DOOM OF MANCHU DYNASTY ONLY A QUESTION OF DAYS

Northern Provinces Declaring for Republic—Capital Will Be Surrounded Before Many Days—Revolutionaries Hold Railways—Preparing for Flight of the Court.

PEKIN, Nov. 7.—The legations consider that the end of the Manchu dynasty is imminent. There seems no hope of saving even a nominal throne. The provinces north of Yangtze are now declaring for a republic. The only force of Manchu troops large enough to cope with the local situation are in Pekin, but there are indications to-night that the capital will be surrounded before many days by Chinese soldiers.

When the court will take refuge is a question. There are evidences that the court intended to proceed to Chang-kai (Kalgan). Troops guarding the route to that town, which lies in the Province of Chihli, 125 miles northwest of Pekin, were expected to dynamite the tunnel after the passage of the train bearing the emperor and his household.

Reports have now been received that Chang-kai is unsafe. The national assembly is holding meetings without a quorum, but certain members are endeavoring to maintain a nucleus. Na-Tung, vice-president of the privy council, has taken rooms for his family in a hotel in the legation quarter. Prince Ching's palace seems to be deserted. It is believed that he is in the Forbidden City.

Foreigners Safe. A concerted attack upon the foreigners is not feared, but there are many within the city who are opposed to foreigners. Gen. Chang Shao-Tsun, who was appointed by imperial edict as envoy to proceed to the Yangtze provinces to pacify the people, has declined the appointment, saying that he preferred to remain with his own troops at Lan-chau. The third Changchung division, which halted at Lan-chau for one day, is being sent to Fengtai, near Pekin. A trainload of arms and ammunition from Lan-chau has already been delivered at that point. It is believed that the third division is acting under Gen. Chang's orders.

The government proposed to-day to cut the Pekin-Tientsin Railway beyond Fengtai, to prevent additional troops from arriving. It is understood that the British minister, Sir John Jordan, protested, on the ground that Great Britain was entitled to operate the railway in the event of the suspension of service, in accordance with an old agreement. Consequently the line is still open.

Railway Connections Threatened. The Chinese report that the Kalgan Railway is in the hands of the revolutionaries, while a rebel force is proceeding apparently in the direction of Pekin, at a point on the railway about 70 miles from the capital. All the railway connections with the capital are threatened.

It is expected that the assassination of Gen. Wu Lu Cheng will lead to the revolt of the remainder of his old Sixth Division, which is now with Yuan Shi Kai. The government reports, however, that two trainloads of imperial soldiers are now on their way to Hankow, and these may be sufficient to prevent a mutiny.

A hundred carts led Pekin to-night for Jehol, and two hundred mounted Manchus proceeded in the same direction early in the day. The Chinese believe that this advance party is preparing the way for the flight of the court, but many Manchus are fleeing and troops are constantly moving in the vicinity of Pekin. The Manchu troops here number 11,000, Imperial Guards 7500, police 4000, and banner police about 5000.

The city is quiet to-night, and there is no sign of any intended movement. Chefoo, in Shantung Province, has gone over to the revolutionaries. Prior to this, one of the leaders, Wang Shao Nien, a distinguished educationalist, informed the consul that everything was ready for a peaceful assumption of authority by the Chinese, and that there would be no slaughter of the Manchus unless they resisted.

British Regiment Needed. LONDON, Nov. 7.—The Pekin correspondent of The Daily Telegraph says: "The situation here to-night is the most serious since the outbreak of the revolution. It is believed that a British regiment should be brought from Tientsin to Pekin. Prince Tsai-Tao, ex-minister of war, and a brother of the prince regent, is attempting to persuade the empress dowager to depose the regent."

The Chinese foreign board is authorized for stating that a scheme for the neutralization of Shanghai is under consideration, similar to that established at the time of the Taiping rebellion. A despatch to The Telegraph from Shanghai says that the Province of Yunnan has declared its independence and that the viceroy has disappeared.

New China's Aims

"If the revolutionists succeed the question of whether the future government will be a republic or a constitutional monarchy will have to be decided. In any case, New China will seek the friendship of foreigners and probably a revision of her treaties will ensue. Anyhow, China will be opened to foreign trade and the government and people alike will do their utmost to stimulate business with the outside world and develop the natural resources of the country. Foreign advisers will also be needed, of administrative capacity."—Dr. Wu Ling Fang, minister of foreign affairs in the provisional government.

BRAVE RESCUE IN DARK FROM BAY'S COLD WATERS

James McFarlane Saved Jewish Pedlar in Nick of Time After Hard Struggle.

As James McFarlane, 57 Poulter-street, strolled along the shore of the bay at the foot of Bay-street in the gathering night, at 7:15 last evening, he heard a number of well pronounced sobs. He leaned far over the railing between the Inland Navigation and Ferry Co.'s docks and observed a man struggling about 20 feet from the shore. Not stopping to think of the filth or the chilly temperature of the water, he plunged in and struck out for the drowning man. When he reached him he strove manfully to pull him to shore, but was hindered by him whom he had set out to save. After a long struggle he succeeded in bringing him to shore, where he was found to be in a serious condition and was hurried to the Court-street station by Policeman Black (134), where he was employed of the water which he had inhaled and swallowed.

He was Lazarus Lashkoffsky, aged 50 years, of 24 Walton-street, a Jewish pedlar, whose wife runs a little store at that address. He said that he had fallen in the water. His wife was notified and brought him a suit of dry clothing, in which he went home.

PRICKED THUMB FATAL

Albert Price, Building Contractor, Victim of Blood Poisoning.

Albert Price, 25 Hanneford-street, building contractor, died yesterday from blood poisoning. Two weeks ago he pricked his thumb and after working for a few days was obliged to remain at home and on Monday he was removed to St. Michael's Hospital, where he died yesterday morning.

STRUCK BY MOTOR CAR

Edward Beers Backed in Front of Machine—Two Ribs Broken.

Edward Beers, 870 Parliament-st., in the General Hospital as the result of backing into a motor car owned and driven by Dr. James McCormack, 113 Spadina-ave., in Carlton, near Parliament-st., at 10:30 last night.

As the doctor approached, he saw the man in the roadway, and believing that he intended to board a car, was running slowly past when the man began to back to the curb. He struck the motor car in the middle, and before the rear wheel, which ran onto, but not over him. The doctor took the injured man to the hospital, where it was found that two ribs were fractured.

Dr. McCormack's car was struck by another, owned by Mrs. A. Evey, 145 Bolton-ave., Sunday afternoon as it stood in front of his house.

T. AND N. O. EXTENSION

Government Railway is Still Nosing Further into New Ontario.

