## SPECIAL MEETING TOWN COUNCIL

Interesting Letter From Local  
Manager Royal Bank of  
Canada

### BILLS PASSED

Discussions re Electric Light  
and Miss Powers  
Taxes

Town Council met Thursday night in special session.

Mayor Miller and Alds. Doyle, Ferguson, Morrissey, Russell and Shaw were present.

The following letter was received from the Manager of the Royal Bank of Canada.

Newcastle, N. B. July 31, 1908.

J. E. T. London, Esq.

Town Treasurer.

Dear Sir,  
Re unsold bonds:

I have received advice from my Head office to the effect that the town cannot expect to sell their bonds on anything like a 4 1/2% basis.

As a matter of fact, such bonds are now being disposed of to investors on 5% basis, which means that the bond holders must buy at a more favorable figure. Of course it was not anticipated at the beginning that the loans made by this bank for the town would be carried over for such a long time. You will therefore kindly bring the matter again before the Finance Committee and see if they are not disposed to offer the Bonds of the Town at a figure which will result in a sale of the bonds. An early reply will be appreciated.

Yours Truly  
B. A. McCurdy,  
Manager.

The letter was referred to Finance Committee.

Communication from W. F. Black re taxes. Referred to com. on petitions.

Communication from S. McLeod chairman Board of Health, calling attention to need of certain sewers being attended to. Referred to Public Works com.

On recommendation of Light and Water committee following bills were ordered paid:

W. J. Hogan \$ 7.50  
Imperial Oil Co. 36.40  
Miller's Foundry & Machine Co. 36.28

Canada Gen. Electric Co. 11.32  
T. McAvity & Sons 18.00

On recommendation of Park and Fire committee, following bills were ordered paid:

B. P. Malby \$ 4.30  
P. D. Ryan 16.65

The Mayor asked for information in regard to the electric light going out on Saturday night, August 1st.

Ald. Morrissey said no complaints about the lights had been made to him personally. The cause of the light going out that night was this: the new boiler was out of use on account of being cleaned, and steam went down in the old boiler, that was doing duty. Regarding the number of men working there, he could understand how the work could be carried on by any fewer men than at present employed. Only two worked at night, and in the daytime there were only two except when the day fireman was employed. He had found, on enquiring that the lights went out in other towns twice as often as in Newcastle. He thought Newcastle people had very little to complain of regarding light.

Ald. Morrissey spoke of the advisability of extending the sewers at Miller's and Town Hall to low water mark.

On his motion, seconded by Ald. Ferguson, the Public Works committee were authorized to get estimates for both terra cotta and plank for extending Pleasant Street sewer.

On motion of Ald. Doyle and Shaw, it was resolved that the owners of the private sewer running out by Town Hall be notified to flush present sewer and to extend it to low water mark.

Ald. Morrissey said that he had from Miss Mary Powers a complaint regarding her taxes. An execution had been issued against her, which, he suggested should be stayed. Better start collecting from wealthier parties in arrears.

Miss Power's sister, Mrs. Murphy, had for several years been an invalid because of a fall through a hole in the sidewalk. For this she claimed damages and the sisters did not feel like paying taxes until something was done in the matter of settlement.

The Council suggested to Ald. Morrissey that he find out what arrangement could be made with Miss Power.

Adjourned.

## Montreal Robbers Caught.

The Montreal Police Department has effected three arrests which it is believed will go far to explain the frequent household robberies which have been perpetrated in Montreal. For some time past the police have been working hard to round up the gang and in Saguenay, Quebec, his wife and Abraham Feldman, all paid to be New Yorkers, they believe they have at last caught the ring leaders of the gang. They have been connected with several robberies throughout the city by the recovery of goods. Feldman pleaded guilty.

## Frightful Accident at Chatham, Ont.

### Four Persons Killed and Eight Others Injured in Street Car Collision.

Chatham Ont. Aug. 10.—This morning, two loaded cars left on the electric line for Erie Beach Park on Lake Erie. The cars were crowded, and so were the streets. One car stopped a moment, and the one coming behind smashed into it, the brake refusing to work. When the crash came the rear platform of the forward car was smashed to splinters as well as a portion of the body of the car. The fate

of the rear end passengers is beyond description, arms and legs being severed in a fearful carnage. Wm. Boomhead, musician, of Detroit, and William, the little son of Don Donovan, killed outright. William Mitchell and James Plarsance were so terribly injured that they died soon after. Miss Donovan, a sister of the little lad who was killed, is not expected to recover, and seven or eight others were badly injured.

## CHATHAM FAIR SEPT. 14TH-19TH

Everything Assures Most Successful  
Fair at the North Shore  
Town.

### THREE DAYS GOOD RACING

A Firemen's Tournament, Moncton  
and Fredericton Firms Will  
Exhibit.

The manager, officers and executive committee of the Chatham, N. B. Exhibition Association are now working energetically and harmoniously for the assured success of their fourth annual Agricultural and Industrial Fair, to be held on the six days, September 14th to 19th. There will be three days of racing while the Fair is in progress, and already a large list of entries is assured. The secretary of the Driving Park, Mr. Robert Murray was at Fredericton last week and secured the attendance of some of the best horses that made the Fredericton meet a success.

On Tuesday, September 15th, the Chatham firemen will have a parade and tournament, expected to be one of the grandest affairs of its kind ever held in the Maritime provinces. Altogether the North Shore town is to have a gay and festive time on the dates above mentioned. As this is the big Fair of the eastern and northern part of the province it is sure to be well patronized. The managers of the Chatham Exhibition have made a reputation for themselves as generous entertainers and successful managers in their past efforts. With the experience of the past to go upon, a large prize list, the hearty support of all the people on the North Shore and with many exhibits and attractions coming from outside points this year's Fair will be far and away ahead of all previous exhibitions. Mr. W. B. Snowball was in Moncton last week and received the gratifying assurance of the general interest of the citizens, and it is learned that already some Moncton firms have secured space for exhibits. A prize list and all desired information can be secured on application to Mr. George E. Fisher, manager, or Robert Murray, secretary at Chatham.

## DOMINION ELECTIONS SOON.

Government Bureau Reported Already  
ready Printing Voters'  
Lists.

OTTAWA, Saturday.—From usually reliable sources the information comes that the Government printing bureau will begin printing voters lists for the Dominion on Monday. An official asked would not deny the rumor. This is regarded as an added proof that the Federal elections are imminent.

## SCHOOL SUPPLIES

It's early, but for the benefit of out-of-town customers, we wish to announce that we will be ready for School opening with the full line of school supplies from a pen point to a leather book bag. The Provincial Government have asked us to allow our name to be placed on the list of vendors. Whether "vendor" or not, we are "in it" same as usual.

## ROUSING LIBERAL CONVENTION.

Liberal's of North And South Esk  
Parishes Meet For Important  
Business.

### OFFICERS ELECTED.

W. S. Loggie, M. P. Addresses  
Large Audience on the Issue  
Of The Day.

The Liberal Association for the Parishes of North Esk and South Esk held its annual meeting at Redbank on Monday night. A large number of electors were present. The following officers were elected:

President—James Johnson.  
Secretary—J. Sutherland.  
Treasurer—John Menzies.  
Chairman Redbank Poll—Wm. Sullivan.  
Chairman Protectionville Poll—Phineas Gunn.  
Chairman Whitteville Poll—Alfred Sinclair.  
Chairman Scott's Poll—John D. Goodfellow.  
Chairman Trout Brook Poll—Murdoch Sutherland.

W. S. Loggie, M. P., then gave a long and intensely interesting address in the political issues of the day, being listened to with great attention, frequently broken by hearty applause. These two parishes will poll a good Liberal vote at next Dominion election.

