# Montreal Stock Market.

ON WAR NEWS AND PROPOSAL TO PURCHASE BONDS THE MARKET WAS STRONG — WAR EAGLE THE FEATURE, THOUGH ALL WERE NOTICEABLY FIRM — CONSOLS UP 7-16.

## Montreal, Nov. 16.

Valuations will spring up on first favorable news. Our market this forenoon was stronger on the news of Joubert's death, and of brighter African prospects, and even London felt the good of Secretary Gage's proposals. It is not easy getting money even on the advanced rates, but on the prospect of plentiful loan money with easier rates, the market of course will rise. There is nothing new, nor in fact is there anything else in the situation but a lack of funds to trade with. This was the summary of this forenoon's market as given by one of its most prominent members. Another said that very little stock had been snaken out by efforts of some to lower the valuation of stocks. In fact, people are holding on in the expectation that general prosperity will tell immediately.

Canadian Pacific cabled 98 sold this forenoon under parity, though advancing \( \frac{1}{4} \) on its closing price yesterday. The stronger London market reflected the relief offered by Secretary Gage's proposal to buy \$25.000.

Canadian Pacific cabled 98 sold this forenoon under parity, though advancing 4 on
its closing price yesterday. The stronger
London market reflected the relief offered by
Secretary Gage's proposal to buy \$25,000,
000 of 5 p.c. and 4 p.c. government bonds
at their last night's quoted prices. Whether
the relief will be taken advantage of by
bondholders selling their holdings to the
government is uncertain, as with casy money thus produced stock prices will rise and
the ex-bondholders will find a difficulty in
investing again as favorably as in the bond
stock they sold. The scheme, however, has
had a good effect sentimentally on the market generally and indirectly on the local
market. Owing to the same cause Commercial Cable climbed 2 points above yesterday's mark. Royal Electric on a small
transaction gained 1 point advance and is
ready for further gains. The company, Mr.
Forget said today, is doing very good business, although there is nothing particularly

new this week. Toronto Ry. recovered 1½ points, showing that nothing but market conditions are hindering the buying demand from pressing up still further. War Eagle on ten transactions, including 10,000 shares, ran up its valuation 13½ points to 283½. Probably Mr. George Gooderham's statement publicly issued in the press that holders need not be alarmed and that net profit for month of November was \$28,000 had something to do with today's recovery. Montreal London and Republic on considerable business recovered the one 4 and the other 2 points. Mining stock has thus advanced promptly on the signs of an easier financial condition. With Montreal Street Ry. making an advance of 1½ and with Richelieu and Ontario, Montreal Cotton, Merchants' Bank, Bell Telephone, and Western Loan and Trust on nearly the same levels, the essentially bull market has acted like itself and elevated

#### STRIKE IN RATHMULLEN.

In the main shaft of the Rathmullen, in Summit camp, at a depth of 177 feet, the ledge has been again encountered. While the management did not expect to strike the ledge until the 200-foot level was reached the probability of doing so earlier was very well understood. It will take a few days yet to do sufficient development work before the extent of the present discovery is ascertained, but the fact that the ledge has come in again at the depth mentioned has been demonstrated beyond all doubt.

#### THE GRANBY SMELTER.

A despatch from Columbia, B. C., says 150 men are at work on the Granby smelter, and excellent progress is being made. The sampler frame is almost built and the brickwork of the flues, dust chamber and stack is well on towards completion. The spur track by which the ores will be carried to the smelter, leaves the main line of the C.P.R. from Robson, a little to the west of Columbia, and crosses the north fork of the Kettle river at a point near the dam. The ore cars will dump their contents 20 feet above the sampler bins, which are the highest points in the smelter.

#### THE CALIFORNIA.

The following information is at hand from the California property, Rossland:— The mine is looking very well. The whole face of the tunnel is mineralized, carrying gold and copper values and looking as if a good ore body might be broken into at any time. The new residence for the manager, Mr. J. W. Spalding, has been completed, while work on the different sheds and the addition to the offices is fairly under way. All the material is on the ground for the shaft house, while the foundation bolts for the compressor have been delivered, as well as the rock for all the foundations. The work of construction has been given to Mr. Charles Mills, who carried out similar work for the War Eagle last winter.

