CLARKE WILL NOT RESIGN; COMMISSIONERS WILL DEFEY MANDATE OF CITY COUNCIL

City Engineer Child in a Communication to the Commission Attacks Probe Committee Bitterly; Says He Was Not Given Chance to Put in Rebuttal Evidence

IT IS A FIGHT BETWEEN COUNCIL AND COMMISSIONERS

Mayor Mitchell Contends That Members of Probe Committee Were Actuated by Spite and Political Motives; Pays Respect to Individuals

MAYOR Mitchell, Mr. S. J. Clarke, and Mr. A. J. Graves, comprising the Calgary city commission, are prepared to defy the mandate of the city council issued Monday night ordering the dismissal of City Engineer J. T. Child, Medical Health Officer Dr. A. S. Estey, and Sanitary Inspector R. W. Fox. All the commissioners take the view that the council acted hastily in demanding the dismissal of city officials whose professional reputation, they say, will be endangered by the act.

Mayor Mitchell holds that the council has no legal power to dismiss any of the city officials involved except through the commission themselves. His honor is very bitter against some of the aldermen taking part in the investigation. The charge that the mayor had not exercised initiative in conducting the affairs of the city was a sore point. Of Alderman Samis, who took an active part in the probe work, the mayor said:

EXPERT HERE TO LAY OUT UNIVERSITY GROUNDS

Blanton Grubb, With Reputation on Two Continents, Will Landscape Garden Temporary Quarters of Institution Which Will Be Selected Next Week

Active work of laying out the site of the Calgary University will be commenced within a week, according to an announcement made yesterday by Dean Braithwaite, head of the institution. Blanton Grubb, one of America's foremost landscape architects and one who has an enviable reputation on the other side of the Atlantic also, is scheduled to arrive in Calgary Saturday of this week and to take the task of laying out the site for the new educational institute will be commenced.

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: President Tregillus, United Farmers of Alberta, says: "Never in my experience have I seen such promise of a bumper grain crop. Have talked to farmers all over the province. All state that prospects were never better. This applies to today as well as grain."

CHICAGO VISITORS WILL BE ENTERTAINED

Members of the Industrial Development Bureau and the Calgary Board of Trade, with the aid of local business men, are preparing to afford suitable entertainment to the visiting delegation from the Chicago Association of Commerce, due in this city on Monday, July 15 next.

ALDERMANIC VACATIONS MAY DEFER FINAL ACTION ON PROBE COMMITTEE'S REPORT

APPARENTLY the tangle in the city administration resulting from the report of the probe committee is likely to remain in statu quo for some time as a number of aldermen directly involved in the investigations are preparing to take their vacations. Alderman Morfit, who has been putting off his vacation for ten days to forward the work of the investigating committee, left last night for Summerland, B.C., where he will spend a month. Alderman Carscallen also will leave in a short time on an extended trip through the East which will consume some two months. Alderman Samis also is preparing to make a trip that will take him away from Calgary for a considerable length of time.

Inasmuch as the commissioners have practically said that they will disregard the mandate of the council to dismiss the city engineer, health officer and sanitary inspector, it appears that no action will be taken until the three aldermen return as they were among the most active in pushing the investigation. When informed of the position taken by the commissioners to the effect that they would pay no attention to the recommendation to dismiss officials, Alderman Carscallen intimated last night that the council would proceed to take drastic action.

"If the commissioners won't do anything," said Alderman Carscallen, "the council will have to put through a motion specifically demanding the dismissal of these officials." When his attention was called to the fact that it would require the votes of all the aldermen interested in the investigation to take further action, and that several of them were going away, Alderman Carscallen said: "Well, the matter will be hung up till we get back but some action may be taken by the rest of the councilmen."

CANADIAN PACIFIC'S CALGARY DEPOT IS TO BE IMPROVED TO TAKE CARE OF TRAFFIC

Superintendent Price Announces That Thousands of Dollars Will be Expended in an Effort to Make the Station Modern

MANY thousands of dollars are to be expended in improving Calgary's Canadian Pacific depot and station during the next year, according to an announcement made yesterday by General Superintendent Price.

Tentative plans only have been submitted and there will doubtless be some changes but the general plans as outlined by General Superintendent Price yesterday are as follows: The main depot building is to be extended to the street line on Ninth avenue to give additional space in the waiting rooms, and to give more room for the office forces on the upper floors. The present depot, although admirably constructed, has been found too small for the rapidly growing needs of Calgary, and the proposed extensions have been found to be absolutely necessary.

DIFFERENCES BETWEEN STONECUTTERS AND MASONS MAY BE ADJUSTED SOON

Stonecutters Willing to Let Contractors Say Which Union Shall Cut "Coursed Shoddy"; Say It is Now Up to the Builders to Decide

Indications are that the difficulty between the stonecutters and the stonemasons will be settled shortly. According to a communication received by The Albertan last evening, the stonecutters have decided to leave the adjustment of their differences with their fellow craftsmen to the contractors themselves. The letter, signed by the Calgary branch of the Stonecutters' union, through its press committee, follows:

The situation between the Stonecutters and Stone Masons is this: This trouble started on the Knox Church, both unions claiming the "right." Now, the Stonecutters agreed to let the Stone Masons have this work but this did not satisfy them; they went further and demanded the "coursed shoddy" to be left an open question.

GRAZED BY HEAT, JUMPED 100 FEET INTO CREEK AND WAS DROWNED

North Bay, Ont., July 9.—A young Swede laborer employed on the C.N.R. construction work near North Bay, became grazed with the heat, and while being brought to the North Bay hospital by two fellow workers, jumped from the C.N.R. bridge into Chensy creek, 100 feet below. His companions hastened down the bank and tried hard to rescue him, but he eluded them and swam out into Lake Nipissing, where he was drowned. The body was recovered shortly after.

