

DENIES BAKERS WAR ON C. OF C. DRIVE

Doubts Federal Election Will Be Held Before November 28

MINISTRY IS HOLDING FINAL MEETING TODAY

Dissolution of Parliament Will Be Announced by Premier.

MEIGHEN AT MONTREAL

Will Make Important Address At Meeting in Quebec Metropolis.

Ottawa, Sept. 30.—Canadian Press.—The prime minister arrived back in Ottawa from the west this morning and later in the day presided at a meeting of the cabinet council. A number of important questions are down for discussion before the premier leaves for Montreal, where he is due to speak tonight. First comes the dissolution of Parliament and the date of election. While it is quite likely that the date will not be officially announced today, effort is being made to reach a decision as early as possible. It is not thought likely now that the election will be held by November 28, the date originally in view.

There is every hope, however, that the campaign will be over well ahead of Christmas. Secondly, there are the terms of the manifesto to be discussed. The draft of the manifesto, it is understood, has already been prepared, and the manifesto itself will probably be issued during the week-end. It will lay down the lines of Government policy, emphasizing protection as the dominant issue in the campaign.

While running down the T. N. O. near Cobalt last night the National train on which the premier was traveling passed through a severe electrical and rain storm. So strong was the wind that it tore one of the screen doors completely off the premier's car and flung it beside the track, but beside this no damage was done.

The premier expects to return after the Montreal meeting to clear up arrears in business. He will then proceed to the Maritime Provinces for the campaign there.

Cupid Falls Down On Job

Weddings for September Thirteen Less Than Last Year.

The Grim Reaper took the lead in the vital statistics column for September in percentage of increase, the death total showing a heavy increase over September, 1920. The total births for the past month, while exceeding the number of deaths, showed a decline of twelve, as compared with a year ago.

Cupid also fell down on the job in September, showing a decrease of thirteen this year.

The figures:

Deaths, 1921: Males 48, females 54; total 102; 1920: males 36, females 50, total 86. Births, 1921: males 52, females 56, total 108; 1920: males 61, females 52, total 120. Marriages, 1921, 99; 1920, 122.

MOORISH REBELS ARE REPULSED BY SPANISH

Madrid, Sept. 30.—Hostilities of a fairly important nature began near Melilla yesterday between Spanish and Moorish forces. Newspapers report an attack upon a Spanish fort convoy, but the rebels eventually were repulsed with heavy losses.

Moorish troops, which have been preventing the Spanish from repossessing the advanced ports of Taza, south-west of Melilla, have been driven from their positions with severe losses.

URGES DISCUSSION OF PACIFIC ISSUE

Melbourne, Australia, Sept. 30.—Discussion of limitation of armaments at the Washington conference will be impossible without raising the principal phases of the Pacific question, Premier Hughes said in the House of representatives here today, while discussing the conference.

"Talk of disarmament is idle," he added, "unless the causes of armament are removed. Frankly, I see no hope of disarmament until problems relative to the Pacific are settled."

ASK PERMISSION TO THRESH ON SUNDAYS

Regina, Sask., Sept. 30.—A large number of farmers in the province, embarrassed by the delayed threshing and the approach of winter, are applying to the department of the attorney-general for permission to thresh on Sundays for the remainder of the season, in spite of the provisions of the Lord's Day act.

MAKING EFFORTS TO EXTEND THE TARIFF

Montreal, Sept. 30.—Hon. H. H. Stevens, the new minister of trade and commerce, has notified the Canadian Pulp and Paper Association that his department is making special efforts to have the tariff on paper extended to Canada.

The effect of the law as it stands would practically be to eliminate Canadian paper from the Australian market, the preference for a handicapped impossible to overcome.

Lecture Overseas

Noted Canadian Author Who Will Begin English Tour Soon.

PROF. STEPHEN LEACOCK.

MONTREAL, Sept. 30.—The announcement that Professor Stephen Leacock, of McGill University, would deliver a series of lectures in England, commencing on October 4, has created considerable interest here and abroad.

Prof. Leacock has made a special study of post-war problems, which he will deal with during his series of addresses overseas.

Long Buried Treasure Is Unearthed

NEW YORK, Sept. 30.—Col. J. W. Homan of Staten Island was enriched today by a hoard of gold and diamonds buried during the revolutionary war by his grandfather.

Col. Homan's grandfather died without revealing the hiding-place of the treasure. It was found yesterday by workmen excavating a cellar for a new building on the old Homan estate.

ALD. WENIGE TO RUN AS AN INDEPENDENT

Wants "Best Man To Win" in Mayoralty Contest.

ALD. GEORGE A. WENIGE, who has announced his intention of entering the mayoralty race at the next municipal election, declares that politics will be eliminated from the campaign as far as he is concerned. He expressed his policy advocated by The Advertiser that politics be barred from the contest next December, and "the best man allowed to win."

"There will be no politics in the contest as far as I am concerned," he declared. "While my natural leanings in the political game are Conservative, I am not going to run as such, but am coming out on a straight independent business ticket—b-u-s-i-n-e-s-s." He reiterated, spelling it out in the above manner.

"If elected I will perform my civic duties on straight business principles," concluded Ald. Wenige.

SENATE WILL ATTACK TAX REVISION BILL

Washington, Sept. 30.—A broadside attack in the Senate on the tax revision bill was promised today by Senator Simmons of North Carolina, leader of the Democratic forces in the fight on the measure.

The senator planned not only to speak against the more outstanding provisions of the finance committee measure, but also to urge adoption of amendments offered by him yesterday, and providing among other things for repeal of the income tax on the basis of the following: an increase of 20 per cent in the maximum income surtax rate and retention of the corporation capital stock tax.

Seeking Knowledge of Hydro Progress To Aid Native Land

Because of his interest in hydro-electric development, a young French engineer has journeyed from his native country to gain an insight into electrical progress in Ontario. He presented himself to the department of the attorney-general for permission to thresh on Sundays for the remainder of the season, in spite of the provisions of the Lord's Day act.

Sully Morin is the name of this ambitious young Frenchman, who, following five years' war service with the French artillery as a lieutenant on the Nancy front, continued his academic studies at the Central School of Arts and Manufactures at Paris, and graduated as an engineer. He then accepted an appointment as a transformer expert in the Paris branch of a large United States electrical concern.

CATHOLICS TO PETITION FOR TAX DIVISION

Bishop Fallon Going To Peterboro To Launch Movement in the East.

DEMAND SCHOOL RIGHTS

Prelate Declares He Is Not Asking Favors, But Simply Justice.

Bishop Fallon is leaving this evening for Peterboro, where he will spend the week-end and take up with the people in that district the question of circulating petitions asking that separate schools be allowed their fair share of taxes.

"We are not asking for any favors from anybody," Bishop Fallon stated. "All that we want is what we are entitled to under the constitution. The continuation school act as originally introduced gave to Catholic separate schools the same rights as public schools. The intent of the legislation has been deliberately nullified by a regulation of the department."

"The matter has been neglected, but now petitions will be sent to the cities all over Ontario asking that the act be amended. We simply want our rights, and I have every hope that the Government will amend the clauses and give us our school rights. It is an important matter from the standpoint of state education. In several of our communities there are large families, and because of the existing regulations the children have to be sent a considerable distance."

"This is a costly and entirely unnecessary procedure. In the city of London we are allowed to teach fifth form work or two-year high school work for entrance. We are permitted to do this, but no provision is made for hearing the cost, and it is expensive. This is manifestly unfair, and we simply want a fair deal. It will be in the interests of education generally, and that is desirable from all standpoints."

Prepare Petitions.

The following is a copy of the petition which is to be circulated throughout the parish of the province.

To the Honorable, the Premier of Ontario, the Minister of Education, and Continued on Page Four.

CHICAGO SLAYER SINGS AS NOOSE ENDS LIFE

Carl Wanderer Favors "Oh, Pal, Why Don't You Answer Me?" At Last Moments On Earth.

Chicago, Sept. 30.—Gaily singing a popular song, Carl Wanderer, convicted of the murder of his wife, her unborn babe, and a "ragged stranger" whom he hired to stage a fake hold-up, walked to his death on the gallows at the Cook County jail with a firm step today.

Asked if he had anything to say, he replied in the affirmative, and as a noose was adjusted to his head started the song "Oh, Pal, Why Don't You Answer Me?" He was singing when the trap dropped.

The chorus to the song Wanderer chose is as follows:

"The long night through I wait for you,
O Pal, why don't you answer me?
My arms embrace an empty space,
The arms that held you tenderly;
If you can hear my prayer away up there,
O Pal, why don't you answer me?"

The crime for which Wanderer was hanged was the murder of his wife in a fake hold-up, who recently was identified as Edward J. Ryan. Wanderer, who was convicted of the murder of his wife of less than a year and her unborn child, but the jury in that case fixed his punishment at 25 years imprisonment.

Mrs. Wanderer and the "ragged stranger" were murdered in the hallway of the Wanderer apartment house in June, 1920. Mrs. Wanderer's mother, attracted by the shots, found her daughter dying and Wanderer seated astride the body of the "stranger," beating him with a pistol.

Wanderer said the stranger had attempted a hold-up in the dark hallway and shot Mrs. Wanderer, and that he in turn killed the hold-up man. Police, however, traced the stranger's pistol to an effort to fix his identity, the trail leading to Wanderer's cousin. The cousin admitted leading the weapon to Wanderer on the day of the shooting. After four days of grilling, Wanderer signed a confession.

UNION OFFICIALS TO ACCEPT JAIL TERM

Kansas Mine Workers Are Expected To Strike.

Columbus, Kas., Sept. 30.—Kansas coal miners flocked today to the little district courtroom here, where their union president, Alexander Howat, and Vice-President August Dorchy were scheduled to appear and give bond that they would call no more strikes in the Kansas fields or accept the court's alternative of six months in jail and a fine of \$500 each.

In statements made before going to court the union leaders asserted they would not give the bonds, and that they proposed to serve the sentence. The court imposed July 8 last, following their conviction on a charge of violating the criminal code of the industrial court law by calling strikes in the district.

The mine workers themselves made a holiday of the occasion, and many came in from the fields in chartered cars.

Although no official statement was forthcoming that the men proposed to strike in the event their leaders went to jail, belief was expressed by John Fleming, member of the union's district executive board, that a walkout was almost certain.

TIME TO STOP SMOKING EVIL, SAYS MRS. WRIGHT

Toronto, Sept. 29.—The Dominion president of the Women's Christian Temperance Union, Mrs. Gordon Wright of London, Ont., addressed today's session of the Women's Christian Temperance Union, speaking on the Dominion convention, and assuring the union that the best speakers should be secured. She spoke on the problem of Canadianization of the foreigners in Canada, and the importance of sending missionaries to the foreign fields. Mrs. Wright said it was time for the women must make advances in the fight against the evils of smoking among young girls and small boys as a preventive against crime and disease.

Sinn Feiners Likely To Accept Invitation To London Meeting

Dublin, Sept. 30.—Sinn Fein Ireland's answer to the British Government's invitation to a conference to be held in London on October 11, was expected to be ready for the Dail Eireann cabinet when it assembled here today. Eamonn de Valera conferred with colleagues yesterday after receiving Prime Minister Lloyd George's note, and it was generally believed that the Irish reply was virtually decided upon during the afternoon.

Satisfaction with the tone of the premier's communication, expressed by Sinn Fein leaders yesterday following receipt of the public reason to believe that the cabinet would accept the invitation to the London conference. Mr. Lloyd George made it clear that the British Government would receive the Irish delegates as spokesmen of the people they represented, but his note seemed to place no other conditions on the holding of the conference.

The very phrase quoted, however, appeared to be regarded in some quarters as giving ground for criticism. The critics of this phraseology here regarded it as ambiguous and as possibly limiting the status of the delegates.

The Dail cabinet meeting was set for 3 o'clock this afternoon. It was not expected that the reply to Mr. Lloyd George would be dispatched before 6 p.m., with the probability that it would be given out for publication until some time afterwards.

There was no special activity at the Mansion House this morning, Mr. de

Big Concessions Are Necessary

Belfast, Sept. 30.—Fear that a solution of the Irish controversy may not be reached at the London conference on October 11, should the British Government's invitation be accepted by the Sinn Fein, was expressed here today, unless someone is prepared to make a very big surrender.

The course adopted by the British Government is open to criticism on various grounds. It may be condemned as an undignified backing in courage, as a great effort. It does not necessarily indicate, however, any intention on the part of the Government to throw the crown into the melting-pot to keep company with all that has already been put there.

