

AGAINST THE TRAMP EVIL.

City Authorities Will Act Firmly This Winter.

Probable Trouble Over Walk in the New Annex.

Things Look Clear Sailing For Annexation Now.

The tramp evil exposed after the Kinrade murder last spring, when Hamilton was shown to be about the softest place on the map for hoboes to roost in during the winter months, is to be nipped in the bud this year.

There is likely to be trouble unless the city builds a cement sidewalk on Barton street, from the corner to Lotridge street, at once, according to Ald. Robson.

Mayor McLaren this morning was in session for over an hour with Solicitor Duff and Mr. Robert Gage.

The city has not heard from Inspector Dow, the man the Immigration Department wrote about nearly a week ago, saying it was sending him here to straighten out the tangle over the effort to have Albert Greathhead deported.

A committee consisting of the Mayor and the chairman of the different committees has been appointed to draft the duties of the new Board of Control.

The Building Committee of the Board of Education met yesterday afternoon to open tenders for the new Victoria Avenue School.

The night classes at the new Technical School opened last night. Over 200 pupils were in attendance.

The Parks Board will likely have a lively session to-morrow night over the proposed purchase of the Beach Park property.

The city has heard nothing further yet from the commission about the form of contract, but the Power Committee expects to deal with the matter to-morrow.

FULLER GETS HARD LABOR.

Must Spend One Year in the Central Prison.

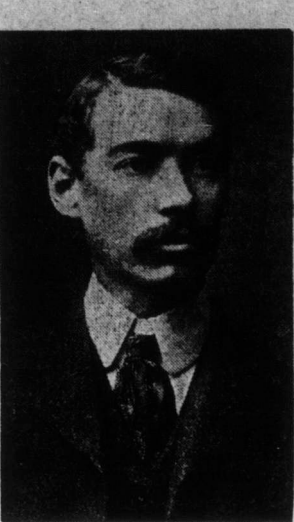

The trial of "Chuck" Fuller this morning before Judge Snider lasted but half an hour and the sentence was Central Prison for one year at hard labor.

Mr. E. Fuller father of the young man, said prisoner had a good job in Detroit and was to come for a holiday when he got into the trouble.

Mrs. Fuller, mother of the prisoner, said he had visited her son in Detroit on numerous occasions and he had always been working, and while there was never in trouble.

A number of well-known residents appeared to testify as to the character of the family, but his Honor said the character of the family was not in question and allowed only the ones who knew the young man to speak on his behalf.

Some high grade briar pipes with genuine amber mouthpieces, in handsome cases, are sold at peace's pipe store.

DR. JAMES EDGAR, Newly elected President of the Thistle Curling Club.

BEACH TAXES.

Saltfleet Council Advised to Take No Action.

Saltfleet Council was advised to-day by S. D. Biggar, K. C., its counsel, not to take any action in regard to the matter of the Beach taxes.

BAIL \$4,000.

Eric Wilson Elects to be Tried by County Judge.

When Eric Wilson came up before Judge Snider this morning for election the various charges were read.

S. F. Washington explained that the prisoner had an option on a patent, but it had expired. The rights were supposedly worth \$3,500, of which prisoner had a \$1,500 share and the other \$2,000 was made up by the two amounts of \$750 and by \$500 from another person.

\$64,000

Subscribed In Cash and Pledges at Simpson Meeting.

Rev. A. B. Simpson, formerly of this city, has just been holding meetings in New York in connection with the missionary work of which he is the head.

CRIBBAGE

League Formed Among the Clubs of the City.

Representatives from the Hamilton Cribbage Club, West End Pleasure Club, Beach Cribbage Club and the I. C. B. U. met last night and organized a Cribbage League.

Mr. E. Fuller father of the young man, said prisoner had a good job in Detroit and was to come for a holiday when he got into the trouble.

THE SAN.

Forty Patients Are on the Down Town Visiting List.

The monthly meeting of the Ladies' Auxiliary of the Hamilton Health Association was held yesterday morning at 11 o'clock.

Dr. Holbrook reported 42 patients in residence for the month of September. During the month 34 patients gained a total of 106 pounds and seven lost a total of 14 pounds.

Thirteen persons are reported to have been killed in a railway wreck this morning at Greenville, Tex.

MONTROSE WRIGHT BELIEVES THE STORY

But Almost Everyone Else Pronounces the Alleged Confession in the Kinrade Case to be a Palpable Fake.

Mr. Kinrade Received the News Quietly, But With Some Surprise—Similar "Confessions" in Noted Cases.

Truth is still clamoring at the closed door of the great Kinrade murder mystery, the sensational tragedy that set half a continent talking last winter and spring.

The startling despatch cabled from London yesterday that a man who had confessed to being the slayer of Ethel Kinrade, was under arrest there, fanned into a blaze the smouldering interest in the celebrated case, and Hamilton was once more asking itself if there is a possibility yet that the baffling mystery will be solved.

The police and those who have been in close touch with the case hold out little hope. They stamp the London story as a fake or the dream of a crazy man. The despatch, they think, bears the earmarks of a fraud. It was wired to a Montreal paper, and reads as follows:

"A man named Edward William Bedford has confessed to the police that he murdered Ethel Kinrade at Hamilton last February. He says he did it at the instigation of another man whose name he does not remember. He says he got \$500 for the job."

The theory of the police that the story is untrue is supported by the following despatch received last night from London:

"The officer in charge of Scotland Yard informs the Canadian Associated Press that he has heard nothing about the reported confession of a man named Bedford in the Kinrade murder case."

The Times was the first paper to bulletin the report yesterday afternoon, and the news travelled fast and far. People were anxious to know if there was any truth in it and were eager to get further details.

MR. KINRADE INTERVIEWED. A few minutes after the news was received here a Times reporter found Thomas L. Kinrade, father of the murdered girl, sitting in the lobby of the Waldorf Hotel, chatting to a friend.

Mr. Kinrade seemed greatly surprised, but he showed no visible emotion when the reporter told him that a London cable announced that a man who confessed to slaying his daughter was under arrest.

"Deag me, is that so?" he said quietly. "Is the first I have heard about it." He courteously thanked the newspaper man for conveying the information to him. "No doubt there will be more details in later despatches," he said quietly, and walked away, as though reluctant to talk about the matter until more detailed information arrived.

About the only one who so far appears to accept the story as true is Clair Montrose Wright, the former divinity student, who married Florence Kinrade, sister of the murdered girl, in New York some months ago. Recently it was reported that Mr. Wright and his bride were here, but this was denied at the time. A special despatch to the Times to-day from his Calgary correspondent shows that Mr. and Mrs. Wright are living in the western city. The despatch reads as follows:

Calgary, Alta., Oct. 11.—"Thank God for that, old man; you have brought us the best news we have had for many long days. Shake," said C. Montrose Wright, husband of Florence Kinrade, few promenade band concerts. They used to be all the go.

In re the mountain park, the Parks Board should lay a water pipe out to it, erect a few electric lights in it and along the driveway, and put a wire fence along the mountain brow.

Admiral Seymour who sailed away from New York the other day, is a man of war, and yet he is a man of peace, if we are to judge him by his remarks.

Will the Dukes put up their dooks to Lloyd George?

If Canada's navy does nothing but train men for the service it will be a great help to the Empire, for Britain may have the ships, but she will need all the men she can get to man her ships in time of war.

If there is anything in the charge that the people engaged in bringing or sending out children to Canada from the old land are engaged in a slave trade no time should be lost in investigating the matter.

If Mr. Pankhurst is coming to Toronto to break the windows in the Parliament buildings or chase Sir James Pliny Whitney down Yonge street, it may be found necessary to deport her.

No, Maude, Lloyd-George is no relation to King George.

Nature is a great painter. What a wealth of color the dying leaves on the trees show! What diversity yet harmony even in death! What beauty! Beats all the Royal Art Exhibitions I ever saw and costs nothing to view. The show is at its best half an hour or so before sundown. The pictures are all painted by the Master Hand.

The girls in good time last night, mother? No, I don't want you to be too strict.

Mountain residents were without natural gas for a short time yesterday afternoon. The trouble was local.

ONE YEAR OUT IN HIS DATE

Man Who Confessed Arraigned and Remanded

London, England, Oct. 12.—Edward Wm. Bedford, a Canadian, was charged to-day in the Bow Street Court on his own confession with the murder of Ethel Kinrade at Hamilton, Ont., and remanded for a week to allow inquiries to be made into several peculiar features of the case.

Bedford gave himself up yesterday. His signed confession, which was read in court, states that he murdered the Kinrade woman in 1908, whereas the murder occurred in 1909. The confession alleges that Bedford met a man in Toronto, whose name he did not know, and they went to Hamilton, where his companion helped him to find the house and gave him \$500 to shoot Ethel Kinrade.

Another voluminous confession in the hands of the police is understood to coincide with the circumstances of the murder, with the exception of the date.

A description of the supposed murderer, possessed by the Scotland Yard officials, does not tally with Bedford.

STILL MORE IMPROBABLE.

Another special despatch to the Times this afternoon gives further particulars of Bedford's appearance in Bow Street Police Court. He declared that his home is in Minneapolis, and that he was out of town when he met a man in Toronto last February who offered him \$500 to murder Ethel Kinrade, saying that the girl had killed him.

Those in touch with the case here are more convinced than ever, since the arrival of this despatch, that the fellow is crazy. One of the first lines the detectives worked on was that a disappointed admirer of Ethel Kinrade killed her. A most rigid inquiry convinced them that such was not the case.

The statement that the man who hired him to commit the murder accompanied him to the door is also seized upon as a proof that Bedford is insane.

That paragraph about the man having received \$500 to commit the murder from a stranger, whose name he has forgotten, recalls the confession made by one John Horton in the celebrated Barton murder mystery. After that the police had almost abandoned hope they were surprised four months later to receive from Flint, Mich., a telegram announcing that Horton had furnished the solution of the crime.

Horton was a dope fiend. For three days he had been without drugs. Then he soured himself with absinthe, cocaine and "hit the pipe" in a Chinese joint. When he wandered into the police station he had in his pocket a circular about the Barton case sent out by the Provincial authorities. When plied with questions he told a fantastic story. The victim he declared was his half-sister, Mrs. Marie Hartz, of Saginaw, Mich. With two Mexicans, Juan Senon and Manuel Luceasa, Horton said he was in the vicinity of Hamilton getting rid of counterfeit money.

Mrs. Hartz threatened to inform the police. (Continued on Page 10.)

Living in the western city. The despatch reads as follows:

Calgary, Alta., Oct. 11.—"Thank God for that, old man; you have brought us the best news we have had for many long days. Shake," said C. Montrose Wright, husband of Florence Kinrade,

few promenade band concerts. They used to be all the go.

In re the mountain park, the Parks Board should lay a water pipe out to it, erect a few electric lights in it and along the driveway, and put a wire fence along the mountain brow.

Admiral Seymour who sailed away from New York the other day, is a man of war, and yet he is a man of peace, if we are to judge him by his remarks.

Will the Dukes put up their dooks to Lloyd George?

If Canada's navy does nothing but train men for the service it will be a great help to the Empire, for Britain may have the ships, but she will need all the men she can get to man her ships in time of war.

Mountain residents were without natural gas for a short time yesterday afternoon. The trouble was local.

SPARE HIS LIFE.

Daughter of Ferrer Appeals for Mercy to Alfonso.

KING ALFONSO OF SPAIN.

Paris, Oct. 12.—The daughter of Prof. Francisco Ferrer to-day sent an urgent message by telegraph to King Alfonso appealing to the monarch's generosity and chivalry to save the life of her father. Ferrer has been convicted of instigating a revolutionary movement at Barcelona, Spain, and unless his sentence is countermanded in the meantime he will be shot to-morrow.

The Socialists held a big mass meeting here last night as a demonstration of sympathy for Ferrer. Some of the newspapers to-day characterize the outcome of the court martial as a travesty on justice and that it may become a second Dreyfus case.

BOOTS HIGH.

Probable Advance in Price at an Early Date.

Your boots will cost you more. So say those in the know.

What is the reason? The advance in the price of hides. Hides that are used in the manufacture of shoes have taken a jump from 10 to 15 per cent, and the fact of the manufacturers having to pay more for the raw material means the increase of the price.

Local wholesalers say the wholesale purchasing of leather in this country by dealers from across the line is brought about by the large export trade in boots and shoes from the States to foreign countries, particularly Japan.

Quite recently rubbers took a jump from 10 to 15 per cent, and dealers say it is not unlikely that they will advance even higher, as the shortage of crude rubber is becoming acute.

FIRST SNOW.

Flurry This Morning Served as a Reminder of Winter.

Hamilton had its first snow flurry of the season this morning. It did not last very long, but it was sufficient to serve as a reminder of approaching winter, and caused people to hurry to their wardrobes for heavier clothing. As there has been little or no frost this season, the snow was rather unexpected. However, there is generally two weeks of fine weather after the first appearance of snow, and those who dislike the breath of winter may look forward hopefully to Indian summer.

It is a remarkable fact that all over the city flowers are still in bloom, showing not a sign of frost.

REMANDED.

Father and Son Again Before the Dundas Magistrate.

Joseph Taylor and his son George were before the police magistrate in Dundas again this morning on the charge of supplying liquor to Mrs. Stratford for immoral purposes. They were again remanded, this time until Thursday next.

It is reported in Dundas that Mrs. Stratford is in Buffalo, and the report, from information received by the police there, is believed to be true.

PERSONAL.

C. F. Simmonds, 1 Madison avenue, sails from New York to-morrow on the steamship Campania for Liverpool.

Miss Margaret McCoy left for New York yesterday for a two weeks' visit.

Mr. and Mrs. A. Crookston, who have been the guests of Mrs. Gartsshore, James street south, left to-day for Detroit.

