NOT SO BAD

In another column appears a letter from Rev. John Pinkerton, Montreal, in which he paints a very gloomy picture of morals existing in New Brunswick. The Rev. gentleman appears to have been carried away by the impulse of a desire to do good and the over zealous counsel of friends.

We regret we cannot share the fears of the writer. If he would look more closely at Montreal perhaps he would find more cause for fear than in New Brunswick.

THE INTERCOLONIAL

Hon. Mr. Graham set at rest some of the rumors that have been about with regard to the Intercolonial. The brief experience with the Board of Management has been most encouraging, and it is hoped that the minister will be able to present an annual report to Parliament showing at least a perfect balance between revenue and expenditure.

These reforms are not being effected without protest. Nobody expected they could. Hon. Mr. Graham is too shrewd an administrator to hope that he could disturb existing conditions without soliciting cries of protest from some quarters.

It is refreshing and comforting to find so influential a newspaper as the St. John Telegraph protesting vigorously against the plans of the adventurers both in Nova Scotia and New Brunswick, who by their attacks upon the policy of the Board of Management of the Intercolonial hope to thwart the attempt now being made to

SANFORD HAS NEW SCHEME

(From the Lewiston Sun.) ROCKLAND, Me. Aug. 30—A chain of missions from Panama to the Arctic—the evangelization of the American continent.

This is the announced purpose of Rev. Frank W. Sanford, leader of the famous sect known as The Holy Ghost and Us, as outlined today to a Lewiston Sun reporter by the first extended interview that Mr. Sanford has granted anyone since departing on his famous world cruise over three years ago.

I have already knowledge that three more ships will be added to our fleet, said the leader. Nine long years we have worked and waited, and the achievement of our aims is in sight. The tide has already turned in our favor, and when more disciples begin to seek our religion it will be not by the hundreds but by the thousands. I shall yet be a popular man in this State.

There was no display of vanity connected with that last statement—only that great manifestation of earnestness which so greatly impressed all who come into contact with this man's personality. Interviews and newspaper notoriety form no part of Mr. Sanford's desires.

Interviews and newspaper notoriety form no part of Mr. Sanford's desires. He is firm in declining all requests, and goes no heed to the bombardment of criticism and abuse which that course brought down upon him. Early in his career, incensed by an alleged libelous statement which had appeared in a certain newspaper, Mr. Sanford was strongly tempted to seek legal satisfaction.

Mr. Sanford clad in a neat suit of blue, with gray hairs predominating in that railway upon a business basis. There is no disguising the fact that the plan has been adopted to start a new line of service from the Atlantic coast to the Arctic.

It matters not whether in the land of ice, in the vicinity of the North Pole, or far away in the region of the South Pole, it matters not whether the very existence of tribes of men may be known or unknown to the rest of the world, the Seven Spirits of God are now sent forth into all the earth. The eternal spirit of love will point out the things of Christ to the sinner; will lead him to genuine repentance or else will smite him with merciless severity if he fails to heed such love, its final manifestations. When the evangelist arrives, he will find men perishing on near every spot in a hungry and thirsty for God and the

When I planned the foundation of Shipley, the skeptics derided the idea and called me wild. A reporter came down from Lewiston and saw the plans which I had drawn on a sheet of brown paper, and went home thinking he had entered a new and strange freak. A few months later he revisited me again and saw the foundation of the first building completed, and he heard me declare my prophecy from the cornerstone. A year from the date that he saw my plans he was privileged to witness the dedication of a structure costing \$25,000. A little later that was followed by a children's building costing \$100,000, and still later there was erected a temple costing over \$1,000,000, until to-day we have property interests on the hilltop valued in worldly figures at fully a quarter of a million dollars. How was it all done, you ask? I can only tell you that those things came about through long and earnest prayer.

Shipley has withstood the storm of criticisms for many years, yet through it all, and through the hard times—our numbers have increased from 200 to nearly double that number. There have been what the world calls desertions, but any person is free to go

FEEDING FARM HANDS

Every farmer's wife knows what tremendous appetites farm hands usually have; but while they eat well they work well, too.

Here's a good suggestion about feeding farm hands. Give them plenty of Quaker Oats porridge with sugar and cream or milk is the greatest breakfast in the world for a man who needs vigor and strength for a long day's work. The man that eats Quaker Oats plentifully and often is the man who does good work without excessive fatigue. There is a sustaining quality in Quaker Oats not found in other foods, and for economy it is at the head of the list. A whole family can breakfast for a week on 10c worth of Quaker Oats.

