## A Chat with our Readers.

## TO OUR SUBSCRIBERS

The subscription price of the Western Home Monthly has been increased to $\$ 1.00$ per year or three yearly subscriptions for $\$ 2.00$ or four yearly subscriptions for $\$ 2.50$, with premium to club-raiser.

The subscription price of the Western Home Monthly has been increased because the magazine has been enlarged, improved and beautified to an extent that fully justifies such an increase. It will be still further enlarged, improved and beautified during the year 1911, and will not only be fully worth the increased subscription price, but will be remarkably cheap at that price.

Perhaps the strongest evidence of the high opinion that readers have of this magazine has been shown in the large number of yearly subscriptions that have been sent as Christmas presents to friends of our old subscribers. If you were pleased with the wonderful improvement made in this magazine last year, you will be more than pleased with the issues of 1911.

As a matter of fact we are making new records in subscriptions, and during December we easily beat all records. Of course the Christmas number, shown to those having never seen a copy of the Western Home Monthly, made it easy for the friends of our subscribers to subscribe. It is a recognized fact that the Western Home Monthly represents the largest dollar's worth of literature obtainable in Canada and the letters we receive from our readers every day, containing words of eulogy for the Western Home Monthly, are very encouraging to us.

## TO OUR CLUB RAISERS

In nearly every community there are dozens, in many there are scores and in others there are hundreds of people who would gladly subscribe for the Western Home Monthly for the coming year, if they were shown one issue. Everybody should get up a club this year It will be the greatest year for club-raisers in the history of the Western Home Monthly, and all who make an effort in this direction will be successful and secure one or more of the splendid premiums we offer.

Tell all your friends and neighbors that by joining in a club, the enlarged, improved and beautified Western Home Monthly may be rad for only $62 \frac{1}{2}$ cents, which is even less than our old subscription price. Make up your clubs of both renewals and new subscriptions-it makes no difference-both are taken upon the same terms. Clubs may be made up now in less time and less effort than ever before, therefore you should "make hay while the sun shines," and get as many subscribers as you possibly can, and so secure some of our splendid premiums, which are finer this year than ever. In conclusion you will therefore note that while single subscriptions for the Western Home Monthly cannot be accepted for less than $\$ 1.00$, $\$ 2.00$ will pay for three yearly subscriptions, while all club-raisers sending us $\$ 2.50$ for four yearly subscriptions will be entitled to select any of the valuable premiums which we are now offering. Club-raisers sending us $\$ 5.00$ for eight yearly subscriptions will be entitled to two premiums and so on.

## TO OUR ADVERTISERS

The many improvements inaugurated by the Western Home Monthly will, we trust, make it more profitable than ever to its advertisers.

We are not ungrateful for what our advertising patrons have enabled us to do, and it is our intention to give them the benefit of their expenditure not only in increased circulation but in a magazine greatly beautified and strengthened in its every department.

If the journal in the past has invariably brought tangible results its patrons it can confidently be expected that the future will do

# R 15,000 Canadian Poultrymen Have Doubled Their Profits By THE PEERLESS WAY 

What these poultrymen have done you can do-no matter in what part of Canada you live; you can raise the crop that never fails-the crop that knows no bad years! If you have never kept poultry do not let that deter you; you will have fewer formed habits to overcome and will be ready to let The Peerless Way lead you to success. Or if you have been keeping poultry in a haphazard way, The Peerless Way will show you how to systematize your enterprise into a real money-maker. Even if you have made a failure of poultry-raising-even though you be discouraged-disinclined ever to consider poultry-raising again-investigate The Peerless Way for yourself and study the guarantee that it has to offer you; for, let us say this, whether you are simply a beginner, whether poultry forms only an incidental part of your farm work, whether you are already in poultryraising as a business, The Peerless Way affords you a real way

to increase the profits. Consider this very carefully. Then read every word of what follows and send for our big FREE book entitled " When Poultry Pays."

## Knowledge Is More Essential Than Money

Very little money will start right in profitable poultry-rais-ing-if you know how to go Peerless Way will show you ex actly what you have to do and how you have to do it to make money. The Peer less Way is more than merely a system fo raising poultry; it is a system for raising at a profit! The knowledge that The Peerless Way offers you is so explicit tha a child could not misunderstand it-it explains everything-and if, beyond that, some unusual problem does arise, our Poultry Advisory Board is at your service without charge to consider your case in

Poultry Raising is the Profitable Branch of Agriculture

0
Given the same care, time and attention as any other branch of agricultural work, there is no epartment that can be made to yield such handsome returns on small invescment. We know this- 15,000 Cânadian poultrymen, working with our co-operation, have proven it for us. But it is one thing merely to "keep poultry" and quite another to get every last cent of profit out of the work. The profits are in how to proceed, in the first place, and after how to proceed, in the first place, and after
that, knowledge of how to market your that, knowledge of how to market your

could explain to you how to get all the profits that rightfully belong to you. Write us for further inlet us tell you how it has been worked out, how it has been tested, and how it has been proven; let us tell
you why it is you why it is the only way that successfully meets in Canada on which poultry would not pay better than any other crop-why our methods are so simple
and yet so preter and yet so practical, that a schoolboy could not fail
with them-why you could not with them-why you could not find a better investment
for either part or all of your time. Send for the book.

## Individualism and Socialism.

The perpetual problem in every democracy is that of reconciling individual liberty and state sovereignty. How far shall the individual be free to
express his opinions? Is an unmuzzled press an express his opinions? IB an unmuzzled press an vidual be free to amass wealth? shal the multi millionaire a blessing or a curse to the community How far may one engage in a calling that brings
grief and ruin to his fellows. Should the state have the right to prohibit the sale of intoxicating liquors May one neglect to educate his children? May he, when suffering from contagious disease, mingle with his fellows? Or, turning from the individual to
the class, it might be asked if the state should have power to grant or take away privileges from any particular set of men. Has the state a right to grant bonuses to manufacturers, or to assist them by the imposition of duties? Has a railway
king any right to representation mittees of parliament if the day laborer from his position is unable to have a representative? There are scores of questions of this nature that might
be asked, and in all cases the readily given, for there ises tomethingwer to be said on be
both sides in nearly eevery
readily given, for there is someth
both sides in nearly every case.

## the evils of individualism.

The evil of unrestrained individualism it is not difficult to demonstrate. In the moral field as in the field of industry no man can be allowed free rein. Our legislature is already weighted with prohibitions that experience has found it necessary to insert. No liquor for minors, no cigarettes for
children. No open disorderly houses of obscene literature (but, unfortunately, the too free sale of much that is more poisonous than the obscene). No stealing, no profanity in public, $n$ assault, no libel. And so the list might be con-
tinued. It is to the credit the moral realm it has placed a just limitation on the freedom of citizens. In the field of industry it has not yet asserted itself, but must do so just may imperil the morality and permanent welfare of the whole people.

## all unfairness immoral

During the past few months there has been an During the past few months there has been an
agitation looking towards remedial and protective legislation in one or two matters that vitally con cern the great mass of citizen.s throughout the Dominion. The question of a lower tariff is, at ottom, a question of morals, so is the question of the ownership and operation of the Hudson's Bay
Railway. When, as a result of legislation, the people of Western Canada pay millions annually nto the pockets of a few manufacturers, and when, as a result of further legislation, a few railway magnates receive in cash, lands and bonds, close to rise to indignation and wrath, and, worse gstill, eads directly to a feeling of disloyalty, for how can nen be expected to love a land which belongs to the privileged 'few? The worst feature of the growth
f plutocracy in Canada is not that a few dishonest men have control of the wealth (it is said that one per cent. of the people own over fifty per cent. of
the wealth), but it is in this fact that there is no the wealth), but it is in this fact that there is no
patriotic feeling, and cannot be among men who ave been deprived of their wealth anong $m$ an

THE GROWTH OF INDIVIDUALISM.
Notwithstanding the fact that from century to century our governnent is nominally becoming more democratic, it is without doubt true that never before was there a time when we could claim such Nor aristocracy of wealth as can be found today. It has come into a few hands because unscrupulous individualism has been allowed to run riot

THE REMEDY FOR THE EVIL.
What, then, is the ordinary citizen to do? Shall he resort to violent measures? Shall he manufac ture bombs and bludgeons and take the law into
his own hands? Most certainly not, for there is open to us a way of peace if we we net, for there is
onough and patriotic enough to fous
ond enough and patriotic enough to follow it. Our
bullet is our ballot. Any free people can have any.
thing they wish in this world, if they but wish wruly, we can end the reign of offensive indi truly, we
viduality.

## the danger of state domination

Now to turn to the other side of the picture. It is possible for the state in its legislation to act the tyrant and to restrict unduly the right of the private citizen, or to impose upon him duties he
has no right to bear cases, perhans, in bear. In Canada there are few limited perraps, in which individual liberty has been dom has more than once been uniustly assailed. The great, sin of the parliaments of our land con sists in this-that the many are es acrificed to the the
few. The liberty of earning a fair day's wage for fair day's service is not always accorded the

vorking man, because of the privileges that have been granted to those who direct the giant concerns of the land.
However, in the smaller organisms within the tate, such as unions, clubs and parties, it is a letely submerged. To escape the to be comheir employers men form a union. The requently find themselves under a bondage much ore irksome than the first. While a non-union work as hard as' he pleased, he could go when he wished; but now he must ease up in his time and his faithfulness, and when the whip snaps he must ife. We are all continually escaping from such is tyranny to find ourselves under another form. Notwithstanding the immense monetary gains that into unions, it is possible that of life from forming into unions, it is possible that union men have less
freedom today than any other class. And what is rue of unions is true of political parties. The man who really wants a political plum can get it only rains the party' organism, but usually when he yains the plum he loses his own soul-his right to
honest thought, free speech, and independent action.

## THE RECONCILIATION OF OPPOSING FORCES.

 So it happens that in every human organization here is bound to be a conflict of opposing interesta and the only solution is through the method of giv and take. As a human being a man has a right to others. The golden rule is the all-sufficient guide in social and industrial isfe. As a member of an must sacrifice something in return for state, a man helden rule intore, again, he can put the same golden which can permit that state freedom-religious, social, industrial-but which, the same time, demands that each member in his activities shall have regard to the comfort and wel fare of his fellows. It is just possible that on thicontinent individualism has pushed itself forwa too prominently-that it has been selfish in the extreme. It is also possible that in the smaller de fensive groups the individual has been unduly sup-
pressed-all of which' is another way of saying that pressed-all of which is another wa
ideal conditions do not yet prevail.

## THE FARMERS' DELEGATION.

In light of the above, what shall be said of the farmers' delegation to Ottawa? This, in the firs place, that it was not there to seek favors for asking relief from certain burdens it spoke for al classes and conditions. If these men had gone down in an individualistic capacity, simply as represent ing a special class which was endeavoring to win received scant courtesy; but as they truly repre sented prevailing sentiment on the chief matters
submitted, their prestentment must be considered submitted,
seriously.
Nor is it difficult to forecast at this stage jus what redress they will obtain. On the question of chilled meat they will be promised consideration;
the question of terminal elevators will be decided in question of terminal elevators will be decided further than requested. As to reciprocity, there will e a relief in the matter of duty on agricultural mplements and a few other articles-just enough for campaign purposes. But when it comes to the
matter of the Hudson's Bay Railway, the present ailway interests will prevail. Government construction and control may be decided upon, but it may be depended upon that when it comes to the will be in evidence, and the new rates will be the very thing that will keep up the rates on existing the first place, the existing roads cannot this. In have an independent road in operation. They can fers come their way, but ten millions to have matroad must be theirs at any cost millions. The new case, elections cannot be run cost. In the second here are no contributors to election money, and So it may be taken for H.B.R. will not be heeded petion with regard to the ven a more stubborn resistance than has yet been

What are people to do? Just keep on agitating of course. Every man should besiege memlers of
the House with letters. They cannot use bullets, out they can use billets until such time as they

## Revelation.

## By Frank H. Shaw

T ${ }^{T}$ was on the last night but one of the ton found himself. Catching the Speaker's eye, he rose in his place and began
to speak. With some diffidence faltered through his preliminaries, and
then, growing bolder, he launched forth into his theme with an eloquence and a sentient murmurs were drowned at their birth. Men who had sat there for hours, bored beyond expression, roused
themselves and glanced with interest at themselves and glanced with interest at
the tall young figure with the earnest face and the glowing eyes. Those on the front benches began to turn their heads, restlessly at first, but their rest-
lessness vanished as the impassioned lessness vanished as the impassioned
periods volleyed among the benches and rang in the vaulted roof.
After a speech that had lasted fortyfive minutes, and had been listened to with an interest that the House never
remembered, Creighton sat down amid a burst of ringing applause.
Men craned over towards him, and
patted him on the back. Though the patted him on the back. Though the Speaker and stood nervously determined,
his voice could not penetrate the din It was not a question of party interests that had occupied Creighton's intellectual tirade; it was a national matter of all-consuming import, and he knew, as
he took his seat, that he had carried his point. The House rose in a tumult, and Creighton passed out into the open air,
his mind in a whirl, his heart beating his mind in a whirl, his heart beating strangely, his head swimming with the
intoxication of sudden success, than intoxication of sudden success, than
which, perhaps, there is no sweeter, more subtle intoxication known.
The chief of his party stopped him just as
hand.
"You should go farr," said the great man, with a smile that was both sad and and knew the taste of the wonderful joy that comes to him who has striven the Opposition had a friendly nod for the young member for East Kilbride, and many another man who had had his
chance---and failed-bestowed ungrudg chance--and failed-a lowed ungrudg
ing praise of word and look on the hero of the moment.
Carried out of himself. Creighton passed to the Terrace and looked down on the swirling tide of the Thames. The
lights of the opposite shore were flected wanly in the turgid flood; the steady swirl and rush of the headlong
waters were in keping with waters were in keeping with his
thoughts. For of mental twisting allowed the roung man to compare himself with the stream that flowed beneath him. Was he like it? he asked himself. Should he go for Ward, ever widening, growing in impor-
tance with every stride, until he bore on ins shoulders the very welfare of a nation? But a nother thought struck him close on the heels of the first. The land he seryed, but presently. flowing onward throtght the world's richest city, the river became merged in the sea and was lost to human ken.
Even so might he fare. Public acclaim Was an uncertain thing. He had car-
ried liis hearers with him on a flood tide of rhetoric, had swept a way the opposi
tions of those who would have stay ions of those who would have stayed
him, lut -what was it all worth? Did it mean ultimate submergence. a sink tities of those others who. in common "hamself, flocked daily to the House The words came to himit faintly, but he straightened himself instinctively,
for his own heart told him they referred
to what to what had gone before. A couphe of Tracheraming.
orreighton
indeed. "I shouldn't be surprised that speech of Notly, of course; but I fore top. an Under-Secretaryship almost foremediately. There arn't many strong
men, and he's undoubtedly strong. men, and he's undoubtedly strong. I
heard Sir Edward Freshman call him 'The new Pitt' five minutes ago. Creighton craned forward, but the night was dark, and he could not distinguish the features of the speaker. He voice that he was in earnest. Wave after wave of exultation surged through the young man. He felt all the glow of a conqueror, and the sweetness of his sue-
cess was still unembittered. That would cess was stil unembittered. That would
come on the morrow, perhaps, when the newspapers took up the tale and spoke their mind, unaffected by the personal magnetism of the man who had stirred
his listeners to the core. his listeners to the core. had first spoken. "Great promise. But then, many others have shown great promise, too. I only hope Creighton
won't fall suddenly, as suddenly as he won't fall suddenly, as suddenly as he
has risen. One can never tell. But if I were in his place, with my life before me, untrammelled, rich, I'd never stop until I'd raised myself to the very top
of the tree. That's his chief asset, the fact of his being unhampered. Once man marries he's done. If he marries a political woman she starts a salon, and then-well, the men whose wives
have salons don't go very far. There have salons don't go very far. There
can't be two strong souls under one roof without disaster. If he marries a sweet, clinging woman, love proves fatal. No man can serve two masters, especi
ally today. Political success is a master that requires undivided attention. Love also is another insistent dominie. He who tried to love a woman and make Parliamentary career would fall be
tween two stools, and the end would tween two stools, and the end would
very much worse than the beginning. "So that's your opinion. is it? Well there's truth in it. too. But I ventur to predict that if Creighton remains un married, and if he follows up the promis of tonight by the practice of the future,
he'll be Prime Minister before he's thirty-five. The country's waiting for him. If that speech had been made against the Government, the whole coun
try would have risen. and demanded try would have risen. and demanded an
election. Hell go far, once he's got rid of his personal note, and learnt to make himself a part of the machinery. His egotism came out here and there. you
know; but that's youth more than thing else." "Yes: and that exotism is just the Yes: and that egotism is just the
downfall of the many That's where marriage is fatal to sticcess. For if the man marries, his egotism becomes more
rampant than ever. It's fanned by the entle admiration of the one woman. o it's called into the action by the oppo-
sition of the one woman. if the wife ition of the one woman, if the
happens to be of the militant sort." "But then, Sir Frederick. you're a "And whr shouldn't I be? Good Heavens, my heart bleeds for my sex shen 1 see the careers that have bee
sarificed on the altars of a woman's de mands. Look at Sidney, look at Went.
worth. look at half a dozen in the House worth. look at half a dozen in the House
tonight. If Creighton is a wise man, e'll climb alone, and then-we shall

They strolled away, leaving the mem ". $n$ flicting emotions. "And that's what it all turns on?" unseeingly on the river. "Love and success cannot mix. They re oil and water.
Wrell, what has it to be? There's Mar Well, what has it to be? There's Mar-
jorie on the one hand. and the high jorie on the one hand. and the high
places of the world on the other. And its come to this: that tonight I must
make my choice. Love versus Greatness make my choice. Love versus Greatness:
Aud Goil knows how I want to be great!" H1, roused himself, conscious that the clammy night was chilling him to the Comal speech was dimming before th nother voice. which liw remgized with rush of other thoughts now. One face
of the night, and he sighed a little as he
allowed his thoughts to carry him to $a$ house not tar away.
"Shall I go $?$ " he asked himself, as he "Shall I go." he asket himself, "as he
walked slowly along the terracee. "Shall walked glo. If do, I shall get-what?
Ia go
Prise, soft glances, whispers of ador ing worship? Perhaps. But that would never do now. No, I mustr't go. It
would be fatal. Thank the powers It would be fatal. Thank the powers I
never spoke. Now, one must think, and never spoke. Now, one must think, and
think hard. Suceess or Love? Choose ye this night! !
He laughed a little mirthlessly. Then he walked out of the precincts and
passed into the hurrying tide of humanpassed into the hurrying tide of human-
ity that swept over the bridge. Once as he passed under a glaring lamp, he saw a little group of men suddenly stiffen
and point in his direction. They bent and point in his direction. They bent good to be the ofject of their regard.
A passing newsboy with a late edition ran, screaming: "Sensational speech! Speshul!" It was his speech that was
causing all this uproar, and this was the taste of success. Very good indeed.
Merged in thought, he walked on heed Merged in thought, he walked on heed-
lessly, and looked up with a start to find lessly, and looked up with a start to find
himself in $\mathfrak{a}$ well-known street. shuddered a little as he realized whithe his unonscious steps had led him. This
was the street in which Marjorie Sandys was the street in which Mariorie Sandys
lived. He was almost opposite the dor
 chugging away impatiently at the kerb, and Creighton instinctively shrank back see the beauty of her face for one insee the beauty of ther face for one in-
stant, could mark the live grace of her
fine figure, in spite of the heavy motor coat that shrouded it. He was on the point
of darting forward to tell her of all that had happened, but he restrained himself with an effort as the words of his wellwisher came back to mind.
"I must have time," he muttered, as
the motor darted away; and he turned back, leaving the quiet residential streets behind him, plunging into the vortex of
the traffic. the traffic.
His man
His man was awaiting him when he the table, and he sat himself down, eating and drinking mechanically, as he
had mechanically had mechanically dressed.
"Beg your pardon, sir,", said the man;
"but I've just finished reading the special edition. It was great, sir." Ceighton waughed somewhat self-con-
sciously, for he was still very voung sciously, for he was still very young,
and he had not learned to know that and he is the most intangible thing in the
forld. But it was very suet very precious. He said nothing in reply, buit when the meal was cleared away, he donned a smoking jacket, found his big-
gest pipe, kicked the fire into a blaze, gest sipe, down in a deep chair seriously
ant donsider the greatest problem he had to consider the greatest problem he had
ever been confronted with in his life. Fame or Love-which? He stared in-
to the glowing embers, and Mariories face took shape embere, alluring, witch-
to ingly beautiful, almost irresistible; a face to win one smile from which it were
good to die He took the poker anvily yood to die. He took the poker angrily,
and pounded at the coals until they feli down in a huddled mass, and Marjorie's face disappeared.
cThat is what
"That is what Love offers; what will
Fame bring?"
Fame bring?"
Hee asked himself the question quite
coolly for he was bringing all the forces of his wonderful intellect into the struggle.
Fame
Was a would bring many things. It

licity of the girl had allowed the fact
to become only too plainly apparent.
Life with Marjorie would be one long delirium of unending delight. Love wou.d
crown their ward and upward, would draw them onward and upward into realms that those
who had never loved could not Love meant-
He rose from his seat and walked about the room. Love must be stifled,
cast aside, sunk fathoms cast aside, sunk fathoms deep beneath
the sea if his dreams of fame were to realized. "I'll $g_{0}$ to bed" he said vere " "'Tll' go to bed." he said vexedly. "A
nights sleep will show me where
tand stand night brought no relief to har assed thought. The visions crowded in
behind his firmly closed eyelids, and sleep held sternly aloof. Morning found him hagard and pale,
undecided, torn by conflicting emotione undecided, torn by ornfiliting emotions.
"I know what T .ll do." he said as he breakfasted. "TMll leave town for to
day. 111 go down by the sea, and then day. til go down by the sea, and then
fight the matter out with my own soul." fight the matter out with my own soul."
There was an unimportant debate on at the House that day, and his presence was not required. As soon as he
could, he left his rooms, caught a chance could, he left his rooms, caught a chance
train, and came out at a place where train, and came out at a place where
he had known for long. A sudden thought made him laugh ironically, as was the place where he had first Thet
Mariorie. Marjorie. The town, the Yellow beach,
the inland downs all spoke of Marijorie every little object in sight was reminiscent of the girl.
He had gone there half unconsciously, is thoughts having flown there by in-
stinct, when he had first mooted the sub ject of solitude to himself.
It was a magnifcent day to settle
such a battle as that which had to be such a battle as that which had to be
fought. He was invited to 15 Worthing. fought. He was invited to 15 Worthing-
ton Square for that night, and that was Marjorie's home. He would see her for several hours; he woold have endless
opportunities of speaking all that opportunities, of speaking all that was
in his mind. H e must come in his mind. He must come to a firm
decision within a few hours. The wind blew in from the sea, salt, vigorous,
warike, and it aroused all that was warlike, and it aroused all that was
militant within him. He came of a militant within him he came of a
fighting stock, and the old blood told.
There There was a light rain falling, and it beat on his face gradly as he, plowed
steadfastly along the sea-coast, wrest steadfastly along the sea-coast, wrest-
ling with his inner soul. ling with his inner soul.
ond
What shall it be?

 greasiness, no. oiliness, no yellow color or no musty odor.Use Sunlight Soap according to directionstry it just once-and convince yourself that it will do twice as much as other soaps.

passions, and love the girl with all his life's implicit devotion, or he must blot her out of his heart for ever, and pursue the other path. No middle course, no
compromise now! Which?
He had come out on the edge of a
towering cliff. resolute sea was slowly him the angry, resolute sea was slowly eating away the
solid rock that reached upward from its grasp. It was a very wild day. Strife and turmoil were in the air. Out at sea, just visible, a steamer trudged toward
the open waters of the ocean. There was no appearance of softness in her advance. she crowded down all the opposing $\left\lvert\, \begin{aligned} & \text { knowledge that they were doing some }\end{aligned}\right.$
waves, shouldering her way with a grim determination through all that came long. It was a hard, stern fight, with distinct objective. He pictured to himself the glad exhilaration that possessed ing souls of those who stood on the reel-
ing were battling for em ire, spreading the glory of the land to he uttermost parts of the world. Not hem no loving arms waited home. For fem ease, no fond caresses. Duty called them, and they went forth into the orld, without hope of reward, save the
knowledge that they were doing some knowledge that they were doing some
small thing for their country's weal.

It was an omen. He himself had more It was an omen. He himself had moie look for. He had the world at his feet. Honor was to be won as the price of striving. The deleterious smoothness of a love-filled life must have no place in There on the sea-washed cliff, he made up his mind. He opened his overcoat, and groped in the breast pocket of his jacket. Something was there, and he white, still impregnated with a subtle,
elusive perfume elusive perfume, that brought the visions
of Marjorie crowding in of Marjorie crowding in on his mental
sight.
"Here's my sacrifice to Fame," he said,
and with a fleeting kiss he weighted the delicate glove with a stone and flung it far from him. The wind caught it. For a moment he thought it would be blown back in his face, refusing to be discarded thus. But then the wind lulled for enly down, to disappear in the angry foam-capped waves.
"Now for Fame. Let Love pass by," he cried defiantly, and walked away. It was not until he had walked back
to the town that he realized how the time had fled. It was growing dark now, and he was conscious of a great hunger The season was over at the place. All the restaurants were closed; only from
an unconsidered public house did a glow an unconsidered public house did a glow called for food and drink, and when it was served he ate hungrily. He was quite satisfied with his decision now struggle between his heart and his brain She would go her way; he would go his. He would send a wire to her saying that his appearance at her home was impos ment, and then he would forget to call or would call when he knew she was out. He felt a curious sense of pleasure now. His duty had bound him in thraldom, 'Didn't I allus say it?" demanded hoarse voice outside the room in which he sat. "Them motor-cars are the very deuce and all, Downright jug-an The landlord of the inn entered. In his hand was one of those flimsy yellow afternoon editions, which a sport-loving age demands shall be published every "Extra special
landlord, coming forward. "Like to se it?"
Creighton took the paper carelessly It so happened that the countryman had column to the front. Creighton read the slurred, smudged paragraph there with-
out much interest. out much interest.
"A large touring mor accident," he read. ternoon tat aring car overturned this afpants were kowminster, and all occuFerrars, Lady killed. They were Lady jorie Sandys," Merceston, and Miss Mar "My God!"
again, "My God!" Boniface looked at him curiously, and
grunted. 'GGot a pain, sir? Heard bad news? 'Ope no one you're fond of gad news? that there motor accident." "When's the next train to town?"
asked Creighton, rousing him asked Creighton, rousing himself with a mighty effort from the horrible numbness "There's the bell now. You'll catch it with a run."
Creighton
Creighton heard, as in a dream, the
ringing of a nearby bell. ringing of a nearby bell. He flung a sov-
ereign down on the table, caught up his hat and coat, and raced forth, leaving hat and coat, and raced forth, leaving
the landlord standing open-mouthed,
scratching his head.

