance to his spiritual work, and that he only healed as necessity arose. He wished to lead men to see that God is inwardly and spiritually revealed.

In the wilderness, he had renounced the desire to make his own consciousness of divine sonship dependent on outward or miraculous chances, and hence he seeks to create in the hearts of men everywhere the same spiritual conceptions of God.

V. 49. In the present case, however, Jesus is faced not by a demand for "signs," but by a father's agony, and he consents to the request. There is in such a case no shadow of doubt that the Father wills the result, and Jesus says to the officer, "Go, your son lives." It is not even necessary for Jesus to go in person to the house.

II. THE POWER OF FAITH, 51-54.

Vs. 51-53. The event proves as Jesus had said. The nobleman is met on his way by servants who report the joyous tidings that the boy, who has passed the crisis, and is recovering. On enquiring when the change set in, he finds that it occurred at one o'clock of the seventh hour, reckoned from 6 a.m. of the previous day, the time when Jesus had said, "Your son lives," and he and his family become convinced believers in Jesus.

What appears as another tradition of the same incident is given in Matt. 8: 5-13 and Luke 7: 1-10. But in Matthew and Luke, the man is said to be a military officer, and he does not belong to the Jewish people. All the more remarkable is his faith which evokes from Jesus the surpassing tribute, "Solemnly I say to you, I have not found even in Israel so great a faith as this." We may profitably add to our study of the present incident the lessons which may be drawn from these other accounts. They show us what a great value Jesus placed on faith. Jesus wished men to see God aright, and to believe in his perfectly holy and loving will. He wished them to believe that all things are possible for God, and that no limits can be set to the power of believing prayer when men are asking not for "signs," but for grace and help, in time of need.

Equally necessary is it to remember that Jesus was conscious of being himself the special agent of God's redeeming power in Israel and among mankind. He is conscious of his divine call as the Son of God, and in the strength of that calling, and in the knowledge of his own perfect guidance by the will of God, he realizes that whatever he wills for man's good, the Father will assuredly fulfill. In a previous lesson we read that he said to his disciples, "You shall see heaven open, and the angels of God ascending and descending upon the Son of man." This means that Jesus, as the Messiah, will be found to be the means by which God's unseen agencies of grace and healing come into communication with human life. By him our prayers ascend to the Father, and through him there descend to us pardon, light, healing and peace. He is, as we read, in another place, "The way, the truth, and the life."

DISEASE AND EVIL SPIRITS.

In the religion of the prophets there was no room for evil spirits. God filled for them the whole field of vision. But the people retained a superstitious regard for demons and spirits. People dreaded malignant spirits and sought to placate them by gifts, Lev. 17: 7; Deut. 32: 17. These frequented waste places, but they were never far away. They lived in the air and in the wilderness; they tortured man and beast. Christianity was born into a world infested by demons, like the world the Dutch missionaries entered in the East Indies (Wernick's Living Forces of the Gospel). Spirits acted in a great invisible kingdom of evil forces, with Satan at their head. Hence to cast out a demon was more than deliverance for the victim; it was a blow

struck at Satan himself. When Christ subdued a demon, it was manifest proof that he was mightier than the enemy; it was an earnest of the coming of the Kingdom of God. (See Luke 10: 18, 19; 11: 20, and compare Matt. 8: 29; Mark 1: 24; Rom. 16: 20; 1 John 3: 8.) Finally the devil and all his minions shall be destroyed in the lake of fire, Rev. 20: 10.

There was a tendency to regard disease in general as demon possession, not only derangement of the mind and nerves, but even dumbness and blindness and curvature of the spine. At the same time Jesus always speaks of two classes of infirm people, the sick as well as the possessed. Physicians might cure the sick, but in extreme cases it took the power of God to bring health just as it took the power of God to wrench a helpless demoniac out of the clutches of the evil one.

APPLICATION.

1. The nobleman in this story was of high rank and dignity in the royal service, and perhaps of royal blood. But high position, a beautiful home, lovely landscape and great wealth cannot buy immunity from human troubles and urgent need. Country life tends to freedom of social intercourse, and to free and practical expression of neighborly help. So all artificial barriers are broken down as the frantic father leaves the sick son in the home of luxury, where love and devotion and skill have done their utmost in vain, and hastens over hill and dale to distant Cana, to fall at the feet of the Galilean teacher. Jesus has been kind to others, the neighbors speak highly of him, and have great faith in him. He was the nobleman's last and only hope.

2. This is the first step toward a higher faith. It operates in the realm of the intellect. "Except ye see signs and wonders, ye will not believe." What are the facts? What is the truth? What principle is involved? What law explains the phenomenon? These are the questions our scientific age specializes in. The heart of this lesson is not the healing of the boy, but the inspiring of the boy's father with a true faith.

3. From believing the stories about Jesus, the nobleman passes to a higher stage of belief, that of trusting in the word of Jesus. Jesus would be loved not for his benefits, but for himself. "And the man believed the word that Jesus had spoken."

4. The highest and final faith is that which moves the will to decisive action. "He believed fully, altogether, in Jesus, not simply in his word, but in him, himself." This avowed discipleship included "his whole house." Vital faith is contagious, and infinitely more wholesome than discouragement or pessimism. Faith in Jesus is then a threefold process of growth, based on facts, inspired by personal trust, and coming to its fulfillment in right decisions, uplifting influence and noble deeds.

FRIEND DANDELION TELLS THE TIME.

I was in the meadow yesterday, Where the birds and the bees were all at play; I lay on the grass to look at the sky And I counted the cloud-ships floating by.

It was lovely: I'd stay there for always and all And pay no attention should anyone call.

Still, I thought, I'd better be sure— Tick! Tock! And there close by was the Children's Clock—

Dear old Friend Dandelion gone to seed; Who dares to call it a troublesome weed?

I plucked the beautiful, silvery fluff; "Now tell me, o'd dear, when it's time enough! Should I start for home?" I blew the seed folk,

One! Two! And three! 'Tis the children's joke!

They all flew away and I plainly heard A fairy speaking with low, sweet word:

"She's calling, calling you, calling you, dear, In the sweetest music you ever shall hear! When the Mothers call it is high time to fly,

For a mother's love is so deep and so high, So wide and so wonderful, blessed and sweet— When her voice says Come! You put wings on your feet."

So I ran and I ran, and I flew, flew, As the fairy advised: Wouldn't you? wouldn't you?

—Bessie Bonbright.

"Farm products cost more than they used to." "Yes," replied the farmer. "When a farmer is supposed to know the botanical name of what he's raising and the entomological name of the insect that eats it, and the pharmaceutical name of the chemical that will kill somebody's got to pay."

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

Only by the strictest adherence to quarantine regulations can dangerous communicable diseases be kept at a minimum. Those abusing the common welfare are public nuisances and should be prosecuted as such.

The vast majority of people are willing and anxious to assist the Health Department in observing quarantine laws, but there seem to be a few persons scattered throughout every district who have no health conscience—that is, they do not seem to realize the importance of any preventive or quarantine measures to prevent or curtail the spread of communicable disease.

Just recently I met a peculiar, but alas, all too common type of individual whose daughter had contracted scarlet fever. He was not at all willing to keep her isolated after the actual fever had passed away, his reason being that she had got the disease from somebody else and somebody else again could get it from her. A most despicable attitude, you will say and yet knowing that such people are about, can you wonder at the unsatisfactory results obtained sometimes even when the health authorities do their best to

educate the public as to the dangers of communicable diseases, and try to get public support and co-operation in carrying out measures that are necessary for the public welfare.

A few days ago in a Michigan town two cases of scarlet fever were reported by a citizen. When the state medical inspector arrived on the scene he actually found six cases. This state of affairs showed a gross laxity on the part of somebody, and as a result an epidemic of scarlet fever is now threatening that district. The despatch states that the blame for the situation in this Michigan town can be traced to abject carelessness on the part of the local health officer. But for the efforts of a former health officer, the schools would probably have been very poorly observed in the municipality, and on one of the persons disregarding it, a fine of fifteen dollars has already been imposed. It seems inconceivable that such vital things as health regulations should be disregarded in this day and age. If ignorance is bliss, then bliss is short-lived if the ignorance concerns itself with health matters.

World's Biggest Window Pane.

The largest sheet of plate glass in existence is to be seen at the British Empire Exhibition.

This mammoth window pane had an adventurous journey from Yorkshire to London. Being much too large for carriage by rail—for the sheet measures 14ft. by 24ft.—it had to be transported in an enormous lorry towed by a steam tractor. A special route had to be mapped out for the journey, and many detours were necessary to avoid bridges too low for the giant crate in which the glass was packed.

The area of this immense pane is 336 square feet, and the handling of so large a sheet of glass at Wembley was no light task, in spite of the fact that special apparatus had been installed for the purpose.

At the works the problem was solved by means of conveyors, equipped with huge suckers resembling the tentacles of a giant octopus.

A voice from an unseen presence close beside me said solemnly: "One who is good because he fears to be bad is not good at all."—Sifted Through.

Man's boldness and woman's caution make an excellent business arrangement.—Elbert Hubbard.

Certainly Well Trained.

Hubby—"Why are you so certain you can run the car?"
Wife—"Haven't I handled a vacuum cleaner for nearly two years?"

Speeding Up Production.

An old Chinaman, delivering laundry in a mining camp, heard a noise and espied a huge brown bear sniffing his tracks in the newly fallen snow.
"Huh!" he gasped. "You like my tracks, I make some more."

When the bright side is out it not only looks well but reflects the sunshine.

"Whence Cometh My Help?"

I sit beside the lake's blue loveliness,
My thoughts upon its deep tranquillity.
Till little cares and fears are strangely lost,
And something of its peace flows into me.

I walk knee-deep thro' meadow-grass
and flowers,
Beside a little gaily-lilting spring.
Till gaily and song fill all my heart
And little griefs that nested there
take wing.

I turn my eyes towards the mist-veiled
hills,
Until I draw from those vast outlines dim,
A portion of the strength and poise of
God,
For are not all these things a part
of Him?

—Constane I. Davies.

BABY'S OWN TABLETS ALWAYS KEPT ON HAND

Mrs. David Gagne, St. Godfroy, Que., writes:—"I have used Baby's Own Tablets for my three little ones and have found them such an excellent medicine that I always keep them on hand and would strongly advise all other mothers to do the same thing." The Tablets are a mild but thorough laxative which quickly relieves constipation and indigestion; break up colds and simple fevers and promote that healthful refreshing sleep which makes the baby thrive. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Blood, Red and Blue and Green.

It is not a mere figure of speech to speak of the iron in man's blood. That is partly if not wholly responsible for the color of human blood and perhaps in some inexplicable way is the source—or a source—of the superiority that the Mammalia possesses over lower forms of life. Professor Barcroft, an eminent English biologist, whose studies in the coloring matter of blood have brought much fresh information to light, is quoted in the London Times as follows:

Blood is not necessarily red. We cannot tell why it should not have been green. Indeed, among higher animals there are occasional specimens that tend in that direction. I have seen, for instance, a rat with brown blood. The cuttlefish has blue blood, or blood that is sometimes blue. Just as human blood changes its color each time it traverses the lungs, so that of the cuttlefish changes each time it is driven through the creature's gills. Our blood is purple when it reaches our lungs, red when it leaves them. Cuttlefish blood is colorless when it passes to the gills, blue when it leaves them. Again, there is a starfish in the blood of which you can see colors of the most diverse type—brown, purple, green, lemon yellow and indigo blue. The brown becomes green when it loses its oxygen.

These colors, owing to their power of carrying oxygen, enable an animal to grow large. Insects have no color in their blood, and they remain small. The mollusks singled out a blue pigment for their use—a color dependent on the copper that it contained. These creatures reached their highest development in the massive, but almost mindless, cuttlefish. The higher animals (vertebrates) chose iron-containing colors and have become the higher types of creation.

Two Good Reasons.

Pat is so fond of expressing his views on subjects of national importance that if he cannot get a listener it does not upset him at all, he just talks to himself.

He was a gardener, and his employer, at last, got very fed up with the man's constant mutterings, and one day said to him:

"Pat, doesn't it ever occur to you that your constant mutterings and talking to yourself are a great annoyance to other people? Why do you talk to yourself?"

