MESSAGE FROM SPIRIT LAND.

Queer Doings at Private Seance Last Night.
 Colored Medium Who is Friendly With Ghosts Holds Forth Here Tomorrow

Last night at the residence of J. W. Clayton, Brussels street, Mrs. S. C. Cunningham conveyed from the great beyond messages to several well known citizens of St. John. Mrs. Cunningham is a medium and has free communication with the departed. She came here quietly at the invitation of a few gentlemen who are interested in spiritualism and last evening's gathering was of a private nature. There were about twenty people present and many difficult questions were asked and answered, with the result that all present were strongly impressed with what was heard.

Mrs. Cunningham, who is stopping at Elliott's Hotel, was interviewed by a Star reporter this morning. She is a negress, a woman of refinement and education, rather large and of good appearance. Her father was born in Scotland, but her home has always been in Cambridge, Mass., where her husband now resides. He is a Baptist clergyman and she is a member of the First Baptist church of Cambridge.

Mrs. Cunningham says her thought and belief are founded entirely on the Bible and that the work was not undertaken by caprice, but was forced on her. It is her mission and while she was born a medium, it was not till eight years ago that she entered upon the work.

When a child of five years her parents discovered that she had unusual power. Then she played about her home, seemingly alone, but told all that her brother, who had died previously to her, was doing in heaven. Mrs. Cunningham says that her parents, who were strict Baptists, told her that such ideas were evil. She said she could not help it. Her brother was there with her and it was a pleasure to talk and play with him.

For years she fought against this power and eight years ago, after her parents had been dead for some years, she was taken very ill. Her father and mother came to her in the spirit and told her that the future was glorious, but that she had a duty here and that she was to enlighten the people as to the future and the gospel. Then she made a compact to the effect that if she recovered she would give up her life to that work and so today she is teaching and lecturing.

Mrs. Cunningham has visited all parts of the United States and many portions of Europe. In Scotland, the place of her birthplace, she says she met with great success, that the people of that great country are ready for the thought and rapidly advance in the study. Mrs. Cunningham says that she has engagements for more than a year ahead, and had to cancel several to come here.

Tomorrow night Mrs. Cunningham will hold a public meeting in York Theatre, commencing at 8.30 o'clock. She will take as a subject for her remarks, the fourteenth chapter of St. John.

14 CANADIAN MINERS KILLED BY EXPLOSION.

Disaster in North West Coal Mine --Only One Miner Escaped Alive--Bodies Recovered

(Special to Star.)
 FERNIE, B. C., Nov. 19.—As a result of a terrible explosion of coal gas yesterday at No. 1 mine at Carbonado, near Morley, ten miles west of Fernie, fourteen men were killed. Only one man in the mine, a driver named D. Darcy, escaped. The bodies have all been recovered.

WATCHING THE BALTIC FLEET.

The British Cruiser on the Russians' Trail.

General Stoessel says He Can Hold Out for Months if Supplies are Sent.
 NEW YORK, Nov. 19.—A London despatch to the Times quotes the London Times' Russian correspondent as saying that riots and desertions are common in connection with the mobilization of the reserves, especially in Finland. Hundreds of reservists are crossing into Germany and Austria every week. One district which was to furnish 300 men could only muster eight. In another an officer who was to appear with forty men found that not one had turned up. He was so upset at his wholesale desertion that he shot himself. Riots in some cases have been provoked by the military authorities. One detachment refused to start because the cars were not provided with food. The men had not forgotten the accounts of soldiers frozen to death in railway carriages.

FAKENBERG, Denmark, Nov. 19.—The second division of the Baltic squadron sailed northward this morning. A Danish gunboat and a torpedo boat are accompanying the fleet in Danish waters.

SUNSHINE, Cape Colony, Nov. 19.—The British cruiser Barrosa sailed from here today. It is believed her destination is English Bay (on the west coast of German Southwest Africa) and that her object is to watch the approach of the second Russian Pacific squadron.

NEW YORK, Nov. 19.—A Port Said despatch to the Herald says that for the extra security of the Russian fleet, which is daily expected, preparations have been made to shut off part of the port by means of booms, thus insuring its location.

LONDON, Nov. 19.—The Daily Mail's St. Petersburg correspondent says Lieut. General Stoessel's report of a firm conviction that he will be able to hold out at Port Arthur until the Russian fleet arrives in March on the condition that he is supplied with munitions and stores. The government, the correspondent adds, has instructed its agents abroad to supply Lieut. General Stoessel's requirements at any cost.

POLICE COURT.
 One Half-Frozen Drunk Got Off With Small Fine.
 There was only one unfortunate in the police court this morning, Edward Hoti, who was charged with being drunk. Hoti was arrested between three and four o'clock this morning by Officer Gostlin, who found him on a door step on Union street very much under the influence of liquor and partially undressed. Hoti had been out on a time and returning clamped on the doorstep under the impression that he was home. He had removed his overcoat, coat and vest and was almost frozen when the policeman gathered him in. In court this morning he pleaded guilty and was fined \$4.

CZAR RULED BY REACTIONARIES.

