The completion of the Land League officials in the outrage held not to have been displeased.

LONDON, Feb. 24.—The Times says Parrell's speech will be read with profound regret in the house. His coolness, which was not maintained with entire success, does not imply courage so much as shamelessness and some consciousness of its utter inadequacy. His evasive quibbles to dispose of a charge built upon a very broad induction may account for his laboured explanation of trifles and his resort to ill-timed recrimination. The House waited patiently for the frank treatment of the main question which never came. The chilling reception of his colloquialisms was only accentuated by the mechanical cheers of the Irish members.

It is understood Mr. Parrell is determined to press his amendment to the reply to the speech from the throne, arranging the executive of Ireland for their administration of the crime act.

The Daily News says the suspicious against the Land League and some of its officials will be increased by the speech of Mr. Parrell yesterday and today.

General Macdonald's Proves a Clear Alibi. LONDON, Feb. 24.—Macdonald's telegraphed to Trevelyan: "I am willing to submit to the most rigorous scrutiny of my actions."

PARIS, Feb. 24.—Mr. Kelly, representative of the Condit brothers, the lawyers of Gen. Macdonald, says that the attempt to identify Gen. Macdonald as the person described by Carey on the Irish trials under the sobriquet of "No. 1," is emphatically refuted by proofs showing that throughout the entire period, which Carey alleges himself to have had interviews with, Gen. Macdonald was at Grasse, near Cannes. He did not leave Grasse until May 11, at which period he journeyed by easy stages through Italy to Gastein, where he took the waters until the end of June.

PARIS, Feb. 25.—It is denied at the British embassy that the rumor that Gen. Macdonald was No. 1 emanated from Dublin castle.

Frank Byrne says he had no political relations with Carey, this informant, since 1869.

A PRESENT FOR EARL SPENCER. A Packet of Dynamite for His Lordship—An Imputed Suspect Led to Parliament.

DUBLIN, Feb. 24.—Harrington, secretary to the organization committee of the land league, now in jail for using intimidating language, has been elected for Westminster without opposition by the House of Commons to succeed Gill.

SKIBBEREEN, Ireland, Feb. 24.—A parcel addressed to Earl Spencer and containing several ounces of dynamite, with a fuse attached, was deposited in the letter box at Ballydoonagh on Thursday.

LONDON, Feb. 24.—The police renewed their precautions for Mr. Gladstone's safety yesterday. Several additional suspected persons arrived here last week. Important information regarding their movements has been received.

DUBLIN, Feb. 25.—Further private inquiry at the castle has been opened into the murder conspiracy.

THE KILMANNHAM TREATY. The Marquis of Hartington Declines to Give Sir Stafford Northcote a Bay.

LONDON, Feb. 25.—The marquis of Hartington will decline to give Sir Stafford Northcote a day for the discussion of his motion asking for the appointment of a committee to enquire into the release of Parrell, Dillon and O'Kelly from Kilmannham jail, on the ground that the subject has already been discussed.

It is understood the French authorities have declined to assist the English police who went to France to track persons implicated in the Phoenix park murders. Police guard the house of Mr. Foster since his attack on Parrell was made.

Socialism in Spain. MADRID, Feb. 25.—The municipal publishes a detailed account of the discovery in Andalusia of societies whose aim it is to destroy the rights of property and exterminate the bourgeoisie and land owners. The societies are said to number a thousand members, including persons of high social standing. The government has resolved to take energetic measures for their suppression.

The Andalusian societies were organized by an internationalist. A member of the Jerez branch declined the task of murdering and its master first revealed the plot. The arrests at Jerez, Cadix, and Seville exceeded 500. Seven informers in different towns exposed the existence of a completely organized society with funds, foreign correspondents, and secret tribunals.

Germany and the Vatican. BERLIN, Feb. 24.—The statement of the papal secretary of state that the bishops had been authorized to notify the government of clerical appointments as soon as the Reichstag and Landtag assented to measures ensuring the free exercise of ecclesiastical jurisdiction, and to free instruction by the clergy, is regarded as putting an end to the outburst of indignation which Cardinal Jasin's letter has greatly annoyed the German party and also the ultra-nationalists who say the fear of the ultramontane papers that Von Bennigsen is to enter the ministry, is ungrounded.

conspirators at work in Belgium. BRUSSELS, Feb. 25.—The police have seized numerous documents said to contain the names of several persons who are believed to be conspirators. Other telegrams have been sent to Vienna, Paris, Berlin and St. Petersburg. Several arrests are expected here.

THE OTTAWA BEACH SHOW.

An interview with the governor-general. OTTAWA, Feb. 24.—This morning the following gentlemen connected with the domain of Canada Kennel club waited on his excellency the governor-general in reference to the beach show to take place the latter end of March next: Hon. Edgar Dewdney, Hon. Mr. Carson, minister of militia, Mr. Keith, Halifax, N. S., Dr. A. O. P. Coleman, Mr. O'Mara, and Mr. B. G. H. Vioar, secretary of the club. His excellency received the deputations cordially and readily assented to their request to become patron of the show, to formally open it and give a special prize. He takes great interest in the working of the club and its objects, and has requested Mr. Dewdney to send down from the Northwest a team of about eight dogs and the toboggans used for them. He also telegraphed the governor of Newfoundland to send a pair of diving dogs which live as deep as forty feet and live altogether by fishing in this way.

A shipment of several cases of the finest goods made by Greener & Sons, the celebrated gun manufacturers of England, is now on the way and will form part of the special prizes for the show. Greener & Sons have donated twelve copies of Greener's work on the gun as special prizes for the show.

