VOL. XXXVIII.—No. 13,599 TWO CENTS

GERMAN STRIKERS TO BE SHOT DOWN

CARRY ON WAR TO BITTER END ALLIES DECIDE

Supreme War Council Sees No Hope in Teuton Speeches.

MUST CHANGE TEMPER Only Task Is a Vigorous and Effective Prosecution of the War.

London, Feb. 3.—The supreme war council, which met at Versailles, finds no approximation in the German chancellor's and the Austro-Hungarian foreign minister's speech to the terms of the entente allies and has decided to continue the vigorous prosecution of the war until peace can be obtained, "based on the principles of freedom, justice and respect for international law."

This official announcement was made here tonight. A summary of the official report of the Versailles war council says:

"The council was unable to find in Von Hartmann's and Czernin's recent utterances any real approximation to the moderate conditions laid down by the allies' governments. In the circumstances the council decided that the only task before them to meet was the vigorous and effective prosecution of the war until the pressure of that effort produced a change of temper in the enemy governments, justifying the hope of the conclusion of a peace based on the principles of freedom, justice and respect for international law."

"The council arrived at a complete unanimity of policy on measures for the prosecution of the war."

United Will. London, Feb. 3.—The allies are united in heart and will, not by any hidden designs, but by their open resolve to defend civilization against an unscrupulous and brutal attempt at domination. This unanimity is confirmed by a unanimity no less complete both as regards the military policy to be pursued and, as regards measures needed for its execution which will enable them to meet the violence of the enemy's onslaught with firm and quiet confidence, with the utmost energy and with the knowledge that neither their strength nor their steadfastness can be shaken."

The splendid soldiers of our three democracies have won their place in history by their immeasurable valor and their magnificent heroism, and the no less noble endurance with which our civilian populations are bearing their daily burden of trial and suffering, testify to the strength of those principles of freedom which will crown the military success of the allies with the glory of a great moral triumph."

The supreme war council was convened last Tuesday at Versailles, under the chairmanship of Georges Clemenceau, the French premier, and ended Saturday. It had been foreseen that the council would be an important one and that at its momentous decisions would be reached, both as regards the prosecution of the war and the terms of peace. For Great Britain the representative was Premier Lloyd George and Major General Sir Henry Hughes Wilson, sub-chief of the British general staff; for Italy, Premier Orlando, Foreign Minister Sonnino and Gen. Cadorna; and for France, Foreign Minister Pichon, Gen. Ferdinand Foch, chief of staff of the ministry of war and Gen. Maximo Weygand. The United States was represented by Gen. Tasker H. Bliss, chief of staff of the American army.

BRITISH WARSHIP SUNK TWO HUNDRED LOST Armed Boarding Steamer Louvain Torpedoed in Mediterranean Sea.

London, Feb. 3.—The British armed boarding steamer Louvain, Lieutenant-Commander M. G. Easton commanding, was torpedoed and sunk by a German submarine in the eastern Mediterranean on Jan. 21. Seven officers and 217 men were lost.

This official announcement was made last night.

LAST HEATLESS MONDAY Railroads Make Good Progress and Officials Are Encouraged.

Washington, Feb. 3.—Railroads today made good progress in the hauling of coal. Both railroad and fuel administration officials were encouraged by the hope that tomorrow would be the last heatless Monday.

GERMANS PRACTICE UNTOLD BRUTALITY IN NORTHERN ZONE

Belgian Tells Terrible Story of Starvation and Slavery in France.

MUST WORK IN FIELDS People Dragged to Prison and Fined for Hiding Small Quantities of Food.

London, Feb. 3.—(Via Reuter's Ottawa Agency).—Reuter's has received from a trustworthy Belgian citizen, who has just reached London from the German military zone at Valenciennes, an account of the terrible conditions existing in the occupied districts of France, from which practically no news ever reaches England. For sufficient reasons it cannot be stated how this man escaped. He still bears traces of a heavy blow on the jaw, and showed Reuter's representative a handful of natural teeth which had been knocked out by the butt-end of a German guard's rifle. He said:

"The Germans have organized a slavery army in the zone of northern France. When I left St. Amant a few weeks ago conditions were unbearable. All the men between the ages of 17 and 50 had been taken away. Unmarried women under 40 are obliged to work in the fields, while little girls from 12 to 14 must collect acorns and nettles."

"Everywhere you meet civilians working under armed guards. Everywhere you see a guard showing the town he comes from. Some wear a brassard around the leg showing that they tried to escape. I saw an old man with a large cross painted on his back. I knew what that signified. If you refuse to work you are fined; if you refuse to pay the fine you are imprisoned. If you refuse a second time you are sent to Germany from where one seldom comes back alive."

Many War Prisoners. "Besides civilian prisoners the Germans have great numbers of war prisoners behind the lines, working under terrible conditions. The English are especially badly treated. All want to starve Russian a little of my own small supply of food that the guard knocked out of my teeth."

"It is known that the Germans requisition everything, but few realize what this means. Reuter's informant told how clocks, even domestic clocks, are broken up for copper, mattresses are seized, furmen and peasants must declare everything."

"I have seen people dragged to prison," he said, "for hiding a pound of potatoes. Hiding an egg involves a fine of five marks. One woman was deported to Germany for keeping three pigeons. Another was sentenced to 14 months for hiding an Alsatian refugee. The latter was immediately killed by a non-com, who struck another woman with such violence that she died without a word, because she crossed the Franco-Belgian frontier for bread."

"Whoever you turn your eyes," he said, "the same tragedy is everywhere—starvation, slavery and untold brutality."

STRIKERS AT TRIESTE RETURN TO BENCHES Men Demanded Peace and Food—Reassured by Governor of Fortress.

Amsterdam, Feb. 3.—A Trieste despatch received by way of Berlin reports that a general strike, including the shipyard workers, was declared there. A deputation of the strikers interviewed the governor, demanding peace and food. After hearing the governor's reply, which dwelt especially on the recent speech of Count Czernin, the Austro-Hungarian foreign minister, the strikers held a further meeting and decided to resume work. This they have already done.

Sinn Fein Suffers Defeat At Hands of Nationalist

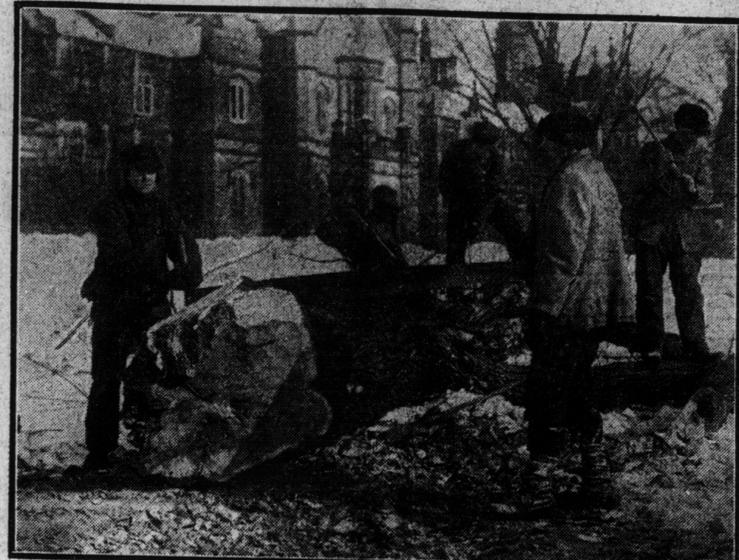

London, Feb. 3.—The Nationalists have succeeded, after a sharp contest, in retaining the parliamentary seat for South Armagh, which was vacant by the death of Charles O'Neill, who was killed while fighting at the front. F. Donnelly, Nationalist, was elected, receiving 2,316 votes against 1,917 polled by Dr. Thomas McCarter, a Sinn Feiner.

Dr. McCarter has been called the "next ambassador of the Irish Republic." He was arrested in Halifax last October in connection with his alleged activities in a plot for a new Irish rebellion, but later was released and taken to New York to answer a charge of having fraudulently obtained an American passport.

WILL RESIDE IN DENMARK

Bolshevik Representative at Copenhagen Tells Future of Dowager Empress.

Copenhagen, Feb. 3.—The new Bolshevik representative, who has arrived here, says that the former dowager empress of Russia, Maria Feodorovna, who was a Danish princess, is coming to reside in Denmark.

Readers of The World will remember that on Thursday morning a photograph was published showing some dead trees in Trinity College grounds that could have been cut down and the wood supplied to needy families to relieve the fuel famine. On Saturday morning the city sent a gang of men out and cut the trees as is shown in this photograph. Several cords of wood thus were obtained for needy families.

GERMAN STRIKERS BEGIN TO GIVE UP

Censor Suppresses News of Many Interesting Events, Socialist Organ Reports.

NEGOTIATIONS FALL THRU

Reichstag Committee Fails in Effort to Have Conference With Chancellor.

London, Monday, Feb. 4.—The latest news concerning the German strike situation appearing in the morning papers of today, confirms the Berlin announcement that the movement is dying out. The Socialist organ Vorwarts in the form of a notice to its readers says:

"Through the force of circumstances it is at present impossible for us to give news of many events which would especially interest our readers. We ask our readers not to regard these omissions as an attempt on our part to kill events by silence."

Rotterdam despatches told of the resumption Saturday of negotiations between Count von Hertling, the imperial German chancellor, and the Social Democratic members of the Reichstag, which ended, however, without the chancellor agreeing to meet the leaders of the strike movement.

The total number of arrests during the week in Berlin was 160.

A meeting of the central committee of the railway workers of all Germany took place Sunday in Breslau, Silesia.

CASUALTIES OF AIR RAID

Dead Numbered Sixty-eight in Two Attacks.

London, Feb. 3.—The total casualties in Monday night's air raid on England, according to an official announcement tonight, were: Killed, 58; injured, 173.

In Tuesday's raid the total killed numbered 19 and the injured 10.

Fifty Million-Dollar Plants To Supply Powder to Allies

Washington, Feb. 3.—Production will begin not later than August in the government's big fifty-million-dollar smokeless powder plants to be constructed at Charleston, W. Va., and Nashville, Tenn. The war department predicted tonight, formally announcing for the first time that the plants had been contracted for. Each of the plants will employ from 10,000 to 15,000 men. Much of the output of the new factories, the department's statement said, will be made available for the allies, as it is deemed more expedient to ship the finished product abroad instead of supply raw materials.

FIRING SQUADS A WAIT STRIKERS WHO REFUSE TO RETURN TO WORK

General Court-Martial Set Up in Berlin, Where Death Sentences Will Be Imposed on Any Leaders Arrested, Who Will Be Shot in 24 Hours—Strikers May Be Drafted Into the Army—German Proclamation Blames Allies for Revolutionary Propaganda.

London, Feb. 3.—Drastic military measures—even, according to a report from Copenhagen, the threat of a death sentence in the event of conviction by court-martial for refusal to obey the military order to resume work on Monday—seem to have had the effect of breaking down the German strike movement. Very little news has come through today, and that mainly semi-official assurances that the strike is ended and that work will be resumed tomorrow.

These semi-official despatches admit that the result was obtained by military measures and threats to draft recalcitrants into the army. According to the Socialist paper Vorwarts, the trial of the Socialist deputy, Wilhelm Dittmann, has already opened before an extraordinary court-martial.

He is charged with inciting to high treason, resistance to public authority and transgression of the prohibition against participating in the direction of the strike.

The commander of the Brandenburg district threatens imprisonment up to one year for further participation in the direction of the strikers.

Berlin in War's Hands. The German Government is keeping a tight hand on news of the strike, which is attended by demonstrations in Berlin and other parts of Germany, but from the details received today through Reuters it is learned that the situation is serious throughout, when a considerable display of force was necessary to handle the mobs which attacked street cars and carried out other excesses in Berlin.

For news of what transpired yesterday the public outside of Germany is largely dependent upon a semi-official report which says that the strike is entirely insignificant and isolated and entirely insignificant excesses occurred last day, and says that the prevailing opinion is that "the strike has passed its peak."

This seems to be supported by the fact that the newspapers, which were unable to appear Thursday owing to the sympathy displayed by their composers and pressmen with the strikers, all came out Friday, while the transport workers continue their labor.

It is also asserted that work has been resumed at Kiel, Danzig and Hamburg, but it is admitted that additional miners have gone on strike at the Rhenish Westphalian coal fields.

Information from various sources shows, however, that the strike in general is not over, despite the foregoing stand taken by the military authorities, who are now in control.

Shipyards Workers Join. An Amsterdam despatch says: After more than half the shipyard workers at Hamburg had resumed work the strikers committee there resolved to call the workmen out again Saturday, according to a copy of the Berlin Lokal Anzeiger of that day received here.

Ending of the strike in Germany on Monday is predicted in a semi-official statement issued in Berlin on Saturday evening. It follows:

"The strike everywhere is on the wane. Many factories are now working with full staff, and it is assumed the strike will be ended entirely on Monday. This opinion is confirmed by reports from all parts of the country."