"Shure, sir," replied the Irishman, "I have two reasons for that."

"What are your reasons?"

"One of them," replied Pat, "is that I like to talk to a sensible man, and the other that I like to hear a sensible man talk."

Frankie's Reason.

As Frankie stood beside his mother, who was making some purchases, the grocer told him to help himself to a handful of nuts. But Frankie shook his head.

"Why, what's the matter?" asked the grocer. "Don't you like nuts?"

"Yes," replied Frankie.

"Well, go ahead and take some."

Frankie hesitated, whereupon the grocer put a generous handful in Frankie's pocket.

When they left the shop, his mother turned to her small son and asked: "Why did you not take the nuts when the kind man asked you?"

"Cause his hand was bigger than mine!" Frankie replied.

The roar of a waterfall is produced by the bursting of millions of air bubbles.

Winnipeg Newsboy Wins Honors

Ben Loban, once a Winnipeg newsboy, who has just completed three years scholarship at the Royal Academy of Music, London, where he won two bronze and two silver medals as well as the final certificate of merit. This he accomplished in two and a half years, six months less than the usual time. Loban is 22 years of age, and has played before the Prince of Wales and Princess Louise. He commenced his studies at the Columbia Conservatoire at Winnipeg. The photograph was taken as he boarded the Canadian Pacific S.S. Montrose on his way home to Canada.

TOO MANY HOME CARES

One Reason Why so Many Women Are Weak and Run-Down.

The work of the woman in the home makes greater demands on her vitality than men realize, and there is always something more to do. No wonder women's backs ache, and their nerves are worn out. No wonder why they get depressed and irritable, suffer from headaches, and always feel out of sorts. But of course all women are not like that. What is the difference? A woman with plenty of healthy red blood in her veins finds work in the home easy; her vitality is at par. This points the way to health in women who feel run down and depressed. Make new rich blood. You can do it with Dr. Williams' Pink Pills. These pills have the marvellous property of building up the blood and toning up the nerves. That is proved by the case of Mrs. H. Eppinger, Scott Street, Vancouver, B.C., who says:—"Dr. Williams' Pink Pills brought back my health and strength and restored my nerves to normal condition after other medicines had failed. It was after the birth of my second child that I became so anaemic and nervous that I thought I would lose my mind as well as my strength. I tried several medicines, but got no relief until I was advised to try Dr. Williams' Pink Pills. After using a few boxes of these I could see a change. I felt stronger; my appetite was better, I slept better, and my nerves were stronger. I continued the use of the pills for some time, and again found myself a well woman, and I can sincerely say that my health has since been the best. I can cheerfully recommend the pills to all weak, run down women."

You can get these pills from your druggist, or by mail at 60 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

First Sunday School Founded by a Woman.

Sunday School Day, which has just been observed by more than 30,000,000 scholars and teachers in England, is a celebration that contrasts with the humble beginnings of the movement.

Sunday schools were formally founded by Robert Raikes, a Gloucester printer and publisher, who, in 1780, noticing some urchins playing in the street on a Sunday morning, collected a number of them and formed them into a class for private religious instruction.

His account of the innovation, published in the Gloucester Journal, was copied by the London press, and in this way the great Sunday school system was launched. A statue of Raikes is on the Thames embankment.

But it is wrong to credit him with being the sole originator of the idea. The honor rightly belongs to Hannah Ball, of High Wycombe, who opened a Sunday class in 1769.

In Great Britain and Ireland there are approximately 51,000 Sunday schools, 690,000 officers and teachers, and 6,670,000 scholars.—In all, 7,360,000 persons. From these figures it would appear that one in every six or seven of the entire population of Great Britain and Ireland attends Sunday school.

The present membership shows a decrease compared with that of ten years ago of about 900,000.

Something New in Soup.

James, aged five, was eating Sunday dinner at his aunt's house. The first course was turkey soup with macaroni in it. The aunt noticed James was not eating.

"What is the matter, dear?" she asked. "Don't you like turkey soup?"

"Oh, yes," answered the boy, "I like it when mother makes it. She doesn't put the windpipes in like you do."

It is only through labor and powerful effort, by grim energy and resolute courage that we move to better things.—Frank A. Vanderlip.

TANLAC MEETS TEST FOR OVER 3 YEARS

"The more I know about Tanlac the more I feel like praising it," says Mrs. Samuel Shelly, 56 Wood St., Toronto, Ont., Canada. "I always take Tanlac when I begin to feel run-down and it has met my health needs for the past three years."

"For years before I learned of Tanlac I was in such an awful rundown condition that at times I would get so weak and nervous I couldn't do my house work. I was down to almost a skeleton and still losing weight all the time. Headaches nearly drove me

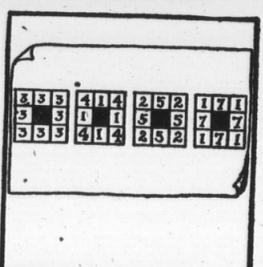

mad and I had a sickly, sallow complexion.

"Tanlac has increased my weight 14 pounds, and has given me a wonderful appetite. My nerves are steady. I sleep well and have health and strength that makes life a pleasure."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills for constipation; made and recommended by the manufacturers of Tanlac.

EASY TRICKS Nine In A Row

Draw on a large sheet of paper the design shown at the left. Place in each square (except the middle one) three coins, matches, buttons or other counters. Call to your friends' attention the fact that no matter how the counters are counted, there are nine counters in each row. The problem is to take away four counters and rearrange so that there are still nine matches in each row. The second problem is to return the four and four nine matches in each row. The third problem is to add four more counters and again rearrange to get nine in each row. The illustration shows the method.

(Clip this out and paste it, with other of the series, in a scrapbook.)

A SUBSTITUTE FOR CEDAR CHESTS.

I had always longed for a real cedar chest for storing furs and woollens, but always felt it just a little beyond my reach; so I decided upon a very good substitute: My husband made a pine box 48 by 20 by 18 inches, hinging on a cover securely and fastening casters on the bottom corners. The outside was given a walnut stain, then a coat of orange shellac, and lastly a good rub with wax paste.

The inside was saturated with oil of cedar, using a generous quantity and allowing it to soak into the pine. When dry I lined the chest with papers and it has answered every purpose of a cedar chest so far as moths are concerned and looks very well besides.

I have it sitting under a window and, with a sofa or pillow or two, it is frequently used as a window seat, so it really does double duty.

An ancient Greek rule of diet was: "Thin people should take little food and it should be fat; but fat people should take much food and it should be lean."

Dangerous.

Aunt Ann Allenby proudly showed Uncle Lije her birthday present. It was of silver and shaped something like a spatula, but broadened considerably toward the handle. Uncle Lije inspected it with curiosity.

"What is it?" he asked.

"Haven't you any idea?"

"Not the least in the world."

"Well," said Aunt Ann, "it's a pie knife."

"I haven't any use for it," declared Uncle Lije. "It's too wide, I couldn't eat pie with it 'thout cuttin' my mouth."

Minard's Liniment for Rheumatism.

A locust recently captured at Middelvel, in South Africa, had tied to it a message which proved it had travelled more than two hundred miles in twenty-four hours.

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women."

FACE BROKE OUT WITH PIMPLES

Hard, Red and Large. Itched and Burned. Cuticura Healed.

"My face broke out with pimples that looked terrible. They were very hard, red and large, and they feasted and scaled over. The pimples itched and burned something terrible. My face looked terrible and I hated to go any place. The trouble lasted over a year."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased more, and after using several cakes of Soap and a couple of boxes of Ointment I was healed." (Signed) Miss Gertrude Wagner, Rt. 5, Britain Ave., Benton Harbor, Mich., Sept. 10, 1923.

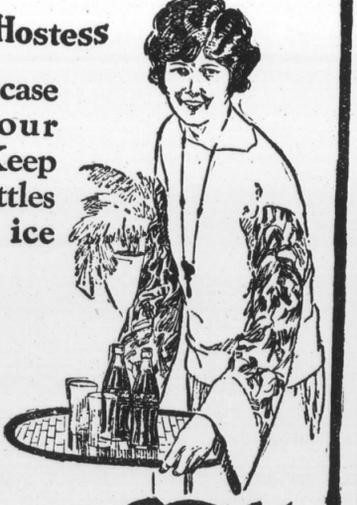

Use Cuticura Soap, Cuticura and Talcum daily and keep your skin clear and healthy.

Sample Each Free by Mail. Address Canadian Depot: Cuticura P. O. Box 2618, Montreal. Price Soap 25c, Ointment 50c and 10c. Talcum 25c. Try our new Shaving Stick.

ELGIN BRIDE-TO-BE IS REMEMBERED BY NUMEROUS FRIENDS

Miss Lola Judson Tendered Miscellaneous Shower.

NEWS OF THE DISTRICT

Large Number Employed on Road Construction Work at Maitland.

Elgin, Aug. 23.—A social and interesting gathering was held on Friday of last week at the home of Mrs. Lloyd Halliday, when the pupils of Miss Lola Judson's Sunday school class assembled in a farewell party in honor of their teacher's approaching marriage. An address of appreciation of her untiring faithfulness in their behalf was read by Miss Hilda Kerr, and at the proper time Little Miss Ursula Drummond presented her with a beautiful sterling silver butter dish. Although taken quite by surprise, Miss Judson replied in appropriate terms. Refreshments, served by the hostess, were then partaken of, after which the company dispersed, extending their love and best wishes to the bride-elect.

On Saturday last Miss Grace Stanton held a miscellaneous shower in honor of Miss Judson's marriage on September 3. Some 24 ladies were present, the gifts presented being both beautiful and useful. Lunch was served and a very pleasant afternoon spent by all.

On Thursday Miss Aileen Ripley gave a teaparty to a number of her girl friends. It was thoroughly enjoyed by the young folk.

Mrs. G. W. Earl, Mrs. Harry Smith and two children are spending a few days with relatives in Scottsville, N.Y.

Miss Nellie Coon, of Athens, is visiting her sister, Mrs. M. E. Ferguson.

Mrs. Eaton, Lyn, was a recent guest of Mrs. Pinkerton.

Mr. and Mrs. Harold Mustard and daughter, Margaret, have returned to their home at Guelph.

Mr. and Mrs. R. J. Powell spent part of last week attending the Brockville exhibition.

Miss Brown, Glen Elbe, is the guest of Miss Marjorie Charland.

Visitors over the week-end include Clarence A. Halladay and son, Hubert, Ottawa, at his father's, E. V. Halladay's; Mrs. John Fleming at Mrs. C. X. Halladay's; Miss Mabel Pierce, Toronto, at J. F. Earl's; Miss Alma Hillman, Chapeau, at Mrs. S. J. Kelly's; Miss Grace Delong, Toronto, with her parents, Mr. and Mrs. J. G. Delong; Mrs. John Bath, Montreal, with her sister, Mrs. Oscar Nuttall.

Mr. and Mrs. Robert Mustard left this week to visit relatives in New York city.

Dr. Berliner and family, New York city, were calling upon friends in the village.

William Fleming spent a few days at his home.

Donald D. Coon leaves this week to attend the Sherbrooke fall fair.

Mr. and Mrs. Albert Bryden spent Sunday at Crosby.

Miss Mildren Coon is spending a few days at her home before returning to Ottawa. Miss Marian Coon will accompany her to continue her studies.

Mr. and Mrs. L. C. Ripley, Kingston, were guests of relatives here.

LYN

Lyn, Aug. 25.—There were large congregations in the Methodist church on Sunday last when Rev. F. G. Robinson, the newly-appointed minister, occupied the pulpit. Mr. Robinson's morning subject was "The Power of True Religion," and in the evening "An Astonishing Announcement." There was good congregational singing and the services were very inspiring. The officials of the church are very much encouraged and are looking forward to increased congregations and prosperity in all directions. All members and adherents are invited to be in the places on Sunday next. Last Sunday morning the Sunday school had a record attendance.

A JILTED MAN GETS LITTLE SYMPATHY

Man is popularly supposed to be more inconstant than woman, but is this really the case?

When a woman has been jilted she invariably receives sympathy from her friends.

