MONTREAL STOCKS

MONTREAL, Oct. 28 (Special). - The stock market continued to decline today and the feeling is gaining ground that the worst is over. Assurance has been given that money will be available if Friday's panic returns and this has done much to restore confidence, so that what liquidation there may be will be attended with less disastrous effects. Still trading is restricted by the scarcity of funds and there is a decided absence of any bullish sentiment. Dominion Steel showed fair gains at 14.34 for common and 41.11 for preferred; Nova Scotia favored, Montreal Power was steady at \$3.24. Detroit at \$1.22. Montreal Street Railway 169, and Union City 78.

WILLIAM BEATTY FELL FROM TEAM; CRUSHED TO DEATH

Frightful Accident to a Teamster on Pond Street This Morning.

William Beatty, of Wickham, N. B., met with a painful death this morning about 11.15 o'clock. He fell from a heavy load of lime, weighing about five tons, his life being crushed out. The affair happened on Pond street. Beatty, who drives for Alexander Gray of Main street, Indian town, was with another double team load of lime passing No. 4 freight shed, Pond street. On each big day there were ten cases, weighing about five tons. Just how the unfortunate man fell beneath the wheels seems to be uncertain. There are a number of versions. One version is that the seat broke; another that he took a weak spell; while a third story is that he slipped. The wheels passed over a man lengthwise, over the neck, chest and one leg. Almost immediately after the wagon passed over him, willing hands carried him into No. 4 shed. The terribly injured man, however, expired as they laid him down. Coroner Berryman was notified and gave permission for the removal of the body to the home of his employer.

NEW YORK FINANCIERS FACE NEW WEEK WITH REHEATED CONFIDENCE

NEW YORK, Oct. 28.-Fortified by the remedial plans adopted on Saturday for the protection of New York's supply of currency, financiers began the new business week in a hopeful frame of mind. They were especially encouraged by the precautionary measures taken in other cities, including the issuance of clearing house certificates at various other centres besides New York, believing that these measures will be effective throughout the nation in keeping supplies of cash within the control of the banks for use in carrying on the business of the country.

The youthful prisoner has a record against him at police headquarters that is not likely to count in his favor when his case comes up for hearing before Judge Ritchie. On June 4, he was arrested for stealing from the till of W. C. Short's, main street, having been caught in the act. On this occasion he was allowed out on suspended sentence. Again, on August 18, he was before Judge Ritchie for collecting money from Times subscribers, and once again allowed to go on suspended sentence.

SIR FREDERICK BORDEN TAKES ACTION FOR LIBEL

METHODIST MINISTERS Much Business Done at Their Regular Weekly Meeting This Morning.

The Methodist preachers' meeting met this forenoon in Canterbury church, Rev. S. Howard presided. The reports of the work in the various churches on Sunday during last week were received. A resolution expressing sympathy with the family of Rev. Dr. Dobson was passed. The resolution reads as follows: "We, the members of the St. John Methodist Preachers' Meeting, would hereby express our deep sense of individual sorrow occasioned by the death of our beloved brother, the Rev. William Dobson, D. D., and our sense of the great loss which the Methodist church in Canada suffers thereby. Dr. Dobson was endowed with unusual intellectual powers which studios application developed through all the years of his ministry. He was an independent and courageous thinker, and gave frank and fearless expression to his thoughts; but he believed with an ever deepening conviction that the Gospel is the wisdom of God unto salvation, and that Jesus Christ is the true Lord of the soul. The emphasis which he put upon the supremacy of Jesus Christ and the abiding authority of His Word was the distinguishing note of his ministry, which, in the mystery of providence, it ended when it was richest and deepest and its power for good was greatest. He was a man of high ideals and transparent sincerity. While all his brethren respected and admired him, those who knew him most intimately loved him most." "We tender to Mrs. Dobson and her children, our sincere sympathy in their bereavement and invoke for them the support of the Holy Spirit of God."

HE WILL SUE A WELL KNOWN BRITISH MAGAZINE.

OTTAWA, Ont., Oct. 28 (Special). - Sir Frederick Borden has instituted proceedings for libel against the well-known British magazine, the "Nineteenth Century." Hamilton Frye, a journalist who recently visited Canada, quoted some statements made by the Eye Opener, published occasionally at Calgary, and forbidden the use of the name. These statements are held to be libellous. The Nineteenth Century left the name of the member out, but it is said that it is easy of proof that reference was made to Sir Frederick.

They were in New York at the time the financial panic was at its height and the scene is described by Mr. Hanington as pandemonium in the streets. They called on Oscar Jones, formerly in the Bank of N. A. in this city but now with the bank's New York office. From him they secured passes to the stock exchange and from the gallery looked upon the wild scene on the main floor. It was a sight never to be forgotten said Mr. Hanington. Mr. Mackay went from Winnipeg to New York where he stayed on a visit. They were absent from the city nearly three weeks.

"THE LATE TENANT"

