Of the Military Situation at Glencoe Junction

How the Recent Victories Affect the Dutch-British Magnanimity to the Boers Astonishes Them.

London, Oct. 24.-The parliamentary secretary of the war office, Mr. George Wyndham, made a statement in the House of Commons yesterday, saying: "Lord Wolseley sums up the position in Natal effectively this morning as follows: In the battle of Elandslaagte, Yule, who consequently had fallen back from Dundee, and was concentrating at Glencoe Junction. In this operation we gather in the wounded and medical attendants left at Dundee. Gen. White was in position at Ladysmith, and is being reinforced from Pietermaritzburg. The enemy appears to

lowing dispatch from Gen. Sir Stewart White, commander in Natal, dated at Ladysmith camp at 4:54 today: "Gen. at Ladysmith camp, at 4:54 today; "Gen. Yule telegraphed me yesterday evening that the wounded at Dundee were doing well." This dispatch partly relieves anxiety regarding Glencoe, as the British had evidently not been attacked up to last evening.

## SOMEWHAT OMINOUS.

A dispatch from Ladysmith, Natal, dated 4:15 Sunday afternoon, has just been received. It is a literal repetition of Cape Town's Glencoe advices, and is regarded as somewhat ominous that nothing has since been received respecting the result, especially when viewed in the light of Lord Wolseley's statement that Gen. Yule's forces felt it necessary to retire from Dundee to Glencoe Junction. Gen. Yule evident-

doubtedly detach part of the force which was victorious at Elandslaagte to his assistance. Such a detachment, from the west, as Gen. Hunter, on Sat-urday, wired that the departure of the force to Elandslaagte left them with only a couple of battalions of regulars, a mounted battery and 500 Natal vol-

unteers to defend the town, which is the British military base in North Natal. Further news, therefore, is anxiously awaited.

No news has yet been received that

tends to dispel the apprehension caused by Lord Wolseley's brief summary of the situation. A Pietermartizburg dispatch says the censor permits no messages to be sent from the front. Other dispatches represent the Boers as boasting that Dundee is absolutely cut off, and assert that, despite the British victories, the situation is still uncertain. The Pretoria dispatch, giving the report of Gen. Joubert to the Government, evidently refers to the first battle at Glencoe, and the reason why Commandant Erasmus failed to come to the assistance of Commandant Meyer cannot be fathomed. Had he done so the British victory might have been still more dearly bought. It would seem that the brilliant victory at Elandslaagte was productive of no effect for the relief of Glencoe, and the reticence and brevity of Lord Wol-

seley's communications are ominous. It seems to be worded to PREPARE THE PUBLIC FOR BAD

NEWS. and it is only too likely that Gen. Yule has been compelled to abandon the position, with the wounded and sick, as his force is not sufficient to hold the four and one-half miles between Dundee and Glencoe. Probably Gen. Yule thinks he can better protect Dundee from an enemy from the northwest, by concentrating all his force at Glencoe, where they are now, 3,500 men and three batteries. In the meanwhile efforts will be made to open the railway and to get reinfo from Ladysmith.

. A BIG BOER ARMY. It is supposed Gen. Erasmus has by this time joined Gen. Joubert, their combined force amounting to some 12,-000 or 13,000; while the Free State Boers are now threatening Glencoe from the east. Sir George Stewart White has been unable to follow up his successes, and is obliged to remain at Ladysmith without being able to restore railway communication. Thus the enemy, although their original plan failed, may be fairly credited with hav-ing isolated Gen. Yule's brigade, and divided the British forces in Natal. Up to midnight the war office was be-sieged with inquiries, the heavy list of British losses causing great heart burning. It is regarded as not impossible that Gen. White may yet be compelled to concentrate all the Natal forces at Ladysmith, and await the ar-

rival of the army corps. NINE THOUSAND BOERS ATTACK-ING GLENCOE. London, Tuesday, Oct. 24.—The Daily

Telegraph has received the following from Ladysmith, dated Sunday, 2:30 p.m.: The Boers reported to be 9,000 strong and under the command of Commandant - General Joubert and President Kruger are today again attacking Glencoe. Gen. Yule. commanding our troops, has moved his camp back into a better defensive position. The Daily News published this dispatch from Ladysmith, dated Sunday night: A large force, under Command-ant-General Joubert and Commandant Vegan, opened fire on Dundee yesterday. The fire was continued today. The result is not known here.

KIMBERLY THREATENED. The Daily Mail says it understands a message was received yesterday (Monday) from Cecil Rhodes dated at Kimberley, Oct. 17, declaring in sub-stance that the inhabitants of Kimberley desired to draw the attention of the government to the need of immediately sending reinforcements there, as the town was being surrounded by increasing numbers of Transvaal Free State Boers

The Times has the following from Cape Town, dated Monday: The censors' official reports says all was well at Kimberley Sunday.

A dispatch from Pietermaritzburg, Natal, says that Lieut. Gallway, of the Natal Carbineers, reported missing, is a prisoner in the hands of the Boers. A MISAPPREHENSION.

London, Oct. 24.-Later advices show that the Glencoe camp dispatch yesterday morning telling of the attack made by the Boer forces under Gen. Lucas Meyers on the British position, referred to Friday's battle, although it was dated Oct. 22, and spoke of the fight as having coursed. fight as having occurred "Saturday." In view of this the word "another" (inserted because of the correspondent's error in referring to Saturday when he meant Friday, and owing to the dispatch announcing a renewed attack on Glencoe), should be eliminated, the phrase reading: "Enabled the British forces to score a signal success." The "renewed attack on Glencoe," was, apparently, an affair of outposts, as the government leader in the House of Commons said that the war office had no news of any serious engage-ment at Glencoe since Friday, although Lord Wolseley's statement evidently presages an attack by Com-mandant General Joubert. SITUATION GRAVE.