## MONTREAL MINING EXCHANGE

MARKET ACTIVE AND BROADER — DEER TRAIL AND CANADIAN GOLD FIELDS TO THE FRONT — WAR EAGLE BOOMS.

Montreal, Nov. 16.
The market was active and broad this forenoon, embracing other specialties than those which have been so prominently of

those which have been so prominently of late before the public.

The continued large production of ore throughout the mining districts as a whole, and the remarkable favorable developments in many properties in particular is the primary reason for anticipating the probabilities of a renewal of market activity and of higher prices in the near future.

We have had samples of this during the last day or two and again this morning signs were not lacking of a renewal of interest in speculation and of enhancement in values.

values.

Among the issues which were actively traded in was Deer Trail No. 2 which sold repeatedly at 20½ and 20, closing at the latter figure, but being in good demand at this recession; in all 7000 shares were sold, and Canadian Gold Fields which remained

firm at 10.

Big Three was unchanged at 11, or thousand shares selling at that price ap. 00 at

There was a boom of consideral is proportion in War Eagle, it had a sharp recovery and was offered at 286, no sales, however,

taking place.
Montreal-London, on receipts of good news from the mine had a buoyant appearance, 48½ was freely bid, in broken lots sales were made at 48.

Payne was active at 111½, 3000 shares changing hands.

Slocan Sovereign also enjoyed its share of trading and sold repeatedly at 35½ and 35.

Good news is looked for from the California a strike into some view ore may now

fornia, a strike into some rich ore may now be experied at any moment, the whole face of the tunnel is mineralized carrying gold and copper values.

Mr. Bartlett, of Bartlett & Smith, received this morning from the Horneblend mine news of a most satisfactory nature; work is progressing in a most satisfactory manner and the immediate future prospects are most encouraging.

# NEW YORK EXCHANGE.

ADVANCES FROM & TO 2 P.C. AS THE EFFECT OF MR. GAGE'S CIRCULAR -SO, PAC, AGAIN LED - UN. PAC. WAS ALSO STRONG - REALIZING WAS HEAVY BY LARGE BUYERS OF THE LAST FEW DAYS.

#### New York, Nov. 16.

Rank rate unchanged. Markets abroad active and higher being favorably influenced by Secretary Gage's action, the particulars of which are given later on, and also by a rumor that Gen. Joubert, in command of Boers outside Ladysmith, had been killed.

Secretary of treasury offers to buy \$25,000,000 of the 5 p.c. bonds of 1904 and the 4 p.c. bonds of 1907 at 112, 112.75, net for the former and 111 for the latter, these being last night's quotations.

the former and 111 for the latter, these being last night's quotations.

Of the fives, there are outstanding one hundred million and of the fours \$559,653, 100. Of these bonds \$181,000,000 held to secure circulation and public deposits, consequently there are in the hands of investors of all sorts, some \$480,000,000.

It is a question, of course, whether the holders will evail themselves of the offer. It might be argued that the \$25,000,000 so released would have an immediate effect in bringing about easier money, and easier money would, of course, mean an enhancement in the price of all investments, and that consequently those who sold the bonds would have difficulty in making investments which would be as satisfactory as their gov-

would have difficulty in making investments which would be as satisfactory as their government bond holdings.

It should be remembered that when the decision of the treasury to anticipate the interest on bonds up to June 30th was announced, Wall Street estimated that the relief afforded to the money market would be anywhere from 15 to 30 millions. The actual relief afforded was practically nil In very few cases was the offer of the secretary taken advantage of. However, whether the \$25,000,000 are offered to the secretary or not, there is no doubt that for the time being the mere fact that the decision has been arrived at, will have a favorable effect on prices.

The stocks about which the Street feels

enect on prices.

The stocks about which the Street feels especially bullish are So. Pac., Atch. pfd, and common, Un. Pac., com. and pfd., of which there has been a steady absorption for some weeks, and Nor. Pac. There may be some sentimental advance in Industrials, but for the time being, these securities are not in first class favor.