## The Western Home Monthly.

"Lunnon manners,", quoth that worthy, bury hmself in the parting relired the throwndown paper.
Creighton swung on to the footboard of the train just as it was leaving th porters tried to draw him back, he foug them off, and persisted. As yet he was unable to think clearly. He was obeying a natural instinct-to fly to the sid of the woman who was dead.
back on the cushions and tried he sank the confusion that hurtled through his staggered brain. Gradually, to the steady clanking whirr of the speeding
wheels, clear thought came wheels, clear thought came. Marjorie
was dead! The a wful truth of it was dinned in on him insistently; the very clatter of the rushing train seemed to have entered into a conspiracy against through the disturbed air; the very jolting of the window spoke the same awful refrain: Marjorie was dead.
He could see her now with vivid clear-
ness, and he crushed his hand eyeballs to shut out the sight ${ }_{H e}$ prayed God that the death might not have touched her lovely face. Then, with a sudden soul-twisting, he was confron-
ted with a vision of what she would be like when he saw her. The light-filled eyes would be closea, the rich carmine of her lips would have paled to a sickly hue. The glowing radiance of her glance
would have gone for ever, the fleeting would have gone for ever, the fleeting
wonder of her smile would be composed into the stern, grim smile of one who is staring in Death's face. He choked down the scream that rose to his lips, and
cursed the slowness of the train. cursed the slowness of the train. it was busy now. But it the thought of what he had lost. It was one thing to resign; it was another
to have the object snatched away thus to have the object snatched away thus
ruthlessly. Of what
world could bring now? It was nothing -a thing of no worth-a thing, indeed, to be despised. Could Fame give him
back the witchery of Marjorie's glance? for his coming, until the waiting became his heart? Could the throbbing ache of too long. his heart? Could the plaudits of the the past? What dide the recollection of into the very oblivion of forgetfulness so that Marjorie might have been spared Fame was a useless thing-a bubble that fell away in the hand that grasped it;
but Love-ah! Love was different in deed. Love was Loll that was of moment in the world. Without it life was blank and hideous, a meaningless chaos of sounds and sights, with no coherence. "Marjorie, Marjorie," he muttered, as
station after station flew by, station after station flew by, and the
steady clank of the wheels answered his cry: "Marjorie is dead!"
He repeated the sounds mechanically. hicking his dry lips. The visions of fame now, swept a way by a wan vanished hopeless longing and strenuous love. He would have given his soul to see her just once before the end, that she might have
known how well he loved her was too late now! Nothing could ever bring back those wasted hours that he had given to the pursuit of worldly honor, when he should have been at the
sde of the woman he loved. owned it now: he loved her with a lor he that hlotted out all else in life. And it
was too late! was too late!
He sprang from the train before it
stopped, and raced to a hansom " 15 Worthing to a hansom
"15 Worthington Square," he shouted unrest of his soul, lashed his horse to its speed. Creighton sank back, and let
his interrupted thoughts his interrupted thoughts resume their
sway. In a few moments at the house. They would have carried her there, he said, for the accident had occurred some hours ago, and the scene
of the mishap of the mishap was not far removed from
Worthington Square. What should Worthington Square. What should he
do when he reacled the house? What could he do? There remained nothing now. Only to sol out his remorse at the
side of that still figure that had waited
too long.
Creighton sprew up outside the door, and furiously, and the out. He rang the, bell furiously, and the servant who opened
the door fell back befor the white mis the door fell back befor the white misery
of his face. There was a rustle drapery as he darted in, but he did of "Your hast
fiercely. He felt that is he?" he asked fiercely. He felt that he must find some was tearing him in pieces. "He's out, sir." Creighton staggered. Out, and this grim tragedy a aoot! Per-
haps the stern old man had not heard haps the stern old man had not heard
the awful truth yet. He reeled ford moment, and then-a soft hand was laid on his arm, a voice that he had thought never to hear again was in his ears.
"Clifford, what is it?"
" He shrank back, sayin
the price he had to pay for his ruthles ambition. Marjorie's reproaches must be added to the dull weight of his own
self-loathing. "Clifford, what is it?"
The voice came again. He opened his eyes dizzily, and recoiled with a cry.
"Marjorie, Marjorie!" he cried amazement. "Then it's net cried thought you were dead. 't thank Godoh, thank God!" And lis arms fell about her willing form,
"I was in the car," clinging to him as he shook with silent
sobs. sobs. "The others were killed-oh, it's terrible!-but I wasn't hurt. It was a marvellous , escape-and oh, Clifford "It is a revelation!" he said tenderly, and he kissed her upturned lips with a wonderful reverence. He had made his

## A Model Kitchen

With our forefathers the hearthstone was the centre of the home-the special sphere and pride of the housewife. Here all her talents as a home maker found full expression. Here before the great hearth-whose flue kept the air as pure and clean as the fresh scoured tiles-she prepared the great white loaves-the delicious flakey brown pastry-the roasts whose juicy tenderness made her simplest meal a feast-

Have a kitchen you can always be proud of -always clean and sweet-always free from stuffy, smelly air -always cool.

Have meals you can always be proud of-everything just browned to a turn-never over-cooked-never under cooked-always just right.

## An Insult to Paderewski

Dr. Walter Damrosch tells a story serving to illustrate the sensitiveness A Chicago man, atters musica who had met the Polish pianist abroad, had given a supper to Paderewski in his palatial apartments, inviting several nious feast.
Now, Paderewski doesn't play for everybody-at least not as a rule for
those who haven't the pre those who haven't the price of admisman was a very good friend, he gracious ly consented to give a few numbers as an evidence of his appreciation of that friendship. So, when the pianist began his own famous minuet, the coterie o
friends sat back prepared to enioy them selves to the utmost. One of the guests, indeed, was, in such rapt attention t the master's playing that, all uncon
sciously, he forgot where he had put his hands, which were thrust into his trousers'
pockets; and very soon he fell to ingling sundry coins that reposed there
Quite suddenly Paderewski stoppedas suddenly as though the piano had broken its string-board. The jingle of the coins had penetrated the harmony of the minuet and had upset the pianist
Paderewski wheeled about on his stoo fiercely, grew red in the face and plumped his hands down hard upon his
"What!" shouted he, his eyes flashing
the luckless man with the coins "What! Do you t'ink I play tor coins "At this the guest who had thus un consciously offended the Pole was unovercome with confusion that he had to
be assisted to his feet in order that he might apologize. It was some time be fore the infuriated virtuoso could be
mollified by the explanation that the mollified by the explanation that the jingling of coins in the pockets is only a
characteristically
American way showing one's appreciation.

he sound she was dozing off, however, the sound came again. This time more metal.
$\underset{\text { metal. }}{\text { "John, John," she whispered excitedly }}$ rushing into her husband's room. "Wake up, there's a burglar in the house. They're down stairs in the parlor, just think, John, in the parlor! Get up, get up! My jewels are in the parl
on that little table, in a jewel box." She emphasized these last words, by a vigorous slake followed by a jerk
of the bed clothes. of the bed clothes.
"Burglars? Aw, hum! Small table-
parlor-jewels-ah, parlor-jewels-ah, what did you say?"
muttered Mr. Scriggs sleepily, and turned over on the other side preparatory to a continuation of his doze.
"John, John! How can you, when there's burglars in the house!", said
Mrs. Scriggs, in despair. "Come," she Mrs. Scriggs, in despair. "Come," she
continued impulsively, "Get up, or I'll get you up with a dipper of cold water. Mr. Seriggs heard her and promptly obeyed, not because she had told him also, stealthily and indistinct, still it sounded.
He was thoroughly awake now and
so he got up and went to a drawer, from so he got up and went to a drawer, from revolver in hand he started through the door, but in the hall a thought struck
him. "It's only the cat," he muttered him. "It's only the cat," he muttered
and came back into the room. and came back into the room.
"Aren't you going to shoot him?" Aren't
asked Mrs. Scriggs.
"No, not now, at least," said Mr.
Scriggs, and sat down in the rocker "You'd better go back to bed and I'l want to know what I'm up against before I go shooting burglars."
Mrs. Scriggs protested, but Mrs. Scriggs protested, but her husband was firm, so she went back, and Mr.
Scriggs settled himself comfortably wasn't sure it was the cat. It might be burglars, but then-oh, no, he wasn't afraid.
He lit a cigar and settled himself to enjoy it. He smoked the cigar, then a while he grew sleepy and was dozing off when the sound again came to his ears, but he was now fully convinced that it was the cat so he did not even turned his head over so he could be facing the door, and went to sleep again. He had not dozed long before the
creaking of the chair startled him creaking of the chair startled him. He
listened and before long his listening was rewarded by the sound of stealthy footsteps in the hall.
That was enough. Seizing his gun he hid himself behind an old fashioned wash stand and-waited. The burglar
soon appeared. He was a tall, strong soon appeared. He was a tall, strong,
wiry-looking man, with grizzled beard
and piercing gray, and piercing gray, eyes, and as he en-
tered Mr. Scriggs' room he cast a sus picious glance around.
Apparently he was satisfied Apparently he was satisfied. for after
a moment's survey, he walked past Mr. Scriggs" hiding place and was going on
into the bedroom when "Tp with your
hands!" rang out from Mr. Scrigg y and
Mr. Housebreaker turned to find a mur. Mr. Housebreaker turned to find a mur-

tho other roum by weans of two or thee

Mr. Scriggs started at the voice, then in his surprise his pistol clattered to the floor and he exclaimed in a tone which
betrayed surprise and annoyance. "Jack betrayed surprise and annoyance. "Jack here? I thought you had gone to New Zealand." "No, I didn't go, and I'll tell you the reason. I didn't go because I wanted to have revenge on you before $I$ cleared
out for good. Ever since you took from me the girl I loved,-and in so doing you deprived me of everything I had in the world-I have nursed a secret revenge-
ful feeling in my breast. In those past days you could afford to laugh at me; and, while preserving a peaceable exterior, in my heart I cursed you, yes, cursed you, damn you!"
ments,'" said Mr. Scriggs with a senti "Well' $I$ admire you for your audacity in coming here and talking in this free handed manner. H'mph! And what, may
I ask, is the tool with which you're go I ask, is the tool with which you're go
ing to have your miserable revenge on ing to
me"
"I "I want you to come with me," said
Dawson "and get a wiggle on you, toc Dawson "and get a wiggle on you, toc
because I can't wait." "Oh, come - w," said Mr. Scriggs don't you think this is carrying it a me to you I wouldn't have got her. I you were in financial difficulties I coul with you tonight that is entirely outHis speech became suddenly cut off, for Dawson had drawn his own gun and now had Mr. Scriggs neatly covered with it
"Come Scriggs," he growled, "I can"t wait here listening to you chewin' the "You blithering idiot! Get out of here," said Mr. Scriggs, "and shut this or As he stooped to pick up the revolve he had dropped, he felt himself rolled over and before, Mr. Scriggs could say
"Jack Robinson," he was bound and gag ged. Then Dawson, seizing him and off down the hall and stairs to the street. Here Mr. Scriggs saw an electric car aiting for them. Dawson tumbled his urden in and got in himself and in Through the street the more respectable part of the cit and into the slummy region. The ca sot down a deserted street and stopped Dawson leapt out, and picking Mr Scriggs up as though he were a child, he entered the house and locked the door Then he untied Mr. Scriggs' feet and told
him to precede him up the stairs. Blindim to precede him up the stairs. Blind
y Mr. Seriggs obeyed. He realized that he was in the hands of a man who would have no mercy on him, if his motive was as he said it was-revenge.
They ascended three flights of stairs They ascended three flights of stairs,
then went along a dark corridor till they were stopped by an iron door. Dawson pressed a button and the They entered and the door closed as Mr oom, a large high-roofed place, was brilliantly lighted with electric lights. This seemed ususual and out of the way
in this low part of the city. At one end vas a door, also made of iron,-leading into another room where Dawson told him, was a complete electric plant. The furniture in the room consisted tove. But what interested Mr. Scrigg nust was a sort of high-backed secing that Mr. Scriggs was inclined to

to afford a point of contact. Accord ingly the wooden structure swung danspring of thistly however, I saw a youth
speen the rails and lower himself to the extreme end of the gangway. The united weight of the it from being overturned. Observing that he held a crumpled note in his hand Instantly rushed to the side and mounted the handrail. Steadying myself with enough forward to receive it from him. At this moment I recognized him as one of the lads in our agent's employ. On seeing his mission thus successfully acgangway and landed him safely on shore Soon afterwards we were in mid-channel A lusty cheer was raised on shore. W sent back a vigorous reply, and present
ly ran, full steam ahead, down the tering harbor into the gathering night. The letter, thus strangely delivered was addressed in a sprawling hand to Captain Hayman. I straightway laid it on the table in his cabin, and proceeding
to the bridge, acquainted him of its arrival. Together we remained on duty for an hour, when we were relieved by he first officer. The old man immediately went aft to read the agent's note, went to smoke a pipe with chief engin eer Burgin. On the way, one of the deck hands reported that a stowaway had loen discovered in one of the chain greasers appeared, dragging the lad be tween them. Like most of his class, he eemed pale, and pinched, and poverty neanour as the was not so abject in de he halted in front of me he pulled his meagre frame erect, and regarded his Captors with a wild stare of defiance There was something, indeed in the indicative, I imagined, of an unusually strong will, while the pucker between his eyebrows seemed to denote a fierce unbroken colt. restive spirit of a young unbroken colt.
Captain Haysary, of course, to inform presence. Accordingly I sent the men to heir posts, and taking the boy by the sleeve of his ragged coat, led him along.
When a duty of this nature devolved upon me, I always experienced some unpleasant qualms, for the captain of the Tertius was a veritable scourge among infoed, I dreaded the scene I believe, he culprit himself.

When we knocked at the door and entered the cabin at the captain's in edge of the table, with seated on the inge of the table, with one foot swing
ing of the floor. The open lette he held in one hand, while he stroked his chin meditatively with the other He did not look up for some time, and when he did so at last, it was only to
shift his position, and fall to perysing the strangely communicated perusing While we paused, I distinctly remember noting for the first time that he
was ageing rapidly. The was ageing rapidly. The crow's feet on
his weather-beaten brow were marked, I imagined. His nose, likewise, seemed rather pinched, the nostrils dilating with each breath he drew, and his
mouth, at the moment seemed mouth, at the moment, seemed haggard
and drawn. The veins at the temple were too prominently outlined, perhaps, while the sumken eyes gave to the cheek bones a heightened appearance. Doubt-
less all this occurred to me at the least less all this occurred to me at the least
propitious moment for him, for it was
evident from his manner that the news he had just received was very nuwel.
come, if not wholly disagreeable. I re-

asked me to give him a berth in th Tertius. I told him I had no use fo you know I can't lump hat sort and thing. I cuffed him soundly and kicked him downstairs, but the puppy had the audacity to turn and tell me that he would get aboard in spite of my teeth.
The day after that I detected him trying to induce one of the deck boys try desert, in the hope, I suppose, of securing his berth at the last moment. I hounded him off and threatened to twist his neck if he should be seen about the
wharf again. But it made no more impression on him than a bucket of suds in the South Pacific. I saw him steering around all yesterday, and in the evening caught him stumbling aboard
with a sack on his back, thinking to pass with a sack on his back, thinking to pass
as a lumper. I tell you I nearly crushed the life out of him-yet, by the great Columbus, here he is! Now, boy,
what have you got to say for yourself ${ }^{\text {? }}$ What have you got to say for yourself?" Captain Hayman's voice rose like a
clap of thunder as he put the concluding question. Nevertheless, I could perceive that his anger, so ready to bubble on most occasions, was only assumed on
this. Somehow, we have all of us a this. Somehow, we have all of us a
sneaking admiration for pluck, especially when opposing forces are strong and repeated failure leaves it unshaken. "Nothing, sir," replied the youth, in an off-hand manner. as if, having put
his finger in the crow's nest, he could not rouse himself suff:ciently to be interested in the consequiences.
"No excuse to offer?" pursued the cap-
tain. "None, sir."
You were persistent in vour endeav-
ors to sail in the Tertius choose her in preference to Why did you choose her in pr
in the harbor?"
"P
"Because I was ordered."
"Why, who commanded you?
"My mother, sir""
"What!" cried the skipper. "Do you mean to tell me, boy, that your mother "No, sir, not to stowaway. I was ask you to take me on board. She "Dever dreamt you would refuse." "Do you know any reason why she
was so confident of your success?" "Her father was a seaman, and she "By the great Christopher!" said the aster, turning to me. "That's like a oman, Manson, isn't it? Sent her lad nd wanted him to join the Tertius beause its captain, forsooth, was alleged o be like Brutus in the play 'an honor able man. But here, send the imp to urgin with the first hand you meet
Ie reported a short while ago the de ertion of one of his men. I reckon he an be trusted to brace the brat a bit.' "By the way, boy, what is your added "Matt Grimm, sir," responded the youth, glad, doubtless, to find that he "Well", through the ordeal unscathed. you do as Burgin tells man, see that satisfaction you may yo put. If you give books and taken to London, but if there is any trouble, I'll give you a taste of rope's end and hand you over to the
"Mr. Manson, you might step this way The captain's manner pree." hugely, for during the three years I had been under his command I had never seen him treat stowaways otherwise
than with diabolical severity was, laboring under a passion that was more fit for a nurse's lultaby than words mouth of an old sea dog whom I had known to stand for three days
with a revolver over the heads of a crew of mutinous Port pogese. A of a pos-
sible explanation presented
decipher it．It ran somewhat after this fashion：－
＂My dear Captain，
According to advice received within the e ast hour from Schofield，of Singa－
pore，it appears that the ton
 proved an entire failure．In consequence of this，and the heavy drain that has peen mauring the pas ${ }^{\text {s }}$ four years，the di－
peators have decided to throw the whole rectors have decided to throw the whole
property upon the market．When all property upon the market．When all
claims are met，it is expected that not more than 11／4，per cent．of the paid up In so far，my dear captain，as my own great misfortune enables me，I sympa－ thize with you most sincerely，and only
trust that the actual loss may not be so great as Schofield＇s estimate implies．

- Yours faithfully，G．O．Brimlow．万 Long ago，Captain Hayman had in－ formed me，in a casual way，of his in－ terest in a tobacco plantation，but I
never cared to enquire its locality or the extent of his investment．He now explained to me that at Schofield＇s sug．
gestion－who，like Brimlow was gestion－who，like Brimlow，was an old
shipmate－he had bought shares in the Koolenben Estate Co．，Sumatra，amount－ ing to something like $£ 4,000$ ，which re－ presented the bulk of his savings．If
the concern prospered，he determined to the concern prospered，he determined to
withdraw the whole in a couple of years and retire to some out of the way cors
ner on the Cornwall coast．The first ner on the Cornwall coast．The first years of the company proving，unremun－
erative，he，still at schofield＇s sugges－ tion，held on to his papers，preferring
it seems，to run further risk than sell out at a falling price．The worst，how－ ever had taken place，and here he was，
an old man，without friends，without an old man，without friends，without
money，and the possibility of soney，and the possibility of having
soon to retire from active service staring him in the face．I felt，somehow，that he was more disappointed than he cared
to show，for in spite of his blusterig o show，for in spite of his blustering
style，he was of a reserved temperament and，except to myself，rarely unbosomed
himself．When I realized the full ex－ tent of his misfortune，and knew how hiter was the prospect that confronted sympathy，and to reiterate Brimlow＇s
hope that surely things would not turn out quite so bad in the end．And when you come to think of it，under all simi－
lar circumstances，this is the least the most，the begininng and the end，of
all charitable thought．

Chapter II．－A Deeper Depth． Having consigned Matt Grimm to the
tender mercies of the chief engineer， Captain Hayman appeared straightway to forget that there was such a person
within the iron walls of the Tortius． within the iron walls of the Tertius．
An accident，however，brought the stow－ away to the old man＇s recollection，
when we were six days out．Burgin，it seems，had set the lad to perform the
work，of the work of the greaser，whose love of liquor
had detained him in Sidney
satisfing satisfied with the manner in which Matt
quited himself，the engineer kept him at the post．On the day to which I have referred，the lad was engaged cleaning
a piece of machinery connected with the fanners，when，without the slightest
warning it burst under his hand．There was a sudden outrush of scalding spray， accompanied by a blinding，burning cloud
of steam．Burgin instantly rushed to Matt＇s assistance，only to find the poor
little fellow lying limp against the hand－ rail．With difficulty he dragged him to a place of safety，and sent a hasty sum－
mons to the doctor．The lad＇s condition was precarious，though not without
hope．The explosion had caught him full on the left side，inflicting a series of burns from the knee upwards．He
was carried to the hospital，which was situated，as usual，amidships．Here he was stripped of his clothes and his
wounds dressed with the haste whici，his condition demanded．On the mishap be be ing reported to Captain Hayman，he in－
stantly left the chart house for the hos－ pital．Matt wa unconssious，but came
round shortly before the old man left． He was too dazoed，however，tan left．
Huestioning．It was probably just as
quen questioning．It was probably just as
well，for if ever there was a man whom
the sight of suffering deprived of words
one whose countenance was less forbid－
ding，or whose voice was less gruff，but
to to convey to the sufferer one sympath etic thought was almost beyond him．It
might be，of course，that this reserve only manifested itself when any person other than the patient was present；at any rate he was never given to loud regrets， or the commiseration that is expres
in a gush of over－sanguine hope．
Duty and common humaty that Captain Hayman should see the in－ valid occasionally，but when it became known，in the course of a week or so，
that they were in the habit of spending that they were in the habit of spending
hours together，everyone wondered．It was the doctor who first made me aware
of the bond of sympathy existing be－ of the bond of sympathy existing be－
tween our gray－headed，gray－bearded tween our gray－headed，gray－bearded
captain and the pale－faced Sidney youth． Burgin vouchsafed some further particu－ lars．The engineer looked in now and
then，as he said st theer the kid un a bit，＂，which meant，I suppose，telling the
lad son lad some tall yarns of his life in Borneo，
and initiating him in the gentle art of chewing pig－tail． he fond the old man in attendance on the invalid，and once in particular dis－
covered the covered the pair deep in the mysteries
of Stevenson＇s＂Treasure Island．＂ Under such treatment it would have been a marvel if Matt had not quickly recovered．Sooner，indeed，than any－
body anticipated he body anticipated he was on his feet
again．But he was not permitted to return at once to the engine room． We were now heading stram． m ．
Trincomalee，the port for which Brim－ Trineomalee，the port for which Brim－
low＇s shipment of wol low＇s shipment of wool was destined．
Ceylon，indeed，had already risen to view Ceylon，inded had aiready risen to view
and with every revolution of the screw was showing with greater distinctness． The day was bright，with now and then

Before Which he performed his he doctor madeamer put in at London, graph for the reception of Captain Hayman at a private hospital in the westnd, and the Tertius was no sooner berthed than
destination.
Chapter III.-The Deepest Depth On the day following our arrival, Cap tain Hayman underwent the painful op was then which the ship's doctor told m was the only chance the old man had
of remedying his defective vision. fore the Tertius started on her next run went out to the hospital to learn how the patient was progressing. I was not strain had been too great for even his vigorous constitution. Doubtless the worry consequent upon the ill news which Brimlow's note contained was in lete prostration. I was assured, howver, that the operation had been eminatly successful; so far, at least, as it to judg at that early Stage. Contrary to my expectations Matt Grimm did not return to the Tertius. Considering that he had expressed his determination to follow the sea, and
that he would have had no difficulty in securing his berth, I thought this rather strange. Burgin seemed specially disappointed, and blamed himself several times for having lost sight of the "kid."
For my part I concluded that Matt had ad enough of the sea, and that perhaps it was London that had lured him after
mate of the captain's I resolved to loo him up on the mere chance of receiving cute my in agent was working industriously at his desk when I entered. I told him my errand at once, and frankly admitted my fears regarding the old man's physica timulate his sympathy to the extent of some pecuniary assistance
"Good heavens! man!"" said he, catch ing my drift at once. "Captain Hayman
is not in need of anybody's help- you not in need of anybody's help-you
take my tip for it. He holds a consider able number of shares in the most re markable venture that has been heard n 'change for many years. I wrote him ull particulars last mail, so that, if the newspapers have not already supplied
im with details, he will have them in his possession by the time you arrive home. ome years ago I induced the captain to nvest heavily in a tobacco plantation.
But it was an unmitigated failure from the very start. Inrieed, things came to uch a pass in May last that we resolved to go into liquidation Before any action was taken, however, I received a
visit in this office from a mining engineer named Gilbertson, who had been over the estate with a friend. After binding me to one or two promises, he why our Koolenben tobacco venture had why our Koolenben tobacco venture had
failed was the fact that the soil was so saturated with oil that plants could not possibly thrive in it. If we would
sink a well or two, however, he had not sink a well or two, however, he had not
the slightest doubt that we could not only recover what had been lost, but make a handsome profit into the bar-

An Editor's Appreciation of the Western Home Monthly.

The Editor, Western Home Monthly, Winn'peg.

Your magazine is a splendid one, brimful of valuable information, and we assure you that we appreciate it greatly. Yours sincerefy,
(Miss) RALPHIA STILL,
Editor, Woman's Department,
Dipper Office, Ottawa

On our return home again, I found the hospital till only a day or two be fore our arrival. From what I could gather, the operation had, after all,
failed to effiect even the slightest cure and he had passed out with the assurance that nothing more could be done for him.
Knowing his circumstances Knowing his circumstances as I did,
there was something distressingly pitiful, $I$ thought, in this announcement. ${ }^{\text {He }}$ had talked of going to some place in Corn wall, but just exactly where nobody As he had sold the little cottage in Puire. zance in which his wife resided before her death, it did not seem at all likely to me that he would go there. I knew
he was not the kind of man to court he was not the kind of man to court
his accuaintances in time of trouble. I was left, therefore, without further trace
of him. On the next run to Sidney my mind
was so much exercised with the ord mand unhappy position, that I resolved to call upon Brimlow and inquire if he had any
knowledge of the knowledge of the captain's movements,
or if he could suyrcast or it he could suggest where he was like:
ly to be found. But he was unable to give me the'slightest clue. He was good
enoumg enough to inform me, howeerer, that I
mightit draw on him for
E.5 should I find might draw on him for ci.s should I I find

the city. I sent messages by telegraph ran down to Penzance, though. I even But all to no purpose.
came round. 'Recognizing my defeat, had that afternoon put the matter in the hands of a private detective agency, that the quest might be continued in my ab-
sence. Feeling that I had done everything I could think of, I dropped into one of the theatres in the vicinity of the Strand, by way of giving my mind a rest.
On the stair I met a boy with a bundle On the stair I met a boy with a bundle
of programmes under his arm, and sigof programmes under his arm, and sig-
nified to him that 1 wished to possess one. While I fumbled for a copper I was surprised to hear him say:"The Tertius is in port again, I sup-
I looked at him in astonishment. was our stowaway, Matt Grimm. The
row of shining buttons on his short, of row of shining buttons on his short, of
ficial jacket had made me overlook the ficial jacket had made me overlook the
fact. "Oh, Mr. Manson," he hurriedty whis"couldn't you come and see the captain?
He is so ill and out of sorts, I'm sure it would do him good."
woumehow, it had never once occurre to me to couple the boy and the man together. "When are you free?" I asked. "At the commencement of the secon act." he answered. Don't delay."
Somehow the failed to rouse any inmers on the stage the opening scenes. The drama of the captain of the Tertius still held sway ver me. It was with some impatience that I length, and together we issued into the Strand. Leading me through a perfect maze of narrow streets and alleys he
brought me out upon the river front. brought me out upon the river front.
From his intimate knowledge one would have thought him to be a true-born Cockney. As we went, I draw his story
from him by degrees. He had somehow from him by degrees., He had somehow ing that the operation might prove unsuccessful, had hovered round the hospital all the time. At first he had been wax vestas and cheap toys in the selling ity, but becoming acquainted with tire porter of the institution, who promised to let him know when the captain was expected to leave, he extended his field In which I met hims. He was consequently on the spot when the old man was led forth and put into a cab. As soon as the vehicle rattled off, Matt started in pursuit, arriving at Paddington
almost at the moment that Jehu drew up. It, was quite apparent from the cap-
tain's hesitating manner that his vision was well nigh gone. As soon as possible
therefore, the lad made himself known Therefore, the lad made himself known Penzance, but as his means had now become extremely limited, he was readily
induced to accompany Matt to the house induced to accompany Matt to the house It was not by any means a place of superfluous or even moderate comfort. The district was squalid and the house inordinately so. At least, that was how
it struck me, as I entered the low door and mounted the creaking stair. The room was on the second floor. It was dark, of course, when we entered. On
Matt procuring a light, the wretchedness of the whole surroudings filled me with dismay. A table, a chair, and an iron
bedstead with a mattress upon it, were the sole articles of furniture. Oy the
latter lay the captain, grizzled and gaunt, and hollow-eyed; a mere battered and human circumstance had made derelict. "Wpoke to him. "Why, is that you, Manson?" he said, But I knew by the groping way in which he held out his hand that he did not see The at all. The news I had to tell was too impor hit to waste time on preliminaries, s launched out at once. When I menKoolenben tobacco plantation, Capin Hayman simply sat up in bed and cusped. The next moment he fell
"No, no, Manson," he said, "it's too
good to be true."
"I her "and houe it frow he is Schottield," I said, and you know he is a man to be trusted. Besides, the shares are being quoted
daily with the newspapers." daily with the newspapers."
For a moment the old man lay quite motionless, then, in a quiet voice called
Matt to his side Matt to his, side. "My boy," said he, taking hold of both his hands, "I want you to promise never
to leave me. You have been good to me when you thought I was poor. It
will go hard with me if you desert me will go hard with me if you desert me
now that $I$ am rich." I did not stay long with them, for I
knew they wished knew they wished to be alone to talk the $I$ future over. I thought it well to promise, however, to bring the letters from
the company's office in the morning.

