TENDERS

SEALED TENDERS will be received by the undersigned, up to 5 o'clock p. m., May 24th, 1920, for the erection and completion of Ten Self-contained Houses on Champlain street, W. E., for the Local Housing Board of the City and County of St. John, N. B. Each tender to be accompanied by a certified bank cheque, amount as follows:—For the whole work, One Thousand Dollars; for a portion of the work, 5 per cent of the amount of tender. that the public will find at their stores that the Amdur's prices for similar lines are lower than the charges of other shops, exclusive of the luxury tax. Where the luxury tax is charged against the purchaser by other sellers, the Amdur's prices will be so low by comparison that a casual glance will convince the prospective buyer that the road to economy lies in the streets which connect with Amdur's. First to offer relief from the luxury tax, Amdur's have set an example which will no doubt be appreciated by the public, as was their recent drive against the high cost of clothing, dry goods, millinery, etc. Amdur's led the city in giving the public the advantage of the falling market and again sets the pace in bearing the burden of the luxury tax. The firm awaits the inspection and approval of the public in its second radical move to better conditions for shoppers. Just what the Amdur offer means can easily be determined by a glance at Thursday's papers, wherein are contained a few of the prices which prevail this week at Amdur's and which will continue next week. This advertisement read in conjunction with a report of the goods affected and the percentages of increase which will operate on account of the luxury tax will convince the most exacting shopper that Amdur's have adopted a policy which will effect a most drastic reduction in prices. Street comment on Thursday, after the evening papers were on sale, indicated that the generosity of Amdur's in relieving the people of the new tax was going to be appreciated in full measure. FOR MODIFICATION OF THE ELAW RE LIQUOR. Baltimore, May 21.—The Maryland state convention of the Democratic party yesterday approved a resolution committing the party to a modification of the Volstead act to permit the making and use of home-made wines and cider and the manufacture and sale of beer in the original package for home consumption. An unstructured delegation will be sent to the national convention at San Francisco.

## PRICE CUTTING WAVE IS STILL IN EVIDENCE

(Canadian Press Despatch) Chicago, May 20—While the continued spread of the price cutting wave was noted in central and far western states today, Chicago bankers expressed satisfaction with the financial situation, one man declaring that the liquidation of stocks by merchants would greatly aid in bringing credit back to normal. The price lowering movement, while not general in Chicago, was aided today by action of stores in Ottumwa (Ia.), and another San Francisco establishment in announcing cuts of from twenty to fifty per cent. In connection with the reductions, Nebraska women were asked today by that state's fair price commissioner to notify their merchants that they would not pay higher prices for clothing next fall. The commissioner, who is Mrs. Coryan, of Omaha, declared that the recent price cutting developments had shown women their power. Action to aid in the campaign against the cost of living was taken at St. Louis in resolutions adopted by the convention of the International Association of Garment Manufacturers, pledging its members to manufacture and sell garments at the lowest possible price.

**Y. W. C. A. OFFICERS  
FOR YEAR ELECTED**

Annual Meeting Held Last Night — Encouraging Reports Presented.

At the annual meeting of the Y. W. C. A. held last night in the recreational centre the president, Mrs. John A. McAvity, announced that a trained girls' work secretary was coming to St. John in August. Rev. F. S. Dowling who was present, congratulated the Y. W. C. A. on taking this step. Miss Mary Allison, girls' work secretary of the Maritime provinces gave an address on the C. G. I. T. Rev. Geo. F. Dawson praised the work. Miss Dawson contributed two charming solos, with Miss Gladys Kett as accompanist.

Following the devotional exercises led by Rev. E. MacKay, the directors' report covering the various departments was given by Mrs. R. C. Cruikshank and Mrs. McAvity told of the hopes of the directorate that girls' work, religious and missions, industrial, summer home and employment departments should be added shortly. Mrs. R. A. Jamieson, in the Travelers' Aid report told how it had been a safeguard to young girls and a friend to every traveler. 9,442 trains and 870 boats had been met, 1,395 persons taken to the transient home and 2,813 received persons. Aid. She gave special praise to the matron of the transient home, Mrs. Forbes, and the two workers, Miss Hoyt and Miss Berwick. In the absence of Miss Edna Austen, Mrs. Alfred Morrissey gave the transient home report, telling of the shelter given weary and worried travelers.

