## The Young Bachelors of Newcastle Dance

### "Have You Seen Iris Fashion's Gowns?"

"She looks Stunning just as if she had stepped out of the pages of romance".

Above the rythm of the music the question is buzzed about. The men wonder "where was Iris before"? They flock round her begging for a dance. She has an air, a charm that radiates and glows.

What has been the cause of this magical transformation? A GOWN simple and inexpensive but effective. Chosen where one may always choose and choose right

## HONOURING A CANADIAN EXPLORER

NOOTKANAY INDIAN TIPS CAMP at Lake Windermere Celebration in Honour of David Thompson.

IN the year 1807, David Thompson, Canada's greatest geographer, landed on the shores of Lake Windermere, British Columbia, and in the fall of 1922, one hundred and fifteen years later, people from all parts of Canada assembled near the spot where he landed, to do him honour, and to open in his memory a large log building of Fort, which takes the form of a museum to be utilized for the purpose of preserving historical relics.

The fort and museum were erected by the Canadian Pacific Railway and the Hudson Bay Company in co-operation with one another.

The dedication ceremonies included a pageant, which represented the scene of David Thompson's first visit to Lake Windermere. Indians from the Shuswap and Kootenay reserves were there in large numbers. Their tepees, pitched on the hillside surrounding the fort, were a splendid setting for the picturesque fort and museum. At night the Indians lighted their camp fires, and sang and played the favourite music of their tribes. The squaws were dressed for the event in their finest costumes, feathers, beads, etc. with gaily colored shawls and skirts being prominent. Children, as appears, in the Indian camp

DAVID THOMPSON MEMORIAL FORT at Lake Windermere B.C.

A Kootenay Indian Baby Carriage

them, were fashionable miniatures of their mothers. The braves appeared in their grandest robes, and were an inspiring sight. In the games held on the second day they showed skill of the highest order. Some of Canada's most distinguished authors, including Bliss Carman, were present on the occasion which will long be remembered at Lake Windermere.

## PRELIMINARY HEARING IN STABBING CASE

The preliminary hearing in the Royal stabbing case was held Thursday. The hearing took place before Police Magistrate Lawlor at the Miramichi Hospital where Royal is a patient.

The only witness heard was the complainant George Royal. In his evidence he stated that there had been words exchanged between Albert and himself and then followed a fight. He admitted that he made two rushes at Albert. The accused then struck at him.

Albert when he goes on the stand will probably plead self-defence.

The hearing was adjourned, the date being left open.

Geo. M. McDade was present on behalf of the accused.

## MEN IN DEMAND FOR THE WOODS

There is considerable demand for men in the lumber woods of the province this fall and men are being forwarded to firms in the northern part of the province as fast as they can be secured. Mr. N. D. Poirier, who conducts an employment bureau at 583 Main St., informs The Times that he has supplied quite a number of men for North Shore lumbermen this fall and there is a demand for many more. Young men, he says, need not go to the States to work in the lumber woods. They can get practically the same wages at home and there is lots of work for them.—Moncton Times.

There should be enough men on the North Shore to supply the needs of the lumbermen, without importing them from other sections of the province. These importations pay no taxes, but are given the jobs which our own men should be given. After their winter's work they take their earnings to other parts of the province, where they spend it and our own men are obliged to go idle. It does not appear as being a very good plan of building up the North Shore Counties. Charity begins at home.

## Rev. Alex. Firth Inducted At Upper Miramichi

Rev. Alexander Firth late of Douglastown and Nelson, was inducted to the pastoral charge of his new congregation of Upper Miramichi Thursday evening by the Presbytery of Miramichi. The Presbytery met in St. Thomas Church, Doaktown, at 7.15 p. m., in the presence of a large and representative gathering of the congregation. Public worship was conducted by Rev. J.H.A. Anderson assisted by Rev. L. H. MacLean. The Moderator, Rev. F. W. Thompson, after a few words in narration of the steps leading up to this service addressed himself to Mr. Firth who responded to the prescribed questions set for such occasion, and was after prayer conducted to the pastoral office, the members of Presbytery extending the right hand of fellowship.

Mr. Firth has been nearly nine years minister in Douglastown and Nelson and enters upon his work in Doaktown and Boiestown with a good record of service and with the hearty goodwill of a people with whom he labored for a summer during his student days.

## NEWCASTLE HIGH SCHOOL DEFEATED CHATHAM

On Thursday afternoon, for the first time in many years, the Newcastle and Chatham High School football teams came together for a game on the gridiron. Newcastle won by the decisive score of 6 to 0, making two tries in the second half. The game was a good example of clean football, the Newcastle team holding the game in their favor throughout. Both teams have only been at the game for the past three weeks and each showed good form. Newcastle's snappy back division was too much for their opponents, and had no difficulty in passing and getting over the line.

Mr. E. W. Watling of Chatham refereed the game to the entire satisfaction of all concerned.

The game was held in the Farrell Field and was witnessed by a large number of spectators.

The Chatham players came up by auto and were supported by a number of rooters from their town. A return game is expected in the near future.

## PRESENTATION AND ADDRESS

On Thursday evening last, a number of St. James' Congregation Nelson, drove to the Manse at Douglastown and presented Mr. and Mrs. Firth with a purse and the following address:

South Nelson, N. B., Oct. 19, 1922  
To Rev. Mr. and Mrs. Firth,  
Douglastown, N. B.

Dear Mr. and Mrs. Firth: It is with a feeling of deep regret, we the Ladies Aid and your friends of St. James' Presbyterian Church, Nelson, take this opportunity of addressing you, prior to your departure from us entering another field to continue work for the Master you love so well. We cannot find words to express our loneliness for you, but we know, as time goes by, although your absence will be more keenly felt your leadership and loving messages are imprinted in our minds for ever. The years of your Ministry among us, have gone all too quickly, and we want you to feel, they have not been in vain. If we are not a better people the fault lies with ourselves. We pray that God may be kind to you both and give you health and strength for years of service in the work He has called you.

Please accept this purse as a small token of our love and esteem and may the blessing of God be with you in the fervent prayer of your sorrowing friends.

Mr. Firth, although taken by surprise, replied very fittingly. A very pleasant evening was spent. Refreshments were served and after singing "Blest be the tie that binds," the party left for their homes in Nelson.

## LEFT FOR CHINA

Rev. George K. King, late of Matapedia, P. Q., left last Thursday for the west. After spending a few days in Toronto he proceeds to Vancouver where on Nov. 3d he sails for China to enter upon his life work as missionary in North Honan under appointment of the Board of Foreign Missions of the Presbyterian church in Canada. In Victoria, B. C., Mr. King will be married to Miss Edna Baird formerly of Fredericton who with her parents removed to Victoria a few months ago.

## BEAVERBROOK THE MAN BEHIND THE GUN

London, Oct. 27.—The New Leader, which recently took the place of the Labor Leader as a weekly organ of labor opinion here and is edited by Henry N. Brailsford, the well known author and journalist, declares that Bonar Law would not be premier today, and would probably have retired altogether from politics, but for the eager energy of his friend, Lord Beaverbrook.

"That extraordinary product of success in Canadian finance, rising from the most humble circumstances and with a real genius for friendship," says the New Leader, "has been determined on one thing only in politics for the past ten years, and that is to make Bonar Law premier.

"The new government is a Bonar Law-Beaverbrook government and although Lord Beaverbrook may remain behind the scenes, it will be his decisions which will count.

