**O**UR large stock is at your right hand; come in to-day, come next week—in fact, come any time, and we will show you Men's Overcoats that are marvels of the Tailor's Art. Coats with expertly hand-padded fronts and shoulders, and that individuality of style which is always found in Eaton Garments.

### EATON OVERCOATS ARE BUILT ON THE RIGHT LINES

**BECAUSE** of the perfect modelling, you will find in the style that which is best suited to you.

**BECAUSE** Eaton Overcoats are gaining the approval of men who demand the prevailing fashions.

**BECAUSE** they are fashioned by experts—built by experts—and contain all the elegance and goodness to be found in an Overcoat of merit.

#### PRICES WITHIN THE REACH OF ALL

**6.00**

Fine-finished black beaver cloth. The material is made in England; the coats, here, in our own factory. Single-breasted; fly front; about 44 inches long, with centre back vent; velvet collar; serviceable cloth linings; sizes 34 to 44. A nice, dressy coat for little money.

**10.50**

A very finely finished Kersey or Beaver cloth, in black. This fabric is one we have sold for some seasons, and can assure you that, for wear and appearance, it will please you. Coat is made in 46-inch length, with broad lapels and close-fitting collar. Serviceable linings. Well tailored every way.

**15.00**

Your choice of two fashionable fabrics—both imported English materials: one a black Melton, the other a dark Oxford grey soft-finished Cheviot. Coats are tailored in first-class style, with stoted lapels, hand-worked buttonholes, hand-padded and hand-felled collars. Italian body linings.

**16.50**

Imported English Black Melton Cloth, which weighs 28 ounces to the yard; this material has a rich bright appearance. The coat is 46 inches long—Chesterfield style; it shows what it has undergone—considerable hand tailored work, having hand buttonholes, bluff edged lapels, hand-padded and felled collars, is double stitched (to give raised seam effect); lined with good quality twilled body linings; mohair sleeve linings.

**18.00**

Your choice of a fine Oxford grey Rosamond Cheviot, or a "Carr's" Melton, in black only; fabrics weighing 29 to 40 ounces to the yard. Fashioned after American designs, 46-inch Chesterfield. Hand-stoted bluff edged lapels, hand-padded and felled collars, buttonholes worked by hand; in fact, equal to custom work. Fine quality body linings and interlining that will hold them in shape.

**20.00**

As Black Melton Overcoats are again the most popular garments for this Fall and Winter, we will sell Isaac Carr's fabrics in four different qualities. The cloths stamped Carr's are certain to give satisfaction. This one we make up well in Chesterfield style, the collars hand-felled and hand-padded, bluff edged lapels, the seams double-stitched five-eighths of an inch, which gives it a decidedly custom work effect; the coat is 46 inches long and splendidly lined, sleeve linings of satin.

**22.50**

Isaac Carr's Melton Cloth, 34-ounce material, in black only. 46-inch Chesterfield coat, as worn this season by New York's best dressers. Note the shape of the lapels, hand-padded and hand-felled collars, hand-worked buttonholes, shoulders and sleeves lined with black satin, body linings of Beatrice twill. Perfectly tailored in every respect.

**25.00**

Isaac Carr's ideal 32-ounce black Melton cloth, manufactured in the City of Bath, West of England. These cloths are simply famous. Coat is fashioned after the latest American model, 46 inches long, with hand-stoted bluff edged lapels, silk velvet hand-padded collars, hand-worked buttonholes, best Beatrice twilled Italian body linings, and sleeves lined with satin. We believe it invincible.

SHARING OFF THE CITY TO THE EAST.

The question of annexing the territory between the City of Toronto and the Town of East Toronto (now in the city) south of and along Danforth Avenue was considered by the Ontario Railway and Municipal Board yesterday.

Members of the board of education don't seem to care where or how money goes. The proposal to create a medical health officer for the public schools is very much open to question.

The proposal to appoint such an official at a salary of \$3600 a year—ten months in the year—is just about the height of absurdity.

The proposal that a member of the board of education should resign to become an applicant for the position is sickening.

While the developments in the Balkan provinces have undoubtedly produced a highly critical situation and are a menace to European peace, it would be a mistake to regard war as inevitable.

As a matter of fact, Italian laws in regard to the sale of land are much more stringent in Italy than in Canada, and a man is not allowed to carry a knife there any more than he is here.

THE ITALIANS AND THE KNIFE.

Editor World: There is a common belief in the United States and Canada that the knife is part and parcel of life of Italians, and what is more, that its use is admitted in their mother country, and that the law there is more lenient and indulgent towards the criminal class.

A visitor from the United States or Canada will never hear in an Italian court of justice scathing remarks about their nationality. An Italian judge or magistrate will never give a severe or precatory reflection upon the customs of foreign nations.

POLITICAL INTELLIGENCE

According to the Hon. G. P. Graham, minister of railways, the London information that the Grand Trunk Railway was planning to withdraw from the Grand Trunk Pacific project, is "pure boah."

There has been no intimation to me nor to any member of the government directly or indirectly, that the Grand Trunk Pacific intends to back out of the bargain," said Mr. Graham.

CITY IS STILL HOPEFUL OF GETTING STOCK YARDS

The board of control yesterday decided to ask the city council at Monday's meeting to authorize the city's negotiating for the Union Stock Yards.

The mayor was absent, but it was stated by Controller Spence that his wish was favorable. The controller wished to ask the city council to delegate power to the board to negotiate, but his colleagues did not think council would entrust him with the task.

W. J. Mackey, holder of one share preferred stock, asked for some assurance that the city would go ahead, saying that otherwise he would refuse to sell his stock.

A communication to the board of control from Judge Winchester stated that as chairman of the board of audit of criminal justice accounts, he had no authority to order the fees payable to the police court clerk paid to the city treasurer in future, instead of to the police court clerk.

