Uncle Sam And Cupid In Clash
LOVE TALE OF SAXONY
Louis D. Edwards Fell in Love There With Fraulein Klein, Could Not Marry and Brought Her to Boston—Immigration Laws There a Check, But All Ended Well

(Special to Times)
Boston, April 4.—Trade Sun and Cupid clashed in Paris, Prussian Saxony, when the United States vice consul, Louis D. Edwards, was ordered to become consul agent in Fredericton, N. B. Edwards fell in love with Fraulein Klein, a Saxony girl, and his fiancée threatened to sever the two forever. They decided to get married, but under the laws of Germany the ceremony would have been illegal. Edwards did not have a copy of his birth certificate. They went to Antwerp, but found the Belgian laws similar, so they sailed for Boston on the steamer Neomine. Yesterday the immigration people detained them and to settle the legality of Miss Klein's admission to the country they were married in the immigrant society's room by a minister.

CONTRACTS GIVEN OUT FOR BIG WAREHOUSE

The warehouse will be on the northwest corner of Duke and Canterbury streets with Duke street frontage of fifty-one feet and extending along Canterbury 100 feet, separated in the rear from the Brown paper box factory by a two-story building. It will be built of brick with stone trimmings. All the details will conform with the strictest requirements of the fire insurance underwriters. The floors will be of mill construction with four inches of solid plank. The windows fronting on adjoining properties will have steel frames and wire glass. All floors will be connected by an electric elevator and the shaft and all stairways will be enclosed in brick shafts with automatic fireproof doors. The building will be heated by steam and lighted by electricity. The Duke street end of the ground for the local branch and adjoining the offices will be two large sample rooms. This part of the building will be finished in cypress with four-foot paneling around the walls. The balance of the building will be finished only for warehouse purposes.

SISTER LIVES HERE

Charles Howe Killed in Maine—Scott Act Fines in Fredericton

Fredericton, N. B., April 4.—(Special)—A telegram from Chief of Police Davis, of Bangor, announces that Charles Howe, a colored man, belong to St. Mary's, was accidentally killed at Webster Brook yesterday. No particulars were given. He has three brothers in St. Mary's. One sister, Mrs. Henry Hector, lives in St. John. Four county violators of the Scott Act were fined \$30 each today. About 1,000 invitations have been sent out for the governor's ball for Tuesday.

CONDENSED DESPATCHES

Bad Axe, Mich., April 4.—At the opening of today's session of the trial of Dr. Robert A. McGregor, charged with poisoning Seyler Sparling, indications were that the selection of a jury would occupy the court for several days. Lowell, Mass., April 4.—In anticipation of a long industrial struggle in the cotton cloth mills of the city, many of the operatives have gone to Canada and to New England towns where wages have been advanced ten per cent. or more.

THE WEATHER

Forecast:—Fresh northwest winds; fair, Friday, westerly winds; fine and milder.

THE TRAINS

The Boston train came in on time but the Montreal which came in in two sections was half an hour late, carrying baggage, etc., while the second was an hour and ten minutes. On the first section were quite a number of empty cars for Halifax to carry immigrants to the west.

CANADA'S LOSSES BY FIRES IN MARCH WERE \$2,261,414

There Were Twenty-four Deaths, Making Sixty-two in Three Months
Toronto, Ont., April 4.—The Monetary Times estimate of Canada's fire loss during March is \$2,261,414, compared with February's loss of \$1,640,133 and \$822,280 for the corresponding period last year. The March losses estimate is: Fires exceeding \$10,000, \$1,735,385; small fires, \$326,029; unclassified fires, \$200,000. Of the presumed causes, eight were attributed to over-heated furnaces or stoves, six incendiary, four defective chimneys, three heating pipes, two defective stoves, two spontaneous combustion, two defective wiring, two engine sparks, and one each ascribed to chemical action from slacking lime, thawed dynamite igniting and hot ashes in fire. The number of deaths from fires is twenty-four, making sixty-two for the first three months of 1912.

GIVE GREAT CREDIT TO CAPTAIN SCOTT'S DOGS

London, April 4.—The Daily Mail correspondent at Christchurch, N. Z., telegraphs: "The members of Scott's expedition, who are on the Terra Nova, speak enthusiastically of the work done by the dogs, but say the mules were useless. The dogs saved Lieutenant Evans' life, and their work on the whole, constituted an anticlimax to the expedition. The men are keenly disappointed because Amundsen was the first to reach the pole." Toronto, April 4.—Dr. C. S. Wright with the Scott expedition to the South Pole, will stay two years in the antarctic, according to a message received by his father, Alfred Wright.

BAIL OF \$10,000 FOR MRS. PANKHURST

London, April 4.—The magistrate in the Bow street police-court today allowed Mrs. Pankhurst, leader of the militant suffragettes to be released on bail of \$10,000, pending her appearance at the Old Bailey sessions with Mr. and Mrs. Pettick Lawrence, joint editors of Votes for Women, to be tried on the charge of conspiracy and inciting to commit malicious damage to property in connection with the recent window smashing raids.

FIRE NEAR DIGBY

Digby, N. S., April 4.—(Special)—The dwelling and barn of the Leslie Craig homestead at Acadia Valley were burned to the ground this morning, and the occupant, Louis Jerome, was a loser to the extent of \$300. All his furniture and other goods were consumed. The property was owned by H. T. Warn, of Digby, and was insured.

Czar and Kaiser to Meet

St. Petersburg, April 4.—The newspapers announce that Emperor Nicholas will meet the German Emperor in Finnish waters in July.

LLOYD GEORGE'S SURPLUS AS FUND TO MEET GERMAN NAVAL GROWTH

London, April 4.—The parliamentary correspondent of the London Times says that the government has laid aside the realized budget surplus of \$1,548,196 with the express intention of using it for the increase of shipbuilding, if the German naval programme is increased. The admiralty appears to have good information that the German navy bill is likely to go through and that as the result of the anticipated increase in the German navy, its striking power will be considerably increased. The realized surplus of six and a half millions is therefore kept as a nest egg for the British navy, though, of course, it will not be used until authentic information warrants it. This is the kernel of the budget statement, though it was not made very plain to the public. The admiralty, which the chancellor of the exchequer took to present the government policy diplomatically and pacifically.

ONE BROTHER IS DEAD; ANOTHER IS DYING

Sequel to the Shooting Case in the Savoy Hotel in Montreal
Montreal, April 4.—Herbert Chapman, Henman, after they had embarked in the door of his room at the Savoy Hotel, early on Sunday morning, died this morning in several directions he had been successful. In order to improve strategic communication and obtain a prospect of further reduction in price and other rates, he had entered into an arrangement with the Marconi company for the erection of a chain of wireless stations to connect the country with India, Australia and New Zealand, at a total expense of \$2,000,000. "This plan," he said, "will place the British empire far in advance of any country in the world in respect to wireless telegraphy." In dealing with the arguments in favor of a new state owned Atlantic cable, he said there could be no disclosure of strategic secrets under the present system because the Admiralty telegrams were sent in cipher. All these cables, though controlled by foreign companies, landed on British territory on the other side of the Atlantic. He adhered to the position he had taken up, that a state owned Atlantic cable could be run only at a loss.

BROTHERHOOD WIN INSURANCE CASE

Judgment Against Widows in Action Against Firemen and Engineers
Montreal, April 4.—Because her husband had applied for a withdrawal card to enter another insurance organization, Mrs. Rosa Brothwood, died yesterday morning in the hospital. He was shot in the head, stomach and liver, and showed great vitality in living as long as he did. Edgar Chapman, another of the brothers, is not expected to live throughout the day. He was not to blame, and the court exonerating him honorably. He left for New York with his wife.

AVIATOR ROGERS DIES OF INJURIES

Makes the Twenty-Second American Airman to Meet Death
Long Beach, Cal., April 4.—Galbraith Rogers, aviator, died yesterday from injuries received from the fall of his biplane as he was in a flight over the ocean. It was Rogers who made an epoch-making flight across the continent last year. He is survived by his brother. He is the twenty-second American aviator in the list of victims.

SIR ASHTON LESTER IS FATALLY HURT

Toronto, April 4.—Sir Ashton Lester, of Durely, England, is at the point of death as the result of injuries received when his automobile collided with a taxicab near his home. A cable to his son, R. A. Lester, here, announced that he was very low. He has extensive Canadian interests. Lady Lester died only a short time ago.

POSTMASTER-GENERAL TAKES UP DEFENCE OF GOVERNMENT AND SPEAKS OF MARCONI CHAIN OF STATIONS BINDING THE EMPIRE—STATE-OWNED ATLANTIC CABLE A MONEY LOSER

(Canadian Press)
New York, April 4.—A London cable says:—During a debate in the House of Commons last night, on imperial trade, several members accused the government of inaction and failure to carry out the proposal for mutual preferential trade between the component parts of the empire, which were pressed by the premier of the various dominions. The subject of a British state owned Atlantic cable soon became a leading feature of the discussion. The matter was raised by Henry Page Croft, who said that a British cable would enable diplomatic and strategic secrets to be transmitted freely. Moreover, the trade of the country would be affected. Postmaster-General Saunderson admitted that cheap and rapid means of communication were essential to the maintenance and continuance of the unity of the empire. He said he had been continually at work to obtain reductions in the cable rate, and in several directions he had been successful. In order to improve strategic communication and obtain a prospect of further reduction in price and other rates, he had entered into an arrangement with the Marconi company for the erection of a chain of wireless stations to connect the country with India, Australia and New Zealand, at a total expense of \$2,000,000. "This plan," he said, "will place the British empire far in advance of any country in the world in respect to wireless telegraphy." In dealing with the arguments in favor of a new state owned Atlantic cable, he said there could be no disclosure of strategic secrets under the present system because the Admiralty telegrams were sent in cipher. All these cables, though controlled by foreign companies, landed on British territory on the other side of the Atlantic. He adhered to the position he had taken up, that a state owned Atlantic cable could be run only at a loss.