Advertisement for Purity Flour. 'Your money back if Purity Flour does not prove entirely satisfactory in the baking.' Includes an image of a flour sack and a loaf of bread. Text: 'DON'T simply buy flour from the dollar and cent side of it. Buy high-quality flour. That means PURITY FLOUR. The first little extra cost is more than made up by the extra number of loaves of bread it makes—by the superiority of the bread and pastry in sweetness of flavor and nourishing qualities. Buying Purity Flour is a safe investment. You get large returns, not only on account of Purity's ability to produce more, but because Purity contains the greater nutriment and the vim of a strong hard wheat flour. Food made from Purity Flour gives the consumer health, snap and force, which cannot be gained from the use of the weaker soft-wheat flour.' 'MORE BREAD AND BETTER BREAD' PURITY FLOUR. You can buy as little as a 7 pound cotton bag or in 14, 21, 49, and 98 pound sacks. Also in barrels and half-barrels. Purity may cost a little more than some flours but you'll find it more than worth the difference. To be genuine, must bear the Purity trade mark. And through it all she has never shown one sign of regret, said Mr. Sanford. The reporter and his companion were invited to dine with Mr. Sanford aboard the Kingdom, but feeling that they had already encroached too long on his time, the offer was declined with many thanks. DINNER BELL MUSIC.

The music of the dinner-bell is always welcome to the healthy man or woman—alike to the working man or woman who eats a plain meal at noonday, or to people of easier lives who enjoy a rich dinner in the evening. But the Dyspeptic there is no music in the dinner-bell—it calls him to a trial for which he knows he is unfit. No one can enjoy a meal, or get nourishment and strength from it, knowing that pain and distress will follow after. The true course, even for healthy people, is to help the digestive system, from time to time, with that excellent tonic medicine, Mother Siegel's Syrup. Mr. Michael Bureau, of Stanham, Quebec County, P. Q., writes: "For some time I suffered from indigestion. I had headaches which made life a misery. I could not sleep at night and after eating I felt a sensation of fullness and pains, with heart palpitation. I took no medicine for this illness except Mother Siegel's Syrup and was cured when I had used one bottle of it."

ANOTHER SHOOTING AFFRAY

Another shooting affair is reported among Indians working on the G. T. P. at Ouellet's Station, about eight or nine miles from Perth. Two men, whose names could not be ascertained, decided to quit work and were paid off about four months' wages. After quarreling, one of them pulled a revolver and shot at his companion. Four shots were fired, two of which took effect, the one in the back and the other in the arm. After seeing his companion fall, the assailant searched his victim and took his money. Later the Italian, who did the shooting, called at the home of Daniel Wright and enquired about the trains. The wounded man managed to walk to Wright's house, an hour later, and told what had happened.

E. B. BUCKERFIELD DEAD

Mr. Edward B. Buckerfield, a prominent and well known resident of Kent County, passed away at his home in Harcourt about half past ten o'clock Monday night. Mr. Buckerfield had been in failing health for the past two or three years, and his death was not unexpected. He was 65 years of age and had been a resident of Harcourt for quite a number of years. Mr. Buckerfield was well known not only in the County of Kent but in Moncton being a very frequent visitor to this city, where he had many friends. He was very highly esteemed by all who knew him and his death will be regretted by many who had the pleasure of his acquaintance. Mr. Buckerfield was a Conservative in politics, and was a candidate for the provincial legislature in the Conservative interest in Kent a few years ago. He was a member of the church of England and took an active interest in the affairs of that church. Deceased is survived by a widow, Mr. E. E. B. Buckerfield, recently of Moncton, is a son and a daughter is Miss Helen Buckerfield. The remains were taken to Alberton, P. E. I. for interment. —Moncton Transcript.

Washing Basier

You can do a big washing with half the trouble if you use Taylor's Borax Soap. It whitens, cleanses and sweetens the clothes, saves boiling and will not shrink wool, while the things look better and feel softer than they ever did before. Wash your things in the Taylor way.

John Taylor & Co., Limited, Toronto

TUB TALK No. 1

First get some Taylor's Borax Soap (1 cake will be about enough if you have been accustomed to using 2 of the ordinary kind). Do the woollens first because they take longer to dry. Make a strong sudsy using lukewarm water, and put in the flannels. Let them soak for a few minutes, then rub gently by hand. Don't rub the soap on the flannels and don't use a wash board. Rinse in lukewarm water wring out and dry as quickly as possible. Woollens washed with Taylor's Borax Soap never shrink, feel softer and look better. So a cake at all grocers'. Try one. It softens the water and won't hurt your hands.

BUILDING TERRACE

Instead of removing the dirt, thrown up from the excavations at Herkin's Academy, the school trustees decided to level it off in the form of a terrace. This is now being done, and the appearance of the school grounds very much improved. —Gleaner.

Kidney Disease For Years

This Well Known Gentleman Strongly Recommends "Fruit-a-tives" to all Sufferers.