"He assisted in breaking up the Liberal party in the first coalition and pitched Bonar Law, neck and crop, while the latter was timorously shivering on the brink, into repudiation of H. H. Asquith by a second coalition. In this last week, when Bonar Law was timidly preparing to resign rather than make his speech against Austen Chamberlain, we think it would be found that Lord Beaverbrook took the decision for him."

## Hallowe'en Concert Much Appreciated

The Young Women's Junior Club of St. James' Church held a most enjoyable and unique Hallowe'en entertainment in St. James' Hall, on Friday evening. A Comic Character Sketch, entitled, "The Young Village Doctor" by Clara E. Anderson was presented in four scenes. The hall was well filled, over two hundred being in attendance, and every patron was exceptionally well pleased with the presentation of the drama. The stage and hall were beautifully decorated for the occasion, suggestive of Hallowe'en, and the members of the Club are deserving of highest congratulations on the result of their energies.

Each member of the cast took their part in a most commendable and pleasing manner, and the audience showed its appreciation by outbursts of applause.

The performance was one which would have been most creditable to professionals, and as only the short space of one month was devoted to the rehearsing of the drama, it speaks highly of the talent of the young ladies who took part, and also of their instructors. Between the scenes Candy was sold and Miss Janet Styliemist delighted the audience with a Soprano Solo.

After the entertainment the charming and obliging young ladies of the club served refreshments to the audience, while fancy articles were sold from a well-laden table in one of the alcoves. Rev. L. H. MacLean, pastor of St. James' Church, gave an instructive address on Dramas, which was much appreciated by the audience. The excellent music of the orchestra was much enjoyed.

It is possible that the drama will be repeated in the near future in Blackville.

KINDLY REMIT YOUR SUBSCRIPTION TO THE ADVOCATE

## ORGANIZATION IN LUMBER TRADE

The Canada Lumberman is giving prominence to a series of articles from leading men in the business on the importance of association work, its influence and the advantages of co-operation among those engaged in lumbering. In its last issue there appears a timely contribution from the president of the New Brunswick Lumbermen's Association, Mr. J. W. Brankley, of Chatham, setting forth what that body aims to do for forestry in this province. Mr. Brankley writes:

We formed the Association in 1918 and it has been going strong ever since. It is not for the benefit of any particular class of lumbermen and we welcome every one in the industry. For we feel we must have their support to obtain results.

"The Association's main object is to protect the rights and promote the interests of the owners of forest land and to conserve and improve the conditions of the lumber industry by the development of new markets, especially for hardwoods. Also to bring about a spirit of co-operation in the industry in the province so as to produce a greater efficiency, and to investigate and study problems connected with the lumber trade.

"You will, therefore, see that our Association has a broad basis and wide charter to work upon. That we have been able in the short time since we organized, to accomplish but a comparatively small part of our objects goes without saying. There are so many problems to work out that it would be impossible in the scope of this article to deal with them all; but let me briefly refer to what, I believe, is one of our main problems, and with which the Association will have to grapple.

"I refer to the disastrous plague, and enormous loss to the province in general, and the industry in particular caused by the bud worm. It is now fairly well recognized that the problems raised by the operations of this pest will keep New Brunswickers busy for several generations. Ample proof of this is that the damage has affected nearly four-fifths of the forests of the province. On this area about 90 per cent. of the fir has been killed and thereby ruined, and rendered worse than useless, as well as about 5 per cent. of the spruce. This means some thing when it is considered that fir and spruce make up about three-quarters of our annual cut. Nearly all of the dead trees are not only useless and beyond redemption, but they constitute a greatly increased forest fire menace. This is a hazard that must be met and handled by the lumber industry and constitutes in itself almost a complete answer to your query "What the New Brunswick Lumbermen's Association can do for the In-

## DAUGHTER WAS WEAK AND NERVOUS

Mother Gave Her Lydia E. Pinkham's Vegetable Compound with Happy Results

Cobourg, Ontario.—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She has become regular and feels much better since she began taking the Vegetable Compound and attends school regularly.—Mrs. JOHN TOMAS, Ball St., Cobourg, Ontario.

Every mother who has a daughter suffering from such symptoms should give Lydia E. Pinkham's Vegetable Compound a trial. It is prepared from roots and herbs, and can be taken in safety by young or old. It has been used nearly fifty years, and many, many women owe their good health today to the timely use of Lydia E. Pinkham's Vegetable Compound.

## "FRUIT-A-TIVES" SAVED HER LIFE

This Fruit Medicine Always Gives Relief

917 DORION ST., MONTREAL.  
I suffered terribly with *Dyspepsia*. I had it for years and all the medicines I took did not do me any good. I read something about "Fruit-a-tives" being good for all *Stomach Troubles and Disorders of Digestion*, so I tried them.

After finishing a few boxes, I was entirely relieved of the *Dyspepsia* and my general health was restored; and I am writing to tell you that I owe my life to "Fruit-a-tives"

Mlle. ANTOINETTE BOUCHER.  
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

"An agitation has been steadily growing in this province to have the Government improve its system of log scaling. At a recent conference of our Executive with crown land officials, one of the latter stated, 'My experience in small logs is that we cannot get a surveyor to give a survey that will hold out.'

This is perfectly true and the shortage runs from 10 to 20 per cent. and in view of such a very large loss, the Association has been pressing upon the Government to do away with our antiquated scale and adopt the one in force in the Province of Quebec which it is admitted, gives the operator a fair return. Satisfactory progress is being made along this line.

"This article could be lengthened to a perhaps wearisome detail as to what the Association can do for the industry. I shall not take that risk. Let me therefore conclude by merely stating some further objects we have planned:

- "(a) To assist in formulating a more efficient system of fire protection for all forest land in the province
- "(b) To co-operate with the Government in fighting forest fires and protecting the lands of members of the Association.
- "(c) To prosecute transgressors of the fire laws.
- "(d) To promote legislative measures to conserve forest resources in general."

## Swim Inquiry At Woodstock Thursday

The inquiry into the circumstances surrounding the execution by hanging of Benny Swim which took place October 6th, at Woodstock, will open on Thursday next at 10 a.m. Sessions will be held in the Carleton County Court House, Woodstock. J. Bacon Dickson of this city who was named by the Provincial Government at its last meeting as commissioner to conduct the inquiry has set that date, hour and place. He himself will represent the Province in the matter. It is expected that other interested parties also will be represented at the inquiry by counsel.

## Beaverbrook Aids Boy From Bellhop To Business Head

London, Oct. 22.—J. Robertson, a former Torontonian, will be wedded this week to Miss Dorothy Kettle, a well-known war worker. While working as a clerk in the Queen Hotel in order to pay his way through Toronto University a dozen years or so ago, Robertson carried up Lord Beaverbrook's bag, and did it so well that the Anglo-Canadian financier took a fancy to him. When Robertson was invalided from the 19th Battalion during the war, he was appointed Beaverbrook's orderly at the Canadian War Records Office. On Beaverbrook acquiring the Daily Express, Robertson was taken on the staff and he is now chairman of the Board of Directors of the Sunday Express and business manager of the Daily Express.

## SALE OF TWO LUMBER LICENSES

Two lumber licenses were sold at the crown land office at noon Thursday at the upset price of \$20 per sq. mile. These licenses are renewable each year and are situated as follows: Lot 37, Parish of Southampton, containing 10 square miles, purchased by Pinder Lumber and Milling Company; lot 38, Richibucto Pond, north of Bay du Vin, containing two square miles, purchaser, W. and R. Walsh.

