NO. 41

ANNAPOLIS SS.

In the Municipal Council

ANNUAL SESSION 1910

Ordered that the report of the attending physicians at the County Hospital and County Home as read be received and adopted.

PHYSICIAN'S REPORT.
To the Warden and Councillors,
Municipality of Annapolis Co.
Gentlemen:

We beg to lay before you our Annual Report of the County Hospital for Insane and County Home.

Statistics County Hospital:

Number of inmates Jan. 1, 1909	39
Admitted during the year	21
First Total	30
Discharged during the year	4
Died during the year	7
Remaining at close of year	49

The ages of those dying given in the order as they occurred were 79, 81, 74, 82, 90, 80, 73 and 82. There were no deaths during the year from tuberculosis.

Statistics of County Home

Number of residents at beginning of year	44
Admitted during the year	21
Discharged	17
Died during the year	5
Remaining at end of year	48

The causes of death were as follows:

Epilepsy, age	34
Cancer, age	78
Heart Disease, age	56
Senility, age	96
Tubercular Meningitis, age 6 mos.	

There were no accidental deaths in either institution or serious accidents during the year. At both institutions their former record of efficiency and tender care has been maintained and very little can be suggested to add to the comfort of these County Institutions.

Every year the need of a large hall or recreation room becomes more apparent and we are glad to note that Superintendent Hiltz, who has been zealous in this work has been successful in soliciting a number of private subscriptions to this end, and with the aid of the Council this want could soon be supplied.

Lighting by electricity so as to wholly do without oil lighting seems almost a necessity in the line of safety. Telephone connection at night with the town and physicians is another safeguard that could be had without much expense.

We can again cheerfully commend Superintendent and Mrs. Hiltz of the County Hospital and Superintendent and Mrs. Myers of the County Home, in their untiring efforts to serve and care for those in their charge, and in both places the relation throughout the year has been most amiable.

Bridgetown, Dec. 31, 1909.

Upon reading the petition of R. W. McCall and upwards of twenty others freeholders in the County of Annapolis praying for a change in the road leading from Litchfield to Fundy Section at what is known as McCall's Hill, said change to begin near the top of hill on west side and run a- longside of hill some 30 rods more or less to the south of the old bridge then to cross Brook where it needs but small bridge and the report of the Committee being read.

It was ordered that the report as read be received and adopted.
Report to become operative when the Government takes possession of the land to build road.
Following is the report.

(Report omitted)

Upon reading the petition of Chas. Baker and upwards of twenty others freeholders in the County of Annapolis in re road from Stronach Mountain Road to properties of Charles Baker and Enoch Downie and upon reading the report of the Commissioners, H. M. Harris, Geo. Watson and

Jacob Downie.
It was ordered that the report as read be received and adopted with the clause in reference to the grant of \$20. struck out.
Following is the report:

REPORT RE MARGARETSVILLE ROAD

To the Municipal Council
of Annapolis County,
Gentlemen:—

We, the undersigned members of the Committee appointed at the last semi-annual session of your honorable body, to examine into the matter of making the road leading from the Stronach Mountain Road to properties owned by Chas. Baker and Enoch Downie, a public road and adding same to road district No. 1 ward 1, beg to submit the following report, viz:

That we have faithfully carried out your instructions and find that in accordance with a deed given by Samuel Downie to Beriah Baker, the road first mentioned is or should be two rods in width but on account of the encroachments of the line fences of Harry Baker and Amos Downie in various places said road is not two rods wide. That in our opinion if said line fences were placed on the line, leaving said road full two rods wide, this would be sufficient for all practical purposes.

We, your Committee, would therefore suggest that in view of the foregoing facts a survey of the Baker and Downie lines be made and the owners thereof be instructed to move fences to line, that said road, a half mile in length, more or less, be added to road district No. 1, ward 1 and that it be a public road.

We would also recommend that a grant of twenty dollars be made to reduce the grade of a sharp hill on said road and other improvements subject to the control of the road master of District No. 1, Ward 1.

Jas. Slocumb, steward of the fishing schooner, Lorne B. Snow, of Digby, made a short visit with his parents, Mr. and Mrs. Edwd. Slocumb here on Saturday and Sunday. The above schooner has a crew of twenty-three men, carries ten dories and on this last trip brought the largest catch of haddock ever brought into Digby. The vessel was about five weeks out and caught 133,000 lbs. with only weather for eight sets, this making \$111.50 for the high dory and an average share per man of \$90.00 for the trip. Mr. Wm. Snow of Digby is captain of the lucky vessel.

The snow and ice have completely disappeared from this section, which necessitates the breaking up of all lumber operations here for the present.

The load of hard pine which was due here last fall is expected some time next month, when more active operations may be resumed here. The concrete wall of the ore pit is now being put in. There are only eight or ten men employed at the work now.

Capt. Wm. McGrath and wife have both been on the sick list. Mrs. McGrath is better. We hope soon to see each of them convalescent.

Mr. David Connelly is slowly improving, and we hope soon to hear of him being entirely well.

AUDITOR'S REPORT.

We, the undersigned, the auditors of the town of Bridgetown, for the year 1909, beg leave to report as follows:—

We have carefully examined the books in every particular and find them correct.

