JAPAN WILL NOW EXPLORE KOREA

Great Trade Development Is Expected to Follow without Follow ASSOCIATION FORMED In Tokio to Promote Trade Between Japan and Korea and China--Premier Katsura Urges Nation to Turn Its Energies to Trade.

TOKIO, Sept. 13--1 p.m. In spite of the strong undercurrent of indignation which has been aroused by the peace arrangements with Russia, typical business men here are following a wiser course without veering over the accomplished fact. An organization representing 81 leading business interests had been formed under the presidency of M. Iwade, a millionaire, which aims to work for the development of home industries and foreign trade with redoubled energy.

AMHERST, N. S., Sept. 14--After some weeks' illness, Hon. Senator T. R. Black passed away at his home at 415 College street this morning surrounded by his whole family.

Shortly after the session at Ottawa Senator Black was stricken with typhoid fever and while his many friends hoped for the best, with a man of his advanced years, the worst was feared. In the death of Senator Black Amherst lost one of its best citizens, and the county and province an able representative. The Baptist church one of her most worthy members passed away and the family a kind husband and father.

Senator Black was a native of Amherst and resided here all his life, taking a deep interest in all that pertained to the best interests of the town, county and province and the loss to the community is a serious one.

The deceased was 73 years of age. He was twice married. His first wife was Miss Bent of Amherst who died some years ago. His second wife was Miss Glanville of Amherst and he was recently married. Besides his wife he is survived by two sons Wm. W. and Chas. C. both of whom are married and reside at Amherst and by one daughter, Mrs. Myra, wife of Rev. Ralph Trotter, of Calgary, who resided here some days before her father's death.

Rev. S. McO. Black, D.D., of the "Messenger and Visitor," St. John, and Joseph L. Black, of Sackville (N.B.), are brothers, and one sister, Miss Black, resides here.

The Parliamentary Companion for 1905 has the following:-- Hon. Thomas Black (Cumberland), born at Amherst (N.S.), Oct. 9, 1832. Educated in the Grammar School at Amherst. Elected to the Legislative Assembly to fill the vacancy caused by the retirement of C. J. Townsend, at by-election, July 2, 1884, and re-elected at general election, 1888. A successful candidate at general election in 1890. Elected at general election in 1894, 1897 and 1901. Was engaged in building, property and interested in farming and stock-raising. A strong advocate of temperance. Married March 20, 1860. Eunice, daughter of the late W. W. Bent, who was a member of the legislature. Appointed a member of the Murray administration in Nova Scotia, without portfolio, July 18, 1896. Appointed to the Senate June 10, 1904. A Baptist. A conservative Liberal.

A GAME OF CHANCE "Pay Your Money and Take What You Get"--Sale of Unclaimed Goods at I. C. R. Sheds.

The annual sale of unclaimed freight at the I. C. R. shed at Long wharf drew a large crowd this morning, and many a mysterious-looking package was knocked down under the auctioneer's mallet to the eager bidders, and while some may have invested their money to good advantage, others will doubtless feel called upon to repeat the time-worn saying, "The fool and his money soon parted."

All sorts and conditions of men, including merchants, junk dealers, and bachelors of the land of Abraham, assembled to take chances on what was offered. Some of the latter, however, were "bitten" at last year's sale, and evidenced some little hesitation before venturing to bid.

Auctioneer Lantlam wielded the mallet, and the sale discontinued at midday and the attendance at the exhibition this afternoon promises to be large. The horse races today will be the 215 trot and race and the 300 trot. In the former Spinach B. of Sussex, Red Pepper of St. John and Timothy V. T. of Bathurst are entered. Miss Helen Robertson of River Louisbourg, N. B. is the only New Brunswick horse in the latter class.

Police Officer Bowes, who was recently suspended by Chief Clark for ten days, resumed duty last night.

CANADA'S COMMERCIAL AGENT IN AUSTRALIA TALKS OF CHANCES

J. S. Locke, Who Meets the Board of Trade This Afternoon, Suggests a Direct Line of Steamers Between Australia and Canada's Atlantic Ports,--Montreal in Summer, St. John and Halifax in Winter.

J. S. Locke, Canadian commercial agent in Australia, arrived in the city this morning from Toronto, where he has been attending the Industrial Exhibition. He will address the members of the Board of Trade and other interested parties, this afternoon on the question of trade relations between Canada and Australia.

In an interview with the Times this morning he said: "I am here for the purpose of creating a general interest in exports to Australia and New Zealand."

