

COURT WILL DECIDE PERRY CASE TUESDAY

Two Prisoners Held in Connection With Yarmouth Crime Are Remanded.

DETECTIVE'S TRIBUTE TO FORMER CHIEF

Minister Tells of His Efforts to Reconcile Late Captain and His Wife.

Yarmouth, N. S., April 22.—Clara Elizabeth Perry and Mansfield Ross, charged respectively with the wilful murder of Captain George Henry Perry on February 26 last, and with being an accomplice after the fact, following the conclusion today of the Crown's case against the former, were remanded until three o'clock Tuesday afternoon.

Ready to Rebuild Devastated France

Germany Send Note to London Expressing Willingness to Reconstruct Areas.

London, April 22.—Germany has sent a note to the British Government reiterating her complete willingness to undertake the reconstruction of devastated France. The note, which came through the British Foreign Office, was delivered by the German Embassy to the British Foreign Office this evening.

IROQUOIS BRAVE DEFIES THE GAME LAWS OF CANADA

Caughnawaga Indian Declares Treaty With the British Gives Him Right to Hunt.

Montreal, April 22.—John Simons, Iroquois, from the Caughnawaga Indian Reservation, will be told by Judge Cusson whether the Indian treaty allows him and other Indians the right to shoot out of season. John says it does and to prove how strong in his faith in treaty rights, he went out on the long trail, hunted game, and shot the bear to come out, hunted the muskrat in his dugout and lured them to the traps of five beavers, eighty-one muskrats and forty-five skunk.

JUDGE NOT SURE REDMAN IS WRONG

Reserve Hunter Says He Has Done No Wrong in Using Treaty Rights.

Montreal, April 22.—John Simons, Iroquois, from the Caughnawaga Indian Reservation, will be told by Judge Cusson whether the Indian treaty allows him and other Indians the right to shoot out of season. John says it does and to prove how strong in his faith in treaty rights, he went out on the long trail, hunted game, and shot the bear to come out, hunted the muskrat in his dugout and lured them to the traps of five beavers, eighty-one muskrats and forty-five skunk.

Waxed Indignant

John decried at the warden's insinuations that he had tried to do something forbidden to the palace, and not allowed to the Indians to carry out their rights as hunters. John who had with him before the judge, Martin Two Axes, chief of police at Caughnawaga, the Indians had fished, hunted and lived by the red and gun, and all according to privileges granted them under the Indian treaty.

Warns Game Officials

Forefished with a natural flow of talk the Indian was given a respectful and sympathetic hearing by the judge who told the warden not to be too "cock sure" of his ground in arresting the Indian, seizing the skins and taking him to court expecting to get a conviction.

Refused to Halt So Troops Fired

Dublin, April 22.—Thomas Phelan, of Ballysaggart, was shot dead today by a body of military and police. He was running away after having refused to halt upon being challenged. Other persons killed today were John Harrison, a farmer, who was shot dead at Drumroilly, and substitute Constable Loughlin, who was shot at a Dublin public house. An attempt was made last night to blow up the railway bridge at Castledown. Much damage was done.

Expect Paper Strike

Albany, N. Y., April 22.—Paper manufacturers in this country and Canada will have to reconsider their proposals for a new working agreement to become effective May 1, if a strike of the union paper makers in the mills controlled by the twenty-two companies involved in the present dispute is to be averted, Jeremiah T. Carry, president of the International Brotherhood of Paper Workers, said here today.

UNITED STATES CLOSES DOORS AGAINST REDS

'Political Refugees' Cannot Enter According to Huge Vote in House.

O'CALLAGHAN TO GET NO MORE ASSISTANCE

Measure Proposed Would Let in 'William the Damned' Says Republican Leader.

Washington, April 22.—By an overwhelming vote the House rejected today an amendment to the immigration restriction bill under which political refugees from foreign countries would have been permitted to enter the United States.

FIFTY RAIDS ON IRISH MAILS IN THE LAST WEEK

Crown Forces Were Attacked in Twenty-Nine Places During Same Time.

Dublin, April 22.—The weekly review of Irish conditions issued by the Government today says there has been no change in the situation. It reports 29 attacks on Crown forces during the week, resulting in 30 casualties. Sinn Féin murders of civilians it declares, were six in number, the victims including Sir Arthur Vicars, who was shot at his residence at Lisowal, while the attempted murders were given as nine in number.

FUNERAL GUARD IS UNDER ARREST

Funeral of Sinn Feiners Shot by Police Scene of Demonstration.