Refused to Allow Zemstvos to Meet.
 Private Session Will be Held to Place Before Czar Russia's True Condition.

ST. PETERSBURG, Nov. 19.—Today may be marked as a day in the Russian calendar. About a hundred representatives of provincial zemstvos assembled quietly at two o'clock this afternoon with the avowed purpose of presenting to Emperor Nicholas, through Interior Minister Sviatopolk-Mirsky, a truthful picture of the internal conditions of Russia, coupled with recommendations pointing out in plain terms the necessity for calling a legally empowered constituent assembly to have a voice in the government. The word "constitution," however, will be carefully avoided. The Liberals have been greatly excited by the developments of the last few days. The meeting was to be held at the Duma or city hall, but at the last moment under official auspices permission was refused, the emperor withdrawing his consent. Many of the representatives attribute the emperor's attitude primarily to the influence of Grand Duke Sergius, M. Pobedonostsev, the procurer general of the holy synod, and M. Sazonoff, a member of the council of the empire and industry to such reactionaries as Marchevsky Struzan and Suchninsky.

RUSSIA AND BRITAIN AGREE.

Terms of International Commission to Fix Blame of North Sea Affair are Settled.
 ST. PETERSBURG, Nov. 19.—The negotiations on the subject of the Anglo-Russian convention are practically concluded. One small minor point remains to be settled and that is one of such slight importance that the signatures are to be exchanged. In substance the language regarding the determination of responsibility by the international commission will make the convention provide for the location of any blame which is found to exist upon any persons of Russian, British or foreign nationality.

BURIED AT SUSSEX.

(Special to Star.)
 SUSSEX, N. B., Nov. 19.—The funeral of the late Mr. Richard Roach, of St. John, took place here this morning from the morning train. The remains were taken to the English church, where an abort service was held. Four of her nephews here were the pall-bearers. Interment took place at the English church burying ground, Sussex Corner. Quite a number of her friends accompanied the remains from St. John. The funeral tributes were many and the funeral was very largely attended, showing the esteem in which she was held. Rev. Revolt officiated.

BRITAIN WATCHING GERMANY.

Home Fleet Strengthened to be Able to Cope With Emperor William's Warships.

NEW YORK, Nov. 19.—A London despatch to the Times says: There is no doubt whatever that the British admiralty has its eye on Emperor William's fleet of warships and counts it a quantity to be reckoned with in its naval disposition. This accounts for the recent addition to the strength of the home fleet and also for the determination to retain Admiral Wilson in command of that fleet instead of transferring him to the Mediterranean to succeed Admiral Domville. In the judgment of the admiralty, the British admiral's post has become the most important sea assignment in the entire British navy and all because of Germany's naval strength, which the British naval authorities consider to possess an unfriendly potentiality. They do not expect to have to fight the German fleet, but it is part of the British naval policy to be ready to meet any and every possible danger.

KINGSTON CONVICTS ESCAPE.

Took Guards Weapons and Forced Their Way Out—They Have Been Recaptured

(Special to the Star.)
 KINGSTON, Ont., Nov. 19.—A lively episode occurred at the penitentiary farm this morning when Charles Biddle, a Toronto convict, and three others held up Guard Doyle and took his gun. With this they overpowered the other guards and secured three revolvers and then made off. The escaped men were finally rounded up and captured near Williamsville.

O'DONOVAN ROSSA WELCOMED IN IRELAND.

QUEENSTOWN, Ireland, Nov. 19.—A numerous deputation accompanied by a band went out on a tender to meet O'Donovan Rossa, who arrived here today from New York. The deputation escorted Mr. Rossa ashore. His entry into Cork Sunday will be the occasion of a great demonstration and his stay in Ireland is expected to be marked by considerable political activity.

FRANCE MEDIUM LED TO DISCOVERY OF MURDERERS

Woman of Thirty-Five and Her Son Are Sentenced to Prison Largely Through the Instrumentality of Spiritualistic Directions.

LINCOLN, Neb., Nov. 18.—Nebraska spiritualists assert that it is due to the revelations of a trance medium that two murderers are now within the walls of the state penitentiary. The prisoners are Charles Hutchinson, aged nineteen, and his mother, aged thirty-five. The boy is sentenced to twelve years imprisonment and the woman to ten years for the murder of Eli Pease.

Pease lived on a farm about eight miles from Superior and Hutchinson was a frequent visitor at the farm house, drawn there, it is said, by the attractions of Mrs. Hutchinson, with whom he soon became in love.

The elder Pease also had eyes for the charms of his housekeeper and objected to the attentions paid the woman by his nephew. Nevertheless, it is asserted that the two were engaged to be married.

Comment was aroused after this by young Hutchinson selling hogs and corn from the farm. Soon several neighbors received letters from Thomas Pease, the brother at Humboldt, inquiring concerning Eli and saying that his (Humboldt's) relatives had heard nothing of him for a long time.

One of the neighbors of the missing Pease assembled a trance medium about the affair and was told that the body of Eli Pease would be found buried in an outhouse on the Pease farm.

Seven months afterward a human hand and a coat containing in a pocket an empty whiskey flask was ploughed up on the Stanley farm near Guide Rock.

