If it is only because they are so interesting—apart from the practical opportunities they offer—the small advertisements in the People's Paper, the EVENING TELEGRAM, are well worth studying.

# The Evening Chit-Chat

To-day is the sixty-first anniversary of one of the most dearly loved men in the whole world of letters.  
He left mankind at his death many beautiful stories and essays, but perhaps the best of all his legacies was the doctrine of the duty and beauty of happiness, which he continually taught in his writings.  
Mankind receives the doctrine at his hands the more willingly because he himself lived it. And lived it, moreover, despite tremendous obstacles of ill health and suffering. From the very day of his birth, Robert Louis Stevenson was shackled with ill health. At the age of 22, just as he was about to take his examinations for the bar, he was prematurely sent south for the winter, and from then until the day of his death at the age of forty-four, he was continually struggling to keep his health. The last six years of his life he was absolutely exiled from his native land, and suffered so from home-sickness that "there were times," says his biographer, "when he was even tempted to go back to the old life and the old friends were it only for a few weeks or even a few days. But he resisted temptation and fought manfully to the end."  
The year before he died, he himself wrote, in a letter to a friend:  
"For fourteen years I have not had a day's real health. I have a wretched sick, gone to bed weary, and have done my work unflinchingly. I have written in bed and out of it, written in hemorrhages, written in sickness, written torn by coughing, written when my head swam for weakness; and for so long it seems to me I have not my wayer and recovered my glove. I am better now—and still few are the days when I am not in some physical distress."  
And this is the manner of life that this man endured who not only promulgated, but lived, the doctrine of the duty of happiness.  
On this, the anniversary of his birth, I want to bring afresh to my readers a few of his expressions of that doctrine.  
"There is no duty we so much underdate as the duty of being happy. By being happy, we sow anonymous benefits upon the world, which remain unknown even to ourselves. A happy man or woman is a better thing to find than a five-pound note."  
"There is an idea abroad among moral people, that they should make their neighbours good. One person I have to make good; myself. But my duty to my neighbour is much more nearly expressed by saying I have to make him happy if I may."  
"To be honest, to be kind, to earn a little and to spend a little less; to make upon the whole, a family happier by his presence; to renounce when that shall be necessary and not to be embittered; to keep a few friends, but these without capitulation; above all, on the same grim condition to keep friends with himself—here is a task for all that a man has of fortitude and delicacy."  
"The world is so full of a number of things  
I'm sure we should all be as happy as kings."  
"If I have faltered more or less in my great task of happiness, I have moved among my race  
And shown no glorious morning face  
It beams from happy human eyes.  
Have moved me not, if morning skies,  
Books and my food and summer rain  
Knocked on my sullen heart in vain  
Lord, Thy most pointed pleasure  
take  
And stab my spirit broad awake."  
*Red Cannon*

## Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.  
**It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. His correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.**  
Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.  
**It Makes Weak Women Strong, Sick Women Well.**  
You can't afford to accept a script. It is a substitute for this non-alcoholic medicine of known composition.

## Household Notes.

Outward applications of lemon juice ease stings and bites of insects.  
Rice has a finer flavor if washed in hot water instead of cold before cooking.  
If a lemon is warmed before squeezing, nearly double the quantity of juice will be obtained.  
Perspiration stains can be removed by rubbing with soap and laying the garment in the hot sun.  
To soften the hands: After washing with soap and water, rub them with oatmeal while still wet.  
When one dislikes the taste of bought salad dressing it can often be improved by adding sour cream.  
Kerosene will soften boots and shoes that have been hardened by water, and make them as pliable as new.  
White paint, which is enameled or varnished, requires careful treatment and should be washed with fine oatmeal, not soap.  
To banish ants, cut thin strips of cucumber rind and put about where they abound, this will invariably drive them away.  
Lemon peel and orange peel, dried, make a good substitute for kanding; a handful thrown into a darning ring will revive it at once.  
Have you ever tried calf tongue? It is smaller than the usual tongue; correspondingly delicate; also cheaper and boils more quickly.  
To clean decanters: Mix half a gill of vinegar with a handful of salt. Put a little in each decanter and shake well. Rinse in clear water.  
In making tomato soup with milk, always put the soda in the milk before putting the tomatoes and milk together, and your soup will never curdle.  
Stagnant water in a kitchen boiler often leaves a sediment especially in rainy weather, where there is a poor filter plant in the city water supply.  
If when reading or sewing by lamp light a sheet of white paper is placed under the lamp it will be found that a far stronger light is shed all over the room.  
Always remove the cake of fat that settles on the top of cold soups; if allowed to remain the soup will turn sour more quickly than it otherwise would.  
A clever device for moving a stove is to take a new broom, raising the stove from the base, place it upon the brushy part of the broom and draw it by the handle.  
A piece of sandpaper, kept for the purpose of scouring pans and kettles in which something has been scorched, is very helpful. It keeps them bright and smooth.