"In the days to come," declared the Irish News, "October 11, 1921, will be associated with the beginning of another epoch of Irish history, provided the present crisis is handled skillfully and boldly, with an honest regard for the expressions of sincerity in the desire for peace, with which the protracted correspondence has been studied all along."

REICHTAG RATIFIES TREATY

Berlin, Sept. 30.—The Reichstag today passed the bill ratifying the treaty with the United States. Only the Communists voted against the measure.

MINIMUM WAGE BOARD IN SESSION WITH EMPLOYERS

Manufacturers From Ottawa and Hamilton Also At Conference.

SESSIONS ARE PRIVATE

Employers Want Girls To Get Fair Wage and Live Decently.

Dr. J. W. MacMillan of Toronto, chairman of the minimum wage board, arrived in the city at noon and will spend this afternoon and tomorrow with the other members of the board hearing evidence in connection with the wages paid to employees in the biscuit and candy factories. Manufacturers from Ottawa and Hamilton will attend the sitting of the board here, as well as representatives of the local firms.

In outlining to The Advertiser the work the board is doing, Dr. MacMillan emphasized that the investigations are aimed to decide the point below which wages must not fall.

"Considering the short time we have been at the work," he said, "we are making very encouraging progress. It has been a source of satisfaction to see the way in which the manufacturers meet us. I have yet to meet one who does not approve of the principle of the work. They may for one reason or another not always agree with our findings, but it is significant that the employers want the girl employee to get a fair, living wage and live decently."

Has Wide Experience.

Dr. MacMillan has had the widest experience in this line of investigation of anyone in the Dominion, having commenced the first work in the province of Manitoba.

"We are not permitted," he said, "to deal with either farm work or domestic help. One thing we are doing is particularly in our investigations is the unmistakable trend not only from the rural districts to the cities, but from the small towns to the cities, and from the rural districts to the small towns. This is a big economic problem in itself, but is outside of our province as a board."

The sessions which will be held in Continued on Page Four.

STOVE EXPLOSION WRECKS KITCHEN

Thousand Dollars Damage To G. T. R. Depot Restaurant.

When a coal range in the restaurant at the local G. T. R. station exploded from an unknown cause shortly after 5 o'clock Friday morning, the interior of the large kitchen was entirely wrecked. No one was in the room at the time, and the damage, which will amount to almost \$1,000, was confined to property only.

W. Jefferson, the night porter employed by the Canada News Company, proprietors of the restaurant, left the kitchen a few seconds before the explosion occurred. He was passing the dining-room, when he heard a terrific roar. Rushing back he discovered the room in flames, while the air was choked with dust.

The huge stoves on which were cooked all the meals sold in the restaurant were blown to pieces. Only the rear portion remained, as the iron and brick from the stove box, the ovens and water tank had been scattered to all parts of the kitchen, while two big holes had been torn in the ceiling directly above the spot where the range stood. Hardly any of glass in the several windows of the room was left intact, and crockery and dishes on a table in one corner of the room were thrown to the floor and broken to bits.

Mrs. Jefferson does not know what caused the accident. He claims that he had placed some coal on the fire a few seconds before, and everything seemed apparently all right at the time. Mr. Knowles, assistant manager of the restaurant, believes the explosion was caused by overheated water, which could not get away from the tank because of blocked pipes.

The fire department extinguished the flames after 40 minutes of hard work.

CANADIAN FIRE LOSS INCREASES \$6,000,000

Ottawa, Sept. 29.—That the fire loss in Canada to the end of August was about \$6,000,000 ahead of last year, but that in Ontario the loss showed practically no increase, were two of the interesting points brought out at a meeting of the Dominion Fire Prevention Association here this morning.

LEUTENANT GOVERNOR LEAVES \$321,930 ESTATE

Toronto, Sept. 29.—The will of the late Lionel Clarke, lieutenant-governor of Ontario, who died August 29, has been filed in the surrogate court. Real and personal property total \$321,930.

The real estate, valued at \$39,600, includes the home in Toronto, a summer cottage on Georgian Bay and a small property in Palmerston.

ROB OTTAWA HOME.

Ottawa, Sept. 30.—Second story artists broke into the apartment of Lionel C. Lewis, Metcalfe street, early in the week, during the absence of the family, and stole a roll of bills amounting to \$115, according to a report received by the city police last night. Lewis and his family were out of town Monday and Tuesday, and the robbery took place during that period.

Social Problems and Church Union Before Anglican Synod

Hamilton, Sept. 30.—When the general synod—the great ecclesiastical parliament of the Church of England in Canada—opens on Wednesday morning next its synod, which will last for twelve days, this city will be the meeting place for not only the dignitaries of the church in the Dominion, but also for many from faraway charges. There will be, in all, some 350 representatives, including the House of Bishops of the church in Canada; bishops whose episcopates are in foreign countries; clergy-

Liberals' Choice

Former Minister Without Portfolio In Union Government to Run Again.

HON. A. K. MACLEAN.

HALIFAX, Sept. 29.—With the selection on Monday of Hon. A. K. MacLean as the Liberal standard-bearer, the campaign here has been launched by the Reform party. Meetings are to be held in all parts of the ridings, at which the former Government minister will speak.

LABOR AND U. F. O. MAY UNITE FORCES

Will Confer at the Masonic Temple Saturday.

London Labor will be represented at the East Middlesex U. F. O. convention at the Masonic Temple Saturday at 1 p.m. Twenty-four delegates have been selected to attend, while a committee will confer during the afternoon with the U. F. O. executive with a view toward forming a permanent alliance between the two parties.

Dr. Hugh A. Stevenson, M. L. A. for London, declares he will also be in attendance.

At the next Labor convention in the city on October 28 it is fully expected that a charter will have arrived for the local branch of the Canadian Labor party. The local body will be known as the London Labor party, and the membership will include trades unions, co-operative societies, 14 minor organizations and all others who subscribe to the constitution of the party.

At the last regular meeting of the Labor Representation Committee, the delegates were accepted from all the officials, and with the inauguration of Continued on Page Three.

SPORTSMEN CAN SHOOT WOODCOCK

For the first time in the history of the province, declares Dr. Hugh A. Stevenson, M. L. A. for London, sportsmen of Ontario can shoot the woodcock.

The member for London explains that during the last session of the House an amendment to the game act included this bird, setting the open season September 15 to October 15 in former years, hunters say, the woodcock, which is abundant in Ontario, drifted south toward the end of October, and the American sportsmen reaped the benefit. It appears that there is no restriction against shooting the woodcock over on the other side of the boundary line.

Dr. Stevenson states that following receipt of certain information from the Ontario Game and Fish Commission, he will call a meeting of the Western Ontario sportsmen to discuss other matters of importance to them relating to the game laws.

BRIGHTON NAILS RELIABILITY OF PETITION STORY

Explains Reasons for Attitude of Bread-Makers Toward Chamber.

LAUDS AIMS OF BODY

Secretary Philip Invites Bakers To Take Hand in Coming Election.

Alderman B. F. Brighton, speaking for the bakers of this city Friday noon, absolutely denied that the bread-makers of London had refused as a body to join the local Chamber of Commerce or that a secret petition calling for such a course had been circulated among them.

A claim to this effect was made by Ald. John Bridge, president of the Chamber of Commerce, at a dinner given in the Tecumseh House Thursday night.

"I do not doubt that all the bakers of the city have refused to join," declared Alderman Brighton, "but I can assure you that they did not take the step because of any agreement. The bakers had a meeting recently, but although the attitude of the Chamber of Commerce was discussed, we did not, as an organization, decide against joining."

Resented "Knocking."

"The action was taken by the bakers independently of one another, because they felt that the Chamber of Commerce had 'knocked' them."

Every one of them feels that the organization does a great deal of good for the city, and that undoubtedly the welfare of London is greatly on its success, but while the bakers are anxious to help the city all they can, they feel that they must consider their own welfare as well. For this reason they will not join an organization which had singled them out for attack."

The attack to which Mr. Brighton referred was the claim made by Ald. John Bridge a few weeks ago that bread was being sold at an abnormally high price in London, and that it could be sold with a profit at ten cents a loaf. To prove his statements, Ald. Bridge has since started a bread factory, which is operating in competition with the bakers.

The breadmakers of London, according to Ald. Brighton, are quite convinced that Ald. Bridge was speaking as president of the Chamber of Commerce when he made the charge, and that his attack was sanctioned by that organization.

Sees Misunderstanding.

Secretary Gordon Philip of the Chamber of Commerce claims that the bakers have taken the attitude purely through a misunderstanding. At no time did the Chamber of Commerce ever sanction an attack, he said. The report in a local paper to the effect that Ald. Bridge was speaking as an official of the organization, he said, was a gross misstatement by orders of the directors, he asserted.

"The Chamber of Commerce has no quarrel with the bakers, and it is unfortunate that the bakers have attacked them," Mr. Philip continued. "At no time have the bakers, or any of their affairs been discussed in director or committee meeting. It is certain that we have never had a quarrel with them. Ald. Bridge made those charges, he spoke only as a citizen and not as an official of this organization."

Mr. Philip said that the attitude of the bakers was a few weeks ago, through a misunderstanding, that the Chamber of Commerce ever sanctioned an attack, he said. The report in a local paper to the effect that Ald. Bridge was speaking as an official of the organization, he said, was a gross misstatement by orders of the directors, he asserted.

Ald. Brighton stated that the bakers were probably waiting to see what happened at the elections before they would reconsider their stand. There is a possibility that some of the bakers would join the organization after that time.

NEW KYMOGRAPH FOR WESTERN UNIVERSITY

Contractions of Heart Recorded On Surface of Record.

One of the latest and most valued addition to the equipment and apparatus received at Western University Medical school is the Brody Kymograph or wave writer, which is believed to be the most modern instrument of this type in North America. It will be utilized in the physiological laboratories and, while the kymograph is not new to Western, every student operating one during the second year and third year of his medical course, the latest addition is very much improved and greater in size.

The kymograph consists of a machine with a powerful spring, which upon being wound up, causes an upright rod to rotate. When a cylinder of metal is placed on this rod and the apparatus is in operation the former is made to revolve. A piece of glossed paper is affixed to the cylinder or drum, and then smoked over a gas flame, so that the latter being deposited on the glossy surface.

Sends Shocks Into Muscles.
For laboratory experiments at the university, sections of living mammalian muscles are attached to the end of a lever by means of a bent pin. The free end of the lever possesses a pointed piece of paraffin or a bristle, and this is barely allowed to touch the smoked over a gas flame, so that in rotation electric shocks are sent into the muscles, and the resulting contractions are recorded accurately on the smoked surface.

When the record is complete the paper is removed from the drum, dipped in shellac, and upon drying becomes a permanent record. In addition to muscles, contraction blood pressure of mammals may be recorded, both normal and under the effect of drugs, the lever being connected with an artery. All such experiments are performed upon completely anesthetized specimens. The new apparatus was purchased in England, costing \$500.

Used for Research.
Dr. F. R. Miller, chief of the department of physiology at the Medical School, states that the new instrument will be utilized to pursue research work on that portion of the brain which is concerned with muscular action, and which is believed to be the seat of consciousness. Records of experiments performed here, as preserved permanently with the aid of the new kymograph, will be submitted to the foremost physiologists and experts of the United States and British Isles, and following discussions on same, if any new features in research are revealed they will be announced to the medical world.

As it is necessary to connect the heart, an artery, or muscle sections directly with levers for recording on the drum, it is pointed out that it is impossible to employ human beings for such work. However, results of experiments conducted on mammals, the physiological functions of which are similar to man, will prove almost equally as suitable, and it is hoped will assist in solving many mysteries of this branch of science.

BUILDING FIGURES

TOTAL \$2,044,645

September Statistics Show
118 Permits Aggregating
\$171,035.

Building statistics to the end of September, 1921, show the largest total for any similar period in the history of the city, the figures being \$2,044,645 for 118 permits. The previous high mark for the first nine months was made in 1919, when the total reached \$1,735,885. The total permits issued for September were 118, value \$171,035.

Home building in the city is on the jump. September saw permits taken out for the erection of 23 new homes, with a total value of \$76,825. Building Inspector Piper states that home building is rapidly getting back to its pre-war basis.

The Salvation Army is going to remodel its brick dwelling on Emory street and turn it into a children's home. The cost of the contemplated changes will be \$9,000, and will include among other things a new veranda and new plumbing.

Lewis Girard, Forward avenue, has taken out a permit to erect a new home. He is building with the aid of the housing commission associate editor of the approved some time ago. The house will be a brick veneer and cost \$2,500.