But if the man gets thrown over by a woman, he must hide his hurt as best he may.

There is something ridiculous in the suggestion of a man suing for "breach of promise," and yet he is often deeply injured in heart, pride and pocket.

The very idea of a man being jilted causes laughter. He receives scant sympathy; and "if he cannot keep the woman's love he deserves all that is coming to him" is apparently the universal creed.

On the other hand, the rejected woman is wept over, consoled with, and may go through life expecting and receiving commiseration for man's perfidy.

There is a lot to admire in male stoicism on these occasions.

He will love again, of course, but if this kind of "affaire" has been his sad lot in early manhood it will forever influence him.

We are told that the modern girl no longer believes in the union of two souls, the surrender of heart to heart, the wonderful hope which glorified her maternal forbears through all the ages.

She thinks nothing of becoming engaged to be married two or three or even more times. That being so, the man will just drift from one woman to another, expecting nothing, receiving nothing. He can take comfort in that he also will in time become independent of woman's loving-kindness. But many of us there are who will regret the day when men no longer turn to women as their inalienable right for help and sympathy.—Toronto Telegram.

GOOD MANNERS IN PULLMAN CAR

But little caution is necessary today as to the use of public drinking cups, towels and toilets, since sanitary measures are everywhere prevalent. But a word or two with regard to the individual traveler's attitude toward the conveniences placed at his disposal may not be amiss, says Delia T. Sutes.

One wonders, sometimes, just why a woman, who by her clothes and manner, is quite accustomed to the decencies of civilization, will leave the dressing-room of a Pullman car or steamer in the condition she does. Receptacles for hair combs are carefully hung in the dressing-room shelves, and yet many women will wrap up their combs and throw them on the floor or in the soiled towel rack.

Powder is scattered over shelves and on the floor with a wanton carelessness that is worthy of a visitor to the washrooms at Coney Island.

And as for letting the water run from the basin and wiping it out with a soiled towel—it almost seems as if seven out of ten women fail to perform this little act of cleanliness and tidiness.

It requires but a few moments of one's time to let the water run from the basin and then to take a soiled towel and wipe it out; and yet you will find women leaving their wash-water unemptied, the basin splashed with suds, powder scattered over shelves, and perhaps on the chair, with quite possibly a wad of hair lying underneath the mirror.

The same thing is true of the stateroom on the steamer and the hotel bedroom.

Putting aside what we hope, however, is a needless admonition, there is still room for plenty of reproof in the lack of consideration shown by many women toward the management of the institution which gives shelter for the moment. The attitude of such seems to be that of the blustering man who says: "Well, I guess I'm paying for this, ain't I? What's the porter here for, anyway?"

This manner on the part of travelers is responsible for much of the exorbitance in price of which they complain. If people require needless and extravagant services, they must expect to pay for them. If they will carry off napkins, towels, spoons and silver cream jugs as souvenirs—somebody has to pay for them. It is a vicious circle, and one that nothing but combined effort can break.

There is sometimes a temptation to yield to the feeling that because we are a stranger and no one now in attendance will ever see us again, we can do things we would not otherwise do, but this does not let us out of the duty we owe ourselves, or the self-respect that comes from behaving ourselves decently and orderly whether anyone sees us or not.

APPLE SHORTCAKE

Bake a round cake of rich baking-powder dough in two half-inch layers, brushing the lower one with melted butter before adding the top; the oven should be very hot. Brush top with butter or margarine when done. Lift top layer, butter liberally, and fill with rather thick hot sifted apple sauce which has been sweetened and flavored and a teaspoon of butter added. Put more apple on top and heap with whipped cream if you wish; it is very nice without. Garnish top—whether of cream or apple—with thin slices of bright jelly, and serve immediately. Both cake and apple may be cooked in the morning when the oven is hot, and reheated; your family will be none the wiser.

RIDDING HENS OF LICE

The Best Poultrymen Now Favor Using Sodium Fluoride

It Is Very Effective—The Dusting and Dipping Methods—Other Means Suggested—Hardy Alfalfa in Ontario.

(Contributed by Ontario Department of Agriculture, Toronto.)

In the control of poultry lice one remedy has come very much to the front during the past seven years. It is sodium fluoride, a chemical that is easy to obtain, easy to apply, effective and safe in its application. Sodium Fluoride Very Effective.

Sodium fluoride may be obtained in fine white powder form or as fine crystals. The powder form, if guaranteed 90 to 98 per cent. pure, is the most desirable form to apply as a dust. Sodium fluoride retains its efficiency, and may be kept if need be in closed tight bottles or cans and used when wanted. One application, if thorough, will destroy all lice on the birds and remain effective long enough to get many of the parasites that hatch later. There are three methods of application in common use; all are effective, but the "pinch method" is the most commonly practiced in small flocks. It consists of the application of the sodium fluoride powder directly to the skin and feathers of the bird, the operator taking up what he can hold between the thumb and forefinger and applying on breast, each thigh, each side of back, on the neck, head, underside of each wing below the vent. It takes ten pinches of the chemical to cover the bird by this method and skilled operators can handle sixty birds an hour.

The Dusting Method.

The dusting method of applying sodium fluoride is by mixing with a filler material, as flour, talc, or plaster, to make four times the bulk of the insecticide, and then apply by shaker or blower duster to the ruffled feathers of the bird. Greater speed in treating the birds is secured at a greater expenditure of chemical.

The Dipping Plan.

The dipping method of applying sodium fluoride can be practiced during the summer and early autumn season when there is ample warmth and sunlight to dry wet birds. The bath is prepared in a wooden tub and consists of one ounce of commercial sodium fluoride to a gallon of warm water. Sufficient quantity should be mixed to handle the work at hand. Five gallons of the solution will do for 100 birds. The birds to be treated are placed in the dip for twenty seconds and just before removal the head is soiled and the bird taken out and allowed to dry. The dip should be body heat for fowl, about 107°, and the work done on a quiet, bright day, when it is warm enough to dry the birds quickly.

Other Means Suggested.

There are a number of other methods that have proved to be highly efficient, among which the carbolic acid, gasoline and plaster of paris mixture is coming into general use. Thus dusting powder is prepared by mixing three parts gasoline, one part carbolic acid (90 per cent. pure) and stirring in enough plaster of paris to take up all moisture. It is applied as a dusting powder with a shaker or by hand.

A medicated dust wallow beneath the shade in the poultry yard or within the shelter of the building is a great aid in keeping the louse population down. A box partly filled with fine road dust to which tobacco dust has been added at the rate of one to six, is very useful and relieves the old hen of many an itch.—L. Stevenson, Dept. of Extension, O. A. C., Guelph.

Hardy Alfalfa in Ontario.

A large number of tests have been conducted in past years on the experimental plots at the Ontario Agricultural College with different varieties and strains of alfalfa. It was discovered more than a decade ago that the Common alfalfa from the Central Western States would not live long in Ontario. Variegated alfalfas, such as the Grimm and the Ontario Variegated, however, proved hardy in this Province. These two varieties are now increasing substantially as the farmers appreciate their superiority over the Common, violet flowered variety.

In one experiment at the College alfalfa has been cut for hay three times a year for eleven successive years without re-seeding. The first cutting this year, therefore, is the thirty-fourth crop obtained from the one seeding. The average yield of hay per acre per annum from the eleven years of this test was slightly over four tons.

In another experiment of thirty-four plots seeded in the spring of 1922, the highest yield of hay from the first cutting of this year was of the Variegated type.

The Common alfalfa has variegated flowers of different densities and the Variegated alfalfa has violet, green, blue and yellow of various blends which can be seen when the blossoms are fully opened.

Several carloads of seed of high quality of Variegated alfalfa have been produced and sold for seed purposes in each of the past two or three years in Peel County alone. Also in a number of other counties seed of the Variegated type of alfalfa is being produced.—Dept. of Extension, O. A. C., Guelph.

MAITLAND

Maitland, Aug. 26.—Mrs. Kyes, of Gananoque, visited her brother, Guy Wood, recently.

A large number of men and teams are employed by the Milligan Co. at the quarry and on the piece of road which is being rebuilt a short distance above Maitland.

Miss Helen McKim, of Ottawa, was a recent visitor at the home of her grandparents, Mr. and Mrs. John McKim.

The home of Mr. and Mrs. Austin Fox, sr., was the scene of a happy family gathering when children and grandchildren to the number of 57 assembled to honor Mr. Fox on his 73rd birthday. Six sons and six daughters comprise the family and all except two reside within a short distance of the homestead.

Mrs. A. Pearson and little son have returned from a visit to the former's home in Scotland.

Willis Wilson is having his annual vacation. Mr. McKee is supplying as operator.

School will commence on Tuesday. Miss Kearney, of Westport, has been re-engaged at Maitland school and Miss Piercy, of Cornwall, at Haley's school.

The school ground is becoming a popular place for campers, several automobile parties having spent the night there this summer.

Miss Bernice Wilson, R.N., Clifton Springs, N.Y., is spending her vacation with her sister, Mrs. Donald Giffin at the Henderson cottage.

Dates of Fall Fairs

The Fall Fair Dates in this district as issued by J. Lockie Wilson, superintendent of the Department of Agriculture, are as follows:—

- Alexandria Sept. 18 and 19
- Almonte Sept. 16-18
- Arden Oct. 2
- Arnprior Sept. 23-2
- Avonmore Sept. 30, Oct. 1
- Carp Sept. 30, Oct. 1
- Centreville Sept. 19 and 20
- Cobden Sept. 24 and 25
- Cornwall Sept. 4-6
- Delta Sept. 15-17
- Frankville Sept. 23 and 24
- Kemptville Sept. 25 and 26
- Kingston Sept. 16-20
- Lanark Sept. 13
- Lansdowne Sept. 11 and 12
- Lombardy Sept. 12 and 13
- Maberly Sept. 24
- Merrickville Sept. 16 and 17
- Napanee Sept. 9-12
- Odessa Sept. 25 and 26
- Ottawa (Central) Sept. 5-15
- Parham Sept. 10 and 11
- Perth Sept. 3-5
- Renfrew Sept. 16-19
- Spencerville Sept. 23 and 24
- Stella Sept. 30
- Vankleek Hill Sept. 25 and 26

SOMETHING SPECIAL

- Lily White Baking Powder 25c lb.
- Extra good Red Salmon 18c for halves
- Extra good Red Salmon 30c
- Sheariffs Jelly Powder 3 for 25c
- New Honey 15c per lb.
- A full line of Fancy Biscuits from 20c up.
- Soda Biscuits 15c per lb.
- Ice Cream Powder 15c per pkg.
- Extra heavy lamp chimneys 15c each
- All Laundry Soaps 3 bars for 25c
- Toilet Soap, Palmolive, Infants Delight, and Lifebuoy, 3 for 25c
- Brooms from 60c to \$1.10

Just received a supply of fresh Cabbage, Tomatoes and Celery.

Something special in Soap. Come and see what we have.

D. DACK & SON

Groceries Confectionery Ice Cream

Purcell's Hardware

Lest you forget

- Arsenate of Lead 50c lb
- Paris Green 65c lb
- Muresco White 60c, Colors 65c package
- House Paint 75c quart
- Floor Paint \$1.00 quart
- Plymoth Gold Medal Binder Twine, 650 ft. to the lb. 16c a lb

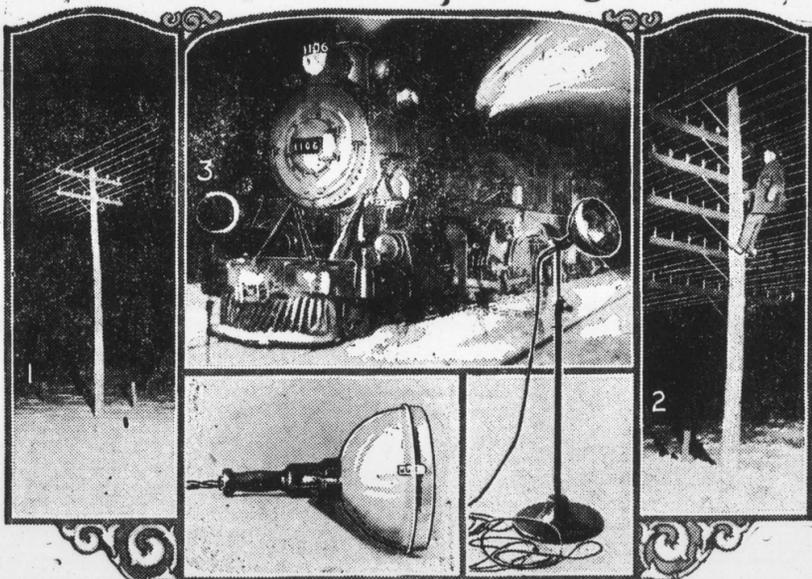

Goodyear selected dealer for Athens. Ames Holden selected dealer for Athens.

