TWENTY-THIRD YEAR TEN PAGES—TUESDAY MORNING OCTOBER 17 1899—TEN PAGES ONE CENT

THE INCREASE OF ORDERS FOR THE WORLD FROM NEWSDEALERS YESTERDAY EXCEEDED 1100 COPIES

WAR NEWS FROM SOUTH AFRICA

WET IN THE REGION OF SURRISIE

There is Serious Disloyalty and Much Anti-British Agitation Among the Dutch Farmers of Northern Cape Colony, But They May Not Join the Boers.

Imperial Parliament Will Meet To-Day, When the Opposition Leader May Take a Stand Against the Government's South African Policy—The Two Republics Now Cut Off From the World.

There is very little fresh war news from South Africa this morning. Both Kimberley and Mafeking are out of communication with Cape Town. The military censorship at Cape Town on outgoing cables is also most rigid. The two republics are now cut off from the outside world. Therefore, the news to-day from the scene is but surmise.

The Schreiner Ministry has been forced, through fear, to call out the Cape volunteers. Several of the Ministers have been mobbed in the streets of Cape Town because of their apathy, and Mr. Hofmeyr, the Afrikaner leader, has left Cape Town for fear of mob violence.

A fear has been expressed that the Dutch farmers in northern Cape Colony might join the Boer forces, but there are others who think they will remain loyal to Britain.

London, Oct. 17.—The war news is still in the region of surmise. There are rumors that the Boers have been repulsed at Mafeking and are attacking Vryburg. The Cape Town paper has a despatch from the Orange River, stating that the telegraph wires have been cut between Vryburg and Kimberley, and it is believed that the Boers are taking advantage of the presence of a large gathering of disloyal farmers at Vryburg celebrating Naachtmaal, to attack the town, hoping that the farmers will assist them against the British. The same despatch says the British force at Kimberley is continuing its ability to hold out, but urges the immediate despatch of a relief force.

There's Serious Disloyalty.

This question of a possible rising of the Dutch farmers in the northern portions of Cape Colony is very important.

The Daily Mail's correspondent at Olesburg has been enquiring regarding the matter, and on the whole thinks that the chances are against a rising. He bases his opinion on the prospect of good crops after

HE WILL GET "SOAKED" THIS TIME.

OW PAUL: Well, I haf seen some bad storms on der veldt, but, by shim, I never see so much lightning come from one cloud as dot.

four less years, which he believes will predispose the farmers to peace. Nevertheless, there is serious disloyalty, and much anti-British agitation, in these districts, while the Free State Boers threaten an immediate invasion of Olesburg and Allwal North.

War News Very Meagre.

Despatches from the Cape are very meagre to-night, but they include an important message from Glencoe Camp, dated 3.33 this (Monday) afternoon, announcing that the Boer commando which invaded Natal through Dain's Nek, and after occupying Newcastle, advanced to Denhamer, retired on Ingagane yesterday evening, their transport service being reported defective. This will delay indefinitely the anticipated, and hoped-for, assault on the strong British position at Glencoe.

Another despatch reports the activity on the part of the Free State commando in the neighborhood of Allwal North, on the southern frontier. The Boers advance party, the despatch says, go to the frontier bridge nightly to keep watch, firing shots at intervals as signals. It is believed the enemy intends shortly to try to rush the railway station, with the help of artillery posted on a ridge commanding the town.

Boers Worked in Three Columns.

The Natal invasion was made in three columns at dawn on Oct. 12, through Botha Pass, Laing's Nek, and from Wakkerstroom, the objective point of the invaders being Newcastle. The Boers utilized several thousand natives who were ramping from the Rand, to drive their heavy guns up Laing's Nek.

Defence of Durban.

Precautions are being taken for the defence of Pietermaritzburg and Durban, in the remote contingency that the enemy may invade the province of Natal from the Ladysmith and Glencoe camps.

A despatch from the latter place says the partial closing down of the Natal coal mines will not interrupt the supplies for the Imperial troops at Durban, as was imagined by the Boers, large quantities of coal being already on the water from India. Regular supplies will arrive from India until the Natal mines open again.

An Official Bulletin.

London, Oct. 16.—The War Office issued the following note this afternoon, with

THE ROTTEN SCHREINER GOVERNMENT

Were Brought to Their Sense of Duty Through Fear and Ordered Out Volunteers.

London, Oct. 17.—The Daily Mail correspondent asserts that Sir Alfred Milner is worked to death, and that Cape Town is surging with bitter resentment at what is called the "Schreiner Cabinet's betrayal of Mafeking by its constant refusal to send a volunteer force to its relief."

"Residents of Cap Town have relative-ly Vrburg, and they are furious with Messrs. Merriman and Sawyer, respectively Colonial Treasurer and Commissioner of Public Works, and the Ministers are mobbed whenever they appear in public. Mr. Hofmeyr, the Afrikaner leader, has gone to the country in order to escape the outbursts of indignation."

"On Sunday night the streets were filled with angry citizens, and it was feared that rioting would occur. This, combined with the pressure of the Imperial Government, brought the Schreiner Government to a sense of its peril, as well as of its duty, and moved it to decide to call out the volunteers."

"The Ministerial party also worked its hardest to prevent the ovation to Mr. Conyngham Greene on his arrival from Pretoria, but failed. The volunteers are 7000 in strength, and have 11 pieces of artillery. There is no further news regarding the present position."

FORECAST OF THE QUEEN'S SPEECH.

Imperial Parliament Has Been Called Owing to Two Circumstances.

London, Oct. 16.—The Queen's speech at the opening of Parliament to-morrow will declare that Parliament has been summoned at an unusual date for a specific purpose.

OUR WISHES COUNT IN BRITAIN.

