

RAILWAYMEN'S DEPARTURE

Great Britain's Railroads Again in Operation—Men Win All Round.

Great Britain's railway system is again in operation as the result of the settlement on Sunday of the great railway strike, averting what threatened to develop into an ominous spread of the nation's labor troubles. Virtually every man engaged in railway work in London returned to his duty before ten o'clock Monday morning. The various rail services did not speedily reach the normal state, however, because of the state of displacement of the men's quarters which had resulted from the suspension of work. In the country districts also the resumption was general, except in the outlying districts where telegrams announcing the settlement and ordering the men back to work could not be delivered Sunday night.

Leaders of the National Union of Railwaymen who directed the strike, declare their satisfaction with the arrangement, in a letter to the Herald, officials of organized labor in Great Britain.

The men stood four square determined to secure victory or go down together. The settlement is highly satisfactory. There is great value in it than appears at first sight. The official terms of settlement are as follows:

First—Work shall be resumed immediately.

Second—Negotiations will be resumed on the understanding that they shall be completed before the end of the year.

Third—Wages will be stabilized at the present level until September 30, 1920, and any time after that date they may be reviewed in the light of circumstances then existing.

Fourth—No adult railwayman in Great Britain shall receive less than 45 shillings per week while the cost of living is 110 per cent above the pre-war level.

Fifth—The railway union agree that their men will work harmoniously with the men who returned to work or who remained at work during the strike. Nor shall there be any victimization of strikers.

Sixth—Arrangements of wages will be a return of work.

FIREMEN RAPIDLY ORGANIZING IN U. S. AND CANADA.

The members of the San Francisco fire department are rapidly signing the roll of the new union of Fire Fighters of America. While about 30 per cent of the firemen have been invited to join the new union, 340 members of the department are now enrolled in the organization.

VANCOUVER COUNCIL AND CIVIC EMPLOYEES.

Recognition of the right to collective bargaining was to a certain extent at least, granted by the Vancouver City Council in a resolution recently passed at a conference at which, in addition to the members of the council, representatives from the four civic unions composing the federation were present.

MONTREAL MAY HOUSE NEXT CONVENTION OF A. F. OF L.

The secretary of the American Federation of Labor has written Mayor Martin of Montreal, advising him that the executive committee are considering the next annual convention of the A. F. of L. at the Atlantic City convention the time and place of the next meeting was left in the hands of the executive committee of the A. F. of L. At present the choice lays between Cleveland, Ohio, and Montreal, Que.

Canada's Brotherhood of Railroad Employees' Tenth Convention

Declares Against
... Urges Membership to Live
Agreements.

The Canadian Brotherhood of Railroad Employees at the closing session of their convention on Friday in St. Patrick's Hall, passed a resolution authorizing the executive of the brotherhood to urge upon the Government the establishment of the right of collective bargaining and the recognition of labor unions. A resolution of sympathy and moral support pledged to the English railroad strikers was unanimously passed and carried at once to John H. Thomas, secretary of the National Railway Union.

During the discussion of the sympathetic strike problem yesterday morning both Grand President A. R. Mosher and Grand Secretary M. M. MacLellan made strong pleas for the observance of all agreements and contracts with management, the question of violation of which is being the subject of debate in the sympathetic strike from an ethical viewpoint. The grand officers of the Brotherhood are as follows:

Grand President Canadian Brotherhood of Railroad Employees.

Grand President A. R. Mosher, who urged the adoption of the resolution which provided that members should not join in a sympathetic strike unless a two-thirds vote of the membership and with the approval of the grand president. The expressed feelings of all the delegates were in hearty agreement with the resolution.

M. M. MACLELLAN.

By this method, even though it is slow, we will be able to carry the whole body of organized labor with us instead of dividing into opposing camps. We must be slow in our progress, but we are only slow insofar as the majority is slow in its change. I would rather see the local divisions of the Brotherhood stand for and advocate an organization for all railway employees in Canada, than to see a few divisions of the Brotherhood seek to accomplish their objects by inducing the members of other divisions to join in a strike.

Grand Secretary-Treasurer Canadian Brotherhood of Railroad Employees.

Grand Secretary-Treasurer M. M. MacLellan, who urged the adoption of the resolution which provided that members should not join in a sympathetic strike unless a two-thirds vote of the membership and with the approval of the grand president. The expressed feelings of all the delegates were in hearty agreement with the resolution.

LABOR STANDS FOR REPLACING OF MEN IN THEIR TRADES

Tom Moore, president of the Dominion Trades and Labor Congress, was questioned by Mr. MacLellan of the Veterans before the committee on the subject of the proposed railway and express workers' strike. Mr. Moore did not think university training was class legislation. He thought men getting their industrial training might need assistance more than university men.

Getting Thinner Every Day.

Labor Invades Both Ridings of the Ambitious City

Independent Labor Party Nominates Halcrow and Rollo As Their
Standard-Bearers in Ontario General Election.

Labor in Hamilton will fight both ridings and casters the East and West Hamilton seats at the provincial elections on Monday, October 20. Controller George G. Halcrow, for East Hamilton, and School Trustee Walter R. Rollo, for West Hamilton, are the Independent Labor party standard-bearers. They were the choice at a largely attended and most enthusiastic convention held in the Molders' Hall last Thursday night.

