# BRITISH ADVANCED

## British Reduce German Defences at Many Points From Somme to Lens—Further Canadian Advance Astride Arras-Cambrai Road—French and American Gain of Two Miles From Juvigny on Leon.

### ALLIED WINGS ADVANCE BOILING ALL FOR ENEMY

#### British Attain Point Seven Miles from Armentieres While French Face Further Crossings of Canal du Nord—Remarkable Gains in Centre, Delivering Large Stretches of Territory from Germans.

All along the western battlefield the Germans continue to give ground before the entente allies. Daily the extent of events accentuates the increasing gap between the German lines and the "habitability" of the German high command to hold back the aggressors.

Where two months ago great salients projected into the allied front, these have either been flattened or are in the process of being bled out, and in some instances the allies themselves have driven in wedges that seriously menace the enemy.

With the Marne and Picardy sectors now virtually all reclaimed, the wings of the present allied offensive are moving in a manner that bodes ill to the Germans. In the north the wings on the Lys salient southwest of Ypres gradually is bending in under voluntary retirements and the pressure of Field Marshal Haig's forces. Following the fall of Kemmel, the allied line has been moved further forward until it now rests almost in front of the Estaires-La Bassée road, less than seven miles southwest of Armentieres. By the wiping out of this salient the

menace to the channel ports has been overcome.

On the southern wing north of Soissons the French and American troops are continuing their progress, notwithstanding the violent opposition of the enemy. The Villages of Leury and Crecy-au-Mont have been captured, and crossing the Allette, a footing has been gained in the woods west of Coucy-le-Chateau, through which passes the railroad line running from Chauny to Leon. Large numbers of prisoners have been taken in these operations.

From Arras southward to the vicinity of Noyon, the British and French troops have made further remarkable gains, gauged both by the extent of the territory delivered from enemy hands and its strategic importance for further manoeuvres.

**British Gain Big.**

Peronne, the last important town in German hands on the Somme River, has been captured by the British, who have passed on eastward and northward with steady strides, notwithstanding the resistance of the enemy. Bouchavesnes and Rancourt and the high ground adjacent to them also are British, and Field Marshal Haig's men

### MENACE REMOVED TO CHANNEL PORTS

#### Fall of Kemmel Due to Heavy British Pressure. NO HALT FOR ALLIES

Paris, Sept. 1.—There is no halt to the entente allied progress. The occupation by the British of Mont Kemmel in the Lys salient endangers the railway lines from Lille to Hazebrouck. It was the strongest position in the zone of the Lys. The Germans in their offensive captured it only after terrible sacrifices, yet they relinquished it in the face of heavy British pressure. The fall of Mont Kemmel insures the safety of the channel ports.

To the south where the French are operating against the Germans along the Canal du Nord there have been violent artillery duels. Seven miles south of Peronne at Epeneaucourt the French have forced another crossing of the canal, and two miles northeast of Noyon they have captured the village of Rouy-le-Petit.

Unofficial reports are to the effect that the British have reached the outskirts of Lens, the famous coal-mining town north of Arras, and that configurations are visible behind the lines in the neighborhood of Lens and as far as Armentieres. These areas are taken as an indication that it is the intention of the Germans to retreat in this general region.

### GREAT RAILWAY CENTRE CAPTURED BY ASSAULT

#### Suburbs of Lens Also Reached by British—Eight Other Towns Carried in Heavy Fighting—Bulk of Lys Salient Recovered From Germans—High Ground at Morval and Bullecourt Taken.

**BRITISH CAPTURES DURING AUGUST**

#### Over Fifty-Seven Thousand Prisoners With Many Guns

London, Sept. 1.—A British official communication says: "In the month of August, 57,218 German prisoners, including 1283 officers, were captured by the British troops in France. In the same period we have taken 657 guns, including over 150 heavy.

Over 550 machine guns, and over 1000 trench mortars have been counted. Among the other captures were three trains, nine locomotives, numerous complete ammunition and engineer dumps, many hundreds of thousands of pounds of gun and trench mortar ammunition, as well as small arms, munition, and immense quantities of war material of every description."

