### Green Bay Man Replies to Mr. W. B. Jennings.

Editor Evening Telegram.

Dear Sir.—In last evening's issue of the one time fishermen's organ, Mr. W. B. Jennings, Minister of Public Works takes exception to certain remarks made by Mr. W. D. Sainsbury at the mass meeting held in the C.L.B. Armoury on Wednesday night, wherein the latter gentleman stated that some people in Green Bay last winter had to live on salt herring and spruce tea. Mr. Sainsbury did make that allegation, and with, I presume, as much knowledge of existing conditions as Mr. Jennings professes to possess. That worthy gentleman whose only metier is a knowledge of the cubic contents of bundles of "splices" for government institutions is a poor sort of defender of the political faith of the party with which he is associated. As an exponent of conditions as they are to-day, let me ask if Mr. Jennings would be man enough to surrender the fat salary he is receiving for a position which neither nature or ability ever qualified him, and go back to the original days, with which he was so well acquainted before political fortune threw its mantle over him and numbered him with the elect. One might ask what Mr. Jennings knows of Green Bay generally though that district has had the misfortune to be represented by him for some years—but never again. The Government flesh pots appeal more to the cupidity of the present Minister of Public Works than the daily necessities of those whom he has the privilege to misrepresent. Family connections in public offices do not constitute all that is expected of a member of the House of Assembly and head of a department, even though the menu has changed from salt herring and spruce tea to broiled sole, etc.

Yours truly,  
ONE FROM GREEN BAY.

### Mae Edwards Players Coming to Opera House Next Week.

"The Moth" chosen as the opening play for Miss Edwards and her splendid company, has surely proven an irresistible vehicle to ever increasing numbers of amusement seekers. Few stock companies have established the reputation which Miss Edwards and her associate players are enjoying throughout the New England States. Their name is a guarantee of more than average histrionic ability, and they never fail to justify anticipation. In "The Moth" there is ample room for clever acting and each and every member will be seen to the very best advantage. Miss Edwards is supported by Jack Werner Corbin and a splendid cast with Mal Murray and Miss Gertrude Riggs in the comedy roles.

The usual high class vaudeville between the acts will be greatly benefited by the Mae Edwards Novelty Orchestra under the direction of "Bill" Otis.

The Mae Edwards Players have been termed for years "The Big Fun Show," and this season finds this attraction hitting on all, and is far in advance of all competitors.

### Bay of Islands Herring Fishery.

(Western Star.)

The motor vessel Gaspé, Capt Wallace Parsons, arrived from Gloucester last week, and after discharging at Woods Island, she proceeded to North Arm where she is loading salt bulk herring.

The schr. Louise Silver, arrived at Woods Island on Monday. She proceeded to North Arm where she will load salt bulk herring for Gloucester.

There are five vessels in Bay of Islands at present for herring cargoes.

At North Arm herring have been plentiful the past week.

On Monday there were big catches of herring at Middle Arm.

Owing to the storm of Friday many of the fishermen in Middle Arm were unable to haul their nets.

Saturday's herring catches in Middle Arm ranged from twenty-four tubs to thirty-five tubs for a boat.

### Swedish Auto Tax Will Build Better Roads.

STOCKHOLM.—Swedish motorists will begin to pay taxes on their vehicles and tires on January 1, 1923. Tourists from foreign countries, however, may still bring their own cars into the country and roam about at will for as much as twelve months without any charge whatsoever. The new auto tax, which is to be applied to the repairing and improvements of roads in Sweden, is levied on cars and tires according to their weight. Each car using rubber tires is taxed a kronor for every hundred kilograms of fraction thereof, which amounts to about \$1 per hundred pounds. The tires are taxed 1.50 kronor for every kilogram of weight. Tires in use at the beginning of next year will be exempt, and in the case of pneumatic tires, two extras will be exempt.

### English Women Advised to Smoke Pipes.

LONDON.—English physicians are urging women who are addicted to smoking, to use a pipe and good tobacco instead of the cigarette. The doctors point out that the nicotine found in the cheaper brands of cigarettes is much more injurious to women than to men, and they declare that the perfumes and scents used in brands prepared for the fair sex also are injurious. Two recent deaths of women have been attributed directly to cigarette smoking. While these cases have been due to excessive smoking, the physicians say that the same amount of pipe smoking probably would not have had fatal results. Smoking among women in London is now almost universal, and one rarely goes to a theatre, dance or restaurant where the majority of the women present are not smoking. Recently two

### Bank Employee Buys Woman.

Mrs. Ruth Scharnhorn, 23, a widow who recently offered to sell herself to any man for \$5,000, that she might obtain expert medical treatment for her nerve centers, paralyzed when her husband shot her three years ago, has announced that she had accepted an offer from a Chicago bank employee. The Chicagoan, who she says, is George Rogers, 40, has offered \$5,000 to her and gives her a year to regain her strength before being married to him.

## British Election Results.

### Conservatives Have Clear Majority Over All Parties--Laborism Increases; Liberalism Declines--Georgian Party Wiped Out.

THE FIGHT IS OVER.

LONDON, Nov. 16.

The fiercest and most dramatic election since the Premier Lloyd George and Sir James Younger has for the time being won the chairmanship of the Conservative party. Younger and his supporters staked their political fortunes at the famous Carlton Club meeting which smashed the Coalition and set Lloyd George into the wilderness on the conviction that the Premier was ripe for return to straight politics and in the firm belief that the nation would send the Conservatives to the Commons with a clear majority. Their confidence has been amply justified and Wednesday's return of a Parliament with all the same preponderance of Conservatives as the last Parliament elected in 1918 on a wave of grateful enthusiasm to Lloyd George as "the savior of the war." In the new Parliament Premier Bonar Law will command a majority over all parties combined of approximately eighty. While not so properly described as a landslide, as the Conservatives at the time of the dissolution of parliament counted about 750, it amounts, considering the peculiar circumstances of the time and the high hopes held by Labor and Liberal parties of the day, to a country to progressive change of the same thing, and it may be supposed by the Conservatives themselves hardly expected such favorable results. It means a Parliament with little chance, except that Bonar Law replaces Lloyd George. The result of Lloyd George is the outstanding feature of the elections. The Liberal vote at the dissolution of parliament numbered 129 and in the new parliament will number 44. There will be 100 seats among the Premier's party that he failed to take the vote of some of his well-wishers before the time entirely from the political stage. The Asquithian vote rose from 24 in the old parliament to 62 in the new, but did not do so well as they expected. On the other hand although Labor failed to get the high hopes the party entertained at the dissolution it did exceed expectations well, rising from 75 to 135.

### THE FORTUNATE AND UNFORTUNATE.

LONDON, Nov. 16.