## Cloudburst Wrecks Town.

BISBEE, Ariz., Wednesday.—The post office and all the business houses and offices on one side of Main Street for a distance of 200 yards were wrecked late yesterday by a cloudburst which swept down from the mountain side a mass of mud and rocks. The damage is estimated at \$100,000. Postmaster N. E. Cassidy, Sheriff Jack White and eighteen girl clerks in the post office narrowly escaped when the flood, almost without warning, struck the building and filled it with water six feet deep. Thousands upon thousands of tons of rock and dirt were washed into the streets, which were filled five to twenty feet high with debris.

## THAW DESIRES BANKRUPTCY.

NEW YORK, Saturday.—That a determined effort will be made by some at least of Harry K. Thaw's creditors to resist his efforts to have himself adjusted a bankrupt was indicated today after his creditors had recovered from the confusion into which the first announcement of the beginning of the bankruptcy announcement in Pittsburgh threw them. The attempt to head off the bankruptcy process in New York is already under way. Daniel O'Reilly, Thaw's counsel in both murder trials, announced today that he had decided upon the institution of proceedings through which he hopes to collect the amount of his claim for legal services.

## AGAINST MARRIAGE OF DIVORCEES.

Bishops of Church of England  
Pass Several Important  
Resolutions

### EDUCATION DISCUSSED.

Social Mission And Social Principles  
of Christianity Should be Given  
More Prominence.

London, Aug. 8.—Among the resolutions passed at the Lambeth conference of Protestant Episcopal bishops are the following:

In view of the tendencies widely shown in recent writings, Conference places on record the conviction that historical facts stated in the creeds are an essential part of the faith of the church. The serious decline in the number of candidates for the ministry is deplored and parents are urged to dedicate sons to the ministry and churches to provide funds for training the candidates.

Conference further resolved that, all races and people, whatever their language and conditions must be welded into one body and the organization of the different races living side by side into separate or independent churches on the basis of race or color is inconsistent with the vital and essential principle of the unity of Christ's Church.

The Conference also resolved that it was undesirable that an innocent party to a divorce for adultery should receive the blessing of the church upon remarriage. It denounced also the growing practice of the artificial restriction of the family.

Socialism took up much of the Bishop's attention. The Conference recognized the ideals of brotherhood which underlie the democratic movement in this country and called upon the church to show sympathy for the movement so far as it strives to procure for all just treatment and opportunity to live true human lives.

The congress resolved that the social mission and the social principles of Christianity should be given more prominence in the teachings of the church, and it impressed upon churchmen that property is a trust held for the benefit of the community, for which they have a moral responsibility first, for the character and general and social effect of any business in which their money is invested; second the treatment of employees; third, the observance of laws relating thereto, and fourth, the payment of just wages.

## IN TENEBRIS LUX.

BY A BANKER.

One of the strangest phenomena which have occurred for many years—strange, because altogether unintelligible, and so far, not satisfactorily explained by scientists—was the remarkable and unaccountable prolongation of the glow of twilight, with the complete absence of darkness during the whole of the night, which recently so startled north-western Europe. A beautiful sunset hue pervaded the northern heavens as though the axis of the earth suddenly changing, the sun had not sunk so far beneath the horizon as usual, and the position of the pole had altered five and twenty or more degrees, the arctic circle therefore moving downwards. The phenomenon was entirely different to aurora borealis, and the cause remains an absolute mystery. It was as though a Joshua had commanded the sun to stand still in order to prolong the length of the day.

But however beautiful and strange, this phenomenon could not compare in splendor and magnificence with the startling display of aurora borealis which took place in England in 1859. As the twilight disappeared, the heavens were covered with a brilliant display of colored light were observed in the northern heavens, gradually taking the form of a gigantic luminous arch of many colored fires. Depending from the arch were geometrical columns, of varying length, of quivering, many-hued wildfire; some a brilliant amethyst, some a deeper purple, or some a vivid carmine or emerald. Now a throbbing pulsation passes over the entire glowing arc, and it flashes in gold or orange or vermillion, or once more violet now for a moment partially fading away, again suddenly, with a quivering tremor, scintillating and flashing as brightly as before. The spectacle is now beyond expression sublime and majestic, and those who had the good fortune to witness it were altogether overwhelmed at this magnificent and supernatural display of the mighty forces of Nature.

On another occasion, instead of a prolongation of daylight, for a space of three hours, commencing at noon, a supernatural darkness overspread the land, a darkness in which, it is believed, the entire earth was plunged, for Nature was then veiling her face, shocked at the awful tragedy which was then taking place on Golgotha, where the pure and holy Son of God was bearing the shameful load of our sins, and Himself on behalf of all who will but come to Him, enduring the punishment due by them to Eternal Justice. Aye, well might Nature then, agitated at the heart-rending sufferings of her Lord, shroud herself in darkness, and screen Him from the ruffian insults of his dastardly murderers. But His death is our life, His sufferings our passport to the glories and eternal joys of heaven. His crown of thorns our title to a crown of glory.

The footprints of Dyspepsia have been directly traced to the Stomach nerves. When these "inside nerves" fail, indigestion and stomach distress must surely result. For this, Druggists everywhere are supplying a remedy known as Dr. Shoop's Restorative. First, these tiny inside Stomach, Heart and Kidney nerves fail. Then gas belching, Heart palpitation, or failing Kidneys follow. Don't distress the Stomach, or stimulate the Heart or Kidneys. That is wrong. Strengthen these failing nerves with Dr. Shoop's Restorative. It is the nerves, not the organs that are calling for help. Within 48 hours after starting the Restorative treatment, you will realize the gain. A test will tell. Sold by all dealers.

Ex-Policeman Jones of Campbellton who was dismissed from the police service by the town council has demanded an investigation through the attorney, Mr. W. A. Mott. Mr. Jones feels that the council pursued by the council in his dismissal places him in a very bad light before the public, and he seeks to have the public know the true facts.

GENTLEMEN,—In June, '98, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until I was given one bottle of MINARD'S LINIMENT, which I began using. The effect was magical: in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

**DEAFNESS CANNOT BE CURED**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

## A GREAT EXHIBITION

FEATURE.

Machinery Hall in St. John To Be Part Of Big Show There.

The big boilers in the Machinery Hall of the Exhibition building in St. John were tested the other day and found in first class condition. Now that they are sure of plenty of power the applications to show machinery in motion are becoming a feature of the big show.

Some splendid amusement features have already been booked, the railways and steamboats are making rates that will induce most everyone to visit St. John Exhibition week, and there the people are making all sorts of plans to make their stay pleasant.

There is nothing more interesting in an exhibition than a well stocked Machinery Hall, such as St. John will have.

Remember the date, September 12th to 19th.

August time tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The gain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the "inside nerves" then the stomach, Heart, and Kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by all dealers.

The annual convention of L'Assomption will be held at St. Joseph's College, Moncton, on August 15, 16, and 17. Mr. S. Blanchard, Newcastle, and Mr. J. F. Bourque, Chatham, will be the delegates from here.

## Gold and Silver Medals, Bibles and Books,

Awaiting Those Who Enter the Union Advocate Bible Study Club

Only One Question to be Answered per Week. See Conditions Below

In order to encourage the study of the Bible, the UNION ADVOCATE has arranged to publish, weekly, a series of questions on the Sunday School Lessons. All who accept the conditions stated below will be members of the Northumberland County Club, and eligible to win the prizes provided.

Persons may join the club at any time during the year, but must, of course answer the 52 questions hereinafter explained, to qualify for the prizes. It is, moreover, desirable that the questions be answered as the lessons are studied.

