MacDonald Urges All Parties To Unite on Irish Question

JAPANESE DEMAND CAUSES STIR

SAYS BOTH NORTH AND SOUTH MUST HAVE FAIR DEAL

British Premier Declares Bargain With Free State Must be Carried Out. SPEAKS AT DERBY

(Canadian Press Cable.) Derby, England, Sept. 29.—In his first political speech since the parliamentary recess, Premier MacDonald, referring on Saturday to the meeting of Parliament on Tuesday to deal with the Irish bill, appealed to home rulers, Unionists, Conservatives, Liberals and Laborites to come together, so that the bargain solemnly entered into with South Ireland might be carried out.

Some one asked him what about the north, and to this the Premier retorted: "I have got to be dealt with fairly, like the south."

Defending the Anglo-Russian treaty, the Premier pointed out that this was the second stage of the Labor Government's efforts to make peace with Russia, for which he was called a Bolshevik.

It was significant that two nations which have been blackguarding, hating and conspiring against each other had at last negotiated a commercial treaty which would re-open the Russian market to British merchandise. He believed the document would settle the question of claims and put an end to all propaganda.

The Prime Minister emphasized that Great Britain was not giving a loan to Russia, but was merely guaranteeing it, which was a different thing. Russia would be largely repaid by Russia in purchasing goods and materials in Great Britain.

N.S. CONSERVATIVE LEADER IS DEAD IN FREDERICTON

Howard W. Corning Passes Away Today After Only Short Illness. WAS STOCK BREEDER

His Guernsey Cattle Had Frequently been Exhibited in St. John.

(Canadian Press.) Fredericton, Sept. 29.—Howard W. Corning, of Cheonggin, N. S., aged 45, leader of the Conservative opposition party in the Nova Scotia Legislature, died this forenoon at the Fredericton Public Hospital, where he was under treatment for typhoid fever.

When he arrived in Fredericton this year with his Guernsey cattle and other stock he was ill, and at first it was believed he was suffering from pneumonia. Physicians diagnosed his illness as typhoid fever, however, and it was said that the disease had been contracted before he reached here, and had already made considerable progress.

Mr. Corning was then taken to the Fredericton Public Hospital and Mrs. Corning was sent for, and came here from Cheonggin, and Mrs. Saunders, of Yarmouth, N. S., his sister, was also at his bedside during the past two weeks and when he died this morning.

The remains are being taken to the widow's home in Nova Scotia for interment.

Major Carl Spatz flew from Selfridge Field to Mt. Clemens, Mich., in 3 hours and 2 minutes. Flying conditions were reported as "only fair."

Girl Turns Duel Into Three-Cornered Fight

Chicago, Sept. 29.—(United News)—When Frank Frankenburg lost his beloved "Lili," hairdresser to his rival, Frank Koellner, he challenged the latter to a duel with fists.

Koellner met Frankenburg in a vacant lot. They began to fight. Meanwhile the girl had missed her betrothed and got wind that they were fighting over her.

Grabbing a baseball bat, she rushed to the scene of battle and took a hand. Police mixed in and put all three in jail.

This Ottawa statement coincides with what is reported in St. John. The place in the cabinet that would be vacated by the appointment of Attorney-General Byrne to the bench will, it is generally understood, go to Ivan C. Rand of Moncton.

Mr. Corning was then taken to the Fredericton Public Hospital and Mrs. Corning was sent for, and came here from Cheonggin, and Mrs. Saunders, of Yarmouth, N. S., his sister, was also at his bedside during the past two weeks and when he died this morning.

The remains are being taken to the widow's home in Nova Scotia for interment.

SAYS FREEDOM OF RELIGION MUST BE FIRST PRINCIPLE

Premier Herriot Replies to Protest Made by French Cardinals. DENIES MENACE

Says Any Attempt to Interfere With Faith Will be Stopped.

(Canadian Press Cable.) Paris, Sept. 29.—Premier Herriot has given a reply to the letter sent to him by the six cardinals of France in which they called his attention to the deep feeling aroused by his policy toward the church especially with regard to suppression of the French embassy in Rome without religious teaching in Alsace-Lorraine and strict application of existing laws to religious orders.

The reply which was submitted by the Premier to the cabinet council yesterday for its approval, is couched in moderate terms, but takes sharp exception to the arguments advanced by the cardinals.

"It is entirely impossible for me to admit," the letter says, "that the measures elaborated by my government can constitute—as you say—a grave menace to the principle of the establishment of international peace."

"Under our administration all functions, clerical and others have been made to conform to the principle of freedom of religion in their respective spheres. Moreover, should the Catholic faith in our territory be molested in any way we should interfere immediately and take energetic steps to assure the full exercise of that faith. Indeed, freedom of religion is the foremost principle in the establishment of international peace."

"But we are resolved to protect the rights and consciences of individuals. We are entrusted to maintain state rights, but we are of the opinion that it is necessary to distinguish the spiritual from the temporal. While refraining from interfering with individuals, we refuse to permit these rights to be controlled by other than those concerned with their national sovereignty."

"This doctrine was exercised by the revolutionaries of the nineteenth century and by the regimes, particularly by Richelieu and Mazarin. This national sovereignty in no manner encroaches upon the rights and interests of other nations. France is protecting Catholicism, not Catholicism protecting France."

He returned to the cigar, muttering, "They're on me."

Several other matters had been arranged for hearing by the late Hon. F. B. Carvell, Hon. Mr. McKeown said, including the question of accommodation for the people of Gaspe by the existing railways. Hon. Mr. Carvell had arranged to make a personal inspection tour of the section early in September, he said. This work he did, was probably the next matter he would take up and he would carry out this inspection early next month accompanied by the board's engineers.

Hon. Mr. McKeown said everything was going as well as could be expected and he was receiving every assistance from his colleagues. He expressed his appreciation of the kind wishes he had received from his friends all over Canada.