White Lead, Paints, Oils, Varnishes, Gasoline, Tires, Tubes and other necessities too numerous to mention.

Come and give me a call.

New Lamp Facilitates Night Work

1 and 2, views of wire as illuminated by lineman's lamp. 3, Looking at the engine in the same light. 4 and 5, the lamp.

IN the past interruptions to telegraph service caused by damage to outside wires could only, in the majority of cases, be rectified by daylight, when the damaged section could easily be located. There is no doubt this was a disadvantage which delayed the recovery of interrupted services. Where the trouble may have been anywhere along the line between points some 20 to 100 miles apart it was not possible to take care of the interruption especially at night. To overcome the disadvantage due to night interruptions to its wires, the Canadian Pacific Railway Telegraphs provided a special electric light and all the linemen on the System were equipped with it, enabling them to successfully take care of interruptions and do their work at night as well as by day. The special light is provided with its power from the locomotive dynamo turbines with which all Canadian Pacific locomotives are equipped.

The special light in itself is of simple construction, the power is derived from the dynamo turbine from the locomotive which provides electricity for the illumination of the headlights and cab lights. A headlight globe is used and an especially designed reflector throws a beam sufficiently strong to allow working operations at a distance of 600 feet. The conducting wire attached to a socket in the cab of the locomotive is of sufficient strength to enable the operator to work any place within two car lengths of the locomotive. There is also a semi-permanent stand to which the lamp can be attached for the convenience of men working at night on bridges or, in fact anywhere that requires a steady flow of light. The lamp can also be interchanged of globes be used where there is a domestic current, but not with such good effect.

As there is so much that can affect the Telegraph System, such as fire, aurora, lightning, snow, wind and rain, the advantage of being able to locate the source of trouble cannot be overestimated and time and time again, when the lines have been seriously damaged during the night, it has been found that the electric hand lamp, which is now used throughout the System, has been of great benefit. During the past winter when the service experienced a considerable number of interruptions the lamp was often used during snow and sleet storms and not in one instance is it known of its having failed to meet all services put upon it. There is no doubt that the perfection of this lamp has been a decided progressive step in telegraph maintenance at night.

'Mountie', A Husky Veteran of the Trail

VISITORS to the Chateau Frontenac at Quebec and especially those who patronize the Winter Carnival there in February have a treat in store for them—that of driving behind a real northern dog-team, led by one of the greatest huskies "in the business," Mountie, the latest acquisition to the team.

In November it was found necessary to secure a new leader for the Chateau Frontenac huskies. It was decided that none but the very best available would do. Wires and letters were sent broadcast throughout the Canadian sub-Arctic to Edmonton, Le Pas, Fort McMurray, and Peace River; in fact, to every point whence a husky of suitable standard might be secured. It was only after a three weeks' search by many authorities on huskies that Mountie was eventually secured at Le Pas, Manitoba, the price paid greatly exceeding that usually given.

It was a real stroke of luck which secured this splendid animal, for he is a veteran of the northern trails and, more than that, as his name implies, has done practically all his service with the Royal Canadian Mounted Police. Hailing originally from Lac-du-Brochet, in the far North, he was bought by Sergeant Grennan of that famous force in 1919, when

very young. His training was carried out by the Sergeant and so well did he acquit himself later that the Mounted Police wrote of him: "He has never missed a patrol or been a day off duty since we have had him."

So he is a real Policeman and no mere movie hero, co-worker for years with the comrades of such men as Dempster, FitzGerald and other heroic trail-makers of Canada's glorious corps, a comrade grown old in battling through snow and storm on the King's business for the maintenance of the right.

Mountie, as one of the finest huskies ever kept on the books of the Police, is a magnificent-looking fellow, a dark grey giant with shining, slit eyes, pointed ears and muzzle, thick fur and gleaming fangs. There is about him more than a breath of the keen, romance-laden Arctic winds and one is not surprised to learn from the Mounted Police that "he has always been admired wherever he has been, both from appearance and capabilities."

The work at the Chateau Frontenac will be puppy's play to Mountie after the desperate toil he has known in the far North. But he deserves well of the people of Canada and has nobly earned his rest and the comfort he will henceforth enjoy.

Women and Home

DIRECTOIRE STYLES ARE TO RETURN

When the autumn dress "openings" are held in the Paris ateliers—and the first displays will take place disconcertingly soon—the eyes of the dress experts who will then make their preliminary inspection of autumn fashions will be directed not, as of recent seasons, to the feet of the mannequins, but to the waist line.

Frankly, the skirt "stunt" has been exploited to death by those makers of modes who courted notoriety by sensational changes in the length of women's skirts.

Paris has alternately dropped the skirt of fashion to the toes and lifted it on a level with the knees, and the best-dressed among women—with a tenacity unusually where season's modes are concerned—have remained steadfast to the skirt of reasonable brevity.

So in the next fashion season the waist line, at present practically non-existent, is to be the means by which the designer will "date" the new creations. The waist line, such as it is, cannot possibly drop lower; already it is perilously near the knees.

Two alternatives present themselves—the waist may attain Directoire heights or it may return to the natural line.

Possibly the second alternative would be the most daring, but the first indications of the designers' intentions in the waist department point to the high waist line again. A famous fashion-creating house has already launched an early autumn with a waist that comes just below the arm pits. This dress that may point the way of the waist line, is of navy blue crepe de chine, made in three-piece style, embroidered with cream silk.

THE HOME-COMING

There's an old home down by the river's brim,
That is full of memories,
Of happy days, spent in childhood there,
In bygone days, how wondrous fair
Are those memories still to me.

'Twas a winding road that led you there,
Mid fields that were green and gold,
Like a beautiful garden, rich and rare,
God's garden of Eden planted there,
In those beautiful days of old.

Throw open wide the gates of home,
To those who return once more,
Back to each old familiar place,
To the scenes they loved, to each kindly face,
That they knew in days of yore.

Throw open wide to them your hearts,
Bid them a welcome true,
That each may feel as you gasp his hand,
That nowhere else in this broad, fair land
Can compare with the home he knew.

In the olden days, youth's golden days,
That to them can never fade,
So let each welcome to them recall,
A pleasant memory that one and all,
May remember the new friends made.

—Charles E. Pegley,
Sandwich, Ontario.

WORTH KNOWING

With your morning cereal serve sweet fruits such as dates, figs or bananas, because acid fruits sometimes interfere with the digestion of starch.

When making pies use clean waxed paper to roll the dough in and roll with a round bottle filled with ice water.

The most useful clothespin bag is shaped like an apron with a wide pocket. The whole apron should be shallow and wide.

It is wise to remove clothes from the line as soon as they are dry. They collect dust and frequently tear in weak spots when caught in a very high wind.

When filling glasses or jars with preserves or jelly, place them on four thicknesses of a cloth that has been wrung out of cold water. Don't let them touch each other. If you do this they will not break.

A splendid dry mop can be made from the legs of old black stockings. Cut the feet off about fifteen stockings and slit them open lengthwise, then sew them together and fasten them into a mop handle.

The only period in a woman's life when she gives any thought to dress is that between the cradle and the grave.

In hot weather, a substantial salad may wisely be used as the only dish at lunch or supper.

Brown bread, cream, cheese and freshly mixed mint leaves make extraordinarily good sandwiches.

When mixing mustard use milk instead of water. This will remove the bitterness and the mustard will keep fresh a week.

Light colored carpets should be rubbed occasionally with a little block magnesia. This will keep them in excellent condition.

To wash mirrors and windows rub over with chamois skin wrung out of warm water, then wipe with a piece of dry chamois skin.

Foods that have the least staying power—that is, that leave the stomach empty soonest—are breads, breakfast foods, sugar and starches.

Sheets of newspaper spread on the floor under a carpet are excellent for keeping away moths. They will never go anywhere near printer's ink.

To prevent raisins from sticking when putting through a mincer, dip the mincer into boiling water, and the raisins will come through without any trouble.

The tops of long kid gloves are usually in good condition after the hands have become badly worn. These tops may be used to make very attractive ladies' booties.

Wilted flowers can be revived by putting them in water in which a quarter of a tablet of aspirin has been dissolved.

Rugs inclined to curl at the corners and edges will lie perfectly flat if a strong hat wire is sewn firmly around them.

To keep brasses clean try rubbing with a damp potato. Even in damp weather they will keep clean nearly a week if this is done.

Sleeves of old raincoats can be made into bags for carrying sponges, etc., when travelling.

To protect raw meat and fish from flies, rub a little vinegar over. A little added to the water in which vegetables have been steeped will kill insects.

Soapsuds should be kept for the garden and applied when cold. They are especially good for roses. To rid rose-bushes of insects syringe well with soapsuds.

STUDY FACE BEFORE BOBBING HAIR; ADVISES BARBER KING

If you belong to that vast army of girls and women who are contemplating the big step of bobbing, do not let the barber's shears snip off your locks until you have studied your own particular type of head and face. That's the advice of Frank Bolney, Vancouver's king of bobbing artists.

"A girl with a long, thin face and straight hair should have her hair cut fairly short—about halfway down the head," he says. "That gives balance. Fluffy hair looks better with a long, thin face. It fills out the hollows. By cutting it a little longer the hair may be curled."

"A King Tut straight bob with a point—never fluffy—is very attractive on a girl or woman with an oval, boyish face. The round-faced girl must be careful. Her hair must be fairly long because if it's too short and the girl is inclined to be stout, the neck and jaw appear too heavy with a short bob."

"Bangs or the hair drawn softly across the brow is the recipe for high foreheads," Mr. Bolney pointed out.

Mr. Bolney sees six good reasons why Vancouver girls and women should bob their hair:

1. Cleanliness. Hair may be washed once or twice a week without difficulty, and this will make it fluffy, thicker, of a better color and more

glossy.

2. Youthful appearance. Almost any girl or woman looks younger. Shingles are awful, according to Mr. Bolney. He favors bangs and straight lines. Bangs hide wrinkles and hollows of temples, also doing away with straggly hairs.

3. Lighter weight. Women and girls who have suffered from headaches while carrying around heavy hair find the pains disappear with the acquisition of a bob.

4. Saving in time. Even the time needed for marcelling and curling does not equal time formerly employed in re-arranging coiffures.

5. Suitability for athletics. After swimming it is easily dried, and in games it does not "come down" or become tumbled.

6. Psychological effect. Girls and women act differently after bobbing. It braces them up. They seem younger in outlook.

Men have no right to criticize the women's new style of hairdressing. Mr. Bolney points out after 15 years experience in barbering.

"They have had 20 different styles of haircuts in the last 10 years," he says. "There was the old puff hair cut, when the men achieved a bobbed effect by wearing their hair long and having their necks shaved. Women never complained then. Since that time, there has been the brush pompadour, the long pompadour, the sleek haircut and at the present time the jazz haircut, which is long on top, clipped close at the back and shaved over the ears." A very few men marcel their hair and ask for preparations to make it curly, while scores of young men buy brilliantine to keep their hair plastered down and to give it that fashionable gloss."

GINGER CREAM

Soak and dissolve ¼ oz. of gelatin in a teaspoonful of milk. Chop 1½ oz. of preserved ginger. Whip half a pint of double cream, add to it 2 oz. of sugar, a tablespoonful of syrup of ginger, a few drops of ginger essence, and the gelatin, which should be a little cool. Lastly, add the chopped ginger. When the mixture appears to be on the point of setting, pour to get firm.