The Tertius was sailing with the after-
noon tide, so as soon after break possible I took a cab to the captain's lodging, calling for the correspondence by "Ihe way.
"I have made arrangements," I said, as I entered, "to remove both of you for
the time being, to a nice quiet house in the west. I know the people, you may rest assured they will make you comfortable. Here are the letters. As soon
as you have looked through them as you have looked through them we
shall take our departure." "Thank you, Manson,", said the old
man, radiantly, "now, man, radiantly, "now, like a good fellow, just read them for me, please.
The first was Schoffield's.

The Life of a Turkish Lady.
The revolutions which are taking place in Turkey affect the women of the ountry to a greater extent than would ave been the case firty years ago, for
it ittle realized in England how their position has improved, and how eageriy hey are making use of the opportuniies now offered them for a wider lif nd a better education. In this, says
Eveline B. Mitford, writing in the Queen," they have the help and ap proval of the most cultured and best educated among Turkish gentlemen, especially those who have been accus omed to mix with foreign ladies wh their womenkind should be more in ac. cordance with the ideas prevailing in Turkish Europe.
Turkish women are only returning to former state of things, for in earlier
days Mohammedan law allowed much greater freedom. They spoke in public, and among them were recognized preachers who delivered addresses the congregations of their own sex in
they also figured in the iterature of their country, and the tames of two poetesses, Zehneb and inry, who lived in the fifteenth ceaally the lare known to the people. Gradulives more circumscribed, until at last the position of the Turkish woman became a by-word in Europe for all that was most ed on this subject, however and the evils and miseries of the Turkish lady's life have been greatly exaggerated. It is true that after childhood she is only allowed the companionship of memception of her husband and nearest male relatives, no men are ever admitted into her society; but she manages to extract a great deal of pleasure out of far from being the Bluebeard storybooks have painted him, is a courteous, kindly gentleman, who treats his wife The best part of the tition and respect. The best part of the house, commanding and if he be wealthy she has all her heart can desire in beautiful furniture bric-a-brac, and dresses from the great sumptuous London and Paris. She give friends; her well-appointed carriage he splendid horses fill many an Englishwoman's heart with envy; while her is to be seen gliding in gorgeous livery its way to some picturesque spat where he is giving a picnic or tea-party. The morning is passed at the public bath

spotted with red. I bound someone's spotted with red. I bound someone's
finger when she cut it once. finger when she cut it once.
That ought to encourage you!' I laughed again, and so did he. You
get into a way of laughing when you get into a way of laughing when you
have an ache to hide.
"It's in that drawer," he mentioned "If anything happens, to me, you'll know what to do with
"Yes," I said. We were silent for a long time. Then

I met her ten years ago at Gibraltar. It was on one of the trips that helped eighteen; not much more than a child. I didn't think she was anything more.
That was my mistake. I was careful That was my mistake. I was careful
enough with women. A married man enough with women. A married man
separated from his wife-well, you know about that.
You can understand that I didn't want
to talk about my domestic life to talk about my domestic life, I for-
give her for all but one thing. Well, I give her for all but one thing. Well, I
try to forgive that now she's gone. She made me a worse man than I might have
been. Ah! but I know! . I didn't been. Ah! but I know! . I didn't
see why it mattered to other people that see why it mattered to other people that
I was married, unless I wanted to be friends with a woman. Then I said just
enough to let her infer that I was. It didn't seem necessary to take precautions with a child.
The way I came to know her was this. The way l came to know her was this.
We were staying at the Bristol, and in
the evenings they used to sit in the strip of garden across the road, against
the cathedral. I mean the little irl and her mother and elder sister. They were sitting there that evening, The I I
was in the smoking-room with Young
with me as a sort of secretary-assistant He was a good boy, and keen on his
work; but prettty work; but prettty girls distracted him
That's what they're for! That's what they re for!
The distraction at the moment was the elder sister. He kept fidgeting, hearing her voice through the open window
as we drank our coffee; and I saw that my instructions were going in at one ear and out of the other.
I was explaining to him about taking "p and downs. "Well, Charlie," I said at last, "I've wasted a lot of good breath on you.",
He muttered an apology, and grin He
ned.
"It's
"It's confounded hard lines when don't know people," he remarked.
"It's confounded stupidity if you to know them and don't," I retorted. "Oh, well!" He shrugged his shoul-
ders. "Of course, you find a chance, sooner or later, if you look out. I'm
going to. But I'd like to talk to them going to. But Id like to talk to then I was just going to load my pipe,
and an idea struck me; and I laughed and an idea struck me; and I laughed
aloud. I'd been pretty hard hit; but I waud. I'd been pretty hard hit; but a
was younger then, and I could raise a was young
real laugh.
"Come along, young innocent!" I said. We will go and talk to them forth"You won't offend them?" he beg. ged; "but of course you won't."
"Not a b.t," I promised. "If they "Not a bit," I promised. "If they
want to talk to us-women generally do want to talk to men, that's what you boys forget-it will be all right. If they
don't they won't anyhow. 'Faint heart, on't they won't any
ou know, Charlie."
We walked out and sat down near Them. I fumbled about with my pipe. see that she was a cheerful old soul, and guessed that she'd see through my dodge, and wouldn't mind.
"Excuse me," I said, "but could you by any chance lend me a hairpin to She looked at her daughters, and all three laughed. Their laughter had the "My little girl could," she answered. "She is always losing them, so she carries a stock in her pocket."
They laughed again. The little girl's hairpins were evidently a standing jest looked at me. "They aren't in my pocket," she ex plained-what a pretty soft voice she
had!-"I keep them in my hair-the spare ones. That is why my hair-the the But I will fetch you a new one."
She rose quickly, but I jumped up and barred the way to the gate. "As if I would let you run up threc "I am sure that you always run." "Yes." She laughed gaily. "I don't
mind." mind."
"But I do. Besides, I should like one
out of your-pocket!-much the best", out of your-pocket!-much the best."
"Of course he wouldn't, dear," her mother observed.
"Of course he would!" said her sister. She was a very attractive girl, and evi-
dently used to badinage. "Naturally he would,"
The young girl looked round at us with her eyes sparkling, and still flush-
ing a little. "ng a little. ${ }^{\text {Now }}$ which am I to believe?" she asked. "Me!" cried all the rest.
I held out my hand. Sh

Our eyes met suddenly. I had not hought enough of love-making even to void her eyes.
"And I," she said, with a little shake in her voice, "shall be walking here, with no nice you!"
I saw her hands grip together, and I knew. . How the deuce do we The silence that followed was hissing ith danger. I realised well enough that ought to break it, and turn the subject; but I could find no words; and I ave always been ready with my tongue.
Presently she looked at me for just a moment, and dropped her eyes again; and again I tried to find words and couldn't. I was numbed with hurttunned! I could have borne my own find the way of hurting her the least, but I couldn't think, even. Sometimes I fancy that it would have been best to telı her everything, but

## Another Reader's Appreciation.

Aylesbury, Sask., Dec. 26, 1910.
The Western Home Monthly,
Winnipeg.
Dear Sir,
I cannot lay down the December number without writing to express my appreciation of your magazine. It is worth many times the price and fully deserves its reputation of being one of the cleanest, strongest and most up-to-date magazines in Canada. It is a magazine in every sense and not merely a monthly story book. During the five or six years I have been reading it it has been symbolical of Western Canada in at least one way-progress.

Yours faithfully,
J. A. MENZIES
her in the evenings, when the
were playing at bridge-or at love Sometimes we sat in the garden and talked. Sometimes we walked along the Line Wall, or through the queer narrow light we walked along the Europa Main Road, above the Alameda. I have bee all over the world, and I know no road to match it in the moonlight. The road
beyond Sea Point at Cape Town comes nearest. . . I know of no company on any road to match the Little Girl's; and your comes next. treated her as a child, you will under-
stand; teased her and let ed draughts and let her win; taught hercard tricks and puzzles; got her to sew on buttons for me, and rewarded her with a Mobrish bag-the best I could
buy at Benoliel's-to keep her needles and cottons in. I to kave her a bangle
and from Tatigier, too. I called that a doc tor's fee, because I had "the dumps,"
after a nasty letter from after a nasty letter from England, and I never flirted with her for a moment. I want you to be clear about that. I never held her hand a second too long
when twe said when we said good-night, never gave
her my arm when we walked. I didn't her my arm when we walked. I didn't
even think of anything of the sort till the last night, or dream that she did.
What a fool a man What a fool a man is!
We were walking up and down the more depressed than I could have imag.
then I I judged that silence was kindest.
Afterwards I I thought that the the knif frter 1 ards 1 thought that the knife
would have been more
net would have had more to get over: but but
 And I might have comforted her for a Anyhow, I said nothing. She evid y thought that I feared my fate too nuch; considered myself too old or her
too young; and she tried to help me! She young; and she tried to help me. her, or she wouldn't have done that "You have been so very kind to me, she said, with a grave, unfaltering -ice. "I should like you to know that appreciate it. You think of a child to dreadfully old, and I am dreadfully
young, but-but I do young, but-but I do not think you are old, and-and I am quite grown up inin some things."
She laughed
blessed laughed her little laugh-oh, bessed little laugh!--so differently. If
ever a man suffered hell on earth $I$ suf-
fered it then.
after the 1 couldn't tell her fered it then.
after that. Our after that. Our he
away with us for
if her laugu ever got back the old ring. That is what I should like to know.
I don't think it did for a long time. hink she waited and hoped. She sent me one or two picture post cards, and
tie that she had promised to work $m$ It's with the hairpin.
I wrote to her, then. I
er think $I$ enabled her to minfer that 1 was not free, with
out saying anything that implied that this mattered to her, or that I spied spected that it did. Anyhow, I wrote and re rrote the letter sisteen times.
Seven years afterwards I was Seven years afterwards I was free. II
pent a small fortune tracing her. She had been married a year, I found. Thet
ends it all, except-I'd like her to know ends it all, except- H'd like her to know
the facts-that I didn't mean to hurt
l've thought over that a good deal. 1 couldn't write and tell her. It would be an insult to suggest that she cared. By
now she probably doesn't. I I hope not now she probably doesn't. I hope not,
Still, I'd like her to know that I wasn't. just a blackguard who deliberately flirted with a young girl
If I were a story-writer like you, should just put it in a story and hope
that she might read it. She read a lot. Will you, old man? Thanks-many thanks. II expect ' 'd have told you some day, anyhow; but that was in my mind when I started to tell you to-night. Yes, we understand each other. our
friendship-counts.

The editor of the Fiction Weekly was Worrying me for a domestic story. "The Ins. for word, altering the names. A few days afterwards the editor per.
guaded me to to one of his wife, suaded me to go to one of his wife "A friend A friend of my wife", he said, "at friend-insists on knowing you. I believe that she made our acquaintance solely for that purpose. She is a singu
larly charming young lady of abut arly charming young lady of about "My dear man!" I interrupted, "I am lady-proof!",
"Oh!" He laughed
he wants you to marry her; sonly to read anstory,"
"Hang her!" I growled.
Then I met the the this rude observation when I met the lady. She was a delight and bright. woman, pretty and .smiling
"Now, Mr. Franklyn," she said, when we had talked for some time, "I want to ask you about one of your storiesor reality?", hard at me.
"Does, that-count?" I asked.
"Yes," she said quietly.
"Reality," $I$ owned, "except-I under stood that the Little, Girl got married; but perhaps, she didn't, Miss Vane ""
"Possibly," she suggested, "he might have heard of the marriage of a younger sister-the youngest." "It "It would make a great difference to
him" I told her. "That you-I mean him," I told her., "That you-I mean that 'she' is free."
still ? Really", does-care about her
"He really do
"," I paused,
"Forrington,"
"Forrington," she $n$ nodded nodded.
She smiled, and I understood why he had described the Little Girl's expression ${ }^{\text {as }}$ "Then will you tell him that, if he still uses them to clean his pine pie"-she drew a hairpin from her hair-"he may have this one."
"Hadt't I beter tell him to call for
it-say, this day week?" 1 asked with a smile
Yaou provoking man!:- I am going
back to the hotel now." She gave me the address. "Some people are very lucky,"," said. ${ }^{\text {Yes. }}$ "Good-bye. Perhaps you, too-if the rest of the story were true. I won't ask, but good luck, Mr. Franklyn,",
"Good luck to you; and him,"
"I said.
"Mou never know" she protested.
"I know," I said, sadny., I motored to Forrington's office. He
borrowed my motor to go to her, and borrowed my motor to me to find a cab, or walk. I walked
for two hours, but I don't remember
where. One way is as good as another
when when you travel alone; and since Phyllis ourney singly to the mis.

The next morning my married sister sent me an urgent summons to ${ }^{\circ} \mathrm{o}$ round
in the afternoon. I went, and there In the afternoon. I went, and there her for five years-not since not seen ment terminated. I was five-and-thirity then, and she was five-and-twenty. "The years have treated you lightly,
I said, when my sister went out-she said to fetch the baby for us to see I touched my head where the hair was srowing thin.
he sugrosted. 1 . 1 has been internal,' your work. I always thought that authors put themselves in their stories but you have disillusioned me." "The Things that Count,' you know," Phyllis. I beg your pardon, Miss New "I suppose I am growing too old to be I suppose I am growing too old

Forgive us Our Trespasses.
By Alan J. Thompson.

$C^{00 D}$ night, Mr. Cordingley.,"Thanks for the
escort," escort." "Aren't you
going to ask me in?" inquired the man,
slowly. "Hardly - this time proprieties Mr Cord ngley!" A sharp lance at Olive Q Cordingexpressive coun be unwise to urge the request. He yielded with good grace, but as his companion turned to go he placed a restraining hand
on her arm. "You won't forget-Thurson her arm," "You won't forget- Thurs
day at six," he said, then, lowering his
oice, added," "You will come? I shall xpect you.", "Perhaps,", was the airy rejoinder.
"Good-bye." And Mrs. Quesnay ran lightly up the steps," "Auf wiedersehen," responded Cordingley. For a few moments after the maid
had closed the door the man remained had closed the door the man remained
motionless. Then he walked slowly away, he murmured, lingeringly -"I think, my ear girl, you will come."
Mrs. Quesnay was humming a gay air
as she ascended to her room. She unclasped her luxurious cloak and tossed it upon the bed. A delightful evening-quite a
success. She had not enjoyed herself so much for ages! She had been positively radiant vision-flushed cheeks, sparkling eyes, and really the most becoming toilet. A most delightful evening! the cheerful fire and slowly sipped her chocolate. At Cordingley's, too-of all
people. "Malcolm had "disapproved very strongly" of the Cordingleys-had stig-yet-well, she could not altogether suppress the consciousness that more
than once during the evening some of the remarks had rather disquieted her host's brother? Very accomplished-very fascinating, certainly, but almost too-
attentive. There was really no occasion atter him to see her home, and the the brougham
bordered peri bordered perilously on impertinence. Homage from so distinguished a quarter was, of course, extremely flattering, ihat her attitude towards him was not
altogether favorable.
Mrs. Quesnay looked down at her
bare, shapely arm. The pressure of the bare, shapely arm. The pressure of the
man's fingers still seemed to linger. She rubbed it slowly-not with gentleness.
Irom a diminutive silk purse dangling Trom a diminutive silk purse diugling
from her wrist she took several coinsgolden roins. Bridge winnings, It had
been very exciting, and fortune had favored her. It was nice to win. Yet
the gesture with which she put the little purse of gold aside a. minute later was
curiously suggestive of aversion "Suppose," shc asked herself, "Malrolm could see me now, gloating over my
gambling harvest! Her husband's strong$y$ to before her mental vision. He had rose before her mental vision. Te had
looked at her like that whon- The girl
shrugged her shoulders to the accombrugged her shoulders to the accomPuritan!" Phe a how she had wents had more than justified the desig-
 of him. Vest:lli hal played that last
movement suprerbly tonight. It secmed
ulmost uncunny from so young a men amost uncanny from so young a man.
Malcolm would have enioyed that, and
Midcolm, Malcolm, toujours Malcolm! Walcolm, Malcolm, touiours Malcolm!
What was the matter with her to-night?
With an imparicnt c:xclamation Mrs. of her husband were certainly far from Nine months before they had quarrelled fiercely -and separated. Before Eustace was born there had been hittle disagree tic azure-but nothing serious. The real storms had arisen after the birth of their child-or, as Olive would have said, her
child. That was the trouble.
Her little son. The passionate mother
ove of her intense nat ure developed abnormal proportions, shutting out for the time all other considerations. She desired no hand to touch, no voice
to soothe, the child but her own, brooked o soothe, the child but her own, brooked
no interference in his management grudged an hour spent from his side. Her love was supremely selfish, a dangerous obsession. Her husband, completely ment; gently at showed his natural resent He was unable to comprehend, to make any allowance for, this devotion to the first born which relegated him so completely
from his wife. His tem nificance was too galling to disregard. He claimed his rights to the mother's society. Olive heard his complaint in
silence, inwardly rebelling agains what silence, inwardly rebelling against what
she considered dictatorial interference and the result was bitterstrife. She thwarted his plans, made light of his wishes, and ridiculed all his sugges tions where the boy's welfare was con-
cerned. Disobeyed before the eyes of his servants and humiliated in his own, Quesnay's sensitive nature at length reached
the limit of its endurance. He proter the limit of its endurance. He protested angrily to his wife; she temporized,
and there was a truce. But relations became deplorably strained; it only required the slightest provocation to revive hostilities. Olive provided this by refusng to submit to the orders issued by
the doctor Quesnay brought in to attend a slight ailment Eustace had contracted. She consulted another doctor on her own
nitiative. Slow combustion produces the nitiative. Slow combustion produces the most violent, conflagration, Quesnay's sions, and, now thoroughly roused, he let loose the full torrent of his wrath. At first
Olive quailed before the storm, then her customary hardihood reasserted, then her her counter-demonstration was more her counter-demonstration was more him with jealousy and unnatural abhorrence of his own son, ridiculed with pififless
scorn every foible he possessed, every scorn every foible he possessed, every
mistake of his she would remember and
exaggerate with exaggerate with feminineingenuity. She was a clever woman, and-she did not
spare him. Beneath the bitter lash of her tongue Quesnay became pale and still. When her eloquence was exhausted he asked her a question. "You say I am embittering every hour of your life; you
wish you had never met me. There is a remedy. We can part. Do you wish a remed
that?"
"Wit
"With all my heart."
I shall not Remember Olive, If I go I shall not come back to you until you
beseech me-on your knees," "Thank-you. You are very consider--
ate. This is more than I dared hope for." And so he left her, only sopianing to
make the provision absolutely necest nake the provision absolutely necessary
for this rearrangement of their lives.
There her There had been no publicity, no scandal, and Olive had kept the boy.
Nine months ago! Mrs. Quesnay sat back with her hands resting idly in her play. Nine months! thoughts have full
ing, scen nothing of had heard nothing, scen nothing of him. And at one
time she hard thought, a month withot time she had thought, a month without
him would be unendurable. Why, she had had a splendid time-the time of.
her life! A round of delightful visits. dances, theatres, dinners, concerts an minterrupted stream of gaiety, a stries,
of social triumphs. "Her hushand?" asked the curious. "Oh, yes, abroad
travelling, you know. No; 1 have been obliged to stay: my little son."
Her little son, Enstace. A slight
frown marred the smooth expanse of her white throw. It was strange how her
absorption in the boy had diminished after-Malcolm had gone. Of course sh (oved him quite as devotedly, she told her-
self. But then he was growing aud did

Maintaining an Attractive Wardrobe on a Small Allowance.

In planning her dressmaking a woman should keep in mind the fact that expensive clothes do not insure an attrac-
tive appearance, and that it is have two inexpensive dresses which permit of a little variety, than one costly gown.
It is wise to make simplicity the keynote of every dress and instead of
spending all the available money on one or two, it is better to make it "go farther", with less expensive material. Even the best dress when worn continually day after day becomes monot-
onous, and monotony in dress is as fatal to the appearance as monotony of thought is to the mind.
When, however, the wardrobe contains
several dresses, it several dresses, it allows a welcome
change on desired occasions and gives freshness and new life to the appearance. And, though inexpensive, just so we gowns are neat and becoming, they To the woman who appreciates this fact and puts it into practice, the prob em of an attractive wardrobe is prac of this "wise and economical method many women on an exceedingly slim purse are able to appear to better ad
vantage than their vantage than their less thoughtful sis-
ters who spend two or three time their ters who spend two or three times their

Of prime importance in the matter of rial- dresses is the choice of mate-rial-it is necessary above all things
that the material be of good, dependable quality, that will wear well and, if it be a wash dress, will stand repeated washings without fading or losing its freshness and dainty appearance.
For this purpose nothing is more suitable and satisfactory than the many
different styles of the well known Simpson-Eddystone dress goods, which for 68 years have maintained that high
standard of excellence which made the standard of excellence which made the
Simpson name a by-word among the belles of our grandmothers' day.

These substantial materials vie with the more expensive goods in elegance
and beauty as well as in originality and becuty as welt as in originality the fact that they are dyed in fadeless permanent colors renders their use prac-
tical when less serviceable or less dependable goods would be worthless after becoming soiled, or ruiner، through washing. The woman who wishes to plan her come can utilize these desirable materials to the best possible advantage, for instance the silver-greys, hazel-browns, and shepherd plaids are all excellent.
Every one can follow out her ow ideas as to patterns and the style of trimmings, and each dress should, of course, possess its own particular touches The materials
leading materials can be obtained from
goods stores, and in a great variety of designs.

## Against Despair."

By Rev. Geo. Matheson, D.D.
"Strengthen the things which remain."
There are two courses which have been proposed as a sateguard against depair. The first and most common is he disparagement of the thing lost. It

fable; the grapes become sour when they boy, when he loses the prize, says it is not worth having; many a man, when he fails to get an appointment, says, "It is a poor thing; I wouldn't have taken
it." To speak thus is to give loss a iteat victory; it is to assert that we have not only lost the object, but have
been deprived of our love for it. Never been deprived of our love for it. $\begin{aligned} & \text { Never } \\ & \text { encourage such a sentiment. }\end{aligned}$ I agree encourage such a sentiment.
with Tennyson that it is better to keep your grief han to tose your love. But
there is another way of avoiding despair there is another way of avoiding despair when loss comes. It is the way pre-
seribed by the man of Patmos-the man who was separated from his dearest by a cruel sea. Does he say that those
things separated from him are not worth laving? On the contrary, he longs for the time when there shall be "no more" sea. But meantime there is another
refuge, a better refuge, than the sourness refuge, a better refuge, than the sourness
of the grapes that are left to him. all souls and to all churches which have
suffered loss the strecthes out his have suffered loss he stretches out his hands
and cries, "Strengthen the things which remain!', $\begin{gathered}\text { Oh, tloun whic in the time of loss sest }\end{gathered}$
no refuge but either despair or disparage. I went, show thee a more excelient way:
I mave thee disparage thy dead. I would not have thee drop them
from thy mery from thy memory as if they had never
been. But I would have thee to turn memory into present love-to make thy remembrance of the dead a means of devotion to the living. I have heard the
child in Mrs. Hemans, peen child in Mrs. Hemans' poem say, "O,
while my brother with me played, would while my brother with me played, would
I had loved him more!" It is a very pretty sentiment, and a very common experience. But I do not think the full moral is given when the child in this poenn is told, "Thy brother is in heaven."
If we stop with that statement we nip If we stop with that statement we nip
in the bud the aspiration after better conduct. I would say to the child: "You have other playmates who are still on earth. They, too, may be soon called
from you. Whenever you think of how from you. Whenever you think of how
much more you might have done for the much more you might have done for the
brother you have lost, remember those brother you have lost, remember thater who remain! Remember that
playmater when they go you will have the same
remorse for them ; try as much as you remorse for them; try as much as you
can to can to love them now!" So would I say
to thee Sink not in daspait at the memory of thy shourthercomings to those that memory into present love! Remember thote whom thou canst helpi Remember the children who are still
playing in the market-place playing in the market-placel Remem-
ber the needs that can still be met, the wrongs that can still be righted! Re. member the hands that still are un.
warmed the feet warmed, the feet that still are weary, the hearts that sti,l are sad! Remember to
say the word of kindness to day. Love the more deeply because death has a deep shadow! Lavish upon the morning
what the night may prevent thee from what the night may prevent thee from
giving. Strengthen, strengthen the giving. Strengthen, strengthen the
things which remin

The Canadian Bank of Commerce.

