The indignation of the women of Detroit against the inflated price of potatoes is contagious, and it would appear that before many hours the women of London will take steps toward the arranging of a boycott here. In London this morning the price of potatoes has risen to \$1.25 a peck, just at the opportune moment to arouse proper indignation against it.

BORDEN EXPECTED TO PLAY SMALL PART IN **GOVERNMENT AFFAIRS**

Premier's Nervous Condition Is But Slightly Improved.

Sir Robert May Advocate an Early Federal Elec-

[Special To The Advertiser.]
Ottawa, April 15.—Sir Robert Borden will, it is expected, be back in Ottawa in about three weeks' time, but there is little chance of his assuming the active duties of office thereafter, though he may remain nominally as premier. Word received from him is to the effect that while his physical condition is improved and he is able to play his eighteen holes of golf per day, or more, without physical discomfort, his nervous condition has not improved in the same ratio. He is affilicted with insomnia, and no man so afflicted can be expected to carry on the arduous duties of the premiership.

The session will, it is said, be drawing toward a dreary end before he sets foot in the halls of Parliament. The budget will have been delivered, and the best and the worst known, according to the viewpoint with regard to the Government's present fiscal policy. The premier will nevertheless meet his followers in caucus, and will map out to them the plans of the party, which, for the time being, will most likely consist of marking time.

Want No By-Elections. The times are not propitious for by-elections and reconstruction to any considerable extent is not anticipated. elections and reconstruction to any considerable extent is not anticipated. There are those who predigt that the premier, on the other hand, having laid down a policy, may advocate early dissolution and an election, but in best-informed circles this is not thought likely. In the meantime there is talk of a Conservative convention in Ottawa or Toronto soon after the conclusion of the session. The presence among his old friends of Hon. Robert Rogers, who arrived here yesterday, lends color to the rumor. On the other hand western members of the Government have once more organized themselves, and held their first caucus under the chairmanship of Dr. Cowan of Regina and the secretaryship of H. H. Halladay of Bow River yesterday. It is apparently the intention of these members to deal with matters exclusively affecting the western provinces, including British Columbia, and to take from the new agragrian party the glory of exclusively championing the interests of the common people. Such separate caucusing cannot be expected to make entire unity in the Union camp.

The western men have decided to urge a definite decision as to the natural resources of the west, the completion of the Hudson Bay Railway, the continuation for another year of Government control of wheat marketing, and certain reductions in the tariff, accompanied by the imposition of an internal excise duty upon Canadian manu-Striking close-up photograph of King George and the Prince of Wales, taken just before the latter's trip to Australia.

Committees have been struck to consider these matters, which will be discussed further separately in other caucuses. Members from the head of the lakes, Northern Manitoba and British Columbia want a bonus on iron ore, and are likely to secure a considerable support from the other members of caucus in the demand. In fact, members generally have apparently decided that it is a case of "sauve qui peut," and every effort is being made to mend broken fences against the day when the electorate must be faced.

PRICE OF WEIGHING HAY NOT TO ADVANCE

Recommendation Filed by No. 1 Committee.

Recommendations to increase the charges for weighing farm products at the local market were filed by No. 1 committee of the city council Wednesday afternoon. James Dean, the Weigh Scales clerk, in making the recommendations, pointed out that the present scale of prices has been in vogue for more than 40 years. He thought that charges should be increased proportionately with other lines of business.

He suggested that 25 cents instead of 15 cents be charged for weighing a load of hay; that the charge for weighing straw be increased from 10 cents to 20 cents a load, and oats from 10 cents to 15 cents a load. It is estimated that this would mean an increase of \$500 in the city's yearly revenue from this source. Weigh Scales clerk, in making the rec-

SERIOUS SHORTAGE

Boston, April 15.—A serious shortage of coal for New England's railroads and of coal for New England's railroads and industries threatened today to necessitate early curtailment of all passenger schedules and a partial shutdown. Coal stocks of the railroads were said to be sufficient for only four or five days of normal operation. Industries suffered through confiscation by the railroads of commercial coal in transit, with no replenishment of their bins in sight.

CAN HE BE EVICTED?