Even if Mecca is not yet actually in the hands of the Wahabis it appears to be seriously menacing it. If they capture and hold the city, it is supposed that the famous pilgrimages will cease, as the Wahabis vehemently oppose and frequently try to prevent the pilgrimages, regarding them as equivalent to idolatry.

Italy is proud of its little Madam Glna Letti, who has been selected by a committee of artists and others as the most beautiful blonde in her own country.

Unusual Activity in Automobile Trading; Some Startling Bargains

In these days of big business deals and over-night fortunes, one is not surprised at anything, but—

In the peaceful quietude of the noon-hour recess from the bustle of business, the boss of a big commercial establishment was enjoying the fragrance of his after-lunch cheroot. The dog of his private office stood slightly ajar, and from beyond came the occasional bustle of the office boy and the one clerk left behind to guide the progress of the business during the lunch hour. Suddenly through the open window behind him came voices—

"I'll trade you one of my Marmons for a Ford!"

"Here was big business to be done—but there must be a catch in it somewhere. The business man rubbed his eyes. Was he dreaming? But the reply was even more astonishing.

"I haven't got a Ford to spare, but I tell you what; I've got two Hudsons and a Studebaker I don't want, and I'll swap you for a Chevrolet."

Here was big business with a vengeance; the commercial man decided he must get a look at the perpetrators of such hectic bargaining. His hip-tied to the open window. Below him on the sidewalk was his office boy with a telegram messenger. They were swapping cigarette cards in an effort to complete a series.

He returned to the cigar, muttering, "They're on me."

Several other matters had been arranged for hearing by the late Hon. F. B. Carvell, Hon. Mr. McKeown said, including the question of accommodation for the people of Gaspe by the existing railways. Hon. Mr. Carvell had arranged to make a personal inspection tour of the section early in September, he said. WANT APPEAL FROM WORLD COURT TO LEAGUE OF NATIONS

British Dominions Fear Immigration Problem May be Forced.

STATE SOVEREIGNTY

Japanese Deny Desire to Commence War Before Being Attacked.

(Canadian Press Cable.) Geneva, Sept. 29.—Grave international problems are believed to have been released through the Japanese demand at the League of Nations discussions for an amendment to the proposed protocol of arbitration and security. Many of the delegates are of the opinion that the whole question of racial equality has been thrown definitely before the world by the Japanese amendment which touches upon a state's sovereign rights, and that Japan will continue to insist through the League of Nations for revision of international law.

British Dominions Anxious

This revision would provide that matters, now deemed to belong exclusively to the internal jurisdiction of a state, may occasionally and rightfully be the subject of world-wide concern, demanding treatment on the broad basis of equity.

The delegates from the British dominions, especially Australia and New Zealand, are showing anxiety over the outcome of the Japanese amendment because they fear that the immigration problem may be forced before the council of the League for consideration.

The Japanese proposal has excited the apprehension of many delegates who fear that Japan wants to maintain the right to go to war over matters touching on the sovereignty of a state without its being attacked by other members of the League. The Japanese indignantly reject this insinuation. They contend that a great setting up a states rights doctrine and by having this doctrine upheld by the world court. They insist they merely want the privilege of further hearings before the organs of the League in order to obtain justice.

The Japanese Contention

M. Adachi in presenting the Japanese amendment argued that the most elementary logic and equity prohibited the League from declaring criminal a nation that might wish to act in any precise manner in a case where no real injury was indicated by the machinery set up by the League. It was quite inconceivable, he said, that when a dispute arose between members menacing world peace and good will among nations that no solution should be found.

Then, in the name of the Japanese delegation, M. Adachi formally proposed the suppression in Article 6 of the protocol of the sentence which holds as an aggressor state any country which ignores a unanimous report of the Council or ignores a judicial or arbitral decision, declaring that a dispute between states is founded on a question which according to international law belongs exclusively to the national competency of one of these states.

"I appeal not only to your juridical conscience," he declared, "but I appeal to your love for the League of Nations and for the peace of the world. I hope our amendment will encounter here if not unanimity, at least an overwhelming majority."

PIRACY CHARGE IS DENIED BY SHAFF

German-American is Grilled by French Regarding Canadian Coast Incident.

Brest, France, Sept. 29.—Max Jerome Shaff, German-American, charged with piracy on the high seas in connection with the loading and unloading of whisky from French steamship Mulhouse off the Canadian coast, was subjected to 12 hours of grilling Saturday by Captain Fournier of the French Navy, who will act as prosecutor against Phaff before the marine tribunal. The examination was conducted with the strictest privacy in the presence of Phaff's attorney. Afterward Phaff's attorney reported that his client had repudiated the accusation of piracy but had given many interesting details concerning the smuggling of liquor into the United States. He stated that he had told Captain Fournier that he was unable to give the exact date of his birth and that he did not know whether he had been born in the U. S. or in Germany.

On Tuesday Phaff will appear for his first official examination before a magistrate and it is expected that P. C. E. Gide, prominent international lawyer and a member of the Paris and London Star Associations who is the accused counsel will be present.

SAY EPINARD WAS THE BEST HORSE

The Racers Off to Latoria Wednesday For The Third Special.

New York, Sept. 29.—Ladkin, August Belmont's three-year-old, winner of the second international special race at Aqueduct, Saturday; Epinard, the French colt, who finished second, and Wise Counselor, the western colt, who was third, will be shipped to Latoria in readiness to prepare for the third special, which is to be run on a mile and a quarter on October 11.

While the race and the \$25,000 purse, Saturday, most of the glory and all of the sympathy of the racing set went to Epinard, the colt who was out by a nose. Turf critics were almost unanimous in the opinion that Epinard was the best of the American thoroughbreds, even if he did finish second in the first two international races.

Everett Haynes, the former jockey who returned from France to ride Pierre Wertheimer's good colt, was criticized severely for having ridden with very poor judgment in both races, and also for Epinard's loss to Verdict in England, early in the season. Critics expressed the opinion that Earl Sande and several other American boys would have won each race in a romp.

