### The Psychology of Noises.

BY RUTH CAMERON.

A masculine contemporary of mine has expressed the editorial wish that someone would write a good essay on the psychology of noises.  
It is rather surprising with all the psychological articles we have been finding in our magazines lately that none of the literary psychologists have enlightened us on this interesting subject.  
Everyone has noticed the irritating disturbing quality of some noises, and the comparatively inoffensive character of others.  
The sound we have become accustomed to seldom, distracts or disturbs us no matter how loud it is. Indeed its cessation is more apt to attract attention. I believe I have already told the story in these columns of the fish-house keeper in whose bed room a bell connected with the light sounded every half minute. I asked him how he could sleep in that din, and he answered that the only thing which would disturb him would be to have that bell stop sounding. That would wake him from the soundest sleep.  
On the other hand, an unaccustomed noise, no matter how light, will often place the thickest armor of concentration or even arouse a man from heavy sleep.  
Noises which occur at regular intervals are easier to endure. I think, than a noise that keeps one guessing with its irregularity.  
The slamming of a blind or the rattling of a door is trying even to comparatively steady nerves. One gets to flinching and wincing the moment it happens at night, the period of precious silence during which one might fall asleep, is usually consumed by

wondering just when that blind is going to slam again. I'm sure that the universal appeal of the story of the nervous man who waited all night for the occupant of the room overhead to throw down his other shoe, has its foundation on the universal suffering from such irregular noises as slamming blinds or rattling doors.  
A noise which I do not understand is peculiarly irritating to me. One summer I lived near a fort where there was frequent target practice. Naturally it was difficult to concentrate when every few minutes the air was torn to shreds by loud explosions. Nevertheless I eventually became sufficiently accustomed to the noise to practically ignore it. Then one afternoon a peculiar muffled roar knocked at the side doors of my brain, and concentration fled. I didn't know what it was and I never found out, and everytime I heard it I would become incapable of concentration on my work. And yet that sound wasn't a fascinating subject, isn't it? Please allow its fascination to be an amateur psychologist's apology for daring to dabble in it.

medately after he had pawed several bushels of autumn leaves out of the cavespot with a whisk broom.  
The kicker never admits that there will be more than one-third of a corn crop until along about Christmas time.  
If the new minister chooses a text from II Kings, he will wonder why our preachers can't get out of the Old Testament once a year. If the german introduces an original thought or two, he will sigh for the old-fashioned preaching which you could follow without a guide book or a set of Emerson's Essays.  
The kicker is at his best during the summer solstice. He is then able to kick in long, sustained high notes about the warm weather, and every change in temperature causes him to let go of a sour cackle. During the cold weather, he is prepared to show that the heavy winter of 1857 was a hot wave compared with what is just ahead.  
The kicker teaches us that some people are never truly happy until they have made everybody about them miserable.

### Household Notes

When making a mayonnaise in which only the yolks of eggs are used, the economical housekeeper will use the whites in a dessert, such as apple snow for frosting or for a meringue on a pie.  
A sponge in a porcelain umbrella stand will keep the umbrellas from striking the bottom of the jar, which is often broken in this way, and will also absorb the rainwater from a wet umbrella.  
Washing soda will prevent refrigerator drains from being clogged. Place lumps of it on the bottom of the refrigerator. It will sweeten the air of the refrigerator and keep the drain free.  
If in separating the yolk of the egg from the white you should spill a little of the yolk into the dish of whites; use the egg shell to pick it up with instead of a spoon. The yolk will stick to the shell.  
A bathing cap may be kept in good condition for another year by sprinkling it thickly inside and out with talcum powder before putting it away. It will prevent it sticking together and rotting.  
Using a warm iron when cutting out clothing will do away with pins and weights on tissue paper patterns. Lay the pattern on the material and press it lightly with a warm iron. It will adhere to the cloth.  
To prevent potatoes from sprouting when put away for use on the table, keep the potatoes in a tub of boiling water for five minutes. Pour water off and lay potatoes on boards one layer deep in a dry place.  
To toughen glasses or lamp chimneys, immerse the glassware in cold water to which some common salt has been added. Roll well, then cool slowly. The glass will resist a sudden change of temperature.