## Tells Others His Secret

Wants them to know how he was cured of itching, protruding piles by **DR. CHASE'S OINTMENT.**  
Doctors usually recommend the knife as the only cure for piles. They overlook the risk, the expense and the suffering of mind and body entailed in a surgical operation.  
Dr. Chase's Ointment will bring relief quickly and will cure thoroughly if you will but persist.  
Mr. A. Honington, 62 Bronson Place, Montreal, Que., writes:—"I cannot help praising Dr. Chase's Ointment as I suffered many years with itching and protruding piles, and was cured by this ointment. I became tired of the efforts of the best specialists to cure me, and hearing of Dr. Chase's Ointment just as I had of hundreds of other medicines began its use. But oh, great joy, at the very start the sharp pain left me and I was gradually cured. I hope that every sufferer will follow my example with the same success." Every form of piles or hemorrhoids is cured by Dr. Chase's Ointment. 60 cents a box, at all dealers, of Edmondson, Bates & Co., Toronto.

# PAIN ALMOST CEASED

FROM THE FIRST APPLICATION OF DOUGLAS' EGYPTIAN LINIMENT.  
The experience of Mr. McG. Hood, of Montreal, is a sample of what Egyptian Liniment will do. He tells it himself. "I met with a serious accident at Belleville, breaking my leg and dislocating my ankle. On leaving the hospital where I was confined eight weeks, I had to go on crutches, with my leg in a rubber bandage, suffering agony from swollen and contracted cords. For four weeks I tried every liniment without benefit, then I procured Egyptian Liniment and from the first application the pain almost ceased. In less than two weeks I put away the crutches and walked with a cane though I weighed 22 pounds.  
I cannot speak too highly of this Liniment."  
Not only the severest cases, but the scores of little troubles that come up, cuts, bruises, burns and the like are quickly relieved and cured by Douglas' Egyptian Liniment. 25 cents at all Dealers, free sample on request. Douglas & Co., Napanee, Ont.

table and lessens the unpleasant odor while cooking.  
It is especially useful to understand about disinfectants used for the sick. Certain purifiers may be death to the germs; they are equally death to the pipes, and plumber bills follow.  
Small pearl buttons are much better than cheap collar buttons. Sew them on the neckband of the waist and button the collar over them the same as over a collar button.  
At the approach of cold weather it is important to have the plumbing thoroughly inspected. A bad break is more comfortably repaired now than with the thermometer at zero.  
A pinch of soda in the fruit jar after being washed will sweeten it. This, of course, is to be put in the jar before being scalded or rinsed out, saving it sweet and free from odor.  
For leather of chairs that is rubbed or worn or looking shabby, the chite of an egg is excellent. Apply it with a soft rag, when the leather will not only be restored, but wear longer.  
For use in an ironing-holder a piece of leather cut from the top of an old shoe will protect the hand from the iron, also save callous spots from the grip if one uses the patent handle irons.  
A teaspoonful of warm honey taken every 2 minutes has a surprising effect on catarrh. Honey should always be kept handy, as it is invaluable in cases of illness caused by catching cold.  
Pearl stains may be removed from my fabric by saturating with turpentine; then rubbing with soap before washing. Iodine, one of the worst stains, may be removed in the same manner.  
The best manicure acid is made by putting a tablespoonful of lemon juice in a cup of hot water. It removes stains from fingers and nails and softens the cuticle about the nail in a satisfactory way.

WEDNESDAY, November 15, 1911.

### Is the Cost \$20,000 a Mile?

The Daily News is apparently unable to reconcile its own estimate with that of the Premier, and maintains silence on the matter.

Yesterday we showed that the Daily News estimate for part of the Premier's branch railway programme exceeds the Premier's estimate for the whole, as given in the Premier's Speech at Burin on October 11th, last, by \$1,500,000.

The Daily News does not attempt to deal with this extraordinary discrepancy. We also showed that the Daily News estimate is too low, as not a cent is allowed for stations, piers, wharves, fences, and snow fences, and extras ordered by the Government, which are to be paid for monthly under Section 37 of the Railway Extension Act.