While nothing official could be learned today, it was understood that Haynes would have the mount on the French colt at Latoria.

MONTREAL TO HAVE A NEW PARTY PAPER

With New Year Will Come French Conservative Journal in That City.

Montreal, Sept. 29.—A new French afternoon newspaper, which is to be the mouthpiece of the Conservative party in the province of Quebec, will make its appearance in Montreal on January 2nd, Hon. Rudolph Monty, former minister in the Meighen Government, announced in the course of an address at the Cartier-MacDonald Club on Saturday.

Mr. Monty said that for years he had urged the establishment of a party daily paper as the best means of making Conservative principles known, and he was happy to announce that sufficient assurance of support had been received to permit of the publication, beginning January 2, of an official party organ.

Will Be Fight For Ottawa Mayoralty

Ottawa, Sept. 29.—A mayoralty fight will take place this year as the result of announcements made by Controller Arthur Ellis and Mayor Napoleon Champagne. It would not be surprising if there were a three-cornered contest, as a four-cornered contest on December 1, as friends of ex-Mayor Frank Plant are suggesting that he offer himself as a candidate again, while there are reports that Controller Balharrie might enter the contest.

BELIEVE WAHABIS HAVE TAKEN MECCA

If Holy City is Not Yet Captured Its Fall Seems Imminent.

London, Sept. 29.—While the Moslem world is anxiously awaiting confirmation of the report that the Wahabis—fanatical Mohammedan Puritan reformers who held the Holy City for a few years at the beginning of the nineteenth century—were little news is reaching the outside world by way of rumor suggests that the report is likely to be true.

King Hussein, who during the great war made Mecca the capital of his new kingdom of the Hejaz, is reported by the Daily Chronicle's Cairo correspondent to be retreating with his scanty forces of Hashimites to Jeddah, the port of Mecca. The belief is held, according to this correspondent's dispatches, that Hussein's allies have failed to attempt to recapture Taif, which the Wahabis seized recently. Possession of Taif is of the greatest importance to Mecca, because it is from there the capital receives most of its foodstuffs. The tribes between Mecca and Taif are stated to have refused to help Hussein, whose safety, according to recent reports, is in danger.

Hon. Mr. Carvell had arranged to make a personal inspection tour of the section early in September, he said. This work he did, was probably the next matter he would take up and he would carry out this inspection early next month accompanied by the board's engineers.

Family Deported After Nine Years

Boston, Sept. 27.—Sven J. E. Hallgren, his wife and his daughter, who after living nine years in Quincy failed to obtain admission to this country when returning from a visit to Sweden under deportation orders, while friends are attempting to have the case reopened.

A son is a business man in Quincy and another daughter, who was born in this country, lives with him.

Senator Lodge was among those who attempted to have the New York port authorities reverse their decision denying the Hallgrens admission. The ruling held that the daughter was "reborn," and classified the parents as "accompanying aliens."

Weather Report

Toronto, Sept. 29.—The trough of low pressure which was just west of the Great Lakes on Saturday has moved slowly eastward and now extends from the Ottawa Valley to Florida and there are indications that a storm will develop near the middle Atlantic Coast and move to the Maritime Provinces. The weather is fine throughout the western provinces.

Forecasts: Rain. Maritime—Moderate winds and partly cloudy Tuesday morning increasing southeast winds, cloudy followed by rain.

Northern New England—Probably showers tonight and Tuesday, cooler Tuesday strong eastwind shifting to North Tuesday.

"I appeal not only to your juridical conscience," he declared, "but I appeal to your love for the League of Nations and for the peace of the world. I hope our amendment will encounter here if not unanimity, at least an overwhelming majority."

D. J. PURDY DEAD AT NORTH END HOME

Prominent for Many Years in Business and Public Life.

Daniel Jarvis Purdy, in his eighty-fourth year, a native of Jemas on the river, son of a Loyalist family, merchant, shipowner, legislator and vice-councillor in the old city of Portland, now North End, and in the united city as well, passed away at his home, Main street, North End, this forenoon, after a fortnight's confinement to his bed. He was up and about three weeks ago when he took a trip to Fredericton in his new motorboat bearing his name, and less than a month ago worked at his desk with much of his old-time vigor of mind and penmanship.

The death of Hon. Mr. Purdy removes a figure of wide familiarity. Indeed, he was a well-known personality not only along the river, with those people along both shores his name was a household word. But the city of St. John knew him thoroughly well also. His career in business, in the coastwise shipping industry, in industrial life such as the Maritime Mill Works, a casket factory enterprise, river steamboating and especially as a member of two Dominion Councils—old Portland and the united cities—likewise his career at Fredericton as a member of the Liberal party, rising to the rank of cabinet member, though without portfolio, all made him stand forth prominently among his fellow-citizens, not only prominently but most honorably and with all the vigor of a robust mind and a willing heart.

It was in no slighting sense of meagre respect the whole countryside referred to the late citizen as "Dan" Purdy. He was a man of his own people, born on a farm, forced into the forefront of activity by that old-fashioned quality of hard work and industry which the industry untrammelled by the clock's ticking or the lure of pleasures. This trait in his character stood him in wonderful stead right up to the final year of his ripe old age, when the crowning achievement of a useful life, the final touch of the hand that lavished labor and money on the development of the wonderful St. John river was materialized in the modern motorboat "D. J. Purdy," a craft which has redounded to a large extent the prestige and activities of the noble stream. In other words, D. J. Purdy's final evidence of faith in his own home stream, the St. John, was the erection of the new craft upon which he took so many trips this summer and the cost of which made up its funds into the earnings of a lifetime.

Faith in St. John. It is well that younger citizens contemplate the type of man that Mr. Purdy was, for his example in persevering industry is not always found nowadays. Coming to this city from his country home more than 60 years ago.