We append a statement of unpaid general and water taxes for the years 1907, 1908 and 1909. The unpaid taxes on property for the separate years are shown under appropriate columns while all arrearages of water are put in the one column.

We are pleased to note that every available tax for the years 1907 and

1908 has been collected.

Many arrearages appear in cases where the names have been carried along in the rate book while the parties in reality were not in town and not liable for assessment. It will be seen that the uncollected rates are reduced to a minimum.

We also note that the overdraft at the time of the audit compared with the same for 1908 is materially less.

The sinking funds have been provided in every case for the various town debts and the proper amounts have been appropriated to them.

During 1909 the old water debentures were redeemed by the issue of new debentures the particulars of which appear in the foregoing statement.

Dated at the town of Bridgetown Jan. 24th 1909.

Announcement

The American custom of "coffee for breakfast" is gaining quite a foothold in Canada, with the result that there is a largely increasing demand for a coffee of really good quality.

In order to meet this demand I decided some time ago to put up a coffee the quality of which would be fully equal to the best that we are accustomed to get when we visit the United States.

It has taken a full year to make preparations, to secure and install the most improved machinery, to decide, after innumerable tests, on the exact standard of coffee which would be most pleasing in flavor, strength and fragrance, and to select and import the high-grade coffee required. This has all been done, and the coffee is now being sold under our brand, "Estabrooks' Red Rose Coffee."

Not only is the coffee of a very fine quality, but we have been fortunate in finding a new and greatly improved process of manufacture; crushing instead of grinding, a process which removes the chaff or skin of the bean and breaks the kernel into small, even grains. This is described on the label of the tin, and will be described more fully in later advertisements.

You know the success that has attended "Red Rose Tea," a success due entirely to the superior quality of the tea and good business methods. Every guarantee made on behalf of "Red Rose Tea" will apply to "Red Rose Coffee." It will always be just as represented.

Our travellers are just starting out, and it will be about two months before they can visit all the merchants in the Maritime Provinces. By the end of that time we expect to have the coffee in practically every store that sells Red Rose Tea. In the meantime, if you will write and give me the name of the merchant you deal with, I will see that you can get a tin at once.

It is put up only in one grade and only in sealed tins; 1 lb. and ½ lb. 40c. per lb.

PLANKED BEEFSTEAK.

How to Prepare and Serve This Tasty and Appetizing Dish.

To plank a beefsteak the first important step is to select your plank. This should be of hard wood, well seasoned, preferably of live oak, hickory, cedar or cherry, and it can be made to order of a size to fit your oven, or you can buy a good one at the house furnishing stores costing from 50 cents up, according to size. One that is used for fish should not be used for meat, as the fish plank should not be washed, simply scraped each time after using, and its flavor will impregnate the meat. If you have a homemade plank you can use galvanized wire strips to hold the steak in place, but the purchased ones have a wire attachment for this purpose, and some of them have also grooves to hold the juices of the article that is being cooked.

For planking a sirloin or porterhouse steak is usually selected. It should be cut thick and be of the best quality. If you desire your steak well done it must first be placed on a broiler and broiled both sides, one side being better done than the other. Then fasten the well-cooked side to the plank, which should have been heated in the oven until sizzling hot. Finish the broiling under a gas flame or before a broiling fire of coals. For rare or medium done steak fasten raw on the hot plank—hot enough to char it at once.

When broiled to suit the taste sprinkle with salt, pepper and a little paprika, dot with bits of butter and set on the opened oven door while you trim with the various vegetables. These should be all ready so as to lose no time. There should be hot mashed creamy potatoes that can be piped around the edges of the plank, using a pastry tube, or the potato can be mounted into little rosettes at either end or equidistant. Between these arrange little mounds of well-seasoned peas, carrots or cauliflower. Fill in open spaces with bits of parsley or watercress or surround the potato with a wreath of the green. A lemon cup filled with maitre d'hotel butter can be placed at either end of the plank if desired. Mushrooms often appear as a part of the garnish, and from the meat juice made to be passed when serving the meat. Of course the steak is sent to the table on the plank, setting it on a large silver or tray.

Flowers Which Won't Mix.

The florist frowned as he took up an order for a table decoration. "That will never do," he muttered. After calling up the customer and suggesting a change, he told his new clerk a few things. "You must never take an order that calls for a mixture of mignonette and roses," he said. "A centerpiece of those two flowers wouldn't last half through the luncheon. They simply wilt one another. I don't know why, but they can't get along together."

"It is true of many flowers. Pansies, for instance, last twice as long if they are not combined with any other flower, and the same may be said of violets, Jonquills and daffodils, on the other hand, seem to get a new lease of life if you combine considerable green with them. Carnations will go all the pieces if you combine them with roses, although the roses do not seem to be affected."

"It is more striking in combinations of green with flowers. If you try to use an entirely different type of foliage from what the flower is used to, it won't last long. So I never put feathery foliage with lilies of the valley, for you know its natural foliage is a thick leaf. I never use thick leaves with carnations, for their foliage is of the feathery type. It isn't as though the flowers fought, but they seem to grieve at being misunderstood."

"What We Want Are Facts."