The Daily News appears to ignore absolutely the obligations under Sections 34 and 37, and to make its estimate by a mere multiplication of \$15,000 by the number of miles.

This sufficiently accounts for the figures it gives about the Bonavista Branch \$1,500,000 is merely the product of \$15,000 by 88.

The Daily News has obviously left out of account the cost of all stations, piers, wharves, fences and snow fences, and other extras, which are not included in the work to be done by the Contractor for \$15,000 a mile. The Government is under an obligation to pay, in addition to the \$15,000 a mile, the fair value of this work.

To make this matter clear we quote a part of Section 34 and the whole of Section 37.

34. The Contractor shall erect all stations, piers, wharves, fences, and snow fences along the line of the Branch Railway to which the Contractor refers, and shall erect, construct and perform all other works which the Government shall require, which are not included in, or incidental to, the completion of the works comprised in this Contract, as the Government in their discretion may consider necessary and appropriate.

37. The Government shall pay to the Contractor the fair value of all works, constructions, articles and things provided and constructed by him under the provisions of clause 34 hereof, subject to their approval of the same, and to the provisions of the next preceding clause. Payments on account hereunder to be made monthly, on the certificate of the Engineer, for all works, constructions, articles and

things completed and furnished at the date of such certificate.

We have been asking for almost a whole week for an itemized statement of the payment already made under the Sections 34-37, and for some reason or other the Government declines to furnish the information.

Again, we know that part of the Bonavista Branch was constructed in the fall of 1909, before the Contract was executed. How much was paid for this work and at what rates?

The absurdity of placing the cost of the Bonavista Branch at \$1,500,000 is shown by these facts; also from the fact that nothing is allowed for the purchase of the rights of way.

Further, there is a gross discrepancy between this estimate and the financial statement tabled last spring in answer to a query in the House of Assembly. This financial statement was confirmed by the Minister of Finance who stated in his Budget Speech that four-fifths of the Bonavista Branch had been built and that \$1,212,000 had been paid to the Contractor up to February last. As one fifth is a quarter of four fifths, the fair inference is to add \$300,000 to this, and this makes \$1,500,000. At that time we believe nothing had been paid for stations, etc. It is evident, therefore, that we cannot be far out in estimating the total cost of the Bonavista Branch, when that Branch is absolutely complete, at \$2,000,000. So far the Daily News has not produced an itemized statement of what has been paid in this connection and an estimate of what remains to be done in that branch which will have to be paid for.

All these inquiries have been prompted by the misleading statement made by the Premier at Burin and by the apparent discrepancies which have appeared in the Daily News, and which the Premier and the Daily News have far from even attempted to reconcile.

In conclusion, we repeat we will promptly reply to the Daily News query of this week, when the information we asked for last week is furnished.

## Police Court News.

To-day a drunk was fined \$4 or 14 days.

Two disorderlies and a man who has no home were discharged. Const. O'Neill summoned a cabman for cruelty to his horse in leaving it for 48 hours in a field without attention. Two men showed clearly that the animal had been taken out of the field in which it was at first placed by some unknown person, and he made a search for the horse but could not find it though later the police discovered it. The case was dismissed.

Supt. Grimes summoned a chauffeur for having no tail light to his motor recently. The man averred that he lit the lamp before leaving the garage, but did not know of it being out until the Supt. spoke to him of it. He was let off on paying costs.

A man named Hibbs summoned another named Somerton of Portugal Cove for assault on the 14th. He was fined \$5 or 14 days. Mr. Higgins for defendant. Mr. Rd. McGrath for dit.

## More Goods Seized.

To-day several business people of Water Street went to the police station to try to identify goods which they have missed from their stores, but there is such a great accumulation taken from Mrs. Butler's house that it will take several weeks to assort it properly for public inspection. The woman has not been arrested, but we learn is under police surveillance.

At 12.30 to-day Officer Byrne and Tobin took from her residence a large quantity of goods filled with more material and which contained such things as accordeons, walking canes, books, toy apparatus and this morning more goods will be taken. It is said that a sensation equal to that of yesterday may occur this evening, and that officers will make another big seizure. The heads of Water Street dry goods firms are deeply interested in this matter, believing as they do that much of the goods seized by the police have been sent away from their stores by dishonest employees.

## Several Big Larcenies.

Though the police have not had to deal with such a number of petty larcenies this fall as during past seasons, those which did occur were of more than ordinary importance. These include the larceny of a trunk with \$100 from the cabin of a schooner; the stealing of seven cases of oil worth \$150 from Geo. M. Barr's wharf, and last, but not least, the discovery at Mrs. Charlotte Butler's, Colonial St. The belief of several people is that the woman was dealing with dishonest clerks in several city stores and that they furnished her with the goods which they stole from the shelves of their employees' stores.