Mr. Emmet Burke, who was hurt in an automobile accident some time ago at Burlington, has made such good progress that he is able to be out again.

Mr. J. Harris, a recent graduate of the Standard Business College, left this morning for Winnipeg, where he will act as manager in that city for the Semmens & Ebel Company.

New Chestnuts. New chestnuts have arrived, also Holland herring, anchovies in kegs, California olive oil, C. & B. Keller's, Cairn's marmalade in one pound tins and one pound glass; this season's sauerkraut, that white, crisp, fine flavored kind that is cut into thin and tender strips. Any other shipment of mackerel and strip codfish; also shredded cod.—Bain & Adams.

LITTLE BABE IN OLD COURT.

Pathetic Scene After Mother Was Sentenced to Jail.

Henry Ainsborough Committed For Trial For Assault.

Ernest Hines Up for Theft From Mother-in-Law.

Henry Ainsborough, 587 James street north, goes up for trial.

He was in the Police Court this morning accused of assaulting and robbing Frederick Ward, the Gordonville youth, last Tuesday afternoon, Oct. 5. It is alleged that when he saw the patrol wagon coming he vanquished. On Saturday he was arrested in Toronto and yesterday a local detective, to wit, Donald Campbell, went to that hamlet and brought him here.

He pleaded not guilty and declined to elect. George S. Kerr, K. C., defended him.

Frederick Ward told the same story as he did when James Fuller was last Wednesday. Several witnesses who appeared last Wednesday where up again to-day and all told the same story as previously.

The defence of the prisoner was reserved.

Mrs. Gale is mother-in-law to Ernest Hines, 178 Hughson north, and yesterday she laid a charge of theft against him. The goods alleged to have been stolen were a watch and chain. When she laid the charge she was very indignant. This morning she wanted to withdraw the charge, but his worship declined to allow that course.

When she reluctantly took the box to tell the story of the alleged theft, she exhibited her somewhat strange characteristics. She said that Ernest called yesterday, in the acme of intoxication, and said he wanted to see Grandma, who was sick. He talked to Grandma for ten minutes and then went into his main-law's bedroom, laid down on the bed, and slept. After he left the house the watch and chain were missing. Complainant said it was nothing unusual for Ernest to call at her house and sleep off the effects of drink on her bed. Some time ago he promised to take her watch and get it fixed, she said, and she was of the opinion that he did not steal it but was merely carrying out his original intention.

"He's a good man to my daughter," said the complainant.

Meanwhile, the daughter and wife sat in one of the witness chairs and sobbed pitifully, and refused to be comforted by her mother, who whispered many things in his ear.

His worship said he was satisfied it was a case of theft.

George Kerr, K. C., pleaded earnestly and eloquently for prisoner, contending it was a family inconsistency. Prisoner will come up for sentence to-morrow.

Mrs. McCarthy, 11 Market street, and her little, helpless baby, only a few days old, were sent to jail for one month. The mother was found guilty of stealing a coat and veil from Mrs. Frear, 26 Gore street, but the baby is innocent, yet it entirely depends on the mother for sustenance, therefore must go also.

Mrs. Frear said defendant had been boarding at her house, and left two weeks ago, taking a coat and veil with her. There was also \$140 in the coat.

Mrs. McCarthy said it was all a mistake, and she accused Mrs. Frear of appropriating many of her articles of furniture. (Continued on Page 10.)

RIGHT HOUSE PROGRESSIVE.

Has Made an Affiliation With a Great U. S. Concern.

A great reorganization by which the already large and growing business of The Right House becomes part of a great dry goods concern, controlling houses in New York, Buffalo, Pittsburg and other large United States cities, and having permanent buying offices in European centres, has just been completed in this city. Rumors of it were flying around yesterday, some saying that Mr. Thomas W. Watkins had sold out the entire business and property; others that a great merger had been effected. The facts are set forth in the following statement, issued by the firm:

In connection with the growth of the business of The Right House and the erection of the new large six storey building in rear of the present store, a very important and advantageous arrangement has been entered into whereby the Thomas C. Watkins' business becomes closely identified with the organization operating the great and famous McCreery stores in New York, the Wm. Hengener and J. N. Adams' stores in Buffalo and large and beautiful store in Pittsburg, with permanent buying offices in Paris, London, Manchester and other European centres, as well as New York. The advantages of these connections will be found in the purchasing power enabling The Right House to buy goods still more cheaply as well as receive and carry such up-to-date lines as are found in the above mentioned stores.

The personnel of the business of The Right House remains much the same. Thomas W. Watkins will still be interested in the growth of the business, Reginald Watkins has been appointed Vice-President, and Ernest Watkins also remains actively identified in the new organization.

Mr. A. S. Brown continues in his position as heretofore. The staff of buyers and salespeople remains the same, and a wider scope for development is possible to all. The large new six storey annex will be pushed as rapidly toward completion as possible, and if further needed, two more floors will be added to the present store.

Strange Death

(Special Despatch to the Times.) London, Ont., Oct. 12.—James Heyden, employed at Hyman's tannery, died in awful agony at St. Joseph's Hospital last night from one of the most peculiar cases of blood poisoning that has ever come to the notice of the local surgeons. On Friday last Heyden, while performing his daily duty of preparing dry hides, was struck in the front part of the neck by a hide in the hands of a fellow employee. He thought nothing of it at the time, but on Saturday his neck swelled greatly. He was removed to the hospital at once, and before the day was over his condition was hopeless. Heyden's neck was tender from recent shaving, and the hide contained deadly poison, causing anthrax to develop. Heyden's face and body swelled to an enormous degree, causing him most intense pain.

Will the Dukes put up their dooks to Lloyd George?

If Canada's navy does nothing but train men for the service it will be a great help to the Empire, for Britain may have the ships, but she will need all the men she can get to man her ships in time of war.

If there is anything in the charge that the people engaged in bringing or sending out children to Canada from the old land are engaged in a slave trade no time should be lost in investigating the matter.

If Mr. Pankhurst is coming to Toronto to break the windows in the Parliament buildings or chase Sir James Pliny Whitney down Yonge street, it may be found necessary to deport her.

No, Maude, Lloyd-George is no relation to King George.

Gent is short for gentleman, but the average gentleman prefers not to be short.

High tide—Being married in a ballroom.

#### Synopsis of Canadian North-west Land Regulations.

ANY person who is the sole head of a family, or any man over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency of the district. Entry by proxy may be made at any agency on certain conditions. By father, mother, son, daughter, brother or sister of intending homesteader.

#### Duties—Six months' residence upon and

cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

#### In certain conditions a homesteader in good

standing may pre-empt a quarter-section alongside his homestead. Price \$2.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

#### A homesteader who has exhausted the homestead

right and cannot obtain a pre-emption may take the patent in certain districts. Price \$1.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

THE HAMILTON TIMES

TUESDAY, OCT. 12, 1909.

HOME WISDOM IGNORED.

A question yet to be decided is whether the new vessels shall be built in Canada or in British shipyards.

That the British Government has approved of the policy which Canada has adopted in the matter of defence; that the vessels to be built are those agreed upon at the Imperial Defence conference; that British experts are advising and co-operating with the Canadian Government in all that is being done, and that whatever this is in conformity with the decisions arrived at by representatives of all the British nations as being the best for all, is conceded by everybody.

The jump in cement prices following that big merger is causing a good deal of comment. But if the increase is normal, what about it? Of course, the merger was to promote economy; but increase of profits was not barred.

FIGHTING TUBERCULOSIS.

The battle against tuberculosis goes on without intermission, and the forces arrayed against it gain in strength daily. And some victories are already to be recorded. We are wondering that ignorance which is only second in itself importance to the tubercle bacillus itself, and getting people to view the disease and its treatment—and what is still better, its prevention—in an intelligent manner.

With eight wards and two aldermen each, as at present contemplated, the council of Hamilton, after next year, will consist of 21 members, including the Mayor and four controllers.

There are many young men and young women in incipient stages of the disease who suffer but little from cough and have no expectation. These carry out their occupation efficiently and at the same time, especially if they have been inmates of a hospital or sanitarium for some months, live a hygienic life in their own homes and are gradually advancing to the condition of arrest.

Infestations is the commonest, inhalation by the air passages comparatively rare, except that which occurs in the upper air passages, affecting the lungs through the lymphatics. Infection through wounds of the skin and mucous membrane is not common, but occurs among those who handle sputum and other tuberculous material where proper precautions are omitted.

EDITORIAL NOTES.

What has Adam Beck up his sleeve now? Does he intend to balk on granting even the small concessions in that agreement?

Of course Mr. John Patterson and the Cataract Company are to be induced by the war on the local power company to 'Build up Hamilton.'

In Washington, D. C., a man must not keep a crowing rooster within 75 feet of a residence unless he obtains the written consent of 75 per cent. of the neighbors. Good ordinance.

The jump in cement prices following that big merger is causing a good deal of comment. But if the increase is normal, what about it? Of course, the merger was to promote economy; but increase of profits was not barred.

New York race track men say that the daily racing attendance at the New York tracks has fallen off 75 per cent. since the passage of the anti-gambling laws. That would appear to indicate that the crowds went to gamble, not to enjoy the races.

The United States Treasury Department is considering the admission of pulpwood from Quebec at a minimum rate of duty, unless where such pulpwood is cut on Crown lands. Of course this move will be strenuously opposed by the United States Paper Trust.

Now that the Hamilton Herald has assured the local power company that its efforts to represent it as the object of the implacable hostility of the city cannot possibly harm it in the financial and business world, we expect to see the directors of that company vote a resolution of thanks.

Bishop Neely, of Ohio, has banned clocks from the Methodist churches. He says: "People continually turn around to see what time it is, and you as ministers naturally follow their gaze, and cut short your sermons." What would the bishop have the people do with a proxy preacher? Ring a chestnut bell or get up and petition for mercy?

About 9,000 of Winnipeg's children of school age do not attend school at all. Of the 102,511 children of school age in Manitoba, only 61,804 are enrolled in any school. That is a very bad showing. The Roblin Government should take time enough from party plotting to make provision that the children of the Province do not grow up in ignorance and illiteracy.

The Hydromanic organ ridicules the manager of the Westinghouse Company because he advises against attempting to use motors of less than 500 horsepower at a voltage of 13,200. He is not an electrical engineer, it says. Still, a good many people will regard the practical experience of the manager of the Westinghouse, considered in the light of his Hamilton interests, as worth more than all the irresponsibilities of the Hydro gang. He has something at stake.

The Toronto Star flounders painfully in its argument that the Dominion Government should not disallow a Provincial Act because it is unconstitutional and because it has closed the courts against the citizen who would challenge its constitutionality there. To grant the Star's contention would be to deprive the citizens of any recourse against Provincial tyranny and injustice. This argument may suit the Star's purposes now; tomorrow, it may be the Star's toes that are trodden on.

With eight wards and two aldermen each, as at present contemplated, the council of Hamilton, after next year, will consist of 21 members, including the Mayor and four controllers.

It is our duty to do all we can to protect the relations, friends and attendants of the consumptive from danger, but at the same time we must not unnecessarily vex and harass him by cutting him off from all communication with his fellow beings and reducing him to the miserable condition of the leper of old.

There are many young men and young women in incipient stages of the disease who suffer but little from cough and have no expectation. These carry out their occupation efficiently and at the same time, especially if they have been inmates of a hospital or sanitarium for some months, live a hygienic life in their own homes and are gradually advancing to the condition of arrest.

Concerning the sources of infection, ingestion of tuberculous material by the

tributary to this city. Of course Hamilton can ignore the views of its rural patrons, and continue to subject them to serious inconvenience, if it chooses. But the price of such neglect and such treatment must be paid by Hamilton. Such a policy is of a piece with the fat-headed stupidity of a section of our people which is ever ready to make war upon our home institutions which build up the city, and harass and persecute local railways and other enterprises which contribute to the Greater Hamilton.

Mrs. Pankhurst, the leader of the suffragette termagants, is coming to lecture in the United States and Canada. This continent has been visited by earthquakes, cholera, smallpox, cyclones and conflagrations; it can surely survive a visitation of these female cranks. Female suffrage is a question which will bear presentation in a reasonable manner; but we very much mistake the character of Canadian women if they will give the slightest approval to the coarse and unwomanly methods adopted by the London suffragettes in their campaign. If the breaking into politics has such a debasing effect on femininity, what may we expect when the leaders of the movement are fairly in control?

Out in Norton county, Kan., the other day, according to the Jewell Republican, a western zephyr came along and picked up a 1,700 lb. bull, valued at \$700, whirled him up in the air and slammed him down a mile from where he was taken up. But this feat of "aviation" is beaten by what follows:

Another feat which it performed was to tear up the original prairie sod to the depth of eight inches. One man 500 yards from the storm saw what he took to be elickens being whirled high in the air and then hurled to the ground. On going to the path of the cyclone he found the objects were not chickens, but thirty Hereford cattle. All were dead but four, and these had to be killed.

A horse was given a mud bath while in the sky that covered him like the armor plate of a battle ship. When unscathed from its mud armor the horse was alive and will recover.

Not a single passenger on the railways of the United Kingdom lost his life by accident in 1908, according to the Board of Trade returns. This is a remarkable showing.

Our Exchanges

THE DOPE SHEET. (London Advertiser.) There is reason to fear that more men are studying the baseball score than the Bible or Shakespeare.

LAST CALL. (Toronto Telegram.) Less than three months till Christmas, so please let it be understood that this is the last call for straw hats.

LOVE TAPS. (Brantford Courier.) The Hamilton Times refers to "the blackguard of the Herald." How the Ambitious City newspaper men love one another.

ADMIRAL SEYMOUR. (Montreal Gazette.) If some statesmen and some soldiers talk and act like firebrands, some sailors, it will be seen, talk and act like statesmen.