Mrs. R. A. Corbet gave the report for the King street home for employed girls, saying 133 permanent boarders and 356 transients had been received, the house mother, Mrs. Hazdie, caring for them most kindly. The house was said to fill a long-felt want.

Mrs. W. C. Cross read the cafeteria report telling of the inauguration of the cafeteria under Miss Douglas and of Miss Prescott's afterwards taking charge and of a special committee being appointed to devise means of putting the cafeteria on a paying basis, which it was hoped would be accomplished, although as yet it had not been an asset. The girls at the home were being supplied meal tickets which involved a considerable weekly loss.

Miss K. Mck. Matheson gave the general secretary's report telling more particularly of the work for girls, the organizing of gymnasium classes in the newly purchased recreational centre, formerly St. John's Presbyterian church. Three of the classes had themselves organized as clubs for summer recreation of the club formed among the house girls of the King street house, and of social gatherings of High school groups at the recreational centre which had also been greatly used by the C. G. I. T. girls.

Mrs. J. D. Hunter in her report of the physical committee, told of the gymnasium classes instructed by Miss Matheson and senior Y. M. C. A. boys, the formation of basketball teams and match games being played with Moncton, and the giving of a gymnasium exhibition that had realized \$50. She gave a long list of the social gatherings that had taken place in the recreational centre, and told how the C. G. I. T. girls had held a successful tea there raising \$100 for the building fund.

Mrs. Fred Cowan gave the membership report, totalling 692.

Mrs. James F. Robertson in presenting the financial report written by Mrs. T. H. Sommerville, and the financial statement given by T. H. Sommerville pointed out that between \$1,800 and \$1,900 of deficit each year was on account of the travelers' aid work. Assets were given as furniture equipment and supplies, \$18,046.88; receipts, departmental, \$22,680.45; membership, \$864.75; subscribers, \$6,889.69; leaving a deficit of \$6,876.68.

The election of officers resulted in the following being appointed to fill the six vacancies on the board that occur automatically each year: Mrs. J. A. McAvity, Mrs. Alfred Morrissey, Mrs. R. A. Jamieson and Mrs. J. D. Hunter re-elected, Mrs. W. H. Lugsdin and Mrs. E. Bertram Smith, newly appointed. The other members of the directorate are Mrs. T. H. Sommerville, Mrs. R. Cruikshank, Mrs. James F. Robertson, Mrs. R. A. Corbet, Mrs. H. Robertson, Miss Edna Austen, Miss Hazel Clark, Mrs. R. C. Elkin, Mrs. Walter Foster, Mrs. F. Z. Cowan, Miss B. MacLaren, Miss Nan Brock.

Reverses Your Ideas About Milk

PURE pasteurized separated milk is converted from a liquid into Klim, a dry powder, by the well known "spray process." The valuable protein and rich food content of liquid separated milk is, therefore, concentrated in powder form.

### THE PROPOSED NEW STREET CAR SERVICE

#### Mr. McCauley Explains Matter to Commissioners—Says "Single-End" Cars Are Not "One Man" Variety—The Railway and Daylight Time.

The proposed new street car service which will make the city market the hub of the system was explained to the city commissioners in committee this morning by Mr. McCauley, general manager of the New Brunswick Power Co. The council decided to await detailed plans of the proposed additional switches and trolleys before going over the ground with the railway people.

Mr. McCauley said that a single end car was not a "one-man" car, but meant control at only one end. He said one man cars were being considered by the company. Asked regarding daylight time, Mr. McCauley said that the street railway being a public utility the company felt that they should comply with the wishes of the public.