By GORDON HOLMES

(Continued.) "He must have been, miss. He—" "Must have been? But you saw and heard?" "Jenny kept her head, though she flushed a little. "People often do put on a different way before servants, miss, to what they have in private. Not that I have reason to think anything bad of Mr. Straus. He was a very generous sort of gentleman, always free with his money. What I meant was that Miss—Miss Gwendoline used to speak of him as a lovin' husband. "Jenny caught her breath a trifle. She did not dare to look at Van Hupfeldt, as he had specially warned her against doing so. Like most of her class, she was prepared now to cover any mistake by excessive volubility. "Did you address her as 'Miss Gwendoline,' then?" "Yes, miss. That is the way on the stage, you know. "But this was not on the stage. "Quite right, miss, only ladies in the profession mostly use their stage names in private. "My sister never appeared on any stage, you know. "Jenny became a little dejected. "Of course, miss," she answered tartly. "I didn't know much about my missus's comin' and goin', but she used to go regular to rehearsal. The call was for eleven and two most days. "Violet found herself in a new world. What could have come to Gwendoline that she should have quitted her home and gone away among these strange people? And what had she said that this servant-girl should suddenly show the shew in her? "She glanced toward her mother, who, indeed, was as greatly perturbed as herself. The old lady could scarce comprehend that the talk was of her darling Gwendoline. Then Van Hupfeldt, thinking to lead Violet's ideas into a fresh channel, broke in: "I was sure that these things would distress you," he said in the low voice of sympathy. "Perhaps you would prefer to send Sarah to the housekeeper's room while you look at the documents I have brought." "Violet, in whose brain a hundred wild questions as to her sister's life were justling, suddenly faced Jenny again. "What was my sister's baby called?" she asked. "Henry, miss, after his father. "But why 'Henry,' since the father's name was Johann?" "That is a puzzle, miss. I'm only tellin' you what I know. "And what became of the child?" Why was it spirited away from its mother? or was it not taken away until after her death? "Jenny had been told to be close as an oyster on this matter. "I don't know why the baby was sent out to nurse, miss," she said. "I can only tell you it was never in the flat. "Violet passed a hand across her eyes as though to clear a bewildered brain. This domestic life in a small flat with her sister, who "gossiped" for "hours" with her, yet the girl knew little about a child which Gwen must have idolized. "Then you never saw the baby?" she asked. "No, miss; that is, once, I think," for Jenny did now venture to look at Van Hupfeldt, and his slight nod came at the instant of her denial. He thought the infant a safe topic, in regard to its appearance, and the mother's love of it. Mrs. Mordant, who had been listening intently enough, caught Jenny's hesitation. "It is odd," she said, "that you should have forgotten, or be uncertain of such a definite fact as seeing my daughter's child." "A maid entered with a telegram which she handed to Violet. In a quiet country mansion the advent of a telegram is a rare event. People in rural England regard this curt manner of communication

LIGHT AND DARK FURS COMBINED IN DRESSY SUITS. The combination of valuable furs in contrasting colors is a feature of the novelties of the season. Ermine and sable, or ermine and mink are particularly attractive. The latter is even more than the former, no doubt from the fact that the sable is so very high priced and that a combination of ermine and sable in even the smallest articles means a price more than prohibitive to the American woman of fashion. The muff of this set is formed of three strips of ermine and four of mink, the ermine set with a single tail in the centre of each strip. The neck-piece is a round flat collar of the mink with an inside roll of the ermine, this latter part forming a vest effect, the long stole ends of mink finished with tails and fur jaws. Where the stole ends and collar join there are little mink heads, one on each side, the noses pointing downward and the little ears standing up sharply.

MANY DOCTORS FAILED LEAVES MONEY TO CHURCH

Dr. Hamilton Again Figures in a Case That Puzzled Other Physicians. Halifax, N. S., Sept. 11.—When the statement of Mrs. Stanley, of 148 Angley street, was first given it caused no small comment, and again establishes that as a physician who understands his profession none excel Dr. Hamilton. "For years," says Mrs. Stanley, "I have suffered greatly from a peculiar dragging weakness that resulted from pleurisy and asthma. Doctors prescribed but failed to advise anything of real benefit. A friend urged me to try Dr. Hamilton's Pills of Maudslake and Buttermilk and I bought five boxes. They gave me renewed strength and energy, toned my stomach, enriched my blood, and supplied just what my system needed. No medicine could have benefited more than Dr. Hamilton's Pills, and I believe every woman would be helped enormously by using these pills regularly. They did me more lasting good than all the prescriptions I took in five years. "No man or woman in poor health ever used Dr. Hamilton's Pills without benefit; the depressed, ailing and weak they uplift and strengthen as a trial always proves.

SHORTAGE RELIEVED Acadia Coal Company Will Temporarily Aid the Intercolonial Railway.

Moncton, Oct. 27.—The Acadia Coal Company has relieved the coal situation on the I. C. R. for the time being by promising to fill a large order this week. The shortage of coal on the government railway had reached a stage where it was almost necessary to beg the coal companies to fill orders. The I. C. R. fuel agent, J. W. Clark, returned Saturday night from Nova Scotia, where he visited all the leading mines endeavoring to get orders filled. The only mine to respond, it is understood, was the Acadia Company. The supply promised this week by this company will tide the road over the present shortage, but the same situation will be confronted again unless the Springfield collieries resume operations. The city light and power station was shut down today to save fuel and husband coal for the future.

DOESN'T TAKE OFF HIS HAT TO KING EDWARD

There is just one English noble who don't have to take his hat off to King Edward. This is Baron Forester, whose ancestors in the time of King Henry VIII. were granted this special privilege because of some service he performed for the crown. This was a noticeable feature of the King's coronation, but Lord Forester, after wearing his hat for a few moments just to confirm this peculiar privilege of his family, took his hat off like the remainder of the crowd of English, Scottish and Irish noblemen.

WANING CONFIDENCE CULMINATED IN FEAR

The Explanation of Last Week's Panic as Given by Bache & Co. —Trust Companies and Weak Individual Banks Could No Stand the Pressure.

J. S. Bache & Co., who declare that the New York panic is "the result of gradual, unnecessary, unwarranted and lamentable undermining of confidence," have this day said of last week's events in the financial world:—

Waning confidence culminating in fear and panic has produced a week's record which will go down as one of the most notable in the history of the United States. The story is one of striking events, succeeding each other in rapid succession. Briefly, an attempt and failure to corner a copper stock on the curb, and a collapse in the clearing house, attracted attention to the banking affiliations of those interested in the stock. To prevent undue fear and its results, the clearing house committee took the banks affected in hand, found them sound, reorganized them and guaranteed them. These events concentrated attention on similar situations where banks were controlled or connected with propositions in the nature of promotions. These new situations were treated similarly and all within the clearing house was all right. Then loomed up the weak side of the New York banking situation. The clearing house banks were absolutely solvent, strong in reserve, and not to be disturbed. But there had grown up within the last few days a banking interest outside of the clearing house, in

When the firm of Hill, Pike & Co. wholesalers and importers began business in Calais, Mr. Hill accepted the position of salesman for the company's store in Calais, later going on the road as traveling salesman for the firm. When the late Mr. Hill died, Mr. Hill, Pike & Co. withdrew from the field on the American side of the line, after which he accepted a position as salesman with a firm in Oquossoc, Me. In September, 1906, he entered the employ of Thurston & Kingsbury, Bangor, wholesale grocers, as traveling salesman for the firm. Mr. Hill was married to Miss Annie M. Cameron, of Milltown, who died after a few years of married life. In 1902 Mr. Hill was united in marriage with Miss Nellie Drinnon, daughter of Mr. and Mrs. W. J. Drinnon, of Calais, Me. VANCOUVER, Oct. 28.—News of the discovery of what may prove to be another Klondike on an unnamed branch tributary to the Findlay River, was brought to Vancouver by Inspector A. E. With the melting of the snow and the ice last spring operations were resumed. Free, coarse nugget gold, much of it running \$100 to the pan, was being taken out early in the season when Perry was met by the first outsiders he had seen in two years.