St. Peter's Cathedral congregation is spending \$2,000 on re-roofing and repairs. The collection, including the P. B. Kilbourne, Orchard street, will erect a new dwelling to cost \$2,500.

Minor permits include A. Cusler, 311 Full Mall street, 12x18 pool shed, cost \$100; W. H. Weston, 64 Stanley street, stucco a frame dwelling, \$250; R. Neely, 224 Emory street, open rooms in attic of home, \$500.

LABOR AND U. F. O. MAY UNITE FORCES

The new body the L. R. C. automatically dissolves.

The following provisional officers were elected: President, John Colbert, vice-president, Arthur Moir; treasurer, Frank McKay; secretary, W. H. Stewart.

Upon receipt of the charter it is intended that permanent officers be selected, and definite preparations will be made for entering the federal fight in real earnest.

Although waited upon by three different delegations this week, L. B. Whaley, E. S. A., associate editor of the "East Middlesex U. F. O.," and A. K. Sadler, one of the influential farmers, he declared: "I can't see my way clear. I have been approached before and have given the matter careful consideration. I have since decided definitely not to let my name stand."

It is expected that R. H. Halbert, M. L. A., and one of the U. F. O. organizers, will speak at Saturday's meeting.

**SELECT ST. THOMAS FOR
COUNTY HEARING, OCT. 24**

J. M. McEvoy, who is looking after the interests of the consumers of natural gas in several of the municipalities of this district, stated today that Referee Henderson has set October 24 as the date for hearing evidence for the district of East and West Elgin and for Middlesex. The hearing will take place at St. Thomas.

A hearing has been arranged for the county of Haldimand at Cayuga on October 21.

"The referee states very emphatically," said Mr. McEvoy, "that it is up to the municipalities to present evidence regarding rates. There has been too much delay and hanging back and the making of general complaints without substantiating evidence. The referee wants evidence in order that he may be able to decide the rates."

Canada a Beautiful Land.
"I think Canada is a very beautiful country," he declared, "particularly the St. Lawrence River. I had always heard of it, and am not disappointed. All the Canadian people are so nice, and my wife and myself have been so well received. I am sure that I will like Canada."

"I am willing to start in as a laborer in hydro-electric work. I understand that there are many emigrants who cannot speak English, so anxious, and will know that I am not the only one on the job who does not know much. When I have obtained experience I hope to return to France and demonstrate some of the ideas I have learned in Canada."

"France has to develop her electrical resources to conserve the supply of coal, which was depleted so much during the war. I was in Montreal and Quebec for a short time, and it was a great relief to meet ordinary people speaking my language. It is not much different than our French, except that I am a little more used to that used in some of our provinces."

Delighted With Reception.
Monsieur and Madame Morin are residing with friends in this city, but hope to settle down in a home of their own somewhere in Ontario as soon as possible. Mr. Buchanan invited the young engineer to inspect London's various electrical departments, including the Hydro Shop, tidestreet pumping station, and city transformer stations.

The latter expressed delight at what he saw, and declared that he hoped his reception in Toronto will be equally as cordial as that accorded him here. He leaves for the Queen City Saturday.

LONDON WEST MUST WAIT FOR PUBLIC SCHOOL

Board of Education Will Not Promise New Building At Present.

OTHER NEEDS GREATER

Residents of West London are anxious to have the Empress avenue public school replaced by a more modern structure, but although they have repeatedly requested this improvement during the past few years there has been no definite promise of action forthcoming on the part of the board of education. While admitting that a new public school is necessary in this part of the city, the trustees point out that other districts are more in need of public school accommodation and that until these wants are filled West Londoners must wait.

The best action available at present is the information that a new public school in West London will likely be included in the 1934 building program of the board of education, but there is an element of doubt about it. Empress avenue public school is one of the most antiquated of the institutions in the city, and although repairs have been completed at various times, it is still far from an ideal building. In fact, contractors are of the opinion that further repairs would be a wasteful expenditure and that a new school is the only solution to the problem.

Depends on Needs. "It all depends upon the needs of the case," declared C. B. Edwards, senior inspector of public schools, when the question of a new school was broached to him by The Advertiser. "About eight years ago, a new heating system was installed in the Empress Avenue School. It is not crowded like some other public schools of the city."

"As a matter of fact we are accommodating 15 public school pupils from London Township at Empress Avenue School. There will likely be a new building erected after the high and secondary schools required for the city are completed."

"Then there is the matter of finances. We have spent over \$100,000 of our sinking fund. A new public school for West London depends on the finances of the city. We are keeping up with the public school attendance by our building, but it is impossible to please everybody. It is all a question of finances, which is a rather important thing. There is a greater need for a new public school in the southeast section of the city, plans for which are under way, with land for the site under option."

Expects Board to Act. "The board of education is expected to act on a new public school for West London," concluded the inspector, "and I have no doubt but that the board of education will deal with it soon." In addition to Empress avenue school, children of West London attend a small structure, the Charles street public school, and the new Riverdale public school, which is in South London directly across the river, within easy access to them via the Wharfcliffe road bridge.

Kind-Hearted S.R. Conductor

Not all conductors of the London street railway are putting passengers off who board their car fareless. A few days ago a woman boarded North Belt car No. 56, Conductor 154. When the cash box was presented by the conductor, the woman announced that she had left her purse at home. Her sincerity impressed the conductor, and he let her ride down town. The next day the street railway company received a letter from the woman enclosing a ticket and a 25-cent coin to be given to the conductor. He got it, and was evidently not reprimanded, as the complimentary letter written by the woman was posted on the order board at the car barns.

WILL DECIDE FEE PROBLEM NEXT WEEK

Board of Education To Consider Recommendations Next Tuesday.

In all probability the board of education will meet on Tuesday to consider the recommendations of the industrial advisory committee of the Technical School, which recommended Tuesday that county pupils attending the Collegiate Institute here when it meets next Tuesday afternoon.

Although some educational authorities contend that the substantial grants made to the local Technical School by the department of education are given on the understanding that it serve the rural district of London as well as the city proper, the majority declare that there will be no objection raised to levying fees for county pupils. The grant is approximately \$24,000 per year.

Principal H. B. Beal of the Technical School points out that this school is in identical with that of the collegiate institute, namely, the city of London. It necessarily follows that county pupils are not in this district, and fees are in order for them. They have spent over \$100,000 of our sinking fund. A new public school for West London depends on the finances of the city. We are keeping up with the public school attendance by our building, but it is impossible to please everybody. It is all a question of finances, which is a rather important thing. There is a greater need for a new public school in the southeast section of the city, plans for which are under way, with land for the site under option.

PLAINTIFF AWARDED \$2,200 AND COSTS

Harold Coates Secures Judgment in Supreme Court.

Harold Coates won his suit against R. M. Brisco and Karrie G. Brisco for specific performance of an agreement regarding the sale of stock for the defendants, in the supreme court Friday morning. In addition he secured judgment for \$2,200 and costs, with a stay of fifteen days.

The plaintiff claimed that the defendants were to buy 50 shares of preferred stock and 20 shares of common stock in the R. M. Brisco Company, valued at \$5,000. As part payment, he testified, he received the right of redemption in house No. 368 Princess avenue, but says the Briscos refused to proceed further.

Settlement out of court was made in the case of John William South against the county of Middlesex, an action for damages for injuries received when he was thrown from his bicycle on a county highway, and in the case of M. White & Son against the Elmhurst Machinery Company, a suit for \$1,000 for goods alleged to have been sold and delivered.

CITY NEWS IN BRIEF

IS ERECTING MAYOR.—Ald. Fred Watkins is acting mayor today in the absence of Mayor Little from the city.

EXECUTIVE BOARD MEETS.—The executive board of the Y. M. C. A. met Friday night at 8 o'clock in their club rooms, Dundas street. Col. W. G. Coles, president of the association, presided.

GAS EXPERT STOPPED.—The "Safety First" meeting, which was to have been held in this city on Friday by the official and agents of the local districts of the G. T. R., has been postponed until Monday next.

WILSON HAS BEEN NOTIFIED THAT FEDERAL GAS EXPERT J. HARKNESS IS COMING TO THE CITY TO LOOK OVER THE REPORTED GAS FIELD AT CRUMLIN. Mr. Wilson is strongly in favor of getting a natural gas field for the city if it is possible.

TRUCK IS DAMAGED.—A light delivery truck belonging to A. D'Amore, 559 Richmond street, was damaged at the corner of Queen's avenue and Wellington street, about 10 o'clock Friday morning, breaking off a rear right wheel.

NEW CHURCH AT CHATHAM.—Bishop Fallon stated Friday that a new parish is being formed in North Chatham, and that a new church is to be erected. It will be in charge of Father Dignan of this city, and will be known as the Church of the Blessed Sacrament. Work on the new building will be commenced as soon as possible, Bishop Fallon stated.

FIVE PER CENT ADDED TO TAX AFTER SATURDAY

The third installment of city taxes falls due on Saturday, and those who haven't paid by the time the tax collector's office closes on Saturday night will find that a 5 per cent penalty has been added on Monday morning. So far about \$50,000 has been paid in, but City Treasurer Bell expects that the bulk of the installment will come in Saturday through the mail. The total expected is \$200,000.

EXPECT 500 DELEGATES AT DISTRICT CONFERENCE

Five hundred delegates are expected to attend the London district conference of the Reorganized Church of Jesus Christ of Latter Day Saints, which opens here Friday evening.

On Saturday there will be a business session at 10 a.m., and at noon dinner will be served in the Midland street church. On Sunday there will be a prayer and sacramental service in the morning, and preaching services in the morning, afternoon and evening.

150 APPEALS ENTERED FOR COURT OF REVISION

About 150 appeals have been entered against the 1932 assessment to be heard by the court of revision, which sits at the city hall on October 5. This number is far in excess of other years, the total usually falling below 100. Of the appeals now in, about 75 of them are against realty assessments, and the balance are the result of changes in business, persons going out of business, income tax, etc. There is still some time to send in appeals.

STREET RAILWAY CO. PLANS REAL SERVICE

Manager Bares New Schedule Effective Saturday.

The London street railway will put its new schedule into effect Saturday morning, according to Manager C. E. King. When asked as to what changes would be made in the service, he stated that the new schedule was devised by a rearrangement of the early morning cars.

With so many cars leaving the barns at the early morning hour, Dundas street was given a frequent service. It is therefore intended to divert the cars on the short Dundas street run to receive the outside lines for their first trip.

This will give the same service on the outside lines, only by different cars. After making this trip, the Dundas cars will return to their usual run, and the cars that they replace on the early run will not appear quite as early as usual.

Mr. King said that the change really meant that after the first car in the morning there would be slight variation in the service and then the usual routing of cars will follow.

After 11 p.m. this slight variation in the service will again be made, but the last cars will leave the corner of Dundas and Richmond streets as usual.

"The new schedule will give us a little more efficient service in the quiet periods. Practically no one rides on the first trips in the early morning," said Mr. King.

The change means that the motormen and conductors will now work nine hours daily instead of ten and over as formerly. The company has not given out the amount of saving, but the men estimate that the cut means about \$1,500 monthly.

Y.M.C.A. RADIO CLUB ELECTS OFFICERS

Courses For the Junior and Senior Members.

Officers of the local Y. M. C. A. Radio club were elected at the annual meeting held in the association's club rooms Thursday night.

The officers elected were: R. H. Gurd, president; J. Foley, 1st vice-president; J. Mcintosh, 2nd vice-president; R. B. Liddle, 3rd vice-president; D. Hutchison, secretary-treasurer; E. M. Berry, publicity manager; Burwell Graham, electrical supervisor.

It was decided that all club members shall be obliged to join the Y. M. C. A., and if they own or operate either a radio-telephone or radio-telephone transmitting or receiving outfit, they will have to be holders of an amateur radio-telephone license.

Regular courses are to be provided, so that it will be possible for each member to become a senior member by passing an examination, and so that senior members shall be able to try a preliminary examination at Christmas and then a close of the season a final examination.

It was decided that the fees for the coming season would be \$1 for junior members, \$2 for senior members. Juniors must be 16 years of age and under and seniors are to be 17 years of age and over.

Obituaries

JOHN OTTO SUCCUMBS.

John Otto succumbed to a heart attack Thursday morning at the family residence, 330 Ridout street. He came to this city from New Hamburg, and the body has been forwarded to that town for interment. The deceased is survived by a widow and eight children.

NEW HAMBURG BLOCK IS DAMAGED BY FIRE

[Special to The Advertiser.] New Hamburg, Sept. 30.—At 6 o'clock this morning Mr. Schroeder, who has dwelling-rooms upstairs in the rear of the William Tell block, noticed smoke coming from the rear end of the highway over Albright's hardware store.