Prominent Citizen Passed Away Today

He worked up a grocery business. Then he became financially interested in schooner trading. These interests grew quickly, largely due to interlocking interests, and as years wore on Mr. Purdy invested his savings in other directions, chiefly industrial ventures. He had implicit faith in St. John and never hesitated to risk his money in what seemed to him a reasonable proposition. His steamboating career placed a number of steamers in his hands. The names will be recalled, the old Star, the Crystal Stream, the Sinences, Majestic, D. J. Purdy, and now the new motorboat to which his name has been transferred. Mr. Purdy succeeded several firms of river navigators, the Smalls, the Hatheways, and his name is to be fled away in history with these builders of New Brunswick. It is doubtful if it falls to the strenuous lot of many citizens in the course of a nation's growth to take so active a part in the things that make for the upbuilding of the country and the benefit of its people.

MOVING HALL TO NEW LOCATION

East St. John Presbyterian Congregation is Carrying Out Operation.

The Presbyterian congregation of East St. John is carrying out a very difficult and trying task, the removal of the mission hall from its former site in the hollow on the city side of the Municipal Home to the projected location of a new Presbyterian church in Wilton street, Courthouse Bay Heights. The hall, which is a fairly large frame structure, is being transported across country about a quarter of a mile across a bog and up a steep hill to the new location, where it will be used as a meeting place for the Presbyterians until their proposed new church has been completed.

The mission hall was removed from its concrete posts last week and is being pulled by man-operated wheels across the Thomas Barrett property. It will also have to cross Mount Pleasant street before it reaches its new location, where it will be raised 60 feet higher than its original level.

The completion of the water and sewerage system in East St. John has resulted in considerable building activity. Already several houses have been started, and a syndicate which has acquired several lots proposes building in the spring, erecting two or three houses at a time and building others as they are disposed of. One of the largest of the houses now under construction is being erected by E. L. Murchison, instructor at the Boys' Industrial Home.

Mayor Potts remarked that it was a pity this work had not been undertaken before the paving was laid.

Commissioner Frink laid before the council a plan of the proposed extension of 204 mains in Douglas avenue by the New Brunswick Power Company, of which 1,200 feet would be in the paved portion of the street. He said he had made it plain to the company that in the restoration the work must be up to the specifications of the department and this had been agreed to by the company. The commissioner said he had advised him that only two cross cuts would be made, one opposite the Fenton houses and the other opposite the entrance to the Murray and Gregory mill.

Commissioner Frink said he failed to see why the resignation, which had been accepted once by the council, was linked up with a change in the number of members of the commission.

He moved in amendment that, notwithstanding any other resolution of council the number of members of the Civic Power Commission should be 6, of whom the mayor should be one. Commissioner Frink said this called for rescinding the resolution creating the Commission.

REDUCE SIZE OF POWER COMMISSION

Council Takes Action—Seely Street Paving and Other Matters.

The city council this morning accepted the resignation of R. A. McAvity as a member of the Civic Power Commission and adopted a resolution reducing the number of members of the Commission from 8 to 6, of whom the Mayor should be one by virtue of his office.

A recommendation by the committee of the whole that a new terra cotta sewer be laid in Duke and Crown streets was laid over until the next council meeting as only four members were present and this involved a bond issue, which requires a unanimous vote.

The application of the Civic Power Commission for permission to install a water and sewerage system at the substation was referred to Commissioners Wigmore and Harding, for a report.

The resignation of R. A. McAvity as a member of the Civic Power Commission was read by the common clerk and accepted by the council. Mayor Potts said he personally regretted very much that Mr. McAvity had found it necessary to resign his position as a member of the Civic Power Commission and expressed his appreciation of the service rendered to the city by Mr. McAvity in bringing hydro to its present position.

A protest against the paving of Seely street, under the Local Improvement Act, was read. Commissioner Frink said that as more than 50 per cent of the property owners had petitioned for this work to be done the council had agreed to proceed with it and moved the letter be filed. Carried.

A request from the Standard Coal Co. for permission to erect an electric sign at 110 Britain street was referred to the Commissioner of Public Works, city engineer and city electrician, with power to Commission.

Commissioner Harding moved that the resignation of R. A. McAvity as a member of the Civic Power Commission be accepted and the Commission reduced to 6 members, of whom the mayor should be one. Commissioner Frink said this called for rescinding the resolution creating the Commission.

One St. John Man's Jubilee Next Week; Others Follow Closely.

At the celebration of the 50th anniversary of Peerless Lodge, Independent Order of Odd Fellows, which was held in their hall in Simonds street last Tuesday evening a pleasing function took place when Grand Master Whitman of Windsor, N. S., presented jewels to 20 members who have been associated with the order for 25 years or more.

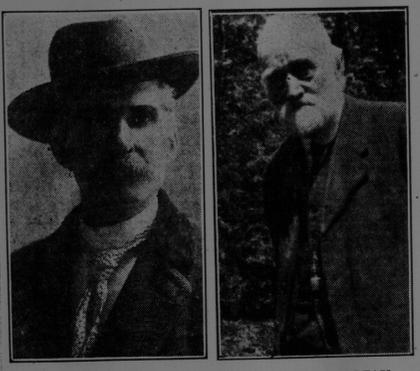

George Gorham, another well known resident of the North End, is the oldest member of Peerless Lodge. Next February he will, if he is spared, have been an active member for 50 years.

During his long association with the lodge he held many minor offices and was also the honor of being appointed Noble Grand.

Mr. Hannah, who joined the lodge about 48 years ago, held practically every office in the association up to that of Noble Grand. He is now a Past Grand and delivers the charge on every occasion required.

John Salmon, who has been a member for 48 years, joined the lodge two years after the big St. John fire.

D.A.C. MEMBERS HOLD REUNION

Second Annual Get-Together on Saturday is Great Success.

About 70 former members of the 2nd Canadian Divisional Ammunition Column attended the second annual reunion at the armory on Saturday evening and the affair proved most successful.

The committee in charge were Major George Gamble, Roy F. Logan, Ralph M. Parker, C. Berton, F. E. Robertson, T. Clinton Brown and O. J. Morgan.

