Official Wants Him Removed Because He Has Demoralized the Rest of the Inmates.

ALBANY, N.Y., Sept.1.-A protest is made in a report submitted to the state commission of prisons to-day by County jail at Poughkeepsie of Harry K. Thaw, acquitted on the charge of murder on the ground of insanity.

Mr. McLaughlin's report says, among other things, that Thaw's presence in the jail "demoralizes the discipline of the institution."

After calling attention to the presence of Thaw in the jail, the report says in part:

"He has been held in this jail for several months pending the outcome of litigation, which looks now as tho it might be interminable. His presence in this jail is embarrassing to the sheriff and objectionable on many accounts. The sheriff has no room for him except in the padded cell; even this he needs for temporary use, and it would be an entirely unfit place in which to confine a man for months.

Must Be Isolated.

"Having been adjudged insane with homicidal tendencies, the sheriff would not be justified in confining him with the other prisoners. He cannot keep him in the quarters intended for boys. To do so would compel him to keep the boys with the adult prisoners, which the law forbids. He cannot keep him in the hospital room for two reasons, first, it is not sufficiently secure; second, it cannot be spared for the permanent commands. ence of Thaw in the jail, the report

first, it is not sufficiently secure; second, it cannot be spared for the permanent occupancy of Mr. Thaw.

"The result is that the sheriff has to
give him an entire corridor with the 13
cells adjacent, in the principal jail for
men. He consumes a large amount of
the time of the jaller in escorting him
to Fishkill Landing. White Plains and
other places to attend hearings before
the court and before referees, time
which the jailer needs for his other
duties.

instituted by his friends to give him these outings.

Causes Jesiousy.

"His presence here demoralizes the discipline of the institution. He sleeps in the corridor, not in the cell. He has all the fixtures and paraphernalia of a business office. He orders his food from the hotel, which has to be brought to him three times a day. Silly people send him bouquets of flowers. He is allowed the use of a whole corridor, constituting one-quarter of the entire principal jail for men, while the other prisoners are crowded, two in a cell frequently.

"All these things are under the observation of the other prisoners and create dissatisfaction, a belief that class, even in prison.

"These things produce an ugly feeling of discontent and rebellion among the other prisoners."

The Fair--- Great and National.

Altho the weather prevented a wholly triumphant inauguration of the great Canadian National Exhibition yesterday, no one was really disappointed. The afternoon proceedings were entirely satisfactory, and the farmers were so anxious for rain that the exhibition directors cheerfully acquiesced in the showers of blessing that fell to save the root crops in the evening.

The farmers will turn out all the more cheerfully this week to see the fair, and the citizens of Toronto should loyally, by their attendance and support, ensure the success of an organization which means so much annually to the city and the province.

To-day will be an ideal day for visitors, and Mr. Hand will outrival all his previous magnificent displays of fireworks in the evening. Children's day it is, but everybody come.

Dr. Goldwin Smith Enjoys an After-Niagara Falls, N.Y., about 9.15 this morning. A cylinder about 4 foot long and 18 inches in circumference in some

way exploded. Jas. G. Clifford, the manager, was standing in front of the cylinder drawcylinders for medical use, when the explosion took place. The large cylinder with terrific force struck the man full in front, passing thru him, tearing his body into shreds. His head and shoulders struck the north partition, lodging there,, while his lower limbs with intestines passed out thru the

east window, falling on the street. The cylinder passed thru the heavy wooded partition and north window across Monteagie-street and dropped in a vacant lot, alongside of the unfortunate man's residence, where his wife and two children were. Dozens of shreads of flesh clung to the wooden stringers in the room, where explo-

sion occurred. The matched wooden ceiling and walls with the iron fixtures and pipes bons and twisted into all kinds of imaginable shapes.

order allowing any work to be done by a railway on Sunday which the commission regarded as a work of necessity. He argued that this was a case of necessity. It was frequently the case that cars of cattle were mixed with cars of other freight to form a train, and it was necessary to break up the trains to forward cattle to their destination as early as possible.

R. E. MacPherson, for the Lord's Day Alliance, opposed this, and said that the act and intention of Parliament was only that trains should continue to their destination on Sunday, and there was no intention to allow shunting.