An alarm was immediately sounded, and Fire Chief Scherer and his fire-fighters, with the Ronald steamer, soon deluged and extinguished the fire. The damage by water in several occupants will be considerable.

Among the occupants are the Standard Bank, W. R. Plum, insurance; Dr. W. W. Winn, dentist; and J. R. Forrester and C. M. B. A. lodge rooms. The damage by fire was mostly confined to the walls and ceiling, and is comparatively light. The losses are fully covered by insurance.

BRITISH LAND OWNERS SEEK ONTARIO FARMS

Intent upon purchasing large tracts of land in Canada, F. R. Taylor of Yorkshire, England, is touring the Dominion, and was in London Friday. Accompanied by Mr. J. Farrell, district representative of the Ontario department of colonization and immigration, he will visit every county of Western Ontario within the next few days. Mr. Taylor comes to Canada, not only in his own personal interests but on behalf of a large number of wealthy residents of the old country.

Commenting in Eastern Canada, he has traveled west through the rural districts and explains that without pursuing his journey any further he is very favorably impressed with Canada, more particularly the sections in Ontario west of Toronto.

He advises that the people in England, whom he represents, are desirous of undertaking mixed farming on a substantial scale, and that they will be guided mostly by his reports.

Writes Farewell Note On His Collar

TORONTO, Sept. 30.—The body of Harry H. Unsworth, of Fergus, Ont., 35 years of age, and employed as a traveler, was found at the end of Bloor street viaduct where it crosses the Rosedale railway. He had evidently taken off his collar and written a note on each side of it.

On one side he expressed regret for the sorrow he had caused his mother, sister and brothers.

On the other side was written: "Good-bye, nice old world, though I have not been happy at times, yet I have found a good deal of pleasure from life, and though my last act may be rash, yet God is merciful, and Christ died even for me. Good-bye all! Don't forget my last request. Forget all as I have, and Christ will forgive us."

WALKER K. O. F. C. ELECTS OFFICERS

[Special to The Advertiser.] Walkerton, Sept. 29.—The annual meeting and election of Father Cummins Council No. 202, Knights of Columbus, held Tuesday night, was largely attended, and resulted as follows: Grand knight, J. T. Clancy; deputy grand knight, John Scanlon; chancellor, John Hammer; recorder, B. W. Schumacher; financial secretary, P. A. Lambertus; treasurer, R. J. Clancy; advocate, A. E. McNab; warden, A. J. Miller; inside guard, Ralph Schmidt; outside guard, W. C. Gault; chaplain, Rev. P. J. Maloney; trustee, John Meagher.

TORONTO STOCKS

Toronto, Sept. 30.—Considerable activity and strength developed in Abitibi stock exchange this morning. Abitibi, on sales of 215 shares, advanced to 11, a gain of 1/4 from yesterday's closing price. Winnipeg Railway was 3/4 higher at 38. Steel of Canada, continuing yesterday's strength, advanced to 57 1/2, a point above yesterday. Canadian National, a point above yesterday, and closed 3/4 off at 22 1/2. 260 shares changing hands between 23 and 23 1/2. [Reported by Edward Cronyn & Co.]

Careful Investments.

A perusal of some of the estates that are put up for probate reveals the fact that there must be a great shrinkage in some—in fact the great majority—of them when the heirs set about to realize on the various investments.

Stocks of all sorts and varieties, many of them highly speculative, seem to form a large proportion of many of the holdings.

Then there are others that would require the careful watching and manipulation of the man who bought them to realize anything. Some of them are also of that class that MAY amount to something some time, but if dependents want to liquidate quickly they have to throw them on the market for what they can get.

Then comes the time of disappointment, especially if the estate is not very large, and the persons benefitting are really in need of assistance. The shrinkage between what they expected to have and what really is left in the final reckoning must be heart-breaking and disappointing.

It is surprising how many wills are published that contain only a very meagre sum in life insurance, a few bonds or first mortgages. This paper holds no brief for the insurance men, but it is a fact that a policy for a definite amount is one of the assets that does not shrink. There are times when even bonds and mortgages must depend on the trend of the market to determine their positive value.

The man who is looking to the future should be very careful of his investments. It is a mighty easy thing to put money into any scheme—it is a different matter for those who are left behind to get it out.

Northern Railways.

The decision of the Drury Government to extend the T. and N. O. Railway 70 miles into the wilderness north of Cochrane will please but one section of the north country, those at Cochrane who have been boosting the "onto-the-bay" movement, and who are suspected of being heavily interested in the timber resources of the area to be opened up.

The vast majority of the people of the north have been and are still clamoring for branch lines off the T. and N. O. to open up the vast mineral wealth, which today is in a good state of development, but is retarded in its progress through the lack of railway facilities and power. If the railway were secured the power would soon be forthcoming.

Gowganda, for instance, is the future hope of Ontario's silver production, with Cobalt on the wane. Twenty-eight miles of railway are needed to open up this camp. There must be 50 excellent mines standing idle in that camp waiting for railway facilities. Fort Matachewan, 27 miles north of the terminus of the Elk Lake branch, is another promising gold camp, while from Swastika in through several townships to the Quebec border there is a string of wonderful gold mining properties that would thrive if there were a railway.

These branch lines would provide the necessary employment, and to most northerners would be better business than the line north of Cochrane.

The Strike Weapon.

The railwaymen are talking of using the strike as a weapon to defend their present wage scale.

It is to be hoped the strike weapon is allowed to remain at one side, because it is too expensive a thing for any labor union to handle.

There are in the ranks of large employers today many who would welcome a strike of the men on the railroads. They have not come out in the open to express any such opinion, but in certain well-informed circles it is freely stated that some of the extremists in the employers' group would welcome a strike.

They reason that a strike would bring the matter of high wages to a show-down, and that conditions are very favorable to the employers for such a contest.

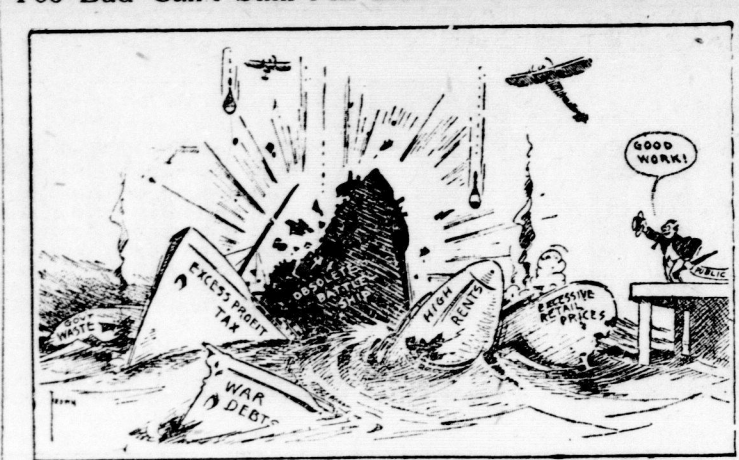

There are times when there is nothing left for a body of men to do but strike. These circumstances are not so numerous now as they were in the past, when the rights of men to organize and bargain collectively for working conditions were not as much recognized as they are today.

It is not possible to present reliable figures of recent years showing what strikes have cost, as lined up against what has been gained by them.

One thing is certain, viz.: That each successive strike is becoming a more expensive thing to swing. Strike pay is higher, and the assessments upon members who may be working in other sections are heavier as a result. Strikers cannot live decently on strike pay, which averages from 50 to 60 per cent of the wages in most cases.

The man who has been through

Too Bad Can't Sink All Left-Overs From the War.

—Brown, in the Chicago Daily News.

one strike, if it has been carried on for any length of time, knows without any telling that it is an unpleasant experience. Prejudices and hatreds spring up that can hardly ever be lived down, and organizations seem to take years to get any semblance of real co-operation and teamwork back into their plants.

The real friend of the worker will advise strongly against recourse to the strike measure if there is any honorable and decent way to avoid it.

The Child and the Auto.

How to afford greater protection for children from being run down by automobiles is bothering Montreal, where, within the last few weeks, ten children, all under 10 years of age, were fatally injured through being struck by automobiles. In Ontario, too, of late, there has been a series of fatalities of this nature, in which children have been the victims. In nearly all the instances mentioned the victims were themselves to blame, as they were playing on the pavement when run down.

This is the main reason everywhere. It is marvelous that the death list is not much greater when one considers the vast number of motor-driven vehicles that crowd the streets of city and town. London has not had many motor fatalities, but that is probably due as much to good luck as to carefulness, as in all parts of the city children are to be found playing on the streets. The best remedy is to multiply public playgrounds. That and closer watch kept on little ones by relations and older companions should reduce the number of these lamentable fatalities.

Nor can the drivers of cars throw all blame on pedestrians. Some of the larger cities have a scheme of renting cars for an hour or day, as they say: "Do your own driving." All the qualification needed apparently is to be able to drive the car away from the garage. It is no doubt a legitimate form of business, but it carries with it a degree of danger that should not be overlooked.

LITTLE 'TISERS

Good times are coming, says Edison. That should be set to lively music and put on the records.

The fall fairs—bless 'em—are clamoring for a fine, wholesome lot of perfectly good space in the average newspaper at present.

The average woman is a born gambler and fond of taking a chance. If you don't believe it just look at some of the husbands they've married.

Einstein, who declares there is no such thing as space, has postponed his trip to Russia. Probably he decided there was no use propounding his theory to people with empty stomachs.

The Glencoe Transcript suggests that instead of electing party men it might not be a bad idea to elect men who would be the best for the country. Very good, but will the Transcript please lead out the candidate who is not quite thoroughly convinced at the outset that he is the best man for the country?

The application of Dr. Rutman, M. O.H., of Woodstock, to the county judge to increase his salary is the second case of its kind on record. The first was at Sudbury, when Judge Kehoe, on application of Dr. Cook, M.O.H., raised the salary from \$800 to \$1,500, the town council having declined to increase the officer's stipend.

The report on the London jail claims that one of the jails be made particularly strong for keeping dangerous prisoners. The Brantford Examiner can see no reason for a new building, suggesting that the Guelph Reformatory is suitable for such a purpose. Perhaps, but in the years that the reformatory has been in operation at Guelph there have been quite a number of "get-aways" from the Guelph institution.

The Fergus News-Record sees a goodly crop of candidates sprouting in South Wellington, and its field crop report is as follows: "It is said that there will be at least four candidates in the south riding, namely, Hon. Hugh Guthrie, whom we may call a Conservative, a Liberal, a 'straight Liberal,' whatever that is; and a representative of the United Farmers and Labor party, or possibly even one man from each of these organizations if they fail to agree."

Speaking of Weather.

Now that the winter season is al-

most here the dear women will begin to lay away their furs.

Once the rubber plant is taken in off the veranda the fall season can be officially declared at a close.

Oh, yes, and we just remembered that we saw dad whittling out a new handle for the ash sifter.

And one man was looking in a gent's furnishing store window wherein were parked a number of fuzzy-looking undershirts and woolly socks.

The Brussels Post has no patience with the critics who have been shooting peas at the attorney-general for putting the lid on gambling devices at fall fairs. The Post says: "Resolutions are being passed by various bodies patting Attorney-General Raney on the back for blocking the numerous gambling devices. He did right, too. What business has anybody to set up a dodge to beat the public out of good money under the eye of the law? Any transaction should give value for money received."

An editorial in a recent issue of "Municipal and County Engineering" has for its heading the pointed wording "Building or Breadlines?" The contention is that instead of undue optimism at present the fact should be forced that there are about six million unemployed men in United States. Urging that work is what will relieve the situation, the paper goes on to point out: "While it is unpleasant to direct thought to what will surely happen if we go on waiting for providential, or congressional, relief, it is pleasant indeed to point out that if public works projects be driven forward now, useful work will be provided for those released from industry, and great sums of money will be placed in general circulation, to the immediate and substantial benefit of all lines of business."

NOAH'S POETRY

The Copper-Toe Boots.
This town's just full of shoe sales, now, a new one every week—they're shoelin' youths and maidens fair, and matrons old and sleek. For those with bunions on their toes and ingrown nails as well, or those when'er they stub a toe uncoil one awful yell—they have a new, a special boot to place upon their hoof—it's soft and pliable as well, and frost and water proof.

For them that limp with rheumatiz, or in their joints be weak, they sell a boot to soothe away their every crink and creak. For those on fashion's chapter bent, just let them all draw nigh, and plant their stilts into a shoe with heel six inches high.