## THE PROHIBITION LAW ENFORCEMENT

Washington, Oct. 26.—Pending a final interpretation of the statute by the supreme court, probably late next month or in December, enforcement of the United States prohibition law under the rule holding it to prohibit possession of liquor on foreign ships within United States territorial waters will be withheld, according to the indicated policy of administration officials.

## Guard The Children From Autumn Colds

The Fall is the most severe season of the year for colds—one day warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, One.

## Hawthorne's Men Being Kept Busy

Chief Inspector Hawthorne's men have been busy in Gloucester, Kent and Northumberland counties raiding places where spirits have been manufactured and sold. "In Tracadie Inspector Stewart seized a cask of home brew at the home of Bernard Bredeau and more brew at Joseph Manuel's at Bale Ste. Anne. Raids were also made in Richibucto, where Mrs. Adelaide Guilmond was fined \$200 for having moonshine whiskey on her premises, and J. Robichaud paid \$50 for brewing beer without a permit. Raids were made at Kouchibouguac where liquor in the process of fermentation was seized at the home of Dan Grogan and William Daigle.

Ransforth O'Donnell, of Millerton and a man named McIntosh in Millerton, are charged with spirit making, their premises having been raided also.

Our home folks in these Provinces by the sea naturally ask for RED ROSE TEA when they want the very best.

RED ROSE COFFEE is free of dust—settles clear as a bell—no egg needed.

## Peerless Corona Ranges

We carry a large stock of the above Ranges, which are recognized to be the best on the market. The price is reasonable and the terms are right. They come in two sizes, with or without reservoir, polished top or water front.

## Heaters

We also carry a full line of Heaters in different sizes and styles NOW is the season of the year to be thinking about the cold weather. Give US a Call and we will solve the problem.

## Fur Goods

Another very important necessity for the cold weather is Warm Wearing Apparel. In this line, we excel and can provide you with the following:—

### Ladies Coats

Ladies Coats in Seal, Rat, Coon, Beaver, and Cloth with Fur trimmings.

### Ladies Furs

Ladies Furs in all styles, including Stoles and Muffs. These are exceptionally good qualities and the Prices are Low.

### Men's Coats

Coon, Alaska Beaver, Wallaby, Wombat and Cloth. (All new goods and at the reduced prices)

### Men's Mackinaw Coats

Guaranteed all Wool, and in all sizes and Colors.

### He Could Hardly Swing A Sledge Says Knickle

"Four bottles of Tanlac put me in such fine shape I can do a hard day's work and still feel fresh at quitting time," declared Ernest Knickle, well known young blacksmith residing at Pelham street, Lunenburg, N. S. "I suffered terribly from stomach trouble and was so badly run down and weak that it was almost more than I could do to swing my sledge. I would have such awful pains in the pit of my stomach after eating that it would almost double me up like a horseshoe, and my food felt like a lump of iron in my stomach. Gas bloated me up terribly and I would be dreadfully nauseated. I couldn't sleep well, lost my appetite entirely and got in mighty bad shape all round.

"A lady who had been sick in bed before she took Tanlac was telling our neighbors what a grand medicine it was, so I thought I would give it a trial. Well, it simply rid me of all my troubles, and you can bet that if I ever get back in the condition Tanlac is the first thing I'll go after."

Tanlac is sold by all good druggists

### BLUENOSE STILL THE CHAMPION

Gloucester, Mass., Oct 26—Canada today retains her hold on the international fishermen's trophy, emblematic of the sailing championship of the North Atlantic seaboard when her W. J. Roue designed, Lunenburg built schooner Bluenose, Captain Angus Walters, defeated the United States flyer Henry Ford, Captain Clayton Morrissy, for the second time in two consecutive days' racing. The trophy will be awarded tomorrow. The Canadians lead at the finish line by seven minutes fifty-one seconds won after five hours of strenuous racing, in a wind ranging from ten to twenty-eight knots, could have been considerably increased had not Captain Walters reduced his canvas to the proportions carried by the American, after her foremast had been carried away, shortly after the schooners had squared away on the ten mile thresh to windward from the third to the fourth marks.

#### Could Have Won by Twenty Minutes

After the race Captain "Clayte" estimated that Angus would have beaten him by twenty minutes in the weather of the day had he wished to take advantage of the American's misfortune. At the same time he expressed the belief that the Ford had sailed better under shortened sail and insisted that in his opinion he could defeat Angus, if limited to four lowers. Certainly the Ford carried all she could lug throughout the last half of the course. With her decks awash to her cabin house and above, she tore through the water like a hydroplane gained perceptibly on the Bluenose during the latter half of the thresh, and charged down the last five mile leg to the finish line at a thirteen knot clip.

Her performance was only surpassed by that of the fast climbing and fast reaching Bluenose, which reduced to the same canvas as that carried by the Ford, gained six minutes, fifty-three seconds on her rival over the last two legs.

Wanted to Win in Fair.  
Field and no Favors.

Walters frankly admitted after the race that while he wished most of all to defeat the American in a fair field and without favors, this was not his sole reason in shortening sail, he had established a commanding lead at the time the challenger's top stick went under the circumstances it would have been folly for him, he said, to have risked losing his own gear. He added that he would rather be beaten by Clayton Morrissy than any skipper he knew and said he was ready to race him any time the expatriated Nova Scotian said the word.

### RAFFLES AT BAZAARS

#### Raffles at Bazaars for Charitable and Religious Objects

General Victor Williams, Commissioner of Ontario Police, has issued the following interpretation of the law of Canada regarding raffles at bazaars for religious or charitable objects and instructions to the Police authorities.

As there is widespread misunderstanding regarding these matters it is well to note carefully what the law is.

General Williams says:—"In view of requests that come from time to time to this department from charitable organizations for permission to hold raffles, it seems necessary to again call the attention of police officers and of the municipal authorities and the public generally, to the provisions of the law.

"Sections 236 of the Criminal Code prohibits lotteries with an exception in favor of raffles (which are a form of lottery) for religious or charitable purposes. The exception is in the following terms:

Raffles for prizes of small value at any bazaar held for any charitable or religious object, if permission to hold the same has been obtained from the city or other municipal council, or from the Mayor, Reeve or other chief officer of the city, town or other municipality wherein such bazaar is held, and the articles raffled for there at have first been offered for sale and none of them are of a value exceeding fifty dollars."

#### Onus on Municipality

"It will be observed that the permission referred to in the sub-section is not that of the Attorney-General or the police authorities. It is the permission of the municipal authorities, the theory apparently being that if there is a strong local sentiment against that sort of thing the permission will not be granted. At all events, the responsibility is on the Mayor or Reeve or Municipal Council. These authorities have an absolute discretion. They can grant permission or they can refuse it.

"It will be further observed that permission is confined to bazaars, to bazaars that are being held for religious or charitable object. If permission should be granted by a municipal authority for an object that is not within the description of these words the permission would be ineffective, and the general prohibition would apply.