The successful candidates in Wednesday's elections included J. H. Thomas, Labor, for Derby; Mrs. Margaret Wintringham, South Division of Lincolnshire, the second woman to be elected, the first being Lady Astor; Austen Chamberlain, by a majority over the Labor candidate in Birmingham; Major John Jacob Astor, Conservative, son of the late Viscount Astor, Dover Division, Kent; Sir Robert Sanders, Minister of Agriculture, Bridgewater Division, Somerset; Postmaster General Neville Chamberlain, Lincolnshire, Birmingham; C. S. Amery First Lord of the Admiralty, Scarborough Division, Birmingham;

**British Ducks Miss Their Tot of Rum.**

LONDON.—A flock of ducks was presented recently by Emmanuel College to the Cambridge University Botanic Gardens. After a few days sojourn in their new home the birds began to lose their liveliness. They strolled about in a listless manner, refusing to be gladdened even by the appearance of their keeper with a supply of food. Finally the veterinarian administered some liquor to the birds. The effect was remarkable. They resumed their quacking, and began flying about in a most glib manner. The Emmanuel ducks have for some time had a reputation for inebriety. They had inhabited an old-world garden, two sides of which are overlooked by the student rooms, and it has been a favorite sport of the undergraduates to feed them from their windows with cake or bread soaked with alcohol.

**Held Child Prisoner For Five Years.**

The pitiful story of two years spent as a prisoner in a cellar while her brothers and sisters danced above, was told last week by Mary Devine, 19-year-old Bohemian girl, of Chicago. She was confined by her parents because she was mentally subnormal. Mary was rescued by police after she fled from her dark cell to a neighbor's woodshed. The girl speaks only a few words of English, and the authorities had difficulty in getting her story. "My mother didn't like me," Mary told Policewoman Florence Van Amber. "I spent almost all the time in the cellar. Once in a while, when my mother was sure there would be no visitors, she would make me scrub floors. I carried coal and chopped wood. My bed was a tumbledown cot, and chickens and ducks slept with me." Mary is small, and does not look any older than 12. Physicians said her mind was that of a 12-year-old. "I remember last Christmas," she said, "I was crocheting in my cot. I spent most of the time crocheting. As I worked, I could hear my brothers and sisters making merry, and dancing overhead." She had not bathed since her imprisonment. Her clothes consisted only of a few rags. She was barefooted. Her emaciated body was covered with bruises. "Mother beat me nearly every day," she explained. Mary's parents were arrested on a charge of disorderly conduct. However, the State Attorney's office is conducting an investigation, and additional charges will be filed.

**Holidays in Russia Provide Excuse for Drinking.**

RIGA.—M. Semashko, the Soviet Commissioner of Health, has issued a plea for the moderation of drinking in Russia, particularly among the peasant class, according to information reaching Riga. "In Russia the real subject for discussion should be drunkenness," he says, "not a moderate consumption of spirits, as is known in Europe, but the sporadic drinking of very great quantities of strong liquor." The Commissioner places the blame for present conditions partly on religious customs, which provide the people with a great number of festivals as an excuse for drinking, and partly on the bourgeoisie, who drive the poor man to drunkenness, he says. He does not advocate total abstinence, but urges the state to adopt moderation measures. Other information on this same subject sets forth that the Tsarist government has decided to reintroduce, as a state monopoly, the sale of vodka containing 38 per cent. alcohol. The fight against illicit distilling in Tomsk does not appear to have been successful, as the people are in sympathy with the "moonshiners."

**King of Spain is "Some Dresser."**

The King of Spain is the most elaborately and expensively attired monarch in Europe. It is doubtful if the youthful monarch has ever been seen more than half a dozen times in the same suit, and it is certain that there are many suits in which he has been seen but once or twice. The King of Spain keeps from a hundred to a hundred and fifty suits in the royal wardrobe, and buys on an average a hundred suits a year. His Majesty's bills to his tailor alone average £1,500 a year, of which sum London tailors get a good share. There is no monarch who is so punctilious about being dressed in the extreme of fashion as his Spanish Majesty. King Alphonse, the son of which has become the least out of date, is at once put out of the royal wardrobe, though it may have been worn by the King but once, or possibly not worn at all. He has not any particular fancy for any material (except, perhaps, a striped flannel for summer wear) so far as the pattern of it goes. He appears equally often in light-colored clothes of different patterns, but he never wears a heavy material of any sort. His Majesty has a particular liking for fancy waistcoats. He buys dozens of them, and pays from three to five guineas apiece for them.

**Commercial Bowling League.**

**STAGES DOUBLE HEADER.**

The series of games of the Commercial Bowling League was continued in the Grenfell Institute Wednesday night when a double header was staged between Bairds vs. Royal Stores, and the Post Office vs. Knowlings. A large attendance of enthusiasts of the five pins witnessed a clever exhibition of play by all four clubs. The highest scores of the evening was Mr. J. Raines of the Post Office team, who was credited with a score of 414. The Post Office won the first game by two sets to one, while the Royal Stores proved too strong an aggregation for the Bairds' four, winning out by three sets to their opponent's nil. The following are the individual scores as per set:—

**Indians Have Turkish Baths.**  
 CALIFORNIA TRIBES KEEP UP CUSTOMS OF THEIR ANCESTORS.  
 The surprising information that Indians have Turkish baths has been brought out by Victor A. Ulrich, an investigator of Indian customs in California. Photographs which he has secured prove his contention and illustrate these interesting and unique types of construction, are used. One consists of a sort of dugout on the side of a hill, over and in front of which is a framework covered with animal or other available cloth. The man goes inside this small enclosure, taking with him a number of stones which have been previously heated in a fire.  
 Water is then poured on the stones and steam forms inside the almost airtight room the Indian has built. From time to time other Indians bring him more hot stones and more water until he decides he has "steamed" long enough. He then emerges and, according to the investigator, plunges in a cold mountain stream to cool off.  
 The other type of Turkish bath consists of a framework built out in the open and utilized in the same way. Originally boughs and leaves were used as covering, but the modern Indian finds a discarded awning more convenient.  
 Modern day civilization will no doubt be surprised to learn that even the Turkish bath was known to the primitive Indian of early America and that his successor still keeps it up, taking his Turkish bath under an old awning, while his city-dwelling contemporary enjoys his amid spotless tile and comfortable divans—Scientific American.