COURTESY WHILE VISITING

To city dwellers the influx of summer visitors brings a groan of dismay at thought of the wearing round of sightseeing to be gone through. Naturally the relative from the Far West wants to see the attractions of the Eastern coast or inland cities, and the Easterner is eager to see the famed attractions of the sunset country. Southerners find Canada fascinating and Canadians are interested to see the tropical beauty of the Far South. The relative from the remote village is awed by the great museums and the city person likes to wander along country roads.

To the hostess whose task it is to do honors to her community, this means not only a serious interruption of her customary routine, but the fatiguing experience of walking or riding miles a day to look at things she has seen a thousand times before. Her heart may be gladdened by a visit with her friends or relatives, but her exhausted body is apt to collapse after the last of them has said good-bye. Yet she has to keep going, hospitably and cheerfully.

It is up to visitors, therefore, to make sight-seeing as little of a tax on the hostess as can be managed. If a trip is planned for one day, the guests should tactfully go off by themselves the next day, shopping or making a side trip, while the hostess rests and devotes her time to her household. If a dinner and theatre party is arranged for one evening, visitors should insist upon not attempting anything energetic for the next day.

We are all as busy as we can possibly be, most of the time. Even one additional jaunt takes time so much out of our program of daily duties; and when this is multiplied by incessant sight-seeing for several days, the home routine gets sadly behind and the home-maker desperately weary. The thoughtful guest can easily plead special errands which can be done without the hostess accompanying her, and this gives the latter a chance to catch up with her many little responsibilities to family and neighbors.

A great mistake generally is to take a child on a sightseeing tour. Children invariably get tired and cross and beg to go home before the party has fairly started. Leave the little folks behind when visiting are galleries, climbing towers, wandering through departmental stores, or otherwise seeing the sights.

HOUSEHOLD HINTS

When shredding soap use an old grater instead of a knife. The shavings will be much finer and dissolve more readily.

Add a few slices of raw potato to soup into which too much salt has been put. Cook a little longer, and the defect is remedied.

The polishing brush should be washed regularly with soap water and kept quite clean, otherwise it will soil the article to which it is applied.

If the lid is difficult to remove from boot, metal, or furniture polish, put the tin on edge on the floor, and roll it to and fro with your foot, and the lid will soon surrender.

Large Percentage of Accidents Preventable

Windsor Station, Montreal, headquarters of the Canadian Pacific Railway. Inset, Mr. E. A. Cunningham, who says that the study of safety is not a matter for large corporations, but is as broad as the nation is wide.

MR. E. A. CUNNINGHAM, efficiency engineer, Canadian Pacific Railway, who is also chairman of the Traffic Section, Province of Quebec Safety League, referring to the terrible toll of deaths from street accidents during late years, said that the study of safety is not a matter only for large corporations, or industrial firms, but is as broad as the nation itself. "The practice of 'Safety First' on the railways," said Mr. Cunningham, "has necessarily developed into a complex study in which each individual must play his part." Observation of rules for safety, everywhere, and under all conditions, concerns not only employers, employees, and their families, but everybody with humane principles, and every consumer of the products of industry. "Safety First" might with advantage be in the thoughts of everybody in this city and province. The heavier the casualties, in mines, factories, shops, department stores and office buildings, the larger the insurance and damage bills.

This is reflected in taxation and in the price of every manufactured article. Those who have inaugurated, with such outstandingly meritorious success, the various Provincial Safety Leagues rightly summon every industrial, civic, educational and social organization to co-operate towards the prevention of the great human waste that now occurs. We are told on high authority that there is a very large percentage of accidents preventable. Precautions are being very rigidly observed by the Canadian Pacific people, which is best exemplified by the record of "crossing" accidents for the last three years in the Quebec district, —an analysis which proves that while there have been many regrettable accidents, those that could be attributed to neglect or carelessness of railway employees have been negligible. Campaigns of safety are being carried out in many ways, comprising talks to employees, under the St. John Ambulance Association,

as well as practical hints on industrial hygiene; the prevention of accidents; publicity advertising, and motion pictures that impress the lesson of prevention and avoidance. There is no reason why this good work might not be successfully carried out, in the schools, by the Rotary, Kiwanis, Lions, and other clubs; in the church itself, as well as in the shop, factory, railway employ, or elsewhere.

Visits to plants where safety appliances have been installed convey a striking testimony. A careful worker is the best safety device, after an employer has done his duty to his employees to the best of his ability. The dissemination of knowledge by the traffic section of the Safety League will eventually pay dividends and pay in health by escape from hazards. Organization against accidents can save life and limb, and expresses itself in warning signs, appeals to be careful and in safety committees. The motto nowadays should be not so much "Safety First," but "Safety at All Times." The good work being done by those who have saddled themselves with the labor of love of conserving the life and limb of the community should set the populace thinking, with the net result of declining casualty lists, and more contented citizens.

The "Stop—Look—Listen" campaign now under way is a most commendable one, and if it could be carried into effect, at all times and under all circumstances, by all classes of the community, what a happy, healthy place this metropolitan city of Montreal would be, and what a harvest of indirectly beneficial results would be garnered in by the obviation of accidents, deaths—and their consequential unhappiness and loss. The railway men's motto is an excellent one, which says:—"When in doubt, make sure." Those with any degree of responsibility might with advantage take the advice to themselves and act thereon.—Montreal Gazette.

The Fine Qualities of "SALADA" GREEN TEA

cannot be adequately described but they can be appreciated in the teacup.
FREE SAMPLE of GREEN TEA UPON REQUEST. "SALADA," TORONTO

A NEGATIVE RESULT

BY WALTER E. GROGAN.

PART II.

A granite boulder was embedded in the earth a few yards away. Was it possible that some one could remain hidden behind it? The Political Magnate, despite the sun, suddenly felt cold. He walked briskly round the stone. It was as he feared. The ground at the back was considerably lower than in front. In the hollow, propped against the granite, sat a man. And beside him that horrible thing, a hand camera. The man was staring out over the moor. His eyes were vividly blue. He turned his head as the Political Magnate approached him, and then resumed his stare over the heather.

The Political Magnate thought rapidly. The wind was off shore and both the General and himself had spoken quietly. It was almost impossible that the man could have heard anything. But the camera! He had one terrifying moment in panic.

"Wonderful view," said the Political Magnate affably.

"Wonderful," the man agreed.

"You have a camera, I see. Been a good day for that sort of thing?"

"Quite good. Perhaps a little too much light though." The man betrayed very slight interest. There was a lack of that enthusiasm which proclaims the amateur. The Political Magnate's heart sank. Evidently a professional operator; probably press.

"Have you taken many—er—pictures?"

The man smiled. It was a most alarming matter—a peculiarly gratified smile. It suggested much to the Political Magnate. "All the plates have been exposed," the man said. "It is a pity that there were no more."

"Really?" The Political Magnate thought rapidly. "I have often wished to possess a camera. A most interesting hobby—most interesting?"

"Oh, yes," the man agreed idly. "One comes across a subject now and then that is well worth taking. It is a question of luck." The Political Magnate winced.

"Ah, yes. I suppose so. Is there much to be made at it? As a commercial proposition it is remunerative?"

"Not if it is merely a hobby." The man smiled again. A baffling man, a man who was cautious, who was anxious not to give himself away and yet a man who could not help smiling at his own thoughts. He was careful too not to meet the Political Magnate's ingratiating look, but stared steadily out over the landscape. "You may sell an occasional negative to a paper you know."

"Yes, I know," the Political Magnate replied quickly. "Look here, what do you want for your outfit— all of it, camera, plates, all?"

"Want for it?" The man's voice sounded puzzled.

"I should like to buy it. It's—it's a whim of mine. I have these sudden impulses. Just name your own price." He took out a large handkerchief and mopped his face. Curiously enough, although the perspiration rolled down his forehead, he felt cold and clammy.

"It is not mine to sell," the man told him. It is the property of his paper.

"What's this?" cried the man, starting, but making no effort to look at the notes.

"Payment for the outfit." The Political Magnate seized the camera and the satchel and started to run. The man swore loudly after him. The Political Magnate ran all the faster.

An hour later the man woke up at the sound of a human voice.

"Pulford," he cried. "What's happened to Tom? He went off to Coombe Regis to get more plates somewhere about eleven. I guess it's about five now."

"Just on," Dr. Pulford replied. "Tom sprained his ankle badly coming back to you. It was a long time before he made anybody hear. He's in my surgery now and will do well."

The man held up his right hand with the wad of notes.

"Look at that, Doc," he said. "Some madman gave them to me and scooted with Tom's camera and all. He must have come up here when I was asleep. He wasn't here when Tom left me. The beggar never found out what was the matter with me," he added proudly.

"Good heavens!" Dr. Pulford cried in astonishment. "Two hundred and fifty pounds!"

Then he stooped down, helped the man up, and taking him by the arm, led him homeward. The man was blind.

(The End.)

Uncertain.

Teacher in the geography class— "Johnny, how is the earth divided?"

Johnny (who reads the foreign news)—"Don't know; I haven't read the papers this morning."

About the House

FOR AFTERNOON TEA.

Most girls like to invite their friends to afternoon tea, especially at the close of a sultry day in midsummer, when well-iced tea, attractively served, is so refreshing. But many hesitate to do so because they think that an attractive tea service requires candies, nuts, cakes and other expensive things. Such things are not at all necessary; try serving iced tea with slices of lemon and crackers treated in some new and attractive way, and see if your friends will not ask to be allowed to come again.

To make a palatable filling for plain crackers mash hard-boiled eggs and add oil, vinegar, salt, pepper and a little onion juice. If you choose, add chopped cold meat to the egg mixture.

Crisp soda crackers covered with a savory coating of fresh butter mixed with cream cheese, crushed mint or cress leaves, mashed sardine meat or French mustard are delicious and refreshing.

Fruit fillings are particularly attractive in warm weather. Chop equal amounts of candied pineapple and cherries, some blanched almonds and a small piece of candied ginger, and moisten the mixture with fresh pineapple juice or orange juice. For another fruit filling mash equal parts of raisins, candied cherries, figs, citron and nuts, and stir in a little orange marmalade.

Do not think that you need fine linen and rare china to make up an attractive tea table. The prettier your cups and saucers are the better, of course; but they need not be expensive. Use any simple, clean centerpiece that you have and set it off with a vase or bowlful of fresh flowers.

"AN APRON FOR THE BOY."

When "Brother" has to wipe dishes for "Sister," there is usually trouble. How he does hate to do girl's work! And should some of his chums call around and catch him draped in one of mother's long aprons, his masculine dignity is greatly offended.

A mother who realized her son's feelings in regard to such a situation made for him a black sateen apron, modeled on the style of those worn by mechanics and blacksmiths—an apron having a strap fastening in the back with a buckle, holding the skirt part smooth and secure. There were neither buttons, ties nor fullness. It was a real man's work apron. Thereafter no objections were heard at dish-washing time. Brother was no longer ashamed to meet his boy friends. It was not the work he detested; it was being compelled to "look like a girl."

The plan is well worth trying by any mother with a boy helper. The apron may be of sateen, denim, duck or waterproofed material—it does not matter of what it is made so long as it is dark in color and fashioned to suit his masculine taste.

A GIRL'S PROBLEM.

My mother is dead and I keep house for father. I like to work and long to fix up the house. Father thinks it foolish and unnecessary to change anything. What shall I do? I am only fifteen.

Just keep trying and perhaps your father will see the need of fixing up the home. Tell him that any worthwhile housewife takes pride in the appearance of her home, and that the desire to fix things up and beautify the house is natural and found in every normal girl and woman. Indeed, it is necessary to offset the monotony of doing certain things over and over again. The difference between the work done by women and men is very great. Men see the results of their work so much more, while much of a woman's work is mere routine. A room is cleaned, but does not stay clean; meals are cooked and consumed, and more cooking must be done; dishes are used, washed, put away, then brought out, used and washed again. This endless repetition of certain tasks needs the interruptions brought about by improvements, otherwise it would seem that nothing had been gained, yet the neglect of one duty shows up more vividly than the performance of a hundred duties.

Do your best to beautify your home with the means at your disposal. Cleanliness and order, a few plants, a little paint and varnish, simple curtains, and covers for tables and bureaus will show your father how sincere you are in your desires.