Dublin, April 22.—The weekly review of Irish conditions issued by the Government today says there has been no change in the situation. It reports 29 attacks on Crown forces during the week, resulting in 30 casualties. Sinn Féin murders of civilians it declares, were six in number, the victims including Sir Arthur Vicars, who was shot at his residence at Lisowal, while the attempted murders were given as nine in number.

Lost Money Gambling Before He Suicided

Note Found on Montreal Victim Urges Police to Stop the Game.

Montreal, April 22.—A suicide occurred tonight at the Anglo-American House, 667 St. James Street, when the body of John Koller, 25, of 202 Carroll St., Paterson, N. J., was found hanging by a rope from a nail in the wall of his bedroom this afternoon. A note found on a table was to the effect: "I lost \$250 in American money yesterday morning by gambling at the entrance of the Parisian Gardens. Can't you stop this game?"

Dr. Cody Denies Decision is Made

He Hopes to Make Announcement on Melbourne Call Sunday Morning.

Toronto, April 22.—There is absolutely no authority for the report that Dr. H. J. Cody, last night, when asked as to the truth of the report that he had decided to reject the invitation to become Archbishop of Melbourne, "I hope to be able to announce my decision Sunday morning, but I cannot promise definitely that it will be ready by then."

Germany Must Pay Japanese Declare

Nation Will Support France in Her Demands for Quick Settlement.

Brussels, April 22.—Foreign Minister Tassier, speaking at an election campaign meeting today, declared he was completely in favor of the French plan of action in event Germany does not comply with the demands made upon her for reparations. Belgian taxpayers must not be made to pay for German devastations, said the foreign minister. Germany must be made to pay "even if force is necessary."

Sinn Feiners Got Priest for Victim

Then After Last Rites Were Complete They Murdered the Prisoner.

Dublin, April 22.—For the first time in the history of the troubles in Ireland, Sinn Feiners have murdered a man in the presence of a priest who was summoned to administer the last rites. He was John Reilly, the former soldier who was taken from his home at Ballycroy by armed men Wednesday night and shot to death. The priest was called after Reilly had been severely wounded. With the arrival of the priest, the raiders poured pistol shots into Reilly, killing him. A label was pinned on the body, reading: "Executed by the Irish Republican Army. Getting them at last. Beware."

St. George's Day

The Red Rose of England.

The ship of England.

The free wind it wafts afar.

To whap the distant children are.

And with the ships the fragrance goes.

Whose memory, as its blossom grows.

Within the hearts that eye enjoes.

The love of dear England.

Blood that flows in lands afar.

The warm blood of England.

Southern Cross and Northern Star.

Shine on her white snow-clothers are.

Some whose deeds shall never mar.

The fair name of England.

Red their blood as red the rose.

The sweet rose of England.

Eraser's blossom blows.

Crimson o'er the Northern snows.

Crimson o'er the south sun glows.

The Red Rose of England.

THE RED ROSE OF ENGLAND.

A rose is growing on the tree.

The ship of England.

The free wind it wafts afar.

To whap the distant children are.

And with the ships the fragrance goes.

Whose memory, as its blossom grows.

Within the hearts that eye enjoes.

The love of dear England.

Blood that flows in lands afar.

The warm blood of England.

Southern Cross and Northern Star.

Shine on her white snow-clothers are.

Some whose deeds shall never mar.

The fair name of England.

Red their blood as red the rose.

The sweet rose of England.

Eraser's blossom blows.

Crimson o'er the Northern snows.

Crimson o'er the south sun glows.

The Red Rose of England.

OFFICIALS TO COUNT BARLEY THIS MORNING

The Judges Will Make the Official Count of Kernels of Barley for Guessing Contest.

COUNT WILL TAKE PLACE AT 11 O'CLOCK

Offices of the Commercial Club on Prince William St. to be Place for Work.

Subscribers who aided contestants in the recent Automobile and Movie Star Contest will be interested in knowing that the judges will count the kernels of barley in the officially filled jar at 11 o'clock this morning.

All subscribers who gave their subscriptions were entitled to place guesses on the number of kernels of Barley in the officially sealed Small's Peanut Butter jar. Twenty-two free prizes including a Ford Automobile are offered in connection with the guessing contest.

Mayor Scholle publicly filled, sealed and labeled the jar. It has since been on exhibition in the windows of Macaulay Bros., King St.

