

GOOD THINGS COMING TO THEATRES OF ST. JOHN

FAMOUS "HE-VAMP," IMPERIAL TOMORROW

Lew Cody in His Latest Elaborate Picture, "The Beloved Cheater."

Lew Cody, the most finished artist the screen had developed in years, will be seen at the Imperial tomorrow in "The Beloved Cheater," a new pictorial sensation.

"The Beloved Cheater," as he is called, is the idol of the fair sex, and, different from most of that type, popular among his men friends. In fact, he is in such demand that he is constantly being asked by his less fortunate brothers to give them advice on their love affairs.

He is put in a most embarrassing situation by an odd request from one. Would he teach his friend's fiancée how to kiss? Always willing to oblige, "The Beloved Cheater" complies with the usual result—he wins the girl away from her fiancée. Now usually this would be the end of the story, but there is a twist to this most surprising tale that makes this one of the most enjoyable pictures seen this season.

REPORT ON THE SHOE CONVENTION BY P. M. RISING

St. John Merchant Who Was at Montreal Meeting

Conditions in the Industry in Canada Set Forth—The Maritime Provinces—The Matter of Prices.

P. M. Rising of Waterbury & Rising, Ltd., returned on Sunday from the national shoe and leather convention at Montreal. The shoe convention, which closed on Friday night, was mutually beneficial to the manufacturers, jobbers, retailers, employers, the general public and all who took advantage of it. "Canadian Made Footwear, the Best in the World," was well displayed by Canadian experts, whose workmanship in all details was a creditable asset, said Mr.

Easing off Stock is a Very Profitable Business for St. John Shoppers

Twenty Stores in Canada **D'Alaird's** 10 King Square Blouses

ced their continued existence. Nevertheless, these factories contribute in no small measure to that exceedingly keen domestic competition which constitutes today a very real protection to the Canadian public.

Such small factories would be the first to be affected by increasing competition from abroad or by declining demand for reduced domestic demand for Canadian-made footwear.

Thirteen Canadian factories have a combined production of over 15,000 pairs of shoes per day. There are, however, a number of small mills as well which turn out from 100 to 500 pairs per diem. In 1918 the largest Canadian manufacturing plant was producing only slightly over 4,000 pairs per day, although its output in 1919 was much larger.

One manufacturer in the United States has a daily production of more than all the Canadian plants combined. In connection with the consideration of competition from the United States and Great Britain, it will be shown that the boot and shoe manufacturers in the Dominion do not base and have not at any time based, domestic prices on prices abroad, plus duty, and that Canadian leather boots and shoes in certain lines are today actually lower in price than similar goods sold in the United States.

**Montreal Leads.**

Montreal leads the boot and shoe manufacturing of Canada. In the Montreal district are some 30 factories, producing 46.8 per cent of all the leather footwear made in Canada. Ontario, with approximately the same number of factories, makes 30.8 per cent of the entire Canadian production. In Quebec

GIVE \$100,000 TO BUILD TUBERCULOSIS SANITARIUM

Ottawa, July 19.—Mr. and Mrs. E. C. Whitney of Ottawa have given \$100,000 in Victory bonds to the corporation to be used for the construction of a tuberculosis sanitarium in connection with the City of Ottawa Sanitarium. The corporation is that the city shall be responsible for the upkeep of the institution.

**Suburbanites, Attention!**

Can you get a wash woman to go to the country or does wash day mean a day of drudgery for your wife?

You go to the country to enjoy a rest, but Monday's drudgery spoils the week.

There are always bigger washings in the country. The women and children are wearing light colored clothes and visitors make extra washing.

Standing over a steaming tub is the hardest and most unhealthy work a woman has to do.

A RED STAR Washer saves the drudgery, makes washing easy, does it in half the time and is easier on the clothes.

The cost of a wash-woman for two months will buy a RED STAR and the machine will do your washing for years.

See the RED STAR at—  
W. H. Thorne & Co., Ltd.

classes and conditions; a story for the  
 masses written about things that every-  
 body understands.  
 Alice Joyce has never appeared to bet-  
 ter advantage. She has never handled a  
 role with greater skill or such a degree  
 of warmth and feeling. It might well be  
 termed her best effort. But Miss Joyce  
 does not completely outdo her support-  
 ing cast, every member of which is  
 known for accomplishing big things in  
 the films.

**RECENT DEATHS**  
 Lady Burn.  
 Ottawa, July 19.—The death of Lady  
 Burn, wife of Sir George Burn, removed  
 from the life of the capital one of its  
 outstanding figures. Lady Burn passed  
 away at her home, 255 Metcalfe street,  
 at an early hour Saturday morning, after  
 a short illness. She was born in 1862 in  
 Toronto, the daughter of the late Mr.  
 Matthew Drummond.

**Professor John Macoun.**  
 Ottawa, July 19.—Professor John  
 Macoun, one of Canada's leading botan-  
 ists and for many years a resident of  
 Ottawa, passed away Sunday morning  
 at his home in Sidney (B.C.). He was  
 ninety years old, and was known from  
 coast to coast as one of the great con-  
 tributors to the science of botany, and  
 one who in collaboration with his son,  
 the late J. M. Macoun of this city, had  
 analysed and distinguished some one

**MARINE NOTES.**

The commander of the schooner Amy  
 G. McKean, which made a run from  
 Halifax to Tuxedo in fifteen days is  
 Captain Ryder, formerly in command  
 of the St. John schooner, General Hogg,  
 which he piloted 7,000 miles to safety  
 with a broken rudder.  
 Four large sailing vessels, including  
 the first square rigged vessel to enter  
 the port this year, probably are on their  
 way to St. John. They are the British  
 barkentine Whitson, which sailed from  
 Torrevieja, Spain, on July 4 with a  
 cargo of salt; the five-masted schooner  
 Diapride of Boulogne-sur-Mer, which  
 sailed yesterday from Havre for St.  
 John; and two four-masted, the British  
 schooner, Harry A. McLennan, which  
 left Setubal, Portugal, with salt on  
 June 30, and the American schooner  
 Mary Manson Gruener, which left Bar-  
 badoes with molasses on July 18.

A large three-masted schooner is be-  
 ing built at Moss Glen, Kings county,  
 by Captain Peter McIntyre, of Main  
 street. The schooner is being built  
 under the supervision of Master Builder  
 L. P. McLean. The work on the ves-  
 sel was commenced about a year ago,  
 and it is expected that it will be com-  
 pleted and ready for launching this fall.  
 The tonnage of the schooner will be in  
 the vicinity of 500, and it will be used  
 for coastal and foreign trade.  
 The house is being finished by Coes &  
 McDonald, and the planking is being done  
 by A. L. B. Smith, of Newcastle Creek.  
 The schooner is owned by Captain Peter  
 McIntyre and his son, A. A. McIntyre.

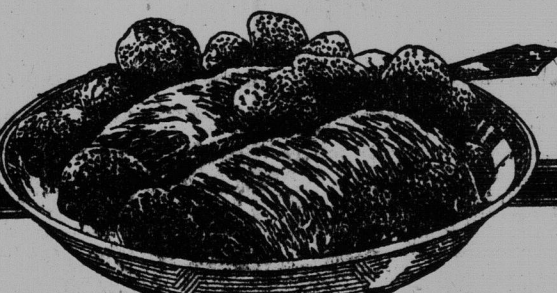

**"DOLLARS AND THE WOMAN" AT THE UNIQUE**

"Dollars and the Woman" which was  
 shown at the Unique Theatre yesterday,  
 has one of the most timely themes in  
 the world today. It is a story of vital  
 interest to every human being. The do-  
 mestic problem which is responsible for  
 much of the discord and unhappiness in  
 homes is presented in a most entertain-  
 ing manner. It is a tale of human in-  
 terest, a page of life such as the major-  
 ity of the adults know or have experi-  
 enced. The theme is as old as the world  
 and yet it is eternally new and timely.  
 In treatment alone is this story by  
 Albert Payson Terhune new. It bears  
 the earmarks of his master touch which  
 places it among the worth-while features  
 of the screen. Add to such a story the  
 personality of Alice Joyce, a star re-  
 cognized far above par. It is an unusu-  
 al dramatic and emotional skill, and the result is a pro-  
 duction far above par. It is an unusu-  
 al picture, one that will interest all ages,

 Mavis Talk is refreshing and truly IRRESISTIBLE.  
 At all good druggists and toilet counters.