The letter continued: "If the police court clerk is willing to allow the auditor to decide to whom the payment of the accounts presented to him for audit should be made, the auditor will undertake to do so. Otherwise, as I understand it, the auditor has no authority in the matter. I may say that the police court clerk has presented no accounts for audit since the former's ending March 31, last, and further, that the city treasurer pays such accounts to the police court clerk charged with the audit of the same."

The city solicitor will report. The board decided on getting a letter from Curran Morrison, chief clerk at the police court, giving notification of the resignation of Mr. Best, an assistant, to have a report from the city treasurer on reorganization of the police department.

Alex. Dow's Terms. Alexander Dow, the Detroit electrical expert, wrote that to act as consulting engineer of the city in the matter of the construction of the power distribution system, he would charge as follows: Retainer, \$1200 for the first year. Thereafter it would be \$100 monthly, and in addition thereto he would charge \$20 per day for the time he would be occupied on the city's affairs, and re-occupancy of the actual traveling expenses.

The court was taken. The court yesterday concluded the hearing of appeals in the fifth ward. They were all of a minor character.

ALDERMEN WILL VOTE ON WHETHER TO ATTEMPT NEGOTIATIONS OR NOT.

The board of control yesterday decided to ask the city council at Monday's meeting to authorize the city's negotiating for the Union Stock Yards.

The mayor was absent, but it was stated by Controller Spence that his wish was favorable. The controller wished to ask the city council to delegate power to the board to negotiate, but his colleagues did not think council would entrust him with the task.

**THE WEATHER**

The sun took all kinds of chances yesterday morning early—yes, long before most people had turned out for their last snooze. He stayed away from work without leave of absence. "He couldn't get to the job," was delayed on account of fog, haze, mist, etc. "That's no excuse," replies the manager of the great majority of citizens, "and if you were in the class with the rest of the folks, boss around I'd put another man on your work without a second's warning, but—well—ahem—excuse, don't do it again."

The sun must have received his quietus early, for we never saw his face until evening, and then in a rather shamefaced manner; just a "how-d'ye-do" and a dodge back again as he best, as he wished to argue the question.

Raincoats, umbrellas, overcoats, frowns, scowls, looks, etc., were much worn, especially the latter three, which were universal evidence. It wasn't a nice day in any particular; business was no good, and there was no pleasure anywhere except on the sunny side of the main grade, and at the most interesting portion of an appealing story.

But, better luck to-day, even if it is cool.

**METEOROLOGICAL OFFICE, Toronto, Oct. 8.—(3 p.m.)**

**ELABORATE "CON" GAME.**

Brewery Driver is Tricked by Phone Message and Boy.  
Someone sure did put up a con game on William Mercer, 12 Bellshaw-avenue, a driver for the Copeland Brewing Co., yesterday afternoon.  
As Mercer was delivering beer at the Clarendon Hotel, West King street, he was called to the phone. A voice explained that Mr. Davies of the brewery company was speaking and told him to go to the Charles Hotel on Yonge street, and there receive a C.O.D. parcel from Dunlop, the Yonge street florist, for which he should pay \$20. He went to the St. Charles and asked one of the bartenders if such a parcel had been left. He was told that it had not. On the street outside he met a 18-year-old lad, who said he had the parcel. Mercer took the parcel and gave the boy \$20, for which the boy signed a receipt in the bar of the hotel. The lad signed the name George Davidson.  
Then when the lad had disappeared up Yonge street, Mercer became suspicious. He went to the Dunlop store to enquire if all was right. There they knew nothing of the matter. He called up the brewery office and was given a like reply.  
The matter was reported to the police.

**CITY OF TORONTO TAXES.**

Mrs. Scott, southwest corner of Bloor and Shaw streets, has been granted a permit to erect a three-story apartment house on the west side of Shaw street, a short distance south of Bloor.

**FOSTER AND BRISTOL DRAW CROWDED HOUSE**

Former Challenges J.A. Macdonald to Produce Garbled Letter—Latter Refers to Labor Matters.

The joint mass meeting of the Conservative candidates in North Toronto and Centre Toronto at Broadway Hall last night attracted an audience which filled every seat, and many late comers had to stand.

Among those on the platform were: E. B. Osler, Geo. H. Gooderham, M.L.A.; John Shaw, M.L.A.; Dr. Wallace Secombe, ex-Ald. Thomas Dunn, Dr. G. S. Ryerson, J. N. McKendry, Fred Dane, Frank Somers and George A. Kingston.

Mr. Burns presided. The chairman expressed satisfaction that the electors of the Dominion now had an opportunity to replace the Laurier government with a government composed of capable and honest men.

W. K. McNaught, M.L.A., North Toronto, described the opposition to Hon. George F. Foster, North Toronto, in the last election it would be remembered that a telegram from Ottawa was read respecting the much talked-of Young street bridge by Mr. Foster's opponent. After the election nothing further was heard of the matter from Ottawa.

The speaker said Mr. Foster were now resorting to forgery by issuing a circular, the use of the stamp upon which is practically a forgery. Mr. McNaught said that when he was a young fellow and did not know as much about politics as he does now he was a Liberal. But the old Liberalism in its editorial attacks on Mr. Foster's opponent. After the election nothing further was heard of the matter from Ottawa.

Some restriction would have to be placed on the members. More discretion for curbing debate might have to be given the speaker.

Mr. Lobb referred to the possibilities of the markets of the Orient. Great Britain was more than half an Oriental power. The weight of responsibility in Canada was growing.

"Canada needs statesmen as well as politicians and wire pullers," he said. "The federal government must face world politics."

The New Secretary.

Edmund Bristol, who was received with a cheer, was prolonged for some moments. He referred to Sir Richard Cartwright as the man who carried the fiercest cross of Liberalism in the history of the party when Liberalism had fewer friends than it had to-day.