MONCTON NEWS

MONCTON, N. B., Oct. 28.—Special- Secretary Paver, of the L. C. R. Employees' Relief and Insurance Association, has issued its report for the month ending October 25th. The number of deaths was smaller than usual, being four in all. A. J. Munroe, of Moncton, had \$1,000, James McLachlan, Moncton, \$250, and D. Coleman and Alex. Anderson, Halifax, \$1,000 each. Fees and levies for the month are class A, \$2; class B, \$1.20; and class C, 80 cents. Charles G. Moore, retiring secretary of the Moncton Woolen Mills, was on Saturday presented by the employees with a gold watch.

GOOD PROGRAMME READY AT NICKEL

The Nickel commences another week with an even more attractive bill than that of last week. For instance, those who attend today and tomorrow will enjoy a quarter hour's flying trip through the most interesting sections of the Possession, and almost the same length of time will be consumed in seeing the Emerald City of Coleraine, North of the island from an entirely new series of viewpoints—the Giant's Causeway, the picturesque shores of Achill, the famed beauty of Lake Gillarney, etc.

HARKINS COMPANY WILL OPEN TONIGHT

The W. S. Harkins Company, one of the most popular theatrical organizations in the province, will open an engagement at the Opera House this evening and will doubtless be greeted by a crowded house.

THE WEATHER

Forecast—East and south gales, rain before night. Tuesday, unsettled, with occasional rain. Synopsis—It appears probable that a disturbance now centered near the New England coast will develop into an important storm. Rain has fallen throughout Ontario and Quebec, while in the west the weather is fine and warm.

McCarthy, (Captain), J. D. McDonald, J. Fleming, B. J. Murdoch, B. F. Fitzsimmons, B. Gillis, T. R. Gorman, Jas. Saunders. With but four exceptions, this year's team is made up of new men.

THE HOLIDAY

Thanksgiving Day will be observed as a public holiday throughout Canada, and in many homes there will be family gatherings. Every good housekeeper should have her dining room furniture in the latest styles and Amalant Bros., Ltd., Waterloo street, have a beautiful display of buffets, sideboards, extension tables, dining chairs, etc., and those who are about to purchase should do so at this well-known establishment.

PRINCESS THEATRE (FORMERLY BERRYMAN'S HALL)

The Orchestral music furnished by the Princess Orchestra was so greatly appreciated by the patrons of this theatre Saturday night that the management have decided to add this feature to their programme. The pictures were clear and interesting and with one exception were new in this city. In the advertising columns of this paper is the programme for Monday and Tuesday of this week.

A WRINKLE FOR CAKE-MAKERS

If you are your own cake baker—and surely you are—you perhaps have noted the difference there is in flour. There are two principal constituents in flour—starch and gluten. All wheats contain both, but in varying quantities. Ontario flour is rich in starch, while Manitoba spring wheat contains a large percentage of gluten. By combining the two kinds of wheat scientifically a flour is made that gives delightful results, whether for cake, pastry or bread.

A BABY SHOW AT THE CEDAR

There was a splendid collection of babies of all sorts, sizes and qualities in the Cedar on Saturday afternoon. The reason for their presence in such numbers was that the babies were being exhibited for prizes to the prettiest and the noisiest infants in the hall. There were very many babies who would easily qualify in both classes, but the noisy ones were most in evidence.

THE HARKINS COMPANY

The Harkins Company has just come from Halifax, where it made a decided hit. Referring to "The Shadow Behind The Throne" in which the company will be seen tonight, the Acadian Recorder says: "Harkins has the best company he has had for some years, and he has struck the popular fancy in having in his repertoire a play such as The Shadow Behind The Throne. It is a stirring story of life in China, which will be changed three times a week. For the opening bill the management have engaged a Boy Soprano, and he will be heard to good advantage tomorrow night, as well as a night of follow-up. Users will be in attendance and ladies and children will receive special attention. An exit has been provided and the hall is warm and cosy. Watch for the BIG ELECTRIC FIVE. Good, clear pictures and good music should be sufficient guarantee to fill the hall several times. Special holiday bill Thursday afternoon and evening.

THE EVENING TIMES, ST. JOHN, N. B., MONDAY OCTOBER 28, 1907.

The Evening Times.

ST. JOHN, N. B., OCTOBER 28, 1907.

The St. John Evening Times is published at 77 and 59 Canterbury street, every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES, THE DAILY TELEGRAPH.

New Brunswick's Independent newspapers. These newspapers advocate British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion.

RESPONSIBILITY

In current political discussion much is said of the influence of promised public works, or other pledges of a material character, in an election. The Times a few days ago, referring to the statement that the promise of a bridge or an elevator or some other public work would cause the electorate of a constituency to disregard more important matters, expressed the view that such influences were losing their power over the people.

Every decent elector in the division should repudiate this system of whole sale bribery. The young men particularly, who are just assuming public duties and responsibilities, should cast their votes in condemnation of this debasing species of politics. In their hands rests the future of the country. They should determine that no man who bargains with public money for a seat in parliament should represent any Canadian constituency.

CHOOSING CANDIDATES The opposition convention in this city this evening will have the opportunity to name what should be a winning ticket in this constituency, not merely because the other party is weak in available candidates and the government unpopular in St. John, but because from the list of men who it is known would accept a nomination a ticket could be made up of experienced and capable representatives, of high standing in the community. Neither personal ambition nor any feeling of prejudice should prevent the opposition party in St. John from giving Mr. Hazen a ticket which would not only be approved by a majority of citizens but would favorably impress the people of other constituencies throughout the province.