### CANADIAN BRIGADE ADDS TO LAURELS ALREADY WON

With the Canadian Forces in the field 10 p.m., Aug. 30, via London, Aug. 31.—A line has been consolidated roughly from Vis-en-Artois to Hendecourt, but bulging outward in its centre. A hard struggle had taken place for Lupton Wood, about the centre of the line, and with this won the Crow's Nest further south. In the direction of Hendecourt, another advance carried our outposts forward to the main road from Hendecourt to Dury from the hills immediately behind the ruined village of Cheriy.

These operations can be clearly viewed, this particular battleground forming the opposite side of the valley. Over that crest, stands up the high considerable heights of the enemy line, at this point just west of Haguicourt. This line, once broken, I believe the enemy would have no prepared defence for a very great depth.

At this point today with our posts within 2000 yards of it. Unmistakably, the enemy intends to hold this line at all costs and would be prepared to make great sacrifices to that end. He has his line some of the best troops at his disposal, including the Prussian Guard and some marine battalions.

Two of these advanced to the counter-attack at 12.30 midway, supported by a furious barrage directed on all our positions. At the same time from north of the Scarpe we directed a flanking fire, not only on our infantry, but on our gun positions. This bombardment which continued intermittently throughout the afternoon, was perceived the heaviest artillery concentration brought against the Canadian line this past month. But at one o'clock in the afternoon our troops attacked again with the utmost gallantry, driving home their assault until they had retaken all parts of the original line consolidated that morning. The enemy had overrun it by his massed attacks.

To this line they clung tenaciously throughout the day notwithstanding two successive counter-attacks in force. The task was made more difficult by the partial exposure of both our flanks, the enemy on the left having worked his way into the outskirts of Haguicourt when he directed a crossing on our line, while on the right Hendecourt changed hands more than once. The honors of the day, however, went with this gallant brigade which held all the territory it had consolidated in the morning and accounted for the best part of the division the enemy had brought up to the assault.

Recent operations have not provided a more bitter struggle of infantry

### Australians Carry Mont St. Quentin

#### Brilliant Night Operation Gains Important Tactical Feature—Advance in Lys Salient Approaches La Bassee-Estaires Road.

London, Sept. 1.—British troops continued to advance in the Lys salient, southwest of Ypres. The British forces astide the Bapaume-Cambrai road were driven off with heavy loss. In this neighborhood the English completed the capture of Rencourt-lez-Bapaume, taking a number of prisoners and a few guns. At certain points between Valenciennes and Bullecourt prisoners were taken and our positions improved slightly. Strong counter-attacks in this sector again led to hard fighting. The situation has not changed materially.

**Canadians in Attacks.**

"Further north Canadian troops carried out successfully a local operation immediately across and south of the Arras-Cambrai road, inflicting many casualties and capturing machine guns."

"Between the Scarpe and Scarpe Rivers the English troops pushed their line forward 1500 yards toward the Tringuisle River."

"The increasing demand upon the enemy reserves, due firstly to the enormous casualties in his massed attacks in the first part of the year, and secondly, to heavy casualties in killed, wounded and prisoners by a series of successful attacks by the allies since July 18, has compelled the enemy to withdraw from the Lys salient and without a blow positions of high tactical importance won at a great cost."

"Our troops have regained possession of Kemmel Hill. We have reached the general line of Voormezele and Lindenhoek, La Creche and Douilleux and are approaching Estaires."

London, Sept. 1.—The latest official news concerning the condition of Nikolai Lenine comes in the form of two bulletins by Russian wireless, timed 7.30 and 8.30 Saturday evening, respectively. These bulletins state that his general condition is good, that immediate danger is past, and that no complications have arisen.

The shooting, according to reports, occurred at the close of an audience granted by the premier to two women social revolutionists, who came to discuss the embargo on the shipment of foodstuffs into Moscow. One of the women, it is said, drew a revolver and opened fire on the premier. Lenine's assailant has been arrested.

### French Reach Point Two Miles Off Nesle

Paris, Sept. 1.—French troops have captured Crecy-au-Mont, south of the Allette River. North of the Allette they have gained a footing in the wood west of Coucy-le-Chateau, the war office announces tonight. The statement says:

"During the day there was great artillery activity in the Somme region, and along the Canal du Nord."

"North of the Allette we have taken a footing in the wood west of Coucy-le-Chateau; south of the river we captured the Village of Crecy-au-Mont."