Hutchinson was arrested a few days later for the second time, as were also Harley Pease and Mrs. Hutchinson. Testimony showed that a body was buried in the place where the hand and the coat were found.

Hutchinson was arrested a few days later for the second time, as were also Harley Pease and Mrs. Hutchinson. Testimony showed that a body was buried in the place where the hand and the coat were found.

It is supposed that the old man, who was often ugly when drunk, became especially so after imbibing the contents of the flask bought in Superior. He may have made some advances toward Mrs. Hutchinson, and her son may have killed Pease in defence of his mother.

The trance medium was consulted for the third time and declared that the body had been moved from the field and thrown into a river. All the streams in the vicinity were dragged, but nothing was found.

MISS NELLIE McGINLAY. The death took place on Wednesday morning of Miss Nellie McGinlay at her home in River street, north end. Miss McGinlay had been suffering from consumption for some time. She leaves a mother, three brothers and one sister. The funeral will take place next Sunday afternoon, at 2:30 o'clock, from her mother's residence, River street.

SPORTING. The Ring. Baseball.

WHO IS LIGHTWEIGHT CHAMPION OF TODAY?

No battle in sight at this moment offers half so fascinating a problem as the question, Who is entitled to the next title? It is Eddy Hanson, that strong, fierce California youth, who tried so hard to get on a match with Britton months ago?

or is a fearful disadvantage. No story is more familiar than that of the boy who takes beating after beating from a big bully, then at last, goaded to desperation and forgetful of fear, he rushes at him and whips him.

Britt never had any fear of Gans. On the contrary, he went at the negro in the late battle as if he intended to destroy him with the first volley of punches—and came pretty near doing it. The negro, on the other hand, was conscious from the start of being weak at 125 pounds, soon became convinced that Britt was the better man.

THE "SPIT BALL." INDIANAPOLIS, Ind.,—a Glenn Liehardt, of this city, is a complete master of the now famous "spit ball," as he demonstrated in the baseball game just closed. In an article written for a local paper Liehardt has disclosed the mysteries of the ball that has put kinks in the backbones of so many would be LeJoles the past season.

"This was what caused New York to lose the pennant to Boston. In the ninth inning with a Boston runner on third, Chesbro pitched a spit ball which broke too soon and bounded past the catcher. Before it could be recovered the run was scored.

"Very little rotary motion is imparted to the spit ball. It comes up big and slow, and the batter can almost see the seams. Just as he draws back to hit it the ball seems to gain new impetus and drops or jumps as if struck from behind. If the batter hits where he aimed he misses it by probably a foot.

BOY RESCUED FROM DEADLY PERIL BY Before G. T. R. Express Parcel Just HARRISTON, Ont., Nov. 16.—This afternoon an unknown boy, about twelve years of age, was found tied to the rails on the Southampton branch of the G. T. R. one and a quarter miles north of Harriston, by Alexander Michie of this town just a few minutes before the 2:50 express from the north was due. The boy's hands were securely tied behind his back and a bicycle was found near the track, evidently to throw off suspicion. The boy's story is that he and a man named Jim Palmerston last night and slept in a lumber pile.

A HANDSOME MONUMENT.

A handsome monument has been erected in Fernhill in memory of the late Daniel N. Vanwart. "Well, you see, he just asked me, and I said 'yes,' and then he stood up and folded his arms." "Well, I never! Was he not more interested than that? Whatever did you do at such treatment?" "What could I do? You see, I was in his arms when he folded them."

MILLIONS FOR FAME.

Persons Who Pay Handsomely for Pleasure of Social Events in Prints.

(London Answers)

"One thousand pounds, cash down, if you will insert this notice of my marriage!" That was the tempting offer made by a gentleman to a leading daily newspaper some months ago. The notice, only a twenty-line paragraph, had appeared the day previous in a rival, but less influential journal, and the more powerful contemporary now refused to insert it. But in the paper it must go, and the applicant was ready to offer almost any amount so long as it appeared. Yet notwithstanding such an offer, the management stuck to its guns and the paragraph never found a place in its columns.

That his seventeen-year-old daughter might get her chance on the stage, a well-known stockbroker guaranteed the whole of the expenses of a new production, conditionally upon his favorite being given and trained for the leading role. The venture cost him over £1,000, but the young lady has since earned a creditable theatrical reputation.

A unique means adopted to gain public notice was that of a well-known South African magnate, who enlisted the services of a great advertising agency. They contracted to get him "paragraphed" in every society journal, to secure the publication of interviews and portraits, and in every way to "boom" him in the public press. As a matter of fact, the means which had been adopted in the name of the client, and boomed into favor. For a little more than five years this remarkable "advertising" went on. Today the customer is one of the best known men in the country, has gained a title, and has been adopted as a candidate for a great northern constituency. The price he paid for fame was not less than £300,000!

During some recent balloon and flying machine experiments a well-known and experienced London cleric offered the proprietor £1,000 for the privilege of going up in the air at each public trial. By this means he hoped to gain notoriety for himself and bring his church into prominence. The offer was promptly refused; but the reverend gentleman has since succeeded in inducing another noted aeronaut to accept his offer, and will shortly make his first trip to cloudland.