The International Newspaper Bible Study Club is for the purpose of promoting, in an unfettered way among the masses, a wider study of the Bible, the basal truths of Christianity, and the problems which enter into every man's life. It is composed of all those who join a Local Club, and take up the simple course herein outlined, barring only ordained clergymen. We have the sympathetic co-operation of the latter, but it is not considered fair to have them compete for the prizes. Sunday school teachers, Bible class scholars, and church-goers generally, may belong to this Newspaper Club, also non-churchgoers, of all shades of opinion. All such who have not joined are warmly invited to do so and to compete for the prizes.

This paper has secured the right to publish the International Sunday School Lesson questions by Rev. Dr. Linscott, which have aroused so much interest elsewhere, and they will appear weekly. One of these questions each week is to be answered in writing, and upon these answers the prizes are to be awarded.

This paper is authorized to form a Local Newspaper Bible Study Club for its readers, and guarantee to all who join and fulfill the conditions, that everything herein promised shall be faithfully carried out.

**CONDITIONS OF THE CONTEST.**  
1. Each contestant, or his or her family, must be a subscriber to this paper, (paid in advance), during the continuance of the contest, in order to qualify for membership in the International Newspaper Bible Study Club and this Local Club.

2. Each contestant in this Local Club, must answer each of the written questions, for 32 consecutive weeks, commencing for Sunday, July 5, 1908, and the answers must all be in the possession of this paper within two weeks of the close of this period, which allows two weeks grace after the close of the contest.

3. Each question must be answered separately, and the paper written on one side only. No answer must exceed two hundred words in length, and may be less. It will be a convenience if students will write their answers on letter paper, about 8 1/2 by 11 inches.

4. Each answer must have the name and address of the writer at the bottom of the answer; so it can be identified, given a number, registered, and the answers from this Local Club must be delivered to this office, and they will be collated at the close of the contest, and forwarded to headquarters for independent examination by competent examiners. The prizes will then be awarded according to the highest number of marks, won by members of The International Newspaper Bible Study Club, and prizes which may be awarded to members of this Local Club will be given out from this office.

## Suggestive Questions on the Sunday School Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

Aug. 16th, 1808  
Saul Tries to Kill David. 1. Sam. xviii: 6-16.

Golden Text—The Lord God is a sun and shield. Ps. lxxxiv: 11.

Verse 6—Are the sorrows of success, greater, or less, than the sorrows of defeat?

Which enjoy the more happiness, men who become prominent, or those who remain in obscurity?

Does God mean everybody to be prosperous?

Does faithfulness to duty always imply popularity and success?

Verse 7—What accounts for the fact that David was more popular than Saul?

Why was Saul losing his popularity?

Verse 8—Can you blame Saul for being angry when the people praised David more than they did him?

Is it a good thing to praise, to their faces, those that are praise-worthy?

Can you name a Bible character who rejoiced at the prosperity of another more than he did himself?

Is it possible for a man to rejoice when, for his sadness, God is taking away his position and giving it to another?

Does God in these days take away the positions of unfaithful men and give them to others?

Verse 9—Is it ever right to set a watch upon the actions of others in the hope of catching them in wrong-doing?

## THE PRIZES.

First Series—A gold medal to each of the first five contestants.

Second Series—A silver medal to each of the next five contestants.

Third Series—A Teacher's Bible, price \$3.50, to each of the next five contestants.

Fourth Series—The book "The Heart of Christianity," price \$1.50, to each of the next thirty-five contestants.

Fifth Series—A developed mind, an expanded imagination, a richer experience and a more profound knowledge of the Bible and of life, to all who take this course whether winning any other prize or not.

Each medal will be suitably engraved, giving the name of the winner, and for what it is awarded, and in like manner each Bible and book will be inscribed.

All who can write, and have ideas, are urged to take up these studies regardless of the degree of their education, as the papers are not valued from an educational or literary standpoint, but from the point of view of the cogency of their reasoned ideas.

## PAST QUESTIONS.

For July 5th, the Lesson text was 1 Samuel VIII, 1-22, and the verse to be answered in writing was:

Granted that God is a real Almighty person, so to speak, right at the elbow of every man, to protect him, and to supply all his needs, then what is the great defect in modern preaching, and in average Christian Experience?

For July 12th, the text was 1 Samuel X: 17, "The whole ninth and tenth chapters to be read." The special question to be answered in writing was:

When a company of godly men seek to know the mind of God, may that mind be found by a ballot or the casting of the lot, or is there a better method? (See Acts 1:23-30 XII:2)

And then the name cut off so the examiner may know it by number only.

5. Students should be careful to understand the question before answering. To do this, the lesson text must be read and especially the verse, or verses, upon which the question is based.

The verse to be answered in writing for July 26th was:

How can you justify God for commanding this wholesale slaughter of men, women, children and animals?

Verses 14-16—Is it a rule that the good and the true are the admiration of God and of good men, while they provoke the hatred or jealousy of bad men? Give your reasons. (This question is to be answered in writing by members of the club.)

Lesson for Sunday, Aug. 23rd, 1908—Friendship of David and Jonathan. 1. Sam. xx.

May one be jealous of another and still be pure in heart, or does jealousy always imply sinfulness?

Verse 10—In what sense is God the father or author of evil spirits?

When a ship springs a leak and sinks, is that in any sense an act of God?

When a bad man loses his temper, and raves, has God anything to do with it?

Is it one of the laws of God that those who give way to fierce jealousy go from bad to worse?

Verse 11—Will jealousy make a man hate his best friend?

Does the sin of jealousy make its subjects insane?

Verse 12—Is it generally so, that a man who has forsaken God, and is losing as a result, is envious of a man who is true to God and is winning?

Verse 13—What prompted Saul to make David a captain?

Did David in after life ever do a similar thing?

If a man gives way to passion or wrong-doing of any kind, will there likely be any limit to the sins he will commit either to cover up his tracks, or to accomplish his purpose?

The engagement of Miss Clara Helen Forrester, daughter of Mrs. C. H. Forrester, of Winnipeg, to Andrew K. Dyson, B.A., J. L. B., formerly of Coalgate (N. B.), is announced. The wedding will be on September 2nd.

# THE UNION ADVOCATE.

Published Every Wednesday morning by The Advocate Publishing Co. W. J. McNEIL, Manager. R. H. STUART, Editor.

A file of this paper can be seen at the office of Messrs. E. & J. Harby & Co., 30, 31 and 32, Fleet Street, London, England, free of charge; and that firm will be glad to receive news, subscriptions, and advertisements on our behalf.

NEWCASTLE, August 12th, 1908.

## ELECTRIC LIGHT CONSUMPTION.

Patron's letter to the Editor published elsewhere in this issue, is one that deserves careful reading and consideration.

On the 16th of January last the Newcastle Town Council, voted to amend the Light by-laws so that a discount of 33 1/3 per cent, should be allowed on all monthly accounts of \$1.00 and upwards, and a meter rent of fifteen cents be charged on all monthly accounts of less than \$1.00.

Alderman W. H. Belyea moved that the discount should apply to all accounts, and argued along the same lines as our correspondent; but the majority did not agree with him.

The principle under which the consumer of six kilowatts per month has to pay more than has the consumer of ten kilowatts, is certainly unsound. It undoubtedly works out to the disadvantage of the small consumers who are in the aggregate, or would be under favorable circumstances, the town's best customers. The Electric Light by-laws evidently need further amendment.

## THE CHATHAM EXHIBITION.

In another column will be seen the advertisement of the Chatham Exhibition, which will be held from September 14th to the 19th. This is prominently the exhibition of the North Shore counties, and should be, and no doubt will be patronized by all the progressive citizens of northern and eastern New Brunswick. This is not merely Chatham's show, but belongs equally to all the Miramichi and to all the sections bordering the Gulf of St. Lawrence.

The free transportation of farm exhibits is a feature that farmers should not lose sight of.

The fact that Chatham has a race track unsurpassed in New Brunswick, should draw a class of fast horses to the show.