TOMATOES HAVE ALL THE VITAMINES.

Do you know that the greatest vegetable in the world is—the tomato? It is the richest of all foods in vitamins and in natural health acids which aid in keeping the stomach and intestines in condition.

Medical authorities tell us in just so many words that tomatoes not only

have all the vitamins, but actually more of them than any other fruit or vegetable and in the form which nature uses the most.

This is the season of the year when your garden is yielding amply of this fresh vegetable. When the family becomes tired of having them sliced or of other usual ways of serving, try one of these "out of the ordinary" recipes.

Tomato Butter—Scald 20 pounds of ripe tomatoes and remove skins. Put them into a porcelain lined kettle with eight pounds of apples, pared, cored and quartered. Stand over a moderate fire to cook slowly for an hour, stirring occasionally; then add 8 pounds of sugar, the juice of 4 lemons and one tablespoonful of powdered ginger. Cook, stirring continually, until of the consistency of marmalade. Can as for jelly.

Tomato Chowder—6 large ripe tomatoes, or 1 can, 1 pt. or 1 can corn, 1 cup chopped celery, 3 tb. butter, 1 large onion, 4 hard boiled eggs, 4 slices whole wheat bread, 3 tb. flour, salt, pepper. Peel the tomatoes, cut them into halves and press out the seeds. Cut each half into quarters. Put these with the corn, celery and onions into a kettle. Cover and simmer one-half hour. Dice the bread and toast in an oven until crisp. Rub the butter and flour together. Add to the kettle and stir until smooth and boiling. Slice the eggs and put them in a tureen; pour in the chowder and put the toast on the top.

Cup Baked Tomatoes—Put small peeled tomatoes into custard cups. Stand the cups in a baking pan. Remove from the oven and with two forks open the tomatoes carefully in the centre as for baked potatoes. Put in salt and pepper and a half teaspoonful of butter.

Tomatoes Stuffed with Corn—6 large tomatoes, 4 ears corn, 2 tb. butter, 2 tb. cream, salt, pepper. Boil the corn three minutes. Cut a slice from the stem end of the tomato and scoop out the seeds. Score the corn down the centre of each row of grains and with a dull knife press out the pulp. Add, salt, pepper, cream and butter melted. Fill the tomatoes, put on the lids removed and bake 30 minutes in a quick oven.

LEMON PIE.

Mrs. Arthur Roe sends this recipe for a very fine lemon pie that is made with bread crumbs:

One cupful of sugar, 1 cupful of cold water, 1 cupful of bread crumbs, juice and rind of one lemon, 2 eggs, pinch of salt, 2 tbs. butter.

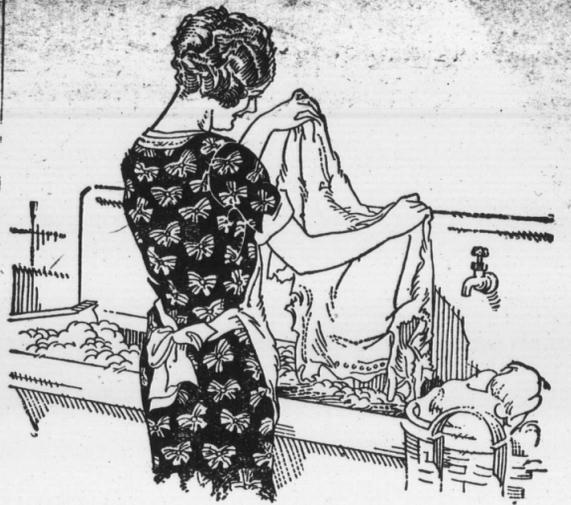

Cover the bread with the water and leave to soak for twenty minutes. Add the egg yolks slightly beaten, juice and rind of lemon, melted butter, salt and sugar. Mix all thoroughly.

Line a pie pan with good pastry and pour in the filling. Bake thirty minutes in a moderately hot oven, cover with meringue made of the whites of the two eggs and two tablespoonfuls of sugar; brown lightly.

IN CUTTING FUR.

Often good strips of fur for trimming coat or dress or hat may be cut out of old, worn-out fur collars or muffs. In cutting these strips lay the fur face down upon the cutting board and cut the skin with a razor blade. If scissors are used, much of the hair will be jagged and the edges of the strip will have a ragged appearance.

It is essential to go without a coat than without a friend.—Jenkins L. Jones.

Making wash day pleasant—

Just use Rinso where you used to use bar soap—for soaking, boiling, or in your washing machine.

THE hardest part of wash-day, rubbing, rubbing, rubbing, has given way to the new method of soaking the clothes clean with Rinso. This wonderful new soap gently loosens the dirt and a thorough rinsing leaves things white and glistening as you never could get them before.

Only spots where the dirt is ground-in, such as neck bands, cuff edges, and the like need a light rubbing, and a little dry Rinso rubbed on these spots quickly makes the dirt disappear.

Rinso is sold by all grocers and department stores

Rinso

BOWES CO., Ltd. - TORONTO

WORST STORM IN YEARS PLAYS HAVOC WITH SHIPPING ON NOVA SCOTIA COAST

Many Boats Missing in Gale Which Sweeps Maritimes—Passengers of Aspy Endure Hardships After Perilous Rescue.

A despatch from Halifax, N.S., says:—With sections of the Nova Scotia coast strewn with wreckage; with vessels failing to reach their destinations; with no hope that the crew, six all told, of the three-masted schooner Anna MacDonald, portions of which have come ashore on the lonely Prospect Ledges, near here, were alive; with the American cruising yacht Shanghai wrecked off White Point Bluff, Canso, but her company heroically and miraculously saved; with the coastal steamer Aspy wrecked at Neil's Harbor, Cape Breton, but with her crew and passengers, numbering about 70, rescued, and with a man drowned at Yarmouth when the schooner Lizzie E. was driven ashore on the Yarmouth bar, it became apparent on Thursday that the storm which swept over this Province Tuesday night took a heavy toll of life and shipping.

Not for years has such surf piled up along the ledges and shoals and headlands of the Province, dashing its victims to destruction.

The schooner Julia F. C., Captain Devons, which was reported abandoned and about to become a total wreck near the Bird Rocks, sailed into port just as several craft were about to be despatched in search of her. The Captain stated his crew were dead tired with fighting the storm and were sound asleep in their bunks when hailed by the vessel that brought the news of their peril to Sydney and did not hear either hails or whistles.

The coastal schooner Lady Thor-

burn, Captain M. Pearson, broke her anchor chain and became a complete wreck on the rocks at South L'Ardoise.

A despatch from Sydney, N.S., says:—The rescue of the passengers of the coastal steamer Aspy when she struck on Long Point, Neil's Harbor, Cape Breton, Tuesday evening, was touch and go, according to details drifting in slowly from the North.

The first boat lowered was smashed by seas against the ship's side and a reef. The others met with more success. The 23 passengers, including 15 women and children, had a perilous passage over the boiling surf to a ledge at the foot of the cliffs. With the aid of the Aspy's searchlight, a cove was discovered, and entering this the party clambered to the top of the cliff, where they spent the night far from human habitation. With daylight the seamen in the party found a road, by which all made their way to Neil's Harbor.

Captain Yorke and the mate are still aboard the Aspy awaiting the arrival of other boats of the same fleet, which will attempt to salvage the baggage and some of the cargo. The vessel is split open, her stern is gone, and although there are 15 fathoms of water at her bows the middle of the ship is stuck fast among the rocks.

A despatch from Gloucester, Mass., says:—The fishing schooner Dorcas was reported swept aground on the coast near here on Thursday night. Her captain was reported to be dead as a result of the accident. Details of the reported wreck were not available.

Three leading Germans who helped to consummate the Dawes agreement were (left to right): Chancellor Marx, Finance Minister Luther and Ministerial Director Herr von Schubert.

ONTARIO CONTINUES TO HOLD PREMIER POSITION AMONG THE PROVINCES

Farmers Here Receive Greater Returns Than the Earnings of Western Agriculturists.

A despatch from Toronto says:—The golden flood of wheat from the West for a few weeks each year is apt to blind Easterners to the riches at their own door. The very fact that estimates of the major Western crop vary by millions of bushels with every change in the weather makes the situation spectacular—but at the same time very uncertain. In Ontario, on the other hand, 200,000 farms are producing revenue every week in the year. There is no feverish climax, but this steady return over which the weather has relatively little control runs up a tremendous total at the end of the year, exceeding by a third the gross agricultural revenue from the leading Prairie Province, Saskatchewan. It is almost double the output of Manitoba and Alberta combined.

A year ago the total revenue received by Ontario farmers was estimated by the Dominion Bureau of Statistics at \$400,511,000, compared with \$576,470,000 received by their fellow-workers in the three Prairie Provinces. It is impossible to take an accurate inventory of agriculture in Ontario at any given time, as the revenue in a mixed farming province depends upon prices of dairy, poultry, and other animal and field crop products on the world markets during 365 days in the year. One is safe in concluding, however, that an increase of from 20 to 30 per cent. in total income should be received by Ontario farmers this year. Grain prices have risen over 20 per cent. and the crops on the whole promise bigger yields than in 1923. Fall wheat has averaged 27 bushels per acre, oats should run about 35, hay yielded a ton and one-half, potatoes and roots promise the best crop in years, and corn, while late, in the majority of fields should mature safely. Pastures, upon which Ontario's great live stock industry depends during the summer months, have been particularly good. Fruit growers expect at least fair returns.

Markets are even more encouraging. In every important line, save beef cattle, prices are firmer by 5 to 50 per cent. above the low point reached last spring. The demand for farms, almost non-existent a few months ago, is picking up, with many inquiries from the United States. The labor problem, formerly urgent, has now been largely solved.

Field crops should be worth \$250,000,000, dairy products at least \$100,000,000, the sale of farm animals should bring over \$40,000,000, the poultry industry will add \$25,000,000 to the farmer's income, which should total more than \$450,000,000 for 1924. Ontario is still the banner agricultural province of the Dominion.

The Week's Markets

TORONTO.

Manitoba wheat—No. 1 North, \$1.41½; No. 2 North, \$1.36½; No. 3 North, \$1.34.

Man. oats—No. 2 CW, 60c; No. 3 CW, 57½c; extra No. 1 feed, 58c; No. 1 feed, 56½c; No. 2 feed, 53½c.

All the above, c.i.f., bay ports.

Am. corn, track, Toronto—No. 3 yellow, \$1.35.

Millfeed—Del. Montreal freights, tags included: Bran, per ton, \$29; shorts, per ton, \$31; middlings, \$37; good feed flour, per bag, \$2.10.

Ont. oats—No. 3 white, 50 to 52c.

Ont. wheat—No. 2 winter, \$1.10 to \$1.15; No. 3 winter, \$1.08 to \$1.13; No. 1 commercial, \$1.05 to \$1.10, f.o.b. nominal shipping points, according to freights.

Barley—Malting, 75 to 78c.

Buckwheat—\$7 to 80c.

Ont. flour—New, 90 per cent. pats. in jute bags, Montreal, prompt ship. ment, \$6.70; Toronto basis, \$6.70, bulk seaboard, nominal.

Man. flour—1st pats., in jute sacks, \$7.90 per bbl; 2nd pats., \$7.40.

Hay—Extra No. 2 timothy, per ton, track, Toronto, \$17.50; No. 2, \$17; No. 3, \$15; mixed, \$13; lower grades, \$10 to \$12.

Rye—No. 2, 87 to 89c.

Straw—Carlots, per ton, \$9.50 to \$10.

Screenings—Standard, re-cleaned, f. o. b. bay ports, per ton, \$22.50.

Cheese—New, large, 20c; twins, 20½c; triplets, 21c; Stiltons, 22 to 23c.

Old, large, 23 to 24c; twins, 24 to 25c; triplets, 25 to 26c.

Butter—Finest creamery prints, 38 to 39c; No. 1 creamery, 36 to 37c; No. 2, 34 to 35c; dairy, 23 to 29c.

Eggs—Extras, fresh, in cartons, 45c; extra, loose, 43c; 1sts, 37c; seconds, 30c.