TOO MUCH NOISE. (Toronto News.) The fact is that the nerves of urban residents are subjected to the wear and tear of too many unnecessary city noises, and these should be diminished as far as possible.

A GREAT PICTURE. (Woodstock Sentinel-Review.) But who can describe the glory of the autumn woods these few short days? It is many a day since nature allowed herself as much extravagance in the development of her color scheme.

SOLD FOR A SONG. (Harper's Weekly.) Torke—Your daughter's musical education must have cost a lot of money? De Pork—Yes, but I've got it all back.

Torke—Indeed! De Pork—Yes. I'd been trying to buy the house next door for years and they wouldn't sell. But since she's come home they've sold it to me for half-price.

THEIR PURPOSE. (Chicago Post.) "Mirrors," says the thoughtful man, "were given to woman so that she may see herself as others see her."

"Hardly," comments the man with the faded whiskers. "They were given to her so she may make herself see herself as she wants others to see her."

STANDING STILL. (St. Catharines Standard.) But with all our natural advantages which go to make our city a desirable place in which to live or to spend a holiday, our unlimited supply of cheap electric power—the smokeless fuel, natural gas, fertile soil, delightful climate, proximity to one of the natural wonders of the world, we are not making the substantial progress which ought to be ours.

THE EARLY MILKMAN. (Toronto Star.) Some of our readers, we venture to say, would prefer a noisy milkman to a stealthy one. When one starts up from an evil dream and thinks that soft footsteps are stealing in the side entrance and just then the wind rattles a loose window as if robbers were crashing in—in how comforting it is at that moment to hear the clink of a bottle of semi-skim milk against the bottle of denatured buttermilk that you are to have for breakfast! What a pleasure to know that it is your faithful dairyman who is at your door, and that honest men are abroad in the night. You feel as safe as you used to when your mother sat reading beside a shaded lamp in the nursery, and with a soothed mind you drift off again into slumber.

Would that the blooming idiot blossomed no more frequently than the century plant!

RULED OUT AS IRREGULAR.

Incorporation of Trolley Street School Section Defeated.

But Solicitor Talks of Applying For Mandamus.

A Hot Time In the County Council Over It.

The special afternoon meeting of the County Council, called for the purpose of considering the incorporation of S. S. No. 8 into a village, was one of the warmest, as lawyers, warden and councillors were all mixed up in rather heated arguments at different times and at one time the warden reprimanded a councillor and the councillor in turn reprimanded the warden. The result was that the powers of the warden were questioned, and after that had been straightened out the warden declared the petition invalid and the matter, for the time being, rests there, but the petitioners will seek to have a mandamus issued.

Shortly after Warden Gage had called the meeting to order, Mr. J. H. Horning, one of the petitioners, was allowed to give the reasons why the people wished to be incorporated as a village. The reason, he said, was that the people thought they could administer their own affairs more economically and the petition was circulated expressly to call the attention of the Council to the matter. The majority of the residents signed it, and only a few were kicking. As far as the south part was concerned they could remain as they are, but by incorporation they would assist the northern-section, which needed better facilities. The city was trying to annex the section which they proposed to incorporate and the incorporation would prevent them from doing so.

Among other petitioners who spoke was Mr. H. Trusdale. He said Mr. Horning had covered the ground pretty thoroughly, but the matter could be discussed all day. The question of annexation came up a few months ago and was started by residents of Crown Point, but annexation was refused unless S. S. No. 8 were also included and the result was that the county won its point, although it cost in the neighborhood of \$500, besides the cost to the private individuals. If value was any consideration, the largest land-owners had signed the petition.

Mr. George Pilton, the chief representative of the faction opposing the incorporation, said that on the assessment roll there were 615 names and of that number 311 were in favor of annexation; on the voters' list there were 496 names and 201 of them had signed the petition, which showed that the larger proportion were for annexation and not for incorporation. Some of the land owners owned so much property that they were entitled to vote seven or eight times. With such a large majority against the incorporation, he did not see why the council should be asked to consider the matter, as it was an insult to their intelligence. The matter, in his estimation, was a farce and they could prove it. Some of the residents had secured the same privileges as if they were in the city—water and sewer conveniences. There were various ways by which certain people could pull wires for different things, although some may have secured them all right. The ditch described in the petition was the cause of some of the worst cases of fever in S. S. No. 8 recently, when so much trouble was experienced, and yet no action was taken to attend to it.

Mr. William Strong said although he was a large ratepayer, he did not look at the matter from the standpoint from which it would benefit him and him only, but from the way in which the greatest good would be accomplished for the greatest number, as such was the lowest issue and for the benefit of the people at large. Coercion was what the residents, who were endeavoring to incorporate the village, were trying to use on the other side, but coercion was a symbol of cruelty. He was quoting scripture to try to establish a point in favor of annexation, when the chairman cut him off, and he was compelled to take his seat.

The county solicitor, Mr. J. L. Connell, was asked for his advice in the matter, and said he did not think the Council was in a position to act. The first requisite before doing so would be to take a census. Then, too, the petition was incorrect in certain details, but Mr. McClelland's argument might hold so far as the last named reason was concerned, that no one had been misled by the incorrect details. On one hand the Council was threatened with an injunction and on the other with a mandamus, but as the Council was desirous of doing what was fair, he didn't think they were in a position to pass it.

"Then you think it would not be advisable for the Council to act upon it to-day?" asked the Warden.

"I declare the petition irregular, and the petitioners will have to take other steps," said the Warden.

Mr. McClelland arose, but the Warden said they had heard all he had to say. "Not on this point," he replied, and then followed up his point by threatening to issue a mandamus.

"You may issue a mandamus," replied the Warden.

Councillor Binkley said the by-law might be passed, and a census taken later, and if the number of residents was found to fall short of the required number the by-law might then be declared void.

Mr. McClelland asked that the Council give its ruling in the matter, and not the Warden alone, and Mr. Gage asked that the yeas and nays be called.

Councillor Binkley's name was the first called, and he said he wanted to know clearly what he was to respond to, and the clerk got no farther with the name-calling, and the discussion was on in earnest again in regard to the matter.

"Make a motion," advised the Warden.

the Warden was a funny way to decide a legal question.

"I am not," said Mr. Gage.

"You are," responded the councillor, rather warmly; "you may use your influence against it, but you cannot rule it out of order. If you give it a moment's consideration you would change your opinion," he concluded.

"What is the question?" Councillor Binkley asked the Warden.

"As to whether it would be advisable to incorporate S. S. No. 8 into a village," replied the councillor.

"No, it isn't," answered the Warden.

"Yes, it is," quickly responded the councillor, "and I would ask you, Mr. County Solicitor, in regard to it," he continued.

"Do you know the rules of this Council?" asked the Warden.

"Yes, I thought I did; but they apply to you also," was the councillor's hot reply.

"I have allowed you to speak several times," said the Warden.

"I have spoken once to my resolution."

"Well, what are you doing now," said the Warden triumphantly.

One of the petitioners beckoned for one of the councillors to leave the room, and the Warden said he objected to the petitioners calling the men out of the room, and expressed himself ashamed of any man who would leave.

Councillor Binkley then read another motion to the effect that the ruling of the Warden be not sustained, and objection was taken to that motion also.

The councillor said the Council hadn't had a chance to show fairness, but a couple of the other councillors differed with him.

Mr. McClelland suggested that the cheapest way of finding out the number residing in the section in question was to get a certificate from the clerk giving the number on the last assessment roll, but the Warden said it would be necessary to take a census as the statute called for it.

Councillor Vane took objection to Mr. McClelland's statements, and was quite pleased at the stand the Warden had taken.

When asked as to whether a motion had been accepted authorizing the Council to take a census, the Warden said it was for the Council to say.

When Mr. McClelland asked if a new petition was necessary, the Warden replied that as there were so many discrepancies in the original it would be best to have a new one.

"That's absurd," said Mr. McClelland.

"Would you be willing to waive technicalities?" asked Mr. McClelland of J. Harrison.

"Waive anything you like," responded Mr. Harrison.

A motion was then carried, that the meeting adjourn, and the ruling of the Warden that the petition was irregular stood.

OUR MARKET.

How Hamilton is Losing Its Market as Well as Its Trade.

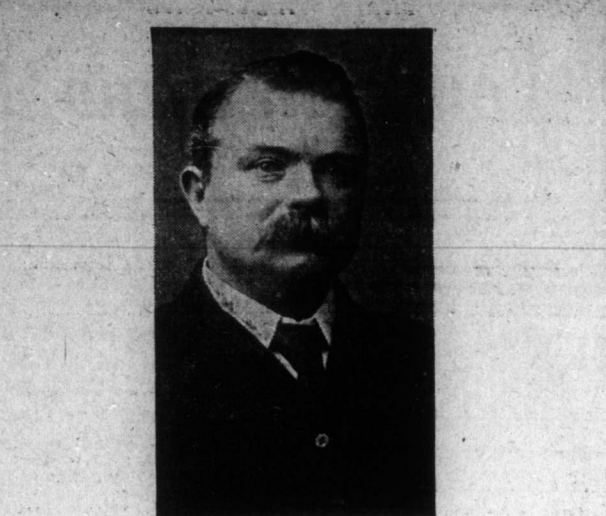

To the Editor of the Times: Sir,—In a letter to a city newspaper Mr. Jas. Dunlop combats the view that more room is needed for a produce market in the city, and suggests that if more room is needed the purchase of the hay market as the more suitable location.

When a country boy goes to the city and succeeds, he outthinks Herod in the quality and thoroughness of his citizenship. A suggestion of humane treatment to the common herd outside the city boundaries might cause citizens to suspect a common plebeian origin. Why should a farmer ask any better shelter than a stable, or the open sky, the few days (and nights) of the year he brings his produce to the city? Why did he not propose the stockyards for the swine?

It is an axiom that the city cannot live but on the country, and that the country cannot live without the city. Most ancient cities were of necessity built in a fertile country which could support them. The railways have made cities more independent of the surrounding country, but they, at the same time, have made the rural population independent of the city. If an increased trade between the urban and rural population is advantageous, the greater profit is of necessity to the city, and it is the citizen rather than the farmer who should thank Mr. Sealey. Hamilton would continue to prosper without a produce market, but it is impossible to measure the tax its loss would be upon Hamilton's industrial population. A farmer does not go to the market the day before, and stand in the open air all night, without charging it up to his customers—wages and salaries paid depend upon the purchasing power of the dollar, and the first dollar must go to purchase food, and any obstacles that are placed upon the supply of that food, lessens by so much the purchasing power of the dollar, and the wages of the workman. Workmen are not seeking a city of low wages. Nor are manufacturers seeking a city destitute of labor. Years ago, when Hamilton had only half of its present population, when the contiguous country grew but half as much produce as now, the farmers' market was larger than to-day. Considering this, no one will claim that Hamilton has cultivated the trade that is at its door. With the multiplication of railways and railway stations, much freight which formerly came to, and was distributed from, Hamilton, is now shipped from local stations. But aside from this, Hamilton's churlishness has forced many farmers who formerly sought her market either to seek other markets or to turn to other lines of farming. Every season you may see produce waiting that might go to your city but for the expense and hardship that would be incurred to sell it there. Trade (generally) is only barter. When a farmer sells in your city he purchases in your city. By purchasing in your city he pays (through your merchants) your local taxes. When he sells elsewhere he buys elsewhere. The other day a neighboring farmer shipped a quantity of fruit to Toronto. To keep an eye on the market he went to Toronto. He took advantage of his trip to buy a set of harness he otherwise would have purchased in Hamilton. Of the business firms of the city, Stanley Mills & Co. (although they do a large mail order business) appear to be the only firm that fully realize the value of the local market. Greater Hamilton. The trade to make a Greater Hamilton lies not within the city boundaries, but in the surrounding country. How large or how small this territory shall be lies with the city. The farmers may not be graced with fine manners, but they have some sense, and if we do not buy of them they will not buy of us.

H. P. Van Wagner.

No woman should doubt a husband's love if he is willing to wear the necktie she buys him.

As I told you yesterday, I'd have something more to say to-day, and thinking possibly that some of you might know me by name, and as I want you to know me both ways, I am handing to you herewith my portrait, which for the reason I gave you Saturday, I suggest that you cut out and place amongst your collection, labelled in proper order.

JAMES SCHUTZ

ST. GEORGE. CHOIR SOCIAL.

Mr. Collinson Gave a Finely Illustrated Lecture.

The members of the St. George's Society were given a great treat last night in Arcade Hall when the President, Mr. J. H. Collinson, M. A., gave a very interesting lecture on the English navy. It was illustrated by a large number of stereopticon views which were made from pictures taken during Mr. Collinson's recent visit to England, when he was present at the naval review at Spithead last July. Pictures of all the leading battleships, cruisers, torpedoes, submarines, etc., were shown and many interesting facts and figures relative to the strength of the British navy were given. In short, the ships of the navy were explained from A to Z, and those present learned much about a subject that is of paramount interest just now.

Besides pictures of the battle ships being shown, there were many nice views of yachting scenes around Cowes, the Isle of Wight and the procession of the late Queen Victoria's funeral at Cowes, on the way to the yacht Victoria and Albert, which took the body over to Portsmouth, from where it was taken to London.

During the evening songs were sung by Dr. Glasco, Dr. Mullen and Mr. W. Chadwick. Archdeacon Fowcett said a few brief words urging the members to bring new members into the society.

John Smith Mackle died yesterday morning at his home in Chippewa, Ont. He was a descendant of one of the first families settling in this section. Death was due to heart failure, from which he had been ailing for the past two weeks.

It is quite natural that the balloons should feel inflated over his success.

The fellow who throws his money to the birds is a good bit of a jay himself.