J. L. Englehart, chairman of the T. & N. O. Railway Commission, expects to extend the government railway to Collingwood by Dec. 1. A few days ago a slide caused by a passing in the vicinity of Pearl Lake carried the track into the water, but the hold-up in construction is only temporary.

NEW YORK GOES REPUBLICAN

Will Have Majority of 50 in Assembly, a Net Gain of 37—Socialist Mayor in Schenectady—Governor Foss Still Holds Fort in Massachusetts.

NEW YORK, Nov. 7.—Returns received up to midnight from throughout the state on the assembly election indicate that the complexion of that body will be as follows: Republicans, 100; Democrats, 49; Socialist, 1. This would mean a net gain of 37 seats for the Republicans and give them a majority of 50.

Tammany Hall's hold on New York City was shaken to-day in a battle of the ballots in which local offices were mainly at stake. The Democrats successfully defeated their ancient strongholds of Manhattan and the Bronx, but by greatly reduced pluralities. Queen's County also stood by the Democrats, but the Republican fusion candidates made nearly a clean sweep of Brooklyn and probably divided honors in the borough of Richmond.

A year ago Manhattan and Bronx gave Gov. Dix a plurality of 68,000 and elected a Democratic supreme court justice by about 22,000. To-day Robert L. Fowler, the Democratic candidate for surrogate, carried New York County with a maximum plurality of about 17,000.

The Democrats elected their candidate for sheriff by about 8000, and the three Democratic candidates for supreme court justices in the first judicial district pulled thru by a bare 5700. Francis M. Scott, the fourth justice elected, was endorsed by both parties.

The Republicans gained eight assemblies in New York County, and will send 15 members of that body out of the total delegation of 33. Rochester Goes Republican. ROCHESTER, N. Y., Nov. 7.—Hiram H. Edgerton (Republican) was elected mayor of Rochester to-day for the third time, by about 6500 plurality. He carried with him the entire city ticket. The Republicans have 19 of 22 seats in the common council. Munroe County also went Republican and will send a solid delegation to the assembly.

Republicans Sweep Buffalo. BUFFALO, N. Y., Nov. 7.—The Republicans made practically a clean sweep in Buffalo and Erie County to-day. The principal candidates on the city ticket were elected by pluralities ranging from 3000 to 10,000. In the upper house all five Republican candidates were elected, and in the board of aldermen the result is: Republicans 13, Democrats 9, a Republican gain of 5.

Socialist Mayor in Schenectady. SCHENECTADY, Nov. 7.—For the first time in the history of this county the Socialists have polled a counting vote, electing mayor, all but one city office and a majority of the county offices, which will make the common council and probably the county board of supervisors Socialist. Rev. Dr. George R. Lunn, pastor of the United People's Church and editor of The Citizen, a Socialist weekly, was elected mayor by a plurality of 1890, or practically two-thirds of the total vote polled. The Republicans elected a city judge by a plurality of less than fifty votes, but this was the result of no Socialist candidate being nominated. Herbert M. Merrill, Socialist, will represent this county in the assembly.

Governor Foss Safe. BOSTON, Nov. 7.—On the face of the returns from 84 out of 107 election districts, the Democrats won the state election to-day and kept Massachusetts in the party column by continuing Gov. Eugene N. Foss in office for a second term. The returns gave Foss (Dem.), 210,622; Frothingham (Rep.), 202,588. Last year the same districts gave Foss 201,234; Draper (Rep.), 167,497.

The margin of victory to-day was the narrowest in years, and for many hours after the close of the polls the result hung in the balance. Republicans refused to concede the defeat of Lieutenant-Governor Louis A. Frothingham as late as midnight, and at that time it was believed that a state-wide recount might be necessary.

In the campaign speeches Republican orators urged Frothingham's election on the ground that the national administration should be supported in its tariff policy, and that a Democratic victory would mean a blow to the textile industry of the state.

The early returns were decidedly in favor of the Republicans, and the party leaders and many of the newspapers declared for several hours that Lieutenant-Governor Louis A. Frothingham had won over Governor Eugene N. Foss, the Democratic candidate for a second term, by a plurality estimated variously from 10,000 to 15,000.

LIBERAL PLATFORM SHY ON REAL TIMBER

W. K. McNaught and G. H. Gooderham Ridicule Its Pretensions—All Out For Renomination.

"Mr. Rowell's manifesto hardly came up to expectations," declared W. K. McNaught last night at the annual meeting of Ward 6 Liberal-Conservative Association in Euclid Hall. "It is not a platform on which the Liberal party will get in, and if they go in, it is not a platform on which they could stand—there is not room enough."

"The Conservative party is the party of progress. Sir James Whitney has done more in six years of office than the Liberals did in 25 years. Mr. Rowell's reference to Northern Ontario is simply the echo of Sir James Whitney's manifesto. The government has already done much for New Ontario and will do more."

"I was rather amazed at Mr. Rowell's dissertation on public ownership, for his is a party that has never done anything towards attaining public ownership. The Whitney government has set a pace in public ownership which the Liberal party can never keep up with."

"The Liberal party have done all they could to hinder the hydro-electric program by damming it with their pretenses." Mr. McNaught announced his intention to again seek nomination as a candidate in North Toronto.

"I am surprised," declared George H. Gooderham, "to see the new leader of the Liberal party come out with development of Northern Ontario as a plank in his platform, when I doubt if he has ever seen the country."

Commission to People North. He suggested that a commission similar to the hydro commission be appointed, and a large sum, ten million dollars perhaps, be placed in their hands to secure farmers' sons to go north, building their houses and lending them money enough to work the land.

He also seeks renomination. "I intend to seek renomination in West Toronto from you in a few days," declared W. D. McPherson. "You'll get it by acclamation," cried a voice from the back of the hall. Hon. Thomas Crawford also announced his intention of again seeking election.

The officers elected for the ensuing year were: Dr. Alex. McKay, president; Wm. H. Harper, James Paul, A. H. Laver, vice-presidents; Robert H. Dunlop, secretary; Peter Wintock, treasurer; William Kerr and William H. Hickson, auditors.

WHAT ABOUT THE CONSUMER?

The World frankly admits that the consumer, the ordinary citizen, is a man of many grievances. The consumer who is a resident of Toronto has a grievance against the street railway for the way it handles him—and the tubes are in a measure the cure proposed.

He has a grievance in what he has to pay for the things he consumes, whether it be for his table, for the furnishings of his house, or the things that he wears.

But most of all his grievance is in the cost of living. To take a single instance: milk is 9 to 10 cents a quart. In other words, milk has doubled in price in a few years. The consumer's wages have not by any means doubled in that time; and the consumer is denied all sorts of articles because of the high price which either combines or the Patent Law allows.