**RECENT WEDDINGS**  
 A pretty wedding was solemnized in the Church of the Assumption yesterday morning by Rev. Father Ryan when Miss Lena Wedge, daughter of Mr. and Mrs. Frank Wedge of Bloomfield (P. E. I.), became the bride of Thomas Con- don, of Boston. The bride looked charming in a tailored suit of blue serge and hat to match. After a dainty wedding breakfast, served at the home of the bride's sister, Mrs. Ferry, Protection street, West End, Mr. and Mrs. Congdon left on the Digby boat for Yarmouth, and from there they will leave for Boston, where they will make their home. Many useful gifts were received, including linen and silver.

The Evening Times and Star

ST. JOHN, N. B., JULY 20, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

A NOBLE EXAMPLE

The late Senator Dennis, has a new claim upon the respect of the people not only of Halifax but of the country at large. The generosity which marked his life is yet more manifest in the terms of his will.

INDUSTRIAL DEMOCRACY

When the late Mr. T. S. Simms, some forty-eight years ago, began the business of making brushes in St. John, in a small way, he could not have dreamed that today one of his sons would be the president of a company successfully operating the largest brush factory in Canada.

THE NEW HOTEL

The question whether St. John is to have a great modern hotel is now up to the citizens. They are asked to subscribe stock to the value of one quarter of the amount to be expended.

OUR WHEAT IS NEEDED

Along with news of the prospect of a great crop of wheat comes the information that the surplus will all be needed to feed Europe.

IT IS NOT IN THE BOND

The Globe last night told its readers that under harbor commission Vancouver is moving in the direction of the abolition of all wharfage charges and all harbor and port warden dues.

HEALTH CARAVANS

The public health caravans of the Nova Scotia provincial branch of the Canadian Red Cross Society will start out on July 12 from Halifax.

OUTPUT OF FACTORIES INCREASING, IS REPORT

Imports From Europe Are Reaching Country in Greater Volume. (Canadian Press Despatch.) Winnipeg, July 20.—The weekly trade report of the Canadian Credit Men's Association gives several interesting points.

Coal Crisis Acute. Montreal and Quebec reports state that the between season finds wholesale trade generally quiet. In manufacturing lines the shortage of coal is causing much inconvenience and many more factories will be obliged to close down owing to this cause, no relief being in sight.

Imports Freer. Winnipeg and Manitoba wholesalers and business up to the average for July, and with grocery and provision lines busy. Production in many cases seems to be catching up with the demand and goods are obtainable more easily from European States, Switzerland and Italy, from which points imports have been at a standstill for the past two years.

MAGNET LIFTS CARGO OF NAILS FROM RIVER. Electric Energy Performs Heavy Industrial Jobs—Handles Pig Iron Easily. There have been big changes in the methods of handling unwieldy freight since electric power came to the aid of the factory and foundry man.

A large cargo of legged nails was recently recovered from the bottom of the Mississippi River after having been lost in a wreck. A similar rescue of coiled wire from the Ohio River near Pittsburg is another recent performance.

Another is that prices, as a rule, are remaining firm, the only exception being in boots and shoes, in which an easing off the price is clearly apparent. Toronto advices state that the wholesale grocery trade is fairly brisk, with prices firm. Dry goods, boots and shoes, men's and women's wear, quiet.

Montreal and Quebec reports state that the between season finds wholesale trade generally quiet. In manufacturing lines the shortage of coal is causing much inconvenience and many more factories will be obliged to close down owing to this cause, no relief being in sight.

Winnipeg and Manitoba wholesalers and business up to the average for July, and with grocery and provision lines busy. Production in many cases seems to be catching up with the demand and goods are obtainable more easily from European States, Switzerland and Italy, from which points imports have been at a standstill for the past two years.

Electric Energy Performs Heavy Industrial Jobs—Handles Pig Iron Easily. There have been big changes in the methods of handling unwieldy freight since electric power came to the aid of the factory and foundry man.

The recently perfected electric truck for inter-departmental haulage in factories has been pronounced one of the transportation marvels of the age.

It may not be long before a powerful electric lifting magnet may be invented to salvage some of the big steel ocean vessels that were sunk during the war.

Maritime Province advices indicate little change from last week, which stated that wholesale lines were mostly busy and retail trade up to the average, with the exception of clothing lines and boots, both these being very quiet, with expensive lines being a dead letter.

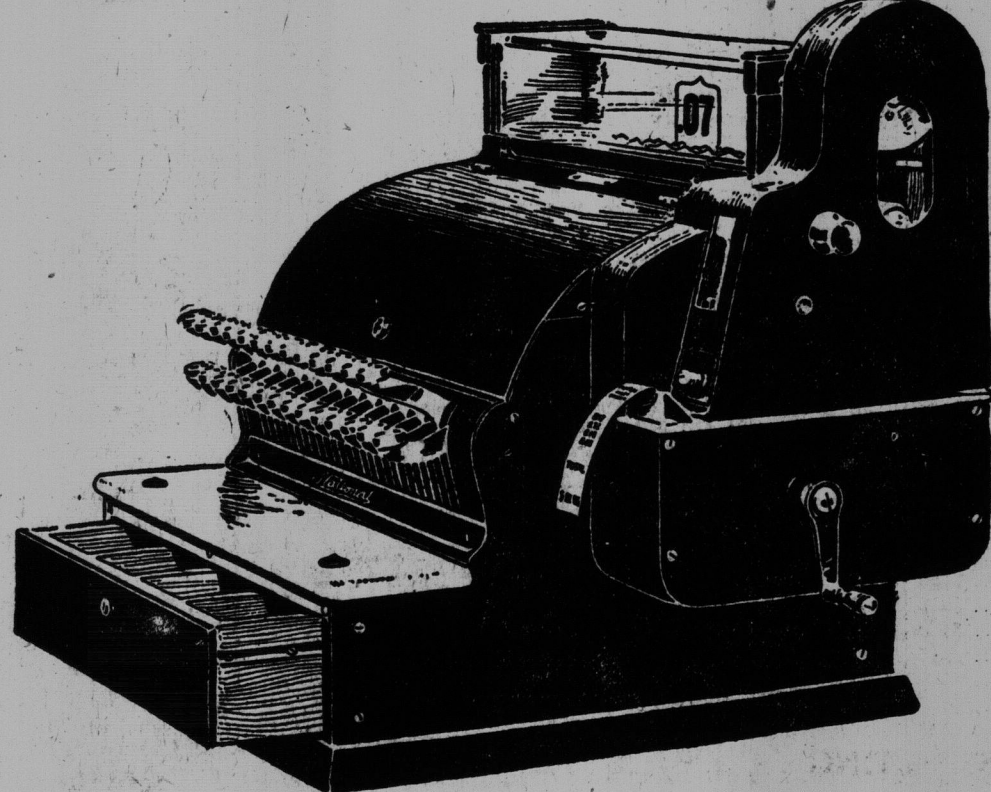

Skateston and Regina advices give indications of slightly improved conditions in wholesale circles, the volume of business during the past two weeks being above the average; retail trade also looks brighter, generally good weather conditions being responsible for an improvement in buying.

Today an electric hoisting magnet is lowered over the car or barge, the power is thrown on and the magnetism grabs and grips a whole ton at a time, one "pig" hanging to another. Then the derrick swings over, stops above the yard pile, the current is shut off and down drop the "pigs."

Poor Willie. Newcomb Carlton, the Western Union's head, said at a luncheon: "Some of these small nations are going to have a difficult time of it, I fear. The allies will help them, I know, but it will be like the case of little Willie and his pa."

