New Relief For Constipation,

Physicians agree that with the modern habits of living, constipation is like. ly to be always with us. They also agree that the constant use of any drug for the relief of constipation is exceedingly unwise -unwise for two reasons.

First, a drug constantly used loses its effect and requires a constantly increased dose. Second, because the constant use.

of any drug is bad anyway. So the cry is constantly going up from the constipated, "What can we do?" It will be interesting to a great many to know that an answer has been found in the re-discovery of a method which was used with great success by our Forefathers, and in Arabia far back in the twelfth century. The food is called "Les Fruits because it is composed entirely of figs, dates, prunes, raisins and the leaves of each with the substitution of the Alexandra leaf for the raisin leaf. The taste is pleasant, if not to say delicious, and the effect is exceedingly satisfactory. Try it and be convinced.

A Puzzled Prelate.

(From Pearson's Weekly.)

A good story of John Strange Winer (Mrs. Stanard) is tol by Frank M. Boyd, in a Pelican's Tale. It was when the famous author's most successful story, Bootle's Baby, was at the height of its popularity, and Mrs. Stannard, meeting the then Bishop of London, at a certain function, sought to introduce herself to him. "My lord," she said, "I am John Strange Winter."

Then, seeing the good prelate gaze upon her with a puzzled expression. she added, "You know, Bootle's Baby." Then the Bishop fled. Anon, meeting his hostess, the

Bishop took her on one side and said: "Do you know, Lady -, that you are entertaining a lunatic. She came up to me a little time ago and first of all stated that she was a man, and then that she was a child!"

When you called on us the latter part of 1916 we could not comprehend the extent of business Tanlac was having as reported to us from other states. We had, however, heard something of Tanlac in the Southern States near us, and, lieving in the statements as made by you, we agreed to co-operate and act as your agent for our immediate territory, which covers one-quarter of the State of Texas, though a very sparsely settled portion. When you spoke of our buying Tanlac in carload lots I confess we were a little

bit skeptical. Although your campaign did not begin until February, 1917, from that time until this good day, Tanlac has been the greatest patent medicine seller we have ever handled or had anything to do with. In six months' time we bought and distributed eight

At the end of one year the Ministry of Justice is bound to make the divorce final if asked to do so by either party. The whole proceedings are very cheap, the cost ranging from five

shillings to five pounds. That couples do repent at leisure for parting, as they are said to do at marrying in haste, is proven by a case which, happened some time ago in Switzerland, where, as in Norway,

divorce is easy. A well-to-do Swiss farmer has reently married the same wife for the fourth time.

Something that gives color to this fact is the statement that the German army is still attached to the Emperor, proof of which is given in an article in the newspaper Vorwaerts, warded by them. It might be asked what effect such a martial display would have. The answer is that if the army is still attached to the Kaiser, now residing in Holland, and takes every opportunity of showing it, there is much more truth in the report that Wilhelm has not abdicated, than has been generally accepted. With the heads of the army loyal to the exile, there would be but little difficulty in getting the sympathy has been received.—"Left Grady 2.30 of the soldiers of the ranks, and p.m. yesterday going north. Admiral Von Reuter's statement that he had sunk the German ships at Scapa Flow, because he had been ordered by the Emperor not to let them fall into the hands of the enemy, is a clear indication that the officers of the German Navy held fast to their imperial allegiance and considered themselves bound by their obligations to the Kaiser rather than to the German Government of

the day. Other incidents too have occurred, which show that there is considerable sentiment in Germany favorable to the re-

turn of the Hohenzollerns, and the present rulers will have all that they can do to combat this, unless their provisional Government is but a subterfuge,—a warming pan merely for the Kaiser and his following, to be quietly removed when the time is ripe for the restoration of the all-highest.

Celebration Plans

Arranged.

A large number of ladies assembled at the Board of Trade rooms yesterday morning in answer to the call of the W.P.A. to discuss arrangements for the children's picnic on Tuesday Celebration, Lady Horwood presiding. "Rising" Articles.