Live poultry—Hens, over 5 lbs., 20c; do, 4 to 5 lbs., 17c; do, 3 to 4 lbs., 15c; spring chickens, 2 lbs. and over, 25c; Roosters, 12c; ducklings, 4 to 5 lbs., 18c.

Dressed poultry—Hens, over 5 lbs., 26c; do, 4 to 5 lbs., 22c; do, 3 to 4 lbs., 18c; spring chickens, 2 lbs. and over, 30c; roosters, 15c; ducklings, 4 to 5 lbs., 25c.

Beans—Can. handpicked, lb., 6½c; primes, 6c.

Maple products—Syrup, per imp. gal., \$2.50; per 5-gal. tin, \$24.00 per gal.; maple sugar, lb., 25 to 26c.

Honey—60-lb. tins, 12½c per lb.; 10-lb. tins, 12½c; 5-lb. tins, 13½c; 2½-lb. tins, 14c.

Smoked meats—Hams, med., 27 to 29c; cooked hams, 43c; smoked rolls, 18 to 20c; cottage rolls, 21 to 24c; breakfast bacon, 23 to 27c; special brand breakfast bacon, 29 to 31c; backs, boneless, 36 to 40c.

Cured meats—Long clear bacon, 50 to 70 lbs., \$17; 70 to 90 lbs., \$16.50; 90 lbs. and up, \$15.50; lightweight rolls, in barrels, \$32; heavyweight rolls, 27.

Lard—Pure, tierces, 17½ to 18c; tubs, 17c to 18½c; pails, 18 to 18½c; prints 20½ to 20¾c; shortening, tierces, 16 to 16½c; tubs, 16½ to 17c; pails, 17 to 17½c; prints, 18 to 18½c.

Export steers, choice, \$7.50 to \$7.75; do, good, \$6.50 to \$7; export heifers, \$10; do, butcher steers, choice, \$6 to \$6.50; do, good, \$5.50 to \$6; do, med., \$5 to \$5.50; do, com., \$4 to \$4.50; butcher heifers, choice, \$6 to \$6.50; do, med., \$5 to \$5.75; do, com., \$3.50 to \$4.25; butcher cows, choice, \$4 to \$4.50; do, med., \$3 to \$4; butcher bulls, good, \$4 to \$4.25; do, fair, \$3.50 to \$4; bolognas, \$2 to \$4; canners and cutters, \$1 to \$2.50; feeding steers, choice, \$6 to \$6.25; do, fair, \$5 to \$5.50; stockers, choice, \$4.50 to \$5; do, fair, \$3.50 to \$4.25; milkers, sprangers, choice, \$75 to \$90; do, fair, \$40 to \$50; calves, choice, \$9 to \$10; do, med., \$6 to \$6.50; do, com., \$3.50 to \$4.50; lambs, choice ewes, \$12.50 to \$13; do, bucks, \$10.50 to \$11; do, culls, \$8 to \$11; sheep, light ewes, \$6.50 to \$7.25; do, culls, \$3 to \$4.50; hogs, fed and watered, \$10.60; do, f.o.b., \$10; do, country points, \$9.75; do, select, fed and watered, \$11.50; do, off cars, long haul, \$11.

MONTREAL.

Oats, Can. west., No. 2, 62 to 63c; do, No. 3, 60½ to 61c; extra No. 1 feed, 60c; No. 2 local white, 60c. Flour, Man. spring wheat pats., 1st, \$7.90; 2nd, \$7.40; strong bakers, \$7.20; winter pats., choice, \$6.80 to \$7. Rolled oats, bag, 90 lbs., \$3.55 to \$3.75. Bran, \$29.25. Shorts, \$31.25. Middlings, \$37.25. Hay, No. 2 per ton, car lots, \$16.50 to \$17.

Cheese, finest Wests., 17½ to 17c; finest Easts., 17c. Butter, No. 1 pasteurized, 36 to 36½c. No. 1 creamery, 35 to 35½c; seconds, 34 to 34½c. Eggs, fresh extras, 42c; fresh firsts, 36c.

Fairly good to good milk-fed calves, \$8 to \$9 per cwt.; light hogs, \$9.50 to \$10; better weights, \$10.50.

FOUR MONTHS' RECORD 18,870 CANADIANS

Return to Dominion After Spell Across Border Along With 7,005 U.S. Citizens.

A despatch from Ottawa says:—During the four months of April, May, June and July of this year a total of 64,023 immigrants were admitted to Canada, and during the same period a total of 18,870 Canadians returned to this country from the United States, of which total 16,166 were Canadian-born citizens, 1,646 were British subjects who had acquired Canadian domicile, and 1,058 were Canadian citizens (naturalized).

This makes an average per month of Canadians returning from the United States in the first four months of the present fiscal year of 4,717. In April the total of returning Canadians was 4,078; in May, 4,936; in June, 4,720, and in July, 5,127.

July's total of immigration into Canada, which was 10,778, was a decrease of 23 per cent. from the same month last year, while the total of 64,023 for the four months ending July 31 was an increase of 17 per cent. over the corresponding period last year. Of the total for the four months, 33,248 were British, 7,005 were from the United States, and 23,770 were from other countries. For July this year 4,789 were British, 1,573 were from the United States, and 4,416 from other countries. There has been the usual seasonal falling off of immigration into Canada during the summer months, entries for April being the high mark, with 19,930, which was an increase of 103 per cent. over the same month in 1923.

The first shipment of Manitoba salted butter was made to England recently, comprising 99,000 pounds. After deducting freight charges, two cents per pound, the butter netted one cent per pound over the local quotation for salted butter.

Among the British scientists who are now touring Canada is Prof. S. S. Muir of Edinburgh, Scotland, a famous alpine climber, who is convinced that the British really conquered the peak of Mt. Everest.

Women Detectives to be Employed by Scotland Yard

Woman's wiles, wit and charms versus criminal craftiness is a possibility of the future, and the outcome is expected by Scotland Yard to rope in more crime perpetrators than has been the case recently, says a London despatch.

Recruiting for the new women's police force is opening shortly, and, from the many applicants, the Criminal Investigation Department hopes to get some bobbed-haired, daintily gowned detectives who will prove more than the equals of the wily jewel thieves and dope traffickers who have hitherto eluded attempts of mere men detectives to track them down.

The authorities are satisfied that many of the present crimes and robberies are engineered by a new set of smart criminals who can only be countered by detectives of the same outward smartness and equal wit.

Church Property in Palestine Claimed by the Soviets

As mandatory power for Palestine, Great Britain probably will be called upon soon to decide whether title to the vast properties of the Russian church in this country shall go to the Soviet Government, or to Russian Church interests outside of Russia.

The controversy involves hundreds of thousands of dollars of property in Jerusalem and vicinity, as well as in Bethlehem, Nazareth and Haifa, consisting of churches, monasteries, hospices, parks and other valuable plots of land. One of the churches is in the Garden of Gethsemane and another on the Mount of Olives.

Eskimo Chief Dies on Delta of the Mackenzie

A despatch from Edmonton says:—Ilavnik, head man of the Eskimos at the mouth of the Mackenzie River, and staunch friend of the governing white race, died on the delta of the Mackenzie this summer, word of his death having reached Edmonton by travelers who arrived from the Arctic circle. Ilavnik, besides hunting and trapping and trading with a schooner on the Arctic, was official interpreter for the Mounted Police. He assisted in the capture of the two Eskimos who were charged for the murder of Roman Catholic priests and served as interpreter in their trial.

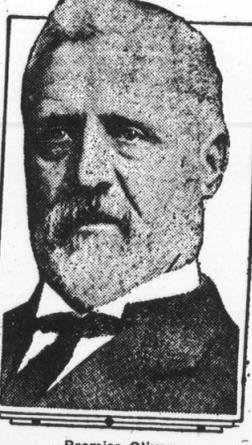

Coast of Britain to be Guarded by Powerful Seaplanes

A despatch from London says:—Great Britain's coast line will in the near future be patrolled and guarded by powerful seaplanes, now under construction for the navy. Each will carry a pilot, navigator, two machine gunners, and a torpedo for launching at hostile surface craft.

Still more powerful planes are being built to make longer flights seaward, and these will carry five men each.

General Ferguson to Succeed Viscount Jellicoe in N. Zealand

A despatch from London says:—General Sir Charles Ferguson, who was in command of the British 5th Division and subsequently of the 2nd and 17th army corps during the Great War, will succeed Viscount Jellicoe as Governor-General of New Zealand. Admiral Jellicoe's term expires shortly.

Premier Oliver of British Columbia, who was elected in a by-election at Nelson. He was defeated in the recent general elections in which his party was returned to power.

Three Horses Stung to Death by Bees at St. Hyacinthe

A despatch from St. Hyacinthe, Que., says:—Three horses employed in moving loads of gravel were killed on the high road near here when thousands of bees settled on the animals and literally stung them to death. The horses were completely covered by the bees, and maddened by the stings, tried to kick themselves loose from the heavy wagons. The harness was eventually severed by knives and the animals, took weakened to bolt, were sprinkled with poison to get rid of the bees. They died shortly afterwards.

Natural Resources Bulletin.

The Natural Resources Intelligence Service of the Dept. of the Interior at Ottawa says:

One of Canada's most important economic mineral resources, from the standpoint of utility, is that of sand and gravel. While not of large monetary value, compared with other mineral production, it is one of the classes of non-metallic minerals that it would be exceedingly difficult to get along without.

It is not necessary here to detail the great number of purposes for which sand and gravel are used. The movement for the provision of better roads is based entirely upon supplies of sand and gravel, while the use of cement would be very materially restricted were it not that when mixed with sand and gravel concrete can be made at reasonable cost.

The railways are largely dependent upon sand and gravel for ballasting their tracks, while no railway locomotive would be allowed to have a station without a supply of sand for friction purposes.

In some portions of Canada gravel is not readily procurable, and consequently is more greatly appreciated than in those portions more generously supplied. This is particularly true in some sections of the Prairie Provinces, where both sand and gravel for construction purposes have to be brought considerable distances.

There are several varieties of sand in Canada, varying in fineness and in composition. In certain portions of Canada a sand suitable for glass-making is found, while in others a sand useful for moulding purposes is found. The larger portion of the output of sand and gravel, however, is used for construction work, and it is in this form that the public is most familiar with this necessary material.

Canadian Dollar Quoted at Highest in the World

A despatch from Ottawa says:—At a slight premium in New York the Canadian dollar stood for a time today the highest in the world. The quotation of 1-32 of one per cent. premium was the highest since the Dominion Government floated a hundred million dollar loan in New York in 1922.

The present situation is regarded as temporary and due to heavy borrowings on the New York market and flood of money in the United States.

1924 Acreage of Wheat Reaches Total of 21,676,200

A despatch from Ottawa says:—Canada sowed 21,676,200 acres of wheat in 1924, as compared with 22,671,864 acres the previous year, according to the latest bulletin of the Dominion Bureau of Statistics. The decrease is four per cent. Fall wheat occupied 733,700 acres; spring wheat, 20,942,500 acres; oats, 14,168,000 acres; barley, 2,879,000 acres; rye, 1,277,450 acres; flaxseed, 764,500 acres, a 21 per cent. increase; potatoes, 566,400 acres, an increase of one per cent.

Canada from Coast to Coast

Summerside, P.E.I.—Fox farming continues to be the chief branch of fur farming in Canada, according to a report issued by the Bureau of Statistics. According to the report there were 1,179 fox ranches in operation in 1923, of which number 448 were situated in Prince Edward Island, 123 in Nova Scotia, 89 in New Brunswick, 198 in Quebec, 201 in Ontario, 22 in Manitoba, 4 in Saskatchewan, 44 in Alberta, 29 in British Columbia, and 21 in the Yukon. The revenue derived from the sale of live foxes and pelts totalled \$2,169,898 in 1923, compared with \$1,526,822 in the preceding year.

Halifax, N.S.—Owing to the continued dry weather the apple crop has been quite heavy, and as a result of the total yield for the Annapolis Valley is now estimated at 1,274,744 barrels, which is approximately 70 per cent. of last year's yield. There is practically no injury from insect pests, but there is some scab developing, even in some of the well sprayed orchards.