He had had seen a picture of Mr. Borden under which were the words, "Canada's Coming Premier." Had the party managers thought he was going to be victorious they would have used the words, "Canada's Next Premier."

"We'll keep him coming and we'll keep the premier who is already on the job," asserted Mr. Murphy. He commented on the fact that Mr. Roblin had gone home, "with his voice in bad repair." Hon. Mr. Bowser "had gone home, too."

Mr. Murphy had not come to say an unkind word of Mr. Foster. He knew him as an amateur gardener and would not be quiet, inoffensive, and would have kicked up such a rumpus during the last few weeks.

He asserted that he was in Quebec where no Conservative candidate was running, he said, and they could gamble now on what the majority would be.

Transportation and population are claimed to be the two great needs of the country.

The old days immigrants had come to Canada as a sort of half-way house on the road to United States.

An eminent economist had estimated that an immigrant as a consumer brings \$400 worth of goods to the country. During the 12 years of the administration 1,850,000 immigrants had entered Canada. Of these new citizens 400,000 were from the United States and had estimated that these people had taken into Canada in effects, money invested in lands, and other things worth \$100,000,000. In all Canada had been enriched to the extent of two thousand million dollars, or almost sufficient to redeem the national debt.

Much of this was due to Hon. Clifford Sifton, who, with Sir Richard Cartwright, had chiefly incurred the enmity of their Conservative opponents.

Mr. Murphy defended the government's immigration regulations. They had been criticised for letting some into the country who were not physically and mentally sound. It took the months to decide whether the immigrants were sound.

He assured an enquirer from the audience that there was no cabinet secret, and answering some "scandal" charges said the man who made the valuation of the site of the Intercolonial Railway shops was now the Conservative candidate against Mr. Emerson.

Those on the Platform.

Among those on the platform were: Senator Jaffray, Senator Cox, R. S. Steele, J. Wilbur Kay, W. G. Kay, John J. Ryan, C. W. Kerr, H. Dickenson, F. Mearns, E. W. Fielding, W. K. George, G. S. Somers, Dr. McMahon, George Campbell, John Ewan, and J. M. Clarke.

**HOW WE HAVE GROWN**

Continued From Page 1.

Canada. The western provinces had nearly one million acres more under crops than all the older provinces of Canada put together. Much of the expenditure he indicated was simply paying out of one pocket into another as for example, the postal office, railway and provincial subsidy operations.

"If there is graft," said Sir Richard, "then let the grafters be punished. No money is to be given away. No conditions before and during the period of Liberal administration." In twelve years the increase in trade has been six times as much as in the last eighteen years of Conservative rule. The increase in population had quadrupled.

He would not say how bad conditions had been, but placing the Conservative usefulness at zero the increase was one hundred per cent. (Laughter.)

Two or three years of economy may be needed because of the exigencies of the financial situation," he said. "It will be necessary to do down expenditure and to avoid new engagements and unproductive expenditure until conditions change."

Professing Wrangle.

Sir Richard attacked the opposition for taking up the time of the house and ministers in a protracted session. The whole time of the administration was taken up with wrangling, he complained. The ministers instead of attending to their administrative duties, were badgered and baited day and night.

Some restriction would have to be placed on the members. More discretion for curbing debate might have to be given the speaker.

Mr. Lobb referred to the possibilities of the markets of the Orient. Great Britain was more than half an Oriental power. The weight of responsibility in Canada was growing.

**WESTON RIOTERS GUILTY.**

Sensuous Jury Brings in a Verdict Against Thos. Noble, Robt. York and Harry Good for Assaulting Workmen at Moffat's.

A verdict of guilty was rendered by the sessions jury last night against Thos. Noble, Harry Good and Robert York, charged with assault on Isaac Kerrigan, Norman Hanson and Isaac Kerrigan, when the strike was on at the Moffat stone works at Weston. The prisoners were allowed out on bail of \$50 each, to appear for sentencing at the end of the session, but before going Judge Winchester warned them that if there was any further trouble at Moffat's he would call on them at once.

Allib was put forward and sworn to by all three as a defence, but Reuben Teal and Miss Sarling testified to having seen the prisoners in the vicinity of the spot where the assault was committed.

There are only half a dozen married women teachers on the public school staff. They are: Mrs. Bradley, Duke street, whose husband is in the postoffice; Mrs. D. C. Mead, Winchester, who married a fruit farmer two years ago, but was known to the school officials as Miss Corrigan, until this year; Mrs. Isabella Munro of Park school; Mrs. R. G. Kendal, Grace street school; Mrs. Tolton, Shirley street school; Mrs. J. W. Warburton, Elizabeth street school. Mrs. Tolton is the wife of a contractor for two years, but according to Trustee Levee, rides around in her husband's auto.

**KEMP ANSWERS SLANDER**

Continued From Page 1.

an eminently fair man, and it was for the electors to stand by a tried and proved man. He then proceeded to make a workmanlike job of laying out the Liberal government. Despite its dishonest and corrupt Conservatism, it had been proven reckless, dishonest and corrupt. The Conservative desertion of his free trade principles, Mr. Foster said that Mr. Fielding had swallowed himself. Conservatives had given twelve years' prosperity, why not the thirteenth? In five months trade and revenue had fallen off alarmingly. The lumber, cement and cotton industries were in bad shape, and last year \$45,000,000 iron and steel manufactures had come in from the United States.

Cheers, more cheers and still more greeted Mr. Kemp, who was not interrupted by a strong address. Rumors had been circulated about a business with which he and other decent and humane people were associated. Begun in 1885, it had developed under the great difficulty of competing labor. Its success was all in the building and plant. Last year business depression had come like a bolt from the sky. No man had had the largest number of employees in its history, whereas the number was now down to nearly nothing.

"The greatest lie ever spoken in Toronto" was the brand placed by the speaker on the report that he had discharged British subjects to take their jobs. No man had had his wages reduced one cent. (Applause.) Mr. Kemp believed the clouds were lifting and that soon as many as ever would be at work. Injured employees received their pay till they recovered, and could also join or re-join, as they pleased, a factory benefit fund. Their dues were not paid and they were always taken back.