The toast to "The Fallen" was then proposed by Lieut.-Col. N. P. McLeod, M. C., and was drunk in silence while the soldiers thought of their chums whom they had left behind in France and Flanders.

The toast to "Our Guests" was proposed by Lieut.-Col. H. C. Spaulding, D. S. O., and Lieut.-Col. B. R. Armstrong.

The toast to "The Officers" was proposed by Sergt. W. A. Evans, M. M., and was responded to by Lieut.-Col. W. H. Harrison, D. S. O., who spoke at some length of times during the great war and of the good feeling that existed among the Canadian soldiers since their return home.

The toast to "The Other Ranks" was proposed by Major G. A. Ginnin, M. C., and was also responded to by R. S. M. G. A. Biddiscombe.

Intermingled with the addresses was a vocal instrumental programme of music that was most pleasing. Selections were sung by Mrs. Robert Knowles, Ernie Hill and Sergt. R. J. Hughes, while members from the Guy Brothers' minstrels delighted in several numbers.

SPEAKS OF CHURCH UNION SITUATION

Presbyterian Organizer is Heard in Knox and St. Matthew's Churches. Rev. William F. McConnell, of Toronto, chief organizer for the Presbyterian Church Association in Canada, was the preacher in Knox church yesterday morning and in St. Matthew's church last night.

Mr. McConnell believed that in this amendment the most objectionable clause of the bill had been frustrated as the clause previously would have legislated the whole church, together with all property, trusts and people, into the United Church and then would have allowed the people to get out individually but not as a church.

He said that, through the organization of the Presbyterian Church Association, those opposed to this coercive legislation protested in vain to the Provincial Legislatures but with some success before the Federal Parliament and, because of this amendment, those who did not wish to enter the United Church might vote to enter as individuals and as congregation and would not be deemed as having entered. This he considered to be a decided gain but felt there were other sections of the bill not amended which were objectionable. He instanced those clauses referring to education, to the doctrines of the church and to trust funds.

Jubilee Services The special services held in the Coburg street Christian church yesterday in celebration of the golden jubilee of the founding of the church, were deeply inspiring and were attended by large congregations. For the evening service the congregation of the Douglas avenue church united with the Coburg street church and the combined choirs led the singing. Rev. J. Johnston, pastor, conducted the services and gave the anniversary sermon in the evening. Appropriate music at both services gave added inspiration. The jubilee services will conclude today.

In the morning several of the members longest associated with the church took part in the service and spoke of the work of the church and told of the pioneers and of what they had accomplished. Among those who spoke

were J. B. Prince, who has been a member of the church since 1876; F. B. Barbour, Mrs. George Horton, whose father was one of the charter members and who was brought up in the church; R. J. Currie and E. N. Stockford. It was much regretted that J. S. Fliegel, who is unable to give an address at the service, Mr. Fliegel was present but a severe cold made it impossible for him to speak. Miss Suste Vaughan, a charter member, was present in the morning and Mrs. Joseph Palmer, also a charter member, attended the evening service.

In his sermon in the evening Mr. Johnston had for his text "He saved others; himself he cannot save," and his theme was "Salvation Through Sacrifice." He declared that people would get out of life only what they put into it. Unless they would put their whole life into their business or profession they could not hope to succeed as Christians and unless they put their lives into the work for the Church the Church could not succeed.

Rev. W. F. McConnell, in St. Matthew's church last night spoke of "Hindrances that separate us from Christ." Rev. W. J. Brittain, minister of the church, introduced Mr. McConnell who spoke of his pleasant recollections of New Brunswick people since he had spent a very happy winter in the province in 1906-7. A selection "He is well with my soul" was sung by Mr. and Mrs. George Wallace and Miss Madeleine Daley.

V. O. N. TAG DAY BRINGS \$1,200

The proceeds of the tag day for the funds of the Victorian Order of Nurses in St. John which was conducted on Saturday amounted only to slightly more than \$1,200 and while that sum is a fairly average amount for tag day efforts in the city recently it falls considerably below the needs of the V. O. N. at this time. The sum of \$2,500 was the objective and that amount must be raised or the work of the order curtailed.

It amazes visitors at Berry Brothers to find that Liquid Granite Floor Varnish is made by the same old, painstaking, "hand" methods employed more than 65 years ago by the fathers and grandfathers of the present workmen.

This accounts for the fact that Liquid Granite is more than waterproof... that it wears.

MR. D. J. PURDY

Few men retain their physical strength and mental alertness and their interest in business affairs to as great an age as did Mr. D. J. Purdy, whose death is today announced.

Mr. Purdy was best known, however, in connection with the navigation of the St. John river. All along its shores from Indian town to Fredericton his name was a household word.

Mr. Purdy was a successful merchant and very useful man of affairs. He was associated with the business life of the city during a period of great changes, and was able to adapt himself to changing conditions with the keen foresight which spells success.

WHEN ST. JOHN WAS WETTER

(Sackville Post.) The post has been handed a copy of an old newspaper, the St. John Herald, published in that city on June 12, 1848, about eighty-one years ago.

The Herald was published three times a week, Monday, Wednesday and Friday by Henry Sackett and the subscription price was 12s 6d if paid in advance.

Compared with the St. John newspapers of today the Herald was not much of a paper. It is four pages only and its pages measure 10 x 15 inches.

The third page is given almost exclusively to advertising and legal notices. Wm. Hammond & Co. advertise 20 Hhds and 10 pipes of Martell's Brandy and 20 of Hennessy's Brandy.

The Ontario newspapers devote a good deal of space to the campaign, and it is evidently growing hotter from week to week. The Globe says that over 20,000 names will be added to the voters' lists in Toronto.

Two prominent men have lately expressed their views on public ownership. In Philadelphia last week President Coolidge spoke emphatically against Government ownership.