The last issue of the Labor Gazette makes these interesting statements about the increased cost of living: "As a result of the high price of hay and other fodder, the price of milk will advance at a number of points throughout Canada. At Montreal 10 cents per quart was asked,

ed, and in several other localities the price was higher than ever before reported. Coal advanced by 25 to 30 cents per ton at several points. Flour and bread are up. It is estimated that in the city of Montreal alone an additional expenditure of over \$400,000 would be entailed by the advance in bread, milk and fuel during the coming winter season, bread being one cent more per loaf, coal 25 cents more per ton, and milk three cents per quart more than at the same period in 1906."

The question of the ability of the C. P. R. to handle western traffic with dispatch during the coming winter is one of general interest. Mr. F. W. Peters, assistant traffic manager of the eastern lines, states that the company has fifteen thousand freight cars in the west this fall which are gradually being put into the grain carrying service to the great lakes, and the movement of coal to the distributing centers. There are 11,500 box cars which will soon be all in active use in bringing the grain east, and 3,500 composite cars in the coal service in Alberta and British Columbia. This gives thirty per cent. more cars than were available for that service a year ago. Mr. Peters believes that this ample supply, combined with the shrinkage in wheat shipments, renders the contingency of either a car or coal famine remote.

A Toronto paper states that the general board of temperance and moral reform of the Methodist church in Canada at its annual meeting last week passed resolutions against the bringing in of inferior immigrants, commending the Ontario government with regard to the enforcement of the liquor laws, favoring the reduction of hotel licenses throughout the dominion wherever practical; recommending the formation of men's brotherhoods in all congregations for the purpose of dealing with questions of social import, and recommending that sociality be taken up in the Methodist universities.

Supporters of the provincial government express the belief that Mr. McKewon will be made attorney-general and Dr. Rad-dick post physician, the latter appointment being made not because Dr. Rad-dick ought to be made post physician, but because Mr. McKewon would prefer to run in St. John county. While this little arrangement might suit both of the gentlemen named, there are others who would not regard it with unmixed satisfaction. Still, the premier must find an attorney-general, and the task has had its difficulties. And after finding him there is the task of getting him elected.

Shortly after ten o'clock last evening three men in an advanced stage of intoxication boarded a north-bound street car at Paradise Row corner. On the return of the same car from Indiantown an intoxicated man got on board near the depot. The law against Sunday selling in St. John is grossly and continuously violated.

The death of Rev. Dr. Dobson, president of the Methodist conference of New Brunswick and P. E. Island, deprives that church of one of its clearest thinkers and most eminent ministers. Many who were not of the Methodist communion derived intellectual profit and spiritual gain from his pulpit ministrations.

Messrs. Turgeon and Boursas encountered a snowstorm in Belledune yesterday, but the real "snowing under" will take place on a later date.

General Booth's tone in the United States has overtaken his physical strength, but his indomitable spirit is not dismayed.

MR. HUGH GRAHAM'S LETTER (Montreal Gazette.)

Mr. Hugh Graham has written a letter in reply to statements made about his connection with the parliamentary campaign of 1904. What he says fairly covers the ground. He declares that he did make contributions to the Conservative campaign fund, and quite large ones. As has been stated, he had a right to make them. The money he gave was his own. It had not been granted, nor gathered from public contractors, who would expect to be repouced out of the national treasury for the levy upon them, nor was it the contribution of subsidy seekers or the gifts of those who had received land grants at lower than bottom prices. If election funds must be raised, Mr. Graham's contribution was of the kind that no one should object to. So with the purchase of La Presse. The paper and its business were for sale and he and his associates bought it, with their own money also. They had a right to do what they did, just as any other person has a right to buy what is legitimately on the market. The third subject dealt with is the Blair resignation, which certain people have spoken of as part of a plot. Mr. Graham says he knows nothing of a plot and knew nothing of the resignation till it was publicly announced. He further alleges that he knows nothing of the alleged conspiracy to purchase Liberal candidates on the eve of polling and so denormalize the government forces. All this is categorical and explicit. If those who talk and write about the plots and conspiracies mentioned cannot come forward with proof to controvert it, they should cease maligning the dead as well as the living.

THE FLIGHT OF TIME

The months have had wings, not feet, this year! The beautiful summer has sped away, and brown October has hurried here. Oh, things were fair if they would but stay; And if life were long It were full of song!

We have had our summer of light and song, And our fields and orchards filled with food; If the days are shortened they have been long, And God has covered the land with good. Oh, give Him praise For the summer days!

My life is like the October time! The prodigal season is past and gone, And over forever the wealth and prime. Of the long, glad day when high deeds were done, And quiet and rest Are for me the best.

And I cannot afford to lose an hour Of the shorter day that is left to me, Nor carelessly fritter away the power Of heart or of hand, since there soon shall be No moments here Of my life's short year.

—Marion Farnham, in the "Christian Herald."

IN LIGHTER VEIN

"Yes," said Stormington Barns, "I'm going to retire to private life." "You'll be missed when you leave the stage," responded his friend, Walker Ties. "That's just the reason I'm going to retire," explained Mr. Barns; "I'm tired of being hit."

HE WILL DO THAT. "Yes," said the voluble crank, "I used to be as bad as you, but I made up my mind to quit smoking and drinking, and I did it."

"Indeed!" remarked Manley; "I guess a man who can quit smoking and drinking could quit almost anything."

"Oh, yes." "Except talking about it."

SOMETHING WRONG. "Better send an inspector down to see what's the matter with this man's meter," said the cashier in the gas company's office to the superintendent. "We throw complaints about meters—"

"This is no complaint. He sends a cheque for the amount of his bill and says it's 'very reasonable.'"

A NEW DEFINITION. A rather cynical joke has been recently credited to Senator Platt. The Senator, on his last visit to the Manhattan Beach Hotel, lodged a pretty little girl, western millionaire's daughter, to be presented to him.

"The little girl, in the course of one of her many chats with the aged statesman, said: 'Tell me, won't you, Senator, what political economy is?'"

"Political economy, my dear child," Senator Platt is said to have replied, "is the art of never buying more votes than you actually need."