**Take Thousand Germans.**

In the region north of Soissons French troops last night stormed the Town of Leury and captured a thousand Germans, the French war office announced today. French troops have crossed the Somme Canal at Epeneaucourt, seven miles south of Peronne. Bouy-le-Petit, two miles northeast of Nesle, has been captured by the French.

"The text of the statement reads: 'The actions continue during the night. French infantry units crossed the Somme Canal east of Epeneaucourt. Further south French troops captured Bouy-le-Petit. We took 250 prisoners.'"

"In the region north of Soissons the French captured Leury and conquered several centres of resistance which

**Brilliant Night Work.**

In the capture of Mont St. Quentin, north of Peronne and Poulleucourt, more than 1500 prisoners were taken by the British, according to Field Marshal Haig's report last night. The statement says:

"By a daring and brilliantly executed night operation carried out with great skill and enterprise, the Australians seized the hill and Village of Mont St. Quentin, north of Peronne, thereby gaining possession of an important tactical feature commanding Peronne and the angle of the Somme River."

The same operation captured the Village of Poulleucourt. Over 1500 prisoners were taken. Our casualties were exceptionally light.

"With this morning English troops attacked on the left of the Australians. This complete success and captured Marrieres Wood and the high ground east and north of this with a considerable number of prisoners."

"During the day hostile counter-attacks launched against the Australians

WAR SUMMARY

The Day's Events Reviewed

Notable among the British achievements this week-end is the capture of Peronne by the Australians. The reduction of this important railway and road point became inevitable from the moment when the Australians in a previous night operation, captured Mont St. Quentin. This position dominates Peronne. The next step was the storming of the German defensive positions to the west and north of the town. In their operations against this point the Australians took 2,000 prisoners yesterday and 1,800 the day before yesterday. The loss of the railway lines at Peronne will compel the Germans to withdraw to the line of Quesant-Marcoules-Le Catelet-St. Quentin, or the northern three-quarters of the Hindenburg line. The enemy is now desperately striving to defend St. Quentin. The Australian success also throws open the road to Ham, but the distance is apparently too great, being 15 miles, for the British to succeed with an enveloping movement from Peronne.

On the rest of the British battlefront, from the Somme to Lens, London troops next the Australians captured Manners Wood, the high ground thereabout, Bouchavesnes, and Bancourt, attacked. Le Transloy and St. Pierre-Vasat Wood, a formidable obstacle in the old Somme battle days. In the region south, east and west of Bapaume, the British have Velu Junction under their fire and are thus intercepting one line of German retreat. They carried Riencourt, cleared Longatte and Ecoust, captured Morval and Beaulieu, with the high ground therewith, finally held Bullecourt and advanced into the Drocourt-Queant switch line, east, and captured a ridge east of Bancourt and Fremicourt. The Canadians, astride the Arras-Cambrai road, made a local advance and crushed a counter-attack. North of the Canadians, British troops advanced 1500 yards towards Tringule Wood, and also a little east of Mieuxcourt. North of the Scarpe the British pushed forward in the suburbs of Lens. Thus they are gradually reducing the strong Drocourt-Queant switch line.

North of La Bassée Canal, the enemy, excepting a bulge of seven miles depth, has completed the evacuation of the Lys salient. Near Ypres the British anticipated events by capturing Mount Kemmel. This increases the pressure against the channel ports. The British have crossed the Rawe River and reached La Bassée-Estaires road. Large fires at Armentieres and in the Lens district suggest that the enemy is about to retire even further than his lines of last spring. The allies have compelled the evacuation of the Lys salient by the heavy losses which they inflicted on the enemy during the German offensive and their subsequent defeats of the enemy in their own counter-offensive.

On their part the French maintained a steady pressure against the enemy and hit into his line at no fewer than eight points. The fighting raged with extreme violence. Along the Canal du Nord the French carried Campaigne of the eastern bank, had a see-saw fight for Chevilly, finally holding it, and enlarged their gains north of Happincourt and Morinsecourt. They also crossed the Somme Canal and captured Rouy-le-Petit. North of Soissons, they and the Americans carried Juvisy, Crouy and Leury, taking 1000 prisoners. North of the Ailette the French penetrated into a wood west of Conroy-le-Chateau and captured Crecy-au-Mont. Their main objective is the southern portion of the Hindenburg line, including Lezon. They now have Lezon well in sight.