Explaining the extra switches, he said that it was the intention to put a branch in opposite the market, so that the East St. John and Glen Falls car could come up Union street along Charlotte to Breeze's corner and turn in to the north side of King square and back via Sydney street.

With the extension of a line up Union street from Mill to Charlotte street, it was the intention to route all West St. John, Fairville and Seaside Park cars up Union street, along Charlotte and down King street. The chief objection raised was the congestion of traffic at the corner of Mill and Union streets.

Mr. McCauley said that he was considering the institution of the "near-side" stop, which would make traffic safer at crossings.

Commissioner Frink suggested that the Power Company submit a plan of the proposed extensions and turnouts so that the distances between the curbs and rails could be shown. Mr. McCauley agreed to this.

Mr. McCauley said the west side proposition took in the question of the Rodney wharf extension. On account of delay of West St. John cars in the city, close connection with the ferry could not be guaranteed, but under the proposed scheme it was intended to run the cars along King and Union, turn at the corner of Rodney, go up Rodney street on a new line, along Rodney to Market square, turn and run on a new line back to King street, the Queen square loop to continue as at present. He said a waiting room was planned at the head of Rodney wharf as well as at King square.

It was agreed to let the matter stand until the plans were submitted and the commissioners went over the ground.

Mr. Frink, regarding the displaying of cotton signs on the cars and asked if something could be done regarding them. Mr. McCauley said this was a customary thing in cities and was a source of revenue and the city got a proportion of this. He said that the company was willing to substitute electric in order that the signs should not become ragged.

#### Coal Tenders.

Tenders for fuel were opened and referred to the heads of departments as follows:

Colwell Fuel Co.: Water Dept., 10 tons nut, City Hall, west, \$17 a ton; Public Works, no bid; harbor, 150 tons run of mine, delivered, \$9.10 a ton; ferry, anthracite, east or west side, \$17 a ton, delivered; 8,000 tons bituminous at docks, \$10.10 a ton.

J. S. Gibbon—Bituminous, run of mine, \$9 a ton, as follows: Fire, 120 tons; police, 15 tons, public works, 450 tons; 50 cents a ton added for west side delivery. Water department, 10 tons bituminous blacksmiths' coal, \$13.50 a ton.

George Dick—Fire department, bituminous, \$10.25; police, bituminous, \$10.65; City hall, bituminous screened, \$12; water department, blacksmiths' coal, \$8.50.

Emerson Fuel Co.—Fire department, bituminous, \$10; police, bituminous, \$10; public works, bituminous, \$10.

The matter of the C. P. R. plans for the new bridge was referred to the city engineers and road engineer for report. Commissioner Bullock recommended that \$2,000 be granted for the purchase of a steamer for the Indiantown-Lancaster ferry service. The county had granted a similar amount. This was referred to Commissioners Thornton and Jones for report regarding the service to be presented at Tuesday's meeting.

#### NOT FOR PUBLIC

### Latest Word About Meetings With West Indies Delegates.

In connection with the trade conference with the delegates from Bermuda and the West Indies it is understood that the conference is purely between official representatives and that outsiders will not be admitted. It was at first supposed that the conference would be open to representatives of the various manufacturing Boards of Trade, and that delegations from them would be admitted, but this impression is declared erroneous. The greater part of the delegation is expected to arrive here on the R. M. S. R. Chaudiere which will probably reach here on Monday night. It is expected that a delegation from the Halifax Board of Trade will come over to meet them. R. E. Armstrong the secretary of the Board of Trade has wired to Ottawa for further information.

#### Wool Market in Boston Dull Prices at Auction Lower.

Boston, May 21.—The Commercial Bulletin will say tomorrow:

The wool market has been very dull here so far as private trading is concerned and prices are difficult to quote because of the lack of business and the uncertainty. Prices decline ten to twenty per cent on the fine wools offered at the English government auction here. Buying in the west is practically at a standstill.

The reports from the goods markets are anything but encouraging, with cancellations more or less general. The worsted mills have not felt these cancellations so much as the woolen plants.