A well-known philanthropist who made his wealth in a gigantic furnishing and hardware business, spent a huge sum of money on his retirement in an effort to dissociate himself from his commercial connection. He was apparently ashamed of the means which had brought him wealth and made his name a household word throughout the world. He thereupon changed his name by letters patent and spent £2,000 in advertising the fact. Doubt that amount must have been expended in the paraphrasing and booming which followed, and now his adopted name is almost as well known as was his trade name.

When royalty visits a provincial town the authorities frequently receive most extraordinary offers from wealthy but hitherto unnoticed, residents who are desirous of playing some part in the pageant. An instance of this kind occurred quite recently, when the King and Queen went into the provinces. The mayor of an important seaport received from a retired tradesman of lavish means an offer to bear the whole cost of the town's festivities provided the donor should be chosen to present the engraved memento of the event to their majesties. What this offer would have entailed would best be understood when we state that the corporation spent £2,216 on the visit.

IN THE COUNTY COURT.
The case of Dean v. Flood, an action of debt, for extras for carpentry work in repairing defendant's house was concluded yesterday afternoon. For the defendant, C. Carson Flood, father of the defendant, Fred Cochran and C. Cowan were examined. The plaintiff obtained \$50 in his declaration and claimed contented that at the least he should get a verdict for \$125. The defendant had previously tendered \$150, but contented that only \$125 of the claim could be substantiated as the charges were excessive. Court committed Amon A. Wilson for the plaintiff and damages assessed at \$37.75. Macrae and Sinclair for the plaintiff, Kenneth J. Macrae.

STILL FIGHTING.

Rather Childish Conduct of Baseball Players

A meeting of the local baseball league executive was held last evening in the Y. M. C. A. rooms. Dr. Robertson was in the chair and representatives from the Portland and Franklin teams were in attendance. The meeting was called to decide upon the winners of the McGowan cup and other prizes donated to various departments.
Owing to the unfortunate breaking up of the league it was generally admitted that little could be done in the way of awarding individual prizes, but considerable discussion took place in regard to the cup.
The North End representatives contended that the cup should go to the Postville, as they were the victors at the best at the time the league closed, and that even if the other teams played out as many games as the Postvilles they could not make as good a showing, because the Postvilles had lost less games than any other team.
Others thought that as the league had not been finished the cup should not be given to any team and further motion of the Postville was refused. The St. Francis Xavier boys are tonight to play the Postville, and the meeting was adjourned about half-past nine.

WORLD'S FAIR IN 1915.

Semi-centennial of End of Civil War Will Be Celebrated.
CHATTANOOGA, Tenn., Nov. 18.—The first announcement was made today of a formal movement to hold in this city in 1915 a world's fair, to be known as the semi-centennial peace jubilee exposition, commemorating the end of the civil war. It is asserted that the progress that has been made in the exposition has been issued.

From 1861 to 1865 there was fought in the United States the greatest civil war the world has ever seen. Peace between the states was established in April, 1865. It is customary to celebrate important periods in our history by holding exhibitions which demonstrate the progress that has been made. Great exhibitions of this kind were held at Chicago in 1893 and in St. Louis in 1904, seven years ago. It is proposed that we hold in 1915, the year of our semi-centennial peace anniversary.

THE INCREASE OF APPENDICITIS

The white races, it seems have no monopoly of appendicitis, for it is announced that the Japanese minister at Washington has just been operated upon for the disease. The disease is common, and everyone wants to know why. The increase, doctors say, is largely of an appendicitis, and a multitude of cases that would formerly have been put down to peritonitis to the account of an appendicitis.
As to the approximate cause of the attacks, "F. R. C. S.," writing in the Nationalist, says that in a large number of the inflammation being set up by swallowing small hard objects. "While admitting," says he, "that in a few cases extraneous matters of the character and size mentioned may play some part in the incidence of appendicitis, it must be sought for more common cause for the frequency of the affection."
This is found, of course, in one old friend, the bacteria, "F. R. C. S.," explaining it thus:
"These microorganisms are constantly taken with food, and more particularly so in towns. There is, perhaps, nothing which so tends to assist the multiplication and so increase their virulence as hurried and irregular meals, involving the retention of imperfectly digested food. It is in that these microorganisms are found in the appendix, and in that they are a powerful poison, which, acting upon the walls of the tube, soon produces inflammation, which is evidenced by tenderness and all the train of symptoms incident to appendicitis. And the moral of that is, eat slowly, live regularly and simply, and keep your bowels open. Above all avoid being a millionaire."

THE OLD COUNTRY AND THE NEW.

"While imports from Canada to Mexico appear on paper to be insignificant at present," says his majesty's consul at Mexico, "there is hope that as soon as the proposed steamship lines connect Mexican ports with those of the Dominion of Canada trade with Mexico will show itself in its true light, and I am of opinion that its volume will be a surprise. I may explain that Canadian manufacturers are well able to compete in this market against United States rivals in many commodities in which the manufacturer of the United Kingdom would not have any chance of success, especially in such articles as cheap furniture, wood pulp, plumbers' fittings, canned and preserved fish, breakfast foods, and many groceries, which, so far as I am aware, have not yet much vogue in the United Kingdom, but which are much sought after on this side of the Atlantic."