Already the German defeats have forced the enemy to reduce his army by eight divisions to form drafts for the remaining 12 divisions. Thus already the enemy has to draw on his military capital. The British during August have taken 87,318 prisoners, indicating the inflicting of a quarter of a million loss. Trouble is also brewing for the enemy in other quarters. Spain has begun to seize German ships to supply losses from submarines. In Russia the enemy has lost his right hand man, in Lenin, the Bolshevik leader, who is dying or has died from the bullets of an assassin. Lenin was the mainstay of Germany in upholding the peace of Brest-Litovsk, and he was also the cheapest traitor in history, being suborned by counterfeit Russian paper money printed in Berlin.

LEAFS WON SATURDAY IN THE NINTH INNINGS

The Leafs started off lifelessly Saturday, and nearly tossed away the game to the Bisons. It looked like rain early in the afternoon, but at 3.45, with Arthur Combs dry-cleaning the park, they started before a crowd of 1500 on a fair field. The visitors displayed a lot of pep and attack cover race in the ninth and tenth, and scored two runs on a fair field. TROUBLESOME FIRE SUNDAY IN ARCADE

Yonge Street Building Proves Bad Place for Blaze.

LITTLE REAL DAMAGE

Firemen Overcome by Great Clouds of Heavy, Black Smoke.

One of the worst fires that the firemen have had to contend with in Toronto for many years was that which occurred in Yonge St. Arcade yesterday. Although very little actual damage was caused by the flames, the position of the fire made it most difficult to fight, and the dense clouds of smoke were the chief cause of trouble.

The fire was confined to the basement, and practically the whole of the arcade and basement underneath the main entrance for the entire length of the building were burning fiercely. The lights in the roof had to be broken to let the smoke out.

Not One Canadian Soldier Has Lost His Life Going "Over There"

IT IS The Merchant Marine That Keeps Our Men Fed!

FEW of us thoroughly appreciate the part that is being played by the MERCHANT MARINE in the winning of the war.

The submarine cannot claim to have taken the life of one Canadian soldier going to France!

The ships that carry munitions, supplies and FOOD "over there" are merchant vessels, and it was, and is, the main object of the submarine to frighten the men of the MERCHANT MARINE off the seas.

15,000 men of this service have paid the price, but still 300,000 "carry on," regardless of the peril. We are proud to take care of the widows, orphans and dependents of these brave men.

The Government makes no provision for them. Right or wrong, this is the fact: It leaves us with a duty and a privilege—to provide for the dependents of the men of the MERCHANT MARINE, who are nobly dying in the cause.

#### CHRISTIAN SCIENCE HAS SPREAD RAPIDLY

"There is scarcely a normally minded mortal who does not daily hold some thoughts of truthfulness, sincerity, faith, hope, courage, purity and honesty, in other words, some unselfish thoughts which cannot be called material, but which point higher to a universal good."

It was with these words that John C. Lathrop, C.S.B., of the First Church of Christ, Scientist, Boston, pressed home to a large gathering at Massey Hall on Sunday afternoon.

Christian Science, said Mr. Lathrop, was discovered 52 years ago. The First Church in Boston, Mass., was founded thirteen years later. Today there were 1800 organized churches throughout the world, with 41 cities, each containing two churches or societies, and 24 cities with from 2 to 18 churches.

### "7792" AND "9194" CARRY OFF SILVERWARE PRIZES SATURDAY

Duplicates in Williams' Unique Tag Contest Couldn't Elude Their Sharp-Eyed Wearers.

#### BECOMING THE MOST POPULAR ACTIVITY AT THE EXHIBITION.

Seldom have visitors to the Toronto Exhibition shown such keen interest and enthusiasm for an attraction as that being extended to the Williams tag finding contest. It is becoming one of the most popular activities ever put on at the Exhibition. Almost the first thing visitors do on entering the gates is to locate the Williams Edison exhibit, just west of the fine arts building, and receive a numbered tag. Tags seem to be worn on almost every coat or dress that passes by.

Saturday four successful tag seekers returned to the Williams exhibit in company with the wearers of their respective tag duplicates.

The lucky numbers were 7792 and 9194. One number was worn by a man and his wife, who had strolled around for some time before discovering that each was wearing a tag of the same number. They returned to the Williams exhibit highly delighted. The man's choice of a prize was a Rogers silver pickle fork and knife, while his wife's was a Rogers silver meat fork.