Wednesday, Oct. 13, 1909 SHEA'S MAY MANTON Patterns, AN 10c

Shea's \$5.00 Hats

Perfect in style, but not extreme, fit for any occasion. Shapes to suit every face, colors to suit every costume; you will think \$7.50 at least when you see them, and then wonder how much dainty style can be sold for.

Shea's \$3.75 Net Waists

Made of beautifully fine net, in both ecru and white, handsomely trimmed fronts, pleated backs, newest sleeves, made over silk slips. A waist that \$5.00 is not a cent too much for, our price each \$3.75.

Shea's 3 for \$ Hose

Knitted of purest fine cashmere yarn, full fashioned and seamless, in one line, and fine llama in another line, all thoroughly fast black and mighty near 50c value, our price 35c, or three pairs for \$1.00.

Shea's Boys' School Hose Diamond Knee

Our "Diamond Knee" Boys' School Hose is without question, and we have tried them all, the best Hose for boys' wear imported into or sold in Canada. It's not a low priced Hose, but is a cheap Hose, wear and comfort considered. Sizes 6 1/2 to 10-inch, and sold for \$4.50, 50, 65 and 75c. Good, warm Worsted School Hose at 25, 35 and 50c.

Women's Silk Underskirts Bargains

Made of splendid quality of well-wearing taffeta, in black and every color you want. Good, full widths, with taffette under frill. Skirts that we have never seen the equal of at three more. Each \$3.98 and \$4.95.

Fall Underwear Time is Here

All the Shea stock of dress goods has got to be cleared to help it out. We have made some very advantageous purchases of stylish goods that we offer to you at wholesale and less than wholesale, 75c goods for 50c, \$1 goods for 75c, \$1.50 goods for \$1.00.

Fall Kid Gloves 90c, \$1, \$1.25, \$1.50

New importations of beautiful French Kid Gloves in black, brown, maries, greens and greys, etc., every pair covered by the usual broad guarantee, per pair 90c, \$1.00, \$1.25 and \$1.50.

The best English Cape tanned walking glove for women in Canada at \$1.00.

PEOPLE TO SETTLE IT.

Aldermen Could Not Agree on Re-Dividing City.

New Incline Railway For Head of Garth Street.

Council Decides to Purchase the Fitch Property.

Next year's Council will consist of twenty-one aldermen, four controllers and the Mayor. The Council settled that last night, when it voted on a 16-5 division to submit a by-law to the electors in January providing for the division of the city into eight wards for the election in 1911, with two aldermen from each.

The motion to strike out the Finance Committee's recommendation dividing the city into five wards, with three from each, was made by Ald. Allan, seconded by Ald. Farmer.

Ald. Allan, seconded by Ald. Jutten, moved that instead the Council remain as at present for next year, and that a by-law be submitted in January for the division of the city into eight wards, reducing the number of aldermen to two from each ward. This would provide for the annexed district next year.

In amendment to the amendment, Ald. Lees moved that the city be divided into six wards, with three aldermen from each. The people he did not think wanted little hole in the corner wards. The arrangement he suggested would avoid the necessity of submitting a by-law to the people. It would give a Council of twenty-three members, one more than at present.

The aldermen laughed when Ald. Lees mentioned the "skidoo" number. Ald. Forth seconded Ald. Lees' amendment to the amendment.

Ald. Farmer advocated the eight ward arrangement as the most equitable division of population, and called attention to the difficulty the Board of Education would be drawn into if there was a smaller division.

Ald. Peregrine frankly admitted that he preferred the election at large system, and said that other cities that tried the ward system, such as Toronto, would welcome a return to the election at large. Twelve aldermen, four controllers and the Mayor was a big enough Council to govern the city.

Ald. Peregrine strongly denounced sectional jealousy, and said the way to avoid it was to have large wards. He predicted that within two or three years Hamilton would be voting at large again.

"I think it would be less cumbersome and the city would be more fairly governed," said Ald. Crerar, "if the aldermen were elected at large."

He objected to reducing the number of aldermen, because the controllers would not devote all their time to city business, any more than the aldermen did now.

Ald. Ellis was prepared to move another amendment providing for the submission of a by-law for the election of aldermen and controllers at large. The City Clerk, however, informed him that Hamilton had at stake to the ward system for five years.

Only three aldermen voted for Ald. Lees' amendment to divide into six wards. They were Ald. Lees, Forth and Robson.

The division on Ald. Allan's amendment, to have the Council remain as at present next year, and submit a by-law in January for the division of the city into eight wards, carried as follows: Yeas (16)—Ellis, Wright, Crerar, Applethorpe, Clark, Gardner, Jutten, Hopkins, Morris, Milne, Sweeney, Ryan, Farmer, Allan, Forth, Anderson.

Nays (5)—Cooper, Robson, Peregrine, Guy, Lees.

WEST END INCLINE. Walter E. Evans, on behalf of a client, who wants to build an incline railway at the head of Garth street, wrote to Mayor McLaren as follows: "A client of mine is proposing to build an incline railway up the mountain at the head of Garth street. You and the Council, of course, are aware of the important convenience that the two inclines that we already have for the purpose of affording access to the city from the south, but in the extreme west end of the city, there is no such access to be obtained. If an incline could be erected there the most convenient place would be the unopened road allowance, which is the southern extremity of Garth street, extending up the mountain. The city, of course, owns the property now on both sides of Garth street at that point, and my client would like to know at a very early date if your Council could see its way clear to grant permission for the erection of an incline at the place proposed."

The Board of Works will take the matter up at its next meeting.

THE DOG BY-LAW. Ald. Sweeney's motion, seconded by Ald. Crerar, to rescind the present by-law, prohibiting dogs running at large, and enacting a new one, which gives the dogs their liberty, with the exception of during the months of May, June, July and August, when they must be in control of responsible persons, was referred to the Markets Committee, to be dealt with at once.

Ald. Crerar declared that the present by-law would not stand a test.

DIVIDED ON THIS. The Board of Works recommended that Chairman Allan, City Engineer Macallum and Secretary Brennan be authorized to attend the convention of the American Society of Municipal Improvements to be held at Little Rock, Ark., on November 2, 3, and 4.

Chairman Allan's name was struck out at his own request.

Ald. Cooper thought Hamilton would be sufficiently represented by Engineer Macallum, and he moved, seconded by Ald. Cooper, that Secretary Brennan's name be struck out.

Before the Council was divided. Ald. Hopkins wanted to hear the engineer's opinion.

"I think it would be a great mistake not to send the secretary," said Mr. Macallum. "There is much valuable information for him to gather that is not within my jurisdiction."

Ald. Ryan, despite Mr. Macallum's opinion, stoutly opposed Mr. Brennan going. "We have practiced economy all year," he said. "We soaked the poor men who clean the streets, \$3 for their suits and now we are going to blow in a couple of hundred dollars for this."

a cost of \$5,400 was endorsed without comment.

The council also approved of the awarding of the contracts for the building of the pump house at the Beach to Frid Bros., at a cost of \$1,950. The Hamilton bridge works will do the iron work at a cost of \$415.

When the Finance Committee's report was reached Ald. Milne inquired about the sale of \$80,000 school debentures. The committee recommended that the offer of \$78,200 made by the Dominion Securities Company be accepted.

"It seems as though Hamilton was not considered a safe city to invest in," said Ald. Milne. "Have proper means been taken to advertise these bonds. Toronto and other cities have been selling debentures at par."

Chairman Peregrine explained that the usual course had been followed, and it was apparently the best the city could do at present.

The Board of Works recommendation to place the building inspector under the city engineer in the matter of street encroachments was endorsed by the council. Mr. Anderson hereafter will report direct to the engineer in any case where he has any doubts about buildings encroaching on the street line.

Chairman Peregrine explained that the usual course had been followed, and it was apparently the best the city could do at present.

The Board of Works was authorized to spend \$1,500, set aside early in the year for a cement walk on King street from the T. H. & B. to Paradise road, on moving back the walk on Aberdeen avenue, between Queen street and Fairmount avenue.

A. Y. P. A.

Christ's Church Literary Joins the New Movement.

A meeting was held last night in the lecture hall of Christ's Church Cathedral to place the building inspector under the city engineer in the matter of street encroachments was endorsed by the council. Mr. Anderson hereafter will report direct to the engineer in any case where he has any doubts about buildings encroaching on the street line.

The Board of Works was authorized to spend \$1,500, set aside early in the year for a cement walk on King street from the T. H. & B. to Paradise road, on moving back the walk on Aberdeen avenue, between Queen street and Fairmount avenue.

WAS PASSING UNDER CAR.

That Was What Led to Fatal Accident at Dundas.

Jury Recommends That County Provide Place For Treatment.

Believed That Mrs. Stratford Is Now In Hamilton.

Dundas, Oct. 12.—Two funerals of well known citizens took place yesterday afternoon. Mrs. Anthony Davidson, sen., was laid at rest at 2 o'clock. Deceased leaves to mourn the loss of a loving and tender mother, besides her husband, five sons: Anthony, William and Murray, of Dundas; John of Toronto; James, of Indianapolis, and one daughter, Mrs. Geo. McCowan, of Dundas, also an adopted son, John Smith, also of Dundas. The funeral services were conducted by Rev. S. H. Gray and the pallbearers were her five sons and her son-in-law, George McCowan. Among friends from a distance were her brother-in-law, John Grant, of London; John Lawson, a brother from Caledonia, and a sister, Mrs. J. S. Gray, of Toronto. Mr. and Mrs. Davidson came to Dundas several years ago from Greensville, where he had for several years conducted a blacksmithing business. They were held in very high esteem by all who knew them. Mrs. Davidson was for many years a devoted member of the Presbyterian Church.

The funeral of Wm. McMillan at 3 o'clock was very largely attended. The three societies to which deceased belonged, the Masonic, Canadian Foresters and Sons of Scotland, turning out in large numbers. Rev. S. H. Gray conducted the services. The pallbearers were: Mayor Lawson, James Mason, M. T. Sullivan, W. H. Bates, Charles Wilson and James McMurich. Deceased leaves a wife but no children. Among those present from a distance were: Ed. Dickie, Toronto; Robert Percy, Galt, and Peter B. Burton, Toronto.

The mad dog scare in the town seems to rest on a very flimsy foundation. Some people seem to have got scared at some strange actions of a dog and a cat, and on being consulted, Dr. Jacques, V.S., advised that it might be as well to destroy the suspected animals, which was done, but Dr. Jacques says he would not say they were suffering from hydrophobia. The dog's head, however, has been sent to Ottawa for analysis.

The opinion now largely prevails that Mrs. Stratford, who left her home on Saturday, Oct. 2, inst., and was afterwards seen drinking in the Osborne Hotel, is somewhere in Hamilton. The last trace of her she was on a late Hamilton car the same evening.

The jury summoned to ascertain the cause of death of George Vassel met yesterday afternoon and proceeded to view the scene of the accident, and then adjourned to meet again at 8 o'clock. In the evening the jury brought in a verdict that deceased had come to his death by being injured while trying to pass underneath a car, with a pair of water. The evidence showed that the car was standing when he started under. Not knowing of his presence at all the train was started. The jury also recommended that the county should provide some place where injured people could be treated without the loss of time occasioned by removal to Hamilton.

Mrs. James Slater formerly Miss Mary Levison, second daughter of James Sturt, of West Flamboro, died in Parry Sound on Sunday. Mr. and Mrs. Slater had been married about a year. The cause of death was appendicitis. Her remains will be brought home here for burial.

Shipment of Pineapples Destroyed. Montreal, Oct. 11.—The Standard Import Company of 575 St. Paul street, last week received a consignment of 4,000 tins of pineapple, of which they had reason to be doubtful. Dr. McCarty, of the city Board of Health, was called, and found them to be unfit for consumption, the cans in some cases being rusted through. He ordered their seizure, and to-day the pineapples were consigned to the dump heap.

Amusements

TO-NIGHT AT GRAND.

Howard Gould will again head the cast which is to present "The Witching Hour" at the Grand to-night and tomorrow evening. Mr. Gould will be seen in the role of Jack Brookfield, the gambler, around whom the play revolves, and of which character he gives an excellent portrayal. His support is particularly good, and much the same as last season, while the stage settings are elaborate and perfect in every detail. The play drew a large audience in Toronto last week, and is worthy of liberal patronage. It is a story full of dramatic situations, capable of holding the attention of its audience from the rise to the final curtain. No dramatic performance will be seen here this season to surpass "The Witching Hour."

WEEK AT BENNETT'S.

Last night a large and appreciative audience saw the initial production of the Bennett Theatre bill for this week. The programme is a varied one, branching into several lines of vaudeville endeavor, and there are numbers to satisfy the individual taste of any audience. A majority of the acts are funny, and to be amused pleases the average theatre-goer better than to be startled or mystified. The Dixie Serenaders in their countown festival of songs and dances provide one of the most entertaining numbers on the programme, and last night they received several encores. For harmony nothing can beat their combined voices, and they get off many droll jokes and conundrums. The English mermaids, Maud and Gladys Finny, give a beautiful demonstration of swimming, diving and fancy stunts under water, and their act alone is well worth the price of admission. The Acrobat and the Rube, as played by Scott and Wilson, is one of the funniest things seen on the local stage. Wilson walks on the stage and announces that the act cannot go on as his partner, Scott, has not shown up. A rube in the audience, who claims nativity in Stoney Creek, yells out that he paid his good money to get in and wants to see the "hull" show. He is, of course, Wilson's partner, but the dialogue between the two is very funny, and the audience was convulsed with laughter last night while the pair were on the stage. Keane and Briscoe in an up-to-date farce, entitled "A Trial Marriage," were clever, and the sketch made a hit with the house. Another sketch that met with approval was "Miles to New York," by Zinelle and Boutte. Corinne Francis, the funny singer, proved himself a clever comedian. Luigi Marabini, the famous Roman ice sculptor, provided a novel entertainment that was instructive as well as interesting. The moving pictures were also good, and on the whole the offering is up to the standard.