EDMONTON CONSIDERING IN- CREASES COMPEN- SATION.

Whether it will be necessary to fix a new rule regarding sickness compensation for civic employees is a question that is being considered by the Edmonton City commissioners. It seems that the amount allowed by the Workmen's Compensation act does not fully fill the needs, and the point has come up whether the city should pay the difference between the amount allowed by the provincial board and the amount the employees would have received had they not been absent.

LABOR STANDS FOR REPLACING OF MEN IN THEIR TRADES

Tom Moore, president of the Dominion Trades and Labor Congress, was questioned by Mr. MacLellan of the Veterans before the committee on the subject of the proposed railway and express workers' strike. Mr. Moore did not think university training was class legislation. He thought men getting their industrial training might need assistance more than university men.

Hamilton Trades Council Hears Trade Story Labor Press Delegates

As a News Medium It is Invaluable in Imparting Fundamental
Principles of Organized Labor," Says One Delegate.

"It is truly said that knocks become boots. And that's what developed as a result of the Canadian Labor Press being under fire in the Hamilton Trades and Labor Council organized labor's eyes and judgment central body in the Ambitious City. Here's the story: Some weeks ago the Canadian Labor Press circulation policy and method of procedure was questioned by a delegate. He was backed, apparently by his fellow delegate informant, who said that the full of procedure was questioned by a delegate. He was backed, apparently by his fellow delegate informant, who said that the full of procedure was questioned by a delegate.

EMPLOYMENT SITUATION IMPROVING.

Weekly report from employers in Ontario, and Quebec to the Department of Labor, indicate that, apart from unemployment due to strikes, the employment situation is still improving. Returns for the week ending September 26, were tabulated from 2,960 firms with 425,168 persons on payroll as compared with 423,049 persons on payroll during the week ending September 13, an increase of 3,119 persons or .73 per cent. An increase of .43 per cent was anticipated for the week ending September 20.

U. M. W. OF A. CONVENTION.

Mr. A. D. Campbell, of Glace Bay, who was a delegate to the U. M. W. of A. convention at Cleveland, recently gives the Canadian Labor Press the following information: The convention started at ten o'clock Tuesday morning of Sept. 9, in Gray's Army at Cleveland, over 2,100 delegates were present, representing all the union trades of the United States and Canada.

SUPPORT LABOR CANDIDATES.

IN the Province of Ontario the members for the Provincial House are shortly to be elected and at this time it is apparent that in a large number of constituencies a standard-bearer for Labor will be on the ballot sheet. It is now realized that the forthcoming election will see more nominees for Provincial seats than on any previous occasion.

True the nominations from the workers' ranks may not be a formidable force in numbers, but in this regard let us recall that it is thirty years ago since the entry into direct representation policy of our kith and kin in the Motherland and we here cannot expect to assume relative proportions overnight either as to the number of candidates or successes to be gained, what has required years overseas to attain.

We have surely profited by their experience and advancement will be the more rapid than by those who had to blaze the trail, with indeed the truth of plowing lonely furrows. Every section where a Labor candidate is to be nominated promises more than a fighting chance in fact it is generally conceded that the Ontario House will seat a goodly number of workers' representatives at the coming session of Parliament.

The duty of the worker in supporting those from their own ranks is too plain to require comment or elaboration. That duty does not simply mean marking a favorable ballot, but each one should be up and doing, assisting the Labor nominee in every way possible, whilst not forgetting that it is votes that count, soliciting everyone reached to cast their ballots in the Labor candidates' favor.

Labor success means an introduction of the heaven. In the same way that the workers' representatives at the recent National Industrial Conference showed their grasp of national affairs with practical suggestions for instituting necessary reforms from the floor of either Provincial or Federal Parliaments will this ability be in evidence when opportunity presents. Using the common phrase, your vote and influence for Labor candidates is asked, that the country may profit through representation from those who have practical knowledge of requirements and ability to make same effective.

EXTENDING ITS PROTECTION.

NOTICEABLE among the many outstanding features at the recent Congress Convention, was the large number of credentials that were received, almost double the number of previous years. The industrial centres were chiefly responsible for the added representation, but it must not be overlooked that delegates were in attendance representing small towns where formerly organization was comparatively unknown.

ONTARIO REFERENDUM.

WHEN you cast your Ontario Referendum ballot it is important to remember that you must give four answers either affirmative or negative. If you do not mark your ballot four times your ballot will be spoilt and thrown out. There is admittedly a wide range of choice for each voter, eight query spaces being left for your discretion, four of which must be answered. Whether followers of the Liberty League forces or opponents, there is range aplenty to give expression to your wishes and this ballot should be fully utilized.

CONGRESS PRESIDENT IN ACTION.

ANY having doubts of President Moore's ability to control a Trades Congress, were not left in doubt very long. From the drop of the gavel at the beginning to the grand finale, there was an expeditious display of control under acknowledged difficult circumstances. If leeway had been given, a wreck was in sight, but the pilot never wavered—hence the success.

THERE'S A DIFFERENCE.

A CORRESPONDENT describes "Billy Sundays" as body blows straight from the shoulder. Ice cream sundaes are preferred straight to the mouth, and they who liquidize don't believe in Sunday's prescriptions at all.