"Willie and his pa and ma started into the ocean for a bath, Willie gripped his pa's hand firmly. "It's up to my waist," he said. "Well, hold pa's hand tight," said his mother. "So they waded on, and pretty soon Willie quavered."

No machine can do what this new receipt-printing cash register does

- 1. It prints the merchant's name. 2. It prints the price of each article. 3. It adds the items. 4. It prints the total of all items. 5. It retains an added and printed record.

WAR ON RODENTS, BUT SPARE SNAKES

Federal Biologist Says Worst Pests Are Imported Mice and Rats

Some Useful Flesh Eaters — Eagles, Hawks and Owls Are Listed as Doing More Good Than Harm.

(New York Times) Since time immemorial mice and rats have been a plague to the human race. The damage and destruction they did in ancient times are vividly described in the scriptures and subsequent histories and narratives of the world.

The house mouse and three kinds of rats, David E. Lantz, assistant biologist in the department of agriculture, says in a bulletin to farmers, "are the only rodent pests in North America not native to the country."

"Rats are much more suspicious than mice and are rather hard to trap or poison. Either method of destroying them may be made effective by making inaccessible all food other than the bait used."

"Some cats and some dogs are useful against rats, but the well-fed and pampered feline or canine will refuse to hunt them."

"Under most circumstances the best results in ridding premises of rats may be obtained by the use of a sufficient number of ordinary gullotine traps."

"Most carnivorous or flesh-eating animals feed extensively on the rodent pests of the farm. Coyotes, foxes, wildcats, badgers, skunks, minks and other flesh-eating mammals are among the most potent agents in preventing an undue increase of mice, ground squirrels, pocket gophers and the like."

"These have been hunted, not only for their valuable pelts, but because they have been considered the enemies of domestic animals and game. The fact that many of them destroy far more noxious rodents than do useful animals has often been forgotten, and, in the name of game protection, legislatures have sometimes proscribed by bounties species that do far more good than harm."

Real-Fruit Desserts The Rarest Sort

The only gelatine dessert which has fruit-juice flavors sealed in glass is Jiffy-Jell. No artificial flavor can take the place of fruit. For Jiffy-Jell the fruit is crushed, condensed and sealed in vials.

ARE GETTING RESIN BY NEW METHOD Product Is Drained Into Sealed Flask, Causing No Damage to Tree.

(New York Times) A method has been found that, instead of injuring the growth of the resin-producing tree, as has formerly been true, will increase its healthy sap and make it productive. In a recent interview E. S. Oliver, an industrial chemist and specialist on wood products, who has made a study of methods of extracting the maximum quantity of resin from trees without injury to the growing tree, said: "The greatest satisfaction is that the industry will be a constructive one, instead of a destructive one as practiced in the Southern pine forests of the United States."

the quality of the timber and the rapidity of its growth are aided. The small drain holes not affecting the efforts of the tree to send up sap and build up its tissues into the tree trunks. When the tree trunk is scarified or the bark injured the resin oozes out. Among the valuable products obtained as a result of experiments with British Columbia Douglas fir resins are turpentine, fir oils, which form the base of "fruit" extracts used at soda fountains, medical oils, etc. and resins which make varnishes of the highest grade. Printing inks are also made from the resin. One of the most interesting is Burgundy pitch, which, instead of being "pitch" black is snowy white. Its greatest value is as a white ink for use in lithographic work.

**LOCAL NEWS**

**SISTER LIVES HERE.**  
The death of William Stridger occurred at Arlington Mass., on the 18th inst. His home was in Chicago. He leaves one sister, Mrs. M. Babkirik of this city.

**HER BIRTHDAY.**  
In honor of her 10th birthday, friends of little Miss Vida Lodge, gathered at her home, 98 St. James street yesterday. A pleasant afternoon and evening were spent in games and music.

**DIVORCE COURT.**  
A session of the divorce court will open tomorrow for the hearing of two St. John cases, McCavour vs. McCavour, and Kincaide vs. Kincaide. The hearing will be before His Honor Judge Crockett. G. Earle Logan is proctor in each case.

**BISHOP LEBLANC AWAY.**  
His Lordship Bishop LeBlanc left yesterday for Woodstock on a confirmation tour. He was accompanied by Rev. A. P. Allan. Before returning home His Lordship will go to St. Stephen's there to invest Right Rev. J. M. O'Flaherty as a Domestic Prelate.

**CASE POSTPONED.**  
Owing to death in the family of Wilfred Graham, the case against him and Frederick Mahaney, which was to have come before Judge Armstrong in the county court today, was postponed until tomorrow. Graham was allowed out to attend the funeral and the hearing, which is under Speedy Trials, will take place tomorrow.

**A DINNER JOKE.**  
Harry Champolovier, who represents T. S. Simms & Co. on the Pacific coast, was the object of special solicitude at last evening's annual dinner of directors and employees. Mr. Champolovier is ample of proportion, suggestive of good living, and bubbling over with good nature and jovial remarks. When the chicken and vegetable came, he was served with a special dish, containing a whole chicken, about a can of peas and enough potatoes, at present prices, to bankrupt the average householder. Mr. Champolovier gazed on the dish, exchanged glances with a Montreal man beside him, seized knife and fork, and affably observed: "Gentlemen, I thank you. There is positively no complaint about quantity. What I yearn for is capacity."

**SILOAM LODGE.**  
At a meeting of Siloam Lodge, No. 29, D. O. P., last evening, with Deputy Grand Master Geo. A. Chase presiding, the following officers were installed:—G. N. Hartley, N. G.; Fred Bryden, W. G.; E. Jenner, financial secretary; John Jackson, treasurer; Charles McFarlane, chaplain; Edward Ross, secretary; Arthur Boyer, warden; John Stammers, R. S. N. G.; A. S. Walker, L. S. S.; J. W. H. McBride, I. G.; K. Fairweather, O. G.; F. Mitchell, L. S. S.; J. A. Duncan, R. S. T. S. F. During the year five male members and one sister passed away and a confirmation service was held last night. Rev. Messrs. J. A. MacKeigan, W. R. Robinson, H. A. Goodwin and J. H. Jenner gave addresses and Mr. Bennett sang a solo. Those who died during the year were Lillian Gibbs, William Morrell, Captain Lawson, Ward Anthony and Percy Parks.

**DEATH OF MRS. H. MARSHALL STOUT**  
Fairville and city friends were shocked to learn on Monday of the death of Mrs. H. Marshall Stout of Fairville, who passed away suddenly at half past one o'clock on Monday at their summer home at Epworth Park on the St. John river. She had been ill for about a week with pneumonia, and unexpectedly caused her death. The funeral was held this afternoon at the home at Epworth Park was conducted by Rev. Neil McLaughlin and at the graveside by Rev. Thomas Marshall, assisted by Rev. Mr. McLaughlin. Mrs. Stout is survived by her husband, who is of the R. G. Dun & Co. staff, two children, her mother, Mrs. William Miller, one brother, Samuel Miller, at home, and three sisters—Miss Eleanor Miller, Mrs. Richard B. Cline and Mrs. Annie Lattie of Maine. She was a devoted and active member of Fairville Methodist church. In kindergarten and playgroups work she had left the impress of her faithful and devoted work. She was a kindergarten teacher by profession and was for some time in charge of the Free Kindergarten, Waterloo street. In playground work, she was assistant to Miss Miller on the first supervised playground staff in St. John, at the time that playgrounds were instituted through the efforts of the late Miss Mabel Peters. She had also been active in the almshouse of the Free Kindergarten Association and only recently retired as past president. In other ways also she had given time and talents to this work. In her home life, as in all her associations, the influence of her high character was noted and she will be deeply mourned wherever she was known. The bereaved ones will have deep sympathy in their great loss.

**RECEPTION FOR HON. MR. WIGMORE ON THURSDAY**  
At a meeting held in the Mayor's office, this morning, the mayor presiding, it was resolved to tender a civic reception, of an informal and non-political character to Hon. R. W. Wigmore, on the occasion of his return to the city on Thursday from Ottawa. The mayor named as a citizens committee the following: E. A. Schofield, chairman; E. J. Terry, R. B. Emerson, A. P. Paterson, A. H. Wetmore, H. C. Schofield, George A. Warwick, W. F. Burditt and E. E. Armstrong.