BANDIT TRIES TO END HIS LIFE

One of the Paris Band Arrested Admits Identity and Swallows Poison
Paris, April 4.—Carony, one of the automobile bandits who killed a chauffeur at Villeneuve St. Georges, held up a bandit Chantilly, killing two of the employes, and stole \$800, was arrested yesterday. He is now in the police station. He is a bandit leader and has attempted to kill himself. "I am Carony, all right," he said, "I belong to the band you are looking for." He swallowed a tabloid but police surgeons, subjected him to such energetic treatment that the poison failed to act. The arrest of Carony has not put a stop to the highway crimes. Four bandits this morning escaped on an express train. A wagon in the vicinity of Choisy Le Roi, killed the driver and looted the wagon.

BASEBALL LEAGUE PROSPECTS ARE GOOD

With the assurance that Houtt, Mc, and Woodstock will enter a team in the New Brunswick & Maine League, it is now almost sure that the league will be going again this season. These two teams, along with the Marathons, have about completed arrangements to enter, and five or six other teams have applied for a chance. Manager Joe Page of the Marathons, is now paying a visit to several of the towns represented in the league last season, and he returns a meeting will likely be called for the purpose of forming the league.

BIG STEAMER BUMPS INTO HALIFAX WHARF

Halifax, N. S., April 4.—(Special)—The steamer Campana of the Cunard line damaged the wharf of Senator William Roche to the extent of about \$1,000 as she came up the harbor and was about to dock at the I. C. R. terminals. The steamship was too close to the wharf and a heavy northeast wind drove her against the wharf, twisting the piles and strainers, breaking some of them and the captain. To get her away lines were run from the steamer to the railway piers and from the stern to tugs. The pull was hard, but the tugs were able to move the ship and further damage was avoided.

FACTORY GIRL GIVES UP

Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Poughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for female trouble but Lydia E. Pinkham's Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. My pains, nervousness and backache are gone and I have gained five pounds. I owe my thanks to your medicine for it is the working girl's friend, and all women who suffer should write to you for special advice."

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, it is not reasonable to believe that it is an article of great merit.

We challenge anyone to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

HERE, there, little girl, don't cry. They have broken your doll I know. And your playhouse, too.

A little girl passed us on the street the other day, crying piteously. Her small mouth was drawn down into lines of deepest woe.

And yet ask your own experience if it is not so. How can you explain that at forty, fifty or sixty you still remember your disappointment—that time when you were sick and couldn't go to the circus—so keenly as your grown-up grief at missing some truly splendid and life-changing opportunity?

MINERS ORDERED BACK TO WORK

London, April 4.—The miners' federation after a long conference decided to advise all the miners in Great Britain to resume work.

HOLY THURSDAY

In the Catholic churches today large congregations attended the services connected with the observance of Holy Thursday. At Tenbrake last evening in the Cathedral and in St. Peter's many attended. In the cathedral this morning pontifical mass was celebrated by His Lordship Bishop Casey with Rev. L. Guerin, C. S. C., D. Ph. D. of Memramcook, as high priest, Rev. A. Poirer of St. Mar, as deacon; Rev. D. S. O'Keefe, subdeacon; Rev. A. W. Meahan, master of ceremonies; and Rev. C. P. Carleton of Peterville, and Rev. A. Landry of Cape Bail, in the sanctuary. The Blessed Sacrament was borne in procession to the repository in the Virgin's chapel, there to remain for veneration until the Mass of the Presanctified tomorrow.

In St. Peter's church Rev. A. J. Duke, O. S. S. R., celebrated solemn high mass, assisted by Rev. F. J. O'Regan, S. S. R., and Rev. J. H. Borgmann, C. S. S. R., with Rev. E. J. Holland, C. S. S. R., as master of ceremonies. A procession of honor of the Blessed Sacrament took place. Large numbers of people attended.

HOME FROM SOUTH

Dr. T. D. Walker returned to the city today after a most enjoyable six weeks' trip to the southern states and the West Indies. He saw the last of the "Maine," before she was taken out for her last resting place in the depths of the ocean. In Jamaica he was much interested in the discussion over the proposed subsidy for a C. P. R. line of steamers between Canada and Jamaica which, he says, would be an excellent thing for both countries. From Jamaica he went to Haiti and thence to the Bahamas, returning via New York.

Mr. and Mrs. W. Malcolm Mackay also returned having taken the same trip but traveling in the opposite direction.

MR. MORINE WAS THERE

Ottawa, April 4.—(Special)—There is a good deal of comment in official circles over the fact that the government had as one of its guests A. B. Morine, inquiries commissioner, at the official dinner given to the West Indian trade commissioners, and in a place of honor.

WHY THERE IS A TICKET
A visitor from an American city appears to have expressed some surprise that the Citizens' Committee in St. John has nominated a ticket for the office of mayor and commissioners. There is nothing surprising about it. The commission plan of government was adopted because of the campaign so successfully carried on by the Citizens' Committee, which, if we may judge from the vote recorded when the plebiscite was taken, represents a good two-thirds of the people.

ST. JOHN IS BEHIND
In the province of Nova Scotia encouragement is to be given by the legislature to the municipalities in order that they may establish local sanitariums for persons suffering from tuberculosis. This is an example which might well be followed in New Brunswick. In the debate in the legislature of the sister province it was shown that these local sanitariums, being within easy reach of patients and their friends, are of great benefit in checking the ravages of the disease.

CITY AND LEGISLATURE
The time will no doubt come when the City of St. John will have a larger measure of self-government than it possesses at the present time. It has been deemed necessary in the past to make application to the legislature for authority to do many things which the city itself should have unquestioned right to do. The desire to protect the rights of the individual has led to conditions which do not properly regard the rights of the citizen.

WORKERS HAVE LOST TWENTY MILLION DAYS
Astounding Figures of Labor Troubles in Britain in Last Two Years

FINAL TEST IS COMING

Industrial Strife Seems Tending Towards it in Relations of Capital and Labor - Present Year Promises to Be One of Industrial Chaos

(Times Special Correspondence)
London, March 21—All signs indicate that England has entered upon a year of unprecedented industrial strife. The stupendous coal strike is but the introduction to a series of trade disputes that threaten England. The workers are excited with recent victories, and excited by a small army of agitators—and millions of them live on wages that are not sufficient to meet the bare necessities of subsistence. They are in the mood for a supreme test with employers.

The latter, aroused by dwindling profits due largely to the increased demands of the laborers, suggested by the unwillingness of their employers to stick by the most solemn agreements, and sick to death of the constant stoppages that have been the very existence of their enterprises, are just as eager for the clash.

The only agency that stands in the way is the government. How long Mr. Asquith, Mr. Lloyd George and the greatest of present-day industrial peace-makers Sir George Asquith, will be able to postpone the inevitable conflict depends entirely upon how far they are willing to go in their socialistic legislation.

The laboring class has been leading up to the coming year since the last year as logically as it is possible for millions of workers, scattered over the whole country and with but insufficient means of concerted thinking and acting, to do. The year 1910 was one of industrial strife such as England had not seen for a decade. The year 1911 was one of industrial chaos, in many ways unparalleled in the whole history of the country and the present year is ushered in by a strike which has all the earmarks of the most serious step that has been taken since the coal strike of Great Britain, and which would, if continued, bring down on the inhabitants of the country a crisis such as would scarcely be likely to cause.

Government's Good Work
If you will have a clear idea of how serious industrial matters are in England at that time and are at present, you must allow a dispersion for a few moments. I do not hesitate to say that the total number of working days lost during the year 1910 would have been 20,000,000, and might easily have been more had it not been for the policy of the government and its active interference in the quarrels between employers and employees.

It was Mr. Lloyd George, who, as president of the Board of Trade four years ago, first stepped in between the two contending parties and acted as arbitrator, bringing to bear on both the full power of the government and the resources of the state.

His policy has been continued, although with less authority at his back, by Sir George Asquith, chairman of the Industrial Council, who, as arbitrator and government mouthpiece, has settled the

THOUGHT WOULD TURN INTO CONSUMPTION
LEFT LUNG GOT VERY SORE, HEART DID NOT FEEL ANY TOO GOOD.

Mr. Robert McLarnon, Shawville, Que., writes:—"I am writing to tell you an experience I had with a bad cold and a bottle of your valuable medicine. I was up in the lumber camps teaming horses, and I caught a very bad cold. I thought it was going to turn into consumption, for my left lung got very sore and my heart did not feel any too good. I came home and tried some different remedies but they did me no good. A friend told me about Dr. Wood's Norway Pine Syrup, so I tried it, and when I had taken two bottles my cold was gone. I think it is a great remedy, and will advise any one with a cold to use it. I can't praise it enough."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the Norway pine tree, which combined with Wild Cherry bark and other pectoral remedies, makes it one of the best known preparations for Coughs, Colds, Bronchitis, and all Throat and Lung Troubles.

Put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

majority of the great strikes of the last few years.

At the same time the socialistic tendencies of the government, which have been ready to go to any length to interfere between capital and labor. Furthermore, the Asquith government has been just as dependent on the support of the labor members in the House of Commons as it has been on that of John R. Seddon and the other members of the House of Commons as it has been on that of John R. Seddon and the other members of the House of Commons.

It is estimated that during August there were 373,015 work people on strike throughout the country. In this one month there were lost upwards of 2,000,000 working days while the two previous months had seen a similar loss.

These great disputes were every year and when December drew to a close it was discovered that these promises had been fulfilled. During the twelve months there had been 864 strikes involving no less than 921,000 people. A loss of 10,347,000 working days were recorded. The number of people involved was the highest on record in the history of the country.

