AN ADDED FEATURE WILL BE A SPECIAL OF-FER IN MEN'S SWEATER COATS AT \$4.95

Big, Heavy Coats, in Jumbo stitch, with shawl collar, two pockets and double ribbed cuffs, in plain shades of grey, navy, maroon or brown, in sizes 38 to 42. Special, \$4.95.

Fuel shortage and lessened heat this fall and winter means that the great majority will take to wearing more woolens, to make up the deficiency. Wool, with its heat-retaining and non-conducting qualities, adapts itself to the varying temperatures: In summer it keeps the super-heated air out; in winter the body heat in, thereby protecting the wearer from sudden chills, making it the ideal material to wear from a health point of view. Certainly there's hardly any other material that gives longer service or better fitting satisfaction. Such reliable makes as:

Ceetee, with double back and front. Sizes 34 to .40. Two-piece style, per garment, \$5.00; sizes 42 to 46, \$5.50.

Wolsey, an "English-made" combination, in light natural shade, with closed crotch and close-fitting cuffs and ankles-Sizes 34 to 42. Per suit, \$8.00.

AT \$2.50 IS THE "RAMESES" BRAND OF UNDERWEAR FOR BOYS.

Of English make, of a mixture of wool and cotton. Guaranteed unshrinkable. Shirts have double breast; drawers suspender tapes; garments are strongly sewn on seams; have beige facings and pearl buttons. Sizes 22 to 32. Per garment,

Men's Pyjamas, of heavy-weight flannelette, in assorted blue stripes and patterns, on light grounds, with military collar; breast pocket, fibre silk frogs and girdle at waisthand frogs and girdle at waistband. Sizes 34 to 46. Each, \$2.50.

Men's Neglige Shirts, in "Emery" or "Manhattan" brands, the former brand having soft double cuffs; the latter laundered cuffs, both made in coat style, and of woven cloths in attractive and distinctive stripe designs of blue, black, tan, helio or green, on plain grounds, and in assorted sleeve lengths. Sizes 14 to 17½. Each, \$3.50.

Men's Work Shirts, of medium weight khaki colored drili, "EATON-made," with attached lay-down collar, single band button cuffs and two breast pockets, with button-down flaps; seams double sewn throughout. Sizes 14 to 18. Each,

Men's Neckwear, in attractive floral, all-over, conventional or diagonal striped designs, also novelty check patterns, in rich colorings; some in silk and cotton, some in satin finish, others in fibre silk and cotton. In grey, cadet, garnet, maroon, helio, purple, black and green, of various hues. Each, 75c.

Men's Sweaters and Sweater Coats, are all-wool, in plaine cardigan, jumbo or fancy stitch; sweaters in pull-over style, with double roll collar, and tight-fitting cuffs, color trim on neck, cuffs and bottom of skirt, such as green and tan or brown, red and black on white, or green and brown on fawn. Some are in plain shades; coats have heavy shawl collar and two pockets; procurable in grey, brown, tan or Each, \$8.00.

### If You've an Overcoat to Buy You'll Be Interested to Know

That For Quality of Cloth and Value a Better Collection of Coats Than These Priced From \$18.00 to \$25.00 Would Be Hard to Find.

This assertion is made, knowing that for the most part these are "EATONmade," and "EATON-made" clothes are an outstanding value of the day.

Care in the selection of the cloths, care in the tailoring, has gained for them this distinction, and to cap all they're priced as moderately as possible. But come in and judge for yourself.

At \$18.00 are Coats in belted, formfitting and slip-on styles-typically young men's styles. Of grey homespuns, dark brown, fancy tweed effects, showing green flake. Also real brown herringbone and check tweed mixtures.

The Trench Coat, knee length, with belt all around, patch pockets, quarter lined. Some with convertible collar, sleeve with raised seam and with cuff.

At \$20.00 is the "Acme" Doublebreasted, Form-fitting Coat for young men. In knee length, cuffs are piped with velvet, material is a heavy mouse grey Whitney cloth, soft and rich in texture, like velours. Another is of heavy winter-weight

sturdy tweed mixture, in grey and black check. In double -breasted "Trencher" style, with belt all around.