Mr. Henry Thornton was the other man who expressed an opinion. Addressing a company of American business men, he said:

"We feel that in Canada we have demonstrated conclusively that the officers and employees of a Government-owned railway can be just as efficient, just as loyal and just as enthusiastic as those of privately owned railways."

"The question of public ownership has come up in the presidential election, and references to Canada, which has its Government-owned railway system, and to Ontario with its hydro-system, are being made."

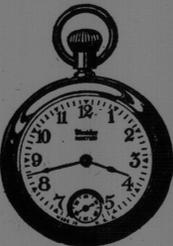

"Business depression was worse today in more sections of the United States than it was in Canada. But the prosperity of Canada did not depend ultimately on the banks and railways."

"When no more American wheat is exported the port of Montreal will lose business, unless it is made up by Canadian exports, and Mr. Babson evidently believes Vancouver will have something to say about that."

More than 7,000,000 bushels of Western Canada wheat have already been booked for shipment out of Vancouver to Great Britain and the Orient in October and November. Actual bushels booked to England are 6,794,400 and to the Orient 800,866 bushels.

There are ninety-six members in the Senate of Canada, and of these the Maritime Provinces are entitled, under the British North America Act, to twenty-four. Of the present membership in the Senate it is stated that there are thirty-five Liberals and fifty-seven Conservatives.

veritable God-send to the deserving poor, who need all their earnings for food, fuel and medicine, and whose children therefore suffer for clothing and just such things as will, I believe, gladly be given when the idea is suggested to the kind consideration of our townspeople, who too long have sold for a few cents the very things which are so sadly needed in the homes of the poor.

My plan for distribution would be this: Collect and lay aside all you have to give; then send to Miss Grace Robertson of the Associated Charities, or some teacher or preacher (they best know the needy ones) a note to be given to a mother, who on returning it to the sender will be given only things that are suited to her particular needs. This will bring the receivers in close touch with the givers, who will

then better understand "wherefor do the poor complain."

HURT IN RUNAWAY. At 7:30 o'clock Saturday evening, a horse driven by Harry Hayes, 29 Egbert street, took fright and ran away near Haymarket Square. Mr. Hayes was thrown and fell under the sloven. When picked up, it was found that he had been injured and he was conveyed to the General Public Hospital in William Nelson's automobile. At the hospital, it was found necessary to take five stitches to close a wound on the back of Mr. Hayes' head. The injured man was taken to his home.

MOTORISTS BLAMED

The rapidly with which forest fires spread was brought home forcefully in the recent fire on the Arapahoe National Forest in Colorado, says an announcement from the United States Department of Agriculture.

The Arapahoe fire started from a campfire left smoldering by careless motorists and burned 2,200 acres of excellent pine timber in a little over three hours. This rapid destruction took place despite the fact that officers of the Forest Service with a force of 200 men began fighting the fire almost as soon as it started.

A very low relative humidity and a strong wind here were two factors that made it hard for the forest officers to control the blaze, which jumped to the crowns of the trees and destroyed in three hours what nature had been a hundred years in building.

"The survival of the Arapahoe fire," stated officials of the Forest Service, "is that every camper should make sure his campfire is out—then bury it."

DAYLIGHT SAVING. (Christian Science Monitor.) The vote of Massachusetts on Referendum No. 6 at the coming election will, in all probability, determine the fate of daylight saving in the United States.

Massachusetts originated the movement for a national daylight-saving law, and Massachusetts now is the only commonwealth that retains a state-wide law. Should the vote of Nov. 4 be against the present law, it is almost certain that the Legislature will repeal it and that daylight saving, except, perhaps in a few cities, will be abandoned in the United States.

On the other hand, the voters of Massachusetts should register their approval of an extra hour of afternoon sun during the summer months, the friends of the law assert that a daylight-saving zone will be established throughout the industrial east, where the benefit of such a measure is more apparent than it is elsewhere.

OTHERWISE it is to be feared that owing to the ravages of wind and weather, aided by children young and old, it won't take many years to end the whole matter in a most shameful and melancholy way.

LETTERS TO THE EDITOR. THE OLD BUYING GROUND. To the Editor of The Times-Star: Sir,—In view of the threatened interference with the old Loyalist burial ground, I venture to suggest that, at least, the space at the corner of King and Carmarthen streets, containing perhaps a fifth part of the cemetery, be reserved in perpetuity and roofed in with a dome shaped roof resting on good stone walls.

The identified outside tombstones might be ranged along the inner walls. Here also might be placed tablets to prominent citizens, particularly of Loyalist descent. It would be our Westminster Abbey as it were.

### CHERRY STONE CHOKES CHILD

London, Sept. 29.—During an object lesson at an elementary school here, the children were each given a cherry for observation. The remainder of the cherries were given to the best-behaved children in the class. One of them was Olive Strong, 6, who ate one and swallowed the stone. She went home and was taken ill, and attempts at the hospital to remove the stone were unsuccessful. At the inquest today it was stated that the child's death was due to septic bronchial pneumonia, caused by swallowing the cherry stone, which had become lodged in a lung.

### A PRINCE OF THE STARS.

Battling my way homeward one dark night against the wind and rain, a sudden gust, stronger than the others, drove me back into the shelter of a tree. But soon the western sky broke open; the illumination of the Stars poured down from behind the dispersing clouds. I was astonished at their brightness, to see how they filled the night with their soft lustre. So I went my way accompanied by them; Arcturus followed me, and becoming entangled in a leafy tree, shone by glimpses, and

then emerged triumphant, Lord of the Western Sky. Moving along the road in the silence of my own footsteps, my thoughts were among the Constellations. I was one of the Princes of the starry Universe; in me also there was something that was not insignificant and mean of no account.—Logan Pearson Smith, in "Trivia."