Chairman Mabee of the commission asked if Mr. MacPherson proposed that in case of a train made up of ten cars of cattle for Montreal to be exported, and ten cars of furniture and lumber for an intermediate point, there should not be a breaking up of that train to drop the furniture and lumber cars and allow the cattle to be taken on to their destination.

Mr. MacPherson said that his clients held that such shunting should not be allowed.

KEIR HARDIE HEARD BY LARGE AUDIENCE

Ernest Lockwood Safe in Toronto -Alex Aitchison is Severely Injured.

HAMILTON, Sept. 1.—(Special.)—Before an audience which crowded Association Hall, to-night, Keir Hardie, British labor leader, expounded his views on labor and Socialism in Great Britain. Mayor Stewart presided. Mr. Hardie, in opening, scpoke on the history of Great Britain along much the same lines as he did in Toronto. He held that the governments were as much in duty bound to provide food for much in duty bound to provide food for the working classes as they were to provide libraries and that the state ought to be compelled to supply work for those who were willing to earn their living. In Britain, he said, the man who advocated private ownership of street railways, telephone and tlegraph, was looked upon as a lunatic, and on the same principle the men who protested against public ownership could not get a hearing.

Referring to things Canadian Mr. Hardie prophesied that the C. P. R. strike would soon be over and that the men would be victorious. It was up to the working class, however, to see

Hardie prophesied that the C. P. K. strike would soon be over and that the men would be victorious. It was up to the working class, however, to see that the men were not starved into submission. One of his strong points was the advocation of the unification of all labor elements in the world into one organized force to secure and uphold the rights of the laboring classes.

Scare Letter of J. J.

Wright.

R. A. Ross of Montreal, consulting

engineer of the hydro-electric commis

the Toronto Electric Light Co. pub-

lished in The Globe. Mr. Wright set up the argument that the transmission

erect to convey the electric current

from Niagara Falls to the municipali-

ties, will be a serious menace to the

chances of accident from overhead electrical transmission in the city are a million to one as compared with the likelihood of danger from high voltage transmission in the country.

"Mr. Wright speaks of our high voltage. Why, his own incandescent wires carry a voltage of 2200 as far as the transformer, and his are wires a voltage of about 5000. I have known men killed with 110 volts. Such a case occurred in Montreal, and I read of another in the old country. Consider the thousands of miles of wires in Toronto; consider how these wires cross and recross. Isn't it a fact that one of Mr. Wright's own wires broke on Bloor-street recently, hung in a tree for two days, and then killed a boy? The hydro-electric line is to be a commercial line, and it's not good business to have breaks, stoppages, etc. Our cable, too, is from half an inch to three-quarters thick. In Toronto, when a wire drops, the electricity is likely to get into a house. Then, by way of emphasis, remember how many people pass under your city wires, as contrasted with the few that will pass under the transmission line."

The Visit That is a Happy Toronto World's

Just run over in your mind the various homes in which you have been a guest, and the chances are there is one which stands out pre-eminently as the place you would rather visit again than any other. It is not because of the lavishness of the entertainment offered there. Perhaps you have known more elaborate meals, more perfectly furnished homes, more diversions than this one offered, but it is because the hostess understood you and the home breathed the air of hospitality, that it is a pleasant memory.

The air of hospitality—what is it? It comes from the power on the part of the hostess to make you feel that you and you alone are the one person whose presence is most desired at the time you are there. You seem to fit right into the scheme of things. You are not conscious that the routine of the home is being in any wise upset by your presence; indeed, you have an idea that perhaps because you are there the hostess is adding to her own happiness.

there the hostess is adding to her own happiness.

The hostess lets you have some time to yourself during your stay. There is not something being planned or done for you every moment in the day. You are a free agent, and are treated as such, you have time to yourself for reading, napping or just resting.

There are no family jars to disturb the peace of your visit, nor, indeed, are there tales of unpleasant happenings in that home or any others. In other words, petty gissip is not ready to be poured into your ears, whether or no, but an atmosphere of peace pervades the conversation as well as the home itself.