Col. Otter Will Be in Command of the 1000 Canadian Volunteers Being Selected.

Ottawa, Oct. 16.—Canada's wishes count. An important concession which is made to public sentiment in the Dominion, as represented by the Federal Government, is announced in a cable despatch received from the Imperial War Office to-day, by which consent is given to the formation of the Canadian troops into a distinct brigade.

When the Government gave out its official announcement on Friday last in regard to the Canadian contingent, it was stated therein that the arrangements of the Imperial authorities were not altogether satisfactory, as Canada would like to be represented by a regiment of its own with a Canadian officer in command.

War Office Consents.

The Government have been in communication with the Colonial Office and have made some progress in that direction. The despatch that appears in the papers this morning from Mr. Chamberlain is a circular that was sent to all the colonies, and it is only after an urgent appeal that the War Office has now consented to Canada sending a contingent to be regarded as a Canadian brigade.

The Question of Pay.

In reference to the question of pay, the offer of New Zealand to furnish pay during the service in South Africa in addition to the cost of transportation was refused, as Lord Lansdowne, Secretary for War, is of the opinion that the same conditions should be applied in the case of each colony.

Col. Otter will be in command.

HAMILTONIANS ARE LOYAL.

The Tacket Tobacco Co. Does the Decent Thing With Their Volunteer Employees.

Hamilton, Oct. 16.—(Special).—The head of the Tacket Tobacco Company believes in Canada sending troops to Africa to fight for the Motherland. He has announced to his male employees, of which he has over 200, that those who wished to enlist in the Canadian contingent would be allowed 50 cents a day from the company during the whole time of their absence, and would have their old positions on their return. Besides this, he agreed to make out life insurance policies for those going to the front, making it payable to any person they desired, and pay the premium until their return at the close of the war.

After giving this offer two of the employees immediately offered their services.

An Indian Brigade.

Chief Brant-Sero would like to see some of the noble red men in the Canadian contingent. He said this morning: "There are three companies of Indians attached to the Hamilton rifles, who are willing and anxious to go to South Africa and fight the Boers for the great white mother. He

ALL WILL GO AS A BRIGADE.

Canadian Contingent Will Not Be Divided Into Units and Joined to Imperial Regiments.

London, Oct. 16.—The Daily Mail correspondent asserts that Sir Alfred Milner is worked to death, and that Cape Town is surging with bitter resentment at what is called the "Schreiner Cabinet's betrayal of Mafeking by its constant refusal to send a volunteer force to its relief."

SIR LOUIS MUST NOT KNOW.

Minister of Marine Must Have Forgotten Tarte When Speaking in London.

London, Oct. 16.—Sir Louis' H. Davies, Canadian Minister of Marine and Fisheries, was given a banquet this evening by the Canadian section of the London Chamber of Commerce. In the course of an address, the Minister declared that the whole of Canada was united as one man in support of the British Government's African policy of justice and equal rights for all white men.

Carry a vial of Gibson's Toothache Gum with you. Price 10c.

BEER HEADS AND DINEENS' HATS.

The trouble with the Boers is that they have let their heads outgrow the size of their old hats. Such people are intolerable in any society. Other offenders against good form wear hats that have outgrown the style. It will take a month and millions of dollars to dress down the Transvaal Dutch; while \$2 will dress up a man in the newest style of Dineen's Special XXX Derby—the finest hats in the world—for the money. Only Dunlop and Heath hats are better than Dineen's XXX Specials.

Cook's Turkish and Russian Baths. Bath and bed \$1.00. 202 and 204 King W.

Early Chrysanthemums.

The old autumn favorite is just coming into season again. The first and largest set in town are for sale at Dunlop's sales rooms at reasonable prices. Price list of cut flowers on application. 5 King-street west and 445 Yonge-street.

Smoke S & H (Hortensia), 10c each.

CURE A COLD IN A FEW HOURS.

Dr. Evans' laxative gripe capsules. No buzzing in the head, no griping; money refunded. Bingham's Pharmacy, 100 Yonge-street.

TO STUDY THE BOER GAME.

It is said that one of the manoeuvres on Thanksgiving Day will be an attack on the railway communications around Toronto Junction. The railroads will be defended by one force. This, it is thought, may be of benefit to the Toronto contingent to the Transvaal.

PEMBER'S TURKISH BATHS. EXCELLENT SLEEPING ACCOMMODATION. 120 YONGE.

WILLIAM SMITH WAS KILLED.

Kingston, Ont., Oct. 16.—William Smith of Westbrook was killed by a S.T.R. engine at Cataract Crossing this evening.

Smoke Manhattan cigar, 10c. Try it.

A RECEPTION TO SIR CHARLES

Will be tendered by Toronto Conservatives in Massey Hall on Saturday Evening.

A reception will be tendered to Sir Charles Tupper in Massey Hall on Saturday evening next. Speeches will be delivered by Sir Charles Tupper and the city and county members of Parliament. The Conservative Executive for the city of Toronto are now arranging the details.

Sir Charles will leave for Owen Sound this morning, where he will rest for the day. To-morrow he will address a public meeting there. He will visit Woodbridge Fair on Thursday and attend the banquet in the evening. Friday and Saturday will be spent in Toronto.

A MILLION AND A QUARTER.

Steamer Dirigo Brought Down a Valuable Cargo From the Golden North.

IT IS VERY GOLD UP THERE NOW.

J. B. Tyrrell Was Among the Passengers—A Chinaman Found a Big Nugget.

Vancouver, Oct. 16.—The largest shipment of Klondike gold that ever came out over the Lynn Canal route is on the steamer Dirigo, which called here to-day from Skaguay, en route to Seattle. There was nearly \$1,200,000 aboard, of which \$600,000 was sent from the Dawson branch of the Canadian Bank of Commerce, and the remainder was for the Alaska Commercial Co. Purser Lafarge had four armed men guarding the gold. Dawson passengers had little gold. They left the Klondike fourteen days since and say the gold is now intense. The chief passenger is J. B. Tyrrell, author of "Barren Grounds of North Canada."