Compared to the average for the previous ten years, the number of disputes increased about 100 per cent, the number of people involved about 300 per cent, and the days lost by about 150 per cent.

It is estimated that for the last year are published, it will be found that the work people have benefited to an enormous extent through strikes. Practically every one of the big disputes of the year was won by the men. The national Federation of Women Workers of Great Britain estimate that the net result to such striking workers during the year was an increase of from thirty-five to forty per cent in wages. In some districts, such as Nottingham and Cradley Heath, there has been an increase of no less than seventy-five per cent. Although the men have not won as well, transport workers, railway men, dockers, seamen, miners and cotton workers have all either won outright or submitted to arbitration which won them or will win them generous measures of victory.

The unprecedented success on the part of the strikers is undoubtedly due to the growth of the sympathetic strike and of what is known as sympathy. The strikes of the last year have been organized on such vast and complete scales that they have practically compelled a settlement as an alternative to national ruin; and in the opening stages of this great conflict it has been the employers who have yielded and retreated step by step. Rapidly, however, their backs are approaching the immovable wall and soon it will be a struggle for very existence. Already there are many signs that their "hats are in the ring."

Grow Turkish Tobacco in the States
Dinuba, Cal. April 3—Between 300 and 400 acres in the Alta district will be planted to Turkish tobacco this year. Experiments conducted for years in many tropical and sub-tropical countries have shown that nowhere else can the flavor and aroma of the Turkish leaf be duplicated.

EASTER MORNING

What makes the Easter morning Sun more dear?
That which shines above us day by day?
What makes each brilliant halo to appear
As if composed of gold and diamond rays?
What sweet perfume pervades the air
Around?
What sweet conciliation fills the breast;
What peace and joy and happiness are found
Replacing triumph, hatred and unrest.
What triumph does this Easter morn recall?
Who's son so sweetly, on all nature beamed?
It means a fallen world from Satan's thrall
By one tremendous sacrifice redeemed.

It tells how that dear Father in His love
Had sent His only Son to be reviled
How fallen man regained his throne above
And Heaven and earth once more are reconciled.

May this sweet lesson Easter morn has brought
Be deeply graven in our mind and heart
That all our future motives may be brought
With love and truth and virtue on our part.

RUBRID TIPLING.
St. John, March 29, 1912.

It is said that the production of twenty made garments within a radius of twenty miles of City Hall, New York, exceeds by almost \$20,000,000 in value the yearly output of iron and steel plants in the whole country.

Mrs. Rhoda J. Swift of Bourneville, who is now visiting her nephew, Albert E. Vaughan, in Brockton, is said to 139 persons, great aunt to seventy-nine and great-great-aunt to 22. Mrs. Swift will be seventy years old on Sept. 2.

WAS TERRIBLY NERVOUS

WOULD START AT THE LEAST NOISE

Wherever there are people who are troubled with deranged nerves they will find that Milburn's Heart and Nerve Pills will restore the equilibrium of these deranged centres, and bring back the shattered nervous system to a perfect condition.

Miss Emma Reed, Lasky, Ont., writes:—"I have great pleasure in writing to tell you about the great benefit I have received by using your Milburn's Heart and Nerve Pills. About a year ago I was very badly run down and could hardly do my work. I tried different medicines but none of them did me any good. I was terribly nervous, and would start at the least noise, and even start in my sleep, which made me very weak. I used two boxes of your pills and I am now well and strong again."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 boxes for \$1.25. For sale at all dealers, or will be mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GET YOUR MONEY BACK If This Medicine Does Not Satisfactorily Benefit You Practising physicians making a specialty of stomach troubles are really responsible for the formula from which Recall Dyspepsia Tablets are made. I have simply profited by the experience of experts. My experience with Recall Dyspepsia Tablets leads me to believe them to be an excellent remedy for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing, the inflamed membrane of the stomach. They are rich in pepsin, one of the great digestive aids known to medicine. Their relief is afforded in almost immediate. Their use with persistency and regularity for a short time helps to bring about a cessation of the pains caused by stomach disorders. Recall Dyspepsia Tablets aid to insure healthy appetite, acid digestion, and promote nutrition. As evidence of my sincere faith in Recall Dyspepsia Tablets, I ask you to try them at my risk. If they do not give you entire satisfaction, I will return you the money you paid me for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents, and \$1.00. Remember, you can obtain them only at my store—The Recall Store, Wasson's—100 King street. THE GEM The bill provided at the Gem Theatre yesterday was pleasing in its entirety and gave pleasure to a great many. The picture programme was particularly entertaining and attractive and contributions to it were made by the Vitaphone, Biograph, and Kalem companies. The first named had their favorite players cast to advantage in a tender drama of domestic life, "Playmates in the Park," in which the well known Vit. dog is seen in a leading role as the constant chum of a young fellow who has been kind to him. "Vagabonds" is the story of Gypsy life presented by the Kalem company which has proved most interesting both as a narrative true to life, portraying the adventures of three rovers and the love of a high-heeled "ragged" lady. The Biograph company have a fine comedy playlet "Abil's Love Affair," which is replete with fun-making and laughter. Today a new idea in staging is being started in the rendering of "Song Reviews," by Miss Anita Burnett who opened an act management on Monday. This will continue for the week of the week. FOR BIGGER HARBOR AT EAST ST. JOHN.

It is announced in Ottawa that the Courtenay Bay breakwater will be placed further to the south, nearer the mouth of the bay, thus providing greatly increased accommodation within the protected area. This will give room not only for the development scheme which has already been outlined, but also for further expansion when this scheme has been completed.

EMPRESS MEN ARE FINE ENTERTAINERS

Give a Clever Performance in Opera House for Local Charities

In the Opera House last night a fine entertainment was provided by the "Empress of Britain Follies." The opening chorus, "The Mountebanks," was supplied by the troupe of sixteen performers, and proved to be a pleasing item, after which the various numbers on the programme were submitted by the individual members of the company.

J. Walker sang a popular chorus song entitled, "The Last Waltz," a very tuneful melody, was sung by J. Duckers with considerable power and effect. A boy vocalist, Master H. Warner, created a hit with his rendition of "The Dream Man," which had an ever haunting refrain. One of the features of the evening's entertainment was the singing of P. Roberts, tenor vocalist, whose magnificent voice was heard to advantage in the selections from his repertoire, "Fionn and Mary," and his madcap reply to a vociferous encore.

R. Thomson created a very favorable impression in the song and dance, "My Storious Bag," and his clever step-dancing was much admired by all. Messrs. Terry and Thomson were very clever in the humorous song entitled "Ain't it Great to Meet a Friend," and the witty sayings and diction of the pair created a good deal of merriment. In the selection "The Perrier and the Mad," Leo Johnston was a prime favorite, and the refrain was sung heartily by all.

The second portion of the bill was taken up by the comedy company in a sketch, "Fun in a Restaurant," arranged by J. Johnston. From start to finish it was one of the most amusing productions ever staged in this city, and reflects considerable credit on the promoters. As a proprietor, J. Walker was ideal, and he was admirably assisted by Messrs. Terry and Thomson, in the roles of the waiters, Sammy and Billy. Their smart, breezy and patter were very amusing, and the riddle facilities of the crowded house were taxed to the utmost. Mr. Johnston, as the tramp, Weary, added in a great degree to the success of the sketch. Patter, however, might be made of Alec Terry, who played his part with outstanding skill, and the music director was appreciated in an unlimited manner.

Others taking part in the sketch were: Messrs. Moonan and Molloy, Mrs. Trivals, Messrs. Let, Price, Cuthell, Pearson, Duckers, Vevers and T. Johnson. The proceeds of the evening's entertainment will be devoted to local charities.

PREFERENTIAL TRADE; THE WEST INDIES DELEGATION

Now for Something out of the Loyalty Professions of the Conservatives in The Last Election

(The Montreal Shareholder) We trust that some thing tangible will result from the visit of the West Indian delegates to Canada. These delegates, to the number of fifteen, reached Montreal on Wednesday morning, and after spending a day in the city, proceeded to Ottawa, where preliminary negotiations were entered into. The conferences which will be held between the delegates and the Canadian government are expected to extend over a week or ten days and may possibly last even longer. The Canadian representatives are the Hon. George E. Foster, W. T. White and J. D. Reid. The West Indian delegates represent the following nine islands: Antigua, Barbados, British Guiana, Dominica, Montserrat, St. Kitts-Nevis, St. Lucia, St. Vincent and Trinidad. The population of these nine islands exceeds 1,000,000 while their importations of foodstuffs and manufactured articles, which Canada could produce, exceeds \$40,000,000 per year. The delegates are hopeful of being able to arrange a preferential treaty with the Canadian government, by which their fruits and tropical products will be admitted into Canada either free or at a reduced rate, and, on the other hand, that Canadian flour, cereals, fish, bacon, lumber and certain manufactured articles, will be given a preference in the British West Indian Islands. The delegates point out that Canada and the West Indian Islands are in no sense competitors; the one produces what the other cannot, and so a mutual interchange of commodities would be profitable to both parties. The present visit of the West Indian delegates is the direct outcome of the Royal Commission of Investigation carried on for the past two years by Lord Balfour. This commission first set in Canada and obtained a mass of evidence from shipping companies, manufacturers and government officials regarding the possibilities of building up a large trade with the West Indian Islands. The commission then adjourned to the islands and took similar evidence there, finally ending up by sitting in Great Britain. They made certain recommendations which are embodied in a blue book. Briefly summarized, these suggestions are that the British West Indies and Canada should enter into negotiations for the establishment of preferential trade, that a uniform customs rate should be adopted by the West Indies, and that a faster steamship service should be inaugurated between Canada and the Indies, and also cheaper cable rates established. These questions will be discussed by the delegates at the conferences which are to be held at Ottawa, and according to the West Indian representatives, the islands are ready to carry out to the fullest extent the suggestions embodied in the Royal Commission's report. The islands are undoubtedly anxious for closer trade relations with Canada, and if Canada is wise she will make certain concessions and meet the Islanders half way in the present movement. There is no doubt but that the islands are on the eve of a great development, owing to the opening of the Panama Canal. This will place them on the highway of commerce between the Panama Canal and Europe and will do a great deal to stimulate their industries and commerce. The one great drawback to a fuller participation by Canada in the activity of the West Indies is the inferior steamship service which prevails at the present time. The Canadian Pacific Railway have offered to establish a fast fleet of steamers between Halifax and the Indies and guarantee that uniform rates will prevail for ten years, in consideration that a subsidy of \$500,000 a year be granted, part of which is to be paid by Canada and part by the West Indies. At the present time the bulk of the products of the West Indies go to the United States, the Island of Jamaica in particular being practically controlled by the United States fruit companies. It will be interesting to watch how much the Canadian Government will do in this matter, and how far they will carry out the professions of loyalty to the British