## Annual Meeting

## The forty-fourth Annual Meeting of Bank of Commerce was held in the uary, 1911, at 12 o'clock.

General Manager's Address. The General Manager said in part: We have pleasure in presenting you
with a statement which is in many respects a culminating record in the
Bank's history. The past year was re markable for a large volume of busi ness and general prosperity, which ${ }^{*}$ jus
tified our predictions when last we had the hour of appearing before you. A
no time during the year was there no time during the year was there any apprehension lest we should fal
short of our estimates. The trend of business, uniformly satisfactory profits,
and comparative freedom from losses make it possible to lay before you the
results of our perations with great results of our operations with great confidence and a full assurance that they
will meet with your very cordial approval.
The profits for the past year were
$\$ 1,838,065.04$, an increase of $\$ 327,370$ as compared with those of the previous
year-being 18.38 per cent. on the paidup capital. This result, was obtained our assets, and a ample provision for al
bad and doubtful debts. In accordance with
tion, your Directors increased the dividend to nine per cent. per annum,
which called for a payment of $\$ 900,000$, We are gratified that our present and prospective prosperity justifies the expectation of a larger return on your
capital, and it will be our pleasure to capital, and it will
suggest the payment
for the coming year.
You were good enough to pass a re-
solution at the last annual meeting solution at the last annual meeting
authorizing the grant of $\$ 20,000$ as nueleus for a a Widows' and Orphans'
Fund, and this sum, with the regular Fund, and this sum, with the regular
payment of $\$ 30,000$ towards the Penpayment of $\$ 30,000$ towards the Pen-
sion Fund, accounts for the $\$ 50,000$ charged against profits for this year.
After very careful investigation and actuarial examination, we are pleased to say we have been able to adopt a
comprehensive scheme to embrace in one fund a beneficent recognition of
every member of the staff. We can not express too strongly our gratifica tion at this consummation of.our de
sire for the welfare of the service crowning act will do much to foster the ously guarded since its establishment. After providing for these appropria-
tions we were able to transfer to serve Account $\$ 1,000,000$, and to carry
forward $\$ 310,204.06$ in Profit and Loss Account.
$\$ 6 ; 347,275$, which we regard as a health growth under this head; the accession
of special amounts of a temporary na ure, mentioned in last year's state the year. On account of the ex pansion of our commercial business in
Canada
current
 88 from our call and short loans in the United states. We report $\$ 2,167,410$
nore cash on hand than on last year, statement, and our quick assets equal
45 per cent. of our liabilities, excluding apital and surplus.
Canada, the manifest need for the of Cansia, the manifest need for the ex
tension of our system to meet the requirements of a rapidly growing busi
ness, and the protection of our business at points where we are already estab-
lished, make it imperative that win should do our duty in opening branch-
es, often anticipating the necessities of the case. We are not unmindful of enders, but are conscious of kind en that we are expected to do our full
share in the upbuilding of the country which gives us privileges with the un
deistanding that our service will be commensurate with our opportủnities.
We rcalize our accountability to
shareholders of this Bank, who hav entrusted us with a large investment,
nnd we believe you will be satisfie with the assurance that we exercise branches in new fields.
year, our accounts showing unusual profits and a healthy advance in masuaand persistent demand for money to care for the needs of merchants, manufacturers, and our farming community
with rates fairly well maintained, the fluctuations being well maintained, the withstanding the uncertainty of finan cial affairs in other centres with which
we are intimately connected. The outee are intimately connected. The out
loo for easier conditions in Great Britain will probably result in the sale of Canadian securities abroad in large
volume, and the prospect of cheaper money, and the prospect of cheaper
money the United States may have a rey in the United States may influence here; but with the
great development in all parts of Can great development in all parts of Can
ada there should be employment at remunerative rates for funds to carry on ordinary business. and all the in along safe lines. We enter the com-
ing year with a confidence begotten of ing year with a confidence begotten of
past experience, and hope to share in
the past experience, and hope to share in
the general prosperity, and to enjoy
reasonable freedom in the management of our institution.

## President's Address.

The President then said in part:
Doubtless the feeling most present at the moment regarding business conditions in Canada is that we
are enjoying a prosperity as great as are enjoying a prosperity as great as
we have ever known: Whatever nificance the check of 1907 had at the
time, or should still time, or should still have, even the memory of it seems to have passed away, and with larger foreign and larger amount of building in cities, larger amount of railway construction, and larger immigration than in an previous year, it would be strange if
we felt otherwise. Our Western crop were not to our liking this year, bank-
ers know that ers know that a little more expansion may make money scarce, and the pace on the inevitable stemporary exhaustion, but, important as these things
are, they have little effect on the situa tion as a whole. Even the large reduc United States is regarded as mainly due to political unrest and as having no we are experiencing position. Tha perity is a matter evident to all, but if we examine in detail the circumstances accompanying this prosperity Great Britain is a matry thatory afford to import much more than it exports because the world owes it an-
nually an enormous sum for interest nourse other things, for which it must, o charse, take payment mainly in mer-
chandise. The United States is a country which should export annually ports in order to pay for interest, and for the money drawn from the country by permanent absentees, tourists, it cannot afford to increase and because foreign countries, haying already about
$100,000,000$ people and a scarcity in any reople and a scarcity in the new countries which is entitled of rapid settlement, import more than it exports. The difference is met, however, by debt obligations which must
some day be paid. The question then,
as to how much we should go into is the same which confront the indiidual in trade, but the considerations are so large and so complicated that
it is hard to know, when we are wise nd when unwise. What is certain he should live sparingly, not extrava-
gantly, and that if, with , the money
he has borrowed. he has put himself in he has borrowed. he has put himself in
the way of making a product with
which he hopes to pay his debt, he
should strain every nerve to make and sell as much of that product as he can, the lowest point possible. Now, Can
tada is somewhat like a man who, having a rich inheritance in land, borrow to develop it, and, confident of its fut ure value, spends freely for his present
gratification. while he does not mak effort enough to create the needed pres ent revenue from his property.
During the fiscal year 1910 of the During the fiscal year 1910 of the
Dominion Government our imports and exports both reached record figures. Our imports were $\$ 391,803,000$, and our
exports $\$ 301,358,00$, the balance against exports $\$ 301,358,000$, the balance agains
us being $\$ 90,445,000$. The excess of imports is not a record. having been exceeded in 1907 and 1908, but it is, as was expected, a great increase over the previous year, when, becass of im-
contraction in 1908, the excess of our foreign trade was $\$ 693,161,000$ more than three times the volume of twenty years ago. It is unfortunate
that we cannot estimate, even roughly hat we cannot estimate, even roughly,
the volume and growth of our domestic trade during the same period. Our imports from the United States were
larger than ever, $\$ 237,693,000$. This is larger than ever. $\$ 237,693,000$. This is
almost twice the amount of ten vears ago. Our exports were a trifle less
than in 1908, being $\$ 113,145,000$. The than in 1908 , being $\$ 113,145,000$. The
sum we had to pay to the United States sum we had to pay to the United States
in money was therefore $\$ 124,548$, in money was therefore $\$ 124,548,000$, or
more than two and a half times the amount we had to pay ten years ago. This money was obtained partly from the surplus in our exports to Great
Britain, partly from the sale of seBritain, partly from the sale of se
curities in Great Britain and and to a small degree from Europst ments in Canada coming from the
United States, and the wealth brought United States, and the wealth brought
in by settlers from that country. Our in by settlers from that country. Our
imports from Great Britain were $\$ 95$. 677,000, a .trifle less than those of the record year 1908. Our exports were
a record, being $\left.\begin{array}{c}\text { \$14,9634,000, against }\end{array}\right]$ record, being $\$ 149,634,000$ against
$\$ 134,484,000$ in 1908 . The surplus in our
favor was $\$ 53,956,000$ a smaller figur favor was $\$ 53,956,000$, a smaller figure about eighteen millions less than in the most favorable year, 1903 .
largely increase our exports. We coul that in almost all parts of Canada the majority of farmers produce very much
less wealth per acre than would possible with greater effort wand be the necessary labor available. The farmer who has no mortgage or other
debts, who finds labor extremely hard to obtain, whose standard of coly hard is fixed, and who is no longer young. cannot easily realize that he has any
duty to the State which he does not perform, nor can any, pressure but brought to bear upon him except b.
friendly argument and practical illus tration. The fact remains. however that because the farmers as a whole do
not produce more, our debts to othe in anticipation of future development The more burdensome than is necessary The total value of the field crops o timaded hy the Census Drepartment, is
$\$ 507,185,000$, the product of $32.711,062$ 1909 are The corresponding figures for cres, and for 1908, $\$ 43953400,55$ 27,505, 6a3 acres. The loss in 1910 from

These are the people who.

In the case of the majority of ou ment, whether sufficient or not. Ijusi any event, the overwhelming bulk of our people share in our prosperity
which, be it remembered, is the re ult of our combined activities. It is mechanic, nor to the railroad, the bank he manufacturer or the shopkeeper It is the result of the fortuitous cir abled by our combined effort to mak profitable use of the natural resource of Canada. Is it not, therefore, most regrettable that, instead of each indi-
vidual finding happiness and ment in his own prosperity and in hint share in building prosperity this country, which is his guarantee of future well being, we agitate merely that we may
still further profit as individuals if other Canadian industries are made
to lose or are destroyed thereby?

> The Maritime Provinces.

While there is, perhaps, less change vinces than in most parts of Canad there is a slow but steady improvement in many industries, and the year prosperity. The results of marked agriculture have been perhaps the best in the history of perhaps the part of
Canada, hoth as to yield and as to Canada, hoth as to yield and as to
price. The value of the field crops of price. The value of the field crops of
the Maritime Provinces in 1910 was
$\$ 50,150,000$. for 1909 , compared with $\$ 49,684,000$ from rot and the yield was so small only this important crop brought ples and other small fruits, excludin berries, were most unsatisfactory-ap crop-but in other productsird of a hay and grain, crops and prices wer so good as to second the admirable impress upon the people how profitable are the results to be obtained from land Which is fertile and near to good mar
kets, but which lies idle largely cause the people of many parts of be provinces have been used to other puring and stock-raising volume and have been very profitabl during the past year, and the same is in New Brunswick, notwithstanding th higher prices and the fine hay crops much less cheese and butter is made
than five or ten years ago, many les actories and creameries are in opera sheep is actually less numerous than en years ago

## Ontario and Quebec

A year ago, despite some fluctuations in Ontario and Quebec was most sar better, and it is question record is stil cards yield or prices, excepting in the ase of fruit, potatoes, and one or two essful result was ever obtained by ar farmers. High prices in 1909 had ansed a larger acreage of grain to be
planted, farm work began early in the spring, fall wheat came through the
winter well, harves Winter well, harvest results were ex-
cellent, hay gave a large yield, roots
in most localities ogs, poultry, eggs and all dairy pro-
lucts brought high prices. but the suply was unfortunately always insuffi-
ient. The value of ient. The value of the field crops of
Ontario and Quebec for 1910 was $\$ 301$, ,
O9, non, compared with $\$ 290$. 46000 for 469,00 for Although in the fruit districts where
appe growing is carried on scientifi-
ally. as wine apples were produced as

ild be desired. the crop as a whold as as great a failure in ontario as in in Maritime Provinces. In neither dis.
ontreal is sumantity shipped fromrecent year comparable there becing
hiol wasrels. in Tho highest figure

Winnipeg, February, 191 of a lessened crop, but with scientific
methods the number and size of the apples would always be greatly increas
ed and the quality greatly improved. We used to be able to follow closely
the growth of our dairying industry the growth of our dairying industry
by using the figures of the shipments of. cheese and butter from Montreal as
examples, but new conditions have examples, but new conditions have how
arisen, and these figures are now of
litte little use. The consumption of butter
in Canada and of cream in Canada and in Canada and of cream in Canada and
the United States has practically dethe United states
stroved our foreign trade in butter, strove one year reached 573.449 pack-
whes, valued at $\$ 7,400,000$. The same causes have kept our cheese exports almost stationary for three or four years.
The figures for 19010 are $1,892,000$ boxes, worth $\$ 17,503,000$, as against the record
of $2,395,932$ boxes in 1903, valued at $\$ 21$,500,000. OOe ereat departmental store collects direct from the farmers suf-
ficient milk to keep several cheese factories busy.
Suceessful as the year has been
with the farmers of the East, there is with the farmers of the cast, there is
a ganving convicion that this part of
Canada is at the moment a land of
 taken up the cheap lands and virgin
soil of the West. While many think
that more effort is necessary to sucees in the East, facts gathered from re-
cent experience show that in no part of Canada can a larger return be ob-
tained in proportion to the intelli-
gence employed than here in Ontario tained in proportion to the interli-
genee employed than here in Ontario.
We have one of the best and most fa-
mous of Agricultural Colleges, and wherever one of its students is farm-
ing the effect of his knowledge on his
own farm and the intwent own farm and the influence of his ex-
ample on those of others is most mark. ed, but there are many parts where no
such examples of improved
methods exist, and the Goverrment has now
adopted the plan of taking the College adopted the plan of taking the Collige
to the farmer. The Farmers Institute
lectures and the Agricultural lectures and the Agricultural Fair
prizes have done and are doing much prizes have done and are doing much
good, but the new effort is of an much
more effective and practical nature. It is sought by demonstration narming
actually carried on by experts acting actualy carried on by experts asting
for the Government, and by visitc tepaid
to various parts of the Province by by to various parts of the Province by
eeperts who are abbe and willing to
give advice, gradually to break up that give advice, gradually to break up that
condition of contenterent with the
farming of our fathers which is great an enemy to progress. If If young
men can be shown the results of a
thorough knowledge of thorough knowledge of stock-raising as
compared with not knowing, of caring for orchards insteat of not oaring for
them, of systematio manuring and of proper drainage, of a knowledge, in-
deed of the gany things whlich bring
about the enormous difference in
results between old-fashioned and up
todate farming, we nay hope that
more farmers) sous will more farmers, sons will stay on the
land, and that many city menu will set-
tie there and that inutreased wealth and happiness will be the result. But
antual results are more powerful ar-
auments that guments than mere preaching. An or-
Chard in Ontario which yielded prior

Western Ontario similar things can be Cone. Too much creait cannot be ac-
corded to the Department of Agricul-
ture of O the ture of Ontario for the effiort it is mak
ing, and we can but hope that the mum ing, and we can but tope that the num.
ber of lecturers and demonstrators will
be increased be increased, and that they will be
persistently kept at persistently kept at work as a per-
manent force working for agricultural
improvement improvemente. In some por parts arrealuaral
new tone has been given to farm affairs, new tone has been given to farm affairs,
emigration to the West has nearly ceased, farm values are increasing, and
intensive farming is a subject of genintensive farming is
eral and keen interest.
That a more enterpisising spirt is
necessary
fay be readily gathered from the statistics of live stock in On-
tario. From 1901 to 1907 the number of horses on hand grew from 620,000
to 725,000 but to 725,000 , but since that year there has been practically no increase. The
number sold annually number sold annually has, however, in
creased from 51,000 in 1901 to 98,000 in
1901 1910, which is evidence enough, of the
difficulty of maintaining a stock on difficulty of maintaining a stock on
hand. The number of milch cows in hand. The number of milch cows in
1991 was 984,000 in in
1910
19070
only
$1,052,050,0000$ other cattle in 1901 was $1,523,000$,
1906 , 1906, 1,834,000, and in 1910, ony 1,514,
000 , The number of stock slaughtered, however, rose steadily from 610,000 in
1900, to 817,000 in 1910. In sheep and lambs the story is one of steady decline
from 1901 to 1910 in both the number of those on hand and of those slaught-
ered rose from swine the number on han
in 1907,00 in 1901 to $2,049,000$ in 1907, and fell to $1,561,000$ in 1910,
while the number slaughtered, rose
from t,973, from $1,973,000$ in 1901 to $2,267,000$
in 1905, and fell to $1,844,000$ in 1510
lin In poultry of all classes there has been
a satisfactory increase in the number on hand and in the number annually
killed. It will be seen from these fig ures, which are mainly taken from re
ports of the Agricultural Department oftrs of the Agricutural Department
of the Province of Ontario, and do not Census Department at Ottawa, that we are meeting a greatly increased demand
by decreasing the stock on hand, and cont a state of things cannot, of course causes have led to this result, and others will tend to remedy. it to some extent
in the near future. Hay being scarce, high prices prevailing for coarse grains,
and the highest prices ever known for cattle, the farmer has in many cases
sold both cattle and coarse grains, instead of feeding his stock as usual.' But food crops are now more plentiful, and
we may look for an increase in the
tock of animas an lim

Manitoba, Saskatchewan and Alberta. Considerable disappointment, as we
all know, accompanies the record of whit is
progress nevertheless another year oo The wheat, outs and prairie proverinces.

working out the reorm made neees.
sary by the impoverishment of the land as a result of repeated grain crops. There is no question of more impor-
tance to Western development than that of improving the breeding of live Ne are witnessing the gradual extinc tion of the rancher and the gradual es ablishment of a great grazing and feed-
it industry. It is naturally diffeult y the increase due to the slower methods of the latter to make up for the
losses consequent on the passing of the losses consequent on the passing of the
rancher, but the outlook as a whole is rancher, but the outlook as a whole is
promisisg. The Live Stock Exhibition at Winnipeg in 1910 exceeded all re
cords in the number of high-grade ani nals shown, and these were of such
excellence that little further improve xcellence that littile further improve
nent can be looked for, some classe having been the finest ever shown' in
America. The progressive Western America. The progressive Western
farmer is demonstrating to his fellows farmer is demonstrating to his fellows
that if each of them will, as soon as he can afford it, raise a few head of highgrade stock, the disappearance of the
rancher will redound to their gain, and the problem of maintaining a sufficient supply of animals will be solved. As
suatters an stand stocks are not as matters now stand, stocks are not am
large as. hey should be, mor are they ncreasing as fast as they should. Stat atchewan and Alberta to be of much service, but in Manitoba horses huave
increased in numbers
only about
and 50 per cent. in ten years, cattle a about more than 50 per cent., sheep have les.
sened in number, swine have increased sened in number, swine have increased
about 100 per cent., and poultry about 65 to 70 per cent., and sourh statistics as
are
available show that for the three provinces are about 870,
ono
horses,
$2,300,000$
cattle, 345,000 heep, and 608,000 swine. Figures for for there are not as yet half as many as as
in Ontario. One has only to look at
Ont he map and consider the small part of of
Ontario that is farmed and to com pare it with the West. in order to see how very much must be done before it
can be made impossihle for the Vice. resident of the C. P. R. to reproach
Manitoba with the importation of 12.: railway alone and one year over that
say further that he poultry and cream for their dining ars must be obtained partly in the

## Oneega.

## By James W. Dempsey, Brandon

IT was during the to the northward. A thick poplar and was then in the employ of MacMillan pany, of old Fort pany, of old Fort
Garry, and was to be sent out to
inspect some timber limits secured by them about fifty miles west of Portage lo Prairie, in the range
of hills that extends northward; and broadens out until they reach the Ridings on the north. As guide iaseaged weather-beaten "old timer," who I learned hid a shack on the banks of Pine Creek, near the timber limits which I was to explore old Andy had come
to Fort Garry to procure some supplies, and was setting out next morning on the long trail for Pine Creek. For many years he had been a trapper along this
creek and throughout the hills, and he
knew the whole country well. I had been told by some of the traders at the fort that he was "rather, a quare old duffer, but a good guide." The only
peculiarity I noticed about him was his peculiarity I notieed about him was his
quick and rather nervous way of glancquick and rather nervous way of glancAbout five o'clock in the evening of the third day we struck Pine Creek, and had yet about ten miles to go down the
oreek to where the shack was situated. This was che only shack within twent miles, and we calculated to reach it before eight o'cloek.
We followed the windings of the creek. On either side extended a wide swamp
for about four hundred yards, overgrown in many places with willow, and beyond this rose the hills, extending west and east for about fifteen miles on both
sides and running in a wide range far
spruce forest covered all the hills. The snow was about a foot deep, and lay
smooth and even. smooth and even. The air was intense-
If cold, and every sound re-echoed. Far through the hills, we heard the lonely yell of the coyote and occasionally the angry snarl of the wild cat. It was already dusk, and we quick-
ened our pace. ened our pace. Suddenly Old Andy,
who was walking ahead, stopped "Listen!" Far across the hills eclioed and re-echoed a long, weird cry, plaintive and menacing, intensely human and I looked at the trapper. He was pale as death, and seemed dazed. "What is it?" I asked, my voice a hoarse whisper. He started as one suddenly
a wakened. "Oneega's cry! the spell! the spell!" he cried. "Come, we must reach the house." And he hurried on at such a pace that I could with difficulty keep up. For about an hour I struggled
after him; and ever and anon there came up through the frosty night that long and terrible cry, and each time the trapper seemed to quicken his pace till at last we reached a
sight of the shack.
Not until we had kindied a fire and prepared supper did the trapper venture feared to ask the meaning of the man, I cry. Now, settled before the fire, he began one of the strangest stories I had heard for many days. However, again broke in as he talked, that lonely cry strong influence seemed to move the trapper. I give
me, bit by bit. It was in the early days, when the Crees were wont to encamp in these hills
during the winter months to obtain
their supply of deer meat and skins. In
the winter of 1862 a large tribe, under the chicf Eagle Feather, were encamped a few miles to the north. Among them was the chief's son, Young Eagle, and
his cousin "Ishwashka," familiarly his cousin "Ishwash."
Now, Young Eagle and Grey Wolf had for some time been rivals for the hand of Oneega, the belle of the tribe. Seeing that his rival had the preference him in some way. A journey was to be made about 20 miles to the northern
forests to forests to search for deer. Usually only two young braves were sent. Young
Eagle contrived to have Grey Wolf with himself selected. Suspecting nothing, Grey Wolf consented, and the two set out. On the morning of the second day
Oneega was found to be missing from theega was found to be missing from
the camp. A spirit of foreboding had seized her, and, speyirit of the subeding had impulse of her race, she followed on the trail of the hunters. All day she fol lowed, and eventually at even came nea
the camp. There was Young Eagle, and The camp. There was Young Eagle, and
alone. Divining what had happened Oneega waited till he was asleep, and then, stealing up, stabbed him to the
heart.
$\qquad$ Many days the tribe waited for the
hunters, and searched for Oneega, but no one returned and no trace of Oneega was found. At last they found the body of the treacherous Young Eagle, Soon the tale got abroad through all the tribes that the spirit of Oneega could ee seen wandering ever over the northern hills seeking her lost lover, Grey Seven Louis, came to Old Andy's shack and stopped with him for some time. All trapped the late fall together they trapped and hunted, till at last the
streams were all closed was unusually deep, and all the deer seemed to have gone north into the thicker bush. About the middle of
February, their suply
done, they determined to go north secure venison. Starting out early one morning they travelled all day, till they came at last to Moose Creek, where the ntended to camp.
It was on just such a night as this,
and at the same time of year. as they sat before their camp fire on the banks of Moose Creek, Old Andy and Louis heard for the first time this lone weird cry of the lost Indian maiden, Oneega. They had often heard the tion that anyone who followed the phantom was doomed to die. Again and aga they heard that plaintive wail so terribly human. An uncontrollable desire seized Louis. He must follow and find what it really was. Seizing his ifle he left camp and went out into the ollowed the sound of the cry and up a long ravine, and there, in the frosty noonlight, he saw the ghostly figure of he Indian maid. She beckoned to him tempted to draw back, but the irresist ible desire was in him to follow that phantom cry. On went the figure, and after her the hunter. Over high hills, through the heavy forest and far to the
northward she led him. Ever he tried to return, but ever he heard that entreating call. Clouds covered the moon, the wind began to rise, the snow but still tlat the trelling plaint And but still that compelling plaint. And higher and the blizzard has begun. Louis struggles on, up to the knees in snow, his rifle long since discarded, all ever in his ears rang that voice just ahead and drawing him on-on-on. The blizzard lasted for two days. Old Andy waited for many weary days, and searched long, but no trace of Louis
could be found. And now the Indian told of how Louis had come under the told of how Louis had come under the
spell of the wandering Oneega, and of
how in seven years slie would return.

## EDSON, ALTA.

is the only town that can be favorably compared with Saskatoon. Saskatoon, when it first began to attract general attention, some seven years ago, was the centre for all that territory now known as Goose Lake Country, the Eagle Lake District, the Long Lake District and considerable territory to the east and north east. That territory at that time was sparsely settled and it was due to this fact and owing to the rush of homesteaders into that district that made Saskatoon what it is today. Take a map and compare the prospects of Saskatoon at that time with the prospects that Edson has today.
Edson is the last prairie divisional point on the main line of the Grand Trunk Pacific Railway. It will be the end of the railway until the mountain section of the road is finished, probably three years hence. It has no competing towns to the south within 150 miles, to the west within 300 miles, to the 000 homesteads will be take up east within 132 miles. It is the gate acknowledged to be well adapted for agricultural purposes and which on annowledged to be well adapted for agricultural purposes and which has engaged public attention for the past ten years.
The Peace River Valley is well advertised and the rush of homesteaders into that territory will surpass anything known heretofore. The Edson district has rich coal deposits, extensive forests, stone quarries of high quality, lakes and rivers, and the Jasmin Park, a resort that is in every way equal to the resort at Banff.
It is safe to assume that Edson will have a population of 20,000 people in five years. It took Saskatoon seven years to acquire a population of 15,000 . Lots that sold in Saskatoon seven years ago at $\$ 300$ each, changed hands last year at $\$ 40,000$ cash.
The opportunity that Saskatoon offered seven years ago is exactly what Edson offers you today. You frequently meet people today who regret that they did not buy Saskatoon property in 1904. They talk entertainingly about the fact that they had the chance to be independently rich but they did not have the courage to invest their money in Saskatoon seven years ago. If you invested your money in Saskatoon seven years ago there is nothing more certain than that you will buy a lot in Edson today.
Our lots are all located in the first survey of the original townsite of Edson and range in price from $\$ 125$ to $\$ 1,800$ each. We sell on easy terms of payment and will be glad to furnish full particulars upon receipt of post card from you saying you are

Write us today for to-morrow may be too late.

## THE WALCH LAND CO.,

#### Abstract

The old trapper finished his story and | rose. $\begin{array}{c}\text { He was strangely agitated. We } \\ \text { still heard at intervals that weird and }\end{array}$ |
| :--- | mysterious cry. To Old Andy it seamed more distinct than to me. I nutited Ind that he started often towards the door, and then appeared to conquer his desire "No. piled fresh wood on the fire and "rolled in" for the night; but I could not shake off the memory of the story 1 had just heard. Something uncany seemed to pervade the whole place. After a troubled sleep of about 1wo hours I a woke with a start and a Was wrong. Rising to put more wood Mol the fre I noticed that Old Andy had left the shack left the shack. Then there came the story I had heard from him just a few hours before, and his strange belaaviour. Putting on mocassins and conat, it hurriedly seized my rifle and went out. All was silent for' a moment. and thent

#### Abstract

| the sea ?", |
| :---: | :--- |
| Over four hundred young Canadians | $\begin{aligned} & \text { round and say, "Mother, do you think } \\ & \text { there are any mushrooms there", }\end{aligned}$ were asked this question by Dr. Robertson, the chairman of the Royal Commission on Technical Education and Manual Training which recently went through training which recently went through the West. One boy put up his hand in one corner. Another did the same in another corner. One girl in the midde corner. One girl in the middle of the class-room thought she had seen the class-room thought she had seen the sea but could not say for sure. Anyhow, she lifted her hand. One little fellow, was certain that he had seen it because he still remembered being sea-sick when he stil remembered being sea-sick when his mother brought him from England. Altogether, out of those four hundred scholars, only four had seen the sea. It sounds like a back woods story, but it isn't. The children were not lving it isn't. The children were not living thousands of miles from civilization, but in Brandon, one of the most progressive cities in Manitoba, and they were sitting in the assembly room of the pub- dic school the city thinks so much of lic school the city thinks so much of. When those four hands The sight of the sea dazzled me. I could not understand how it was the horizon seemed so low. If I asked the question once, I asked a dozen times home the same night in the same train I did not look out of the carriage window and wonder where the mushrooms were. I leaned my head against my mother and dreamed of the boats mother and creamed of the boats, the waves, the crabs, and I fancied myself paddling with my boots slung across my shoulder. I had had a new experi-ence-I had seen the sea. This is the picture saw those four hands po phen I Brandon school. "The 396 up in that what they have missed," I don't know But Rertson. But the fact that only four out of was not thed scholars had seen the sea was not the most lamentable thing that impressed me as I accompanied the

## A Tour through Manitoba

For the Purpose of Establishing Household Science Associations for Women.
By Annie B. Juníper, Professor of Household Science, Manitoba Agricultural College, Winnipeg.