POLITICS and PEOPLE THROUGH THE TELESCOPE OF LABOR

Patronage dies hard. One of the planks of Union Government when was elected to office was the abolition of patronage. Whatever may be said about the abolition of patronage, the whole of the outside service was placed under the Civil Service Commission by an act of the Parliament. The present of the Civil Service Commission became one of the greatest employers of labor in Canada, as altogether there are some thirty thousand civil servants in Canada.

The members of parliament—or at least a large section of them—do not like the new order of things. Patronage—the appointment of rural postmasters and lock-keepers—was their only method of improving their position with their constituents. Then with patronage abolished there is gone the political machine. There is no longer any inducement for the member to get out and work. They cannot be prevailed anything. So the old time patronage members roared loud and long and they might be reasonably expected to stand with the members against the new order of things.

The ban on oleomargarine is to be lifted for another year and a half. A bill was introduced in the House this week to raise the ban on the importation and manufacture until March 31, 1921. In the absence of Hon. Dr. Tomin, Minister of Agriculture, who is in Victoria fighting his battle against the bill, it is being fought by Hon. J. A. Carter, who is a member of the House and is only fair to say that these fifty or sixty thousand who are laboring every day for their bread might be reasonably represented by a labor man.

The Government's shipbuilding programme is under advisement at the present time. A number of the firms which have been constructing Government ships will soon have their yards clear land with no other contracts in sight there is a likelihood of many men being thrown out of employment at the beginning of winter. While the Government has as a general policy it should not continue to build ships and that it will have as large a public-owned mercantile fleet as is desirable, yet it is possible that to meet the situation this coming winter some contracts may be retroced.

BETTER AMUSEMENT FOR THE WORKINGMAN.

Canadian Photo Productions, Limited, with head office in Toronto, is about to build a large studio in Toronto for the production of real Canadian moving pictures for Canadians. This will fill a need that has long been felt in Canada—and the need will be filled perfectly, for Harold J. Binney is the founder of this business. He has been away from his native soil of Vancouver for 14 years, making marvelous movies for the people of the United States. He has directed some of the highest class moving picture production known from New York to California. In response to the call of Canada for real Canadian moving pictures—Binney, a Canadian—has come back over home to deliver the goods. Binney has directed some of the best moving picture stars over the line. In the early days he directed our own Canadian movie star, Mary Pickford, Harold Lockwood, Fred Starling, James Valentine, Pauline, Curly, and other stars have appeared in the films of Binney from time to time. For many years Binney made the Keystone comedies made millions for the man who owned them—Mack Sennett.

45 PER CENT. PROFIT ON SHOES.

A number of Winnipeg retailers who have been making more than one cent per cent profit on shoes are being recalled for cross-examination, says a press despatch from the Attorney-General's department. Actual offenders will be left to the Attorney-General's department. One shoe retailer, admitted to the board on Friday that he made approximately 50 per cent profit on shoes. Men's shoes, imported from Chicago, cost \$2.50 at the factory, duty, freight, mail, 12.50, express and cartage 25 cents and exchange 35 cents, bringing the cost in Winnipeg to \$11.50 per pair. They are sold for \$17 a pair, Mr. Barnard said.

THE BLIND PIANIST.

At a witnessing the wonderful performance of a blind pianist the Irishman remarked to another: "He powers, that's the best music I ever heard with me two ears." "He does pretty well for a blind man, doesn't he?" "He does, indeed, but I was just thinking of what thing." "What's that?" "It wouldn't make any difference to him if he wasn't blind." "Well, I was watching him all the evening and he never looks at the piano anyhow."

40,000 RETURNED MEN UNEMPLOYED.

A special committee of the House of Commons last week said that there are at present over 40,000 returned soldiers in the Dominion who are unemployed. These figures were supplied by Major L. L. Anthes, director of the International Association of Disabled Soldiers. He gave the figures by provinces as follows: Ontario, 12,696; Manitoba, 1,115; Nova Scotia, 4,825; British Columbia, 2,456; Quebec, 12,873; New Brunswick, 1,200; Saskatchewan, 565; Alberta, 459; Prince Edward Island, 450.

KING'S CERTIFICATE OF DISCHARGE FOR DISABLED SOLDIERS.

The King's certificate of discharge will be started through the Militia Department to all discharged soldiers who, after serving in a theatre of war, are, as a result of their service in military service, discharged as medically unfit. It is also being issued to those who, while not serving in a theatre of war, were discharged as a result of disability caused by air raid, naval bombardment, etc. The certificate is a handsomely engraved document about 17 inches by 22 and will be distributed without charge. The Applications for them may be made on cards which are now available at the principal post offices.

STOCK OFFERING.

We are offering for sale a portion of the treasury stock at par \$10.00 per share—the right is reserved to increase the price or withdraw the stock from sale without notice.

PROSPECTUS OF THE COMPANY MAY BE HAD BY APPLICATION TO PHOTO PLAY PRODUCTIONS, LIMITED.

415-414 C. P. R. BUILDING TORONTO, CANADA

Across the Atlantic.

What Our Brothers in the Motherland Are Doing.