St. John, N.B.—New Brunswick and Prince Edward Island report light hay yields, while Nova Scotia harvests an average crop. Potatoes continue to make satisfactory progress.

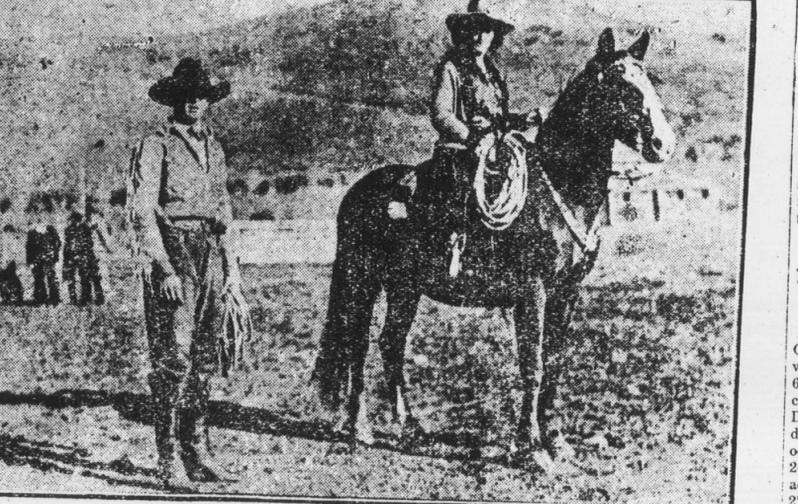

Quebec, Que.—Price Bros. Co. will start work shortly on the erection of a new pulp and paper mill at St. Joseph d'Anna. The work will not be completed until January of 1926, by which time it is expected that the mill will be ready to produce 200 tons of paper a day, and this amount will gradually be increased until in 1929, the daily production will amount to 600 tons.

Timmins, Ont.—Production of gold from the mines of Northern Ontario during July was maintained at a rate of over \$25,000,000 annually. Nine mines figured in the output of approximately \$2,126,000. Hollinger was the chief producer, being responsible for over \$1,000,000 of the total.

Winnipeg, Man.—Approximately 60 per cent. of 1,252,604 of the population of western Canada lived on occupied farms. Of the balance, 474,616 live in its twenty cities and towns of over 2,500 and 228,962 live in 3,309 small towns and villages of 2,500 or under.

Edmonton, Alta.—More than 400 miles of new roads are now under construction in the province under the direction of the Provincial Public Works Dept. Several contracts have recently been awarded for roadwork in various parts of the province.

Trail, B.C.—About 10,000 tons of ore concentrates and bar metals, roughly valued at more than \$220,000, have been shipped to Antwerp, Belgium, by the Trail smelter of the Consolidated Mining and Smelting Co. since the beginning of the present year.

Guy Weadick and Flores La Due taught the Prince of Wales the art of roping. They are his next door neighbors in Alberta, and welcomed his return.

JELLYBY

Jellyby, Aug. 26.—The funeral of Stanley H. Watts, one of the victims in the Bishop's Mills cheese factory boiler explosion, was held on August 14, from his home there to Garretton Anglican Church, of which the deceased was a member, where the funeral service was conducted by the Rev. E. Teskey. Interment was made in the cemetery there, under the order of the Oddfellows, of which Mr. Watts was a member, belonging to the Athens lodge, No. 237. The pallbearers were John Rowsome, George Holmes, C. Wilson, Lawrence Taylor, Walter Hawkins, Herbert Lawson. Surviving to mourn his loss are his devoted young wife and his six months' old son, his parents, Mr. and Mrs. Herbert Watts, Athens; three sisters and one brother, Misses Mary and Alma, Athens; Mrs. Donald Hamblen, Sisseton, and Arthur Watts, of Addison. The very large crowd and many floral tributes showed the esteem in which the young man was held by his many friends. The family have the sincerest sympathy of all in their sad and sudden bereavement.

TIN CAP

Tincap, Aug. 21.—Miss Vera Gilroy left Friday for Toronto to visit her sister, Miss Mildred Gilroy, and attend the exhibition. Mrs. William Rogers, Brockville, is occupying her cottage this week. Mr. and Mrs. Hall, Glen Elbe, were recent visitors at George Boyd's. Frank Murray started Wednesday to do his fall threshing. Miss Fern Gilroy visited Miss Patty Dowdell, the rectory, Lyn, last week. Mrs. Beatty, Mrs. Carley and Mrs. Ball, of Springfield, Mass., and Mrs. Brinson, Brockville, were recent visitors with their cousin, Mrs. P. Barton. Mr. and Mrs. W. E. Stewart attended the Wood-Munroe wedding at Roy's Corners on Wednesday. Mrs. Mary Darling has returned from a visit with friends in North Dakota. Rev. George and Mrs. Conners, of Meun Forest, are visiting the former's mother, Mrs. Conners, and sister, Mrs. Reuben Davis. Wilfrid Barton left on Sunday on his return to Detroit, accompanied by his sister, Miss Carrie, who will visit her sister, Mrs. Frank Crever.

MISS NELDA JACKSON BECOMES THE BRIDE OF DR. ELMER BAKER

Cardinal Couple Are United in Marriage.

NEWS NOTES OF DISTRICT

Women's Institute of Delta Hears Paper Read on "The Care of Children."

Cardinal, Aug. 28.—A very pretty wedding was solemnized at the home of Mr. and Mrs. John Jackson on Tuesday, August 26, when Rev. W. E. Wright united in marriage the eldest daughter, Nelda, to Dr. Elmer Baker, eldest son of Mr. and Mrs. George Baker. The bride, who was gowned in a dress of powdered crepe, entered the parlor on the arm of her father while the wedding march was being played by Miss Amy Waude. The bride's sister, Miss Mary Jackson, dressed in powdered blue silk, acted as bridesmaid, while David Baker assisted the bridegroom. After a sumptuous dinner Dr. and Mrs. Baker left for Toronto. They will reside in Chesterville.

Miss Janie Stethem, of Syracuse, is visiting her parents, Mr. and Mrs. George Stethem.

Mr. and Mrs. Ralph McGarrell and Helen Sauve, of Peterboro, are visiting his parents, Mr. and Mrs. J. McGarrell.

Miss Isabel Burnside, who has been visiting in Ogdensburg, has returned home.

Miss Leah Morehead, of Iroquois, is visiting friends in town.

DELTA

Delta, Aug. 28.—Mrs. Stella Preston and three children and Miss Jessie Irwin are visiting in the home of Mrs. Frank Tackaberry, Plum Hollow.

R. Kelly, Addison, spent Tuesday at the home of Dr. J. M. Kelly. He was accompanied home by Mrs. R. Kelly, who has been spending some time here.

Miss Nettie Slack is visiting her sister, Mrs. T. Woods, Lyndhurst. A number from here attended the sports days at Elgin and Athens on Wednesday.

Mrs. G. Hough, North Augusta, is visiting relatives here. Service in the Methodist church on Sunday evening will be in the form of an illustrated address and song service.

The Women's Institute met on Thursday afternoon, August 21, at the home of Mrs. W. Phelps with a small attendance. The regular business was taken up. A letter was read from the Hospital for Sick Children, Toronto, asking for donations of fruit. Five dollars was granted with which to buy fruit for these children. An instructive paper on "The Care and Rearing of Children" was read by Mrs. J. M. Kelly. The roll call was answered by recipes for pickles. The next meeting, which is to be held in the town hall, will be the meeting for the school children. Prizes will be given for the best collection of bugs and flowers exhibited by the school children. A committee was appointed to arrange for the lunch for this meeting.

Master Billy Hazelton, who has been spending some time in the home of his uncle, G. Hazelton, returned to his home in Gananoque on Sunday.

Mr. and Mrs. W. W. Topping and daughter, Viola, and Dr. W. A. Sherwood spent Sunday at the home of the latter's parents in Smiths Falls.

J. Russell and family returned from Toronto on Thursday evening, where they have been attending the exhibition.

NORTH AUGUSTA

North Augusta, Aug. 29.—On Tuesday afternoon, August 26, about 50 ladies met at the Women's Institute rooms for the regular monthly meeting. Mrs. W. H. Landon, vice president, occupied the chair. After the regular opening exercises the business proceeded in the usual way. Several questions of interest were discussed and voted upon. Bills were presented and the financial report of the institute was read. The proceeds amounted to about \$117, with a balance clear of \$81. Community singings were then enjoyed by all and was followed by a splendid address given by D. McInnis, student pastor of the Presbyterian congregation, on "A Student's Experiences in the Peace River District." Some of these were quite humorous while others were more serious. In that district Women's Institutes are as yet unknown and the women there are barred from many privileges and opportunities that we enjoy. Can we not brighten their home life a little by sending them some reading matter by way of packages?

Mr. McInnis was tendered a hearty vote of thanks. A demonstration of salads was next given and the prize awarded to Mrs. S. Walker.

Luncheon was then served and a social half-hour enjoyed, after which Mrs. E. M. Sutherland, who has filled the office of secretary ever since the institute was organized, was presented with a club bag, a bouquet of roses and an address from the members in view of her impending removal.

Mrs. Sutherland replied in a few words and thanked the ladies for their kindness. "Auld Lang Syne" was sung, followed by the National Anthem, which brought the meeting to a close.

ALGONQUIN

Algonquin, Aug. 26.—M. Walker, of Montreal, visited relatives and friends here recently.

Miss Rose and her niece, Jean Stevens, of Huntingdon, Que., and Miss Gamble, of Montreal, are guests of Rev. H. and Mrs. Walker.

Mrs. William McClean spent a few days in Brier Hill, N.Y., visiting her daughter, Mrs. N. Greer.

Dr. M. Mathie, of Mountain Grove, spent a few days last week with his parents, Mr. and Mrs. D. Mathie.

James Bishop returned home after spending the week with his son, H. Bishop, of Peterboro. Mr. and Mrs. H. Bishop accompanied him home and spent a few days here.

A number from here attended the Brockville fair during the week.

Mrs. W. J. Dawson left on Monday for Toronto to attend the exhibition.

Miss Mina Dake, of Kempville, spent the week with her niece, Mrs. H. Latimer.

Mr. and Mrs. W. McClean left on Thursday for Belmont, Ont., where Mr. McClean has been engaged as one of the teachers in the high school.

MORTON

Morton, Aug. 26.—Several from Morton and this vicinity attended the funeral of James McMillan at Ellisville on Sunday last.

The annual church social held here on Thursday last in Henderson's grove was a success, both socially and financially.

The bazaar held by the Ladies' Guild of St. John's church was well patronized and a good sum was realized.

The Sunday school picnic was held recently at Jones' Falls and the children enjoyed themselves immensely.

Song service is being held in the church every other Sunday evening. M. Niblock is engaged in painting the schoolhouse.

The Misses Henderson, Mrs. Taber and Miss Mary Taber motored to Ottawa and had a very pleasant trip.

Recent visitors: Mr. and Mrs. Pierce, Mr. and Mrs. H. Perry, at H. Sly's; Manley Marsh, Fort William, at Hugh Henderson's; Miss Ruby Mustard, Elgin, at J. N. Somerville's; the Misses Gertrude and Helen Kelsey, Newboro, at J. Coon's.

FROM FLORIDA TO THE ORIENT ALONE

FOR people to travel nine thousand miles in these days of rapid and easy transportation is a frequent occurrence, but for three children under fifteen years of age to do so unaccompanied by an adult is unusual if not unique. More remarkable still is the fact that one trio of youngsters who covered more than this distance alone, Jack Turner, aged fifteen, Mary, his ten-year-old sister, and Richard, aged four, travelled from Jacksonville, Florida, to Shanghai, China, with but one change of cars, and one change for the steamer, making the quickest trip on record between these two points, according to the traffic experts of the Canadian Pacific Railway, officers of which company looked after the welfare of the children throughout their journey. From Jacksonville they travelled to Chicago on the Dixie Flyer. From there they travelled via Canadian Pacific to Vancouver where they transferred to the Canadian Pacific S.S. "Empress of Russia." They left Jacksonville on December 21st, arriving at Shanghai on January 12th, covering the distance of 9,123 miles in a little over twenty-one days.