Tags of the other number were worn by two ladies who had only had them a short time before they met each other. They thought it was a really delightful idea. Each

took a great fancy for the Rogers silver fork and knife, and both made this their selection of a prize.

The idea behind the contest is simply this: You visit the Williams Edison exhibit, just west of the fine arts building, and receive a tag bearing a certain number. Pin the tag to your coat or dress with numbered side out. As you mingle among the crowds watch for the tag bearing the same number as your own. As soon as you locate the duplicate of your tag, both individuals return together to the Williams exhibit or to the Williams store, 145 Yonge street, and each receives one of the prizes of Rogers silverware as on display.

In addition to the regular prizes valued from \$2.00 to \$5.00, there is a grand prize of a Rogers silver tea set, to be given each of the wearers of the grand prize tags.

No one knows just when the grand prize tag and its duplicate have been or will be given out. Many believe they will make their appearance today, when crowds will be large and interest in the contest very high. However, the safe plan would be to visit the Williams exhibit early and make sure of obtaining and wearing one of the valuable tags.

#### Bloor Car Catches Fire And Runs Wild on Street

Something like a panic occurred yesterday about a quarter past one when a Bloor street car, going east near Clinton street, ran wild for a few minutes. Something went wrong with the controller, and flames burst out in the front vestibule. The motor man, O. Andeos of 7 Beaver avenue, got frightened, and instead of attempting to put the flames out, ran out to the back of the car. The conductor, Sam Bilabi of 145 Lappin avenue, seeing his mate run, took a flying leap and jumped off the back, and in the meantime the car merrily went on by itself, until a passenger at the back pulled the trolley off and so up and down in fear, and one woman, Mrs. Harrison of 96 Major street, received slight injuries to her head when she jumped off. She was taken to the Western Hospital. The fire reels were called and the flames were put out before much damage was done.

#### Speakers Who Will Appear At Exhibition This Week

President Russell of the Exhibition is making every effort to maintain the standard for speakers set during the first week, and on Thursday has arranged a visit from Sir Charles Gordon, vice-chairman of the British war mission at Washington, and Gen. Heddium, ordinance officer to the secretary for war for Great Britain. On Tuesday American Day, the commanding officer of the American overseas battalion which will be here for a three-day visit, will be asked to address the guests at the luncheon, while on Wednesday, Farmers' Day the Hon. Mr. Creger and Hon. Mr. Henry, ministers of agriculture of the Dominion and Ontario respectively, are expected. On Friday Premier Hearst will be the guest of honor and the speaker of the day.

#### PULLS GIRL FROM BAY.

The prompt action of E. McDarrel of 35 Hamilton street, saved fourteen-year-old Sophie Balsom of 4 Arnold avenue from drowning when she fell into the bay at the foot of Cherry street, yesterday afternoon, about five o'clock. McDarrel happened to be on a dredge near by at the time, and pulled the girl out, who was afterwards able to proceed to her home.

The life-saving crew was notified, but when they arrived the girl had nearly recovered.

SATURDAY'S CROWD STAYED TILL LATE

Small Attendance in Morning Swelled as Weather Got Better.

TIME FOR PRODUCTION

Need Emphasized by Speakers if Canada is to Hold Her Place.

Early rains detracted from the pleasure of a visit to the Exhibition Saturday and were responsible for a small attendance during the first half of the day, but when, in the afternoon, the skies cleared and bright sunshine came to dry the grounds, great crowds surged thru the turnstiles, until towards evening the attendance figures mounted higher and higher. The first Saturday afternoon generally sees the grounds filled with Toronto Exhibition enthusiasts and it would have been a keen disappointment if their day had been denied them. When they did come, however, they stayed late and it was not until after midnight that the grounds were empty.

As it was Production and Conservation Day, particular interest centered around the remarks of Hon. N. W. Rowell, president of the privy council; H. B. Thomson, chairman of the Canada Food Board, and Lloyd Harris, chairman of the Canada war mission at Washington. They were the speakers at the luncheon. In the afternoon Hon. Mr. Rowell spoke to some 5000 people from the main band stand, bringing a message of courage and cheer to the men at the front in the first line of defense, the people at home, in the third line of defense.