"Then if permission has been properly obtained, pursuant to the provision of the statute, it will be observed that there are two other conditions:

"The first condition is that the articles before being raffled must first have been offered for sale. In the opinion of the law officers of the Attorney-General's Department the intention of Parliament, whatever the interpretation of the law technically may be, was that the raffle should not take place until the articles to be raffled have been offered for sale at the bazaar, and also until it becomes reasonably clear that the articles will not be sold in the ordinary course—that is to say a raffle should come at or toward the end of the event. To begin selling tickets for the raffle as soon as, or shortly after the bazaar opens, is

### Easier to Prevent

It is human to neglect health, but it is very unwise. It is far easier to prevent than it is to correct weakness of body and strength.

### Scott's Emulsion

is a fruitful source of true vitamine-nourishment to help keep the body strong to resist disease. Protect your powers of resistance, take Scott's Emulsion!

Must Not Be Sold in Advance

"It is to be presumed that persons who conduct bazaars for charitable or religious purposes will want to obey the spirit and letter of the law, and if their attention is called to the matter they will no doubt conform to the suggestion of an officer that no raffling should take place, even where permission has been given by the municipal authorities, until it is reasonably clear that the articles will not be sold at the bazaar in the ordinary course.

"I am informed that it is not an unusual practice to sell tickets for articles to be raffled at bazaars days or even weeks in advance of the event. This is obviously improper, and where anything of that kind is attempted the parties ought to be warned, and if they persist prosecutions should follow.

The second condition is that no articles must be of a value greater than \$50.00

In view of the general want of understanding of the law on the subject, and the obvious need of keeping the exception to the whole some provision of the law against lotteries within proper limits, it is desired that police officers will take special precautions to see that the law as above defined is observed.

#### Officers to Watch Proceedings

"Upon learning of an intended bazaar, with an accompanying raffle, the officer's duty will be to ascertain whether permission has been granted by the local municipal authorities. If so, he will then inquire whether the object is charitable or religious. If in doubt on either of these points, he will confer with the County Crown Attorney. If satisfied on both these points he ought then to see the managers of the affair and explain the law to them. It is un-  
deemly that persons desiring to raise money for religious or charitable purposes should be haled to court for breaches of the law, and the officer will find in almost every case a desire to comply with the law. In the event however of the law being disregarded the officer's duty will be to watch proceedings at the bazaar carefully, make note of the facts, and then confer with the County Crown Attorney as to what proceedings ought to be taken.

While this letter is an instruction to the officers of the Ontario Provincial Police, it will be sent as information to the Chiefs of Police and High Constables throughout the Province.

This law being part of the Criminal Code applies to the whole of Canada.

### To Those Who Bake

EXPERIENCE has taught good cooks that there is no flour quite as good as Beaver Flour.

## BEAVER FLOUR

is the ideal flour for all baking purposes. It is a blended flour, combining the richness and delicate qualities of the world-famed Ontario Winter Wheat with the strength and body of Western Hard Wheat.

Beaver Flour imparts to bakings the qualities which make your bread, pies, cakes and pastries real food treats.

Try it! Sold by your grocer.

TUESDAY, OCTOBER 31ST, 1922

**BOARD OF TRADE**

Many provincial Boards of Trade have passed and forwarded to Ottawa, resolutions, memorializing the Dominion Government to appoint a representative of New Brunswick on the C.N.R. Board of Directors and the Moncton Board of Trade, on Friday sent a congratulatory telegram to Captain Angus Walters, the Blue-nose skipper, who on Thursday lifted the blue ribbon in North Atlantic Fishermen's Schooner race. While all these Boards are active, nothing is ever heard of the Newcastle Board of Trade. It is months since a meeting was held, and great things were going to take place when it was reorganized. Many citizens, and members at that, are beginning to feel that the board is a defunct body.

**Two Minutes Of Silence on Armistice Day**

The "two minutes of silence" will, by the express wish of His Majesty the King, be observed throughout the British Empire on Armistice Day, November 11. The Prime Minister has received a cable to this effect from the Duke of Devonshire, Secretary of State for the Colonies. Incidentally, the cable is practically the first official message sent to Canada by the former governor-general, by virtue of his post in the Bonar Law Cabinet.

**Moncton As Divisional Centre**

Although nothing has yet been determined it is learned on good authority that the C.N.R. Board of Directors plan which has the best chance of final adoption, contemplates the establishment of three centres of operation.

Toronto, according to this plan, which cannot be approved until Sir Henry Thornton arrives, will be head of the central division, Winnipeg, of lines west of the Great Lakes, Moncton of the road formerly known as the I. C. R. with Montreal as general headquarters.

The central division, of which Toronto is proposed to be the centre, will comprise all the Ontario lines of the Grand Trunk and Canadian National all the Grand Trunk lines outside of Canada, including the Grand Trunk between Detroit and Chicago and the Grand Trunk from Montreal to Port Land, also the C. N. R. lines in Quebec.

In Montreal would be located some of the general offices for operating, equipping and accounting purposes. It is also considered almost certain that Sir Henry Thornton's offices will be in Ottawa, although, of course, he will have final say on this question. If this plan is adopted Toronto after

all, will hold what is really the key position, with command of all the roads in the two most populous provinces.

**Empress Theatre Friday and Saturday**

The wild animal motion-picture production is the most dangerous, as far as the actors in it are concerned, according to the unanimous opinion of experts. This is so because that unknown element, the untamed beast, plays so important a part in such films.

The unusual hazards of jungle pictures was well illustrated during the filming of "Miracles of the Jungles," the marvelous animal production, released through the Federated Film Exchanges of America, Inc. which will be shown at the Empress Theatre, starting next Friday and Saturday.

In this sensational picture, a band of thirty ferocious lions was used, in addition to tigers, leopards, elephants and gorillas. In addition to the principal players, a band of native Africans was brought into use through the whole of the production.

Ben Hagerty, who played the role of Tom Hathaway, one of the Secret Service men sent on a perilous mission to Africa, in one scene actually came to grips with a lion. It had been arranged that Hagerty was to shoot the beast as it sprang at him.

Just at that moment his machine rifle jammed, and he went down under the terrific impact of the hurtling animal. The lion, with one powerful blow, laid open the actor's arm from elbow to shoulder. The directors and other members of the company had been circling around the man and beast, waiting for a chance to finish off the man-killer without injuring Hagerty, and this opportunity presented itself just in the nick of time.

The tawny brute, now worked up into a blood-lust, was about to crush the player with his powerful jaws, when a lucky shot was sent home into his brain, and he keeled over, dying instantly. In spite of the rescue, Hagerty, spent more than a month in the hospital, until he had partially recovered from the results of the fight, and the production was delayed that length of time to enable him to get back into the cast. Hagerty took the fight philosophically enough, as a cameraman with the result that of the most hair-raising thrills of the whole production was thus unexpectedly provided.

A troupe of leopards caused as much trouble as all the other animals put together. They were put in a cage by themselves, but no sooner were they together, than a terrific free-for-all fight started. Of the seven spotted animals, two died of wounds received in the encounter, while another had to be shot.

During another scene, one of the native Africans was attacked by a tiger, and was badly wounded before the animal was beaten off by the other natives, using their spears and burning torches, which they snatched up hastily, reverting to the methods employed against tigers in their native wilds.

**KERR'S BUSINESS COLLEGE ACQUIRED BY THE MODERN**

Kerr's Business College....  
The St. John Business College—Kerr's—will, on Nov. 1, pass under the successful management of the Modern Business College, Limited, corner Mill and Union Streets, St. John, N. B.

The Modern College has met with wonderful success in this city and this year it is enjoying the biggest business in its history. Mr. George J. Smith, the president, has already engaged additional staff and purchased new equipment. The combined schools will be conducted in the same thorough manner that caused the Modern to become the largest business training institution in New Brunswick within two years after being established.