**Dangers of Deforestation**  
 When by reckless tree-cutting the forest cover is removed from hills and mountains, nothing is left to hold the rain—no layer of living roots, mosses or other vegetable growths mixed with decaying leaves, to act as a sponge and retain the moisture. Thereafter, in consequence, the rainfall runs up in torrents, and the streams to which it should afford a regulated supply throughout the year are flooded in winter and dried up in summer. Incidentally, the soil is washed away and the hillsides, once beautiful with fresh

### C.L.B. Cadets.

**EXHIBITION LARGELY ATTENDED**  
 The C.L.B. Cadets had a record attendance at the Exhibition held in the Armoury last night. His Excellency the Administrator and Lady Horwood were present and occupied seats especially reserved in the gymnasium. The programme opened with a selection by the Band, which was well received. Following came an exhibition by the camp squad. This illustrated a day at Topsail. Tents were erected near the eastern end of the Armoury, where the lads went through the whole routine of camp life from Reveille till Last Post, no detail being omitted. The Girl Guides of Spencer College under Captain Nash, gave a very excellent exhibition, their items including old English country dances and Swedish folk dances, all of which brought forth an encore. Miss Paris presided at the piano during the dances. The Boy Scouts exhibition consisted of sending messages with the Morse lamp, and by means of flags. Parallel and pyramid exhibitions were given by the Athletic Association and were well executed. Dr. V. P. Burke and Mr. H. E. Cowan addressed the Brigade on behalf of the Rotary Club, and their Survey of boy life. They said that from the papers received to date citizens spoke in eulogistic terms of the work of the C.L.B. The final games for the Ping Pong championship which was the eighth item of the programme created a great

lot of interest. The finals were between Mr. R. B. Job's team and the Dunfield Boys' Club. It resulted in a win for the latter by a small margin. Mr. Job's team consisted of Messrs. Eric Bowring, Angus Reid and R. B. Job, while the winning team were Messrs. A. Knight, E. Wood, J. Nicholls. The Brigade Band rendered an enjoyable programme, afterwards playing at the dance that was held in the gymnasium.

### Negro Girl Tied to Railway Tracks.

Nora Moore, a 17-year-old negro girl from Philadelphia, who was found tied to the Pennsylvania Railroad tracks near Woodland on Oct. 31, recovered consciousness the next day and told the authorities that her mother had sold her to a white man, who brought her to Clearfield.  
 "He gave me something to drink yesterday—and that's all I remember," said the girl. "The girl told the sheriff she did not know the man's name. Frank Gillard found the unconscious girl on the tracks a few minutes before a Pennsylvania passenger train was due to pass. Gillard declared that the victim's arms and legs were bound and that the ropes were attached to the rails."

Its magnificent temples and, places, and its subtle atmosphere of ever-present mystery has held a dominant fascination for the civilized world.  
 The great British protectorate which Kipling immortalized has been portrayed with fidelity by Louis Joseph Vance, in "The Bronze Bell," the latest Paramount-Ince special, which will be featured at the Majestic Theatre today.  
 In his novel, Mr. Vance combined with exceptional literary skill stirring dramatic situations, a pleasing love story, and vivid, spectacular action. In the screen production, Thomas H. Ince has enhanced the interest and power of the drama by striking scenic achievements and the superior cast which he has chosen to portray the leading roles. Courtenay Foote and Doris May head the cast.

The Whine of The Muse.

For the second time within a week the United Fishermen's Committee have been obliged to call upon the honorable editor of the Advocate, and take him to task for his daily misrepresentation of their aims and abuse of their chosen adviser. The last call, made on Wednesday, was concluded with a caution that unless the Advocate adopted a new course, and steered by it consistently, there would be a reckoning made. Of course our friend hedged, and made the usual whine of the muse. Is the movement not a party one, he asked, when Mr. A. B. Morine is identified with it? And again the puerility of argument was demonstrated by the excuse that the Advocate had to reply to the Telegram. If in its replies to our criticisms of its conduct of present day affairs, our contemporary would but confine itself to the essence of the subject under discussion, no harm outside an exchange of journalistic amenities could arise, but when in its efforts to resurrect the dead and bring them into the discussion, then the Advocate goes beyond the realms of decent argument, and becomes merely a literary ghoul. The Carvell episode in the Canadian House of Commons has no bearing on the issues of to-day, so far as the fishermen are concerned; neither have the open letters of dead and gone politicians any connection with the fishermen's demand for a reduction of taxation. But all are seized upon by the Advocate, because by them and their republication, he sees, with short range of vision, an opportunity of bedeviling and defaming the one man in Nfld. who has it and its master scared stiff, and they would hesitate at nothing if his downfall could be precipitated. That is the sole reason. Honest arguments are thrown aside. Back files of Canadian papers are copiously quoted, but does our esteemed friend not know that a saw can cut both ways. Back files are dangerous things to handle incautiously. The Advocate may often be quoted against itself. But our chivalrous brother, with that courage which is so characteristic of him, prefers to stab with other weapons than those forged by his own hands. The fishermen, however, are wise to his motives. His protests that he is their only friend do not go down so easily as they were swallowed in earlier days. Their dual call on him officially instances that. The hundreds of men who are in St. John's at the moment have many amongst them who were one-time members of the Fishermen's Protective Union, and are to-day, and if they were left to themselves in their conduct of its affairs, would bring out of it a much better organization than it is, or ever will be while Czarism is maintained and permitted to dominate its councils. Mr. Coaker errs, the Advocate errs, the Ministry errs, if each and all retain the impression that the fishermen are going to be beguiled any longer by their specious and empty promises. If testimony to the contrary is needed, look upon Monday

night's meeting in the Majestic Theatre; witness Wednesday night's assembly in the C.L.B. Armoury. The men who massed at these gatherings are not of the timbre to be bluffed by the Advocate's ravings and half-truths. They have a work to accomplish, and their business in St. John's is to successfully see that work through ere they leave for home. A new day has dawned. It needed these meetings to bring about the fusion of the ideas of the supplier and the fishermen; to cement them closer together that they may perform something for the common good, not only for the present but for the future. The aim of the Advocate and its scribblers is to drive a wedge between the two classes, but happily that has been frustrated, and we find that there will be more cohesion and similarity of purpose between these men that could have been brought about in no other way than by the methods engaged.

Schooner Arkona Refloated.

LIBELS SCHR. KATHERINE A. MOULTON FOR DAMAGES. The Newfoundland schooner Arkona which went ashore near Lettichs Creek during the big gale of two weeks ago, has been refloated. She is now at Salter's wharf, North Sydney, waiting for her turn on the marine slip. When the schooner ran ashore she carried away her bowsprit and ripped her rudder. Two feet of her keel had been broken away and the shoe torn off. The Arkona went ashore after collision with the schooner Katherine A. Moulton. The schooner is libelling the Katherine A. Moulton for \$4,500 damages.—Sydney Post.

Engineers for Humber.

WILL SURVEY PROPERTY AND RETURN TO ENGLAND TO PRESENT REPORT. Among the passengers sailing on the S.S. Kyle on Saturday night for Port aux Basques, says the Sydney Herald of Nov. 13, was a party of 10 engineers en route from London, England, to the Humbermouth, to make a complete survey of the property, where the Armstrong-Whitworth Company is proposing erecting a large pulp and paper hydro-electric plant. The engineers will survey the land in the vicinity of Grand Lake and Deer Lake and at the Humbermouth, where the shipping base is to be established. According to P. Tod, who is in charge of the party, the work will be completed within two weeks and the party will then return to London to submit their report. Those in the party were Robert P. Tod, A. G. Russell, E. C. Stus, D. Humphries and F. J. Wheelan, London; D. Owen Jones, Wyles; J. P. Frewell, St. John's, Newfoundland; J. W. Stewart, Vancouver; L. Jacobs and J. Lallen, Montreal.