There are the little attentions, unobtrusively performed—the flowers in your room, the glass of hot water at hand which, it is recalled, you always enjoy the first thing in the morning, perhaps a favorite dish for luncheon—little things that show you your visit is a happy incident and one to which the hostess has looked forward.

Yes, it is a visit in a home such as this that makes one long to "go again."

Domestic Service Danger-

After one years' experience of insuring employes of male and female servants against their liability under the Workmen's Compensation Act, 1906, which came into operation a year ago, the principal insurance companies are unanimous in their declaration that the compensation which they have had to pay has greatly exceeded their expectations, but that there is no present intention of increasing the premiums, says a London writer.

It has been found that domestic servants are more liable to accidents of one kind or another than was formerly generally supposed, and that a good proportion of these accidents are of a serious nature. Then the number of fatal accidents has proved to be great-

serious nature. Then the number of fatal accidents has proved to be greater than was anticipated.

"In all, we have received and paid just over 7000 claims," said the assistant manager of one of the largest insurance companies, "and that number forms a considerable proportion of our domestic servant insurances.

"Our number of fatal accidents—17—is also greater than we looked for. In salso greater than we looked for. In scarcely be reached, as it means three years' full wages at £2 a week, and very few domestic servants earn that amount. In many cases where the dead servant had others depending on her we have had to pay £150."

the sport. Did you ever line up at the fmish and hear a big portion of the crowd cheer frantically? Are they the true lovers of the horse, or what Gov. Hughes would call gamblers? The winaer of a classic race and the owner are legitimately applauded, but these are the exceptions, as is being proved by those who attend these days at Sheepshead Bay, where play wit hthe bookmakers is a lost art.

There the racing these days is what they call of the cold storage variety. There is no public betting, and the racegoers who stand on the lawn and sit in the grand stand during the running of the horses are as cheerful-looking as so many wet roosters. Their cheers are frapped and only a few half-hearted shouts greet the winners on their return to the scales.

The postoffice employes this year have come to the conclusion that the great success attending last year's field day success attending last year's field day justifies them in making this year's meet a much more elaborate event.

At one of the recent meetings it was decided to hold a regular afternoon of sports during the last week of September. With the number of prizes already sent in to the committee and expectations of several others from their friends in the business houses of the city, the committee feel that this will be one of the banner events of the season

The winner shall go into the finals with the winner of the Bradford Metilend

For the Bradford-Maitland game on Saturday, Maitland suggested for referee, Rainey of Uxbridge, Hall of Oshawa and Hancock of Toronto, but Bradford would not agree to any of these. They suggested Caldwell of Barrie, Baker of Toronto and Manning of Newmarket, None of these suited the Maitlands.

The Maitlands have written President Kearns that they object to Waghorne, Gillespie and Hinds of Orillia. They also object to any many from Barrie, Orillia or Newmarket. The appointment of a referee will be made by President Kearns.

Large Attendance, Good Track and Great Racing-Stonewall and Black Bill Other Winners.

The Argonauts will not oppose the admission of the Toronto Athletic Club to the union, they preferring to let the other clubs deal with that question, and if they are willing, it will be all the better for the Argos, as one of the largest gates of the season would result.

At last night's meeting the following were appointed the Rugby committee for the season: Phil B. Boyd, Hugh L. Hoyles, A. T. Davidson, J. H. Kent, Walter Harris, W. H. Grant and Banty Russell. President Eastman, Capt. Joe Wright and Secretary Haskins are also ex-officio members.

Fred Thompson Manager, Fred H. Thompson, was unanimously elected manager for the coming season, and no better man could be found.

Fred Thompson was very enthusiastic tic about the prospects for the season, it is about the prospects for the season, stating last night that never in his football experience has he had such a plethora of good football material.

That old reliable Pud Kent is expected back from Winnipeg this month, while his younger brother, Art, who played centre half for the champion Winnipeg rowing team last season, is here now and will turn out with the Argos. Then there is Guy Hamblin, an old country international halfback, who played with England against New Zealand.