BARRIE AND PAULINE CHASE. London, Oct. 9.—It is rumored about town that if James M. Barrie, the author and playwright, wins the divorce suit he has begun in the high court of justice, he will marry Miss Pauline Chase, the lovely American actress, for whom he has always shown undisguised admiration.

In fact, Barrie makes a co-respondent in his suit, a Mr. Cannon, a member of the Stock Exchange, and not yet twenty-five years old. Cannon was among the "friends" whom the Barries entertained in London and at their country residence.

Pauline Chase, a beautiful and shapely young woman, whose home was in Washington, D. C., won much admiration here as "the girl in the pink pyjamas," as a chorus girl in "The Liberty Bell." She went to London about six years ago.

MARCHESE SUBSCRIPTION LISTS. Subscription lists for the coming of the great soprano, Blanche Marchesi, are now open at Anderson's music store, Nordheimer's, the Conservatory of Music, J. Faskin McDonald's and John Mack's drug store. The concert will take place on the evening of Monday, Nov. 1, in the Grand Opera House.

Y. M. C. A. STAR COURSE. The subscribers list to the Y. M. C. A. Star Course is increasing every day, but there should be at least two hundred more before Saturday to assure success. Six splendid entertainments, worth from \$1.50 to \$1 apiece, can be secured for \$1.50. Mr. J. Burns will start delivering course tickets to-day. The Common-

wealth Ladies' Orchestra will be the first on the course on the 16th inst.

VERNON CAREY IN ERIE.

The Erie, Pa., Daily Times has the following: A delighted audience greeted Messrs. Vernon E. Carey and George W. Langer at a recital given in Glenwood Chapel on Tuesday evening. Mr. Carey was in excellent voice and his singing brought forth a hearty response from the audience.

"Mother of Mine" and "Carissima" were two gems which showed the broad scope and excellent training of the singer, whom we shall hope to hear often. Mr. Langer never fails to make good on any programme, and his readings and impersonations on this occasion were up to their usual high standard of excellence. Every number on the programme received a hearty encore, to which both gentlemen graciously responded.

FIRST CHURCH.

Young People's Federation Starts Its Meetings.

First Methodist Church Federation had its first regular meeting last night, when about 100 members attended to enjoy the programme presented by the literary department. Short speeches were made by the officers, including Cal Davis, President; A. Marshall, First Vice-President; Frank Hutchinson, Recording Secretary; and Carmen Awrey, Corresponding Secretary, and Mr. Ed. Zimmerman, Chairman of the Literary Section, gave an admirable talk upon great accomplishments of young men. The musical part of the programme consisted of a vocal duet by Miss Gretta Hill and Miss Edna Chagnon, and piano solo by Mr. Wilfrid Oaten. Miss Kathleen Lancelley played for the chorus singing. Mr. Frank Shepard read two scenes from the life of Gipsy Smith.

A BRIGHT OUTLOOK.

On Sunday evening last the pastor, Rev. H. McDiarmid, preached an eloquent and foretelling sermon on the text, "Where art thou?" to a large congregation at Herkimer Baptist Church. The choir rendered an anthem in fine style, and Miss Lillian Jackson sang "The Homeland" in a pleasing and effective manner. The various departments of the work are making good progress, and the future looks bright and fair for the welfare of Herkimer Baptist Church.

STEELE'S DEATH.

The coroner's jury which investigated the circumstances surrounding the death of William Steele, formerly a motor-man on the Hamilton Street Railway, who was killed near London on Sunday evening, found that death was accidental, and that the Grand Trunk Railway was in no way to blame.

New Method of Putting Up Ice.

Winnipeg, Oct. 11.—A new method of putting up ice has just been patented here, and will be utilized this winter. City water will be pumped into a large building, where it will be frozen in layers a foot thick, between which will be placed sheet iron covered with vaseline. The method was fully tested last winter and found satisfactory.

The man who doesn't blow his own horn must pay the piper. The man who is dissatisfied with his lot can't always mortgage it.

The doctor says you have got to take Cod Liver Oil—if so, why not take it in the easiest and best form—why not take

Scott's Emulsion

That is what the doctor means. He would not force you to take the crude oil when he knows the Emulsion is better—more easily digested and absorbed into the system—and will not upset the stomach like the plain oil.

FOR SALE BY ALL DRUGGISTS

Send for sample of paper and this ad. for our beautiful Savings Book and Child's Sketch-Book. Each book contains a Good Luck Penny.

SCOTT & BOWNE 120 Wellington Street, West Toronto, Ont.

A Beautiful Array of Fabrics for Evening Wear

All society is planning its wardrobe for evening wear now-a-days. In this connection we might say that no one source of inspiration is so fruitful as the department where these evening materials are displayed. Come and see.

BABY SHOES—We have the best assortment ever shown in the city.

J. D. CLIMIE 30 and 32 King West

When Trade Needs Brightening Advertise in the Times

SCENE FROM "THE WITCHING HOUR," AT THE GRAND TO-NIGHT AND TO-MORROW.

They Keep the Brakes Set  
And So Can Never Do Their Best.

Many men, and more women, go through life like a train with the engine tugging, but the brakes hard on. They never get anywhere near top speed, because they are never really well.

Probably they do not own even to themselves that they are sick, but they scarcely know what it is to really "feel good." Always there is headache, or that "dragged out feeling," which makes good work, either mental or physical, utterly impossible.

The most common trouble with all these people is that they have Constipation. Their systems are poisoned with the waste matter, which stays in the blood, instead of being promptly removed by the bowels.

"Fruit-a-tives" combines the well-known laxative principles of apples, oranges, figs and prunes. So perfect is the combination that "Fruit-a-tives" acts like the fresh fruit, by stimulating the sluggish liver to supply the proper amount of bile to move the bowels regularly.

The most stubborn cases of Constipation promptly yield to the curative and corrective effects of "Fruit-a-tives."

50c. a box, six for \$2.50, or trial box, 25c.—at dealers or from Fruit-a-tives, Limited, Ottawa.

MISSION MONEY.

Methodist Church Will Largely Increase Grants.

Outlay For New Buildings in Japan Will be Provided For.

Ottawa, Oct. 11.—The General Mission Board of the Methodist Church devoted the greater part of to-day's sittings to receiving reports of the various sub-committees appointed to deal with the problems before the board.

The most important report adopted was that on the extension for the existing year, presented by Mr. N. W. Rowell, K. C. The board endorsed the recommendation of the committee providing for an annual increase of \$50,000 in the expenditure on missions during the next five years, this increase to be divided equally between home and foreign missions.

It is in respect to co-operation in the home mission fields with other denominations a report was adopted that the board should memorialize the general conference to consider the whole question with a view to securing greater co-operation.

On recommendation of the Committee on Indian Missions, it was decided to grant \$150 per year as compensation to the Indian fathers who sent their children away from home to attend school.

A grant of \$7,500 was authorized for mission buildings and sites in New Ontario and the Northwest and a grant of \$8,000 was made for a kindergarten on a site at Winnipeg, provided the Winnipeg City Mission Board raised at least an equal amount.

DIED IN PARIS.

Sir Henri Taschereau, Chief Justice of Quebec, Passed Away There.

Montreal, Oct. 11.—A cable was received here to-day from Paris, announcing the death of Chief Justice Sir Henri Taschereau. The late Chief Justice of the Court of King's Bench was visiting his daughter in Paris, when he was taken suddenly ill with inflammation of the bladder. He had been absent from the Province since May.

Sir Henri Taschereau was the son of the late Jean Thomas Taschereau, Judge of the Supreme Court of Canada, and a nephew of the late Cardinal Taschereau. Born in 1841, he was educated at the Quebec Seminary and Laval University, and was called to the Bar in 1863.

PIRATES' TREASURE

Uncovered by Great Storm in Yucatan and Picked Up by Sailors.

Merida, Yucatan, Oct. 11.—For many years there have been stories of a buried treasure on the coast of Yucatan, and search has often been made unavailingly for the booty supposed to have been hidden by Lafitte, the pirate, who died and is buried in Yucatan. And now the truth of these stories would appear to be verified.

The recent severe storm along the coast of Yucatan is believed to have uncovered from the beach at Puerto Celestun the buried wealth of the pirate. Soon after the storm subsided the crews of fishing boats began picking up many gold and silver coins of English and Spanish make, and bearing dates of the early part of last century.

These coins are scattered all along the beach at Puerto Celestun, and several thousand dollars' worth of them so far has been collected.

ADULTERATING MILK. Producers at Vankleek Hill and Glen Robertson Fined.

Brockville, Oct. 11.—During last week Mr. Alfred Street, prosecutor for the Eastern Ontario Dairywomen's Association, had five cases at Vankleek Hill, four for skimming and one for watering milk. Each delinquent was fined \$40 and costs. At Glen Robertson he was the prosecutor in six cases, five for skimming and one for watering. Four of these were fined \$40 and costs, one \$30 and costs, and the other \$10 and costs. All pleaded guilty.

ASSASSINATION OF ALFONSO

Threatened If Prof. Ferrer is Executed at Barcelona.

His Popularity With His Subjects Will Not Save Him.

Crowds Attack Spanish Consulates in Zurich and Amsterdam.

Paris, Oct. 11.—There has been a marked increase this autumn in the membership of the Spanish colony in Paris, and, according to a leading house agent, there has been an unprecedented number of apartments rented by Spaniards.

A prominent Spanish politician, in an interview to-day, attributed this noticeable increase in the Spanish population of Paris to the unsettled political conditions in Spain. "There are two men in Spain at the present moment," said this politician, "whose lives are in danger, King Alfonso and Prof. Ferrer, the alleged instigator of the recent riots at Barcelona, who has been on trial by court-martial and who is reported to have been found guilty of treason. If Ferrer is executed the King will die within two months. Ferrer is a hero. The King is a demi-god and is beloved by his subjects, but if he ratifies Ferrer's death sentence he will be a doomed man."

TO BE SHOT WEDNESDAY.

Cerebere, France, Oct. 11.—Unless some orders to the contrary are issued in the meantime, Ferrer, the Spanish Anarchist leader at Barcelona, will be shot on Wednesday. His advocate has been arrested.

EXCITEMENT IN MADRID.

Madrid, Oct. 11.—There is much excitement and curiosity here as to the fate of Ferrer. Opinions are about equally divided as to whether he will be put to death or pardoned. Nothing definite is known as to what has happened at Barcelona.

PROTESTS HIS INNOCENCE.

Barcelona, Oct. 11.—At the trial by court-martial of Prof. Ferrer, the former director of the Modern School of Barcelona, who is accused of having been the principal instigator of the recent revolutionary movement in Barcelona, Ferrer, speaking in his own defence, described how, with the police dogging his steps, he tried to keep out of sight during the rioting. He denied that he had been involved in politics and declared that he was solely interested in the improvement of the education of the youth of the country.

He considered that the rising in Barcelona was quite spontaneous, and attributed the incendiaryism that had occurred to the madness of the moment. He was convinced that his prosecution was the work of enemies.

FOUR WATER SPOUTS

Wonderful Sight Reported Off Newfoundland by Schooner Cedella.

Halifax, Oct. 11.—Surrounded by four water spouts, the crew of the little Newfoundland coasting schooner Cedella had an experience a week ago which none of them ever want to go through again. For an hour and a half on the morning of Sunday, Oct. 3, they gazed, fear-stricken, on the most remarkable meteorological phenomenon ever reported in northern waters.

Four great moving columns of water, rotating violently and sending up dense clouds of spray, were sighted in different directions, and at one time their vessel was within half a mile of the largest of the lot, and they pretty well gave up hope of ever seeing port again.

That the men of the Cedella were not suffering from hallucination is proven by the statements of Captain Hermann Wentzell and Mate James Hayward, of the schooner Corcan, who also sighted some of these phenomena on the same day, but in a different position from that of the Cedella. Both Captain Wentzell and Mate Hayward had seen water spouts in the West Indies before, and they readily identified the moving pillars of water, although never before had either of them heard of a waterspout being seen north of twenty-two.

"I've crossed the gulf a hundred times, but I never saw anything like it before," declared Mate Robert Strickland, of the Cedella, this morning.

A TERRIFIC SMASH.

Runaway Train at Vancouver Collides With Passenger Car.

Vancouver, Oct. 11.—Rushing down from Central Park into Vancouver at a speed of over fifty miles an hour, a work train of five dump cars, led loose by small boys, crashed into the rear end of a Grand View passenger car on Sunday. Conductor Haigh saw the runaway cars, yelled and jumped. The trucks of the car were taken clean from under it, and the rear vestibule, except the roof, smashed into pulpwood, and the flooring torn out.

The motorman, H. Thompson, was shot out of the vestibule half through the car, carrying the front door with him. Twelve passengers were on the car, including several women and children. All escaped with a shaking up. Mrs. Kidd, 1105 Twelfth avenue east, had to be assisted home. A lady in a carriage passing at the time was struck by a flying timber and also had to be assisted home. Her husband, who was with her, was uninjured. Traffic with New Westminster was interrupted for two hours.

Small boys were playing with a tank car standing on the Central Park siding. They released the brakes and the tank car ran into the five dump cars, causing the latter to jump the blocks under the wheels. The switch is a spring, which automatically sets itself for cars coming upon the main line. The dump cars were driven out on the main line and began a four-mile rush down grade. The passengers' escape was marvellous.

When a woman feels blue she weeps; when a man feels blue he smiles. So some girls sing outwardly in the parlour and scold inwardly in the kitchen.

Taylor's Borax Soap advertisement with logo and headline: 'Make Washing Easier'

You can do a big washing with half the trouble if you use Taylor's Borax Soap. It whitens, cleanses and sweetens the clothes, saves boiling and will not shrink wool, while the things look better and feel nicer than they ever did before. Wash your things in the Taylor way.