Poppy Day Receipts.

In connection with Poppy Day, the sum of \$123.42 has been received from Mr. Grace; \$85.32 from Grand Bank; and \$22.80 from Brigus. There are still some places to be heard from and these amounts will be in to-day or tomorrow, when the total will be known.

Shipping Transfer.

WELL KNOWN BANKER SOLD. The Lunenburg knockabout schooner Alcala, well known in North Sydney, has been sold to American interests. It is understood that she will be withdrawn from the fishing banks. The Alcala, sailed by Captain Roland Knickie, finished third in the Nova Scotia schooner races of 1920 and 1921. She is recognized as the fastest Nova Scotia specimen of her type.

C. L. Association.

SALE OF WORK CONCLUDES. The Columbus Ladies sale of work held in the K. of C. Memorial School concluded last night with an auction sale. Large numbers attended the sale during the evening and the stalls which had been replenished after the opening day's sale, were practically cleared by six o'clock at which hour high teas were served. This year's sale has been in every way as successful as last year's and the ladies who worked so diligently are to be congratulated.

The George Street Mission Circle will hold their Annual Sale and Teas on Wednesday, November 22nd, in the Basement of the Church. Afternoon Tea from 4 to 6. Meat Teas from 6 to 8. A splendid Concert commencing at 8 o'clock has been arranged. A good time is assured all who attend.—nov17,11

Meeting the Executive

ANSWER EXPECTED THIS AFTERNOON. The delegates of the United Fishermen movement are meeting the Executive Government at 2 p.m. to-day, by appointment, to receive an answer to the request for the removal of the Export Tax on Codfish.

Sapper Reaches Disabled Ship.

STRONG S.W. WINDS PREVAILING. Mr. J. W. N. Johnstone received a message last night from Capt. Bloum of the Canadian Sapper, stating that the ship was making good headway toward the disabled S.S. Canadian Seligneur. The Captain reported strong S.W. winds. A further message received this morning stated that the Sapper had arrived alongside at midnight and was awaiting daylight to get a towline connected. The position of the Seligneur is given as being in latitude 51.59 North; longitude 46.15 West. The Sapper before leaving here was bunkered with the best steam coal obtainable, and with the Meigs steering the rudderless ship, should make quick progress to port.

Motor Car on Fire.

THIS MORNING'S ALARM. The Central fire company responded to an alarm of fire this morning of a rather unusual character. The alarm was rung in from Box 26, near the foot of Bate's Hill, and when the firemen reached the scene they found a motor car owned by the Rvd Taxi Co. in a blaze. It appears that the engine overheated, with the consequence that oil and grease around the parts burst into flames. A few applications of the chemical did the needful. The engine was badly damaged and the car had to be towed to the Company's garage, Prescott St.

McMurdo's Store News.

FRIDAY, Nov. 17. We note to-day two fine toilet soaps both of which have been asked for more than once lately. Colgate's Florida Soap needs no introduction to those who need a specially fine toilet soap. They have probably used it, or at least know of it. Price 90c a cake; box of three cakes \$2.50. Nearly everybody knows something of Hind's Hony and Almond Cream; the soap is not so well known, but we have lately imported what we believe to be the first that has come to this country. We think it will be popular. Price 50c a cake. Do not forget that we have a new lot of Vivandous' Specialties just in.

Personal.

Mrs. W. R. Warren, wife of Hon. W. R. Warren, Minister of Justice, arrived by yesterday's express from England. Mrs. Warren came across by the Empress of France to Quebec and was accompanied by her husband, who has gone to Montreal, where he awaits the arrival from the Old Country of the Prime Minister. The latter, it is understood, is leaving England on Saturday week.

Coastal Boats.

REIDS. Home leaving Lewisporte to-day. Kyle arrived at Port aux Basques 11 a.m. Sagona due Flower's Cove from north. Aryle no report since leaving Epworth on the 15th. Clyde leaving Lewisporte to-day. Glencoe leaving Argenta to-day. Malakoff arrived at Princeton 8.55 p.m. yesterday outward.

GOVERNMENT.

S.S. Prospero left St. Anthony 7 a.m. this morning, going north. S.S. Portia will be leaving for Westward to-morrow morning at 10 o'clock. S.S. Senef arrived from Labrador at 11 o'clock this morning.

Express Passengers.

S. S. Kyle, Capt. Stevenson, was delayed five hours on the trip from North Sydney to Port aux Basques this morning, having arrived at her destination at 1 o'clock. Head winds and heavy seas were met with coming across Cabot Strait. The following passengers arrived by the ship and are now on the incoming express due in the city to-morrow afternoon: C. T. and Mrs. Smith, M. and Mrs. Murray, J. Cobbin, B. Crawford, C. Pickney, Miss G. Riggs, K. Lambert, J. Ryan, T. Farrell, Mrs. J. Meade, Mrs. N. J. Cahill, O. Lechebailier, Mrs. M. Bernady, Dr. M. W. Cousias, P. J. Tobia.

Train Notes.

The Tropaneasy train went out at 11.30 to-day. Yesterday's west bound express made a good run to Bishop's Falls. The local arrived at 1 p.m. The incoming express will arrive late to-morrow afternoon.

Getting Down to Nature.

Medical certificates would be required from all members of the Episcopal Church who marry in Chicago, under the terms of a resolution adopted at a recent meeting of the rectors of the diocese. The resolution also provides that problems of sex be taught in Episcopal Sunday schools.

Magistrate's Court.

The two stayaways who were remanded to the penitentiary last week on the charge of hiding away on the S.S. Silvia a few trips ago, came up for hearing this morning. Capt. Mitchell of the S.S. Silvia was called and testified they accused before the bar, and related how they were found on board, and upon the arrival of the ship in Halifax, stated how he passed them over to the Immigration Authorities. The youths being convicted were each fined \$24 or 30 days, the sentence to date from the day they were remanded.

Basket Ball players in the Dominion Sports will meet in the Prince's Rink to-night at 9 o'clock to make final arrangements.—nov17,11

S.S. Senef Arrives.

EXPERIENCED HEAVY GALES. S.S. Senef, Capt. George Barbour, arrived in port at 11 o'clock this morning, having made all ports of call, going as far North as Rigolet. Coming south the ship met the full force of a heavy gale. High winds, raging seas and snow storms were encountered with for several days. The passage occupied only 8 days. The Captain reported that a schooner, owned by Capt. Moses Young, and having a crew of 28 on board, was wrecked at Dombo from which place they were taken and brought to Mr. Grace. The crew of the Schr. Mary Mac wrecked at Battle Hr. was also brought to their homes. The schooner, which was loaded with fish became a total loss, and the crew did not have time to save any of their personal belongings. The Marconi men of the various stations have closed up for the winter, and were passengers south.