The biggest nugget that has been found in the Barkerville district of Cariboo has just been brought here. It weighs 17 lbs. and is worth \$314, and was found by a Chinaman.

CHOSEN FOR THE CONTINGENT.

Five Permanent Non-Commissioned Officers Warned to Get Ready for the Transvaal.

At Stanley Barracks yesterday morning the following men of the permanent force were warned for service in the Transvaal: Sergt. Major Borland, R.C.R.; Drill Sergt. Campbell, R.C.R.; Drill Sergt. Holmes, R.C.R.; Drill Sergt. Thompson, R.C.R.; Sergt. Major Reading, R.C.D.

The latter non-commissioned officer will be the mounted orderly of Col. Otter in the Transvaal.

The following corporals of the R.C.R. were examined by Surgeon-Major Nuttress yesterday morning and passed as fit for service: Corp. Le Bar; Corp. Oakes; Corp. Dunlop.

Try Glencairn cigars—5c. straight.

HOW TO SMOKE.

Once your pipe is lighted, "draw" as you breathe, not harder, not faster. Draw naturally. Pipe smoking is a recreation, not an occupation; it is not done to get on with, but to realize and enjoy the greatest degree of pipe satisfaction from a Loewe pipe filled with Westminster Smoking Mixtures—Muller, G. W.

TORONTO QUICK LUNCH, 311 YONGE-ST. NEXT TO WORLD OFFICE. OPEN DAY AND NIGHT. SALADE CEYLON, THE FINEST BOSTON BEAN 5 CENTS, TENDERLOIN STEAK 20 CENTS, OYSTER STEW 10 CENTS.

MARRIAGES.

HOLLEY—KEEFLER—On Saturday, Oct. 14, at St. John's Church, by the Rev. G. H. Rich, Marguerite Isabel, second daughter of R. J. Holley, to Mr. J. K. Keebler, editor and proprietor of the Weston Times, of Weston.

At home after Oct. 22.

SIR WILFRID LAURIER DEFENDS HIS COURSE, AT BOWMANVILLE.

Premier Opens His Ontario Tour and Delivers a Rousing Speech on the Political Situation, Making Special Reference to the Canadian Contingent for the Transvaal.

Bowmanville, Oct. 16.—(Special).—A rousing reception was given to Sir Wilfrid Laurier in the drill shed of this town to-day on the occasion of his first visit to the West Riding of Durham. The whole countryside turned out, hundreds coming from all the outlying townships and adjacent ridings. South Ontario was well represented. Perhaps never before in the history of this province has there prevailed so much enthusiasm. The schools were closed and the teachers and hundreds of the school children flocked to the drill hall. Fully one-third of the audience was composed of women, whose variegated headgear and bright costumes lent a theatre atmosphere to the gathering. Many old men whose hair had grown grey in the service of the Liberal cause formed a conspicuous portion of the auditors.

A brass band was in attendance and did their best to give a patriotic air to the proceedings.

The platform was gaily bedecked with flags of all nations, while a big Union Jack floated above them all. Around the front of the rostrum was stretched a huge banner, bearing the words, "Welcome to the Premier of Canada."

The audience was well ordered and appreciative. The various points made by the speaker were roundly applauded, and the Premier received an ovation that must have done his heart good.

Prominent on the Platform.

F. W. Allen, president of the Reform Association of West Durham, occupied the chair and gracefully introduced the speakers. With him on the platform were: Sir Wilfrid Laurier, Hon. William Mulock, Hon. W. S. Fielding, H. J. Logan, M.P., Mr. McHugh, M.P., Leonard Burnett, M.P., A. Campbell, M.P., James Somerville, M.P., Hon. John Dryden, J. R. Stratton, M.L.A., Robert Bell, M.P., W. T. Lockhart, ex-M.L.A., J. H. Douglas, M.L.A., H. W. Park, ex-M.L.A., W. A. Mackworth, Senator Kent, Ontario; F. W. Kerr, Ontario; D. Burke Shipson, Q.C., R. McLaughlin, Mayor of Oshawa; G. S. Hayde, Mayor of Cobourg; K. Webb, Toronto; Alexander Smith, Liberal organizer, and others.

Hon. Dryden Was Brief.

The Hon. John Dryden, Minister of Agriculture in the Local House, was the first speaker. He was brief. He declared that Sir Wilfrid had not only endeared himself to his political friends but had done a more

WINNIPEG'S TO HAVE A \$1,000,000 HOTEL

President Shaughnessy of the C. P. R. Tells of the Company's Plans.

IS NOW ON HIS TRIP WEST.

First Since He Entered the Chair of Chief Executive of the Big Organization.

GRAIN KEEPS THE COMPANY BUSY.

If the Traffic Increases There Must Be Two Tracks From the Lakes to Winnipeg.

Winnipeg, Oct. 16.—(Special).—President T. G. Shaughnessy of the C. P. R., accompanied by Mr. P. A. Peterson, chief engineer; H. S. Holt, the well-known contractor; William Whyte, manager of the Western Division, arrived here this afternoon. This is Mr. Shaughnessy's first visit to the West since his election as president of the company, and his mission is to inspect the line and keep in touch with the affairs of the company in Western Canada. He will go through to the coast, after making a tour of the branch lines in this province, and will also inspect the Crow's Nest Pass.

A \$1,000,000 Hotel.