Roy Clark, Tommy Hay and Mert Kent, who played on the halfback line in this race, as in the 230 page the day and the first beat in the race for trotting stallions at the Exhibition, when the description in the first heat in the race for trotting stallions at the Exhibition, when the season would the first heat in the race for trotting stallions at the Exhibition yesterday afternoon in 2.22%, it was the first heat in the race for trotting stallions at the Exhibition yesterday afternoon in 2.22%, it was the first heat in the fact of the three were won in a race at a distance over half a mile, and it these were won in a race at a distance over half a mile parket by the the first heat in the fact on the first heat in the race for rotting stallions, pit the first heat in the first heat in t

sho played with England against New Zealand.
Roy Clark, Tommy Hay and Mert Kent, who played on the halfback line of the Argonauts last season and the year before, have also signified their intention of turning out, as have Bill Grant, Banty Russell, Alex Sinclair, Phil Boyd, Red Kent, Jeff Taylor, Riddy Balfour, Julius Thompson and Les Ferguson, the speedy outside wins man of the old-time Argonauts.

George Barber, the Olympic man, is also a candidate, as are Alex Davidgon and Chad Thoms, the two ex-varsity players, while Brockbank, Newport and Bargette of the Tammany Tigers wil also be in line, as will the two Dissettes.

There is also a possibility that Williams, who played centre half for Queen's last year, may move to Toronto, and if he does he wil turn out with the Argonauts.

First Practice Sept. 9.

The first practice wil be held Sept. 9 at Bayside Park, as arrangements for grounds have not yet been completed, but the chances are that Varsity Athletic Field will be obtained.

Granites Lose at Queen City.

The Queen Citys entertained six rinks of Granites vesteday, losing by average and the track was equaled when the horses lined up for the 2.20 pacing event.

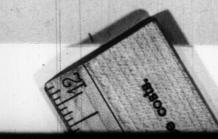

In this race, as in the 2.30 pace, the day previous, fifteen sidewheelers answered the call. Black Bill, owned by gental Bob Stewart of Ottawa, and driven by happy Fred Tracey, was looked upon as the good thing, and eventually landed the "consking," but not until Nat Ray had annexed the opening heat with his "Canadian wonder," Prairie Wolf. In this heat time of the heat—2.19½ constitutes a new record for Prairie Wolf. In the first heat Black Bill was away badly, having drawn fifteenth position, and it was with great difficulty that Tracey got him thru the big field, but in the succeeding heats it was a case of Black Bill in front all the time, Bob McBride's Johnny K. went a good race, finishing three times second, which demonstrates that he has again rounded linto the form he showed earlier in the season.

The record for a number of the day previous

thruout was of a high character. There was an entire absence of laying up heats, and there was not a single complaint for foul driving, all of which means that the watchfulness of the judges on the opening day had a good effect.

A great amount of interest is taken in the free-for-all, which will be decided this afternoon in which the following horses will be starters: Lady May (2.04%), Capt. Sphinx (2.064), Mattle Chimes (2.08%), John McEwen (2.08%), and Collingwood Rooker (2.11%). The race is conceded to be between Lady May, Mattle Chimes and John McEwen, and if the track is as good as it was yesterday the track record—2.09%—made by Lady May last year, will get a shaking up, as any one of the three named is apparently up to a very fast mile.

Results at Sheepshead Bay.

NEW YORK, Sept. 1.—Spooner, an added starter, won the Flying Handicap, six and a half furlongs, main course, at Sheepshead Bay to-day, defeating a good field. Spooner took a big lead early and made all the peace and won under a rive by half a length, in the fast time of 1.18 2-5. Bar None was badly cut off at the farturn. He sulked after that and refused to run. Ethereal ran a good race when he won the Partridge Stakes. He was in a pocket until the stretch was reached when he came to the outside and won in a drive by a head.

FIRST RACE—The Ballyhoo, for 3-year-olds and upward, selling, \$450 added, 1 mile:

1. Woodcraft, 96 (Gilbert).

2. Besom, 94 (E. Dugan).

3. Zienap, 103 (Schilling).

CITIZENS OR SHAREHOLDERS. Over in the United States a move ment is said to be on foot to make the stock of railroads and other public service companies more readily available for the small investor and the man in the street. But this is just what The advocates of private ownership would regard it as perfectly legitimate and indeed commendable if every elector in Toronto was a shareholder in the street railway company and elected the directors at the annual meeting. Yet what essential difference is there between that and ownership of the street railway by the city itself-meaning thereby the same electors. Much of the confusion arises

from the old distinction between the state-or the government-and the In democracles there is no such distinction. The electors of a city can own and operate their public services in their capacity of citizens just, as easily and as efficiently as they could do were they shareholders. The

difference is only nominal.