FORECAST OF BUDGET NOTE PARLIAMENT

(Special to The Times.) Ottawa, May 21—It has been definitely ascertained by your correspondent that the agrarian party will support the Fielding amendment to the budget. It is expected it will be defeated by the government majority and the agrarians will probably move an amendment of their own. Three and probably four western Unionist members will vote against the government proposal. There may be others but they have not made their intentions apparent as yet.

LAST NIGHT'S FIRE

This morning it was estimated that the loss caused by the fire in Millard last night would exceed \$100,000, when it is taken into consideration the high cost of material, etc. for replacement. Dwyer Bros' loss is reported about total in their modern bakery.

Patrick Kane, who resided in the Crowley house had \$400 on his household fixtures, but saved very little. William Shannon, who also resided in the Crowley house, saved some of his furniture. He had no insurance. Arthur Sapier, who resided in William Stout's house, lost a considerable amount of household fixtures. He carried no insurance.

William T. Stout considers his loss close to \$10,000. The house was quite badly gutted and a large amount of his furniture was either destroyed by the flames or damaged while being removed. He had only \$800 on his house and \$400 on his furniture. His wife, who was sick in bed, was removed to the home of her father and this morning showed no ill effects from the shock and exposure.

William Evans, who lost his home and three barns, says his loss will exceed \$5,000. He said he succeeded in getting a considerable quantity of goods out of his store, but much was stolen. He had \$1,000 insurance.

Mrs. Mary Quinn, who resided in Mr. Evans' house, suffered considerable damage done to her furniture, but fortunately saved the majority of it. She had no insurance.

Thomas McGrath, whose house was badly damaged, considers his loss at least \$5,000. He had \$1,200 on his house and \$500 on his furniture.

Dwyer Bros. had about fifty per cent. of their building and fixtures covered by insurance. As they had about five carloads of flour, a large quantity of sugar, etc. in their store-rooms their loss will be heavy. Things which their horses were burned to death. They only recently installed a large modern oven, which cost many thousands of dollars. It is understood that they will endeavor to locate a suitable site nearer the city and will build as soon as possible.

THE HEALEY REGATTA Boston, May 21—The Union Boat Club, which is preparing an eight oared crew to represent the United States at the Royal English Henley regatta, will send two crews to the American Henley regatta at Philadelphia on May 28 and 29. The stronger eight will be selected for the English Henley.

Price Reductions And Tightened Bank Credits In The States Continue

New York, May 21—An official of the Merchants' Association said yesterday that he believed there was a decided tendency to reduce prices here in the retail market, although this was hampered by freight rise-up which was causing a shortage of supplies to the distributors. He said this reduction in price was noticeable above any reduction made by clothing and department stores incident to cleaning out their spring stocks.

William Fellows Morgan, president of the Merchants' Association, said: "The reduction of the prices of merchandise, which now seems to be prevalent throughout the country, has been anti-inflationary as one of the steps of deflation which we must go through in order to regain normal conditions. The necessary price-reductions for the movement of merchandise has been means an increase in the value of the dollar, were long ago made by the banks. I do not anticipate that we shall have any trouble as a result of it, although certain lines of industry may be more or less disturbed."

This readjustment has been retarded by the interruption of the transportation lines, especially in this city. The tendency of this interference with the free movement of merchandise has been to keep prices at high levels and even to increase them by cutting off supplies."

New York, May 21—The price reduction agitation last night reached New York's restaurants and cabarets. In one of the largest in the city all dishes were cut thirty per cent.

In England. London, May 21—Cabled reports of a slump in prices in the United States are featured in newspapers here and are being read with enormous interest, as they excite the hope that conditions across the Atlantic may be reflected in Great Britain. Some writers on economic, however, hold out little hope that this will be the result, maintaining that the new conditions in America are more likely to have a contrary effect here, but hope persists, and is supported by some rational indications. There was a decline in trading during April compared with March. This decline, although small, is regarded as significant because it was the first for more than a year.