**DEATH OF WELL KNOWN HOTEL KEEPER**

After an illness of only a few hours James Stewart, manager of the Blackville Hotel, and one of the best known hotel men in the province, passed away at Blackville, Friday morning, from heart trouble. Deceased, who was 53 years of age, was for many years proprietor of the Currier Hotel at Grand Falls, but has been residing at Blackville for the past four years. He is survived by a wife and two daughters.

The funeral was held on Sunday afternoon, under Masonic auspices.

**How To Regain Your Good Health**

It Can Be Done Through Keeping the Blood Supply Rich and Pure

There is not a nook or corner in Canada, in the cities, the towns, the villages, on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other kind words have been said for this medicine.

You have only to ask your neighbors, and they can tell you of some rheumatic or nerve-shattered man, some suffering woman, ailing youth or anaemic girl who has been benefited by Dr. Williams' Pink Pills. For more than a third of a century these pills have been known not only in Canada, but throughout the world as a reliable tonic, blood-enriching medicine.

The success of Dr. Williams' Pink Pills is due to the fact that they go to the root of the disease in the blood, and by making the vital fluid rich, they strengthen the organs and nerves of the body. Mr. A. M. Large, Victoria, P.E.I., adds his testimony to that of thousands of others who have found benefit through the use of this medicine. He says:—"About three years ago I became dreadfully run down. So much so that I had to stop work altogether, and being a carpenter, and busily engaged, the outlook was gloomy. I became so reduced that I would have to rest even after a short walk. My appetite almost completely failed. The doctor whom I consulted told me I would have to take a prolonged rest, and gave me a bottle of medicine, which, however, did not help me. Then a good friend urged me to try Dr. Williams' Pink Pills, and I got a supply and before long felt an improvement. From that on I continued to gain and was able to resume my employment. I continued taking the pills for some time longer and now feel as vigorous as I ever did."

You can get these pills through any medicine dealer, or by mail at 50 cts a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**Mr. O. Turgeon, M.P. Goes To Senate**

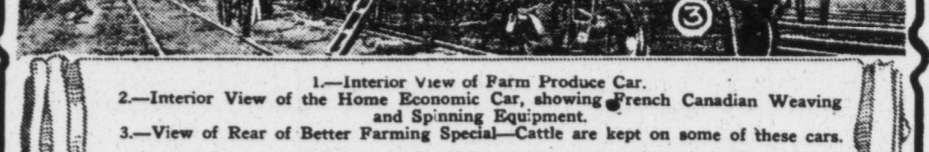

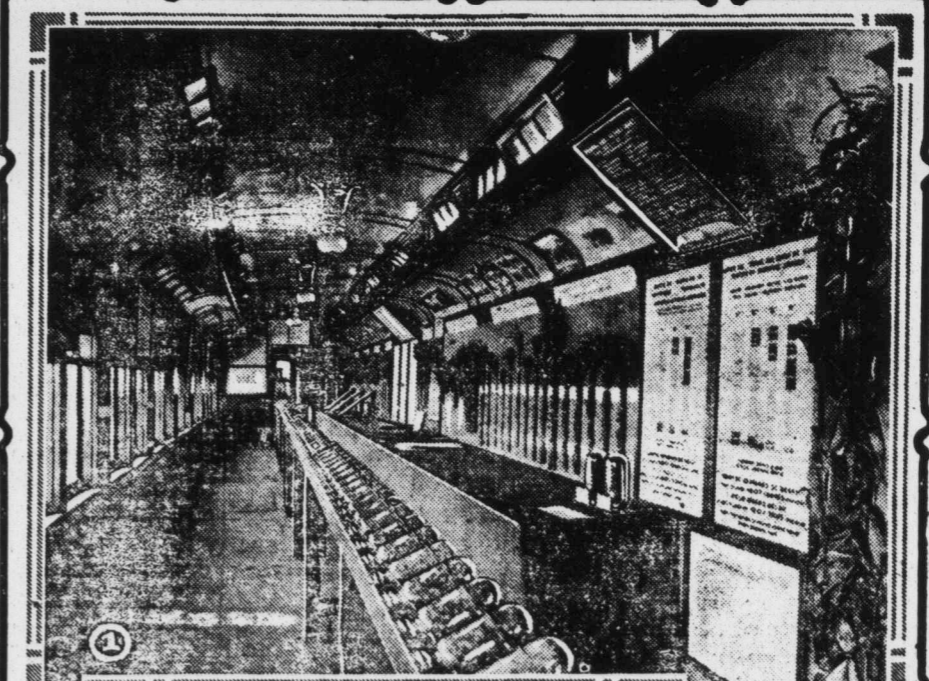

Writs were issued last Saturday afternoon for the holding of bye-elections in five vacant constituencies. These are Lanark, (Ontario) made vacant by the death of the late Hon. J. A. Stewart, former Minister of Railways and Canals; Jacques Cartier and Megantic, (Quebec), the former made vacant by the death of the late D. A. Lafortune, and the latter by the appointment of Lucien Pacaud, sitting member as Secretary of the Canadian High Commissioner's office in London, Halifax, which became vacant with the death last week of Dr. Edward Blackadder; and Gloucester, N. B., vacant through the appointment of Onesiphore Turgeon sitting member, to the Senate.

Nomination day in each case is November 20 and the voting on December 4th.

The announcement of the dates was made by the Prime Minister Saturday evening.

**AGRICULTURAL COLLEGE ON TOUR**

1.—Interior View of Farm Produce Car.  
2.—Interior View of the Home Economic Car, showing French Canadian Weaving and Spinning Equipment.  
3.—View of Rear of Better Farming Special—Cattle are kept on some of these cars.

AN Agricultural college on wheels is the means by which the Minister of Agriculture of Quebec, in co-operation with the Canadian Pacific Railway, is carrying the gospel of good farming and good cheer to the farming community of the province. The college consists of fifteen C.P.R. cars equipped with material to illustrate all phases of agricultural production, and carries a staff of twenty-six lecturers and demonstrators.

Starting out at Vaudreuil on Sept. 18th and St. Clet on Sept. 19th, the train traversed the north shore of the Ottawa, stopping at Hull, Papineauville, St. Scholastique, Ste. Therese, St. Jerome, St. Agathe, Labelle, Norminque and Mont. Laurier. Early in October the lines of the C.P.R. in the eastern townships will be covered. The train will complete its tour on the north shore of the St. Lawrence between Montreal and Quebec during the last two weeks of October.

Five cars are devoted to Live Stock, in which dairy cattle, sheep and hogs are featured. Special attention is being given to the grading and grading of hogs, and to the encouragement of the bacon industry. Field Crops and Agricultural Engineering occupy two cars, while Horticulture, Beekeeping and Sugar-making, Poultry, Dairying and co-operation, and Home Industries, each occupy one car. A diner and sleeping coach for the accommodation of the staff makes up the full complement of the material equipment of the college.

Each car is equipped with material, and plainly labeled charts, by which the important factors of economic production are emphasized. An opportunity is afforded from 10 a.m. to 3 p.m., for visitors to examine the exhibits and discuss any problems in which they are interested. For this purpose two lecturers and demonstrators accompany each car. In the evening, lectures and addresses illustrated by lantern slides and moving pictures are given in the town hall or other suitable place for meetings.