Speaking to a reporter, President Shaughnessy stated that he had brought to Winnipeg with him plans of the hotel which the company intend erecting at the corner of Main and Higgins-street. These show a magnificent structure, six stories high and the main portion extending 208 feet on Main-street and 320 on Higgins-street. If a start cannot be made before winter sets in, everything will be got in readiness for an early commencement in the spring. The cost of the building, including train sheds and new general offices, will be in the neighborhood of \$1,000,000.

The Country Prosperous.

Speaking of affairs in general, Mr. Shaughnessy said that the whole commercial world was active at present and prosperity seemed to be everywhere and Canada was getting her share of it. He said that he had made a prediction about the future price of wheat, but as every other commodity was higher, he thought it ought to be so.

Grain Keeps Them Busy.

The grain traffic for Manitoba was keeping the company busy, but the winter sets in, they had done well under the circumstances. Every railway on the continent was crowded for grain cars, and at the present moment the C. P. R. was no worse off than the others.

Double Track Necessary.

Being asked regarding the double track project between Winnipeg and Fort William, President Shaughnessy said that the farmers of Manitoba and the Northwest continued to increase their wheat production, a double track would be necessary in fact, he felt that there would be a double track in the near future.

WHAT M'KINLEY SAID.

The President Defended the Expansion Policy in a Speech at Madison, Wis.

Madison, Wis., Oct. 16.—President McKinley delivered an address here this afternoon to 10,000 people. Referring to the acquisition by the United States of Alaska, Hawaii and the Philippines, the President said: "It is idle to tell me or you we have land enough. With our nation growing with a rapidity unknown in any other part of the globe, with the tide of immigration feeding from despotism in the Old World to seek refuge in our own, there is a constant reflux pouring into this territory that requires more and more territory upon which to settle, and, just as fast as our interests and destinies expand, additional territory is necessary in the north or in the south or in the islands of the ocean."

LOCAL SHOWERS.

Meteorological Office, Toronto, Oct. 16.—(8 p.m.)—The storm which centred in Dakota last night has moved away to the northward. The weather continues calm and unsettled in Manitoba and the Northwest Territories, and very fine and warm from the lake region to the northward.

Minimum and maximum temperatures: New Westminster, 44—50; Kamloops, 46—54; Edmonton, 24—30; Prince Albert, 26—32; Qu'Appelle, 24—28; Winnipeg, 20—42; Port Arthur, 44—54; Ferry Sound, 54—70; Toronto, 50—56; Ottawa, 44—62; Montreal, 44—50; Quebec, 40—48; Halifax, 38—50.

Prescriptions.

Lower Lakes and Georgian Bay—Fresh winds, shifting to southwest or west; warm, with local showers; a little cooler to-morrow.

Ottawa Valley and Upper St. Lawrence—Fresh southerly and south-westerly winds; fair and warm; showers towards night.

Lower St. Lawrence and Gulf—Southerly winds; fair; moderately warm; showers at night.

Maritime—Southerly and easterly winds; fair weather.

Lake Superior—Fresh to strong south-westerly and westerly winds; fair and cooler.

Manitoba—Unsettled, with local showers of sleet; not much change in temperature.

There is good, sound common-sense in the Oak Hall clothes' advertisement on page two of this paper. A couple of minutes only is required to read it.

A Money-Saving Bill of Fare for Wednesday.

This list tells better than anything we could say how important it will be, from a money-saving point, to shop at this store on Wednesday. We have prepared a feast of good things for those who come. The Bill of Fare includes things for home and personal use; reasonable clothing needs for the holiday and useful articles for the household and home. None priced higher than they should be; some far less than you would expect; many at prices that will not come your way again very quickly. But no need to say more. This list tells the story in detail. Some of our show windows add emphasis to the story. These goods at these prices await you on Wednesday morning. Better come at eight o'clock, while assortments are complete and when the best selections are at your disposal:

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 58 YONGE STREET, Toronto. Daily World \$2 per year. Sunday World in advance, \$2 per year. TELEPHONES: Business Office—1724. Editorial Rooms—322. Hamilton Office, 12 King-street east (next Postoffice). Telephone 404. H. E. Sayers, Agent. London, England Office, F. W. Large, Agent, 145 Fleet-street, London, E.C.

A CLEAR CASE OF MISREPRESENTATION. The correspondence between Sir Wilfrid Laurier and Sir Charles Tupper, as published in The Globe yesterday, shows that the Government has not made a true statement of the facts in connection with the sending of the contingent to the Transvaal. Until that correspondence was published we were given to understand that the British Government would not accept the services of a Canadian regiment as a whole, but that it insisted on units of 125 men. Sir Wilfrid sent a copy of Mr. Chamberlain's letter to Sir Charles Tupper, and this letter is now public property. The letter sets out, among other things, that the men must go as units of 125, such being most suitable for the Empire's military requirements; that they must provide their own equipment and horses, etc. The letter ends with a request that the Government should not accept the services of a Canadian regiment as a whole, but that it insisted on units of 125 men. Sir Wilfrid sent a copy of Mr. Chamberlain's letter to Sir Charles Tupper, and this letter is now public property. The letter sets out, among other things, that the men must go as units of 125, such being most suitable for the Empire's military requirements; that they must provide their own equipment and horses, etc. The letter ends with a request that the Government should not accept the services of a Canadian regiment as a whole, but that it insisted on units of 125 men.