"The trade to Australia has increased ten fold during the last ten years, and embraces a wide variety of lines. Ten years ago the exports amounted to \$250,000, and that was nearly all lumber and fish. Today the fish trade is larger than before, but both together are not equal to the amount of agricultural implements which are exported. In such cases the exports to Canada are set down as to the United States or England, instead of to Canada as in reality they are. The trade is much impeded, he said, by the inability of many of the manufacturers to fill the orders received, and they are thus compelled to ship abroad. However, large factories, iron machinery and more economical production would in a short time put them in a position to seek trade abroad.

"What is needed is, first, a very great improvement in nationalizing the machinery for exportation. The government has the machinery abroad in the shape of the great drawback. From eastern Canada the great bulk of trade goes by way of New York or Great Britain.

Secondly, as regards transportation, the C. P. R. and Australian steamers have done all possible, and much trade has been done through Vancouver, but the long overland haul, even if done at cost, is the great drawback. From eastern Canada the great bulk of trade goes by way of New York or Great Britain.

Thirdly, as regards an exportation company. As yet the number of Canadian manufacturers and producers is relatively small. They can make the goods, but have not the capital to market them in foreign countries.

"If a company was formed under a good management with good judgment, capital, etc., it could buy up the surplus of these factories and could do much good, affording needed relief to manufacturers and employment for laborers, as well as profit for itself by sending abroad these products.

"In response to an inquiry as to what goods could be exported to Australia to advantage, Mr. Locke said there was a great variety. British Columbia now ships lumber, canned salmon and salt fish, while the agricultural implements sent from Canada are about half the output of the world. There are cotton goods, silks, rubber and leather goods, paper, plaster of paris, drugs and chemicals, ironware, fancy goods and machinery of all kinds.

"The people of Australia," said Mr. Locke, "are rich, with imperial wealth, and they would prefer to do business with Canada or the mother country."

WHO FAKED THE STAR

Big Scare Head Story About New Hotel for King Square Was a Dream.

On Monday, September 14th the St. John Star published a story to the effect that Louis Green would erect a grand hotel on the corner of the city, King street and the wharf situated around the corner of the city, and that it was another case in which the Star was entirely erroneous.

In the first paragraph of the article in question the Star said: "That Mr. Louis Green is an enterprising man there can be no doubt. In recent years he has erected a large public dining room, which will, of course, necessitate the driving away of some of the small stores at present located on the North side of the square."

The Star then goes on to say that great improvements will be made in the new building. As a matter of fact J. Driscoll, proprietor of the Hotel Edward was then, and is still, the proprietor of the Ottawa Hotel, and as far as can be gleaned has no intention of parting with the Ottawa Hotel, and as far as the Ottawa Hotel is concerned, it is still in the hands of the same proprietor.

In short there is no truth whatever in the Star's "fake" yarn.

HE IS A ST. JOHN MAN Of the Hon. Mr. DeVeber, member without portfolio in the new Alberta government, the Winnipeg Free Press says:--

"Hon. Leverett George DeVeber, M. P., son of Richard Sande and Caroline DeVeber, Anglo-Canadian, was born Feb. 10, 1849, at St. John (N.B.), and was educated at the Collegiate school and Kings college, Windsor (N.S.); Bartholomew hospital, London, England; University of Pennsylvania, Philadelphia. He was married in 1885 to Rachel Frances Ryan, and was elected to the Northwest assembly by the voters of the town of Leithbridge, in the English church, and is a Liberal politician."

Miss Mabel Thomson, St. John, N. B., received Miss Nisbet, of Woodstock, who arrived in town to take part in the ladies' golf tournament next week--Montreal Witness.

No diphtheria cases have been reported to the board of health since Friday last.

LOVER OF ART AND NATURE. Mr. Jamesy Jones gazed at this person for some moments in silence, and then walked away. It was plain that his artistic feelings had been outraged.

The man who talked thus coarsely about the fountain is of that class who have a "taste" sense of beauty. He is like one who, seeing the glorious golden rod waving by the wayside, would regard it as so much "rubbish," or some use for dyeing mat rugs, but otherwise a useless weed.

He would never perceive, as Mr. Jamesy Jones perceived, the beauty of the King square fountain, without any other water than that provided from the fountain, to man of Jamesy's poetic temperament, would be in its defence from other fountains. The country is full of fountains that speak, but here is one that is unique. What the critic contemptuously described as microbes are to the seeing mind delicate organisms of exquisite formation and vast potentiality. Moreover, in contemplation of them one is reminded of the prevalence of disease and the fact of man's mortality. The great mistake the tourist association made was that it took photographs of the fountain when it looked like any other fountain. Many more visitors would come to see it if they knew they could gather specimens without getting wet. It is estimated that thirteen thousand people visited the Grand Canon in Arizona last year. Had they known about the microbes walking around on stilts among the dirty rocks in the basin of King square fountain, this great St. John attraction would be featured for next season, joined to a group photograph of the members of the water board, as a companion picture.