In his apology for and defence of Socialism at the Labor Temple on Monday night as a cure for present day social troubles, Mr. Keir Hardie incidentally remarked that protection might help to build up new industries in a new country, but it would not solve the labor problem. This last can be admitted since no economic system under existing social conditions can achieve that end, and free trade as little as protection.(But Mr. Hardie's remark is valuable, since it concedes that under certain circumstances protective duties may be a national necessity, as they are in the case of Canada

According to a cablegram a London Liberal daily has been saying that all protection has done for Canada is to coddle certain industries into unhealthy life and place on the backs of the agricultural community a burden which is intensified yearly. Criticism of this kind is both crude and ill-informed since it labors under the fatal error of assuming that Canada can have no natural industries. This. it scarcely needs pointing out, is ridiculous. Canada has vast natural re-

sources and an endless supply of raw material of many kinds. Canada further is placed cheek by jowl to the greatest, most energetic, hustling and self-seeking industrial community in the world, whose original object it was and indeed still is to exploit the raw material of Canada for its own industrial and commercial advantage. Without protective duties it would be papers by carrier or thru the mail will impossible or at least a very difficult report any irregularity or delay in re- and prolonged process before Canada dustries self supporting.

Eaton's Daily Store News This Store Opens at 8 a.m. and Closes Daily at 5 p.m.

A Few Examples of Eaton's Stove Values

The news of the great change in stove prices, as far as this store is concerned, has spread to the four corners of the Dominion.

And when so many people who are interested in stoves and in money-saving are in the city it is a good time to suggest their coming to see the stoves and be convinced that no stoves are better, none more thoroughly constructed, than the stoves we sell.

The cause of lowered prices is simply bigger buying: a large factory practically doing nothing but making stoves for this store, saving traveling, bookkeeping and bad-debt expenses, and taking those savings from the former prices of stoves.

This store has the courage to do with a modest dry goods profit on stoves, just as it has the common sense to sell stoves that will give satisfaction to the housewife 365 days in the year for as many years as a good nonestly-made stove should last.

When you read these prices you'll want to see the stoves, and we want to show them to you because we're giving stove values simply invincible.

The municipal authorities of Belfast are at present interested in a scheme of workingmen's garden plots, begun in East Belfast a few months ago under the auspices of the Strandtown Cottage Garden Association. A start was made in April last with about three acres, divided into 24 sections, the conditions being that in each allotment six different species of vegetables should be grown. The majority of those to whom the plots were allotted were English and Scottish workmen employed in the local shipbuilding yards. Altho one or two of the amateur gardeners retired after their first enthusiasm had cooled, their places vere quickly taken by others, and the cultivation of the half-rood plots has proved so popular and successful that the local corporation intends to adopt it on a more extensive scale in other suburbs of the city next spring.

OBITUARY

LONDON, Sept. 1,—(C,A,P,)—The death has occur ed in South Africa of Major-General Charles John Moorsom. As a captain General Moorsom went thru the Fenian raild of 1866. He married Bertha, the daughter of James McGill McCutcheon of Toronto, withther he had come after koing thru the Crimean campaign with the 30th Regiment. In 1895 he was major-general and commanded the troops in Belfast district; was in Punjaub, India. 1895-99.

At Vernon, B.C.—F. Adrian Meyer, customs officer, aged 69. Before coming to the province, sixteen years ago, he spent many years in China and Japan, receiving for important services in connection with the educational system in the latter country the title of "Count of Empire."

At New York.—Gen, John W. Clous, aged 71.

At Belleville.—Patrick Logue, aged 76; an old employe of the G.T.R.