LATE SPEAKER WILL HOLD OFFICE.

LONDON, Nov. 17. The House of Commons will meet on Monday afternoon to elect a Speaker, and it is considered certain that the late Speaker, Right Hon. John Henry Whitley, will be re-elected. Tuesday and Wednesday will be devoted to swearing in of new members, and reading the formal proclamation of the King, which will take place on Thursday.

WINSTON FALLS IN DUNDEE.

LONDON, Nov. 17. British voters, casting off the influence of tradition, sprang many amazing developments, not the least being the defeat of Winston Spencer Churchill in Dundee. Laws Majority so large that Lloyd George can hope for little comfort, even from those conservatives who supported him at the Carlton Club, and the problem now is what can Lloyd George do to restore his prestige? Labor gains constitute a new menace, and it is possible that Lloyd George and Asquith may both join forces with the Conservatives against Labor. Six hundred and seven out of the total constituencies give the following standing: Conservatives 345, Labor 141, Liberals 62, Georgians 44, Others 15.

S.S. Harmony Arrives.

BROUGHT MIXED CARGO. The Moravian Mission ship Harmony, Capt. Jackson, arrived from Labrador yesterday afternoon. The ship experienced fine weather south until Wednesday, when head winds were encountered until noon was reached. The ship brought a cargo of fish, and after discharging she will return to London for the winter. Amongst the six passengers that arrived was Bishop Martin and his wife of the Moravian Mission, who are en route to their home in England.

TO-DAY'S MESSAGES.

'TOO LITTLE AND TOO MUCH. BERLIN, Nov. 17. Wm. Cuno, Director of the Hamburg American Steamship Line, was commissioned by President Ebert, yesterday, to constitute a new cabinet, and immediately Herr Cuno got into informal touch with party leaders for the purpose of ascertaining their attitude toward supporting a cabinet of work. This will comprise members of the Middle and Socialist parties, but will not have any outspoken partisan complexion.

MORE SHOCKS. SANTIAGO, Nov. 17. Earth shocks in the afflicted zone still continue. Copiapo reports three strong shocks, which shook down a number of ruined walls, and caused panic among the residents.

IS IT INSPIRED? LAUSANNE, Nov. 17. Great Britain has nothing to do with the Caliphate in the opinion of Indian Mohammedans, and should not interfere with the Ankara Government in its handling of religious matters. This is the contention set down in a telegram forwarded Bonar Law by a committee of the Caliphate at Bombay. Mussulmans of India, it states, sharply resent the efforts of the British Govt. to prevent the Ankara Govt. from handling freely the questions of Caliphates, on which the Turkish Nationalist Assembly has delegated to itself judicial powers, and represents the point of view of the Islamic world. Real independence for Egypt and the Sudan, with evacuation of British troops, and no special privileges there for Great Britain, is the demand of the Egyptian people, which will be placed before the Lausanne Conference.

ber, Mrs. Alice Anderson was found not guilty of the murder of John M. Anderson, former judge of the Criminal Court of Raleigh County. The jury was composed of eight white men and four negroes. The plea was self defence, and witnesses said the former judge has been known to threaten his wife to beat her.

MORE PEACE MACHINERY. LONDON, Nov. 17. Foreign Sec'y, Lord Curzon, leaves for Paris to-day, to consult Poincaré on policies to be pursued at Lausanne. It is possible both will proceed to Lausanne in time for a pre-conference with Mussolini of Italy.

INSANE ASYLUM ON FIRE. QUEBEC, Nov. 17. Eauport Insane Asylum, the largest of its kind in Canada is ablaze, the fire starting in a workshop, and threatening the entire building.

Takes Over German Shipyards. DANZIG.—The great shipbuilding works and railway shops at Danzig, formerly belonging to the German Government, have been turned over to an international company under a fifty years concession. This was the expedient determined upon by the English, French and Italian Commission appointed by the Council of Ambassadors in Paris to settle the contention between the government of Poland and the municipality of Danzig as to who should have these works. Thirty per cent of the shares of the international company has been taken by Craven's Company, of England; thirty per cent by the Societe Batignolles of France, and the remaining forty per cent by a group of Danzig and Warsaw banks. The board consists of three Englishmen, three Frenchmen, two Poles and two citizens of Danzig. The first business of the new company will be the assembling of 7,000 freight cars recently imported by Poland from America.

## Just Folks.

By EDGAR A. GUEST.

**GOOD ENOUGH.**  
My son, beware of "good enough." It isn't made of sterling stuff; it's something any man can do. It marks the man from the few, it has no merit to the eye, it's something any man can buy. Its name is but a sham and bluff, for it is never "good enough."

With "good enough" the shirkers stop in every factory and shop. With "good enough" the failures rest And lose to men who give their best. With "good enough" the car breaks down. And men fall short of high renown; My son, remember and be wise. In "good enough" disaster lies.

With "good enough" was ships only wrecked. The forward march of armies checked. Great buildings burned and fortunes lost.

Never can the world compute the cost In life and money it has paid. Because at "good enough" men stayed. Who stops at "good enough" shall find Success, has left him far behind.

There is no "good enough" that's short Of what you can do and you ought; The way which may escape the eye And temporarily get by. Shall weaken underneath the strain And wreck the ship or car or train. For this is true of men and stuff—Only the best is "good enough."

## Salvage Notes.

Messrs. Henry James and Edward Oldford of Salvage, who had been making their annual autumnal visit to the metropolis, returned home via Alexander Bay on Monday.

All our schooners are back from St. John's. No "cruising" wood is the next and last schooner work for the season.

We were very pleased indeed to see Mr. P. J. Humphries for a few hours recently. Mr. Humphries, who was teaching at Salvage Bay last year, is now in charge of Pool's Island School, but he felt that the little bit of business gave him a convenient and ready excuse to visit his old friends. A pleasant winter.

Mr. Benjamin Squires, our genial postal operator, is spending the week in the office at Alexander Bay. Miss V. Quinton is manager of the Salvage office pro tem.

One always feels regret—more or less—when we hear of our neighbors moving away to pastures new. Salvage and Bishop's Hr. present and has presented for the past few years a slow but sure modern exodus. Mention has already been made in a former article of Mr. J. F. Lane and family gone to Grand Falls. Now in addition we must chronicle the speedy departure of Mr. and Mrs. Lawrence Oldford of Bishop's Hr. to New York.

Mr. Edward Brown and family of Bishop's Hr. have moved to Goose Bay for the winter, expecting to return to the old spot sometime in the early spring. Still another family leaves us very soon. Mr. J. Brown and family of Bishop's Hr. are removing to Port Union, where Mr. Brown has secured employment.

Messrs. Eric Dyke, C. Stead, Rouben Dyke and Charles Oldford are expected to leave for various parts of the U.S.A. between now and the end of last week.

To one and all of the foregoing we extend our hearty congratulations and extend the sincerest wishes for their progress and success in the new venture they are about to take.