Agitation Like Russian. The Rheinische Westfälische Zeitung has published a Munster despatch dated Feb. 1, reproducing a proclamation issued by the deputy commanding general, in which he says:

"Germany is face to face with her hour of destiny. Her enemies have abandoned hope of victory by arms and are now trying to sow dissension in our ranks. A propaganda on a large scale, supported by the ideas of the Russian revolution, has resulted in some sections of the population following the enticements of irresponsible agitators. They do not realize that they are committing shameful treason against the fatherland."

"I raise my warning voice and ask you to consider what will happen if our front begins to totter. Foreign countries are already rejoicing at their success, observing with malicious glee our German Michael again walking into a trap. That must not continue."

"Political resistance must and will in all circumstances be smashed. Germany must not experience such conditions as the Russian revolution produced. Let everyone help to terminate the shameful spectacle of a strike, denounce the mischievous agitators, and bring them to their deserved punishment."

Summary Punishment. General von Kessel, military commandant of Brandenburg province, in which Berlin is situated, threatens summary punishment of strikers who fail to obey his order that they resume work on Monday morning. An Exchange Telegraph despatch from Copenhagen says the proclamation set seven o'clock as the hour at which they must return to work, adding:

"Employers failing to resume work will be tried by court-martial, which is authorized to impose sentences of death, execution to take place within 24 hours of the time the sentence is imposed."

Deputy Dittmann of the Reichstag, who was arrested while addressing strikers, is accused not only of inciting to high treason, according to the Berlin press. The Lokal Anzeiger says he urged in his speech that the strike must be maintained.

An Exchange Telegraph despatch from The Hague says that a great number of Socialist leaders were arrested in Berlin at the same time that Wilhelm Dittmann, Socialist member of the Reichstag, was taken into custody for addressing a crowd in a suburb of the city.

A Munich despatch says that several strikers have been arrested there, including the writer, Kurt Eisner, and Frau Saurh Leich. The troops attempted a demonstration which was attempted before Wilhelm Palace, where the king resides.

Tumultuous scenes occurred at Socialist meetings. The general situation is little changed.

PLAN SURVEY TO FIND WORK FOR SOLDIERS Soldiers' Aid Commission Has Prepared Report for Presentation to Legislature.

It is shown by a report just prepared by J. Warwick, secretary of the soldiers' aid commission, for presentation to the Ontario Legislature, that the number of men struck off the strength of the Canadian Expeditionary Force as medically unfit, men discharged before going overseas, and retired members of the imperial army, is 14,179.

One of the chief aims of the commission is to find employment for the men able to work. For this purpose 110 branches have been formed in Ontario, and others will be organized where necessary.

The commission has often sent men who could not secure employment in their home cities to other places where work was offered. To develop this branch of the work the commission is now available in the province for returned men, and by interviews with heads of firms and their foremen to open the way for the taking on of the war veterans. It is stated that all men able and ready to start work, according to the reports received from the branches, are now in employment in various parts of the province. A ready response by the employers in co-operating with the commission is reported.

SATISFIED WITH RESULTS Premier Clemenceau Says Allies Are Fully in Accord.

Paris, Feb. 3.—An official statement setting forth a resolution concerning the conduct of the war, which was adopted at the session of the supreme war council last week, was issued at Paris, London, Rome and Washington. Premier Clemenceau told The Parisien that the allies were completely in accord, and that the delegates were fully satisfied with the results of the conference.

The Havas agency says measures which are likely to exert great influence on the future conduct of the war were adopted.

MEN'S FURS AT DINEEN'S. Cooskin coats and men's furs at Dineen's. The most inviting array of cooskin coats in Toronto. Also robes for motoring. The reductions for the clearance sale include all departments, Dineen's, 140 Yonge street.

We will install these fixtures in the city free of charge. Insulators (if required) and permit extra.

IMMUNIZED HOGS MAY BE ADMITTED

Regulations Providing Precautions Against Hog Cholera Have Been Modified.

Ottawa, Feb. 3.—The regulations prohibiting admission into Canada of swine from districts in the United States where hog cholera has existed have been to some extent modified on the recommendation of the minister of agriculture. Hitherto there has been an absolute prohibition of hogs from cholera affected districts. From Jan. 30 cholera bred hogs, immunized by the simultaneous method of injecting serum and virus, will be permitted to enter Canada when accompanied by the affidavit of the breeder or last owner that they were immunized not less than 30 days prior to importation and have been immersed in a satisfactory disinfectant solution previous to shipment. Thirty days' quarantine is required for these and all other hogs.

It is also provided that all swine must be accompanied by a certificate stating that neither swine plague nor hog cholera have existed within a radius of five miles of the premises in which they have been kept for a period of six months immediately preceding date of shipment.

CIVIL SERVANTS AIR A GRIEVANCE

Complain Government De...
parts From Merit System
of Appointments.

UNDESIRABLES ENTER

"Civilian" Claims Loose...
Characters Are Em...
ployed on War Work.

Ottawa, Feb. 3.—In an article on the merit system The Civilian, organ of the civil service, says in part: "By somewhat reducing the technical qualifications the Canadian commission might have employed their function of supervision of the moral characters of applicants for departmental work and thus supplied the personnel for the Ottawa service. The government, however, ignored the commission and practically all the thousands of clerks taken on in Ottawa were employed

without the approval of the government's merit machinery, which costs some \$50,000 per annum.

Government Blamed.

"The consequence is that loose characters have sifted into the several departments doing war work, and the daughters from clean homes rub elbows with these characters, and contamination is not unlikely in the natural course of events. The government has not followed President Wilson's example of relinquishing patronage appointments, but on the other hand, the service and the public is amazed to find that the government is repudiating its pre-election pledge to eliminate patronage appointments. Democratic governments usually endeavor to interpret public opinion on questions of public interest. The general impression abroad on the street is that the new government considers that 51 per cent. of the electors of Canada approve of the policy of broken pledges, a policy that is anathema in central Europe but is perfectly good at home."

OVERCOME BY GAS.

Fred Butler, who is employed by the Consumers' Gas Company, was taken to the Toronto General Hospital Saturday afternoon, having been overcome by gas while working. His condition was not serious, and he was able to leave the hospital later in the evening for his home.

RIISING TO UPSET KAISER'S THRONE

Returning American Clergy...
man Declares the German
People Are Starving.

An Atlantic Port, Feb. 3.—Opinion that unless the war ends within 1918 there will be a revolution which will overthrow the Hohenzollerns in Germany was expressed by the Rev. Aloysius Daniels, of Hewitt, Wis., upon his arrival here today from Germany by way of Switzerland.

"The people of Germany are starving," said Mr. Daniels, who for three years has been studying in Westphalia. "There are few left who are more than fifty years of age, all succumbing to lack of nutrition, while the death rate among the children is frightful. President Wilson is anathematized throughout the empire, but hardly worse than the emperor, while what is said openly of the crown prince is not fit to repeat. I believe they will quell this in-

French Move Art Treasures From Places of Danger

Paris, Feb. 3.—Measures have been taken by the authorities to protect the art treasures of Paris from air raids. The stained glass windows of the Sainte Chapelle have been removed to vaults. The sculpture on the Arc de Triomphe has been covered with sandbags. The decorations by Carpeaux, illustrating the dance, in front of the Opera, and other art works have been protected similarly.

Seized Rumanian Gold Reserve Wanted by Central Powers

The Hague, Feb. 3.—The Vienna Neue Freie Presse reports that the amount of gold belonging to Rumania that was seized by the Bolsheviks was valued at \$50,000,000 francs. The newspaper adds that the authorities in Vienna and Berlin attach great importance to the confiscation because the Rumanian state gold reserve is the chief guarantee for the Rumanian debt owed to the central powers.

CHANGE IS MADE IN CENSORSHIP

Letters to Enemy Country May Now Be Sent by Way of Montreal.

Ottawa, Feb. 3.—An official memorandum issued by Dr. R. M. Coulter, deputy postmaster-general, says: "Up to the present time it has been permissible to send letters destined for persons in an enemy country, or a country in the occupation of the enemy, subject to censorship, thru the medium of an intermediary in a neutral country. An arrangement has now been made whereby such correspondence can be forwarded thru the medium of Messrs. Thos. Cook and Sons, 539 West St. Catherine St., Montreal, in connection with the authority received by their London house from the British government to undertake the transmission of such correspondence. The letters to be forwarded must relate only to private news and must not contain any reference to military or naval movements, to political or

economic conditions or the like. The letter should be enclosed in an envelope legibly addressed to its ultimate destination and must be left open in accordance with the censorship regulations of enemy countries. This should then be placed in another envelope addressed to Thos. Cook and Son, Montreal, together with a slip bearing, legibly written, the name of the sender, and also a postal note for twenty-five cents to cover the charges. This amount covers the expense of transmitting the letter to a neutral country and the reply.

"Letters addressed to enemy and enemy occupied territory can only be sent in this manner and any which are being forwarded thru other than this authorized channel will be returned to the sender.

"This does not affect in any way correspondence addressed to prisoners of war in enemy or enemy occupied territory which is to be forwarded in accordance with the prisoner of war regulations."

WILL EDIT LUMBERMAN.

G. B. Van Blaricom, editor of The Shoe and Leather Journal, published by the Acton Publishing Co. is leaving that company to assume the editorial duties of The Canadian Lumberman, Saturday the Acton staff presented Mr. Van Blaricom with an electric table lamp. F. E. Ulay of the advertising service department, succeeds Mr. Van

FARMING CLASSES FOR GIRLS STARTED

Twenty Fair Young Farmers Begin Lessons on Saturday.

WILL GO EVERY WEEK

Number of Trained Workers Will Initiate Newcomers in Duties.

The first of a bevy of 20 girls who started off Saturday to the unique farming classes which have been opened thru the efforts of the Ontario Government employment bureau seem fully conscious of the big responsibility which rests upon them.

"We must help the farmer," said Miss Harvey, head of the women's farm department at the government bureau. "Everyone must fully realize by now that the farming given last spring regarding need for more production was fully justified, and that the difficulty with our scheme is to get the right girls. Many of them in the present class are from the ranks of those who did such splendid work last year in the fruit season. These have already demonstrated their will-ness and adaptability; but the trouble is to get the farmer to use upon a farm, that they can fill the gap and help him out."

Trained Help Needed. "If we cannot blame the farmer who looks twice at an offer of untrained city help in the shape of men, we must realize that the advent of city women may be even less welcomed, so we are aiming first of all at teaching those girls the most essential things. No one need run away with the idea that we think it possible to turn out thorough farmers in a few weeks, or that these girls upon the assumption that a few classes will do for them the farm prepared to teach others. But here is the situation: The farmer needs help badly. When someone comes to him who is unable to do without it unless the crop end is neglected, but his present attitude is that no help at all is better than no help at all."

Lesson Farmer's Duties. "There are certain things, however, upon which the farmer cannot be neglected, such as milking, the cows, stock feeding, care of the horses, etc., and if the girls can demonstrate to any farmer that they are able to do these chores, so efficiently that they are taken off his hands the objective will be gained. After that it will depend upon the individual as to how far women will prove of value upon the farms. Some girls will be able to undertake more work than others naturally, but there is no doubt about the girls' end of it if the farmers will give them a chance."

Miss Harvey did not think the argument that women have taken up farming in England was of much help to the situation in Canada. "The work is so much heavier and more hustling, she said; there is nothing leisurely about it."

NEW SCHOOL BUILDING

Glen Grove Parents Will See That Proper Accommodation is Made for Children.

North Toronto parents are just as anxious about the education of their children as anyone, and probably a little more so. At any rate they take enough interest in the affairs of the board of education to keep a close eye on their activities in and about the Glen Grove district. A site of 5 1/2 acres has been secured on Glen Grove avenue for a fine, new 25-room school, and plans have already been approved for the building. It is understood, however, that an 8-room building will be commenced in the spring, to be of such a nature that it can be enlarged at a later date to the full size.

The school accommodation at present in that district is wholly inadequate. The portable school now on Alexandra boulevard is not nearly equal to the requirements of the section, and no kindergarten is available. The nearest school is the John Fisher school on Erskine avenue, and it is hopelessly overcrowded.

In order to make sure that this school will be started in the spring the parents have organized to see that it is carried out. A meeting will be held this afternoon at 2:30 in the Edginton town hall, when the parents of the Glen Grove children will come together to discuss affairs of mutual interest.

DODD'S KIDNEY PILLS. RHEUMATISM, BRIGHT'S DISEASE, DIABETES, BACKACHE. 23 THE PRO...

CONSTRAINING LOVE TO CHANGE NATIONS

Dr. D. C. MacGregor at Convocation Hall Says Christ is Necessary for Reconstruction.

Rev. D. C. MacGregor, of St. Andrew's Church, London, Ont., was the preacher at Convocation Hall on Sunday. He took his text from II. Cor. v. xiv. "For the love of Christ constraineth me."