The Live Stock Branch of the Federal Department of Agriculture has arranged for demonstrations on the grading of hogs. The Canadian Packers' Association has an exhibit illustrating the carcasses produced from various types of hogs, and the requirements of good bacon for export purposes. The Agronomy Department of Macdonald College has co-operated in the equipment of the Field Crop and Agricultural Engineering Car. The Provincial dairy school has an exhibit of dairy buildings and products. Other colleges and schools, as well as the co-operative associations, have also lent aid either in furnishing equipment or by supplying instructors.

The train is under the direction of A. Desilets, B.S.A., of the Province Department of Agriculture, and J. Douglall of the C.P.R.

Onesiphore Turgeon, appointed to the Senate vacancy for New Brunswick, succeeding the late Senator Thompson has been prominent in Canadian politics for over twenty years. In 1896 Mr. Turgeon was an unsuccessful candidate for election and in 1900 he first came into the House of Commons as member for Gloucester. He was re-elected in the four succeeding federal contests by acclamation and in the last general election (1921) had a majority of five thousand.

### HON. ROBT. ROGERS IS FOR STRAIGHT PARTY LINES

Montreal, Oct. 23—A straight call for a return to party politics and a dropping of all entangling alliances, either by the Conservative party or any other party, was issued here tonight by Hon. Robert Rogers, ex-Minister of Public Works, who is in the city conferring with a number of leaders of the Conservative party.

As to the Progressive party, he said, in its past five years' existence, it had not contributed anything particularly to the sane, sound and business-like development of any part or section of our common country.

He gave the Liberals credit that they had been able to restore their party to a better position than they formerly held and said that it remained for the Conservatives to organize in every city, town and hamlet, stating as his opinion that "no party ever had such an opportunity as has the Conservative party today."

### I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

### "A Mass of Sores—No Sleep—Unhappy Days"

writes Mrs. Orange Harvey of Danville, Quebec, R. R. 2. "I doctor'd with doctors until the first of May. Then I got a bottle of D. D. D. AT ONCE MY FACE GOT BETTER. I used half a bottle only and have been entirely well ever since."

Why not see if half a bottle will relieve your case of skin disease, too—in our guarantee the first bottle will show results or your money back? itching stops on the instant. \$1.00 a bottle. Try D. D. D. Soap, too.

### Stiffness

It is astonishing how quickly Minard's Liniment relieves stiffness and lameness.

**Gives Great Relief**

Mrs. A. B. Cakes, 26 Park Ave., South, Ont. writes: "My husband and I were suffering from stiffness and lameness frequently, always with good results. Friends of mine use it for rheumatism and tell us that it gives great relief."

Mrs. Fred Johnson, Box 724, Toronto, Ont. writes: "I suffered very much with rheumatism and was advised to try Minard's Liniment. I purchased in using it and it has entirely cured me and given me the use of my limbs. I have given it to my friends and others who are suffering from rheumatism and tell us that it gives great relief."

### Railway News

Hardisty, Alta.—Work has just been completed on the C.P.R. bridge, Hardisty, after a great deal of labor has been spent on it. The trestle was begun in 1906, when the railway came to Hardisty, and trains ran over in 1908. The trestle is 2,714 ft. long, 70 ft. high, and has in it 1,800,000 ft. board measure of lumber, as well as 27,000 ft. of piling. It is estimated that it has taken 800,000 tons of material to make the fill.

The present bridge presents a safe and perfect means of transit. St. John, N.B.—Five members of the Baseball Writers' Association of the United States arrived in St. John from Montreal. They were Fred Lieb of the New York Evening Telegram, who is president of the Writers' Association; Sid Mercer of the New York Evening Journal; Irvin Vaughan of the Chicago Tribune; Denman Thompson of the Washington Star, and Ed. Ballinger of the Pittsburg Post. They left on the S.S. Aranmore for Digby, en route to the Kegemakooeg district where they will hunt big game. The party are the guests of the C.P.R. The trip was arranged by Joe Page, baseball writer and sport enthusiast, who is a special representative of the C.P.R. He met the majority of the writers in New York and accompanied them to Montreal, Quebec and as far as this city.

The visitors were met at the station by G. Bruce Burpee, district passenger agent of the C.P.R., and C. B. Allan, secretary of the New Brunswick Tourist and Resources Association, and driven to the Royal Hotel.

Montreal—A press dispatch from Calgary crediting to the secretary of the Federated Shop Trades there a statement to the effect that the C.P.R. and certain other railways had knowledge of the conciliation board's award some days before it was filed with the department of labor and in consequence thereof had paid the reduced rates of wages as set by the conciliation board, prior to the announcement of the award by the department of labor, was brought to the attention of George Hodge, assistant general manager of the C.P.R., Eastern lines, who conducted the case for the railways before the board of conciliation and investigation. Mr. Hodge denied most emphatically the correctness of the statement. He said further that as far as the C.P.R. was concerned it had no knowledge of the report until it was received at the company's offices on September 4, and that instructions to restore rates of pay which had previously been put into effect as from July 15, were issued under date of September 5, making the reduced rates effective as from August 16.

Moose Jaw—"One hundred per cent more grain has been handled by the Canadian Pacific Railway up to the middle of October this year, than ever before for the same period. That will give you an idea of the way the grain is being taken out of the country," said Mr. Chas. Murphy, general manager of Western Lines of the Canadian Pacific Railway. He expressed himself very well pleased with the movement of the crop throughout the whole West. When asked as to the possibility of a grain blockade, Mr. Murphy stated that the Canadian Pacific was accepting all grain that was being offered. He pointed out that on one day over four million bushels had been taken out of Fort William and Port Arthur. Mr. Murphy pointed out that there was difficulty in getting bottoms on the lakes to take the grain out, but the elevators were far from being full, and the Canadian Pacific still had the big Transcona elevator empty.

Already Mr. Murphy stated there was a large quantity of grain being shipped out from the head of the lakes by the all rail route. He declared that he could see no grain blockade in sight. Mr. Murphy pointed out that the Canadian Pacific had moved 14,000 cars off the Saskatchewan division of the railway. This was five thousand more cars of Saskatchewan wheat than had been moved in the same period in any year. He also pointed out that even with the unprecedented grain movement the Canadian Pacific was moving from 250 to 275 carsloads per day from the Western coal mines. "There was thirteen thousand tons moved yesterday," he declared. "I was here three weeks or a month ago and at that time I stated we were moving 250 to 275 cars of coal a day, and the movement has been kept at that ever since. We realize, he declared, that the wheat can be moved during the cold weather and people can live, but if the cold weather comes and there is no coal there will be great suffering in the country, and possibly worse."

### Times Bought; Will Support Govt.

London, Oct. 23—It is understood that after lengthy negotiations conducted by the managing director of the London Times, Sir Campbell Stuart, the Times has been purchased by John Walter, the chairman of the board of directors, from the Northcliffe estate. This is taken to mean that the Times will revert to the traditional Walter policy of supporting the government of the day, but with complete independence.

GOOD home-made bread has always been the chief food of the earth's sturdiest races. None of the breakfast foods or health foods can equal bread in nourishment. Good bread is the most digestible food as well as the cheapest.