WHAT ABOUT THAT GRUBBING CONTRACT?

MUCH GRAFT IN HIGH PLACES Four State Senators Are in Trouble in California HAD A GOOD GRAFT To Hold-up Building and Loan Associations in the State and Make Them Pay for Protection--Caught and One Confesses.

SACRAMENTO, Cal., Sept. 14--Brought from his prison cell to confront these alleged associates in the building combine of last winter, Harry Bankers, former state senator from San Francisco, yesterday made complete confession on the witness stand in Judge Hart's court room, where the trial of E. J. Emmons, one of four state senators indicted by the grand jury, was in progress.

Bankers declared that the plot of campaign was one whereby the building and loan associations of the state were to be "held up" and compelled to pay for protection. He told also of receiving money, a roll of \$500 in his pocket as he stood in the street and said that Emmons had received his share. Lastly he told of the terror and fright that followed the exposure in the senate, the last conference in Emmons' jail, and of the suggestions that were made to clear themselves of guilt.

THE NEPTUNE TO GO NORTH

Steamer Arctic Will Repair While the Neptune Will Go on.

OTTAWA, Ont., Sept. 14--(Special)--In reference to a story in the Associated Press from Newfoundland as to the "Neptune" it may be said that she will not be ready to start on her voyage to Bay opposite Belle Isle today tomorrow. The "Arctic" is disabled at Charlottetown and the Neptune has on board the necessary appliances to have it repaired. Comptroller White of the Northern mail and telegraph department in control of all unorganized territory of Canada including Mackenzie, Kootenai and Ungava. They were appointed some time ago commissioners of that territory and whatever he says is law. He can order the "Neptune" or "Arctic" to go or not to go. The likelihood is that the "Neptune" will spend the winter in the far north and the "Arctic" will be supplied with new engines at once.

THE RIVER TRAFFIC

Business Has Been Large in Volume, but Competition Has Reduced Profits.

The season being nearly ended, the river steamboatmen have, for the past few days, been figuring out how business this summer compared with last. Although as large a number of passengers have been carried on mostly local boats, it can hardly be said that the season has been a very successful one. The quantity of freight handled has been about the same as last year.

WHOLE CABINET RESIGNED

BUDAPEST, Hungary, Sept. 14. Emperor Francis Joseph accepted the resignation of the cabinet, headed by General Baron Fejervary, the Hungarian premier, at the same time directing the ministers to continue in the performance of their duties until further orders.

THE HALIFAX FAIR

HALIFAX, N. S., Sept. 14--(Special)--The weather today is fine and cool and the attendance at the exhibition this afternoon promises to be large. The horse races today will be the 215 trot and race and the 300 trot. In the former Spinach B. of Sussex, Red Pepper of St. John and Timothy V. T. of Bathurst are entered. Miss Helen Robertson of River Louisbourg, N. B. is the only New Brunswick horse in the latter class.

TERMINALS IN WINNIPEG

Transcontinental and Canadian Northern May Build New Station Jointly.

OTTAWA, Sept. 14 (Special)--Messrs. Mackenzie & Mann, of the Canadian Northern, arrived in the city this morning for the purpose of meeting the members of the railway commission in reference to the question of terminals for the Transcontinental Railway in Winnipeg. Some time ago the members of the Transcontinental Commission had a conference with Messrs. Mackenzie & Mann in Winnipeg in reference to terminals. The commission looked over certain properties which could be used for terminals for the transcontinental. One of the best available was the land purchased by the Canadian Northern for three terminals if an arrangement could be made with that company to use it as a union station for both roads. There are no buildings erected on the ground.

It is the intention of the Canadian Northern to erect a very fine station and also to build one of the best hotels on this continent alongside. The Canadian Northern signified their willingness to cooperate with the Transcontinental commission in a union station and the matter was discussed at length, the plan proposed by the Canadian Northern and the commission could not agree as to the ownership of the property. The commission wanted to purchase the property and give equal rights as regards use and operation, were concerned to both roads. The Canadian Northern would not surrender the title to the land. The meeting was adjourned until tomorrow, in Ottawa.

BOSTON MADE KOMURA SICK

Japanese Envoy "Chilled" During Recent Visit to the Hub.

NEW YORK, Sept. 14--Baron Komura, the Japanese peace envoy, who so ill at the Waldorf Astoria hotel, was resting quietly today without apparent change of condition since last evening. Speaking on the condition of the Baron, Dr. Prichard, one of his physicians, said last night: "Baron Komura's illness is undoubtedly due to his trip to Boston. While there he spent an evening with a friend in the suburbs. When he returned he rode in an open Victoria. It started to rain and the Baron was drenched. He went immediately to his train and did not change his wet clothes until an hour afterwards.

