ARE ANXIOUS ABOUT INDIA

Dangerous Propaganda Work Being Done

Stories Circulated to Stir Up Religious Feelings Against British as in Mutiny Days—Seriousness of Situation Admitted.

London, Jan. 31.—Today having been fixed as the beginning of the "civil disobedience" campaign in India, several of the London newspapers discussed the outlook, which they regard with considerable anxiety. The plan laid down by M. K. Gandhi, non-co-operation leader, to try the non-co-operation experiment first in the rural areas of Barisal and Anand seems from various reports little likely to be observed, indications being that the scheme will be put into operation throughout a much wider area. The recent movement in the Guntur district is cited in support of this supposition. Reports appear almost daily in the London press showing that the non-co-operation propaganda is becoming intensified in the rural areas, where the peasantry is elated at the prospect held out by Gandhi's agents, that they shall be exempt from taxation. There are also indications of serious unrest in some provinces, chiefly at Barisal and Haidco, in northern India, where it is reported agitators are exciting the people with assertions similar to those which materially aided the cause of the Indian Mutiny. Among these are statements that the British are mixing with the medicines issued at the public dispensaries, and are using pork fat in certain manure.

SAY CARDINAL LAURENTI IS IN FAVOR

Rumors Come Relative to Possibilities in Election of New Pope.

Rome, Jan. 31.—Interest in the choice of a successor to Pope Benedict XV, is increasing at the time draws near for assembling of the Sacred College and many attempts to find an indication of the result are being made. Cardinal Laurenti, secretary of the congregation of the propaganda, although raised to the purple only last year, is understood to be favored by at least thirty members of the Sacred College, who believe in a rapprochement with the Italian government. At the same time, he is said to be acceptable to those opposed to closer relations with the Quercini. The name of Cardinal Ratti, Archbishop of Milan, mentioned previously as favored by the "peace" group headed by Cardinal Gasparri is not heard so often now, and the section headed by Cardinal Merry del Val, which had been credited with favoring Cardinal Maffi, Archbishop of Pisa, is reported as ready for a compromise before the balloting begins. An incident yesterday in the Sistine chapel, when a member of the pontifical choir was demoted, has caused the Vatican officials to cancel all permits to enter the chapel this morning.

LADY MAY CAMBRIDGE

Daughter of the Earl and Countess of Athlone, who will be one of the bridesmaids at the royal wedding in February. The suggestion made in some of the Italian newspapers that the conclave may be postponed to permit the attendance of the American cardinals, who are now on their way to Rome, is not taken seriously by members of the Sacred College. The correspondent is informed that the conclave will convene on Thursday as was originally planned.

STEWART MAY NOT GET WEST KOOTENAY SEAT

Nelson, B. C., Jan. 31.—The Farmer-Labor party here knows nothing about a rumor that L. W. Humphrey, M. P., for West Kootenay, might resign his seat in order to give Hon. Charles Stewart, of Albert, minister of the interior, an opportunity to secure a western seat. Mr. Humphrey was out of the city when the dispatch arrived, but when he returns he will be one of the bridesmaids at the royal wedding in February. Mr. Stewart is not thought there is a chance that Mr. Stewart would represent West Kootenay.

THE ARBUCKLE CASE

San Francisco, Jan. 31.—Arguments in the case of Roscoe Arbuckle may be postponed until Wednesday afternoon. While the case was being argued, Mr. Arbuckle, Mr. and Mrs. George MacDonald and Arthur Thomas.

He Shoots Two Patrolmen, Also a Negro and a Negress.

Gives Up When Door Broken Open—Crowd Tries to Get Him But He is Husted Into Patrol Wagon—Wild Time in Wheeler Street in the South End.