SPREADING CHESTNUTS. They sat at the edge of the wood, gazing dreamily at the rosy trolleys in the sunny fields, at the scarlet poppies that glowed among the golden grain, and at each other.

"Do," he cried, "I swear by this great tree whose spreading branches shade us from the heat—by this noble tree I swear that that I have never loved before."

The girl smiled faintly. "You always says such appropriate things, Dick," she murmured. "This is a chestnut tree."

REV. DR. WORKMAN AND METHODISM

(Montreal Herald)

The decision of the board of governors of the Wesleyan Theological College, calling upon Dr. G. C. Workman for the resignation of the chair of Old Testament exegesis, has created a sensation.

Seen by a Herald reporter, Rev. Dr. Workman stated that he had no definite plans for the future, but that he would, for a time at least, make Montreal his home. He has engagements ahead that will keep him busy for some time, preaching and lecturing, and any spare time he will devote to writing.

"Are you going to leave the Methodist church?" Dr. Workman was asked. "I am not. I am a member in good standing and I intend to remain a member as long as the members of the conference continue their loyalty and kindness towards me. I have never even hinted at leaving, but have simply advocated a radical remedy. I am a Methodist of the Methodists."

"You do not think your doctrine is antagonistic to the fundamental principles of the Wesleyan church?"

"In no respect, nor did any member of my conference suggest that it was. On the contrary, I received the warmest expressions of appreciation for my doctrinal expositions."

"Do you feel that you have a good following in the conference?"

"From what I was able to gather from the expressions of sympathy, and appreciation I received, I was led to believe that a large number of my brethren are in full accord both with my method of interpretation and with the conclusions I have reached."

Halifax, Oct. 27.—(Special)—Mark C. Mumford, of the commission firm of Mumford Bros., died today after a protracted illness. He was quartermaster-sergeant of the 23rd rifles with which he had been connected since 1878. He was one of the best rifle shots in the province. He had been several times in Italy, and at one of the matches at Ottawa took a \$500 prize. Mr. Mumford went to the Northwest with the Halifax provincial battalion in the Riel rebellion. He will be given a military funeral on Tuesday.

LETTER CIVIC AFFAIRS

Editor Evening Times:—
 Sir—I have been a taxpayer and taken
 a lively interest in civic affairs for the
 past fifteen years and during that period
 have heard many charges and insinuations
 of graft, etc made against the members
 of the common council. In almost every
 case I have been ready to defend or ex-
 cuse them of any charge other than in-
 competence and I do not think that any-
 one who has taken even a passing interest
 in civic affairs during the past few years
 can for a moment close his eyes to the
 fact that a great amount of money has
 been expended in the part of some of
 our aldermen. This, however, cannot be
 said of all, for some of them have proved
 themselves quite competent along some
 lines, especially in looking after their own
 interests.

Last year several thousand dollars were
 spent preparing an assessment act,
 which was in due time presented to the
 council for their consideration. There were
 many things embodied in it, which would
 have been a vast improvement over the
 present act. There may have been some
 few features which might not have been
 acceptable to the citizens as a whole, but
 I think most right-minded people must
 admit that it was presented in a form
 well worthy of consideration, and with
 some few alterations would have been a
 great benefit to our city as well as a credit
 to the gentleman who prepared it. What
 was the reason, I would like to know, that
 some of our aldermen, who were present
 at the time, did not see to it that the
 act was passed? It is a matter of regret
 that the act was not passed, and that the
 money was expended in a manner which
 was not worth the trouble to them. It
 is a matter of regret that the act was not
 passed, and that the money was expended
 in a manner which was not worth the
 trouble to them. It is a matter of regret
 that the act was not passed, and that the
 money was expended in a manner which
 was not worth the trouble to them.

This trifling disposed of we find them
 taking up a matter which is of no impor-
 tance to the city. It is a matter of regret
 that the act was not passed, and that the
 money was expended in a manner which
 was not worth the trouble to them. It is
 a matter of regret that the act was not
 passed, and that the money was expended
 in a manner which was not worth the
 trouble to them. It is a matter of regret
 that the act was not passed, and that the

CATHOLICS MAY EAT MEAT NEXT FRIDAY
 It was announced in the Catholic
 churches of the city yesterday that Pope
 Pius X. had for this week dispensed the
 law of abstinence from flesh meat on
 Fridays, on account of the feast of All
 Saints falling on that day this week. It
 will thus be seen that this week Catholics
 are allowed the extraordinary privilege of
 eating meat on Friday.
 It is a fact well known that when
 Christmas falls on Friday the law against
 eating flesh meat does not apply but
 until recently this privilege was never
 given on any other feast day of the
 church. Three years ago, when New
 Year's day fell on Friday, the law was
 suspended for that day and now the holy
 father has granted dispensation for the
 feast of All Saints this week.
 Thursday, the vigil of the feast of All
 Saints, which is the Canadian Thank-
 giving Day this year will be a fast day in
 the Catholic church and so there will be
 no turkey on the dinner table in Catholic
 homes on Thursday next.
 Saturday will be All Souls day.

THE PRICE OF MILK
 There was a largely attended meeting
 of the Kings county milk dealers' associa-
 tion at Bloomfield on Saturday at which it
 was decided to advance the wholesale
 price of milk from November 1 to 40
 cents for an eight quart can. This action
 is the result of an agitation that has been
 going on for some time. The dealers say
 that the price of feed has been advancing
 as well as that of labor, while milk has
 remained stationary.
 The retail dealers in the city have de-
 cided to raise the price after the same
 date to eight cents a quart.

PEOPLE OF NOTE

REV. WM. DOBSON DIED YESTERDAY
 Prominent Methodist Divine
 Passed Away at Charlot-
 town.

Charlottetown, Oct. 27.—Rev. William
 Dobson, D. D., pastor of the First Meth-
 odist church in Charlottetown, passed
 away at 3 p. m.

He leaves his wife and two sons, Fred,
 D. D. S. of Halifax; Eldon, aged 14, and
 one daughter, Ethel, a student at Sack-
 ville. All his children were at his bed-
 side. The funeral will be held on Wed-
 nesday. There is general regret through-
 out Charlottetown because of his death
 as he was very much liked and respected
 by all creeds of the community.