It is quite clear that a proposition to send a Canadian contingent, under the authority of the Canadian Government, was never made to the Imperial Government. It apparently had been represented to Mr. Chamberlain that individual Canadians, on their own initiative, had been offering their services for the Transvaal, and he was asked to specify the conditions under which the services thus proffered could be accepted. Mr. Chamberlain gives the information required, and in our opinion, the conditions imposed were quite proper and business-like. If the Canadian Government had proffered an entire contingent, the conditions would, no doubt, have been different. There is no reason to doubt that the contingent would have been accepted as a whole, and all, if it had been proffered by the Canadian Government as a whole. Sir Wilfrid Laurier says that the Canadian Government was conforming to the wishes of the Imperial authorities in sending the men in units, and without a head. The correspondence clearly proves still more apparent from the official cable that reached Ottawa yesterday to the effect that the Canadian contingent need not be split up into units, but may go as a complete regiment, with a colonel and full complement of officers. The Canadian Government had only to place the facts fully before the Imperial authorities to secure the latter's consent to this plan. The Ottawa Government, therefore, fails in its attempt to saddle the responsibility of its policy upon the British authorities. This is a recognition of the fact that the Canadian Government must accept the full responsibility itself. As far as any correspondence published up to yesterday morning goes, it shows that the Dominion Government had made no offer of a Canadian contingent, organized and maintained by the Canadian Government. The friends of Sir Wilfrid Laurier in Toronto began, on Saturday, to press him to change his attitude, and, as a consequence of this pressure and his own recognition of his enormous blunder, he evidently called an offer of a contingent, which offer is now before the home authorities, as admitted by Sir Wilfrid in his speech at Bowmanville yesterday. We ask all our readers, and all Canadians, to read the official memorandum sent by Hon. Mr. Chamberlain, and they will see that the letter, which Sir Wilfrid up to Saturday pretended was in reply to an offer of a fact, a reply to an offer of individuals to go singly, or to raise companies. The British Government very properly construed this to be simply an offer of enlistment, and treated it as such. They had not, at that time, before them any offer emanating from the Government, or from the people of Canada as a whole.

THE GOVERNMENT AND MR. TARTE RESPONSIBLE. The Globe is devoting most of its space these days in apologizing for the Government's Transvaal policy. While the organ is railing at the Conservative papers for inclining to racial prejudices, we notice that the Government is accepting their suggestions as rapidly as it can. The Conservative and Independent press have insisted as strongly as possible that the Transvaal contingent should go as a whole, with a full staff of officers. Mr. Tarte, as autocrat of the Cabinet, insisted that our volunteers should go

in small units, to be absorbed by the Imperial army. The Government has been compelled to adopt the plan advanced by the newspapers. If the Conservative policy, in accepting it, is tarred with the same feather. One more change in the Government's policy the Conservative press still insists on, and that is that the mother country shall not be allowed to contribute one dollar towards the expenses of the Canadian contingent. It is not so much the Conservative press as the people of Canada that insist on this change in the Government's policy, and as the Government had to give way, in spite of Mr. Tarte, to the popular demand for the contingent going as a whole, so it will be obliged to accept the dictum of the people that Canada must pay the expenses connected with the services she proffers. The Conservative papers are right on this question, because they have a united public opinion behind them. It is not the Conservative press that has kindled the fires of race hatred, as The Globe claims, but it is the Government itself, in accepting the fiat of Mr. Tarte, that is guilty of the charge. Mr. Tarte's rabid antipathy to Great Britain is the origin of any display of race hatred that may have been directed during the discussion of this question. And in accepting Mr. Tarte's dictum, the Government has aided and abetted his interests. The Globe fails to perceive that Canada is travelling along with the Empire, and not with Mr. Tarte.

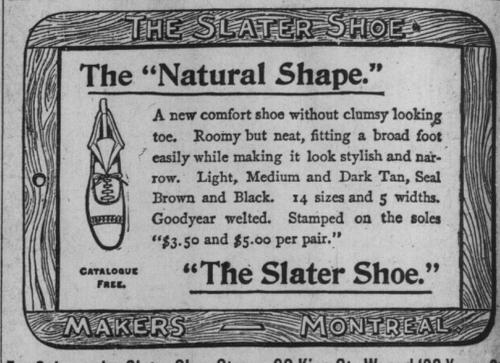

ABOVE PARTY. Sir Charles Tupper said last night that he had been most scrupulous in avoiding any effort to make party capital out of the Transvaal affair; that his speeches and his letters to Sir Wilfrid were put on the broad ground that Canada ought to offer a contingent raised and maintained by the country and that he and his followers in Parliament would heartily support the Government in such line of action. He said that his conduct was exactly on a par with the action of Lord Rosebery on two recent occasions, when he declared that he endorsed the program of Lord Salisbury and would support him heartily in carrying it out.

AN UNBECOMING ACTION. We referred recently to the practice of the Dominion Government in giving out public information to the Liberal press exclusively. We showed how indefensible the practice was, especially in the publication of official information in regard to the South African war and the part that Canada is to take in it. A glaring case in point was the exclusive publication in The Globe yesterday of the letters that passed between Sir Wilfrid Laurier and the leader of the Opposition. One would think that in a case of this kind, at least, where the correspondence of Sir Charles Tupper was being published, that the Government would rise above party and treat the people as citizens and not as partisans—that it would give the correspondence to the papers friendly to Sir Charles as well as to those hostile to him. We notice that Sir Charles Tupper yesterday gave his correspondence to the press indiscriminately. The matter is really not so important in itself as it is an evidence of the rabid partyism that characterizes the Liberals.

SMALL STATES OUT OF DATE. It apparently will not be long until Germany absorbs two or three of the smaller independent states of Central Europe. Switzerland, Holland and Belgium are agitating for a customs union with Germany, according to a Berlin Journal. "The Dutch people seem to realize that, if they wish to maintain their independence in the presence of English-speaking disturbers of the peace, they must seek closer relations with the German Empire. Both nations would profit, as Germany could participate in the development of the Dutch colonies. Holland must, however, increase her navy. On the other hand, she would obtain a sufficient land force from Germany to de-

OXFORD STOVE STORE, 569 QUEEN WEST, OR AT ANY OF OUR AGENTS.