And little gaffers in their carts, they're in on this affair, and chew the toes off moccasins at 19 cents a pair.

Then there's the man who has no use for boots of pink tea kind, and as for him they have a row with bally 'ob miles lined.

But why, forsooth, do all these stores that cater to our trade, forget to stock the slickest boot, that cobbler ever made?

We gaze and shake our head again, 'taint those, nor those, nor those, we were lookin' for the little boots that had the copper toes.

When we were kids, dear bless my heart but that was long ago—we wouldn't think of wearin' boots without a copper toe.

Why then, these boots with copper toes, they make my eyes grow dim, a-thinkin' how we used to kick an empty salmon tin. We'd scuff the soles out in a month, we'd wear the heels away, and the absence of the blackin' brush would keep 'em sort of grey.

The strings would bust, we'd tie 'em up in ways born of despair, but that strip of copper on the toe, by jinks, 'twas always there. The youngsters nowadays no doubt are dressed in ways more fair, from the patent leather on their feet to the topknot on their hair.

But just as sure as mountain stream into the ocean flows, they've never made a thing to beat them boots with copper toes. —NOAH.

TO THE EDITOR

A WASTEFUL CROWD.
To The Editor of The Advertiser:

Sir:—The National Liberal-Conservative party, which is the nice new name for the double-dyed-in-the-wool old Tory party, are asking the electors of the Dominion of Canada to return them to power for the next five years. They have not much check!

The enormous national debt of the Dominion of Canada, amounting now to nearly three billions of dollars; the willful, deliberate and extravagant expenditure of both the provincial and federal governments, would make Rockefeller and a Henry Ford cry for mercy. Why, sir, a farmer would have to own eight hundred acres of first-class land, rented at \$5 per acre, to produce a revenue equal to the seasonal indemnity of an ordinary member of parliament.

ELECTED LORD MAYOR.

ment. Consider these: The utter and disgraceful failure of the Tory temperance legislation; the diabolical penal laws on the statute books; the utter contempt and disrespect for law and order, and perjury witnessed every day in the police courts; the bankruptcy of the railroads and transportation companies; the unrest and unemployment of labor; the excessive ocean and land freights on all commodities the general depression in business, partially due to the mode of collecting war taxes; the discount on our hard-earned money. All these conditions clamor for a radical change of some kind, and for all of these reasons the fossil remains of Toryism should be drowned in the bottom of the sea.

A STAINCH SUPPORTER OF THE LIBERTY LEAGUE.

A GOVERNMENT SCANDAL.

To The Editor of The Advertiser: Sir:—Might I suggest that you take up editorially in the coming campaign the Port Nelson affair, as exposed in my article which you published in your paper's issues of December 13, 1917.

The article contains enough authentic information for a good editorial assault on the present Government, nondescript in name and appearance, but virtually Tory, nevertheless.

Port Nelson has been closed down since 1917, after many millions of the country's finances having been sunk in it, which fact in itself would seem to be a probable admission of guilt by the Government, following my exposures of the enterprise.

Thanking you for past favors, I am, Yours very truly,

POETRY.

ABSENCE.

[Dorothy Parker, in Life.]
I never dreamed the dark would hush its note

As day succeeded ever-drearier day,
Nor knew the song that swelled the robin's throat

Would fade to silence when you went away.

I never thought the slim moon, mournfully,
Would shroud her pallid self in murky night.

Dear heart, I never thought these things would be—

I never thought they would, and I was right.

AMONG THE HEATHER.

[J. Lewis Milligan.]

(A Reminiscence, Ten Years After.)

Bands of love

Dreams arise and thrill us with wild

sands of Dee,

On the windy hill-top, among the purple

Gazing on the Welsh hills across the

anticipations,

Visions all too splendid, like yon sunset

on the sea.

Slowly wanes a day of love and joy and

beauty,

Laughing skies have canopied our

pathway all day long

Woodland, stream, and meadow, high-way,

hall and cottage,

Lowling kine, and bleating sheep, and

birds' sweet song.

We shall never utter these exquisite

emotions

That from the base of being at close

of day arise:

Turning from the hills and the sun-

set's golden gleaming,

We find articulation in the language

of the eyes.

Not from out the hills, the sea, or lurking

skyline,

Comes the certain answer to these

stirrings strange and wild;

Mystery confound us and a dumb de-

sire oppresses,

Till we turn and listen to the laughter

of a child.

'LIFE SMITH.

[Ray City News.]

'Life Smith' doct' must figger in the

general scheme of things,

He's a skinny little sawed-off that whistles,

likewise slings.

The while he works on steadily all day

and night or near it.

But never struts around and brags

about his public spirit.

The papers puff the bankers and the

Hons, as consequential,

But never calls 'Life prominent or says

he's influential.

He doesn't set up on the stage in dull

and pompous glory,

A-gettin' off at chosen words and

flights of oratory.

In fact, 'Life doesn't do a thing but

hustle like the dickens

To raise the best tomatoes, and the

finest, fattest chickens.

And keeps his folks in comfort and give

his kids their schooling,

And paint his house up and so forth.

He has no time for fooling.

His wife thinks 'Life is mighty smart,

his children love their Pappy,

And in their home, just over there, 'Life

and his folks are happy.

So, as I say, while 'Life don't cut a

great and gay figure

When ranged up side of some big folks

I think 'Life Smith is bigger.

ON THE RIGHT ROAD.

[Frank L. Stanton.]

Spite of all the growlers say:

'World is runnin' right!

Sunshine silverin' the day,

Hope an' heaven in sight!

Winters never come to stay,

Roses reddon every May,

Halloo! halloo on the way,

'World is runnin' right!

Take the lesson to your soul:

'World is runnin' right!

An' 'tis Love that makes it roll

With Love's heaven in sight!

Love, that leads us from the gloom

An' the shadow of the tomb

To the 'mornin' an' the bloom—

'World is runnin' right!

KING EXPOSES

INSINCERITY OF TORY TACTICS

Says Premier's Talk of Chicanery Is Old-Time Dodge.

SHALL PEOPLE RULE?

Choice Is Between Log Rollers and Government of One Mind.

WINDSOR, N. S., Sept. 29.—(By Canadian Press staff correspondent.)—Hon. William L. Mackenzie King was welcomed to Hants County on his arrival here today. At a meeting in the drill hall the Liberal leader, Hon. H. S. Bland, M.P., William Duff, M.P., and D. McKenzie, M.P., were the speakers.

Hon. Mr. Mackenzie King referred to the war-time elections as as iniquitous; the people had been deprived of their proper representation and had been defrauded.

Stronger Language.

Referring to Hon. Mr. Meighen's speech in London Mr. King declared the only change was that in Portage La Prairie the premier had used stronger language. At Sherbrooke, London and Portage La Prairie the premier had declared the issue to be between protection and free trade. At Sherbrooke Mr. Meighen talked of bolshevism and nation wreckers; now he appeared to be getting back to stronger language.

The premier's talk of "chicanery and infidelity," said Hon. Mr. King, "was getting back to the old-time Tory tactics. The real question today was whether the people would trust a man who did not trust them, or whether they wanted rule by all the people."

"You know the issue," said Mr. King, "it is whether the people shall rule or an oligarchy."

Turning again to Mr. Meighen's speech, the Liberal leader said that the people voting for the Liberal party would vote for a government of the character of 1896, when Sir Wilfrid Laurier and his Government opened to Canada her golden era of prosperity and development.

"The people," said Mr. King, "do certainly know what sort of government they are voting against, if not all know what they are voting for."

The only "repercussion of log-rolling groups" in Canada is that exemplified by Mr. Meighen and his Government. "The choice is between a Liberal party and a stable government, where you have men with one mind and one policy, who are prepared to stand for and carry out that principle," declared Mr. King.

The presence of "log-rolling groups" in the Meighen Government was shown, declared Mr. King, by the hurrying for senatorships and judgeships by the supporters of Mr. Meighen. They had been held together by the promise of these favors. As to declaring the issue, the Canadian people, and not the premier, were the ones to say what it should be.

Liberalism Behind Leader.

D. D. McKenzie, M.P., Cape Breton north, declared that from the Atlantic to the Pacific Liberalism stood solidly behind Hon. Mackenzie King, the Liberal leader. Canada had boundless resources, and needed to have these developed. The Conservatives had never developed them, nor would they.

In 1911 the slogan had been "Let well enough alone," but now it was a cry of the people to come to the rescue. After fifteen years the Liberals had left office with a surplus in hand. When they regained power they would find huge deficits. Mr. McKenzie said the Conservatives had sought in vain to do something wrong with Liberal administrations.

CARDS BATTEN DOWN HATCHES ON PIRATES

Double-Header Loss Gave Giants Flag Without Even a Day's Work.

NEW YORK, Sept. 20.—The New York Giants, though idle today, won the National League pennant race by virtue of Pittsburgh's double defeat by the St. Louis Cardinals. The Giants are now four and one-half games in the lead. They have four games left to play, while Pittsburgh has three. If the Giants were to lose all four, and Pittsburgh win all three, the Giants still would be a game ahead.

ST. LOUIS, Sept. 20.—The St. Louis Cardinals eliminated Pittsburgh as a pennant contender here this afternoon by winning a double-header, 5 to 4 and 3 to 1, the second game being a complete game. The Cardinals provided themselves with the chance of tying the Pirates for second place, which may be accomplished by winning the remaining three games from the Pirates in the present series. EIGHT FAIL TO HEAD RUBY HAL IN THE 2:30

7,000 See Northville "Short Ship" Card of Duels.

NORTHVILLE, Mich., Sept. 20.—More than 7,000 persons attended the Wayne County Fair and "short ship" meeting here today.

The sport was good, although time was slower. Eight fought out the 2:30 pace, but none of them had luck enough to head Ruby Hal. Fred Horn teamed the winner perfectly, stalling off Trisick G. and George M. as they closed up in the stretch. The trot went into extra heats. Morning Gale marched off with the first two, and it was only a question of her behavior. She broke at the half in the third, came strong and would have made up the gap but for a jump in the stretch that gave the heat to Betty Barry. The pace had an other tilt in the fourth heat which was fatal to Morning Gale, as Betty Barry was as steady as a clock. Betty also won the deciding heat by sticking to the trot. The summary:

NEW TAXES A BLOW AT BRITON'S HEALTH
LONDON, Sept. 20.—What are called taxes on health are included in the safeguarding of the industries act. Among the 6,000 articles essential to the doctor and druggist, and the bill is causing widespread disapproval. These drugs include many from Germany, which have been on the market without duty many years and are in constant use. With the taxes the prices will cause importations under the mask of being something new because the cost will be more.

FIRST TIME WHE-AH! HAS SEEN BIT OF RAG FOR DECADE

HUGHEY JENNINGS led the Detroit Tigers to the American League pennant three years in succession, 1907-9. Since that time Hughey, the gingerly-topped leader of the Tigers, hasn't been near enough to even see the top of the flag pole. It is a coincidence that McGraw, wanting an active manager, should pick on Jennings, his infield mate on the famous Orioles in the year he was out to win another National flag. Jennings has been little heard of, and the antics that made him one of the outstanding personalities in baseball have apparently been repressed by the former Tiger leader. McGraw has taken little active part in the leadership of the Giants this year, seldom appearing in uniform, according to reports.

L.C.I. Field Day, With Its New Trimmings, Slated For Oct. 7

At a meeting of the field day committee of the Collegiate Institute yesterday afternoon it was decided to hold the annual events on October 7th. St. Thomas Collegiate pupils will attend and the return visit will be made on October 13. Rugby, basketball, girls' baseball, tennis and possible field hockey games will hold the stage.

The field hockey game will be a novelty to London. It is a popular game amongst the girls' colleges in England. The rules are much the same as govern ice hockey. The L. C. I. is the first school in Western Ontario to promote this game.

Rugby Squad Revenged.
The rugby squad is out to scalp the St. Thomas pigskin chasers and break the jinx that has followed them for years. They have been practicing hard at Tecumseh Park under Coach Taylor and Capt. Syme. Coach Taylor has much more material to choose from this year than last. The track events will be held at the same time as the school in Western Ontario to promote this game.

Members of the field day committee are: Mr. Miller, chairman; Capt. Syme, Messrs. Bland, Cameron and Gray. Misses McCann, McPherson, and McCandless. Pupils' representatives: W. Morris, C. Wilson, R. Boylan and Miss Dorothy Silverwood, secretary.

Capt. Syme, director of athletics, announced last evening that the collegiate rugby squad would be given a workout at Tecumseh Park this evening.