Can a tenant be evicted from his home before he has another house to go to? This question has arisen in the St. Thomas division court, a tenant who had been ordered out having remained several days over the date set for his eviction. The landlord is, therefore, suing for another month's rent. St. Thomas tenants are now proposing an agitation to have a clause legally authorized for all lease forms to read that "the tenant cannot be evicted from made "food tastes good."

One grateful woman writes: "I earn-stly recommend all women who wish to be made new, or who are troubled with that tired feeling, to take Hood's Sarsaparilla. It wenderfully relieved me of sour stomach, distress and belching.

A well-known Justice of the Peace in Indiana says Hood's Sarsaparilla that "the tenant cannot be evicted from made "food tastes good." authorized for all lease forms to read that "the tenant cannot be evicted from his home until he can find another."

Such a case has not yet been heard in London, but Judge J. C. Judd declined to express any opinion on the matter on the ground that he has a landlord and tenant case to hear next week, and for all he knows this very question may be involved in the case which he has to hear.

FAINT AND DIZZY SPELLS **WEAKNESS AND** SHORTNESS OF BREATH

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpita tion, throbbing, irregular beating,

Many men and women become run down and worn out when otherwise they could be strong and healthy if they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills.

Mrs. C. A. S. Drake, Paris, Ont., writes: "I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, nce in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

County Engineer Charles Talbot this morning expressed a qualified opinion on the new Sarnia-Kitchener provincial highway, which Hon. F. C. Biggs has promised to adopt in principle, at least. As these latest additions were somewhat difficult to look after, because the circus was traveling all over the country, he thought it might be quite possible that a least one of them might be left in London, as an addition to the "zoological gardens." In order that the offer might not be considered an inducement toward reducing the license fee no mention was made of it until after the committee had decided what it would charge the circus for the privilege of showing here.

Gossip Says He May Remain Nominal Leader For While.

OTTAWA, April 14 .- (By the Canapronouncement by the Union Governsion, and such a pronouncement is to be made by Sir Robert Borden, according to well-informed opinion around the corridors tonight. It is also learned on reliable authority that the pronouncement will contain more than passing reference to the tariff.

Another matter of considerable import, both to the members of the Government and the country generally, and upon which a definite statement is scheduled to be made, is the leadership of the Union Government. Gossip now strongly favors the probable re-

Members to Hang On.

It is taken for granted that the Government members will stay with the policy to be announced—which, in the main, provides for a revision of the tariff, as well as other important moves—until the election comes, and until the redistribution bill has been passed, giving the West larger representation. It is understod that Hon. William Lyon Mackenzie King, leader of the Liberal party, is to tour the entire West at the close of the present session, beginning his trip about the second week in June, and going as far as Victoria. B. C., and working eastward. Eastern supporters of Union Government, however, declare that he cannot hope to gain more than half a dozen seats at the most. There is also talk of the Government followers urging a similar move on the part of the cabinet ministers, and it is likely that the plans for a tour of the West by one or more cabinet ministers, which was spoken of before the opening of the session, will be revived.

OTTAWA. April 14.—(Canadian
Press.)—In the Senate today second reading was given a bill to establish divorce courts in Ontario and Prince Edward Island. The vote on the bill was 32 for and 7 against, the seven moes being Senators Lynch-Staunton, Pope, Beaubien, Murphy, Donnelly, Chapais and Power. Senator Ross of Nova Scotla, who moved the second reading, stated that the passage of this bill would mean that every province in Canada will have a divorce court, except Quebec, and that province has power to grant separation to married persons, which is considered sufficient. Senator Murphy objected to the extension of divorce courts to Prince Edward Island, where there had been only one divorce since confederation.

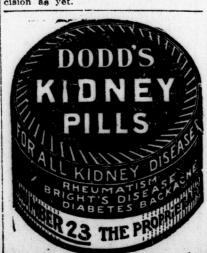

A statement by Sir James Loughedon the Government's naval policy declared that the Government had declared that the Government had been only one divorce since confederation.

A statement by Sir James Loughedon the Government would carry on the Canadian may alservice on pre-war lines, accepting the offer of the British Government would carry on the Canadian naval service on pre-war lines, accepting the offer of the British Government to replace the Niobe and the Rainbow with a light cruiser and two destroyers. Gossip now strongly favors the probable retirement of Sir Robert Borden, but the selection of a successor is still a wideopen controversy.