Rev. Dr. Dobson was born at Seabrook,
 P. E. I., about sixty years ago. When
 twenty years of age he became a member
 of the Methodist church, and almost im-
 mediately he began to make preparations
 to enter the ministry. He was ordained
 in 1870, and for a year or two was sta-
 tioned in Nova Scotia. In the early
 eighties he was in Centenary church in
 this city. Other charges in this province
 which he filled were, Sheffield, Portland,
 Woodstock and Fredericton.
 When he left Fredericton Dr. Dobson
 went to Bermuda for a time, that island
 being included in his circuit. He was at
 Wick and P. E. Island conference. He
 afterwards was called to the Grafton
 street church in Halifax, where he remain-
 ed for five years. Then, after having
 been for a time at Windsor, he removed
 to the First Methodist church, Charlot-
 tetown, better known as the Brick church,
 where he was at the time of his death.

At the conclusion of the service in Cen-
 tenary church last night, the pastor, Rev.
 Dr. Sprague, announced that he had re-
 ceived a telegram that Rev. Dr. Dobson
 had died at 2 o'clock Sunday afternoon.
 He pronounced a touching eulogy on
 the life and work of the deceased clergyman.
 Dr. Dobson, he said, was a very able
 man, a clever thinker, one who was not
 afraid to state his opinions, and one whose
 pulpit ministrations were much admired.
 He had filled the highest office in the
 gift of the conference, having been presi-
 dent of the New Brunswick and P. E.
 Island conference in 1904. In 1904 he
 represented the Canadian Methodist
 church at the general conference of the
 Methodist Episcopal church of the United
 States, which met in Los Angeles (Cal.).

The news of the illness of Dr. Dobson,
 the speaker continued, which appeared in
 the public press last Thursday, had
 caused much anxiety in Centenary church
 and many had made inquiries. Since
 then, however, he had had no news, un-
 til the telegram came yesterday afternoon.
 He felt that he had lost a very dear
 friend. "It is often said that as a man
 grows old he grows lonely to him, and
 I have been thinking today of the
 many old friends I have lost since I came
 to Centenary twenty years ago. Rev. Dr.
 Dobson had a strong faith in immortality.
 I remember some years ago he was
 very ill and everybody, himself included,
 expected him to die. Since then I
 have heard him say that it was a great
 consolation to him to remember that when
 he had faced death he had believed
 himself to be, he never doubted that all
 was well. I have no doubt that when the
 end came he met it in the same spirit.
 "At the time he was ill I went to
 see him, and I was sure he was not then
 as well as he supposed. He told me, how-
 ever, the advice the doctors gave him
 and I felt confident that if he followed
 the advice all would be well. A man,
 however, whose pulpit ministrations
 are as much admired as were his is always
 and everywhere in demand to speak, and
 he was always ready to comply with the
 demands."
 Rev. Dr. Dobson was a member of the
 Board of Regents of Mount Allison Uni-
 versity. At the conference in Los Angeles
 in 1904 Dr. Dobson made a great impres-
 sion, and a Los Angeles paper said of his
 sermon:
 "There were great sermons preached in
 the Methodist churches yesterday, but
 that of the Canadian delegate was the
 greatest."

DANGER IN WHOOPING COUGH
 It's one of the most fatal diseases to
 children. Most successful treatment is
 Nervine rubbed on throat and chest and
 taken internally. This relieves the cough-
 ing and spasm at once. Swift relief and
 unfailing cure is guaranteed. Never be
 without Polson's Nervine—it keeps the
 doctor, but small children have been cured
 of coughs, croup, and chest pains. Nearly
 half a century in use—and better liked every
 day.

Samuel W. Pennypacker, the learned
 and witty Governor of Pennsylvania, said
 at a convention in Philadelphia, apropos
 of the variety of titles—
 "We speakers of English, though, are
 handicapped by our language. We can
 never hope for such honorific titles as the
 Germans have."

MARATHON MONCTON

The Best the Two Could Do in Fast and Rough Contest at Moncton.

Moncton, N. B., Oct. 27.—(Special)—An even break was the result of the football match yesterday between Moncton and the St. John Marathons here. The game was watched by a large crowd, and the teams proved to be very evenly matched. There was little advantage on either side.

In the first half the home team appeared to have slightly the better of it, but in the last half Moncton had hard work to keep the Marathons from scoring.

Specs the local fullback, saved the situation several times by his quick work. Malcolm came within an ace of carrying the ball over for the Marathons when stopped on the line. Jack McNeill also had a run that nearly resulted in a try.

The game for the most part abounded in scrims, and was poor from the spectators' standpoint. E. M. Rhodes, of Amherst, was referee.

The teams were: Moncton—Fullback, Spence; halfbacks, Brown, Donald, McEachern, Crockett; forwards, J. McNeill, W. Humphrey, forwards, Cushing, Rae, Lightner, W. McNeill, Baird, Cummings, Simons, Thorne.

Marathons—Fullback, Ellis; halfbacks, R. Howard, D. Malcolm, Fairweather, Rankin; forwards, McKay, Ledington, forward, Birmingham, Masters, Doherty, Dever, J. Malcolm, Strubb, Titus, F. Howard.

It will be seen that the Greeks had only one of their regular forwards, and they must certainly have played some in Moncton. Reports that the game was very rough have been received. It is claimed that the Moncton players were very wild and willing to scrap, and that players who tackled were jumped upon with unnecessary violence.

Special attention seemed to be directed towards Don Malcolm, who was hurt quite badly. Saturday's games at Fredericton and Moncton go to show that St. John teams can hold their own with the best of them. A contest between U. N. B. and Moncton would prove interesting.

A report was sent out Saturday that Moncton would protest the result of the game on account of base ball games between the Greeks and St. Peter's fall, intimating some question of the amateur standing of the St. Peter's baseballists.

Micmas Beat La Tours. The Micmas and La Tours finished their league games on Saturday on an even standing. The Greeks won from the Carleton men 6-0. The game was very close and interesting to watch. L. O'Neill made the try for Micmas, and this fall the leading of the teams in the intermediate league is:

Table with 4 columns: Team, Wins, Losses, Ties. Rows include Victoria, Micmas, Carleton, and La Tours.