After stating that he had been unable to discover whether Mr. Russell was a Liberal or Conservative, the speaker pressed on to the timber and other armament deals. Two or three of them, proven to the hilt as they had been, should be enough to crush the government. If men conducted private business in this way they would be put in jail. He charged that the collapse of the Quebec bridge was due to gross criminal negligence by the government in not having an inspector.

Hon. Dr. Pyne electrified the audience with the government's power message.

Gamey's Still An Idol.

R. R. Gamey's ill is still unfeared, so his reception showed. Mr. Gamey had been adopted as the best of the party system of government. It was up to the electors to vote for straight candidates. The Laurier government was putting independent candidates in the field to belaud the issue. A vote for Russell was not a vote against the reign of graft and corruption, and Rev. J. A. Macdonald knew it. Hon. Dr. Pyne electrified the audience with the government's power message.

**GOLF CLUB IS WILLING TO ANNEX ON TERMS**

Municipal Board Will Look Over Property to the East on Nov. 4.

Very little opposition developed to the annexation to the city of the portion of York Township lying between East Toronto and the city, before the Ontario Railway Board yesterday afternoon.

One or two large property holders desired to be left outside and the Golf Association, represented by E. B. Osler, submitted that city taxation would make it impossible to continue the club, which consisted of young men relatively poor. Mr. Osler said that the club would be reasonable in their demands, and A. F. Lobb for the petitioners suggested a fixed assessment as a possible solution of the difficulty.

The hearing was adjourned for the scrutiny of the petition before the secretary in the interim till Friday, Nov. 6, at 2:30 p.m., for proof of the petition. A view of the territory will be taken by the board on Wednesday, Nov. 4, at 2:30. Parties who wish may have legal representatives present.

A. F. Lobb appeared for the petitioners; W. C. Chisholm, K.C., for the Golf Association; J. J. Foy, for the city; F. E. Hodgins, K.C., H. M. Mickle and R. J. McLennan for objectors. The township was neutral in the matter.

Mr. Lobb reported that 1113 ratepayers were on the roll, and that 653 of them had signed the petition. Frank Hodgins, K.C., expected to reduce this by objections to 552, but Mr. Lobb was confident. Mr. Hodgins argued that the great strength of the petition lay in the southeast corner of the tract asking for annexation, a pocket between East Toronto and the city.

Mr. Lobb declared on the contrary that the heaviest percentage of votes was along Reid-avenue and Danforth-road.

Mr. J. McLennan wanted the property of his father, Justice McLennan, left out. There were 50 acres in it.

Mr. Mickle said he did not appear for them, but he understood the Maughan estate of 8 acres, the Foster estate and the Fitzgerald estate of 27 acres opposed annexation.

"If people are not enough interested in the annexation to appear here we are not going to trouble about them," remarked Chairman Leitch.

Mr. Lobb submitted that the omission of any territory would be ultra-void of the city council's resolution.

Chairman Leitch having heard the Golf Club's plea thought it was palpably fair to exclude some of the territory.

Mr. Osler suggested that the board should go out and see the property. They did not wish to oppose the progress of the city in any way. They had been there for 30 years, and had spent large sums of money. Every city must have golf links, and it would not hurt the annexation scheme in the least.

Mr. Lobb asked if a fixed assessment would meet their views. A fixed assessment was not the only

**WESTON RIOTERS GUILTY.**

Sensuous Jury Brings in a Verdict Against Thos. Noble, Robt. York and Harry Good for Assaulting Workmen at Moffat's.

A verdict of guilty was rendered by the sessions jury last night against Thos. Noble, Harry Good and Robert York, charged with assault on Isaac Kerrigan, Norman Hanson and Isaac Kerrigan, when the strike was on at the Moffat stone works at Weston. The prisoners were allowed out on bail of \$50 each, to appear for sentencing at the end of the session, but before going Judge Winchester warned them that if there was any further trouble at Moffat's he would call on them at once.

**DAN IS DEPART.**

Some hours after Dan McMillan left the Calgary police station a special edition of The Calgary News was published containing the article which forms the basis of the charge of criminal libel made against McMillan by Editor Bob Edwards of The Eye Opener.

thing to be considered, thought Mr. Mickle. They could stay out. Mr. Osler said they did not want to be unreasonable. They had a cheap entrance fee as any club in Canada.  
Mr. Lobb thought if they did not accept a fixed assessment they were making a distinction between rich and poor.  
"You cannot stay out," he declared. "I take the full responsibility of saying that from your geographical position."  
Chairman Leitch: "As you put it, Mr. Osler, it is merely a question of terms."  
Mr. Lobb: "That is all I ask."  
Mr. Osler: "You will find the Golf Club as reasonable as any individual could be."  
The mayor of East Toronto: "If the property is left out it will be difficult for us to get the conveniences we want."  
Chairman Leitch: "We will go over the ground."  
**Bollermakers Stay Out.**  
MONTREAL, Oct. 8.—It developed this morning that one class of workmen, the bollermakers, have determined to continue the strike against the C.P.R. They have refused to accept the terms agreed to by the leaders of the union, and will continue the strike on their own account.  
David Jones, 298 Lippincott street, has purchased 50 feet of land fronting the city on the east side of Lansdowne-avenue, about 400 feet south of Bloor street, for \$20 a foot, assessed at \$14 a foot.

# A Page of Emphatic Values

We're aiming straight for the biggest business to-morrow we've ever done in an October Day. We understand perfectly well the conditions that command trade, and have ready such a striking array of new goods as to command immediate interest. The New Store is responsible for any number of special buying opportunities coming to us from overstocked manufacturers, and however surprising the values may seem they are only a fraction of all we have planned for October selling. We urge customers in their own interests to shop in the early morning.