What do our public authorities propose to do to secure better treatment for the consumer? We frankly confess that we do not see that the man who raises or manufactures or produces the things that the consumer requires gets anything too much for his product; but by the time it gets to the consumer it has doubled in price or more. Why?

Why should the man who handles take 50 per cent. of the price paid by the consumer for the article to himself, or why should he double the bill between producer and consumer? Toronto is full of consumers, and Ontario is full of consumers, and the World is on the newspaper platform to advocate a fair deal for the consumer.

It is up to the government of Canada. It is up to the government of Ontario, it is up to the government of the City of Toronto to give the consumer a square deal and to stand between him and extortion. To our mind not one of these authorities is doing its duty.

Perhaps Mr. Rowell, the leader of the opposition, will have something to say in this respect. Now is Mr. Rowell's chance. What will he do for the consumer? And you, oh you good old Sir James, it is kind of you, and the delectable Doctor Fyne, to give us cheap books, but what about cheap pure milk for the babies and the consumers of Toronto and Ontario?

If you can give the children cheap books, why not cheap milk? Elevating a Husband. Some women may think it an easy matter to elevate a husband, but most have not already elevated to hard to elevate. An apt illustration is given in Louis Mann's play at the Princess this week.

NEW DISTRICT CHIEFS HAVE EARNED HONORS

Captains W. J. Smith and William Russell Step Up—Veterans at the Game.

Fire Chief Thompson yesterday announced the promotion to the rank of district chief of Capt. Wm. J. Smith of Truck 1, Lombard-st., and Capt. Wm. Russell of Aerial 2, Adelaide-st. The appointments are to the newly-created posts, making six district chiefs in the department.

The new officers have both long service and good service to their credit. Capt. Smith joined the fire department March 6, 1876, and has been most of his time at the old Court-st. and Lombard-st. stations. He has been in charge of his truck, one of the busiest in the department, for nearly 25 years. He is a brother of West District Chief Frank Smith. Capt. Russell, too, has spent his time downtown. He joined the department Jan. 10, 1883, and was put in charge of Aerial 2 when the truck was commissioned some ten years ago.

The other district officers are: Wm. Villiers, east, the real veteran of the department, having over 40 years of service; Chas. Smedley, north, nearly two score years in the game, and Frank Forsythe, centre, who was made district chief some three years ago. Then there is, of course, Deputy Chief Noble, who, under the new arrangement will shift his headquarters from Portland-st. station, to College-st.

Chief's Good Judgment.

The city covers so much ground now that it was a wise move on the part of Chief Thompson to ask for the new officers, for it has been impossible for four men to properly keep in touch with their respective territory. There is not alone the duty of attending fires, but the district officers have to keep an eye on the discipline of the various stations in their district, and they must also become familiar with the larger buildings and lay-out of the district. This latter is possible only by constant inspection. To do their work properly, the chiefs should have their individual buggies or runabouts, as is the case in other cities. Now they are dependant on the horse wagon of the section to which they are attached.

RIDPATH PARTLY CONSCIOUS.

Bruce Ridpath has partially recovered consciousness at St. Michael's Hospital, and his condition now has a more favorable appearance than at any time since he was struck in Yonge-st. Thursday night last. He is still unable to feed himself, and it is said that no definite statement can be made as to his chance of life.

Big Storm on Lake.

KINGSTON, Nov. 7.—(Special.)—For the last twenty-four hours a terrible gale has been raging on the lake, and navigation is tied up. No serious damage is reported. The barge Norseman has had a great deal of bad luck. In a big storm two weeks ago the vessel was sunk and was raised, and in to-day's storm she went down again at the waterworks wharf.

ITALIANS BEGIN ADVANCE IN TRIPOLI

Said to Have Occupied Hamedieh Fort—Turks Claim Big Victory—Porte Will Protest to Powers Against Italy's Annexation Proclamation.

PARIS, Nov. 7.—A Tripoli despatch from an Italian source says that the Italian advance began to-day. A turning movement was executed and the Hamedieh fort was occupied.

Claim Turkish Victory.

CONSTANTINOPLE, Nov. 7.—The war office to-day does not claim that the Turkish troops have recaptured Derna, Tripoli. An official telegram from that quarter, however, reports that the Turks won a big victory over the Italians, 500 of the latter being killed and 18 guns and large quantities of ammunition and provisions being captured. The Porte has despatched a protest to the powers against Italy's claim that she has annexed Tripoli and Cyrenaica, setting forth Turkey's determination to resist.

The Porte declares that the annexation proclamation is void because it is contrary to the elementary principles of international law while Turkey and Italy are still in a state of war, and that the Ottoman Government is resolved to preserve and defend by force of arms its sovereign rights.

Further, says the Porte, the proclamation is in violation of the engagements solemnly contracted under treaties, especially those of Paris and Berlin, as well as by Italy towards the great powers as by the latter towards the Ottoman Government.

Rioting in Tunisia.

TUNIS, Nov. 7.—Groups of Italians and Arabs came into collision to-day and a desperate affray ensued. It required strenuous efforts on the part of the whole police force, reinforced by detachments of troops, to restore order and this was only accomplished after a large number had been killed or wounded on both sides. In addition, a police sergeant was killed and several of his men were badly hurt.

The rioting continued for a long time in different sections of the city. Revolvers were freely used. It is even reported that at one time a mob of Arabs, several thousand strong, threatened to overpower the troops, who fired five volleys. The number of killed has not been established, but it is estimated at from twenty to fifty.

The disorders began as a result of a decision of the municipality to revise the boundaries of the Arab cemetery. A thousand Arabs repaired to the cemetery to protest. Others fell upon the surveyors, who were Italians. The affair soon assumed the proportions of a regular battle between Arabs and Italians, and spread to the different quarters of the city.

Leave Canada For Italy.

MONTREAL, Nov. 7.—Fifty Italians will leave the Grand Truck depot tomorrow night for New York, where they will embark on the Cunarder Carpathia for Italy. Nearly all of them will enlist for service in the Italian army in Tripoli, according to Antonio Cordasco, a prominent Italian shipping agent of this city. Mr. Cordasco claims that many hundreds have left Canada in the last few weeks for this purpose and he believes that hundreds more will leave in the next few days.

These men believe that when the war is over Italian soldiers will be settled on the land and will be rewarded for their services by substantial land grants. Louis Scanga, on the other hand, declared that the present exodus of Italians, while slightly larger than usual, is simply due to natural causes and that the men are going home to spend the winter quietly in Italy and not to fight.

STRONG AGAIN.

Glad to see C. A. Burns out again after a few days' indisposition thru a cold got at Cobourg.