Dr. MacGregor said that Paul was under great criticism all the time after he began his ministry. His former associates could not understand his motives, and they attributed them to various causes. Some said he was doing it for gain, that he must be reaping some material reward from it. Others were of the opinion that he was out for power, that he who broke away from the conventional church must be forming a new creed which he expected people to follow, with himself as leader. But Paul explained away all these theories by telling them, "The love of Christ constraineth me."

OPINION DIVIDED ON EARLY CLOSING

Some Restaurant Managers Think That Scheme is Desirable.

The agitation against young men of military age, who frequent lunch counters after midnight, has been getting more insistent daily, and has led to suggestions that all lunch counters and restaurants should close at midnight. If this suggestion is taken action, and the eating houses are closed, there are some people in Toronto who will feel it keenly, outside of those who operate the places. Many trainmen, postoffice clerks, laborers and others doing night work are in the habit of eating after midnight, and these legitimate workers will be affected by the change, if it comes.

Proprietors of several of the restaurants are unanimous in the opinion that a system of alternating nights, such as has been adopted by druggists in some places, would not be feasible.

"Altho I would prefer to keep open all night, I am sure all the people who eat after that could arrange to eat before, or else they have homes and could go there, he said. "We have no lodgers here anyway; our system of discipline would not allow it."

It is a matter patent to anyone, however, who will take the trouble to visit a few of the all-night lunch houses, any time between midnight and three o'clock in the morning, that there are a great many young men of military age, who do not follow any of the occupations above-named, sitting around for what seems an unnecessary length of time after having had something to eat, and who, it would appear, if they are engaged in gainful occupations on regular hours during the day, should be at home in their beds.

NOT A DEFAULTER.

In the list issued by military headquarters of draftees who failed to respond to the call sent out on Jan. 7, published in The World on Saturday morning, the name of Arthur Thomas Bliss of 527 Lansdowne avenue appears. The World is informed, however, that Mr. Bliss is not a defaulter, as he joined the Royal Flying Corps in October last and is now with his unit in Texas.

WINS MILITARY MEDAL.

Word that Sapper Chas. J. Davis has been awarded the Military Medal has just been received by his mother, who lives at 47 McLean avenue. Sapper Davis won the decoration for his bravery in repairing telephone wires under heavy fire at Passchendaele. He was badly gassed at the time, and is now convalescing in England. He went overseas when 18 years of age, with a cavalry unit and afterwards was transferred to the signallers.

GETS MILITARY CROSS.

Lieut. H. T. Poste is decorated for his bravery. H. T. Poste, 22 Priscilla avenue, has received word that his son, Lieut. H. T. Poste, has been awarded the Military Cross for services rendered at the battle of Passchendaele. Lieut. Poste left Toronto on August 22, 1914, as a private, with the original 3rd Battalion. He has been on active service ever since. He won his commission on the field.

AVIATOR'S BURIAL IN DENMARK.

A. W. Miles has returned from New York City, where he had appeared before the Danish Consul, the American Consul, the British Consul and the war board, making affidavits to be allowed to place the body of the late Flight-Lieut. A. G. Bendix, R.F.C., on board a steamer for interment in Copenhagen, Denmark. The Danish Consul placing a final seal on the casket, permission was granted.

CAMPAIGNERS AT UNACCUSTOMED TASKS. Upper—Vancouver soldier with spinal injury aided his recovery and kept in the war by making 'woolies' and selling them for the prisoners of war fund. Lower left—A Montreal blacksmith, who will never recover his full strength, spends his convalescence in bed by learning basketmaking, an art at which, with the marketing aid of the handicrafts guild, he hopes to augment his pension sufficiently to make a good living. Lower right—A Gaspe villager putting his knowledge of weaving to practical use. The occupation leaves him cheerful and he can sell the products of his loom.

VICTORY FOR CITY IN WATSON ACTION

Humber Water Lots Valued at \$500,000 Retained by Toronto.

JUDGE IS CRITICAL

Speaks Very Plainly About Civic Methods and "Land Grabbers."

The much-litigated Watson water lots at the mouth of the Humber River, situated in the harbor commission some time ago, are the property of the City of Toronto. This is the decision of Justice Lennox, who handed down his judgment in the action of T. H. Watson to regain possession of the lots on Saturday morning. Mr. Watson in his claim stated that the city had taken over the lots on false pretences, saying that they were wanted for park purposes, whereas, he alleges, they were in reality taken over for railway purposes.

In his judgment Mr. Justice Lennox intimates that the city has not only been just, but even generous. He says: "Not only has the city been always ready and willing to make compensation to the plaintiff for the land when legally awarded, but, as a matter of fact, the plaintiff was actually paid \$50,000 on account of his holdings before he was entitled to payment of the dollar. It is argued, too, that a municipal council must not look ahead, but must do for the people what is best and capable business men are doing every day for themselves and their families; must drift and wait until men who look ahead, including the speculator and the sub-divider, and what is irreverently denominated 'the land grabber,' have captured everything in sight. Altho there is nothing in law, there is a great deal in common practice or ordinary municipal methods to give color to the argument."

The judge says the matter falls far short of showing fraud or that anyone ever dreamed of abandoning the park scheme or of diverting the western front to any other purpose than a driveway and a park.

CHARGED WITH FRAUD.

Thomas McGill, alias G. J. Kelley, who gave his address as 242 St. Clair avenue, was arrested on Saturday night by Detectives Twigg and Mulholland on a charge of fraud. McGill is alleged to have defrauded the Hotel Carle-Rite of \$38, said to have been due for board. He was unable to prove that he had reported for military service, so an additional charge of the breach of the Military Service Act was laid against him. He will answer to both charges in the morning police court.

DESCRIBES TRAVELS IN SOUTH AMERICA

Prof. A. P. Coleman Tells of Source of Nitrate Supply.

GERMANS ARE DISLIKED

Enemy Vessels Seized on Outbreak of War Had Engines Smashed.

Speaking at a meeting in the university schools Saturday evening under the auspices of the Royal Canadian Institute Prof. A. P. Coleman gave a description of his recent travels in South America. The title of his address was "A Geologist in South America." His talk was illustrated with about 70 lantern slides, which showed the various places he visited, together with some excellent slides of many forest growths. He spoke of the huge nitrate fields near Antofagasta, which was reached by steamer from Santiago. It was from these fields, he stated, that large amounts of nitrate were shipped to Great Britain for use in the making of munitions. On account of the war and the great demand for the white crystallized nitrate, he found a large amount of shipping going on, and everybody appeared prosperous. He spoke briefly of the material of the desert and the nitrate was "leached" out with water and afterwards evaporated, which actions left the white crystallized nitrate. On the way to La Paz he passed many dried up lakes of borax, and it was from these lakes, he stated, the majority of the world's supply of this material came.

ENGINES WERE SMASHED.

"In every part I visited," he said, "there were interned German ships which had been there for three years. The day I left Molendo, in the latter part of September, the Peruvian Government broke off relations with Germany. They seized two ships which were in the harbor. One was a steamer, the engines of which had been smashed before the government seized it, so that it would have to be taken to Panama to be repaired. I was in Rio when the American fleet arrived there last July and it was received with great enthusiasm. There were over 5000 American blue jackets in the streets, and one day I saw blue jackets belonging to the American, British, French, Japanese and Brazilian navies. Brazil had just then also broken off her relations with Germany. I found a strong pro-entente feeling in most of the countries I was in and excepting the German colonies, I hardly heard any opinions expressed that were pro-German. One town I stopped at, I was told I had better go to the Hamburg Hotel, and when I got there, I found the proprietor had changed the name to the

CANADIAN WOMEN MUST FACE FACTS IN FOOD CONTROL

If Women of Canada Cannot Save Food Armies Will Fail.

WOMEN'S SOCIETIES AID

Opinions on Serving of Refreshments at Women's Meetings.

"At a reception in Quebec on Jan. 9, under the auspices of the Society for the Relief of Devastated Areas in France, Mrs. Arthur Cannon, president of the society, set a good example in food conservation by insisting that no refreshments be served."

A number of women were discussing the same question at the annual session of the Local Council of Women last week while waiting for the business to begin.

"I suppose it is only right," said one woman. "I really think we should not serve refreshments at any of our meetings—but oh, dear, a cup of tea goes good."

What About Cigars? "Well," exclaimed a bright little lady who was knitting almost as fast as she talked, "I for one will not consent to cutting out the cup of tea and wartime refreshments at meetings until the men cut out cigars."

The general opinion seemed to be that after a long session the serving of tea and plain wartime bread or cake is reasonable and makes for sociability. Listening to what is said and knowing what is being done, one wonders if, after all, the women realize the situation. In the words of Lord Rhondar "The food wanted by mankind does not exist. The word 'shortage' is not strong enough for the situation. To put the matter bluntly, the whole world is up against a nasty thing, familiar to the people of India, called ' famine.' Some women cannot bear to 'cut out' the extra meals? If the fate of the nation depends on food export women's duty is plain today! The organizations of women should be the first to lead the way. Do not let us deceive ourselves. It is the most urgent need of the moment."

The Safest Matches in the World Also the Cheapest are

EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

THE E. B. EDDY COMPANY LIMITED HULL, CANADA

Widespread Appeal. The National Council of Women has addressed the following to all federated organizations:

"The food controller has addressed a special appeal to the National Council of Women in which he urges them to throw themselves with vigor into a campaign to educate the public as to the absolute necessity of food conservation and food production at this most critical period of the war. The president asks you to respond promptly to this appeal from the government. You are urged not to let a week pass before taking action to call your officers together and to plan publicity work to the uttermost reach of your organization. Many of our federated associations are already working along these lines—so much the better—but let us all, at once, unite upon this as the most urgent need of the moment."

DRY COMPANY
LIMITED
CANADA

SHORT-HAUL RAILWAY
SAID TO BE CAUSE OF
COMPANY'S PLIGHT

Bulk of Assets Tied Up in
Unprofitable Invest-
ment in West.

SMALL SHAREHOLDERS

Number of Women in Ontario
Said to Have Money
Invested.

With the bulk of its assets represented, it is stated, by no better security than a non-profitable railway line 90 miles long in the State of Washington, it is feared that the suspension of the Dominion Permanent Loan Company will prove disastrous to shareholders, owners of the company's debentures, and possibly also to depositors, although the latter named will have first claim upon the realizable resources.

The immediate cause of the institution's closing its doors was the company's inability to provide for an issue of short-term debentures which matured on Feb. 1. The issue was made to tide the company over a crisis in the company's affairs which had been developing for some time, and a number of Toronto and western Ontario investors, including women, are holders of these insecure "securities."

It appears that a charter to construct the Spokane and British Columbia Railway from Vancouver to Spokane was the beginning of dissension in the company. The route was expected to open up a line between Vancouver and Grand Forks, B.C. The work of building the road began at Grand Forks. The line was completed four miles south to Canadian boundary and thirty miles inside the American line to Republic, Washington. The charter was acquired eighteen years ago in the days when the late Hon. J. R. Stratton was directing the affairs of the Dominion Permanent.

A Doubtful Asset. The four miles of Spokane and British Columbia track, between Grand Forks and the international boundary, was sold to the C.P.R., while the Dominion Permanent retained and operated the 30 miles of track from the boundary to Republic. It is said by those in touch with the company's affairs that this stretch of steel with a few locomotives and freight cars, is given in the books of the Dominion Permanent as having a value of \$4,000,000. It is further asserted that \$200,000 in mortgages and \$150,000 in liquid assets make up the total security that depositors, debenture-holders and stockholders in the Dominion Permanent hold as a safeguard against loss on the following accounts:

Depositors in cash.....\$ 170,000
 Purchases of stock 2,500,000
 Purchasers of stock \$2,000,000, less \$300,000
 not paid-up.....1,900,000

Securities Widely Held. The company's debentures and shares are widely held throughout Ontario, the liabilities of \$4,570,000 representing the savings of investors, particularly in western Ontario, to the extent of nearly \$4,000,000.

The remaining \$570,000 is an estimate of the money deposited or in-

Could Not
Recuperate

Nervous Exhaustion So Com-
plete There Seemed Nothing
to Build On—But When
Doctors Had Given Up,
the Great Food Cure
Was Used With Splen-
did Results.

Cornwall, Ont., Feb. 3.—Great interest has been aroused in this town by the many cures which are being effected by Dr. Chase's Nerve Food. Perhaps no case is more remarkable than that of Mrs. Geo. Ross, whose letter appears below.

Mrs. Ross had nervous prostration, and in spite of all treatment secured from doctors, she became weaker and weaker, suffered from terrible headaches and was very much discouraged. Many similar cures have been effected, and local druggists are having a great demand for the great food cure.

Mrs. George Ross, Augusta street, Cornwall, Ont., writes: "Some two years ago I was attacked with nervous prostration. I doctored with different doctors without any good results, and even took a trip to a distant city to see if I could not recuperate. But on returning I found I was no better—in fact, I kept getting worse all the time. I had no appetite, could not sleep, and had to be helped up and down stairs. I also had terrible headaches. One day a book was left at the door telling about Dr. Chase's Nerve Food, and I decided to try it. My folks derided the idea, but I went ahead and secured a box. I found the finishing getting better. You may be sure I would give me relief. I continued taking it, and recovered so thoroughly that I was able to help with the housecleaning that spring. During my nervous collapse I had fasted from 115 pounds to 90, and since my recovery I weighed as much as 110 pounds.