A dispatch to the Times from Colesburg, Cape Colony, says: The situa-tion today is grave. The Boers are 350 strong, and will be reinforced from Driekop. No defense is possible. The town guard will retire on Nasuwpoort on the appearance of the enemy. The Driekop force is estimated at 1,500 men. The report of fighting at Gien-

IMPROBABLE. The best opinions do not credit the report that the Boers are suing for peace, or that they are likely to at pre-sent, though many think the Boers will probably retreat to line defense in the mountain passes of Laing's Nek and the Drakenburg, where they have blocked the passes with great boulders and of rock blown up on either side, and where, if they so desire, they are able to hold out until the advance of Major-General Sir Redvers Buller through the Orange Free State compel them to leave the Natal side

to meet the division from the south. Cape Town, Oct. 24.-It is difficult to gauge exactly the amount of feeling excited among the Dutch by the recent British victories. On the whole, it is excellent, considering the great amount of sympathy they feel for their kinship in the Transvaal and Orange Free State. The British people receive news of each success in Natal and of the grand stand at Mafeking with the wildest enthusiasm, but the Dutch are silent. Now and then some of them who are more chagrined than the rest express themselves openly, but the general feeling is that the British successes will not compel them to face a rising in the colony. The reports of the kind treatment accorded the Boer wounded meet with unstinted admiration, bring-ing into marked relief the magnanim-ity for Great Britain—a magnanimity

which the Dutch admit they had not expected to be displayed to the Boers. A difficult problem is looming up owing to the increased race feeling aroused by the war, but indications are frequent and substantial that the mists of acrimonious discussion ing disposed by Great Britain's magnanimity and splendid toleration, tending to make the Dutch in Cape Colony proud of their British citizenship.

WHERE WAS ERASMUS? A Pretoria dispatch of the 21st says: The Transvaal government received this morning the following dispatch from Gen. Piet Kruger: "Commandant Lucas Meyer has had an engagement Lucas Meyer has had an engagement at Dundee. He made a plan of campaign with Commandant Erasmus by messenger. Erasmus, however, falled to appear. It is estimated that the British lost heavily, but owing to the mist it has been impossible to get all the details. It is reported that ten of our force were killed and 25 wounded."

A Cape Town dispatch says: The A Cape Town dispatch says: The Boer account of British losses at Mafeking is evidently a gross exaggeration, since Col. Baden-Powell's official list

shows no officer killed. TWO HUNDRED BOER PRISONERS. An official dispatch from Ladysmith says that about 200 Boer prisoners have been marched into the town. A private message from Ladysmith today says the women there are weeping and walling on the market place.
Three trains have been dispatched

from Klerksdorp to fetch the wounded from Mafeking. It is estimated there are 700 killed and wounded, and It stated at Pretoria that the British casualties are only eighteen. VERY DOUBTFUL. The correspondent of the Daily Mail at Durban, Natal, says: An official of the Bonanza mine, who has just ar-rived from Pretoria, declares that while there he heard that Col. British Success in the Armored Train Fight Confirmed.

Enemy Lost About 53 Killed and Many Wounded.

British Had Two Men Killed and Fifteen Wounded.

Unnecessary Alarm Created by Lord Wolseley's Summary of the Natal Situation.

London, Oct. 24.-News has at length been received direct from Col. Baden-Powell, dated Mafeking, Oct. 15. It confirms the statement that in the ermored train fight the British had 2 men killed and 15 wounded, including Lieut. Lord Chas. Bentinck, of the Ninth Lancers slightly wounded.

THE BOER LOSS. was estimated at 53 killed and many wounded. The latest advices from Kimberley, under date of Oct. 21, said the Boer attack was still pending, and that large Boer forces in the neighborhood had destroyed big sections of the railroad line north and south of the town. Many fugitives from neighboring villages have been imprisoned by the Boers. Several ladies, hearing their husbands had been captured, visited the Boer camp and were courteously received. Their intercession for their husbands was successful, and the reunited families have arrived at Kimberley. The prisoners report that they

UNNECESSARY ALARM. London, Oct. 24.—The war office here this morning has been attempting to explain the summary of the situation in Natal, furnished by the commander-in-chief of the forces. Field Marshal Lord Wolseley, to the House of Commons yesterday. His statement is now said to have created unnecessary alarm, and it is asserted that what the official note called Gen. Yule's "retirement," would be more accurately described as "a change of position for tactical reasons," and that the alarm for the safety of the wounded is not justified. It is further explained that the wounded could not be moved, but the fact that they had to be left to their fate while the British forces made a strategic movement to the rear shows the suspense of the public at the absence of subsequent news is simply justified and that the heavy fighting on Friday and Saturday, perhaps, is only a

were well treated.

PRELUDE TO STILL STERNER WORK.

In some quarters the view is taken cond attack of the Boers as actually occurred, and was so successful that Gen. Yule's withdrawal was imperative and urgent, to the extent of compelling him to leave his hospitals in the hands of the Boers, while the more sanguine express the opinion that Gen. Yule, far from retreating, has in reality advanced to meet the attack threatening Glencoe, leaving Dundee behind, safely sheltered from a Boer assault.

In the absence of authentic news there are a number of contradictory rumors affoat; but the most reasonabl interpretation of the various reports seems to point to some artillery practice at Glencoe Saturday and Sunday, but that there was

NO FIGHTING AT CLOSE QUART-ERS.

As. however, communications between Glencoe and Ladysmith, which were thought to have been restored by the British victory at Elandslaagte, have again been broken by the destruction of the railway bridge at Vaschbank, north of Ladysmith, and between Elandslaagte and Glencoe, the difficulties of the British commander in Natal, Gen. Sir George Stewart White, in reinforcing Glencoe, have been orously increased, and until the Brit-ish forces at Ladysmith and Glencoe are united and the main body of the Boers is broken, the

for the British. newspapers have The afternoon sharply criticised Lord Wolseley's summary of the Natal situation. They say it was a distinct resemblance to the statement of the Spanish ministry when preparing their countrymen for news of the disaster of Santiago. This, however, is probably an overstrained view. There is no denying, however, the great suspense and anxiety existing, which has been increased by the eport in circulation purporting to emaaate from official quarters, to the effect that the Boers have secured the services of 13,000 natives.