Borden to Carry On.

Present indications, according to talk among men who have attended all the caucuses of the Government thus far, is that Sir Robert Borden will be asked to carry on as nominal leader for the balance of the Government's term, but that a new man must be found to fill the job immediately he gives the word that he wishes to step out of active public life altogether. Gustave Evanturel, Liberal member for Prescott, drew the attention of the House to an incident which occurred in the court room at Cornwall recently. When a French-Canadian who was on trial asked for an interpreter, Mr. Justice Lennox, the presiding Judge, according to a newspaper report, read by Mr. Evanturel, said:

"The French-Canadians," declared Mr. Evanturel, "are not foreigners in the Province of Ontario."

"And never will be," added Hartley Dewart.

"French-Canadians lived in this province long before Judge Lennox was born," Mr. Evanturel continued. "This judge is certainly forgetting the constitution of the country when he so takes advantage of his official position as presiding officer of a high court."

Applause from Government, Liberal and Conservative members greeted Mr. Evanturel's remarks. The first measure to receive third reading this session was a private bill respecting the Town of Sudbury. A number of bills were also read for the third time.

BRANTFORD, April 14.—A novel idea has been presented there by Fred Westbrook, the newly-appointed member of the park commission. Mr. Westbrook would have the prisoners in the county jail work in the city playgrounds for the improvement of the same. On account of the small appropriation for park and playground purposes this year, necessary work cannot be carried on unless some new measures of economy are introduced.

It was alleged that Mr Cornish was notified to get out in proper form, but having nowhere to find shelter for himself and family he refused to leave, and did not go, and that it was several days afterwards before he found another dwelling. Mr. Stewart had purchased the house from Mrs. Flint of Michigan, and defrom Mrs. Flint of Michigan, and desired immediate possession. The case was adjourned for a further hearing. That these legal tangles may be absent without notice from the leases of dwellings tenants in St. Thomas are suggesting a petition to the Legislature to enact a law similar in generosity to the moratorium act, "that a man cannot be evicted from his home until he can find another."

THE TEACHERS' UNION.

The Commercial Federation of California issued a warning to teachers not to join unions, ecause they were "wards of the state," and should be dismissed if they did so. But they joined unions all the same for self-preservation. There has been some preaching in this country also against unions of public employees or their strikes. But a man has to look out for his

What a joy a strike of teachers would be to the boys and girls. But parents would soon be sick of it, especially those with sons and daughters preparing for examinations that lead into learned and technical professions. Homes would be turbulent, juvenile courts congested, and then the teachers would have to be paid for strike time before they would go back. "It's a queer time," as the war poet put it.

WANTED: A PEACE LEAGUE IN INDUSTRY. If nations need a league of peace with a tribunal to settle differences, the same is becoming true of the different sections of any modern industrial community. Ill-will is rapidly approaching the point of chaos. All that remains is the formation of a big salaried and professional people's union to buck both profiteers and labor strikes, such as is getting under way in Great Britain.

When the teachers, clerks, etc., are all organized and have forced up their wages about the same percentage of increase as all the other occupations have done, why not then all agree in national convention, or internationally as on, say, daylight saving, to revert to the prices and wages of 1900? If nearly all have advanced about the same, at the expense of a few widows, ministers and retired people, would it not be better to retreat and be "as you were"?

Human nature is making a lamentable exhibition of itself. Each trade and each business in turn boots wages or prices to steal a march for a moment on the others. Then all the others strike back, with interest perhaps. A few cunning or lucky people get decided advantages, all the rest lose in proportion. It is time that not merely capital and labor "got together," but the whole community in a great convention. It ought to be decided, as far as possible by general consent, whether all are to be paid equally for honest service, as Fabians have advised, or according to what scale the various types of work should be paid. Old traditional standards of wages and prices have been cast away. The time is coming for a new adjustment if possible by general agreement, in an industrial League of Peace.