Everything points to the exhibition being a success; and it certainly will be such if our people, determining to make it so, act together with harmony and promptitude.

## THE C. P. R. STRIKE.

The Mechanics of the Canadian Pacific Railway, numbering some six thousand, went out on strike on the fifth instant, dissatisfied with the terms of the decision given by the board of conciliation under the Lemieux Act so called.

The Arbitration board consisted of three members, one representing the Mechanical Unions; one, the C. P. R.; and one, the Government. The C. P. R. man was also a government appointee, the company having refused to have anything to do with the proceedings. The board brought in two reports, one signed by the two Government appointees, and a minority report signed by the workmen's representative. The majority report, although the company declared it unsatisfactory, was nevertheless accepted by them; but the workmen, feeling they had been duped, refused to acquiesce, even under protest, and proceeded to take the law in their own hands, the Lemieux Act, as yet, proving ineffective in preventing cessation of work.

The strikers have acted unwisely, in disobeying the award of a Government tribunal. The Government represents the whole people, whose interests are of very much greater importance than are those of either the company or its employees. There is no disgrace—no loss of dignity—in submitting to an adverse decision coming from the Government of a country where the members of parliament are elected by manhood suffrage. In such cases, workmen should remain at their employment, and endeavor to get redress by becoming more active politically. If the Government's decision does not suit them, let them take all proper means to change the government, but they should not tie up the means of transportation and thus injure thousands of innocent people.

Neither has a company the right to do as it pleases with its employees. The interests of the public are paramount, and whenever employers and employees fail to agree, it is the duty of the Government to make what arrangements it considers best for the greatest number and enforce obedience from all parties concerned.

## KENT COUNTY LIBERALS FEEL CONFIDENT

(Richibucto Review)

A call has been issued to the Liberals of Kent to meet at Barnes' Hall, Buctouche, on Monday, the seventeenth day of August to nominate a government candidate for this county at the next Dominion election. The convention will be open to all friends of the party throughout the county and it is confidently expected there will be a large attendance. The Liberals of Kent were never more united and confident than they are at the present time, and they will go into the next contest with every assurance of success. The general opinion is that the elections will be called on some time next fall, but whether held now or not until next year, it is for the party to be organized and ready. The choice of a candidate will not be a matter of much doubt if Hon. O. J. LeBlanc will consent to again lead the party. He has been one of the most earnest and attentive representatives this constituency has ever had. He has looked well after the interests of his constituents and can point with pride to the many public works he has secured for the county during his term at Ottawa. His record alone entitles him to a renewal of that confidence which the electors of the county on several previous occasions have given him.

## THE SUNDAY SUPPLEMENT.

(St. John New Freeman)

The Katzenjammer Kids, Buster Brown, Mugsy and the rest of the moral teachers of the Sunday secular press are doing splendid work in destroying parental authority and respect for age. Having successfully ridiculed the civil authorities until no one is safe from their shafts of disrespect and having, as a rule, belittled the regard which is naturally and rationally due to the teachers of religion, the Sunday supplement has nearly killed the childish regard for parents. Some one has said there are no children in America—either infants or men and women matured or maturing. Another vicious tendency suggested and taught by the comic supplement is a disregard for elementary politeness on the part of children. Only last week a boy unable to read an English paper, but with a capacity for absorbing stupid illustrations, placed a lighted paper under the bench of a working girl, who was resting in one of the New York parks set fire to her clothing and caused her death. On the Sunday previous in a comic supplement Mugsy set off a fire-cracker under somebody and made five dollars by the operation. The little foreigner saw his Sunday papers, absorbed Mugsy and is now a murderer. The Sunday supplement ought to go. They should be rebuked by decent people. They are demoralizing and degrading, and of interest only to fools or perverted minds.

## Editors' Mail.

To the Editor of The Advocate,

Dear Sir:—

Sometime ago it was decided by our town council that electricity be supplied to the residents of Newcastle at 15 cents per kilowatt hour, with a reduction of one third, provided that the consumer used a dollar's worth or more per month, and that the bill was paid before the 11th of the following month.

It was also agreed that not only would the moderate consumer receive no discount but that he be required to pay 15 cents for meter rent.

Perhaps our worthy town council did not fully consider how this rule would work. They certainly could not have realized it was an injustice to the working man with the small house or that they had put a premium upon wastefulness and extravagance.

The ordinary small house occupied by the ordinary family under ordinary circumstances will not consume during these long summer evenings more than four kilowatts per month. For these four watts he is charged 60 cents plus 15 cents, 75 cents, and no discount, while the other person, more lavish, or wasteful, burns 8 watts and pays only 30 cents. Similarly under the same rules the one using 6 watts pays \$1.05 while the consumer of 7 watts pays only 70 cents.

If we consider the case of a careful, frugal, industrious housekeeper who burns only 1 watt these months we find she is charged 30 cents or an increase of 300 per cent.

I feel sure Mr. Editor, that our town council is working for the good of all the people, and, while rightly anxious to guard against losses, did not mean to inflict any injustice against the working classes or to deprive them from the enjoyment of electric light in their homes by a prohibitive rate.

Other towns and cities are seeking to lower the cost of electricity without adding to the taxes. They know that light is an antidote to crime—a safe guard to the people. In a year or two Chicago will have the low rate of seven cents per unit, or kilowatt hour, yet showing a profit to the producers of the electricity. I only plead for a fair deal for working classes and feel sure that if our town fathers do not see their way clear to grant the one-third discount to all patrons, they will at least remove the meter tax.

Sincerely Yours,

PATRON.

## Ran Engine Into Pit.

KENORA, Friday—Yesterday morning a locomotive was run into the turntable pit here. It is claimed by one of the striking shopmen. Hostler had brought the locomotive out of the shop and it had been turned over to the engine crew who had placed it on a siding in readiness to take out an east bound train. When the engineer was absent for a few minutes in the shops getting something which he had forgotten, some one sneaked up to the engine and opened a throttle. The sliding leading to the turntable was open and the engine ran into the pit. The damage was only slight.

## Drowned in Atlantic

HALIFAX, Friday—Last night the heimen of the schooner Norumbega started a boat from the shore to board their vessel lying in stream. The boat was upset and all were thrown into the water. A passing schooner rescued five of them but Chief Probation attempted to swim ashore and was drowned. The body has not been recovered.

### LABOR ORGANIZER TALKS

Says That the N. B. Factory Inspector Is Not Doing His Duty.

W. R. Trotter, of Winnipeg, general organizer for the Trades and Labor Congress of Canada, addressed a slimly attended meeting of working men in St. John Thursday night. He bitterly denounced the Canadian Manufacturers' Association, and charged that it kept alive mushroom organizations like the National Trades and Labor Congress of Canada to oppose international unions of organized labor. He charged that the New Brunswick factory inspector was not doing his duty, and that hundreds of children were working in factories who should be sent home.

### Gave His Life For Others

LAKE HOPATCOING, N. J. Wednesday.—Charles Pfister, of New York city, was drowned in Lake Hopatcong last night, while attempting to rescue four women and two men who were on board a launch on which the gasoline tank had exploded. One of the young women in the launch jumped into the boat occupied by Pfister and a companion upsetting the boat, throwing the three persons into the water. Pfister could not swim, but the others were rescued. The occupants of the launch included Miss Louise Black, Miss Alice Black, and Miss Ethel Henderson of Paterson, and Miss May Heiser of Branchbrook, who were rescued by other boats.

### CAMPBELLTON BOARD OF TRADE

Holds Meeting and Elects Officers and Delegates.

A large and representative meeting of the Board of Trade was held in the Council chambers Friday evening, President A. G. Adams in the chair. The minutes of the last meeting were read and approved of. A large number of new members was added to the roll of the Board.

The election of officers was then in order. G. G. McKenzie was selected president; F. M. Murray, vice-president; and John T. Reid secretary treasurer.