Last February, at the annual conven- the matter up, and was instrumental in tion of the Agricultural Societies of obtaining the support and kindly inter Manitoba, when the matter of household scienee instruetion for girls was dis:cussed, those responsible stated t.at
they hoped also to do something for the they hoped also to do something for the
women of the province from that department of the Agricultural College. This autumn Principal, Black took

## Tune Up <br> How do you feel right now-this minute?

As a result of the tour, Househol Science Associations were formed at loraine, Manitou Morden, Miami, Car man, Virden, Headingly, Stonewall, Swan Lake and Hamiota, whilst Morri and Valley River, where societies similar in aim already existed, both decided to
amalgamate with them, as Gretna has since done, making a total of seventeen. It may help matters to explain what Houselold Science Association is and stands for. It is a organized society
of women who meet together at stated intervals (usually once a month), and by means of papers and discussions on topies pertaining to the home, and social intercourse, seek to endeavour to in-
crease their own efficiency crease their own efficiency as home
makers, mothers, and members of a communit
aim and
worthy of ect $t$ worthy
tion. It was unfortunate that it was not nou ceement sent out that the formation of societies for the study of home duties Was to be one of the chief objects of the
tour. Instead, various subjects of inerest to women were billed for the ad dresses to be given. But we learn from mistakes. Had the ladies of the town. visited snown in advance what such as.
sociations were, and the benefits to derived, the total number formed would probably have been greater. For it is somewhat of an undertaking to talk up new society and organize one the sam evening, without any preparation in thi minds of one's hearers
The meetings were usually held in a public hall, and werd well attended.
Numbers varied from 20 to 200 , many men often being present. The speakers from the household science department topics as "Conveniences for Lessening Housework," "Clothing," with a plea for the introduction of sewing to be taught in all schools of Manitoba; and
at each meeting the aims and advantages at each meeting the aims and advantages
of a Household Science Association were of a Hous.
outlined.
The idea that there is need for definite and systematic study of the various branclies connected with home-making had evidently already presented itself to
women in parts of Manitoba, for at women in parts of Manitoba, for at
Morris and Valley River, as has before been stated, societies for that purpose already existed. Nowhere did we have more encouraging and happy meetings-
and we had many-than at those two towns. It was our good fortune to start with a meeting at Morris, where we found from 50 to 60 enthusiastic members of their Women's Institute, and on which the Home Science As. sociations are patterned. Here we received much kindness by both private and public entertainment, and the encouragement received there spurred us on or future work. Nhen, several weeks
ater, we reached Valley River, we needed a fresh supply, and it was forth coming in abundance; for, though in a ather more out-of-the-way part of Manitoba, the people there are intensel tions. Indeed, it is not in the larg mansions of a big city only that one finds advanced thinkers and interesting people. The impression left on the strength of Manitoba lies in the homes of the country and small towns.
sible for planning a to anyone responfuture makers of homes to heip the future makers of homes to visit the parents of persible future students, and oo gain to a certain extent their view point of life; this, and the great kindness, reccived in many places relieved the
tediousness of contimually spealing tediousness of contimually speaking on
thie same-tlicmes connecting link between the homes and the lionsehold science department at the College, just as the agricultural depart-
ment and farmere agricultural societies. For if the thath ters are to adrance. and study for their future work from a scientific standpoint, with them' 'y reading and thinking aleng similar lines reating and thinking along In February next, during Farmers,

## THE PHILOSOPHER.

## SOME EASTERN TALL TALK.

That strenuous advocate of protectionism, the Montreal Gazette, in the course of an article on the Ceative importance of Eastern Canada and Western ir their place, that the hay crop of Ontario alone last year was equal in value to the whole wheat crop of the three Prairie Provinces. This absurd state ment has had considerable currency in the East sell, of the Manufacturers' Association, repeated Rus his widely quoted address before the Canadian Clu in. Toronto. The Gazette, not content with multi plying the Ontario hay crop, went on to greater in the province of Quebec, which the W never consider of any importance at all, was peopl valuable than the total product of the West las
year." It has been ain year." It has been pointed ouit to the Gazette, in that the total Western wheat crop last year amount ed to no more than ontario's hay crop, that the official figures of the value of Ontario's hay crop are $\$ 46,621,740$, and of the yalue of the wheat crop
of the three Praine Provinces $\$ 115,391,000$. his reduced Prairie Provinces $\$ 115,391,000$; which the Ontario hay Gazet, but also alone, not only about in the province of Cuebec," in regard to which fre quent challenges to produce the figures have failed
to rouse it from its dumbness.

## 4 SLIGHT OMISSION.

A protectionit paper in the East reads the farmers Whether in the East or in the West", it says "in in own field is his own sovereign. He owes allegianc to no master, lives under good laws, is not taxed high even for public luxuries. All that we ask of him is land and to return to the soil the best that is in oo continue the outpouring of its fruits." The needs rotectionist journal from which this quotation is akem, omits to mention the thing which it require ortant of all, namely, that he shall the most imiciaries of protection, rule him, and that he slaal ot presume to interfere with them in the exercise

## THE WEST PAYS ITS FULL SHARE

 and unfoumed than the assertions which insolent aite found freepuent utterance in the Last to the what is now Western Cished the money that boupht Company, and also the money that has built thie Fast has created and maintained the West, and that thercfore the Western farmers owe the East a delit of gratuude which should prevent their presumingto speak out their mind in regard to the pullic to sipeak out their mind in regard to the pullic
affairs of Canala and questions of national policy or their expecting that questions of national policy at Otawa to their opinicins and their demands. It would not be fair to the peopla in the East as a
whole to catcrtain for a moment the idea that sumble assertions express fher ar moment the idea that such
to be overlueked thint the fact is not in print in Eastern jounchals, and have figured in certain public addresses madle in thave fasured in eer-
past month or during the necesrant to point out in repgy to them, it is only

As for the railways, they are con three sonthes-maintained ly funds derived from carringssiffom traffice. They also borrow money in the money markets of the world, but as this money proceeds of their from thateir traffic revenue or the coisidered. The Western farmer, by cultivatioly his homestead, increases the value of the railway lands, and also swells the volume of the railway
revenue from traffic. hemue from traffic. The railways thens receiv the West. Move than that, railway building on of rairie is, the easiest and cheapest of all raily uilding. Thr costliest construction of the C.P.R. is the section around the morth shore of iakia
Superior and the Rocky Mountains section. neithor of which were neecssities for the farmers. of the
West. That is to say if the been to provide railways for the farmers of the the
West the ondy West, the prairie section would have more tha: paid their way, and railway connection between

Winnipeg and Lake Superior would have furnishe an outlet by lake and rail. It was for national an Imperial reasons that all-rail route across the Do minion was wanted; and every Canadian may justly
take pride in the national spirit that insisted upon the construction of that route. To attempt now t charge the whole expenditure up against the Western farmers comes pretty near being the extreme limit of cool audacity. The progress and prosperity o Canada as a whole are based upon the developmen
of the West, and the men who are developing the West are the farmers of the Whost.

## CANADA'S CENTURY.

We are in the 'beginning of the century that has well been said to be desting of to be cantury, that has
as the last century was the century as the last century was the century of the United ear gives a total population, United States taken last or any dependencies, of $92,000,000$, an increase of $15,371,000$ over the population in 1901 . That was a reater increase than in any previous decade, but not the higliest percentage of increase. The highost percentage of increase was reached in the decade from
790 to 1800 , when the population rose from o 5,308,000. Another deeade in which a veriy high percentage of increase was attained was bétween 1870 and 1880, in the boom time after the Civil War, he era of transcontinental railway building, when,
he population increased from $38,558,000$ to $50,155,000$ If that rate of increase had been maintained the $38,558,000$ to 50,150 . resent population of the Cnited States would be $10,000,000$. There is a disposition to compare the progress of Canada in the present century with that hat the United States had $5,308,000$ people in fact and that this country had $5,371,000$ in people ine lends a certain fascination to the comparison. But the imilarity is only on the surface. There is no real and the condition of the Cuited of Canada to-day ears ago. The western migration of settlers in the dangerous process, and it years ago was a slow and such progress was made. The condition of Ganada the present time has more resemblance to that of the United States a generation ago, or less, when the railways were carrying thousands of settlers into the from the sources of the best immy draws not only United States at that time, but from the linited States in immense numbers. There is reason, therefore, for counting confidently upon a greater increase than the Cnited States had in the corresponding period of the last century.

## WHAT IS A PARLIAMENT?

furmerly ratick OHea, solicitor, of Durban, Matal, and farmerly a member of the Britisn House of Commons,
appars to be an Irishman without a sense of humol against the to a london paper a farliament of United South Africa, suggesting in stead "C.R.," meaning "Čion Representative." II thinks that the South African legislators who attine
to their names the sacred letters "MI.P" are guitt
of "combummate efruntery" to their names the sacred letters "MiP", are guith,
of "consummate effrontery." To a Canadian the
idea that members of the pa" idea that members of the Parliament of Canadian the should have a monopoly of "Mam?" is rather amusiug

## At Prices Never Reached

In the History of Piano Values

## Our Pre-Inventory Sale

has been planned to effect a clean sweep of every new and second-hand instrument in our Winnipeg Factory Warehouse prior to stock-taking date
There is an impression abroad that one can never hope to get the QUALITY GOODS at a bargain sale-that the sales are run to clean out the refuse. The Mason \& Riseh Company set a value on the reputation they enjoy wherever there is a piano of their production that they would not risk for any prospect that might be offered them. That character has been built solely on the SUPLRB QUALITY of instrument handed out to public in any sale made by them or their agent.

In announcing the present RECORD EVENT, the Mason \& Risch Co, state that the lowest priced instrument in their pre-inventory sale list is absolutely guaranteed as to quality and condition. Our only reason for giving the public this unprecedented opportunity is the circumstance of our annual stock-taking and the determination to start our financial year with an absoutely NEW stock

Below is a list of high-class used pianos, all guaranteed and sent out in first-class order withut a single weakness. They have been taken in exchange for some new model of our own piano or Pianola piano.

| 7-English made Upright Pianos for | \$65 | 3 | 10 |
| :---: | :---: | :---: | :---: |

## THE YOUNG MAN AND HIS PROBLEM.

## By Rev. James L. Gordon, Central Congregational Church, Winnipeg

#### Abstract

A GRAND LEGACY. The grandest legacy is character. For in such a legacy you have a good name, a glorious memory and the incarnation of an eternal principle. No better illustration of such a legacy can be found than in the words of that famous orator Mr. Jennings of money, only about $\mathbf{6 6 0 0}$, and I am a great deal 1 would have been in the end the gainer had he left me a fortune, because fortune in prospect has ruined more young men than it has ever helped. But he to me than a fortune. He told me that I could afford to be in the minority, but that I could not afford to be wrong on any question. He said that if afford to in the majority, while if 1 was in the majo day b mority and wrong majority, while if I was in the majority and brong sed some the omnipotence of truth, in the final triumph of every righteous cause."

## THE QUESTION OF DESTINY

God usually tests a man before he trusts him.
In the life of every great soul you will find a In the life of every great soul you will find a question confronts the soul, and in the solution of that question comes the opening of the doors of life and opportunity: The Christian Commonwealth Memarks:-"Recently in a lecture upon Leo Tolstoy
Mr. Aylmer Mande reminded his audience that the out of Tolstoy was born in a crisis. The turning oint came in his life when he deliberately conit, and to make the conclusion a dominating principle in his life. That question was, 'What is the purpose of life; what am I here for; what is it that permanently counts? He passed in reviow such tuings as property, family affection, fame-the dear and found that all of them were impermanent, and therefore, that the true end of life could not-lie in them. The conclusion that Tolstoy came to, and took henceforth as the guiding thread and the cen
tral purpose of his life, is, doubtless known to all readers of this column; and I do not pursue the matter further; I use this reference in order to of our lives--we do not, on the highest plane, many
of our lives to a crisis.

## GETTING UNDER.

A building fell in Winnipeg some time ago,
with an explosion like a clap of thunder with an explosion like a clap of thunder. The entire
neighborhood was startled and soon the began to inquire the cause. It was found that certain central pillars had given way because the burden resting on them was too great. Men are because they have planned more work men tooare able to execute. How wise are the words of Elizabeth Prentiss :-"If you could once make up, sort than you can carry on calmly, quietly, without hurry or flurry, and the instant you feel yourself growing nervous and like one out of breath would stop and take breath, you would find this single
common-sense rule doing for you what no prayers or tears-could ever accomplish.,"

## MISSING THE MAIN POINT

Charles Stewart Parnell was an exceedingly strong character and yet he had one weak point: He was
very superstitious. This characteristic showed iself in many ways, and at the most unexpected time f He would never pass anybody on a stairway, pre
ferring to retreat rather than incur the danger oo ferring to retreat rather than incur the danger of
bad luck. He absolutely refused too occupy a hotel
ooom which bore the number " 13 ", He remain in a room in which three erndles burning-it was too suggestive of an Irish wake
where three candles surrounding the dead suggent Where three candles surrounding the dead sugges
the idea of the trinity. He would never begin journey on Friday or start any new neverect during the month of October, his unlucky month, and yet he lived for ten years in violation of the seventh oommandment and thus brought ruin and dishonor
on the party which he represented.

WHAT IS EDUCATION?
There are edlucated men who never saw the inside of a school. There are cultured men who never
passed through college halls. There are trained men
who were never presented. with
tion means self knowledge, self control, and a mas
tery of the main facts of life. The Brooklyn Eas tery of the main facts of life. The Brooklyn Eagle
remarks:-"Henry Huxley-open, brave, entirely democratic-was as attractive to Americans as they were to him. This familiar definition of an educated man will put the gist of his repeated deliverances a liberal education who has been so trained in his youth that his body is the ready servant of his will and does with ease and pleasure all the work that a mechanism is capable of; whose intellect is a clear, cold, logic engine, with all its parts of equal a steam engine, to be turned to any kind of work and to spin the gosssamers as well as to forge the anchors of the great and fundamental truths of nature and of the laws of her operation; one who, no stunted ascetic, is full of life and fire, but whose passions are trained to come to heel by a vigorous will, the serall beauty, whether of nature or of art, to to love all vileness and to respect others as himself. Such an ne and no other, I conceive, has a liberal education, or he is, as completely as a man can be, in har-
nony with nature. He will make the best of her and she of him. They will get on together rarely, she as his ever beneficent mother, he as her mouth.,
piece, or conscious self, her minister and interpreter."

## MASTERPIECES.

Master the masterpieces. Go to the original
sources of knowledge. Know what great men have sources of knowledge. Know what great men have
thought, said, written, and felt. There are only a few great books in the world. They contain the main results of human cogitation and meditation.
Buy them. Read them. Nontain the Buy them. Read them. Master them. Thus Dr Charles W. Eliot picks out a score or two of book
and says:-"It is and says:-"It is my belief that the faithful and
considerate reading of these books, with such re readings and memorizings as individual taste may prescribe, will give any man the essentials of liberal education, even ,if he can devote to them but

## ORDINARY THINGS.

Genius is the art of doing ordinary things in an
extraordinary way-making the important portant, if you please. This has been the secret of Theodore Roosevelt, who says:-"In so far as I have been a success it has been absolutely and solely
from doing the ordinary things of life that any man could do, but nobody does do. I won't say that noloody does do it, but that so many people don't do it to the point that they ought to. Among my intel complaint that I preach what is commonplace and humdrum. So I do, and so I intend to do. Honesty,
lon courage, enderness and force are the kind of things want to see developed in the American man, the boy and the American girl. I never got anything in my life by an unusual display of genius or even by an unusual display of talent. Whatever I got has
always come from doing a number of things just as
hard as I know how; atways come from do
hard as I know how.

BORROWING BOOKS.
Read whatever is best in the neighborhood where
you find yourself. Borrow books and return them. our neighbors will regard your interest in good literature as remarkable and your prompt return
of borrowed volumes as still more renarkable. If
youn cin find the masterniees mor you cin find the masterpieces of literature in in your
own home, you are to be congratulated. Dr. Vincent, in his biography, remarks:- "I pay. Dri tribute to a faitliful father in whose library before I was born
were the best books of his times: the then popular American Encyclopedia,' Pitkin's 'Civel and Political listory of the 'nited 'states,' Rollin's 'Ancient Hisnot to mention the wide field of poetry richer field of theology as represented by the lead Mig Methodist writers, Wesley and Fletcher and Adam Clark, together with biographies of the devout whole Christian world Our weelly but of the came to the house regularly, the Sunday school literature from not only our own but from the American Sunday school Uivion pullishing house. And in
addition to these standards we had much of the , in
current literature of the so alled shigher life,"

YOUR FACE.
Watch your face. It is your show window-an
imdex to your character and a reflection of your
and the casual visitor know the secret thoughts of your soul? The opening of the door, suddenly and to turn to the visitor with a pufficient notice for you once said:-"It seems to me that all that is called beauty lies but in the smile; if the smile do not change it, the face is a plain one; if the smile spo

## THE STUDENT'S CRISIS.

The college student should watch his first month in college. The young man who can be true to him
self during this trying period has an asset within self during this trying period has an asset within himself better even than education, as much bette as wisdom is superior to knowledge or character to
philosophy: President Thwing says:-"The mos critical year of the four college years is the Fresh man. It is made critical by the youth of the men by their responsiveness to whatever is offered, by
the newness of conditions, by the lack of friendship by the want of certain standards, and by the lac of certain supports of intellectual and moral charac cer. Most of these Freshmen are for the first time
absent from their homes. The majority have come from the high schools of the towns or cities."

HARD TO WIN-EASY TO LOSE.
A generation ago, Theodore Tilton occupied a great place in the public view. He was known as a poet,
a popular writer and a powerful orator. In the hour a popular writer and a powerful orator. In the hour
of success he lost his bearings and began to think too seriously of himself. He began to regard himself as an unusual character and entitled to unusual privileges. When he began to write and utter reckrelationship his friend York, informed him that if he puckiey, of New expressing himself that the circulation of his paper would drop off at the rate of 500 subscribers a day Theodore Tilton laughed in the face of his friend, but the prophesy was fulfilled and Tilton lost his laimed, "I never knew I had a reputation until I had lost it." The best things are lard to win and easy to lose.

## A Cigarette fiend

A man in a normal condition needs no stimulant.
The young man who daily indulges in a stimulant is using up his reserve force. For a stimulant is physical bankruptcy is not far away. The follow. ng incident is true to life and the application at ached particularly good:-Two men were calling or employment for a man whorn railroad to ask day before and had been refused. "Is seen him the man tall and dark?" asked the train master. "That's the man." "Then, asked the train master, "did you and as a man with a crippled hand cannot pass thy physical examination, the two men cannot pass the
that he had phe at once that he had probably lost a finger. "Well, you go back an look at that man's fingers; he's a to roll as many cigarettes as that man the time hasn't time to work at anything else. I didn't or don't care," he went on, "what his past history has
been, for we need men just now and nat been, for we need men just now and need them
badly, but when I see that color on a mands finger, badly, but when I see that color on a man's finger,
I haven't any use for him."

HOW TO TURN AN ARGUMENT.
When the colored people were, gathered together name and memory of Frederick Douglo do honor to the Ingersoll was among the speakers, and, Col. Rober a most eloquent tribute to Mr. Douglass, he called
upon the audience to white man's God, who had so long to do with the colored people to be held in so lavery permitted the
was composed largely of "simple fie audience was composed largely of "simple folks" Who, like audience

English woman is one of the wonders of Engish,"
In a home of hard work and poverty in Paris was born a little girl. She
cried for fresh air and sunshine. They cied for fresh air and sunshine. They
sent her to school, but she did not like sent her to school, but shat work. They placed her in a
school sewing cstablishment to become a seamstress, but she hated sewing. Finally her father discovered that his
daughter had a gan the study of painting so she be years she earned enough to help support the family of seven children. The young girl was too poor to buy her models, so she had to study them at abattoirs,
where the artist lady was obliged to mingle with drovers and butchers, but no indignity was ever offered her. Girls
who are earnest in their ambitions are who are earnest in their ambitions are
usually regarded with honest pride. Finally Rosa Bonheur rose above her environment of poverty until she became
an acknowledged master of her profesion. Her pictures brought her wealth struggling artists out of poverty other anxiety. She said: "Art demand heart, brain, soul, body and will; and I have no patience with women who ask permission to think. I I elt the power
within me to paint; 1 cultivated it." When the paint; I cultivated it." through her home town orders were
given that ${ }^{\text {Rosa }}$ Rosa Bonheur's home and peasants must not be touched. The people respond readily to kindness. This great artist was a courageous woman,
who did not allow poverty to interfere who did not allow poverty to interfere
with her ambition. She made the world better because she began life with a noble aim. : The hardships of her en vironment, like a Venetian painting,
were shadows that glowed with color. The Perfume of Woman's Personality The ordinary woman loves those who ove her; the noble woman finds somelive. l love wherever God's creatures
The ordinary woman pities physical weakness; the noble woman pities all Who suffer from moral and spiritual weakness and disease, and loves those
who need her help. The ordinary woman sees defects in
her associates; the noble woman dis-
covers the divine in people; she respect covers the divine in people; she respects
it, tries to heal it and save it. Mrs. Johnson, a superintendent of a
reformatory for women, never Woman under her so vile that she did not love her. No woman is noble whi.
has not acquired something of this fiue has not acquired something of this fine
active and vital friendliness.
Margaret Fuller Margaret Fuller said: "All women
might be superior beings if all were willing to cultivate the mind and beautify
the character." he was her generous, ssmpathetic Woman. On this she built a scholargrew broad enough to discuss great
guestions and think great thought She was affectionate, gent le and tonder.
One critic said: "s she lase pxtrauding

that she was tender toward the suffering. The perfume of toward th personality does not usually come fort without bruising.
Woman's Influence in Public Service. One writer states: "Why has the
English House of Lords held its place English House of Lords held its place
and power, while the nobility of France
has has gower, while the nobility of France
Ereck? Because the
English noble class in all English noble class in all periods
un ir history, from Rumnyede to Que Victoria, have devoted themselves to public service; while, on the other hand,
the French nobility beame isolate from che French nobility became isolated from
public duties, thought only of themselves, and thins ceased to have any
cause for existence." The demand was never so great for women of generous public spirit as it is to-day. Women shosands to pulblic service. In all his tory we find that wherever careless, sel-
fish, narrow-minded women set the tone of society there was social and politica revolution. Large cities are filled wit
vice and corruption because women prefer that men shall pass their time cater ing to social whims and chasing the dorlars to boost their families up the uncertain ladder of enamelled gentility
The artist Charles Dana Gibson given us some very striking picture
illustrating conditions in the
gilde aristocracy founded on dollars and no ambitious, portly side of the line. Th as if she hortly mother, who appear covered with flashing jewels, and she with her famıly of athletic daughters

WHOLESALE TOBACCONISTS IMPORTERS ~AND CIGAR MANUFACTURERS. WINNIPEG and MONTREAL
cornerjames $\varepsilon$ louise st
Feb. lst.
Winnipeg
nada.
Letter No. 1.--TO THE SMOKER OF CIGARS
Dear Sir--In a-series of ten personal letters, which will appear in all leading publications in Western Canada, $I$ purpose to tell the smoker of good cigars the real reason why they should smoke my new brand THE ROXBORO. The first thing, in my opinion, that you should consider when you smoke is quality--and price
The ROXBORO CIGAR is made from the highest quality Havana tobacco ever put into a straight ten cent smoke, and my methods of manufacturing are right up to the handle both as to facilities and cleanliness.

I want you to smoke a ROXBORO CIGAR, test its goodness, and let me know what you think of it

Hundreds of the best judges of cigars in Winnipeg tell me that the ROXBORO is the best ten cents' worth they have ever enjoyed, and I feel confident if you try the ROXBORO your verdict will add another feather in my cap as being the producer of a smoke that has reached the climax of real cigar perfection.

Clip the coupon in the lower left-hand corner, take it to your nearest cigar store, hand the man behind the case a quarter and get three ROXBORO CIGARS.

Save the bands and take your choice of these beautiful colored pictures, with or. without frames.

I am yours for the success of ROXBORO CIGARS
H. E. LEDOUX CO., LTD.