**THE AUTO KING.**  
Henry Ford, whose boon for third party's nominee for President of the United States has collapsed. The party's platform was too radical for him.

**SALMON FISHING IN NEW BRUNSWICK.**  
Eastern Chronicle: Alex. McGregor, M. P., H. T. Sutherland, Capt. Colin Fraser and Mr. Fraser, are in St. John today for northern New Brunswick, where they will spend a fortnight salmon fishing on the Upsalquitch river. They will be joined by Dr. Colin Sutherland and make their headquarters at a splendid camp owned by Hon. F. B. McCurdy, minister of public works. This river with the unpronounceable name is famous for its excellent fishing and the New Glasgow anglers expect to enjoy great sport.—Eastern Chronicle.

**FIRE DESTROYS FERTILIZER PLANT**

Serious Blaze This Morning at East St. John

Loss Estimated at \$100,000. Partly Covered by Insurance—Blaze First Seen in Dry House About 5 o'clock.

A disastrous fire consumed the Provincial Chemical Fertilizer Plant at an early hour this morning, burning the whole plant to the ground. It is estimated that the damage will amount to at least \$100,000.

A little before 5 o'clock, William McAfee, who was employed at the plant, saw that there was a fire in the dry house. He hastened to the scene where he was joined by E. Peacock who is also employed there, and who lives right next to the plant. They tried to get the hand cleaner, belonging to the plant and use it to put out the flames but it was within the burning area and the heat prevented them from getting to it. An alarm was sent in, but before the fire department could arrive on the scene saving the building was out of the question.

Dean McHugh, a driver of the company, who boards at the house of Mrs. James Kelaher, said that at about twenty minutes to five this morning he was having his breakfast when Mrs. Kelaher called his attention to a fire in the direction of the plant. Neither of them thought it was the plant which was burning but that some shed on the other side of the building had caught fire. When he saw that the plant was alight, he hurried to the scene and found McAfee and Peacock on the spot. Others quickly arrived and the task of removing as much as possible from the premises was carried on. The gasoline was drawn off from a small shed in the rear and the horses were taken from the barn, but the main structure had to be left to its fate. The office building, near the road was not burned and the barn is not damaged but it was only by a constant stream of water that the gasoline shed was preserved and the gas removed.

By eight o'clock there was nothing but a mass of smoking ruins where was a large and flourishing plant yesterday. The fire teams because of the distance arrived too late to stay the conflagration. In the building were a new Federal truck, of which the only distinguishable part remaining is the steel undercarriage, and a moving machine, both total losses. Piles of leather were still smoldering at 10 o'clock.

Louis Eckerbrecht, manager of the works, said this morning that the damage would amount to about \$100,000, partly covered by insurance. The origin of the fire is a mystery, and nothing seems to be known about it except that it had been first seen in the dry house. There were three tons of potash in the building valued at \$150 a ton which were consumed.

This plant was built in 1911 by R. D. Paterson, the present president of the company. The works were flourishing and Mr. Eckerbrecht said that during the war they had hard work filling all their orders.

This company had a lime kiln burned at Riverside in the spring of this year. Mr. Peacock, who lives next to the plant with his three sons, feared that his house would go when he saw that the fire was beyond control and every movable article in the house was taken out in record time, but the fire did not extend to the house and the furniture was replaced. Mr. Peacock's was the only house threatened by the fire.

**WAS IN CIVIL WAR**

Death of George Lahey Last Night at Age of 89.

The death of George Lahey took place last night at the home of his daughter, Mrs. W. J. Linton, Manawagonish road, Fairville. He was eighty-nine years of age and during his life had followed the sea until his retirement a few years ago. He was well known throughout the city in shipping circles. During the civil war between the North and South he fought with the Lincoln forces in their endeavor to abolish slavery. He leaves besides Mrs. Linton, one son, Hunter Lahey and another daughter, Mrs. Hazen McLean, both of this city. A large circle of friends extended sympathy to the bereaved ones. The funeral will take place tomorrow afternoon from the residence of his daughter at 2:30.

**THE ARM CHAIR THAT IS "HIS!"**

Every home-loving man has his favorite armchair. In it he finds his ideal of comfort and relaxation from the cares and responsibilities of the day. Through adoption it becomes "his" chair, and with each passing year it becomes more and more a part of his very life.

Did you ever stop to consider what a sustaining influence the favorite armchair is in the life of the busy man? How it encourages his love for home, and how it endears itself in his thoughts?

These are the things to consider when the armchair is being selected, for it frequently becomes a lifelong companion. Everett's presents for your consideration only such easy-chairs as are worthy the most intimate association. There are many styles at a very wide range of prices so that every inclination can be fully gratified. And the values in every instance will bear most critical comparison.

**Dainty Dresses for Women Folk**  
At Prices Representing 1-3 to 1-2 Saving

The name Betty Wales is too well known among discriminating women folk to admit or even make necessary an extended story on the merit of dresses bearing that name. So we'll merely say that these dresses are Betty Wales. The saving is so apparent you'll want to take quick advantage—because some lines are low.

VOTE AGAINST CITY BUYING

Suggested Taking Buildings Next City Hall

This and Other Matters at Council Meeting This Morning—Question of Gas Mains and Conduits.

At a meeting of the common council this morning, Commissioner Frink moved that a bill be prepared and submitted to the legislature governing the laying of gas mains and conduits by the New Brunswick Power Company, and conduits by the New Brunswick Telephone Company in streets which are about to be saved, and that it be compulsory with the companies or any city incorporated companies using streets or roads in St. John to provide such mains and conduits under the direction of the city engineer.

A resolution was also passed regarding the installation of sewer and water connections to ninety-six vacant lots in Douglas avenue and presented the following resolution, which was passed: Whereas the Common Council having by resolution ordered paving to be done on Douglas avenue on an early date, and whereas there are at the present time a number of vacant lots along that thoroughfare without sewerage and water service;

And whereas it is desirable that all vacant lots should be provided with these facilities in advance of the putting down of the pavement;

Be it therefore resolved that the Commissioner of Water and Sewerage be instructed to direct the attention of the owners of vacant lots to the provisions of section No. 43 of the Act relating to Sewerage and Water supply in the City of St. John.

A lengthy discussion followed and it was agreed that no trench work should be permitted in a new street for a period of five or more years.

Commissioner Frink then made a motion that the mayor be authorized to negotiate for the purchase of the two buildings adjoining city hall in Prince William street. The motion was seconded by Commissioner Jones.

Commissioner Frink then explained the reason he brought up the matter was to clear the air so that when they went to the municipality whether or not this idea was to be abandoned or upheld.

The council then went into committee and Mayor Schofield read a report from the trustees of the city.

The report was lengthy, giving data on the original grant for this purpose and the interest.

Mayor Schofield said that so soon as it was reasonable he was in favor of developing the property into a park.

At this point Commissioner Bullock asked Commissioner Frink if some of the city streets even if repairs could not be undertaken.

Commissioner Frink said that the speaker was out of order. Commissioner Jones then moved for an adjournment and Commissioner Bullock seconded the motion and started to leave the room when Commissioner Frink wanted warmly against such an action.

When peace again reigned the meeting was adjourned.

STOUT—Very suddenly, on July 19 at Epworth Park, D. Belle, wife of Marshall Stout of Fairville, leaving to mourn her husband and two children.

LARRY—On July 19, 1920, at the home of his daughter, Mrs. W. J. Linton, Manawagonish Road, George Lake, aged 89 years, leaving one son and two daughters to mourn.

Funeral Wednesday at 2:30 o'clock. COOPER—In this city on July 19, 1920, Mary Kathleen, in her 16th year, daughter of Frank and Catherine Cooper, leaving her parents, three brothers and three sisters to mourn.