(Canadian Press) Boston, Jan. 31.—Sixty patrolmen armed with riot guns battled more than an hour early today against Resny Murray, a negro, who barricaded in his home in the south end, shot and seriously wounded two patrolmen, a negro and a negress, and set fire to a bed in which an infant lay. Murray finally surrendered unharmed to a dozen officers who broke down the door of the house and advanced on him in a body. Shots of "lynch him" were made from a crowd of bystanders as he was brought to the street. They fought to get at him and he was roughly handled, but unable, before the police were able to put him in a patrol wagon. The trouble began, neighbors told the police, when Murray ejected Mrs. Wm. Jackson, a negro, who was his tenant, and fired several shots after her into Wheeler street. Patrolman Dalton, who was in the street, attempted to enter the house, but Murray bolted the door. McShane then tried to get through a window. He was shot in the stomach. Another bullet wounded Dalton in the cheek. Riot calls were made. Every available policeman from station No. 4 was sent to the scene, all armed with riot guns. The house was surrounded and bullets were sprayed against it from all sides, while Murray, going from the second floor to the roof and back again, sent less frequent shots into the narrow street. On the top floor, Mrs. Jackson's husband was held in fear of Murray, holding his five-month-old baby in his arms. Murray shot him twice. The child fell on a bed and Johnson said Murray set fire to it. The latest was removed to a hospital suffering from burns. Occupants of nearby tenements hoisted their windows, and shots were fired from them. Mrs. Julia Scott was struck in the hand by one bullet, which severed a finger and fractured two other fingers. As the battle proceeded, firemen were called and lines of hose were laid to flood the house. Patrolman Edward J. Wynn, braving the negro's fire, smashed the blinds on a first floor window so that the hose could be brought into play. While Murray's shots were suspended for a moment, Police Sergeant Ryan and five officers battered down the front entrance. They entered in a body, the sergeant calling on Murray to surrender. The negro submitted without resistance. Seriously wounded, Patrolman Dalton and Jackson, the wounded negro were taken to a hospital where the names of Dalton and Jackson were placed on the dangerous list. McShane's wound in the stomach was said to be serious. Jackson was suffering from two bullet wounds, one in the chest and another in the right leg. Patrolman Dalton, it was feared, would lose the sight of his right eye. No charges were placed against Murray, pending the outcome of McShane's injury.

MAKE WAY FOR MEN WHO FOUGHT

Forty-one in Toronto Lose Government Posts.

(Canadian Press) Toronto, Jan. 31.—Acting on the principle that ex-servicemen should be given a preference over others in civilian government positions, the civil service commission has notified forty-one local employees of the federal public works department that their services will be dispensed with. It was explained last night that the action was taken following notification last September that federal employees were to be reduced to 10 per cent of the total number of employees. The men who have been notified that their services will not be required have, it is said, failed to comply with the condition.

CORSICAN IN HAS 585 ON THE LIST

Delayed by Storms—Empress of France Due on Friday.

The Canadian Pacific Steamships Ltd., liner Corsican arrived in port this morning from Southampton, Havre and Antwerp with 114 cabin and 471 third-class passengers, in addition to a large number of cargo and mail. Eighty-four of the cabin and 317 of the third-class passengers are booked for destinations in Canada, and the remaining number are going through to the United States. The large liner was three days late in reaching here, due, it was said, to the terrific storms which she encountered en route. She had reported on reaching Atlantic ports. Among the passengers was P. Reid of the Immigration Department, Ottawa, who is returning after a lengthy sojourn in Europe, where he was studying questions of interest in immigration matters. The Empress of France is due here Friday from Liverpool with sixty-three cabin, 155 second and 244 third-class passengers. Thirty-eight of this number are destined to points in the United States, and the rest are coming to either visit or settle in Canada. Among the passengers are Mr. Buchanan, K. C., of Montreal, and Colonel Dennis, who is a member of the Department of Natural Resources of the C. P. R.

DOMINION FRUIT CONFERENCE SOON

Ottawa, Jan. 31.—(Canadian Press)—A dominion fruit conference is to be held in Ottawa on Feb. 22, 23 and 24, according to announcement by C. W. Baxter, dominion fruit commissioner. Definite steps are expected to be taken looking toward more systematic grading, marketing and distribution of Canadian fruit, both for export and for domestic use. Provincial fruit growers' associations on the grounds that a quantity of alcohol seized at St. Leonard's, N. B., and placed in a car in the custody of the C. P. R. at that place, for shipment to Fredericton had disappeared. The crown's claim is that eight cases of alcohol were seized at St. Leonard's by prohibition officers and placed in a freight car for shipment to Fredericton consigned to Rev. W. D. Wilson, who was then chief inspector. The next morning, it is said, only one case remained untouched, three cases were missing altogether and four had been drained of their contents. The C. P. R. contended, it is said, that the contents of the cases was water and not alcohol and that if it was taken it was not the railway's fault anyway.