DIED IN SUSSEX.

SUSSEX, N. B., Nov. 18.—Mrs. Nelson W. Evely, aged 32 years, died this morning. She was the daughter of Isaac Vanwart of Hampstead, Queens Co. She leaves one child, two boys and a girl, one sister married in Boston, two brothers, Everett, in the grocery business here, Isaac in the Free Baptist church and Sunday school here and was an active worker and will be greatly missed. Funerals from her late residence Sunday afternoon at 2.30 o'clock, interment at the cemetery, Sussex Corner. Rev. Mr. Noble will officiate.

FREIGHT STEAMER BURNED.

One Man Lost His Life in New York Harbor

NEW YORK, Nov. 18.—Twenty-one persons were rescued from the big freight steamer Mohawk of the Central Vermont railroad's fleet, which burned to the water's edge off Hart's Point, in Long Island Sound, early today. The watchman, a Swede, named Larsen, is believed to have been burned to death. All the others on board, among whom were two women, were taken off the burning vessel by the freight boat Boston of the Fall River line shortly after one o'clock this morning and almost immediately afterward there was a heavy explosion on the abandoned freighter, which apparently completed the destruction made by the flames.
The Mohawk was on the Mohawk now lies on the inlet bar west of Peconic, and the vessel and cargo are a total loss.
The Mohawk carried a full cargo of general merchandise including nearly a thousand barrels of sugar and considerable oil. The value of the cargo has not yet been ascertained.
The fire was discovered as the vessel was passing Hart's Point, on one of her regular trips from this city to New London, Conn., and a few minutes later her entire framework was aflame. The Boston came up in a short time and went at once to her assistance. The rescue was made with great difficulty owing to the intense heat.
The Mohawk's men say that the fire was discovered by those in the pilot house soon after midnight, but its cause is not known.

POLYMORPHIANS.

Another meeting of the Haymarket Square Polytechnic Club was held last evening in Tabernacle Hall. Most of the evening was taken up in election of officers. The election resulted as follows: R. J. Wilkins, pres.; E. Sears, vice-pres.; E. McLellan, 2nd vice-pres.; E. M. Stockford, sec.; R. D. Woodruff, treas.; J. McEwen, sergeant-at-arms. The following additional members of the executive were elected: C. Nevins, J. McAllister, J. Lattimer. The trustees are R. J. Armstrong, R. D. Woodruff, R. J. Wilkins.

MR. WAINWRIGHT HERE.

W. A. Wainwright, who will again be St. John manager for the Allan Steamship Co., arrived in the city yesterday. Mr. Wainwright is not sure yet whether the passengers destined for the Northwest will be brought to St. John and sent west by the C. P. R. or forwarded from Halifax. He is inclined to think it will be left optional with the passengers, as before.

CALEB VANWART DEAD.

The death of Caleb Vanwart, of 123 Adelaide street, occurred at the Victoria Hospital, Fredericton, N. B., Monday. Mr. Vanwart was engineer on the tug Jero, owned by Glazier & Co. of Fredericton. Two weeks ago Mr. Vanwart was afflicted with a stroke of paralysis, while crossing the St. Mary's bridge. He was taken to the hospital at Fredericton, and sank gradually until his death. The deceased is survived by a widow and one son, Harley Vanwart, grocer, 4 Adelaide street. The remains will arrive here this morning. Interment will take place at Hamstead, the old home of the deceased.

NICE JOB FOR MR. BLAIR.

TORONTO, Nov. 18.—The Mail and Empire says it has learned on excellent authority that Mr. Blair is about to accept the post of Toronto Roller Bearing Co. Ltd., and will receive a salary considerably larger than the \$10,000 stipend he enjoys as chairman of the railway commission.

MARITIME THREE MILE RECORD BROKEN.

NORTH STONEY, Nov. 17.—At the sports here this evening at Strathcona Rink, under the auspices of St. Joseph's A. A., the chief event was the three mile run, in which J. J. McMullin, of St. Joseph's A. A., North Sydney, defeated Frank Paulsen, of the Halifax Wanderers, who up till tonight held the championship of the maritime provinces and of New Brunswick. McMullin also succeeded in breaking the maritime record, his time being 16 min. 2-2 sec.

DARING OF A RUSSIAN.

Results in the Sinking of a Jap Torpedo Boat.
CHE FOO, Nov. 18.—The Port Arthur newspaper Novik of Nov. 11, copies of which were brought to Che Foo this morning by the Rastorophy, prints brief details of a daring exploit which resulted in the sinking of a four-funnelled Japanese torpedo boat destroyer.

JAPANESE TORPEDO BOATS DESTROYED.