Mr. Thomson was the first speaker at the luncheon. He dwelt upon the work of the Canada Food Board and said the increase in the export of butter in the last year was 4,000,000 pounds. Export of wheat increased by 45,000,000 bushels. Beef exports maintained 50,000 men at the front and this was because of the splendid co-operation of the people. The people had believed that the cold storage system was a curse, but as a matter of fact cold storage was a great blessing when operated properly. Last winter there was not accommodation to meet the needs.

Canada's situation regarding wheat was explained, the speaker referring to the purchase of tractors as being a success and helping to increase the acreage. Early spring prospects were good, but adverse weather conditions had seriously interfered; 450,000,000 bushels had been looked for, but estimates would indicate about 150,000,000 bushels. "But there is no need for alarm, for what Canada has lost has been made up in the United States. Substitutes for wheat will have to go on in Canada," he said.

Mr. Harris outlined the work of the Canadian war mission at Washington, and explained the reason for its creation. It was the representative of the manufacturers of Canada, who were at one time threatened by having their supply of raw materials cut off. Eventually when the situation was explained the United States officials declared that they wanted Canada to be on the same footing as the States in this regard.

Hon. Mr. Rowell speaks. Touching upon the part Canada was playing, Hon. Mr. Rowell said that Canada, during the last six months of last year, produced 55 per cent. of all 13 lb. munitions, and 42 per cent. of the 45 shells used by the British forces on the western front. "Our output of munitions equals that of any other country," he said.

"We need production today more than ever before. We are at a critical stage. The ravages of the war must not come to Canada, and the way to keep them in Europe alone is to give the men at the front the greatest amount of help possible." The audience cheered Hon. Mr. Rowell at the conclusion of his address.

Arouses Enthusiasm. Great enthusiasm was aroused when reference was made to the Canadians at the front and their wonderful courage and initiative, when Hon. Mr. Rowell spoke in the afternoon. Incidents depicting the heroism of the Canadian infantry and cavalry were told and the immense audience listened intently.

"This war is not being waged by the government, but by the whole people of Canada," he said. "The issue of world domination raised by Prussian militarism must be settled either in Europe or in America. It certainly is greatly to our interest to have it settled in Europe." "Canadians have three lines of defence—one in France, one in Great Britain, and the third in Canada itself. The first and second can only move forward and achieve victory as they are supported and maintained by the third; and it is the third which will ultimately determine the final success which will attend Canada's war effort. "I have just returned from visiting the first and second lines of Canada's defences, and I count it both a duty and a privilege to report to you who are holding the third line, the condition in which I found the first and second.

"You will be glad to know that there is no weakness in the first line. Our Canadian corps is the most effective single fighting unit on the whole western front, and they have just won their greatest victory in this war. "The second line, comprising our reinforcements, is well organized. Our training camps are efficient, and the men have been rapidly and thoroughly trained to provide the necessary reinforcements for the front line wherever they are needed.

"What of the third line? I know it vividly the thought and sentiment of the people of this province when I say the third line will be as staunch and true in upholding the cause of liberty as the first and second. "The 4th brigade, as you know, is composed entirely of Ontario regiments—the 18th, 19th, 20th and 21st—and the men are drawn from every section of the province. The brigade is under the command of Brigadier-General Rennie, an honored citizen of this city, who has made for himself an enviable record at the front by his courage, fidelity and efficiency in the discharge of his important and responsible duties.

An Impressive Sight. "I have seldom looked upon a more impressive sight. Between 5000 and 6000 of our brave Ontario boys, who are for you and for me and for the defence of our homes and liberties had been offering their lives, gathered together under the blue sky of France, with the guns still booming their messages of death, to join in singing the hymns they had learned in this homeland. One could not but be deeply moved as they sang together. "O God, our help in ages past; "Our hope for years to come." I have seldom looked upon a more impressive sight. At the close of the church service I was asked by General Rennie to say

a few words to the brigade. I told them that the people of Canada, the people of their own province, stood behind them to a man; that we appreciated all their service and sacrifice; that we realized that but for their courage and willing service, and the courage and service of thousands of men like themselves, the fair villages and towns of Ontario would be laid waste; we were the towns and villages of France which surrounded us that Sunday morning."

Hon. Mr. Rowell paid a tribute to the leadership of Col. Patterson and told of the gallantry and devotion to duty of the Fort Vaux Horse in the Cambrai offensive. In detail he described their work and told how Col. Patterson won his way to the trenches after being cut off by the enemy. The exploit of a single squadron in fighting its way thru without knowing that the order which sent them had been canceled, was graphically told, as well as the manner in which those who remained got back with "no surrender" on their lips.

