ASPIRIN AT ALL

sister, Mrs. Harry Hines. are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for

Pain generally. Made in Canada. Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of take treatment from Professor Ham-Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped

with their general trade mark, the "Bayer Cross." WILLIAMSTON

AMONG THE THE DAILY MISERY **METHODISTS** OF ILL-HEALTH

Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

159 Avenue Pius IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured. At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-atives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid-all of which I owe to

BRIDGETOWN

Made in Canada

WE know the sale of the Chevrolet Light Delivery Wagon depends on the satisfaction it gives in actual service. We also know that its valve-in head motor eliminates fuel waste and delivers fullest power, that its ample bearings cut friction to a minimum, that its perfect balance—strength without weight—in-sures stability and makes a maximum of power available for actual hauling.

These are only a few of the obvious reasons for Chevrolet ability, durability and economy.

OF YOUNC CATTLE (Experimental Farms Note) There is no time that gain can be

There is no time that gain can be made more prolitable with young stock than the period from 6 months to 2 years of age. The tendency very often, however, is to let the stock "rough" it during this time particularly during the winter, not even giving a maintence ration, and the young stock too often passes the winter without having made any where without having made any apperciable gain, the lariner depending upon the pasturge during the summer to put the animals into saleable condition, The result of such a practice is that lighter steers are obtained, or heifers are delayed in maturity with corresponding loss stock to best advantage during the cold months, roots or succulent feed to the raiser. In order to carry of some kind should be provided. Such feeds will take the place of may aud grains thereby lessening the cost of wintering, and at the same time make it possible for the animal to make the best use of such dry feeds because of aiding in the dry feeds because of aiding in the digeston of both the roughage and meal given.

Young stock cannot make gain without protein feeds of some kind without protein feeds of some kind. This may be supplied by feeding plenty of clover hay. The importance of using good clover hay for urged. The practice too often is to feed the young stock the poorest hay, whereas the opposite should be the rule if best results are to be

Of the grains, wheat bran, crushed oats and oil meal are the best. These are mixed in the proportion of two parts each of the bran and oats to one part of the oil meal. It is risky to feed cottonseed to young stock particularly to those under oneyear

With roots, or ensilage together with clover hay, a good growing ration is possible without grain feeds. In roots or ensilage are available a poor quality of hay, or good straw may be fed along with some grain to furnish the protein requirements, poor quality of hay, or good straw and good growing conditions there-

Good feeding is more important following the housing of the stock in the fall than at any other time. During the early winter is when particular attention should be given to the feeding of young stock, as in this time they respond more read ily to good treatment and if any skimping in feed is to be practiced let it be during latter part of the winter at which time stock seems to do with less feed than earlier in the winter when the days are shorter

and the temperature lower. The placing of young stock upon a dry ration after coming from the pasture in the fall is very likely to be attended with stomach troubles, and if the supply of succulent feed is limited let these be fed in moderation at this time to avoid too great a change in feed. A gradual change to the dry feed as the winter passes will prove to be less risky.

Care should be exercised in feeding a meal mixture, particularly if no succulent feeds are given, as very often a desire to bring on an unthrifty animal quickly may, if too heavy feeding is practised, result in increasing the unthrifty condition through impaired digestion

At the Kentville Station' five yearling heifers fed 30 pounds of roots, 8 pounds of hay and 3 pounds of m al as started above per day during November and December and no grain for the following five months made an average gain dur ing this period of 225 pounds and an average gain for the year of 304

Five fed the above ration during the seven months made an average gain of 276 pounds and a gain for the year of 350 pounds. It should be stated that the summer pastures were not what one would wish, but they were fairly average upland pas-

The importance of well ventilated warm, well lighted stables with plenty of good water and opportunity for exercise, with dry quarters and plenty of bedding material should not be lost sight of in planning to make most profitable gains from young stock,

> W S BLAIR, Superintendent. Experimental Station. Kentville, N. S.

WINTER SPORT IN THE PROVINCES

Fast Hockey Promised in Inter-Collegiate Fixtures This Winter

After last year's defeats, Mount Allison looked for a strong "come back" thus living up to an excellent hockey record. Was hard "hit" by eligibility rules. Other colleges claim to have an excess of material this

That Collegiate Hockey in the Maritime Provinces is about as fast as any played, if not faster, goes without saying, last year Dalhousie's crack team defeated the Amherst Ramblers, one of the very fastest teams playing amateur hockey in the Maritimes. At the play off in Moncton between Acadia and U.N.B.. a very fine exhibition of the winter pastime was also played. Acadia the winner of this game was defeated in the play-off with St. F.X. for the Maritime Intercollegiate title. St. F. X. must then have been playing fast hockey indeed.