At \$25.00 is a hand tailored dark grey cheviot, in the single - breasted Chestersemi-fitting style, with velvet collar: fly front, and in knee length.

MANY ABSENT FROM SCHOOLS. How to Avoid It, and What Health Officers Advised to to Do if You Think You Have Contracted It.

Detailed instructions respecting the prevention of influenza were issued officer of health for Ontario, said

by the provincial board of health yesterday afternoon as follows:

We are confronted by an epidemic of influenza which will affect more than half of our population in all probability. There is a shortage of physicians, nurses and hospital accommodation. The health and efficiency of the civiman population must be maintained. It is the patriotic duty of every citizen to avoid influenza and keep in good health. To avoid influenza:

Avoid contact with other people so far as possible. Especially avoid crowds indoors, in street cars, theatres, motion-picture houses and other places of public assemblage. Avoid persons suffering from "colds," sore throats and coughs.

Avoid chilling of the body or living in rooms of temperature below 65 de-

grees or above 72 degrees.

Sleep and work in clean fresh air.

Keep your hands clean and keep them out of your mouth.

Avoid expectorating in public classes Avoid expectorating in public places and see that others do likewise.

Avoid visiting the sick.
Eat plain, nourishing food and avoid alcoholic stimulants.

## ALLIED LEADERS STUDY PEACE NOTE AT PARIS

London, Oct. 7.-Whether the allied governments will make a collective reply to the chancellor's proposition or not it is as yet unknown. probable that the allied statesmen they have the full terms of the Ger-man appeal before them.

"So much is said in the press about the question of closing schools, churches, theatres, etc., as an effective measure in checking the present outbreak of influenza that the Provincial Board of Health deems it advisable to issue the following state-

blage if it is deemed advisable to do so.' And what the board advises regarding this measure we have said.

"The weight of public health authority is against closing such places, except perhaps in country districts, for the following reasons, viz: In cities and towns it is impossible to prevent children commingling in the streets and towns it is impossible to prevent children commingling in the streets and playgrounds where they are without the supervision found in the schools. Hence closing schools is more effective in country districts. Closing schools is economically wasteful and usually has no influence on the course of an outbreak of disease like influenza. Children are less likely to infect one another in the class room than in the home or on the playground.

"As a rule better results will be achieved by a daily inspection of school children, such as for example is maintained in cities like Toronto. Not Much Danger.

"There is not great danger of spreading the disease in churches, it theatres and other assemblages, if these places are well ventilated. WHEN SOLDIERS NEED

System of Education Required During Winter, Says Sir Robert Falconer at Canadian Club.

During the winter months the soldier has more time on his hands in France than in the summer, and it is during this time and while in England as we'll as during demobilization that some educational system is needed. Sir Robert Falconer, in an address before the Canadian Club yesterday at luncheon, outlined the meaning of the recent order-in-council at Ottawa, sanctioning a department of educational zervice in the Canadian army. "It is during demobilization," continued Sir Robert, "that men will have much time on their hands." Agreat proportion of the work to be done will be of the lower grades of instruction, such as reading and writing. There are also the higher grades of study which will be undertaken, in agriculture, commercial training and ensineering. Also classes will be organized to prepare the men who had started their university training to continue their course where they had left off before they went to the war. In conclusion, Sir Robert, said the whole object of the department would be to help the men to employ their time usefully, and to maintain the morale of the soldiers on a high level.

When Brian left his sentence unfinished, because just at that moment Claude Beckly joined them, he escaped a scathing rebuke which trembled on Ruth's lips.

"Well, here I am. Yes, I'll take a smoke, thank you," Beckly said as brian pushed the box lying on the table toward him. Then, facetiously: "Did you give him a good talking to, Mrs. Hackett? He deserved it."

"No indeed!" Ruth braced herself for the ordeal. "Brian and I never give each other what you call 'a talking to,' do we, Brian?"

"Not so you could notice it," he relied with a twisted sort of a smile.