At Ottawa—Henry Roy, one of the best railway draughtsmen in America, after a few hours' illness from congestion of the lungs.

nipeg. Siege was laid at the overnight closing, but officials made the proposal that each man on arrival be allotted a number and this was generally done, and by leaving a guard to allot the numbers to new arrivals, the besiegers were enabled to relieve the vigil by walking about and amicable discourse, few recalcitrants being overawed by general consent. Proceedings were necessarily slow, as it was necessary to enquire into each application, but there was no unseemly crowding. No single office was able to handle all the business offered, and the pressure will continue several days. At Lethbridge continue several days. At Lethoridge two ladies, late comers, were given precedence by home-seekers, but officials requested them to take their proper numbers, which was done. It is becoming very apparent that many settlers and home-seekers are not aware of the extension of the pre-exemption privileges, some late arrivals saying they had only learned it within a few hours.

Westerners Do Some Prize Shooting at the Rockliffe Ranges.

OTTAWA, Sept. 1.—(Special.—Only one match was finished at the D.R.A. meeting to-day, but there was a lot

of difficult shooting under rather adverse weather conditions.

In the morning a haze caused by bush fires obscured the targets and made good shooting almost impossible.

In the morning a haze caused by bush fires obscured the targets and made good shooting almost impossible. Those who went first in the Dominion of Canada match suffered most, for the conditions improved, the in the afternoon there was a strong, but for the most part steady, wind.

The genera laverage of the shooting was ahead of last year, when 68 was in the lead, as against two men with 67 this year.

The match was won by Pte. J. A. Steele of Guelph. Hon. J. C. Patterson's valuable cup goes with it, and will become the property of him who wins it twice. Pte. G. J. Crowe of Port Hope won it last year. Pte. Steele's score was 67, which was equalled by Lieut. C. D. Spittal of Ottawa, who figured so prominently at Bisley this year.

After the Dominion match the executive decided to shoot the 600 yards range in the Governor-General's match this afternoon, putting back the 200 yards to Thursday and the 500 yards to Wednesday. The general average of the shooting at 600 yards was not high, as the wind was variable.

During the time this match was in progress the Cadets shot at the 200 yards and 500 yards in connection with the Lord Roberts' Trophy, open to cadets throout the empire. The Dundas boys made a splendid showing.

Then came the first range of the Walker match. Weather conditions were improved, the result being a large number of high scores.

In the evening the annual "kickers'" meeting was held, Col. Sam Hughes presiding. Capt. G. J. Crowe of Guelph, seconded by Maj. Thom, moved that the prone position should mean that the forearm be kept clear of the ground. He said that the position assumed by Spittal and Mortimer was not tenable. The rifles should not be supported, except by the forearm. Lieut. Mortimer said that he had been spoken to, but that was all, while he believed that all Canadians had a square deal at Bisley, he felt that Lieut. Spittal had suffered from a mistake. Lieut. Spittal defended his position on the same grounds.

Col. Tilton said that Lord Roberts had said to him that the best position t

The Globe returns to the discussion of ante-election prophecies. The other day it published a table showing the government majority in the present house to be 66, and giving the majorities in the various provinces: described to the comparative failure of the Canadian Government's loan of \$5,000,000." house to be 66, and giving the majorities in the various provinces; deducing that it would take nothing short of a political earthquake to bring about a change of government. The World reprinted The Globe's figures and argued that it would not require tremendous convulsion to upset the administration. For instance, it was pointed out that if Mr. Borden captured only 11 seats in Ontario, and if Conservative calculations as to wins in some of the other provinces, notably British Colors and the country was party of the provinces. culations as to wins in some of the other provinces, notably British Columbia, New Brunswick and Manitoba, were anywhere near the mark, he would be prime minister. It was shown that Sir James Whitney made a net win of nearly 40 seats in two elections, converting a minority of hear and not to know that three lates. They were so wedded a net win of nearly 40 seats in two elections, converting a minority of hear and not to know that they preferred not to have a minority of hear and not to know that they had been represented.

"Let us admit," says The Tribune, that parties are very much alike. Like the various evangelical churches, there are good men and bad men in each, and the percentage is probribly about even. Blind partisanship argues the densest ignorance and the acume of stupidity. How are we to correct and regulate our public affects. Refuse substitutes.