John Taylor & Co., Limited, Toronto

HUNGER STRIKE

Threatened by 94 Women If Appeal is Lost.

Mrs. Pankhurst Sails For America on Wednesday.

London, Oct. 11.—Mrs. Pankhurst, leader of the militant suffragettes, accompanied by Miss Mary Pethick, sister of Mrs. Pethick Lawrence, is sailing on the Oceanic on Wednesday to fulfill a lecture engagement in the United States and Canada. "I may find prison waiting me on my return," she said in an interview, "as the appeal against the sentence of one month imposed on June 29 on me and the Hon. Mrs. Haverford, Lord Alington's daughter, and ninety-two other women for presenting a petition to Premier Asquith is to be heard early in November. I decided against any, all of us will protest by starving. The authorities had trouble enough forcibly feeding three of us; what will they have with ninety-four?"

Mrs. Pankhurst said the movement has three stages, ridicule and derision, then anger, then success. The second stage has been reached here, with success at hand. America is still in the first stage.

FRENCH WOMEN WANT VOTES.

Paris, Oct. 10.—The leader of the French female suffragists, who decline pointedly to accept the English name of suffragettes, Mme. Schmadt, who bears the degree of Doctor of Medicine and succeeded the wounded in the trenches at the defence of Paris in 1870, has had an interview with M. Briand, the Premier, as the representative of the Woman's Suffrage Union, of which she is President. M. Briand expressed himself as in favour of female suffrage in municipal elections, but said he could not intervene officially in the Chambers when the subject again came up for consideration without the prior concurrence of the Council of Ministers.

"It is for you women who are especially interested in this cause," said M. Briand, "to create a situation which will be worthy of the attention of the Government. Just what idea the Premier intended to convey is rather doubtful. Some people are asking whether he meant to hint that the French women might advance the cause by imitating the kind of activity which characterizes the British suffragettes. Mme. Schmadt, however, reiterated that such a course is furthest from her intentions."

"We are not partisans of violence," she declared. "At the same time she characterized some of the English suffragettes as heroines, expressing the opinion that they would go cheerfully to their death if they believed that they could thus assure the triumph of the cause."

"Violence," she said, "was taught us by our masters. Every revolution and all progress have been accomplished by its aid, but French women differ from English women just like the Frenchmen from the Englishman. We, in France, are not well situated to pass judgment on our English sisters."

TRAINED POLAR BEARS

Will Draw Amundsen's Sledges in the Far North.

Hamburg, Oct. 11.—Captain Randal Amundsen, the well known Danish explorer, who is about to start on a polar expedition, has decided to try a remarkable innovation in the use of draught animals for polar travel. He will endeavor to make polar bears draw his sledges.

Some time ago Captain Amundsen made a contract with Carl Hagenback, the famous animal trainer, for twenty ice bears three years old. Hagenback's men have been industriously at work for a month training the bears, and the results attained are said to promise success for them in polar work. The animals will be shipped to Christiania this week, where they will be taken on board Captain Amundsen's ship.

Apples for South Africa.

Halifax, Oct. 11.—Three thousand bushels of Nova Scotia apples were shipped to South Africa to-day, when the Elder-Dempster liner Melville sailed from here to the Cape. Apples from this Province have been going to the Cape for a number of years now, and this year the shipments will be much larger than in former years.

CONVICT ESCAPED.

He Jumped From a Train Near Tivoli, New York.

Tivoli, N. Y., Oct. 11.—Edward Davis, alias King, a negro convict, jumped from a New York Central express train near here to-day and disappeared. He was discharged from Dannemora yesterday and was being taken by a warden to a North Carolina prison, from which he had escaped. The train slowed down and King, notwithstanding both hands were handcuffed, jumped from a platform of a sleeping car. He rolled over and over, but regained his feet and disappeared in the fog. The warden jumped after him, but was too badly cut and bruised to give pursuit.

TOOK BABE AWAY.

EVIDENCE AGAINST EVA SUTER BY MEMBERS OF HER FAMILY.

They All Agree That the Father Could Not Have Had Anything to Do With the Child's Death, as He Was Home All Day.

Braebridge, Oct. 11.—At the coroner's inquest at the Court House this evening on the infant of Eva Suter the evidence of the girl's father, Martin Suter, went to show that on Sunday night, September 19th, he waited up till nearly 1 o'clock in the morning for his daughter to come home, and on her arrival he scolded her for being out so late, and said she would either have to keep better hours or leave her home and take the child with her, which she said she and heard what transpired between his father and his sister. Other members of the family corroborated the statements as to what took place on the morning of the 20th, and particularly as to the fact that Mr. Suter did not leave the house after Eva left until after dinner, which was about 1 o'clock, and then only went as far as the barn that he was building, accompanied by his little boy, who was assisting him.

R. E. Armstrong, county constable, told a story substantially the same as the facts given in Monday's press despatch.

A letter was produced that Eva Suter had written to her friend, Elizabeth Whilifer, in which she stated the child had been taken by Rev. Mr. Burt, of Braebridge, as she had taken a position with a family by the name of Booker, living near Braebridge, where they had typoid.

The medical testimony of Drs. Williams and Colbeck, who performed the autopsy, was that death had resulted from strangulation.

The jury was very briefly addressed by Crown Attorney Johnson and Dr. P. B. McGibbon, the Coroner, and the court room was then cleared, pending the jury's verdict. T. E. Godson, of Braebridge, looked after the case for Eva Suter.

COUNTERVAILING DUTY

May Not be Levied on Canadian Pulpwood.

Washington, Oct. 11.—The Treasury Department is considering a test customs case on pulpwood imported from the Province of Quebec with the strong likelihood of admitting the bulk of the pulpwood from that Province at the minimum rate of duty. Counsel for the paper trust has urged that the export tax of 25 cents a cord levied by the Province on all wood cut from the Crown lands makes mandatory on our customs officials the levying of the countervailing tax.

The department has about made up its mind that this reasoning only applies to such wood as actually comes from the Crown lands after paying the export fee. This decision is based on a former decision in the Meyers' cases, where the finding was that the Dingley law, words much like the Payne law in this respect, did not apply an additional or countervailing duty to wood cut from private plantations. The effect of this decision if finally adopted, will be to cut the duty materially.

TUB TALK No. 1

First get some Taylor's Borax Soap (1 cake will be about enough if you have been accustomed to using 2 of the ordinary kind). Do the woolens first because they take longer to dry. Make a strong suds, using lukewarm water, and put in the flannels. Let them soak for a few minutes, then rub gently by hand. Don't rub the soap on the flannels and don't use a wash board. Rinse in lukewarm water, wring out and dry as quickly as possible. Woolens washed with Taylor's Borax Soap never shrink, feel softer and look better. 5c a cake at all grocers'. Try one. It softens the water and won't hurt your hands.

BLACK SPOT.

Shocking Picture Painted by Rev. James Allan.

Winnipeg People Deny the Charge Made by Reverend Gentleman.

Ottawa, Oct. 11.—At a missionary meeting in Dominion Church last night in connection with the annual meeting of the General Board of Missions of the Methodist Church, Rev. James Allan, Superintendent of the Home Mission Department, said that in Winnipeg from one-quarter to one-third of the total population was now composed of foreigners, housed principally in the north end of the city, and for the most part, under appalling conditions of overcrowding and of disease and vice bred by unsanitary surroundings. In a country where almost half a continent of fertile land lay undeveloped, there was being reproduced all the misery and poverty of the crowded centres of Europe. He instanced some cases where several families were living together in single rooms in unsanitary tenement houses, and declared that under the present conditions in north Winnipeg whole sections of the female population were being driven into virtual prostitution. The children of the district were not receiving proper school education, and the school accommodation in the north end was quite inadequate. These conditions, urged Mr. Allan, urgently demanded municipal and legislative action.

NOT SO BLACK AS PAINTED.

Winnipeg, Oct. 11.—The sweeping charges as to the moral and social conditions, prevailing in North Winnipeg made by Rev. Mr. Allan, have created a sensation, and prompt steps will be taken to require the reverend gentleman to prove or retract his statements, which are believed to be unwarranted and incorrect.

The attention of the Council was called to the matter this evening, and the proper officials were requested to report on the situation and to prepare evidence which will effectually refute the exaggerated sensationalism which characterizes the charges. Among those who will be quoted in this respect will be Rev. Mr. Woodsworth, Methodist minister, in charge of foreign work in that section of the city. Conditions in a small section of North Winnipeg may not be entirely all that may be desired, but the health department is most vigilant in preventing such conditions as Rev. Mr. Allan depicts, and the sanitary laws are enforced with the utmost vigor.

ANOTHER MERGER.

Big Industrial Amalgamation of Car Companies is Proposed.

Montreal, Oct. 11.—Another big local industrial merger is in progress. It presages the amalgamation of the Canada Car Company and the Dominion Car and Foundry Company, of this city, and the Rhodes-Curry Co., of Nova Scotia, all leading manufacturers of railroad cars. Negotiations were commenced in this city to-day. Mr. Curry, of the Rhodes-Curry Co., and Mr. Butler, of the Dominion Car and Foundry Co., were in conference.

Although the merger is not yet an accomplished fact, the negotiations have made sufficient progress to warrant the statement that in a short time an amalgamation of the leading companies will be effected.

The Canadian Car Co. Ltd., has its factories at the western limits of St. Henri, and is capitalized at \$3,000,000. The Rhodes-Curry Co. is capitalized at \$3,000,000. Mr. C. H. Gahan, K. C., of Montreal, is president of the company.

Jumped From Balcony.

Toronto, Oct. 12.—Following an altercation with her husband, Mrs. James Barnes jumped from the balcony of her home at 155 University avenue shortly before midnight last night. She was hurried to St. Michael's Hospital in a police ambulance for fear that she had sustained serious injury, but an examination revealed nothing more serious than a sprained knee, although she was otherwise badly shaken up. She refused to stay in the hospital and was later taken home in a cab by her husband.

The Right House

HAMILTON'S FAVORITE SHOPPING PLACE

Wednesday Right House Reminders

Seasonable items and interesting values picked from a huge store jammed full of what you need

French Venetian

Magnificent range of stylish shades in a 50-inch width weave of all-wool French Venetian. Shades are wistaria, helio, ashes-of-roses, old rose, taupe, mole, elephant, Burgundy, reseda, myrtle, olive, cadet, Copenhagen, champagne, gra, light navy, mid and dark navy, marine, light brown, mid and dark brown, and tan. This is a great value at \$1.00 per yard.

Princess Satin Suitings

Princess Satin Suitings in lovely shadow check; colors are taupe, Burgundy, mole, myrtle, navy, brown, wistaria, ashes-of-roses; in good wide width (48 inches), at \$1.10.

Crash Toweling

All-linen Crash Toweling; with colored and self border; good absorbent qualities; in 18-inch width at 8 1/2c, 10c, 12 1/2c and 15c yard.

THOMAS C. WATKINS HAMILTON ONTARIO

A STERN CHASE.

Another Unsuccessful Drive of Fifty Miles After Burglars.

Arnprior, Oct. 11.—A stern chase of approximately fifty miles, undertaken by Detective Tom McLaughlin, Dominion Constables Charron and Delaitre, Special Constable J. S. Warnereck, of Arnprior, and the newspaper men on the ground, to-day failed to locate the Wright safe-crackers, although at times the sent grew very warm.

Various were the experiences of the party in pursuit of the criminals; intense was the excitement when it was learned at noon at Sand Point that the burglars had actually been seen there the night before about 10 o'clock. John McDonald, a reputable resident of Sand Point, was the man who conveyed the interesting news to the search party. His story was to the effect that he had seen a solitary stranger on Sunday night about 10 o'clock on the track in front of the C. P. R. station. Later this stranger was joined by another, and after remaining for some time in the vicinity of the station, both disappeared.

When the pursuing party learned this news early this morning, the horses were urged to greater speed, and all haste made for Castleford, the next station west. Here again a disappointment was met with, no trace at all being found of any of the men, nor could any one be located who had seen them. No better results were met all day, and tonight the party has gone down to Marshall's Bay, near Galesita, to prosecute the search.

HIS ONLY TRUE FRIEND.

Old Man Left Fortune to Girl Who Refused Him.

Los Angeles, Cal., Oct. 12.—The story of an aged man's love for a young woman was revealed yesterday when it became known that a will bequeathing a fortune estimated at \$500,000 to Jeanne Uhalt had been found among the possessions of Bartolo Ballerino.

The young woman, not knowing that Ballerino is dead, is now en route to Los Angeles from Australia, where she spent three years ago to escape his ardent protestations of love. The intelligence that she is returning to Los Angeles was received in a letter to her brother four weeks ago, written and mailed from Sydney, Australia.

A few months before his death Ballerino showed to Captain Thomas Ferrier, of the fire department, a will in favor of Miss Uhalt, and said she had been his only true friend.

FIRE INTO DYNAMITE.

Accident at a Cougar Hunt in British Columbia.

Vancouver, Oct. 11.—A despatch from Penny, near Ashcroft, says A. Breidford, carpenter, of Victoria, was instantly killed and J. Myrdal, Victoria, seriously injured yesterday, while hunting cougar in an old, disused mining tunnel, three miles southwest of Penny. R. Beckwith, another hunter, fired at a cougar immediately in front of the tunnel. Breidford's body was blown a hundred feet down the mountain side. Myrdal was badly cut about the head. It is supposed that the bullet struck dynamite in the abandoned mine.

Table Damask

Irish Bleached Table Damask, pure linen weave; lovely conventional and floral designs; in 72-inch width, at 80c; 80c, \$1.13 and \$1.35.

Union Shirtings

Stripe Union Flannel Shirtings, in 28-inch width at 75c and 35c per yard.