"He always was a lucky dog. Be-

fore he married he always carried off all the pretty girls and left the rest of us moping. Now he's got a wife who lets him go right on having a good time and doesn't nag him. For goodness sake tell me, 'Are there any more at home like you?"

Ruth laughed, she couldn't help it. Claude Beckly was the most ridiculous creature she ever had met.

"Oh, don't be a grouch, sit and smoke a while," Beckly said, helping himself to another cigaret.

## **PROCLAMATION**

Issued by His Honor the Lieutenant-Governor of the Province of Ontario.

And whereas the saving of human life, thrift, and the prevention of loss of property through destruction by fire, is an aid which every one should give willingly to the community at large;

And whereas the reckless and impoverishing fire waste that confronts the people of our Province is appalling;

Therefore, believing that the loss can be minimized only by awakening in the public mind a universal watchfulness against carelessness, accumulation of rubbish and unsanitary conditions;

Because of this great need and in order to arouse a sense of watchness, carefulness and cleanliness, and to create a greater personal ponsibility in reducing the number of preventable fires;

We have thought fit, by and with the advice of our Executive Countor Our Province of Ontario, to name, and do hereby name Wedness

## 9th DAY OF OCTOBER, 1918

## FIRE PREVENTION DAY

And We do hereby urge that on this day, throughout our Province of Ontario, attention be called in schools and public places to the conditions that exist and to the need of immediate action and co-operation on the part of everyone; and special exercises, addresses and other means be employed to impress on the public mind lessons of Fire Prevention.

To insure the success of this great Clean-up Campaign it will be necessary to have the hearty and harmonious co-operation of all who have for their objects civic, social and industrial betterment.

A few moments afterward they bade Beckly good night and left the garden. They took the bus, which (fortunately Ruth thought) was so crowded they could not sit together. "GIRLS FROM FOLLIES" FEATURE STAR BILL

Opening with the usual matinee, the "Girls From the Follies" began a week's engagement at the Star Theatre Monday. The show is featuring Fred (Falls) Binder in the leading comedy role. Those who follow burlesque know that this in itself is a guide to the best there is. "Here and There' is the caption of the clever farce given by the company. It is chiefly composed of fun and music, with no attempt whatever at a plot. "Mysterious Marie," a real comedy illusion, is one of the cleverest things ever attempted on the burlesque stage. Scenery, costumes and cast are all that could be desired to make a good show.
High above the audience on the curtain hangs the service flag of the Star Theatre employes. There are 31 stars, 27 blue and 4 red. One of the stars is for First Lieut. Philip W. Stair, son of W. F. Stair, of the Star Theatre. Lieut. Stair is at present in France with the depot supply battalion, United States army.

FIND CRIMES COMMITTED AGAINST SERES GREEKS

Athens, Oct. 7.—Premier Venizelos, in visiting Seres, Macedonia, which has been occupied by Greek troops, found that of the 24,000 inhabitants, 5000 hadand the Meuse River continue to advance, despite greater efforts by the Germans to increase their resistance.

A German counter-attack against our right centre near Cunel (three miles west of Brieulles) temporarily slowed up our progress. An extremely heavy bombardment and the stiffest kind of fighting is under way along this whole front.

AT THE MADISON

One never gets tired of "A Daughter of the Gods," which is being shown at the Madison Theatre for the first half of this week. There have been other spectacular film productions in plenty, but none in which beauty of scenery is so allied to poetic charm or in which the fanciful element plays so prominent a part. Annette Kellermann is marvelous altogether. In fact, her wonderful aquatic feats must be seen to be believed.

YSAYE ON THURSDAY.

Save her own skin, even at the expense of her allies, said George Nicoll Barnes, member of the war cabinet, in a speech at Derby last night. The tatest offer showed no change of heart and no change in the German system. The peace proposal only indicated that the Germans realized the change in the military situation and the shifting of the balance of power.