The Canadian minister of railways announces a deficit of \$47,000,000 in the operation of government-owned railroads. Mean-Canadian Pacific Railway is paying its regular dividends, and appears to be jus as prosperous as ever it was. Some of the Canadian papers attribute the difference to government mismanagement as compared with private efficiency, while those that support the administration allege that the deficit is a

legacy from private ownership. One road to which the latter claim cannot be applied is the Intercolonial Railway, which has been owned by the government from the very beginning. Unfortunately for the needs of business this road was built for strategic purposes, and was accordingly constructed as far from the border as possible. The following extract from a sermon by Dr. Kelman, now the pastor of the Fifth Avenue Presbyterian Church in New York and recently of Free St. George's in Edinburgh, chimes in so well with the sermons of the Rev. Hugh Black, D.D., another Edinburgh Scotsman in New York, one of the ablest men on the continent, that we reproduce it. It shows that Scotsmen are sound to the core, where either Great Britain or humanity or democracy are concerned. They speak the truth without fear.

The following is Dr. Kelman's eloquent hope hat America will be with France and Great Britain before very long. He says, "I wonder whom God will send to us that he may do this thing."

The following is the extract:

Every age presents extremely complex and novel questions of its own, but the situation in the present day probably surpasses all that have gone before in this respect. When we turn from the church to the world of public life and affairs we find men moving in national masses either towards or away from national and international righteousness. That is the real meaning of all the great public causes of the time. They are, for the conscience of the mass of men, simply the call of providence unto a new phase of righteousness. But at once there arise obstacles in the way of such advance. All along the line of public life there is the alternative of ral as as against artificial morality. Countless expediencies and conventions are for every generation apt to be mistaken for moral laws. Public causes are obstructed by a vast scaffolding built up of smaller matters. Worldwide ethical advance is blocked by local interests, political and social.

In regard to this it is impossible to enter into anything like sufficiently full detail. One fact is apparent, and that is that there are many today who want to do right in their relations with society as citize members of the state, and who are finding it terribly difficult to know the right course or to take it. Many things of today have become "a vague conscience, an uneasiness," to men who have no light as to the practical solution of problems which nevertheless obviously have moral bearings upon character. Let us seek for clearness in some examples from various sources. All true legislation, all effective public opinion, are just the nation holding open gates of righteousness for some who are

hard pressed, seeking to enter. regards the present crisis, hearts of many of us are sore today and bleeding. Forgive me if I offend you by trespassing beyond my bounds. I am not an American. I am but a stranger among you, a British man who loves you well. But I was here three years ago at the same time when my nation and it allies were falling in tens of thousands at the storming of the gates of international righteousness. I saw those gates swing open for you also, when you entered the war. How you and your sons rushed forward into them! With what a shout, with what devotion, reckless of consequences, you sprang into the

But listen to the cry of the world, borne to you today across every ocean-the torn. bleeding, hungering, ruined world. It cries for righteousness, for international righteousness, and the end of war. It was that you sprang to, and it was for that you gave your sons. Surely every man in this continent who membered that day, turned pale when he heard the shutting of that gate but yesterday. It was the gate before which, storming it, so many of your sons have died. I am no politibut I only see the world weary to death, longing for new life, standing aghast before that closed door of yours. Yes. and I see this great nation standing there, longing to enter in and yet unable now. I only hear the cry from the heart of America,

Open unto me the gates of righteousness. That cry rises this day to the ears of God. It is a nation's demand for her share in the redemption of the world; it is her deep heart's prayer. Ah, I wonder whom God will send to us that he may do this thing. Surely every man who has passed through the fires of sacrifice, and who would follow in the steps of Christ, will vow today that by the grace of the living God that gate of righteousness shall be opened yet.

"Why, White Man!" she cried, "what why, white Man; she cried, what do you mean? What's come over you?" He looked away and then back at her. "Well," he said, a quizzical gleam creep-ing into his eyes, "who's afraid? Why shouldn't I tell once more a thing that's been written a hundred times by great-er adepts than I and never believed? It's this, Andrea Pellor. In all the centuries that blacks, Arabs and whites have padded the myriad trails of Africa, no man has ever seen or heard of an elephant dying from old age or any other natural cause."

His eyes hardened on her face. "You see?" he wifispered. "You can't believe it. Elephants never die."