WELL KNOWN VANCOUVER MERCHANT DEAD

Vancouver, July 9.—C. H. Jones, head of a ship chandlery house here, one of the foremost of early day merchants of Vancouver, died last night. He established here in 1887.

RUSH INTO NEW OIL FIELD OF ALBERTA POSSIBILITY OF NEAR FUTURE

Experts Who Have Looked It Over Say Basin May Get Wide Attention

Two Companies Composed of Albertans and Californians are in the Field

It is Stated that Drilling Will Commence Within the Next Six Weeks

Alberta may share with California, Pennsylvania, Colorado, Wyoming, and other favored sections, the attention of the oil world. Until a little more than a week ago, it was not realized by the general public that the oil deposits of the province were of consequence, except, perhaps, in the extreme north, where the transportation problem remains to be solved.

Two companies, composed chiefly of Albertans and Californians, are already in the field, and each one has announced that drilling will be started within a month or six weeks. One is headed by I. E. Segur, the California expert, who has been examining territory contiguous to Calgary for the past two months, and another by W. S. Herron, an old time resident of Alberta, who has been in the province more than a year. Both companies are said to be completely organized, and according to announcements, machinery will be en route to the fields before the end of this week.

Men who know whereof they speak when oil is discussed, and examined the fields and are extremely enthusiastic. The holdings of the two companies, one headed by Mr. Segur, and the other by Mr. Herron, are approximately forty miles southwest of Calgary, and the claims of the two corporations adjoin one another.

The analysis cannot be disputed. Mr. Herron had a sample sent to San Francisco about eight months ago, and the results were most favorable. Both companies are said to be completely organized, and according to announcements, machinery will be en route to the fields before the end of this week.

CITY COMMISSIONERS WILL BE ASKED TO CREATE BUREAU

Plan is to Facilitate Exchange of Information Affecting Those Who Toil

Will Endeavor to Interest Civic Bodies and United Farmers of Alberta

Employer and Employee Will be Card Indexed; Daily List of Openings

Following a lengthy discussion last evening in city hall, the special committee appointed to consider the organization of a municipal labor bureau in Calgary, passed a resolution that the city commission take steps to establish such a bureau. Those present at the meeting included Mayor Mitchell, Mr. William Georgeason, Vol. Walker, Rev. D. A. McKillop, superintendent of the Associated Charities, Colonel Sanders, Mr. James Dyson, president of the Trades and Labor Council, and Miss Wilman.

ALBERTA CROP NEWS CONTINUES TO BE OF MOST OPTIMISTIC CHARACTER

L. P. Strong, Dean of the Western Wheat Buyers, Says That Conditions Could Not be Better; Reports from His Correspondents Most Encouraging

ABUNDANCE OF MOISTURE IN COUNTRY TO THE NORTH

Little Damage from Hail; All Grain Growing Fast; Wheat and Barley Headed Out; Fifty Per Cent. of Oats in Head and Everybody is Happy

TELLING of phenomenal growth of wheat, rye, barley and oats, reports continue to pour into Calgary from all points of the compass in Alberta province. A number of small rain and hail storms are reported by correspondents of the Alberta Pacific Elevator company but none of them were serious and slight damage was done.

"Fine" was the terse description of crop conditions as gathered from correspondence given by Manager L. P. Strong of the Alberta Pacific company. "The situation could not be better," declared Mr. Strong as he ran over the various reports just sent in from this week.

The district north of Alberta was blessed with plentiful moisture in the proper proportions according to correspondents. At Aldrie, there was slight damage from hail, but all grain is growing fast, wheat and barley headed, 80 per cent of oats headed. Castor reports wheat, oats, and flax two weeks earlier than last season; plenty of moisture. Carstairs reports much rain, everything growing rapidly; two small hail storms, but not over a large territory, and a larger per cent of rye than formerly expected.

DO YOU WANT A HOMESTEAD CLOSE IN TO CITY OF CALGARY? NEW MAP SHOWS 138 OPEN

Though few persons realize it, there are 138 homesteads within a radius of 30 miles from the heart of Calgary that have not been taken up. The latest map issued by the land office department shows the above number of quarter-sections of what will some day be valuable agricultural land, lying idle. Under the Dominion homestead law, it is only necessary for prospective homesteaders to make a claim of \$10 per quarter-section, and to live upon and develop the land taken up at least six months each year for a period of three years.

The majority of the homesteads not taken up lies west and south west of Calgary. Exact locations can be had at the land office.

FAIR WEATHER BUT STILL COOL IS FORECASTED

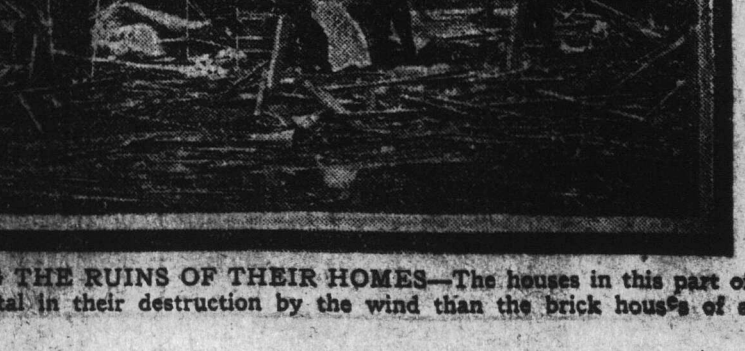

Edmonton, Alta., July 10.—The Canadian meteorological service weather observations, taken at seven o'clock last night, Winnipeg time, were as follows:

BANDIT KILLED BY A POSSE

loans in Motor Cars Chased Robber Who Wounded a Bank Cashier

Mt. Pleasant, Iowa, July 7.—The lone

bandit who late this afternoon entered the savings bank at Rome, shot F. W. Hileman, the cashier, and escaped with several hundred dollars in cash, was shot and instantly killed tonight by a posse several miles south of here, Clark was riding a horse and turned in

several hours. The bandit, identified as Charles Clark, was scarcely 20 years old, and had been living with relatives here for several months. He was overtaken by the posse several miles south of here, Clark was riding a horse and turned in

his saddle and opened fire on the motor car party. A running fight ensued. The bandit was well supplied with ammunition, and for some time succeeded in keeping far enough ahead to avoid being struck with the volley of bullets and at the same time

return the fire. James O. Laughlin, a merchant of Rome, received a bullet in the back, but his injuries are not serious. When only a short distance ahead of the motorists the bandit threw both hands to his breast and tumbled from

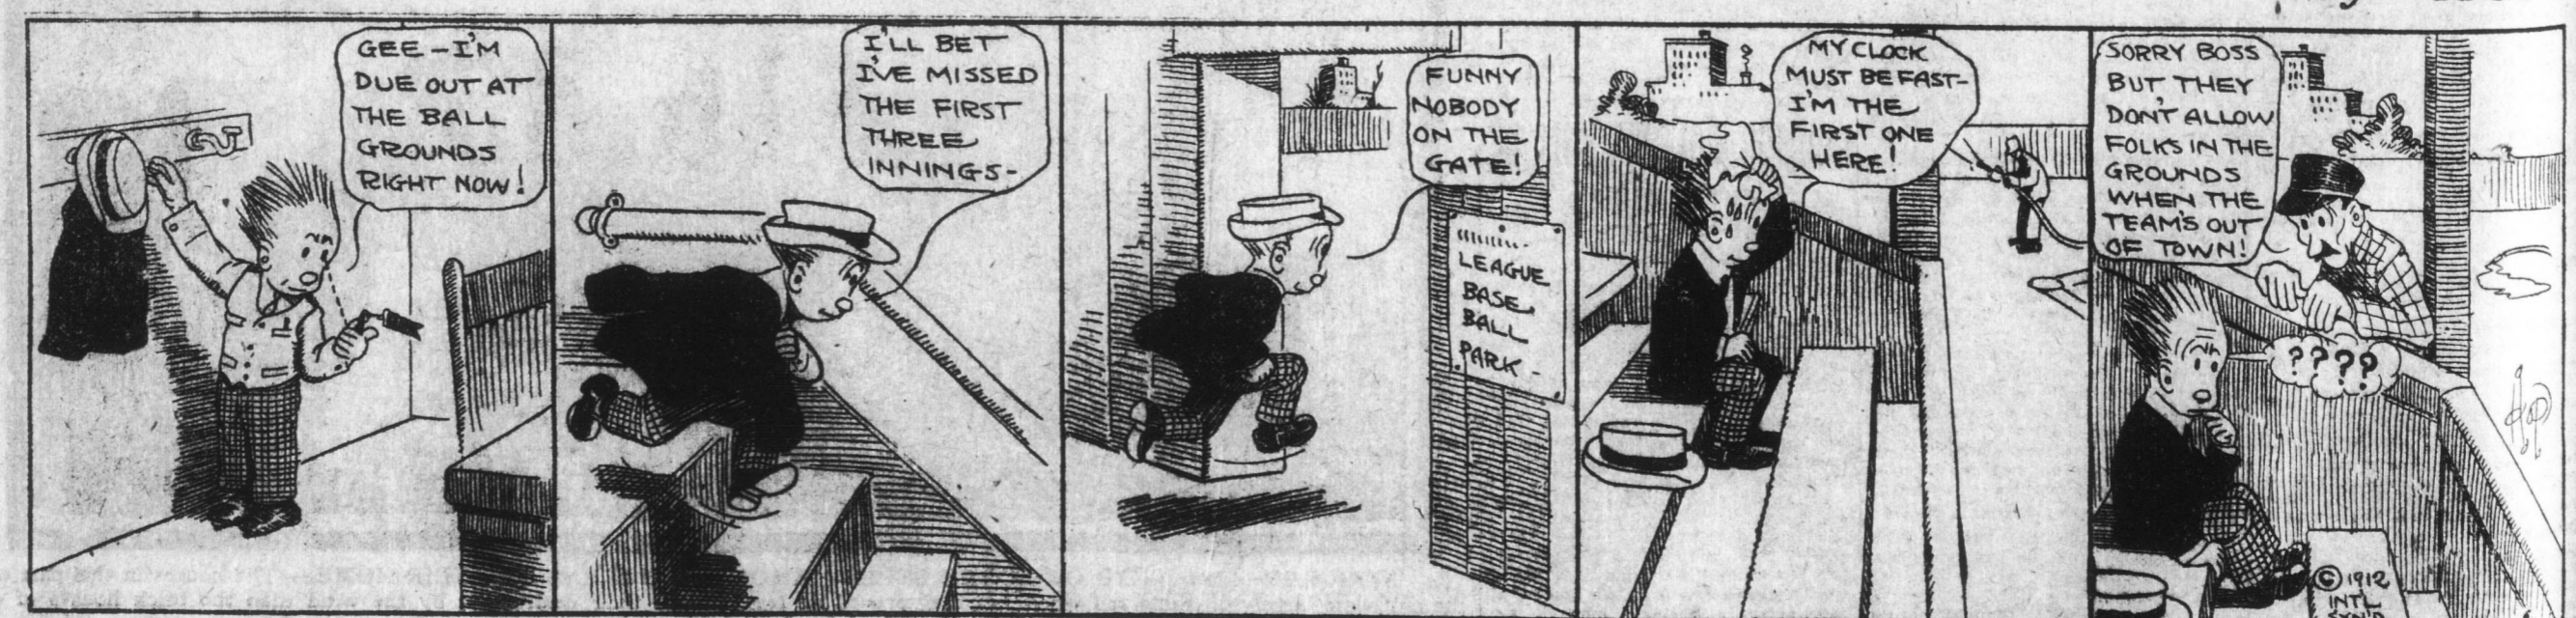

his horse. An examination showed that he had been shot through the heart. The stolen money was recovered. The injuries of Hileman are not severe. He was shot in the arms when he refused to comply with the demands

of the bandit. The police tonight are searching for Clark's companions, who are believed to have aided him in getting from the bank to the woods, a short distance away, where he was given a horse.

IT MIGHT HAVE BEEN

The things that "might have been," but for some moment of fatal irresolution or some trivial incident which changed the course of events, have been the subject of melancholy reflection by poets and philosophers whose name is legion. Even those who have no pronounced taste for literature will be familiar, through the widely published advertisements of somebody's fruit salts, with Whittier's poem: "It Might Have Been" dealing with a nearly accomplished romance, and most people have heard of the critic who remarked that the whole history of the world would have been different if Queen Cleopatra's nose had been but a fraction of an inch shorter or longer than it was. More recently, the inimitable Mr. Dooley has told us how different "the history books" would have been, but for the man who invented suspenders. We know of no man in Calgary at the present time who might more profitably devote his leisure hours to such reflections than John Gravity Watson, until recently a member of the city council. Mr. Watson it was who made the charge that thousands of dollars of the citizen's money were being wasted by incompetent or negligent officials. Mr. Watson precipitated by his charges the investigation which has shown that those charges were well-founded. If Mr. Watson were now a member of the council he would be the savior of the long-suffering ratepayers. If he were still a member of the council the highest honors to the gift of the citizens would be within his grasp. He might have been, if he wished, mayor of Calgary for 1913.

It might have been! But—that ugly word—Mr. Watson bolted from the city council at the crucial moment. He flung up his forces, gave the word to charge and then rushed to the rear and hid under the ammunition wagon. Hence he can have but a small share in the triumph. He might have been "Mayor Watson," but must now remain plain "John Gravity."