The judges who will make the official count of the kernels of barley in the jar will be: Mr. E. R. McKeenan, Secretary of the Commercial Club; Mr. R. A. Macaulay, President of the St. John Advertising Club; Mr. W. H. Golding, Manager of the Imperial Theatre.

The judges will begin their count at 11 o'clock this morning in the offices of the Commercial Club on Prince William Street and the results will be published in Monday's Standard.

A Ruling.

One city subscriber who paid a \$30 subscription in the contest, and who entered 30 guesses in the guessing contest, has asked us if he would be entitled to all 32 prizes in the event he had the 32 best guesses.

As a result of this question a ruling has been made as follows: No subscriber can win more than one prize in the Guessing Contest.

Dr. Cody Denies Decision is Made

He Hopes to Make Announcement on Melbourne Call Sunday Morning.

Toronto, April 22.—There is absolutely no authority for the report that Dr. H. J. Cody, last night, when asked as to the truth of the report that he had decided to reject the invitation to become Archbishop of Melbourne, "I hope to be able to announce my decision Sunday morning, but I cannot promise definitely that it will be ready by then."

Germany Must Pay Japanese Declare

Nation Will Support France in Her Demands for Quick Settlement.

Brussels, April 22.—Foreign Minister Tassier, speaking at an election campaign meeting today, declared he was completely in favor of the French plan of action in event Germany does not comply with the demands made upon her for reparations. Belgian taxpayers must not be made to pay for German devastations, said the foreign minister. Germany must be made to pay "even if force is necessary."

Sinn Feiners Got Priest for Victim

Then After Last Rites Were Complete They Murdered the Prisoner.

Dublin, April 22.—For the first time in the history of the troubles in Ireland, Sinn Feiners have murdered a man in the presence of a priest who was summoned to administer the last rites. He was John Reilly, the former soldier who was taken from his home at Ballycroy by armed men Wednesday night and shot to death. The priest was called after Reilly had been severely wounded. With the arrival of the priest, the raiders poured pistol shots into Reilly, killing him. A label was pinned on the body, reading: "Executed by the Irish Republican Army. Getting them at last. Beware."

Expect No Profit On U. S. Vessels

Chairman Benson Asks Congress for \$170,000,000 for Shipping Board Vessels.

Washington, April 22.—Chairman Benson, of the United States Shipping Board, asked Congress today for an appropriation of \$170,000,000 to finance operations of the Government's merchant fleet during the next fiscal year. He also said another appropriation of \$26,830,000 would be needed to permit the emergency fleet corporation to function until July 1. "In view of present ocean transport," said the chairman, "the ships of the Government's fleet will earn during the first six months at least no net revenue, and due to the financial situation the market for the sale of ships, plants and material is so poor that it is not believed probable that any appreciable amount may be obtained from these sources."

Cut Harbor Wages

Montreal, April 22.—Salaries of employees of the Harbor Commission will be cut from May 1 by from ten to twelve per cent, according to M. P. Fennell, secretary of the port. About 400 employees are affected.

World News Today

Canada: Iroquois Indian at Montreal disputes right of Dominion to arrest him for killing game out of season.

Magistrate at Yarmouth will decide on Tuesday if Mrs. Perry and Mansfield Ross are to stand trial.

The United States: Congress adopts by overwhelming majority bill that bars United States to political refugees.

The British Isles: Signs of settlement of the coal strike are more numerous. Fifty raids on mails in Ireland made by Sinn Feiners during the last week.

Europe: Germany notifies Britain that she is ready to reconstruct the devastated areas of France.

COAL STRIKE SITUATION IS MORE HOPEFUL

Negotiations Yesterday So Bright That Premier Able to Leave London.

CONFERENCE WILL BE RESUMED MONDAY

Lloyd George Appealed to Both Sides to Investigate Wage Problem.

London, April 22.—The coal situation has taken another promising turn in consequence of Premier Lloyd George's action in calling a fresh parley and the fact that the conference of the miners' delegates, the largest in the history of the federation, representing a membership of nearly one million men, today voted confidence in Frank Hodges, secretary of the Miners' Union. After adjournment late this afternoon of the conference which the Prime Minister had with the mine owners and the miners' leaders, it was learned that facts were introduced which would be considered over the week-end and would again be the subject of discussion at a further meeting to be held Monday.

STOLEN SAFE IS DISCOVERED AT BOTTOM OF WELL

Found on Property of Men Held for Melbourne, Ont., Bank Murder.