The sentence "What we want are facts" is correct, says The Literary Digest. This decision is based on the following from Gould Brown's "Grammar of English Grammars," page 239: "What is a kind of double relative, equivalent to that which or those which" (making it singular or plural according to the meaning). On page 300 of the same work occurs the following: "Obs. 9. The pronoun what is usually of the singular number, though sometimes plural, as: 'I must turn to the faults, or what appear such to me.—Byron.' 'All distortions and mimeries, as such, are what raise aversion instead of pleasure.—Steele.' 'Every single impression, made even by the same object, is distinguishable from what have gone before and from what succeed.—Kamer 'Elements of Criticism.'"

Rather Ambiguous.

Rev. Mr. Dozem had not gained the golden opinions of his congregation, who were unanimous in asserting that he was foolish and conceited. He considered himself greatly slandered and, meeting an old German friend of his in the street one day, began to retail his woes, ending up by saying: "And the churchwarden actually called me a perfect ass. My cloth prevents me from resenting insults, but I think I shall refer to it in the pulpit next Sunday. What would you advise?"

"Mine friend," replied the German soothingly, "I know not, but I think that all you can do will be to yell to bray for them, as usual!"—Pearson's.

An Extraordinary Flower.

One of the most extraordinary flowers in cultivation is Hall's amaryllis, which reverses the order of nature by blooming in midsummer without any foliage. Ordinary bulbs bloom in the spring and rest in summer, but Hall's amaryllis suddenly appears out of the bare ground during the dry season. This extraordinary plant has fragrant, rosy lilac flowers which are banded with yellow. In the spring the leaves make their growth and die, and after a long interval of rest the flower stalks appear with the strange effect here described.—Garden Magazine.

Fifteen Years of Agony

"Fruit-a-tives" Promptly Cured Him After Doctors Had Failed To Give Relief.

CHARLES BARRETT, Esq.

Harbor au Bouche, Antigonish Co., N.S., March 24, 1909. "I wish to express my sincere appreciation of the great benefit I received from taking 'Fruit-a-tives.' I suffered from Biliousness and Dyspepsia for fifteen years and I consulted physicians and took many kinds of ordinary medicine, but got no relief. I was in miserable health all the time and nothing did me any good. I read the testimonial of Archibald McKeechie, of Ottawa, and I decided to try 'Fruit-a-tives.' I have taken a number of boxes of 'Fruit-a-tives,' but before I had taken one box I felt better and now am entirely well. 'I am thankful to be well after fifteen years suffering, and I am willing to have this statement published for the sake of other sufferers, and to them I strongly recommend 'Fruit-a-tives.'"

Obituary.

MRS. WILLIAM B. TROOP.

Mrs. William B. Troop, of Granville Ferry, widow of Hon. William Botsford Troop, a member of the executive council of the Holmes-Thompson government, died at the Halifax infirmary last evening in the 68th year of her age, says the Herald. She came to the city a few days ago to undergo an operation of a very serious nature, and although little hope was entertained for her complete recovery, there were signs of improvement until late yesterday, when she sank rapidly. Mrs. Troop, who was the third wife of Hon. W. B. Troop, leaves one daughter, Miss Wilhelmina Troop who lived at home. Mrs. V. E. Harris wife of the rector of Bedford, and Frank R. Troop, of Granville Centre, are step-children of the deceased.

Empire Liniment Co., Limited.

Bridgetown, N. S.

Gentlemen,

This is to certify that I have used Empire Liniment with splendid results on my cow which was badly hooked, the liniment cleansing and healing the wounds in a wonderful manner.

For use in the stable I believe it has no equal.

Yours very truly, DAN. McDONALD.

Port Mulgrave, N. S.

November 8th, 1908.

Paris, Jan. 23.—The floods tonight exceed all records and are assuming the proportions of a national disaster in the north, east and west, hundreds are homeless, and ruined. Although it is impossible at the present time to estimate the damage it will be very great. The rise in the waters continued all day.

At Paris, the Seine, which registered 6.48 metres yesterday, had reached 7.4 at noon today. The normal height of the river at this season is 2.48.

LA GRIPPE

Arrested, and Consumption Cured
Mr. G. D. Colwell, of Walkerville, Ont. was stricken down with La Grippe in 1905 and it left him in a very bad condition. He says: "I was all run down and bordering on Consumption. I could not sleep at night, had awful sweats, and coughed nearly the whole time. This is how I was when I began to take Psychine, in a low nervous state; but from the first bottle I began to improve. It did marvels for me and brought me back to health in no time, making a new man of me. It fortifies the body against the attacks of La Grippe and is a sure preventative. I always take Psychine if I feel a cold coming on and it puts me right in no time."

Clean Within!

Dr. Morse's Indian Root Pills Purify the Blood and Prolong Life

Witness health at 70 due to Dr. Morse's Indian Root Pills.

If as much intelligent care were given to keeping the body clean and pure within as well as without we would see more healthy, vigorous old men and women. The daily bath does its part by keeping the pores of the skin open so that they throw off much of the body's impurities, but it is more important that the bowels and kidneys should be kept regular and active. If the bowels fail, as they often do late in life, to move regularly at least once a day, the waste matter from the food accumulates, decays, poisons the system and upsets the stomach. If the kidneys are sluggish the impurities which they should filter from the blood remain and cause rheumatism. Dr. Morse's Indian Root Pills regulate the bowels, stimulate the kidneys and open up the pores of the skin. The result is a body clean within—a pure, red blood—good digestion—and a hale and hearty old age. Three generations have proved the value of Dr. Morse's Indian Root Pills, and their sale is steadily increasing all over the world. 25c. at all dealers' or from W. H. WHAT IS WORN.