When working on velvet, use only the finest pins or needles to pin, so as not to injure the pile, and when beatings are essential do not draw the thread tight. Clip each stitch with scissors before pulling out the beatings.  
The measures for the ordinary French dressing are: Three tablespoonfuls of oil, one and a half tablespoonfuls of vinegar, a fourth of a teaspoonful of salt, an eighth of a teaspoonful of pepper. This is enough for a pint of salad.  
Some of the best part of the apple is wasted when the fruit is pared for apple sauce. Core the fruit and then cut into quarters. Cook until tender and press through a colander. The skin will give to the sauce a bit of color and add to its flavour.  
A very fine spool holder is made with a brass curtain rod. Select one small enough to allow the spools to slip over it easily. Place on the rod as many spools as it will hold, fasten with small brackets which come with the rods and place in a convenient position on the sewing room wall.  
When painting the ceiling or any high place, the paint is apt to run down the handle of the brush. To prevent this, cut in half a large rubber ball, make a hole through the middle of this and push the handle of the brush through it, leaving the cup side toward the brush, shoving the ball up as near the brush as it will go.

### An Operation For Appendicitis

Was Ordered by His Doctor. But Complete Cure Was Effected by Dr. Chase's Kidney-Liver Pills.  
Almost anyone who has suffered from appendicitis will assure you that this trouble developed only after months or years of derangements of the liver and bowels.  
Appendicitis can almost invariably be prevented, and very frequently cured, by the use of Dr. Chase's Kidney-Liver Pills. In the case described in this letter the doctors had ordered an operation, but a thorough cure was brought about by this great medicine.  
Mrs. J. A. Ballantyne, Sturgeon Falls, Ont., writes: "My husband was treated for appendicitis and the doctors ordered an operation. But he would not consent to an operation and began the use of Dr. Chase's Kidney-Liver Pills. Since doing so he has had no need of an operation, or even of a doctor, as the trouble has completely left him. I cannot find words to speak our gratitude for this cure."

As a rule, man's a fool;  
When it's hot he wants it cool,  
When it's cool he wants it hot,  
Always wanting what is not.  
As a rule, man's a fool.  
The kicker is a person who wouldn't be satisfied in Heaven, unless he could regulate the climate and lead the band.  
Some people never kick, except at epochal periods, like a house-cleaning time, while others start before breakfast, and kick on everything from the texture of the pancakes to the way their bed is made up.  
It is impossible to please the kicker who is impelled by a high sense of duty and a dark yellow grouch. This kind always wants a soapstone in his bed, on cold nights, and if he burns his feet on it he will declare it was slipped in between the sheets when he wasn't looking.  
It is an established historical fact that William Cullen Bryant wrote "the melancholy days have come" im-

### Liberal Team for Placentia & St. Mary's.

**SULLIVAN, SUMMERS AND CARTY.**

We take pleasure in announcing to-day the Liberal Team for the District of Placentia and St. Mary's—Messrs. M. S. Sullivan, P. J. Summers, and Geo. T. Carty. These gentlemen will be the standard bearers of Sir Robert Bond in that important constituency. The sentiment in the great Bay of Placentia is, we are creditably informed, overwhelmingly in favor of the United Opposition. Trepassey and St. Mary's are rapidly swinging into line, and making ready for a glorious Liberal victory on Polling Day. We make no false prophecy when we say that the gradualism and corruption of the present Government will receive a death-blow from the loyal old district of Placentia and St. Mary's, which will again take its rightful place under the leadership of that sound, safe and wise statesman Sir Robert Bond.