## Train Notes.

The west bound express left Notre Dame Junction at 8.55 a.m. The incoming express left Port aux Basques at 9.25 a.m. to-day. The local via Grand Cove arrived at St. John's at 1 p.m.

## Had Himself Shot.

Gave Instructions to Gamekeeper and Ran Into Danger. Suicides often adopt ingenious methods, but the art of the felo de se seems not to have advanced materially during the centuries. The modern case of a heavily insured lunatic who attempted a quagmire trip stood bareheaded and unprotected in the snow, is matched in cleverness by one five hundred years old. The following facts are well vouchered for, and, indeed, were never questioned:

Sir William Hankford, a Judge of the King's Bench in the reign of Edward III, Henry IV, and Henry V, and Henry VI, and at the time of his death Chief Justice of England, was a man of melancholy temperament. He seems to have contemplated suicide the greater part of his long life, and during his later years the idea became a fixed purpose. The act was of peculiarly serious consequences in those days, for the reason the law treated it as a capital crime. The offender was buried at the cross roads, with a stake driven through his body, and all his goods and property were forfeited to the Crown, to the utter ruin of his family.

Hankford made good use of his wits and succeeded in accomplishing his purpose without incurring either unpleasant penalty. He gave open and notorious instructions to his gamekeeper, who had been troubled with poachers in the deer preserve, to challenge all trespassers in the future, and to shoot to kill if they would not stand and give an account. One dark night he purposely crossed the keeper's path, and upon challenge made motions of resistance and escape. The faithful servant, failing to recognize his master, followed instructions to the letter as was expected of him, and Sir William fell dead in his tracks.

The whole truth of the affair was common knowledge, but it was impossible to establish a case of suicide by legal proof. The servant was protected by his instructions. Hankford had honorable burial and his estate passed to those whose interests as heirs he had so wisely considered.

WASHINGTON, To-day.—Mohammedanism construe the assault on Mohammed people in Persia, Tripoli, Morocco and parts of India as concerted. How far this unrest of Mohammedans will develop if Persia becomes more seriously involved with Russia, officials here are not ready to say.

LONDON, To-day.—In the Commons, Dillon called the attention of Grey to the published statements of Schuster, the American Treasurer General of Persia, charging Britain and Russia with obstructing his work and interfering with the independence of Persia. The Secretary promised to deal with the matter in a statement to the House as soon as opportunity offered.

## Hurt on Bonavista.

While a stoker in the ship named W. G. McLean of Montreal, was going to his quarters on the Bonavista shortly after 10 o'clock last night, he tripped and fell as he passed the fore hatch and went into the hold, falling a distance of 15 feet. He was unhurt, but was being taken up, two physicians were summoned to attend him and he was later taken to hospital in the ambulance. The man narrowly escaped death, but it was found this morning that nothing more serious had occurred to him than some ugly cuts on the face and head and some bruises.

Editor Evening Telegram.  
 Dear Sir,—The sight was a grand one, in the gray of a beautiful November dawn, this morning, to see His Majesty's ship Brilliant, and the Reid Nfld. Co.'s ships—the Dundee and Clyde—all lit up, notwithstanding that the good ship Clyde had her forefoot caught on one of the harbour rocks here, it was only the work of a few minutes for the Brilliant to release her. Then she steamed up to the Government wharf without a feather out of her. There she took freight for the North, and when leaving the wharf three rousing cheers were given for her popular Captain, Job Kneen, who responded in the usual way by three blasts of her whistle. Then three more hearty cheers were sent up for Captain P. Delaney whose good open Newfoundland face is quite

familiar to "the old folk" of Little Bay, and who were glad to see the gallant captain looking hale and hearty, and wished him many, many years of enjoyment after a hard but well fought battle with "Old Neptune." The people of Little Bay, under whose eye the slight mishap occurred to the Clyde while coming in this harbour just before daylight on Saturday morning, are in full sympathy with Capt. Kneen, and have full confidence in the captain and his chief officer, Mr. Harbin. We have seen both these men bring the Clyde into this port time and again when the people of the place have openly admitted that they, themselves, would not be able to find their way out in such blinding snow storms.