One of the most disquieting stories omes from Ladysmith. It is to the effect that an Englishman, who arriv-ed there from Dundee on Sunday evening, after escaping through the Boer lines on the previous night, reported that the enemy was then shelling the camp and town with heavy guns, while the shells of the British were unable to reach the enemy's batteries. Subsequently, the man is said to have added, the camp was shifted a mile or so, in order to be out of reach of the Boers, who were firing on the magazine in the town.

Men who have served long terms in the militia, and those who have taken courses at the military schools are now being preferred, and others, no matter now perfect physically, have very little chance of being chosen. A cause for general dissatisfaction among the men of the permanent force is that the men who have been chosen will have to be lowered in

rank. They consider it unfair that a man who has made it his life's business to be a soldier, and who has a certificate entitling him to be an in-structor, should have to go as one of the lower non-commissioned officers. A batch of Brantford men came in this morning. Among them was a Hollander, who has been but a short time in Canada, and who has served four years as a sergeant in the regular army of Holland Upon Capt. Stuart hinting that there might be a possibility of disloyalty to the Dutch in his desire to fight the Boers, he laughingly replied the evening session missed a rare treat that he could nardly be termed a in not hearing the excellent address

The public can rest satisfied that the rumors that the strike is to be called off were set in circulation to induce people to ride in the cars. The Trades and Labor Council and Division 97 have as little inclination to call the strike off as they had last June, and they will carry on the struggle until the London Street Railway Company is prepared to meet and settle the existing difficulty by arbitration.

"Drop what?" growled Scraggs. "If you're going to play on Saturday and you've got to, mind you, you got to; the team would go to pieces without you—you'll have to stop this pink tea, young lady business."

"Don't talk nonsense," said Scraggs, angrily. "I haven't been..." "That's all right. I've seen fellows with your symptoms before. > Mr. Knight, the agent, informed us that cars for freight are very hard to get at the present time, and they are in demand at the present time here judging by the amount of apples which are piled up at the station. The apple trade is somewhat duller at present, owing to increase in freight rates and lack of steamers to carry the produce across to the motherland. This means a considerable loss to the shippers, as apples were bought too high.

## WHY THEY STRUCK

Letter From the Secretary of the St. Thomas Street Railway Men in the London Free Press.

St. Thomas, Oct. 19, 1899. Gentlemen,-My attention was called to a piece in your paper yesterday, which stated that the employes of the St. Thomas street railway went on strike because two union men were discharged. We wish it to be clearly understood that this is not the case. The employes of the St. Thomas street railway went on strike: First, because seniority was not countenanced; second, because the company would not recognize the union; third, because the company would not guarantee the men ten hours per day, and for several tory arrangements were made, the company giving what the men wanted, with the exception that the discharged men were not taken back. Hoping this will straighten out affairs, and thanking you for your valuable space, I remain, yours truly, FRED E. LUMLEY, Secretary Division 121, of the A. A. of S. R. E. of A.

WHEEL. TORONTONIANS ABROAD.

New York, Oct. 24.-Archie McEachren, of Toronto, billed as the world's pursuit rider, and Otto Mayo, of Erie, Pa., put up a game battle on the board track at Pittsburg, N. J. For the first eight miles it was an easy thing for both, neither man gaining at any time more than a few wheel lengths. It took 11% miles of distance from the start for MoEachren to win.

Bobby Thompson, of Toronto, showed his usual crack form in a half-mile professional with R. S. England, of Newark. and Fred Sims, of Washing-Thompson won two heats and Sims three, the contest being the best three in five.

KENNEL FIELD TRIALS.

The North American feld Trials Club will hold their first annual meet at Ruscomb on Nov. 2. Ten entries have been received for the Derby. The trials are open to members only, and as the club was organized late, the members were not prepared, which accounts for the small entry list. Following are the Derby entries:

ATHLETICS Dutton, Oct. 24. - The high school games on Friday last were a success, although the weather was disagreealole. Only a small crowd was present. All the events were keenly con-

tested. It is estimated that there are 240,000 women domestic servants in London, and that 10,000 of these are always out of situations or changing their places.

Larger Area Than Heretofore.

London, Oct. 24.—The farmers have made good headway in field work. The sowing season for wheat is now at its height, the land after the recent rains

being fairly workable.

Not much change in the area sown Not much change in the area sown to wheat is anticipated, for, while the unusually low average of 20 shillings per quarter in the country and 28s 7d in London will discourage the farmers, the general political uneasiness and the feeling that the demand for wheat is slowly but surely overtaking the supply, will operate as a counterbalancing reason. Indeed, if November adds four serviceable weeks to the regular October sowing season, the total area may show rather an increase than the The attendance of buyers at the

market has been confined to moderate iss, and the demand in some dias has exhibited a marked pause. English wheat has received quiet support, and prices ruled decidedly in the buyers' favor where sales passed. Foreign sorts opened the week with tone of firmness. Subsequently buyers became very reticent, with rather large supplies in view, and rates depreciated from 3 pence in some

cases to 6 pence per quarter, business being carried on slowly thereat. The Mark Lane express, in its foreign reports, says: wheat market has shown no great activity. French farmers have been profiting from the recent fine weather, and have proceeded vigorously with the autumn sowing. The threshing has been somewhat interrupted in consequence. The country markets have not been very largely attended. Field work will probably be continued for another month at least, but the farmers at the same time are not anticipating any improvement in prices, as the supplies appear to be assured for some time to come. Wheat has shown rather a firmer tone at Odessa. A French authority estimates the world's wheat crop this year at 304,885,000 quarters, as compared with 340,100,000 quarters in 1898, showing a falling off of 35.215.000 quarters. Australasia is the only part of the world in which more wheat has been grown this year, the production of Australian wheat having been 6,533,000 quarters, as compared with 4,200,000 quarters in 1898. The production of Europe this year is set down at 173,-000,000 quarters, as compared with 196,-500,000 quarters in 1898."

Mr. Bradley told his people that he felt it his duty to accept the call. Friday evening a laborer named Rommel was fatally injured at Berlin. He was driving home in a junk wagon, and while crossing the Galt branch of the G. T. R. he was struck by the Galt train. The horse was killed outright, the wagon was badly damaged, and the man was thrown about 20 feet beside the road. He was picked up and brought to the station, where he died about 11:30 p.m. He leaves a wife and family in very poor circumstances. An inquest will be held.