SEVEN YEARS IN MONTREAL

Rev. Dr. Gordon, Formerly of St. John, Observes Anniversary.

(Montreal Star, Monday). The services in the First Baptist church, St. Catherine street, yesterday, were commemorative of the commencement of the Rev. Dr. Gordon's seventh year as pastor. During the course of the sermon, the apostle of the benefits to be derived from engaging in Christian labor, it was not only the benefit to the individual, but more especially to the church, that was the subject of the discourse. The church had added 26 to its roll of members, and in five and one-half years had subscribed a sum of \$2,000 for the needs of the church and extraneous objects. Land had been purchased on St. Urbain street, next to St. Royal school, and a commodious hall was to be immediately erected for the convenience of their north end mission, at a cost of \$7,000. It was hoped to have this completed before winter. The church had recently voted \$5,000 towards this mission.

MEMOIRS OF SHERLOCK HOLMES, BY A. CONAN DOYLE.

THE ADVENTURE OF THE COPPER BEECHES

"I took it up and examined it. It was of the same peculiar tint, and the same thickness. But then the impossibility of the thing struck me. How could my hair have been locked in the drawer? With unerring hands I turned my trunk, turned on the covers, and drew from the bottom my own hair. I laid the two tresses together, and I am sure you that they were identical. Was it not extraordinary? Pardon me, I would make nothing at all of what is the matter to the Russians, as I felt that I had put myself in the wrong by opening a drawer which they had locked.

"But his voice was just a little too coarse. He overdid it. I was keenly on my guard against him. 'I was foolish enough to go into the empty wing'—I answered. 'But it is so lonely and eerie in this dim light that I was frightened and ran out again. Oh, it is dreadful still in there!' 'Only that,' said he, looking at me keenly. 'I am sure that I do not know.' 'Why, what did you think?' I asked. 'Why do you think that I look like this?' 'I am sure that I do not know.' 'It is to keep out people who have no business in there. Do you see?' He was still smiling in the most amiable manner. 'I am sure if I had known—' 'Well, then, you know now. And if you ever put your foot over that threshold again—here in an instant the smile hardened into a grin of rage and he glared down at me with the face of a demon. 'I'll throw you to the sea!' 'I was so terrified that I do not know what I did. I suppose that I must have rushed past him into my room. I remember nothing until I found myself lying on my bed trembling all over. Then I thought of you, Mr. Holmes, I could not live there longer without some advice. I was frightened of the house of the man, of the woman, of the servants, even of the child. They were all horrible to me. If I could only bring you down all would be well. Of course, I might have fled from the house, but my curiosity was almost as strong as my fear. My mind was soon made up. I would send you a wire. I put on my hat and cloak, went down to the office, which is about half a mile from the house, and then returned, feeling very much easier. A horrible doubt came into my mind as I approached the door lest the dog might be loose, but I remembered that Toller had drunk himself into a state of insensibility that evening, and I knew that he was the only one in the household who had any influence with the savage creature, or who would venture to set him free. I slipped in safely, and lay awake half the night in my joy at the thought of seeing you. I had no difficulty in getting leave to come into Winchester this morning, but I must be back before 3 o'clock, for Mr. and Mrs. Rucastle are going out a visit and will be away all evening, so that I must look after the child. Now I have told you all my adventures. Mr. Holmes, and I should be very glad if you could tell me what it all means, and above all, what I should do.' 'Holmes said he had listened spellbound to this extraordinary story. My friend rose now and paced up and down the room, his hands in his pockets and an expression of the most profound gravity upon his face. 'The Toller will drink' he asked. 'Yes, I heard his wife tell Mrs. Rucastle that she could do nothing with him.' 'That is well. And the Rucastles go out tonight?' 'Yes.' 'Is there a cellar with a good strong lock?' 'Yes, the wine-cellar.'

as a seaside public-house. The group of trees, with their dark leaves shining like burnished metal in the light of the setting sun, were so audacious to mark the house, even had Miss Hunter not been standing smiling on the doorstep. 'Have you managed it?' asked Holmes. 'I have managed it,' said Mrs. Toller. 'Her husband lies where downstairs. This is Mrs. Toller in the cellar,' said she. 'Her husband lies on the broken rug. Here are the keys, which are the duplicates of Mr. Rucastle's.' 'You have done well, indeed!' cried Holmes, with enthusiasm. 'Now lead the way, and we shall soon see the end of this black business.' We passed up the stairs, unlocked the door, followed on down a passage, and found ourselves in front of the barricade which Miss Hunter had described. Holmes cut the cord and removed the transverse bar. Then he tried the various keys in the lock, but without success. No sound came from within, and at the silence of the key he closed over.