On assuming the duties of his new office President G. G. McKenzie stated that one of the objects of the meeting was to discuss the matter of laying extra railway siding across the street at Mowat's corner. He was of the opinion that these extra crossings would make traffic in this street much more dangerous than it was at the present time. He would like to hear the opinions of other members of the Board on the subject. The matter was discussed fully by a large number and it was moved, seconded and carried that a telegram be sent to the Minister of Railways asking that the work of laying the above mentioned sidings be stopped until it could be ascertained the actual purpose for which these sidings were intended.

CONSTANTINOPLE, Wednesday.—The notorious Fehim Pasha, formerly head of the secret police, has been lynched at C. Yenishir in the Villaret of Broussa. Fehim was one of the most hated of the palace favorites. He was among the most unscrupulous and cruel and plunderers of the public. He became involved in a row with Germany about 15 months ago, and it resulted in his imprisonment. He had lately been threatened by some of his many victims and was fleeing when captured and killed.

Earl Roberts and his father spent the next hour in the most agreeable of banquets. One year of this they spent together at Pebashev. One a general of 69, the other a raw young lieutenant and just fresh from the military college. Sir Edmund Roberts, then 27, his 69th year, and his 100th square in the family tree, had the distinction of being the first son of a British peer to marry a French girl, the daughter of a Pebashev. The marriage, which took place in 1870, was a happy one. The young couple lived in London, and Sir Edmund, who was a general in the army, was killed in the Boer war in 1900.

**WHEAT TURNING OUT WELL, NO SHINGLES IN ST. JOHN**

**WINNIPEG, Saturday—The Ogilvie Flour Mills Company give the following review of the progress of the crop during the past week. The weather has been moderate and quite favorable on the whole, good showings having fallen in districts where they have been small in the filling. The cutting of wheat has begun in different localities, particularly western. The amount of cutting is increasing and towards the end of the week it should be general. Fields of fall wheat district in Southern Alberta are running good, as high as forty-five bushels per acre being reported. From the spring wheat districts reports are generally good, the crops showing a healthy and still indicate promise of a very satisfactory quantity and good milling quality. G. T. P. is rushing freight cars to the west at the rate of twenty five per day. Seventy five of the hundred locomotives are, now in the shops and others will be so in a few days.**

ST. JOHN, S. C., May 14.—The present manufacturing boom at the local mill promises to be genuine in the history of the industry in that probably no cedar shingles will ever be manufactured. This addition of affairs is due to the fact that early in the spring the mill owners decided to cut the wages of the workers by the amount of ten per cent. All the men agreed except the shingle workers, who refused to accept the reduced rate while they have the same work paid previous to 1907. The disagreement has never been settled and the shingle machines at the mill are consequently remained idle.

Probably the most remarkable phase of the strike may be found in the fact that the men obtained for certain shingles in the United States have been sold at a profit.

The history of the trade in shingles in the spring brought a record and delivered for the first time at \$1.75 per thousand. It was sold for two months previous, was sold for \$1.50; "extra" shingles for \$1.75; and the shingles were sold at \$2.25 and \$2.50.

The homesteader is required to perform the homestead duties under one of the following plans:

- (1). At least six months' residence upon and cultivation of the land in each year for three years.
- (2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
- (3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by him, must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

**THE DEATH LIST**

**AT FERNIE.**  
Pestilence Now Feared In The Burned Cities And Villages.

FERNIE, Aug. 4.—Communication with the outside world by wire and railway has been re-established and vigorous efforts are being made to bring order out of the chaos, to identify the dead and prevent the further spread of pestilence. The list of the known dead is as follows: John Cupek, engineer, Hosmer; Walter Ford aged sixty miner West Fernie; Mrs. Walter Ford, her daughter aged 8 and her son aged 2; Mrs. Turner as aged cripple; two children, names unknown; man unknown body found in ruins of Waldorf Hotel; J. Arferson, stationary engineer in Pacific Coal Company; Lena Bell, colored woman in Red Light district; two other women in same house; boy unidentified; Lane aged 30; miner; skeleton unidentified; Robert Kern, aged man; two men on track near Waldorf supposed to be lumber jacks; Scotty Miller, Michel; two railway men, Michel; several drowned in trying to swim the Elk River, but no search has been made for the bodies. It is thought that most of the men in the lumber camps are safe, but this is mostly conjecture. The loss in Fernie is estimated at two and a half millions and with lumber and timber a total of four or five millions. The insurance is about a million and a half, but many are so distraught that they do not know whether they have insurance or not.

TORONTO, Thursday.—President Lindsay of the Crows Nest Pass Coal Company, telegraphs from Fernie, B. C., today as follows:—"Fire area about thirty miles long and from two to ten wide, still burning at many places at outskirts but Hosmer, Michel and Coal Creek almost certainly safe. Fifteen hundred women and children from Michel now at Frank; 3,500 from Fernie at Cranbrook and other points but are beginning to return. No further danger at Fernie. Sixteen bodies recovered up to date. Several lumbermen found dead on line of C. N. R. and C. P. R. north of Fernie. Plenty of food and all people now under canvas. No further cause for anxiety as generosity of outside world has placed all beyond want. Loss of follows:—Crows Nest Pass Coal Company, \$1,200,000; C. P. R. \$200,000; C. N. R. \$250,000; city of Fernie not less than two millions."

FERNIE, Thursday.—Pestilence is now feared in Fernie and Cranbrook for there is an entire lack of sufficient sanitation in both places, especially in Cranbrook is the situation very serious, for two thousand women and children refugees are crowded very closely and the weather is exceedingly hot. Two new cases of smallpox developed in Fernie last night. The greatest care is being taken to isolate them. Passengers on all trains coming into Fernie are warned not to get off but every train brings some people who wish to see the ruins.

**THIRD AMONG THE NAVIES**

BERLIN Wednesday.—The Japanese navy will take third place in the navies of the world in 1911, according to tabulation made by the German Navy League in its August leaflet just out. "Notwithstanding the assertions of Japan's bad financial position," the article says, "the so-called programme of 1907 appears to provide for considerably more new construction than has been reported. From a usually well-informed quarter it is said that Japan, besides building three battleships, Aki, A and B and the four armored cruisers Kurama, Iouki and E and F has appropriated the money for additional battleships each of 20,800 tons and for five armored cruisers each of 18,500 tons. Japan has in actual service fourteen battleships, with a total tonnage of 192,400 and twelve large cruisers with a tonnage of 113,000.

**Important Marine Decision.**

QUEBEC, Wednesday.—An important decision was rendered by the marine court of enquiry here today. Captain Spain, assisted by Captains Charles Koenig and James Bain, as nautical assessors, gave judgment upon their investigations into the responsibility for the collision between the Dominion Line steamer Ottawa and the Trold some time ago. Captains Spain and Bain found the Trold responsible for the accident. Captain Koenig, on the other hand, dissented from this finding, holding that both vessels were equally to blame.

Pearl—I think the writer that lives next door is the meanest man I ever saw. He is writing an article entitled "The Clinging Temperament of Woman." Ruby—I don't see anything so terrible in that. Pearl—No, but the brute occupied a comfortable seat in a street car today and allowed me to cling by a strap for twenty blocks so he could get some atmosphere on the subject.

**A LABOR SETTLEMENT**  
Nova Scotia Steel and Coal Co. and Its Employees Come to Agreement.

SYDNEY N. S. Wednesday.—After a three weeks' session of the Conciliation Board at Sydney Mines, settlement was reached on Saturday between the Nova Scotia Steel & Coal Company and its employees.

The adjustment as agreed to by the board was submitted to the various lodges on Friday and voted favorably thereupon, and by the lodges submitted to the sub-council of the P. W. A. which also declared favorably to the acceptance of the terms. All lodges with the exception of Pre-toria No 3 declared themselves in harmony with the agreement.