CONDITION AMONG LONDON WAITRESSES. It is possible that there will be no need for a strike of waitresses. The public were chiefly ignorant as to the conditions under which the waitresses were first engaged at 18s. or 15s. per week, and there was very little rise, while they were on the premises of the shops for 18 or 15 hours a day.

The Government's shipbuilding programme is under advisement at the present time. A number of the firms which have been constructing Government ships will soon have their yards clear land with no other contracts in sight there is a likelihood of many men being thrown out of employment at the beginning of winter.

Ship-builders, however, are being plainly told that they cannot any longer look to the Government to keep their plants in operation. They must in future depend upon private enterprise. The Government will be pleased with the manner in which their policy of building a fleet of public-owned vessels has worked out. There are now twelve steel vessels completed. These are in commission and are being operated as a part of the National Railway system.

There are still forty-one vessels to be completed. A half dozen will be ready in October and within a year the whole fifty-three ordered under the forty million dollar appropriation of parliament will be completed and in operation—all owned by the people.

WAGES OF SCOTTISH IRON WORKERS.

Awards were issued in London recently concerning arbitration proceedings at Glasgow between the Amalgamated Society of Engineers and the Scottish Ironworkers' Association. The question submitted to the court was to determine the prescribed rate of wages, if any, applicable to the men concerned. The contention of the workpeople was that the prescribed rate was the Clyde district rate of engineers, which was stated to be £3 16s. a week, inclusive of all war bonuses and war advances.

KINGSTON METAL TRADES STRIKE ENDED.

The strike at the Canadian Locomotive Works, Kingston, is over. The plant, which has been tied up since May 9th as a result of a strike of the metal workers, opened its doors Tuesday morning, when engines were started on the job, also forty employees getting the various departments in working order. The bulk of the strikers will be back at work by the end of the week. The men go back to work at the company's offer. They get 50 hours' pay for 45 hours' work, which means an increase of 10 per cent.

SETTLEMENT BOARD APPROVES MANY LOANS.

Figures given out by the Soldiers' Settlement Board of Canada show that up to September 6 the board has approved loans amounting to \$2,548,017. The average of 100 loans was 10,739, an average of \$2,040. The total is made up as follows: On land purchase: For land, \$1,847,668. For permanent improvement, \$2,248,572. For stock and equipment, \$6,081,325.

Here's To Woman.

Once Our Superior, Now Our Equal—Can.

A WORD FOR THE WOMAN WORKER. The report of the war cabinet committee of women in industry records the history of a change in the so great that it is described as a revolution.

The change began in the 80's with the development of automatic machinery. This brought women into the machine-shop, but in very small numbers because the rate of pay for women was less than half that of the men doing the same work. Women's physiological disadvantages were generally regarded, up to the time of the war, as a tremendous disadvantage of their industrial value. The war has changed all that. In July, 1914, the number of women employed in metal, machines, etc., was 172,000; during the war it rose to 812,000.

The main reason why the change is regarded as an industrial revolution lies in the fact that women's numbers because the rate of pay for women was less than half that of the men doing the same work. Women's physiological disadvantages were generally regarded, up to the time of the war, as a tremendous disadvantage of their industrial value. The war has changed all that. In July, 1914, the number of women employed in metal, machines, etc., was 172,000; during the war it rose to 812,000.

Employers in the metal trade declare that for every kind of repetition work they prefer the work of women to that of men. A nation-wide campaign to abolish alleged discrimination against women in public services was announced at New York some days ago by Mrs. Anna Martin Crocker, president of the Federation of Women's Civil Service Organizations. The campaign will be based on an investigation made recently by Miss May E. Upham, assistant chief examiner of the Munitions Service Commission, who reported that qualified women were being excluded from Civil Service examinations and appointments, both federal, state and municipal, at the arbitrary will of appointing officers.

Has Done Good Work Ontario Temperance Act A Great Benefit to Province

THE Ontario Temperance Act has reduced crime by over one-third and drunkenness in public has practically disappeared. Alcoholic insanity has disappeared.

Gold cures and alcoholic institutes for treating alcoholism have been closed for lack of patients.

Ontario has been saved an annual drink bill of \$36,000,000, enough to pay our share of interest on the War Debt.

Many victims of alcohol three years ago, thank God to-day for the Ontario Temperance Act.

To repeal the Ontario Temperance Act would be a calamity. The amendments would make it practically worthless. To every question on the Referendum vote NO.

Drink is a Cancer

Doctors, Alienists, Criminologists, Insurance Actuaries, Statesmen, Generals, Big Business Men, and Social Workers agree that alcohol as a beverage is a racial poison and a national curse.

Edward Island and Newfoundland have enacted prohibition. The United States is permanently "dry".

France has abolished absinthe. Sweden has now a local option law. England is initiating a great campaign for temperance reform. The movement is world wide.

Ontario must go forward, or be left behind, but be careful Mark Four X's (One X under each NO)

Ontario Referendum Committee JOHN MCDONALD, D. A. DUNLAP, ANDREW S. GRANT.

LABOR OPENS CAMPAIGN

LABOR NEWS FROM THE BUSY CITY OF HAMILTON

LABOR CANDIDATE. W. R. ROLLO. Labor candidate nominated for West Hamilton.