Both the Grand Trunk and the Canada Pacific railways have decided to give tickets from the 22nd to the 26th of March for one and a third fare, from all points on their respective railways.

GRAND TRUNK COAL.

Over a Billion Dollars for Fuel—Two Canadian Concerns Get Part of It.

MONTREAL, Feb. 24.—There has been a large number of coal producers and contractors here during the past week tendering for the supply of coal to the Grand Trunk for one year. The amount required for the Pennsylvania route is 375,000 tons of soft coal deliverable at Brockville and stations west of that point. The tender was distributed among the following concerns: Bell, Lewis & Yates; Buffalo; Northwestern Mining Exchange; the Pennsylvania; Brady's Bend; the Starling of Belleville, Ont.; and P. D. Conroy. The tender was given to each in a closed envelope and the award was not made until the 23rd.

The Grand Trunk besides the 375,000 tons mentioned above, has also contracted for 1,000,000 tons of Nova Scotia coal. The duty on the American coal will yield to the government \$225,000 and will be paid by the railway, and set by the coal producer.

FATALE BURNED.

A Woman Housed while under the influence of alcohol.

OTTAWA, Feb. 24.—A few minutes after 12 o'clock Mr. W. H. Davis, lively stable keeper on Waller street, entered the house in rear of the stable, which is occupied by an employee named Thomas Tozer and was horrified to see Mr. Tozer in flames beside the stove. He rushed forward and tore her clothes, which were all on fire, off her back, and called for help. Those present say that the blood, as it oozed out fairly burnt as alcohol would have done, such was the influence of the drink on her system. Dr. McDougall attended her immediately and found her entire body and head roasted flesh, but hardly a patch of skin to be seen. He had every possible thing done for her, but does not expect her to live. Mrs. Tozer is almost forty-five years old and is very much addicted to drink.

PUBLIC BUILDINGS IN MONTREAL.

Interviews With the Minister of Public Works.

OTTAWA, Feb. 25.—Mr. A. W. Bow, M. P. for Lingar, and Mr. J. E. Wood, M. P. for Brandon, Manitoba, had an interview yesterday with Sir Hector Langevin, minister of public works, in relation to the establishment of a general court house, inland revenue office, and post-office at Brandon. Sir Hector promised to consider the matter.

Mr. Bow has urged upon the government the great necessity existing for increased accommodations for the penitentiary at Stony Mountain, Manitoba, near Winnipeg. At present all the convicts of Manitoba and the Northwest are confined in this penitentiary, as well as persons who are insane.

THE FASHION PLAT.

Arrest of the Manager During a Rehearsal.

NEW YORK, Feb. 24.—A large number of invited people assembled to-night to witness a dress rehearsal of the Fashion Plate. A strong force of police was present. Soon after the curtain rung up and while the performers were singing a sacred song the police arrested Salini Moore, manager of the performance. The performance was stopped. Cries of "shame" came from the audience. Moore was taken on a charge of violating the theatrical act.

Overview of the Mississippi. VICTOR, Feb. 25.—The water on the Victoria, Shreveport and Pacific railway is six inches over the track between Delhi and Tallahas. It is believed trains will be discontinued to-morrow. The Illinois crevasse is now a mile long. A large number of plantations are overflowed and the water will cover half of the open lands on the west side of Madison parish. Ashton crevasse above Providence is doing serious damage to the plantations in East Carroll. Much apprehension is felt for the safety of the levees on both sides of the river. A bridge across Bayou Pierre on the Jackson and Natchez railroad has been washed away.

Another Leprosy. PHILADELPHIA, Feb. 25.—A patient, who was sent to Dr. Gross's city, for treatment two weeks for skin disease, and was treated for some days at the hospital, was found to be a victim of leprosy, in a most violent form. The victim, whose name has not been divulged, is a wealthy citizen of Hopedale. He left two days ago, after being pronounced incurable.

Doubtful Murder at a Dance. RICHMOND, Va., Feb. 24.—At a party in Pennsylvania county last night the host, Joe McGehee, an elderly man, insisted on dancing with all the young girls. This excited the jealousy of the young man. A row broke out and McGehee was killed. Another man, who was also present, was also killed.

PERSONAL.

Gen. Porfirio Diaz left Mexico on Saturday. Mr. B. H. the Duchess of Albany has been safely delivered of a daughter at Windsor Castle.

Mr. Depard, manager of the branch in London, Oct., of the Bank of Montreal, has tendered his resignation, which is under consideration.

Fanny Driscoll, the poetess, who was recently married to H. T. White, a Chicago journalist, died on Friday, and her obituary notice is very popular. Mr. White, her husband, is the author of the humorous sketches portraying some incidents of George W. Simpson, Fralingsby, and said: "It is a legitimate right of defence, which it is impossible to define the exact limits, but I advise the Bonapartists not to go too far to test our indignation." M. Jolibois denied that the republic emanated from the pen of M. Ferry. He said that the republic was the result of the revolution of 1848. PARIS, Feb. 24.—In the chamber of deputies to-day M. Jolibois, Bonapartist, moved his interpellation touching the statement of M. Ferry. The right of initiative was above the law. M. Ferry said: "It is a legitimate right of defence, which it is impossible to define the exact limits, but I advise the Bonapartists not to go too far to test our indignation." M. Jolibois denied that the republic emanated from the pen of M. Ferry. He said that the republic was the result of the revolution of 1848.