The majority of German newspapers think that union with the smaller countries, except by alliance treaties, is not feasible. Germany would have to protect them without deriving adequate advantages, as they would exercise more influence in the German federation than is their due. If they refused to obey the dictates of the majority they would have to be coerced, and, as it is considered impossible by German authorities like Bismarck to make a lasting conquest of a civilized race, the game would not be worth the candle.

LABATT'S PORTER!

Undoubtedly the Best brewed on the continent. Proved to be so by Analyses of four Chemists, and by awards of the World's Great Exhibitions, especially Chicago, 1893, where it received 96 points out of a hundred—much higher than any other Porter in United States or Canada.

DRAG FROM THE MOUND.

Mr. G. C. Parker of Toronto Says Good Things About the Yukon Territory.

COAL AS WELL AS GOLD THERE.

Says Canadian Wholesalers Should Get After the Yukon Trade Without Any Delay.

A man with whom the Yukon district seems to have agreed very well is Mr. G. C. Parker of Parkers & Co., mining brokers, 61 Victoria-street. Mr. Parker arrived in town from Dawson a couple of days ago in splendid health, and he speaks very well of the country. He was there in the interests of the Teitford-Yukon Mining Company of London, England, and brought back some samples of gold dust taken from their claims. The company is at present working three different properties—one on the Klondike, 100 miles from Dawson, and two on the Hunker Creek. The company's engineer states that one of the latter contains from \$50,000 to \$75,000 in gold. Mr. Parker's party took out \$4000 in gold in three weeks from this claim, which is a hillside proposition in bed rock.

Lots of Coal Lands.
Mr. Parker says there is any amount of coal in the Yukon district and that the Teitford-Yukon Mining Company have secured 1000 for one coal claim which they possess. Chatting with the World, Mr. Parker said that he did not believe that Alex Macdonald, the Klondike King, had failed, as stated. Mrs. Macdonald, from England, has recently joined her husband at Dawson City.

They Have a Combine.
Regarding the price of provisions in the Yukon, Mr. Parker said that the big companies, such as the Alaska Commercial, the Alaska Exploration, and the Yukon, are all in a combine and are all working to get the price of provisions down. He said that the companies are all working to get the price of provisions down, and that they are all working to get the price of provisions down.

As to the cost of meals in Dawson, Mr. Parker said it was a wrong idea there that a man could not get a good meal for less than \$2. He said he never paid more than \$1, and he got a really good meal for that price. Another reason why the price of provisions here were wrong about was the impression that the postal service to Dawson was bad. He received nearly 400 letters every day, and he said that the complaints made were due more to anything else than to insufficiently addressed letters, and Postmaster Harper has a safe of such letters which does not know whose property they are.

Left Dawson.
Mr. Parker left Dawson City on Sept. 21. After that time the Canadian Development Company's boats would not be running, and more trips before navigation closes. Since he got back to Toronto he has been asked by several persons who are expecting the return of relatives, if there are any more boats coming down the Cape Nome, on the Behring Sea, a couple of thousand miles farther on Dawson City. He said that a lot of miners from Dawson City to that locality, Mr. Parker says that a month before he came away from 2700 to 2800 men had left Dawson for these gold fields, and that 2500 more would follow.

Mr. Parker thinks that the Yukon territory affords great opportunities for young Canadians with a little money and enough brains. He himself is greatly impressed with the country and its possibilities.

STRIKE WAS THE REASON

Why the Payne Consolidated Mining Company Passed the Monthly Dividend.

Montreal, Oct. 16.—(Special.)—A meeting of the Payne Consolidated Mining Company directors was held here to-day, there being present: Lieut.-Col. Fred Henshaw, president; Clarence J. McCulloch, Hon. W. H. Forgie, William Hanson, W. G. Ross, W. H. Hoge of New York (vice-president), F. L. Sargent of New York and W. C. Clure, Salt Lake City. After taking cognizance of the strike, and also of the fact that there were sufficient funds to pay three months' dividends, it was thought to be the better policy to suspend the monthly dividend until men can be obtained to work the mine. They believe it better to keep the treasury in good condition. The opinion was expressed that the mine would be working again within a day, and that owing to recent developments, the company would be in a position when work was resumed and earn, if necessary, \$100,000 per week, and only 25 or 30 men would be needed to earn the present dividend. Mr. C. J. McCulloch goes to British Columbia in a few days.

THE GOLDEN CACHE.

A Statement of Interest to the Old Shareholders.

As there have been numerous enquiries in regard to the position of the old Golden Cache shareholders, a reporter called on Messrs. Fox & Ross and his firm, while stating that no shares in the new company were to be offered to the public at any figure, that they thought the old shareholders already advised as to the position of affairs, showed the reports of Col. H. M. Fox, M.A., B.Sc., F.R.S.A., and Professor Henry Montgomery of Trinity University, Toronto. It will be remembered that the old Golden Cache was a property in the Lillooet district, and that the old shareholders were to be offered to the public at any figure, that they thought the old shareholders already advised as to the position of affairs, showed the reports of Col. H. M. Fox, M.A., B.Sc., F.R.S.A., and Professor Henry Montgomery of Trinity University, Toronto.

Golden Cache Property.
Consisting of the Golden Eagle, Golden Stripe, North Star, Ruby and Suno claims and millsite. I have examined the Golden Eagle, in which are two tunnels, each about 180 feet long. These tunnels are situated on the one above the other and more than 200 feet apart. The upper tunnel, or productively one, shows a large space or cavity from which almost all its ore has been removed. This cavity is some 40 feet high, 15 feet wide and 100 feet long. The ore body has been lost at the inner end, but ore to the extent of three feet each side of the still to be seen in the bottom or floor of this cavity, and ore still occurs in small patches upon the walls, the value probably being very low. This ore is almost wholly quartz. The lower tunnel has never yielded any ore, but it is a very small quartz stringer in it, and more especially near the end. Although the ore body in the Golden Eagle claim cannot be said to be lost, yet at present there is practically no ore commercially available in sight, and with present development it would be difficult, if not impossible, to estimate the value of the Golden Eagle claim.