## Saturday Will Be a Big Day In the Cloak Department With Values Like These.

**Women's Coats at \$12.50.**  
50 Coats of English Irish and Scotch Tweeds, in brown and light grey stripes, and in black, navy and fawn beaver cloth, made in three-quarter and seven-eighth lengths, sacque and semi-fitting styles; collars of either self material or velvet; trimmings of velvet or self material. Many of these coats sold regularly at \$20.00.

**Two styles of Suits of French Venetian.** In black, green and navy; coats are 36-inch long, semi-fitting; some are strictly tailored, others elaborately trimmed with soutache braid, flare skirts, some with front opening and row of buttons down front; others have panel front and inverted pleat back. Saturday—\$10.00.

**Women's Coats at \$5.00.**  
Our stock of Women's Coats is almost complete. They have been purchased from the principal manufacturers of these garments.

At \$5.00 we are offering five styles, which are very special values. They are made in either black, navy and brown, fawn, black and brown, or tweeds of grey and brown tones, in broken checks and plaids, sacque and semi-fitting backs, trimmed with either strappings, velvet or buttons.

## \$1.50 Ribbons for 48c Saturday

## \$5, \$6, and \$7.50 Pictures On Sale Saturday at \$1.95

Saturday at 8 o'clock will see the clearance of 150 pictures to make room for fall goods. Most of them have been on view in our galleries during the past season. They go at a price which makes it almost impossible for you to pass them over.

The subjects include photographs, "Chandler" pastels, carbon, water colors, and reproductions of well-known pictures. See Richmond St. window. Regular values up to \$7.50. Saturday, \$1.95.

## Quality Dress Goods At Moderate Prices

We seem to be having things very much our own way in Dress Goods, based on surpassing values in really high-class stuffs, and an enormously big range for selection. Our buying is on a much larger scale each year, including heavy stocks for our Montreal store, in addition to the tremendous business you see here. With London and Paris offices to assist the buying and facilitate anything new, we allow no store to give a greater equivalent for your money, and our Dress Goods trade proves us on the right side of every comparison. With the completion of the New Building we shall be able to give the department the room and equipment it deserves. In the meantime we make sure of lively business with such emphatic values as these—

## Ladies' Fine Austrian Broadcloth Suitings.

"Simpson" Broadcloth, in ripple and suede finish, manufactured exclusively for this store. Our contract was the largest ever placed for one quality. Specially treated in the dyeing and finishing and guaranteed positively unshrinkable. A multitude of shades; all the newestest fashions, such as olive, mole, raspberry, smoke, grey, mode, etc., etc., also black.

You will see a display of the "Simpson" Broadcloth in the main aisle of the Dress Goods Dept. There is no perfect light to aid in making a selection. We thoroughly recommend this Broadcloth for its wearing qualities, beautiful finish and handsome, effective appearance. It is equally adaptable to the fashionable draped gown as to the more severe tailored suit.

To introduce this Broadcloth we shall on Saturday offer 2,000 yards, 52 inches wide, for sale at, per yard—\$1.15.

## Distinctive Things For Particular Men

The fact of very many men visitors in the store these days is astonishing us. The crowd after half-price shoes last Saturday was a revelation, and we're planning other attractions equally as good for the special benefit of men customers. We want the trade of every man who values the right sort of economy, and the quality of service we are giving is intended to attract many new customers.

We're having a tidal-wave of business all through the store these days, with prices such as these to help the selling—

# China Enough for a Thousand Homes

Nothing we can print in the newspapers will begin to give any adequate idea of the enormous stocks of China and Cut Glass gathered for this sale. The event is important enough to warrant the best values we can possibly afford, and on account of the new building we have been favored with any number of attractive bargains. That means substantial reductions from regular prices, and many lines below actual cost—the loss in all cases falling back of us. We are not losing this money ourselves, but manufacturers and importers have been glad enough to make a quick clearance of surplus stocks, even at a sacrifice. And in proportion as the business looms into greater prominence you can expect that this will be more and more the clearing house for manufacturers in all lines.

In addition to China and Cut Glass, this page includes other items of equal interest for the home, and equally special. These all go on sale at 8 o'clock to-morrow morning:

Toronto Nurse's Success.

Miss Almye C. Murray, late assistant lady superintendent of the Riverdale Isolation Hospital, is making a name for herself in Grand Rapids, Mich., a city of nearly 150,000 population. About a year ago the medical health officer of that city wrote to Dr. Sheard, executive officer of the isolation hospital here, one of the very best contagious hospitals on the continent, to send to Grand Rapids one of the best nurses for contagious diseases in Toronto, as it was the desire of the Purinton City aldermen to thoroughly reorganize the isolation hospital there by putting it on a sound basis. Accordingly Dr.

Anglican W. A.

The Diocesan W. A. of the Anglican Church met at St. John's Church, West Toronto, Mrs. Webster reported the month's receipts at \$172 and the expenditure as \$197. Three new life members were reported by the secretary, Miss Fanny Jones. The parochial mission collections for the month were given by Mrs. Philip Dykes, the treasurer of the fund, as \$225. All the officers and delegates who attended the triennial meeting in Ottawa gave reports, and Miss Cartwright also spoke on the significance, influences and opportunities of the gathering. After lunch, which was served by St. John's branch, working in conjunction with two town churches, a short afternoon session was held with the Bishop of Caledonia, who is returning to the west after a summer in England, gave

A New Novel by Mrs. Humphry Ward

Here is an Event in Fiction, a great story—an addition to the Aristocracy of Novels. All of Mrs. Ward's women pale before the white fire of the spirit of Diana Mallory.