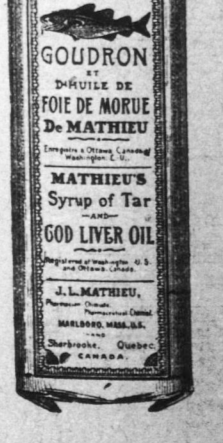

### A Simple Treatment That Will Make Hair Grow Now Sold in Newfoundland.

Every up-to-date woman should have radiant hair. There are thousands of women with harsh, faded, characteristic hair, who do not try to improve it. In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic. Every reader of the Telegram can have an attractive head of hair in a few weeks by using SALVIA. McMurdo & Co. sells a large bottle for 50 cents, and guarantees it to banish Dandruff, stop falling hair and itching scalp in ten days, or money back. SALVIA is a beautiful, pleasant, nonstickly Hair Tonic. Short taffeta is much in request for autumn headgear, especially for the hats with their tall Jacobean crowns. A charming model recently exhibited was of a bronze-shed taffeta in which shades of orange and brown predominated. The silk was gathered and fringed.

By H. L. RANN.  
 BASE HALL AND THE DRAMA.

The influence which the game of baseball is exerting upon the modern drama is one of the most encouraging and hopeful signs of the times. For instance, we are informed by the public prints that Tyrus Cobb, known to the pink sheet as the Georgia peach, is to appear in a lively skit entitled "How I Led the League and Why I Done It." In this scene Tyrus wears a proud look and a pair of spiked shoes and closes with a slide from the right rear entrance to the dressing room, in plain view of the audience. It is said that the acting of Mr. Cobb aroused Robert Mantell to such envy that he pricked himself in the watch pocket with the sword of Brutus the other evening. Just prior to his 77th demise on my stage. We notice also that that eminent tragedian, Mr. Frank Baker, of Philadelphia, who walked up and extracted a home run from Mr. C. McWherson's repertory without ringing the door bell, is about to burst or has burst upon the dramatic firmament with an ash bat and a monologue with a range of three octaves. Those who have had the privilege of seeing Mr. Baker in action say that he makes the lamented Salvini look like the leading man of the Prairieburg Dramatic club. Other brilliant artists who have been batting over 300 are also about to throw a few choice debuts about the circuit. The stage has an infusion of new blood coming to it, and we are glad it is on the way.

### A Grand Success.

C. C. C. FAIR OPENED BY ARCH-BISHOP.  
 Last evening at 3.45 the Fancy Fair and Sale of Work in aid of the C. C. C. was formally opened by His Grace the Archbishop who delivered a pleasing address in which he complimented the C. C. C. on the good work they were doing in our midst. He expressed the hope that the Sale of Work would be a success and then declared the Fair open.

His Excellency the Governor then spoke and praised the work of the C. C. C. and spoke of the great benefit the organization must be to the Catholic community of St. John's, and in fact to the city in general. In those days of wars, and rumors of war, he felt certain that all would be gratified to feel that our youth were prepared by their military training to help to defend the Empire should their services ever be required.

On the platform, with His Excellency were Lady Williams, Rt. Hon. the Premier, Private Secretary Fitzherbert, Lieut. Gale and the C. C. C. Committee.

The Hall was beautifully decorated and the stalls attractively arranged. There are attractions there for all tastes and ages, from the infant to the octogenarian. All boys require a pleasant evening should their services ever be required.

PEKIN, Nov. 14.  
 Optimism is the prevailing note in Government circles, caused by the report of Prince Ching, the Acting Premier, has received a telegram from General Li Yuen Heng, commander of the rebel forces, saying that he was prepared to treat for peace on certain terms, and by the statement that the Army Divisions, one to six, inclusive, would agree to uphold a monarchical constitution, and to support Yuan Shi Kai, provided the terms of the rebel leaders' agreed with those of the Army. The Imperial Government promptly issued an edict commanding Yuan to accept the Premiership for his country's welfare, and ordering the Viceroy and Governors of all the provinces to select three or five delegates to come to Peking to attend a conference on State affairs. The edict also appoints delegates to visit sixteen of the disturbed provinces, to pacify the people and to announce that the throne denotes one to all the police and soldiers in Peking, presumably hoping to purchase loyalty. The Government expresses the opinion that the edict will go far toward restoring peace. Lack of money is greatly perplexing the Government, as foreign capitalists are holding aloof.

### Address: GOOD HOPE REMEDY CO'Y.

DEPT. 210 ST. JAMES STREET MONTREAL, CANADA.

### Avondale Notes.

Mr. P. J. Nevin was a visitor during the greater part of last week in the interest of the Catholic Record. He shared the comforts of Mrs. Aspell's hospitality.