Fredricton, N. B., Jan. 31.—Directors of the Fredericton Park Association last night decided to invite representatives of various troops in New Brunswick to attend a conference in Fredericton next month to discuss plans for the season. Watson; vice-president, Harry Croft; treasurer, T. V. Huggins; secretary, G. E. Howie. The association has elected Nedo Nally, Italian champion, for what was regarded as the national amateur fells championship of the world. Gaudin scored twenty points against eleven other competitors. Charles Evans, French, minister of war, was present. The meeting of the greens committee of the golf club came into the discussion of the meeting of the greens committee of the golf club. As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "a returned soldier came to me this morning to say that having registered at the employer's management office he was sent to a farmer in the Settlement who paid his fare out there, but after he had put in as long a day, as I say, that one's true he could, being glad to get anything to do, the farmer got a chance to take another man and fired him, paying him off with thirty cents. It was about twelve below zero, and but for the kindness of another overseas man he chanced to meet he would have had to walk back to St. John's. The other soldier lent him enough to make up the fare. Have you farmers like that in the Settlement?" "An' that story's true, I'd like to know about it. Of course you want to get both sides of a story, so I say, that one's true we got one cricker out there that orto be made walk about thirty miles to an empty stomach—By Hea!"

Paris, Jan. 31.—Ferdin Bey, Turkish Nationalist representative in Rome, today sent a letter to Premier Bonomi in Italy, expressing profound surprise and keen regret that his government was not invited to send representatives to the Genoa conference. The letter asked the Italian premier to take whatever steps he could to bring about such an invitation.

Seattle, Jan. 31.—The shipping board liner Empress of Russia is a new U. S. record for the trans-Pacific crossing when she arrived at Willamette, near Victoria, B. C., yesterday, eight days, nineteen hours and thirty minutes out from Yokohama. This is within one hour and one minute of the international record established by the Canadian steamer Empress of Russia in 1904.

TREMENDOUS QUAKE IN THE SOUTH LAND

Instruments at Washington Show it to be Some 2,500 Miles Away—Described as "Monstrous" and "Enormous." Washington, Jan. 31.—An earthquake of great intensity, probably 2,500 to 2,600 miles south of Washington, was registered early today at the Georgetown University seismographical observatory. It began about 8.25 a.m., and ten minutes later the tremors had become so pronounced as to throw the registering needles off the scale. The quake also was registered on the seismograph of the weather bureau, officials of which described it as "monstrous."

Shanting Question Out of the Way Today. A Final Agreement, Too, on Five Power Naval Limitation Treaty—Some Delegates Likely to Get Away This Week. (Canadian Press) Washington, Jan. 31.—Virtual settlement by the Japanese and Chinese, of the long debated Shanting question and final agreement on the text of the five power naval limitation treaty had brought the Washington conference very near to the conclusion of its labors today with some of the delegates expecting to be on their homeward journeys possibly by the end of the week. Prediction that the last details of the plan for restoration of Shanting, China would be settled at today's meeting was made by Dr. Koo of the Chinese delegation following an agreement reached last night between the Japanese and Chinese covering all principles required as a basis for disposal of the "Shanting-Japanese" question. The basis of settlement is understood to have been the compromise question supported by President Harding. Meantime the naval committee of the whole was meeting today to give final approval to the text of the naval treaty as completed yesterday by agreement in the naval committee of the conference. The Far Eastern committee of the whole was also in session today to give final approval to the text of the naval treaty as completed yesterday by agreement in the naval committee of the conference. WAS BURNED TO THE GROUND

Island Yard Office No More—Using a Car Today. The Island Yard office, used jointly by the C. N. R. and C. P. R. yard officials, was completely destroyed by fire early this morning and all car service forms and record books burned. The fire was first seen as a small flame in a box 422 and apparatus from the city quickly responded. The building was enveloped in flames, which were beyond control, and although a line of hose was extended the building was burned to the ground. The office was erected in 1906, and the first man employed in the building was Wm. McLaughlin, an operator, who is now car service agent in Toronto. At that time there were only a couple of main lines in the office, but since then the yard has been extended and there are now thirty-five tracks in the area from Gilbert's Lane to Jardine's Bridge, and a large area opened up in 1920 for additional trackage beyond that. Today an old accommodation car was fitted up and heated and the men used it to carry on their respective duties. This will be utilized until a new building is erected. L. R. Ross, locomotive agent, said that it is imperative for immediate action in replacing the burnt structure. He said it may not be erected on the same site, but that this will be decided on in the near future.