During the past month or more, the demand for yeast and hops in our stores has increased to a wonderful extent, and the storekeepers are compelled to double and treble their orders to keep up stocks. One would naturally attribute this great demand for these articles in a prohibition town to the industrious house wife, who, prefers the home-made bread to the baker's article, but this is really not the case. The demand is caused by the necessity of these ingredients in the manufacture of the "real stingo," and notwithstanding the fact that very many of our heroes in the Great War have been promoted in the Army, yet, there is to be found in nearly every settle-ment many a "private still." Anyhow our grocers are doing a rushing trade in yeast and hops, and they appear to

WHEN YOU BUY A

Chevrolet 'Four-Ninety TOURING CAR

you purchase a fully equipped car at the very lowest price that any all-equipped up-to-date car sells for. The Chevrolet "490" has inbuilt the Auto-Lite Elec-

tric Starting and Lighting system. This same system is fitted to cars selling at twice the Chevrolet price. It is most reliable and simple in construction, and can be depended upon to crank efficiently for many years. Demountable rims is another up-to-date feature; with an extra rim for carrying a spare inflated tire

secured to a tire carrier at the rear of the car gives the motorist a feeling of relief in case of puncture. Another valuable feature is the One-Man Top. Apart from the ease in which one man can put up the top, it has another advantage over the ordinary type

by giving added refinement. Chevrolet "Four Nineties" are fitted with three speed gears forward and one reverse. The lower gears are only used for starting, because with the powerful Valve-in-Head Motor, very steep hills can be ascended with ease on top gear. The second gear has a speed of twenty miles per hour easily.

To insure absolute reliability the "490" has for standard equipment a Simms High Tension Magneto. This is independent altogether of the electrical starting and lighting system, and no matter what might go wrong, the car cannot fail to operate on the High Tension Magneto. Fuel economy and low cost of upkeep is the Chevro-

let slogan. 25 miles per gallon is the usual consumption. Chevrolets in St. John's are averaging this standard, and many are giving bigger mileage. Ask any of the many users in St. John's what they think of the Chev. and you will be told that it is the

best all round car that money will buy. Write for catalog or call at our Service Station and inspect one of the new models.

Officer and Plumbing Inspector submitted their weekly reports, which were discussed. On motion of Councillors Mullaly

and Brownrigg, it was ordered that the amount to the credit of the Small Homes' Account be used again for the same purpose.

After disposing of some routine business and passing pay rolls, bills, etc., the meeting adjourned.

Fads and Fashions.

The sweater blouse is one of the Parisienne's greatest joys. The sports coat may also be the suitable coat for motoring.

Directoire and Victorian styles are conspicuous in bracelets. Evening slippers are made of rich procades and metal cloths.

Motor veils almost envelope the entire figure, so huge are they. A large bow tie in polka dots is worn with a stiff, white blouse.

Colored Breton embroidery is used with water-blue Georgette. Many of the new autumn coats are topped with collars of squirrel.

Driving a Buick is the modern equivalent of riding behind a team of beautiful thoroughbred horses in an equally splendid carriage.

To be drawn by horses chosen for their quality in a carriage handsomely hand-painted and finished was to travel in the best of fashion and in the height of luxury.

To-day, the slow, uncertain horse has been replaced by the never-tiring, speedy motor car. But the thoroughbred qualities are to be found only by careful selection—selection of the kind which chooses the Buick.

Only in such circumstances can Japan's foreign and domestic policies be consistently directed, and the conflicts so frequently demonstrated of late cease. It is impossible efficiently to discharge the duties of State while the present conditions prevail. Either the Military Party must have a free hand, or the Government must rule. The confusion and embarrassnent under which the Japanese Government is labouring to-day can be directly traced to the conlict of aims and policies of the Militarists and the politicians. Can it be supposed that if the Japanese Premier instructed the Governor-General of Korea, when the Korean agitation was inaugurated, to adopt a policy of concilliation and to invite representations from a responsible delegation of the Koreans, Marshal Hasegawa would have carried out such behests? The Civil Head of Domestic Affiairs, Mr. Usami, assured the Missionaries at the conference instituted a list of their desires to the Government, this would be welcomed. HEINZE STARTING AND LIGHTING SYSTEMS FOR FORDS.

THE ONLY RELIABLE AND BUILT-IN STARTER MADE.

I have been using one on my own car for the past twelve months, both summer and winter, and can honestly say it has never failed me once. You have splendid bright lights for driving, dimmers for passing other cars, fitted with lock so you can leave car safely and no person can monkey with lights or starter. Having thoroughly tested the above and found it absolutely satisfactory, I can now offer it to the public with a guarantee of satisfaction.

Opportunities in Long-Term Bonds

Bonds maturing in 1919 or 1920 may now be sold advantageously, and the funds reinvested in longer term securities. The benefits of present high interest yield rates may thereby be secured for a period of ten years and longer.

We shall be glad to offer suggestions.