The Smart Stocking of the Summer. Effective Braiddings.

The sheer lisle gauze stocking is to be the stocking of the season, and to insure it a hearty welcome it has been made extra long and turned down to the depth of three inches. This, it is thought, will overcome its aptness to break and tear from the strain it is

GIRLISH GOWN OF FRENCH LINEN.

subjected to from the hose supporters. Both silk and lisle hose are shown in the new taupe shades. Pink is one of the favorite colors of the season, and it is relieved by the inevitable touch of black. Cretonne in Dresden pattern is again used on coat suits of white or light colored serge. Black velvet collars and cuffs are also modish, with buttons to match. The cut shows an attractive shirt waist suit for a young girl of pale blue French linen, with the collar and cuffs embroidered with white.

JUDIC CHOLLET.

This May Manton pattern may be had in sizes for girls from fourteen to sixteen years of age. Send in cents to this office, giving numbers (blue, 62, 63, 64, 65), and they will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

FORECAST OF FASHION.

Here's Your Fur Hat For the Coming Winter. The "toque Russe," it is predicted, will supersede the peach basket hat for winter. As the name implies, the new hat is of Russian origin. Sacrifice of brim is offset in the toque by increase of height. In spite of the laps and folds in which the brigand effect is sought, the upright measurement may run anywhere from a foot to eighteen inches. A design in tubular beading or in gold or silver cochards clasps directly in front aigrets, gouria

or paradise tips which rise straight and feather out above the body of the hat.

This combination garment is made of nainsook with lace trimmings. The special feature is to be found in the fact that there is absolutely no fullness in the waist line or over the hips. The drawers are roomy and joined to a smooth yoke. The corset cover is plain at the waist line, with slight fullness at the neck edge, which is regulated by means of a beading threaded with ribbon. JUDIC CHOLLET.

This May Manton pattern comes in sizes from 31 to 41 inches bust measure. Send 10 cents to this office, giving number (602), and it will be promptly forwarded to you by mail. If in haste send an additional two cent stamp for letter postage, which insures more prompt delivery.

Opening the Jar.

"Have you heard from Old Boomerang since she went home?" asked Mr. Tucker, putting his feet on the table. "I want you to stop calling mamma Old Boomerang," said Mrs. Tucker. "What makes you call her that?" "Why, I was just wondering when she was coming back, that's all," answered Mr. Tucker. "You needn't get sore about it."

UNION BLEND TEA

the Tea that satisfies

YOU are the best judge of how much Union Blend Tea is worth—but you can't pass an opinion until you have tried it. You are in no position to say—as I say—that it's worth 40c. a pound because it goes easily half as far again as any 80c. tea. You don't know the truth of that until you use it for yourself.

But that's a fact. Sixteen ounces of Union Blend will make as much tea as twenty-four ounces of any ordinary kind. And not only as much tea, but better tea—more fragrant, that has more aroma, more smack to it.

There is only one way for you to prove this—buy a pound and try it. Or if you are in doubt, let a half pound packet tell the story. Your own teacup will convince you if you will give it the opportunity. Look for my picture on the end of the packet.

40c

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement. The tea itself is worth the price, fully.

I Take all the Risk

THERE would be no sense in my spending thousands of dollars in advertising if I couldn't back up what I say. If you try Union Blend and don't like it, I am worse off than before, for I can never get you to try again. To make money, I've got to make satisfied customers—and I do. Of all who once buy Union Blend ninety-five per cent. continue to use it. You know what that means, don't you? What will your decision be?

Cured His Rheumatism In Three Weeks.

James LeB. Johnstone, a prominent member of the Citizen's Band, of Chatham, writes:

"I contracted Rheumatism by exposure, five years ago, and was ailing for two months and in great pain all the time. I got Father Morrissey's No. 7 Tablets and took them for about three weeks, when the Rheumatism all left me and I have had no return of the pain since."

Father Morrissey's "No. 7" Tablets have cured thousands of this terribly painful disease.

Rheumatism is generally brought on by exposure, but is really caused by Uric Acid in the blood. This Uric Acid is an irritating poison, formed from the waste matter of the body. The kidneys should remove it, but when they fail it poisons the blood, and, settling in the joints, causes Rheumatism.

"No. 7" Tablets clear out the clogged-up Kidneys and stimulate them to perform their task of filtering the Uric Acid out of the blood. When this is done the Rheumatism simply and naturally vanishes.

"No. 7" Tablets cost 50c. At your dealer's. 28

PROPRIETOR AND PUBLISHER.

WEDNESDAY, January 26, 1910

The St. John Sun in the following editorial advocates a permanent scheme of road improvements in which the Monitor-Sentinel heartily concurs and gladly gives it editorial space. The article will be read with interest by our farmer readers in particular.

The Moncton Board of Trade has been concerning itself with the question of good roads, and has issued an appeal to similar organizations throughout the province with a view to affecting radical changes in our present system of road control and construction.