Mount Allison won the respect of sporting enthusiasts by the splendid losing game she played last year she was especially hard "hit" by the intercollegiate eligibilty rules which forbid studentswho have not reached a certain standard in their work to take part Intercollegiate Ath-This was indeed unfortunate for Mt. A., for she had in the University residence, a team, which if allowed to play, would undoubtedly have been a most formidable contender for the big title. This fact as evidenced when she played this a term in Eastern Canada, but team an exhibition game with Aca- the West it signifies something of dia, winners of the western Section vivid importance. no practise in team-work, they easily tied the score. FOX RAISING

Some interesting facts regarding ox farming are forthcoming from the Veterinary Director General Dr. Torrance. In an article in The Agricurtural Gazette of Canada for November he tells us that the main difficulty connected with the raising of foxes in captivity is the protecting of them from disease. It is nor does he have any particular connoticeable that the female instead of cern about life after death. The refree, rarely produces more than two, because the heroic conduct of many the average for the farms in Prince who died made the manner in which the average for the farms in Prince Edward Island being at the rate one met death far more important one met death far more important one said at settling time, "Or I'll sell you my house for \$75,000. It cost me \$60,000 three years ago." small laboratory fitted up for the er. studying of the diseases and par-

asites that affects the animals.

It is often recommended to those who use patent medicines that they try the nostrums on a dog. When King Umberto of Italy was living he acted upon that advice in the matter of using hair dyes. The exper-iment is described Intimacies of Court and Society.

To Queen Margherita, who was somewhat vain of her undeniable good looks, Umberto's habit of neglecting his appearance was a trial.
When his stiff, wiry hair, standing up straight over his head, had become very gray, she often tried to get him to dye it, sending into his dressing room every dye upon the

One day he got out all the dyes and shortly after the queen's pet dog a white spitz, ran into her room per-fectly black. The King followed, laughing at her dismay, and said;

Whizz a minute and walk a Mile

That's tobogganing—a swift slide down hill, and a long walk up hill. A cold is generally like that—it comes quickly and easily, but it is a hard uphill pull to get back to normal health.

GAMBLING IN NEW YORK

Fortunes Made and Lost in a Single Evening. One Man Lost His \$75,000 House and Hat

More money is being bet each night in New York City than is wagered in Monte Carlo in four consecutive weeks.

This is not provable of course, Monte Carlo's business has been well press agented, while NewYork gambling is kept behind closed doors and is restricted to after dinner hours. Never in the history of the city has so much money been circulated over the green cloth as

There are no Canfields now adays of course. The few professional gamblers who still operate in the city conduct piking games compared to the big open games of the past. Most of the professional operate so called clubs in Nassau County or on the out skirts of the city for the "automobile trade." The games are big enough sometimes, but they deal in chicken feed compared to those that go on in the course of private clubs that have sprung up recently.

Gambling of this sort is among men who get rich almost over night. They regard a dollar with the same respect a treasury agent might feel for a counterfeit, German mark. They will play high, wide and hand some on almost any proposition that meets their fancy, but always among themselves. In order to gamble with some privacy many swell clubs have been established in which the service is perfection, the cost i snot considered at all, and the secrets are

usually well kept. In one such club there was a game Mount Allison hockey team did not succeed in defeating a team from ate to tax each other for the granting players who remained in on the showdown between the three showdown between the three showdown between the three showdown between the s of "stud poker" the other night. On deal, the hands were:

One possible flush. One possible straight.

One possible full house. "I'll bet \$20,000" said the man with the possible flush. Both his little playmates called him. He went home that morning with \$92,-Reports from Acadia, Kings, St. is entitled to receive not more than 000 cash packed in his various pockets. In this particular club there i offered or cashed under any circumstances whatever by any member of club in the club. Cash alone goes as far and as fast as its possessor can carry it. Quick action is the rule in these

clubs. Old fashioned draw is seen poker, with all its variations, has the call. One of the variations is just as interesing as biting the detonator out of a T.N.T. cartridge with one's favorite tooth. In its all black cards are "wild." Those familiar with the tame or domesticated variety of "stud" will see at a glance that this offers extraordinary openings for ruin. "Crap" is a handy way of spending the evening too. There is a game in one uptown club in which no one thinks of betting less than \$100. Hardly a night passes in which at least one \$10,000 bet is

Some of the old timers stick to bridge whist however. There is a yarn of a game within the last month at one of the clubs in which

one player lost heavily.

With the \$5,000 left the unfortsuccess more general, under the dir- of the immortality of the soul be- unate player began to cut cards at recton of Dr. Torrance, research cause there are too many other \$1,000 a card. He had regained his work has been undertaken.