SAFE WAS PART OF EXPRESS LOOT

Police Suspected Two in Jail Were Concerned in Attack and Pumped Out Well.

London, Ont., April 22.—The police have found the safe stolen from the Canadian Express Company in the hold-up at the G. T. R. station here on the night of January 22 last in a well on the Murrell property at Manor Park, and the two Murrell brothers, Sydney and William, who are charged with the murder of Russell Campbell, at Melbourne, may have the express robbery also to face.

The express hold-up took place about seven o'clock in the evening while many people looked on. Four men participated. It was one of the most spectacular of the series in London. The robbers got \$667.

For the past three days local detectives have been pumping the well at the Murrell home in hopes of finding the safe. Yesterday afternoon Sergeant of Detectives, Robert Egelton, Detective Harry Downs, Inspector Lucas and M. C. Brammer resumed pumping out the well, and at six o'clock they had completed the task and recovered the safe.

Suspected Them

Since the arrest of the Murrell brothers in connection with the Melbourne bank robbery and the murder of Russell Campbell, the police have suspected that the Murrells were implicated in the express hold-up, although when confronted on the subject they denied all knowledge of it. The detectives have not yet informed them of the finding of the safe, but when they are told it is expected that they will confess.

On Saturday night, January 22, shortly after seven o'clock, an auto containing four men was parked on Clarence street a little south of the G. T. R. tracks, and on the west side of the street. On the arrival of an express train, the men made their way to the express car where they held up Charles Saunders, Joseph McInnis and D. McKellar, all expressmen. All the bandits had guns and took the express messengers by surprise. Despite the fact that the station was thronged with people, the bandits escaped with the safe. Charles Saunders pursued the men and fired a shot after them, but to no avail. It was the only cartridge he had in the gun.

Irish Elections Not Postponed

Dublin, April 22.—Official indication that the Irish elections will not be postponed, as had been suggested in some quarters, but will be held in May, was contained in an official notice concerning the elections which appeared in tonight's Dublin Gazette. The elections need not be held until August, but the understanding is that whenever they are held they must be for the North and South together, and the Northerners were not inclined to wait. A new act of parliament would be required for separate elections.

WANTS REPRISALS TO END

Cork, April 22.—The Most Rev. M. Fogarty, Lord Bishop of Killaloe, Ennis, whose residence was set on fire Wednesday night, appealed today through the newspapers of Ennis for a cessation of reprisals and counter-reprisals in Ennis. The Lord Bishop said the circumstances were exasperating, but that he hoped the community would rise superior to exasperation, and that no one should be moved to retaliate for the attempt to burn his house.

JOINS THE REDS

Aberdeen, Scotland, April 22.—The Scottish trades union congress today by a narrow margin, voted to affiliate with the Third Internationale.

Still Counting Votes Polled In Ontario

Toronto, April 22.—In a statement this afternoon, Rev. Benjamin H. Spence, secretary of the Dominion Alliance, claims that the majority in favor of prohibition outside of Toronto is 155,817, and that his figures account for seventy-five per cent of the vote. The votes cast in favor of prohibition, according to his computation aggregate 321,594, and those against it, 155,817. The Toronto "wet" majority of 5,000 would indicate a total of 150,000. If the proportion of the "wet" and "dry" vote in the remaining unaccounted ballots cast is the same as those accounted for, the dry majority will be approximately 200,000.

Temperance Forces Confident Their Majority Will be Nearly 200,000.

Irish Elections Not Postponed

Dublin, April 22.—Official indication that the Irish elections will not be postponed, as had been suggested in some quarters, but will be held in May, was contained in an official notice concerning the elections which appeared in tonight's Dublin Gazette. A PAGE OF NEWS ABOUT THE MARITIME

MAGISTRATE TO DECIDE PERRY CASE TUESDAY

Two Prisoners Held in Connection With Yarmouth Crime Are Remanded.

DETECTIVE'S TRIBUTE TO FORMER CHIEF

Minister Tells of His Efforts to Reconcile Late Captain and His Wife.

(Continued from Page 1)

Continuing, the witness said that he went to bed that night at 10.15. His bedroom was on the other side of the house from the Perry homestead. He went to sleep almost immediately. The next thing he knew he heard somebody pounding at his window and upon going downstairs and opening the front door, he found Mansfield Ross who asked that he might be permitted to use the telephone in order to call the doctor.

Detective Kennedy.