Dear Mr. Welch:—
Referring to yours of the 4th inst., regarding your proporties, Rob Roy and Highland Chief, my candid opinion is that these claims are ALL RIGHT, and, on development, will fully meet your most sanguine expectations. Being located on the main ledge with good surface indications and out-croppings throughout the entire length of properties, there is every reason to believe that under proper development they will eventually become good paying properties. The Center Star (about 300 yards S. of Highland Chief), has lately been bought up by some Wieconsin lawyers who intend doing a lot of work on it at once.

### The Canadian Boys.

The little band who leave London comorrow may or may not see active rvice, but that is a secondary matter compared to the demonstration they afford of the gallant and patriotic spirit of Canadian youth and the unity of the British Empire. The slowness in filling up some of the units to the required strength was not due to any Back of volunteers, but to the very rigid medical examination. The eyes of the whole Empire will be on the colonial corces, and naturally comparisons will be made, so that it is necessary for Can adian honor and prestige that the Dominion should be represented by a body of men, fit to stand by the seasoned regulars of the British army, and to withstand a strange climate, and, it may be, the hardships of a strenuous campaign. The physical standard has, therefore, been wisely put very high at the risk of failing to secure the full complement. If the Lonon unit may be taken as an average, the whole contingent will be the finest and most representative military corps that ever left Canadian shores. It would be pleasant if the Canadian boys sould touch England en route to the Cape, as they would get an inspiring reception in the heart of the Empire, but that privilege may come on their return from the seat of war.

The fact that our troops will retain the status of a distinctively Canadian corps in South Afrea, has its advantage from a purely Canadian point of view, but from a military point of view the advantage is doubtful. The plan of the British war office to incorporate each Canadan unit with a British regiment would have assured the other in Asia. General Buller and the Canadian forces an equal oppor- General Otis will each have about tunity of active service with the regulars, and would greatly increase their military efficiency through the inspiration and the instructional value of living, training and fighting side by side with the real Tommy Atkins. The clamor for an independent Canadian contingent was started by a few ignoramuses for political effect, but the Dominion Government would probably have done better to have refused to listen to it and to have deferred to the British war office instructions instead of asking that the identity of the Canadian corps be preserved. However, the present arrangement is more spectacular and the colonials may still be given a place where glory

### Serious News From Natal.

The latest news from the seat of war is not reassuring. Newspaper dispatches are strictly censored, but the official reports are sufficient to cause anxiety. It is admitted that the British are greatly outnumbered, and from sheer numerical weakness have been unable to follow up their successes, but have been compelled to retire behind their defensive lines. It is even hinted that they have been obliged to evacuate Dundee in order to entrench themselves more strongly at Glencoe. But the most serious report is that the Boers have divided the British forces by planting an army between Lady- taken. The soil is the source of all smith and Glencoe. Ladysmith is the British military base on the Natal frontier. Dundee is 40 miles north of Ladysmith, and if railway communication has been cut off by the Boers, a very serious situation has been created. The enemy's plan of campaign is rapidly unfolding. The armies of the Transvaal and Orange Free State are converging and their strength will be hurled incessantly on the comparatively small British force in Natal, in the hope of crushing it before it can be reinforced. It will be at least a month before the British army corps now on the water can feach the scene of operations. In the meantime Major Yule, at Dundee, and General White, at Ladysmith, may be isolated and besieged by superior numbers. Will they be able to hold out until Buller's corps can relieve them? History answers that. It is full of the records of British glory and success under siege.

Increasing Dairy Exports. There is increased evidence this season of the successful competition of Canadian creamery tub butter with the best Danish butter and other gilt-edged products of the foreign dairy, in the British market. The statistics of shipments to Great Britain show that so far this season the shipments from Montreal have been 393,917 packages, compared with 189,644 in 1898, or an increase of over 100 per cent, while from New York they have been 102,593 packeres in 1899 compared with 60,006 in 1898, en increase of about 70 per cent. The shipments of cheese to Great Britin also show an increase which is encouraging considering the competition of butter-making and the long period dry weather. The total number of boxes shipped this season from Montreal, New York and Portland, is 1,-780,171, as-compared with 1,738,987, in 1898, or an increase of 41.184. This great improvement in dairying exports s, of course, largely due to the improved position in which the Canadian farners stand today with vastly greater knowledge of the requirements of the British market, and greatly improved siculture for meeting them; an imvement due to the energetic policy the department of agriculture, which ot only has done much for bettering the position of the farmer here, but also lost no opportunity of advertoing Canada's resources in the old entry. Encouraged by this success d choose industries special attention

is now being given to poultry, and chicken-fattening stations are being established all over the country. Already experimental shipments therefrom have been made, and the result is highly gratifying and creditable to those having the matter in hand.

The fight at Glencoe will probably be known as the battle of Boers' run.

The Irish troops led the gallant charge at Glencoe and fought likewell, fike Irishmen. What more can be said in praise of a soldier?

There are many brave British hearts to which the tidings of victory brought no joy. The sobs outside the War Office, when the names of the dead were posted, were eloquent of the agonizing side of war.

When so much attention is being given to public finances, it is surprising that so little attention has been given to the fact that the public debt last month was reduced by a million and a quarter dollars. Such was the fact, however, though it has been unaccountably overlooked by a number of enterprising papers.

sadly behind the times in this respect, but it has acted on the policy of slow but sure, and will now have the very best traction system yet developed. The trolley is going out of favor in large cities. In Washington, for instance, the surface and overhead systems are being abolished, and the subway is taking their place.

It is rather a startling coincidence that Great Britain and the United States should have armies of aboutequal size engaged in wars of conquest at the same time, the one in Africa, 60,000 troops under his command for decisive operations. The fact that the two nations, representing the highest and the freest civilization, should be doing all the fighting in the world just now, is a nice problem for the moralist. President McKinley finds a ready expanation. In his speeches he always ascribes the presence of the Americans in the Philippines to Duty, Destiny and Providence. Mr. Chamberlain is not so pious in his public utterances, and, no doubt, secretly believes the situation in South Africa is the work of the Colonial Secretary. Mark Twain has already found Scriptural warrant for British expansion. The English, he says, are mentioned in the Bible-"Blessed are the meek, for they shall

In a Fight With Mexican Guards-Five Men Killed.