The moment of Mr. Watson's resignation was that of which the poet spake when he said: "There is a tide in the affairs of men which taken at the flood leads on to fortune." Mr. Watson allowed the waters to lap his ankles, then feeling a chill in his pedal extremities, retreated shivering. It might have been—but it cannot be!

WAUDEVILLE AND MUNICIPAL POLITICS

Having secured the adoption by the council of a report calling for the resignation of several city officials and the drastic re-organization of the civic administration, four of the aldermen will leave the city for one month's holiday, deferring until their return all action on matters which they declared to be of immediate and vital importance. This decision will be regarded by many as one of the absurdities so characteristic of the civic administration. In no vandeville house on the continent would it be possible to see in the course of a month more ludicrous situations than are witnessed during any one week at the Calgary city hall. The grey stone wears an air of unvarying sobriety no less pronounced than that of any church or undertaking establishment in the city. So far as we are aware none of the aldermen or officials has a past which connects his name with light comedy. Taken as a body these gentlemen in private life are no less sober than the average citizen. They follow the trivial road and perform the common task with as much seriousness and as little humor as any church elder or undertaker's mute—until they become active in municipal affairs. Then the transformation is accomplished. Previous experience in vandeville is no essential qualification for the position. Men who have grown grey without seeing or making a joke develop in the municipal service a genius for humor that would rival that of Dan Leno. But for the fact that outside of the city hall they display no more humor than others, William Duckshot Sherman might recruit a first-class company of players from the municipal body.

MURDER ON STEAMER

One Negro Shot Another on Crowded Deck of Lake Michigan Steamer
Chicago, July 9.—Passengers on the steamer City of Benton Harbor were thrown into a panic this afternoon when one negro pursued another the deck and emptied a revolver into the flying man's body. James Brown and Marshall Cooper were in the pantry of the boat when the shooting at Cooper and the latter fled to the deck, which was crowded. Every one ran from the deck and the boat was taken in a dazing condition. Brown was locked up by the Chicago police.

T. R. PRAYED FOR CLARK

Kermitt Roosevelt Quoted as Revealing "Pop's" Yearnings
Seagriff, N.J., July 9.—State Senator Franklin D. Roosevelt, of New York, was among the many who called today on Gov. Wilson. He came about noon. Kermitt Roosevelt, son of the former President, is Senator Roosevelt's cousin. "I saw Kermitt in New York this morning," said the senator, trying to avoid a threatened fit of mirth. "He said to me: 'Pop's been praying for Clark.'"

SOLD A TITANIC LIFE BUOY

A Noddy Survivor Parted With a Souvenir in a Pawn Shop for \$1
St. Louis, July 9.—H. M. Olsen of Cedar Lake, Ia., who is a survivor of the Titanic, sold to a pawnbroker today the life preserver with which, he says, he saved his life. The consideration was \$1. "I have been 'down and out' since the Titanic disaster," Olsen said in the pawnshop of F. L. Macke, 108 Collierville avenue, East St. Louis. "I have been trying to make my way across the country. I wanted to keep the life preserver as a souvenir, but I've got to have some money." On the life preserver is stamped the mark of the British Board of Trade.