Detective Horace Kennedy was the last witness called. He told of his various interviews with Mrs. Perry and of a conversation he had had with the accused when he had proceeded to her home to effect her arrest. On this occasion he had given her the statutory warning against saying anything that might be used against her at her trial, and had then produced the linen cloth in which the seven-year-old wax impressions had been found. He had not told his wife or any soul previous to the arrival of Detective Kennedy of the conversation he had had with Mrs. Perry for what purpose the impressions had come into his possession. He had not cautioned Mrs. Perry against the conversation referred to, and regarded as ridiculous the impression he received of the defendant's reference to dynamite and the separation. On the morning of the murder he had visited the Perry home for the first time since the conversation of seven or more years back and had sent word to Mrs. Perry, through the precautions he was prepared to help her in any way he could.

R. F. Guest, photographer, was next called to identify photographs of the head of Capt. Perry and the Perry home, following the tragedy.

Former Chief's Story.

Chas. H. Babine, former chief of the Yarmouth police force, testified as to conditions existing at the Perry homestead on his arrival there, in answer to the summons of Mansfield Ross, the night of the murder. He had taken to him all the evidence possible at the time. He stated that in company with Detective Kennedy he had visited the Perry home on the afternoon of the murder and had taken part in an experiment to demonstrate whether or not the sound of a body falling in the outside back porch could be heard from an upstairs room. He had heard the sound plainly on two occasions. The only time that the doctor had viewed the body of her dead husband in his knowledge, was the day preceding the funeral. She had entered the home in company with one of her daughters. Her only remark was made when pointing to an old scar on the Captain's face, she had said, "Poor boy, there was where he was hurt in a driving accident."

About the Bar.

At the coroner's inquest he had said he was not sure that the 16-inch iron-bar in the tub on the back porch the morning following the murder was in the tub when he made his examination of the premises following the murder. He now felt sure that this bar was not in the tub on the occasion of his first round.

Cross-examined by Mr. Landry, the witness said that he did not know whether the doors leading through the Perry house, upstairs or down, were open or shut when the experiment was made with the falling body. An endeavor had been made to re-enact the circumstances of the tragedy. He had had occasion last year to investigate the case of a man, Smofsky by name, struck down by an unknown assailant much in the way in which Capt. Perry had been attacked. He believed that robbery was the motive in this case. The attack had occurred a quarter of a mile from the Perry home.

Searched the House.

Mrs. Perry and the other inmates of the Perry household had afforded him every facility in connection with his examinations and had answered all questions put to them. He believed that he had taken every possible precaution to obtain evidence immediately following the crime. He had searched the house thoroughly and soon after his arrival on the scene had examined the furnace and ashes therein. He had found nothing of an incriminating nature.

Minister's Evidence.

Rev. W. B. Beanson, of Dartmouth, was the next witness called. He had been pastor of the Yarmouth Baptist Church for three years, dating from February, 1918. During the period he had been instrumental in effecting a reconciliation between Captain Perry and the defendant, the suggestion of the latter. Previously the two had been living apart. He had interviewed Capt. Perry privately in the matter but to no purpose. Subsequently, at Mrs. Perry's suggestion a conference among the three had been arranged. During the course of this conference the captain, becoming heated, had referred to the disarranging of the cellar steps and he had said: "If you didn't do it, who did?" Believing that no further progress could be made at the time, the witness offered up a prayer and left the house.

Some time later Mrs. Perry returned to live with her husband. Cross-examined by Mr. Landry, the witness stated that he had been friendly with Capt. Perry, that the late captain and the defendant belonged to different religious denominations, and that this was a source of annoyance to the captain. Included in the terms of the reconciliation was one Mrs. Perry accompany her husband at times to the Baptist Church in return for his accompanying her at times to the Anglican Church.

Trouble About Church.

Asked if Mrs. Perry had not exhibited the more Christian spirit in effecting the reconciliation, the witness could not answer. Mr. O'Hearn objected to this evidence and Mr. Landry replied, "Well, you have brought in a handwriting expert; I do not see why I cannot examine this witness as a religious expert."

The witness said that Thos. E. Nickerson was in the house with Captain Perry when Mrs. Perry and himself arrived to effect a reconciliation. He had told Nickerson that he wished to speak privately to the captain and the farmer had retired to the attic. Present to remember what Mrs. Perry had said when confronted with the suggestion made by Capt. Perry that she had tampered with the cellar stairs, the witness said that Mrs. Perry had exclaimed, "how absurd!" The captain had then said, "Well, if you didn't do it, who did?"