Japanese torpedo boats and destroyers were engaged in removing mines, mostly their own, from Tache Bay on Nov. 2. Midshipman Dimitrieff conceived the idea that he could torpedo the Japanese boats under cover of the darkness as the latter were busy and enjoying a fancied security. It was the very audacity of the plan, the Novik says, that made it successful.
Securing a steam launch from the battleship Retvizan, one carrying a torpedo tube, and accompanied by half a dozen silent volunteers, Midshipman Dimitrieff in the dense darkness, slipped out of the harbor and succeeded in evading the Japanese searchlights.
Circling around the Japanese boats with the launch moving at top speed the midshipman came within striking distance from the seaward side and launched his projectile. It sped through the water to the destroyer. There was a sudden explosion and the destroyer sank immediately.
The launch then sped toward the harbor, but was not pursued. The Japanese evidently not having observed the launch and thinking the destroyer had struck one of their own mines.

It is estimated that 75,000 people will try to get into the Yale grounds Saturday to see the Yale-Harvard match, and there is accommodation for but 25,000. Interest in the game is unprecedented, even though it is generally admitted that Harvard hasn't the ghost of a show to win.

A TIE GAME IN HALIFAX.

HALIFAX, N. S., Nov. 18.—For the first time in three years the football team of Dalhousie failed to score on another team. The game which they played in Antigonish today with the team of St. Francis Xavier College demonstrated that another team in Nova Scotia can lay claim to the championship of Eastern Canada. The result was a tie, 0-0. The game was played in a most interesting manner and was well attended. The home team made by either side. Dalhousie was forced to touch twice for safety. The St. Francis Xavier boys are tonight to play the result of the game is being awaited with great interest.

MOUNT ALLISON WON.

Mount Allison played football at Windsor today with King's College. Mount Allison made a goal in the first half which was the only score in the game. So far this season M. Allison has made 71 points and has not been scored against.

MAJOR DELMAR'S WORK.

Major Delmar was the greatest trotter of the present year. Not alone the greatest for having defeated Lou Dillon in the race for the gold cup at Memphis, nor for the fact that he trotted a mile in 2:01-4, without a pacemaker in front, nor for the additional fact that he trotted a mile in 2:01-4, but for the standpoint of having accomplished every task asked of him. Not alone was he the greatest trotter of the season, but he is likewise, in the estimation of many capable critics, the very greatest trotter that ever lived.

Major Delmar now holds the following records:
Fastest mile by a gelding—1:59-4 (with pacemaker in front).
Fastest mile by a trotter—2:01-4 (without pacemaker in front).
Fastest mile to a high-wheel sulky—2:01-4.
Fastest mile to a wagon (gelding)—2:02-2.
Fastest mile for 5 year old gelding—2:05-2.
Fastest first heat for 5 year old gelding—2:05-1-2.
Fastest fourth heat for 5 year old gelding—2:05-1-2.
Fastest half-mile in class race—1:01-4.
Fastest mile and an eighth in class race—2:05-1-2.

WONT FIGHT A NEGRO.

SPOKANE, Wash., Nov. 18.—"The story that I have agreed to fight Jack Johnson is not true," stated James J. Jeffries today. "I will never fight a negro, and I will not be in the hands of the press and the people. Any white man they choose I will fight on six weeks' notice. Unless this is done before a great white I will retire from the ring and be the only retired champion that ever lived."

THE CZAR'S ONE EAR.

The uneducated peasants in the Cherson Province of Russia have an extraordinary belief that the czar has only one ear. They are confirmed in this belief by pictures and photographs of the czar showing a side-faced view, and naturally exhibiting only one ear. They account for the absence of the other in the following manner: Some time ago, they say, a deputation from their province waited upon the czar, and in the course of the meeting the czar is said to have stated that all Russian land would be divided equally among the peasants of the various districts. To this one of the deputations boldly said: "As sure as you cannot see your own ears you will not divide the land." The czar's reply to this was to cut off one of his (the czar's) ears, which he placed upon the table, remarking as he did so: "As surely as I now see my ear I will divide the land."
To this day the Cherson peasants firmly believe that he has only one ear, and, unless the czar visits them in person and proves to them by optical demonstration that he possesses the correct number, this extraordinary belief will not be shaken.
Jim—Is that an upright piano they have next door? John—I couldn't say. All I know is that it's a downright nuisance.

SUMMER SERVICE

Has Proved a Success This Year, And in 1905 the Donaldson Line Will Increase the Number of Their Sailings.

St. John as a summer port is a success. This is the opinion of the owners and agents of the Donaldson line who during the summer just ended have given a fair test of the running of a summer service to St. John as an innovation, and an experiment. It might be a success and it might be a failure. If the former, the Donaldson people wanted the business, and if the latter they were willing to pay for the experience. But most of all they wanted to know how much traffic could be secured from St. John as an all year port.

An Up-river Fakir Has Been Taking in Money by a Shrewd Game.

There's a man at large up river, who if he is not a fakir, may pay the full penalty provided for those who secure money under false pretences. He is giving a fictitious name and has "worked" a number of Queens county folk, including some business men. His game is to represent himself as a special agent for Manchester Robertson Allison, Limited, of this city, particularly in the clothing branch of that business, and has taken a number of orders for suits and overcoats, always asking for a cash payment in advance. The scheme has been working quite well, according to the story of some Gagetown folks who have called for their clothing, and the fakir is reaping quite a harvest, for by this time possibly the people have been made acquainted with the fraud. So smooth was the man's story and so boldly did he use the reliable firm's name that the residents of the district were ready to believe him. Several who have called for their suits and overcoats were amused to find they had been duped.