"I will keep Dr. Chase's Nerve Food in the house, and use them when I feel the need of them. I have recommended them to a great many people around Cornwall, as I feel that I cannot speak too highly of them."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes costs \$2.75. At all dealers, or Edmondson, Bates and Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

vested in the Dominion Permanent outside of this province.

The C.P.R. is said to have negotiated for the purchase of the Dominion Permanent's railway holdings for \$1,000,000, but to have dropped the project about three weeks ago. Had the negotiations succeeded the Dominion Permanent could have gone into liquidation with a prospect of meeting obligations to the extent of about one-third, it is estimated.

Hardships to Many. If the company's failure is as disastrous as is indicated it will cause great hardship not only to share and debenture holders but also to numerous small depositors. Many women called at the company's offices yesterday, but as the offices remained closed and there were no officials to be seen they obtained no satisfaction. The holdings of most of the shareholders are said to consist of from one to ten shares.

Dr. Jamieson of Durham, the Speaker of the legislature, who is vice-president of the company, said on Saturday: "I have been with the company only a few months and have only attended a few directors' meetings. When I learned of the position of the company I wanted to resign, but my fellow-directors could not let me. I believe there is a lot of money tied up in the west, and I understand that it will take a long time to nurse these assets into shape. I cannot, however, speak with any degree of certainty, and I would rather not appear in the matter, since there are others on the board who know more about the state of affairs than myself."

"I never felt much interest in what I read about Tanlac, but the boy was suffering a great deal, and thinking it might help him I got him to try it. He has taken only two bottles so far, but I can see a wonderful change in him already. Tanlac has relieved him of rheumatism entirely. He never complains now at all and all the aches and pains are completely gone. He has a fine appetite, eats heartily and never complains of that tired, drowsy feeling more. In fact, he's like a different person, and I am so well pleased with Tanlac that I am recommending to everyone as a good, honest medicine."

TORONTO MAY HAVE
ONE COALESSED DAY

The Financial Post Forecasts
Stringent Regulations
for Canada.

ON AMERICAN PLAN

Appointment of a War Trade
Board Also Under
Consideration.

Coalesced days are forecasted for Toronto in an article in Saturday's Financial Post. The article reads: "On reliable authority, the Financial Post learns that it is practically decided that the fuel order of Dr. Garfield which is now being enforced in the United States will also be adopted in Canada. This will be done on the recommendation of Fuel Controller Magrath, who has been in Washington in connection with the relations between Canada and the United States. The matter is before the Board cabinet, and it is expected that the controller's recommendation will be passed by about Thursday next. The delay is due to the preparation of a list of exemptions which must be done with considerable care."

War Trade Board Mentioned. "It is also practically assured that a war trade board will be appointed to consist of P. C. T. O'Hara, Mr. Bowden of trade and commerce department, H. D. Bayne of customs department, E. Fitzgerald of the munitions board, the new food controller and Dr. McCallum of the committee of scientific research, there may also be a member of the wool commission on the board. It will regulate licenses and exports and imports from the United States and probably priority business."

SOLDIER COULDN'T ASK BARBER
IN FRANCE FOR A HAIR-CUT

One of the Canadian soldiers writing home from France a few days after arrival commented upon the difficulties experienced in obtaining a hair cut and shaving. "Barber shops, few and far between, were always upstairs. I couldn't make people understand what I wanted. Finally after I did find a barber he made me take about everything he had because I couldn't make him understand and I didn't understand him. I am busy learning French now, and next time I get a haircut I'll talk to the barber in his own language. This soldier's annoyance might well have been more serious. Knowledge of French for all who go to France is practically a necessity. To meet the demand for knowledge of French the Government is conducting a distribution of a new and authoritative book covering the double function of the Soldier's-Sailor's Diary and English-French Dictionary. It is a handsome volume of pocket size, richly printed in durable textile leather, gold edges, and the diary spaces, being undated, are perpetually good, the possessor being able to start the diary at any time.

SAY TRUSTEES UNFAIR.

High School Teachers Not Satisfied
With the Salary Increases.

The salary increases proposed by the finance committee of the board of education do not satisfy the high school teachers. They object to getting an increase of only \$100 while the public school teachers get an increase of \$200. One high school teacher suggested they want to draw a line, and they draw it at a figure of, say, \$2200 a year, and let all the increases of men now drawing \$2200 or over be \$100, while those below \$2200 get the extra \$200. It is not fair to draw the line between the two staffs.

EMBARGO ON "OLEO."

It is rumored that the United States food controller has placed an embargo on shipments of oleomargarine to Canada. The packing houses have received no definite word, but they state that if the embargo is enforced oleomargarine will have to be taken off the Canadian market. We are unable to supply the demand from our own plant," said one abattoir official.

SHE WAS ALARMED
ABOUT SON, SHE SAYS

Wm. Morrow Was in Bad Health
All Summer—Tanlac Over-
comes Troubles.

"I have never been a hand to recommend a medicine, but I will have to make an exception of Tanlac because it has accomplished so much for my son," said Mrs. Caroline Morrow of 12 Jilkson avenue, Toronto. "For several years," she continued, "William has been subject to frequent attacks of rheumatism, and during the past summer he suffered a great deal. He complained of his joints aching and hurting and his knees and feet, especially, would swell and pain terribly. Sometimes his knees hurt so he could hardly bear for the limitations we were using to be applied. Along with the rheumatism, he seemed to be in general bad health. He complained of being tired and never seemed to feel right. Nothing seemed to give him more than a little temporary relief and he was beginning to feel alarmed at the way the rheumatism was affecting him."

"I never felt much interest in what I read about Tanlac, but the boy was suffering a great deal, and thinking it might help him I got him to try it. He has taken only two bottles so far, but I can see a wonderful change in him already. Tanlac has relieved him of rheumatism entirely. He never complains now at all and all the aches and pains are completely gone. He has a fine appetite, eats heartily and never complains of that tired, drowsy feeling more. In fact, he's like a different person, and I am so well pleased with Tanlac that I am recommending to everyone as a good, honest medicine."

ASKED INCREASE
SALARY WAS CUT

Burlington Council Reduces
Honorarium of Medical
Officer.

Hamilton, Monday, Feb. 4.—The Burlington Town Council on Friday evening appointed E. S. Hicks as town clerk and treasurer to succeed James H. Allen, considered the application for an increase of \$25 in the salary of Medical Health Officer Dr. A. H. Speers, and instead cut the stipend from \$225 to \$190; decreased the salary of Magistrate J. Barr from \$200 to \$25 with fees. All the other town officers were reappointed at their present salaries, including Chief Constable Leo Smith, Road Commissioner John McKelch, Sewer Foreman Alf Cripps, Bell Ringer Mrs. Connelly, H. R. Rowson, member of the board of health, and William Starper, J. W. Henderson and John Lyons, fence viewers.

Canagian Club Luncheon.

The executive of the Canadian Club has arranged for a luncheon, to which the wives and sweethearts of the members are invited to be held at the Royal Connaught Hotel on Thursday evening, Feb. 7, at 6.15 o'clock. The guest of honor will be Dr. Wilfred Grenfell, C.M.G., who will speak on Labrador and the far north. Reservations should be made early at the Canadian Club office, 15 South McNab street, City of Hamilton.

Will Succeed John Gray.

A. M. Adams, local freight agent for the Grand Trunk Railway Co., has been appointed agent in Toronto to succeed the late John Gray. Mr. Adams has represented the company as freight agent in Hamilton for five years.

Patriotic Fund Campaign.

Hamilton is organizing in earnest for the big campaign beginning Feb. 13 when an effort will be made to raise \$7000 here for the Patriotic Fund, the British Navy League and Canadian Red Cross. The old American Hotel has been leased for headquarters. Hundreds of experienced canvassers, who assisted in the Victory Bond drive will take part.

Suits in Court.

A. B. MacKay, has started an assize court suit for \$3200 against Samuel Lambert of Wexford in connection with a coal deal amounting to \$3000 M. J. O'Reilly issued the writ.

APPRECIATE SERVICE
RENDERED WOMEN

The following resolution was passed unanimously at a recent meeting of the executive committee of the Ontario Women's Citizens' Association: "Whereas, owing to the difficulties of a campaign for a union government and owing to the extension of the federal franchise to an enormous number of new voters, there was great need of widespread information upon matters of vital concern to the nation as well as of practical instruction for the voters; therefore be it resolved: "That we, the executive of the Ontario Women's Citizens' Association, do express to the editors of the Toronto World our great admiration of the manner in which they met this situation, and also our sincere appreciation of the splendid service rendered by the woman's department in circulating accurate information for the guidance of voters and in publishing detailed reports of women's meetings as an inspiration to others."

FIRE DESTROYS GARAGE.

Early Saturday morning fire destroyed a garage owned by Fred Chadwick, 30 North Bay street, ruined an automobile and did \$1500 damage.

AMBULANCE ON FIRE.

An ambulance, the property of the Toronto General Hospital, caught fire Saturday morning while standing in the yard of the hospital about 11 o'clock. Damage amounting to about \$300 was caused.

MURRAY-KAY, Limited
 MURRAY STORE 17-31 KING ST. E. KAY STORE 36-38 KING ST. W.
 ESTABLISHED 1882

These Are Our Finest Imported Suits for Women
New York and Paris Models Marked Down to \$45.00 and \$75.00

Just so surely as the month of February comes round, just so surely do the various department managers start featuring a series of stock-reducing events that put all former sales completely in the shade.

In no part of the Store is this principle so strongly in evidence as in the Cloak and Suit Section. And the lovely IMPORTED MODEL SUITS which we specially mention today are outstanding examples of the remarkable values that await you.

These suits are in two groups, one lot at \$45.00, the other at \$75.00. In both groups there are veritable treasures to be found in the smartest of models, made of the lovely wool fabrics that are becoming more and more scarce as time goes on.

The Suits at \$45.00
 The regular prices are as high as \$75.00, and the lowest-priced model in the lot could not be duplicated for \$60.00. There's a Cafe Latte Doveslyn Suit, exquisitely soft cloth, with shawl collar of natural lynx; another of Copen, chevron serge, with natural lynx collar; another of Burgundy doveslyn, with shawl collar of Hudson seal; a plain Burgundy velours, a navy velours, a navy gabardine, a baby lamb model—these a few models in natural beach cloth, natural brillianite, etc. On sale today at.....\$45.00

The Suits at \$75.00
 Quite a number of lovely French models in this group, many of which are worth twice our special price. One very beautiful Green Doveslyn Suit by Bernard has a deep cape collar of seal, this collar extending to the waistline at the back; another of golden tan broadcloth; a New York model, has shawl collar, cuffs and band round lower edge of coat of finest golden heaver; a third of plum broadcloth has smart collar of seal. These are \$75.00 to \$125.00 suits. On sale today at.....\$75.00

Sale of Misses' Dresses
of Silk, Crepe de Chine and Net
Marked Down to \$10.00 and \$15.00

This is just a little lot of Misses' Dresses that turned up in stock-taking. Some of them are in taffeta, others in crepe de Chine, one or two in embroidered net. All are substantially reduced in price at today's sale prices.....\$10.00 and \$15.00

AT \$10.00 there are dresses that have been regularly \$22.50 to \$37.50. Three or four models in natural shantung, a few of white crepe de Chine, some of them embroidered in color, one primrose taffeta, a third of navy. In addition there are a few models in natural beach cloth, natural brillianite, etc.

AT \$15.00 there are dresses that have been regularly \$22.50 to \$37.50. Three or four models in natural shantung, a few of white crepe de Chine, some of them embroidered in color, one primrose taffeta, a third of navy. In addition there are a few models in natural beach cloth, natural brillianite, etc.

Men's Silk Ties, 50c
Regularly 75c and \$1

Here are post-stocktaking values that will have undoubted appeal to the man who likes real bargains.

Men's Silk Neckwear, open end style, 75c and \$1.00 lines to be cleared today at.....50c for \$1.25, each.....50c

This 50c Pillow Cotton
Today's Price, 35c a Yard

Only about 1,000 yards of this Circular Pillow Cotton to go on sale today. You will readily see that the limited quantity will make it impossible for us to fill either 'phone or mail orders.

Come to the Linen Room bright and early in the morning for your share—it's pillow cotton of good quality, soft finish, fully bleached. The width 45". A regular 50c value. Today, per yard.....35c

RICH-LOOKING KNITTING BAG

Knitting bags are so lovely and odd that one cannot pass them without wishing for one. Some of them are easily and inexpensively made. Of course, these economical qualities depend upon material employed. The bag illustrated was made of blue velvet, trimmed with clusters of silk, hand-made fruit and handles of gilt cord. The fruit and flower trimmings may be had for as low as ten cents, while the clusters range from twenty-five to a dollar. Grapes are very beautiful on the var-colored cretonne and silk bags.