The Golden Eagle ore body, which apparently has been almost worked out, could not be regarded as a ledge of ore, but a vein. It would appear to be a filling of a large, irregular cavern in the schistose rocks. **At a Compressor, Stannic Hill.**
I also examined the Golden Eagle tramway, air compressor and power house, and found it in good character and condition. The mill has ten stamps and a good building, capable of holding 20 stamps. The compressor is a very good one, and is really very great and all that could be desired for running drills and the stamp mill. It is also a very good building containing assay office and dwelling rooms and office for the superintendent, besides a steam boiler and engine house.

Monarch, Ample, Whale and Gladstone Mining Claims.
I likewise examined these properties on the north side of the Golden Cache, three miles from the Golden Cache mill from Lillooet. These claims are all horseback, to within a few rods of their workings, to which I walked. Here I found the Monarch, Ample, Whale and Gladstone claims, which are all horseback, and which I readily and satisfactorily traced throughout the greater part of the Monarch, Ample, Whale and Gladstone. The strike (or course) is almost east and west and the dip (or incline) is northwards from 15 to 25 degrees. The ore body is plainly to be seen on the face of the cliff for many miles on both sides of the workings. A professor here goes into a long, detailed account of the different tunnels and workings upon this vein.

Assays of Ore.
During my stay at the Golden Cache I had several assays of samples taken by me from the Ample, the Monarch and Gladstone claims, and the results are as follows: \$24.87, \$25.25, \$25.25, \$24.87, \$25.25, \$24.87, \$25.25, \$25.25. There are also two other quartz ledges upon the property, assays of which gave \$10.55 and \$7.54.

Quantity of Ore.
My estimate of the quantity of ore in sight in the Monarch, Ample, Gladstone and Whale mineral properties is 100,000 tons. The cost of mining and reducing the ore should not exceed \$5 per ton at the outside limit, and it would probably be less than \$4.50.

Taking the average value of the ore to be \$12 per ton, and allowing for loss in the reduction, the ore in sight should be worth about nine hundred and sixty thousand dollars (\$960,000). The cost of mining and reducing this would leave a total net profit of four hundred and sixty thousand dollars (\$460,000).

In making these estimates I have proceeded, however, quite wisely, and while doing so I have been quite aware that the possibilities of these properties are greater and that there is even a probability that there are 150,000 tons of pay ore in sight at the present time, but I considered it safe to give the new owners of the Golden Cache the quantity of ore in sight, and \$400,000 as the total profit, after paying for the mining and reducing, and all necessary expenses incidental thereto.

When I make these statements I make statements that could not truthfully be made at any one time in reference to many mining properties. There are but few fields that can show \$1,000,000 worth of ore at one time, I have endeavored to remove this impression, and I have no hesitation in recommending that this property be operated.

Recommendations and Suggestions.
With regard to the Golden Cache I would recommend that it be prospectively with a view to find a sufficient amount of pay ore. There is enough evidence to justify this recommendation, and especially as there are a good compressor and drill upon the ground ready for such work, but, under-standingly, the new owners of the Golden Cache property are also the owners of the Monarch, Ample, Whale and Gladstone, I would advise them to devote all capital and energy to the working of these last-named properties, in which I believe a large quantity of ore is to be had, and leave the prospecting of the Golden Cache to later on. Yours very truly,
Henry Montgomery

Messrs. Fox & Ross also showed a letter from Prof. Montgomery, in which he stated that he had sent 25 pounds of the ore to Toronto, and that the ore was very much higher, viz. \$30 per ton.
In connection with the above, we are informed that Col. Henshaw is engaged as manager of the new company, and that he, in company with the new owners, has been in San Francisco for some time selecting all necessary machinery to turn out 50 tons of ore per month, and that the contract has been made with the Union Iron Works Company for the machinery plant.

POLITICAL LEADERS IN CORRESPONDENCE.

Sir Charles Tupper Explains the Position Taken by Sir Wilfrid Laurier on the Canadian Contingent for the Transvaal.

The following correspondence between Sir Wilfrid Laurier, Premier of Canada, and Sir Charles Tupper, leader of the Opposition in the Commons, regarding the question of a Canadian contingent for the Transvaal, will be read with interest. The correspondence also contains Mr. Chamberlain's circular to the colonies, including Canada.

House of Commons, Ottawa, Oct. 14.
Dear Sir Wilfrid Laurier,—I regret to learn that the telegram I sent you from Yarmouth on the 5th inst. was not received by you until yesterday owing to some delay in transmission at Halifax.

The announcement is made to-day that the Government of Canada has consented to send a Canadian contingent to the Transvaal, on condition that a large share of the expenses and pay of the men is to be borne by the Mother Country.

It is to be hoped that Canada, if it is to show its loyalty by having troops in the Transvaal, will undertake the affair in a generous, patriotic and Canadian spirit, and that the Dominion contribution will be made in such a way that the men will be entitled to rank as Canadians fighting for the Empire.

I am confident that patriotic Canadians will be ready to contribute to the contingent, and that there will be forwarded by Canada to assist an efficient force, representative as far as possible of the Dominion, and doing the right thing in the right way.

The offer of the Government is to whom I have referred in the telegram, and whose means are ample for the purpose, to provide an insurance to the extent of \$1,000,000 to meet any casualties that may occur, will greatly lessen the expenditure involved on the part of the Dominion.