EXPECTS BUSINESS FROM OVERSEAS

President of British Empire Steel Corporation Home from Germany. Halifax, N. S., Jan. 31.—In an interview last night R. M. Wolvin, president of the British Empire Steel Corporation, who returned on the Empress of Scotland Sunday, said that while in Germany and England he had been negotiating for sales of iron ore from the Wabana mines and felt the negotiations would result in satisfactory business in the future. "In Britain," he said, "business conditions have improved very greatly during the year and British export trade is increasing. In Germany there is little unemployment and the condition of the people seems reasonably satisfactory. The German steel industry is working at about sixty per cent of capacity, and would do better if it were not that Germany has to make deliveries of coal to France. Skilled workmen in Germany now receive 100 marks a day, equivalent to fifty cents in Canadian currency."

KILLED BY BULL

Comwall, Ont., Jan. 31.—Going to a shoo to feed some chickens, Wm. P. Wylie, of Poyes Hill, Dundas county, was attacked by a bull yesterday, and crushed against the side of the building. He died later.

### REGULATIONS ARE DECLARED ILLEGAL

U. S. Supreme Court Decides Matter Affecting Baggage Examination at Border.

Washington, Jan. 31.—Decisions of the lower federal courts, holding as valid treasury department regulations withdrawing customs inspectors at certain ports on Sundays and legal holidays except where the inspectors' services were paid by persons desiring to enter property on such days were reversed by the supreme court yesterday.

The regulations in question provided that persons entering the U. S. from Canada after sunset on the day preceding Sunday or a legal holiday must leave their baggage and effects with the collector of customs for inspection on the following such Sunday or legal holiday unless arrangements were made to the satisfaction of the collector of customs for a special inspection under the treasury department regulations.

The international Railway, operating the upper steel arch bridge at Niagara Falls and the Lewiston-Quebec bridge at Lewiston brought suit against the collector of customs at Buffalo, N. Y., to set aside the regulations. The U. S. district court of appeals for the second circuit held that the regulations were legal.

Acting on instructions from the Ontario attorney general's department, provincial police have commenced a campaign against the operators of punch boards in Brockville.

All sorts of noticeably new neck styles, pockets, sashes and trimming effects are in evidence and there are sizes from little tots just learning to walk, to big girls of twelve.

Wouldn't That Small Girl of Yours be Lovely in a Wash Frock Like This?

The skirt has cute little patch-pockets and is piped all around with white. Bloomers to match made with narrow frills to show just a mite below hem of skirt, complete this very smart, childish outfit.

Another dear little frock is fashioned from fresh, pink checked gingham. The collar, cuffs and pockets are effectively edged with black, and a crisp sash of self material ties in an imposing bow at back.

Guimpe dresses are also among fashion's favorites and are featured in different very attractive color combinations.

Rompers and Creepers for tiny tots are in smartest checks as well as pretty plain colors. These are showing with projecting Dutch pockets and tight band at knee; or in straight styles with bloomer legs. Touches of smocking or other hand work make them altogether lovely.

Only One in Five Is Safe

Can you afford to risk your teeth and your health when the odds are four to one against you?

That is what you are doing unless you take proper precautions against Pyorrhoea.

Dental statistics show that four people out of every five contract Pyorrhoea after they pass the age of forty. Thousands younger also suffer.

Neglect Pyorrhoea and it attacks the teeth below the gums—loosening them in their sockets until they fall out or must be pulled; forming pus pockets at the roots. In these pus pockets disease germs breed and multiply, poisoning the entire system.