New Crepe de Chine Blouse
Soutache Braided, the Price, \$9.00

This is one of the prettiest new blouses to reach us, and since it's made of the much-liked and practical crepe de Chine, we predict for it, undoubted popularity.

One thing we must mention is that the crepe de Chine is of uncommonly nice quality, then, too, the front is charmingly braided with soutache, and lastly, the model is attractively designed with vestee effect, while the sleeves are of white wash satin. This CREPE DE CHINE BLOUSE may be had in white or flesh, the price.....\$9.00

Here Are French Suede Gloves
Black or Grey, \$2.25 Line, at \$1.95

Suede gloves—especially French Suede Gloves—are among the prime favorites in glove-dom.

These are new—beautifully made of fine, soft, pliable skins, black or grey—delightful in each pair dubbed "Newport" by the clever French maker—doubtless as a compliment to our new allies. The grey gloves may be had with self or black points. They are \$2.25 a pair, regularly. Today, per pair.....\$1.95

Maids' Aprons, All Varieties
The Prices 95c to \$1.75

Every sort of variety in the choice of Maids' Aprons to be found in our Maids' Outfitting Section, from the simple trim specimen with hemstitching for trimming, to the dainty embroidery trimmed wisp that seems a mere apology for an apron. We mention:

MAIDS' AFTERNOON APRONS, hemstitched all round, with bib and shoulder straps, 95c and \$1.25.

MAIDS' APRONS in princess shape, with bib and shoulder straps, scalloped edge all round, also embroidery trimmed, \$1.75 and \$2.00.

MAIDS' CAPS.....20c to 50c

MAIDS' COLLAR AND CUFF SETS of soft lawn or dotted muslin.....50c and 60c

METHODISTS VOTE
ON REFERENDUM

Will Find Out if People Favor Change in Pastoral Term.

By Courtney Fressay.

Canadian Methodists are this month holding a referendum on the question of changes in the pastoral term. The referendum is being conducted under the direction of Rev. Dr. S. D. Chown, general superintendent, with Rev. Dr. T. Albert Moore, secretary of the Ontario Methodist board of social reforms and secretary of the general conference, as returning officer.

The results of the voting in the various churches and circuits are to be sent in to Rev. Dr. Moore at the Methodist offices, Queen street west, by March 1.

The results will be announced by Rev. Dr. Moore promptly to the public, so that they may be before the meetings of the annual conferences, and resolutions based on them furnished for action by the Methodist general conference, which will meet in Hamilton next October.

The referendum on the pastoral term was authorized at the last general conference held at Ottawa in October, 1914. It was proposed by A. S. Caswell, of Toronto.

The present term for Methodist ministers is four years, subject to an annual invitation from the quarterly board.

One reason for the referendum is the difference which now exists between the Methodists, with its limited pastoral terms, and the more permanent pastorates of the Presbyterian and Congregational denominations.

If the Methodists abolished a time limit, one detail in the direction of church union would be removed.

Summarizing the present sentiment in the Methodist Church a minister belonging to the denomination, who has been especially qualified to express an opinion, stated that it was not likely that the referendum would result in the endorsement of permanent pastorates. He stated that it was probable that the rural ministers would vote strongly against it, while in the cities the ministers might favor it. The laity, however, especially in the country circuits, were apparently strongly opposed to extending the term beyond four years.

Rev. Dr. Moore has sent a letter of instruction to superintendents of districts through the denomination which gives the following list of questions to be answered:

1. Are you in favor of the continuation of the present time limit of the pastoral term?
2. If not in favor of it, what change would you suggest?

The general conference special committee adopted the following resolution with regard to this time limit referendum:

"That in conducting the referendum on the question of extending the time limit of the pastoral term, and in reporting the same, each superintendent shall be required to obtain and report the following information:

1. How many members on the official board?
2. How many were present at the meeting?
3. How many voted 'Yes'?
4. How many voted 'No'?"

When drying the dishes, instead of taking a few pieces into a sink, at a time, have a table covered with white oilcloth, and with castors on its legs, handy at the sink. Each piece can be set on this table as it is dried, and the whole thing can be rolled into the pantry and the dishes put away on one trip, instead of a dozen.

COUPON

Soldiers - Sailors
DIARY and ENGLISH-FRENCH
DICTIONARY

Distributed by the

MONDAY MORNING, FEB. 4

Brain and Hand and Heart
Upon the labor men of the world
rests the greatest responsibility
in the settlement of strife and the
reconstruction of society that must follow.

Food Campaign Imperative.
A year of submerging has not had
the effect upon the war situation that
the Germans anticipated. We are
being told now that the Kaiser was
forced into the undersea campaign
against his will, and on the demonstra-

Store Window Lighting
Editor World: Re new order issued
against lighting of store windows
might say that there is no disposition
on the part of the people to oppose
the power control.

The Barbarous Hun.
German aviators have been dropping
proclamations and propaganda
across the lines on all the fronts and
are especially in France, Russia
and Italy, almost since the war began.

Zenana Missions.
Zenana missions have long been
the most interesting of these activities
in India, and have elicited most
sympathy. "It sends women to wom-
en," says the fourteenth annual
report just issued. "Its missionaries
preach the simple gospel, and practice
their healing art, and impart sound
education the while."

Other People's Opinions

Why Pick on Candy?

Editor World: In your paper of
January 30 Dr. Hastings says it is
unpatriotic for women to eat candy
in war time, and casts a slur on the
working woman who spends her
money for which she has worked hard
in munition factories, etc.

Can Dr. Hastings give us a better
substitute for such articles as bacon,
beef, ham, butter, cheese, white flour,
etc., which we are trying to save for
overseas? I have not been able to find
any better heat-producing food than
candy, especially chocolates.

No class of British people has pro-
vided more than the working women.
The industries of the country could not
have been carried on without them.

Have just been reading the first
message of the new food controller,
"Each Food Controller." This may
have a double meaning. I believe it
means for everyone to control their
own food, not other people's. Let the
doctor put the chlorine in the water,
it is necessary. "Working Woman."

Reading, therefore, between the lines,
we now have a confession on the part
of prominent opponents of public owner-
ship that it must be carried out not-
withstanding their heretofore antagon-
ism, and that they are prepared to see
the nationalization of all the railways
brought about with the exception of the
Canadian Pacific. And in fact nobody
opposes the creation of a national
railway system of railways through Can-
ada, provided the Canadian Pacific
is left out of the deal. This is itself
the greatest concession to public owner-
ship of railways that has yet been made
by its opponents; and yet it practically
gives up their whole case.

So far, so good. Where The World
takes issue with them is in the al-
most impossible to conceive of two-fifths
of the railways of Canada being national-
ized and put under government control
and operation and the Canadian Pacific
left out of the deal. An Abraham Lin-
coln said not only can a long exist
half slave and half free. No national
system of railway can long exist half
private and half public-owned. Public
and private ownership can't be hitched
up together. Public service and private
profit make an impossible pair.

Soldiers' Insurance Refused.

Editor World: The public should
demand an investigation of the pro-
cedure of last year's board of con-
trol regarding the soldiers' insurance,
and if necessary a full detailed state-
ment published showing exactly the
amounts already paid out and ac-
counted for, and the amounts in dis-
counted, owing probably to some
technicality discovered by the solicitor
insurance honestly due. Upon making
application for insurance in the regu-
lar way you are told that the boy
should have made enquiries regarding
some little loophole which they have
manufactured to suit themselves, or
probably told the parents are respon-
sible. How many of the parents
thought it necessary to go into de-
tails regarding their sons' insurance,
after this? It was sufficient guaran-
tee in many cases the soldier held
insurance in other companies, which
was cancelled and substituted for the
city insurance. Owing to the fact that
a large proportion of our boys went
to the front and evidently fought more
than expected, the solicitor
found it necessary to increase
their staff and red tape department
cope with this unexpected expenditure.
The question is, how much in salaries
is the city paying to employees who
work attached to this department? It
would stagger the public if honestly
made known. Why should they not
pay over to all dependents of our
boys who made application at the city
for insurance independently of the
actual bona-fide residents of the city,
or whether their parents or dependents
live in Egypt? The city guaranteed
this insurance and should honestly
pay it.

LABOR CONFERENCE ENDS.

James Simpson Tells of What Was
Accomplished at Ottawa
Meeting.

That labor will be amply represent-
ed on all committees and commissions
to be appointed by the government
was the opinion expressed by ex-
tensively Simpson in an interview
Saturday evening. "The present atti-
tude of the new government is en-
tirely different to that of the previous
government inasmuch as there is a
manifest desire to enlist the hear-
ed cooperation of labor in the consid-
eration of war problems," said Mr.
Simpson. "The conference recently
held in Ottawa will be productive
much good because the proposals of
the government have had the fullest
consideration of the labor representa-
tives, while labor's viewpoint has been
clearly set forth in its memorandum
to the war council, and has received
very careful and courteous considera-
tion by the members of the council."

COMPLETE NATIONALIZATION
OF ALL CANADIAN RAILWAYS
IS THE ONLY POSSIBLE PLAN

No Nation Can Long Exist Half Slave and Half Free.—LINCOLN

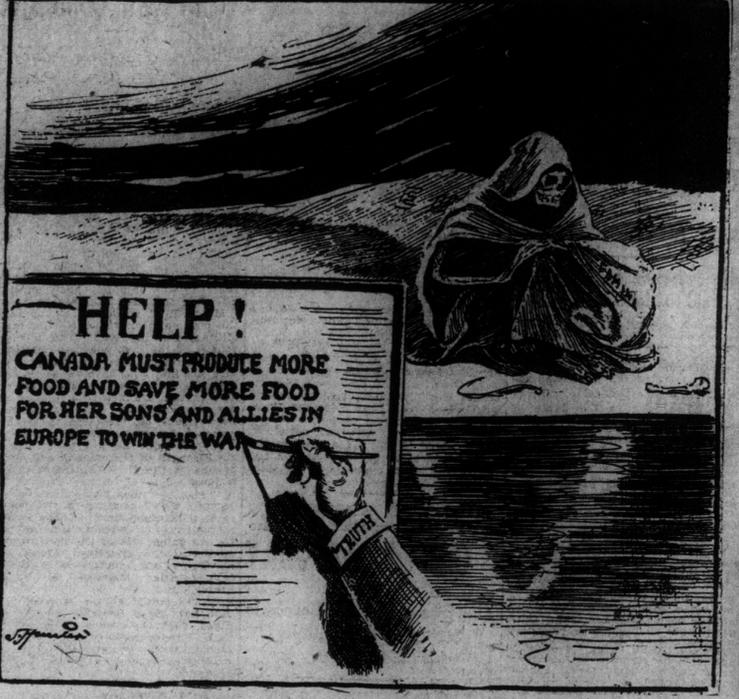

The Sunday World published yesterday
a good deal of information which goes
to show that nationalization of all the
railways of Canada is well under way,
and must be the policy of parliament
when it meets. Part of this information
was contained in a special from Ottawa
printed by The Montreal Gazette to the
effect that the government undoubtedly
were taking over the Canadian Northern
(as a matter of fact that deal has
already been made) and that they already
had the Transcontinental and the Inter-
colonial, and that by reason of the com-
pletion of the Grand Trunk and the
Grand Trunk Pacific these two lines
also would have to be taken over, and
that all of these units would be consol-
idated into one national system from
ocean to ocean.

And it is well just here to mention
that The Gazette, three months ago, was
an opponent of public ownership and
looked upon the Canadian Pacific as
now says is inevitable. Yet The Gazette
does not want to see the Canadian Pacific
included in the policy of railway nation-
alization in Canada. It wants that
organization left alone, tho it is pre-
pared to see even the Canadian Pacific
joined up with the new national system
under some kind of government control
for the war and the reconstruction period
after the war. And we imagine The
Globe has developed recently, but which
it has failed to re-state a second
time, that the operation and adminis-
tration of the railways of Canada should
be entrusted to Lord Shaughnessy and
an organization of the Canadian Pacific
Company.

Therefore, to re-state the case—and
The World has been stating the case
now for many months—there must be
complete nationalization of the railways
of Canada in order to get the best possi-
ble co-ordination and co-operation; and
there must be complete nationalization in
order to get the necessary motive power;
and that from the point of view of
further expenditures there is only one
way of doing this so as to avoid an im-
mense waste of money, and that is by
the state doing it and no one else.
Furthermore, if any double-headed system
were adopted, there would be unnecessary
waste, unnecessary rivalry, and event-
ually direct antagonism, and sooner or
later a demand on the part of the pri-
vately-owned company for payment of
enormous damages caused by a forced
union limited as to time. It is, there-
fore, these advocates of a double-
headed system who are always ready
to work out, and how the state can
take itself from unlimited demands for
forced association and then disruption.