Took Part in Experiment.

Wm. McNeill, Jr., living near the Perry home, was then called and was

her husband were not getting along well together. Cross-examined by Mr. Landry, counsel for the defence, the witness said that he had known Capt. Perry for great many years, though never intimately. They were members of the same fraternity, although belonging to different lodges. He had not had any man, had not dislodged the cellar steps, had not inquired about dynamite, and had not advised Capt. Perry of the conversation.

Took Little Interest.

Mr. Landry—"This is a very important matter, Mr. Adams; that conversation should have made as deep an impression on your mind as the keys made on this wax. Did it?"

The witness—"It made no impression on my mind at all. I took little or no account of it at the time. All the witness could recall of the conversation was the impression it left on him. He took the wax impressions, wrapped in linen as they were, put them away and never thought of them again, until Detective Kennedy had asked him if they were in his possession, on the day of the arrests. Even then he had not known whether or not these impressions were available, his house having been destroyed by fire. His wife, however, had produced them. Even when the newspapers reported the matter of the disarranging steps the matter of the wax impressions had not occurred to him.

Told No One.

He had not told his wife or any soul previous to the arrival of Detective Kennedy of the conversation he had had with Mrs. Perry for what purpose the impressions had come into his possession. He had not cautioned Mrs. Perry against the conversation referred to, and regarded as ridiculous the impression he received of the defendant's reference to dynamite and the separation. On the morning of the murder he had visited the Perry home for the first time since the conversation of seven or more years back and had sent word to Mrs. Perry, through the precautions he was prepared to help her in any way he could.

R. F. Guest, photographer, was next called to identify photographs of the head of Capt. Perry and the Perry home, following the tragedy.

Former Chief's Story.

Chas. H. Babine, former chief of the Yarmouth police force, testified as to conditions existing at the Perry homestead on his arrival there, in answer to the summons of Mansfield Ross, the night of the murder. He had taken to him all the evidence possible at the time. He stated that in company with Detective Kennedy he had visited the Perry home on the afternoon of the murder and had taken part in an experiment to demonstrate whether or not the sound of a body falling in the outside back porch could be heard from an upstairs room. He had heard the sound plainly on two occasions. The only time that the doctor had viewed the body of her dead husband in his knowledge, was the day preceding the funeral. She had entered the home in company with one of her daughters. Her only remark was made when pointing to an old scar on the Captain's face, she had said, "Poor boy, there was where he was hurt in a driving accident."

He had told Nickerson that he wished to speak privately to the captain and the farmer had retired to the attic. Present to remember what Mrs. Perry had said when confronted with the suggestion made by Capt. Perry that she had tampered with the cellar stairs, the witness said that Mrs. Perry had exclaimed, "how absurd!" The captain had then said, "Well, if you didn't do it, who did?"

Took Part in Experiment.

Wm. McNeill, Jr., living near the Perry home, was then called and was

Modern Youth

Nothing of That Sort.

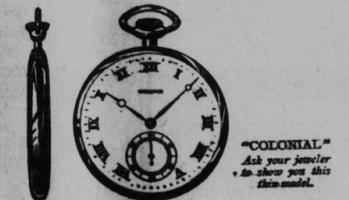

There came into a church a man who informed the verger that he wished to be married on a certain day.

The verger inquired the man's name and was given, "And your fiancée?"

The man shook his head. "We're not going to have any of that," he replied. "It will only be a quiet affair."

Steeves and Berry Trials Next Week

Must Face Judge and Jury on Murder Charges at Hopewell Cape on Wednesday.

Moncton, April 22.—The trial of Oliver Gains Steeves, Niagara Road, Albert County, now in Hopewell goal will be commenced next Wednesday, April 27th, in Hopewell Cape before Chief Justice H. A. McKeown, as will the trial of Ezekiel Berry of Forest Glen, Albert County. Both men are charged with the murder of their wives. The former accused's name recalls the Niagara Road tragedy on February 15th, when the home of the accused was burned to the ground and his wife and five children perished. Steeves stood his preliminary trial before Magistrate John W. Gaskin, J. P., in Coverdale and was committed to stand trial, having James Friel, K. C., as counsel. James C. Shorron and Mr. Lester H. Smith, Clerk of the Peace for Albert County, appeared for the Prosecution.