BANGOR LEADS ST. JOHN IN WHITE PLAGUE FIGHT

Nova Scotia Shows the Way to New Brunswick in Providing a Municipal Sanitarium

(Bangor Commercial.) The local sanitarium, which is to be conducted under the direction of the Bangor Anti-tuberculosis society in the house on Kenduskeag avenue, which is to be used for the purpose, will probably be opened within the next two weeks. The tuberculosis camp has been taken out there, and several needed repairs are being made on the property, including a new cistern for the cellar and a deeper artesian well for a supply of pure water. There are four patients under the charge of the society who are expected to go to the new sanitarium when it is ready. It is a most attractive place, the use of the old Freeman place having been secured. There is about an acre and a half of land, a birch grove, and pleasant surroundings. A woman will have the place in charge and the society nurses will care for the patients. It is expected that a great deal of good will result from the opening of this local sanitarium.

MUNICIPAL SANITARIUMS.

(Halifax Chronicle.) In moving in the Nova Scotia legislature the second reading of the bill respecting municipal sanitariums, Hon. Mr. Armstrong outlined what had been done by the government in the past in establishing at Kentville the first central sanitarium in Canada owned and operated by the government. He said that the subject was one that was engaging the attention of the public, not only in this province, but in all the provinces as never before and how to successfully combat the disease of tuberculosis was one of the most perplexing and difficult problems of the present. He spoke of the very efficient work done at the provincial sanitarium, and of the desire of the medical profession and of those engaged in anti-tuberculosis work to further extend these institutions. In reference to a memorial largely signed by the medical men of the province, and in which the request of large delegations of the anti-tuberculosis society, assurances had been given that a central sanitarium would be enlarged and extended. Particulars of this had already been announced. The same delegation had further asked that some aid be given to municipalities and towns that undertook independent action. This was the object of the bill he was proposing. It was along the lines adopted in Ontario

that the British West Indies and Canada should enter into negotiations for the establishment of preferential trade, that a uniform customs rate should be adopted by the West Indies, and that a faster steamship service should be inaugurated between Canada and the Indies, and also cheaper cable rates established. These questions will be discussed by the delegates at the conferences which are to be held at Ottawa, and according to the West Indian representatives, the islands are ready to carry out to the fullest extent the suggestions embodied in the Royal Commission's report. The islands are undoubtedly anxious for closer trade relations with Canada, and if Canada is wise she will make certain concessions and meet the Islanders half way in the present movement. There is no doubt but that the islands are on the eve of a great development, owing to the opening of the Panama Canal. This will place them on the highway of commerce between the Panama Canal and Europe and will do a great deal to stimulate their industries and commerce. The one great drawback to a fuller participation by Canada in the activity of the West Indies is the inferior steamship service which prevails at the present time. The Canadian Pacific Railway have offered to establish a fast fleet of steamers between Halifax and the Indies and guarantee that uniform rates will prevail for ten years, in consideration that a subsidy of \$500,000 a year be granted, part of which is to be paid by Canada and part by the West Indies. At the present time the bulk of the products of the West Indies go to the United States, the Island of Jamaica in particular being practically controlled by the United States fruit companies. It will be interesting to watch how much the Canadian Government will do in this matter, and how far they will carry out the professions of loyalty to the British

Empire made during the last election. At that time they rejected reciprocity with the United States and declared for closer trade relations with the British Empire. The present is an opportunity for them to put their professions into practice and the outcome of the negotiations will be watched with the utmost interest. It is to be hoped that something tangible will result. The cost of living is mounting so high that the free entry of the products of the West Indies would do considerable towards lessening the cost in Canada. In this matter one country cannot expect to get all and give nothing, and Canada should be prepared to deal generously with our fellow British subjects of the West Indies. "Eureka!" exclaimed Hiram Hoskins, who, with a lighted candle in his hand, was hunting for a leak in the gas pipe. A moment later Mrs. Hoskins sadly said: "That's just our luck. Now we'll have to pay out more money to get the roof fixed." —Chicago Record-Herald. Mr. and Mrs. David Corleary, of Paradise Row, left last evening on a trip to Boston and New York.

IT PAYS WELL TO COMPOSE A POPULAR SONG

A Single "Hit" May Earn For Its Author \$50,000 in Royalties — New York Publishing Centre

(New York Sun) The publishing of sheet music, like every other form of business which is mostly upon the theatrical profession for its existence, is confined mostly to New York city and its immediate vicinity. A child of no definite parentage, it has grown within a decade to one of the most lucrative branches of the vast enterprises that enter to the amusement of the pleasure seeking public. From a few meagre lots on Twenty-eighth street, the former "Melody Lane," it has, under the guidance of business men, become a substantial foundation for the building of beautiful buildings in one of the richest realty sections of the city. There are hundreds of publishers in New York, but the few large or national concerns may be counted upon one's fingers. These few have their main offices or headquarters close to Broadway and may all be found within a radius of several blocks of Forty-second street. As in every other business, there are various branches in the publishing of sheet music. There are the high class editions, comprising operas, scores, symphonies and the works of the masters. Then the publication of comic operas, musical comedy and the semi-classical scores, and finally the million odd copies annually of the popular or five and ten cent store editions. This latter, although the most humble of all, is really the most pretentious from a profit standpoint. Although sold on a small margin of profit to permit the retailer to sell it for ten cents, the volume of business which emanates from one hit song mounts high into the thousands of dollars.

There is a certain amount of glamour or fascination about the composition of a popular melody, the sight of one's name on the cover of the music, and more than all the possible royalties.

"In hardly any other business," said a publisher, "are the returns so great for the minimum amount of energy expended. That is, of course, from the composer's standpoint; for, as in any other national organization, the wheels within wheels, for worldwide distribution are just as complete and well oiled as in any other great system, which extends from coast to coast. It is always of interest to the public, how a popular song or ballad is conceived, written and composed, but as a rule their conjectures hit wide of the true mark.

"For instance, I recall a national campaign song used in one of the late presidential contests which swept the country from the Atlantic to the Pacific, was whistled by every one who could remember a tune and which had a life that long outlived the president it helped to land in the White House. Its song's career is interesting, inasmuch as it was written, composed, printed and sold in New York to Washington all in the short space of twenty-four hours.

"I received the order for the song from the publicity manager of the political campaign about ten o'clock in the morning. I composed, printed and shipped the song to Washington all in the short space of twenty-four hours. I consider that a successful song may sell

remonstrated. I informed him that it was almost an impossibility, but when he assured me of its importance, I gave him my word that the song would be shipped that night and it was. "I called in my best lyric writer. In two hours the poem was ready for the composer. A half hour later the song was complete on my desk, and by five o'clock that evening all the proofs had been corrected and the mammoth presses were grinding out the copies that were to become famous in a fortnight. "This song alone realized thousands of dollars in royalty and earned, during its lifetime, nearly as much as the annual salary of the president which it elected. The later day songs have, in the short space of three months, made their composers independently wealthy. "One song writer, who, several years ago was a waiter in a Bowers dance hall, now has an income of from \$60,000 to \$70,000 a year, realized solely from the royalties derived from his popular songs." Each large publishing house has its staff of writers and the opportunities for the layman or amateur to break into this field are few. The royalties on a popular composition which sells to the consumer for about the cent mark. That is one cent for every copy which is sold. This, perhaps seems infinitesimal—a trifling foot email to be considered—but when one stops to consider that a successful song may sell

Financial Aid The bill recognized the importance of the matter and was intended to afford some substantial aid to municipalities taking independent action and an invitation to them to act at the same time. He paid tribute to the forward attitude taken by some of the local societies in Colechester, Inverness, Halifax, Antigonish, and Guysboro and hoped as a result of these efforts, of the provisions of the measure and of the great need of assistance here as in Ontario, private individuals might be induced to donate towards the upkeep of some of these very desirable institutions.