We have all the other roads now, or
will soon have them, according to the
admission of those who oppose public
ownership, and if our reasons for complete
nationalization be true, the only question
before parliament will be that of the
terms under which the Canadian Pacific
is to be brought into the national sys-
tem. And that comes down to a question
of negotiation, as The World has always
said. The C. P. shareholders are now
getting ten per cent dividends on a cap-
italization of \$260,000,000, and that repre-
sents a mileage one-fourth of which has
been paid in the United States, and al-
ready taken over by the government of
that country. The Canadian Pacific
was compelled to submit to this appropria-
tion without any effective protest be-
ing lodged. But why should Canada
accept a rate of interest which represents
one-fourth of the investment already
taken over by the United States?
Nevertheless it would be profitable as
well as just for Canada to treat the
Canadian Pacific shareholders in a liberal
way, and the shareholders of the Cana-
dian Pacific would be getting better
treatment than any investment they
know of if they got a government guar-
antee of something like eight per cent
on their surrendering everything they
have, including cash, lands, hotels,
steamship lines, etc., by a member
of the Dominion Parliament, and for
some years past editor of a finan-
cial paper called The Journal of Com-
merce, printed in Montreal. He joins
The Gazette and some other opponents
of public ownership by saying, "Look
what awful commitments Canada would
assume by taking over the Canadian Pacific!"
There is just one answer to this,
and that is: That the Canadian Pacific
is the most desirable line to take over,
and one which, while it has commitments,
has a revenue that more than suffices
to pay the interest on the commitments
of all these systems; even sufficient to
provide for the co-ordination of all the
lines, and to provide for their extension, in a
scientific and economical manner. It is
the taking over of the Canadian Pacific
Railway that makes nationalization a
sound proposal, whereas taking over
the weaker lines (we have already taken
them over, or are about to do so) does
financial damage. So that if these gentle-
men who oppose the acquisition of the
C. P. want to talk logically and appeal
to the reason of the people, and to appeal
to sound economics they are bound, if
they are of good intent, to advise the
people to make one job of the whole thing,
and to have a clean-up that would in
its working out avoid the very evils they
predict.

There is nothing, therefore, but for the
Borden government to carry out what
they have practically announced—the
nationalization of all the railways of Can-
ada. And it should be now. And to do

It completely and assume the responsi-
bility, and to put the administration of
the consolidated lines out of politics and
in the hands of a high-class railway
board. And at the same time they should
assume the responsibility of the elec-
trification of all the railways of Canada.
To assume anything less might end in
final disaster, and certainly end in the
non-realization of the reasons that have
driven the people to demand public own-
ership of the railways.

As to the pretence of the opponents
of public ownership that public ownership
has been a failure wherever it has been
tried, there is but one answer which they
cannot get over; and that is the greatest
failure in the economics of the world has
been the failure of the privately owned
competitive lines of the United States in
serving the people of the United States.
There never was such a multiple as there
is in the United States railway code.
And that is the direct result of private
ownership and the looting of the pri-
vate companies by financial adventurers
and by the waste of enormous capital
that could have been saved if public own-
ership had been adopted in their con-
struction. As usual these enemies of
public ownership are now pointing to
the fact that since the United States Gov-
ernment started to consolidate the lines
and run them there has been a worse
congestion of traffic than ever. But that
is not the result of government opera-
tion, but the result of the breakdown
of the old system under which they were
built and administered. As a matter of
fact the roads have been so badly
handled that billions of dollars are called
for at this moment to make the roads
efficient; and after their experience in
the past the capitalists of the United
States have made up their minds that
they will put up no more money. They
have had enough of it. The only place
where the money can be got for the re-
construction of the American railways
is out of the national treasury! The New
York Central and the Pennsylvania roads
of the private-owned lines of the United
States are carrying on now by short date
notes instead of a bond issue. The
banks will lend money on these short
date notes, but neither banks nor capi-
talists will take stock or bonds.

So that the people of Canada have two
reasons for nationalization of the Cana-
dian Railways, namely, first, that it is
the best and only possible system for
Canada, and that private ownership as
exemplified in the United States is a
supreme failure. In other words that
the country will never be able to unscramble
the omelet that its government has been
forced to make out of the American
roads. They will, sooner or later, have
to take over the roads or find the money
and motive power to operate them. It is
the same thing in Canada. We must have
all the lines and we must consolidate
them so as to get the best economics and
we must consolidate them in order to
get the motive power to drive them. To
pour any more of the money of the peo-
ple of Canada into the private railways
that we have in this country would be
national suicide, and this is what the
opponents of public ownership are try-
ing to suggest at this moment, in filing
their objections to the nationalization of
the Canadian Pacific. In other words,
national policy, national safety, and the
demands of the reconstruction of the
country after the war call for public
ownership and nothing else.

While we have outspoken declarations
in favor of complete nationalization of
a number of the live newspapers of Can-
ada there are still a number of professed
journalistic leaders who have failed to
declare where they are on this issue.
They are either silent or limiting their
activity to the publication of statements
supplied by the C.P.R. and the G.T.R.
Apparently the Grand Trunk has had
to accept the situation and will sooner
or later draw in its horns in the way of
arguments supplied to Canadian news-
papers against the proposal of the gov-
ernment and what we think is the de-
termined policy of the people of Canada.
So that on the whole the opposition is
climbing down, first jumping from one
argument to another, and is steadily be-
ing forced to a complete surrender.

Therefore, there is only one thing that
remains to be done, and that is the na-
tionalization of all the railways of Can-
ada and to have some reasonable settle-
ment with the Canadian Pacific for turn-
ing over the whole of its property to the
state. And when we say this we wish
to pay tribute to the splendid success
of the Canadian Pacific Railway. And
when we say this we wish also to put on
record another outstanding fact, that the
greatest contributors to the success of

the C.P.R. have been the Canadian peo-
ple, who subsidized it so handsomely and
who paid since the inception of the road,
enormous tolls for traffic service, for
telegraph, express, and the like. The
people of Canada have done as much for
the Canadian Pacific Railway as the
Canadian Pacific Railway has done for
them!

ROBERT HENRY BURIED

Many Attend Funeral of Former
Mayor of Brantford.

Special to The Toronto World.
Brantford, Feb. 3.—With every trib-
ute of respect from a city which
had honored him on more than one
occasion the remains of Robert
Henry, three times mayor and once
member of parliament, were laid at
rest in Greenwood cemetery on Sat-
urday afternoon. Many friends were
present from Windsor, where he had
resided for the past sixteen years,
while the city council and civic offi-
cials were present in a body and the
board of trade and Conservative As-
sociation were largely represented.
The pall-bearers were: F. D. Rev-
ille, A. C. Bunnell, Henry Windsor,
Crown Attorney A. J. Wilkes, Constable
Clerk A. E. Watts; J. L. Sutherland
and George Watt. The honorary pall-
bearers were: Senator J. H. Fisher,
W. F. Cookshitt, M.P., Major Ham-
ilton, Henry Stroud, J. E. Morton,
Major M. Morton, ex-Mayor Bowley,
Fred Donaldson of Toronto, S. Sud-
daby and George Wilkes. The mourn-
ers were: Stewart Henry, Windsor;
J. Stephenson Brown, Montreal; T.
B. Motherwell, A. B. Drake, David
Johnson, Windsor; M. G. Cameron,
Joseph Kidd, Goderich, and John
Colter, Brantford.
Ven. Archbishop C. G. Mackenzie,
officiated at the house and grave and
the funeral cortege was one of the
most impressive seen here in many
years.

ARRESTED AS AN ABSENTEE.

Special to The Toronto World.
Brantford, Feb. 3.—The military
police have arrested Harold Walker,
who is charged with being an
absentee under the military service
act. It is stated that Walker refused
to accept a registered letter contain-
ing his notice to report, which was
tendered to him by the postal authori-
ties.

PLACE DEFAULTERS IN NEW COMPANY

Military Authorities Adopt a New Plan to Care for Men Who Do Not Report.

Major George Gooderham Mitchell, at present second in command of the 1st Battalion, 1st Central Ontario Regiment, Exhibition Camp, has been appointed to perform the work of general staff officer (2), while Col. W. R. Lang is assistant to Major-General Leppard at Halifax.

Major T. P. Leppard is to command the new unit known as N Company, Military District No. 2. The unit will consist of the men who have been ordered to report to the Military Service Act and who have failed to fulfil the acts requirements.

During the week just ended over 400 recruits were examined at the Toronto Mobilization Camp. Those accepted totaled 335. Overseas infantry battalions gained 160 of the new recruits.

APPLIES FOR VACANCY.

P. F. Munro, classical master at Riverdale Collegiate Institute, who is an applicant for the position of principal of Ryerson School, which is virtually vacant by reason of the recommendation that the present principal be appointed inspector, possesses many qualifications which are required by the principal of such a school as Ryerson.

STREET CAR DELAYS

—Saturday, Feb. 2, 1918. Parliament cars, eastbound, delayed 12 minutes at 8 a.m. at Howland Road and Gerrard, by sleigh on track.

College cars, southbound, delayed 6 minutes at 9:02 a.m. at York and Wellington, by sleigh stuck on track.

Dundas cars, eastbound, delayed 7 minutes at 11:37 a.m. at Bloor and Bathurst, by auto stuck on track.

Carleton cars, eastbound, delayed 3 minutes at 11:58 a.m. at Bloor and Carleton, by sleigh stuck on track.

PLAYS, PICTURES AND MUSIC

"The Riviera Girl." At the Princess tonight and for the balance of the week, laughter and song will predominate, for that charming girl, "The Riviera Girl," will hold full sway and add to her already large circle of admirers.

"So Long Letty." Musical comedy is again supreme at the Royal Alexandra Theatre this week when Oliver Morosco will present for the first time in Toronto his latest musical farce, "So Long Letty," with Charlotte Greenwood in the principal role.

"The Irish 15th." The Irish 15th tells of Irish society life, with its many shades of comedy and pathos.

"Ghosts of Yesterday," adapted from the play "Two Wives," featuring Norma Talmadge, will head this week's offerings at Loew's Yonge Street Theatre and Winter Garden.

"The offering at the Gaiety Theatre this week will be an entirely new version of Max Spiegel's famous 'Merry Rovers,' with Abe Reynolds as the leading man.

"Hello Girls." Staging a big burlesque production in these days of advanced burlesque means a costly expenditure.

BETTER TIME MADE BY SUNDAY TRAINS

Milder Weather Made Possible More Regular Operation of Railroads.

INJURED AT WORK.

Stephen Lucas, of 148 Ryding avenue, employed as a blacksmith at the John Inglis Company, received a severe blow over the right eye about 2 o'clock Saturday while working.

DRIVER IS ARRESTED.

Charged with the theft of groceries from Medland Brothers, wholesale grocers, East Front street, William Carnitte was arrested on Saturday evening by Detectives Twigg and Mulholland at his boarding house on Buchanan street.

LABOR MEETINGS.

James T. Gunn of the Greater Toronto Labor Party will address several meetings on Saturday evening, the work and progress of the party, the aim of which was the concentration of labor on its needs and the representation of the working men and women of the country in the houses of parliament, both federal and provincial.

MIGHT USE HORSE MEAT IN CANADA

Lieut. Douglas Says It May Be Eaten Before War Ends.

Lieut. J. Harvey Douglas aroused the indignation of a congregation which crowded St. James' Square Presbyterian Church by his disclosures of the systematic brutality of the Germans with respect to their starvation of prisoners of war.

Speaking of the horseflesh served in the German soup, Lieut. Douglas said it was tough, but sweet, and it might have been used to some extent in Canada before the war ended.

BONAR CHURCH HAS LARGE HONOR ROLL

Ceremony of Unveiling by Returned Officer Took Place on Twenty-seventh Anniversary.

A simple but impressive ceremony was performed last evening in Bonar Presbyterian Church, when just before the sermon, the honor roll was unveiled.

Staging a big burlesque production in these days of advanced burlesque means a costly expenditure.

Bowling averages: F. Bland, 223 wickets; M. Moyson, 112 wickets; A. Buckman, 74 wickets; T. Tunbridge, 76 wickets; J. Priestly, 34 wickets.

SULLIVAN'S DEATH SUDDEN AND TRAGIC

Old Champion Seized With Heart Failure and Died When About to Take a Bath.

Abington, Mass., Feb. 3.—John L. Sullivan, former heavyweight prize ring champion of the world, the most widely known pugilist that ever lived and probably the most idolized, died at his farm near here today as a result of heart trouble. He was 59 years of age.

Sullivan's death had his dramatic side. With him lived George Bush, an old friend, and William Kelley, a 15-year-old boy whom Sullivan had adopted. He was about early after he had stayed up until midnight last night absorbed in a new sultry game. He did his usual rounds around the place, then came into the house and dressed for his trip to Boston. He was just putting on his finishing touches when he staggered and fell across the bed in a fainting condition.

Push, who was with him at the time, saw him fall across the bed. Bush ran for water and dashed it over the former champion's face. Under its effect Sullivan revived. He looked surprisedly about him, sat on the edge of the bed with his face in his hands. He complained of a pain in his heart and a changed look suddenly spread over his face.