CANUCK MARE LOSES TO SINGLE G 1:59

Romalia Gave Hard Fight First Heat of Matched Race.

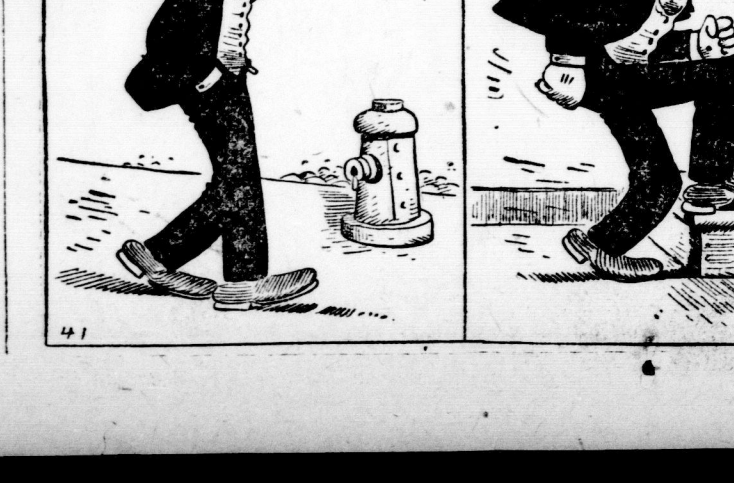

CHESTERVILLE, Ont., Sept. 20.—(By Canadian Press).—Before many times the largest crowd that was ever before seen on the local fair grounds and race track, the world's champion pacer, Romalia, Single G 1:59, won the matched race this afternoon from the Ottawa-owned mare, Romalia, 2:03. The day was fine and the track in perfect condition. They have been practicing hard at Tecumseh Park under Coach Taylor and Capt. Syme. Coach Taylor has much more material to choose from this year than last. The track events will be held at the same time as the school in Western Ontario to promote this game.

Romalia was fortunate in drawing the pole before the race and after three scores Stater Ed. Baker of Ottawa sent the horses off heads apart. Romalia led until about fifty yards from the finish. In front, to win by a length in 2:05. Single G led throughout the entire mile in the second heat. Romalia made an attempt to head the famous stallion at the first turn, but went wide and landed off the track. Single G, jogged the last three-quarters and finished the mile in 2:18.

Although Single G had won the race, his owner, Wm. Barefoot of Cambridge, Indiana, kindly consented to go another neat, which his horse won easily enough.

ONE MORE SOCCER ARGUMENT WITH HAMILTON ON TAP

H. and D. League Eleven May Be Here On October 8.

CUP TIE MEETING

Draw Will Be Arranged At The "Y" Tomorrow Night.

An exhibition game between a representative team from the London and District and a team from the Hamilton and District League is practically arranged if Tecumseh Park can be secured.

This will probably be the last big outside game of the season, unless Public Utilities bring some of their games to the city.

H. and D. League teams can muster as strong an eleven as the H. and D. Association, which won the Plenty cup, so the game promises something very good in soccer.

There should be no reason why the park cannot be obtained on that date, as no rugby so far as is known now is slated.

Get Busy On Cup Ties.
Meantime, the City Soccer League executive will get to work at a meeting of the tomorrow night on the draw for the McCutcheon Cup Tie series. Practically all the soccer clubs have intimated their intention of making a bid for the silverware this fall. Cup ties always introduce a big bunch of uncertainty into soccer, the matter how good the teams may be, and that's a big part of their appeal to the soccer fans.

It looks as if soccer will about fill the gap left vacant this fall by the absence of London from the O. R. F. U.

BILLY HALL WINS 2:20 TROT AT NORWICH FAIR

WOODSTOCK, Sept. 20.—About 5,000 people attended the Norwich Fair today. The exhibition was up to the average, and the display of cattle was perhaps a little better than most of the other fairs.

Among the leading features of the closing day were the horse races, which were well contested, and the tug-of-war, which was won this year by Burgessville, who defeated the Norwich farmers after two hard pulls.

The horse races resulted as follows:
2:20 Trot or Pace.

PETROLEA RINK FAILS TO WIN MCGIBBON CUP

SARNIA, Sept. 20.—History repeated itself at the bowling greens today, when the trundlers from the South kept up their string of consecutive annual wins by defeating the Northward bowlers by 22 shots in two games.

Petrolea, while two series was on, tried to lift the McGibbon cup from Chief Lannin. The effort was unsuccessful, the Sarnia rink being four shots up at the end. Following are the scores in the two events:

DICK KERR SMASHES CLEVELAND'S HOPES

Yankees Win, While Sox Hurler Celebrates Day in His Honor With 5-0 Whitewash.

CHICAGO, Sept. 20.—With "Little Dick" Kerr pitching a mastery game, Chicago virtually ruined Cleveland's chances in the American League pennant race today, when he shut out the world's champions 5 to 0 in the first game of the final four-game series.

Cleveland to beat out New York in the scramble for the flag must win its three remaining games and the Yankees lose their remaining three. The margin between the pennant contenders tonight was two and a half games.

Kerr celebrated a day set aside in his honor by holding Cleveland to six hits, and, with the aid of sensational fielding, did not allow a Cleveland player to pass second base. The Indians threatened in the fourth, but Kerr started a double play which shattered their hopes.

SIR ROCHE CAPTURES 2:08 AT COLUMBUS

Showed the Way To Mary O'Connor and Uriko.

COLUMBUS, Ohio, Sept. 20.—One of today's grand circuit race events on the card was the two-stake event on the card as a real contest. Sir Roche, a western horse, in the 2:08 class pace, showed the way to Mary O'Connor and Uriko.

The first two heats were hotly contested. Sir Roche dropping the third when he broke at the first turn. Jimmie McKerron won the Arch City 2:10 pacemaker as he pleased after leading the first heat.

The Western Horseman three-year-old futurity pace, was a hollow event, there being but two starters and Belmont being distanced the first heat by Peter Henly, because of almost a standstill break on the back stretch. The 2:18 trot was won by Lena Nole.

QUELPH, Sept. 20.—Secretary Jack Simpson of this city has compiled the leading standing, batting and bowling averages of the W. O. C. L. for the season just closed. It has been one of the most successful seasons in the history of the league. The race was very interesting and close, up to the end of the season. All teams had been practically in the running until two weeks ago. Quelph gradually crept closer and closer and Twin City kept slipping until in a tie in the play-off in Quelph City. The Royal City team beat Twin City by 65 runs to 60. Quelph batted first and scored 66 runs. Twin City seemed to have the game won with only 65 runs against them and had 47 scored for four wickets down, but the remaining batsmen fell down badly and the score finished at 60 runs, the last seven batsmen making only 13 runs. Quelph winning the championship and cup by five runs.

Simpson of Galt and Johnson of Quelph are tied for the most catches with ten each. England of Paris and Stetson of Quelph are next in line with seven each.

Johnson of this city is also leading the batsmen with an average of 22.2. Seymour of Twin City is second with 24.7, and Downs of Stratford, leading the bowlers, having an average of 4.15.

OFFICIALS APPOINTED.
TORONTO, Sept. 20.—The Inter-Provincial Rugby Union has appointed Tommy Riddle of Montreal and Dave McCann of Ottawa referee and umpire of Saturday's Argo-Tiger game at Varsity Stadium.

SOCCER ON.
The Army and Navy Veterans' soccer team play the W. O. R. eleven next Saturday afternoon in a City League fixture at Springfield Park. The kick-off will be made at 2:30. All players of both teams are requested to be on hand.

JESS WILLARD'S HAND ITCHES TO SIGN CONTRACT

Contract Now On Way From Tex Rickard's Office.

FIGHT NEXT SUMMER

Jess' Manager Accepts Terms—Dempsey Has Not Signed Yet.

TOPEKA, Kas., Sept. 20.—Jess Willard said today he expected to sign at once upon its arrival the contract reported to have been sent to him by Tex Rickard for a return bout with Jack Dempsey, world's heavyweight boxing champion.

Willard said he had been advised the terms, and was certain they were acceptable. The bout probably will hold some time between July 15, and July 5, next summer, Willard said.

TERMS NOT KNOWN.
NEW YORK, Sept. 20.—Terms of contract sent yesterday to Jess Willard for a return bout with Jack Dempsey for the world's heavyweight boxing championship have not been revealed by Tex Rickard, promoter.

Rickard said today, however, the provisions of the contract already have been accepted by Ray Arch Willard's business manager. The contract provides for a bout to be held in the United States, Canada, Mexico. The number of rounds is not specified.

The prospective battleground is expected to be the Pine Bowl in Jersey City, where the Dempsey-Carpentier contest was held.

Willard has not yet signed a contract, but it is understood Jack Kearns his manager, declared Dempsey would be willing to engage in such a bout.

Bible Also Objects to Men With Long Tresses, Noted Churchman Says.

ATHENS, Ga., Sept. 27.—The opinion of the Apostle Paul is the latest to be quoted on the subject of bobbed hair. It appears that Paul had convictions not only on short hair for ladies, but also on long hair for gentlemen. When a reporter called on the venerable chancellor of the University of Georgia, Dr. David Crenshaw Barrow, to ask him what he thought about the cry of hair-cutting now engaged in by southern girls, "Uncle Dave" passed the buck to the well-known correspondent with the Corinthians. Reading from the eleventh chapter of the first book, the chancellor unburdened himself of this opinion: "Judge in yourselves; it is comely that a woman pray unto God uncovered. Doth not even nature teach that if a man hath long hair, it is a shame to him? But if a woman hath long hair, it is a glory unto her for her hair is given as a covering." Down south where the chancellor is known as "The Grand Old Man of Georgia," his opinion on matters of import carries such weight that his disapproval may stop the harvest of the crop.

If his influence will only extend up north to Greenwich village and its environs, it will convince the gentlemen that "long hair is a shame unto them" the world will owe "Uncle Dave" a debt of gratitude.

Bible Also Objects to Men With Long Tresses, Noted Churchman Says.

ATHENS, Ga., Sept. 27.—The opinion of the Apostle Paul is the latest to be quoted on the subject of bobbed hair. It appears that Paul had convictions not only on short hair for ladies, but also on long hair for gentlemen. When a reporter called on the venerable chancellor of the University of Georgia, Dr. David Crenshaw Barrow, to ask him what he thought about the cry of hair-cutting now engaged in by southern girls, "Uncle Dave" passed the buck to the well-known correspondent with the Corinthians. Reading from the eleventh chapter of the first book, the chancellor unburdened himself of this opinion: "Judge in yourselves; it is comely that a woman pray unto God uncovered. Doth not even nature teach that if a man hath long hair, it is a shame to him? But if a woman hath long hair, it is a glory unto her for her hair is given as a covering." Down south where the chancellor is known as "The Grand Old Man of Georgia," his opinion on matters of import carries such weight that his disapproval may stop the harvest of the crop.

If his influence will only extend up north to Greenwich village and its environs, it will convince the gentlemen that "long hair is a shame unto them" the world will owe "Uncle Dave" a debt of gratitude.

PREMIER'S NOTE TO IRELAND IS CONCILIATORY

Makes It Easier For de Valera To Agree To the Meeting.

DAIL MEETS TOMORROW

Lloyd George's Communication Is Causing Gratification in Dublin.

LONDON, Sept. 29.—"Wholly conciliatory" is the view expressed both in London and Dublin of Mr. Lloyd George's latest note to Eamon de Valera, in which the prime minister invites the leaders of the Sinn Féin to a conference in London, October 11, in an endeavor to settle the Irish controversy.

Mr. Lloyd George makes as the basis of the note the offer of a conference with a view to ascertaining how the association of Ireland with the community of nations known as the British Empire may best be reconciled with Irish national aspirations.

It is understood that various members of the British cabinet are of the opinion that there is nothing in the communication to prevent the proposed conference. This certainly appears to be the belief held by the London public and press, and the comments thus far received from Dublin speak of "the extreme gratification" the communication is causing there.

Unionist opinion in Ulster, according to Belfast reports reaching London, is that the note makes it easier for Mr. de Valera to agree to another meeting. Informal discussions among the Sinn Féin leaders are said to have been held in Dublin this afternoon and this evening. This is considered as lending strength to the report that Mr. de Valera will have the draft of his reply to Mr. Lloyd George ready when the Dail Eireann "cabinet" meets tomorrow.

ASSAULTS HUMILIATION.

DUBLIN, Sept. 29.—Eamon de Valera, in opening a fete at Shelbourne Park this evening, in aid of the republican prisoners' fund, said there were six thousand men under detention, representing about 15,000 dependents. These prisoners had given their all in devotion to Ireland and the nation would not forget them.