Ezekiel Berry, charged with the murder of his wife, the late Minnie Berry, stood his preliminary trial in Gunningville, Albert County, before Magistrate Gaskin, J. P., and as Steeves was committed to stand trial, James Friel, K. C., appeared for the accused during his preliminary hearing and Mr. T. T. Goodwin and Mr. Lester H. Smith, Clerk of the Peace for the County of Albert, appeared for the Prosecution.

Senator Fowler of Sussex, has been engaged as counsel for defence in both cases.

Strathcona Miners Given An Increase

Sixty Men Expected to be Back at Work in Pit Next Monday.

Amherst, N. S., April 22.—Settlement has been effected between the miners and management of the Strathcona Coal Co. which has been idle for the past few weeks owing to a strike by which the mines will re-open Monday morning. The men in Number 1 shaft were granted an increase of fifteen cents per box, and the miners of No. 2 have agreed to return to work pending negotiations which are being carried on with the government regarding contract prices. It is not probable that a settlement will be reached in the Fuddy mine until early in May. About 60 miners will return to work in the Strathcona mine on Monday, and perfect harmony prevails between the men and management.

Moncton Veterans Object To Farmers

Claim 300 Men Who Did Not Serve Overseas Working in C. N. R. Shops.

Ottawa, April 22.—Before the pensions commission today, David Cockrae, representing three hundred returned men laid off from the C. N. R. shops in Moncton, said these men had served overseas and returned to find their positions filled by "farmers who had used their farms as a cloak to evade the M. S. A." Further than this the C. N. R. was running a train to take them to and from their work. Their daughters were wearing sea-coats while returned men were walking the streets," Mr. Cockrae declared.

There was plenty of work. More than 700 freight cars were awaiting repairs at Moncton, in addition to 60 locomotives. This was while the farmers of the West were asking for cars to move the wheat. Mr. Cockrae knew of an ex-captain who was working with a pick and shovel at \$2.00 a day in order to feed his family.

Hon. T. A. Crerar For York-Sunbury

Farmer Leader to Address Several Meetings on April 29 and 30.

Fredericton, N. B., April 22.—Hon. T. A. Crerar, leader of the Farmers' party, is coming here next week and to spend April 29th and 30th in connection with the York-Sunbury election campaign. He is expected to speak in Fredericton, Nashua and Marysville as well as at Medford, Marysville and Madam are industrial centres, while Fredericton has more than one fourth of the total vote of the constituency.

MISS SARAH McLEAN DEAD

Fredericton, N. B., April 22.—Miss Sarah McLean of Marysville died on Thursday afternoon, aged ninety-four. One sister lives in the United States. B. M. Hill, chief highway engineer, expects that the trunk roads in this vicinity will be declared open for motor traffic by May 1. Recently the road from this city to Woodstock was found to have numerous frost holes. Applications under the housing act are being received in considerable numbers. The sum of \$100,000 has been asked from the provincial government.

Scotch

POVERTY, WEALTH AND RELIGION

The International Sunday School Lesson for April 25, is "Poverty and Wealth," (Lk. 14:33-35; Amos 4:1-7; Luke 16:1-9).

BY WILLIAM T. ELLIS

Principle and passion are likely to unite in the discussion of this lesson, unless a sincere effort is made to find out the Bible's teachings upon poverty and wealth. The theme is uppermost in the world today. Beneath all political and social upheavals is this economic question. Universally, poverty and wealth have assumed an attitude of open antagonism. The two extreme positions are represented by Bolshevism and reactionism. The former are usually bitter, the latter are usually blind. Together they are precipitating upon the world what may be the most colossal cataclysm of history.

So it is well that the millions of the Sunday schools are to have their thinking stirred by a study of what the Bible teaches about poverty and wealth. The new, for which thought upon the subject was never so great as now. We hail with gratification the fact that some thirty million persons are to study the day's greatest problem in the light of the word of God.

A New Vogue of Old Progress.
Three portions of Holy Writ are assigned as the day's lesson. Two are from the Old Testament prophets. During the past few years these old Hebrew seers have come anew to their own, as apostles of righteousness and exponents of an era of social justice. The world's flag and banner with a divine mission. They exact most modern reforms in that they have a sense not only of man's wrongs but also of Jehovah's righteousness. It is their consciousness of the character of God that makes their words weighty, far that any utterance of our own, socially sensitive era.