Speaking at Manchester, he described the German chancellor's speech as great advance towards peace. Nevertheless, when scrutinized, the offer revealed the time-worn German cynicism. Turkey and Bulgaria were left to their fates. Austria was to be the only one to be cut up, but Germany, who caused the war, was to be the only one to be war, was to be the only one to be cut up, but Germany, who caused the war, was to be the only one to be cut up, but Germany, who caused the war, was to be the only one to be warded and Drow in the said of the s

Schedule Drafted and Play Will Start Next Week -Rugby Gossip.

Representatives of University Schools and St. Michael's College, along with Sec-retary Hewitson of the O.R.F.U. met last night at Central Y.M.C.A. to arrange a schedule for the above-mentioned teams and Hamilton Collegiate. The latter's representative failed to appear. The following schedule was arranged:

Oct. 16—U.T.S. at St. Michaels.
Oct. 19—Hamilton Coll, at U.T.S.
Oct. 26—St. Michaels at Hamilton.
Oct. 36—St. Michaels at U.T.S.
Nov. 2—U.T.S. at Hamilton Coll,
Nov. 9—Hamilton at St. Michaels. Board of referees—Leonard Smith, Reg DeGruchy, Wm. Marsden, Dr. Arthur Wright, Wm. Mallett, Frank Robbins.

The 125-Pound City Rugby League series is off to a fine start. On Saturday at the Don Flats the Hebrew Literary & Athletic Club disposed of the Baches team by the score of 11 to 10, and thereby shewed their class. Each team made two touchdowns, which were of the fluke variety. The other point was scored by a kick to the deadline.

Great praise is due the Hebrew Lits for their victory, as this happens to be their first season in the Rugby game; also most of the tea m are playing Rugby for the first time; in fact, only five on the present team have played before. For the winners, Chas, Moses, the Lits apptain, was the best man for his team, his great line-plunging materially aiding in his team's victory. Swartz at outside wing did some splendid tackling, as did Gutsen. Red Boehnech, who is in the army, showed by his great tackling that if he ever gets a chance at the Huns we will know what to expect. Taylor did some good punting, and Shear at quarter-back was as cool as ice.

For the losers, Maxwell, centre half, was the best man, playing a cool and steady game right thru.

Lansbers, who is coaching the Lits, eartainly tackled a hard job when he undertook to handle a green team like the Lits, but you can imagine how elated Landy was when his pets walked off the field with their first victory under their beat. hes team by the score of 11 to 10,

Beaches senior City League team handed Queen's Unique Club a walloping on Saturday to the tune of 53 to 0. The losers were never dangerous, Beaches' line breaking thru at will. ### STRANGE STORY IN SUB CAPTURE

"Cupid" Black, the former All-American guard of Yale, now an ensign in the United States navy, is said to be a prisoner of war. Strange stories are being told of how he happened to become one.

Black was aboard an auxiliary cruiser crossing the Atlantic some time ago, one of the stories tells when a U-boat sprang up suddenly directly in front of the auxiliary

Black, the junior officer, was on deck when the sub commander boarded the ship and demanded its immediate surrender. The Boche spoke such perfect English that Black began to converse with him. "I don't want to talk to you, Mr. Black," the Teuton officer declared. "I want to see your captain; where is he?"

"Cupid" was naturally surprised to hear the submarine commander call him by his Christian name, and very meekly asked how it happened that he knew it.

"I ought to know you if any one does," answered the officer, "I played opposite you on a Harvard team"

Then something happened. Black, together with two other officers, was ordered aboard the submarine. An American destroyer was then sighted, and without attempting to destroy its prey the U-boat dived with "Cupid" still aboard.

Black's capture has been verified by official reports.

WAY back in 1851, E. B. EDDY began the manufacture of matches in Hull. It may seem that there is no

connection between matches and the other products listed here, but there is a real, logical and economical connection.