Again assuring you of my readiness to give you all the support in my power in this matter in Parliament, which has been fairly sanctioned by a unanimous vote in both Houses, I remain,
Yours faithfully,
(Signed) Charles Tupper.
The Right Hon. Charles Tupper, Bart., G.C.M.G., Prime Minister of Canada, Ottawa.

Sir Wilfrid's Reply.
Dear Sir Charles Tupper,—I have the honor to acknowledge the receipt of your letter of this day.

It is quite true that your telegram addressed to me from Yarmouth on the 5th of this month never reached me until yesterday, when, after enquiries made, on my part, it was found that it had never left Halifax. However, I have been made familiar with it, and I am glad to hear that you are so sorry to hear from you that the action which the Government has taken to send a Canadian contingent to the Transvaal seems to you insufficient, inasmuch as a large share of the expense and pay of the men is to be borne by the Mother Country.

I am sorry to hear from you that the action which the Government has taken to send a Canadian contingent to the Transvaal seems to you insufficient, inasmuch as a large share of the expense and pay of the men is to be borne by the Mother Country.

I am sorry to hear from you that the action which the Government has taken to send a Canadian contingent to the Transvaal seems to you insufficient, inasmuch as a large share of the expense and pay of the men is to be borne by the Mother Country.

Mr. Chamberlain's Note.
The Secretary of State for the Colonies, 4th October, 1899.
The Commander-in-Chief directs that you express their high appreciation of the signal exhibition of patriotic spirit of the people of Canada, shown by the offers to serve in South Africa, and to furnish the following information to assist the organization of forces into units suitable for the Empire's requirements:—

Firstly, units should consist of about 125 men.

Secondly, they may be of infantry, mounted infantry or cavalry, in view of numbers already available. Infantry are needed in the greatest numbers, and the most serviceable.

Thirdly, all should be armed with decimal rifles, and equipped with the necessary equipment and the mounted troops their own horses.

Fourthly, not more than one captain and three subalterns are to be allowed to each unit. The whole force may be commanded by an officer not higher than major.

In considering the numbers which can be employed, the Secretary of State for the Colonies will be guided by the nature of the offers, but he desires that each colony should be fairly represented, and the limits necessary for the available staff as an integral portion of the Imperial force. The Imperial Government would gladly accept units.

Troops to be disembarked at port of landing in South Africa, fully equipped with the necessary rates, supplies and ammunition. From the date of disembarkation the Imperial Government will provide pay and compassionate allowances at Imperial rates, and will defray expenses of transport back to Canada, and pay wound pensions and compassionate allowances at Imperial rates. Troops to embark not later than 31st October, and to proceed direct to Cape Town for orders. Inform accordingly all who have offered to raise volunteers.

(Signed) Chamberlain.

Sir Charles to Sir Wilfrid.
The Right Hon. Sir Wilfrid Laurier, G.C.M.G., M.P., Prime Minister of Canada, Ottawa.
Dear Sir Wilfrid Laurier,—I am very sorry to find by your letter of to-day that you have not accepted the telegram I sent you from Yarmouth on the 5th inst. and by your letter of the 14th inst. in the spirit in which the offer was written. My intention in both cases was to strengthen your hands in adopting a policy which, in my judgment, was fully required by the honor and best interests of Canada.

You take exception to my having commended the telegram to the people of Canada, but I cannot see upon what

The Busy Store at the Busy Corner

How to Save Five Dollars

You can do it in this way: Our custom Tailoring Department is offering for this week only \$16.00 Made-to-order Suit for \$11.00. The materials consist of fine English tweeds and serges, suitable fall and winter weights, in a great variety of the latest and most desirable patterns, first-class linings, trimmings and workmanship. If you are desirous of having a stylish, comfortable, perfect-fitting suit, leave your measure with us and we conscientiously promise to save you \$5.00.

A Guarantee.—If the suit when finished does not correspond with your instructions or meet all reasonable requirements, we won't ask you to take it, but cheerfully return any deposit which may be paid on it and stand the loss ourselves.

E. STRACHAN COX, 9 Toronto St.

with a cable despatch from Mr. Chamberlain to the Administrator, sent, and no doubt received by the Government, on the 11th inst. and your attention is directed to the fact that the Administrator's letter to the Secretary of State for the Colonies, dated the 11th inst., is a pure invention. Far from possessing any foundation in fact, it is wholly imaginary.

On the morning of the 8th inst., I sent you the following telegram from Yarmouth, N.S., Oct. 5th, 1899:—

"Sir Wilfrid Laurier, Ottawa:—I hope you will give your attention to the Canadian volunteers to aid England in the Transvaal. I know it will be warmly welcomed by the British Government, and of great service to Canada, and promote the unity of the Empire. I have no doubt that you will be able to raise a million dollars, and I will heartily support the Government's action in this matter." (Signed) "Charles Tupper."

And believing that you would strengthen your hands at an important crisis, I referred to this telegram in my address to a large assembly at the Yarmouth Exhibition on the 11th inst. I was informed that the Hon. Mr. Tupper, member of your Government, has denied that I had ever sent you a telegram, and I then gave a copy of it to the press.

On the 11th inst. La Patrie, owned and controlled by your colleagues, Mr. Tupper, published an editorial under the heading of "Contingent au Transvaal," as follows:—

"Sir Wilfrid Laurier very clearly indicated the Government's intention to offer or send a contingent of Canadian volunteers to aid England in the Transvaal. I know it will be warmly welcomed by the British Government, and of great service to Canada, and promote the unity of the Empire. I have no doubt that you will be able to raise a million dollars, and I will heartily support the Government's action in this matter." (Signed) "Charles Tupper."