Mr. Sullivan is well known to the District. He has been twice elected for that District. He is a young man who has emphatically "made good." For several years he occupied the important post of Assistant Superintendent with the A.N.D. Co. at Grand Falls. He has resigned that position and in future will reside in St. John's. He will act for the company in several agencies and will also look after the employment of labor. While Mr. Sullivan was Asst. Superintendent, he had many opportunities to work favors for the men of Placentia who went to Grand Falls seeking work. He always looked after the men from his district and consequently they have a very warm place in their hearts for him. He will still be in a position to find work for the inland paper town for all who desire it, and if possible in a better position than when he resided at Grand Falls.

Mr. Summers will be a distinct advantage to the team. He has a large knowledge of public affairs, having been the editor of the Evening Herald for three years, while that paper was supporting the policy of Sir Robert Bond. He is a lawyer of ability and experience. He contested Hg. Main in the 1908 election and although unsuccessful, his vote was not far behind his strong colleague, Capt. Lewis.

Mr. Carty is almost as well known throughout Placentia District as in St. John's. His popular qualities will add many to the number of friends George already possesses in

### LOOK THIS IS A HOME DYE

the District. He is not without political experience having sat for four years as member for St. George's, being accountable for one of the numerous defeats that Hon. Mr. Gibbs has met in so many districts. When elected for Placentia and St. Mary's, as he will be, with Messrs. Sullivan and Summers, Mr. Carty will be a valuable and useful member. We wish the trio God-speed! Mr. Sullivan is now in the District, he will be joined by his colleagues in a day or two.

### Rather Have Them Than Food.

Editor The Evening Telegram.

Dear Sir—Please allow me a little space in the Evening Telegram for a few words of gentle protest against the unseemly conduct of some persons or persons here, who have been in the habit lately of tearing down the public message almost as soon as it is posted up, or at any rate before scarcely anyone can get a chance to read it.

This may seem all right to those who agree that the public message is nothing more nor less than a prostitution of the Government Telegraph system in the interest of the Government party politics. Granted, that there is a great deal of truth in that argument, even then, that does not justify indignant politicians in destroying the message before the public can get a chance to read it.

This lawless practice should be put an end to at once, or there is no knowing where it will end. If the talk in the street can be given credence to, even the wires are threatened in many places. A political heat wave seems to have struck the district lately and that to such an extent.

### Capt. Fudge for Fortune

Special to Evening Telegram.

BELLEORAM, Yesterday.

Captain Randall Fudge has been called out as the Liberal-Union candidate for Fortune Bay. The present signs indicate a sweeping victory for him. The people throughout the District is sick of Tory rule. The toilers appreciating the election will be the fisherman's fight for freedom, and will therefore rally round Fudge, who is well and favorably known throughout the District. Bond Can't Lose.

As to make people almost unaccountable for their actions. A few political remarks dished up in the public message are now too much for their restraining powers.

Hundreds upon hundreds of Opposition papers are pouring into the District every mail and they are having a wonderful effect upon the people. Never before have the people become so agitated and excited over elections as now, and their cry is: "Elect us Advocates, we would rather have them than food."

This seems strange, Mr. Editor, to one not interested in politics. I would like to understand it all, but seemingly I cannot.

Hope, Mr. Editor, that this matter will be seen to and that the message will be protected from violence in the future or that politics will be entirely eliminated from it (which of course would settle the business).

Yours very truly,

NON-POLITICAL.

Belleoram, Sept. 25th, 1913.

### Here and There.

**FIRE DESTROYS PARSONAGE.**

A message to Mr. Hutchings, Deputy Minister of Justice, yesterday afternoon, stated the C. of E. Parsonage at Hr. Buffett, had been destroyed by fire with all its contents. The fire was caused by a lighted lamp upsetting.

**M.G.B. PARADE.**—On Thursday night the Methodist Guards will parade at the schoolroom on Buchanan Street. This will be the first meeting of the brigade since their Anniversary was burnt down over two years ago.

**A SAD COINCIDENCE.**—It is a sad coincidence to note that the late Richard Pendergast, who met with such a terrible death on Logy Bay Road, on Saturday night, as referred to in yesterday's Telegram, was in company with the late Maurice O'Brien, who was killed on the Logy Bay Road some years ago.