Junior League Teams Are Even. A victory by High School on Saturday over the Varsity in a good game on the college grounds puts the teams on an even standing in the junior league, and the deciding game yet to be played. The teams have met at times this season, and the first two men each resulted in a tie. Then on Saturday, Oct. 27, but on Saturday High School turned the tables, and the teams are even again. W. Willis, the High School captain, made the try on Saturday and converted with pretty kick.

Crecents Defeat Dalhousie. Halifax, N. S., Oct. 27.—(Special)—The Dalhousie champions were defeated on Saturday by the Crecents by the score of 2-0. This was the first game of the league, and the Crecents were never in danger. The first try was very even, and ended with neither scoring. The second half was more open, and both sides were awarded a number of kicks. McDonald, of the Crecents, was responsible for the only score. Donald made a clean break in the second half and when tackled passed cleverly to Miller, who got over the line for a try. The defeat of the champions came as a surprise, although the Crecents are playing very football.

Upper Canadian Games. Toronto, Oct. 27.—(Special)—McGill University football club played the Varsity here today in the inter-collegiate series, and were defeated by 12 to 10. At Kingston, Ottawa College and Queen's played a long, hard battle, which ended in a tie with a score of 15 each. The Ontario Rugby series, Peterboro played the Victorias here and were defeated by 20 to 0.

St. Joseph's. St. John, N. B., Oct. 27.—(Special)—In a three-quarter game here on Saturday, Mount Zion footballists defeated St. Joseph's 17 to 0. One try was dropped by St. Joseph's, the losers did not play so well as when the

U. N. B. 3 ALGONQUINS 0

That Was the Result of Fast and Hard Game in Fredericton Saturday.

The Algonquins were defeated at Fredericton on Saturday in a very snappy and hard-fought game by a score of 3 to 0. (one try). That the contest should have been a tie is the opinion of the Indians as they aver that Thorne's try was made in the fairest possible manner. Dick Tibbette is also one of those who expressed the opinion that the Algonquins' quarter had scored. As referee Finnanore did not allow it, it is fair to say that he could not have been close enough to have seen it. The game throughout while it was largely scrum-work was a good one from the spectators' stand point. Both teams had made some changes in their line-up which tended to strengthen them considerably. For U. N. B., Joe Dever, who lately returned from Ontario, played outside half, taking Kinghorn's place, the latter going on the inside of the line. Don went from the half line to full back position, McKnight going to the side line. Bridges and Cronkite forward, were replaced by Gilchrist and McNair. The Indians had their full line strengthened by Joe Howe and Cecil Merritt, while the full back position was filled by Fred Gibson. One of the team's regular quarters, missed his train and Ernie March, from the forward line, took his place. Arch Roberts, the spare, going into the line. It was not an ideal day for football, as a stiff wind was blowing across the field. There was a fair attendance, a good portion of whom were the collegians' lady friends and admirers. The Algonquins had the kick-off and by smart following up soon forced the back legs to their five yard line, an occasional dribble would relieve the situation, and the Indians would get into the ten yard line for some ten or fifteen minutes. The college squad of rosters, who were arrayed in colors and armed with spears, were directed to attack the equally pretty tackle. Gibson also presented a very good game. He was particularly effective in tagging up on the line. What open play there was was the U. N. B. team had the better of it for the simple reason that their halves were given the opportunities. The Algonquins were completely silent at home, and lost their halves many opportunities on this score when close to the collegians' line. The U. N. B. half line worked together splendidly and did not give the Indians any chance. The Indians' half line men, however, worked their opponents well, tackling sharply and hard. Rutledge at quarter played a great game for the team. Thorne for the Indians played a star game at quarter. March, his colleague also put up a snappy game, his following up on one occasion forcing the college team to touch for safety. In scrum-work the Algonquins had the better of the argument only on some few occasions did the charging and bucking tactics of their opponents disconcert them. The contest was delayed for injuries to MacMichael, Roberts, Howe and Dever. The contest throughout was clean. The first half of the game was, as far as territory went, in favor of the Indians, the second half being about even. The referee was lax and there was considerable room for thinking that he did not see several of the plays. The Algonquins speak highly of their usage by the college boys. They found them a fine lot of fellows, perfect gentlemen who play a good clean game of football. The teams lined up as follows:

U. N. B. (3). Fullback, Algonquins (0). Dolan, Haives, Merritt, Baird, Kinghorn, Quarters, Both MacNaughton, Forwards, Thorne, Gilchrist, Finley, Wetmore, MacKinnon, Smith, Duke, McNair, McMichael, Gitter, Spicer, Roberts, A. Finamore, of Fredericton, was referee.

"A young German matron once said:—'Ach, how glad I am that my dear Fritz has been appointed Hauptkassenverwalter!' assistant cashier. 'Now,' she went on, 'in my title of Hauptkassenverwalterin, I should load five letters more than that proud Oberhauptkasseninspektorin, except inspector's wife—can claim.'"

Equipped with a searchlight for locating vessels and apparatus for pouring oil on troubled waters, steam-cutter protector will shortly be floating on the Tyne.

CRIBWORK MOVED

A Budge of Several Inches is Reported Between Clarke Wharf and North Rodney.

The cribwork which the city is building on piles between the Clarke wharf and North Rodney wharf moved slightly yesterday and last evening a bulge of several inches was reported in the centre of the face next the ship. The C. P. R. started filling in behind the crib two or three days ago, but it is not thought sufficient ballast had been dumped to cause any movement.

Hud. Piets, the city engineer, when his attention was called to the matter last evening, said it was the first he had heard of it. It was to be expected, he added, that the crib would give a few inches from the compression of the timber. The matter will be looked into to-day.

A. M. Blain, a miner at Victor, Col., committed suicide by jumping to the bottom of a mine shaft, a distance of 300 feet.