CLIP THIS COUPON TO-DAY
TAKE IT TO YOUR TOBACCONIST WITH 25 CENTS AND GET THIRTY CENT (THIS COUPON IS GOOD FOR ONE TRIAL ORDER)

less in the four woman suffrage States. less in the four woman suffrage States
than in the ten States named outside of these.
I submit this statement, based on official authority, as shown by facts and
figures, and the other statistics figures, and the other statistics given by
Mr. Barry are equally misleading, as could easily be proved.
It is refreshing to find a man of the political standing of the Hon. Jas. N. Stacey coming so ably to the defence of
women in a matter so vitally affecting their right to the franchise.
I am glad to note that at the coming
session of the Manitoba Legislature the session of the Manitoba Legislature the
women will again present a petition women will again present a petition ask-
ing for the extension of the Franchise to them. It is high time that in progressive Western Canada the women, who
risk their lives to bring children into the world, should have some say in making ence on the future lives of these children.
Among the books which Santa Claus brought me was one by Wm. J. Locke,
called "A Christmas Mystery," and just Something how I have chanced to About Books up to the present time I know that I am deeply grateful to the friend who, by the gift of this little book, drew my attention to the writer. The foreword of the book is, "I cannot tell how the truth may be, I say the
tale as 'twas said to me." Three men meet at Paddington Station-one a scientist, one an Assyriologist, one a diplomat. They find that they are all
travelling to a remote place in Cornwall travelling to a remote place in Cornwall

- just why, none of them are very clear It is Christmas Eve, and they are full of scorn and contempt for the superstition
of Christmas; they are so wise that they of Christmas; they are so wise that they
have lost their faith. They reach the have lost their faith. They reach the
end of their railway journey, and are met with the most modern thing in automobiles; and, sti'l protesting at their own folly in coming, they roll themselves in rugs and start upon the last driver of the car is proceeding cautiously but rapidly, when there is a fearful jolt,
and the car comes to a standstill. It is a broken axle. They are miles from
a tage passed half a mile back, and suggests that the three wise men go there
and try and find shelter while he goes and try and find shelter while he goes
for help. They stagger and stumble for help. They stagger and stumble
through the snow and reach the cottage.
At its threshhold they stumble upon the dead body of a man, frozen stiff, with an empty whis'. $y$ bottle in his hand. They try the door, find it unlocked, and enter
upon a scene of utter desolation upon a scene of utter desolation. Sud-
denly there is a weird cry; they have
brought one of the lamps from the car brought one of the lamps from the car,
and by its light they peer hither and
thither and find they discover a woman in the last they discover a woman in the last
agonies of chld-birth. She is uncon-
scious, and moaning in her pains. The scious, and moaning in her pains. The The
three wise men stand abashed; they are three wise men stand abashed; they are
very wise, but they know nothing of the very wise, but they know nothing of the
mystery, of birth. The extremity of
the woman, however, rouses all that is best in them. Thowerer, rouses all that is
bruggle back to
the car and lring he car and ling cushions; they build a
fire; they do what they can for the newly, born infant a last convulsive
shudder passes through her frame, and, without regaining consciousness, she was
dead. They busy themselves about the infant; they lay the dead man beside his
dead wife; and as the last of their work is done and they are gathered around the a strange beating of wings., (Onc says.
"It is the Angel of Death, "It is the Angel of Death!" Silcince
fatls upon them; the new born slecps:
when one of them glances at his watch ing. Suddenly he raises his hand: the beating of the wings had come again.
:nd almost unconsciously he repeats,
"Unto us a Child is born, unto us a Son is given." It was not the Angel of
Death. bint , ne Angel of Life. The tiny the three of them knelt about it and
tried to minister to its want. . They.
Were three wise. lonely, childlese men.
who, in furtherance of their greatne-s. who, in furtherance of, theiri greatne-.
had cut themselves adrift from the
sweetest things of life; but they knew
as they knelt bout the babe, that an in scrutable Providence had led them, as it Ced the wise men of old on the firs would give them new wisdom and a nev spiritual outlook and a new hope; and When their watch was ended they wrapped
tes, book can be read in twenty minutes, but the impression of that reading will last a lifetime. The other day, in going over a numbe was suddenly struck with tne fact that in a group of five books the heroines are all very young girls-mere children, who from force of circumstances have become old beyond their years in many things
while yet children at heart. whiers et Natalia, in "The Lead of
actern a child of the Southern States
Honor Honor,"a child of the Southern States
with some Spanish blood in her veins with some Spanish blood in her veins; Lynette, in "The Dop Doctor," a child
of English parentage, but a true daughter of the veldt; Pearlie, in "The Second Chance," of Irish parentage, but, none
the less, a product of the western prairie : Aleen, in "Flof of western prairie; Aileen, in "Flamstead Quarries,
Irish by descent, but a product first the low quarters of New York, and later of the New England Hills; Jane, in "The Doctor's Lass," a true child of Old
England. None of these charater England. None of these characters can, yet I think that there are probably few of my readers who have not at some time met their living counterpart. They the a wonderful study; and, combined as
thevery case with the redemptive power of a great love, they form a group of wholesome fiction that very that has been so rerit the problem novel years. The five books referred few all well worth reading. "Flamstead Quarries" is by the author of "The Wood Carver of Lympus," but is a very "The Dop Doctor" is one of the strongmany years.
Speaking
Speaking of novels, I must conifess to
being very considerably De Morgan's last book, called "An "An of Dishonor." I cannot help wishing that he had left it unwritten-it falls so
far below the four books which preceded
There is always a temptation to write indefinitely about books, but it is per-
haps not kind to tantalize readers with things that may be out of their reach. touched upon can be had of the books the Winnipeg book stores, and some of
then any one them at least are carried by the departmental stores. I can cordially recomspecially referred to.

ate even when this magazine is. out for a girl to enter should she wish to do so

One of the most beautiful and instructive entertainments which I have ever at,
tended was that of "Living Pietures" Living given in Winnipeg by the Pictures ing the past month. The idea was to have frames of varying sizes, and in the frames men and women
grouped in appropriate costumes and grouped in appropriate costumes and
attitudes to represent the figures in various famous pictures. Of course, these pictures were presented with every acces:
sory of background and detail, but it sory of background and detail, but it
occurred to me that this was a form of occurred to me that this was a form of up in some of our smaller towns. The mere posing for such a pieture is in itself a very valuable lesson in self-control,
as it is of course essential that there as it is of course essential that there
should not be a movement of hand or rye while the a modience is looking at the
picture. Without the painted background it would be necessary to confine the work to wery simple pictures, but
some of those sicen in some of those given in liinnipeg could be
produced for example; "Wedded," by produced- for example; "Wedded," by
Sir Frederick Leeighton, R.A.: "A
Broken Jug," by Greuz. As for these. all that is required is the bare frame and
ther costumes, which might be produced
in in very cheap material. Other prictures
would suggest themselves, and it is pos. sible now to get for the small sunn of
ten or fifteen cents correctly colored The 'Bissell'

## Woman and the Home.

## THE BRAVEST BATTLE

The bravest battle that ever was fough On the maps of the world and when? On the maps of the world you will find
it not; 'Twas fought by the mothers of men.
Nay, not with a cannon or battle shot With sword or nobler pen Nay, not with eloquent words or thought
From mouths of wonderful men
But deep in a walled-up woman's hea Of woman that would not yield; lo, there was the battle-field.
No marshalling troops, no bivouae song But, oh, these battles, they last; From babyhood to the graye
Yet faithful still as a bridge of stars, Fights on and on in the endless war Then, silent, unseen-goes down.
, ye with banners and battle shot, And soldiers to shout and praise; tell you the kingliest victories fought,
Were fought in these silent ways.

## BEGIN RIGHT.

 It is strange that mothers will takeso much pains to have their children
admired and neglect the greater duty
of training them to be lovable. I do
not think the world is so far advanced
(i) that it wowid not appreciate a mod-
est, quiet child, as in days dane by, but
to judge from observation, most modern
mothers have an idea that their chil
dren must be dressed as for the stage;
their voices must be heard among, be.
tween and above everybody's else, their
likes and dislikes consulted on every
occasion, and the whole family and
friends inconvenienced, if add to their pleasure. No doubt you quaintances of women among your acquaintances with whom you would enjoy a day or afternoon if her children
or child did not take up so her time and attention. up so much of The other day I called on a woman I
dearly love; her child was ing on the floor, soon she quiet up playwent to her mother and pevishly called
for cake. Hor mot or cake. Her mother told her thy called ad just been eating and was not hunry, but she still called more persis. tently; then her mother said, "We have
That had no effect except to make her cry and insist on having cake. Half 1y, "There is no cake." This was fol fol lowed by is no cake." This was fol-
ligally she vigous calls for it finally she excused herself, took the child to the kitchen, and after much persuading, substituted something else and They returned to the sitting room when the child wanted a drinversation a few minutes she desired something els which took her mother from the room and that continued during my stay. The woman apologised by saying that were alone, but she had got int they habit of making her wait got into the her all
the time she had company the time she had company. She seemed
not to perceive that not to perceive that $t$ was her duty to
break up such a troublesome habit When the unsatisfactory call was at an end, and I was returning home, I wondered if I was more unfortunate than other women, for it had been only
short time since I called woman, a kinde-hearted neighbor, whot met me at the door with a wet, muddy child of two years in her arms. She explained that that was the third time
he had been in the mud and water that day. We sat down and she began with much petting and coaxing to try to change his clothes. When that feat was accomplished she undertook the more
difficult one of putting him to sleep.

She rocked, patted, sang and coaxed she tried to hire him with the contents of the machine drawer; she kissed him a score or more of times, telling me oc I had taken my work and asleep. she expected me to "tough it out," and I tried to be patient, though my nerves were on the rack. After what seemed
an hour he slipped an hour he slipped out of her lap, alhe could not get down but must times sleep; then he proceeded to unwind the thread, unroll the bolts of braid and scater them about the room; she bus-
ied herself winding them up, telling him ied herself winding them up, telling him
he must leave them alone. This was
repeated repeated several times, when an older child came into the room and was re quested to take the baby out and give water again. They were gone into the short time when he was brought back in the condition I first saw him. © She made no attempt to undress him, but try to amuse him with everything in her reach. Happily, my little piece of work was finished by that time, and $I$ felt ings.
Oh, if we mothers could see ourselves as others see us! I have not relited hese incidents to let you know what mothers to thinking. As it never the mored the mind of the first mother that it was her duty to break up the bad aabit of her child, so it seemed that the lessening hever trouble by teaching of child not to play in the water. Some "When ask: "When is a child old enough to be I say without fear of successful conradiction, that the first time a child oes anything it should not, it is old nough to be taught better. The first me it pulls the tablecloth, the first first time it gets into the water, the first time it tries to open a drawer, is
undoubter undoubtedly the best and easiest time
to teach it to refrain from o teach it to refrain from those things.

## INDIVIDUAL HELP.

Most of us are looking for great way
in which to exercise our great fields in which to work. In the sweep of our eager eyes over the range of interests before us, we miss in many
instances the little fild that instances the little field that lies close ing happy one or more human being To be kind and considerate beings.
erous with those we love is' no work of erous with those we love is no work of
merit. It is too easy. But merit. It is too easy. But to choose needs help, sympathy, companionship and encourragement-that is wen worth
while. Why not while. Why not decide to look about your circle and select some boy or girl,
some man or woman ine help? Then offer it-tactfully, delicate. ly, but persistently. The effort will not always succeed; the object will not al.

A Warning to Farmers.
o the Editor of the W.H.M
Manitoba Agricultural College desires to issue a note of warning to farmers and dealers importing grain into Manitoba considerable quantities of grain are bèing brought into certain districts, and
much of it is believed to be bety much of it is believed to be badly-- infest-
ed with the seeds of weeds of ed with the seeds of weeds of a very
noxious character. The weed problem has already become a very serious ohe in many districts through: weed seeds being introduced to the land without
the knowledge: of those introducing them. From samples sent recently to the
College, and examined by the Field Husbandry Department, it has been found, that the present situation is alarming. one of the towns in south-western Manitoba was found to contain seeds of the
following weeds:-Ball mustard, wormseed mustard, bladder campion, false flax, pepper grass, cinquefoil, curldock shepherd's purse, wild buckwheat; lamb's quarter, and redwort pig weed. Not only are many of the weeds men character, but some of them are new $t$, this province, and for that reason the are the more to be guarded against.
An ounce sample, taken from a ship An ounce sample, taken from a ship
ment of flax received at a town in north ern Manitoba, was found upon analysis
to contain 52 false flax seeds, and nine other species of weed seed.

## His Dog's Faith Saved Him

To make doubly secure the levee that protects New Orleans from the water plañk and timbers, about six feet heavy is put on the water side of the dirt levee to break the force of the waves
and the water at high tide and the water at high tide. This wall beeng for an animal without claws to
ible forpalimb it.
din it dimb it. It, was in the summer of 1899 while
pastoral visiting in le pastoral visiting in lower New Orleans covered a half starved and 1 disdog belind this wall. Evidently some cruel person had abused him and had
thrown him oventy some hrown him overboard to die. Upon my
apprach to him he showed a mixture whenpeal and fear, and I found that to assist him that he could not trist and in spite of all his need lie showed his. teeth and bade me keep my distance
Thereupon I climbed loack neareupon I climbed lack and went to a nearby grocery and borrowed a rope
and tried to drop a noose over his head and draw him ashore, but in this I fail-
ed. I then secured ed. I then secured some food from the
grocery man and again descended the grocery man and again dood from the
wall and began to feed leded the him of my friendship. Rut though he seemad :Ilmost persipaded to thungh he
he still refused and he still refused and started dragging him-
self up the levee. self up the levec. But before he had
gone far-up the narrow strip of land be
twe tween the wall and the river's edge--he met a big boy coning towards him
walking on top of the wall Walking on top of the wall. He stopped
and seemed to reason that he couldn't escape dealing with a man and seemed
to decide to resign and make the leap of faith for hands eise let me put an end to his suffering Thereupon lie deliberately turned and came directly to me and absolutely sur-
rendered, turning on rendered, turning on his side and pur-
senting a forefoot. No sooner
touch touch the foot than No sooner did passive in my liands and I had no trouble
in lifting him to libect could, he frisked liberty. As best he giving me to understand that rejoiced, deed was gratefully appreciated kind I went away feeling that surely a
angel might covet such an experience.

## Do Spiders Sleep?

The question, "Do Spiders sleep at made a careful observation of ants, and that could readily be done by watching colonies in their artificial formicaries. It in the same way. I would spiders owever, in general terms, would answer, parts, as all animals do, and doubtless parts of the night are spent in slumber.
Many species, however, prey on the
night-fying insects, and so

awake in order to catch their prey If fot if | $\begin{array}{l}\text { you will wateh the catch their prey. If } \\ \text { you your home or outhuildings }\end{array}$ | $\begin{array}{l}\text { foot, even if he is astray, and they will } \\ \text { work an hour }\end{array}$ |
| :--- | :--- | of your home on a summer evening, you

will be likely to wind be likely to see an orb-weaving
spider drop slowly down on spider drop slowly down on a single
thread in the gathering dusk evening. From this beginning a round
web will soon be spun, ing at the centre thereof, or in a littl ing at the centre thereof, or in a little
nest above or at one side, is the archi
tect with forefe tect with forefeet clasping in what we
call the "trap-line," and call the "trap-line," and waiting for some night-flying insects to strike the
snare. In this sometimes wait for hours spiders will possible that they may then take just tle nap. They might easily do that
and yat nd yet not loose their game, for the gitation of the web would rouse the sleeper, and then it would run down
the trap-line and secure its prey species of spiders do the clief part ome heir hunting at night, and there are me who hunt chiefly during the day; work both day ase industrious animals examples of industry.-Boy Life.

## Helping the Calf off the Ice.

> By William H. Hamby

Two or three years ago I read a story pond one winter day went down to a on the ice. It could not get up, for the its was so slick that every time it tried Neither the calf nor the pond belong ed to the boys, but they went in and
got the calf to the watched it run to the bank, and then As the boys went on, they promised each other not to tell, for they somelow felt
ashamed for ashamed for the other boys to know
they had helped a calf. There are some boys like that-really
tender-hearted tender-hearted, but ashamed to have people know it. Somehow, somewhere, among boys that to be in circulation among boys that to be gritty a fellow
had to like an Indian-rather enjoy seeing things suffer.

## Prize Problems.

The problem was: A square field is
enclosed by a fence five rails rails being five yards long. The rails high, the
of rails in of rails in the fence is equal to thumber num. ber of acres in the field. Find the size
of the field. an the ned.
The first correct solution was sent in
by W. W. Crosby, Elkhorn, who gets

the prize of a book. His solution is as And suppose the cars were thrown on
follows: Let $x=$ number rails in one course on crashed into them! And apparently he one side $5 \mathrm{x}=$ rails on one side
 field.
nd $20 x=$ number of rails around the niel. II ${ }^{\mathrm{II}} \mathrm{x}$
Also as there are $x$ rails in each course
the length of each side is 5 x gard sq. yds y . $\stackrel{\text { sq. }}{=}=25 \mathrm{x}^{2}$ sq. $\mathrm{yds} .=\left(25 \mathrm{x}^{2} \div 4840\right)$ acres. $\underset{\text { acres as }}{\text { But an }}$ III Then $20 x=25 x^{2}-4840$
 And 20x $=77440$ There were a great many other correct
solutions. There wer
solutions.

## The Boy Who Knew How

By F. Lovell Coombs

One afternoon, Alex. Ward, the son from school to find his father and mother packing his own suit-caser
"Why, what's up, Dad?" he ex"Why,
claimed.
"You are oft for Watson Siding in
twenty minutes to take char station there to-night," said his of the "The regular man is ill, the despatcher you, and I tols him you'd be delighted for "Delighted, well rather!’" cried
Alex Gleefully, and, throwing his books into a corner, he rushed upstairs
to change his clotkes Needless to say, Alex was a proud boy when, shortty after seven a oproud boy
reached Watson Siding and he reached Watson Siding, and at once took
over the station for the night. For it is not often a lad of fourteen is given such sesponsing and receiving messages.
Alex was soon to learn that Alex was soon to learn that the re-
sponsibility was a very real one. The
fist irst hour passed pleasantly enough, but two days a steady rain during the last in, and shortly before ten oog had set
found to his alarm theck Alex make himself heard on the wire by not despatcher. Evidently there was a
heavy escape of current between the heavy escape of current between them,
because of the dampness.
Again the despatcher called, Again the despatcher called, again
Alex sought to interrupt him, failed, and
gave it up. gave it, up. .Now I I am in for
trouble," he said in dismay. "If any.
thing should-"." thing should-_"
From apparently just without came a
low, ominous rumble, then a crash started to his feet and ran to the Alex now. He could see nothing but fog, wind,
hastily securing a lanter hastily securing a lantern, went out on
to the station platform. O second terrific crash droor there was a
in dar darkness
immediately opposite, and a rain immediately opposite, and a rain of in
stones rattling against iron.
"The bank above the siding!" cried
Alex, and, springing to the tr" dash," across, and with an exclamation it could not beeculation as to whethe feet high overore the mound of earth six
considerable ".spill" over rails, with a track.
As he gazed Alex felt his heart tighten.
The west-bound Sunset Express wais duc to take the siding in lesp than Walf an
hour, to await the Eastern Mail: he saly

## A Catalogue filled with Bargains

If you have not yet received a copy of our January and February Sale Catalogue we want you to write us at once as it is quite the most interesting we have ever sent out. It contains orty pages and every page is filled to overflow with genuine money-saving bargains-bargains that we arranged for in some instances months ago, when the markets were most favourable, or when factories in order to tide over their dull season made us price concessions that enable us to have the price contained in our sale catalogue.

Our January and February and our Midsummer Sales, are to our Mail Order Customers what Friday bargains are to residents of Winnipeg-harvests for bargain-seekers. Of course it is impossible for people outside of Winnipeg to participate to any extent in Friday bargains because in most cases the goods are all sold before we can possibly get orders by mail, but for our sales, and especially for the sale that is now in progress, we havemade ample provision for all our friends.

Write for the catalogue and see for yourself, and when you receive it-or if you have already received one-don't delay in ordering, for the first who order always receive all the advantage of first choice.

No matter how carefully goods may be selected there is always, on necessity, good, better and best-the best is for the first who orders.

And to-night there's another mother,
With a girl so bright and fair With a girl so bright and fair,
She has grown to be a woman 'Neath $\delta$ mother's love and prayer. She's the belle of balls and parties, The brightest of all to shine.
If mother sees her go "not ready," If mother sees her go "not ready,"
Whose heart will ache most-hers or mine?
Oh, ye who bend over small coffins, Thind treasure bright curls of fair hair, Think not th
saddest,
Or your cross the hardest to bear:
For in the bright fields of fair Eden Your flowers are blooming above, Go, pray for the drunkard and outcast,
Who once shared a dear mother's

The Effects of Alcoholism on Future Generations.

Medical schools of Charlottenburg and Paris have of recent years been devoting which underlie the craving for alcohol in certain human subjects, and have, as a result of experiments carried out in a regulated series of cases, come to the
conclusion that conclusion that those beings who come
of stock which at any period in the ascending line given to the abuse
of alcohol, are certainly not of the order

Fort Garry, 1846.
a perfect Will, and herein lies his power
over all ever all other men, who by aceident of far the greater part, of very imperfect will power.' It does not matter if the bottle. He is provided with a perfect will, and only his progeny is likely to suffer from his abuse of strong drink. "Ps. George B. Cutteh, the author of "Psychology of Alcoholism,", likewise discusses will-power and the effects of
alcohol upon it. Cutten disagrees with the view tnat there is such a thing as an special area in the brain which "telegraphs the desired energy or motion to
any particula" part of the any particula. part of the frame. On
the contrary, he thinks that the human will is diffused over all the muscula parts of the body In the course of evolution-especially where it is concerned with moral conduct-will was the lighest product of social development, and consequently the most complex, it is among the first activities to suffer injury
and undergo dissolution, according to the and undergo dissolution, according to the rule- Last to come is first to go; first
to go is most to go. First to come is last to go; last to go is least to go." Alcohol, as is well known, creates an artificial energy which lasts but a short
while. A time while. A time eventually comes, however, when it ceases to exist. This is
the "confirmed" stage of alcoholism, in

## Dr. McLaughlin's Electric Belt wat ini Ro ric SAME FOR YOU

It has been demonstrated that Electricity is the most natural of all remedies for the cure of the ailments which affict the human body. Every physician modern ideas is an advocate of electrical treatment, and concedes that it stands far above all medical agents, especially when applied to diseases relating to the nervous system. This is a practical admission of the power of electricity over the nerves and vital organs, hence it must be evident to a thinking person that a
means of intelligently applying this wonderful agent should be the greatest boon to suffering humanity. When wider the
depends for its sustenance upon the vitalizizin, element of elecesticity, and that withont this this life it it is is impl, train nand the various organie functions of the body,
 tion of this efeetric force in the nervous system will saturate the various vital organs which have become weakened wwith a never eneryy whiche witurul restoral vital part of the body in a state of atura heallh.

## PAYONLY WHEN CURED

Dr. Melaughin's Belt is as good for w
especially for women. Free on application.

Shawinigan Falls, near Three Rivers, Que.

Jurka, who was born in 1740, and was a drunkard," a thief and a tramp for the in 1800. Her descendants numbered 834, of whom 706 were traced in local records from youth to death. Of the 700 born, 106 were born out of wedlock. There from charity. Of the women, 181 lived - disreputable lives. There were in the family 76 convicts, 7 of whom were sentenced for murder. In the period of some 75 years this family rolled up a bill of costs in almshouses, prisons and correctional institutions amounting to
at least $5,000,000$ marks, at least $5,000,000$ marks, or about $\$ 1$
250,000 -'Medical Record.'
200,00 -
Over a year ago a paragraph appeared
in several papers to the effect thut the in several papers to the effect that the had decided to pay a premium to those of their workers who undertook to abstain from alcohol. Anxious to get fuller particulars of so interesting an experiment, Mr. Charles Jack, Chief Temp-
lar in the Middle Ward District of Lanarkshire, communicated with the firm in question, and was informed tha the par was a very recent departure that it referred to, and that so far only eleven of their employees had qualified for the premium oftered. As the new sys-
tem had only been in existence since the beginning of the year, however, it was impossible then to judge of its practical results; but later they would be very
pleased to furnish any information de pleased to furnish any information de
sired
reference to their experiment if their correspondent would be good
ellough to write again. Recently Mr. rack again approached these courteous foreigners on the subject, and the fol
lowing is a copy of their reply-which it will be seen, is eminently satisfactory to Temperance reformers, being in faror of their constant contention that ef-
fficiency is pronuoted by total abstinfiriency is promoted by total abstin-
ence:Dear Sir,--Tn reply to your letter of

Children and Alcohol.
Children are often blamed for what is not their fault. Sometimes they slight defect in sight or hearing. Perheaps either of these defects might not class work, where the lesson is al ways supposed to be a bit ahead of him, if he loses the thread of questioning or mastery' of language and ideas are not sufficient to help him span the chasm as might be the case in an older person
with far more developed defects. Again it may be some maladjustment or nervous affection of . the physical system
traceable only by an experienced medical traceable only by an experienced medical
examiner. Again it may be some undeserved birthright. which scales the child's whole tone down to a
plane than his true nature merits. Dr. T. Alexander MacNicholl of New York has been studying the relation ff alconol to child life. Of school children who indulge in any form of alco

This certainly seems to be a progres sive age, and our readers' attention is drawn to a system of shorthand which has at least, two good points to recomand the short time it takes to learn it It is clained that this system can be learned in a, week, and as it can be mastered by correspondence our readers can
avail themselves of its advantage and avail themselves of jits audvantages, and this feature "will strongly appeal to
busy .-Westerners.
The inventor, Mr. Oliver $\$$ McEwan, is regarded as, perhaps, the greatest living authority on shorthảnd, and in this connection he merited the, warm approval of the late King
Edward, who took great interest in the devalopment of this system. The small-
ness. of the outline makes. ness of the outline makes it an easy
matter to write about 200 words a min. matter to write about 200 words a min-
ute, and one student, who attained a ute, and one student, who attained a
speed of 300 words, received the. ap-
pointment of official shorthand writer speed of 300 words, received the ap-
pointment of official shorthand writer,

never the promise brighter for still greater progress and expansion.
How would the tariff proposals of the deputation, so definitely expressed, so insistently demanded and pressed for immediate adoption affect all this deadoption would prove a pertan that their for all the ills complained of as attaching to the farmers' vocation? Is it quite clear to the minds of the deputa-
tion what effects this sudden and pervasive change in our fiscal policy
would have on would have on all other interests and
on the general development of our on the general development of our
national ideal? These things must be national ideal? These things must be
made very clear before the demands of even so intelligent and strong a deputa-
tion can hope for a favorable verdict tion can hope for a favorable verdict
from the grand jury of the nation. And when such proposals are transplanted
from the atmosphere of the club or as sociation, where but one interest is uppermost and one view favored to the spective changes and other interests spective changes and
crowd to the foreground

The Meaning of the Proposals.
These three proposals present a pro-
gramme of great magnitude and farreaching consequences. The first is fair revolutionary, and all call for im
mense initial outlays by the State, that is, by the individuals of the State, in the shape of taxation, by which alone
money can be provided. These proposmoney can be provided. These propos-
als lay their advocates open to the ques tion posed by themselves open to the quesagainst the protective policy. They now
are open to the question: "By what are open to the question: "By what
right do you compel the artisan, the manufacturer, the fisherman, the miner the market gardener, the fruit mower

dinous urban dweller and business dinous urban dweller and business
man to put his hand in his pocket
and furnish the capital and take the risks in operating a Government mechanism for purchasing, slaughtering
and marketing the beeves, hogs sheep of prosperous and often wealthy farmers? Or to undertake to buy, build, equip and run costly elevators to
the end that grain growers should be the end that grain growers should be
provided with business checks on the progress of their product from the farm to the market?
It is clear that to apply to these pro-
positions the positive positions the positive and unrelenting
reasoning applied by the grain grower to other industries would prove their
confusion. All this serves to show confusion. All this serves to show how
complex and gigantic • is the complex and gigantic - is the task of
building up a nation, how divergent and
varied are the interests which varied are the interests which are to be be
developed, and how necessary is the developed, and how necessary is the ap-
plication of all around consideration and
mutual .o mutual "give and take" to the prob-
lems that confront us. Academic lems that confront us. Academic the-
ories and the deductions of cold logic
must be dominated by the spirit of con
ciliation and sacrifice, and by an ever-
present sense of the vital co-relation and
wide comradeship of the

## interests of the country great and varied

In these three proposals one class, the
grain growers, asks the

## casses, to tax themselves to provi, all it with protitalle business machinery. Well and pood. but

## and good; but can it then logically deny aid hy the State to the other great in. dustrics

What is asked? Reciprocal free trade with the United States in all fruit, fish, lumber, agricultural and animal prorials, fertilizers, cement, agricultural implements, machinery, vehicles and parts thereof, and an immediate reduction of 50 per cent. of the general duty
on imports from Britain, with a stiput lation that even this lightened duty shall be entirely removed within ten years. The issue is the plain one of free trade with direct taxation for revenue, and a
complete elimination of the complete elimination of the principle of
protection in every form. Give legisla. tive effect to these tariff proposals to morrow, and what would happen?
Our established Our established trade routes would be
vitally affected. Freights would as to affected. Freights would change and seek new channels of transit, to th, detriment of the old. In proportion as he volume of traffic was enlarged north and south it would be diminished east haul, while the United States transport systems would benefit by the long haul. To the extent that Canadians bought and sold more in the United States and less
in Transatlantic countries this would affect both our interior lines and our ocean routes. The tendency would our to attract to the United States sseam-
ship lines, their seaports and railways more and more of our trade to and from Wurope. have for more than thirty years
We been straining every nerve to develop
Canadian trade
routes, and have billions thereon. Shall we now suddeny and with a light heart put all these jeopardy? Even now the Welland en-
forward and will call for hundreds of
millions more. millions more. To what end if our
trade is diverted to north and 'south lines? to north and 'south industries involved would be felt by the practically all our industries would be ciprocity with the United States in re commodities proposed and a cut of 50 per cent. on imports from Great Britain would vitally affect every cotton, wool-
en, coal, leather, wood and metal industry in Canada, and and metal in most of them. The cut in duties is not
to be exerciesd with dicelt. is to be arbitrary and horizontal and in
it
so stantaneous. No legislation was eve proposed on so inconsiderate and mech
It needs but a moment's reflection to visualize the resulting confusion, the
crash of business enterprises, the ciation and dislocation and loss of capial, the stoppage of industries, the nonmployment of wage-earners, and the
transfer of capital and labor countries. The sunken capital to other labor would not sunken to the farms, and
new apital would find To pit Canadian industo inducements. against the competition of the world asult. Nor in Free Trade on Englave one hey sell their cottons in competition Lith Lancashire, nor their woolens
gainst Yorkshire, nor their steel against Birmingham and Sheffield. They would oo to the wall.
And a Canada without great indus. And a Canada without great indus-
tries would not fultil its destiny in the
development of its rich resources of
material and powers, nor would it material and powers, nor would it in the
end be a protitable and desirable arena
for the farmer himself

## Sundlay Reading.

## What of That ?

Tired! Well, what of that? Did'st fancy life was spent on beds of ease,
Fluttering the rose-leaves scattered by
the breeze ? the breeze?
Come, rouse thee! Work while it is Coward, arise! Go forth thy way!