Cheap Tea is Dear Tea

SO declared the mother of a small family not long ago— "And proved the statement true by simply relating her tea experience. "I used a 30c. Tea for years," she said. "One day the Grocer asked me to try a 40c. package of Red Rose—he told me it was better Tea. I found it better Tea, and—before I had quite finished the first package I thought it made more Tea. The second pound I used with care—

—And found out that less Tea in the Pot made a richer, finer-flavored Tea, if you know what I mean." We know exactly what this lady meant— 40c. Red Rose Tea is a richer, stronger Tea, more delicately flavored. The 30c. variety makes about 150 cups— Whereas the 40c. Red Rose Tea makes about 200 cups. So—You might as well have better tea for the same cost in the long run. There are several grades of Red Rose Tea selling at different prices, but the 40c. grade seems to please best. It is not only fine Quality but goes farther. "Red Rose Tea is Good Tea"

THE CONSERVATIVES AND THE SENATE

Ottawa, April 3.—Since prorogation the government have been talking over in much session of spirit the problem of what to do with the senate. The action of the Liberal majority in the upper chamber in defying the two pet schemes of the government, namely, the creation of a nice slight lever for doubtful constituencies and the establishment of a protectionist tariff commission behind which take shelter on all tariff changes, has emphasized the fact that the opposition

WHEN THE LUNGS ARE WEAK

To every person with weak lungs or who has a family history with records of consumption, a cough or cold is a serious matter. Coughs have a tendency to hang on, irritate the weakened membranes and prevent healing. There is always the danger that a cold may get a firm hold and settle on the lungs. It is so easy under these conditions for pneumonia or consumption to develop.

parliament can secure fair play at least during the lifetime of the present parliament. The Liberals have a court of last resort that will prove a most vexatious but wholesome check on any attempted Machiavelian politics of the present numerically stronger party. This is naturally an embarrassing barrier to some of the political good roads that the government would like to lay down before another election. Consequently the government is looking round for some means of overcoming the difficulty.

May Copy British Act.
 No definite plan of "senate reform" has yet been evolved, but as a preliminary step the government press are instructed to "educate" the electors up to a more keen sense for a constitutional amendment that will provide some means by which the majority in the commons can override the majority in the senate whenever a clash occurs.

One suggestion is that the same procedure be adopted in Canada as now prevails in Great Britain, whereby a measure passed by the commons and three rejected by the upper house shall become law, notwithstanding the action of the latter chamber. Meanwhile the senate will be "reformed" as far as possible through the filling of all vacancies by good and grateful Conservatives. The turning of the present Liberal majority in the senate into a Conservative majority by this process will, however, involve a wearisome wait. At present there are fifty-nine Liberals and twenty-two Conservatives in the senate with six vacancies to be filled, including the seat now held by Senator Sullivan, of Kingston, which will be shortly declared vacant by order-in-council because of the senator's absence for two consecutive seasons. When the six vacancies are filled the Liberals will have a majority of thirty-one.

each to Manitoba, Saskatchewan and Alberta, and three more to British Columbia, thus giving twenty-four in all to the west. The additional nine senators will make the total membership of the upper house ninety-six. The replacing of nine of the present Liberal senators by Conservative senators would then give a Conservative majority.

The problem is getting down to an actual basis. After looking over the ground the government has come to the conclusion that it will take probably at least three years before it can hope to have a really tractable and obedient senate.

GETTING READY FOR EXHIBITION

Feran's Wild Animal Show Will Be One of the Attractions

Early preparations are being made for this year's exhibition. In accordance with their policy of making this fair as good as the Dominion Exhibition, the St. John Exhibition Association is engaging some high class attractions. One of these is Feran's wild animal show which, by the amalgamation of the two enterprises formerly conducted separately by Colonel Francis and Colonel Joseph Feran, now becomes the biggest of the kind in the world. A recent issue of The Billboard says: "The purchase, by Colonel Francis Feran, of all the trained wild animals belonging to Joseph G. Feran gives the colored once more the largest trained wild animal show of America, the kind of show that has made the Feran name famous in the big world's expositions in this country and in Europe. In the show this season will be several big groups of trained wild animals, the especially noticeable ones being one of nine lions and another of seven leopards. The European groups and exhibition animals will bring the grand total of animals up to a point that will make the services of six animal trainers and a dozen animal men to look after the rough work. The united exposition shows will open about May 1, playing the larger Canadian cities and the big fairs of the east exclusively."

WIFE OF THE P. M. TALKS TO WOMEN

Tells What Dodd's Kidney Pills Did For Her
 She Suffered for Two Years and Found a Cure for All Her Troubles in a Single Box

Lower Carraquet, Gloucester, N. B., April 3.—(Special)—Mrs. O. Chasson, wife of the police magistrate here, who for two years has been practically an invalid, is again in the best of health, and she is telling her friends how quick and complete her cure was when she took Dodd's Kidney Pills.

"My illness," Mrs. Chasson says, "was caused by a strain, and for two years I suffered. My back ached, I was all ways tired and nervous, there were dark circles under my eyes and after sleeping I had a bitter taste in my mouth. I had a pressure and sharp pain on the top of my head, I was always thirsty and my skin had a harsh, dry feeling. I was often dizzy, I perspired easily and my perspiration had an unpleasant odor. Almost the first dose of Dodd's Kidney Pills helped me and by the time I had finished the first box I was a well woman."

Mrs. Chasson's symptoms showed that the trouble was her kidneys. That's why Dodd's Kidney Pills cured her so quickly.

THE LOG DRIVING COMPANIES

Fredericton, April 3.—The annual meeting of the Tobique Log Driving Company, which was to be held here today, was postponed until Tuesday morning next, when it will take place in St. John. Postponement was due to the absence of certain members.

The St. John River Log Driving Company's annual meeting took place this afternoon. The old board of directors and the old officers were re-elected. Arthur Y. Rowan was appointed manager and secretary-treasurer in succession to Lewis H. Bliss, resigned. An announced previous by the company's plant and boarding house at St. Marys will no longer be operated, the intention being to build a new one. The expectation is that about 80,000,000 feet of lumber will be handled at the booms during the coming season. Alben Brothers, of Fredericton, have the driving contract.

FERNHILL DIRECTORS

At a meeting of the directors of Fernhill cemetery yesterday, Judge Forbes was elected president and Col. F. T. Sturdee, vice-president. The remaining directors elected at the annual meeting are: Dr. James Christy, P. Campbell, J. E. Schofield, Charles Scammell, W. H. Barnaby, E. L. Rising, J. A. Likely, R. W. W. Frink, F. E. Hamilton and George W. Ketchum. J. P. Clayton was re-appointed superintendent, and W. E. Anderson, secretary-treasurer. The usual standing committees were also elected for lots, finance and executive. It was reported that there are now more than sixty bodies in the receiving tomb, showing the necessity for this building during the winter months.

"I'm going for Tillson's, sir," she said

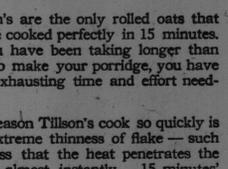

You see this little maid has learned to discriminate between rolled oats in general and Tillson's Rolled Oats in particular.

There is a big difference. But there is only one way you can find it out. By trying Tillson's.

Tillson's are the only rolled oats that can be cooked perfectly in 15 minutes. If you have been taking longer than that to make your porridge, you have been exhausting time and effort needlessly.

The reason Tillson's cook so quickly is the extreme thinness of flake—such thinness that the heat penetrates the flakes almost instantly. 15 minutes' cooking transforms them into tasty, easily digestible porridge.

CO-OPERATIVE CREDIT BANKS FOR FARMERS

(Broadstreet's)
 Co-operative credit banks for farmers have attained large proportions and have proved successful and beneficial to agricultural interests in several European countries, notably in Germany, Denmark and the Netherlands. In fact, the system is heralded as one that will result in an economic transformation in countries which have been obliged to re-organize not only the technical but the business side of their farming industry. The application of co-operative and mutual methods for obtaining capital as practiced in the Old World and exemplified in the methods of Raiffeisen and others will be the subject of special attention at the Southern Commercial Congress, to be held at Nashville, Tenn., in April, and it has also found advocates in connection with the discussion of currency legislation at Washington.

The system has been summed up as one which enables farmers to obtain cheap money by making them collectively instead of individually responsible for loans, through mutual co-operative bank organizations. Germany in 1909 had no less than 2,614 of these rural banks, with an aggregate capital of 22,388,433 marks, reserves of

RICH MAN'S ESTATE

Lorillard Spencer Left Servants \$100 For Every Year in Employment
 Newport, R. I., April 4.—By the will of Lorillard Spencer of this city, who died in New York last month, Mrs. Spencer is bequeathed \$100,000, of which \$20,000 is to be paid at once. In addition, she is given his jewelry, except a few pieces, which go to the son, Lorillard Spencer, in addition to fellowship in the American Academy of Design, stock in the Newport Casino and Reading Room of Newport, which goes to the son.

Each servant is given \$100 for each year of continual service in the family. A large share in the farm of the testator owned in the Bronx at New York, estimated at \$100,000, goes to the son. To a grandson \$25,000 in trust is left. The will, dated New York, April 28, 1911, makes no provision for the testator's son other than already stated, as he is amply provided for by inheriting his grandfather's estate, which came to the testator in trust and now reverts to the son.

BIG ADVANCE SALE

Unusual Interest Over the Appearance of Helen Grayce, Commencing Friday
 The unusually heavy advance sale of tickets for the engagement of Helen Grayce at the Opera House is the very best evidence that the artistic rendition of this popular and charming actress just a year ago, are not forgotten. The engagement, comprising fourteen days, opens with Wildfire at the matinee and The Square Man on Friday night. A Royal Romance, a drama that is filled with interesting episodes is underlined for Saturday afternoon and evening. The biggest laugh in a number of seasons can be looked for Monday night when Charlie's Aunt will be given.

Ho! For Griddle Cakes and Maple Syrup

Spring is here at last and the sap is flowing free. Now for light, digestible foods. Bring along the griddle cakes and plenty of them. Add plenty of the juice of the maple—the syrup that kings would approve. But, good housewife! If you want your griddle cakes to reflect great credit on you, see that you make them with

PURITY FLOUR

the flour that is far-famed simply because it "makes more and better bread." Purity is the name of Canada's extra special flour rolled in bright sun-lit mills from Canada's extra special wheat. No other flour can with it compare. It imparts a flavor and a richness to griddle cakes that makes them surpassingly delicious. Make anything the family desires (anything that you can make with flour) with Purity and your reputation as a cook will go up several notches at least.