**ROYAL YEAST CAKES**

### CELLAR WINTERING

In all parts of Canada bees require protection from the wind and cold during the winter months. There are two methods by which this protection can be supplied, either by packing the colonies in special outside wintering cases or by placing them in a cellar. Although outside wintering is gaining in popularity, cellar wintering will give excellent results in any part of Canada where the conditions in the cellar are such that they will prevent the bees from wearing themselves out with too much activity and is advisable in the more northern localities where the winter weather is usually very severe.

The cellar for bees, no matter whether it is built especially for the purpose or partitioned off from the cellar beneath the beekeeper's residence, should be one that is well insulated against the variations of the outside temperature and can be maintained at a temperature of about 48° F. throughout the winter. It should also be dry in order that there is no condensation of moisture at any time and fitted so that it can be ventilated when necessary.

Bees to be wintered in the cellar will require less stores than those wintered outside but these stores must be of the best, containing as little indigestible matter as possible or the bees may die of dysentery before the spring. Clover honey or sugar syrup is the best food for cellar wintered bees. The bees should be brought into the cellar immediately after the last good cleansing flight which is usually about the first week in November. It is far better to put the bees in a week or two before the last opportunity of a flight than to leave them exposed to the cold that is not followed by a cleansing flight. If the temperature is sufficiently low there will be no need for closing the hive entrances when bringing them in. The hives should be carried as carefully as possible, with little disturbance to the bees and they should be placed on empty hive bodies or other stands of similar size in tiers of four high. The covers of the hives need not be removed. The entrances should be left open full width but if there is a danger from mice getting into the hive the entrance may be covered with screening with 1/2 inch mesh. No white light should be used in the cellar. Dead bees may be cleaned up from the floor at intervals but there must not be any disturbance to the colonies at any time. If the cellar is properly constructed the bees will require no further attention during the winter.

### CONGRATULATIONS TO BONAR LAW

New York, Oct. 26—The Canadian Club of New York today sent a cable to Mr. Bonar Law expressing gratification that a Canadian had become Premier of Great Britain.

The decision to send a message to the new British premier was made at a meeting of the club membership last night. The resolution instructing the president of the club to send the cable greeted with cheers and was passed unanimously.

### THE LIVING WAGE

In every discussion of the labor problem of late we hear much mention of the "living wage." That is interpreted to mean, not the wage that is sufficient to maintain the worker himself in comfort, but the wage that without hardship will support the family of four or five persons that is supposed to be dependent on him. It is much to be desired that every worker in the country should have not only a living wage but a wage sufficient for ample living. Every industry would be on safer foundations if that were possible; most employers realize it, though some of them unfortunately do not.

In considering the living wage some things have to be remembered. A living wage in New York or Chicago is not the same thing as a living wage in a village of Florida or Vermont, and attempts to "standardize" wages are consequently unfair. A considerable proportion of the wage earners are not heads of families and not a few families number two or three or four wage earners among them. It is, therefore, the constant fact which some humanitarians forget, that a living wage in order to be paid must be earned. There is no inexhaustible reservoir of money from which wages can be paid. Wages do not come from capital but from profits. Capital is locked up in the instruments of production. It is not enough for labor leaders to insist on a living wage and expect employers to produce it from some vast and idle stock of money that does not exist. The only way that the employers can pay better wages to the men who work for them is by doing more business, selling more goods and getting more money for them.

It is unfortunate and it seems paradoxical that with all our advantages of mechanical production we do not produce and never have produced enough goods to afford a "living wage" of at least \$1800 a year to every worker. Nor can such a wage be had merely for the demanding. The labor unions must change their attitude toward production and recognize that higher wages depend on more production and cannot be had for less. Employers must bend every effort to diminish the overhead cost of production and at the same time admit the obligation to pay to labor a part of what they make by better manufacturing methods. Employers

## Railway News

**Montreal**—It was announced at the head office of the Canadian Pacific Railway at 1200, Street Station here, that the transportation would be granted by that Company to all relief supplies for the sufferers from forest fires in Northern Ontario when consigned to the Cobalt Relief Commission, at Cobalt, Ontario. These supplies will be accepted by the railway at any point on the Canadian Pacific system, and will be rushed forward without delay.

**Winnipeg**—From September 1 to October 5, the C.P.R. has marketed 65,272,864 bushels of grain, according to a statement issued at the local office. During the same period 35,484 cars were loaded, which is the equivalent to 51,180,789 bushels. The previous highest figures recorded were in 1915, when the company marketed 32,023,000 bushels and loaded 22,472 cars, which is equal to 29,887,760 bushels.

**Pentton**—After more than a quarter of a century of service on a fruit rancher, and he proposed to a statement issued at the local office. During the same period 35,484 cars were loaded, which is the equivalent to 51,180,789 bushels. The previous highest figures recorded were in 1915, when the company marketed 32,023,000 bushels and loaded 22,472 cars, which is equal to 29,887,760 bushels.

**Halifax**—The many friends in Halifax and Dartmouth will be pleased to learn of the success of Edward Everett Beck, formerly of Dartmouth, but now residing in Vancouver. He has just been appointed to the Hotel Vancouver. Mr. Beck is a son of Mrs. Beck-Livard, Dartmouth. He has three brothers, Charles A., Dartmouth; Harry, Middle Musquodouit; and Archibald in Winnipeg.

**Famous men and women from all parts of the world have been cared for by the smiling official during his service with the company.**

**Winnipeg**—September records of the handling of the season's crop afford a remarkable demonstration of efficiency in grain handling by railroads, elevators and by the human element that plans and directs. Compared with other years the September movement far surpasses all previous records. All over the west long trains are carrying the current of wheat to the lake front and thence to the markets of the world.

**Calgary, Alta.**—Many farmers in the irrigated districts in southern Alberta have every reason to be satisfied with the result of their season's work, according to G. H. Hutton, superintendent of the agricultural and animal industry branch of the Natural Resources in Calgary, who has returned after a visit to that section of the province. The yield of wheat has been most satisfactory, in some cases averaging thirty-seven bushels to the acre. One man in the Coaldale district had realized a net profit of \$6,090 from 425 acres.

In the Vauxhall district one of the farmers had informed Mr. Hutton that he purposed finishing with 100 steers, 5,000 lambs and from twenty-five to thirty dairy cattle, that he would have even then 200 tons of hay for sale from one section of land. Incidentally Mr. Hutton mentioned that the feeding of the lambs under contract in the irrigated districts was being considerably extended this year. The business promised to provide a most satisfactory market for alfalfa hay and coarse grain, and to involve a relatively small risk, inasmuch as it was possible to contract lambs now for spring delivery. The profit from that line of work, he said, were in marked contrast to those which were realized even under the best of conditions in the growing of grain alone on irrigated land.

**WALTERS THROUGH FOR YEAR**  
Gloucester, Mass., Oct. 26—Captain Angus Walters of the champion schooner Bluenose tonight declared positively that he would meet the Henry Ford, the defeated challenger, no more this year. "We have won the cup," he said, "that is what we came here for. If the Henry Ford wins the elimination races next year and sails down to Halifax, we'll take her on again if we are the defenders at that time."

## THE STORAGE OF VEGETABLES

The storage of vegetables is not satisfactory in a great many cellars because the temperature is kept too high. There is a natural desire to keep the cellar warm, of course, because this materially aids in maintaining comfortable rooms above. The warm cellar, however, particularly if the floor is of cement, has a dry atmosphere, and vegetables will badly therein. On the other hand, if the cellar is warm and moist, growth and rotting are more likely to take place. The dry, warm cellar is favorable to the storage of squash and pumpkins only and not suitable for vegetables other than these. Temperature is really the prime factor in the successful storage of vegetable crops. A temperature slightly above freezing will carry all vegetables in fresh condition for the longest period and with the minimum loss.