"Does he—ever?" asked Andrea. "You mean does he stop here?" She nodded.

"Yes, he does," said M'sungo. wish he didn't, but he always does." "And what had you intended."

CHAPTER XIV. Before this usually calm man's astounding fanaticism, Andrea felt the same sinking in her heart that she had when first she had been led terror in the thought of a universe that shrank her present world to the propor-tions of a pin-head. "Are they all from our camp?" asked "Not one of them." answered M'sungo "We'll meet those later. You see, they knew in advance all about the hunt; these didn't."

"No. I don't see," said Andrea. But M'sungo was no longer in the mood to be drawn. Leading the march home over the back trail, he set a pace that kept Marguerite at a jogging trot Andrea protested but to no avail. M'sungo, comfortably smoking pipe after pipe, had withdrawn into one of those male havens of the mind that remain marvelously untroubled by the tongues of women. Andrea sulked. tongues of women. Andrea sulked.
When they arrived at the river, there being but three natives in their reduced following, M'sungo promptly took his place as one of the four pall-bearers to Marguerite. There was something about being carried even in part by a white man that seemed to appeal to the old man that seemed to appeal to the old rogue's sense of humor. He threw up his barrel-long head and brayed an accompaniment to his triumphal progress into the scow. No sooner was he deposited than M'sungo seized his tail and bore down on it with all his weight. The music suddenly ceased.

But Andrea's clear laughter still rang out. "Oh," she cried when she could speak, "he is clever. I didn't realize how ridiculous you were until he laughed!" She let herself go again. M'sungo slared at her.

DowlersandC.A.M. To Decide Indoor Championship

Both Have Defeat To Credit-Big Crowd Expected Out To See Final Clash.

Tonight sees the final game for the championship of the City Indoor Baseball League, between Dowlers and C. A. M. C. teams. The latter have practically led the league all through the season, and present a strong aggregation to beat. Dowlers, however, have been preducing great hell in their left. gation to beat. Dowlers, however, have been producing great ball in their last half-season appearances, and the battle should be a pretty even one.

A big crowd will turn out to see the game, as interest in the result has latterly been running high. The league, though forced to change its schedule several times, and also its make-up, has served as a medium of again bringing the great winter indoor pastime to the fore, and its work in this respect should put the game on the right road for next season.

Dawn of a better Spark Plug

NEW SPARK PLUG-all-Canadian in make and thorough workmanship-with a mighty fund of energy-a plug that will revitalize your car. That is the "M &S."

The principle is new. The feature is the ball point, which concentrates the current and intensifies the heat. That results in a big, hot spark—a spark that means complete combus-tion. The "M &S" plug is not only wonderfully efficient, but its life is of abnormal length. It is sturdily built, and once installed, gives steady, useful service, and causes no worry.

The porcelains are interchangeable; they fit all plugs. The porcelain is the finest to be had, and is chemically glazed to withstand heat. "M&S" users have no trouble with broken porcelains.

The new Overland "4" is equipped with No. 500-1/2-inch standard. Of course "M&S" plugs are all carefully tested, and we guarantee that they will give complete satisfaction to the user, or free repair or replacement.

Try a set. You will not be disappointed.

YOU WILL NOT **GET THE "FLU"**

If You Build Up Your Run-Down Condition.

Attacks People Who Are All Worn Out, Anaemic. Devitalized and Weak.

Strong People Never Get Influenza

During every epidemic it is always the weak, rundown, overworked, devitalized men, women and children who so quickly fall a prey to the ravages of disease.

When, therefore, an epidemic is prevalent why not use a little precaution and build up the tired-out, rundown, overworked, devitalized members of your family by giving them VINOL.

There is nothing that acts so quickly as a tonic reconstructor. It makes red corpuscles, enriches the blood, autckens the circulation, sharpens the appetite, promotes sound sleep, and imparts strength, vitality and energy to every organ and muscle in the body. Your physician recommends VINOL and your druggist agrees to return

your money if it fails to benefit. For all rundown, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like VINOL.

Representative Says Situation Was Misrepresented On Tuesday.