IS WAR DYING?

As an antidote to the poison of militarism which has recently found its way into the system of a large section of the press, manifesting itself in a violent outbreak of editorials which would give the impression that a world-shaking war is imminent and perhaps not altogether undesirable, an article by David Starr Jordan, under the caption: "Foreclosing the Mortgage on War" in The World's Work, is not without interest.

The view taken by Dr. Jordan, namely, that the operation of economic laws is sounding the death knell of war, is not new. It found its best expression, perhaps, in "The Great Illusion," a recently published work by Norman Angell, which excited world-wide interest.

The article in The World's Work was in part as follows:

"War is dying. It dies because it cannot pay its way. It dies because, through the spread of education and the demands of commerce, no part of the civilized world can be suffered to engage in a life and death struggle with any other part. The nations are no longer separate entities, but each is a part in a unified whole to which international war is mischievous and hateful.

"To control a railway it is not necessary to own it, only to administer its debts. The same is true of nations. Thus it came about that in all matters of war, peace and finance, the international bankers had the last word. At first, the control was more or less a matter of dominating personality, but in time, with the vast increase in the complexity of business ramifications, it has naturally become more and more impersonal and automatic. Lord Rosebery has said that 'Royalty is no longer a political but a social function.' This is another way of saying that the will of no individual is now supreme as opposed to the common interests of the people. With the economic growth of the last thirty years has come a parallel change in financial domination.

"As war is now mainly a matter of finance, armies and navies being mere incidents as compared with financial reserves, the bankers still have the last word. No international struggle, accident aside, can break out until they give the signal. In our belief, whatever the apparent provocation of noisy speech or hectoring diplomacy, we shall never see another war among the great nations of Europe. There is too much at stake. War is a disturbance of all normal relations. It is a sort of world sickness, local in its inception, but likely to spread to other parts of the social organism. A great war is a great defeat. It means ruin to the victor as well as to the loser. Under the present conditions there can be no such thing as victory, and neutrals must share with the others in the settlement of loss.

"Banking, according to Norman Angell, is 'providing the economic and social organism with sensory nerves, by which damage to any part, or to any function, can be felt and, thanks to feeling, avoided.' The influence of sound banking is therefore everywhere and automatically opposed to war. To the modern banker, as to Benjamin Franklin, 'there never was a good war or a bad peace.'

"The present complex condition, incongruous as well as disconcerting, is apparently a necessary phase of the passing of war, a world process involved in the change from the rule of force to that of law. The power of old tradition keeps alive the sinuous diplomacy of Europe, with its use of warships as counters in its games, and its use of war scares as means to force the people to build the warships. We still have the Deferred Payment and the Indirect Tax, the means by which an outworn statecraft extorts money from the people. We have all interests of commerce totally and openly opposed to war, and all interests of finance quietly opposed to all war which does not pay. We have the murderous cost of the whole thing at all times, with the final certainty that the perfection of our monstrous implements will never allow any sort of war to pay, while the alternative of 'Armed Peace' is equally impossibly expensive. We have also the growth of international relations, of the spirit of mutual understanding, the development of international law, the extension of arbitration and our own emergence from the mediæval darkness when war was deemed natural and good, an institution to be cherished for its own sake. Lastly, the bankers have given ample evidence of their power, for example, in the Morocco affair. They have long since skimmed off the cream of the international loan business. There is little gain to them in further extension of the policy. And so war is dying, self-slain by the costly weapons science has forged for it, and it now remains for finance to give it a decent and fitting burial.

"The way out of war will open, the world over, with the enlightenment of public opinion, with the extension of international law, and the perfection of international courts at The Hague. The machinery of conciliation is created by public opinion; and with its more perfect adjustment, the force of public opinion behind it will grow steadily more and more insistent. Little by little war will be erased from the possibilities. As the years go by its crude and costly conclusions become less and less acceptable and the victories of peace become more and more welcome as well as more stable."

HIGH RIVER RAIN HAS CONTINUED FOR EIGHT DAYS

All Possibility of Drought Has Been Removed for This Season
Highwood River on Rampage; Threatens to Flood the Valley from North
Smallpox Broken Out Among Threshing Crews; Town Will Buy Park

High River, July 9.—Heavy rains have prevailed throughout this entire district for eight days, removing any possibility of drought from drouth this season. It is the general belief that it would scarcely be possible to improve present crop prospects. Ten days ago farmers were complaining that wheat threatened to ripen too soon without full development, but the period of wet, cool weather has changed conditions, and while the crop will be later it will be heavier. Some magnificent stands, both of fall and spring wheat, are to be seen in this district, and except for the possibilities of hail or frost a record crop is assured.

Swollen by the recent heavy rains the Highwood river has risen rapidly all day today, and tonight is within three feet of its level of three weeks ago, when it went over the C. P. R. tracks, interrupting traffic for thirty-six hours. Several flood gates were removed from the mill dam tonight in an effort to lower the level above town, as the water threatens to flood the valley to the north.

River on Rampage
High River has been a centre of consideration for all prospectors for some days past. A number of mysterious cases having arrived here and been quiet trips through the country. In some cases no information was given out in others it was admitted that the magnet which drew the investigators, but the result of their explorations were kept carefully to themselves. It has long been contended by old-timers here that the Highwood valley is rich not only in lead and zinc, but also in copper, silver and gold.