It is wise to have the vegetable storage room separated from the main cellar. This should have connections with the outside through which a free circulation of outside air may be maintained, probably an open cellar window screened with wire would be quite satisfactory until cold weather sets in, when, of course, additional protection would be necessary. A glass window hinged on the inside is closed after the first of December whenever necessary to prevent too low a temperature, the cotton cloth still remaining on the outside for use in warm spells. Such a plan has been followed by the writer in storing the home supply of vegetables and has given every satisfaction.

The larger the quantity of vegetables the better the ventilation required. With a large quantity it is better to have separate openings for the cool air inlet and the warm air outlet, one at a greater height than the other, thus facilitating the free circulation of the air.

If the cellar is such that wilting of the vegetables is likely to take place because of the dryness of the air, a protection of sand or sawdust should be given them. There is little danger of wilting if a free circulation of outside air, thus keeping up the humidity, is maintained.

In the storage of larger quantities of vegetables additional attention to ventilation must be given. A large bulk of vegetables usually generates heat more quickly than it can escape. Consequently slatted ventilating shafts should be placed at regular intervals of about four feet to prevent possible high temperature and consequent rotting in the pile. Two five-inch boards for two of the sides, with eight inch pieces of laths spaced one inch apart for the other two sides, make a fine ventilating shaft for a root pile. This shaft is placed on end resting on the floor. The warm air flows readily to it and escapes thereby. Six or four feet wide made of five or six inch boards spaced one inch apart and nailed to each side of the upright studding will serve the same purpose and in addition will separate the various lots.

For onion and cabbage storage nothing seems to be as suitable as slat-bottomed shelves, one foot deep for onions and two foot deep for cabbage, placing about ten inches of

## The Largest Sale in America because

# "SALADA" TEA

Plenses the most exacting tastes.  
Quality—Economy—Purity—Flavor  
Always Assured.

onions or two rows of cabbage to a shelf. Celery demands a cool and moderately dry atmosphere for best storage. The roots should be covered with damp sand and the whole so arranged that the sand may be watered occasionally in order to keep the plants from wilting. Four bunches together may be placed upright in a row, with sand covering the roots, and a space a foot wide left between this and the next row. This space affords a suitable path for watering. In no case should water be poured on the plants as dampness on the foliage favors the development of rot. A good circulation of air is important in order to prevent dampness on the foliage. An earth floor is much better for celery storage than a cement one; consequently a cement floor should be covered to a greater depth with earth before putting these vegetables thereon.

A small patch of parsnips should be left in the ground for spring use. These should be dug as soon as the frost is out and stored in a cool cellar with a covering of sawdust or sand. Leeks may be stored in the same way as celery. A patch of this should be left also for spring use. It should be dug early and stored in damp sand in the same manner as advised for storing celery in the fall.

## Splendid Spirit Of Sportsmanship

Ottawa, Oct. 26—A telegram congratulating Captain Angus Walters and the crew of the Canadian defender Bluenose, was despatched to Gloucester tonight by the prime minister, Rt. Hon. W. L. Mackenzie King on behalf of the people of Canada. Premier King congratulated the victorious cup defenders upon their victory and also upon the splendid spirit of sportsmanship they had shown during the contests.

## Negotiations To Be Resumed In Paris

Ottawa, Oct. 26—Negotiations for a new trade treaty between France and Canada are to be resumed in Paris by Hon. W. S. Fielding this week. It is learned here. Mr. Fielding, who has just finished his work in London on the cattle embargo question, was expected to leave today for Paris to begin his trade treaty negotiations with the French government.

## Cobb Had Right Dope On Ruth

Ty Cobb is wise in all things pertaining to baseball. Three years ago, when Ruth was the talk of the baseball world, the biggest sensation the game has ever known because of his slugging ability, someone asked Cobb what he thought of the Babe. "The big fellow is a wonder," remarked Cobb, "but he has a big job ahead of him to keep the place in the public's eye that he now holds. 'Hitting home runs day after day is far more difficult than doing the things that I have done to keep my name before the public. 'My task is to make base hits and show some speed on the bases. Ruth's task is to keep on hitting the ball farther than anyone else can. 'In order to continue doing that Ruth must take the best of care of himself. There must be co-ordination between the eye and the muscles or the body. He must be able to time the ball perfectly. 'If Ruth takes on weight, increases his waistline, his natural swing is certain to suffer. His eye won't be right. 'I am afraid Ruth is going to get heavy. If he does, the pitchers will soon gain the mastery over him. When they do he is going to slip rapidly. Ruth must be a well-conditioned athlete or his fame is going to be short lived."

"The big fellow is a wonder," remarked Cobb, "but he has a big job ahead of him to keep the place in the public's eye that he now holds. Mr. and Mrs. Matheson were the recipients of many beautiful presents, including cut glass and china. Music and dancing were indulged in and a dainty supper was served at midnight. A most enjoyable evening was spent.

## CAMPBELLTON'S NEW

Work has already been commenced on Campbellton's new curling rink which is being erected on Ritchie St. The contract for the construction from the foundation up has been awarded to Hamilton and Collier at an approximate contract price of \$8,200. The contract for the concrete basement and foundation it is understood will be in the vicinity of \$2,500. The building is to be 70 by 170 feet and will contain four sheets of ice. It will be in readiness for the curling season.

## CATARRHAL DEAFNESS

HALL'S CATARRH treatment is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing can be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

## BATHURST DEFEATS

NEWCASTLE The Harkins Academy High School Football team went to Bathurst, on Friday to play a return game with the Grammar School on Saturday morning. The locals were defeated in this game by the score of 2 to 0. The game was a clean and fast one and enjoyed by a large number of spectators. After the game the visitors were tendered a chicken dinner, which was much enjoyed. The locals accompanied by Mr. Barnett and Mr. Gulliver of Harkins Academy. The team returned home on Saturday's Limited much pleased with their visit.

## A Wonderful Show

At Waugh's Opera House

It is a long time since we have had as good a show as the one the Young-Adams Company have this season. Mr. Young has brought many good shows to St. Albans but never before has he equalled the present company. A bumper house greeted them last night in spite of the inclement weather and they deserved it. Marjle Adams never appeared to better advantage. She had an excellent part in Mary Ann, and was a whole show in herself. The support was splendid did, every character being remarkably well taken. Not a dull moment during the evening. The four acts went over with a bang and the vaudeville between the acts was all good. The Scotch Act, consisting of singing, dancing, piping and drumming, was a big feature and made a terrific hit. Four acts of melodrama six big specialties, a Kilty Band and Orchestra, make up one of the very best shows seen here for many years. The show is clean, has class, full of ginger, and made a most favorable impression. There will be a complete change of program each night during the week and if the show of last night is any criterion and they follow

## START RIGHT

A good breakfast is a good start for a good day. And it must always include good bread—the kind you make from **REGAL FLOUR**, the flour that is known as—"Wonderful for Bread."

up their brand, Mr. Young and Miss Adams will add many new friends to their long list. They are both very popular and will be more so before the week is over. The play for tonight is "Four Wise Fools"—St. Albans Messenger, Vermont.

[The Young-Adams Co., is well-known in Newcastle and are booked to play here in the Opera House in November 20th and 21st.]