The document was signed by Manager T. J. Brown on behalf of the company; by John Moffatt; J. F. McLaughlin; Ed. Gallaher; and James Dorsay on behalf of the men and by Prof. Short, and J. W. Maddin as members of the Conciliation board.

By the terms of the agreement the previous rate in Colliery No 3 is reduced as follows: Machine men, one half cent per ton; short, five cents per ton; narrow work, five cents per ton. By this means saving is effected of about \$550 a month, to which the company agrees to add \$300 per month. This total of \$850 per month, or \$10,000 per annum is devoted first to increase the rate of day laborers from \$1.38 to \$1.45 and to increase the scale of payment for fallen stone in No. 1 mine.

**MONCTON RACES.**

MONCTON, Wednesday.—The Moncton exhibition Association Co. will hold races on the speedway on the 21st and 22nd of August with the following classes:

2.22 trot; 2.25 pace; 2.17 trot; 2.20 pace, 2.14 trot, 2.17 pace, free-for-all 2.27 trot; 2.20 pace; 2.12 trot, 2.15 pace.

\$200 purses will be given in each class. Entries close with Secretary D. I. Welch on Friday Aug 14th. The programme is an attractive one, and is likely to meet with a big response.

**FALLING WALL SANK FIRE TUG**

CHICAGO, Wednesday.—The fire tug Illinois which has been working all night on the smouldering ruins of Elevators 'E' and 'F' which burned yesterday was sunk in the river by the falling of a wall of Elevator 'F'. Tons of brick fell on the deck and the tug sank with the weight. Members of the crew jumped into the river and only one man was injured.

REGINA, Thursday.—A. Thompson, of Hanley who is in the city says he has received a wire from his father Thos. Thompson of Peterboro, Ont., to the effect that his sister Mrs. W. M. Ingram and four children lost their lives in the Fernie fire.

**HINDOOS BEAT MISSIONARY**

BOMBAY, Wednesday.—A brutal assault on a woman missionary by a band of Hindoos at Pandharpur in the Poona district, indicates the growth of anti-foreign sentiment in India. Miss Steele, the woman in question, fell into the hands of the fanatics and was beaten with sticks and stones into unconsciousness.

**Prince Of Wales Through Yankee Eyes.**

(New Bedford, Mass., 'Morning Mercury')

Out of the 134 trunks that the Prince of Wales brought over from London he dug up another suit of clothes Monday, the sixth change of costume. The official programme called for an excursion into the country and the order went forth for tweed dress. The prince put on a suit of dark blue tweed, with serge sack coat, and well crossed trousers. His shoes were of black patent leather with tan tops and large pearl buttons. His gloves were so light a tan that they appeared almost white, with black stitching on the ends. His hat was a very light gray derby.

Luncheon was served under a marquee in the chateau gardens. At the table were Archbishop Begin, Mgr. Sbarretti, the apostolic delegate; Premier Laurier, the Duke of Norfolk, Sir Thomas Shaughnessy, Lord Strathcona and many church dignitaries.

The priests brought out the last four precious bottles of wine that had been bottled in the days of Archbishop Laval, nearly 300 years ago, and preserved at all this time in the seminary cellars. They offered a glass to the prince, who, to the astonishment of all, refused it.

Almost a groan went up from the assembly, for, as the prince had declined, no one else could touch the wine. During his visit the prince has been very abstemious. It is said in the military clubs that he is drinking only barley water with a little Scotch whiskey in it.

**Hamilton Man Has Too Many Wives.**

HAMILTON, Thursday.—Wm. H. McCullough, a well known member of the 91st Highlanders is accused of having two wives and two homes one in the west end of the city, the other in the extreme east end. By his first wife he had three children and by his second one. A warrant on the charge of bigamy is out for him but he has fled.

**MATCH CAUSES MUCH DAMAGE.**

WINONA, August 4.—Anton Polkowski last midnight struck a match in hunting for a leak in the gas tank in the purifying building of the Winona Gas Company and a terrific explosion followed, setting fire to the building and causing heavy damage. The city was left without gas light and it may be some days before the service is again resumed. Four windows of the building were blown out and the roof shattered. The fire was extinguished after a hard fight in offensive flames. Three men were injured, one of whom may die.

### GEORGE PETTIBONE DEAD.

Death Hastened By Long Illegal Imprisonment.

DENVER Monday—George Pettibone for years prominent in the councils of the Western Federation of Miners and who was tried and acquitted on a charge of complicity in the murder of former Governor Steunenberg, of Idaho, died at St. Joseph's Hospital tonight of the effects of an operation for cancer.

The sixty-third annual meeting of the Baptist convention of the Maritime Provinces will be opened at 10 a. m. on the morning of August 22nd at the German street Baptist church, St. John. Rev. W. N. Hutchinson, M. A., B. D., president of the convention for 1907-8, will preside. The convention has been known for the past few years and will be known this year as the United Baptist Convention of the Maritime Provinces. Upwards of 300 delegates are expected to be present and in the vicinity of 110 will be represented. Three sessions will be held each day from the 22nd to the 25th when the convention will close.

### TERRIFIC ELECTRIC STORM AT BELLEVILLE.

BELLEVILLE Wednesday—An electric storm which raged here last night was about the worst in the memory of any citizen. For fully three hours thunder and lightning was continuous and rain fell at time in torrents. A good deal of damage was done to the crops. Lightning struck the house of Geo. Rosborough on Mill Street and tore off a large piece of the roof also shattering things considerably on the inside. Rosborough was stunned by the shock and one side of his body is still numb. Mrs. Sayles, a neighbor across the street was stunned by the same shock. On the bay and lake the storm was awful. The steamer North King had to lie in the big bay and many United States passengers on board were scared nearly out of their wits. Several barns were struck and burned in the country nearby, but particulars are not obtainable.

### FERNIE IS REBUILDING.

FERNIE, Wednesday—Although it scarcely twenty four hours has elapsed since the destruction of the city the work of reconstruction is already being commenced. Temporary structures are being run up and several of the larger firms are preparing to re-open giving employment to over 150 men and many others were put to work on the construction of dwellings and stores. The search among the ruins continues and the list of dead is being constantly added to. Ferguson's Camp, three miles west of Fernie which had escaped the general destruction is now ablaze and large quantities of lumber is being destroyed. Several residences are in danger and a number of people have moved their belongings to the river for safety.

This week the eyes of all good Old-fellows are directed toward Charlottetown, P. E. I. The Grand Lodge of the I. O. O. F. is meeting at that place this year and it is expected that the largest attendance in the history of the order will be registered this session. The retiring Grand Master is W. Stetson Rogers, of Halifax. He has been most energetic during the year and the order has made more than the ten per cent gain he asked for at the conference meeting of his term. The Encampment and Rebekahs will be the first branches of the order to meet. The sessions opened at 10 a. m. yesterday, August 11th.

## C. P. R. MACHINISTS ARE ON STRIKE.

Some 6,000 Men Refuse to Accept Decision of Arbitration Board.

BOTH SIDES FIRM.

Up to Government to Effect a Settlement Before Great Damage Ensues.

MONTREAL, Wednesday—The strike order affecting the C. P. R. mechanics over the entire system was obeyed here at the Angus shops, where two thousand men laid down their tools and walked out. Everything is quiet. Advice from North Bay and Quebec state that the order was obeyed there.

MONTREAL, Wednesday—Ball Hardy of Calgary president of the Associated Mechanics of the C. P. R. stated officially today that the strike order has been issued this morning and that practically all the men in the Montreal districts were out. 'At McAdam Junction and other sections of New Brunswick the employees are out to a man.' A number of car works men at Angus shops hesitated about obeying the order. The number out is 2200.