ALASKA SEAL

The market situation in Alaska seal is not a very encouraging one for either the public or the dealer. A few months ago an international agreement was made by which the yearly catch was limited and the whole sealing industry put under the eye of the United States Government. This means that for the next few years at least Alaska seal will be very scarce, and, therefore expensive. The Dinoson Company was fortunate enough to get in a heavier consignment than usual last spring, and are, therefore, able to meet all demands, and at the same prices as were quoted before the rise in prices.

HAMILTON HAPPENINGS

MISSIONARY CONVENTION BIGGEST THING IN CITY

Over Eleven Hundred Delegates Registered at Hamilton—Silas McBee Chief Speaker.

HAMILTON, Nov. 7.—(Special)—The missionary convention, which begins its four days session in Centenary Methodist Church here to-morrow afternoon, promises to be the biggest thing of its kind that has ever taken place in Hamilton. At 10 o'clock to-night 1170 delegates had registered, and about half of the number will be visitors to the city. It is expected that at least 300 more names will be enrolled before the gavel falls for the opening session at 4.15 Wednesday afternoon.

The local convention is one of 11 which are being held in the principal cities from Vancouver, where the first was opened early in October, to Halifax, where the last one will be held near the end of the month. These conventions are part of a tremendous plan to evangelize the world in the present generation, and are being held for the purpose of arousing missionary zeal among all classes of Christians. That the Hamilton affair will be a great big success is beyond doubt.

Complete Preparations. For several weeks past a band of a hundred men have been at work arranging the details of the convention, and apparently the most complete preparations have been made for handling the big crowd and for arousing and keeping up enthusiasm. The executive secretary, A. J. Brace, came from Chicago to take charge of the executive work in connection with the convention, and he has worked night and day since he has been here. W. C. Graham, city secretary, has been indefatigable in his efforts to make the thing a success. Others who have worked enthusiastically are the local denominational secretaries of the convention: Norman Slater (Presbyterian), W. J. Hobson (Anglican), Cal DeLavi (Methodist), Archie Fraser (Baptist). Also Vice-Chairman Seneca, Jones and William Somerville, and James Henderson, the reception committee.

Bishop Clar Kwill preside at the opening session to-morrow afternoon when Silas McBee, editor of The New York Chronicle, will deliver the first address to the delegates on the subject of "The Central Place of Missions in the Life of the Church." Mr. McBee comes here especially to deliver the address, and will return to New York immediately.

Increase in Building Permits. The total value of building permits issued in Hamilton within the twelve months ending Nov. 1, according to information contained in the eighteenth annual report of Building Inspector John Anderson, which was made public to-day, was \$4,176,105.

Crushed His Skull. William Fairweather, East Simcoe-st., was almost instantly killed at the plant of the Hamilton Bridge Works Company this afternoon, when a reinforcing plate weighing about 400 lbs. fell on him and crushed his skull. Fairweather, who has been employed at the bridge works for more than 20 years as an assembler, was engaged with other men in putting together different parts of a steel girder when the accident happened this afternoon. The weight of the plate which fell was supported by another part of the girder, and Fairweather was required simply to hold the plate in position until it could be bolted. The work is said to be very easy and simple, and it is supposed that the unfortunate man had an attack of weakness and relaxed the pressure against the plate, thus allowing it to topple over on him. He died about fifteen minutes after the accident occurred.

Dr. Reineke will open an inquest into the man's death to-morrow noon.

The annual show of the Hamilton and Wentworth Poultry Association opened this morning in the drill hall. About 3000 birds are being shown, and are said to constitute the finest exhibition of feathered life ever made here. The show continues for four days.

CANADIAN FURS

THE Furs produced in Canada are classed the world over as the most exclusive in the catalogue.

Let us mention, for instance, the priceless Silver Fox, Arctic Fox, Cinnamon and Black Fox, Northern Canada Mink, Hudson Bay Sable, Hudson Bay Fisher, Uganda Ermine. These Furs are rated in Paris and London as being ultra-fashionable.

We are fortunate in being able to exhibit to you to-day an absolutely unusual display of Canadian Furs made into garments from models forwarded by our Parisian agents.

Every pelts was personally selected by us in the Canadian North Land and each is guaranteed absolute in texture, strength and coloring.

The prices we ask for our superior Fur Garments are the same as what you will pay elsewhere for inferior goods.

CHURCH UNION AGAIN BEFORE PRESBYTERY

But Definite Action Was Deferred Until Next Year—Mr. Black's Resignation Accepted.

A general discussion of the first eight articles of the proposed basis of church union occupied most of the time of the members of the Toronto Presbytery yesterday afternoon. No official action was taken, but a general agreement was reached. It was agreed to accept Oakwood mission as a Presbyterian mission. Heretofore it has been conducted independently. Dr. Wardlaw Taylor will have charge of the mission.

COMING CONVENTIONS.

At a meeting of the Eastern Canadian Passenger Association, held here yesterday, reduced fares were considered for numerous events, among them being the following:

Windsor, Ont., commencing March 26, the Woman's Home Missionary Society of the Presbyterian Church in Canada (western section), Christmas and New Year's holidays, 1911-1912.

Saturday, January 6, 1912, Epiphany, Tilbury, Ont., Tuesday, Jan. 30, to Friday, Feb. 2, 1912, Kent and Essex County Exhibition, Ottawa, Ont., February, 1912, Canadian Forestry Association; Canadian Lumberman's Association, Toronto, Ont., Wednesday, March 6, 1912, the Canadian Mining Institute, Vancouver, B.C., Monday, May 13, 1912, to Saturday, May 18, 1912, Woman's Foreign Missionary Society of the Presbyterian Church, Edmonton, Alta., Wednesday, June 5 to Friday, June 14, 1912, Presbyterian General Assembly.

AWARDED GOLD MEDAL

Provincial Health Association Honored by C. N. E.

The excellence of the provincial board of health's exhibit at the Canadian National Exhibition this year is shown by the fact that the board has just received a gold medal as a recognition of merit.

This was the first public health exhibit shown by the province, and included pictures of sanitariums in Great Britain, Canada, United States, Germany and Scandinavia. Photographs and models illustrating infant mortality were also on view, as well as others describing proper methods for sanitation, ventilation, and various other matters pertaining to the public health.

Sciatica and Lumbago

Suffered for Twenty-five Years and Could Get No Relief.

Now Tells of the Wonderful Results Obtained by the Use of Dr. Chase's Nerve Food

Sciatica, neuralgia and sciatic rheumatism are the result of a run-down nervous system. For this reason all treatments must necessarily fail which do not build up the nervous system.

Mr. Collins suffered for twenty-five years and never was able to obtain satisfactory treatment until he began the use of Dr. Chase's Nerve Food and Kidney-Liver Pills. While the nerve food forms new blood and restores the exhausted nervous system, the Kidney-Liver Pills invigorate the action of the kidneys, liver and bowels.