Smallpox Among Threshers
When a smallpox epidemic broke out among the threshing crews in this district last fall, the town was put to heavy expense in caring for the patients, as the practice was in many ways to send any laborer who showed signs of illness to town, where they were first discovered by the local authorities. The matter was taken up with the provincial health department, and has just been adjusted by the government paying the proportion of expenses, which was shown to be incurred by out-of-town patients.

Are You Droopy, Tired, Worn Out?

Here is Good Advice to All Who Feel as if Their Vigor and Life Had All Oozed Away
This Condition Can be Quickly Cured By a Good Cleansing Medicine

Your experience is probably somewhat similar to that described by Mr. J. T. Fleming in the following letter from his home in Lebanon: "I think I must have the most sluggish sort of liver. In the morning my mouth was bitter, and that foul, soft feeling that tells you, 'No breakfast needed here this morning.' A cup of coffee would sort of brace me up, but in two hours I was disposed to quit work, all energy having oozed out of me. Supper was my only good meal, but I was going to get out of here. I dream to beat the band. A friend of mine put me wise to Dr. Hamilton's Pills. I think they must have taken hold of my liver, perhaps my stomach, too, because at the very start they made things go right. Look at me now—no sleepy in the day-time, but bustling for the mighty dollar and going for fun out of live every minute. That's what Dr. Hamilton's Pills have done for me—they have rebuilt and rejuvenated my entire system."

Olympic Games Provide Exciting Finish, Relay Race Resulting in Dead Heat Between Great Britain and Germany; Finlanders Capture Javelin Events

Stockholm, July 9.—There was every prospect this morning of an off day in the Olympic games, the only final on the program being the 400 metre relay flat race and throwing the javelin right and left handed, both of which numbers, athletes from the old school, regard as fancy features. The curtain fell this afternoon on several thrills almost at the same moment. The relay race proved a sensation. The finish between Great Britain and Germany was so close that it looked like a dead heat. The Englishman, Appleghar, undoubtedly was a few inches ahead of the German, but to make assurance doubly sure, the committee felt compelled to disqualify the German team as they did the American team yesterday.

The contingents of the Northern nation which had the javelin all to themselves, were immensely excited when the Finlanders won that event in one, two, three order. The Finlanders had the satisfaction of being the only people of flying their triple colors at once besides the Americans. The Finns would like to compete as an independent nation as would also the Hungarians, but the international committee has decided as that they have no flag of their own, the best that could be done was to raise three Russian flags with pennants displaying the word "Finland" beneath them.

The Frenchman, Bouin, who gave the cleanest and easiest exhibition of distance running yet seen at the Olympic, is likely to make a great battle of it with Kolehmainen, in the final heat of the 5,000 metres. George V. Bonhag, I.A.A.C., and Louis Scott, of the South Paterson Y.M.C.A., who finished first in the first and second heats respectively, are also to be reckoned with in this event, while the Canadian, Decoteau, showed a burst of speed which may make him a dangerous contender.

In the 5,000 flat metres race, Bonhag of the United States, won over Decoteau of Canada, by 15 yards. In the second heat, Scott, of the United States, won easily over Keeper of Canada. In the other two heats the Canadians were unplaced.

In the final of the spring-board diving contest, Guenther of Germany was first, Luber and Behrens of Germany, second and third, and Zimmerman of Canada, fifth.

The afternoon program which had promised to be unexciting, furnished several separations in quick succession. The 400 metre relay race final, which followed the heats of 1400 metres flat race, resulted in a neck and neck finish between the British and German teams. The judges conferred for some time before announcing that England was the winner and that the German team had been disqualified.

The javelin throwing with both hands concluded immediately after the relay race. The German team, which had a three Russian flag raised, the pennants bearing the words, "Finland" beneath the designs. A world's record was established in this event by the Finn-Saaristo, who with both hands threw 107 metres, 4 centimetres (352 feet 11 inches), while his two countrymen, Saaristo, threw 102 metres, 10 centimetres (334 feet 10 inches) and 100 metres, 20 centimetres (327 feet 10 inches).

SCALAR GOT DECISION OVER JIMMY POTTS IN EDMONTON

Edmonton, Alta., July 9.—After fifteen rounds of hard fighting tonight, Kid Scalar, now of Edmonton, and formerly of Seattle, was given the decision over Jimmy Potts, of Minneapolis. The best was refereed by Tommy Burns, of Calgary, who expressed the opinion that Scalar had the best of the battle by a good margin. Considerable feeling was shown about the fight, but Potts, among whom Potts is a popular idol, were of the opinion that he should have had a win for at least a draw. Potts conceded seven rounds by Scalar, who weighed in at 132 pounds in the afternoon, while Potts tipped the beam at 138 pounds. Scalar has been prominent in the past with Joe Bayley, Canadian champion, for the Flanagan belt.

and kept it. With seven of the fourteen rounds in the final, the Americans started with a lead of 10-0. Javelin Throwing. The javelin throwing proved a fine exhibition. Seven Swedes, four Finlanders, two Norwegians and one Hungarian competed in the final of this event, the conditions of which provided for throwing by both hands. The Finn, Saaristo, easily outdistanced the other competitors and established a world's record, his combined throw being 107 metres, 4 centimetres (352 feet 11 inches). He also broke the world's record for throwing with the right arm—his cast being 61 metres.

Youngster Who Obtained Draw With Champion in Prince Rupert Wants Battle. That Joe Bayley is not going to have an idle time since he has acquired the title of lightweight champion of Canada is evident from the number of challenges which he has received. Kid Scalar challenged Bayley at the ring side in Bassano, and Pat Scott, who Bayley met at Prince Rupert in March, now hurls forth a defy.