The many friends of Miss Ellen Hennessey, sister of Miss Fanny Hennessey, school teacher, Avondale North, are glad that she is recovering from her recent illness and will soon be able to be about again.

The grounds surrounding the new parochial residence are being leveled and remodelled entirely with the earth that is being removed to complete the location for the new church. An abundance of gravel of the best quality is at the disposal of the rebuilding committee, and as the church and school grounds and that of the palace as well are adjacent and in the same plane, the overseers are very wise in devoting the material to the sole improvement of the area contained within the precincts of all three.

As the season is come when we may expect cold and disagreeable weather at any time, it is feared that the site for the new church will not be completed before winter sets in. To discuss matters ament the performance of the work with more despatch and before the onset of winter, so as to enable the building of the church to be started in the early spring, a meeting of citizens was convened in the schoolroom last Sunday by the rebuilding committee. Rev. Fr. Shean, P.P., addressed the meeting and elicited from one and all of the members their determination to have the job finished by Xmas. Mr. Edward Kennedy and several members of the committee, including Dr. Jones, Messrs. G. Kennedy and P. O'Brien spoke on the necessity of getting the work done before being debarred by snow and frost from finishing at this season, and this offset any delay in the early spring with the commencement of the church. The very pleasing result is that twice more energy is put forth "on the hill" than formerly, and if the present ef-

forts continue the job will be finished sooner than expected.

Among the friends of Mrs. Nicholas Woodford, of Harbor Main, are many sincere ones at Avondale, who regret the serious turn of her illness of the past week. Mrs. Woodford spent many months at Avondale when within the realm of maiden territory and made many friends, whose fervent prayers in her behalf will hasten her recovery.

Mrs. John Moore, teacher, visited the city last week on business and returned by Saturday night's train.

The census enumerators from Avondale and other places within the district were summoned to Conception Harbor on Saturday to attend a

revision of the lists by Magistrate O'Toole.

A Requiem Mass was celebrated yesterday morning by Rev. Fr. Shean for the repose of the soul of the late Edward Terry.

Dr. Jones reports a clean bill of health at Avondale at present as far as any contagious disease is concerned.

Nearly all the young men that were away to different fields of employment have returned home for the winter. It is gratifying to know that well filled purses accompanied them.

## THE POET PHILOSOPHER.

It seems to me I'm always waiting, for something, in this world of woe; In June I'm waiting till there's skating, and lots of wholesome sleet and snow. In winter I'm eadily waiting until the summer comes

WAITING once more, and winter I'm berating until my trusty tongue is sore. When breakfast's done I wait for dinner, and think that I'll be happy then; and that meal o'er, I wait the tinner, to put my stomach right again. When I was young my youth I hated, and longed to be a full grown man; I have the years for which I waited, and gladly I the same would can. And so we wait till death immures us in long and silver-mounted crates. "He also serves," the bard assures us, "who only hangs around and waits."

# The C. L. B. Twentieth Anniversary

Concert and Dance.

The Avalon Bottling C. L. B. Concert and Dance last night was a wonderful success. The hall was beautifully decorated by the W. & N. Co. and ex-members for the occasion. About 2000 people were present. Among the visitors present were Sir Edward and Lady Morris and ex-Col. Outerbridge. At 9:30 the Rev. Bell acted as Chairman and at the conclusion of the Concert he addressed the immense crowd of people. Thanking the performers for the valuable assistance, he also congratulated the Lieut.-Col. officers, warrant and non-com officers, and ex-members for making the 20th anniversary so successful. At the end of the programme he asked all the audience to stand and sing the National Anthem. At eleven o'clock the concert was brought to a close. Immediately after the concert the main hall, gymnasium, and ball rooms were cleared for dancing. About 1700 people remained for the dancing. It was a beautiful sight to see the immense crowd of young people enjoying themselves dancing. A programme of 15 dances was gone through. Refreshments were served during the evening. Dancing was kept up till 3 o'clock this morning. The committee in charge of the concert and dance are to be highly congratulated on making the 20th Anniversary concert and dance so successful.

Miss Nina Willis was a passenger by the outgoing train last evening for Kelligrews, where she will spend a couple of weeks with her sister, Mrs. E. M. Parsons.