## New York (noon), Nov. 16.

The conditions favored the bulls this fore-noon. London was a fairly heavy buyer. Mr. Gage's circular having had a good ef-fect abroad, and there being confident ex-pertations that good news would soon come from the Transvaal.

In our market there was heavy buying at opening, advances ranging from ½ to 2 p.c. So. Pac. was again the leader of the market in respect of activity, the buying being about evenly divided between London. local commission houses and traders Considerable realizing took place.

All over the market during the first half hour causing a temporary reaction, but the

All over the market during the first half hour causing a temporary reaction, but the circulation of a rumor that Messrs Havey, Fisk & Co., intended to take advantage of the government's offer to the extent of \$10,009,000 of the bonds, caused another rally. This story lacks confirmation and is not generally believed, in fact, there is a large party on the exchange which doubts whether anything like 25,000,000 will be offered

to the government. It is remembered that extravagant estimates were made of the re-lief which would be afforded to the situation by the anticipation of interest on government bonds to June 30th. It turned out that the amount of anticipation amounted to so little as to have absolutely no effect on the money market.

One of the strong stocks on the list was Un. Pac. common. Close observers of this stock are convinced that there has been heavy absorption of it for some time by people closely connected with insiders. It is not improbable that 2 p.c. will be shown to have been strengt on convenient and the to have been carned on con mon at end of fiscal year.

Money opened easy and so far all loans have been made at 6 p.c.

It appears that three was a mistake made in the circular published by Mr. Gage. The price for the fours will be 112.75 and according interest to date and

crued interest to date and 111 and accrued interest to date for the fives.

On the whole the undertone of the market is fairly good, but there has undoubtedly been heavy realizing by the larger interests who have been buyers during the last week or two or two.

#### CARIBOO SHIPMENT OF BULLION.

Ashcroft, B. C., Nov. 15.—A large shipment of bullion arrived down from Cariboo mine last night in care of Wm. Parker and several guards. The amount sent down is not made public as yet. It is stated that the mine is working and another shipment of gold will be made before the season closes. The outlook for this property for future is remarkably good, and the output future is remarkably good, and the output for next season will be very much larger than heretofore.

#### ISABELLA.

Guard as the management may the news the strike and developments on the Isabella group from reaching the public it is reported by reliable parties that another strike has been made on that property. This time the find is placed on the eighth level at a point close to the Buena Vista shaft. A crosscut is said to have opened up a new vein of possibly the lost Buena Vista ore shoot. The vein is reported to be six feet in width with two feet of extremely rich ore. It is also said that this ore body has been undergoing developments for the week or ten days.

The continuation of the rich ore shoot first encountered in the ninth level of the Isabella Company's Lee property has been open-

ed up in the tenth level of the mine. This information comes from what be considered semi-official sources and ma v be regarded as an absolute fact and auther tic. The Gazette has not heeded any of the wild rumors that have been in circulation lately concerning the Isabella company's affairs and has disregarded entirely all the sensational stories about it. It has waited until facts were obtainable and presents them now with every confidence in the statements made.

Pay ore has been shipped from the tenth level of the Lee workings for about two months past and the values of the ore have months past and the values of the ore have been gradually increasing as the location of the rich part of the ore shoot was approach-ea. On the whole, however, it is found that the rich part of the shoot on the tenth level is neither quite so large nor so rich as on the ninth, so there is hardly any need for any repetition of the wild excitement which followed the discovery of the ore shoot in the early part of the present year. But for all that the extension of the rich ore body has been discovered, even though it is not quite so large or rich as 100 feet above, and the existence of the ore body downwards from the ninth level has been proved.