NEW DAM HAS COME IN QUEBEC

Presbyterian Writer Confirms What Horace J. Gagne Said Last Week. (By Rev. J. U. Tanner, B.A., Superintendent of Home Missions.) The province of Quebec is now experiencing a most remarkable industrial development. As it involves the influx of a number of English speaking people, the development is one that calls for the attention of our Church.

In the chief centres, and in many of the smaller towns, millions of dollars are being spent in the development of water powers and the erection of large manufacturing plants. Many thousands of the young men and women are now offered employment at good wages in their own town.

Everywhere factories are springing up with astonishing rapidity. Paper mills, cotton mills, silk factories and manufacturing plants of various kinds are crowding to the province. We mention this to call attention to the new duties that will consequently fall to our Church.

Some groups of English Protestants will follow these industries, mostly in groups too small to support religious ordinances. In some instances they will be numerous enough to require regular services; in other instances they will require the visiting and service of individual families by our Church agencies. Some may ask the cause of this change, and why so many industrial plants are being established by American and British capital in this province, on a scale so unprecedented in its history.

MERCHANTS ARE CAUTIOUS

St. Croix Couriers—Local merchants are awakening to the dangers attendant on merchandising under the present inflated prices and are curtailing orders for all kinds of goods, a policy which, if generally adopted throughout the country will have a marked tendency towards price reduction. OAK HALL BACK HOME SALE ENDS TOMORROW

Luxury Tax Does Not Affect Prices Here.

Tomorrow offers the final opportunity for you to take advantage of the most successful sale Oak Hall has ever undertaken—three weeks of continued success because of the unusually high quality of the merchandise offered at prices that are much lower than one expects to find these days. It is a realization that prices will be considerably higher next fall than they are today, and that on top of these high prices will be a government luxury tax of ten per cent. This luxury tax is now in force, but Oak Hall was so fortunate in procuring for this sale high quality merchandise at such low prices that in almost every instance the selling price comes below that set by the government as a luxury, so one need have no fear of having to pay more than the prices actually marked.

**GOOD YEAR IN  
CATHOLIC GIRLS'  
GUILD WORK**

Annual Meeting Held—Reports of Committees and Election of Directors.

The president of the Catholic Girls' Guild, Miss Marie Dolan, presided at the annual meeting in the Y. M. C. I. building last evening. After the reading of the reports of committees the following were elected to the directorate for the ensuing year: Miss M. Carlyn, representing St. Peter's parish; Mrs. Catherine Lawlor, and Miss Ada White.

The reports included those of the physical committee, the social committee, the religious and the girls' work committee. All were of a decidedly encouraging nature, and detailed the large amount of work which had been accomplished by them in their respective spheres of action during the last year.

Mrs. M. Owens, the matron, in her report, stated that the accommodations of the guild had been taxed to capacity throughout the year, and owing to the fact that the house could accommodate but twenty-four, a great many had to be turned away.

The social committee reported having raised more than \$800 during the year by catering for banquets and in other ways. The annual valentine tea had been a success both socially and financially. Much work had been done in the travelers' aid department, both in visiting the trans-Atlantic liners on the West Side and attending the trains.

Miss Emily Bardale, the treasurer, reported the finances of the guild to be in a satisfactory condition. After the reading of the reports and election of officers, Rev. W. M. Duke in a brief address reviewed the work of the year and congratulated the guild on their excellent showing.

The officers for the coming year will be elected at the next meeting of the board of directors, which will be held at an early date.

**MISSING GIRL  
LOCATED IN  
LOS ANGELES**

Police Woman Traces Her Across Continent—Wanted to Go Into Motion Pictures.

(New York Post.)  
Henrietta Bulte, fifteen years old, a school girl, who disappeared from her home on April 12, has been found in Los Angeles, Cal. Information to this effect was received this morning by Acting Captain John Ayres, in charge of the Missing Persons Bureau at police headquarters. The father of the girl, Louis Bulte, a Cuban cigar manufacturer, has been notified, and will make arrangements to leave at once for Los Angeles.