Several months ago his wife died and since that time John L. never took the same interest in life that he had before. During this long and cold winter Sullivan kept to his farm. He would sit for hours in his living room listening to the music and speeches from his large talking machine. When he got tired of hearing the records he would go to Boston and buy another consignment.

That Son-in-Law of Pa's

CEDRIC'S GENEROUS, TO SAY THE LEAST.

BY G. H. Wellington

SOCIETY CONDUCTED BY MRS. EDMUND PHILLIPS

It will be remembered that just before Christmas the Girl Guides, St. James' Company, of which Miss Eleanor Fowler is captain, gave two little plays in the parish house for the benefit of the Belgian children. Lady Pellat, chief commissioner, was so struck with the merit of the performance that she invited the company to repeat it at Casa Loma on Saturday afternoon. The proceedings commenced by Lady Pellat taking the salute as the girls marched from the hall into the library and on to the stage which was decorated with the palms and flowers. "God Save the King" was then sung, and in addition to the little plays the guides gave an exhibition of drill and first aid. After the performance tea was served, the girls from little tables, each with its centrepiece of flowers placed in the large dining-room, the grown people being served from the centre table. There were present, in addition to Gen. Sir Henry and Lady Pellat, Canon Plumpton, Mrs. Plumpton, Bishop Bawa, Mrs. Levee, Mrs. Mulock, Mrs. Cawthra Mulock, Mrs. Eaton, Mrs. A. H. H. Mrs. Horne Cameron, Mrs. Frederick Mercer, Mrs. J. B. Maclean, Mr. and Mrs. Kenneth Maclean, Mrs. Boddy, Mrs. Edwin Rogers, Mrs. and Miss Charteris, Miss Stringer, Miss Schell (Woodstock), Mrs. Campbell Myers, Miss Myers, Mrs. J. A. Campbell, Mrs. Brown, Mrs. Anderson, Miss Macdonald, Mrs. King, Mrs. Torrington, Mrs. P. L. Mason, Miss Read, Mrs. Albert Austin, Mrs. Alan Canfield, Mrs. W. J. H. Hope, Miss Burns, Miss Marjorie Burns, Misses Clove, Miss Rita Rogers, Miss M. Bloomer, Miss Honnessy, Miss Beardmore and Miss Yess are going shortly to North Carolina.

Dr. Augusta Stowe Gullen's tea on Saturday afternoon to meet Dr. Cullis and Dr. Howard included close on 100 people. The guests of honor received with the hostess in the drawing room. She wore primrose crepe over satin, with a corsage bouquet of mauve sweet peas. Dr. Cullis looked very handsome in grey. Dr. Margaret Johnston and Dr. Hume assisted in looking after the guests in the drawing room, and Dr. Stewart in the dining room. The table was gay with spring blossoms, daffodils, tulips and mignonettes. Mrs. Edgar Burton presided at the coffee urn, her assistants being Dr. Stowe McKillop, Mrs. Wodehouse and Mrs. Fred Gullen. The presidents of the university alumnae were present, and the women medical students, with the members of the various medical men and professors connected with the university, Lady Falconer, Dr. MacMurphy, Mrs. Hueson, Dr. Margaret Gordon. The musical program was much enjoyed. Miss McFarland playing with much feeling and brilliance, and Mrs. McVievers sang very sweetly.

Col. J. B. Miller and Mrs. Miller are in Ottawa. Major Eaton has returned to Ottawa. Mrs. Lavoie Hertz invited a few people to tea on Saturday afternoon to meet Mr. Rudyard Chennoviere, the French poet and composer. Mrs. John Macdonald poured out tea, and there were present Mrs. Arthur, Mr. and Mrs. Victor Caythra, Signor Morando, Mrs. R. S. Williams, Mons. Descamps, Miss Gough, Miss Betty Green, Miss Tungerford, Mrs. Tritton, Miss Hertz looked well in taupe velvet with slight relief of ermine. The guest of honor charmed everyone with the magnetic quality of his voice in recitation, his pronunciation being a delight to listen to.

"Columbus Hall" spoken today will be magic words to renew pleasant memories in the mind of the young people present at the dance given there on Saturday afternoon by the Lord Nelson Chapter, I.O.D.E. One of the guests who heard and defined the exact charm of the entertainments given by this chapter, but having been at one meant they were certain to be at the next. Miss Maud Weil, the regent, who looked her best in spite of her long and arduous work in munitions, wore midnight blue satin and chiffon with silver lace, and the smartest of velvet hats, received the guests. Her companions were Mrs. A. E. Gooderham, Mrs. E. F. B. Johnston, in silver grey cloth and satin with slight relief of ermine. Mrs. R. S. White, Mrs. George H. Gooderham and Mrs. Alexander Bunton. Mrs. H. J. Maclean, second vice-regent, looked handsome as usual in black velvet with deep girle of jet; Miss Muriel Ernie, who is such a splendid organizer, was in black with a deep red rose on the corsage; Mrs.

Saunters Thru The City Shops

Now that music is so universally enjoyed we accept it as a matter of course, and give little thought to the struggle of the early composers or to the time when music of any kind was forbidden. It is hard to conceive of a world without music, of a law that would forbid music—yet we find such to be the case during the thirteenth century! Harmonious melodies seem to have become so large a part of our life today that we hardly realize what it would mean if the suggestion of some people were seriously taken into consideration and music banished during the war, as in the days of the Puritan parliament. Life would be robbed of its greatest beauty and solace. In the midst of sorrow and a war-weary world music is one of God's gifts to the people, and is easily counted as one of the necessities of life.

WAR MENUS

How to Save Wheat, Beef and Bacon for the Men at the Front—Issued From the Office of the Food Controller for Canada.

MENU FOR TUESDAY

Breakfast: Scrambled Eggs, Toast, Coffee.

Dinner: Baked White Fish, Mashed Potatoes, Creamed Celery, Stewed Fruit Pudding, Lemon Sauce.

Supper: Black Bean Soup, Scotch Oat Cake, Buckwheat Pancakes, Brown Sugar Syrup, Tea.

The recipe for black bean soup, mentioned above, is as follows: Black Soy Bean Soup—1 cup cooked black soy beans, 4 cups of cold water, 1/2 onion, 1 stalk celery, 1 level teaspoon salt, 1/2 level teaspoon pepper, 1 level teaspoon mustard, 1 level teaspoon fat. Cook onion in fat. Add beans, water and seasonings. Simmer one hour. Serve hot.

When stitching pockets on aprons and shirts or any other garment that the is stitched on, you will find that they will not rip off so easily if the stitching is begun about half an inch from the top, and stitched upward, then downward. When you come to the other side, stitch downward the same distance as you stitch upward on the other side.

HEALTH TALKS BY WILLIAM BRADY MD.
NOTED PHYSICIAN AND AUTHOR

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only first initials of general interest are printed in this column. Replies are answered by mail if written in ink and stamped, and if possible, a diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

Inoculation Tests in Asthma

Pure spasmic or bronchial asthma, occurring in paroxysms without apparent cause, and between attacks presenting no sign of inflammation, which the disease may be diagnosed, is due to protein sensitization. The source of the specific causative protein varies in different cases. Every one has heard of persons who suffer an asthmatic seizure when exposed to the dander of a horse, or even a towel. And many asthmatics have discovered that some such food protein as that in lobster, oyster, clam, egg white, cheese, pork, or even milk, is the exciting cause of their attacks.

There is now available to every physician scientifically prepared in several dozens of different proteins for inoculation tests in cases of asthmatic and other diseases caused by protein poisoning.

The tests are simply made. For each protein to be tested a minute scratch is first made on the skin of the arm. A drop of the protein extract is placed on the scratch. Within a few minutes, not longer than half an hour, a characteristic reaction appears around the scratch inoculated, that is, if the patient is sensitized to that particular protein. If the patient is not sensitized no reaction develops and we know that particular protein has nothing to do with the asthma.

When the specific protein is thus discovered, it becomes plain how to escape the seizure. If it is a food protein, that food must be absolutely avoided; or else the patient must be rendered immune to the protein poisoning by a series of gradually increasing doses hypodermically administered. This latter plan has proved curative in many instances.

If the protein is of external origin, such as that of a horse, all animals a mile or so around the patient's domain, or else the patient must be immunized against the protein by gradually ascending doses administered.

To those interested we shall be glad to send a brief monograph on asthma. Asthma, however, isn't always asthma. Breathing and difficulty of breathing may come in paroxysms in various other diseases as well, such as chronic bronchitis, emphysema (ballooning of the lungs), uremia from kidney disease, and edema or watery droopy of the lungs from heart disease.

Persons with true spasmic asthma seem perfectly normal between attacks. Of course true asthma may occur in an individual with any other disease mentioned. True asthmatics commonly give a history of attacks of hives or erythema (general itching eruptions), which conditions are merely variations of the protein poisoning.

QUESTIONS AND ANSWERS.

Specialist Fans.
My wife has been affected for two years with arthritic deformities. This was the diagnosis made by the family physician. A specialist we consulted a year ago told her it was rheumatism and that she must not eat sour things. She likes grapefruit and other acid fruits, and the family doctor tells she should have such fruits regularly, but in view of the specialist's advice we should like to have your opinion. (T.C.)

ANSWER—Must have been a silk hat specialist. His office smelled of iodofor, didn't it? Your family doctor is right. The fruit acids are wholesome additions to a diet irrespective of joint disease.

How Bright's Affects the Stomach.
Please tell me how Bright's disease (nephritis) affects the stomach and bowels. (B.W.S.)

ANSWER—Chronic or recurring dyspepsia is sometimes a symptom of Bright's disease. Diarrhoea is sometimes indicative of Bright's disease.

Albumen.
Will albumen in the urine cause droopy, and if so is there a preventive if developed? (C.C.L.)

ANSWER—No. Albumen in the urine is only a sign of possible disease, not necessarily kidney disease. Droopy is a common name for edema or watery infiltration of the tissues, and occurs in various diseases, most frequently from heart muscle failure.

THREE DAYS' CAMPAIGN.

Ottawa will raise \$500,000 for Canadian Red Cross and patriotic funds, the campaign to last three days—March 6, 7 and 8. This year the officials decided to double the amount to be allotted to the Red Cross fund. Last year one-eighth of the total amount subscribed was given to the sister fund, but this year one-quarter will be set aside for Red Cross purposes. In 1917 \$510,000 was raised.

WOMEN'S AUXILIARY, C.A.D.C. meets Tuesday, Feb. 5, 8 p.m., Dental College. Speaker: Mrs. John Finlayson. Tickets for musicale Feb. 12 obtainable at meeting.

"He wouldn't have done that when we were first married!"

Six months after the ceremony George was hurrying himself out of the house without the good-bye kiss. Helen spent sleepless nights and tearful days over his changed demeanor. Had he grown tired of her? Was their happiness at an end--so soon.

But poor, foolish, little Helen did not see that her very vigilance was driving the man to indifference. She was taking the spontaneity out of their love---was demanding instead of believing.

And when she finally sees her mistake, and opens wide the door to Faith,---is it too late?

You can find it out by reading "The Woman Who Changed" which starts next Monday in

room, where one listens to the new electric player piano, and in the other parlors where the many designs of upright pianos are shown, there comes the conviction that Mason & Risch have made the making and selling of musical instruments a lifelong study.

One Delightful Place.

Downstairs, and marble stairs too, one goes to find the Victrola section. In many soundproof parlors are people waiting, all enjoying the demonstration of new records which are always coming in.

One has only to go to this department and ask for a demonstration to hear and enjoy, free of charge, the best and finest of musical selections.

One of the "slogans" of Mason & Risch is "Thousands of records," and just a glance at the great shelves convinces one of the truth of the statement.

A Musical Home.

Home without music of any kind is a home lacking a vital necessity; there is danger there. Nearly all women recognize this and try to make their home attractive by adding some music to the daily life. "Most people," said the Mason & Risch salesman, "realize the value of music in the home life, and we have found the war has not stopped the buying of pianos or Victrolas, but we feel the conditions which govern production keenly. It is harder to build a piano today than three years ago, and if the war continues it will be increasingly difficult to obtain material and skilled workmen."

Canadian Triumph.

I suppose few Toronto people think of this magnificent building as a triumph for Canadian resourcefulness and skill. It was in 1879 that Mason & Risch exhibited for the first time a piano built by Canadians and were awarded two diplomas and a gold medal. After that came other worldwide honors which have made this firm familiar household names in hundreds of Canadian homes. It is after a visit to this great home of music

THE IDEAS FOR AND ABOUT THE FARMER

HOW TO MAKE BETTER MARKETS FOR STANDARD BRED HORSES

Galt Man Proposes Formation of District Breeders' Associations and Restricting the Meetings to Ontario Breeders' Classes to Encourage Local Breeders--Calls for Discussion of His Plan.

The Farm Editor will be glad to publish the views of other readers interested in the Standard Bred Horse. Editor Live Stock Department.