ADVENTURES OF THE TWINS

WHAT THE TWINS SAW IN THE GAZING BALL

"Now come and look, everybody," he invited. "Yes, sir!" said the kind Green Wizard to the Sand Man. "We must find out who stole your sleepy sand. It was either the Sour Old Witch who Lives Under the Water Fall or Tweekanose the Gnome or Ezra Meena the Magician or Twelve Toes the Sorcerer or Comat Leg, who tried to steal the moon or— Why, I know what I'll do!" he cried suddenly. "What?" asked the Twins. "What?" asked the Sand Man. "I shall look in my magic gazing ball and find out," said the Wizard. "It's as easy as eating apple pie. Just you wait!"

Care Of The Feet

Mr. Mann was busy buying new socks shortly after his feet began to give him trouble. The part that stockings play in fixing feet is not generally known. When the feet are unusually tender the toes of the sock should be made of soft yarn and should not be dyed. If there are blisters, abrasions, sores or tenderness do not wear socks with fancy patterns dyed in them.

transferred from the Edinburgh Post Office to similar work in London, but when she returned to Edinburgh at the beginning of 1922 her ardent courtship with the Indian was resumed. He never went to her home until a short time before he set out for South Africa, but she resented any interference with the courtship, and wore an engagement ring which Masters gave her.

"Time and time again," says Mrs. Forgan, "we pointed out to her the disastrous consequences to which a marriage with an Oriental might lead but it was no use, as she seemed to be infatuated with the man. "When she suddenly announced in July that he had sent her \$100 for her voyage to Capetown, her father and I were terribly shocked, but still all our appeals to her to remain at home were of no avail. She was determined, she said, to marry Masters, in spite of his color."

"In a letter from Madeira she spoke of a lady and a gentleman who were taking a great interest in her, and I gather that these are the friends who prevented the marriage. "A cablegram from my daughter, referring to the new turn of events, brought me much relief."

Qualifies as Doctor. It was in February last that Masters qualified as a doctor, and he introduced Miss Forgan to his landlady, speaking of the girl as his wife. Two friends were also led to understand that the couple had been married, but there appears to be no evidence to support such a suggestion. After Masters was said to have made up his mind to go to South Africa—"the place for Indian doctors to get rich quickly"—where he owns considerable property, another surprising statement was attributed to him by a friend. This was that he had been married a year or so ago, had become the father of a son.

THE FIANCES' FAIR. In order to encourage matrimony in France, the Friendly Society of Parisian Youth has organized a marriage fair at Chatou. Three hundred and twenty-eight young men and women left Paris, with a band at their head, went to Chatou, and started the Fiances' Fair by an alfresco lunch, followed by a ball. Each of them had previously filled up a form, giving details as to their situation and prospects, and making known their ideas regarding their life partner-to-be. In return for these forms, each person received a number badge. If, at the ball or elsewhere, a young woman was attracted to the wearer of a certain number, she could find out all about him by simply quoting his number. Most of the men wanted wives who were "fond of home," while the principal stipulations made by the girls were that their prospective husbands should have safe jobs and satisfactory incomes.

And then what do you think they all saw as they looked into the glass gazing ball? Tweekanose the Gnome with the bag of stolen sleepy sand over his shoulder, knocking at the door of the house where the Sour Old Woman lived under the water fall. And as they watched, the Old Woman opened the door and Tweekanose went in. Then she led the Gnome to a place in the middle of the floor and lifted a board. Tweekanose dropped the sleepy sand down into the hole and the Sour Old Woman pushed the board into place with her foot. Then Tweekanose did a little dance and he did a little prance and went out looking as innocent as though he had been picking daisies. "Well of all things!" exclaimed the Sand Man. "Did you see that?" "I should say we did!" said the Twins. "Didn't I tell you?" remarked the Green Wizard. "Didn't I tell you that Tweekanose was the one who most likely had it? Now! Who says I'm not a wizard?" "I'm sure you are," said the Sand Man gratefully. "If it hadn't been for you we wouldn't have had the least idea where to look. We'll go after him at once. The rascal!" "We'd better be going after the sleepy sand, wouldn't we?" asked Nancy, who was worried about the babies. "Yes," nodded the Sand Man. "That's right. It doesn't matter about Tweekanose but it does matter about the sleepy sand. Goodbye, Mister Green Wizard."

MARRIAGE OF WHITE GIRL AND INDIAN DOCTOR IS STOPPED. Edinburgh Lady Cables from Africa That Match is Cancelled. London, Sept. 27.—Many remarkable features are brought to light in the romance of Miss Joan Forgan, the pretty Edinburgh girl of 22, and the Indian doctor, Patel Masters, whose projected marriage in Capetown against her parents' wishes was prevented. The girl, whose parents reside in the Scottish capital, first met him five years ago, when he was a student at the College of Medicine, and she was only about 16, while he was 30. Despite the disparity in their ages, and the racial differences, they became exceedingly fond of each other. Miss Forgan, always stylishly dressed, spent most of her leisure hours with him, and they were frequently seen walking arm-in-arm. While still in her teens the girl was started toward the waterfall, where the Sour Old Woman lived. (To Be Continued.)

Floors that are permanent

WHEN a Dominion Battleship Linoleum floor is laid it is laid for life. Its durability is proof against the heaviest traffic; there is never a question of replacement or expensive refinishing. This is a practical economy that appeals to business men and heads of public institutions everywhere.

But permanence is only one of Dominion Battleship Linoleum's many advantages. It is seamless, crackless and non-absorbent. Dirt or dust cannot grind into its smooth, firm surface. Cleaning is thus a simple, inexpensive task, curtailing janitor costs. You have only to walk on a Dominion Battleship floor to realize its comfort. Soft and springy, it takes the jar and noise out of walking. It is a dignified, good looking floor that has proved its economy and all-around serviceability in Banks, Schools, Hospitals, Offices, and public buildings, everywhere.

Made in four standard shades—brown, green, terra cotta and grey. Special colors for large contracts. Send to-day for free samples and literature.

CROWDS WATCH ORANGE PARADE

The 26th anniversary of the founding of Dominion Loyal Orange Lodge was observed yesterday with a parade at which several sister lodges were present. On their return to the hall they were welcomed by George McQueen, worshipful master of the lodge. Harry Selten was general chairman in charge of the affair and C. L. Hamilton acted as secretary.