HAMILTON'S NEWSY BRIEFS. The Hamilton Street Railwaymen's Union have applied to Senator Gideon Robertson, Minister of Labor, for a Conciliation Board to adjudicate the men's wages.

LABOR CANDIDATE. Reeve W. R. Crockett (Labor). The Sheet Metal Workers are alive and kicking these days.

THE SCAB. I know a scab. He has to brag. He sometimes thinks He's hardly sane.

MUCH UPSET. Mrs. Gayer: "I hear that Mr. and Mrs. Johnson were very angry with their chauffeur when their motor-car overturned. Is that so?"

VICTORY BONDS. Bought and Sold. Highest Market Prices. All Classes Stocks and Bonds Handled.

Remember the Date. October 20-22 National Educational Conference at Winnipeg.

Good for all - all the time! WATERBURY 5¢ per package.

Drink is a Cancer. Doctors, Alienists, Criminologists, Insurance Actuaries, Statesmen, Generals, Big Business Men, and Social Workers agree that alcohol as a beverage is a racial poison and a national curse.

FROM COAST TO COAST

SYDNEY MINES' STEEL WORKERS BACK TO OLD JOBS.

It has been officially announced that two of the open hearth furnaces at Sydney Mines will be in operation in the next few days. The furnace process of heating began on Thursday morning and the furnaces will be charged about the first of next week. A considerable number of small orders for products have accumulated within the last month, sufficient to keep the furnaces busy for an indefinite period. The steel workers who were drafted into other departments of the Steel Corporation, will be recalled shortly, which will increase the force of workmen now employed to at least 600 inside of a few weeks.

NEW BRUNSWICK WORKING-MEN'S COMPENSATION ACT.

Mr. Frank C. Robinson, vice-chairman of the Workers' Compensation Board for the Province of New Brunswick, recently told of the operation of the Workers' Compensation Act so far as it has been in force in that province. He commenced operations on January 2 in the present year. The results were most satisfactory since the employers had become thoroughly acquainted with the act. Since the act has come into force, the board has paid out for temporary disability in compensation the sum of \$34,558 and for permanent partial disability \$4,376, which is paid in monthly payments until the amount of the award is paid. The number of accidents since the beginning of the year now total 1,750. The deaths through accidents, that monthly payments until the amount that has been set aside for these death claims totals \$745. This is paid to the dependents in monthly instalments, in the case of a widow \$70 per month and \$5 per month for each child, up to \$16, until the total sum of \$3,500 is reached. This amount may seem small, but it was \$22, two years ago before the board came into actual operation when the cost of living was lower than now.

The amount of assessments collected up to date amounts to about \$300,000. This will be increased materially by the final adjustments at the end of the year.

Since the first day of August the men who worked in the woods are included under part two of the act. While the board has no exact information as to the number of employes in this line of work, we think as near as we can ascertain that the number of pay rolls from this source will likely number in the vicinity of five or six hundred. This will mean before the end of the year that a very large amount will be collected from this source.

With reference to the first aid and hospital attendance, an order-in-council was passed, empowering the board to pay for first aid and also for necessary hospital attendance. This seems to be a very difficult matter to adjust, but the present time the board deals with each case individually. It is more than likely that an effort will be made at the next session of the Legislature by the employers as well as the medical fraternity to have this broadened in such a way as to include all medical treatment as well as hospital attendance.

CAPE BRETON MINES RECEIVE MORE ORDERS.

A further order for 220,000 tons of coal has been placed in Cape Breton by the Dutch Government, according to the captain of a Dutch vessel, which is in port to carry back the initial shipment of the order to Holland. Some time ago the Netherlands Government obtained from the Dominion people a lot of 90,000 tons and were so well satisfied with that they wanted more. The last of the 90,000 ton order was shipped a few days ago.

GUELPH RAILWAY MEN AWARDED INCREASES.

The award of the Conciliation Board to settle the demands of the street railway men was made public last week. Its main provisions are a two-turn system, nine hours to constitute a day's work, over-time at the rate of time and a half, and a scale of wages from 35 cents an hour for first year men to 41 cents for third-year employees. The award is made retroactive from the fifteenth of August. Among other things it gives the right to any discharged employe of stating his case to the arbitrator. The men are now in receipt of an average rate of 32 cents an hour and are satisfied with the award, which will probably be accepted, also by the city.

WINNIPEG HAS CONFERENCE OF RAILWAY MEN.

Clerks, freight handlers, express men and station employes of the C.P.R. at Winnipeg, are endeavoring to secure a system agreement with the company. Negotiations were opened Monday between a committee of the men and Charles Murphy, manager of the western lines. The men's committee is part of the general board of adjustment of the Brotherhood of Railway and Steamship Clerks, Express and Station Employees. The Brotherhood is now in a position to negotiate with the company and this is the first attempt made to secure a system agreement. Mr. Murphy said that he had no objection to making regarding the negotiations. Members of the men's committee said they were not in a position to forecast the result of the proceedings, but were optimistic and declared they hoped to have better working conditions in the west.

ST. JOHN WORKERS WILLING TO ARBITRATE.