Bisbee, Arizona, Oct. 23.-As a baseball excursion from Bisbee was about to leave Naco, Mexico, yesterday, a fight started between Mexican guards sult four Mexican guards were killed and one seriously wounded. An American named Ryan was instantly and and a Bisbee miner was shot through

The fight resulted from a row on the Mexican side of the line between Mexicans and Americans. The guards attempted to arrest the Americans, who retreated toward the line. Just be-fore they reached the line the guards opened fire which was promtly returned. A lively battle occurred, lasting 15 minutes. Over 50 shots were exchanged. Cowboys from this side rushed to the aid of their friends and opened fire across the line. Dan Burgess, a bye stander, was shot in the leg, and Ryan, a freighter, was riddled also lost no opportunity of adverwith bullets. Montgomery, who was with Ryan, is missing. One cowboy, Joe Rhodes, was arrested and jailed on the Mexican side of the line. Excitement is intense and a posse is forming to rescue him.

Question of Curtailing Medical School Privileges Discussed.

No Decision Reached-Matter Laid

The hospital trust met in special session yesterday afternoon and considered a petition signed by about 1,500 persons, as follows: "The undersigned ratepayers, believing it would be detrimental to the new Victoria Hospital to have the control of it under the Medical School for eight months in the year, respectfully request that your honorable body grant equal privileges to all legally qualified practitioners in the city."

Drs. Moore, Niven and Maclaren attended as a deputation, representing dressed the meeting, asking that the prayer of the petition be granted. Dr. tendent Balfour.
Dr. Moore said that he had come be-

fore the trust with proposals which, he hoped, would settle the matter, and which would show clearly that the medical profession are not antagonistic to the Medical School. He proposed to offer to the school what they were entitled to, and what was demanded, viz., that they should have charge of the hospital for seven or eight months, the rest of the profession to have charge for the remaining four or five months. In addition to that it was proposed that the trust adopt the suggestion made in the petition, so largely signed, that all patients going in, pauper of otherwise, be al-lowed the liberty of employing whom

Dr. Niven added, that from the spirit of the petition it looked as if the citizens wished that patients should have whatever physician they chose. He did not believe it would be a detriment to the hospital, but would make it a more popular institution than it had been. There were a great many people who did not sympathize with students. Dr. Moore said:

understand that the staff we suggest shall be put on." registrar of the Ontario Medical Col-lege, stating that there were two al-

ternatives, by means of which stud-ents could obtain their required eight months at the hospital. One was to give the faculty six months and the outside doctors two months of teaching, or the sixteen months required, all told, might be put in in the four years. This matter was discussed at length

by the trust. Mayor Wilson asked that the request made in the petition, that all the patients in the general ward at the hos-pital be allowed to have any physician they may choose and at any time be inserted in the bylaws. He did not think that all the favor should be shown to the Medical School, and he felt that he was only asking justice for the doctors of the city. They should be treated fairly in the matter.

Dr. Balfour, medical superintendent, took decided objection to this move, stating that to allow every patient to call for any doctor he choose and to let him come at any hour would cause great confusion, and seriously hamper the successful management of the institution. He said that there were at present 36 patients in the general ward, and if each one had his or her own physician confusion would reign. He was not speaking from either the school or the outside doctors' standpoint, but simply objected to anything that stood in the way of the smooth

running of the new hospital Mr. Purdom proposed that the following be added to clause 2 of the rules, in place of the one in the peti-"And if special reasons are assigned by any patient in the general ward, and the approval of the medical superintendent is obtained, he can select his own medical attendant, and such patient must arrange with such medical attendant for his services."
Mr. Purdom thought this would answer what was required, holding that no patient, if he gave a good reason, would be refused his own doctor.

Mayor Wilson objected to this, and wanted the matter put through as the petition asked for. He did not think the trust could afford to slight such a largely signed petition. He thought

Last summer I had company,—a man and his wife. The man's hands and face had dry, scaly sores on them, and his head was covered with the same, his hair being full of those white scales the same, his hair being full of those white scales or scabs. His wife said, "Some mornings she would find a tablespoonful or more of them in the bed." I asked him, what siled him, and he replied "that he did not know." "Why don't you cure yourself?" "I would give a hundred dollars to be cured. I have paid out a lot of money, but don't get cured," he said. Woil, I told him "I would cure him for less than that," and told him to get the Cutteura remedies and he would be cured. As he was living in Bristol, Vt., I did not see him for some time after, and then he fairly should to me: "I am cured. Cuticura has done it. The Lord bless you and Cuticura." Mrs. SARAH E. the best way of settling the matter was to put it to the people.

Dr. Maclaren came in at this junc-He said he did not think the hospital was built to keep up the Medical School. It was for the benefit of the citizens. He thought that any patient should be allowed his own physician, as very often the patient's doctor understood his constitution bet-

## THE NECESSARY SINEWS OF WAR

British Government to Raise \$40,000, 000 by Treasury Bills-Message From the Queen.

London, Oct. 24:-The chancellor of

he exchequer, Sir Michael Hicks-Beach, made a statement in the House of Commons yesterday on the question of the expenditure entailed by the Transvaal war. He said the expenditure for the year had been increased by the supplementary vote to a total of would be an increase of £3,000,000 over his estimate of the revenue. This would be a considerable contribution towards the unforeseen expenditure, and would leave about £7,000,000 to be provided. He thought there should be no addition to the fixed debt, but that the money should be raised by a temporary addition to the floating The chancellor of the exchequer, therefore, asked for power to raise £8,000,000 by treasury bills, the whole question of repayment and the question of fresh taxation to be left over to the next financial year. Sir Michael also point-ed out that the present war differed from previous ones, and that the estimates had been more carefully drawn up. No one could foresee what the total cost would be, but the British troops had met with brilliant success and the colonies were loyal. Although there might be something in today's news giving cause for anxiety, yet he saw no eason to anticipate that the campaign would not be brought to a successful conclusion within the period for which the estimates were framed. As British colonies had been invaded, he considered it to be consistent with all the laws of war if, when it was brought to a successful termination, the Transvaal taxpayer should at any rate have to bear part of the cost. The Transvaal, he continued, was wealthy in its gold fields. There had been complaints from those interested in the gold fields that there had been excessive taxation, but he believed from the best information that under a pure and honest government it would be perfectly possible for the Transvaal to bear not only the ordinary expenses of government, and of providing for the maintenance of peace and order within its territory, but also to provide a reasonable sum towards the expense of the war, with