All-wool Shirtings

All-wool shrunk Stripe Shirting Flannel, at 50c and 60c per yard.

Llama Hosiery

Ladies' black all-wool Llama Cashmere Stockings; double reinforced heels and toes; a magnificent stocking value at 50c a pair.

Penman's Underwear

Ladies' Natural Wool Vests and Drawers, Penman's make; Vests in high neck, long sleeve style; and Drawers ankle length; open or closed. Prices, \$1.00, \$1.10, \$1.15 and \$1.25 per garment.

Britannia Underwear

Britannia Natural Wool Ladies' Vests and Drawers. These are the very best medium priced goods in their line. Extra good value at \$1.85 to \$2.00 per garment.

Ladies' Combinations

Cartwright & Warner's Natural Wool Combinations; high neck, long sleeves and ankle-length. If you prefer the combination garment, complete underwear satisfaction is assured, if you purchase this superior quality. Every garment a RIGHT HOUSE value. Prices, \$3.50 to \$4.00.

NEWS IN BRIEF

Five veterinary students were fined at Toronto for disorderly conduct. Mr. E. B. Osler, M. P., has made an offer for Yonge street wharf, Toronto. A complimentary banquet was tendered to Mr. Alf. Jury at Toronto on Monday night.

The average registration at Toronto University will not fall much below that of last year. Germany's super-Dreadnought Westfalen has developed a speed of twenty knots on a trial trip.

Toronto City Council rejected the proposition to purchase the Larratt W. Smith estate for park purposes.

The Newfoundland fisheries modus vivendi has been renewed until the termination of the arbitration proceedings. The Railway Commission has ordered the Canadian Northern to build the subway at Pembina street, Winnipeg, at once.

Winfield Halleck, an American citizen, accuses the captain of the British steamer Miramichi of spiriting him away from Baltimore as a sailor.

To-day is the seventy-third anniversary of the granting of the charter to Upper Canada Academy, now Victoria University, by King William IV.

A head-on collision took place between a Grand Trunk passenger train and an Intercolonial engine at Levis on Monday, and one train had named Regina was killed.

F. H. Sherman, who for nearly five years directed the policy of the Miners' Union in the Crow's Nest Pass, and who was one of the foremost labor leaders in Canada, died on Monday at Fernie from Bright's disease.

The latest reports from Livadia are to the effect that owing to an improvement in the health of the Czarina, the Czar will go to Italy on October 14th. He will stay there for two days, and will afterward visit Roumania.

Canadian firms have applied to the Russo-British Chamber of Commerce for the ruling prices of Russian carriage and cart horses. They propose to make a first purchase of 200 horses, and anticipate a big trade in the future.

Bridgeburg ratepayers passed a sewerage by-law by a majority of twenty-nine. The plan is to provide two trunk sewers and a sub-main trunk sewer along three of the most available streets, into which various other sewers can be emptied.

A sensation was caused recently by the disappearance of \$3,000 worth of diamonds and jewelry belonging to Mrs. L. Ingram, from a safety deposit vault in a Calgary bank. After the police had been placed on the case, the janitor of the bank found the missing jewels in a crevice in the floor.

Willie Bellas, the thirteen-year-old son of George Bellas, a well known farmer, residing at Nortonville, died very suddenly on Saturday. He was plowing in the field with his father, when he was seized with an attack of vomiting, he walked to the house and lay down on the bed and went to sleep, from which he never awakened. He was an only son.

We can truthfully say now that there is nothing new under the sun, not even the North Pole.

# WHAT IS GOING ON TO-DAY IN THE WORLD OF SPORT.

## PITTSBURG BEATS TIGERS IN THE FIRST INNING.

The Pirates Scored a Five-Run Lead in the Opening Inning, But Tigers Came Strong in the Seventh and Ninth.

ETROIT, Oct. 11.—Pittsburg defeated Detroit by a score of 8 to 6 here yesterday in one of the most spectacular and fiercely contested games ever played in a world's championship series. This gives Pittsburg two games to one in the series, and the National League champions are correspondingly jubilant. Detroit, however, showed in the final inning of the battle that it is far from a hopelessly beaten team. Weather conditions were frightful. Rain fell frequently. Clouds made the atmosphere so dark during the last two innings that it was hard for both players and spectators to follow the ball. A sharp northwest wind added to the discomfort. The attendance, however, 18,277, broke all local records for the series.

Pittsburg jumped into the lead immediately by scoring five runs in the first inning. They batted Summers out of the box. Another run in the second inning gave Pittsburg a lead of 10 to 0. Detroit, however, came to the fore with one of the greatest rallies ever made, and scored four runs in the seventh inning, beating Maddox hard and playing like fiends. With the score 6 to 4, Pittsburg connected with some of Works' curves in the ninth for two runs.

Then even with the score 8 to 4 against it, the Detroit team smashed out two more runs in the last inning. Had Crawford been able to hit up to his usual mark there would have been a different story to tell.

Detroit outbatted Pittsburg by a margin of one hit, getting 12 to the winners, 11. Summers started for the locals, but was removed before the end of the first inning. Willett succeeded him and did well until he was taken out in the seventh. McIntyre to bat for him in the seventh. McIntyre struck out. Works, who then went in, was lucky in the eighth after Abstein had made a two-base hit, with but one out. The next two were easy outs. In the ninth Pittsburg landed on him for three hits and that clinched the game for them.

Maddox was on the rubber for Pittsburg and was hit hard in the closing innings.

### HANS WAGNER STAR OF THE GAME.

Hans Wagner was the star of the game. He made four hits and stole four bases, although Catcher Schmidt was not to blame for at least one of the thefts.

Bush and Delehanty were the bright spots on the Detroit team for batting, while Cobb and Crawford made great catches. Bush made four hits in five times at bat, two of which played important parts in the scoring. Delehanty was there with two two-baggers and a single in five times at bat. His hard hit, a double in the seventh, started the rally that caused many chills among the Pittsburg players.

While Crawford starred in the field, his work at the bat was feeble. He ended the rally in the seventh by a puny pop fly to Abstein with two men on bases. In the ninth he again had a chance with Cobb on second, but his best was a feeble bouncer to Wagner.

Cobb's single in the seventh scored one run and his double in the ninth two more.

Umpire Klem, who was not scheduled to work yesterday, was sent out along the right field foul line to watch the hits into the crowd and act in an advisory capacity to the other two umpires.

The first inning was a weird spectacle for the local enthusiasts. Byrne opened up by beating out a hit along the third base line and went to third when Leach

singled to centre. Clarke sent a grounder to Summers, and Byrne was caught between third and home, Summers to Moriarity to Schmidt to Bush. Leach went to third and Clarke to second during the chase. Wagner's hit was too hot for Bush, and he rolled to left field, while Leach and Clarke scored. Wagner stole second, went to third on Schmidt's bad throw to second, and scored on a wild pitch. Miller drew a base on balls and Abstein singled to centre, Miller scoring when Crawford made a follow-through to third. Abstein moved to third on the same error. Manager Jennings then withdrew Summers and sent Willett to pitch. Wilson shot a single to centre and scored Abstein. Gibson and Maddox finished the inning with easy outs.

### PIRATES CONTINUE TO SCORE.

Pittsburg scored another run in the second. With one out, Willett hit Leach on the hand and Clarke on the knee. Wagner forced Clarke at second, Bush to Delehanty, and Leach moved to third. On a double steal Leach scored and Wagner went to third. Miller ended the inning with a pop fly to Delehanty.

Detroit was practically helpless before Maddox until the seventh, when a rally netted four runs. Delehanty opened with a two-bagger to centre, and Moriarity was safe when Miller fumbled his grounder. Delehanty going to third, Tom singled to right, scoring Delehanty and putting Moriarity on second. Schmidt fouled to Byrne, and McIntyre, who batted for Willett, struck out. D. Jones beat out a bunt along the third base line, filling the bases. Bush singled just beyond the reach of Wagner, and Moriarity to centre, scoring D. Jones, but Crawford ended the inning with a fly to Abstein.

Each team scored two runs in the ninth. For Pittsburg, Maddox struck out as a starter, but Byrne singled to centre. Leach put a two-bagger into the left field crowd, and Byrne went to third. Cobb made a great catch of Clarke's fly, but Byrne beat the throw to the plate. Wagner singled to right, scoring Leach, and another star catch by Cobb on Miller's long fly ended the inning.

Detroit made a game effort to tie the score in the ninth, but fell short by two runs. Mullin batted for Works to start the ninth, and struck out. Abstein dropped Wagner's brilliant assist on D. Jones' grounder. Bush beat out a hit to Byrne, and both scored when Cobb doubled into the right field overflow. Crawford was easy, however, Wagner to Abstein, and Clarke made a star catch of Delehanty's short fly.

Official attendance and receipts: Total attendance, 18,277; total receipts \$20,676. Division: National commission, \$2,067.60; players, \$11,165.94; two clubs, \$7,443.36.

Detroit—D. Jones lf., Bush s.s., Cobb r.f., Crawford c.f., Delehanty 2b., Moriarity 3b., T. Jones lb., Schmidt c., Mullin p.

### HERE'S WINNER OF BIGGEST AERO CUP.

EDGAR W. MIX.

The Gordon Bennett cup, the blue ribbon of the aero world, and prized by all ballonists, will be brought back to this continent by Edgar W. Mix, of Columbus, O. Mix, by his 684-mile flight from Switzerland to Russia, captured the trophy. He was arrested as a spy by suspicious Russians after he landed. But the United States got the cup!

### Pilgrims Are Still Undefeated.

New York, Oct. 12.—With a win by a score of 5 goals to 0 against the Scottish-Americans of Newark, at the Newark baseball grounds yesterday afternoon, the Pilgrims, of England, added still another to their list of soccer victories, the fifth in succession since landing in this country. The game gave them a grand total of 47 goals, and not once has an opponent scored against them. This New York, with a defeat of 4 to 0 in the opening match, has the best record against the visitors to date.

The game yesterday was not quite as one-sided as the final score might seem to indicate, and in the first half hour of play the Jersey-men held their opponents down without scoring.

H. M. Lemoine was a tower of strength in goal for the Pilgrims. J. J. Bayley too was frequently a saving factor at right back and invariably bobbed up out of the mix-up by his goal, the first to head the ball out of the danger zone. Joe McGinnity, the Newark pitcher, kicked off for the Pilgrims.

BOWLING				
Jacklin	147	195	126	468
Charlton	134	110	95	339
Brown	148	102	137	387
Reynolds	186	141	164	491
Barrett	165	115	100	320
	690	663	624	1977

At the Brunswick alleys last night the Bowery Boys showed the way for the Brown & Boggs team, beating them by 17 pins. Reynolds was the star, with 491. Murry was the best of the winning team, with 470. Scores:

Brown & Boggs—				
Jacklin	147	195	126	468

Murray	129	151	193	473
	613	682	697	1994

### No Racing at Arcadia Track.

San Francisco, Oct. 12.—Percy W. Treat, Secretary of the New California Jockey Club yesterday received a telegram from Thomas H. Williams of the club, dated New York, which announced that the new California and Los Angeles clubs have pooled issues and that there is little likelihood that races will be held at the Arcadia track, Los Angeles, this winter. Williams states that racing will begin at the Emoryville track, Nov. 20th.

The telegram is taken here to mean that the fight against the anti-gambling bill can such is planned will centre at the Oakland track and their forces by opening the message to track. The sending of the message is said to have followed a conference in New York between Williams and those interested in the Arcadia track.

Mr. Joseph P. Turcotte, M. P. for Quebec county, is receiving the congratulations of his numerous friends. The petition presented to the court some time ago alleging corrupt practices at the last election, and asking for his disqualification, was dismissed yesterday afternoon.

## MANY CANADIANS SAW YESTERDAY'S BIG GAME.

Maple Leaves and Beavers Were Conspicuous in the Grand Stand—Hans Wagner Thinks Cobb a Perfect Ballplayer.

ETROIT, Oct. 12.—President McCaffery was kept busy introducing Dr. Jimmy Casey as the man who beat Toronto out of the pennant with his Montrealers. Fourteen of the sixteen Montreal-Toronto games went to the credit of the Royals.

Ty Cobb and Hans Wagner were centres of attraction whenever they appeared on the street or at baseball headquarters at the Ponchartraine. One of the most striking souvenirs is a cornucopia of black and yellow ribbons and labelled "The only way to tie Cobb." A drizzling rain which fell throughout the last three innings of to-day's game continues to-night, but does not prevent the exultant Pittsburgers from parading the streets and making their presence felt in the theatres and elsewhere.

### WAGNER'S OPINION OF COBB.

Detroit, Oct. 12.—Hans Wagner has expressed his opinion on Ty Cobb. The great German player stood in the lobby of the Ponchartraine Hotel yesterday morning chatting with friends. He was asked what he thought of Cobb.

"Cobb is the fastest man I have ever seen," replied Honus. "I never thought he could be that much speed. I heard a lot about Cobb, and how fast he was, but he surprised me by the speed he showed on the field last Saturday.

"I wouldn't say that he is the fastest man that ever played ball, because I have not seen all of them, but he has much speed and a lot more than any man I have ever played against."

"Cobb is what I call a perfect player. He lacks nothing. There is not a thing that a ball player should have that Cobb hasn't got. He's got a bunch of things that no other ball player has. He is perfect in every respect. I can't find any weakness, and I see nothing that he could improve on."

"I don't think that Cobb is as good as he can be or will be. He is still a young man. He has not reached his prime. Now, if he takes good care of himself, and there is not any reason why he shouldn't, he will be good for 10 years to come. Cobb as got a lot before him, and he should be even better than he is now. A man keeps on improving till he gets to his prime, and Cobb has several years to live before reaching his prime."