Mr. W. T. Collins, Morpeth, Ont., writes: "It affords me pleasure to be able to speak favorably of two of Dr. Chase's medicines—the Nerve Food and Kidney-Liver Pills. I had been a sufferer for twenty-five years from sciatica, lumbago and neuralgia and tried almost all the medicines I could hear of, without one particle of benefit, until I commenced to use Dr. Chase's. I noticed an improvement before I had used two boxes, and the benefits obtained by continued use have been wonderful. I have so much confidence in these two medicines that I have recommended them to dozens of my friends, and I have yet to hear of a single case in which they failed to give satisfaction."

Dr. Chase's medicines are for sale by all dealers, or Edmondson, Bates & Co., Limited, Toronto.

PLACE WATERWORKS UNDER COMMISSION

Board of Control Decides to Recommend That Step to the Council.

By a close vote, Mayor Geary, Controllers Ward and Church and Controllers Spence and Hocken against, the board of control yesterday decided to recommend to the city council that the waterworks department be put under the hydro-electric commission. The city council will deal with the matter at the next meeting, Monday.

When the matter was opened Controller Church said he thought the time would come when the department would be placed under the commission but in the meantime it should be made an independent department with a competent man in charge. He was in favor of Mr. Harris.

Controller Ward declared that his sentiments with regard to a public utilities commission had not changed. He moved that the legislature be petitioned to empower the city to erect a commission to take charge of the waterworks, the hydro-electric and the surface and proposed underground railways. It did not carry as it was thought to be a little premature.

Controller Hocken was of the opinion that it would be a mistake to put the department under the commission at present, but he thought in time it would be needed.

STABBED THE BRIDEGROOM.

MONTREAL, Nov. 7.—Maddened at jealousy at the sight of the bridegroom's wedding at No. 2 Vallant-street last night, E. Taffan is alleged to have driven a nail up to the hip into the arm of his newly wedded host. The wedding festivities were at their height when the happy party was rudely broken up by an assault upon the head of the household, for which Taffan was arrested.

Judge Lect in the arraignment court this morning and was remanded for enquete on the ninth.

NO PROVINCIAL COMMISSION.

Sir James Whitney gave a positive denial to the statement published yesterday that the provincial government intended to appoint a commission with provincial jurisdiction, to take charge of all the liquor licenses in the province, and to administer the license law.

"There is no foundation for these publications," said Sir James. "I don't know how such a thing got into the paper."

Veterans' Banquet.

The annual banquet of the Army and Navy Veterans will be given to-morrow night at 8.30, at the Arlington Hotel. The lieutenant-governor, attorney-general, mayor and members of the board of control, have promised to be present.

TO GET EXACT FIGURES

Report Coming on Traffic Tubes Should Carry.

An estimate will be made as to the probable amount of traffic that will be carried by the tube system when completed. The board of control so instructed the city engineer yesterday. He has been asked to see that a careful calculation be made as to what the business ought to be not only the first year, but in succeeding years. E. I. Cousins, the city railway engineer, will do the work.

The work is going to be done with the object of giving the voters the greatest possible amount of information on the subject so that they will know exactly what they are voting on.

From estimates that have been made it is declared that the tube system will pay its own upkeep as well as the sinking fund from the very start.

T. Eaton Company Extends.

A permit has been granted the T. Eaton Company for a new building at 77, 79 and 81 Teraulay-street to cost \$15,000. The structure will be a four-story brick warehouse.

Simple Home Remedy For Wrinkled Faces

(From Popular Monthly)

Thousands of women are spending fortunes in their frantic efforts to remove the signs of premature age from their faces. When in this state of mind a woman will spend almost any amount of money on worthless wrinkle removers, of which there are many.

If these women only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered saxolite and half a pint of witch hazel at the drug store and mix the two. Apply this daily as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a snug, firm feeling that is most pleasing.

NOBEL PRIZE FOR CHEMISTRY

Awarded to Woman Professor in the University of Paris.

STOCKHOLM, Nov. 7.—It is announced that the Nobel prize for chemistry has been awarded to Mme. Marie Sklodowska Curie of the University of Paris.

Mme. Curie is the chief professor of sciences in the University of Paris. She was the co-discoverer with her husband, Prof. Pierre Curie, of radium, and in 1903 shared with him half of the Nobel prize for physics, the other half being awarded to Prof. Antoine Henri Becquerel. Each of the five Nobel prizes, awarded annually, amounts to \$40,000.

Recent announcement was made of the success of Mme. Curie in producing polonium, "a new element possessing a radio-activity superior to that of radium."

CHARGED WITH MURDER

True Bill Against Rosell—Prisoner Pleads Not Guilty.

"Not guilty," pleaded Francisco Rosell in the criminal assizes yesterday in answer to the charge of murdering Gracchino Cecl on the night of April 24, during a fiasco in an Agnes-street house.

For some minutes after the true bill was presented to his lordship, the court sat in silence, awaiting the prisoner's counsel, W. A. Henderson, T. G. Robinson, partner of Mr. Henderson, however, came in, and after a short consultation with Chief Justice Falconbridge, the case was adjourned until 10 o'clock this morning.

A. E. Creswick, K.C., of Barrie, is conducting the case for the crown. Rosell has greatly changed since his arrest. He has a warm, genial glow, and is very nervous.

The Toronto World

FOUNDED 1850. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 536-Private Exchange Connecting All Departments.

MR. ROWELL'S PLATFORM AND CHEAP MILK. The World has read with interest, if not with emotion, the new platform of the Liberal party in Ontario, put out by its new leader, Mr. N. Wesley Rowell.

It is in measured words a response to the appeal of The World some time ago to the Liberal party to reorganize itself and to "get a move on". There is some movement in this new program, and that to extend The World welcomes it.

But it must go a great deal further; and perhaps Mr. Rowell will find that out in a very short time. We do not wish, however, to discourage him at the start. We rather wish to pat him on the back and tell him, so far, so good, but go further and do better.

For instance, his program is not nearly so progressive or radical as the one proposed by the Mackenzie Club in Prospect Hall, Toronto, the other night. Nor does either of them begin to approach the progressive national platform that The World has always been upholding in this country.

What we fear is that Mr. Rowell has been listening to Brother Jeffrey of The Star, two gentlemen most anxious to keep the Liberal party in the service of the corporations. For instance, nothing will hurt Mr. Rowell so much in his new departure as the fact that Brother Jeffrey of The Globe, and Brother Atkinson of The Star, both professors of the purest type, are enemies of the public building tubes in Toronto, in order to escape from the inefficient service which they now have to put up with from the Toronto Street Railway.