OFF TO HUDSON BAY

S. S. "Pelican" leaving Montreal on its annual Hudson Bay trip. The "Pelican" is an old battleship and was one of the first to carry 6-inch guns in fighting enemy subs.

S. S. "Pelican" leaving Montreal on its annual Hudson Bay trip. The "Pelican" is an old battleship and was one of the first to carry 6-inch guns in fighting enemy subs.

Governor Carleton accepted. The price submitted was \$1100. A contract for painting No. 4 Engine House was given to W. E. Demings, whose tender was \$250.

Commissioner Jones then brought up the matter of installing sewer and water connections to ninety-six vacant lots in Douglas avenue and presented the following resolution, which was passed: Whereas the Common Council having by resolution ordered paving to be done on Douglas avenue on an early date,

And whereas there are at the present time a number of vacant lots along that thoroughfare without sewerage and water service;

Be it therefore resolved that the Commissioner of Water and Sewerage be instructed to direct the attention of the owners of vacant lots to the provisions of section No. 43 of the Act relating to Sewerage and Water supply in the City of St. John.

Mr. and Mrs. H. W. Spans and son, Herbert, of Everett, Mass., arrived on the S. S. Governor Dingley on Saturday.

Mr. and Mrs. Louis M. B. are in the city today.

Mr. and Mrs. J. W. Spans and son, Herbert, of Everett, Mass., arrived on the S. S. Governor Dingley on Saturday.

Mr. and Mrs. Louis M. B. are in the city today.

Railway Men's Increase To Total \$600,000,000

Award of U. S. Railway Labor Board Affects Nearly 2,000,000 Employees—Increase About 21 Per Cent.—Retroactive to May 1.

Chicago, July 20.—The United States railway labor board today awarded the nearly 2,000,000 organized railway workers wage increases totalling \$600,000,000.

The increase amounts to approximately twenty-one per cent. of the present rates of pay.

The board assumes as the basis of this decision, the award says, "the continuance in full force and effect of the rules, working conditions and agreements in force under the authority of the United States railroad administration."

The intent of this decision is that the named increase except as otherwise stated, shall be added to the rates of compensation established by the United States railroad administration.

The award is retroactive to May 1 of this year.

The decision of the board grants to the railroad workers approximately sixty per cent. of the billion dollar increase which they sought.

Presidents of all the leading brotherhoods and representatives of the railroad management were present when the decision was made public.

The increase follows: Freight service—Engineers, firemen and brakemen, \$80 a month. Suburban passenger service—Engineers, \$90 a month. Freight service—Conductors, bagmen and brakemen, \$104 a day.

Freight service—Engineers, firemen, helpers, \$104 a day. Freight service—Engineers, firemen, helpers, eight cents an hour. Passenger service—Conductors, ticket collectors, baggage men, firemen, helpers, eight cents an hour.

Passenger service—Engineers, \$90 a month. Freight service—Conductors, bagmen and brakemen, \$104 a day.

Superior rates established by the railroad administration, the board fixed the following schedules: Yard service—Foremen, \$68 a day; helpers, \$68; switch tenders, \$64. Hoister service—Outside hostlers, \$64 a day; inside hostlers, \$50 a day; helpers, \$64.

The following increases were authorized for shop employees, power men and train drivers, block operators and steam men, ten cents an hour. Agents at small non-telegraph stations, five cents an hour.

Hostler service—Outside hostlers, \$64 a day; inside hostlers, \$50 a day; helpers, \$64.

The following increases were authorized for shop employees, power men and train drivers, block operators and steam men, ten cents an hour. Agents at small non-telegraph stations, five cents an hour.

Hostler service—Outside hostlers, \$64 a day; inside hostlers, \$50 a day; helpers, \$64.

The following increases were authorized for shop employees, power men and train drivers, block operators and steam men, ten cents an hour. Agents at small non-telegraph stations, five cents an hour.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, JULY 20, 1920

## SUGGESTS REMEDY FOR SHORTAGE OF HELP ON FARMS

(By C. Forest Laby.)  
Newspapers throughout the country recently have been calling attention to the fact that within a very short time we may look for famine prices on wheat, corn, potatoes and all other staples of life; that the farm will fall to yield unless something drastic is accomplished immediately in the way of producing an effective factor that will put a stoppage to the exodus of the country youth city-wards. "The question of 'what is to be done' is fundamental in its simplicity, but astoundingly difficult to answer," states a Chicago daily.

Prof. T. C. Atkinson of the National Grange is authority for the statement that only one per cent of the boys who left the farms of the United States to join in its war service have returned to take up again production from the soil. The other ninety-nine per cent, according to his research and investigation, have chosen as a means of their livelihood the industrial and commercial life which the city offers.

It was upon these men, who were available at one time at planting and harvest time, that the farmer depended for the making and gathering of his crops. Without them there can be no planting of seed—therefore, the impossibility of resulting food products. "What is to be done?" is truly a question which demands the attention of the best minds of the country.

While serving in the American army for more than two years, both in this country and overseas, the writer came into contact with hundreds of boys who, until they enlisted in the service of their country, had never before left their home towns. Visiting many of the larger cities in America and Europe, it was not long before they realized that the larger cities offered them many things in the way of amusement and recreation, places of entertainment to go to in the evening—something entirely lacking in their own home towns, in fact, they frequently remarked that immediately upon their discharge from the service it was their intention to establish themselves in the larger cities and there take advantage of the greater opportunities open to them. As a consequence, when they returned and the glory of their reception and homecoming had worn away, they sought the larger communities and have since settled permanently there.

It is definitely agreed and accepted that a certain amount of exercise and recreation is essential in furnishing the necessary relaxation after a strenuous day at the office or factory. We have establishments where such may be secured in the larger cities. Why is something not done along this line for people in the smaller cities, towns and villages, giving the farm youth a place to go in the evening other than the cross-roads general store? His daily work is far more strenuous than that of his city brethren, and it would seem that for this reason his recreation should be proportionately more in need of a medium, a "safety-valve," to relieve the tension and ease things up a bit. Perhaps if such a medium be established, farm hands would be more plentiful, at least more so than they have been during the past few years.

John M. McLeod, of Columbus, Ohio,

WAIT! WATCH!

munity center wherein these sports and games may be enjoyed by the farmer, his family and his help? It is something that is well worth study. The situation faced by the farmers of the country is a critical one, demanding earnest thought. It is of so serious a character that any movement that may alleviate the distress caused by a lack of farm labor must impress itself upon the thinking men as something to be considered? Contentment with one's environment is one of the chief factors in making for increased production, be it of the farm or the factory. The establishment of recreation centers might furnish the very means to establish and develop this contentment. If such were to be the case, a long step forward would have been taken in answering the perplexing and all-important question of "What is to be done?"

### GOOD HOSPITAL SOCIAL SERVICE IN TORONTO

Dr. Anna M. Richardson of New York has just completed a survey of social service work done in connection with hospital work in Toronto, and, after visiting cities all over the continent, finds there the ideal system for carrying out such work. Excepting in the General Hospital, which has its own social workers, the Health Department supplies the social service needs of the hospitals. Toronto is the only large city on the continent where this is the case, with the exception, perhaps, of Los Angeles, where, it is said, this system is being inaugurated.

has wisely said: "Play is the safety-valve of the nation." The necessity of recreation for their employes. Many of these men of big business have installed, indoor golf, billiards, bowling, gymnastics, etc. Why by not a com-

### Life's Little Trials

WHEN the outja board that you have bought for your best girl tells her to beware of the man who seeks to win her as he has criminal tendencies. Well! aint it disconcertin'?

That's When A Fellow Needs A Smoke

Experience will tell you PHILIP MORRIS NAVY CUT CIGARETTES 10 for 15 cents

## What Would You Have Said?

STUDY the Gillette Poster on the boards. What do you think of the wording, "A Handle for Every Hand"? Do you think we have taken too much for granted that everybody knows that the Gillette Safety Razor will give a cleaner and more comfortable shave in the least time? That each set at \$5.00 includes 12 double-edged super-keen blades?