PUTNAM'S PAINLESS to correct and regulate our public affects. Refuse substitutes.

of the east, the insurance scandals affecting leading men on the opposition side, depend very largely upon the moral fibre of the men who sit in parliament and listen to them. If the constituencies send callous, party-hardened, cynical, 'machine-made' men to speak for them, they must not be surprised if they regard serious exposures as so much matter-of-course and pocket greedily an increasing indemnity with a brazen leer at the protesting people who must pay it."

The same paper points out that the decent element at the conventions can make sure that the race is to be between two good citizens with different political views, and not between two "yellow dogs" with the same voracious appetites, but having access to different troughs. They should beware the "good fellow" ready to "treat the bystanders" every time he makes a haul—a man who "buys his popularity at the expense of the country and then uses that popularity to get near enough to the national chest to recoup himself a hundredfold." Another man to be shunned, it says, is the fellow who thinks his whole buisness in parliament is to advance the interests of his party. The party managers want everybody to go to the polls, but only kiln-dried partisans to go to the conventions.

It is said that Hon. A. B. Aylesworth has sent word from Vienna, Austria, that he will accept the Liberal nomination in North York if it is tendered him. The law firm of Aylesworth, Wright, Moss & Thompson had not heard up till yesterday from Mr. Aylesworth as to the result of his consultation with the eminent aurist of Vienna.

"The purchase of The Telegraph and Times," observes The St. John (N.B.) Globe (Liberal), "leaves the Conservative party without an organ in St. John, and with an election in the air this is regarded as a somewhat serious situation by the party managers. How to overcome the difficulty is now the subject of much speculation. A few days are it leabed as a series of the Telegraph and Times," observes The St. John (N.B.) day's reports are that this idea has given way to a movement to purchase The Sun and Star. These papers are owned by a syndicate, headed by Hon. B. F. Pearson of Halifax, with Hon. H. R. Emmerson as a large stockholder. They purchased the papers some time ago from Mr. W. H. Thorne, and it is said are now willing to dispose of them for something less than the original price. Thus some striking, interesting and important changes in the editorial opinions of some of our city contemporaries may be expected."

The Halifax Herald (Conservative) notes that in the government campaign in Nova Scotia Sir Frederick Borden is being "cruelly" overlooked and the province flooded with orators and the province hooded with orators.

a net win of nearly 40 seats in two elections, converting a minority of three into a majority of 68; therefore it might be argued by Conservative prophets that Mr. Borden would do at least half as well. If he wins 20 seats he would have nearly 50 majority in Ontario. This is not a prediction of what is going to happen. The World is merely trying to convince The Globe that everytime one party wins one seat it makes a change of two in the standing. Thirty-three net gains in Ontario alone in his two campaigns.

But the Liberal organ won't even stick to the 66. Yesterday it gave the MOW TO CLIPE #FADATASA.

WILL BUILD TWO NEW TORONTO CHURCHES

Rev. Dr. Hossack's Resignation Concurred in by Presbytery-Two Jubilee Services.

The members of Toronto Presbytery Church yesterday. In the ab-

resbytery reported adversely on the sal, and the project will be dropped. Leave was granted the Davenport-road congregation to mortgage their property to the extent of \$15,000 to enable them to build a new church. It will cost \$25,000. The Sabbath school will seat 1000 scholars, and the church have an equal seating capacity. The East Queen-street congregation was granted permission to sell the old Sunday school building and to mortgage the other property for \$15,000 to assist in the building and to mortgage the other property for \$15,000 to assist in the building of a new church. On the report of the financial committee the presbytery decided to pay the traveling expenses of members of the charge the Hornby and Omagh was accepted. Rev. H. E. Turner was appointed minister of session.

A call from the Riverdale congregation, Pape-avenue to Rev. J. A. Miller, who has officiated there as an ordained missionary for the past year, was concurred in. The induction was fixed for Sept. 17. Rev. James Murray, moderator, will preside.

The presbytery reconsidered its action in granting permission to St. Mark's congregation to remove to the corner of Queen-street and Belawoods-avenue. A committee, with Rev. Dr. Gandier as convener, will confer with all the congregations interested, and report their action. "Dr. Neli will fall from Ms appeal to the synod."