St. Joseph's Church, Flatrock, was the scene of a very pretty wedding on Sunday, Oct. 29th, when Miss Nellie Maher, daughter of Mr. Joseph Maher, and Mr. John A. Hughes, Veterans, were united in the bonds of matrimony. Rev. Fr. Curran officiating. The bride who was given away by her father, was becomingly attired in a gown of cream mousseline-de-soie, with veil and orange plossoms. She was attended by her sister, Miss K. Maher, who wore a mauve silk dress and black picture hat. Mr. James Maher, brother of the bride, acted as best man. After the ceremony breakfast was served at the home of the bride's parents and among the guests was the Rev. Fr. Curran. Afterwards the happy couple left for St. John's and later for their home in Wabana. The bride's going-away dress was of peacock blue silk with hat to match, and long black tailored coat. The groom's gifts to the bride and bridesmaid were gold chain bracelets.

## Stops Falling Hair and Destroys Dandruff

Makes the Hair Grow Long, Heavy and Luxuriant and We Can Quickly Prove It

If You Wish to Double the Beauty of Your Hair at Once, Just Get a 25 Cent Bottle and Try This

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. Danderine is the hair wash fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

For some time past reports have been persistently coming into the police department of petty larcenies from private houses and shops in various parts of the city, and though the detective staff kept on the alert night and day and left nothing undone to try and capture the culprit, they were absolutely without a clue to work upon and almost despaired of ever bringing the guilty one to justice. During the past two days the detectives (officers Byrne and Tobin) had wind of the suspicious actions of a woman who, they were informed, was going about the city selling goods, and keeping pretty close tabs on her actions they suspected that the vendor could not be straight in having such material to sell, and securing a search warrant yesterday they proceeded to the house and were simply appalled at the sight they witnessed when they were admitted to the house. Each room of the domicile was literally packed with dry goods of the best kind, articles of apparel and household effects, with shop goods in great variety, and so much did the apartments hold that the officers could only get through a little alleyway about two feet wide between the goods which in each room were piled from the floor to the ceiling. In fact the

goods salesmen to do the work of classification thoroughly and satisfactorily. A casual look through the material distributed about revealed the fact that there were in the collection a great variety of window curtains, children's and ladies' new boots and shoes, blankets galore of almost every quality, cushions of various sizes and styles, pictures, dress goods, children's, men's and women's spats and leggings, gloves of various materials and colors, brass curtain holders, 100 hooked and some rope mats, towels, pillow cases, coverlets, covers for dressing cases, men's women's and children's underwear, about 100 parcels, some of them in bags, addressed George Knowling and containing his hardware boxes of millinery and other packages, the contents of which were not known when our reporter left the station at a late hour, and a large number of other articles that will take the better part of to-day to assort, classify and list. In the collection were several articles and boxes of mackintoshes and other things with the shop cards attached, and as if this was not enough, out in the corridor, inside of which is the cellar, were placed seven trunks and wooden chests filled to their utmost capacity with goods which the police last night had not time even to take a perfunctory glance at. One of them resembled a seaman's chest, and all were very large, two at least being after the size and style which are used by drummers for their samples while they are on the road. It was thought last night that some of these packages, which were securely locked, contained hardware, but two men could barely lift them off the floor, so weighty were they. The woman (Mrs. Charlotte Butler), from whose house the property was taken, stoutly denied that the goods were stolen, but circumstances, coinciding with the presence of the goods in her home, make the police doubt her story. The Telegram interviewed neighbors of the woman yesterday and they all affirm that there was an air of mystery about herself and her home for months past. The blinds on the windows were rarely raised, and they say that nightly the woman was absent from her home till a late hour, and then she often seen returning and bending under the weight of parcels she carried. Again, they assert at very early hours of the morning she had been seen coming home laden with goods and parcels but none could guess where she obtained them. Her husband, they say left her some four years ago and she lived alone, except for her daughter, a child about 7 years old. She was reticent about her affairs and would let few if any people visit her. Amongst the goods found on the premises was a handsome album in a frame, covered in green plush and containing a photo on the cover of Lady Sheehy, the deceased wife of Mr. E. D. Shea and mother of Mr. George Shea. The police are thoroughly convinced that the goods have been stolen, and they further state that they believe the woman has been thieving from stores and private dwellings for years. The goods accumulated to such an extent of late that she was forced to sell some of them, and it is thought believe she could dispose of the whole in time and without detection. The police, it appeared to several who saw the large stock of material last night, would do well to display it all in some public building so that those who own the good could identify their property, for she cannot do so piled up as it is now in the station without spending days in looking through the big stock kept there for inspection.

**PASSED THE NARROWS.**—The mission ship George B. Cluett passed the Narrows last evening on the way to St. Anthony. She is from Boston with a load of supplies for Dr. Greenfell's Hospital.