"More Bread and Better Bread"

Purity Flour is a richer, stronger flour than the ordinary makes. It takes more water and yields more bread. It also takes a little more shortening, on account of its extra strength, when making pastry. And Purity only costs a little more, although all users of it would gladly pay a good deal more rather than return to common flours. Now, bring on the griddle cakes made from Purity Flour and plenty of good Maple Syrup on the side!
 N.B.—Put Purity on your grocery list—you'll keep it there.

ONE DOLLAR GAS

To be sure of perfect pastry at every baking is the desire, the ambition of every housewife, of the one, especially, who must herself prepare the daily meals. In view of the importance of this branch of the culinary art, it was decided that pastry baking be placed among the prominent features of today's free cooking demonstration with one dollar gas at the St. John Railway Company's showrooms.

Other important matters to be dealt with today are economy in labor and saving of time and fuel as applied to household cooking. Mr. Thompson, the expert demonstrator, will show just why the housewife who uses one dollar gas will be enabled to devote more attention to home duties outside the kitchen and have more time for rest and recreation. The cooking at today's demonstration will, as usual, be entrusted to Vincent the Caterer.

This afternoon's programme is announced in the one dollar gas advertisement on page 7.

Mr. Thompson desires, through The Times, to say that he would be pleased to see as many of the domestic science teachers and pupils as can possibly attend this afternoon. This does not exclude others, as a hearty invitation is extended to all.

The various appliances for cooking with gas will be shown and explained to those who will call.

Single Tax Referendum for Winnipeg

An interesting clause in the proposed amendment to the Winnipeg city charter, adopted at the council meeting on Feb. 26 was that relating to the procuring of the necessary legislation to submit to the ratepayers a referendum on taxation on land values only, or single tax. This motion, made by Alderman Wallace, while the report was being considered by council as a committee of the whole with Controller Harvey in the chair, passed without a dissenting voice or even discussion.

W. S. FISHER WRITES TO CITIZENS' COMMITTEE

Candidate for Mayor Full of Confidence — Reports to Meeting Last Night Give Assurance of Fine Victory for Ticket

Writing to the Citizens' Committee from the Edmonton Club, Edmonton, Alta., W. Shives Fisher, candidate for Mayor on the Citizens' ticket says:

"You are certainly making things hum in dear old St. John, and the distance between us is so great that I feel very strange out here now that you have so generously nominated me for the chief magistracy of the city. I should delight in being in the thick of the fight.

Each day my interest grows keener and it is with much eagerness I await the first bundle of newspapers from home to find out just how the campaign is going.

Let me ask you to express for me my hearty thanks to all those who are working so hard to elect the Citizens candidates—a ticket on which I am pleased to hold a place. I can only hope it will be successful and that the verdict of the people last April in favor of the Commission plan of Government may be upheld in the selection of people's candidates.

With such an enthusiastic band of workers one may expect the most favorable results and in consideration of my absence during the campaign I should indeed be signally honored if elected to the mayoralty of my home-city.

I feel very sorry that I am unable to return to be of service to your energetic Committee, but I think any fair-minded business man will agree that in faithfulness to my business associates I must finish this business journey, particularly because I have yet to do the most important territory.

There is some consolation in the fact, however, that I consider I am doing the best kind of immigration work by seeking more business for Maritime Provincial industries and thus bringing about the employment of more people at home. Is not this correct? On this point let me say that home manufacturers are making great headway in the West, though competition is keen.

Breathing the optimism and indulging in the energies of the West is particularly interesting to me under the present conditions and makes one feel better equipped for duties such as would fall to my lot if the citizens of St. John considered me worthy of their confidence.

"

Most encouraging reports as to the success of the citizens' ticket were submitted last evening at a meeting of ward workers in the board of trade rooms and a sweeping victory for all five new men now named assured. One of the features of the meeting was the reading of the above enthusiastic letter from W. Shives Fisher, the commission candidate for mayor, expressing a wish to be in the thick of the fight were it not for his duty to his business associates to finish his mission west, and promising to turn some of the optimism and advanced ideas of the West to good use if he is honored with the mayor's chair on his return.

H. B. Schofield, Clarence R. Allan, Miller E. Agst and Walter W. Allingham, the citizens' candidates for the commission, all made strong speeches telling of the reception by the people and the receiving of the heartiest assurance of support.

"If I am any judge of how elections are going," said Mr. Allingham, "and I may say I had a premonition of the provincial and federal elections which was fully justified, I can predict that the citizens' ticket will be given a smashing victory in the primaries that the second election will be unnecessary."

W. H. Barnaby, chairman of the original citizens' committee presided at the meeting, and spoke of the importance of working for the whole ticket. Mr. Schofield was the first speaker and gave encouraging news of his reception as one of the citizens' candidates and of the confidence of the people that the issue at stake was not the adoption of commission government but the working out of the new system to the best advantage.

L. P. D. Riley, who is in charge of the organization, reported that the outlook was most favorable and that the meetings held had been very successful for civic meetings.

Walker C. Allison then read the foregoing letter from Mr. Fisher, which was received with great approval by Frank H. Flewelling, chairman of Lorne ward reported that the citizens' ticket would secure practically the commission vote of last year.

Hubert Beck, for Prince ward, reported that at first there had been considerable talk of splitting the ticket, but that the current was now running strongly for the whole ticket and that the feeling in this large and important ward seemed to be for a new deal all around.

W. A. Stepper and Mr. Giggy reported that the efforts of Stanley Ward respectively, with favor and would be accorded strong support.

Mr. Allingham then made the prediction of victory quoted above and said the new men were mentioned in Guys and Brooks wards and would work hard for the success of the citizens' ticket.

Mr. Allan, in his "candidate's" report, said that what was said of them and all had been going on with the object of making an impression on those who had personally or at meetings. Of all the citizens who he had talked with, he had not heard one who would not support the citizens' ticket. It would be a lamentable thing if men were selected on the eve of the election to do anything but support nothing for the success of the new form of government and who could not take the responsibility of their own actions opening up before the city.

Mr. Agst said that although the accusations had been made that the advocates of the commission were launching out into the unknown, it was not a doubtful proposition to say that to any of those who had studied and fathomed the scheme. They had not departed from the principles of responsible government, or government for the people, of the people for the people.

The commissioners were prepared to work in harmony for the success of the city. He wanted to see every vote polled, if possible, with a full and calm endorsement of the citizens' ticket.

Announcement was made of a meeting on the west side tonight and of the first smoker Keith's assembly rooms Saturday evening.

THE FLEMING GOVERNMENT AND ITS BROKEN PROMISES

Mr. Copp Continues Searching Arrangement in Local House—The Power Bill—The Business of the Legislature

Fredericton, April 3—in a remarkably comprehensive speech of two hours duration tonight the opposition leader dealt with the receipts and expenditures of the province, continuing the remarks he began at a late hour last night. At midnight he had not concluded his criticism and adjourned the debate until tomorrow.

His speech bore the marks of careful research and abounded with facts and figures to show how buoyant had been the revenues, not on account of any special effort on the part of the government, but because of increased crown land cut of increased amounts from the federal government over which this government had no control, and of more taxes from incorporated companies and from incorporation fees.

The government could not claim much credit for these increases but he showed how they had broken all of their pledges and quoted from many of their speeches to prove their utter inconsistency.

His promises to the electors were ruthlessly compared with their performance since in power.

In particular he exposed Premier Fleming's statement in St. John about the debt and his promises to keep the expenditure within the income.

The indictment of Mr. Copp was complete and the proofs he gave positive. The government members did not listen with much pleasure to the extracts from their speeches, when in opposition, reciting their extravagant and exaggerated charges against the government of that day and the comparison with their assertions then and the facts today.

Mr. Copp showed how the expenses had increased in every department of the provincial service and how their promises to reform and economize had not been kept in one single particular.

Premier Fleming is to reply tomorrow afternoon and evening and the house will then adjourn for Easter to meet again Tuesday morning next.

There was much talk about nothing in the house this afternoon when Premier Fleming arose to a question of privilege touching some remarks of Mr. Byrne, of Gloucester, in his budget speech last week in which he took occasion to comment upon the manner of certain fishing privileges formerly enjoyed by certain gables at a low price at the headquarters of the Nepequin had been bill up by a government official so that they had to pay nearly three times the former price for them.

Why Mr. Blair was called on for an affidavit is not clear, as his name was not mentioned, neither is it clear why he was present at the sale as the chief commissioner is constantly telling the house that the inquiries of the opposition would take so much time to prepare that he invites the members to make personal inspection of the accounts.

The opportunity, however, to make an affidavit is difficult for a Tory to resist and both Messrs. Blair and Guthrie are to the front upon this occasion. It seems

that Guthrie did bid upon the lease in question but he claims in his affidavit that he was acting for a client. That would relieve him from the charge of being a "puffer" but a stranger, like the guide who came from a distance, might easily be pardoned for thinking that a government official had no business to take part in the bidding. The trouble is that there are so many officials that they are in evidence in every corner. Even the Dominion Indian officer is an official of the house; the secretary of the utilities commission is a federal preventive officer; the postmaster of Fredericton is also an engraving clerk, and the paymaster of the public works department is, according to the provincial board of works, a structural superintendent.

Mr. Byrne's reply to the premier was much to the point. He made no occasion for Mr. Blair's affidavit, as he had not mentioned his name. His information was that government officials had bid upon the lease and he had so stated. The premier had given him no notice that he intended to bring an affidavit and he was consequently unable to get any statement from the gentleman who had brought the matter to his attention, who resided in a distant part of the province. He reminded Premier Fleming, however, that he, as surveyor-general, had attended the sale and was in his place in the house when he made the statement and had not called in question at the time.

Mr. Currie introduced a bill relating to town of Campbellton.

Mr. Dickson introduced a bill to amend the act respecting sewers and marsh lands.

Hon. Mr. Grimmer introduced a bill to amend the act respecting the incorporation of towns.