STRATTON HAS RESIGNED,

And Others of the Ross Cabinet May Follow Soon.

TORONTO, Nov. 18.—Hon. J. R. Stratton no longer holds the portfolio of provincial secretary in the cabinet of Hon. C. Ross. To a reporter yesterday he said he had pined his resignation in the hands of the premier some time ago, that Mr. Ross had consented to relieve him of his duties, and that he expected to be relieved within a few days. The resignation is dated October 12, in which Mr. Stratton states that he intended to the premier some time ago his intention not to seek re-election at the close of the present parliamentary term, and felt it would be only justice to place the portfolio in the premier's disposal, so that he could at a time convenient to himself accept his resignation. After an expression of regret to the premier and admission of his administration, Mr. Stratton says: "I take this step with great regret, having to part from you, but my present and future business interests are such that I cannot in justice to myself and government continue the duty of responsibility of attending to increasing public and business matters."

The charges brought by the Ontario legislature on March 11th, 1903, against the Hon. Robt. Ross, have been briefly summarized as follows: 1. That about August 7th, 1902, Capt. John Sullivan met him at Alton, advised him that the government intended to push the protest against his election and had sufficient proof to disqualify. He urged him to resign.

2. That upon reaching Toronto, Frank Sullivan, son of the above and an employee of the public works department, declared that the government must have more support in the house, and that \$3,000 might be made if he would change his colors.

3. That about Aug. 18th Frank Sullivan and a prominent liberal named "Bert" afterwards known to be R. A. Grant, met him and told him of a company of 200 men, who would be paid \$3,000 for the first session of the house, and on the same day D. Jones, of Boston, a liberal worker, pressed him to turn over.

4. That he then consulted his friend, R. McGregor of Gore Bay, secretary of the Manitoulin conservative association, and they decided to go on with the matter, which was to be done by convicting someone in the government, and then make the thing public on the floor of the legislature.

5. That on Sept. 24th after various discussions with the two Sullivans, and the making of an agreement with them that he was to receive \$3,000, and \$2,000 after the session, he was taken to the office of Hon. J. R. Stratton, provincial secretary, and here discussed an arrangement by which, in return for his supporting the government he was to receive a "considation" of the patronage of his riding and any help which could be given in cancelling the party supporters.

6. That on the same occasion he was shown a draft of the letter which he signed later in the day, pledging his support of the government and declaring that he had received no value or consideration for doing so; and that on the same day Mr. Stratton instructed A. A. A. Appleworth, K. C., to arrange a withdrawal of the election protest against Ganey.

7. That on the succeeding day he went by appointment to Hon. Mr. Stratton's office, accompanied by Frank Sullivan, and there with the minister, and then entered the smoking room, where a large envelope was presently brought and laid on the table. It contained \$3,000 in Ottawa Bank bills, of which he gave one-half to Sullivan.

8. That McGregor was kept advised of these and other details, and that various appointments were subsequently made in Manitoulin by the government upon his recommendation.

9. That a letter, similar to the one mentioned above, was type-written, signed by Stratton, and mailed to the premier on Oct. 20th by previous arrangement with Mr. Stratton.

10. That interview already quoted from was prepared in Mr. Stratton's office, was given to Mr. Ganey in the presence of Sullivan for revision, and was duly returned to the minister afterwards, and was given to the Globe on the evening of Jan. 29th. That, during the past season, work on that occasion and in response to his own demand, \$1,000 more was handed Ganey by Sullivan.

WOMAN'S REALM.

TIMELY SUGGESTIONS. Water Stains on Furniture—Some one threw a towel across the footboard of my bed, which was of light colored wood. I tried everything I had ever read of for removing the stain, and only made matters worse. Then I tried a method of my own. I saturated the water, soaked part, and made a stain exactly the shade of the wood with raw amber and white lead. After this was applied and well dried I gave it a coat of hard oil. The stain was entirely gone after this treatment.

A Recipe for Javelle Water—Javelle water will remove almost any stain from white goods. To make a quantity, dissolve four pounds of bicarbonate of soda in one gallon of boiling water, then strain into one pound of chloride of lime. When cool, strain and bottle. All acids and alkalis tend to eat the fibers, so use quickly and rinse thoroughly.

To Remove Mildew—Several years ago I had the misfortune to have a handsome nightgown washed in cold water, and it was ruined. I tried all the usual remedies of sour milk, lemon-juice and salt. I determined to use oxalic acid as a last resort. I purchased five cents' worth, and dissolved it in enough water to cover the garment, which I put in a tin. After it had soaked it a day and a night there was quite an improvement but still a number of stains remained. I then used the same as the first, and let it soak in this overnight. The next morning I changed the water, and let it soak in this overnight. The next morning I changed the water, and let it soak in this overnight. The next morning I changed the water, and let it soak in this overnight.

Stains on Cloth and White Goods—To remove grease from a cloth, make a paste of fuller's earth and turpentine. Rub on fabric until turpentine evaporates and a white powder remains. This can be brushed off, and the grease will have disappeared.