The statements that have been made, that a winze has been sunk in the rich ore body from the muth level down toward the tenth have been discouraged in semi-official circles and the belief has gained ground that the statements were untrue and that no winze was either sunk or started. The Gazette believes that this winze sensation was a canard and further that the ore shoot remains practically intact from the point where it was encountered in the tenth level where it was encountered in the tenth level up to the floor of the ninth. Probably there is a whole lot of ore and values in sight between these two levels, but taking warning from the experience of about eight or nine months ago, it would be unwise to hazard a guess or an estimate on the amount of value in sight. Ten, twenty, thirty, or fort feet saw great changes in values in the ore shoot above the ninth level, and probably there will be great chan ges again as the stope is driven upwards from the tenth level toward the ninth. Just what is going to be accomplished during the

what is going to be accomplished during the next few months only the future and the annual report will tell, but the prospects certamly seem bright. As to another dividend this year, it is hard to tell just now. It may come and it may not, but everything depends on the value of the ore production between now and the middle of December. The Gazette believes that it is right in saying that there is not much of an ore showing in the mine, at the present time, outside of the tenth level, but, at the same time, if this tenth level, but, at the same time, if this tenth level, but, at the same time, if this tenth level. vel, but, at the same time, if this tenth level stope turns out well another dividend will surely be credited to Isabella's 1899 to-

In the meanwhile the main shaft is going down and an immense amount of develop-ment work is being done in the mine at much lower cost than ever before.

#### THE PORTLAND DIVIDEND.

The directors of the Portland Gold Mining Company held their regular monthly meeting in the company's offices in the Bank building yesterday afternoon and the Gazette this morning has to announce the declaration of the regular monthly dividend of two cents a share.

As regular as clock work the dividends of this company are declared, and each month the president signs the checks, distributing \$60,000 to the stockholders. The dividend declared yesterday is No. 58 and brings the up to \$2,497,080 It is payable on the 15th of the month The Portland company is today it, as fine condition as ever. The big nine is producing a tremendous tomage and from the monthly profits the company is able to pay out the \$60,000 every month to the stockholders and lay aside a handsome mercase for the treasury fund besides.

#### SPECIAL FROM VANCOUVER

Vancouver, B. C., Nov. 15.—Major Collins, of the British America Corporation, who is on his way from London, is expected this week. Mr. W. A. Carlyle, the chtef engineer, will leave at once for the East, on his way to the Rio Tintos mines in Spain, of which he will assume charge. He will probably get away November 20. It is not yet made proble who will succeed him. Work has been closed down for the season on very many of the Cariboo mines, and the season of 1899 has been on the whole a sucseason of 1899 has been on the whole a suc-

cessful one.

Many properties worked on a small scale have repaid the outlay, and with the beginning of next season, work in a larger way will be begun on many properties that so far only prespecting work has been done

# CHICAGO MARKET.

# GOOD OFFERINGS OF DECEMBER ON THE ADVANCE — RALLIES MAY BE EXPECTED.

Chicago, Nov. 16.

Since the beginning of the month wheat has fallen off at Liverpool 3d and was quoted this morning 5-8½, 5-9½, 5-9½, which is ½ over yesterday's close. Demand chiefly from short sellers. New York openings were December 73½, that is ½ above closing asked price, March 75½, which is ½ lower, May 76½, which is ½ lower, May 76½, which is ½ higher.

At Chicago openings were from ½ to ½ above the closing of yesterday and succeeding sales were of the kind that are profitable only to those selling short.

Corn opened on yesterday's closing level and what small business there was had an upward tendency.

upward tendency.

Oats were unchanged.

Provisions moving within very narrow limits opened today at the yesterday closing

There was plenty of December offering at the adv ace in the earlier sales, first then 4. Nese offerings were from commission houses peincipally. There is said to be a hig scattered long interest in this option yet, which will have to be liquidated or changed to May with its carrying charge of 4 cents now which will widen to 5, it is said.

Receipts of hogs to-day, 35, 000, slow. cattle 7,500, steady; sheep, 12,000, steady; Last week receipts 993,541, shipments 398,570.

Last year receipts 1,601,423, shipments, 1,323,998.

Four ports receipts 630,762, shipments, 721,236

The smaller primary receipts will ere long have their effect in hardening prices as far as the farmers want yet this prospect has less immediate influence than the seven

millions increase in the visible

Traders continue to look for liquidation in the December delivery, but again and again when the market has appeared on the sharply to the discomfiture of the bears. On any little bull news there might be a rally of several cents a bushel.