The moment the practical realization of public ownership in connection with a tube service, joined to a municipal surface railway, these two bogus friends of public ownership denounce the tubes and try to head them off. They take the side of the Toronto Railway as against the public. They wish to keep the people of Toronto in thrall as they have been for years past.

Mr. Atkinson calls this "institutional journalism" and Mr. Jeffrey calls it "standing by your friends". What Mr. Rowell wants to do is to say that these two gentlemen are not his mentors, and that Mr. Rowell believes in public ownership, as we think he does. Let him come out with one good clear blast in favor of the people of Toronto building tubes, and his determination to give them the necessary legislation to buy out the Toronto Railway.

What Mr. Rowell wants to do is to take up the grievances of the people of Toronto, which can be cured by public ownership, and in that way the grievances of all Ontario also. Let him blow the bugle, louder and stronger and clearer.

Brother Jeffrey and Brother Atkinson are looking for a campaign fund. Mr. Rowell needs little election fund if he has the right kind of platform. The people are waiting to hear a good clear voice with no uncertain sound.

The World, therefore, appeals to Newton Wesley Rowell to announce that this first was only an instalment, that he will do something still better in a short time.

Any member of the legislature who will get up and say that he will do his best to aid the people of Toronto to get a better street car service and that he will help public ownership in regard to tubes in every possible way, might find a lot of people in Toronto ready to vote for him.

We congratulate Mr. Rowell on the statement that he wants to get the farmers of Ontario cheap telephones. So far, so good.

How is he on cheap milk for the consumer? Sir James Whitney has only got to cheap school books. We've seen pretty good men and women come out of a country school house that had five dollars' worth of books in the whole outfit. But there was lots of good milk in the place.

LET HIM BE GOVERNOR MORE THAN PRINCE. The fact that the new governor-general is of royal blood has caused quite a disturbance in official and social circles throughout the Dominion. We are familiar with the treatment that should be accorded an ordinary governor-general, but the kinship existing between the king and the present incumbent of the office has complicated matters.

Duke of Connaught himself who is responsible for this. He is much too broad-minded and democratic. The blame probably rests with certain departments of the imperial government and with some of the newly arrived officials of the viceregal household who do not understand Canadian people or Canadian conditions. Some of these gentlemen in the past have proved themselves anything but tactful.

There is an easy solution of this difficulty. Let the rank of governor-general once and for all take precedence over that of a prince of the royal house. There is no question as to which title is the more honorable one. Many men are born royal, but few have shown the ability to be at the head of a great self-governing nation.

Let the governor-general be the governor-general. Let us leave the customs of royalty to the countries of which they are an undoubted and necessary part.

SIDESTEPPING ANNEXATION. On discovering that a majority of the city council was in favor of the annexation of North Toronto, The Evening Telegram, being wedded to reaction on this point, got busy among the aldermen and endeavored to have the matter postponed for another two months by submitting the question to vote in January. There never was any such question submitted to vote before, but it looks like a plausible scheme, and serves the purpose of delay.

Ald. McCarthy and Controller Ward are quoted as not having sufficient resolve to settle the matter themselves. Controller Hooker takes the correct attitude that he will vote first straight for annexation, and if that fails then to submit it to the people.

Controller Ward has shown none too much strength during the past few months, and a little more strength of purpose might be exhibited in a matter of this sort with advantage to his reputation. The people do not like a trimmer.

Ald. McCarthy was one of the first to go up into North Toronto and advocate annexation. Just what has occurred to lead him to think that he should divest himself of the credit of his progressive policy at the eleventh hour, probably The Telegram can explain, but Ald. McCarthy owes it to himself to be consistent on a policy which is stronger to-day than when he took it up.

Ald. McCausland will no doubt see that his motion gets a fair presentation in council and the arguments that have had weight with him must be equally effective with other open-minded aldermen.

The Hamilton Times has broken out in a new spot. It upbraids the people for leaving the organization of hydro-electric power to private corporations in Northern Ontario.

The Globe thinks the possibility of giving a county seat dangles before Cobalt, Halleybury, Lakeside and Englehart. The government might as well say at once that Halleybury will be the county seat. There has never been any other intention.

The Star has an ode "To N. W. Rowell, K.C." which the poet terminates with this couplet: "In short," said he, "Why, bless my soul, I'd choose to be—N. W. Rowell!" Upon which we remark:

The Liberal laureate, Mr. J. Bengough, comments himself with rhymes a little off. He would not like, if speaking of his credit, to be credited to Mr. J. Bengough.

NEW YORK CANADIANS. The Canadian Society of New York, organized in 1871, has issued its year-book for the present season. Dr. Alex. C. Humphreys, being president. The secretary's report indicates a large amount of commendable activity on the part of the society in the cultivation of good feeling and an intelligent understanding among the great English-speaking nations. There are over 200 resident members. The secretary, Wylie C. Margeon, is to be found at 2 Rector-street, New York.

MANHOOD SUFFRAGE. Says Foreign Minister, But Bill Will Not Include Women. LONDON, Nov. 7.—A deputation composed of 90 members of parliament waited upon Premier Asquith this evening to memorialize him in favor of adult suffrage, which would enfranchise all persons of both sexes. Arthur Henderson, M.P. for Durham, pointed out that only 7,000,000 persons were enfranchised out of 45,000,000.

CANADA PERMANENT. We Pay Compound Interest at 3 1/2% per annum, and your money is always available when you want it. TORONTO STREET, TORONTO. MORTGAGE CORPORATION.

MILK DEALERS DENY HARD AND FAST COMBINE. Understanding Exists But No Compulsion is Used to Maintain Prices. Are the local milk dealers keeping within the limits of the law against hard and fast combinations in restraint of trade? This is an outstanding question in Toronto at present.

Charles E. Potter, manager of the City Dairy Co., says his company belongs to no association and the price of milk to its patrons is fixed by the company without consulting any other dairy. R. W. Dockery, manager of the Acme Dairy, and A. C. Look of the Brier Hill Dairy, both say the dairy-men agree on a price which affords a fair profit, but there is no combine, for no one is told that he cannot sell milk at less than a certain price. He has the right to sell at any price he may choose.

FRUIT GROWERS' CONVENTION. The Fruit Growers' Association of Ontario will hold their annual convention on Nov. 18 and 19. Meetings will be held in the Canadian Forestry Hall, 22 College-street. The horticultural exhibition will be held at St. Lawrence arena from November 18 to 19.

To Enquire About Smallpox. Dr. Hamby, representing the provincial health department, will be at the South St. Marie, to look after the two reported cases of smallpox in the jail there. The patients have already been quarantined.