It was on the afternoon of April 12 Miss Bulte disappeared. Her father had just given her \$285 to be deposited in the Harlem Savings Bank. The money was not deposited and next day the disappearance of the girl was reported to the police. The police sent out circulars giving the age, description and picture of the girl to police departments throughout the country.

Schoolmates said they had heard Miss Bulte express a desire to be a motion picture actress. Police investigation then was turned to the centres of this industry.

Two weeks ago the police here learned that a girl answering the description of Miss Bulte was seen in a Y. W. C. A. branch in Chicago. She had left there when Chicago police called to question her. Then a Miss Hamilton, connected with the Missing Persons Bureau of the New York police, was sent to Chicago,

and a search for the girl seen at the Y. W. C. A. was begun. It was learned that she had purchased a ticket for Los Angeles. This information, with the knowledge that Miss Bulte aspired to be a motion picture actress, strengthened the belief of Miss Hamilton that she was on the trail of the right girl.

Miss Hamilton followed her to Los Angeles, and last night came the telegram that Miss Bulte had been found.

"Tobacco does not excite or intoxicate, but it soothes and pacifies," Mr. Eisenlohr said. "It promotes sober deliberation and moral contentment. It does not lure men from the fireside, but cements family ties."

**LETTER FROM MR. THORNE**

To the Editor of The Times.—  
Sir—Kindly allow the writer sufficient space in your valuable paper to correct what has undoubtedly caused a number of friends of the writer some anxiety.

In the issue of the Evening Times tonight it is said that a quantity of gin was found in my residence after a diligent search. The quantity located was exactly five ounces. This amount was for medicine and nothing else. There was absolutely no charge of traffic in liquor. The contention of the inspector was that on account of our residence containing a store the finding of this five ounces constituted a violation of the law.

The writer does not in any way feel any remorse over this so-called raid, but simply wishes in some public manner to explain the circumstances.

Thanking you sir,  
I remain, yours truly,

THE BUSINESS COLUMN

Staging a Big Sale in a Tiny Town. Knowledge concerning the requirements of the figures of the women customers of his store, gathered by years of observing experience in selling, played a large part in enabling W. E. Kuhn to sell 1,000 worth of house dresses in a town of 100 inhabitants.

That knowledge, which enabled Kuhn to buy the right house dresses to sell, wouldn't alone have enabled him to make this record. Aiding it was wise and consistent display and enthusiasm on the part of Kuhn and his clerks.

Yesterday's Games. In the American League yesterday, Chicago-Washington played a 16-inning game, both teams scoring twice in the fifteenth and Chicago making eight runs in the sixteenth. Boston hit Leonard of Detroit often and hard in winning the first game of the series. Cleveland turned a close battle against Philadelphia into a walkover by scoring five runs in the ninth. New York easily defeated St. Louis.

In the National League, Alexander won his eighth consecutive game when Chicago defeated New York. Bunched hits and Boston's misplays gave Pittsburgh an easy win. St. Louis made it two straight by defeating Philadelphia. Reuther of Cleveland held the Brooklyn batters safe at all times. Summary:

When Ruth Misses. Some of the fans can't understand just why such an all-powerful cuss as Babe Ruth should be out of the game through any lesser reason than crashing into the concrete stand. "Bah!" uttered one disgruntled spectator when he heard that the home-running king was out for the day, due to a strained muscle, and with not even the excuse of a broken leg. "I don't see how he gets injured so easily."

THREE MILES OR FOUR FOR OARSMEN? Cornell Coach Urges Reduction in Distance. The Four Mile Course Is Looked Upon as Test of Courage and Endurance.

Charles E. Courtney, long-famous Cornell rowing coach, is urging the authorities at Yale and Harvard to follow the lead of the Poughkeepsie regatta and reduce the race on the Thames to three miles, says the New York Times. Guy Nickalls and William Haines, the coaches at Yale and Harvard, are opposed to the innovation. For them "the deadly fourth mile" has no terrors. It is an interesting question and one that may never be conclusively settled, but it is capable of a far more thorough analysis than it has often encountered.