The church was crowded to capacity and more than 100 were forced to stand during the entire service. George Knight, of the Douglas avenue Christian church, offered prayer. Rev. George B. A FIRM UNDERTONE IN STOCK MARKET

Initial Prices Showed Only Slight Changes—Dull in Montreal Today.

New York, Sept. 28.—A firm undertone prevailed in the stock market as trading resumed today, with buying orders well distributed over the general list. Initial prices, however, showed only slight changes.

Demand for Alcotch sent that stock up to 107 1/2, duplicating the year's high record. General electric moved fractionally lower.

Montreal, Sept. 28.—The local stock market was almost at a standstill during the early trading this morning and only a few board lot transactions took place. Alcohol showed a fractional change in price, being up a eighth to 104 1/2. Dominion Bridge received a little attention at 76, up a quarter from its close on Saturday.

BUY GERMAN GOVERNMENT BONDS NOW

In November, 1923, German Government Bonds touched their lowest level. The European political and financial outlooks were gloomy and involved. The world's financiers and bankers realized how important to the world's trade and progress the re-habilitation of Germany was.

Germany's Potential Wealth. Few people realize that Germany has an area of 472,000 square kilometres, with a population of approximately 60,000,000 people.

Fortunes Earned by Shrewd and Thrifty Investors

Situation in November 1923. European conditions were at their darkest in the fall of 1923. Exchange rates of European countries crashed. Foreign Government and Municipal Bonds depreciated.

C. M. Cordasco & Company. offered Polish Government Bonds at \$100 per 1,000,000 Marks Bond. City of Berlin 4% Bonds, 1914 and 1915 issue, went begging for a few dollars.

What To Purchase. INVESTORS IN SELECTED GERMAN GOVERNMENT BONDS WILL REAP AMPLIFIED PROFITS. This has been our slogan during the past eight months.

Worst of European Situation Over. It was becoming daily more evident to Bankers, Economists, and Finance Experts throughout the World that the gloomy state of depression into which German Finances had fallen was unlikely to lead to any satisfactory settlement of the Reparations Question.

European Reparations Settlement. The International Commission of Experts issued a report which was enthusiastically received by England, Italy, and the United States.

Immense Profits Made. The investor who had followed our advice, and purchased bonds when we urged him to, now became comparatively wealthy.

History Repeating Itself. The history of the world is repeating itself today. The sale of Foreign Securities has long since passed the stage of being considered a speculative one.

CLARENCE MOORE OFFERED A TRYOUT WITH ST. LOUIS NATIONAL LEAGUE

"Joe" Page Also Has His Eye on Promising Young Fielder of War Vets.

A nineteen-year old St. John boy may get a chance in faster baseball company next year if he so desires and as a matter of fact he has already been recommended for a tryout with the St. Louis Nationals.

Majors Have Eye on St. John Player

Best of all, Moore has youth on his side and that is an advantage that is invaluable. While many stars achieve the big time in a short time, it usually takes several years' seasoning in the minors before the major circuit is reached.

DONNELLY HANGS UP NEW RECORD

Moore was born in the North End in 1905, celebrating his nineteenth birthday last Monday. He did not actively take up baseball until he was fourteen years old. As an intermediate, he played with the St. Rose's, former provincial champions, filling in as a catcher and outfielder.

PLAYERS DELAYED, TROJANS LOSE GAME

The Trojans lost out to Moncton on Saturday afternoon in their first senior league game at the railway city, the home team running up a score of 8 to 3 points made by the St. John boys.

As Young as he Feels

This is said to be the era of the Young Man. In a sense that is true. But the real explanation is that nowadays there are so many men who, according to the calendar, are "getting on," but who in spirit, and "fitness" are just as young as they were twenty or thirty years ago.

The week-end was marked by an unusually long list of automobile accidents. In several cases, however, the machines were wrecked.

An automobile, registered as belonging to C. W. Anderson, Torryburn, left the road last night near Ferris Hill cemetery, smashed a guy wire on a telephone pole, ripped up several feet of fence and turned over on its side in the ditch.

An automobile owned by Mrs. A. F. Watmore was struck in the rear by a machine driven by Mr. Szadkierski in Prince Edward street yesterday afternoon.

RESIGNS AS ORGANIST AFTER NOTABLE SERVICE

After 40 years as organist and part time as choir leader of St. Paul's Church, T. Percy Bourne, has resigned and plans on resting from further activity in musical circles. Four years ago he tendered his resignation and although it was accepted he remained on duty until a succeeding could be secured. At that time he was made the recipient of a beautiful gold watch and a gold headed cane. J. F. Mr. Bourne has been an outstanding figure in musical circles in this city and during his long service his ability and talent were appreciated by the members of the church congregation as well as others who had the pleasure of hearing him. He began as organist in St. Mary's church, and after remaining there about one or two years he transferred to St. James church where he remained for three years. Since that time he has been playing at St. Paul's.

As Hiram Sees It

"I see they're going to have a Children's Week," said Mr. Hiram Hornbeam to The Times reporter. "And very properly," said the reporter. "The children are the men and women of tomorrow."

"I s'pose," said Hiram, "they'll give that there vocational school a boost—won't they?"

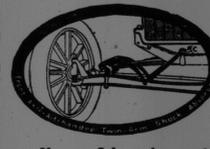

"Oh, that involves taxes," said the reporter. "That's quite different from praying for the children and giving them good advice—which is much less expensive."

"Do you s'pose they'll say anything about that juvenile court?" queried Hiram. "Taxes again," said the reporter. "The charm of Children's Week is that it exalts the children without depressing the pocket-book."

"I guess you're foolin'," said Hiram. "I callate that right after Children's week you'll see that school goin' up an' folks sayin' you got to have a juvenile court right away. Yes, sir—that's what I'd expect from the people of this here pro-gressive Christian town—as I would."