"The achievement of this squadron of Canadian cavalry should go down in history like the charge of the Light Brigade," he said. The achievements of the Canadian cavalry brigade in the German offensive of March and April were referred to, and then the speaker gave an eye-witness account of a battle on Aug. 4, which he saw as the commencement of the turning of the tide.

F. A. Russell, president, called for three cheers and the audience responded, adding a tiger.

TORONTO OFFICERS IN CASUALTY LIST

Lieut. Aylmer Lyndhurst Ogden, who went overseas from Toronto with the 51st Battalion as a captain, but reverted to rank of lieutenant in order to reach the front, has been admitted to the Prince of Wales Convalescent Hospital, London, suffering from slight gas-poisoning. Word of his being on the casualty list was received in Toronto by his wife, who lives at the Besscliffe Apartments. Lieut. Ogden is the only son of the late Lyndhurst Ogden of the Toronto Stock Exchange. Before enlisting, Lieut. Ogden was an inspector in the employ of the Imperial Bank of Canada.

The name of Lieut. J. L. Burton, 111 Parrham avenue, son of Lt.-Col. F. L. Burton, commander of the 21st Bantams Battalion, who was recently reported to have been killed in action, appeared at the week-end in the regular casualty list.

Lieut. Reginald A. Cluff, son of Rev. J. Cluff, rector of St. James' Church, Stratford, is reported to be severely wounded in the chest. He graduated from Trinity College, Toronto, in 1915. Lieut. Roy W. Buchanan, reported killed in action, was a brother of W. E. Buchanan, M.P. for Leithbridge, Alta., formerly of Toronto. Lieut. Buchanan was 28 years of age.

More information has reached Toronto regarding the nature of the injuries of some of the officers recently listed. Lieut. I. G. Hargraff, 62 Glen road, listed as wounded, has received a slight gunshot wound in the second finger of the right hand. Capt. W. C. Mitchell, 695 Broadview avenue, has received a wound in the ankle, but a report states it is not a dangerous wound. Lieut. F. H. Paul, 391 College

AMERICAN BATTALION ARRIVES HERE TODAY

The Exhibition authorities were notified last night that the American battalion coming from Camp Grant to spend three or more days at the Canadian National Exhibition would arrive this morning instead of Tuesday. The Exhibition and railway authorities were scurrying until midnight to complete arrangements for the accommodation of the men on their arrival. Details of their participation in the Exhibition program cannot be concluded until the consent of their commanding officer has been received, but the prospects are that the battalion will be seen before the grand stand at both performances today.

MOTOR DRIVER ARRESTED.

Walter O'Halligan of 123 Major street, was removed to the Western Hospital Saturday evening about 4.30 suffering from scalp wounds to his head, received when he fell off a motor truck, the property of the Dominion Express Co., and driven by George Monaghan of 411 Clinton street. The driver was turning into a lane off Euclid avenue, above Bloor, when he ran into a post and jarred O'Halligan off. Monaghan was afterwards arrested on the charge of being under the influence of liquor while in charge of the truck.

SIR ROBERT BORDEN IN TORONTO SUNDAY

Sir Robert Borden arrived in the city yesterday morning from Ottawa, accompanied by G. W. Gates, his private secretary. Few persons knew of the prime minister's arrival, and he spent the greater part of the day resting quietly in his rooms at the Queen's Hotel. He will speak at the Canadian National Exhibition today, and return to night to the capital.

ARRIVAL OF CANADIANS BIG SURPRISE FOR HUNS
(Copyright in Canada, 1918. Special Cable Despatch to The Globe and The New York Times.)
With the British Armies in France, Aug. 27.—Well, it is not to be back on the old, familiar ground again, to be ex-panding through Arras, to get new for another battle at Monchy; through the old, grey streets of Arras, with its ruined churches and broken houses, which hold a thousand mem-ories of this war for us, because it was in April last year that other English and Scotch troops passed that way toward Monchy and Que-snoy, which they attacked again yesterday and to-day. The Canadians were on Vimy Ridge then; yesterday some of them were up by Neuville-Vitasse and Wancourt, which Lon-don troops are fighting near those places.