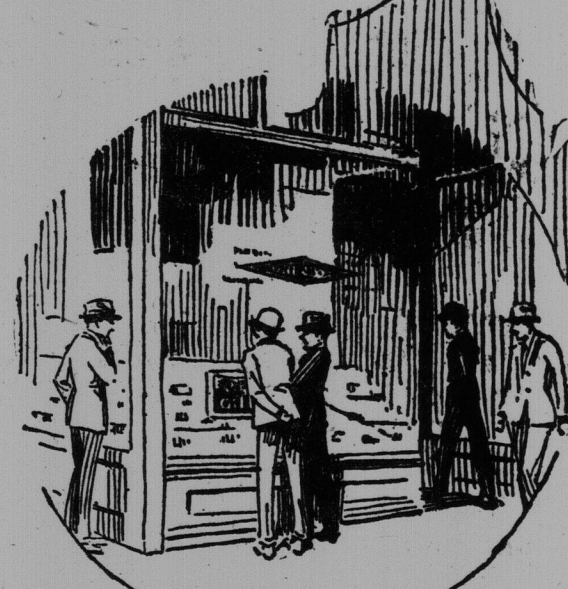

With the space at your disposal on this poster, would you have chosen the message we adopted, or would you have emphasized the NO STROPPING—NO HONING feature, or the fact that there are 20,000,000 Gillette users, or the saving of ten minutes each day by Gillette owners?

If you do not see the poster itself, you will find a reproduction of it in colours in dealers' windows, together with a display of some of the most popular Gillette sets.

Go into such a store and you will find Gillette Safety Razors in styles to suit every man who shaves—literally "A Handle for Every Hand"—among them the Gillette exactly suited to your hand! Take it!

THE GILLETTE SAFETY RAZOR CO., of Canada, Limited

ST. ALEXANDER ST. MONTREAL

# WILL ST. JOHN RESPOND TO THE CALL TOMORROW?

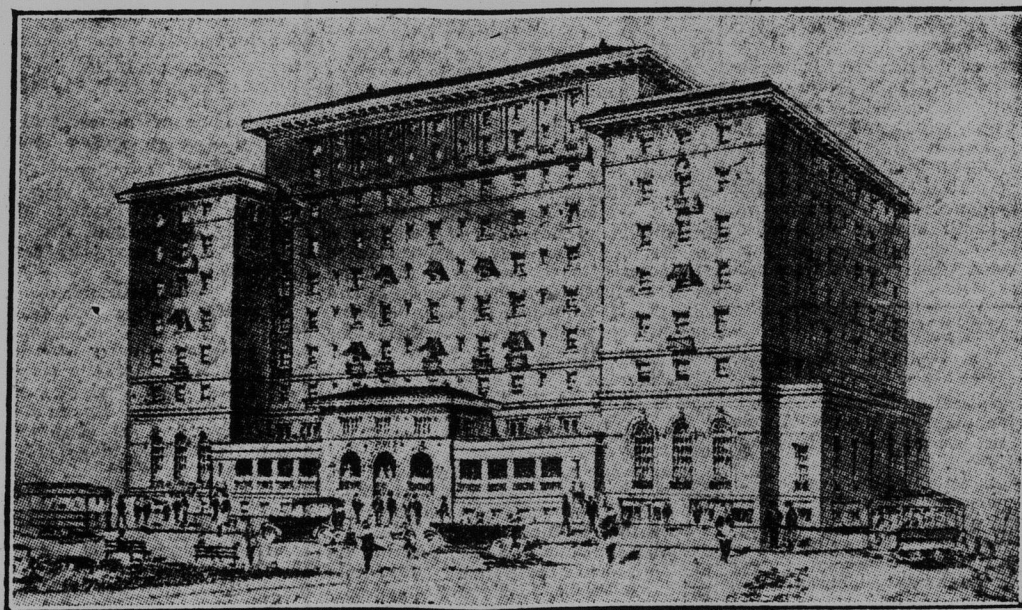

## \$375,000 in Preferred Stock in the New Hotel Offered the People of This City

### PLAIN FACTS

You are afforded an opportunity to display civic patriotism, and be paid for doing so.

An opportunity to assist in serving St. John's Hotel requirements.

### THE SIGN OF A PROGRESSIVE CITY

### A MODERN AND UP TO DATE HOTEL THE "HOTEL CHAMPLAIN"

An opportunity to place at St. John's command the practical co-operation of the United Hotels Company which combines the ability to serve with the desire to do so.

An opportunity to invest in a Home Industry, which will materially assist in making the community a more prosperous one.

Full Printed Information Available at the Commercial Club, 164 Prince William Street

Our city is now being placed on record for or against modern hotel accommodation.

### CITIZENS

The taxpayers of a city are the stockholders in that city. As such they should be vitally interested in its prosperity. Unless the city pays them dividends in the shape of rising real estate values and increased trade, they are losing money on their investment.

Insignificant hotel accommodation, like insignificant funds, pays insignificant dividends. All other things being equal, the city with the "Modern Hotel Accommodation" pays the largest dividends.

It receives more favorable publicity.

It attracts more desirable tourists.

Its merchants sell more goods.

Its real estate values rise faster.

The Commercial Club is earnestly inviting all taxpayers to co-operate in securing for St. John a New and Modern Up To Date Hotel.

A Hotel of this size will, of course, necessitate the employment of a very large staff of St. John men and women—another steady industry.

If St. John says "No" the great corporations who have made this hotel possible will withdraw their support.

### CITIZENS

One of the most difficult problems confronting cities today is the provision for the greatly increased hotel traffic, which has developed during the last few years, especially since the introduction of motor vehicles.

The first step in such relief is obviously that of providing the necessary hotel accommodation.

Q. Is St. John confronted with such a problem?

A. Yes.

Q. Is it possible to solve the problem?

A. Yes. The co-operation of the citizens with the Commercial Club, in its Drive to secure a portion of the funds necessary for the construction and equipment of The New Hotel, will successfully solve the problem.

The \$375,000 solicited of the investing public of St. John will be thrice repaid in construction, wages and local purchases of building materials and equipment before the hotel is ready for operation.

# THIS IMPORTANT MATTER NOW RESTS WITH THE CITIZENS OF ST. JOHN

EVENING TIMES.

A Half Century of Limelight, "Wally" Wilkinson's Record

Toronto Newspaperman Has Completed Fifty Years of Active Work and Is Still on the Job—Murder Mysteries Which He Helped to Solve—Great News Editor.

By FRID G. GRIFFIN. FOR fifty years, as a boy, "Wally" Wilkinson, news editor of the Toronto Mail and Empire, has been turning the limelight on the world, and all are agreed that it is about time that a little of the limelight should be turned on himself.

Fifty years a working newspaperman! What a record! Fifty years of living with his fingers on the pulse of the world, fifty years' study of the passing show, fifty years of emotion and raw, nerve-wracking toil, fifty years of printer's ink, paste, pots and editors, of scoops, and big headlines and the pace that kills, fifty years of living life—and yet, at the end of it, keen as a cub reporter at his first fire, face lined it's true with burning of much night oil, but fresh and vigorous, and with the springy step of a boy.

Walter J. Wilkinson.

By the time he was twelve the boy was a newspaperman. He is not a very tall fellow now, and friends remember well the little lad, mounted on a box to give him the necessary status, reaching the "cush" and "setting takes" on the Guelph Advertiser, doing a man's work. He was a reporter at fourteen.

Today Walter J. Wilkinson is news editor, as he has been for years, of the Toronto Mail and Empire. Since his first contribution to the newspaper work, Mr. Wilkinson has handled every class of press matter from that describing patchwork quilts, fair to word pictures of the battles of the great war. He has written in his time, more than a million headlines, "some of them," he will tell you modestly himself, "good and others fair, but I am afraid the majority very poor." Mr. Wilkinson's streamer heads have shrieked out big news events to many millions of people. For it is the news editor's duty to crystallize the biggest event of the day into a ribbon of black flame in big type that will whip the eye and arrest attention.