A VOLCANO IN ERUPTION

TUTULLIA, Samoa, Aug. 29 — Via San Francisco, Sept. 13 — Reports from the scene of the volcanic outbreak on the island of Savaii, in German Samoa, say that it is not so large as at first reported. Dense volumes of smoke and ash are being thrown up at intervals, and the ravines and dry water courses are being filled. The greatest activity is at the bottom of a large gully. Showers of heated dust are descending for several miles around the place. This dust when cooled forms into a black pumice. At one place there is a large mound of this substance about 300 feet high. The natives who reside along the coast are panic-stricken. The instruments indicate that there need be no further apprehension as to any further outbreaks.

Itching, Burning, Stinging Eczema

With All Its Unbearable Torture Is Entirely Overcome by the Use of Dr. Chase's Ointment. Itching skin diseases such as eczema, salt rheum and tetter are the despair of the doctors. They prescribe some relief for the itching or an internal medicine to act through the blood, but usually tell their patients candidly that they cannot cure such ailments. We do not recommend Dr. Chase's Ointment as an experiment, for it has long since passed the experimental stage as a cure for itching skin diseases. It has positively proven its power to relieve and cure in thousands of severe cases, and if you could read the sincere letters of recommendation which come to these offices you could not help but consider this the most successful treatment for diseases of the skin that was ever discovered. It exercises to a remarkable degree that soothing, healing, antiseptic influence which alone is successful in making a thorough cure of eczema and other itching skin diseases. Dr. Chase's Ointment, 50 cents a box, at all dealers, or Edmanco, Bates & Co., Toronto.

Planters Show Signs of Weakness—Offerings Made to Fall River Manufacturers.

FALL RIVER, Sept. 13.—Manufacturers observed today the first signs of weakness on the part of southern cotton planters regarding the price of cotton from the new crop. Despite the action of the Atlantic convention, fixing the minimum price at 11 cents per pound in the south, offerings were freely made today to the mills of cotton at 10 cents per pound, or virtually 50 cents per bale, in the local market.

HASTE WITHOUT SPEED

The city is setting the waterworks contractors a fine example of haste without speed. In the latter part of July the Times directed the attention of the public to the fact that about thirty acres of land around Robertson Lake had to be cleared up before the water was turned on.

MR. ROCKEFELLER'S DANGER

Two recent utterances by Mr. John D. Rockefeller will doubtless cause the gentleman's friends no little concern on his account. In Chicago, a few days ago, Col. Moore, president of the National Good Roads Association, stated that Mr. Rockefeller had predicted to him that in 1907 and 1908 there would be from 7,000,000 to 10,000,000 men out of work in the United States as a result of over-production.

THE TARIFF TALK

The Toronto Globe's representative with the tariff commission in Winnipeg concludes that the west is less pronounced than the east in favor of protection. He writes: "The old rivalry between the producing east and the consuming west is revived by the opening of the tariff inquiry west of Lake Superior. So many organizations have been formed to present the views of the manufacturer or those who want still protection that Canadians doubtless wondered if there was still any sentiment in this country based on the principles of freedom of trade or a tariff for revenue only."

WESTERN POLITICS

There are indications that Mr. Walter Scott, the new premier of Saskatchewan, will have to face a provincial rights campaign, presumably led by Mr. Haultain. A despatch from Regina to the Montreal Witness (Liberal) says: "Westerners are out announcing a nomination convention for a provincial rights candidate in this constituency to be held next Monday. The convention is called by a committee of three prominent citizens, one of whom is a Conservative, Mr. G. L. Mars, one of Regina's most influential and respected business men. The other two are Messrs. A. L. Hunter and W. J. Judge. Mr. Hunter is independent in politics, but supported Mr. Walter Scott in the last federal elections. He is a prominent member of the Territorial Grain Growers' Association. Mr. W. J. Judge has been a life-long Liberal, and is yet a strong party man in federal politics. He is, however, an ardent admirer of Mr. Haultain, whom he supported in local affairs for the past fourteen years, and he considers the provincial rights issue of such importance at the present time that he will not be deterred by federal leaders, who desire to consolidate the federal party vote in local affairs."

THE YARMOUTH BANK

A writ was issued at Halifax on Friday in the suit of W. E. Stewart, liquidator of the Bank of Yarmouth, against John Lovitt, S. A. Crowell, Augustus Cann, H. Bradford Cann, and J. Leslie Lovitt, directors of the bank, for a declaration that the defendants were guilty of a breach of trust and negligence as directors and for payment of money lost by said bank. The amount is about half a million dollars. The suit is in the interest of the shareholders to seek to recover their losses from the directors.—Yarmouth Herald.