### C.L.B. Presentation and Promotions.

Avonport Battalion met at their Assembly last night when the following programme was gone through:—

## Warding Off "Old Age"

A London Physician says:—

When a distinguished scientist like Dr. Newsholme, of the Local Government Board, warns us that we are ageing prematurely as the result of the strain modern life throws on our hearts and arteries, it is worth thinking what can be done to stop this health wastage.

Dr. H. Strauss, of Vienna, in a recent number of the "British Medical Journal," makes the timely suggestion that much can be done to retard this premature wear and tear by paying a little ordinary attention to the diet.

The man whose heart or blood vessels begin to show signs of not being as young as they used to be should, for example, be very chary with his meaty foods. Two and a half to three and a half ounces of meat a day Dr. Strauss considers quite sufficient.

More important than what one eats, however, is what one drinks. Alcoholic stimulants of all kinds tend to burden the heart and blood vessels by making them work overtime, which of course increases the wear and tear. But it isn't only alcoholic stimulants Dr. Strauss inveighs against. Caffeine (the powerful drug contained in tea and coffee,) this distinguished scientist points out, is also a powerful heart irritant. Every time one takes a cup of these beverages the caffeine in it encourages one's heart to do extra work which is practically always quite uncalled for, and therefore is an utter waste both of energy and heart muscle.

In these days when the strain of modern competition and high-speed mental work keeps one's heart constantly working at high pressure (thereby tending to produce premature wearing out) anything which can possibly add to the work thrown on the heart ought to be strenuously avoided. Caffeine, the powerful heart irritant contained both in tea and coffee, is one of these substances.

It is to meet the growing demand for a caffeine-free beverage, delicious and as appetizing as tea or coffee, that Postum was invented. Made from the finest wheat,

## POSTUM

has a pleasant aromatic odor and a delicious flavor, and best of all, is absolutely free from caffeine or other poisonous drugs.

Postum comes in two forms:  
**Regular Postum**—must be well boiled.

**Instant Postum** is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly.

### Cadets Dined.

The friends and supporters of the C.C.C. gave a dinner last night at Smithville to the members who won so many trophies in the different athletic events this summer. Over 250 persons, including guests, were present and after a well prepared menu had been served, the following toast list was taken up:

"The King"—Prop. The Chairman: "God Save the King."  
Selection by C.C.C. Band.

"His Grace the Archbishop and Clergy"—Prop. J. M. Kent, K.C.; Resp. Rev. P. Sheehan.  
Song—Lieut. Halley.

"The Catholic Cadet Corps."—Prop. J. L. Slattery, J.P.; Resp. Lt.-Col. Conroy.

"Horn Solo"—Capt. A. Bulley.

"Our Guests—The 'Competition'"—Prop. W. J. Higgins. Resp. Major Carty (Shooting), Quarter Master Sergt. Knight (Track Team), Sergt. Hart (Football), Cox. Brown (Rowing).

Song—J. L. Slattery.

"The C.C.C. Reserves"—Prop. Lt. Adj. M. F. Summers; Resp. Capt. Vaughan.

Song—Jas. Arkison.

"The Boat Club"—Prop. L. G. Sullivan; Resp. President P. F. Collins.  
Selection by Band.

"The Ladies"—Prop. R. J. Power; Resp. Lt. Cullen.  
Song—Chas. Jardine.

During the evening a pleasing presentation took place, when Phil, who steered the Cadet crew to victory on Regatta Day, was presented with a handsome gold watch. The recipient thanked the donors heartily for their gift.

### Another Arrest.

At the instance of Mr. F. C. Barrett, Comptroller and Auditor General, Charles Nichol, of the Money Order Department in the General Post Office, was arrested on a charge of embezzlement. The accused is remanded while a full enquiry is being made to find out how long the misappropriation of monies has been going on.

### All Kerosenes are the Same

in price but not in QUALITY.

That is why TEXACO OILS are the cheapest in Nfld., as they are of superior quality. Even the packages are superior, being eight hooped, glued barrels, minimizing leakage.

Brands: CRYSTOLITE and FAMILYITE.