For the first time in many years Little Harbor will be void of inhabitants. Two families, Messrs. John and Eli Hancock have settled in Salvage, for the winter at least; the other brother Joseph has moved with his wife and family to Boston, expecting to make their permanent abode in the land of Uncle Sam.

Bonfire night has come and gone, and with it has gone the old time rustic. In our few years of experience memory is ripe with the exhilarating times we used to have on November 5th. Now everything seems utterly different, and there is rarely a "bar-barrel" to flare the beacon lights. Some of the early pastimes of W.J. L.'s life should prove abundant in anecdotes and escapades, pleasant even if regretful—regret for past pleasures to many younger readers.

**Municipal Council**  
**WEEKLY MEETING.**  
The weekly meeting of the Municipal Council was held yesterday afternoon at 7 o'clock. Mayor Cook presided and Messrs. Martin, Outerbridge, Colquhoun and Dowden were present. The Minutes of the last meeting were read and confirmed, the following matters received the attention of the Board:  
The Secretary of the St. John's Gaslight and Power Company, Ltd., stated that the lights ordered for the annex at Goodridge Street, etc., would be installed this season, and would be given attention next week.  
The St. John's Gaslight Company stated that owing to the Council's notice in making proper provision for the surface water from the annex, considerable damage during the heavy rainstorms. The engineer decided that there was any no-thing on the part of the employees, the gullies and drains were given particular attention during rainstorms by the Road Department.  
Inspector Barker of the S.P.C.A. drew attention to the danger to vehicles existing at the junction of LeMarchant and Mundy Ponds near St. Clare's Home, owing to the "blind corners" of late several accidents have occurred here, and he stated that the Council could not see any way clear to arranging for the removal of the traffic existing at the junction of Signal Hill Road were polluting the water in the horse troughs, gullies, etc., in same. The matter was left in the hands of the City Clerk, who is to arrange with the owners of the property for the appropriation of the portion required for the latter, the removal of the parties responsible for the legal proceedings may be taken.  
Communication was read from Mr. J. B. Reid asking that the city water supply be extended to his residence, 1000 Bridge Road. This was referred to the City Engineer for consideration.  
Inspector General Hutchings forwarded a report from the District Inspector regarding building used by the Agencies, Limited, as a boiler oil purifying plant. The Engineer also submitted a report from the Department regarding same, which was forwarded to the Inspector General.  
The following tenders to repair and maintain wall, Henry Street—Coady, Whittle & Cochrane, Horgan and Koseworthy, Mulligan & Horgan, H. Young and G. Steele. The tender of Mr. M. Coady was accepted as being the lowest.  
The liquidators of the Newfoundland Furniture and Bedding Company stated that a reduction be made in the amount of the stock in exchange, which is at present in excess of the stock carried. As the valuation referred to was recorded by the Court of revision, the Council was unable to make any alterations.  
A communication was read from Messrs. Job Bros. Ltd., re the purchase of a recording water gauge. The Council is not in need of same at present.  
Attention was called to the need of more potholes at premises of Messrs. A. R. & Sons, and Harvey & Co., Water Street, filled. It was ordered that this work be done.  
The following plans were passed, subject to the approval of the City Engineer: W. Cummings (extension of dwelling), LeMarchant Road; Mrs. M. Jones (alterations to dwellings), Blackworth Street; W. H. Rehnie, Water Avenue; Messrs. Blackler & Wallace (extension), New Gower Street.  
The Rev. Mr. Johnson addressed the Board in relation to the present sanitary condition of the Battery. He stated that as the residents have means at their disposal for deterring garbage, night-soil, etc., same thrown over the embankment, and a result conditions around the Battery are anything but sanitary and are a menace to the health of the school-children. He asked if the Council could see their way clear to placing a hopper in the locality and lay about 200 or 300 feet of sewer pipe, which would remedy the present state of affairs. He also spoke of the offer made by the Council some time ago and to residents of the Battery, the sum of \$500.00 and thought if the Council would heed the Council are willing to spend it on the suggestions made to him, the amount would be sufficient to effect this very necessary improvement. The Rev. gentleman was supported by the Board of their will to do as much as possible for the people living in this part of the city, and they instructed the Engineer to go into the matter and see what can be done with a view to it, while falling in line with the suggestions offered by Rev. Mr. Johnson. The Council works on an application was made by Mr. Miller, who during the past months is employed as a constable at Bannerman Park, asking that an open air station be built during the coming season. This application met with the approval of the Council and also the Council. The site will be selected by the Park Commission.

### Coaker's Orator Gets Cold Shoulder.

Editor Evening Telegram  
Dear Sir:—We had the Rev. Mr. Boone down here about the 8th of the month, and he spoke at a public meeting. He got the schoolroom from Parson Pitt for \$2.00, after refusing to pay \$5.00, and there was a good crowd to hear him. He started to tell us how hard he had worked at fishing. His father belonged to Selkirk-Come-Bye, and his mother belonged to Moreton's Harbor. He said he would tell us about education and the Humbermouth, but all he said about education was that in his trav-

els he had met a man with three children; too poor to get boots for his children, so he only sent one to school; and about the Humbermouth he told us that the Government offered the Reid Company two million dollars, but that the 'Company' wouldn't sell under four millions. He said the Company was trying to keep the boots off the poor children. He told us that we were like owls; the owl has never seen the sun because his eyes are closed in the daytime, but that in two or three years our eyes would be open to the light. He said we had to work, work, work (he used the word work about a dozen times), and that if we did work we would never need a government dollar. We should clear out

the hills, covered with wood, he said, and go farming, but he never told us where we would sell what we raised on our farms. When he told us that we were like owls, we jumped to our feet and told him just what we thought of him, and then the meeting broke up. He was going to have a special meeting that night to talk to the Union men, he said, but the non-Union men refused to go out of the room until the lights were put out. He said he was going to lecture every night of the week and "preach on Sunday." When he was asked where, he said "in one of the churches here," and some of the fellows said "no damn fear you want," and he gave up talking. Nobody would let him speak in the church after he was speaking such rotten stuff for his political master. After he left the meeting, the boys started to mud-ball him, and he was in a fierce state, so he took refuge amongst some women, and got to his boarding house without any harm. The feeling of the men seems to be that they don't want a man like Mr. Boone coming around in the pay of Coaker, to talk for him. "Coaker's Day is Done." He has only two supporters here. The Union men hasn't been opened since Coaker was elected, three years ago.

Yours truly,  
TRUTH,  
Lethbridge, B.B., Nov. 12th 1922.

### Opens High Class Confectionery Store.

Mr. Charles K. Meehan, who for the past three years has carried on an extensive business with his brother, Mr. Wm. Meehan, in the stationery line, under the firm style Royal Stationery Co., has severed his connections with that company, having recently taken over one of the stores formerly occupied by the same firm, where he will in future operate a "high class" confectionery store. Mr. Meehan has for the past few weeks been very painstaking in his efforts to make the new premises one of the brightest and most attractive stores in the city. The various lines of confectionery will be the best obtainable, while a plentiful supply of tobacco will be found always on hand. The formal opening of the store took place on Monday last. Mr. Meehan, who is one of our most popular and energetic young men of the city, is to be congratulated on his new enterprise. The Telegram bespeaks for him a liberal share of the public patronage.