Pyorrhoea starts with tender gums which bleed easily when brushed. That is the first stage.

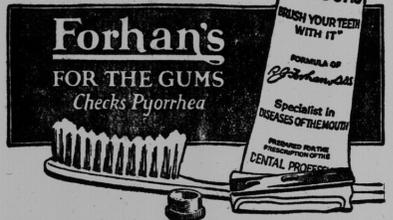

Do not neglect this warning. See your dentist at once, and start using Forhan's For the Gums.

Forhan's is the formula of R. J. Forhan, D.D.S. Used consistently, and used in time, it will prevent Pyorrhoea or check its course.

Use Forhan's twice a day when you brush your teeth. It is the only dentifrice you need. It wards off Pyorrhoea and keeps the teeth and mouth clean and healthy.

Remember, four out of five contract Pyorrhoea because they wait too long. Insure your teeth. Buy a tube of Forhan's For the Gums at your druggist's today. 35c and 60c.

**IBANEZ'S "THE FOUR HORSEMEN" DEEPLY IMPRESSIVE FILM**

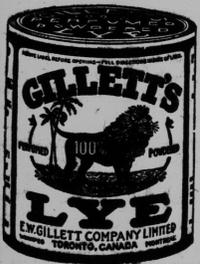

Picture Shows Great Audience and the Necessity of Crushing Militarism as Deadly Enemy of Mankind.

That militarism is the deadly enemy of mankind and that it must be crushed from the highest plane of idealism is the tremendous lesson for all peoples of the world embodied in Metro Pictures Corporation's stupendous presentation of Vicente Ibanez's creation "The Four Horsemen" that received its first public projection in this city at the Opera House last evening before an audience that taxed the seating capacity of the theatre. It remained for a Spaniard, whose country never felt the scorching breath of the late war, to pen one of the most powerful indictments of war ever written. Critics have, with one accord, acclaimed his book to be the outstanding novel of the century. Now that book has been re-created for the motion picture public and the film's influence, against the horrors of war, will undoubtedly exceed that of the written text. It is a picture that will live many years in the memory of those who have seen it and as no other picture ever has done, it brings home in a tense gripping way, the folly of war and what follows in war's hideous wake.

Shorn of its martial glamour and the sustaining power of patriotism, war takes on its frightful garb in this picture. As has been truly said, patriotism is not enough as the motivating power for mankind. There must be a balance and that balance is religion. Ibanez develops this theme to a remarkable degree through the mysterious personage of the prophet, Tchernoff, who visualizes for Julio, the young Argentinian, the Four Horsemen of the Apocalypse, Conquest, War, Famine and Death. It was the original set of Alberto Duran's wood engravings, done in 1911, that inspired Ibanez's creation, the story of which is soon told.

The first part has for its setting, the Argentine home of Madariaga, the centaur, whose two daughters had been forced into marrying. Marguerite returns to her love, Marcelo Denoyers, father of Julio, with antique resources to satisfy his craving for antique art, purchases a castle on the Marne river, overlooking the smiling town of Villablanche, and furnishes it on a royal scale. Laurier becomes suspicious of his wife and visits Julio's studio in company with Marcelo. He finds Marguerite there and challenges Julio to a duel. He retires and announces he will procure a divorce. Then the Four Horsemen step in and Laurier sails and loses his eyesight in defence of his country. It is duty, then, and renunciation for the two young men. Marguerite becomes a nurse while Julio becomes a poet and fights for France.

One night in the storm-swept trench-

es, the order comes for a reconnaissance into No Man's Land by both German and French. Then through the muck and mire of a man-created hell, the two grandsons of Madariaga, the centaur-creeper. The one, a Frenchman—the other, a German. They meet and both are killed by a bursting shell.

**EIGHT-HOUR DAY NOT SUCCESSFUL.**

Hon. Mr. Galipeault's Statement to International Union's Delegation.