To Remove Ink Stains—The following methods have been tried and proved successful: Ink-stains on white goods may be removed, even after boiling, by moistening the spot with turpentine, and then rubbing with a mixture of one part of common table salt to one part of tartaric acid, and exposing to the sun. For stains on colored goods, cover the spot with salt, squeeze lemon-juice over it, and expose to the sun. While still fresh, ink-stains may be removed by simply moistening, covering with table-salt, and exposing to the sun. Remove the salt as fast as it becomes colored, and replace with fresh.

A FEW TESTED RECIPES. For soot on carpets, where it has been dropped from the stovepipe or chimney, sprinkle freely with salt, then sweep it up lightly. For grease-spots on carpets, lay a heavy blotting-paper over the spots, then iron with a hot iron. This may not be a success where the spots are very large and have been allowed to remain too long, and in such cases apply plentifully and frequently dry buck-wheat flour; never put liquids on such spots.

Here's a Puzzle For Somebody AND ALL ON ACCOUNT OF "ROYAL HOUSEHOLD"

"The hold upon the people of Annapolis county which this 'Royal Household' flour has secured of late is one of the most remarkable things I have seen in my eighteen years business experience," said an Annapolis county merchant who attended the Halifax Exhibition. I find that the majority of my customers absolutely refuse to take anything but "Royal Household" and I tell you it is almost a serious problem with some of us as to how we are going to sell the stocks we have of other fairly good flours.

PRINCE OF SPENDTHRIFTS.

Pace That "Coal Oil Johnny" Set More Than Thirty Years Ago.

In the intoxication of suddenly acquired wealth, \$200,000 in hand and an income of \$5,000 a week from old and new leases on the Widow McIntlock farm, John W. Steele resolved to reveal his opulence to the world, to see everything in it, and by no means through a smoked glass, in his ignorance, for he could not do much more than write his name, says the Philadelphia Telegraph, he saw in the fortune only the opportunity for personal buttery rancidness into grimy rouseauville, the nearest town to the oil homestead, teaming with all conditions of men, honestly or dishonestly bent on eating at Dives' table or scraping up the crumbs of gold that fell around it.

modest little home, but Steele did not like the prodigal of old, immediately he bought a locomotive, baggage car and two sleeping cars to make it the first of travelling companies with such a equipment. When the organization started on its career of sumptuous travel it was estimated that Steele had spent \$200,000 in less than two months. There was an older man in Pittsburgh who resolved to exploit this youthful and reckless son of Helios. His name was John Stocum, and he commanded just those powers to open stage doors, to penetrate the innermost recesses of the concert hall and unlock the bearings of lids which would appeal in a compelling way to a profligate spirit. Hence, therefore, this millionaire young capitalist, under his title, and the champagne route which ensued, when to call for one bottle smacked of penny and only a basket was de rigor.

THIRTY-FIVE GRITS BY ACCLAMATION.

Nomination Day in Quebec--In Thirteen Constituences Liberals are Running Against Liberals.

MONTREAL, Nov. 18.—Nominations for provincial elections took place today. Thirty-five Liberals were elected by acclamation and one conservative. Hon. P. E. LeBlanc, in Laval. In eight other constituencies there is a straight party fight, and in fourteen others there is a fight between Liberal candidates. Of the remaining sixteen seats, in two the election will not be held until later, and in the other fourteen there is a midway of candidates liberal, independent, conservative, nationalist, and labor men. In Lachine there are five Liberals and a conservative in the field, and in Quebec West four Liberals. Altogether there are only thirteen conservative candidates seeking election. All the ministers with the exception of Hon. Dr. Guerin are returned by acclamation.

STARTLING EVIDENCE IN BOGUS BALLOT CASE

Alleged Confession of P. A. Lott Implicate Liberal Candidates, and Stratton, Vance and Others.

BELLEVEILLE, Ont., Nov. 18.—Hearing of the charge of criminal libel, preferred by E. G. Porter, M. P. elect, against T. C. Garner, proprietor of the Belleville Sun, was continued this morning before a large court. There is great public interest in the case. Mr. Duvernet of Toronto appeared in the interests of Mr. Porter, and announced that Mr. Shepley of Toronto, would be associated with him in the interests of the government. The case against P. A. Lott was adjourned for a week.

SCARLET FEVER IN DEAF AND DUMB SCHOOL.

One Case Has Developed, but Others Are Not Expected.

A case of scarlet fever has developed in the New Brunswick School for the Deaf and Dumb at Lancaster, but no other cases have been taken it is hoped that no further developments will follow. The patient is Sarah Leeman, a girl about thirteen years of age.

SCARLET FEVER IN DEAF AND DUMB SCHOOL.

Whether this had anything to do with the present case or not is a matter of doubt. A short time ago Miss Leeman complained of a sore throat. She was at school from the season at which scarlet fever afterwards developed. One of the scholars at the school, who was given clothing and the apartments in the school occupied by her have been thoroughly disinfected, and Dr. Fred W. Hart, who was in attendance, does not anticipate any further spread of the disease.