No one questions the superiority of the longer race as a test of courage and endurance, of oarsmanship and strategic skill. The objection lies wholly against the physical effect upon the individual. That an occasional oarsman receives severe and even permanent injury is unfortunately true. But not even Mr. Courtney contends that they all suffer. One man's meat is another man's poison. Men differ in their resources of nerve and muscle—even the pick of trained athletes—as widely as the poles. The scope of these differences is nowhere as evident as in the contests of the slender track. In a boat race the powers and limitations of the individual are merged in the performance of the crew as a whole; but in jumping, hurdling, sprinting and distance running each performer is a unit whose performance is accurately observed, definitely recorded.

Differences are revealed between man and man which are incredible to those who have not had actual experience in the training of foot racing. Athletic Difference. There are men who are off from the scratch with the pistol and make records at all distances from twenty to sixty yards, but who collapse at seventy or eighty yards and stagger across the finish of a hundred-yard dash in mediocre time. As the shortest race in championship contests is the hundred, these men enter the broad jump and high jump, which require little or no endurance and for which the steel-like spring and of their muscles peculiarly fits them.

There are men who are beaten in the 100-yard and the 220-yard events, but who lead the field in record time at 150 yards. There are men who excel at the half-mile, but are out-classed in the quarter and the mile. Not all track athletes, however, are limited to a single distance. Not infrequently men are found who make first-rate performances at all distances from fifty yards to the half-mile. In team contests such men tend to be used for the brevier events, because they can win more points. Thus a man who is potentially a middle distance and a distance runner of the first order may be known only as a high jumper or a hurdler. Differences in stamina are as great as these differences

In speed and endurance. Certain men can run a single race with the best, but so exhaust themselves that they do not recover vitally for several days. Others make superb performances in race after race on the same day. Differences in intelligence and character are familiar and range from the criminal to the saint, from the fool to the genius; but differences in physical power, which are seldom realized in civilized life, are almost as great.

The Sprinter Type. For an oarsman whose physique is of the sprinter type the four-mile race is obviously too long. But it is obvious also that at some definite point in the contest he is destined to become a mere passenger in the boat and fatal to the success of the crew. Very early in the training season any coach worth his salt eliminates such men. For the competent oarsman as for the marching soldier there is always "the last long mile," but there is no such thing as "the deadly fourth mile." The last mile is as long in the three-mile and the two-mile race, which is a thoroughly grueling sprint. When an oarsman is injured the fault lies not with the length of the race, but with the judgment of the coach who placed him in the boat. An oarsman physically qualified and properly trained can row four miles, and indeed much further, without strain or injury.

Endurance and Discipline. The great virtue of the four-mile race is that it gives scope to all the qualities of judgment and generalship in those who direct the race, to all the qualities of oarsmanship and harmonious co-operation on the part of the crew. For twenty minutes eight young men must beat the water with an even sweep, swing and recover with a rhythm so smooth that the even progress of their cockshells is unbroken. At the captain's bidding they must be able to raise or lower the stroke, ease off the power or grind it in, and all in such perfect order that there is no break in the solid mechanism. The four-mile race is a test of skill and endurance, of discipline and of character, such as no other contest provides.

Many Brush Fires. Sussex Record.—Two big brush fires are burning at the upper end of the Thorne Brook, back of Perry Settlement. The S. H. White Company have a large crew of men fighting the fire. At last reports one of the fires was under control, but the other was spreading, and it was feared it would get away from the fire fighters. Several other smaller brush fires reported from different sections had been extinguished. Campers out and fishermen should at this season of the year be particularly careful as to how they handle matches, and with their cigars and cigarette butts. Most of the brush fires are started through carelessness. It is Time. "Hatspins to match the color of the eyes are to be very fashionable this year," according to a trade journal. This should be good news to those street car travelers who object to having green hatspins stuck in their blue eyes.—Punch. USE The Want Ad Way