Work in those days never lacked the report which "colored" news. In 1870 young Walter Wilkinson went to Hamilton where his father started the first one-cent morning paper in Canada, the Morning Standard. There he met into type copy of Mr. Herb Gardner, late superintendent of the Institute for the Blind at Hamilton; James Fahey the greatest of Canadian photographers; and J. T. Lewis, now publisher of the Montreal N.B. Transcript. It was then given the ambition to become an editor such as these. Returning to St. Thomas in June, 1874, where his father founded the St. Thomas Times, now one of the leading newspapers of Western Ontario, he took his first step towards realizing his ambition when he was taught shorthand and George since, subsequently associated with W. E. Macdonald in the establishment of the Toronto World.

St. Philip Sassoon, M.P. CHIEF private secretary to Premier Lloyd George of Great Britain, and one of the most prominent officials of the Coalition Government. By virtue of his great wealth, his extraordinary aptitude for statesmanship and his great diplomatic ability, he is an embryonic premier of the British Empire.

Studied Murder Cases MR. WILKINSON, twenty or thirty years ago was a specialist in murder cases. That news nose of his was specially created for detecting out murders. He was a friend of the late J. Murray, Ontario's great detective, and worked with him on many a case. Murray was always glad to have the keen young newspaperman on hand.

Gen. Sir Ian Hamilton Tells Why He Failed in Gallipoli Campaign

Publishes Book Founded on His Diary—Was Sent Without Any Maps or Plans—His Opinion of Kitchener.

GENERAL SIR IAN HAMILTON has just published in London his "Gallipoli Diary." Sir Ian Hamilton is man of letters, a General, and a hero of the Gallipoli campaign. He has written his diary in a simple, direct, and unadorned style. It is a diary of a man who was sent to the Gallipoli campaign without any maps or plans, and who was sent to the Gallipoli campaign without any maps or plans.

NEW NEWTON HAS UPSETTING THEORY

Dr. Einstein, Expert on Relativity, Won't Quit Old Newton's Life Work.

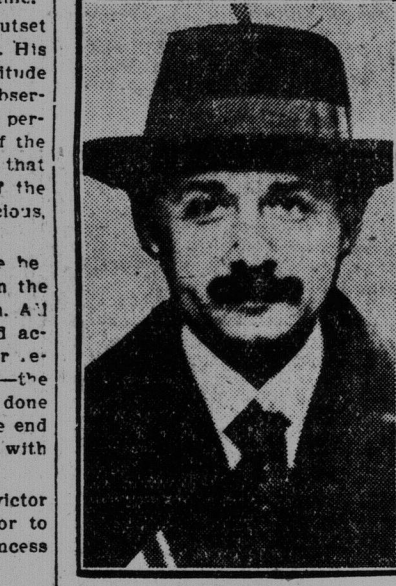

SAW A MAN FALLING

So Young German Professor Sat Down and Figured Out New Law of Gravity.

PROFESSOR EINSTEIN, the young scientist, whose theory of relativity has set the scientific world agog on account of its more or less startling effect on the law of gravitation as discovered by Newton, and regarded as "outrageous" since it was visited recently in his Berlin home by Mr. George Renwick who writes of his visit in the Daily Chronicle. From Frau Einstein, his wife, he learned that the professor is just forty years of age. He was only eighteen when he conceived the outlines of his great theory and twenty-seven when he gave it to the world. He left his native Germany when sixteen for Switzerland where he became naturalized. He returned to Germany shortly before the war, accepting a professorship at the Academy of Science. He now lectures at the University of Berlin. A Jew himself, he is deeply interested in Zionism and the establishment of a Jewish University.

Only Ten Crisp Ideas

What I'll Interest, the World Have Gotten to See What Newton and Galileo Were Like in Their Habit as they Lived! And I Expected to Meet a Somewhat Terrifying Person, Someone from Another World, Who I Had Been Reading that Only Ten

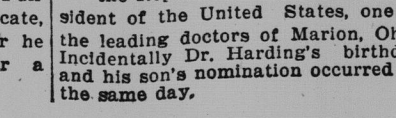

Dr. Albert Einstein.

people in the world understood Professor Einstein's theory of relativity! "Newton! I remarked, 'is supposed to have been struck with the idea of general gravitation when he saw an apple drop from a tree. Did any such incident give rise to your discoveries, professor?'"

"Does that mean that Newton's life work has been upset?" "By no means," replied the professor emphatically, "for Newton's overpowering genius and his achievement remain as monumental as ever—my, their greatness can only be enhanced by my new theory."

Dr. G. T. Harding

FATHER of Warren G. Harding, the Republican Nominee for President of the United States, one of the leading doctors of Marion, Ohio, incidentally Dr. Harding's friend, and his son's nomination occurred on the same day.

Dr. G. T. Harding

Two Ohio Newspapermen May Fight It Out for the American Presidency

James M. Cox, Governor of the State, and Owner of the Dayton News, Is After the Democratic Nomination.

THE Governor of Ohio, James M. Cox, who is serving his third year as chief executive of that State and whose Democratic candidacy for the Presidential nomination has been daily gathering, as his supporters put it, "the force and momentum of a ground swell," is, in spite of an innate dignity and reserve which can be formidable on occasion, a good mixer.

It would be odd if he and Senator Harding, also an Ohio newspaperman, should be opposing candidates. Governor Cox has just turned the half-century mark. He was born March 21, 1870, on a farm near Jacksonburg, Butler County, Ohio. His early training was that of a farm boy of the period, up with the cows and to bed with the chickens. He attended the country schools, and finally the Middletown High school. His first work, other than chores about the farm, was that of a printer's devil. Then he took to teaching school and from there gravitated to a country newspaper owned by his brother-in-law. He became a reporter in Cincinnati and an able editorial writer. As such he attracted the notice of Paul Sorg, who, in addition to being a member of Congress, was a wealthy tobacco manufacturer. Representative Sorg bought Cox out and took him to Washington as his private secretary. In this position Cox turned to politics, and his son's nomination occurred on the same day.

RING. Carpenter Not So Well? New York Times.—The state of Georges Carpentier's health, which is rumored in Paris to be far below what it was before the war, is causing some concern to boxing critics in the United States from the critic of Boxer and Boxers, a Parisian sports journal. This man, who is an intimate friend of the French idol and has known him since childhood, declares that Carpentier has lost one inch in all his measurements since the war, in which the boxer served as an aviator. The terrible strain involved in the air combat and the injuries sustained by Carpentier are said to have been a drain on his vitality, especially at this time when the French champion is attempting to bring himself back to fighting trim.

ATHLETIC. Marathon Trial. Hamilton, Ont., July 19.—James A. Dellow, of the Gladstone Athletic Club, Toronto, won the Olympic Marathon trial of nineteen miles and 188 yards around the Bay here today. Dellow, a C. C. Toronto, was second. General, an Indian, of Bradford third, and Smoke, of Peterboro, fourth. Arthur Scholes' time was 1:59.50 and the time of Norman General, of Bradford, who finished third, was 2:02.05. Albert Smoke, an Indian, from the Chemung Reserve, near Peterboro, who is being sent to Antwerp by the sportsmen of St. Catharines (Ont.), won the ten mile Ontario championship this morning. May 24, led the field of thirty-one runners, for sixteen miles. The record for the course made by Jimmie Duffy, who was killed in the battle of St. Julien, 14615, still stands.

Hardware Clerks' Sports. The results in the first two events in the sports at the Hardware Clerks' Association picnic on Saturday were as follows: 100 yards dash, boys, open—1st, Thompson, 2nd, Green. 100 yards dash, married men, hardware clerks—1st, Marshall, 2nd, Treat. Chances for Boxes Slim.

Antwerp, July 20.—Chances of visitors to Belgium for securing boxes to witness the Olympic games appear to be extremely slight as it is announced that preference will be given to those who have subscribed to the million franc Belgian Olympic fund and to those who have Olympical funds and to those who have surrendered rooms in Antwerp to accommodate the visiting athletes.