WINNIPEG, Thursday—So far the C. P. R. has made no effort to resume operations at the shops here, but it is said they are endeavoring to get men from the South with this purpose in view. Reports from Moose Jaw, Swift Current, Medicine Hat and other joints west state that the company tried to keep the shops at these places open but bringing in gangs of Japanese from off the sections, but that their efforts failed because of lack of skilled labor among the Japanese. The strikers confidently expect the train men to come to their aid before long by notifying the company they cannot continue to take out trains which have not been properly inspected.

Reports from all points west show that the strike is being conducted everywhere in the most orderly manner.

MONTREAL, Thursday—The C. P. R. strikers in this city claim that more men are coming out and none going back, and also that some men who promised to work have refused to do so. Things are going along as usual at the Union Station. No sign at the station as yet show that a big railway strike is on.

The blacksmiths employed by the C. P. R. at West Toronto all joined in the strike this morning. There are thirty two of them.

The shops are now practically deserted and the role of strikers number about 600.

VANCOUVER, Thursday—Three hundred and fifty C. P. R. machinists here are out full strength. No detailed reports are available yet from other British Columbia cities.

WINNIPEG, Wednesday—Promptly at 10 o'clock this morning the 900 machinists employed in the C. P. R. shops quit work marking the inauguration of what may prove to be the bitterest industrial war in the history of the country and which must do incalculable damage to every important interest and every prospect of the Canadian west. J. H. McVety, secretary treasurer of the machinists union, who is in charge of the movement here stated this morning that the men were out to stay until their demands were met.

MOOSE JAW, Wednesday—Employees of the C. P. R. shops and round houses walked out at ten o'clock.

MEDICINE HAT, Wednesday—All the employees of the mechanical department of the C. P. R. quit work at ten o'clock today.

TORONTO, Wednesday—450 men in the C. P. R. shops at West Toronto struck at ten o'clock this morning in sympathy with the other strikers in other Canadian cities.

MONTREAL, Wednesday—Fifteen hundred machinists employed in the C. P. R. shops quit work at ten o'clock this morning in sympathy with the movement in the west. The officials of the telegraphers union were in secret conference this afternoon. A general strike order may be issued in sympathy with the machinists strike.

NORTH BAY, Wednesday—Two hundred machinists quit work at ten o'clock this morning. One hundred more are out at Chapleau, and reports from other divisional points say that almost without exception all machinists are out.

Dr. Carlton Elliot who was much in the newspapers during the Harry K. Thaw trial, is dead at Sabirgat, N. J. after being run down and dragged 40 feet by an automobile. Dr. Elliot was walking to the suburban station to take a train to New York when the car struck him.

## Tried To Burn Down The Town

Frank Williams of Moncton Had Fires Started In All Directions.

MONCTON, Wednesday—After leaving a trail of incendiary fires behind him Frank Williams, aged 28 years and believed to be mentally unbalanced was arrested by the police early this morning and is now in the local jail awaiting trial. While making his rounds about one o'clock this morning watchman Gouen of Builders Woodworking Co. saw flames coming from the lumber piles at the west end of the yard. As he approached it a man sprang from behind the lumber pile and fled. An alarm was given and this fire was extinguished with little damage. The man fled towards Humphrey's Mills, and a few hours later a barn owned by Mrs. Joseph Stultz sprang into flames and was burned with all its contents, loss \$400. While the barn was burning fire broke out among a big pile of sleepers piled beside the L. C. R. track to be used for double tracking. Men employed on the work were summoned and the fire was extinguished after destroying two hundred sleepers. The police had been notified of firebugs disastrous work and a patrol was sent from the city, Williams being captured.

## LORD ROBERTS ADVISES TRAINING.

All Boys Between 10 and 18 in Military Matters.

OTTAWA, Wednesday—Lord Roberts, this afternoon received the city council and South African veterans at Rideau Hall. To council presented an address. Earl Roberts made a happy speech emphasizing the importance of military training of youths between the age of 10 and 18. He commended Nova Scotia as the first to establish the cadet system in Canada and wound up with a plea for fair play in sports.

His Lordship visited the Rocklife ranges afterwards and Lady Allen Grey and Lady Violet Elliott, exhibited their prowess with rifles at the 500 yards range. The officials of the D. R. A. received the party.

## GRAND TRUNK PACIFIC RY.

Good progress Is Being Made On Construction In New Brunswick.

St. John, Aug. 5.—Gny R. Ballock, Grand Trunk Pacific contractor who has charge of the construction of the road east of Grand Falls, in the city. Mr. Ballock said that the grading of the road was progressing rapidly and was now completed for several miles below the Tobique, from the Quebec boundary and all the way from Chipman to Moncton. Under his supervision the work east of Grand Falls was finished for 20 miles. He has 1,200 men employed and they have been working three months on the contract. All the difficult cuts were opened and in the near future bridging would be commenced.

## BURGULARS IN CHATHAM.

W. L. T. Weldon's Tailor Shop Broken Into and Clothes Stolen.

Thieves broke into W. L. T. Weldon's tailoring shop Thursday night and stole \$150 to \$200 worth of suit lengths and made-up clothes. Mr. Weldon cannot at present estimate the exact amount of his loss. Entry was made through the cellar window and a hatch in the ground floor, seven boards having to be pried off to effect an entrance. The police were in the vicinity but heard no noise. Mr. Weldon has issued a warrant for the arrest of a stranger who was in the store yesterday and whom he suspects of the robbery.

The General Board of Adjustment of the International Brotherhood of Railway Employees which has been in session in Moncton for some days, was concluded Thursday morning and all the delegates returned home. The meetings were held for the purpose of arranging a wage schedule. It will take some time to put everything in shape before presenting the schedule to the management.

After the arrival of the Maritime Express at Campbellton on the 11th, a man named Quinn, a stranger in town, met two friends, also strangers there, and had a social drink with them from about 11 p. m. He says he was given knockout drops and became unconscious. When he came to himself he missed his wallet containing eleven dollars and some notes. He immediately notified Chief of Police Crawford, giving a description of the men. The chief arrested the two men, and had them placed behind the bars. The money and notes were found on them.

## "The Least Of These"

By LULU JOHNSON.

Copyrighted, 1908, by Associated Literary Press.

Betty shuddered as the heavy iron gates clanged behind her and she realized that she was actually within the prison yard. It was her first visit to a penitentiary, and though she found it not half so forbidding as she had anticipated, the atmosphere sent a chill through her whole girlish figure.

Instead of rock piles, with convicts monotonously breaking the stones, here were flower bordered walks and lawns of softest green. But for the high walls and the barred windows she might well have imagined herself in a municipal park or on a million dollar estate.

When she reached the office her basket of delicacies was consigned with others brought by loyal friends for the delectation of other convicts, but the keeper looked at her from the tag on her basket to Betty's face.

"No, 11,806 hasn't had a visitor since he came here five weeks ago," commented the man significantly. "Are you a relative?"

"No," said the girl simply. "He was just good to me when I needed help."

"He was good to lots of folks," granted the warden, "but somehow they seem to have forgotten it. He's in the hospital."

The warden made a sign to a trusty, and with fast beating heart Betty followed the man in the direction of the great gray building, in one wing of which was located the hospital.

Moreton, ex-boss of the —th district, was propped up in bed, and at sight of Bessie Wynne he smiled radiantly.

Five weeks he had lain there fighting grimly for the life that he had begun to think was hardly worth the saving, for Moreton had indeed been through the valley of political humiliation. Less than two years before it had required two husky men to guard the door of his headquarters and keep back the crowd of importunate callers who wanted financial help, influential word or perhaps just the chance to fawn upon the powerful political leader.

Moreton had been the boss of his district, ruling with a rod of iron. He had controlled the machine through sheer force of will power.