Good matches require soft, smooth-fibred pine. But the match factory receives many grades of pine, together with wood of other sorts. It will not make good matches, but it is quite satisfactory for other products which are derived from wood pulp. So we make matches only from the wood which is suited for that

With the Canadian Army in the Field. Oct. 6—(Via London, Oct. 7.)—Saddened tho they be by the heavy price of victory, the people of Canada will thrill with pride when they come to read the full story of the wonderful stand their troops made during the early days of last week, against an enemy massed and determined to wrest from them their conquests. Galfant and heroic episodes are innumerable. Battalions, companies and little knots of men stood their ground against wave after wave of assaulting troops, supported by the greatest massing of machine guns this war has produced. It is the penalty of storming troops, such as the Canadian corps, that they sometimes create for themselves, in their impetuous advance, unprotected flanks. The salient they drive into the enemy line becomes enfladed, and if power is not at hand to widen it out into a practical front the troops in the apex must either fight it out against overwhelming odds or fall back. The latter is not the lesson the Canadian corps has learned, and it was this desperate clinging to positions. tactically untenable, that contributed to our heavy casualities. Incidentally it was just such stands that stemmed the enemy waves and frustrated his savage efforts to win back Bourlon Wood.

you do with it?

Not all of us know that we are packing around with us every day a potential source of trouble that may produce disease or even death. Ninety per cent of human illness is caused or aggravated by a clogging of waste in your bowels.

If you try to blast away that decaying, germ-breeding waste with weakening pills, salts, castor oil, laxative mineral waters. etc., you are like the man with the bomb—carrying it around with you while you hunt for the neutralizer.

You'll never find one. There isn't any. The thing for you to do is to stick to your schedule of bowel movements as you do to your tooth brush. Get rid of that source of danger before the germs back up through your system and hit you with something you recognize. Capetown, Oct. 7.—Spanish influenza thrown by the Bolsheviki. Capetown, Oct. 7.—Spanish influenza has obtained an extraordinary gr'p in South Africa and is spreading extensively. Many shops in Capetown have been closed and every business is finding it difficult to carry on. The epidemic is usually over quickly in the case of whites, but is mostly violent among the natives. The public services are severely disorganized. Kimberley's trade and mining industries are at a standstill. A terrible toll has been taken among native workers, and the dead are being buried in batches hourly.

WAR STOCKS BREAK;

York. New York, Oct. 7.—War stocks made urther unmistakable response today to atest peace overtures of the Teutonic

ments. Dividend rails scored substantial advances on further extension of federal credits and utilities augmented last week's gains as a result of the government's equitable agreement with the American Telephone Company.

Home developments bore no direct relation to the course of prices, altho to nags reports at important terminals were mixed, while business conditions in western and southern sections suggested by their haiting attitude the interesting charges in the foreign situation.

United States Steel contributed over 25 per cent, to the day's diversified dealings, recovering only a small fraction of its 2 point reversal. Independent steels made very indifferent railies from gross secessions of 2 to 5 points.

Trapscontinental rails and grangers retained part of their I to 2½ point gains, but oils, motors and shippings canceled much of their substantial advantage in the general pressure at the close. Sales amounted to 635,000 shares.

Figures of Liberty issues accompanied the progress of the current drive, and foreign bonds were featured by the strength of French municipals Paris 6's gaining 1 per cent. Total sales, par value, aggregated \$5,875,000. Old United States bonds were unchanged on call.

HERON & CO., 4 COLBORNE ST. Chicago, Oct. 7.-Big downward swings Get the News on whole attain great volume. The market closed heavy, 6% to 9c net lower, with Adanac November \$1,22% to \$1,22%, and Decem-Dome Extension ber \$1.21 to \$1.211/2. Oats finished 11/4c to 2d down, and provisions off 27e to \$1.

At first the corn market made only At first the corn market made only comparatively moderate response to the announcement that Germany had asked an immediate armistice, and for negotiations of peace. It soon became manifest that the initial absence of any extraordinary selling pressure was due to recent drastic liquidation by holders, and to the fact that would-be short sellers were greatly in doubt as to the likelihood of the Germans' request being granted. Subsequently, tho, buying support became so apparent that the speculative element grew aggressive and made a series of attacks on prices, especially after midday. In consequence, last transactions were virtually the lowest of the session.

Oats fell with corn, but were steadfed somewhat by the belief that considerable export business had been done.

Provisions merely reflected the weakness of grain and hogs. Sent Free Upon Request. HAMILTON B. WILLS (Member Standard Stock Ex.)