"I have much pleasure in testifying to the almost marvellous benefit I have derived from taking 'Fruit-a-tives.' I was a lifelong sufferer from Chronic Constipation, and the only medicine I ever secured to do me any real good was 'Fruit-a-tives.' This medicine cured me when everything else failed. Also, last spring I had a severe ATTACK OF BLADDER TROUBLE WITH KIDNEY TROUBLE, and 'Fruit-a-tives' cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend 'Fruit-a-tives' for chronic constipation and bladder and kidney trouble. This medicine is very mild like fruit, is easy to take, but most effective in action." (Signed) JAMES DINGWALL. TRUCK WITH BOARD

Yesterday forenoon while Frederick Leonard and Wm. Baxter, employees of the J. E. Wilson Co. Ltd., St. John, were working at the Royal Bank building here, where they are placing new copper gutters, a board in the staging gave way throwing Mr. Leonard over the side. If it had not been for his quick presence of mind in grasping a part of the structure he no doubt would have been thrown to the ground and sustained serious injuries. As it is Mr. Leonard is suffering from a blow on the face and the loss of a number of teeth.

LETTERS TO EDITOR

LETTER FROM REV. J. PINKERTON

Moncton, N. B.,  
Nov. 10, 1909.

Dear Sir—  
This morning's issue of the Moncton Times has a communication from Newcastle in which I am taken to task for my remarks in the Methodist church last Sunday morning touching the temperance situation. Will you kindly permit me space in your paper to make a word of reply. Believing as I do, that it is the duty of the preacher to speak against the sins that are definite and local, I felt that I must say something about the evil of rum in Newcastle when there was so much that anybody can see to justify my remarks.

The writer to the Times says that in the opinion of a number of citizens Newcastle compares favorably in this respect, with other towns in N. B., Campbellton for instance. I am not well acquainted with conditions in Campbellton, if they warrant such a comparison, all I have to say is God help the people of that railway town. I have some knowledge of other parts of N. B., and would take issue with the expressed opinions of the citizens referred to above.

My critic complains that I was not long enough in the place to correctly size up the actual state of affairs—one can gather considerable information concerning certain matters in a comparatively short time if he is so disposed. I wanted to find out about the running of the boat between Newcastle and Chatham, and although I was not long in the place I had no difficulty in learning that it makes no trips after tea at this season of the year. This information was given me by reliable citizens whose word I credited. I wanted to know how temperance matters stood, and men whose word I believe, men who are in close touch with affairs of the town, men who for many years have lived there, informed me that liquor is sold in Newcastle at the present time almost without restraint. Before I was there two hours I could have directed your worthy council to at least half a dozen places where the stuff is dealt out, places where everybody knows it is illegally sold. The common talk about town bears all this out. I saw men on the street drunk. I smelled liquor on the breath of many others as I passed them on the street. One man, who had been drinking, hailed me and wanted to carry my grip on condition that I would get him a drink of whiskey. When I asked him where we could get the whiskey, he said: "you can get it anywhere." But, I said "Where?" He told me, naming one well known place in particular. I told him I was a stranger and they would be afraid to sell it to me. He replied that they would sell it to anyone. There is no need for me to repeat all the information that man gave me. He most emphatically assured me that I could get the drink if I had the money. And the people of Newcastle know that this is so. I was accosted by different persons, not temperance people either, who revealed things that indicate the true state of affairs in your town. So I contented that I was there long enough to know what I was talking about.

Don't let the people of Newcastle deceive themselves. Conditions are bad, and there is nothing to be gained by making light of it. The people who are selling liquor are breaking the law and they are breaking your town, to faster than some of you know it. Is it not about time to stop them?  
Thanking you Mr. Editor,  
I am yours  
JOHN PINKERTON.

DISFIGURING, TORTURING SKIN TROUBLE

Cannot be Cured by Salves and Ointments—The Blood Must be Purified.

A blemished skin irritating sores, pimples, eczema, salt rheum and other skin disorders are all signals of distress, telling that your blood is impure or weak. You cannot cure eczema and other skin troubles with ointments and outward applications. These things may give temporary relief, but cannot cure, because the trouble is rooted in the blood and can only be removed by purifying and enriching the blood. Dr. Williams' Pink Pills speedily cure skin troubles because they enrich, purify and build up the impoverished blood that caused the trouble. As they feed and cleanse the blood the skin grows fair, the bloom of health returns and new strength is found. No other medicine has ever had such wonderful results in curing all diseases due to bad blood. Miss Elizabeth Gillis, Kensington, P. E. I., says:—"Words can hardly express how grateful I feel for what Dr. Williams' Pink Pills have done for me. For seven years before I began their use I was troubled with salt rheum. My hands and arms were nearly always a mass of torturing cracks and sores. I tried several doctors and spent a great deal of money without getting any benefit. Indeed my hands seemed to be getting worse all the time. Finally my brother persuaded me to give Dr. Williams' Pink Pills a trial and I am happy to say they have completely cured me. I used in all seven boxes, and I would not be without them in a case of this kind if they cost five dollars a box instead of fifty cents. I hope my experience will be of benefit to some other sufferer of skin trouble."  
These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville Ont.