The man who lives in a town or city rarely appreciates the economic importance of good roads. He knows by painful experience that a bad country road spoils many a pleasure trip, and that he is frequently hindered from extending his business into the rural districts by the difficulties of transportation. But by a little thoughtfulness the city man can understand that the condition of the country road is a matter of vital importance to the farmer who must use it continually. The farmer's produce and supplies must pay a heavy tax on every yard of bad road over which they are hauled.

There is no great and successful transportation company that has not spent large sums of money in reducing the cost of haulage to a minimum. Grades have been reduced at great expense, curves have been straightened, the road bed has been improved, everything has been done to reduce the cost of work.

On a well paved city street a pair of good horses will haul on the level an enormous load. That load, however, must be reduced in proportion to the roughness of the road and the sharpness of the grades. The farmer must determine his load by its most difficult part. Over the average road of this province the farmer is able to carry only about one-half and sometimes but one-quarter of a reasonable load. That less, multiplied by the number of farmers in the province, makes a total of loss which would bankrupt any transportation corporation.

Any attempt at reform must recognize existing evils. The people will not grow enthusiastic over the expenditures of public money for road construction until they are convinced that the money so appropriated yields a reasonable result. Whether justly or not, the people believe that too large an amount of the present expenditure serves a political purpose. Whatever the case in that respect, it is everywhere apparent that the money now spent yields little of permanent value. Our system is faulty in two essential respects. The money provided does not all reach the roads, and the method of construction is not satisfactory.

We must, therefore, before urging a large expenditure insist upon the employment of an expert road-builder. The question is a plain engineering problem and is not impossible of solution. Systems applied successfully elsewhere may not serve our local needs. But the trained man can by experiment meet our peculiar conditions.

We cannot afford to build and maintain our roads without the assistance of the farmers. Such a policy might be desirable, but it is not possible. Well populated rural communities have a good deal of local pride and under proper conditions such communities may be depended upon to improve their own highways.

It is necessary, however, to stimulate that local pride and offer the consequent effort practical leadership. The Ontario practice of defraying a portion of the expense of the construction of roads conforming to a certain standard of excellence has many commendable features. It has worked well in Ontario; it should succeed here.

Moreover, we have in the province certain roads that are easily distinguished as main roads. The governmental control of such roads is a matter which might very well receive serious attention. Such model roads would not only be valuable in themselves, but there would be a tendency to bring the other roads up to the same standard.

Under any circumstances, the need is urgent. We should shortly make a beginning in a permanent scheme of road improvement.

EISNER-GILLIATT.

The second interesting event of a festive nature to occur during a few months at the residence of Mr. and Mrs. James Gilliatt took place on Wednesday, 19th inst., when their second daughter, Miss Lalia Maud was joined in wedlock to Mr. LeRoy Eisner. Mr. Burpee Gilliatt, brother of the bride was best man and Miss Eva, sister of the bride, acted as bridesmaid. The bride attired in white silk colienne, princess style, with lace yoke and applique trimmings with sash and bridal veil caught up with orange blossoms presented a very pretty appearance, as did also the bridesmaid gowned in white. The ceremony was performed by Rev. Mr. McNeil before quite a large number of guests, principally relatives of the bride. The wedding march was rendered by Mrs. Burpee Chute. After the ceremony congratulations and a dainty repast followed.

The numerous presents were well selected, useful and valuable. The gifts of Mr. and Mrs. Eisner, parents of the groom were a handsome parlor sofa and dining table, of Mr. and Mrs. Gilliatt, parents of the bride a bedroom suite. Other gifts consisted of pretty furniture silver, linen, glass, bric-a-brac, etc. Mr. and Mrs. Eisner will reside in their new and up to date residence on the fine farm of Mr. Gaius Eisner. Many friends join in wishing the newly wedded pair a happy and peaceful voyage through the journey of life.

Would You Provide for the Care of Canada's Needy Consumptives?

THEY SEND YOUR CONTRIBUTIONS TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES. MAIN BUILDING FOR PATIENTS.

A national institution that accepts patients from all parts of Canada. Here is one of hundreds of letters being received daily:—

John D. McNaughton, New Liskeard, Ont.: A young man not belonging here, and suffering from, it is believed, consumption, is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admittance? NOT A SINGLE PATIENT HAS EVER BEEN REFUSED ADMISSION TO THE MUSKOKA FREE HOSPITAL BECAUSE OF HIS OR HER INABILITY TO PAY.

Since the hospital was opened in April, 1902, one thousand five hundred and twenty-four patients have been treated in this one institution, representing people from every province in the Dominion. For the week ending November 20th, 1909, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a cent for their maintenance—absolutely free. The other twenty-nine paid from \$2.00 to \$4.00 a week. No one pays more than \$4.00. Suitable cases are admitted promptly on completion of application papers.

A GRATEFUL PATIENT

Norah P. Canham: Enclosed you will find receipt for my ticket from Gravenhurst, hoping that you will be able to oblige me with the fare. I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there.

TAKING THE CURE IN WINTER AT MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES.

The Muskoka Free Hospital for Consumptives is dependent on the good-will and gifts of the Canadian public. Money is urgently needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

Will you help? Where greater urgency?

Truly, Canada's greatest charity.

Contributions may be sent to W. J. Gage, Esq., 84 Spadina Ave., J. S. Robertson, Sec'y-Treas., National Sanitarium Association, 847 King St. W., Toronto, Canada.