Representatives of international labor in the province of Quebec met Premier Taschereau, Hon. A. Galipeault, Minister of Public Works and Labor, and several other members of the government last week. The question of holding an inter-provincial conference to discuss labor matters arising out of the peace treaty and the subsequent Washington conference was suggested by Gustave France. Hon. Mr. Galipeault said that he had no objection to an inter-provincial conference, but could not see the utility of it, and furthermore he did not believe that it was to the advantage of Quebec to give priority of laws regarding labor with the other provinces, as was desired by the delegation. Mr. France stated the objection to an eight-hour day in one province was that other provinces did not follow suit, and that the minimum wage, though there would never be an eight-hour day unless the British North America Act was amended to give the necessary power to legislate to this end.

**NEW INDUSTRY FOR NOVA SCOTIA**

Extensive development of the largest deposits of gypsum in Nova Scotia is promised in the announcement yesterday that the Eastern Gypsum Company, Limited, owners of the largest gypsum area of the Maritime Provinces, situated in Victoria County, Cape Breton, directly on the tide waters of the Bras D'Ors have sold their property to a syndicate of American capitalists, who are organizing a company known as the Great Bras D'Or Gypsum Company, Limited. This development is to be on a large scale. The new company proposes to expend about \$200,000 during the coming summer in opening the quarry and establishing a plant for calcining a large portion of the output for the market, a large market and an ever increasing demand. This investment was to have been begun by local capitalists almost on the very day war was declared, but their plans were suddenly arrested and eventually frustrated by the calamity. The extent of this property can be somewhat gauged in the report of Mr. W. F. Jenness, L. M., who is one of the leading authorities on gypsum and was selected by the Canadian government to prepare a very exhaustive report on the gypsum deposits of Canada. He states that the property contains approximately 200,000,000 tons of gypsum above drainage level and that its situation and location is ideal for the most economical operation and transportation.

**DISREGARD BEAUTY OF LAKE TEMAGAMI**

Timber Probe Hears Charges of Reckless Methods.

Toronto, Jan. 31.—Charges that high-handed and reckless methods coupled with disregard for the scenic value of Lake Temagami on the part of the Spanish River Pulp and Paper Company, Limited, had endangered one of the province's finest natural beauty spots, enlisted the timber probe.

Crown Counsel Shirley Denison, K. C. declared that the company had in 1918 installed a dam at the outlet from Lake Temagami and also lowered the level of the outlet to the extent of four feet, without the permission of the Department of Lands, Forests and Mines.

**FOUR THOUSAND IN RIOT AT JUTE MILLS IN INDIA**

Serious Clash With Police in Suburb of Calcutta—Two Killed, Many Wounded.

Calcutta, Jan. 30.—Four thousand workers in the Standard jute mills at Titeghur, in the environs of Calcutta, engaged in a riot on Thursday and were subdued by the police only after numerous casualties had been inflicted. The trouble arose when the workers demanded the release of two comrades arrested on a charge of assaulting the manager of the mill. His Lordship indicated that evidence on the point had been unsatisfactory, but that all the commission could do was to recommend a departmental investigation. Crown counsel argued that the minister had no right to give territory by verbal agreement and that, therefore, all the curbing done on the concession had been ill advised.

A clash also occurred in the city, where a meeting of non-co-operationists was dispersed by the authorities. Several were injured on both sides, and thirty persons were arrested.

About thirty of the ladies of the congregation of the Charlotte street United Baptist church last night called on the

new pastor and his wife, Rev. C. R. and Mrs. Freeman in their home, 274 Tower street, and gave them hearty greetings. The guests brought with them an abundant supply of good things to stock the paragon pantry and when they had disposed of their burdens a pleasant social hour was spent with games and music. Mr. Freeman on behalf of himself and his wife warmly thanked the visitors for the many kindnesses shown them since their arrival in St. John.

CUPID VERSUS ATHLETICS.  
Co-eds Blamed Because University Team Loses  
Chicago, Jan. 31.—The distracting influence of co-eds on athletes at Northwestern University is responsible for the consistently poor showing of the school's teams, according to the university's newspaper, the Daily Northwestern.  
There are other schools with more women and a gilded social whirl, yet where successful athletic teams are a tradition. The difference lies in that they have such an abundance of athletic matter any athlete can be dropped if he persists in falling in love.  
"If the success of athletics is measured, as suggested, more material will have to be attracted to allow for Cupid's fatalities, or the influence of the co-ed automatically curtailed by reduction in numbers, to avert the trouble."