CIVILIAN KILLED.

DUBLIN, Sept. 29.—A conflict between civilians and police in Tipperary last night resulted in the death of one of the civilians and wounding of two other civilians and two policemen. It was announced in an official report from Dublin today. London officers are holding an inquiry into the incident.

PARIS THIEVES ENTER AS FUNERAL LEAVES

Wreath Is Ruse To Gain Admittance.

PARIS, Sept. 27.—Whatever else may be said about the epidemic of robbery—with and without violence—which shows no sign of abating, it certainly does not lack variety. The public is becoming almost accustomed to the abstraction of traveler's valuables on trains.

For originality in the art of thieving, a ruse adopted by two men who rifled a flat in the Avenue de St. Ouen in Paris is hard to beat. Undeterred by respect for the dead, one of the men endeavored to obtain admission to the home of an old antiquarian five minutes after the funeral cortege of the latter had left by representing that he had been sent to disinfect the premises. The conceiver had not got the key, and told the man to return later. A quarter of an hour afterward another man came to the house, carrying a beautiful wreath, and appeared heartbroken on hearing that the funeral cortege had already left. He talked of the dead antiquarian in moving terms, and kept the conceiver in conversation for half an hour, when he departed. The conceiver then discovered that the man was the old man's son, and had been ransacked and a large sum of money as well as jewelry to the value of 5,000 francs had disappeared.

SKELETONS OF 1653 AT LAST IDENTIFIED

Four Century Old Controversy Settled by Inscription.

PARIS, Sept. 29.—After historians, scientists and numismatists struggled for nearly four centuries over the question, the French Academy of Science has decided that skeletons discovered in 1653, when laborers tore down a castle wall near Tournaï, are actually those of Childeric I, Frankish King from about A. D. 450 to 481, and his wife, Basine. The identification was established by the discovery of a handful of gold coins with the remains. The coins bore the profile of the king and his son, Clovis, on one side and the inscription "Childeric I" and the date "477" on the other, Childeric having died four years later.

British numismatists have long contested the French theory that these remains are those of Childeric I and his queen, on the basis that ancient kings seldom used the knifed form on their seals, but the French now point out that the deviation in this case was natural and was followed by several Frankish rulers after Clovis' reign.

M. Reinach, a French savant, declares that the royal tomb not only yielded Childeric's seal ring, but also a smaller gold band, presumably the wedding ring of Basine, both of which were stolen from the museum in Tournaï more than a century ago, but the accurate measurements of which are still preserved.

OBJECTS TO WAY NEW YORK IS GAS IS TAPPED BOOZE MECCA

Referee Henderson Criticizes Methods Used by Kent Farmers.

Chicago Though Seems To Have Greatest Number of Bars.

CHATHAM, Sept. 29.—The gas inquiry to consider the question of the service charge was opened before Referee Henderson in the county court house in this city this morning at 10 o'clock. At the outset Referee Henderson stated that the service charge had been instituted to cope with a summer difficulty. At the time of the decision it seemed like a solution, he stated, but since then he had thought over the matter carefully, and was now of the opinion that it was not entirely satisfactory; that was the reason he had initiated in Toronto several weeks ago that he was prepared to rehear facts surrounding this feature. He stated that he went on a tour of inspection through the producing townships yesterday, and that he was not satisfied with the system used by farmers of "tapping the line." "My summer rate was fixed by taking the commercial value of gas and adding the proportion of distributing costs," he stated. "At that time, however, no evidence was given regarding the fact that certain farmers act as their own distributors, and they should have some benefit for this. Yesterday I also paid particular attention to the producing townships."

Quite naturally, perhaps, noticed particularly the inconvenience where drainage was affected. When wells are being pumped out, for instance, the refuse has to go somewhere; it goes into the drains. The subsequent cleaning out of the drains is not a pleasant piece of work. The question might arise as to the right of the municipality to allow the use of drains for that purpose. If this practice is to continue some consideration should be given to that feature," he declared. He also deplored the fact that evidence given at a previous hearing, particularly as to pipe lines, was not satisfactory, and was in a sense misleading. He expressed his dissatisfaction at conditions at the producing wells, which, he said, were inexcusable. He also stated that more attention should be paid in dealing quickly with leaks in gas mains.

Consumption Grows. P. S. Coate, manager of the Chatham Gas Company, was the first witness called. He stated in his evidence that there are 3,700 meters in Chatham, on which a service charge is paid. The gas consumed in the city during June at a 45-cent rate was 11,500,000 cubic feet; in July at a 45-cent rate, 20,500,000 cubic feet. The amount received in service charges during these two months was \$24,000. Referee Henderson instructed Mr. Coate to furnish all information he could to expedite comparisons of costs of operation during summer and winter months. This, the witness promised to do.

Arthur Ting of Buffalo, a consulting engineer in the service of the Union Natural Gas Company, O. L. Lewis, K. C., for the City of Chatham; J. M. Pike, K. C., for Raleigh Township; R. L. Gosnell of Philadelphia, the eastern townships of the county; City Solicitor P. D. Davis, for Windsor; Mr. Cowan for Sargis. Col. R. B. Harkness of Toronto, natural gas commissioner for Ontario, was present. Mayor F. H. Brisco, president of the Chatham Gas Consumers' Association, was also present; Aldermen M. J. Mindorff, Victor Lauriston, W. M. Gray and J. W. Harrington, were interested spectators in the well of the court.

RUPTURE EXPERT HERE

Seeley, Famous in This Specialty, Called to London.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Tecumseh Hotel and will remain in London Monday and Tuesday only, October 3 and 4. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects—immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Governments, Washington, D. C., for inspection. He will be glad to show instruments without charge or if them if desired. Business demands prevent stopping at any other place in this section."

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

BUFFALO, Sept. 28.—A survey of just how prohibition is or is not working in out in a number of the principle cities of the United States has just been made by a New York paper. A dozen large centres have been investigated, and the conclusion arrived at is that the country is being flooded with illicit liquor. E. C. Yellowley, assistant director of prohibition enforcement, has stated that it would cost half a billion dollars and require an army of a million men to make New York dry, which sounds rather incredible. But, according to facts and figures gleaned all over the United States by investigators, an immense trade in liquor flourishes in New York, and in some other large cities the prohibition law is violated even more flagrantly.

Drinks 50c to 75c Each. The price trend of bootleg liquor seems to be downward though. It varies widely in different sections of the country. Good liquor, it is said, may be bought by the quart in New York for \$7 or \$8—some of it for much less; some for more. In Chicago bonded liquor slips over the bar for 75c a drink, and can be purchased at \$11 a gallon. Prices for whiskey in Boston are 50c and 75c a drink, with bulk prices about the same as those in New York. Bonded whiskey brings \$24 a less wide-open Cleveland brings \$24 a quart, while in Cincinnati in the same state it brings but \$7. New Orleans seems to have seen the most spectacular fall of prices of the cities. There fall of prices of whiskey fell per quart in six months from \$18 to \$7.

Deadly Wood Alcohol. Meanwhile one hears but little of wood alcohol concoctions which caused so many deaths in the early days of prohibition, and the quality of the liquor seems generally to be rising as the bootleggers perfect their arrangements for smuggling genuine goods across the border from Canada and Mexico and through the Atlantic seaports.

Chicago's 3,000 Boozie Bars. Wild Chicago conceals the greatest number of bars in the matter of liquor law breaking. In fact, Washington has sent a special reinforcement of prohibition agents to Chicago to deal with the city. Until their arrival there a few days ago it is said 3,000 bars existed at which intoxicating liquors could be bought. Besides which bootleggers supplied private customers with large consignments. Chief of Police Fitzsimmons recently declared that Chicago was more drunken than ever, and that he thought that 50 per cent of the police force was in league with the liquor sellers.

NAZIM BEY TURKISH HERO OF KUTAHIA

Loses Life, But Saves Bulk of Ismet Pasha's Forces.

Constantinople, Sept. 27.—Col. Nazim Bey, with his fourth division, lost his life and saved the main body of Gen. Ismet Pasha's forces from being taken in the rear and possibly destroyed during the frontal attack made with superior forces and equipment by the Greeks in the Kutahia zone.

In recognition of his services, Gen. Ismet Pasha sent a note to the army, stating that in his entire military career, including also his knowledge of military history, he knew of no finer example of heroism and intelligent valor. He also paid high tribute to the remnants of Col. Nazim's division, remaining after standing for two days against three Greek divisions, any one of which was stated to be superior in numbers to that of Nazim's.

The Greeks had planned, in addition to the frontal attack on Kutahia, a surprise raid on the Turkish rear with three flying divisions, and the surprise attack was to have been complete.

So soon as their presence in force was discovered Col. Bey was detached from the main army to stop them, or halt their progress until the retreat from Kutahia could be effected. He did so, and during these forty-eight hours of constant fighting and retreating he was wounded by a rifle bullet, but kept on his horse, until struck by a second bullet, toward the end of the fight. He died, but with the knowledge that he had saved the main body of the army. "Kismet" (This fate) were his last words.

Col. Nazim Bey was a short, thin man of 45 years, quiet and gentlemanly in his deportment, speaking but rarely, with a large head and thoughtful, melancholy grey eyes. A soldier by profession, he served during the general war on several of the fronts, but mostly on the Russian. He would have borne the title of general as division commander under the old imperial army, but the Nationalists have suppressed that title except for officers commanding more than an army corps.

HIGHER RATES CAUSE PHONES TO BE DROPPED

St. Thomas Citizens Feel New Rentals Are Too Costly.

STUDYING ECONOMY

ST. THOMAS, Sept. 29.—The proposed raise in the telephone rates as they affect subscribers in St. Thomas may compel many residents for economic reasons to join in the party line service, and to suggest to others to get rid of what is regarded by them now as an expensive luxury.

The figures in St. Thomas as proposed by the company are: Business phones, \$2.57 to \$3.50 a month; two-party business lines, \$2.05 to \$2.50; four-party business lines, \$1.85 to \$2.50; private branch exchange trunk, \$2.57 to \$3.50; residence phones, \$2.05 to \$2.75; two-party residence, \$1.85 to \$2.25; four-party residence, \$1.54 to \$2.

There is no change in long-distance, rural party lines, extra equipment, etc.

Appeal Held Over.

Because the charge laid against John E. Jones, South Yarmouth, of perjury may not come to court for a general hearing before December 1st at the appeal held over.

The Queen's Hotel, Dutton, was offered for sale recently, because of a default in the payment of a mortgage, but the reserve bid was not reached, and the property was withdrawn for private disposal.

Going To London.

A committee consisting of Chairman Rev. J. W. J. Andrew, Principal Voaden, Inspector Taylor, and Mr. G. W. Heron, will visit the London Technical College tomorrow, Friday afternoon, with a view to getting information on the cost of building and equipment and other details.

Rev. W. Stanley Owen, Toronto, has been the choice of a majority of the Wallaceton Presbyterian Church, and will be given a call. The call will be presented by P. G. Cameron, M.P.P.; D. C. McKellar and J. A. Cameron. Mr. Owen was at one time pastor of the church at St. Thomas.

CITY SAVES BY DAY LABOR PLAN

St. Thomas Will Improve the Streets To Give Employment.

[Special to The Advertiser.]

ST. THOMAS, Sept. 29.—The board of works, at its September meeting this afternoon, found that where the city has been doing work by day labor in the construction of storm sewers, it has made a saving of 38 cents a foot, as compared with the price paid under the contract system.

Work for Unemployed.

The underground work for the improvements of several streets in the city in 1922 will be started this fall and will allow for giving work to many of the unemployed in the city while the weather is propitious. The streets suggested are St. George, Mary, Hiawatha, John and Metcalfe.

Chairman Curtis recommended a private bill be passed by the Legislature giving power to the council to resurface Wellington and Manitoba streets, which had been covered with Westrumb, the cost of the improvement to be met by general tax.

The city engineer reported that about 100 yards of asphalt laid a year ago was not satisfactory, and that the company be asked to make the necessary repairs.

Walk at Farley Place.

A deputation from Farley Place asked for the construction of a sidewalk in that urban annex. J. Roberts, who owns 165 feet of frontage on the route of the proposed walk, protested against its assessment for the cost. The committee refused to do the work until Mr. Roberts signed the petition.

The guarantee company that bonded the asphalt contractors asked for a certificate of the completion of the improvements. The engineer was instructed to issue a certificate and keep

back \$200, the probable cost of the asphalt reported to be faulty.