Pat Scott is now after scalping of Bayley. The following is a list of the challenges which he has received: At Prince Rupert, Wash., July 6, 1912. Sporting Editor, Albertan, Calgary, Alberta, Canada. I enclosed find a likeness of Pat Scott, who is recognized in and around the northwestern states as the lightweight champion of the Northwest. He is 21 years of age and has been boxing several years, having met and defeated all of the best lightweights around here.

RAIN DISAPPOINTED A BIG CROWD OF FOOTBALL ENTHUSIASTS

Game Between Callies and Hillies Last Night Had to be Postponed. The soccer football enthusiasts of the city were disappointed last evening when, owing to the condition of the ground at Hillhurst Park, the game between the Callies and Hillies was postponed. There was every prospect of a record crowd at that enclosure at a league game, car after car coming loaded, but after taking a disconsolate look at the ground and agreeing that they had to sacrifice their salaries by leaving the game off, they boarded the next car for town. This is the fourth game in succession which has been postponed and some difficulty will be experienced in working them in.

LETHBRIDGE TEAM TO COMPETE FOR THE PEOPLE'S SHIELD

Trophy is Still in Calgary, but Parker is Conducting His Competition in 'Peg

Tomorrow Lethbridge leave for Winnipeg to compete for the People's Shield, the following players being sent to represent them: O. Summer, R. Rybeck, J. Easton, J. Brennan, E. White, R. Holberton, Barnbridge, S. Thompson, F. Parker, B. Brennan, A. Raisbeck, E. Pirih, A. Newirth, P. Ellis, G. Casburn, vs. P. Burns and B. White. A good team about to be plucked from this bunch, but Fort William seem to be the favorites for the competition. This does not mean to say they will get the shield, for this has not yet left Calgary.

CALGARY GUN CLUB

Some good scores were made in the Dwyer trophy event held last evening at the grounds of the Calgary Gun Club. Dr. Karnopp won the cup with the high score of 41 out of the possible 50. This is a remarkable performance, as he is a new man at the traps this season and lacked the experience of the older hands at the game with whom he was competing. In the first half of this event the doctor broke down twice and came back strong with twenty-five straight. The birds were all broken in good style and only got a short distance from the trap before he had them.

C. MATHEWSON WON TWIRLERS' BATTLE WITH M. BROWN

National League Twirlers are Pitted Against Each Other at Chicago

New York defeated Chicago in the second game of the series yesterday at Chicago, 5 to 2. Mathewson and Brown opposed each other in what proved to be a ragged contest, the former being forced to use his cunning in the pinches. Only one Philadelphia pitcher reached third base in the game, the one who was won by the home team to 0.

Washington Climbing Up in American League Race; Won Two Yesterday

Washington defeated Boston in two games yesterday. Harmon had the catcher guessing in the first game, while the Cardinals hit opposite him in the second. The home team won the second game by a score of 3 to 2 in the eleventh, after errors permitted them to tie in the ninth.

SPORT VIEWS AND REVIEWS

It must be a very uncomfortable feeling to have some rank outsider give away a secret or tell the truth when those who are supposed to tell it have overlooked it. That is the position in which the Edmonton sport scribes have again been placed. The man who sent down the Associated Press account of last Saturday's game in Edmonton was a newspaper man who was not influenced by the only words of any ball magnates and the consequence was that he stated the truth as it appeared to him. He stated that the game was played because Bassano was here and would not have been played under any other conditions. The grounds were unfit; in fact one of the Edmonton players, Isbell, to be exact, is said to have worn rubber boots in the outfield.

Instead of coming out and saying that the game should have never been played, the Edmonton sport scribes pass it off as a joke stating that there was considerable dampness in evidence. Not so with the W.A.P. correspondent. He stated the facts as they were and as a result there was something stirring. This same man made it rather uncomfortable for the Edmonton sport scribes last winter, when Deacon White was said to be mixed up in a crooked hockey contest. He told the truth as it appeared to him and there certainly was something stirring. The Edmonton scribes at once got busy with a denial but perhaps you have noticed that Deacon White's name has been tabooed from the Edmonton sport pages ever since that incident.

THE following is an excerpt from The Edmonton Journal's account of last Saturday's contest. (Pardon the last expression): "There have been ball games and ball games at Diamond park, but never one that resembled the sculling race of Saturday evening. The infield resembled the muskeg on the Grand Trunk west of Edmonton, and the black mud was very much in evidence. Pools of water were tastefully placed here and there about the diamond and outfield, the home plate was cosily covered with sawdust, and the bases were as black as the ace of spades. A small crowd of about 93 huddled together in the grandstand and watched Skipper B.H. Hurley lead his men to victory in a game which decided the championship of the Western Canada league for the first half of the schedule. Four to three was the score. Eighteen perfectly good uniforms were made fitting candidates for the laundry. Ferdy Manning was nearly drowned on two separate and distinct occasions, and Isbell would have met the same fate, as the water was up to his knees."

SPORT VIEWS AND REVIEWS

SINCE the scene of the baseball games has been shifted to Hillhurst park, the attendance has been cut down about four hundred per cent. It is but little wonder that such is the case when the management of the club takes such little pains to let people know that there is a game, and after they get the people out to the park, they don't give a whoop in a super-heated oven, how they get home. If one car comes to the gate of the park five minutes after the game is finished the fans may consider themselves lucky. On only one occasion since the scene of the games has been shifted has there been more than one car at the gate of the park.