JOHN LOCKETT AND SON

LOCAL AND SPECIAL

Some newsy items from Granville Ferry arrived late for publication this week.

Rev. M. C. Higgins, Waterville, has declined the call to the Baptist church of Salisbury, N. B.

The wife of Rev. Wm. Driffeld, rector of Digby, suddenly expired from heart disease on Wednesday last while sitting in her chair at the dinner hour. Mrs. Driffeld was a native of England.

An error in our types last week prevented us from saying that the 2nd lady's prize at the skating carnival was won by Mrs. H. H. Johnston who wore a pretty gown representing a "Lady of the Empire."

The Annapolis County Sunday-School Association convenes tomorrow at the Presbyterian church Bridgetown, and Friday at Clarence church, both afternoons and evenings. Lack of space prevents our publishing programs.

Mr. J. W. Beckwith returned yesterday from a visit at North Sydney where he visited his daughter, Mrs. Elliott, and at Halifax, where he visited his son, Dr. Beckwith. Mrs. Beckwith, who accompanied him on the trip, has not yet returned.

Percy E. Woodworth, a carpenter and a native of DeLap's Cove, Annapolis County, was killed by a fall while working on a new high school building at Lynn, Mass. He was a son of William E. Woodworth who with his family moved to Lynn last summer.

On Wednesday last we reported the accident by which DeBlais Anderson cut his leg while in the woods. A few days later another young man, Will Munro, son of George Munro, while working in the same place, cut his leg also, in a similar manner. Both lads are making satisfactory recovery.

We regret to learn just before going to press that the Clarence bundles of Monitors last week went astray. We cannot account for it and have not at present, time to investigate. We have supplied some subscribers with extra copies and will be glad to supply others if requested, so far as we can.

Two local cases were tried in the Supreme Court at Halifax last week Pratt vs. Balcom and Langley vs. Marshall. In the case of the former, which was an appeal from the decision of Mr. Justice Longley it was directed that the local Judge should take further evidence if necessary. In the latter case judgement was reserved.

The thaw which set in last week has removed the last of the snow and ice, and the frost is coming out of the roads making travelling in some parts very difficult. The river is quite open and free from ice, an unusual event for January. We have been spared the serious consequences which have followed the break up elsewhere many parts of the country suffering from serious floods.

Yesterday was Nomination Day for Mayor and three Councillors. Messrs. Karl Freeman and W. J. Hoyt received nomination for Mayor. Mr. W. R. Calder, retiring Councillor, was persuaded to accept re-nomination and C. B. Tupper and Arnold MacKenzie were nominated on the same ticket. Messrs. W. H. Burns and Edward Craig were also nominated for councillors by the members of the Law and Order League.

Councillor G. H. Dixon returned from a business trip through Digby county last week on Wednesday last in a serious condition of health. Two physicians, Dr's Armstrong and Burns were summoned and found him suffering from pleurisy, and it was for several days feared that other complications would set in. We are pleased to state, however, he is now on the mend and was able to sit up for a short time yesterday.

A meeting of the Annapolis-Kings Medical Society will be held in Lawrence town on Thursday, 27th inst. in the evening a public meeting will be held in Phinney's Hall, when the subject of Tuberculosis and its suppression will be discussed. The speakers of the evening will be Dr. DeWitt, Wolfville, and Dr. A. F. Millar, Medical Director of the Provincial Sanitarium and other local speakers. A large attendance is hoped for.

A farewell dance was given last Wednesday evening in honor of Mr. Hay, who was transferred from the Union Bank staff of this town to Halifax. This evening a similar event will take place in honor of Mr. Vroom Hoyt, who leaves in a few days for Halifax having partly recovered from a serious affection of his eyes which necessitated a vacation from his duties on the Bank staff. The Mitchell harpers will furnish the music.

Our population is increasing. On Friday last a girl baby arrived at the home of Mr. and Mrs. Robert Marshall, and on Sunday last a boy weighing eleven and a half pounds came to the home of Mr. and Mrs. Reuben Chute.

On Monday forenoon last our esteemed friend and neighbor, Deacon I. B. Snow, passed away very quietly. Death to him being a happy release.

Our teacher, Miss Troop, opened school last Monday, after a lengthy vacation.

STEAMSHIP RUMORS

The latest steamship rumor, says the St. John Sun, is that instead of the Eastern S. S. Co. running their boats direct between Boston and Digby next summer that the D. A. R. will run the S. S. Prince Rupert during the tourist season to connect with the Eastern boats in St. John, forwarding their passengers to Digby at once, and that another boat, probably the S.S. Yarmouth, will also cross the bay every day with the passengers, mail, freight, etc., which usually travels over this route.

Round Hill

The recent rains have caused a great freshet in the Round Hill brook, the largest that has been known for some years. The cellars of Messrs William LeCain and Tupper have been filled with water. Saturday evening about midnight the anchor ice gave way and let the immense body of water off or the result might have been more serious. Around the cottage occupied by Mrs. Dargie was one sea of water and persons wishing to go in or out had to do so by means of a ladder stretched to her front door.

The Messrs Douglas of Caledonia are the guests of their aunt, Mrs. William Baxter.

Miss Blanche Ritchie was buried here on Tuesday last. Rev. J. Reeks conducted the service. Much sympathy is felt for the bereaved parents.