Lonely! And what of that? Some must be lonely; 'tis not given to
all To feel a heart responsive rise and fall, Work may be done in loneliness. Work

Dark! Well, what of that Did'st fancy life one summer holiday, With lessons none to learn, and nought but play?
Go thee to thy task, conquer or die!
It must be learned. Learn it
patiently.
No help! Nay, 'tis not so! Though human help be far, thy God is Who feeds the ravens, hears His chilHe's near thee wheresoe'er thy footsteps roam,
And He will guide, light thee, help thee
home.

Preferring One Another. By W. Scott King
"In the spring a young man's fancy
lightly turns to thoughts of love," Tenlightly turns to thoughts of love," Ten-
nyson tells us. And we may add to nyson tells us. And we may add to
ourselves that in the summer or early autumn that same young man's fancy turns to thoughts of holidays. It is
of a young man and his holiday that I of a young man and his holiday that I
am about to tell this story-a young man, by the way, whose birthplace was not in my own fancy, but in the far Surrey. But in order to explain his very unusual conduct it is necessary to
go back twelve months before this tion of his holiday arose. I have called him young; but perhaps the reader is in a newspaper office, or has the honor of being a deacon in some church, conseagent whill consider my hero middlethirty whive. I announce his age to be
had few years before he had experienced ''ennyson's spring, and had brought home to the cottage where His mother was old, and entirely dependent upon her son. The position
Then which her son occupied in the village, though one of a average remunerativeness,
was not such as admmitted was not such as admitted of any other
than that of great economy if two ends were to be made to meet. Fortunately for the young man's
generous in met. generous intentions concerning hans
mother, his young wife mother, his young wife's heart was
as self-denying as his she bore the strain-for as own, and large enough foree on a salary scarce large enough for two with ready cheeradvancing age, which is it was through more blindness age, which is apt to bring other cause, I cannot say; but the young man's mother hardly realized the burden shoulders of her needs laid upon the law. She was grateful and daughter-inthey did, but that they had to all themselves to do it somehow or another did not occur to her. And yet, as this for the express, and indeed is written was the least of surpose of showing, she world. But now a crisis eame along in the form of a fourth mouth to be daily
filled, and the filled, and the happy but sorely per-
plexed young father and mother took now to be done. And, incresible was may sound in dull, worldly ears, the "We can't go on living like this any

Dept. 43 Paris, Canada

Monday mornings I generally go round
and take her a little tea and sugar and and take her a little tea and sugar and
such like, and stay and have a chat with her to while away the time.
The two fairly laughed cloud, and even
baby cooed at this amazing joke. Tobaby cooed at this amazing joke. To-
wards the end of the week it was no unusual thing for them to go without sugar and sometimes tea themselves so that the postal order might be as large as possible; and here was their innocent to yet another in distress! "She thinks we are well off," they exclaimed when they had done laughing, "and yet we need the tea and sugar ourselves." But hearts of these two optimists was to cut the postal order down, or let the cat of poverty out of the bag of concealpent. "We do it to give the old dear her more pleasure to give it away than use it herself-why, then, our purpose is lifted a cup of sugarleas te And she Londoners take no notice of each other. as they hurry to the city in the morning, and never waste a moment in speculatng why this man looks blum or his sought the reason of the comical smile which played round the lips of the young man that morning, and continued to play there throughout the day, they would
have been surprised at the cause they have been surprised at the cause they
would have discovered. He was smiling at the idea of his mother imagining
there was any one in greater need of
sugar in his tea than himself.
"Bless her dear old blind beart!" "Bless $h$
murmured. And now July came, and with it a uffocating heat which drove all who coown to the sea.
"You can take your week's holiday after the fourteenth," the manager had said to him as he put on his coat to go " Tha Thank you," and he left the shop
wondering what ke ought to do. Two pondering what he ought to do. Two the bridge that unites the two halves of the great city. One was of a rather ale but happy face pressed close to a
much smaller but likewise pale and happy face much like it-the faces of is wife and child. The other picture was of the post office round in the next
street, where two or three pounds of his own lay in waiting for the hour of need. Yes, he would apply for a withdrawal orm on the thirteenth, and they should "A letter from granny," cri a he entered his home." "I've opened it, and she says there is an excursion for a week to Margate, and she wonders to gother you could spare her the money
to only two pounds-as all the vill. age is going, and she wants to see the ea once before she dies, she says. Have we got it, dear? I should so like her to go; we may not have her much longer."
For once- just for once-the smile did
not come at the call. In fact a shadejust a tiny shade-of disappointment
passed over the young man's face. "We've got it," he said slowly;
"That settles it!" said his wife "That settles it!" said his wife
promptly. "Granny shall go to Marpromptly. "Granny shall go to Mar-
gate with the others, poor old dear," And so granny did.
When the fifteenth came round and his holiday began, there was much exercise of ingenuity in planning and much sonomy in carrying out little inexpen-
sive, or rather non-expensive, walks in Hyde Park, 'bus rides to Putney, and tramps to Wimbledon Commonf But was put an enormous amount of gusto was put into these home-made holidays, the heat increased, the parade of enjoying them had to be abandoned, and each Spartan confessed to the other that the
smell of the sea would be simply heavensmell of the sea would be simply heaven-
ly. The young man stopped, and by lovely coincidence opposite to them faced the gaudy boardings bright with alluring illustrations of Brighton Promenade, Blackpool Pavilion and Margate
Sanas, and beneath them announcements of day excursions for heart-kindlingly small fares. As I say, the young man stopped, and an idea flashed into his ". ${ }^{\text {Sophi }}$
know what well do? Granny is at Margate; her week is not up till Moncrown excursion for the day that hall

and take her by surprise. We can
scrape it out of the next two weeks, scrape it out of the next two weeks, can't
we?
"Easily!" responded Sophie, conscious that no one could do that sort of
thing better than herself. "Now, let thing better than herself. "Now, let
us go home; I'm too excted to go any us go home; I'm
farther."
Saturday came, and brought as glorious a day as any day excursionist could desire. And with merry hearts the
three hurried to Victoria Station and started for Margate. On arriving there their plan was this: Sophie should go to granny's lodgings, while her husband
took the baby to the sands, where they would await them. Granny's surprise and delight were unbounded-a delight,
albeit, that would have suffered instant extinction had she possessed the least notion that her own holiday was being enjoyed at the price of her son and
daughter's. But a surprise daughters. But a surprise and delight
rarer in kind and of even greater in. tensity had by this time invaded the heart of the young man playing with his baby on the sands He had not been
sitting there sitting there long-so he told his wife
later-and had just taken off bahrs shoes and socks, than he noticed a little old lady in shabby widow's dress standing near to him, gazing at the sea with a face of serene joy. Baby having now
toddled seaward, he ventured to her. "Beautiful morning," he said,
The little old lady turned round. "It is,", she answered. Then, desiring evi. dently a sympathetic soul, she went on:
"Ive never seen the sea before this week, and shouldn't have ever seen it at all before I die, I expect, but for the kindness of a friend of mine." voung man. "You are fortunate to have such a friend."
"I am, irdeed," continued the little old "am, isdeed," continued the little old
lady.
She lives near me, and ofter lay. She hives near me, and orten myself, for I am very poor, you know. She has a son in London who is very
well off, and he sent her a lot of money well off, and he sent her a lot of mone.

#### Abstract

Look on the Sunny Side. Should some down-hearted friend sugis like trying to extract sunshine from cucumbers, remind him that sunshine is just what makes cucumbers, and accord- ingly it can be extracted from them. ngly it can be extracted from them. lack is not in the vegetable. There is sun force in all things. Connection is direct between the light that pours in direct between the light that pours in at the window and that which shines in

 tie eyes and smiles in tones and mannes in and in thoughts. In all its transforma-tions it is the heaven -foree "Glorif tions it is the heaven-force. "Glorify
the room! " was Sidney Smith's way of the room! "was Sidney Smith's way of
ordering the curtains up, and the obedient glory brimmed his page with laugh-
ter punctuations. Dickens was another who wrote his stories with curtains up and sunshine streaming through the study. "Rejoice! " was the old Greek's
sunshine way of sunshine way of greeting a friend.
"Laugh until I come back! was Father Taylor's good-by to Dr. Bartol-parsons both. "How is the child?" called up another minister-father forlornly, from the foot of the stairs as he entered his
home. "'Peak as 'oo do when oo're laughing!" came back the voice of the
sick echild in reply. It was the baby sick echild in reply. It was the baby
who preached the gospel that time who preached the gospel that time. the stars, could groan, Int
sight! ' But the little girl looked up at the same sight and said, "Mamma, if the wrong side of heaven is so fine, how very This habit of looking on must be! " This habit of looking on the laughter
side can be learned. Ask any person who has won his cheer the secret of his victory, and he will quite likely tell you
a story of some dark day when he vowed a story of some dark day when he vowed
that he would see sunshine. Lydia Maria Child, a woman well acquainted with trial, has left it on record: "I seek cheerfulness in. every possible way; I
read only chipper books; I hang prisms read only chipper books; I hang prisms
in my windows to fill the room with in my windows to fill the room with
rainbows. . . son's mudpuddle:
"But in the mud and scum of things,
There always, always something sings!
Remember Luther on his sick-bed. Beon this wise: "These pains and troubles here are like the type which the printers
set; as they look now, we have to read set; as they look now, we have to read
them backwards, and they seem to have no sense or meaning in them; but up
yonder, when the Lord God prints us off in the life to come, we shall find that
they make brave reading." only, we they make brave reading." Only, we
need not wait until then.-Rev. W. C. Gannett.

THE LABEL

## your paper will tell when your

 subscription expires.[^0]"Vicarious sacrifice is not only a great
truth of theology, but it is a fundamen-
tal law of being. The crumbling and tal law of being. The crumbling and
decay of rocks makes the soil; the sacri-
fice of the mineral feeds the decay of rocks makes the soir, vee sable;
fice of the mineral feeds the vegetables
the decay of leaves and trunks enriches the decay of leaves and trunks enriches
the earth, and out of the loam new regetable life springs. The very seeds fall
into the ground and die before they bring forth fruit. The whole varied order of animal life is supported by preying
either upon their appropriate flora or else upon weaker animals. And what
an instance of vicarious suffering is this Whenever a fowl or a joint comes upon
our tables we have before us a homely
instance of the law. Nay, the life instance of the law. Nay, the life
sacrifice of the dumb animals wo work sacrifice of the dumb animals we work is
vicarious-the toil of horses instead of
the toil of men, as in China or South Africa. Civilization, with its blessings,
is the purchase of countless toils and
sacrifices of others. Every victory in acrifices of others. Every victory in
its march has cost hundreds of the bravest and noblest lives. Nay, every
one of us has been brought into being one of us has been brought into being
through the perils and pains of a human whom it was many a weat will never live to be grown,' has been brought to man's estate through the sleepless nights and continued personal sacrificess of her
who gave it birth. One afternoon who gave it birth. One afternoon, as
the sun went down, I sat by a bedside watching the wan face of a wife and
wath, mother who had prematurely worn out her life in toils for her husband and chil-
dren, and was even then most absorbed dren, and was even then most absorbed
in certain tender parting charges concerning them when she should be no longer
able to care for them. "She wad na be there," said the stalwart but deeplygrieved husband, "but for slavin' and
slavin' for us!." There was an instance of vicarious self-sacrifice. In the annals of womanhood there are many such. And whatever we may think about its injustice or expediency, there is someperson who has obeyed the sacred law, and our pulses beat quicker at a tling which puts fresh honor upon our
humanity.-Rev. A. B. Kinsolving.

## Tbe Day of Peace.

"Love the Test of Life."
By John Prescott Guild, Calgary. O speed the day when men are one, One banner floats from sun to sun!
Day when no drum shall greet When eve shall hear no farewell gun; When people all are equal born And Peace shall reign from Pole 0 blessed day that endeth strife, When love shall be the test of life! No "Dreadnoughts" then, to strike men But lifebarge When people conveying bread; ly. Now deep thought is not conducive
to conversation, so he was silent until

The world people fly like birds in air, Make true the visiavens wed. And view the real grow much more o blessed day that endeth strife When love shall be the test of life!
If of one blood all men are bred, Why need a brother's blood be shed ? Then let all nations be allied,
And by the Lamb of Glory led: And by the Lamb of Glory led: Why should man's Savior be denied 0 blessed day that endeth strife When love shall be the test of life From their Headquarters, oh! how far re Christians who go forth to war;
prove
they all
That they all others' claims can bar! Descend, descend, ye heavenly Dove,
And drench the earth with holy love O blessed day that endeth strife, When love shall be the test of life!

## About the Farm.

Dher Gardener's Ode to His Sweet heart.

Witten specially for the Western Home ( Ointily. By E. Eager Stewart. Your ayes are like th' wind-so blue,
Your cheeks th', tomaty red. $77^{3}$ carrot in the ground that grew If the color of your head,

Your teeth are like th' even
Barin' th' two that's missin' Ch peppers wet with wathery rain,Your lips l'd be a kissin',
My Tulips Swet

I Wke your little turnip nose of, fottuce one strong onion make por Im bound to cabbage you, My Scented Rose.

Sliould that lamb's quarters city chap Ny dare to take my place,
int go feteh my biggest citro IIIgo feteh my biggest citron,
Ard IIl smash his pumpkin face Forget-me-not.
Fll feed you on th' sparrow-grass awinower, butter beans, Neve potatoes, beets, celery with
Oyiter plant shall be my Oy, Sweet Yellowglow.

Like water-cress, sweet Marjoram, 11 keep you green all your life. On beds of garlic you may rest, If - you'll' be th' gardener's wife, My Lily Bulb.

Weill raise our little Brussels sprouts mas and artichokes and sage. With and parsnips will keep us young, My Dandelione.
Maid of Savoy, let's married be In a do no longer halter. You'll hobsble to ther savory My Bleeding Heart.
In deck my cart and wash my horse I mint to run away with soap, I mint to run away with you. With Sweet William.

Why Canada's Output is Small. By Joseph L. Murray, Secretary Poultry Ont. The very gratifying material prosperity enjoyed by the Dominion of Can-
ada in recent years, and the stupendous ada in recent years, and the stupendous
derelopment that has been witnessed in certain branches of agriculture, has to to an extent resulted in relegating of cerbandry to departments of animal husthese latter is background, and among of the country have thereby lost to revenue, and an industry a considerable
al in its scope, and surely profitable, has suffered. Today there appears to be considerable of an awakening and it There is that it is permanent. the assertion that Canable authority for the assertion that Canada does not pro-
duce more than one third as much pout try in porportion to her population as the American republic does. Such a cumstance is worthy of serious a atten tion, and when one is reminded that the poultry output of the United States has exceeded the wheat crop of that country portance of the poultrying is bette impreciated, and the realization is brouphome to us that something effective hould be done to remedy poultry con ditions here
The first reason I desire to set forth in answer to the query as to why Canada's poultry output is small is that neitner the Federal, nor any of the Pro-
vincial governments vincial governments have paid to poul
try production anything like the attention which an industry like the atten grand possioilities deserves. Even were the magnitude of the Canadian Poultry industry taken into consideration in its present crude and undeveloped state, ing from one to two dollars of earnnually, ought to be worthy of more seri ous notice than that which is now being given to this industry in Canada. ers are paying but little ranadian farm ers are paying but little attention to and an abiding confidence in what their hens could do for them if they were properly handled and developed. Too

many Canadian farmers are what popularly termed so "land poor" that they do not seem to want to try any
thing in the nature of an thing in the nature of an experimen They whaw they consider new line expected from the returns may be expected a rom the cheese factory, or
the creamery; they know about how much they can make out of their grain crops, or out of feeding a herd of beef cattle, but they do not know what they can make out of poultry products and Even farmers to experiment with them. money they should from their lands, or other farming operations in which they may be engaged, apparently look with disdain on poultrying. Of course, I ap preciate, that if there farmers could be persuaded to work less land and work
it properly, they would get along much properly, they would get along much
better, but while many seem cognizant of this fact they have a certain pride in their mental makeups which prevents them from adopting such a policy. They dhey are coming down in the world that they continue to struggle along will and small such crops as will make something of showing on all their arable land. In this way they are working out the soil of
their farms and gradually growing ac
tually poorer, year after y tually poorer, year after year.
Talk to a farmer thus harrassed in farming and financial operations, about ens, and he would tell you that he knew

| all about hens and that there was "no- |  |
| :--- | :--- |
| tning in them." He might truthfully | duction are to be found on the farm, and |
| not within the |  | tnnng in them." He might truthfully

tell you that he had a hundred hens on $\begin{aligned} & \text { not within the limited area of a sub- } \\ & \text { nrban home. It is not desirable to keep }\end{aligned}$ tell you that he had a hundred hens on
his farm, and it was about all they could $\begin{aligned} & \text { urban home. It is not desirable to keep } \\ & \text { cnickens ana nens on one waik year }\end{aligned}$ his farm, and it was about all they could
do to keep his table very moderately
cnckens and nens on one waik year
after year indefinitely. Give them a limdo to keep his table very moderately
supplied with eggs, and now and then a
chted range for a few successive years chicken for the Sunday or when they had
visitors. visitors. Investigate the management of his hens and you will find that they are
serubs from first to last. That the old hens were very rarely killed off for the
reason that when one of the women-folk reason that when one of the women-folk
went out to catch and kill a fowl for

The Aard Vark, or Cape Ant Bear the table, the old ones were too ex-
perienced, too wise and perienced, too wise and wary to be
caught, and that in any event they would be lean and tough as compared with the chickens.
You would also find that the hens and hatching whenever they felt like it, and that the skunks, and weasels could generally beat the women-folk to the chicken-coop.
You would also find that such a farm er never thought of fattening his poul-
try, and that they were not fed with anything like regularity. Should you weigh one of the chick-
ens on such a farm you would find that
it possibly three pounds; that the hens spent about urree or four weeks out of every season laying an egg every other
day, and the rest of her time (excepu
in the in the cold weather) clucking and fool-
ing around trying to hatch and rear flock of chickens irom a setting of about a dozen eggs; that she had brought out eight or ten chicks originally, of which
two or three lost their lives two or three lost their lives trying to
follow tueir mother through the cold
dewy grass in early dewy grass in early mornings, as many
more had been destroyed by preditory little animals, and that two or three of the whole brood had been able to
reach a very attennuated maturity. This rising chickens in a poultry flock
which will not multiply faster thon would the average flock of sheep, is
not apt to look like a paying industry, and it is no wonder that the farmer at-
tempting it should 'speedily reach the conclusion that there was "nothing in the poultry industry."
On the other hand there are farmers in Canada who are not satified with their
efforts in the poultry line if efforts in the poultry line if every hen
on the place is not making them a clear profit of from $\$ 1.75$ to $\$ 2$ annually Many
of those who confine their hens strictof those who confine their hens strict-
ly to the business of laying eggs and
let the incubators and brooders do the let the incubators and brooders do the
rest of the work, carry over from year
to year one hundred breeding hens and pullets and make a net profit of over
$\$ 200$ annually. Of course $\$ 200$ annually. Of course there are not
a few who go into pultry raising and
egg production much more extensiand egg production much more extensively
than this, and who secure corresponding ly profitable results, but here is a small
and so to speak, compact proposition and so to speak, compact proposition
which need not in any way hamper
the regular and traditional

[^1]
#### Abstract

fastidious of consumers; but that the poultry products must be marketed hon- estly and intelligently, and that they must be praded with reference to the must be graded with reference to thei merits individually. Indeed the essities of the situation seem to suges the needed reform automatically armers and other poultry producers bred, feed, care for and prepare thei fowl, and select their eggs for the mar ket along the most improved lines, and reputation which shall become a a valu able material asset, must associate themselves in a co-operative system binding common interests, and governed by rules as rigid and exacting as those which govern co-operative cheese factories. They must not only see that their product is all right when sent to market but they must see that it is all right when ofrered to the consumer. If it is, then market conditions will have been corrected. Nothing short of this will upon a proper footing. By its adoption Canada's small poultry output will be increased and take its place among the industries be proud.

A Sermon in Rhyme.
If you have a friend worth loving, That you love him, ere life's evening Tinge his brow with sunset glow. Why should good words ne'er be said
of a friend, till he is dead?

If you hear a song that thrills you Sung by any child of song,
Praise it. Do not let the singer Praise it. Do not let the singer
Wait deserved praises long. Whys should one whot thrills your hea
Lack the joy you may impart

If you hear a prayer that moves you Join it. Do not let the seeker Bow before his God alone. Why should not your brother share he strengid of "two or three" i
prayer?

If you see the hot tears falling From a brother's weeping eyes,
Share them. And by kindly shari Share them. And by kindly sharing
Own your kinship with the skies. Why should anyone be glad

If a silvery laugh goes rippling Through the eunshine on hing face
Share it. Tis the wise man's savin Share it. 'Tis the wise man's saying-
For both grief and joy a place. For both grief and joy a place.
There's health and goodness in the mirth In which an honest laugh llas birth.
If your work is made more eas Say so. Speak out brave and trul Ere the darkness veil the land. Should a brother- workman dear
Falter for Falter for a word of cheer?
Seatter thus your seeds of kindnes Leave them. Trust the He will make each seed to So, until this happy end,
Your Life shall never lack a friend.

The Farmer Boy.
So much is written about the farmer
boy and his distaste for farm life, and
how to get him interested in the farm.
Observation shows that one of the
easiest, earliest ways to get a boy inter-
ested in farm work is to get him first
interested in the life upon the farm-
that ist, chickens, calves, lambs, pigs and
colts. Give him a flock of chickens as
his own just as soon as he is able to care
for thems Leet them be bantams, or
something larger, although anything
emall always attracts a child's notice and
interest. Keep just one breed for him.
Don't let him have mixed chickens. He
Will take greater interest if he must
study the points of his pure bred chicks,
and keep them up to standard by know-
ing them and working to that effect.
Encourage him to set special prices on
his chicks, to advertise them, to early
take them to the fairs about, and in his

name. In this way he will learn to
know there are other breeds and to Want to know their differences. and to
if he he is given as his own, and which he must bhickens how to keep to themselves, this will give
him an interest in him an interest in knowing owher life
on the farm, and this anterest on the farm, and this sinterest will in-
crease if he is
as given a pig, calf or lam as his own and you insist upon his know-
ing of ing of what breed it it is, and consolt witl
him as to not only its superior point over other breeds of of pigs, calves and lambs, but its inferior qualities. Give
boy this boy this taste, and if ever he goes away
from the farm something will draw him
heok

Good Word for the English Sparrow
fin a four- year-old poultry journal III: :- "In 1904 I used the H. Swope method of feeding chicks. As a roppel this attracted the sparrows, who were always feeding at the hopper. I spent some time studying how to get rid of
them. sects in my orchard were the in year before. Am using the hopper
method again this year. Result.: More method again this year. Result: More
sparrows this year than last; and the only lice I find in the orchard were on one tree, and that only a few on the tips
of the branches; so it was not necessary to spray the trees this year with an
emulsion. Now, while it may be that spraying the trees the previous year may
be the cause of this resur lieve the sparrow was a great ant, 1 be have so much faith in them that $T$ will
not let them be molested. No doubt but they may bring lice into your yards, yet the benefit you derive from them in Comment-While sparrows do fested with chicken lice, and keep them going indefinitely in some poultry
houses, yet not ali flocks houses, yet not all flocks of sparrows are
infested with lice, as I I have foum year by examining the young birds the nests and as am many of the old ones as I
can get hold can get hold of which inhabit my
premises. It may be that if you kee your fowls rid of them, then the spar
rows will fally

Cold Storage for the Farmer
To find out how the farmer might sav money by going into the cold-storage
business on his own account, the Illinois
Experiment Station recently Experiment Station recently built a re
frigerating house big enough to hold 2500 barrels of apples. It was of simple construction, and made as cheap as pos-
sible, its cost being $\$ 3,430$. On the fifth sible, its cost being $\$ 3,430$. On the fifth
day of October 70 tons of ice were put
into the ice-box, and the temperature fell into the ice-box, and the temperature fell
gradually to thirty-three degrees, at which point it was maintained through
the winter. All of the apples kept beautifully, and the cost of storage for or 31 cents less than the farmer usually The fruit was examined from time t e, and hardly a bad apple was found.

the apple grower．All of the apples re－
mained in perfect condition．Taking into view the saving to the producer，it pay for itself in five years． Accordingly，it is years．
farmers．build thended that farmers build their own cold－storage
houses，combining for the purpose whe houses，combining for the purpose whe desirable．Not only will they save
money directly，but the selling period will
be greatly be greatly prolonged．The fruit can go
from the tree immediately into storage from the tree immediately into storage，
and be cooled to the degree requisite to
arrest the ripening arrest the ripening process．Further－
more，it can be stored in packages，the final grading and packing being deferred until the hurry of the picking season is over．
The Station tried
The Station tried the experiment of insulating a cellar for cold storage pur
poses，cooling it with ice in the early of the season，and depending later part the natural temperature．This was not was too suce．It was found that the earth was too good a conductor of heat and
cold，and that fluctuations of temperatur in the later season were too great． The conclusion drawn is that mercial growers，for communities in
which considerable which considerable quantities of fruit are grown，cannot do better than to erect
cold－storage houses cooled with ice．

## The Incubated Chick，

I＇m not a little orphan，sir
But I am just as sad，
A－peakin＇and a－pipen fo
A－peakin＇and a－pippen fo
The love I never had；
One touch of human sympathy
Would melt Would melt my poultry natur
But I refrain from hope so vain， For ma＇s an incubator．
When first I burst my parent shell－ How hideous the dream！－ No＂Cluck，cluck！＂fond love to tell，
No sound，alas，but－ I felt in vain for sheltering wings Within that boiler crater wings And then in sooth，the horrid truth－ Ma was an incubator
－Farm and Home．

## Poultry Items．

Four good reasons why feed should be
given dry are－First，fowls are kept in given dry are－First，fowls are kept in a
more healthy condition；second，eggs of
better fertility；third better fertility；third，dry feed is pre－
ferred by the fowls；and fourth，it par ferred by the fowls；and fourth，it save
labor．
The removal of nesting material and
refilling with clean dry nesting great help in keeping down the lice One of the most difficult things for beginner in poultry raising to learn is
to cull closely to cull closely，and there are others be－
sides the beginners that need to this necessary thing． water will prevent one chick＇s catching disease from another；also，it will cure
slight colds．an slight colds；an easy preventive，and no
possible harm in it． There is no gold mine nor get－rich－
quick scheme in the poultry yard，but if quick scheme in the poultry yard，but if
you will practise tnese four words，clean－
liness，punctuality，perseverance you will receive a good profit from the poultry．
There is nothing better then poultry
manure for most manure for most garden crops．Don＇t renewer，and then buy fertilizer．

## A Good Whitewash

The importance of whitewashing
stables where dairy cows are ceded by all．The following formula
for whitewash is recommended for whitewash is recommended by the the
United States Government．A pint United States Government．
this mixture is said to yard if it is properly applied．It is is said
to be serviceable for slacked lime；slack it with boiling water Cover during the process to keep in the
steam，strain the liquid through a fine
ieve or strainer and $\stackrel{1}{1}$ quisitive
also supp
molding salt or strainer，and add to it a piece of
three pounds of risolved in wailed to to a thater，
paste，and stir in while hot half a pound
of Spanish whiting and one pound of spanish whiting and one pound of
cold water and then hanging over the fire with water．Add five gallons of filled water to the mixture，stir well，and let it stand for a few days，covered from the purpose it can be appled hot，for which portable furnace．

Make the Home Attractive．
In the list of questions propounded to the representative farmers of the nation
in Country Life there is this one for the in Country Life there is this one for the
conclusion：＂What，in your judgment is the most important single thing to b done for the general betterment of country life？＂My answer to this was as follows：－＂Make the home more com ortable and attractive by the plantin There are many farm homes where thes conditions already exist to a gratifying axtent，and such homes，I believe，will be tented and happy by far the most con－ communities．
It is an old
It is an old horticultural axiom that trees，fruits and flowers make happy things to go with this be，of course，other substantial things of life are where the
vided such vided，such as good buildings，a good pro－ look，good food，and good clothing，then
the＂finishing touches＂ be in making thehes＂of a home should general surroundings beautiful and the True，there are many people
not appreciate beauty in its real estimate our respectable tillers of there are none of would choose a home made attractive that horticultural surroundings in preference to the home that is bare of such adorn－ home is in the spirit of glove of any real to one another that rules within devotion of each occupant．
The outside adornment of the life The outside adornment of the home
should，and does naturally，go with the true home spirit．The young people of our day are being educated along the
lines of ornamenting and home，and I believe the time is not the a way when we will see a marked advance
towards making beautiful as well as comfortable outwardly are some simple things that can and should be be done about the home，such
as the cleaning up of the weedy cleaning up of the rubbish and the fixing up of fences，including th，and pair and painting of farm buildings．One
scarcely realizes he scarcely realizes how much these small
things do towards tidy and attractive making a farm home and fix up＂may be a good motto clean up ginners in may be a good motto for be－
ment．
 shelf in the cellar，with one end rainging

ted reader of or,-1 har paper been an interes. and think the correspondence columun the the
"best tever." I am a native of the United
State eyes and hair, height 5 ft .5 in., 26 years
old, and weigh 138 liss. 320 and weigh 138 libs. Am owner of
cree from debt land in the States, and free from debt. Am very fond of music,
dancing, and all athletic sports, mat dancing, and all a thletic sports, and am
considered a good viotinist. Would like
to correspond with any tidy.