THE OUTLOOK FOR LUMBER

According to Frederickton Paper the Season Should Be a Good One.

(Frederickton Gleaner.) The log driving contractors on the lower portion of the St. John river have started strenuous efforts to get the logs within a few miles of the boom limits on the move. Wheeler's Island bar seems to be causing a lot of trouble and stranded there, it is said, there is from 5,000,000 to 8,000,000 feet of lumber. Twelve teams of horses and about fifty men are reported to have started work there and the logs are being towed into the water and thus surely, although slowly, worked toward the boom limits. A. H. Randolph talking with a reporter today said that as soon as any logs were got into the boom limits and ready for rafting, operations would commence at once with a good crew of men. Mr. Randolph gave to the reporter the following statement of the operations of the boom company for the present year so far, and as well as the figures for the year as a whole of those of last season: The total amount of lumber rafted was 2,850,000 feet, divided as follows: Spruce, 53,012,704. Pine, 1,298,190. Cedar, 7,986,000. Hemlock, 212,780. The total number of joints rafted was 23,861. James Humble, of Stanley, is in the city to day and he knows a lot about the operations of the lumbermen on the Nashua. Mr. Humble, who has operated for the Gibson concern ever since it started here some forty years ago, has not been very well lately, but he is coming around all right again, and says that he will get out some logs for the Marysville mills once more. Speaking of the rains today with a reporter, Mr. Humble said that they would do a lot of good. In the Nashua, about two miles above Cochrane's, last night there was about 6,000,000 or 7,000,000 feet of lumber. The rain today has the stream driven a lot in getting this drive along, and if the rain amounts to very much Mr. Humble thinks that they should run through to the boom all right. There is also a million and a half in the South Bay and the Cochrane Bridge streams which will be helped along greatly by this rain. The Gibson concern's cut on the Nashua this year will be about the same as in previous years and will run from 20,000,000 to 25,000,000 feet so far as can be learned, although this is pretty early. Operations will be started about next week it is said. During the past summer the Gibson concern has built three dams on the Nashua and now on the Tay again this year, it being ten years since they cut any lumber there. John Fullerton was the manager in charge. The dam today has been paid at New York these days for lumber of different classes. A well known lumberman informed The Gleaner today that a cargo of two million feet owned by T. Lynch & Co. recently sold there for \$3.88 per thousand, a very good price, when from \$3.20 to \$3.75 being considered a good figure. In the course of the conversation the lumberman said: "Now if you had a million feet of hemlock boards in New York today they would be worth just \$18,000 to you, or in other words they are selling there according to my advice at \$18 per figure." "Then again," he continued, "freights are low. The freight from St. John to New York for lumber is 75 cents per thousand while for long lumber they are paying from \$3.50 to \$3.75 per thousand according to the size of the vessel. I have seen it as high as \$4.50 per thousand for long lumber but that was some years ago. The above coming from a gentleman who has been connected with the lumbering and shipping industries of this province for about half a century certainly gives the impression that the prospects for good times in the lumbering industry are what can truthfully be called excellent."

James Anderson, 17 CHARLOTTE ST. GOLD IMPORTS. Lasard Freres, of New York, will import \$1,200,000 gold from London. The transaction is a pure exchange operation. Existing quotations on bar gold in connection with current exchange rates show a fair profit on imports of gold. Cable advices Monday afternoon disclosed the fact that inquiries were making in London concerning the disposition of \$200,000 in gold arriving from South Africa. The first shipments were that arrangements had been perfected to secure the entire \$200,000 for New York.

It is not only easy, but it is great fun, which grows more interesting daily.

A WEEK OF VAUDEVILLE. Prof. Floyd, the magician, has been classed with very best in his profession. In speaking of a performance given at Chelsea recently, the "Courier" (Mass.) Pioneer says—"Floyd, the prestidigitator, delighted a very large audience with his surprising dexterity in handling coins, rings, eggs, and facts requiring skill of hand. He certainly proved that the hand can be trained to move so quickly that the eye cannot follow the movement. His entire performance differs very much from other magicians in many points. His tricks and illusions are evidently new and are presented in an original manner; during each part he does not leave the stage or turn his back upon his audience. The stage settings and paraphernalia are elegant, his conversation is bright and entertaining and during the evening he appears in three costumes of new design and striking in appearance. The programme concludes with a 'Trunk Mystery' in which an incredibly short space of time. The professor's repertoire seems inexhaustible, he has always something new and novel to present."

WEDDINGS

McGrath-Gallagher

MONCTON, N. B., Sept. 14 (Special). A very pretty wedding was celebrated at half past nine this morning in the Sisters' private chapel at St. Bernard's church, the principals being Dr. Roy Henry McGrath, of Fredericton, eldest son of H. J. McGrath, of Dorchester, I. C. R. inspector of insurance, and Miss Helen Maud, only daughter of Mr. and Mrs. Patrick Gallagher, of Hotel Minto.