Mr. and Mrs. Vernon Spurr are visiting the former's parents, Mr. and Mrs. E. Spurr.

Mr. Bernard Lister has gone to take a three months course at the Military School, Halifax.

There will be a dance given in the Round Hill Hall on Thursday evening.

Miss Marion Saunders has been accepted at St. Lukes Hospital, New York and will leave home the first week in February.

Miss Winnie Piggott spent the latter part of the week with Miss Georgie Armstrong.

No Soap-Shrunken Flannels

The woolen season is with us again. Every housekeeper knows what's in store for her, if she uses yellow rosin soap for washing. The woollens and flannels shrink and pucker up alarmingly small.

Don't let your household suffer this winter from uncomfortable underwear. Try the Taylor way of washing and keep woollens their original size.

Taylor's Borax Soap

washes woollens without shrinking, and brings them out fresh, clean and free from any "soapy smell." It is not necessary to boil the clothes—you don't even have to rub them, except very soiled spots. The borax softens the water, so less soap is required. It purifies and sweetens, and leaves the hands soft and white.

HOW HE GOT EVEN.

A travelling man who stutted about all afternoon in trying to sell a grouchy business man a bill of goods, and was not very successful.

As the salesman was locking up his grip, the grouchy was impolite enough to observe in the presence of his clerks:

"You must find that impediment in your speech very inconvenient at times."

"Oh n-no," replied the salesman. "Every one has his peculiarity. S-stammering is mine. What's y-yours?"

"I'm not aware that I have any," replied the merchant.

"D-do you stir y-your coffee with your r-right hand?" asked the salesman.

"Why, yes, of course," replied the merchant, a bit puzzled.

"W-well," went on the salesman. "t-that's your p-peculiarity. Most people use a teaspoon."

AN INQUISITIVE INQUIRY.

It is related of the president of a famous college that at one time he allowed his wife to persuade him of the uselessness of fire insurance on household goods, and he allowed his policy to lapse. But better judgment asserting itself, he finally renewed his insurance. The same day a fire in his wife's rooms destroyed some of her dresses, which the professor enjoyed as a good joke.

In due time the president of the insurance company wrote President Blank this letter:

"Dear Mr Blank,—We enclose cheque for \$500, paying your fire claim under our policy B6007.

"I note in passing over these papers that the policy went into effect at noon, Dec. 10, and the fire did not occur until 3 p.m. Why the delay?—'Circle Magazine.'

Mr. F. M. Chipman has gone to New Glasgow to attend the Provincial Farmers Association.

Walter DeLaney had the misfortune to be kicked in the face by a horse one night last week. One of the calks of the shoe broke the left cheek bone under the eye, penetrating into the roof of the mouth. Dr. Sponagle is in attendance and no serious results are anticipated.

The condition of the sick, Mr. I. E. Neily and Mr. Albert Gates is unchanged.

Mrs. Geo. W. Charlton spent a few days of last week at Deacon W. Morse's.

A comet was visible in the lower western horizon soon after sun down last Thursday night.

Mrs. N. M. Vidito entertained a few friends very pleasantly last Thursday afternoon and evening.

The District Sunday School Convention was held in the church Friday afternoon and evening. Both services were well attended and were very interesting. In the evening Rev. J. W. Brown, a former pastor of the Church, and now interested in Home Missions and S. S. work, gave a very instructive object lesson which was thoroughly enjoyed by the older ones as well as the children.

A SHOCKING DEATH AT MEADOWVILLE.

News of a most shocking accident comes to the Citizen from Meadowville, Pictou County. One day this week the five year old daughter of Mr. and Mrs. Goodwill Clarke, of that place, was playing about the dooryard. At the time her grandfather was chopping wood, and when in the act of bringing the axe down the little one suddenly ran beneath it, receiving the full force of the blow on the neck, severing or nearly severing the head from the body. Death was instantaneous. Needless to say, the family is prostrated with grief, the aged grand-parent being nearly frantic. Mr. Clarke has many friends in Truro who deeply sympathize with him in the terrible calamity that has befallen him and the rest of the family.

NECK GARNITURES.

A favorite way of dressing the neck just at present is with a high band of velvet finished either with a buckle chon. If a buckle is used it is usually placed directly in front. The velvet band is very high, and may be either crushed or plain. It is sometimes fastened at the back, or if a chon is used at the side then it is under that. A frill of fine linen or batiste or one of dainty lace is sometimes used to finish this collar, but it is not necessary. The use of the frill depends entirely on its becomingness to the wearer. The chon with which such collars are fastened is very flat, being of the velvet made into a round ornament gathered in the centre and perhaps finished with a covered button or a jewelled ornament.

AN OPEN LETTER.

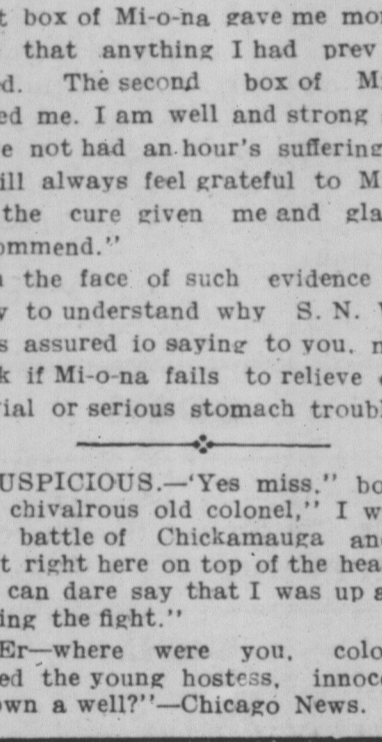

Results so Surprising That They Seem Marvelous Are Common to Mi-o-na the One Dependable Stomach Remedy.