St. John, N.B., Local Union 16-584, A.F. of L., have sent the following telegram to the company headquarters and to the Minister of Labor at Ottawa:

"Willing to arbitrate under the Industrial Disputes Act. Bind ourselves to its findings, conditional upon company doing likewise. Point to be arbitrated: Basis eight hour day, increase of 15 cents per hour over and above all rates previously paid. Nine one-half for all overtime and double time for Sundays and legal holidays, all men now on strike to be reinstated, company to agree to meet and treat with committee of employes. These findings to date from September 22 last. Upon acceptance of company's agreement to arbitrate, the men will return to work on acceptance of these terms. Application for board will be immediately forwarded."

ST. JOHN PUBLIC SERVICE UNION GIVES THANKS.

At a meeting last week thanks were expressed by members of the Public Service Employees' Union of St. John, N.B., for the recent increase by the city council of 50 cents a day in wages to all earning more than \$4 a day. Address was delivered by Fred A. Campbell, president of St. John Trades and Labor Council, W. F. Hatheway who spoke on labor problems and a young woman from Westfield who urged the interest of all in getting women to register for voting.

EDMONTON STAGE EMPLOYEES' OFFICIALS.

In the September issue of the I. A. T. S. E. and M. P. O. Journal Ernest T. Palmer, of Edmonton, says:

"The star cast for the coming year is as follows: President, W. B. Allen; Vice-President, E. Grace; Business Manager, F. Packerbusch; Secretary-Treasurer, A. Malley. These four will constitute the Executive Board, extending board delegates to the Trades and Labor Council, Theatrical Federation, Federation of Labor and Conventions. They will also settle all matters pertaining to the local as a standing committee; so if Local 388 still remains a joke it will not be the fault of the president."

CANADIAN WORKERS WILL BE EXEMPT.

"If the American Federation of Labor decides to levy an assessment for the benefit of the striking steel workers of the Pittsburgh district it will not affect organized labor in Canada, but will be paid by the International Federation direct," said Mr. Tom Moore, president of the Dominion Trades and Labor Congress this week.

In President Moore's opinion the payment of any amount of money to the steel workers by the International Federation was very remote. Some years ago the American Federation did make a payment to assist in organizing the women workers, but it is understood that assessments such as suggested for the aid of the steel workers are not looked on with favor.

"SCOTIA'S" OUTPUT AT SYDNEY MINES IS INCREASING.

The "Scotia" coal output for the month of September was nearly 3,000 tons in excess of the coal production for the month of August. The Princess mine tonnage was 7,225; Jubilee, 7,238, a total of 14,463 tons. The latter colliery was idle about six days during the month.

MONTREAL TRADES COUNCIL.

The attitude of the police and Montreal detectives towards certain strikes now on in Montreal, came in for interesting discussion at the regular meeting of the Montreal Trades and Labor Council held on Thursday evening last. President Foster, presiding.

A communication was received from the strike committee of the Brotherhood of Carpenters and Joiners saying that a certain number of building and construction jobs were guarded by armed policemen.

MANITOBA TEACHERS WILL DEMAND A MINIMUM WAGE.

At a meeting of the executive of the Manitoba Teachers' Federation, to be held on October 21st, a movement will be started to have a definite minimum wage fixed for teachers in the public schools of the province. K. W. Hamilton, president, said it is said that for second grade teachers this will be at least \$900 per annum.

WINNIPEG UNION SUES O.B.U.

The first gun in the legal battle between the One Big Union and the Internationals was fired last week when suit was filed in the Court of King's Bench by the Winnipeg branch of the Brotherhood of Railway Shoppers of America against the O. B. U. The suit charges that the O. B. U. branch following its split with the International in April, and for damages for illegal detention and conversion of the property and documents of the lodge.

WHAT ABOUT THE UNORGANIZED?

When the silver-tongued high cost of living orator blames labor for this highlighting curse, he forgets that the great unbidden guest at all his banquets is the culprit "UNORGANIZED LABOR." There is a good story which applies well to this question. One day a negro mule driver in the Rockies, one many years ago a party of thinking tourists were being driven over dangerous roads to this locality. While resting the mule driver, a big colored chap used to flick flies from the ears of the leaders with a whip. Sometimes he would snap the whip at a bird, a flying insect or a fly. Spying a wasp nest in the tree near by, a clever Yankee said: "Brother, don't you take a crack at that?" pointing to the nest. "No, Sah," replied the wise nigger. "They are organized."

TORONTO TRADES COUNCIL.

The Toronto Trades and Labor Council postponed for another month any action in connection with the Simpson charges against Arthur O'Leary and W. J. Hevey. After hearing General Organizer Wm. Stevenson of the Independent Labor Party the Council voted \$200 for election funds for the assistance of the riding labor candidates in Toronto during the approaching campaigns.

A delegation from the National Union of Bakers appeared before the council. They gave an enthusiastic hearing, even though their union is affiliated with the Canadian Federation of Labor and organized from the international movement, which the council represents. The bakers, through their representative, Stuart, made an appeal for assistance in the present strike. Mr. Watt stated that the bakers were striking to be allowed to work during the day, and that it was not worthy of turning aside from affiliations to support.

UNION GIVES THANKS.