The wedding was a quiet affair, and the nuptials were witnessed only by the immediate friends of the contracting parties. Rev. Father Savage, pastor of St. Bernard's church, officiated, and was assisted by Fathers Cormier and Duke. The bride was becomingly gowned in white tulle, and wore a crown of white and orange blossoms and carried a pretty white prayer book. She was unattended and Miss Florence Gallagher, daughter of T. J. Gallagher, and niece of the bride, made a sweet little flower girl.

After the ceremony the young couple and friends repaired to the bride's home, where an elaborate wedding breakfast was served. There were no invited guests, but among the relatives from a distance were Mrs. J. A. Ashe, Oswego, N. Y.; Joe, F. Gallagher, Charlottetown, and Mr. and Mrs. John McCann and Mrs. Catherine Gallagher, St. John; Mrs. Ellen Hurley and her son, W. R. Hurley, of Halifax.

The bride is one of Moncton's most popular and highly esteemed young ladies, she was the recipient of a brilliant array of presents, including many beautiful things in sterling silver, cut glass, etc. Several dresses for substantial amounts were also among the valuable gifts.

Many of the presents came from friends in different Canadian and American cities, including New York, Boston, Kansas City, St. John, Fredericton, Halifax, Charlottetown and other places. The groom's present to the bride was a beautiful heart of pearls. The groom is a descendant of the name of the bride, and has been practicing in Fredericton for some years. Dr. McGrath and bride will leave on the Ocean Limited at 10 o'clock this afternoon on a bridal trip to western cities, to include Quebec, Montreal, Toronto, Niagara Falls and other points of interest. Dr. and Mrs. McGrath will return to Fredericton on their return to the city.

Kelly-McLeod A pretty wedding took place at the Cathedral of the Immaculate Conception at 8.30 o'clock this morning, when Miss Annie McLeod, daughter of the late John McLeod, became the wife of William D. Kelly, accountant in the I. C. R. freight office here, and son of William J. Kelly, baggage master at the Union Depot. The officiating priest was Rev. Father Meahan. The bride looked charming in a costume of grey and was attended by her sister, Miss Alice McLeod, while John Ward acted as groomsmen. After the ceremony the newly wedded couple and their attendants left for the residence of the bride's aunt, Mrs. Robert Carr, 20 Gilbert's Lane, where a wedding breakfast was served. After which Mr. and Mrs. Kelly left for Montreal and other points in Canada. On their return they will reside at 105 Wright street.

Shaw-Marr David Walter Shaw of this city was married to Miss Nettie May Marr of Robesey yesterday afternoon, the ceremony being performed in the Tabernacle Baptist church by Rev. P. J. Stackhouse. The church was decorated with flowers and ferns and presented a very pleasing appearance. The bride looked charming in a dress of cream silk over pale blue silk, with cream silk hat, and carried a bouquet. The bride was attended by her friend Miss Bernice Lawson, who wore a white veil over pale blue with white silk hat. Mr. Pearl Black officiated as best man, and the bridesmaids were Arthur Saunders and Herbert Saunders. The bride, who was given away by her brother, is a daughter of David Marr Robesey. The groom is well known in the city, having fought in the war of South Africa, and is the recipient of three medals. Mr. and Mrs. Shaw will reside on City Road.

Rodgers-Hopper MONCTON, September 14 (Special). A quiet home wedding was celebrated at Harrisville yesterday, when Miss Hopper was married to William J. Rodgers, an I. C. R. brakeman. The ceremony was performed by Rev. J. W. McConnell. Only the immediate friends of the contracting parties being present. The happy couple left on the Ocean Limited on a wedding trip to Halifax and Sydney, after which they will reside in Moncton.

EMPIRE DRAMATIC CLUB The members of the Empire Amateur Dramatic Club will meet at the Masonic church school room this evening at 8 o'clock. The gathering will be of a social nature and plans for the coming season will be informally discussed. There has been some talk of putting on a musical comedy, but nothing definite has as yet been arranged. Several new members will be enrolled and the specialty list will be strengthened. Everything possible is being done to sustain the good reputation the club holds at present, and this season's performance promises to be even better than those of last year.

DEATHS SCULLY-In this city, Sept. 14, Mrs. Mary Scully, aged 73 years, died at her residence, 21 West End street, West End cemetery. Interment at Sand Cove cemetery.

MONCTON IS PROGRESSIVE

Comparison of the Present City With That of Some Years Ago.