Location of Gas Tanks. The merchants on Talbot street west sent in a strenuous objection to George Spackman erecting a gas distributor on Talbot and East streets. A committee was named to look into the complaint and bring in a report of the gas tank conditions on Talbot street, with a recommendation that all tanks on the main thoroughfare be placed on the back streets.

BRITISH ARMY TESTS NEW FORM FOR TANKS

LONDON, Sept. 27.—Land tests were made at Aldershot with one of a pair of experimental tanks. The tanks were about "whippet" size, but there the resemblance ceases. The machine resembles a "baby" submarine, standing high over a pair of caterpillar wheels. To all appearances the body is watertight and is entered from a hatchway at the top. Of portholes or gun slits there is no outward sign.

In the trials, which were carried out over undulating heatherland, the tank developed a speed of twenty miles an hour. It lacked a good deal of the heavy motion common to the thirty-ton machine, and the body maintained a fairly horizontal position. In fact, at a distance the vehicle resembled a slow armored car rather than a tank.

This new variety of tank has under some several water tests. It can make its way easily through a considerable depth of water, and might, were the depth available, conceivably submerge and crawl under any water tank. Judged by the trials already made, it is scarcely yet prepared to undertake "swimming" trials, although it is quite possible that subsequent modifications may endow it with nautical powers in the very near future.

It was stated in the Times recently that a sea tank made by the French Government carried its inventor and five passengers over land and water.

CLEAN UP RIVER FRONT AT WINDSOR

[Special to The Advertiser.]

WINDSOR, Sept. 29.—Reinforced by sixteen special officers from Toronto, and acting on direct orders from Attorney-General Roney, it is said, provincial officers and license inspectors today commenced a clean-up of numerous "blind pigs" and resorts along the river front, known as "summer cottages."

Tipped off by local men, who are being used as "spotters," it is said, provincial officers have carried out a series of raids during the day, no fewer than 25 roadhouses, resorts and private residences being searched and "fett out" for drinks.

"Spotters" were successful in obtaining liquor at the homes of E. Courtenay, 217 Albert road, and Anthony Budnick, Ford; Joseph Daniels and Joseph Dougal, Riverside. These paid a total of \$800 and costs. A charge of selling liquor against Remi Raume, River-view Hotel, Windsor, was dismissed.

SCHOOL PARADE WAS NOTABLE FEATURE

Kingsville Children Staged
Successful Fair Despite Rain.

[Special to The Advertiser.]

KINGSVILLE, Sept. 29.—Rain, although soaking the grounds, did not in the least dampen the enthusiasm of the boys and girls with their teachers, parents and friends attending the school fair held here Tuesday. The school parade, the first item of the afternoon's program, like the other classes of the fair, was a symbol of painstaking effort on the part of teachers and pupils.

This fair was under the direction of the Essex branch of the Ontario Department of Agriculture, and J. W. Noble, agricultural representative, was assisted by R. K. Stratford of Brantford in judging the classes, with the exception of the girls' work, including cooking, sewing and flowers, which were judged by Mrs. Naylor and Miss Adams of Essex.

Sports in charge of W. E. Short of Essex formed an interesting part of the afternoon's program. Below is a list of awards:

VILLAGERS DEFEND BURNING OF YOUTH IN TIME OF WAR
Say Camille Caron Admitted Guilt in Destroying Warehouse.
Paris, Sept. 30.—The revelation this week of the execution of an 18-year-old youth in the early days of the war, because he had set fire to a warehouse belonging to the mayor of Vandœuvre, has gone down in history as evidence of the public sensibilities can be blunted by the constant sight of bloodshed. Even the French police assigned to investigate this strange story, which had been hushed for seven years, were astounded to find that a dozen prominent citizens who admitted that the culprit, Camille Caron, was not only beaten and stoned, but that his arms were broken and he was thrown into the flames for which he was responsible.

INDIAN'S STAND SAVED CANADA
History Shows the Mounted Police Inspired Crowfoot's Loyalty to British Crown.
Quebec, Sept. 29.—That the romance of Canada recently changed the name of a small western community from Crowfoot Crossing to Gleichen, it wiped away a tribute to one of the greatest Indian leaders of the Northwest—Crowfoot, chieftain of the Blackfeet and head of the powerful and warlike confederacy composed of Blackfeet, Bloods, Piegiens, Sarcees and other allied tribes. His jurisdiction extended over more than 10,000 warriors and his domain included the greater portion of Western Canada.

SHOWS 200 DECREASE
Kitchener, Sept. 29.—Assessment Commissioner Hueshner stated today that Kitchener's population would total 22,800, a decrease of about 200 from last year. The population of the city is considerably above the recent returns of the census department at Ottawa, which was 21,650.

GERMANS BUILDING EMIGRANT SHIPS, ALSO FREIGHTERS
NOW HAVE 600,000 TONS
Space Gained, and Hamburg Has Appearance of Great Activity.
Directing the Industry to Commercial Rather Than Passenger Vessels.
BERLIN, Sept. 30.—"German shipbuilding lines must forego the satisfaction of building luxurious liners to replace those handed over to the Allies and must concentrate their efforts on building freighters," declared Dr. Hasse, secretary of the Hamburg-American Line.

TRIBES FOLLOWED LEADER.
"He must see the frontier, titles of the red man against the white in the United States. He knew the power of the British, and besides he had a treaty with the Crown, and Crowfoot followed the leader."
R. G. McBeth, who knew Crowfoot in British Columbia, tells of the situation which Crowfoot had with the Indians. There was no military reason why Crowfoot and his braves should not have joined the revolt and swooped down upon the railways, which was going to be the country's ruin. His bright, newly-laid rails, thus preventing the transport of soldiers to crush the revolt, and leaving the vast country under the rule of the Indians. But back of Crowfoot's loyalty in that critical hour was his own innate sense of justice, and the firm and fair administration of the Canadian Northwest.

MAKING THE TREATY.
Gov. Laird was a very imposing man, more than six feet tall, frank and manly looking and possessed of a mellow musical voice. He came to be known among the Indians as the "man who talked straight"—a fine designation for a truth-teller and in direct contrast to the man who "spoke with a forked tongue," which was the polite way the Indians had of calling a man a liar. He was a stern, impressive man with a lionine face and princely bearing. On this occasion Gov. Laird made an impressive speech, beginning with the words:

THE DREAD PYORRHEA BEGINS With Bleeding Gums
Pyorrhea's infecting germs cause many ills. Medical science has proven this.
Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.
Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.
And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.
Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment.
35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

SPORTS FEATURE GENDALE FAIR

Interesting Address Delivered by Jack Miner On Ontario's Birds.

[Special to The Advertiser.]

GLENDALE, Sept. 29.—S. S. No. 8, Westminster, held a most successful fair. This was the first school fair this community has had, and judging by the splendid exhibits and the excellent attendance, it is likely to become an annual event. A short program, consisting of a drill, choruses and recitations was followed by speeches. Mr. P. J. Thompson, public school inspector, spoke on the need of more co-operation between the home and school, and the beautification of the school grounds. He advised better equipment, both in the school and on the playground as a means of keeping the young people on the farm. Mr. Jack Miner, the well-known bird man, gave a short and intensely interesting talk on "Birds." He gave some instances of the great sagacity of birds, using the Robin as a special example. The sports program and prize list was as follows: Children 6 and under—Eleda Parsons, Hazel Calhoun. Race, Primer and First Class—Muriel Rhonie, Alberta Hawthorn. Race, Primer and First Class, boys—Arthur Johnson, Roy Osborn. Race, II, III, and IV, classes, boys—Percy Rhonie, Gordon Bowring. Race, II, III, and IV, classes, girls—Alice Hawthorn, Hilda Dorman. Claim U. S. Should Be "Thankful" For Dry Law.

LONDON, Sept. 29.—"The suppression of the saloon is an achievement for which the people of the United States cannot be too thankful," declared a joint report of Charles H. Stuch and John E. Davison, Labor members of Parliament, who recently visited the United States to investigate the operation of prohibition.

"Prohibition, however, as we in this country were led to believe it prevailed, does not exist," adds the report, which also notes the development of home-brewing, wine-making and illicit traffic in liquor. The report declares: "If ever it is sought to impose a similar law on our statute books the electors must know to it that it is not 'pledged' upon the drawing of the ballot, but that its acceptance shall be only after a full opportunity is afforded for its adequate consideration, and it is submitted for their approval and consent in a constitutional manner."

URGES "STRONG" DEATH BASTILE

Provincial Secretary Would Segregate Prisoners Found Guilty of Murder.

TORONTO, Sept. 29.—It is unlikely that dangerous criminals from various parts of the province will be segregated in a single central "strong prison," according to a statement made today by Hon. H. C. Nixon, provincial secretary, while discussing the joint reports and recommendations submitted by W. W. Dunlop, inspector of prisons, and Edward Bayley, deputy attorney-general, following the probe into the escape of the Murrell brothers from London jail. Mr. Nixon stated that wherever there was any doubt about a county jail being strong enough to hold a dangerous criminal, he would not hesitate to issue an order to have the man taken either to the Toronto or Guelph jails. But, generally speaking, he considers that the danger of escape during transit between the jails would make such an arrangement inadvisable, where there was safe local accommodation, for the prisoner would have to be taken first to the central jail, then back to the county seat for trial and then make the third trip back to his ultimate destination. Mr. Nixon, however, was entirely in favor of a central provincial "death jail" for criminals who had been tried and found guilty of murder and sentenced to be executed. Here they could be kept under special death guards and here also they would be hanged when the appeal failed.

When questioned as to what steps would be taken towards reorganization at London jail, Mr. Nixon stated that he would accept the resignation of Governor James Carter, but he was not prepared to state whether the minor officials, such as the jailers and turnkeys, would be dismissed or not. Action upon the recommendation affecting the sheriff and deputy sheriff rests with the attorney-general's department.

N. Y. Bradline First in Years

NEW YORK, Sept. 29.—New York's first Bradline since the stormy days that marked the start of the war, was in operation today at the Church of St. Mark's in the Bowery. The Bradline was opened last night under direction of Dr. W. N. Guthrie, pastor of the church, as a result of conferences last week with Urban LeDoux, champion of the unemployed. About 600 men, many of whom raced from the benches in Bryant Park to be first in line, were served. Members of the industrial aid bureau reiterated today that unemployment conditions here had been over-painted. It was pointed out that the municipal lodging house and other agencies where shelter was provided for the homeless were in exchange for two hours' work were running at far below their capacity. Major Edward Underwood, Salvation Army representative on the committee, declared that the great majority of the men sleeping in parks and seeking alms were "floaters" attracted from other cities by reports that jobs were being well-cared for here.

EXHAUSTED SOLDIER SLEEPS ON TRACK

[Special to The Advertiser.] ST. THOMAS, Sept. 29.—Out of work without a sou and exhausted from his long walk on the ties, a young fellow was found asleep on the L. & P. S. tracks today by the company's special agent, Hammersley, and brought before the county magistrate on a charge of vagrancy. The traveler, who is a returned soldier, told such a tale of hardship and ill-luck that the squirrel took pity on the man and, giving him some homely sympathy, accompanied him to a substantial dinner, the magistrate advised Lieut.-Col. Gerrard and the Soldiers' Aid Society of the young fellow's condition and a promise was given he would be looked after.

FOWL SUPPER AND CONCERT.

SAINTSBURY, Sept. 29.—Great success attended the fowl supper and concert held in aid of Kirkton parsonage fund in the hall adjoining the English Church here on Tuesday night. Over 300 guests were present. George Stanley acted as chairman.

Must Show His Qualifications

Barrister F. C. Kerby's Status Challenged by Liberal Organizer.

[Special to The Advertiser.]

WINDSOR, Sept. 29.—Notwithstanding the denials of Barrister F. C. Kerby, a possible candidate in North Essex, that he is not living in Detroit with his mother, Barrister William Egan, organizer for the Liberal member, this afternoon said Mr. Kerby will be asked to show residential qualifications before he is allowed to vote. As asserting that Barrister Kerby's name was not on the voters' lists used at the last Dominion elections, Barrister Egan said it is common knowledge that Mr. Kerby crosses to Detroit every night, returning to Windsor next morning. "We shall certainly contest the claim, as we did four years ago, of Mr. Kerby to vote in this constituency," Barrister Egan said.

BRANT TORIES ORGANIZE.

BRANTFORD, Sept. 29.—Liberal-Conservatives of Brantford riding tonight organized with the following officers: Past president, S. J. Calbeck; president, Capt. A. H. Hanson; vice-presidents, Mrs. S. W.