At a meeting last week thanks were expressed by members of the Public Service Employees' Union of St. John, N.B., for the recent increase by the city council of 50 cents a day in wages to all earning more than \$4 a day. Address was delivered by Fred A. Campbell, president of St. John Trades and Labor Council, W. F. Hatheway who spoke on labor problems and a young woman from Westfield who urged the interest of all in getting women to register for voting.

EDMONTON STAGE EMPLOYEES' OFFICIALS.

In the September issue of the I. A. T. S. E. and M. P. O. Journal Ernest T. Palmer, of Edmonton, says:

"The star cast for the coming year is as follows: President, W. B. Allen; Vice-President, E. Grace; Business Manager, F. Packerbusch; Secretary-Treasurer, A. Malley. These four will constitute the Executive Board, extending board delegates to the Trades and Labor Council, Theatrical Federation, Federation of Labor and Conventions. CANADIAN WORKERS WILL BE EXEMPT.

"If the American Federation of Labor decides to levy an assessment for the benefit of the striking steel workers of the Pittsburgh district it will not affect organized labor in Canada, but will be paid by the International Federation direct," said Mr. Tom Moore, president of the Dominion Trades and Labor Congress this week.

In President Moore's opinion the payment of any amount of money to the steel workers by the International Federation was very remote. Some years ago the American Federation did make a payment to assist in organizing the women workers, but it is understood that assessments such as suggested for the aid of the steel workers are not looked on with favor.

SASKATCHEWAN EMPLOYMENT SITUATION.

According to figures issued by the Saskatchewan employment bureau for the month of September in Regina at the beginning of September, 1,388 applications for employment were received during the month, and three men were left unemployed at the end of the month. Vacancies unfilled at the beginning of the month numbered 371 while only 31 remained unfilled at the end of the month. The total number of men placed during this period was 1,374.

The figures for Saskatoon are not so gratifying, the number of men unemployed at the beginning of the month being 910. During the period 1,935 applications were received and 129 were left unemployed at the end of the month, 777 men being placed in vacancies.

In Moose Jaw 59 men were unemployed at the beginning of September, 81 applications for employment were received, 544 were placed in positions and 45 men were unemployed at the end of the month. In other centers in the province covering Swift Current, Yorkton, Prince Albert, Weyburn, Estevan, and North Battleford, the number of men unemployed at the beginning of September was 81; during the month 1,095 applications for employment were received; 1,023 men were placed in positions, and 16 remained unemployed at the end of the month.

MINTO MINE CONCILIATION BOARD.

Mr. John A. Walker has been chosen to represent the employes in the dispute between the Minto Coal Mines and the miners of Minto, N. B. The other two members of the Board of Conciliation are R. B. Hanson, of Fredericton, representing the employes, and Chief Justice McKewen, chairman.

KITCHENER UPHOLSTERSERS STILL OUT.

The upholsters of Kitchener who went on strike last Thursday are still out. Mr. Sullivan, of New York, who is there in the interests of the men, informed the public that while the manufacturers were willing to meet the men it was under the old conditions, and this the men would not stand for. The men want 40 cents per hour and a regular working week. A number of men have already left the Twin City and unless the strike was soon settled to the satisfaction of the strikers, the trade would suffer in consequence, as the men would accept the tempting offers from outside centers. Mr. Sullivan also said that he had received instructions from headquarters to fight to a finish and this he would do.

MANITOBA TEACHERS WILL DEMAND A MINIMUM WAGE.

At a meeting of the executive of the Manitoba Teachers' Federation, to be held on October 21st, a movement will be started to have a definite minimum wage fixed for teachers in the public schools of the province. K. W. Hamilton, president, said it is said that for second grade teachers this will be at least \$900 per annum.

WINNIPEG UNION SUES O.B.U.

The first gun in the legal battle between the One Big Union and the Internationals was fired last week when suit was filed in the Court of King's Bench by the Winnipeg branch of the Brotherhood of Railway Shoppers of America against the O. B. U. The suit charges that the O. B. U. branch following its split with the International in April, and for damages for illegal detention and conversion of the property and documents of the lodge.

WHAT ABOUT THE UNORGANIZED?

When the silver-tongued high cost of living orator blames labor for this highlighting curse, he forgets that the great unbidden guest at all his banquets is the culprit "UNORGANIZED LABOR." There is a good story which applies well to this question. One day a negro mule driver in the Rockies, one many years ago a party of thinking tourists were being driven over dangerous roads to this locality. While resting the mule driver, a big colored chap used to flick flies from the ears of the leaders with a whip. Sometimes he would snap the whip at a bird, a flying insect or a fly. Spying a wasp nest in the tree near by, a clever Yankee said: "Brother, don't you take a crack at that?" pointing to the nest. "No, Sah," replied the wise nigger. "They are organized."

Unorganized labor outnumbered organized labor in an amazing way, but their influence is just like the difference between a jingle of jazz and the steady drum of a Stearnway plane. There is no use of nibbling at a situation. We do not wish to go into what Organized Labor has done for the worker in the last century, but we do wish to call attention to what has been attempted by Unorganized Labor and not done. In the great judgment it is not to make a moral umbrella for one's neighbor. Unorganized Labor simply pays for the increased wages of the Organized Labor. There is a big part, and if he gets an increase of wages, he has only Organized Labor to thank for it.