a reduction at the same time of the taxation of the gold fields. Continuing, Sir Michael Hicks-Beach said: "If these appeal to your patriotism next April. We believe that those who have supported us in the prosecution of this lives." work will not fail us when it comes to pay the bill. If fresh taxation were introduced now it might prolong the debate and produce a division which might be entirely misunderstood abroad. I shall not take any course which will promote a division or prevent us from presenting a united front

in this crisis. Sir Henry Campbell-Bannerman, the leader of the opposition, agreed that this was not the proper time to discuss the financial question, and that it was not desirable to show a sign of dis-

Eventually the proposals of Sir Michael Hicks-Beach were agreed to by a vote of 336 to 82.

The reference of the chancellor of the exchequer to the anxiety as to the latest news apparently referred to Lord Wolseley's announcement that the British were falling back from Dundee before superior forces.

DEPARTURE OF TROOPS. The departure of the various contingents of the army corps are continued. There were striking scenes of enthusiasm wherever the troops were embarking, and the Second Royal Irish Fusiliers had an especially noteworthy send-off at Colchester, where they almost had to fight their way to the railroad station.

The sensational rumors of the designs of foreign powers inimical to British interests meet with scant cre dence. In Vienna it is reported that the British naval movements are due to a rumor that Russia, with the assent of £121,205,000, but, he added, the revenue France, is about to acquire from Spain had increased, and he expected there Ceuta or some other naval station on the African coast. Elsewhere it is stated that the movements of the French Mediterranean fleet in the neighborhood of the Levant, where it could easily be joined by the Russian Black Sea fleet, via the Straits of the Dardanelles, is occasioning suspicion. The violence of the Anglophobian language and epithets employed by the French newspapers of every shade of political opinion seems to increase with the prospect that the subjugation of the Boers may be a shorter and less formidable piece of work than the French journalists predicted.

LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and lers than half a bottle cured me; I certainly believe it saved my life. It was with reluctance that I consented to a trial, as I was reduced to such a state that I doubted the power of any remedy to do me good.

## BEST BLUE BLOOD

Now on the Way to South Africa to Fight Kruger's Burghers-Some Who Have Gone.

London, Oct. 24 .- The list of officers and aristocratic society men killed in the battle at Glencoe preludes the disappearance of many well-known names from the roll of the English nobility. The recent cable mentioning these prominent in society who are rushing to war ought now to be supplemented by further names. The change in so-cial gatherings, house parties and dancing parties has this week become more marked through the absence of noted figures. The turf is languishing from the want of its usual supporters. Every day we read names familiar to the turfites who are being speeded to active service. Among the latest de-partures are Cols. S. Paget and Fludiger, who were very much identified with the Newmarket races. vil" brigade, and for some time has

Major Pore is the best all-round man in the British service Col. Fisher, who commands the 10th Hussars, once owned Roquefort, and a finer and bolder steeplechase rider never was seen. Col. Burn-Murdock, who is at the

head of the Royal Dagoons, was the pilot of the celebrated Midshipmite, who, in his hands, did better than with any other jockey.\
Col. Chisholme, who commands the Imperial Light Horse, when in the 5th Lancers was in the front rank of race riders in India.

These are only a few of the names, but they are sufficient to show that all the riding will not be on the side of the Boers Capt. Peyton, who is to have a staff

appointment, has the reputation of being one of the finest swordsmen in the British army. Apart from the turf notables there are others. Capt. Cecil Lowther, who goes out as an adjutant, will be much missed in the ranks of amateur actors, Major North Dalrym-ple-Hamilton is the second son of Lord Stair and married a daughter of the late Sir Adolphus Liddell. Mrs. Stanley Clarke is the only son of Sir Stanley and Lady Clarke. He

## The Strange Metamorphosis.

Paul felt, as he clutched his writing materials, much as a shipwrecked mariner might be expected to do at finding in his desolate island a goodsized flag and a case of rockets. His hopes revived once more; he forgot the amarts left by the knots in the hand-berchiefs; he had a whole hour before wires in motion for his release in an

Yes, he must write several letters. First, one of his solicitors, detailing, as ing him to take measures of some sort for getting him out of his false and awkward position; one to his head clerk, to press upon him the necessity of prudence and caution in dealing the imposter; notes to Bangle and Fishwick putting them off-they should not be outraged by an introduction to a vulgar pantomime clown under his roof; and, lastly (this was an outburst he could not deny himself), common humanity, if not to the ordinary filial instincts, of his undutiful

His fingers tingled to begin. Sentences of fourning, indignant eloquence crowded confusedly into his head-he would write such letters as would carry instant conviction to the most practical and matter-of-fact minds. The pathos and dignity of his remon-ballad and history (I allude to the pathos and dignity of his remon-strances should melt even Dick's sel-dsh, callous heart.

Perhaps he overrated the power of his pen-perhaps it would have required more than mere ink to persuade his friends to disbelieve their own nearly 60 packed into the frame of a chubby urchin of 14. But, at all events pen. no one's faith was put to so hard a test-those letters were never writ-

"Don't begin to write yet, any of you," said the doctor; "I have a few words to say to you first. In most cases, and as a general rule, I think twisest to let every boy commit to (To be Continued.) paper whatever his feelings may dic-tate to him. I wish to claim no censorship over the style and diction of your letters. But there have been so many complaints lately from the parents of some of the less advanced of you, that I find myself obliged to make a change. Your father particularly, Richard Bultitude," he addressed, turning sudden-ly upon the unlucky Paul, "has complained bitterly of the slovenly tone and phrasing of your correspondence; he said, very justly, that you would disgrace a stable-boy, and, unless I could induce you to improve them, he begged that he might not be annoyed them in future."