BASEBALL IN THIS DAY AND AGE is a business proposition and it never will be a success until up-to-date business methods are adopted by those in charge. SAM Savage is a prince of a fellow to meet and know, but it is necessary to draw the attention of even those kind of men to the fact that it is the ordinary fan who plunks down his little two-bit piece who makes or breaks the baseball game. When a move is made which is unpopular with the majority of the faithful, then the grand old game of the club takes its toll on the sponge as to try to continue, well throw up the sponge. The shifting of the scene of baseball activities was a mistake to which baseball fans in general will never reconcile themselves. Hillhurst park is too far out and will never be a success as a baseball park. As a place for playing football it cannot be improved upon, being located in the midst of a settlement of football supporters, but as a place for baseball—may, nay, Pauline. Baseball is due to "kick the bucket" within the next few weeks unless something is done at once about getting a convenient park. Some of the directors now are in favor of a return to Victoria park, and if a meeting of the directors is called, Mr. Savage will undoubtedly find that the recent action is not a popular one, even among his own associates.

CHESTY Cox is quoted as having ordered the Boosters to play to no more baseball games until the game of water polo played last Saturday in Edmonton, is taken before the league executive. There is no doubt in the minds of most fans that Chesty's crew were bounced out of the championship, but this latest move of Bassano will cost it all the friends which it gained by the disgraceful incident in Edmonton. To be a good loser, as well as a good winner, is one of the most important principles in sport of any kind. To get up on a high horse and holler and refuse to play any more is the kind of sportsmanship die played on the back lots by the kindergarten league. The Boosters will have far more friends if they go on and fight for the second pennant than as though they quit cold now. The world admires a man or a team which fights all the way, even though it does lose, but a quitter has no standing in sport.

THE MARKETS

WINNIPEG GRAIN.
Winnipeg, Man., July 9.—On the local wheat market the trading was more active, the demand was improved, and prices were higher, special reports on crop conditions were interpreted by the trade as more bullish than was expected.

World conditions also were less favorable and options opened 7-8¢ higher for July and 1-4 cent higher for October, and following the opening, advanced a further one cent for July and 3-8 for October. Later fluctuations were wider than usual, the market being narrower and prices closed 1-3-8 cents higher for July, and 1-8 cent lower for October.

Continental cables were erratic, and Liverpool, although opening 1-4-8 to 3-8 cents higher, closed unchanged to 1-2 cent lower and tone easy. American markets were 1-8 cent lower to 3-8 cent higher at opening, but were also influenced by the Free Press interior report being construed as of a more bullish character than was expected, and prices advanced 3-8 cents to one cent higher, and closed in Minneapolis 1-4 cent lower for all months.

Chicago closed 3-8 cent lower for July and 1-4 cent lower for September, and 1-4 cent higher for December. The cash demand was much improved, all grades being more in request, with prices 1-2 cents higher for No. 1, 2, and 3, and although receipts are continuing heavier, offerings were not liberal.

Oats were steady in price, but the volume of trading was small, and conditions very much less favorable than at the same date last year. The price for oats is only 1-4 cent stronger. Flax is one of the most interesting features of the market, and under present conditions of the growing crop, October flax at \$1.87 looks like a buy. Receipts were 375 cars today.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary
Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap cull lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.

The Calgary Furniture Store, Limited ANNUAL MIDSUMMER SALE

This Sale is the Talk of the Town

How better could we express our appreciation of the generous patronage of our loyal customers than to offer in return great price concessions on our \$500,000.00 stock, including all departments?

THIS ANNUAL MIDSUMMER FURNITURE SALE demonstrates the great strides made by the Calgary Furniture Store, Limited. This Sale marks a triumph for the store that is heralded as THE BEST FURNITURE STORE IN THE WEST. The trade victories of the past stir us on to larger undertakings. This is a safe place to trade---values, service---the best. Prices---the same. COME DOWN TO THE SALE.

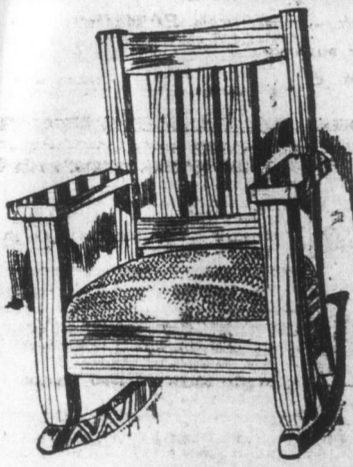

THESE BARGAINS WILL FILL BOTH STORES THIS WEEK

10 to 50 per cent. Reductions on Every Piece of Furniture in Our Mammoth Stock

The clearing out of such enormous quantities offers opportunities for savings not possible outside of this store, for nowhere such variety and quality in fine furniture, and nowhere such radical price reductions as in The Calgary Furniture Store's Annual July Furniture Sale. Every former price quoted here or marked on the special sale is the original price at which the piece was sold and has not been boosted or inflated to widen the gap between the old and the new figures. Your savings are exactly as stated in the items and on the tags attached to the hundreds of other bargains crowded out of this ad. today.

CREDIT PLAN WILL MAKE BOTH ENDS MEET—The Calgary Furniture Store—One of the oldest and most reliable concerns on the Prairies, furnishes homes for ambitious people on a most helpful part-payment plan. We permit you to pay your account in small payments from month to month or week to week, as you earn your money. It is pre-eminently the most generous plan of credit service that has ever been offered by any home furnishing institution on the Prairies. It enables the wage-earner to have his home furnished as comfortably as the man of means who employs him. It enables people of moderate income to have things they want and enjoy life more abundantly. There are others, like us, who furnish homes on credit, but they have small businesses. We run our store on a most conservative and economical plan, and any person who will foot up his bill can see that we will make a big saving for him. Comparison is solicited.