### Did You Know It?

"H.P." as you know, stands for "horse power," and if, therefore, your motor cycle is a 4 1/2 h.p. one, you know that what is meant is that the engine has a power which is equivalent to that of four and a half horses. Not so! You would be incorrect to the extent of no less than 49,500 lb.!

The h.p. unit of power is a fraud, and the late Mr. James Watt, of engine fame, is responsible. He was a very careful engineer, in theory and practice, and he discovered, by many experiments, that the raising of 22,000 lb. one foot per minute was a good average horse power.

But "horse power" to-day is reckoned at 33,000 lb. per foot per minute—11,000 lb. in excess! That is due to the effect that Watt, in his anxiety to encourage business, offered to sell engines which would develop 33,000 lb. per foot as a horse power—a third more than the actual!

If would seem that he meant ultimately to be honest, but he died before that happened, and so bequeathed to the world, which has accepted it, a false unit measurement of horse power.

Engineers, of course, know of the error, and make due allowance for it; but the average individual does not. Your 10 h.p. car is, therefore, in fact but a 6 2/3 one, and its power is equal to raising 22,000 lb. a foot in a minute, and not 33,000 lb.

### Wants Brandy for Mince Pies.

In a new attack on the Volstead Act, by the Old Victory Distillery, Judge George T. Page, in Federal District Court, has been asked to restore mince pies to their pre-prohibition standing when brandy sauce was a legitimate ingredient. Attorneys for the distillery contended the Volstead Act is unconstitutional if it prohibits the sale of spirituous liquors for cooking purposes.

#### Prize Fight "Sport."

##### "TEMPLE BAR'S" IMPRESSIONS.

I don't pretend I have been at many big fights, but those who have tell me there has never been such a fight for 20 years or more—never in fact since Slavin fought Peter Jackson. I never hope to see such another.

Neither Frank Moran of Joe Beckett had either time, inclination, or intention to box. They had no use for boxing. They simply fought like wild animals. Moran is a much bigger man than Beckett, but as I am a living sinner, I think you could hand-pick creation over before you could strike two plainer men than Joe Beckett and Moran. If there is anything to choose Joe and his brother, who acted as second for him, may possibly have been an uglier pair, but I am not sure.

##### A SANGUINARY SPECTACLE.

From the time the gong sounded first until the fight was over, it was simply the stark contest which of

them could give and which of them could take the greatest amount of punishment. They were both of them wholes at both. "Game" is hardly the word for either of them, for they were both more than that. But, while Beckett showed not a mark on face nor body, Moran was being heavily damaged, and in the last two rounds, obviously "done," was simply standing up to the furious Berserk rage with which Beckett went for him with both hands. One eye was already closed, and his face was an ensanguined mess. Then his other eye went, and, like a blind leviathan, he groped about the ring feeling for the ropes. But to the end he held his head erect, and to the last moment his poor twisted mouth tried to smile. It was the finest, gamest, pluckiest stand that the ring has seen within living memory.

Moran's fighting career is over so far as first-class heavy-weight matches are concerned. He may linger on in England dropping down the box-

### The Assassination of Queen Elizabeth.

Parliament had assembled on the morning of November 17, 1858, unaware of the decease of Queen Mary; but before noon, the Archbishop of York sent a message to the House of Commons requesting the Speaker, with the knights and burgesses of the Lower House, to attend in the Lords to give their assent in a matter of the utmost importance. On being assembled, the Archbishop announced to the united Parliament the demise of Mary, and though, by that event, the Commons were dissolved by law (as it stood till the reign of William III), he called upon them to combine with the Lords, before taking their departure, for the safety of the country, to proclaim the Lady Elizabeth the Queen of the Realm. At this announcement there was a loud acclamation from the members of the House of Commons.

#### WHO WERE THE "LADIES"?

There were many "ladies" present. One beautiful woman walked round the ring to present Wells (who was knocked out by Bloomfield) with a huge bouquet as he climbed down through the ropes. He seemed puzzled to know what to do with it. But two little darlings who had seats next to mine puzzled me all evening, for I couldn't place them. One was a little fair-haired beauty about 17, the other, obviously a sister, was three or four years older. Their clothes and the diamonds the elder wore indicated wealth. As soon as they opened their mouths, it was obvious they were Americans; and, from the remarks that passed between them, it was pretty apparent that what the two young dears didn't know about fighting was hardly ring-side knowledge. But, despite the fact that their sympathies were with Beckett, and that surprised me. But, when Beckett missed a chance at Moran, I nearly had a fit when my little yellow-haired 17 year old half rose from her seat and called out in a shrill voice—"You d—fool, Joe, why didn't you hit him then?" The girls had no escort or chaperon with them; it hardly seemed that they needed either. They still puzzle me.—Glasgow Weekly Herald.

# The Truth About SUNLIGHT SOAP

SUNLIGHT SOAP is guaranteed PURE UNADULTERATED SOAP.

Five thousand dollars (1000 pounds) will be paid to anyone proving this statement to be untrue. You will find this guarantee on every Sunlight Soap wrapper.

Ordinary so-called cheap soap does not average more than 70 per cent. REAL SOAP to the bar or pound, the remaining 30 per cent. consists of water and fillers.

When you buy SUNLIGHT SOAP at 15 cents, you get 15 cents worth of REAL PURE SOAP, without any adulterants or injurious chemicals or fillers.

So-called cheap soap sells in 8 ounce bars for 10 cents and in 4 ounce bars for 5 cents. SUNLIGHT SOAP at 15 cents for 12 ounces costs only 10 cents for 8 ounces and 5 cents for 4 ounces.

Consequently SUNLIGHT SOAP costs no more than the so-called cheap soaps; but because SUNLIGHT is REAL PURE SOAP, it costs less than adulterated soap.

When you buy SUNLIGHT SOAP you get 15 cents worth of Soap, but when you buy inferior soap at the same cost, you get less than 11 cents worth of soap.

Therefore when you buy an 8 ounce bar of inferior soap for 10 cents, you really get only 7 cents worth of REAL SOAP. You throw away 3 cents.

In addition to actually wasting money when you buy adulterated soap, you lose several dollars through the damage done to your clothing by injurious soap.

It pays to use Sunlight Soap. Every intelligent woman knows that SUNLIGHT SOAP is purest and best, and cheapest in the long run.

If you do not need a large 15 cent bar of SUNLIGHT SOAP buy a half bar. SUNLIGHT is so pure that it will not injure even a baby's tender skin.

Tell your wash woman to use SUNLIGHT SOAP; if necessary, supply her with a half bar. Don't destroy your expensive clothing with injurious soap.