This tribute from the fastest baserunner of the National League is accepted by the Detroit fans as the greatest compliment of cards and the best paid line. The Evans Trophy, for the leading hitter in the two big leagues, arrived here yesterday, addressed to Cobb.

## THE BOWLING SEASON TO BEGIN SHORTLY.

Leagues Are Being Formed and Matches Will Start in the Near Future—H. B. & A. C. Making Preparations.

The whirl of the big mineralite, followed by the rattle of the bottle-shaped pins as they scatter in all directions to the peril of the diminutive pit boys, will soon be heard. The H. B. & A. C. is awake, after a summer's hibernation, and the devotees of the great winter sport claim that the season just opening up will be the greatest in the annals of the game. And it promises to be, too.

Last season was remarkable for the young bowlers who jumped into prominence, and the prospects are that many of the veterans will have to take a back seat in the coming campaign.

Bowling is now recognized as a standard sport, one worthy of being listed along with baseball, football, etc., as a seasonal pastime. It is a game that anyone can play, old or young, merchant or schoolboy, and become proficient at, too. Only a while back a certain few monopolized all the honors, but that time is past. Now Hamilton possesses as many good bowlers as can be found anywhere.

The H. B. & A. C. League, now entering upon its second season, is larger and stronger than ever. All the classes are filling up, and more teams are expected to fall into line before the time for taking entries closes, which is Saturday next. A meeting of the executive was held in the Royal Hotel last week, at which all rules were revised subject to the approval of the captains of the various teams, and a meeting of the general committee and the captains will be held on Monday, the 18th inst., to ratify the proposed changes.

There will be three classes, A, B and C. A class is composed of bowlers with an average last season of 165 or over; B Class 145 to 165, and C Class for those with a lower average than 145 and new bowlers. It is expected that the first schedule games will be played on October 25th.

Four teams of commercial bowlers will again face, four of the H. B. & A. C. on Wednesday night, at the latter club, and as the last match played produced the most exciting and close games ever played in the city, great interest is being taken in the second game of the series and the busy bowlers of the uptown club expect to turn the tables on the east enders.

Last spring the idea was projected of forming a Provincial league with teams from Hamilton, London, Galt, Berlin and Toronto in line. It was then too late to do anything, but there should not be any difficulty in carrying the project through, as the right parties have it in charge. A schedule calling for home and home games will be arranged, one that will not conflict with any local league engagements. Inter-city games are always of interest and invariably draw a large crowd. Local bowlers on the whole favor the move, and it will likely be brought up at the next meeting of the league.

The two new alleys at the H. B. & A. C. are now installed. These will be used for private parties and special matches. A ladies' reception room and parlors are being handsomely fitted up, which will greatly add to the attractiveness of the club's natty premises. Ladies' clubs are being formed, and the fair sex are taking advantage of this, the first opportunity yet afforded in Canada for women to bowl in absolute privacy. A special ladies' entrance and other features make it possible for them to take an active interest in the game, as do their American sisters, and judging by the strides already made by them in the game, their scores will soon compare favorably with many of those made in league matches by seasoned bowlers. An instructor will be engaged to teach beginners the game, and arrangements are about completed whereby the services of one of America's best lady bowlers will be secured to this end.

## REG. WALKER TAKES TWO YEAR VACATION.

Easy Time For Great South African Sprinter—Is Given Two Years Leave of Absence by His Employer.

If Reginald Walker, the South African sprinter, does not achieve his ambition of running 100 yards in nine seconds flat, along with grabbing off all kinds of championship titles, it will not be because business interferes. Walker, we learn, is in the employ of a mining millionaire, who owns vast interests all over South Africa. Said millionaire was an athlete himself before he made his money and naturally is quite a bit interested in Walker's great doings on the cinder path.

Last summer when the young colonist went to England to compete in the Olympic his expenses were defrayed, it is said, by public subscription. More than likely the mining millionaire footed the bill. At any rate, Walker failed to win one of the principal races he went after in his 1908

English campaign—the 100 yard British championship. Bobby Kerr, of Canada, outran him in 10 seconds flat.

This stuck in Walker's crop. He wanted the British title almost as much as the Olympic honor, and so he told his boss. The story goes that the millionaire generously granted Reg. a two years' vacation, with full pay to boot. Even when on full time Walker has a pretty easy job. He comes down late and goes home early, there by having ample time to do his training. Walker's salary is such that he is able to live in good style and have everything that a first-class athlete in training should have.

The authority of the above statement is a person who has recently come from South Africa and one who is well acquainted with Walker's employer.

### "What Men Wear"

We should like to send you or give you a copy of the new Semi-ready Style Book, showing you "What Men Wear."

Besides picturing the latest fashions for men the book shows the proper dress for all occasions.

In fine tailoring we show sample Suitings and Overcoatings in prices ranging from \$15 up to \$25 and \$30.

## AFTERMATH OF THE GAME IN OTTAWA.

Ottawa Free Press: After sixty minutes of the most furious struggling ever seen on a Canadian gridiron in which neither team was able to cross the other's line, Ottawa defeated the famous Hamilton Tigers at Varsity oval Saturday by 7 points to 5. Each team's total was acquired one point at a time.

The last five minutes of the play was as dramatic as it was sensational. Tigers were leading 5-3 and with victory in sight, played a careful defence game, depending on Simpson's long punts down the side lines into touch to stave off any progress by the Ottawa team. But the red, white and black with a crowd of 7,000 frenzied men, women and boys appealing to them from the stands to score, started an onslaught that slowly forced Tigers to retreat towards their own line. Williams and each of his backs booted at every opportunity, while the Ottawa wings ran down under the punts and showed the Tiger backs no quarter, slamming them down in their tracks. Tigers could not withstand the awful attack of their opponents and had the chagrin of seeing Ottawa start a first down on Hamilton's 20-yard line. But time was too precious to expend on an effort for a touch-down, so Williams hoisted high over the line. Burton caught the ball, but the over-anxiety of the Ottawa wings proved costly, and though the Tiger side half was grassed back of his line, the officials ruled he had not been given a fair start, the ball being unable to run it out, and the score was tied.

The tide flowed in Ottawa's favor from that time till the end of the game. Tigers never once getting the ball beyond their 25-yard line. The dying moments saw the ball in the air incessantly, and it was on one of these occasions both Burton and Simpson attempted to secure a punt, but the latter's punting fumble following. The ball ran loose toward the touch line, where Half-back McCann, of Ottawa, made a 30-foot drive and smothered the leather ahead of three Hamilton men. This gave Ottawa possession on Tigers' 20, from which point Williams kicked over the line, Burton being unable to run it out, and the score was tied.

Ottawa Citizen: It was not spectacular football. There was too much at stake for either team to take any big chances and while there was a great deal of punting, mingled with short dashes on the parts of the half backs, end runs by the wings and trick plays by the men on the ground, there was heavy work in the scrimmage, none of the long rushes or other brilliant plays that characterized the Montreal match the week previous were in evidence. Once in a while Jack Williams, Eddie Gerard or Dave McCann would effect a short run through a broken field or tear off a flying tackle that would send the Ottawa rovers into deliriums of delight. Occasionally, too, Tigers would form up as though for a tandem buck through the centre and then snap the ball over to Moore for a ten-second dash round either end, or Ben Simpson would work a combination rush with Burton or Smith and carry the ball into Ottawa territory, but for the most part of the match the teams were plugging away at each others' lines, hoping to wear man after man down. There was little difference in the weights of the rival teams, and the errors which marked the play could be counted on one's finger tips. From beginning to end it was a mastery exhibition of the great fall game. Tigers lost only after one of the most magnificent battles that a visiting team has ever put up on Varsity Oval, and it was unfortunate for Tigers, that after giving such a superb exhibition in the first, second and third quarters, they should have been beaten out as the result of the simplest kind of blunders on the parts of their own men. Ibbister's failure to get a touch-down after he had blocked Gerard's punt on the Ottawa line and Ben Simpson's brace of blunders on his own five-yard line, to wit. But Ottawa played a "brainy" game and were there with the headwork when the psychological moment arrived. Ottawa held the Tigers safely in the first, second and third quarters and then opened fire in the last few moments of play with a series of punts and rushes, which, as had been calculated, Tigers failed to resist. Coach Clancy, of the Ottawa team, had figured out that Tigers could not stand the pace, and his prediction proved true. It was condition, staying power, gameness and head work that counted, and Ottawa was there with all these essentials of success when the proper time came, for Tigers, following Ibbister's costly mistake of dribbling the ball when he ought to have fallen on it, went to

pieces, Ottawa scoring the winning points just as the watchholders were preparing to rush out on the field to call time.

The bac klines also divided honors about equally. Ottawa did not do nearly so much running with the ball as in the Montreal match, Gerard in particular often kicking the leather when he could have gained yards by going further with it. McCann and Williams did likewise and Johnstone only had one or two opportunities to run with it. Simpson, on the other hand, did nearly all the booting himself, trusting to Smith, Burton and Moore to do the running.

Moore tore off two or three of the long runs for which he is famous and Burton also got through occasionally. Simpson, in fact, kicked so often that he played himself out and when the crisis came in the last quarter, the Tiger backs were so tired that they could hardly move in their tracks. The whole Tiger team seemed to go to pieces in the last few minutes, in fact, Ottawa then showing their superior staying and finishing ability.

Bert Stronach's left knee was so painful after Saturday's game that it was feared that the injury, which he sustained in a tackle would open up the old wounds and put him on the sick list. Stronach was better yesterday, although very lame, and will be in next Saturday's match. He will probably rest in the meantime. Stronach is now as valuable to the Ottawa team as is Ty Cobb to the Detroit Tigers or Hans Wagner to the Pittsburgh Pirates and without the brawny boy from the land of the Thistle it is hard to tell how much weaker the locals would be.

Ottawa Journal: What won the game for Ottawa? It is a question not easily answered. Was it the determined play of the red, white and black wings, who held the famous Tiger line until the big 200 pounder despaired of ever making a yard by their terrific line plunging? Was it the lightning-fast following up of outside wing Bert Stronach, that disconcerted and rattled the nerves of the Hamilton backs? Was it the clever backing up of the Ottawa halves, that prevented disaster when the yellow and black wings were upon them and the ball was going loose? It was all of these and more. And the particular play that clamped down the win was made by centre half Jack Williams, when the score stood 5 to 5. Within the last ten minutes of play Williams stood on the Tiger's 25-yard line, received the ball from his scrimmage and performed the remarkable feat of kicking it over into touch-in-goal in such a way that a point was scored while the opposing half backs looked on helpless to avert the issue. Twice Williams kicked, and the ball travelled swiftly along the touch line, just far enough out to keep in play and just close enough to the whit wash to jump at the last moment clear away from the hands of left half Burton into touch-in-goal.

The finish of the last half was the greatest ending to a match seen in Ottawa for many years. More than five thousand people who crowded the grand stands on both sides of the field, lined the Eastern side in hundreds, swarmed like bees on every telegraph pole, roof, balcony, shed and fence, in the vicinity of Varsity Oval, shrieked and howled in the unparalleled excitement of the game. For had they not, as time had gone on and the sturdy men from Hamilton had stubbornly maintained a lead conceded the match to the famous visitors who have had so seldom to acknowledge defeat in the game they live to play? And now there was a chance—a slender chance—for the red, white and black to pull out ahead. So the crowd howled encouragement to the beginner players on the field, who hurled themselves against the Tiger line in a determined assault that would not be denied. There was a continual roar for the last ten minutes of the game and when the first of the two winning points was scored a volume of applause that could almost have been heard in Hamilton arose to the skies.

Premier Briand, of France, has promised a number of his friends, according to statements made by the latter today, that when the chamber convenes on October 19th, he will demand the repeal of the law making executions public. Several executions have been reproduced in moving picture concerns.

## COMMENT AND GOSSIP

Ketchel is resting a bit after strenuous training, but will resume hard work to-day. He has been actively engaged in fighting himself for next Saturday's mill with Johnson for more than a month, so that there can be no excuses for him when he enters the ring. According to his handlers Ketchel will keep up his exercises until Friday noon, when he expects to be as fit as a fiddle and ready to put up a whirlwind attack from the moment the gong rings, and that he will not let up until he has beaten the big negro to the floor.

If confidence means anything Ketchel is entitled to respect, for a more courageous pugilist never drew on a glove. It is common gossip among leading sporting men that if Johnson fails to stop Ketchel in twenty rounds his stock will take a tumble, while interest in his proposed mill with Jeffries will be at a low ebb. But Johnson says he will do the trick, and quickly, too, so that he will not be thrown in the way of a match with the boiler-maker. Johnson is a 2 to 1 favorite as to the result of the mill, while Ketchel's followers are wagering 50 to 100 that Johnson will be stopped.

Willett pitched a wild ball for Detroit in the third of the series for the world's championship. He went in when the game was lost, and was taken out when he had it almost won, because Manager Jennings desired to use a pinch hitter, who struck out. It was a cold, wet day, that had pneumonia in the atmosphere. Toronto had its delegation in the grand stand, including McCaffery, Mullin and Barrow. And how they would warm up on returning to the hotel after the game!

Woodstock despatch says: The Oxford Marathon sports, to be held in

Woodstock on Thanksgiving Day, judging from the number of champions who have entered, will be the best ever held in Canada. Bobby Kerr, Emil Langhi of Italy, H. A. Wilson of England, George Goulding and others are entered.

Battling Nelson, champion boxer of the world in the lightweight class, is not bothering his head much about matches at the present time, being too busy attending to land deals and his books. Bat says he has spent over \$500 the last two months riding on the rail-ways between Chicago and New York, and he is thinking seriously of buying heavily in railway stocks, as the dividend is sure to go up.

Regarding a match for the title, the Bettler said: "The promoters on the coast know my terms, but they think I am joking. Well they will have another guess coming. They will meet my terms or they will