The Testing of Diana Mallory

Young, gracious, sweet-hearted, Diana Mallory is brought with brutal suddenness into cruel knowledge affecting her dead young mother. Just before the blow strikes, she is betrothed to the man she loves. Therefore to him comes the highest possible privilege—to guard and shelter in time of trouble the woman he loves. And the man—but that's the story. The original paintings by W. Hatherell, R. L. make great illustrations. HARPER & BROTHERS

In Society.

A quiet but very pretty wedding was celebrated on Wednesday, Oct. 7, at 8 p.m., when Jennie, daughter of Mr. and Mrs. Thomas Duck, 5 Triller-avenue, and Alfred Byron Davidson of Toronto, were united in marriage. The bride and groom were unattended. The ceremony was performed by the Rev. W. Deane, in the presence of the immediate relatives and friends of the contracting parties. The bride was the recipient of many useful and costly presents.

BROKER DISAPPEARS.

Last Heard of in Frisco En Route to Vancouver. VANCOUVER, B. C., Oct. 8.—(Special)—C. J. Gwynn of Vancouver, a well known stock broker, has disappeared. The last heard of him was in San Francisco, intending to leave there Sept. 23 for Vancouver. He had about \$1000 in cash with him and may have met with foul play. His affairs here are perfectly straight.

Public Amusements

"The Convict and the Girl," a new play in four acts and seven scenes, by Langford Wood, will be given at the Majestic next week, has many startling and interesting features. The story contains much that is new and original in plot-building, and the pictures of character life prove the author to possess qualities as a dramatist of a very high order. The comedy scenes are bright and laughable and add to the development of the plot. A delightful love interest permeates the play through.

Thurston, the mystic entertainer, now the famous Kellar's successor, comes to the Grand next week, bringing his own company of 25 people, all skilled in the conjurer's art. The program will be entirely new and elaborate, devised, constructed and designed solely to amuse, mystify and entertain. It requires two large scenery cars to transport the equipment, besides 170 trunks and crates, and the sum of \$20,000 will be required to cover the intrinsic value of this elaborate and costly mechanical apparatus and stage display.

In the final conference at Paris last summer between William Gillette, the Grand next week, bringing his own company of 25 people, all skilled in the conjurer's art. The program will be entirely new and elaborate, devised, constructed and designed solely to amuse, mystify and entertain. It requires two large scenery cars to transport the equipment, besides 170 trunks and crates, and the sum of \$20,000 will be required to cover the intrinsic value of this elaborate and costly mechanical apparatus and stage display.

Marie Cahill will have the New York hearing of her new musical play, "The Boys and Betty," at Wallack's Theatre on Monday evening, Nov. 2. This musical comedy is bright and laughable and the powers that be in theatrical affairs are rushing her into New York City for the choice weeks of the season. The contracts were closed yesterday at the Lamb Club, New York, by Manager Burnham of Wallack's and Manager Daniel V. Arthur of the Marie Cahill company. Miss Cahill will be seen here at the Princess Theatre during the week of Oct. 19.

One of the most remarkable achievements ever accomplished on the musical comedy stage, is that of the recently studied American, the celebrated comedian of the Imperial Opera Company at the Royal Alexandra Theatre. Just six days ago Harvey was given the part of Kibosh in "The Wizard of the Nile." This is the role created by Frank Daniels, and the one which made that comedian famous. Daniels studied the part for five months before he would consent to appear in the opera. Harvey has studied it for six days and will appear in the role tomorrow matinee.

Kibosh is said to be, with perhaps one or two exceptions, the longest and most difficult part ever given a comedian in comic opera. Not only is the dialog difficult, but the musical numbers which "Victor" Herbert has supplied for the role are exacting studies in themselves.

The Woman Who Garbs as a Man

Miss Mary Johnson, 50 years of age, is to be allowed to continue to dress in male clothing because, she says, owing to her unfeminine appearance it is the only way she can get along. She is now a successful book-guest. For 15 years she has been disguised.

CONCERNING MR. SIFTON.

E. W. Thomson, former editor of The Globe, in a letter to The Boston Transcript published on Oct. 7, takes up the cudgels in defence of the Hon. Clifford Sifton. Mr. Thomson has been traveling in the west and he gives his article a Brandon color. He refutes the current stories regarding Mr. Sifton's getting-rich-quick and says: Mr. A. C. Fraser, a wealthy merchant of the place, formerly mayor, allows me to use his name as that of one who has known Sifton intimately since boyhood, and who says that Sifton has for years before leaving Brandon in 1896, an income of at least \$10,000 a year as a lawyer, a salary of some thousands as Attorney-General of Manitoba, considerable landed property, and was actually the possessor of sixty thousand dollars cash when he moved to Ottawa and joined the Laurier Government. As to how Sifton made the rest of his money, Mr. Fraser says that he personally knows of two transactions, both perfectly outside the domain of the editor in defence of the Hon. Clifford Sifton. # COBALT-- Mad Race for Mining Claim on Montreal River ---COBALT

## Beaver Makes Excitement On the Mining Exchanges

### Quick Upturn of 10 Points Based on Rumors--Cobalts Are Generally Firm.

World Office, Thursday Evening, Oct. 8. A sharp advance over ten points in Beaver this morning created excitement at the local mining exchanges. This stock sold yesterday down as low as 30, and opened up this morning at 41 1/2. Brokers and traders were mystified at the advance, but purchases of the stock were made by responsible, and it was only when speculators started to take profits that the price showed any weakness. Nothing was known definitely around the exchanges regarding the sudden demand for the stock, but rumor stated that the celebrated Temiskaming vein had been struck, and that insiders were the buyers of the shares. There was excellent support for offerings of this stock through the day, and at the close the buying was much better than the selling. The war scare which had an important bearing on the regular stock markets was not much of a factor in the Cobalt securities. Prices held remarkably well in defiance of speculative short selling and Temiskaming actually advanced against this pressure. Technically the market was closed decidedly strong because of the present large outstanding short interest.