YOUR GROCER SELLS SUNLIGHT SOAP. ASK HIM ABOUT LEVER'S 1000 POUND GUARANTEE.

### We Are Slow to Save Ourselves.

We can make the fishing business go; and the shipbuilding business succeed. Our fellows on the Island province are high rankers in agricultural pursuits. Our New Brunswick neighbors are keen business men and successful lumbermen and fishermen. But when we all get down to the question of looking after joint rights in regard to railway accommodation—the vital element in interprovincial trade—we are the slowest lot of people on the continent.

Is there any person who can give a reason for this deplorable state of affairs?

Are we to accept it as the inevitable and the incredible truth—that we will not apply the energy which Providence has given us for the establishment of our rights to efficient railway service at reasonable rates?

Do we love politics more than progress?

Do we live for politics? Is it our one ambition to elect men of our particular party affiliations—and let business progress, railway rights—maritime prosperity—be managed?

Some people will become weary of our preaching. But when people close their ears and harden their hearts against the truth—it must be hammered into them. If they are stubborn about trying to save themselves—some one must endeavor to save them by blowing them into action.

We are determined to do our part—no matter who squeals. Continual pounding may awaken some one. One or two may save the situation.—Atlantic Sunday Leader.

### Violin Making.

Violin making is an ancient art, yet new things may be learned about it. Two makers of musical instruments, one in Brussels, the other in Boston, have announced their belief that the material of an instrument has nothing to do with its tone. One of them made experiments only with wind instruments, but the other tried innovations in violins and violin cellos, substituting tin and aluminum for post and bridge, with an actual improvement in tone, so it is reported. It is his belief, that distribution of mass is far more important to good tone than the material used. This theory is contrary to all previous opinions on the subject; and it true, will wipe out much of the romance of the search for and treasuring of old violin timber.—Washington Star.

**Andrew's Club Event.**

ANNUAL SALE. The annual sale of work by the St. Andrew's Society was held at the club rooms yesterday afternoon by Mrs. D. Baird. A large number of people were present and the sale was done during the evening. Practically all the goods on the shelves were disposed of. Afternoon refreshments were served by Mesdames McLean, J. Brown, Crosse. They were well patronized. At 6 o'clock a large number of club members and high teas were served by Mrs. Taylor and Mrs. Forbes. Mrs. Taylor and Mrs. Forbes, in the list of stall holders; Mrs. Work, Mrs. McParlane, Mrs. McLean, Mrs. Barbara Langmead, Mrs. Foster, Miss B. Crawford, Mrs. Crawford.

The ballroom was attractively decorated with the Society's colors, blue and white. The program consisted of the presentation of Novelties, drama, and the disposal of the afternoon refreshments. The afternoon party was held and the proceeds were as follows: lady's booth, \$15.00; gentleman's first, \$15.00; gentleman's booth, \$15.00. At 10:30 a light supper was served. The evening was a success and the gathering was a most enjoyable one.

**Master of Public Works Does not Know it All.**

The Evening Telegram. Sir—I read an article in the Advocate of yesterday's date in which Mr. Jennings in reference to the meeting in the C.L.B. on Wednesday night, Mr. Jennings seems to be very indignant over the conditions that have been set up for the Green Bay water works. Mr. Jennings, as I understand it, is a very capable man and he has been in the cause of the water works for some time. I would like to know if he knows any more about the conditions under which the men who worked on the Lake road this fall had to work. It is true, Mr. Jennings, that the men who worked on the Lake road had to sleep on the ground with a few boughs under their heads and had to keep their pillows under their heads. **BAND INSTRUMENTS WRONGFUL- LY KEPT FROM LODGE— COURT HOWEVER RULED OTHERWISE.**

A very interesting case was heard at North Sydney last week before Stipendiary A. R. Forbes in an action commenced on Friday when, at the instance of W. A. Waldron, master of Fulton, L.O.A. No. 1754, Stipendiary Forbes issued a search warrant against Mr. Fanjoy and empowered Constable Stanley Hackett to search the Fanjoy barn and bring the instruments under dispute into court. Mr. Hackett accordingly produced three E flat bass horns, one B flat bass horn, one B flat baritone horn, three B flat tenor horns, three E flat Alto horns, two B flat cornets, one bass drum and one snare drum.

The action was reopened on Saturday evening for the purpose of identifying the instruments. It appears that at one time the North Sydney band and Fulton Lodge entered into a contract whereby, for services to be rendered to the lodge from time to time, the band were to maintain possession of the instruments until such time as the band disbanded. Evidence to this effect was given at the hearing on Saturday evening by two witnesses, the master of the lodge, Mr. Waldron and Mr. A. W. Shano. Mr. Waldron said that he was not present when the contract was made. He had heard the town band play on certain occasions in 1920; but had never seen any instruments at the lodge rooms, and could not identify them. There was no L.O.A. band. He made the complaint at the request of Rupere Hare. Mr. Shano said that the instruments were the property of the Lodge. He stated what the terms of the contract were and said that the lodge had received an order from Mr. James Coppin, president of the band directing Mr. Fanjoy to deliver the instruments. Mr. Fanjoy refused.

The contract was not produced. When the court reassembled on Saturday last the only witness heard was Constable J. J. McNeil. He testified that he had, on the instruction of the court notified Mr. Waldron to be present to proceed against the defendant. Mr. Waldron had stated that he would not be present unless a warrant was issued for his arrest.

Mr. W. F. Bagnell appeared before the court and said that on instruction from Mr. Neil McMillan, solicitor for the lodge, he was there to tender the costs and take away the instruments. Mr. Forbes declined to accept this suggestion. He handed the instruments over to Stipendiary Forbes who, in delivering judgment, said that as the plaintiff declined to pursue the case he had no option than to have the instruments back to Mr. Fanjoy and they were taken from the court by Mr. Fanjoy. Mr. James Coppin, president of the band and Mr. Fred Erhardt, the Lodge therefore failed to make its case, and the instruments were triumphantly carried off by defendant and his friends.

**POLL TAX.**

The attention of the public is called to the following sections of the St. John's Municipal Act:  
**Section 249.**—"Every male person of the age of 21 years or upwards who has resided in the city for the period of twelve months immediately preceding the first day of October in any year, and who is not liable as owner or indirectly as tenant to the payment of the City Tax on any property rated in the appraisal book of the Council at an annual rental value of forty dollars or upwards, shall pay to the city a Poll Tax of Five Dollars per annum."  
**Section 250.**—"The said Poll Tax shall be due and payable without demand or notice by or from the Council between the fifteenth day of October and the fifteenth day of November in every year, at the office of the City Clerk."

**Section 251.**—"Any person who fails to comply with the provisions of the foregoing section shall, in addition to the payment of the tax, be liable to a penalty not exceeding five dollars, or in default of payment to imprisonment not exceeding ten days."  
 All persons liable are hereby notified to govern themselves accordingly.