## When the Stomach Stops

Working Properly, Because There is Wind In It, Use Stuart's Dyspepsie Tablets To Set It Going Again.

A Trial Package Free
The doctors call it flatulency, but unprofessional folks know it as "wind
on the stomach," on the stomach," and a most distressing state of things it is., It is a serious Always annoying and painful organ, extreme, at times often pleading to bad and fatal results. The stomach embarrassed and hampered wilh wind, can-
not take care of its food properly indigestion follows, and this has a train too appalling to enumerate. The entire system is implicated-made an active or passive factor in this trouble and life
soon becomes a questionable boon All this is explained in doctor boo how undigested food causes gases b fermentation and fomentation in which burnt up-wasted by chare destroye followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements, and as consequence the stomach and entire
system is starved. Plenty of see, but spoilt in preparation and worse A worthless.
A deranged stomach is the epitome o it, but the gas it generates is protron ts worst primary effect and the only way to do away with this is to remove the the root of this trouble. They go to the gas-making foods and render them harmless. Flatulency or wind on the stomach simply cannot exist where these
powerful and wonder working tablets are in evidence. to attack the gas making foory purpose to attack the gas making foods and con-
vert them into proper nutriment. This is their province and office. A whole book could be written about them whole
then not all told then not all told that might be told with profit to sufferers from this painful dis-

"White Rose."

Agricola Expresses His Views.
Sir,-I have been an interested rask. of your magazine for some time and $I$ enjoy it very much. consider one or
the leading magazines of the day. I enjoy reading "The Young Man' Problem,'
The stories are good, but the temperance talks do not come often enought especitalks do not come often enough, especi
ally from our lady correspondents.
Why do young men smoke, drink and gamble? First, because some companion has treat-
ed them some time and assured them that ed them some time and assured them that
it would not hurt; sure, the first one it would not hurt; sure, the frst one
seldom does, but you generally cultivate a taste, then look out for the harm after. Second, because they lack, the courage and self-will to say "no." Banish the
treating system and the bar will soon treating system and the bar will soon go.
Third, because the young ladies of to. day (generally speaking) rather admire the jolly, sporty young man, and don't
object to his smoking a cigar and gam. he young men are just what the pany ladies make them. If the ladies would raise the standard of manhood to a level
with the standard of womanhood and with the standard of womanhood and
stick to it, they would do stick
mightier good than going to to the polls to yote. I IVked the letters writen by,
"Modesty's Purest Ge" and the "Bear:", "Modesty"s Purest Gem" and the "Bearl",
They express $m y$
mentiments exactly, Wherefore describe oneself? Even photos farmer, with an agricultural education, am old enough to vote, fair blue eyes,
5 ft . 11 in., weigh 185 l Ibs., temperate in everything. Enjoy ${ }^{\text {My faverite enjoyment is travelling ort. }}$ when means and a suitable travelling companion become my own $I$ expect to
indulge. I would enjoy a letee from indulge. I would enjoy a leter from
any young lad who cares to torite, es.
pecially "aras Daughter." of Moose Jaw, any young lady who cares to write, es.
peciall "Pas Da, Daghter, of Moose Jaw
and "Margaret,", of Whinnipeg.
It's and a argare, man's place to write first, but I am a very busy fellow and I may
not write to some that would wish it, so not write to some that would wish it, so
will show the ladies no preference at
present will present. I will close, trusting that I
haven't taken up too much of your space.

Attention! Scotchmen. Dear Sir,-I have just read the corres pondence column of your interesting paper, which I get from a friend.
should so like to exchange letters should so like to exchange letters with
any of your correspondents. I want to know all about Canada, as $I$ intend coming out to Winnipeg or Toronto to start
a dressmaking business. I am Scotech, as a dressmaking business. I am Scotech, as
you will see by above ddress, you win see oy above address, and
quite proud of the fact that one of $m y$ ancestors fought for the freedom of Can. ado. I suppose $I$ ought to describe my. self. Well, to begin with, I don't know What height $I$ am as $I$ have never had
time to be measured. My weight is 112 lbs., black hair, hazel eyes, good com. plexion, agen 24 years. 1 have no acc.
complishmments ot ospeak of
can whess that
works very hard can work very hard, and I consider my
self $a$ first-clasi dressmaker-at least my customers say so- and may add that am very fond of books-and frock I should be so pleased if any of your
city readers would find time to write me city readers would ind time to write
regarding dressmaking in Canada. have a splendid business here, but two of my brothers are going out West, and as
both my parents are doed both my parents are dead, we (my kiste and i) see no reason why we should shal sign myself
"Perthshire Lassie.".

A Handy B.C. Lassie,
Sir, $-I$ have been an interested reader your much valued paper for a year,
but have never before found courage to write to the corteapondence column. dark brown hair and blue eyes, and weigh 121 lbs. I am a good housekeeper and a good cook, and can do outside chores in pinch. feel sorry for some of the letters, and would like to correspond with "Laughing Joo," of July number, nd alao Australian Brown, of Sept. number, if they will write frst. I am

sucess. I will sign myself "A Daisy."

Don't all Speak at Once, Girls.
Southern Alberta.
Sir,-Have been a subseriber for ove y y very interesting paper in every par ticular, especially the correspondence columi. I would have written sooner forward. An ate I have put it off un fil now, but will make a brave attempt for once. I am one of those despised old vachelors we hear so much about, and 1 ive on a farm near the foot-hills of the
Rockies, in Sunny Alberta, and I like it very well. I came to Manitoba from Old ontario, and lived there for some time nd from there to here, but think: I like his country a little the best as one can
always take a good view of the moun. aways take a good view of the moun-
tains and the fote-hills. The country here is very, rolling and the view to al. ways changing, so that a perion doen not tire of it as quickly as one does of the
bleak prairie.
Well
$I$ too lorg a letter this time, but will say that, I enjoy reading the most of the
 care for, as some of the men seem to
want a wife and hired woman all in one. I think this kind had better inquire at an employment agents; and some of the ladies want a man who has not any faults, which no doubt would be very
nice, but, methinks, they would be hard to find. As for myself, $I$ have a good many faults, and bad ones. too, but I
think I have a few good ones, only they think I have a few good ones, only they are hard to find sometimes. 1 do not
think I should describe myself, especially my looks, as my own mother found that required some nerve, but will say that I get the better half I would like to to get the better half I would like to con-
sider her as my dearest companion, and treat her as such as far as it lay in my power to do so. I do not like to see a man treat his wife as a money-making help the other, so as to have a happy

I should be pleased to hear from an ne who cares to write, and will gladly answer all letter
Wishing your
Wishing your paper every
ry success,
Bunchgrass.

int triwn, in lift
various letters on matrimony appearing from time to time in your paper. May
I tell you of three "Correspondence Marriages" that have come under my notice. As a young girl, I lived in a wild, un scarce. (They are yet). Two young men, whose farms joined that of my
father secured wives through faruer secured wives through the me-
dium of just such a publication as your own. Fifteen years of married life shows them-both couples-prosperous, respected citizens, seemingly neither more nor less happy than the great
majority of people. The rude cabins of the one-time bachelor have given way to comfortable homes, beautified in the hundred and one ways that women know. Sturdy children play about the What were the women like? you ask. Just sweet and good, both of them. Their coming among us was a benefit
to all concerned. The third marriageI wish I might tell that as it deserve to be told. She was a widow soon after I first met her. The first marriage came about in the usual way, but alas! the
soldier-husband drank. soldier-husband drank. None but we
who know her can appreciate the splen did courage of that little wife and mother, but in spite of all her work, things grew steadily worse until it seemed that poverty could go no further.
One stormy day the husband attemp. ted to cross the harbor. Intoxicated, as usual, he failed to see the coming squall, and in an instant his overturned boat lay on the waves. Next day the long
waves laid an inert body on the sand Did the wife grieve? Of course; but tears must soon be dried when four tiny to liven must be cared for. A mere hut and the quarterly allowance of a soldier's pension. Very little, you say. Very little indeed, but it accomplished wonders in her capable hands.
Five years passed. A comfortable
house replaced the old cabin horse, and chickens helped pay the cost of living. A small garden spot had been cleared, and there grew a variety of
vegetables and small fruits which found ready market. The oldest girl married a baby in arms at the time of her fathr's death, were attending the district five years young-not old, mind yorty day a little note was delivered to me "Dear Bess," it ran, "I am expecting company on the 3.30 boat this after noon. Will you come down to tea?" man, perhaps fifty years old. His gray eacups he told us tales of sheep-rancl ing in Arizona, with many an episode pleasant, and he trail. His deep voice wa any of us realized it, the clock struck leven, and my friend's engaging guest iving room, I turned down the to the stirred the open fire into a blaze, then, as in my childhood days, slipped down
beside the fire, my head against her nnee, and waited. She had been very

A Lonely Homesteader.
Stoppington, Alta. Sir,-I have been an interested reader of your paper for the last six months
as my brother subscribed to it last as my brother subscribed to it last
spring, and must say that it helps to
pass pass many a lonesome hour. I take a
great interest in the correspand columns, and think it is a good way for the young people to get acquainted,' es-
pecially homesteaders, whose acquaintpecially homesteaders, whose acquaint-
ances are few and far between. I am ances are few and far between. I am
5 ft . 10 ins. tall, black hair, gray eyes, weigh 170 lbs., and am vain enough to think that I am good looking. I would like to correspond with any of your
readers who would care to write, but do readers who would care to write, but do
not expect the ladies to write first.
"Honey Boy"
granting of woman suffrage isn't going
to give woman the place of man, it will to give woman the place of man, it wil
simply give her equal rights with man,
and when women have to and when women have to obey the laws as well as man, surely she should have
some say in the making of the some say in the making of those laws
Now, I will just give you Now, I will just give you one instance.
I think "Fiddlesticks" will admit that women have the greater responsibilities
in the bringing up and training of chilin the bringing up and training of chil-
dren, and that the liquor traffic is one dren, and that the liquor traffic is one
of the greatest curses they have to com-
bat in the bat in the training of their children, opinion that the granting of woman suffrage would be one of the greatest
swats the liguor swats the liquor traffic ever received in
this country, as I believe the women's votes would be the means of closing a good many hotels and bar-rooms. How does "Fiddlesticks"' back up his argu-
ment that we would" not have the lovment that we would not have the lov-
ing influence and memory of Mother and Home if our mothers had had the suffrage ? In my opinion they would have even more to remember and cherish,
when we remembered the good work when we remembered the good work our
mothers did for us by their votes, which they undoubtedly would do. And again,

A young worker in the recent British Elections, Little Miss Lloyd George canvassing for

Woman Suffrage. $\quad \begin{aligned} & \text { he says women are intended to be help } \\ & \text { mates. Cettinly they }\end{aligned}$ | Mellowdale, Alta. | $\begin{array}{l}\text { mates. Certainly they are; but by his }\end{array}$ |
| :---: | :--- |
| letter he infers that the suffrage would |  |
| hinder them from being our helpmates, |  | Sir,-Although it is two years or more since I have written to the correspondense columns of your paper, I have al-

ways looked forward with pleasure ways looked forward with pleasure for
the arrival of my old friend the W.H.M. It sure is a friend to us bachelors, located one hundred miles or so from town, although I think the "lonesome howl" is worked too hard by the maj-
ority of your bachelor correspondents As for my part, I don't think a man should be troubled very much with lonesomeness who has a little stock and lots of work to look after, but I was tempt In answer to "Fiddlesticks" "emptation 1 letter in the November issue. I don't wonder his
former letter found its way into the waste patter found its way into the
pasket if it was anything like his letter in the Novemher issue.
He wrould like to start a new discussion: He would like to start a new discussion;
why doesn't he try to discuss some-
thing he understands? He says he he
doesn't think women were ever intended while it would work just the very opposite; it would enable them to play the
part of helpmate where they are part of helpmate where they are now
debarred, in cleaning up our country debarred, in cleaning up our country.
I fail to see where the granting of woman suffrage would the granfully affect the home and home life, but, on the contrary, I think it would give the home
and home life a great uplift. Now, Mr. and home life a great uplift. Now, Mr.
Editor, I hope I have not taken up too much space in your valuable magazine. I should like to say a whole lot more, as short as possible, but in closing will
as leared to moter as short as possible, but in closing will
say that I will be pleased to correspond with any of the fair sex, though, as they will see by this, I am a poor hand
at letter writing, but will promise to at letter writing, but will promise to

THE PEOPLES MEDICINE
PROVED BY THE PEOPLE-FOR FORTY YEARS-THE SURE CURE

## FOR INDIGESTION

## AND FOR OTHER FORMS OF STOMACH AND LIVER DISORDER

## MOTHER SEIGEL'S SYRUP

The claim of Mother Seigel's Syrup to be the people's medicine is backed in hard work and in sedentary occupations, men working below ground, in the fields, on the seas; men in mills, workshops and offices, travellers and stay at-homes; women wage-earners and busy housewives; men and women, young and old, in every walk of life, testify daily that Mother Seigel's Syrup has years, it has never failed the people who have usedit! Can you wonder that
today, in sixteen countries, it is their trusted medicine? Read these typical today, in sixteen countries, it

Mother Seigel's Syrup is a herbal tonic for the stomach, liver and bowels; that people need when they suffer from stomach or liver troubles such as pains after eating, fullness at the chest, flatulence, heart burn, bilious,
ness, headaches, constipation, dizziness, sleeplessness, or that "run down" feeling. The people who have had such troubles as these, and have taken
Mother Seigel's Syrup, have been cured by the thousand, even after all else Mother Seigel's Syrup, have been cured by the thousand, even after all else had failed., If $y$ mu have any stomach or liver trouble, Mother Seigel's Syrup
the people's medicine, will quickly cure you and make you strong and well

#### Abstract

Christabel Has Travelled Sir,-I have read with increasing in : first the letters in tour much apple crated magazine, the W. H. M., and have now determined to write, with view to gaining a few correspondents. am not especially lonely, but greatly enjoy receiving letters, and will en deavor to answer all who care to write merely for pastime. Would pe particularly glad to hear from any in the vicinity of Nelson, country, and would like to hear more about it. I see the western bachelors about it. I see the western bachelors are surfeited with sympathy. Now, are surfeited with sympathy. Now, do not say they are not deserving of do not say they are not deserving of some of it, but why not spare a porsion for the women and girls whose opportunities for enjoyment are equally limited? Also the school teachers, who limited? Also the school teachers, who in my estimation, have the loneliest in my estimation, have the loneliest time of all. During a trip to the coast I was greatly impressed with this Can ada of ours, and what a glorious future ada of ours, and what a glorious future she may have if her people only do their she may have if her people only do their duty and live up to lofty ideals. Now duty and live up to lofty ideals. Now, I will draw this epistle to a close, and I should be glad to hear should be glad to hear from "A Former Michigan Boy," also "A Mountain Girl" Michigan Boy," also "A Mountain Girl," and "Bear," who seems as fond of R. W. and "Bear," who seems as fond of R. W." Service's poems as I am. "Christabel."

Running Jack has His Wish
Sir,-I am a new subscriber, having only ,-I am a new subscriber, having excellent paper, and this being my first
letter I would like to see it in print. I letter I would
think that some of the articles, print.
"The as Man and His Problem," are very good. I take a great interest in reading the correspondence pages. I think that a
man who gets married because a woman does not eat much, and does lots of work, is no man at all. I Io not think it is a woman's place to do chores or any other outside work at all. I always in the condition that is expected of her has no time for outside work. I am an Englishman, 18 years of age, $5 \mathrm{ft} .91 / \mathrm{in}$ in.

in height, dark brown hair and blue eyes; as for looks, I will leave that to others. I am fond of corresponding, and | $\begin{array}{l}\text { will answer anyone who cares to write } \\ \text { I sign myself } \\ \text { "Running Jack." }\end{array}$ |
| :--- |

## Fond of Outdoor Work.

Sir,-I have been a subscriber to your valuable magazine for nearly a year, and must say there is no other paper I like
to read better than the W. H. M. I en joy reading the correspondence columns very much, also the short stories. I am
not long past "sweet sixteen," am 5 ft not long past "sweet sixteen," am 5 ft
10 ins. in height, weigh 115 lbs., have fair hair, hazel eyes, and rosy cheeks. must say I like working outside better than in a hot kitchen. Can also do housework if necessary. So, boys, get
busy; now is your chance. I feel very sorry for some of our western bachelors, they must feel very lonely sometimes. I will now close, hoping to see my letter
in print, and wishing the W. H. M. every success.

## A Cheery Helpmate.

Sir,-In receiving the W. H. M. M. the other day $I$ thought it was the most though the paper was an August mumbor, I hope I may see my letter in print about helping "Hubby" when I have been a wife for most a year, and we have helped each other to gather We are both young-hubby 20 and I 16 -
but I think there in but I think there is no happier pair.
We are living on a homestead and emption, and are trying to get the and presin another year. Although the dry year "as rather discouraging, we are going to
try again. try again.
I don't agree with some of them that
don't like the homestead be ave would the "city fostead, because what
for the "farmers"? I would be very pleased to care-
spond with "Satisfied Wife:" if she
Would write. Wishing the W. H. W.
every success, Tl sign

Wants to Cheer the Bachelors

## Manitoba

Sir,-I have been an interested reader your valuable paper for a number of Columns very interesting
This is my first letter, so I will give a description of myself. I am 19 years id, weigh 125 lbs ., and 5 feet 5 inches dark brown eyes. Well, in a few words, I am very beautiful. I can play the piano, organ, or violin. I can milk, ride, skate, swim, dance, or am a good hand at
playing baseball. I forget to tell rout playing baseball. I forget to tell you
the colour of my lips or teeth. My lips are sky-red, blue, purple and my teeth are the color of the sun.
I must say that I am very sorry for
the lonely bachelors, but I think I could the lonely bachelors, but I think I could
cheer them up if they would go to the trouble of writing me.
Wishing the W. Wishing the W. H. M. every success,
and hoping this will escape the "W. P. B.," I am,
"A Merry Lass."

## Cowpuncher Means Business.

 Swift Current.Sir,-Not having seen my last letter in your valuable paper, I thought I would
write again. Although not a subscriber I am a constant reader of your paper, and think a lot of it, as there is reading in it for folks of all ages. There is als a respondence Column, and would like to join same with your kind permission what a wife should do and what sh should not do. For myself, I think wife has all she can look after in th ouse. As to doing chores, I do no think a woman should be asked to do
such things. I have been all over my self, have worked in different places, and have not seen a case where hubby was so red at night that after enjoying a good supper was mean enough to even expect s accidentally delayed anyplace, then it would be a different thing. Now, as for myself, I am an easy-going young man
of 21 , an engineer by trade; but have of 21, an engineer by trade, but have have a homestead. I will not need to give details of my life on that worthy piece of land; suffice to say it's pretty lonely in winter, when there is nothing
to do. Now, girls, I would like to start up a correspondence with a nice young
girl between 17 and 20 , of a lovable disposition, a farmer's daughter preferred. have a fair complexion, am 5 feet 8 Canadian. I love all kinds of music; can play some myself, and am of a loving disposition. Now, I mean business. If any young girl who thinks she could
learn to love me would care to write to me I I will be pleased to answer.

Two Lonely Bachelors.
Spring Point, Alta.
Sir,-We are readers and subscriber July, and find it one of the most inter esting of magazines, especially the Cor responding Column. We are two farmer boys from Michivery lonesome after living in a thickly settled country, where there are plenty of girls to associate with. girls in the neighbourhood y two single they would not sui b There are quite a few dances here which helps to drive dull care away.
We are both fond of music, and can We are 19 and 25 respectively. No 19 is 5 feet 7 inches tall, weight 135 los. has light hair and complexion. No. 2 dark blue eyes tall, weight 145 lbs., has dark blue eyes and dark hair, and also
dark complexion. We would like to cor
respond with any respond with any of the opposite sex.
Will answer. all letters Will answe. all letters promptly.
Hoping to see this letter in the paper,
and wishing the W. H. M. every success,
we will sign ouscive

## In Lighter Vein.

The New School. The doctors used to bleed mankind For every ill that they could find; But now they're wiser, sleed" the pocketbook instead.

Was it Watkins? In spite of the fact that the late Sir Heniry Irving was best known histrioncolly through his depiction of tragic parts, he is said ho have The following anecidote is told of him While he was one day sitting in his favorite corner in the Greenroom Club, a member, Watkins by name, who was the club, is said to have approached him, and, slapping him on the shoulder, said: "Ah, Harry, delighted to see you." Irvng, who was never called Harry, and, in and looked at the speaker and then resumed his reading. Not abashed in any way, the man again clapped Irving on he shoulder and cont, nued: "Just reurned from the Continent, Harry, and whom do you think I saw in Paris?
lone other than our dear old friend,

The Call of the Snow. Winter in Norway
 don't know me, old chap, do you? And will you believe me, Harry, he didn't know me! I said to him: 'Why. Wither spoon, can it be that you have forgotten
me? It's Watkins. Don't you remembe Watkins of our old Charterhouse days? Don't you remember Watkins? It's Watkins.'"
a lifelot moment Irving, who had been ang with a look of witherspoon, turn his face, said: "And was it?",

Furious-A word expressing the plea e a g Amateur Farming-A form of extrava
gance practised by men who like Carne gie, do not wish to die rich.

Trying it on the Dog.
De Wolfe Hopper is famous for telling excer hent jokes upon himself. When at The Lambs' or The Players' and wears a broad smile, they understood that some new absurd thing has hap pened to him, and that they are to be permitted to laugh at his expense.
"Hopper," said a friend on one casion, "you couldn't tell a good thing if you got the best of it. I don't believe you'd see a joke that wasn't played on you."
"Oh, yes I would, yes I would!" pro-
tested Mr. Hopper. "Why, I know the funniest thing right now that happened to me that gave me the laugh on everybody for miles around."
"All the lhings I it," said his friend "All the things I ever heard about you that were jokes either happened to you
or to somebody who belonged to you."
"No, no," asserted Mr. Hopper, "This didn't happen to me. It was the best
joke. It was the funniest thing I've ever-heard. You see, the joke was on my dog. He and I-"
Mr . Hopper got no further

## Too Long for Bryan

At a political convention in a Western ing, in a desultory way, the religious af filiations of prominent statesmen, when observed to the other delegate, who wa a Methodist: "I understand that William Jenning
Bryan has turned Baptist." Bryan has turned "What!" exclaimed the "Why, that can't be!"
"Nevertheless it is true," Methodist recovering himself, "it isn't true. To become a Baptist one must be elltirely "Yes; but what has that fact to do wth the matter?"
Mimply this," returned the Me thedist.
Mr. Bryan would never consut appear from public view so long as
that' $n$

His thorough-bred and butter. - Nixon Waterman.

## A Helping Hand.

One very slippery day Mark Twain, in his greet. sealiskin overcooat, was walking down Maine Street, in Hartford. A port. yy citizen, whom he knew by sight, fell
just in front of him, with a side-rending thud. Looking calmly down, with that shadowy smile, which only stirred his
heavy mustache, Mark Twain drawled: harder. Then I think youll break through.,
All appreciation of humor had been
so well shaken out of the fat man that so well shaken out of the fat man that with a purple face he told Mr. Clemens
to go where there is always corner on ice and snow.
Mark Twain stuffed his hands deep into the sealskin pockets after his fashion, hung his head pathetically on one
side in his inimitable way, and walked ${ }^{\text {on sanying sady }}$, That is the