R. R. Bondard (Charles Head & Co.) reports the following transactions in Cobalt stocks on the New York curb:

**Rich Samples of Ore**  
From the Nancy Helen are on exhibition at Local Brokers. Some magnificent samples of rich ore are now on exhibition at the office of Lorach & Gamey, brokers, etc., Toronto-street, which have been received from the Nancy Helen Mine. They come from vein No. 7, which is an extension of the Buffalo vein. Vein No. 7 was located on the surface, but the intention was to work it at the 100 ft. level. It was necessary to run a cross-cut at that level from the main shaft for 127 ft. to reach the vein. This was started and 120 ft. of the distance had been covered last April when it was decided to stop work there. Last week it was decided to finish the cut, and it is now proven that this 7 ft. was all that separated them from a rich ore body, carrying thousands of ounces of silver to the ton. The vein when encountered had a width of three inches, and the wall rock is heavily shot with silver. The car of high-grade ore can be shipped within thirty days. Another proof of the wisdom of getting after your ore in Cobalt mines is thus given. It always pays to do so.

**MAPLE LEAF MINE.**  
Machinery Being Installed on the Property. Assays made from samples of ore obtained on the silver claims in the Temiskaming River district, owned by the Maple Leaf Mining Co., gave \$311.74 and \$314.55 to the ton. The gold properties, consisting of four claims, three of which are in the Rainy River district, and one in Eastern Ontario, with an acreage of 75 acres, on which a mill run has been made, giving a result \$10.50 in gold per ton.

Arrangements are now completed for the purchase of mining machinery and accessories at this morning. The machinery will be installed and in operation by the beginning of January. The total acreage of properties owned by the Maple Leaf Company is 285 acres.

**Change of Time R. & O.**  
The steamer Belleville will leave Toronto every Friday at 7.30 p.m., and return to Montreal every Tuesday. Freight received daily for Montreal and Bay of Quinte ports. Low freight rates. 345

**PLANS FOR TWO FINE BUILDINGS.**  
It is regarded as certain that an English syndicate will secure the Knox College site for a departmental store. A twelve-story building occupying the entire circle, is planned, and the site is being cleared. The store will be a really first-class instrument at a large reduction from the manufacturer's price. Terms of payment will be made easy.

**AN EMPRESS RECORD.**  
The Empress of Ireland left Liverpool about 5 p.m. Friday last and arrived at 7 o'clock this morning. Passengers on board will arrive in Toronto. The Empress docked at Quebec at 4 p.m. yesterday.

**Chances in Upright Planes.**  
Three planes that bear the names of well-known manufacturers are offered by the old firm of Heitzmann & Co., Ltd., 115-117 West King-street, at the special prices of \$175, \$200 and \$225. These are uprights, but slightly used—practically as good as new. The opportunity is exceptional to obtain a really first-class instrument at a large reduction from the manufacturer's price. Terms of payment will be made easy.

The total shipments for the week were 1,388,990 pounds, or 619 tons. Total shipments for the year 1907 were 28,081,010 lbs., or 14,040 tons, valued at \$6,000,000. In 1906, 5129 tons, valued at \$3,900,000.

## BRIGHT PROSPECTS FOR THE CHAMBERS-FERLAND

### Captain Jeffery Makes an Optimistic Report on Output and Vein Extensions.

From a report made to McQuig Bros. & Co. of Montreal, by Capt. Jeffery, on the progress and development of the Chambers-Ferland mine, it would seem that the affairs of the company are in a satisfactory condition. The new ore house for shaft No. 2 is nearly completed and work will be commenced shortly on an overhead cover for the two shafts, so that in a few weeks' time the property will present a more finished appearance than it does at the present time. A five drill compressor has been purchased from the O'Brien mine and arrangements completed for obtaining air from that source, so that what it is getting now from the Nipissing and La Rose the mine should have 12 drills in operation by the end of the month. Rapid progress is being made with the Taylor hydraulic, and it should be possible to obtain a steady supply of air from that source early in 1909.

Over 155 feet of drifting has been run at the 100 foot level of shaft No. 1, which means that more than half of the Chambers-Ferland section of the vein has been explored.

As soon as the boundaries are reached this drift will connect with one on the O'Brien and another on the La Rose, when the vein will be completely broken out down to the 100 foot level. In the La Rose drift the vein is five inches thick at the present time and very rich. The lowest assay of ore taken out of this vein ran over 5000 ounces to the ton and some as high as 9000 ounces. It will probably average \$2,000,000. It is the intention of the management, as soon as the drift has been extended to vein No. 2, to run a cross-cut to vein La Rose line, in the best defined fissure on the property, and at this point is nearest to the shaft.

The shaft will further be extended on the 175 foot level, so that it should be many months before a considerable amount of ore is blocked out in this one vein.

Capt. Jeffery expects to ship a car of high grade ore that will run over \$75,000 in the course of the next two weeks, and that should have a value of \$40,000. He says that after this month they can maintain regular shipments amounting to \$50,000 per month, the wisdom of which has been proved by the Right-of-Way vein completed to the La Rose vein, a distance of about 200 feet, for \$15 a foot. Altogether the situation is pregnant with possibilities.

A favorable point in connection with the mine is the economy with which it is being run. Since July last less than \$9000 have been spent in running it, out of which a house was built for the superintendent.

## CONCENTRATES A FACTOR IN COBALT SHIPMENTS

### Ore Shipments From Mining Camp Now Consist Largely of Concentrates.

COBALT, Oct. 7.—(From the Man on the Spot.)—Cobalt's shipments for the month of September were the largest in the camp's history. Over 322 tons of ore were shipped to the smelters and very little of this was low grade ore. This includes several cars of concentrates shipped from the concentrator mills here. This represents several hundred tons of low grade ore that had to be shipped to the smelters last year, and by the time the freight and smelter charges were paid the mill realized but 60 per cent. of the silver value contained in the ore. At present two custom's concentrators are treating ore on a percentage basis, one at a rate of 43 per cent on all that is desired.