World Newspaper Company, Dear Sir: Amid all the talk of increased production of live stock in our province, has not the time arrived for a discussion on how to make a better market for the farmer who raises standard bred horses? Clydesdale classes and army remounts have reached the place where the producer is almost sure of a remunerative outlet, but the most superficial observer is compelled to admit that the standard bred horse is, in so far as fair market values go, solidly "up against it." And this is in spite of the fact that the leading horse shows over the border, he is beginning to catch up the coveted "blue" ribbon over either hackney or thoroughbred.

Before me lies, as I write, the official program of the just C. N. E. held at Guelph last month. At the Toronto Exhibition there was a total of eight entries in standard bred three, two, and one-year-old stallions, and a total of five entries in standard bred three, two and one-year-old fillies. In the corresponding age classes for Clydesdales there were nine stallions and 16 fillies; in other words 13 standard bred as against 25 Clydesdales. To be sure the prizes for the latter breed were more numerous, and in not a few cases of higher value, which suggests the pertinent question (not however to be considered in this communication) "Why such discrimination?"

Stimulation Needed

At the Guelph fair in December last there were six standard bred stallions two years and under, and three fillies in Canadian bred stallions, and three fillies; in other words two years and under, and 23 fillies; the ratio of standard-bred to Clydesdales being nine to 59. Surely this recital of facts is evidence of a production of standard bred stallions, if not a revival, at least a stimulation of interest.

Readers who have followed me thus far will almost unanimously ask, "How can it be done?" At the solution to be offered some may smirk, some may sneer, but if a few are led to think and act, the airing of the question in your columns will not be in vain. And here the writer wishes to say he has no intention of knocking any association or any body of men engaged in racing as a business. His purpose is to awaken, if possible, the present indifferent interest in standard bred horses and their market, and to awaken a new enthusiasm in the production of a class of horses that should need no boosting. And with such outstanding sires of Axworthy, Bellini, Bingen, Heir-at-Law, Jay McGregor, McKinney, Peter the Great, and Topsy, to mention but a few, others—as are now standing for service in Ontario, it cannot be disputed that some of the best strains in almost every breed of the province.

Plan Outlined.

The plan in mind is the organization of district breeders' associations. There may be some difficulties in the way of so doing, but its accomplishment is surely not impossible. As a great seller once said, "Impossible is the adjective of fools." The writer's conviction is that right in Ontario today there is a chance to do something. We have three splendid centres for the focusing of such an effort: London, Toronto and Ottawa. The district associations could be called western breeders', central breeders' and eastern breeders' associations. All three of the centres above named have ready-made exhibition plants with half-mile tracks and good stands, and which, in respect to facilities might perhaps lease for a week each season, or co-operate with the established authorities during their annual fair week, thus adding a new

PREPARES HIS POULTRY WITH CHOPS AND MILK

Newmarket Man Received High Prices for Chickens. Excellent Quality.

B. W. Howard recently sold to a buyer eight chickens, weighing 58 pounds in all, at 95c a pound, netting him the handsome sum of \$114.14. This sale was at the rate of \$2.39 a bird. There is money in raising chickens when values are as above quoted. They were real chickens, not Mr. Howard's and not scrims as it is only too often the case with fowl put up for sale on the market. When asked what was the secret of his success, Mr. Howard replied that before marketing them he feeds his birds some days on a preparation of chops and milk.

Condensed Information for Farmers and Their Clubs

News of the Crops and Farms From All Parts of Ontario.

AYLMER.

A meeting of the Aylmer Poultry and Pet Stock Association was held on Friday night, when the treasurer's report showed that after all claims had been paid in connection with the exhibition held here a few weeks ago there remained in the bank \$30.30 and \$1.60 in the treasurer's hands. The following officers were elected for 1918: W. D. Swackhammer, president; George Robins, first vice-president; Harry McKinney, second vice-president; D. King, secretary-treasurer. The executive committee consists of C. A. Thompson, (honorary president), J. A. Gillett, J. A. Gillett, J. L. Charlton, J. A. Gillett, J. L. Charlton, J. A. Gillett, J. L. Charlton.

NEW HAMBURG.

The public sale of stock and implements of the late Michael K. Yantze, on the Grand road, was a great success, the total sale amounting to over \$7000. Two of Mr. Yantze's purchased farms, Michael R. Yantze taking the east 150 acres and Christian R. Yantze the west 100 acres.

One hundred and fifty thousand of the farmers of Ontario are to receive a copy of the Ontario Department of Agriculture. Upon every page are a score or more of timely suggestions or reminders that will keep the farmer from forgetting some things that are often overlooked. A separate full length sheet gives the farmer data of the most valuable nature in regard to live stock breeding, seed preparation and other important phases of farm work.

MELBOURNE.

Melbourne Agricultural Society appointed the following officers and directors for the current year: President, Francis Howe; vice-presidents, D. J. McTaggart and Malcolm McNeil; secretary-treasurer, Frank McLean; directors, H. D. A. McKenzie, Wm. Stevenson, Thomas Carruthers, J. Fletcher, J. B. Cornell, James Sutherland, Ross McCracken, Wm. Graham, Thomas Hardy; auditors, Gilbert Hyndman and W. G. Robinson. A good report was given for the past year. The society decided to enter the standing field crop competitions during the coming season.

KITCHENER.

There was very little produce brought to the market Tuesday. A number of farmers brought small loads of grain to the chopping mill on Tuesday afternoon. Every sleigh carried a scoop shovel.

MOUNT ALBERT.

There were over 500 birds shown at the Huron County Poultry Association's show, held in Goderich.

MINTO.

Richard Wilkin of the 6th concession of Minto sold two choice Short-horn and one choice Jersey cow to J. H. Hoover of Minto, who is shipping a carload of horses and a carload of choice cattle to the west.

GREY.

James Botz is renewing old friendships in Grey. He sold his farm on the 14th concession to J. Henry Hoover of Minto, who is shipping a carload of horses and a carload of choice cattle to the west.

GODERICH.

There were over 500 birds shown at the Huron County Poultry Association's show, held in Goderich.

SARNIA.

Eight and one-half tons of oleo have been shipped into Sarnia by one maker since the war was lifted.

LAKEVIEW.

Thomas Bennett, of Lakeview, has sold his 100-acre farm on the lake shore, to George Stephens, of Saskatchewan, who takes possession March 1. Mr. Bennett will move to the beautiful new home he has just completed on his 65-acre farm on the first concession.

LUTON.

E. D. Crandall had a very successful sale of farm stock, implements, etc., last Monday, at his farm east of Luton. Mr. Crandall is giving up farming and will move to St. Thomas the first of the week.

ALVINSTON.

The annual meeting of the Broke and Alvinston Agricultural Society was held in the council chamber, Alvinston, Saturday afternoon. The reports of the officers showed the society to be in good shape financially and from an organization standpoint. The school exhibit of the last fair proved to be such a success that it was deemed advisable to make this department a feature, and a grant of \$200 was made for this purpose.

ARTHUR.

The boys who are taking the short course in agriculture had an enjoyable and profitable day on Friday last, when they spent several hours in Guelph, where they were shown through the Agricultural College buildings by R. H. Clemens, B.S.A. They also visited the court house, where the county court was in session. Here they found Reeve J. M. Kearns anxious to do all in his power to see to the enjoyment of their trip, seeing that they were shown through the buildings and well received everywhere.

AURORA.

A meeting of great importance to farmers will be the annual meeting of the Farmers' Club to be held in the town hall on Tuesday afternoon next. W. E. Burnaby of the Highland Lake Farms and president of the United Farmers' Company, and G. A. Grodie, president of the Newmarket Club, and others will address the meeting. Mr. Burnaby will have a message for the farmers which they are expected to read. He is an interesting speaker and a man with up-to-date ideas. A musical program will be given by Mrs. C. Bostwick, Miss Grace Peck and W. D. Richardson. Chas. Laska at two o'clock by S. P. Fouts, Esq. A special invitation is extended to all ladies. Every farmer should attend this house is represented at this meeting.

GRAND VALLEY.

Is there money in hogs? Here is something that indicates that all is not lost, or that the work of preparation of the porkers for market is not all unprofitable. On Monday, Ansley King brought to Grand Valley one lot, containing 18 hogs, that weighed 4010 pounds, and brought him \$711.77. —Grand Valley Star.

KITCHENER.

A few months ago a campaign was carried on in Wellington County to increase the production of hogs. Now similar campaigns are being conducted in the towns and cities. Last week a number of farmers brought small loads of grain to the chopping mill on Tuesday afternoon. Every sleigh carried a scoop shovel.

MOUNT ALBERT.

There were over 500 birds shown at the Huron County Poultry Association's show, held in Goderich.

MINTO.

THE TIF.

From Simcoe Reformer. Said Farmer Bill to Farmer Joe, I think the price of hogs too low; it should be fixed at an advance, unless 'tis done I'll take no chance in keeping swine, and feeding swill. Oh, I don't know, said Joe to Bill.

They fixed the price of wheat, you know.

And that's not fair, said Bill to Joe: I'd better feed it to my stock, and let the food controller talk. I'd leave more money in my mill that might be so, said Joe to Bill.

To Farmer Joe said Farmer Bill: Men should be left our farms to till. We work so hard ourselves, you know. It comes blamed tough to labor so. And money in the bank to blow; I'll make a kick, said Bill to Joe.

They want our money, that's no go; They'll not get mine, said Bill to Joe: They'll only spend for the war, are: That makes us farmers mighty woe. We've done enough against the foe. Let others fight, said Bill to Joe.

That patched-up government, said Bill. I've had enough, shut up, keep still! You get right out, and there's the door!

Men, food and cash, against the foe: It's up to us, this war, said Joe. —One of Them.

HOGS VS. DAIRY COWS.

"I have made more clear money on hogs kept on a ten-acre field, in the past year than I made on a \$13,000 farm with a herd of cows averaging over 10,000 lbs. of milk a year."

This statement was made by Mr. G. A. Gillespie, M.L.A.

Part of the ten acres was in potatoes and beans. The rest of the field was in rape, sown where an old sod had been turned under. One hundred and fifty hogs had the run of this rape pasture. Besides this they were fed 1,000 lbs. of buttermilk and \$700 worth of mill feed and grain. The man who looked after them was paid \$400 and board. The hogs sold for \$4,300 and, after allowing wages and interest on an investment of \$4,500, there was \$1,000 to the good. Besides this there was the value of the manure which the hogs distributed over the land on which they pastured. On the farm I had the year before, a cow had presented an investment of \$13,000, even with a herd averaging 10,000 lbs. of milk, I only had 5-1-2 per cent. interest and all expenses were paid. —Newmarket Express-Herald.

NAPANEE FARMERS TO CO-OPERATE.

Napanee.—About 75 representative farmers from the county have organized themselves into the Richmond Farmers' Co-operative Association, Limited. The organization has been effected for the farmers of Lennox and Addington to handle milk feeds in carload lots, as the Dominion Department of Agriculture is co-operating with farmers' organizations all over the province to secure an adequate supply of feed for farmers to raise the extra hogs they promised as a result of the greater hog production campaign.

HOLLAND AGRICULTURAL SOCIETY.

The annual meeting of the Holland Agricultural Society was held Friday afternoon, Jan. 18.

The officers and board of directors were all re-elected. The officers are: President, A. Findlay; first vice-president, S. H. Brees; second vice-president, J. Dudgeon; secretary-treasurer, G. W. Collins.

 - Sec. 4, 1st prize—Miss Derwent (840), Jas. Tilt, Brampton, No. 6.

CANNOT BE SURE BY APPEARANCES

That Experienced Farmers Cannot Always Pick Best Milker Proven.

ONE CERTAIN METHOD

By Keeping Sample Milk Records, True Value is Assured.

Altho it is well understood that certain characteristics in the appearance of a dairy cow indicate her probable milking value, yet it is not always easy to pick a winner just by appearance.

The following incident is worth consideration: At a recent farmers' picnic a prize of \$10 was offered to the man placing in his correct order of production the first three cows whose records were from 6000 up to 14,000 pounds of milk.

A CARLOAD OF FISH DIRECT TO FARMERS

Haddock and Cod Coming This Week to Lambton County.

Petrol.—A carload of fresh frozen haddock and codfish from Nova Scotia, packed in 200-pound boxes, will arrive in Petrolia early this week, and be sold in unbroken boxes at 9c per pound, at any point in the county of Lambton. This enterprise is to help out the most conservation idea. It is made possible by the Ontario Government co-operating with the food controller's office at Ottawa, and thru the agricultural representatives for Lambton, W. P. Macdonald, manager with the Farmers' Co-operative Clubs to distribute the carload. This is the first car of fish ever imported into Ontario and handled in this way.

HOLLAND AGRICULTURAL SOCIETY.

The annual meeting of the Holland Agricultural Society was held Friday afternoon, Jan. 18.

The officers and board of directors were all re-elected. The officers are: President, A. Findlay; first vice-president, S. H. Brees; second vice-president, J. Dudgeon; secretary-treasurer, G. W. Collins.