Mrs. J. A. Pillow of North Street, Gananoque, Ont., says: "Mi-o-na is worth its weight in gold for quickly and permanently curing dyspepsia. I became so bad that I was unable to leave my bed. There was a constant burning in my stomach, I would belch up gas every few minutes and could eat but very little, as the food would quickly ferment and make gas that caused a serious depression of the heart. Perspiration would break out all over my body, I would become so weak that I could not stir and would often fall on the floor in a helpless state. The pains in my stomach were terrible. I could find no position in which to sit or lie without suffering, and was so nervous that the least noise affected me. Headaches were constant. I would become dizzy and spots would appear before my eyes. I had no ambition to get around and everything seemed to tire me. The first box of Mi-o-na gave me more relief than anything I had previously tried. The second box of Mi-o-na cured me. I am well and strong and I have not had an hour's suffering since I will always feel grateful to Mi-o-na for the cure given me and glad to recommend."

In the face of such evidence it is easy to understand why S. N. Wearle feels assured in saying to you, money back if Mi-o-na fails to relieve either trivial or serious stomach trouble.

SUSPICIOUS.—"Yes miss," boasted the chivalrous old colonel, "I was at the battle of Chickamauga and was shot right here on top of the head. No one can dare say that I was up a tree during the fight."

"Er—where were you, colonel?" asked the young hostess, innocently. "down a well?"—Chicago News.

How to get a pure white loaf

THE object of all expert bakers and cooks is to make a pure white loaf And this object is attained by the use of

PURITY FLOUR

Purity is a hard-wheat flour of decidedly superior whiteness. It bakes into a pure white loaf. So, you see, to get the really beautiful white loaf you must use PURITY hard-wheat flour.

Five Roses Appeals to You, Madam, as Final Judge

Do you know, Mistress Housewife, they say that you don't know good stuff from poor; that price is your only guide; that you wouldn't know good flour if you saw it, and wouldn't take it except it were cheap!

In short, that anything labelled "FLOUR" is good enough for you.

We deny this libel on your discrimination, and appeal to you, Madam, to nail the impeachment. Nothing short of the very best is good enough for YOU, and we know if you have been getting miserably bad flour, it wasn't your fault—but—**FIVE ROSES.**

When "baking accidents" vex your soul, and hubby mutters about "bread and projectiles, concrete rolls, the vileness of some (?) baking. Don't scold the cook: maybe she didn't know about FIVE ROSES either.

But all this is over now. We're going to tell you about good flour, so that you may have self-reliance based on actual knowledge, avoiding cheap brands, whose sole claim on existence is mere cheapness married to the average homemaker's ignorance of flour values.

lan't that so, Madam?

Just think, Mistress Housewife, it has taken all of twenty-one years to perfect FIVE ROSES—to attain our majority in quality milling. You surely admit we must know how to make good flour, don't you? And we make it as good as we know how.

FIVE ROSES, Madam, is the flour you should try, and all other housewives who want their money's worth. You get it when you buy FIVE ROSES—and keep on getting it. Because it is "standard value," the same to-day as yesterday.

You can prove them woefully wrong, Madam, who say you don't appreciate good flour.

Have your grocer to-day show you a neat cotton bag of FIVE ROSES— Tell him "send it up"—for the sake of a better table? Madam, we know you will do it.

How are you? 'Pretty well, pretty well; er—' 'You don't seem to remember me.' 'Why—er—your face is familiar, but—' 'Don't remember my name, eh?' 'I must confess I don't,' said the absent-minded man.

EASE FOR PILES! 'I Used to Suffer, But—' This is the experience of a lady who used to suffer from this terrible ailment, but found a cure. The writer is Mrs. E. Boxall, of 97 Scott St., St. Thomas. She says: 'I consider it my duty to write of the benefits derived from using Zam-Buk. For some months I was a constant sufferer from bleeding piles. I used a great many ointments, but got no relief until I tried Zam-Buk. It cured me, and I have had no return of the trouble. Since my cure I have advised several others suffering from piles to use Zam-Buk, and in each instance have had satisfactory results.' If you suffer from this ailment apply Zam-Buk at night before retiring, and you will be satisfied with the result. A contributory cause of piles is often constipation, and a mild laxative will greatly aid the operation of Zam-Buk. Piles, fistula, inflamed patches, and sores due to blood poisoning, etc., Zam-Buk is equally effective. It is a soothing, cooling balm, which stimulates the cells beneath the epidermis and epithelium to natural action. It relieves the tension which in the case of piles causes such acute agony, and in all respects will be found eminently satisfactory. Zam-Buk is also a cure for eczema, ulcers, cuts, burns, bruises, rashes, chapped hands, frost bite, cold sores, bad leg, etc. All druggists and stores sell at 50c. box, or post free for price from Zam-Buk Co., Toronto.