The Weston congregation will celebrate its 50th anniversary on the first and second Sundays in October. Rev. James Murray, moderator, will preside.

Joseph says: This is no time to become bearish on stock, rather buy them on any further little recession. The poetry of builish motion will be resumed. Take on some Union Pacific, it will surely sell around 175 this autumn. Steels are being excellently well taken.

Specialty bullish market to-day. Leaders hitherto aggressively bullish however, may temporarily rest. We would not climb for stocks, however. Purchases should be made on declines. Southern Pacific, Atchison, Union Pacific and Amalgamated may be bought for turns on fair reactions from top prices for the present. Reports indicate that Smelters is now held between 98 and 100. Missouri, Kansas & Texas will not advance materially until the 99 and 100. Missouri, Kansas & Texas will not advance materially until the offerings now appearing near 33 are taken. The same may be said of Steel on the 48 levels. Bull reports continue to be received on Anaconda. FOR THE PROPERTY OF THE PROPER which is going on to-day may prove a surprise to administration forces. It is worthy to remark that the general list did not respond very decidedly to the upward movement in the Harriman stocks yesterday, while the Morgan following in London apparently believes that the market has gone about as high as it is likely to for the present. While bear traders have not been very successful in recent on-slaughts on values, there are plenty of professionals who profess to believe that important distribution is going on and as soon as support is withthat important distribution is going on and as soon as support is with-drawn even temporarily they will be found actively engaged in bearish operations. Accordingly we believe that the leading active issues at least especially those which have enjoyed the cream of the rise, will be obtainable during the week to considerably better advantage.—Town Topics. better advantage.-Town Topics.

POOLS WILL HAVE TO DO SOME FINESSING.

World Office, Tuesday Evening, Sept. 1.

Toronto Railway earnings dropped 20 per cent. below those of last year last week. The state of affairs is evidently not satisfactory to speculative bulls and some of the stock was unloaded to-day in consequence. The local exchange was quiet to-day. The pools are apparently taking new bearings and in the meantime have to support the securities they have specially in charge. Outside traders who have profits in the South Americans are quite nervous and will cash in their stocks at the first signs of weakness. Some of these realized to-day as a precautionary measure. It is certain that nothing but continued buoyancy will keep this stock off the market at present high figures. The pools are in somewhat of a predicament and will do much finessing to secure a profitable outlet.

GREAT OIL FIRE OUT.

CITY OF MEXICO, Sept. 1.-Word reached the firm of S. Pearson & Sons last night that the great oil field fire

which has raged at Dosbocas, near Tanpico, for two months, was extinguished last Sunday.

Six giant centrifugal pumps poured gravel and mud into the mouth of the boring well for ten days and this, coupled with persistent dynamite blasting, choked the orifice and smothered the flames. The oil has again worked its way to the surface and the well is flowing at the rate of 2000 berwell is flowed by the surface and the car has conducted into the recombination of the formally inducted into the recombination of the present and impressive address. Oats—Market strong. There was heavy profit-taking, but all offerings well taken. Keep off the short side. Provisions—Have been sold by packers; trade small; no support.

Wheat—The September delivery was asked to the session, and was responsible to no small extent for the strength in the latter months. September shorts as the market advanced showed pronounced nervousness. The demand is rather quiet.

Corn—Was firm, led by the strength in September. There was some buying of the later deliveries on the publication of decline.

Oats—The market was strong, closing at a fair advance, the upturn movement being checked by realizing.

Provisions—Were lower with hogs. Pork showed the most decline on rather free selling by scattered holders of September the most decline on rather free and October.

WOBURN, Sept. 1.—(Special.)—Fire utterly destroyed the farm house belonging to John Hall, a short distance north of this village a few night's ago, and but for the fact that Mrs. Hall was visiting at a neighbor's across the road, loss of life would probably have occurred. The other members of the tamily had retired, when Mrs. Hall noticed the flames. An alarm was instantly raised and the family roused, but all the neighbors could do was to prevent the flames from communicating with the barn. The fact that everything was dry as tinder added to the difficulty. Mr. Hall's insurance on the building was \$1000 and on the contents \$400, while the loss is considerably more.