One who has not visited the city of Moncton for several years, unless merely to pass through it, is not so much impressed with the fact that it is a growing city as when he spends a few hours there and has time to look about him. Moncton is certainly growing. One citizen told a Times man on Tuesday that over two hundred new houses are being built this season. He said a friend of his lately laid down the foundation of a new building and five persons came to him, one after the other, to enquire about it and ask if the building would be rented. A ride about town and into the suburbs showed many new buildings, some of which are evidently taken to improve the appearance of the city. The streets and sidewalks also show improvement.

It is to be noted also that there is a growth of population on the Albert county side of the river, compared with a few years ago, and some handsome residences are to be seen there. On Main street, in the city, the number of handsome buildings grows from year to year, and the banks, stores and other buildings have an appearance of prosperity. Main street looks much more like a street in a large city than it did a few years ago, and other streets also show evidence of progress, with new ones being opened up or old ones extended.

Moncton has handsome churches, and its principal public school is an exceptionally large and fine building, set in ample grounds. The hotels of the city show a very marked improvement compared with those of some years ago. Much more is to be noted on the streets. The industries of the town have grown, and the people, who have always been noted for their pride and faith in the place and very confident regarding its future, a confidence well founded when the location is considered and the enterprise of the people taken into account.

Looking back at the Moncton newspapers of a few years ago, and comparing them with those of today, another index of progress is found. The Transcript and Times both have handsome new homes, and have greatly improved their equipment, appearance, size, and news quality.

It is a pleasure to visit Moncton, to see the city and the rich and fertile fields by which it is surrounded, all abounding in evidence of thrift and progress.

ARE YOU THERE? "1650, please Miss!" "Yes, sir." "Why I've been trying to get on for the last hour. They are always busy." "Yes, but I will give you a ring when you can have them." "LATER." "You may have 1650 now." "That the Penobscot Natural Sulphur Spring Co?" "Yes, sir." "Will you send me a quart jar of your sulphur water every day until further notice. My doctor tells me it is a certain cure for rheumatism and dyspepsia." "Well, sir, we are meeting with wonderful success. We simply ask you to give us a trial. You may depend upon getting it fresh daily. Yes, sir, 21 Waterloo street is our address."

CAN I GET A POSITION? Do not forget that you are guaranteed a position worth from \$300 to \$600 per year, at the Currier Business University, Limited. The position is the binding clause in the school's agreement with you, and you are allowed to hold one half of your tuition fee until you secure said position. No other school is so well organized in its city and outside connections as to make such an offer.

PERSONAL INTELLIGENCE Dr. L. C. Warren, chairman of the international committee of the Y. M. C. A.; Mrs. Warren and Robert C. Moore, general secretary of the international committee, passed through the city today en route from New York to Charlottetown, P. E. I., to attend the maritime convention.

Miss Daisy Weddell arrived this morning from the capital, and is visiting friends in the city. Mr. D. Doherty left today for the head of Casseau Lake to hunt moose. John E. Irvine left today for Charlottetown, P. E. I., where he will attend the maritime convention of the Y. M. C. A. Marvin Hayward of Matfield (N. S.), is in the city visiting friends.

The many friends of Arthur Stillwell will be pleased to know that he is improving rapidly at the public hospital. Archibald Collins, son of John Collins, the Union street grocer, is at present engaged in harvesting at Linden (N. C.). Mrs. Joseph Mosher of Charlottetown, who fell at her home yesterday and broke two ribs, is resting easily today. Fred Chalmers, head clerk at R. C. Elkin's ship brokerage establishment, who has been ill with typhoid fever for over two months, is steadily improving. How Josiah Wood returned to Sackville at noon yesterday after a short stay here. J. H. Doody returned from New York yesterday morning.

Mrs. Purchase and son, of Boston, who have been visiting in Digby, will arrive from there today and will visit R. Purchase, Wentworth street. They will return home next week.

APPLES AND PLUMS SCARCE AND HIGH

indications Are That Supply of These Fruits Will Be Very Light.

From present indications the people of St. John will have to pay high for apples this season. According to the reports of the captain of the schooner, which bring the fruit from Nova Scotia, the crop of early varieties is very light, while the late ones are not by any means plentiful. The crop of greenweaves is reported as not being up to the mark, and they will be at least a fortnight later than last year.

Already the buyers for the English fruit growers and buying up immense quantities of all kinds of apples, mainly the winter varieties. They are offering \$2 a barrel. The schooner Clisset, which is now in port, brought over ten barrels of greenweaves, which are the first to come this season.

People who have been waiting in anticipation of getting plums cheap would do well to buy now, as reports from the grape growers prove that this is an off year and the crop is very light. Last year there was an abundance, but a reaction has set in, and this year there is a great scarcity.
