South African Situation.

New York, Feb. 16.—A special cable to the Heraid from London, says: A very curious sentiment prevailed in London yesterday in regard to the condition of affairs in South Africa. It was one of supreme hopefulness; so much so that there has never been any such buoyancy of sentiment since Lord Roberts reached Pretoria. There is absolutely no doubt that news has reached here from German sources, showing that the Boets are pretty nearly at their last stand in their continual harassing. The developments of Lord Kitchener's well laid plan leaves them in a well nigh hopeless condition.

This view of the situation is also taken upon the Stock Exchange. The government felt itself called upon yesterday to deny that General Sir Evelyn Wood was going to the front. The whole idea is simply ridiculous. He is not only stone deaf, but he is not in the least persons grata with the King, whose wishes he went out of his way to oppose in the matter of certain appointments a few weeks ago.

The King of Portugal's departure last evening, I hear from a diplomatic source, has been intentionally made much of. There is no doubt now that during his stay here a most important understanding has been come to between Great Britain and Portugal.

This is given still greater weight by the

You gain nothing but added pain and loss of self control by giving up the preceding hours to nervous dread. Have you an interview with friend or acquaintance in which unpalatable truth must be told?