It was by no means the least galling part of Mr. Bultitude's trials, that mer forgotten words and deede of his in his original condition were constantly turning up at critical seasons, and plunging him deeper into the morass just when he saw some prospect of gaining firm ground.

So now, he did remember that, being in a more than usually bad tem-per one day last year, he had, on receiving a sprawling, ill-spelt appli-cation from Dick for more pocketmoney, to buy fireworks for the 5th of November, written to make such complaint to the schoolmaster. He waited anxiously for the doctor's next words; he might want to read the letters before they were sent off, in which case Paul would not be displeased, for it would be an easier and less dangerous way of putting the doctor in possession of the facts.

But his complaints were to be honored by a much more effectual remedy, for it naturally piqued the doctor be told that boys instructed under his auspices wrote like stable-boys. "However," he went on, "I wish your people at home to be assured from time to time of your welfare, and, to pre-vent them from being shocked and distressed in future by the crudity of your communications, I have drawn up short form of letter for the use of the lower boys in the second form—which I shall now proceed to dictate. Of course, all boys in the first form, and all in the second above Bultitude and Jolland, will write as they please, as usual. Richard, I expect you to take particular pains to write out this reatly. Are you all ready? Very well, then. \* \* Now;" and he read out

the following letter slowly: "My dear Parents (or parent, according to circumstances) comma" (all of which several took down most industriously)-"You will be rejoiced to hear that, having arrived with safety at our destination, we have by this time fully resumed our customary regular round of earnest work, relieved and sweetened by hearty play (Have you all got hearty play down?" inquired the doctor, rather suspiciously, while Jolland observed in an under-tone that it wou. By Their Disastrous Deleat at Elandslaagte.

No Cause for Anxiety Regarding the Attack on Dundee.

BOERS STAGGERED.

Cape Town, Oct. 24.-Afternoon news has been received from Dundee to the effect that the Boer disaster at Elandslaagte staggered the Boers completely, rendering the attack upon Dundee feeble. Therefore, there is no cause

for anxiety. BRILLIANT AND COMPLETE. The London Daily Mail publishes the following description of the battle of Elandslaagte from its special correspondent, filed at Ladysmith: The bat-

tle was a brilliant, complete success. The Boers numbered from 1,200 to 2,000 and probably had about 100 killed and 150 wounded. The Gordon Highlanders, in their attack, advanced in splendid order. They were immediately saluted by a heavy fire, which told from the first. Their major fell with a bullet in his leg, but as he lay where he fell, he tit a pipe and smoked placidly, while the advance continued. As man after man dropped, supports were rushed into the firing line, our men darting from cover to cover, splendidly led and always advancing. Yet, as ridge after ridge was won, the High-landers still found a new ridge fronting them, and thus they fought their way until the final ridge was neared.

into the firing line, Manchesters, Devonshires and Light Horse, all massed, with bugles chanting the advance, bagpipes shricking and the battle a confused surge, our men swept, yelling, forward, and the position was won. Meanwhile, squadrons of lancers and dragoons lapped round the Boer left flank, catching the enemy as they retired in disorder, goring and stamping them to pleces. And the commando was not.

There was a thrilling scene yesterday at Niagara, Ont., when W. R. Rogers, D. G. Prestor and F. Stephens, three young men who will be attached to the Toronto company of the South African contingent, left for the Queen City. The streets were thronged with citizens and visitors, who gathered to give the volunteers a send-off, and a procession headed by the bugle band escorted pride in the strength and grandeur of them to the station. Mayor Slater the empire, of which this war ap-made a neat address, and the young pears to have greatly tightened the men were greeted with rousing cheers, in which a number of American soldiers, as well as members of the local military corps joined heartily. Rousing Send-Off for the Transvaal Volunteers.

All Military Organizations in the City to Take Part.

Veterans of '66 and '85 Will Be in Line-Business Will Be Suspended.

Presentation of the City's Gifts to Officers and Men to Take Place in Victoria Park.

Tomorrow all London will turn out to do honor to the gallant boys from the London district, who, at 2:10 o'clock in the afternoon start on their long journey to South Africa, to join hands with their grothers from all the lands washed by the Seven Seas in upholding the honor and the glory of the British Empire.

The departure of the troops tomorrow is the paramount thought in the minds of the citizens of London today. There are sad, fearful hearts in many homes from which loved sons are going to the war proudly and joyfully. But there is, too, a new note of pride noticeable in men's conversation pride in the strength and grandeur of the empire, of which this war ap-

bands. Mayor Wilson has proclaimed Wednescay afternoon a half-holiday, and the boys of B Company will be given a Godspeed by the citizens of London that will ring in their ears and warm their hearts till it is effaced by the joy of their welcome home again upon

their return. Every military organization in the city will take part in temorrow's de-monstration. They will assemble at the drill shed at 12:45. An escort of honor will be sent to the barracks to accompany B Company of the Canadian contingent to Victoria Park, where all will assemble at 1:30 o'clock. The ceremony, consisting of speeches and presentations, will necessarily be brief, as B Company is due to leave the Grand Trunk station by special train, at 2:10 by he effects insurance to a limit one million dollars upon the men of baggage and three passenger countries and will be profusely decorated with all ranks in the Canadan contingent and will be profusely decorated with bunting and flags. Among those who will form the escort for the South African contingent tomorrow will be the Veterans of 1866 and the Veterans of 1885. There are quite a number of the former who are still able and ready to fall in line when the occasion demands, and of the Northwest Veterans, there will probably be 50 or 60 turn out.

SOUVENIRS FROM THE CITY.

The civic committee appointed to secure suitable gifts for the members of the London company met yesterday and decided to present each man with a combination hunting knife and briar root pipe. The practical worth of the knives to the men in camp appealed to the members of the committee, and they ordered them at once. They will be handsome as well as valuable souvenirs. Campaign wrist watches for the officers have been ordered also.

The following men from Wolseley Barracks have been told off by Col. Buchan for service in South Africa: Quartermaster-Sergeant Galloway, Sergeant Bethune, Lance-Corporal Merrix and Privates Moore, Mullins, Shaw and Stevenson. Only seven were chosen, although seventeen volunteered. Quartermaster-Sergeant Galloway is the only married man from the barracks on the contingent.