George Flood, secretary of the local Team Owners' Association, stated last night that the report in yesterday's paper recording a demand for increased pay made by a delegation of teamsters who appeared before a city council committee Tuesday night, gave a wrong impression of the situation. He asserted that the demand was for \$11 december \$120. day, not \$13 as reported, and that at present the pay was \$9.90 a day, not \$11, the amount mentioned in the re-

"Mr. Flood said the teamsters las year asked the committee for an increase to \$12, and that the committee recommended to the council that they be paid \$11. The further progress of matters, he stated, were as follows:

The council referred back the recommendation to the committee which left The council referred back the recommendation to the committee, which left the matter in the hands of the city engineer, and that official established a rate of \$9.90 a day.

Tuesday's deputation, said Mr. Flood, asked only that the previous recommendation for a rate of \$11 a day be put into effect. He added that unless this request were granted the city certainly would have trouble getting teamsters this season.

Owing to the limited capacity of the Masonic Temple, this concert is being given at a loss financially, even if the auditorium is filled to its capacity, as the enormous expense of bringing the players from outside and the necessary local expenses are out of proportion to the size of the hall. However, it has been the policy of the Musical Art Society, and of Mr. Jordan, the conductor, to have the full orchestral complement whenever a performance is given, and the works to be played will have the same instrumentation as if played by any of the large permanent symphony orchestras. YOUR LAST CHANCE TO SEE "THE END OF THE ROAD." Today is positively your last chance to see "The End of the Road," which has been drawing all London to the Majestic. In spite of the great crowds which are still thronging to see the which are still thronging to see the picture, it must be sent away to other cities to carry on its great lesson to the people of the nation.

If you have not seen "The End of the Road," do so today. The doctors, ministers and intelligent parents of the city advocate it. See for yourself what you will find at "The End of the Road."

"LIBERTY HALL."

The man of mystery arrived at the ancestral Hall of Chilworth-he came as a representative of a man whose very name caused even the dingy old walls to shake with indignation. What a cold disdainful reception he got, and how fitting they thought it was. Yet the mystery man smiled. Back of vise the constitution.

Like an evil genius he was there always, but unlike an evil genius, and unlike the role that was expected of him, he was ever ready with a word of encourage-ment, the right word at the right time-the guardian angel of a totte ing household. And his smile and his magnetic personality wove a net around those who were predjudiced against him—but the net was of silken cords.
As the weeks broadened into months he was still the man of mystery, still the unknown quantity. That is the type of role R. C. There is nothing "preachy" about Pollyanna, either. It is a joyful message sent upon its errand of good fun, clean sentiment and old lavender romance. It provides an evening's diversion at the theatre, where all the lovable characters of the famous books pass in review as living amous books pass in review as living peings, and sends one home with a smile and a sense of satisfaction that is bound o linger pleasantly in memory long after the playhouse is darkened.

LEW CODY IN "THE BELOVED CHEATER" AT THE ALLEN. Distinct novelty characterizes Lew Cody's first starring picture, "The Beloved Cheater," which is shown at the Allen today, tomorrow and Saturday. All the time-honored customs of the screen and stage are shattered, for instead of the dark, sinuous lady proving an unconquerable attraction to the ardent males, you have a man who is unable to prevent palpitations of the various feminine hearts.

There was a maid who did not believe in kissing, and she possessed the very nicest kissable lips imaginable. She became engaged to a man who foolishly promised never to kiss her. He is afraid to take the advice of his friends and atc like a cave man. Instead he begs his millionaire chum to teach his fiancee the joys of being held in strong arms and to have her lips pressed in a soul-satisfying kiss. ENGAGEMENT RINGS---

No other gift is so much cherished by the average woman as her engagement ring. And, therefore, as a tribute to the sentiment which it conveys, the quality of the diamonds should be unquestionable.

From its earliest infancy our house has accumulated a widespread reputation for "Diamonds of Quality," so that you may rest assured as to the quality if the diamond comes from Young's.

To meet a marked demand, we have made a specialty of our \$100 engagement rings. Besides carrying a large stock of unmounted stones at this price, we keep several mounted in stock. The stones in these rings are all identical, but a large and varying range of mounts may be chosen from, including several new and attractive designs, in both red and white gold.

It is a pleasure for us to show you these rings or our large stock of unmounted stones.