THE KEA, OR, MOUNTAIN-NESTOR

A strange bird is the Kea, or Mountain-Nestor, a parrot belonging to South Island, New Zealand. Its color is monotonous, and in no way is it of striking appearance; but it has won for itself an unfavorable reputation through its habit of dist. Since man became an inhabitant of the island, and there raised his flock of sheep, this bird has fed on mutton in preference to any other food. Its manner of procuring a dinner is after this fashion: A flock of Kea, or Mountain-Nestors, will surround a sheep and drive it from its companions. Then they torment it till, from sheer exhaustion, the poor animal stinks helplessly to earth to become the victim of their prey. Upon its unprotected back the birds again, literally eating the quivering thing alive, for death does not come to relieve the tortured animal till the birds have picked through its back into the intestines, thus wounding it mortally and causing slow death.

This bird has been known to attack horses also, and owing to its evil propensities the sheep farmers of the island are doing their utmost to exterminate it.

CHAS. W. MORSE ELIMINATED

Control of His Consolidated Steamship Company Passes to Other Hands.

New York, Oct. 26.—The Herald this evening says: It was practically admitted yesterday that Charles W. Morse had been eliminated as the controlling factor in affairs of the Consolidated Steamship Company. All the stocks of the subsidiary steamship lines have been placed in a voting trust, which is to continue for three years, the members of which are the original owners of the lines.

At a meeting of the subsidiary companies in the office of the shipping combination, at No. 1 Exchange place, there was a complete reorganization of the company as a prelude to a like reorganization of the Consolidated Steamship Company. Besides the transformation of the directorate, significant action was taken in the appointment of individual cashiers to handle the funds of each line. This serves to remove those funds from control of the interests headed by C. W. Morse, whose present circumstances developed since the beginning of the banking troubles.

FATALLY SHOT BY HIGHWAYMAN

Montreal, Oct. 27.—Because he refused to give up his purse to a highwayman, Oscar Delorme was shot in the head and fatally wounded Saturday at midnight. Young Delorme was returning from market to his home in St. Vincent de Paul, when he was stopped near the Shamrock lacrosse grounds at St. Louis, a suburb of Montreal, by two men who demanded his money. Delorme refused and struck one of the highwaymen with the handle of his whip. Then one of the robbers shot the driver.

WHERE IS THE MONEY?

St. John, N. B., Oct. 28, '07. Editor Evening Times: I would like to ask through your valuable paper where is the money that should have been paid to No. 1 Company C. A. some time ago? How is it that No. 2 and 3 companies have been paid for some time, and No. 1 has not got a cent? It is true that they called in a number of uniforms and in return gave an order so that a man who had returned his uniform might go to the major's office and receive his pay; but when such an order was presented at the major's office on the 28th inst., he said that he would pay when he was good and ready.

Thanking you for your space, I remain,
A NEEDY ONE.

A CHURCH ANNIVERSARY

The corner stone of the church was laid on Nov. 12, 1840 by Rev. James Olive, and Rev. S. D. Rice conducted the first service on the evening of the day. The church was ready for occupancy in the autumn of 1841. Rev. Mr. Heaney closed with a plea that the church should go forward in every department of its work. The evening service was characterized by the prominence of the musical element. The choir was assisted by a mixed quartette consisting of Percy Cruikshank, Miss Johnson, Mr. and Mrs. Murray Long, Frank Armstrong gave a violin solo and Miss Maria Hopkin sang a solo.

EVERY DAY CLUB

E. T. C. Knowles Delivers Fine Temperance Address --- A Sacred Concert.

In the Every Day Club hall yesterday afternoon E. T. C. Knowles gave a very interesting and carefully reasoned address on temperance. Beginning with the remark that as he grew older he felt less disposed to speak harshly of the personal habits of men with regard to the use of liquor, and admitting that in the past many men who were really good men were addicted to drink, Mr. Knowles proceeded to argue the case in favor of total abstinence.

He quoted with approval a prayer from the Church of England Prayer Book, which defined abstinence as a subjection of the flesh to the spirit, to work the will of God. A gambler might abstain from liquor to keep a clear brain, in order that he could take for his own use the money of another. It was possible to abstain from many things for purely selfish and wrong purposes.

Proceeding, Mr. Knowles set forth in clear terms the reasons why men should become total abstainers from liquor, in order to develop manhood, care for their families and benefit society. He showed that alcohol is of great value in mechanics, and will be of still greater value in the future as a means of developing mechanical power; but that neither as a stimulant, as a food nor even as a medicine for man is it at all essential, while all around were the sad evidences of the will it produced when it was so used. The speaker found in comparisons between the Russian and Japanese armies, and in the comparative statistics of pauperism in England and Japan, evidence that abstinence is profitable to a nation.

Speaking of the members of the Every Day Club, Mr. Knowles said, "I have no doubt, abstained from some pleasures in order that they might engage in an unselfish work, and he highly commended that spirit."

Last evening the Tabernacle church choir gave a sacred concert in the hall, with choruses and quartettes and duets with choruses, and J. W. Patterson gave a very earnest and practical ten-minute talk on temperance, declaring that the spirit of love and the sense of the brotherhood of all men to each other could alone solve the drink problem and others that confront society today. Intemperance was not the only one, and love alone could overcome the evil in the world.

Miss M. Florence Rogers read with deep feeling and sympathetic expression the story of Ole Bull and the prairie hermit, her clear tones and fine shading bringing out impressively the pathos of the story. The hall was crowded. The chairman spoke in behalf of the Every Day Club, urging that a larger number of men identify themselves actively with its work. All members are urged to be at the hall this evening at 7.30, to discuss matters of importance.

A CORRECTION

The following item appeared in Saturday's Times: "Steamer Aberdeen arrived in Indiantown at 8.30 last night, after a trying experience. It is reported that the Aberdeen, carrying a heavy cargo of freight, when opposite Laskey's wharf yesterday, began to take in water and for a time it was feared she would sink. After some difficulty she was brought to shore and the water continued to pour in until the fire was extinguished and the pumps stopped. The owners of the Aberdeen state that this item is incorrect. The Aberdeen did go in to Laskey's wharf in a very heavy fog. They say she did not fill, nor were her fires put out. When the gale abated she came on to Indiantown, with fifty passengers and a large freight, none of which was put off at Laskey's."

The story as printed in the Times was current at Indiantown on Saturday and to the Times on what was regarded as reliable authority.