TENNIS. Cracks Play. Wimbledon, Eng., July 19.—William M. Johnston, of California, the United States tennis champion, defeated A. R. F. Kingstone of Great Britain here today in a hard-fought match, 6-3, 4-6, 3-6, 6-4, 7-5. Today's play was supplementary to the series between the British and United States Davis cup teams, which ended Saturday in a victory for the visitors.

AQUATIC. To Represent Canada. Ottawa, July 20.—Capt. S. Gooday will represent Canada at the Olympic swimming contests at Antwerp. RING. Ten Round Go. Cincinnati, July 20.—"Knockout" Marx, Cincinnati lightweight, was given a newspaper decision over "Babe" Pyato, Newscastle, Penna., at the end of a ten round bout here last night.

TURF. Grand Circuit Today. Kalamazoo, Mich., July 20.—Grand Circuit trotters and pacers which invaded Michigan following last week's racing at Toledo, were ready to go to the post today in four events of the opening card of the five day meeting at Recreation Park. The entry list promised keen competition in every heat, and the track was reported in excellent condition. The feature contest was the 2:08 pace for a stake of \$2,000, in which Red Lancelot and Symbol S. Forest were included in a field of twenty nominated. Three open class events, the 2:15 trot, 2:07 pace and 2:08 trot, each carrying a \$1,000 purse, were also on the opening day programme. The schedule calls for four mile races each day for four days. Saturday will be given over to the half mile and the mile features have also been entered for the short distance competitions.

OUR ATHLETES AT THE OLYMPIC TRIAL EVENTS

To Sporting Editor of the Times.—Sir.—The maritime athletes who competed in the Montreal trials are worthy of great credit for their magnificent showing, even though they did not capture any of the first places.

A close observation of the results at the Olympic trials held at Montreal on last Saturday will show that although none of the maritime athletes qualified for a place on the Olympic team they fought gamely for this honor. In all they competed in eight events and were successful in obtaining six seconds out of a possible of eight firsts or seconds. The events in which they failed to get a place were the 100 metres, the 100 yard and 100 yds. Miller, of Sussex, however, got third place in the 100 yard and 100 yds. and it was felt that he was one of the sure bets. All knew of his excellent time in the trials and felt that if he had been given a little pistol practice the result might have been different.

Miller of Sussex and Thompson, the crack hurdler, had a hard fight for the running high jump. Miller cleared five feet eight inches, a good four inches to spare and this jump was so well made that he received the applause of the spectators and became a hot favorite at the next attempt. Thompson only succeeded in clearing six feet six inches. Miller, however, just tipped the bar and was eliminated.

The great events, however, were the 800 and 400 metres. Mooney, Stellarton's crack half miler, led a fast pace all the way, but broke to the dash just fifty yards to go. He started his dash at the 200 metre mark and by his strength and stamina for fifty yards more. Coster ran a great race in the 400 metres and was beaten by only a couple of inches, in the most exciting event of all. "Ted" is a great quarter miler and it is hard to believe that the Olympic selection committee do not give him credit for his ability.

In the 1600 metre race the maritime favorite, Laperre, took second place, but was not badly beaten, as was indicated in the Montreal papers. This boy should be given the greatest credit of all for his magnificent performance over the nights of train traveling. He arrived in Montreal at 12.45 p. m. on the day of the race and he had only a few hours of rest. He vomited twice while going from St. John to Montreal, and had another attack before he reached the city. He is a very young man who was in no condition to compete.

The Olympic committee's oversight in his case cannot be understood, for had Laperre been fit Lawrence, the winner, would have walked away. Moreover, the mere fact that the Olympic committee knew of this condition makes us wonder the more and more if the committee names were put in a hat and drawn at random. The maritime representatives on the Canadian Olympic team. We understand that the Olympic committee are capable of sending seconds to Antwerp, but these boys are better than seconds, and moreover, we feel sure that the M. M. B. A. U. of C. will endorse the selection or make the selection of four or five of the best maritime athletes and would make an immediate urgent appeal to the Nova Scotia and New Brunswick governments for the necessary financial assistance.

SPECTATOR. RUTH BREAKS WORLD RECORD. New York, July 19.—Babe Ruth made two home runs in the second game of a double-header with Chicago today, establishing a new record for home runs. His total now is thirty-one.

CHAPLAIN HOOPER ASKS FOR HELP FOR INVALID SOLDIERS. I am again in urgent need of money. Early in May my last appeal was made for my "Sick and Wounded Soldiers' Fund." Six branches of patriotic societies sent me \$191.15, and twelve individuals sent \$191. A total of \$382.15 I am deeply grateful for these most generous gifts. Shall I be considered unwise or ungrateful if I express my surprise that only twelve persons, out of the thousands who read my appeal, made any response at all? One, a lady Coburg street, whose name I may not publish, gave me twenty-five dollars three times over, and said she would give twenty-five a month for as long as I needed it. Splendid generosity! I am sure I do not like to accept so much from one person.

My work is the same as ever, caring for sick and wounded soldiers. All who are in hospital for treatment from all parts of the province, besides many others not in hospital. All have served as soldiers in the Great War. All are equally loved and cared for by me every week. Remember the glowing words spoken of our "lads" by General Sir Arthur Currie, and by the greatest of chaplains, Canon Scott, and please see that I have sufficient funds to carry on my beloved work as the Soldiers' Padre.

E. B. HOOPER, 75 Sewell Street, St. John, July 20, 1920. My covens are always open for inspection. Acknowledgments in the papers and letters of appeal have to be paid for. For this reason refrain from acknowledgments. My hospitals visited every week are West St. John, East St. John, River Glade and Fredericton. E. B. H.

As I get to Campobello Island I am going to pull my boat up after me and do my best to get lost for at least one week. Mr. Roosevelt amusingly explains how Campobello and a couple of adjacent islands come to be British instead of American. They are something over half a mile across the Yankee border. Mr. Roosevelt says that Daniel Webster, then American secretary of state, was to blame. He and Lord Ashburton were travelling down a river on a cruise to settle the boundary squabble. They agreed that when the main channel was reached the American line should begin. Webster failed to notice that the smart captain of the little British frigate didn't announce the reaching of the main channel until a bunch of light little islands had been safely passed. "They have been a British territory ever since," said Mr. Roosevelt. Mrs. Roosevelt, who has been on a week's trip to the family home at Hyde Park (N. Y.), to meet her husband, after her tour to the Pacific coast, arrived at Campobello on Saturday. The children remained on the island during her absence. A squad of newspaper men, artists and motion picture men, will arrive at Campobello next Saturday and Sunday, and the popular island is bound to come in for some extensive advertising.

What the Sussex Villagers Think of Their Neighbors, the Famous Author and His Wife

(George T. Byrt in N. Y. Evening Post.) After I had left my card at Rudyard Kipling's weather beaten door and the servant had told me that Mr. Kipling was away from home the sympathetic villagers said: "Just as we thought. Mrs. Kipling got your card and stopped you. She doesn't want strangers to see him. She is the boss down there—she is an American lady, you know—and it seems her idea to keep him from being disturbed, not only by the many visitors who make pilgrimages here, but by any cares of business relating to their large estate."

The Kipling home is called Bateman's. It is an ancient gabled house, of crumpling stone, with six tall round chimneys in the centre and six others elsewhere on the sloping roof. The building juts out for the gables. The windows are of small panes and leaded. An extensive hedge braced by an iron fence runs in front, and the central gate, opening on a path leading up to the front door, has an electric light in a pretentious glass case on the inside of the stone gate posts for visitors' use at night.

It is a most restful spot. Every other house in the vicinity sits up on the Sussex ridges, but Bateman's stands in the valley of the little Deadwell River marked by great hills from the traffic on the ridge road between the neighboring inconsequential villages. There is a story current in the village that has to do with the history of Bateman's. It is not definitely known who built the imposing old mansion, which is several hundred years old, but he is

SAPHO... THE KEENEY MFG CO Montreal

Cuticura Soap... For the Hands

and Seal Brand Coffee... Nothing else will do

A Gift... A 10-Day Tube of Pepsodent is sent to all who ask. See coupon.