The Muggley concentrator has already shipped several car loads of concentrates extracted from dump ore taken from the Silver Queen, Township and City of Cobalt. This concentrator is capable of treating 300 tons per day.

At the south end of Cobalt Lake the Cobalt Ore Reduction Works are running 50 tons thru the mill daily. On the arrival of a couple more tables and other small parts of machinery the mill will run to its full capacity of 100 tons per day.

At present the ore from the Nipissing No. 63 (or Kendall) vein is being treated here and averages between 30 and 40 ounces of silver to the ton. At the end of the present year Cobalt concentrators will be treating about 800 tons of low grade ore daily, and considering the installation of a mill next spring.

Some alterations are being made on the Coniagias, Buffalo and Cobalt Ore Reduction Works to increase the capacity in each case to 100 tons per day. When this change is effected and the mills in the course of construction are completed the list will line up as follows:

### Is now operating on Lot 7, Concession 1, Township of Buckle.

## RACE NOW STRENUOUS FOR THE WHITE METAL

### Prospecting Parties Paddle Thru Smoke and Fire to Stake a Claim.

COBALT, Oct. 8.—(Special.)—Stories of thrilling adventure, which rival those of the early exploration days, drift down from the Cobalt region to the city dwellers. Wherever there is found great wealth in the untrodden ways these adventures arrive. No more exciting tale has been written in the pages of fiction than is the telling of a mad race for what promises to become a rich mine on the banks of the Everett and Miller Lake on the Montreal River.

For some time the agents of Dr. Barlow, the well-known geologist, and J. Evans, mining engineer, had been prospecting along the banks of this lake when they located a spot 9 miles from where the river widens to the lake. Two days later Ed. Kilpatrick, a prospector, discovered a rich vein of silver upon the same 40 acres, but some distance from the other discovery site.

All parties set out for the recorder's office at Elk Lake City 40 miles distant down the Montreal River. There was no time for delay. The matter was taken under advisement. The claim is said to be one of the really big finds made in the district.

An inspector was sent up to look over the discoveries and after his return the announcement was made that he was anxiously awaited. At 1.30 p.m. on Thursday, Sept. 24, the decision was posted. It re-opened the claim for staking.

Both parties had been prepared for the race. At the far end of the 40-mile waterway up stream to the site of the claim, he had placed canoes. This as these portages ranged from 1/2 mile to 7/8 mile, was a vast advantage.

Five minutes after the posting of the decision both parties were in their canoes. With Kilpatrick was Stephenson, his partner, and for the syndicate, Capt. Smith and an Indian.

The race was killing, and the smoke from forest fires, which were raging in the district at times, almost choked the panting paddlers. Then they came thru narrow stretches of the river, where the trees were ragged on either side blistered the paint upon the canoe.

At the end of his past portage only to find that his canoe had been burned by the forest fires which had left it snugly surrounded in the undergrowth. The seven miles had been covered, but there still remained nine to go. Whether to return and then carry the pack over the long portage or to go ahead thru the long and narrow channel, he decided to run for it as he could not tell by how much he was in the lead.

He and his companion struggled on around the rough shore of the lake. A half of the distance he set about giving the signal to his friend on the point of discovery. It had been a minute apart, five shots of dynamite a claim, he lit a candle and stake the dynamite light the next one. He tried to relight it, but the wind blew it out. Then, throwing caution to the winds, he lit the remaining three fuses with matches.

Gathered about the point where the discovery had been made, the agents of both men ready to stake their claim the moment they were notified by the signal. As soon as the signal was complete, the men drove in their stakes, and the other canoe men arrived upon the scene.

This is the fact that the syndicate interests have entered an appeal against the throwing out of their first discovery.

**Hunt Club Races.**  
The idea prevails in some quarters that the races and gymkhana to be given by the hunt club Saturday afternoon on the club grounds, Kingston, is not the case. The gates will be open to the public, and judging by the excellent program of cross-country races and other events, there should be a large attendance.

**A Priest's Estate.**  
Abraham Nosr, a nephew, has asked probate for the will of the late Rev. Father M. Nosr, priest in the Shuter-street Syrian Catholic Church, who died on the 6th of September, leaving a will dated Jan. 10, and an estate of \$10,000.

## MOTORMAN SAW DANGER. Wrote Asking for Protection at Crossing Where Wreck Occurred.

W. H. Hodgson, a street railway motorman, wrote a year ago to Controller Hocken concerning the dangerous crossing at the intersection of Front and Windsor-streets where Miss Cummings lost her life on Wednesday. City Engineer Rust was notified by the controller and the former wrote to Mr. Hodgson admitting that there was much in his contention and stating that something would be done to protect the crossing.

Mr. Hodgson, on behalf of the motormen, has also condemned the De Cresset-street crossing. He calls attention to this now, because the motormen will not be blamed for an accident due to conditions of which complaint has been made months ago.

WHY EXPORT CONDEMNED FRUIT? Apple dealers in Canada are feeling that the present Fruit Marks Act operates to their detriment and the detriment of Canadian growers.

Now the question is, was that condemnation of apples allowed to go on in England? One dealer says that it was. And a cursory review of the act shows that the inspector has no power to confiscate or order the sale of the goods on this side.

Disease Maintains Embargo Wrong Notions Prevail Among Scotch and Irish

The Arguments Advanced by Mr. Henderson of the Scotch Commission Are Severely Arraigned by Scotch and Irish Journals—Weakness of Their Arguments.

Canadian farmers have heard a great deal about the removal of the cattle embargo in Great Britain, especially of late, during the visit of the Scotch commission.

That its removal would be a beneficial thing to Canada, there can be no doubt at present. This opinion is not shared by all Britons as enthusiastically as it was by Mr. Henderson of Coupar-Angus, whose remarks we quoted at length in our issue of Sept. 4.