**QUIT TEA AND COFFEE**  
What the Great German Specialist Says.

It disappoints some people to be told that tea and coffee cause disease, but it is best to look squarely at facts and set the face towards health for that's more fun than anything else anyhow. A Cincinnati man consulted a Berlin physician on nervous diseases and says: "Four years ago I was an habitual coffee drinker having used it for 25 years and being naturally of a nervous temperament I became almost a nervous wreck, greatly suffering from insomnia, almost constantly constipated and weighing only 125 pounds." He consulted physicians and took medicine all the time but had no relief. About three years and a half ago I went abroad and while in Berlin heard frequently of a great physician, Prof. Mendel, an authority on nervous trouble, so I resolved to consult him. "Prof. Mendel surprised me very much by asking at once if I was a coffee drinker and on my telling him I used it two or three times a day he said, 'It is poison.' After carefully explaining me the matter with me whatever but what could be entirely cured in 30 days by letting coffee and other stimulants alone and letting me have a hard time following his advice. I did not know what to do until I came home and told my wife what I had done. She said, 'I am glad you got some Postum. We tried it but it first did not like it; then we went over the directions on the package together and found we had not boiled it long enough.' "That was the beginning of the end of my trouble for the Postum was delicious after that and I drank it regularly and it helped from the start. "In a very short time I began to feel much better and in the last three years I haven't been absent from business one hour on account of ill health for my health is the best I have had a good appetite, sleep well and weigh 175 pounds." Any nervous person who drinks tea or coffee will feel better from 2 to 3 days change to Postum. Trial easily proves this. Look in packages for a copy of the famous little book, "The Road to Wellville."

**IF** drinking tea and coffee results in a feeling of nervousness and irritability, you may depend upon it that caffeine—the drug in tea and coffee—is getting in its "back licks"—the reaction from the drug.

Common sense would suggest stopping the cause—tea and coffee—short off. The change is easy if you have well-made

### Tim Shannahan on the Noon-Day Gun.

Delaney is becoming one of the keenest of our party and bids fair to outdo Tucker in "catching on" to the amusing side shows of our city. This certainly refreshing to sit by the bogey and hear him unravel his tale. He was exceptionally good last night. Mrs. Tucker is beginning to admit that there is something in him. Well, says he, I was down town to-day, away down in Holytown, and I noticed a big quantity of powder being carted up to the Hill. I hailed one of the carmen and asked him what invasion they were preparing for, and he looked at me with surprise and told me they were carting the powder to the Block House for the twelve o'clock gun.

Now, says Delaney, this custom of firing a gun at noon to keep the clocks of the town correct costs us a big lot of money every year, and what a loss 'twould be to us if the Government decided to cut it out. We hear it on two days of the year—one is on the day of the Races, for it sends forth its blast at the time when the interval of an-hour is on, and the other on a Sunday when we go up to the Hill when a sealer is signalled. Firing a noon-day gun is an ancient custom and like the past with the present; but for my part I think 'tis a waste of spondulices. The noon-day gun was intended for a quiet city where the business and the modern business methods had not yet kicked up sufficient noise to drown the report. It was also instituted for government employees and snug pensioners who have time to wait from ten minutes to twelve till noon and keep their ears cocked to catch the report in order to test the correctness of their watches; but as for its value to us with our noisy streets I fail to see where it comes in.

Tucker agreed with the remarks of Delaney and said that the gun should be removed to some more suitable location where we would be sure to hear it. He thinks the Museum steps would make a capital spot, as this is a nice quiet locality where the report would get a fair show to kick up a noise. Of course it might cause terror in the hearts of the old folks, but after a time they'd become used to it. But as it is now there always exists a doubt whether 'tis the gun that is heard, or the noise of the steamers sailing, for and see how the general officials ask in the most solemn tones, "Is that the gun?" and the Magistrate on the Bench appears with his disapproving countenance and echo enters the chamber of justice for he inevitably looks at the clock to make sure 'tis "the gun" that he hears, and if that clock shows ten to twelve the Magistrate decides 'tis not "the gun" that he heard, puts his time-piece in his pocket and soon forgets all about the "gun" till the next day.

A Plain Statement.

Very light cakes and pastry, pie-crusts, and suet puddings are made by adding one part of

## "PAISLEY FLOUR"

The SURE raising powder

to eight parts of the household flour.

Test its Accuracy.

It costs you so little to try. Get from your Grocer a 5c., 14c., or 22c. tin of "Paisley Flour." The 5c. tin contains enough to raise a pound of flour, the 14c. tin enough for 3 1/2 pounds of flour.

Full directions on packets.