Toronto has 399 miles of slimy germ-laden water-mains and pipes. THROUGH these mains and pipes is conducted into your home your drinking and cooking water. Your eyes, nose and tongue tell you that something's wrong. To have absolutely pure, sterile water, you must filter it; and the only safe, sane, efficient filter is the

Jarvis Sanitary Filter. This is the only filter in the world that shows what it does—and which can be easily kept sweet and clean. Besides, it is the simplest of all filters. Model No. 1 replaces the old-fashioned filter in tap, and takes up but little room. The jarvis filter being only 8 inches long and 3 inches in diameter. This filter will be installed free of expense to you for one week's trial. 25 Toronto Schools have installed Jarvis filters, and over 100 factories. The Robert Simpson Co. installed a battery of 10 Jarvis filters over two years ago.

AN INVITATION—Come and see this filter at our Showrooms, 23 Richmond Street West—open daily from 8 to 6. The demonstration will astound you. Your intelligence will be appealed to, and you will be convinced that filtration is a necessity, and that the "Jarvis" is a perfect filter. Send post-card request for descriptive pamphlets.

ORIENTAL RUGS OF WONDROUS RICHNESS. On View in Toronto—Will Be Sold to Highest Bidders—Unusual Art Opportunity.

Splendidly hung with all the rich carpetings and super-rugs that so distinguish the handicraft of the east, C. M. Henderson's art galleries on East King-st. are in readiness for the most noteworthy sale of Oriental rugs that Toronto has ever known. The sale that is announced for Thursday and Friday of this week has not been loudly heralded. And so when Mr. Henderson said that he had on view the most magnificent collection of rugs that Toronto has ever seen, he was not professed to be a judge of Oriental rugs, but he does lay claim to an eye for beauty. To say that the collection is magnificent is expressing it mildly—the splendor, gorgeousness of the two hundred rugs that carpet the floors, that tapestry the walls, beggar description.

All the luxuriance, all the rich splendor, all the beautiful resplendence of the east, are expressed in the collection.

Another magnificent specimen is No. 79 of the collection, it is a Royal Khiva Boukhara, and by the way, its only duplicate is in the possession of Sir Wm. Van Horne, who has the richest rug collection in Canada. This specimen shines with a tremulous gleam that commands attention as soon as one enters. Like all rugs of great age and most costly texture—this is made of young camel's hair—it possesses the almost mysterious quality of changing its shaded coloring when viewed from different positions.

Another it is the most resplendent exhibition of Oriental rugs Toronto has ever seen. This specimen is opportunity, witnessing, and what is better, they are given the opportunity of acquiring valuable specimens at auction sale prices.

Mr. Henderson must be thanked for giving us the opportunity, and he must be complimented on the artistic manner in which his galleries have been hung. But then, Mr. Henderson has had an unusual chance in decorating and enriching his art rooms with these magnificent specimens.

A watch case no longer an unknown quantity. FORMERLY when you bought a watch, the case received trifling attention beyond the consideration of the decoration or monogram. That the case might or might not be worth the price paid for it was seldom considered. Naturally, errors of judgment were common when watch cases were bought on this uncertain basis. Now, since the American Watch Case Co. have started to advertise their product there is no longer any occasion for the watch buyer to be misled as to the quality of the case. If he will just take the precaution to look inside the case for the Winged Wheel trade mark, he will make sure of obtaining an article that is at once thoroughly honest in value and reliable in service. Gold Filled Cases bearing this mark contain more gold now than before the recent Canadian Stamping Act forbade the giving of a time guarantee. They are dustproof and warranted as to workmanship and construction and the makers at all times stand ready to make good any defects for which they are in any wise responsible.

SEND IN COMPLAINTS

So Says Mr. Aitken With Regard to Unlighted Places.

Referring to numerous anonymous complaints against places, which it is alleged are not lighted by the hydro-electric, Engineer R. L. Aitken said yesterday that he wished people who knew about them would telephone the department. They had to do their work largely by the use of maps and it was almost impossible for them to have an exact idea as to the conditions on the 400 miles of streets in the city by that means. He was of the opinion that all of the streets were covered by the map recently and things seemed to point that way.

Piles, Fisures, etc., successfully treated without an operation. Write for free booklet and references. Dr. Hawke, 21 Wellesley-st., Toronto.

HEWILL AGAIN REMANDED.

Stephen Hewill, who still stands upon a charge of manslaughter of a Chinese lad in Homewood-avenue, was once more remanded in police court yesterday morning.

He has been exonerated by a coroner's jury, but the crown is looking for more witnesses.

TUBES THE SOLUTION FOR TRAFFIC CONGESTION

Distinguished Visitor From India Sees Weakness in Toronto's Transportation Facilities.

The Right Hon. Louis James Kershaw, minister of finance in India for the British Government, is the guest of his mother, Mrs. M. Kershaw, 1411 Collegewood. Speaking from experience, Hon. Mr. Kershaw said that British rule in India is one of the greatest organizations in the world, and in this account Britain's great eastern empire is making tremendous strides.

Hon. Mr. Kershaw has been largely instrumental in checking the dread disease of malaria in that great country. It was at his suggestion that the question of the water supply in Toronto was started and by his efforts in promoting the business thousands of lives have been saved. Within a year he expects to see malaria completely eradicated from that country.

Wonderful Improvements. The visitor from India is exceedingly pleased with Canada, and especially with the Queen City. He believes, however, that Toronto lags in transportation facilities. The street car service, he says, is far below what it should be, and it is his firm belief that the solution of this great problem lies in the use of tubes run in all directions for at least two miles from the heart of the city. He believes, however, that Toronto lags in transportation facilities. The street car service, he says, is far below what it should be, and it is his firm belief that the solution of this great problem lies in the use of tubes run in all directions for at least two miles from the heart of the city.

Motor Car Accidents. The visitor has been appalled by the number of motor car accidents, and in this connection he said the tube system would eliminate a large number of these mishaps in that the cars would be underground, leaving practically twice the roadway space for horse and motor vehicles in the crowded downtown streets.

Hon. Mr. Kershaw will sail next week for Europe. He will visit his son, Cecil, who is training as a cadet at the Royal Training School at Dartmouth, Devonshire.

Shot While Out Hunting.

KINGSTON, Nov. 7.—(Special.)—John Pettifer, living at North Cloyne near Stratford, Ont., was shot while out hunting yesterday morning. He was hit in the right arm, which is so badly injured that it is feared it will have to be amputated. He had to drive thirty miles to get a train to reach here for medical treatment.

Mr. James Waugh, newly appointed commercial agent at Omaha, Neb., entered the service of one of the fastest freight lines operating in connection with the Grand Trunk Railway System in June, 1891, and has been successively solicitor, traveling and state agent; July 1, 1909, he was appointed traveling freight agent of the Grand Trunk Railway system at Philadelphia.