Hon. Mr. Fleming introduced a bill to incorporate the New Brunswick Shales, Limited.

The house went into committee, with Mr. Burchill in the chair and resumed consideration of the bill respecting New Brunswick Hydro-Electric Company.

Mr. Hatheway said the bill did not properly protect the public and, particularly the people of St. John, should be amended to enable the company to appropriate lands by expropriation.

Hon. Mr. Maxwell rose to a point of order and said the amendment was out of order. The chairman ruled that the company before entering upon the streets, squares or open places in the city of St. John, they must first obtain the consent of the said city. The amendment was lost and the motion carried.

Mr. Baxter moved that the common council had desired that the interests of the city should be protected. He moved to amend the bill to provide that the company before entering St. John should comply with the terms, conditions and regulations made by the common council.

Mr. Young moved the committee to reconsider the bill.

It makes you hungry

Wives! Here's the soup for the husband who leaves his appetite out in the cold—Edwards' Soup.

It's the soup he's eager to begin and sorry to finish; the soup that warms him through and through; the soup that gives him such an appetite that it makes you hungry to see him eat.

Yet Edwards' desiccated Soup is no trouble to make—all the preparation is done long before you buy.

EDWARDS' DESICCATED SOUPS

Edwards' Soup is a thick, nourishing, home-made soup. You taste, distinguish and approve of the fresh, full-flavored vegetables as you eat.

This soup is also an excellent addition to your own soup—it imparts flavor; it thickens; it strengthens and gives a richer colour.

It is one of the best things that ever came from Ireland.

Edwards' desiccated Soup is made in three varieties—Broth, Cream, and Tomato. The Broth variety is a thick, nourishing soup, prepared from best beef and fresh vegetables. The other two are purely vegetable soups.

government has given no indication that it is possessed of the spirit which has characterized the people in recent years. While the provincial revenues have been greatly increased, the present government has only increased the interest displayed by the people themselves, for the school districts increased their assessment from \$200,000 in 1906 to \$380,000 in 1910. The fact that the people doubled their expenditure for school purposes in 4 years is significant. It shows a great change in the outlook; an expectation of enlarged opportunities, a readiness to make sacrifices to enable their children to equip themselves for better parts in the anticipated larger life of the province.

In the last few years the governments of Nova Scotia, Quebec and Ontario have been spending large sums to develop facilities for the technical education of the industrial workers. But what has the New Brunswick government done along this line? It has listened to quite a number of speeches in favor of technical education by W. Frank Hatheway, and in the last session of its term of office it is said to report with favor a bill presented by Mr. Hatheway, providing that the government should make a grant of two hundred dollars towards the maintenance of evening technical classes in St. John. In view of what the governments of the other provinces have done in the last four years, the fact that Mr. Hatheway was afraid to ask for more than \$200 does not indicate that the government is greatly concerned to encourage the industrial progress of the province.

The government has increased the grants for agriculture, and done something along the lines of agricultural education, but it has gone about it in a rather haphazard way, and we are a long distance behind Nova Scotia in this respect. The last report tabled by Dr. Landry shows that we have been getting poor results from our expenditures on behalf of agriculture.

MR. FLEMING ADDS FAILURE TO FAILURE

(Moncton Transcript)

The present provincial administration came into power at a time opportune for the inauguration of a large and progressive policy. A new spirit was seizing upon the people; a spirit of optimism and confidence, which, in spite of the failure of the government to assist it in finding practical expression, has been steadily growing in intensity. A far sighted administration would have endeavored to give direction to the forward movement, comprehensive plans of development would have reserved the enthusiastic welcome and co-operation of the people. FIVE DOCTORS GAVE UP ALL HOPE

Mountain, Ont., Dec. 14th, 1910. "For six years, I suffered from dreadful Kidney Disease. My legs and lower part of my body were feebly swollen, and the pain was awful. My people thought sometimes I was dead, as I would faint from the agony. Five different doctors attended me, and all said it was kidney trouble and gave me no hope of getting well. A kind neighbor told me to try 'Fruit-a-tives' and in a short time, I began to feel better, the swelling went down, the pain was easier, and then 'Fruit-a-tives' entirely cured me. All my friends look upon my recovery as a miracle, and I am unable to praise 'Fruit-a-tives' enough."

Easy For Moha. New York, April 3.—Bob Moha of Milwaukee battered Jim Smiley of Toronto in a scheduled ten round bout at National Sporting Club here tonight.

Frenchman Wan. Paris, April 3.—Georges Carpentier, such middleweight, defeated an Austrian, George Gunther, on points. This lasted twenty rounds.

Chicago, April 3.—Jack Johnson, world's champion pugilist, will be prosecuted by a United States government for smuggling unless the sum of \$9,000 as penalty is paid to the government for secretly sending a diamond necklace into this country from Europe without paying duty.

Longboat Did Not Finish. Toronto, April 4.—The twelve mile race the Riverside rink last night between Fred Shrubbs and Tom Longboat, was a sea. Longboat quit when a lap behind, scoring running time and a quarter minute.

Hayes for International Marathon. London, April 3.—Johnny Hayes, winner the Marathon at the last Olympic game, will be one of the contestants in a International Marathon race which will take place here on May 26.

Detroit Team Work. "Till the Detroit club has been weak a more than at present it will always a factor in the race for the championship in the American League. Being a factor, and a factor of admitted strength, it is however on the threshold of the championship and is a menace to the Athletics or to any other club in the circuit which considers that it is within the class pennant winning possibilities.

Chicago has chosen a man after Comiskey's heart. He may have to wait for his predecessor. He will be advised from headquarters as those who have gone before him have been advised.

Detroit is not to be considered player for player, because the team does not play ball individually. Lack of a player of the proper strength may keep the nine out of first place, as was indicated last year when an injury after another compelled by Detroit is essentially a team game of mutual cooperation and not one which lacks in sound and substantial advice from the bench.

All of the efforts of Jennings will be concentrated in establishing a better standard for his infield. Gairner may be able to play first base through the season without another injury. If he is, the Detroit manager will have one problem solved.

There may be a change in the outfield if a player of the requisite strength can be found for the left side of the field. If any one may presume such a condition as Detroit possessing an outfield in 1912 in which the third man is the equal of Cobb and Crawford, it may also be presumed in the same breath that Detroit will have one of the most powerful scoring nines on the diamond in 1912.

Two or three better pitchers could be added to the club without hurting its chances. Last season the men seemed to be wearing out and some of them never were of the highest standard. Yet there is fight in the club, which will drive it along against odds.

The Washington Team. Never has it been the policy of Clarke Griffith to be thoroughly satisfied with a team which was left to him by a predecessor. When he assumed the management of the Washington club he began to cast about to make a few changes which he thought would prove of advantage to his organization.

The veteran outfielder, Goslar, has been released to Kansas City. He had grown a

little too slow for the company in which he found himself and he did not wish to be the ineffective which had made him a valuable player in other years.

Griffith sought to make other changes and was not wholly successful. It is not an easy matter to induce any manager of the intermediate section of a league to part with any player who appears as if he may be of service to his club, and Griffith is not a manager who is keen upon making players who do not fit into his scheme of trying to win baseball games.

Washington is not a championship possibility. The most optimistic enthusiast could hardly say that for a team which has been in a process of reconstruction for so long.

On the whole, however, the Washington team looks better than it has in other years, and that is mostly due to the fact that the young material which has been secured for 1912 is of the type which is likely to improve.

The nine began at a disadvantage in 1911 because of the disappointing showing of Cunningham at second base. Much was expected of him after the strong finish which he made in 1910, but last year it seemed out of the question for him to get started until late.

Third base was injured. The nine began at a disadvantage in 1911 because of the disappointing showing of Cunningham at second base. Much was expected of him after the strong finish which he made in 1910, but last year it seemed out of the question for him to get started until late.

Catcher Kelley of the Pittsburgh team, battery partner of the famous Marty O'Toole, is in the chicken-raising business in East St. Louis. He and his brother intend to go into the business on a very large scale next fall.

It is almost certain that all seven of the pitchers who were with the Reds last year will be retained, namely: Humphries, Suggs, Benton, Fees, Promme, Smith and Gaspar. All are in as good condition as could be expected at this early stage.

Manager Wolverton of the New York Highlanders has received word from Ed Sweeney, his holdout catcher, the big catcher had not agreed on terms, but wanted a conference with the manager, so it is expected that Sweeney is ready to sign a contract.

Kennd Boston Dog Show. One thousand thoroughbred canines from all parts of the United States and Canada representing untold values have been entered for the big dog show in Boston at the Mechanics' building under the auspices of the Eastern Dog club.

Dogs of every color, size and kind ranging in size from the tiniest "Toy" to the sleek Russian wolfhound or the stocky St. Bernard will contest in the many classes for the honors in what promises to be one of the most successful exhibitions of its kind ever held in the Hub.

There are five rings and the following judges have been chosen to officiate: Jas. Mortimer of New York will start on the St. Bernards and after completing his work the solo judge will next take cocker spaniels and then collies. In another ring W. H. Reeves, a judge who hails from Eng-

land, will look over ball-territors and then follow his awards in that class with judging English setters, W. H. Mulford of Philadelphia will judge Scottish terrier. Mrs. E. W. Clark of Egypt will be the judge of English toy spaniels and Winthrop Rutherford of New York the Airs d'arrier. The Airs d'arrier class has more entries than has ever been registered at a Boston dog show.