Unorganized labor cannot move forward until it has advanced its present purpose, active members and funds are required. Show your true spirit! Fill in the coupon and become a member of the Citizens' Liberty League at once.

L. T. CARRUTHERS, Secretary
22 College St., Toronto

comes and is in the guise of a mendicant and not as men and women. Think that ever you who are striving to break up the mighty ranks of Organized Labor.

King Canute thought the sea would not come past his knees. Unorganized Labor is the cost of Capital and the colossal numbers that can shake so as to make Organized Labor shiver, fall fruitless on the world. Organized Labor is strong and great today just to the extent it understands modern life. Unorganized Labor is weak just to the extent it has been blinded by history and to what extent science has given past them unnoticed.

Almost everything is ubiquitous today, namely money, labor, trade, peace, war, but Unorganized Labor is dead in an age when men speak and temp-tations abound.

The mass of suffering during the period of demobilization and the more delicate task of changing from adventure of war and the socialization of most of our industries to the normal activities, has been experienced by UNORGANIZED LABOR. Its members are to be offered pity for many of them will not see what they know full well is right.

With a commendable sense of measure and right new unions are being formed almost daily. The Labor Day procession was notable for its new unions. New life indeed is everywhere. The virtues of war, if there are any, are on a par with those of peace; so the labor of war is the labor of peace, and it is when

WORK looks forward that every man and every woman worker is put to the test for the best work and the steady fast best fruit work and at the same time the best made buildings, clothing or best anything that can be named under the sun, is union made stuff.

We are displeased by the opinions of our fellows and we throw the challenge to Unorganized Labor that peace does not abrogate the gospel of union labor, but emphasizes it. Moral: Get organized at once—World.

Sam: "Who was the first Kaiser?"
Bill: "How d, I know? Ask me something easy."
Sam: "Something easy?"
Bill: "Yes; ask me who's the last."

A man fished a boat to see if it would up. It did.
A laborer stepped on a nail to see if it would go through his boot. It did.
A man looked into a gun to see if it was loaded. It was.
A Press hand kept his foot on the treadle to see if it would repeat. It did.
A woman looked into a Patent Medicine Booklet to see if she was sick. She was.
Last week a helper smelled escaping Acetylene from a tank. He lit a piece of waste to find the leak. He found it.
A drill press hand wore a pair of gloves to see if he would get caught. He was.

2.51% Beer The Beer of the Ballot is not Intoxicating

A DETERMINATION as to whether or not a particular beer is intoxicating can be reached only by a proper understanding and analysis of the manner in which the alcohol in such beer affects the human organism.

Beer containing 2.51% alcohol by weight has been proven non-intoxicating by actual experiments, scientific tests, thorough research.

Fourteen specially qualified experts, testifying before the United States Circuit Courts of Appeals, were unanimous in agreeing that beer containing even as high as 2.75% alcohol by weight (or .24% stronger than the beer of the Referendum Ballot) was non-intoxicating.

These experts were Professors of Chemistry, Toxicology, Therapeutics, Nerve Specialists, Physical Training Instructors, Medical Doctors and Specialists in charge of city departments where alcoholics were cared for. Experiments were conducted upon twenty-four men chosen from various walks of life—medical students, laborers, mechanics, business executives, clerks in banks and brokers' offices, artists, writers and professional men.

In view of the sworn statements of these experts, based upon the results of their experiments, that beer containing 2.75% alcohol by weight is non-intoxicating, it must follow that 2.51% beer, the Beer of the Ballot, is non-intoxicating.

The experiments proved conclusively that beer of 2.75% alcoholic content strength could not possibly be intoxicating—not the slightest signs of intoxication were shown by any of the subjects.

It is the strong conviction of the Citizens' Liberty League that—as no harmful results can possibly come from drinking 2.51% beer—then there is no fair or just reason why the general sale of beer of this quality should not be permitted.

Unite with the Citizens' Liberty League in its earnest, sincere endeavor to obtain moderate Temperance Legislation.

Vote "YES" to all Four Questions

Mark your ballot with an X. Any other marking will spoil it. Remember, also—every voter must vote on every question or his ballot will be spoiled.

OLD CHUM TOBACCO

is the "chum" of more pipe smokers, than any other tobacco smoked in Canada

EVERYBODY SMOKES "OLD CHUM"

LABOR'S FUNCTION.

A Torch Instead of a Firebrand

TRUE LABOR comes with Triumphant Torch to light the pathway to Industrial Harmony. The Light of Learning is the Hope of those who Toil. Labor's Torch sheds its friendly rays on all classes who contribute to Canada's Industrial Welfare. The Brain finds and fashions the work for the Body to carry out. Brain and Brawn are Industrial Partners—and their common interest is the interest of Labor.

BEWARE OF THE LABOR IMPOSTOR who carries a Firebrand instead of a Torch. He serves no good purpose when he inflames the minds of ignorant men with violent and turbulent desires. Flames, Fire and Destruction follow in the wake of the Apostles of Violent Doctrines. Bolshevism, the I. W. W., the One Big Union, Anarchy, Red Flagism, and other unhealthy growths flourish in Darkness. Dispel the Darkness of Ignorance. Let Canada's great Era of Education Begin. Let in the Light. Make way for Trade Unionism bearing the Great Torch of Enlightenment!