BROCKVILLE CONS. URGE QUESTION OF TAX REFORM

Burden of Taxation Should Be Shifted in Part to the Land, They Declare.

BROCKVILLE, Nov. 7.—(Special.)—The Conservatives of Brockville riding, at a largely attended convention this afternoon, unanimously selected the sitting member, A. E. Donovan, to again contest the seat for the provincial legislature.

Mr. Donovan made a capital address, reviewing the record of the Whitney government and outlined legislation planned for the future.

In a resolution of confidence in Sir James Whitney the convention suggested that the government consider seriously the important problem of tax reform, with a view to placing the burden of taxation in a more equitable and just manner, and to relieving the people of the burden of taxation in a more equitable and just manner, and to relieving the people of the burden of taxation in a more equitable and just manner.

The government was also urged to co-operate with the Dominion Government in any scheme that may be proposed for the improvement of highways.

Stormont Conventions.

CORNWALL, Nov. 7.—(Special.)—The Conservative of the County of Stormont will meet in Massey Hall, Finch, on Saturday, Nov. 11, to select a candidate for the Ontario legislature. A special train has been arranged to leave Cornwall at 12.30 p.m.

The Liberals of Stormont have not yet announced the date of their convention. They will have to select some one to replace W. J. McCart of Avonmore, the late member, who will not be available in this contest.

South Ontario Liberals. WHITEBY, Nov. 7.—(Special.)—South Ontario Liberals assembled in mass meeting here today, to select a candidate for the legislature, and in his motion, seconded by William Purves, nominated Mayor Sinclair of Oshawa, who accepted.

A motion was adopted warmly commending the appointment of N. W. Rowell, K.C., as leader of the party in Ontario.

McDougal to Retire.

OTTAWA, Nov. 7.—D. J. McDougal, M.L.A., announced today that he had decided not to seek re-election in East Ottawa. The choice for Liberal candidate here will be among E. P. Dard-bear, E. P. McGrath, Louis J. Keefe, A. L. Pinard and Auguste Lemieux.

South Renfrew Conservatives.

ARNPRIOR, Ont., Nov. 7.—But one name was before the South Renfrew Conservatives at a convention today, that of the present member, T. W. McGarry, K.C. In short order he was re-nominated by the delegates present.

TEMPERANCE MEN'S VIEWS.

"If it does not call for another referendum I am in favor of the abolition of the three-fifths clause," said Controller F. S. Spence, referring to the Liberal platform. "If it does, I am against it."

The controller was in favor of larger license districts and larger salaries. He said that he would not be a partisan candidate.

Rev. Ben. H. Spence of the Dominion Alliance said the three-fifths clause was only a "red herring" and "a joke," said Mr. Parkinson, prominent in Presbyterian Church and Laymen Missionary Association.

Mr. Spence said that the three-fifths clause was only a "red herring" and "a joke," said Mr. Parkinson, prominent in Presbyterian Church and Laymen Missionary Association.

Disappointment was expressed everywhere among the churchmen yesterday over the Liberal platform.

The Liberals of the two Ontarios, east and west, hold their nominating convention at Ottawa on the 10th inst. The Liberals of South Simcoe will nominate their candidate at Barrie on Nov. 11, and Centre Simcoe Liberals at Barrie on the 13th.

KINGSTON, Nov. 7.—(Special.)—F. G. Lockett has been elected chairman of the board of governors of the General Hospital, when it is expected candidates will be selected. A new wing of the hospital is to be erected on a new wing.

KINGSTON Conservatives. KINGSTON, Nov. 7.—(Special.)—President of the Conservative Association W. R. Givens has called a meeting for Friday night, when it is expected candidates will be selected. Dr. A. E. Ross and Dr. E. P. G. are names mentioned.

Some Mistakes Made in City Architecture

But Thomas Mawson Speaks of Toronto as Doing Marvels—Leaving Europe Behind.

About 400 people were present in Convocation Hall last night and heard Thomas H. Mawson give his second of a series of five lectures on Town Planning. Mayor Geary was in the chair and introduced the lecturer, who took for his topic "The Preparation of Plans Necessary for a Successful City Plan."

The lecturer gave an outline of the various essentials to be considered, how these facts should be obtained, and the proper method of procedure when the data had been gathered.

The chief point in a preliminary survey, he said, is a correct knowledge of the facts in which all features should be noted. He then explained his own method of procedure, illustrating his remarks by means of slides showing his work in the town of Bolton in Lancashire. The work, he explained, involved many difficulties and discouragements, but a correct knowledge of the facts in which all features should be noted.

He again congratulated the City of Toronto on the solution of civic problems which had arisen, but he also issued a warning.

"You have done wonderful things," he said, "as in England, and you are now to go ahead, far ahead of us in the old country. You in Toronto are distinctly pioneers, but you are making mistakes which enthusiastic pioneers will make."

In conclusion he gave a short synopsis of problems in town planning which he said in England and explained how, by careless solutions of these problems, great blunders had been made, which to rectify had involved enormous expenditure of money.

DR. HAS PLEAS DEFENDS ISOLATION HOSPITAL

Conditions Not Ideal, But Best That Can Be Secured—Misunderstood, Says McCarthy.

Conditions at the Isolation Hospital are not as bad as they have been or as bad as Aid. McCarthy painted them in an address given Monday night to the northwest ratepayers, according to Dr. Hastings, Medical Health Officer. The was too ill to go down to his office yesterday. The World found him well enough to talk over the telephone.

"Everything is being done under existing conditions to safeguard the health of the patients," he declared. He said McCarthy had probably been dealing with old conditions in his address.

100 Beautiful Gowns for Evening Wear

These dresses are timely arrivals for women who are ultra-critical about evening wear. They are all beautifully made of dainty materials, and every dress is up-to-date. "Exclusive" is a word that is often mis-applied, but it fits in with these dresses quite properly. There is not one common-looking gown in the whole lot.

There is not a shadow of a doubt but that when you put one of these dresses away at the end of the season you will be able to say from the bottom of your heart, "Well! that is one of the prettiest and cheapest gowns I ever had."

Description here, of course, must be merely general, but come and look at them early, when the selection is at its best.

Waists are in a number of charming designs, trimmed with rose buds, ribbons, bow knots, lace insertion and silk cord.

There are Dutch necks, semi-low effects, three-quarter or shoulder sleeves. The high belt effect is in evidence, and the skirts are all as smart as can be.

Materials are silk chiffon, marquisette, voiles, messalines and nets.

Delicate colors, mauve, pink, maize, pale blue, ecru and ivory predominating.

Prices \$18.50, \$23.00, \$25.00, and up to \$35.00