In the St. Bernard class Colonel Jacob Ruppert, Jr., of New York shows his celebrated imported canines including Young Stormer, three years old for which he paid \$200, in England recently. It will be the first time that he has shown Stormer. Splendid and Queen of Pearls in Boston. Another famous dog of this class is Olsdorf, an imported St. Bernard, owned by Mrs. T. E. Kempis, of Boston, wife of Tom Kempis the general manager of the show. His winnings include first, special and championship at shows in Newcastle-on-Tyne, England, London, England, and also wins in Liverpool, Birmingham, Cincinnati and the St. Bernard specialty show. B. F. (Beck) Lewis of Lansdowne, Pa., is perhaps better known among Boston dog fanciers than any out of town contestant has thirty dogs of different varieties. Among others he has his mis- mis- 2-year-old Russian wolfhound, a sleek animal, with long white hair similar to that on Angora goats. This dog is valued at \$10,000 and promises to be one of the hits of the show.

New Risk for Quebec. Quebec, April 4.—That Quebec will have a brand new and up-to-date hockey arena for next season is an almost assured fact. At a meeting of the executive of the Quebec club last night the matter was discussed and the outlook was believed to be most favorable. The negotiations under way are looked upon as very promising, and within three weeks it is expected that definite announcement of the site and the plans will be made.

WAS EXCELLENTLY RENDERED. Stainer's oratorio, "The Daughter of Jairo," was excellently rendered by the choir of St. John's (Rome) church last evening. D. Arnold Fox was the organist and the solo parts were sung in an artistic manner by Mrs. C. S. E. Robertson, Miss Elizabeth Holder, A. G. Burnham and C. A. Manro.

Morning News Over the Wire. Friends of Fred McKeen and Mrs. McKeen of Ross Valley, P. E. Island are worried over their disappearance from home. A dog in which they had been driving, with horse attached was found on Tuesday evening in the Dunk river. It is feared they have been drowned.

C. H. Godfrey was yesterday elected to the board of control in Montreal as the "people's candidate." Lieut. General Sir George Mackworth Bullock has succeeded Sir Frederick Winter Kitchener as governor of Bermuda.

The Dominion government will call for tenders for a graving dock 1,150 feet long, 110 feet wide to be erected at Quebec. J. Norton Griffiths & Co. will tender.

Morning Locals. James Rich of the West Side was arrested yesterday afternoon by Sergeant Finley for assaulting and beating his wife in their home on Monday last. Mrs. Rich is sworn out the warrant. The husband said she struck first, using a poker. The case was settled.

E. Jones, J. B. Hipwell, E. Murphy, W. Brown and A. Drigoll arrived home last night from the U. N. B. to spend Easter. Miss Kirk and Miss Corbett of Sussex passed through the city on their way home last night.

The debate on a resolution "That Great Britain is on the Decline," held in the Y. M. C. A. last evening was won by the negative. A. N. Gregg and W. A. Pixley spoke for the affirmative and W. W. Lee, W. H. McFarlane and Everett Hunt for the negative. W. C. Cross, H. H. Pickett and H. J. Smith were the judges.

WAS MUCH ENJOYED. The entertainment given in the Opera House last night by the Empress of British Pierrots in aid of the General Public Hospital was well attended and was a great success. The concert was under the patronage of His Worship Mayor Frink and Mrs. Frink. All the numbers on the programme were heartily enjoyed and the performers were given a good reception.

Among those taking part were F. Roberts, R. Lee, J. Walker, J. Ducker, R. Thompson, L. Johnston, H. Price, Hew Walker, and Messrs. Terry, Outhell, Pearson, Vevers and T. Johnson.

St. Andrews Beacon.—If St. John does not want a sugar refinery, what's the matter with establishing it at St. Andrews? Mr. Durant seemed eager enough to come here at one time.

POLICE COURT.

In the police court this morning eight prisoners charged with drunkenness were before Magistrate Ritchie. Six were fined \$8 or two months in jail, one was fined \$4 or ten days in jail, and the other was remanded.

COMING WITH SETTLERS.

A Bowder, provincial immigration commissioner in Great Britain, is expected to sail from Liverpool on April 5 with a party of immigrants destined for this province. They are expected to arrive here on the 12th inst.

LIGHTS WENT OUT.

While Fred Sprules, M. P. P., for Kings was speaking in the house of assembly on Tuesday night the lights went out and his remarks were interrupted. In the interim of darkness S. A. Leger, M. P. P. for Gloucester entertained the members of the house with several songs.

THE STEAMERS.

The Donaldson liner Cassandra, Captain Mitchell, will sail this afternoon for Glasgow. She will take away twenty second cabin and forty steerage passengers. The S.S. Manchester Mariner, Captain Linton, will sail for Manchester tonight. The S.S. Shenandoah arrived at Newfoundland last night.

THE 62nd RIFLE MEN

The annual meeting of the 62nd Rifle Regiment Rifle Association will be held in the drill shed on Thursday night, April 11. Officers will be elected for the ensuing year, and reports for the season submitted. The members are looking forward to a good season, and a largely increased membership.

TO TAKE CHARGE ON 15TH INST.

Frederick Malli-Wm. Illingworth, superintendent of the C. P. R. illustration farm at Fredericton Junction, will take charge on the 15th inst. He will go to St. John shortly to inspect a herd of dairy cattle there which may be used to stock the farm. Superintendent Illingworth and his wife at a later date will probably take a special conveyance at the Mount College, St. Anne de Bellevue, P. Q. He expects to rent his farm at Hanwell.

A HINT FOR ST. JOHN.

The citizens of Montreal two years ago grew weary of the sort of civic government they were getting and elected a reform administration. This year they were re-elected. The same thing is being done in St. John. The citizens of St. John are looking forward to a good season, and a largely increased membership.

CADET PROMOTIONS.

Several promotions have been made among the members of the St. Andrew's church cadet corps. Colour-Sergeant A. E. Stephenson has been promoted to the rank of lieutenant in place of Lieut. Robertson, who has resigned. M. Gibson has been promoted to the position of colour-sergeant; Corporal White has been promoted to the rank of sergeant, and Private G. Fraser has been made a corporal. The corps is actively engaged in drill, and the boys expect to go into camp in July. At present they are preparing for the spring inspection. They will not meet for drill this week, on account of services to be held in the church. The next meeting will be on Friday of next week.

PRESBYTERIANS TAKE ACTION ON UNION

Organic Union Not Feasible, But Recommended Co-operation in Missions and Education

Toronto, Ont., April 4.—The church union committee of the Presbyterian church in Canada yesterday received reports showing the total vote cast as follows:

Elders 6,245 for union, 2,473 against; members, 106,755 for union, 48,278 against; adherents 37,175 for, 14,174 against.

Ninety per cent. of the elders and fifty four per cent. of the members voted.

A resolution was passed expressing the opinion that the lay vote in favor of the organic union demanded definite action toward closer union, although the strong minority vote indicated that organic union was not feasible at present.

The committee recommended that the general assembly co-operate as far as practicable with the Methodist and Congregational churches in foreign and home missions, educational work and theological publications. An amendment favoring delay, in view of the fact that one half of the membership refrained from voting, was rejected.

LAKE MICHIGAN IS IN WITH 2,149 NEWCOMERS

The C. P. R. liner Lake Michigan, Captain Parry, from London and Antwerp, arrived in port about noon today and docked at Sand Point. She brought 2,149 passengers, mostly all of them steerage. The steamer left Antwerp on March 30 and had a very rough passage. Head winds and heavy seas delayed the big liner somewhat. Besides the large number of passengers, the Michigan brought a large general cargo.

Most of the passengers are for western points. They are mostly English.

DIPHTHERIA CASE DUE TO FONDLING CAT

Important Matter in Health Officer's Report For St. John in March

TRACING CONTAGIOUS DISEASE

Three Diphtheria Cases From Public Assemblies — Typhoid Contracted From Member of Family Six Months After Cure of Latter — Figures for The Month

Interesting and important matters are referred to by Dr. G. G. Melvin in his health report for St. John for March. He writes:

The following cases of contagious disease were reported from the city during March. It will be noted that the community remains, apparently, fairly free from acute disease of this nature. The figures for the preceding month and for the corresponding month, last year, are added for comparison.

	Mar. 1912	1911
Diphtheria	2	0
Scarlet Fever	4	6
Typhoid	1	2
Messles	2	1
Varicella	1	5
Tuberc. Dis.	15	5

The usual monthly death rate table from all causes follows. While the rate is somewhat above last month, and is close to the general average for last year, it is notably below the corresponding month of 1911. The figures for these months are given for comparison. The rate is based upon an estimated population of 42,660.

DEATHS FROM DIPHTHERIA

During the last three months in this city, while there has been less than the usual number of such diseases, it would perhaps be interesting to know how, probably, some of them originated. Of the five cases of typhoid reported from the city and county during the last quarter, as regards one case it was quite impossible to account for it. Another case seemed, probably, from drinking well water polluted from a nose-by outbreak. This cause is not so common in cities as in country districts, where, indeed, it produces the majority of typhoid cases. Another case, perhaps the most interesting of the five, was apparently contracted from a previous case in the same family, but this previous case had occurred more than six months before. This is not a very common happening but does occur now and then.

DEATHS FROM DIPHTHERIA

It is very important that every one should know that sometimes those who have had typhoid fever will carry the germs of the disease in their digestive system for many months after complete recovery. This should always be remembered and care should be taken that the germs should not get into the food or drink of the family. There need be no fear, practically, of taking the disease any other way.

DEATHS FROM DIPHTHERIA

Of diphtheria, one or two cases seemed to originate in plumbing which had become defective, and three cases, probably, came from public assemblies. For young children, the chances are considerable for "picking up" a contagious disease, if it exists, during one or two hours stay in a warm and crowded building. They are far more susceptible than grown up people and should only be permitted to attend prolonged public meetings when it is reasonably certain that too many will not be present, and that ventilation is fairly provided for.

DEATHS FROM DIPHTHERIA

Another probable cause for one diphtheria case is interesting and important. It is quite certain to originate from fondling a cat. These animals are apt to wander everywhere and are quite capable of carrying disease germs in their fur.