His enemies both without and within the party had fought doggedly to break his sway, but the boss had grunted his teeth the harder at each fresh attack and beaten the malcontents into submission.

But there had come an end to his rule, as to almost all one man control. The opposing party had secured the services of a political revivalist. In the interest of good government, they had explained, but the whole city knew that it was a ruse to rid the district of its dominating boss. It meant turning the district over to another clique as bad, but less experienced in municipal villainy.

And the political world had sat back and watched the warden with grim smiles. Perhaps, after all, the boss would win again. But in this they were wrong. By a mere quip of fate the wheel spun the other way.

The boss lost, and after loss of power came scandals and lawsuits. The latter took most of the fortune he had gleaned from the city, much of which he had spent on the care of those who needed it more desperately than the taxpayers from whom he had sliced it so remorselessly. In reality the boss when the blow fell could have counted his fortune only in thousands when his enemies ran it up to tens of thousands.

When he left the civil court room almost penniless he found himself face to face with criminal charges. Stole he had accepted his sentence of five years in the penitentiary. Stole he had accepted his desertion by those who had fawned upon him in prosperity and power. A child of the streets who had started carrying the water bucket for the marching club, he had become a ward heeler, a lieutenant and finally the boss without the aid of family ties or family influence. Stole he had accepted the decision of the hospital staff. He had an incurable disease. He probably would not live out his sentence.

Yet at sight of Betty Wynne's face his stoicism vanished, and after the radiant smile of welcome came a tenderness almost pathetic.

"What are you doing here, child?" he asked as he stroked the hand that clasped his. "Sing Sing's a good way for a girl to come who's only making her eight a week."

The girl laughed, but her voice was shaky.

"Just listen to the man! And I'm getting ten-right in the town. I read in the paper—about—about your being so lonesome!" The man smiled grimly. So the papers were commenting on the fact that he was a deserted as well as a deposed leader of men. "And I saw the ad. of a lawyer up here who wanted a stenographer and I came and got the place. I like it much better here than in town. And I can come to see you once a week."

Moreton, deposed boss, leaned over and looked into her face.

"You—come—up—here—to be near me?"

The girl nodded her head.

"And I've got the nicest boarding place with a wifew, and you ought to see her flower beds!"

Just then a physician in white uniform came toward them.

"You can stay only five minutes," he said without waiting for the formality

of an introduction. "I cannot have any patients unduly excited. In a few weeks we shall have him in fine trim. I hope, but we don't want our guests most upset by too much company."

Moreton's lips set in grim lines. The young doctor evidently did not know that this was his first visitor.

"Dr. Lindsay, this is one of my best friends, Miss Betty Wynne, and her coming can't hurt me. Why, say, I feel like a two-year-old right now."

Nevertheless the young doctor stood near the door, and when the five minutes were up he led Betty from the ward.

"You can come again, as often as the rules permit, but do not stay too long."

The next time he made the rounds Dr. Lindsay found Moreton oddly quiet, his fever reduced, his pulse normal.

"Doctor," he said, with a smile, "that girl's coming did me more good than all your dope. It's good to know that there's one person that hasn't forgot you."

And then the young doctor saw that something more than an organic disease was ailing for the old boss' heart.

"Daughter of an old friend?" he asked casually.

"Not much—just a kid I picked up in a tenement; took her from a sad old thing who was beating the life and spirit out of her. I turned her over to the sisters. They did the rest."

Lindsay smiled, but he understood. It was the ex-boss who had paid the sisters for the girl's care and put her through a business school and set her on her feet, saving a girlhood like his own boyhood from the slums and the gutter.

After that Moreton slowly but surely began to mend. There was no curing the disease, but there was every chance to prolong his life for years if he wanted to put up the fight. And every time that Betty Wynne came to the hospital he seemed stronger for the fight.

For a time Dr. Lindsay watched the case with purely professional interest, but gradually this feeling became distinctly personal. He generally met Betty in the reception room of the hospital, lingered near Moreton's bedside during her stay and escorted her to the entrance when she departed.

And, oddly enough, he found many excuses for sitting with Moreton and learning more about "the kid's" plucky fight for education and self support.

Before the first year of his sentence had passed the ex-boss read young Lindsay's secret, and one night after Betty had paid her usual call the two men talked it over.

"Mind you, she ain't anybody. Neither she nor I know where she sprung from. So it's up to you," said Moreton warningly and yet with loving anxiety in every word.

Young Lindsay studied the cracks in the flooring for a few seconds, and then he turned resolutely to his patient.

"She's true blue. There are not many like her, no matter what sort of blood was behind her, and I'm going to take chances if she'll have me. And, what is more, I am going down to see her to-morrow when I'm off duty."

"Is it all right, Betty?" inquired the ex-boss as he stroked her hand tenderly the next time she came. "Is it all right, little girl?"

The girl smiled into his anxious eyes. "Oh, Mr. Moreton, do you think I'm half good enough for him?"

"Mind that, will you?" inquired the invalid, as if addressing an audience; then he drew the girl close. "Let me tell you something, Betty. He wouldn't let me tell you before for fear you'd think you owed him something. He wanted you to love him for himself. See? But Dr. Lindsay's got some of the boys' secrets, and it looks like a pardon, Betty; it certainly does."

She sank on her knees beside the bed.

"Oh, that is too good to be true."

"And that ain't all, Betty. I had some shares in a gold mine; thought it was a dead one, but Lindsay he's been looking into it, and mebbe—well, just mebbe I can take you and Lindsay on a wedding trip over to Germany. Lindsay says the springs over there would do wonders for me, and Lindsay needs a change, and—well, Betty, I'd been dead by this time if it hadn't been for your coming."

He looked up to meet the shining eyes of young Dr. Lindsay.

"Say, Lindsay, ain't there something in the good book somewhere about the least of these? I want to find that verse. I'm going to learn it. I certainly am. Ah, there is so much for me to learn and so little time!"

The Bible's Good Use of Words.

The Bible as a standard for the correct use of words has been urged upon readers by Professor Lounsbury of Yale, writing in Harper's Magazine. "Make up your mind," says Professor Lounsbury, "that the Bible is a guide to be followed grammatically as much as it is morally. The language of our version belongs to the sixteenth century. It therefore naturally contains expressions which, though proper at that time, are not in accord with the common usage of our day. When it was originally translated, which was generally the relative pronoun referring to persons. Hence we say, 'Our Father which art in heaven.' More than this, the subtle distinction found in the employment of shall and will had not then become established in the language. But these do not affect the correctness of its procedure in regard to expressions still met with everywhere. In such cases accept its authority without question and conform your practice with it."

He Went.

Mr. Lingerlong—I had a queer adventure this afternoon. Miss de Muir (with a swift glance at the clock)—You mean yesterday afternoon, I presume.

## MISS PETTICOATS.

A good audience was present in the Opera House Friday night to greet the presentation by Atkinson & Thatcher's excellent company of "Miss Petticoats." The play is an exceptionally good one, and the twelve members of the company did it full justice in the acting. The leading part was taken by Miss Florienne Farr, who as "Miss Petticoats," swayed the audience to her will. The hero, as Rev. Ralph Harding, played a part that, contrary to many plays we have seen, properly upheld the honor of the consecrated ministry and showed that true dignity and heroism and true Christianity go hand in hand. The bad woman and the bad men of the play were well portrayed, and the comical actors provoked wholesome mirth only, never descending to any remarks or actions that were rude or suggestive.

The story of the play is that of a young girl who, reared in the cabin of an old whaler by her grandfather, yet became, through many brilliant and exciting incidents, a countess in her own right. Wronged by others, she plans revenge, but is saved from doing that which would ultimately ruin her life by remorse, by her clerical lover, on whose advice she forgives her fallen enemies. Her marriage with the clergyman very appropriately ends the story.