Sergeants George Macbeth, George Sippi, P. Bowden (of Windsor), and Capt. Gorman (Sarnia) have been appointed provisional non-commissioned

Have you been Have you been smoking a good deal lately and feel an occasional twinge of pain round your heart. Are you short of breath, nerves GRATEFUL unhinged, sensa-tion of pins and

needles going through your arms and fingers? Better take a box or two of Milburn's Heart and Nerve Pills and get cured before things be-

come too serious. Here's what Mr. John James, of Caledonia, Ont.,

has to say about them: "I have had serious heart trouble for four years, caused by excessive use of tobacco. At times my heart would beat very rapidly and then seemed to stop beating only to commence

again with unnatural rapidity.
"This unhealthy action of my heart
caused shortness of breath, weakness and debility. I tried many medicines and spent a great deal of money but could not get any help.

Last November, however, I read of a

man, afflicted like myself, being cured by Milburn's Heart and Nerve Pills. I went to Roper's drug store and bought a box. When I had finished taking it I was so much better I bought another box and this completed the cure. My heart has not bothered me since, and I strongly recommend all sufferers from heart and nerve trouble, caused by excessive use of to-bacco, to give Milburn's Heart and Nerve

THE SEVENTH ON PARADE. The parade at the drill shed last night was large, owing doubtless to the interest awakened by the local war fervor, and it being the last opportunity to give personal farewells to the boys who are going to the front. Every company was well represented. Major Little was in command, and put the companies through some battalion movements. A short route march was made through the park, and upon re-turning to the shed Major Little told them that the regiment would go on parade at 12:45 Wednesday to take part in the procession in honor of the volunteers leaving for the Transvaal.

Farewell Dinners and Presentations Were Much in Vogue Last Evening.

Major Duncan Stuart, whose appointment to the command of the company from the London district is most popular, both in and out of military circles, was given a farewell dinner at Wolseley Barracks last night by the officers of the barracks. A number of prominent citizens were in attendance, including Col. Holmes, Col. Buchan, Lieut.-Col. Hegler (Ingersoll), Lieut.-Col. McEwen (commanding officer of the Middlesex Battalion, in which Major Stuart holds a commission), Rev. Canon Dann (chaplain of the Twenty-sixth), Mayor Wilson, Thomas Beattie, M.P., Capt. W. J. Reid, Major Cronyn, C. S. Hyman, Capt. Brown,

Lieuts. Becher and Harris entertained the officers of B company, together with some of the soldiers of the South Africa contingent, at the Palace Cafe last night. It was in the nature of a farewell to Color-Sergt. George Sippi, one of the most popular of the non-coms, in the Seventh. Host Kennedy provided an excellent spread. The occasion was a most propitious one, and while there was natural sorrow on account of losing Sergt. Sippi, this cast no gloom over the evening, and the boys needed no encouragement to vote anyone and everyone a "jolly good fellow." Some of those present were: Capt. Smith, Lieuts. Becher and Harris Sergt.-Major Gregory, Color-Sergt. Sippi, Sergts. Macbeth, Foottit, Fisher, Fonger and Booth, Corps. E. N. Han-nah, Reid, Noble and Stuart Hannah. Toasts were drunk to the Queen, the contingent, Col. Smith, Capt. Walter Smith, the veterans and the guests, and were neatly responded to. Sergt. Sippi, replying to the toast to "Our Guest," thanked the men for showing such kindness to him, assuring them of his sorrow at leaving his company and his comrades, and of his delight at being one of the Canadian contingent. He was presented, on behalf of the company, with 100 cigars and an engraved compass. Capt. Smith gave him a silver whistle. On behalf of the White Caps, of which he was a member, Sergt. George Macbeth was pre-sented with a handsome gold match

safe, suitably engraved. Between toasts, songs were sung by Victor Chamberlain and Sergt. Mac-beth. The thoroughly enjoyable even-ing was closed with "Auld Lang Syne" and "God Save the Queen."

WORTHY REPRESENTATIVES. At the Tecumseh House last night farewell dinner was tendered by Capt. Reid, Lieut. Brown and the members of D Company of the Sev-enth Fusiliers to Privates Redge, Adams, Floyd and Woodliffe, the four members of the company who will journey to South Africa with the London contingent. After the appetizing menu had been disposed of praises for the volunteers were voiced by the orators of the company.

EVIDENCES OF FRIENDSHIP. Mr Fred Evans, who joined the London Company yesterday, has spent five years with a British regiment in South Africa, and has trekked through the country in which the fighting is now taking place. Mr. Evans belonged to the Royal Medical Comps, having taken a course at Aldershot, and was on the expedition to Bechuanaland in 1884 and 1885. He was in charge of hospitals at Rourke's Drift, Zululand, and other places. Since coming to London, two years ago, Mr. Evans has made many friends here, and these, to the number of 40 or 50, gathered at the Dominion House last evening to attend a farewell dinner, tendered by Mr. John J. Cox, the proprietor of the hotel. The dining-room was tastefully decorated with flags and bunting and decorated with flags and bunting and the tables invitingly spread. During the evening Mr. Evans was the recipient of several valuable gifts. By Mr. Cox he was preented with a purse well-filled with gold, and from Mrs. Cox he received a handsome Bible. On behalf of his admirers generally, Mr. Evans was handed a beautiful gold booket set with a large diamond and Week.

## Make This Note

In your memorandum book: "'Fit-Reform' is not made to order, but is made to fit."

After all it is only a question of fit. "If that suit would only fit me I should be in the biggest kind of luck," says an occasional passer-by, "but it won't," and on he goes. If he would only come in and try on a suit he would find that he was one of five shapes: 'Regular," "slim," "short-stout," "tall-stout" or "stout," and that the suit was all of \$5 cheaper than the tailor's.

It is costly to pass by some times. Suits—\$10, \$12, \$15, \$18, \$20. Overcoats—\$10, \$12, \$15, \$18, \$20, \$25. Trousers, \$3, \$4, \$5.