Despite the progress of democracy in the past century, we have not yet caught up with the divine programs for the Jewish theocratic-democratic state. Social justice was wrought in the Mosaic law. The year of jubilee, which every half-century provided a redistribution of land, surpassed any other known scheme for the prevention of monopoly and poverty. There have never been written indictments of the greed and cruelty of the rich to match those found in the Old Testament. They should be of tender read and preached upon. Amos portrayed of the commercial interests that reaped the enrichment of Sabbath-observance upon their money-making, and who gave short weights and adulterated food and jugged exchange, is altogether up to date.

Wealth has ever tended to become arrogant and oppressive. It is absurd and inexplicable, but nevertheless a fact, that the possession of money seems to give persons a sense of superiority. Exclusive social circles are commonly built upon mere money. Anybody who is rich enough and potent enough can force his way into any social group. The "divine right" of the dollar is one of the ghastly incoherencies of civilization. The centuries have shown few more hideous spectacles than the war-time profiteers and their immunity from legal punishment and from social ostracism. Only an Old Testament prophet could adequately paint the picture of these violators of the laws of God and of the rights of men.

"The Man With the Hoe"
Something of the old Hebrew prophetic spirit was caught by Edwin Markham, in his poem, "The Man with the Hoe," written after seeing Millet's famous painting. The lines are familiar, and true to the Old Testament spirit in their appeal to Divine justice:

"Bowed by the weight of centuries,
He leans
Upon his hoe and gazes on the ground,
The emptiness of ages in his face,
And on his back the burdens of the world.
Who made him deaf to rapture and despair—
A thing that grieves not and that never hopes—
Stolid and stunned, a brother to the ox?
Who loosened an lot down this brutal law?
Whose was the hand that slanted back this brow?
Whose breath blew on the light within this brain?
"Is this the thing the Lord God made and gave?
To have contention over sea and land,
To trace the stars and search the heavens for power,
To feel the passion of Eternity?
Is this the Dream He dreamed who shaped the oars
And pilared the blue firmament with light?
Down all the stretch of hell, to its hot gulf,
There is no shape more terrible than this—
More tormented with remorse of the world's blind greed—
More filled with stings and postures for the soul—
More fraught with menace to the universe.
"O masters, lords and rulers in all lands
How will the Future reckon with this Man?
How answer his brute question in that hour
When wide awake of rebellion shake the world?
How will it be with kingdoms and with kings—
With those who shaped him to the thing he is—
When this dumb Terror shall reply to God,
How the silence of the centuries?"

As the Bible writers are called that faith, ultimately, God will settle accounts. To them the question of human relationships was

inexplicable except on the basis of a future life in which justice would be done. As Amos quotes Jehovah as saying, "Surely I will forget any of their works." There is comfort in the consciousness that God is forever on his throne, and that the Judge of all the earth will do right. This conviction makes for patience and largeness of view.

This is not merely an Old Testament teaching; it is the message of the Master's parable of Dives and Lazarus. Earth's inequities are all straightened out in the next world. We are nowadays losing the sense of heaven from our social consciousness. Like the Russian radicals, we want the millennium to come here and now, by political or revolutionary action. So much of what is wrong, however, has its springs in the soul, that it needs the wisdom as well as the justice of God to make it right.

Are There Class Lines to Character?
Moreover the assumption of the Bolshevik and his ilk is that all the rich or prosperous are bad, and that all the poor are good. Every person who is familiar with real life knows better. There have been, and are countless men and women rich for two worlds. Wealth was never so socially responsive as now. Some of us know men of means who are possessed of as intense a passion for human welfare, and for the coming of God's kingdom on earth, as any reformer or preacher. This fact should never be permitted to slip out of the consciousness of those who are striving for a better social order. Class bitterness will be prevented if we all have the sanity to avoid vicious generalizations which make character dependent upon possessions or social position. The sincere servants of the Kingdom ideal.

Everybody admits that there are countless saintsly poor; therefore the point to be urged is that there are a host of godly rich men and women, sincere servants of the Kingdom ideal. Dives was condemned not merely because he was rich, but because he had failed in his social responsibility and religious duty. Jesus Himself had wealthy friends—there were Simon and Levi, for example—as well as poor. The agitator who tries to make the world possessions the dividing line between the desirable and the undesirable, the good and the bad, can find no authority in the New Testament for doing so.

Couldn't Afford Wealth.
Agassiz, the scientist, "hadn't time to make money." There have been myriads of others—thousands of them—rich and blood men and women of our own time—who have recognized wealth or the possibility of acquiring it, because they were devoted to a better worth while. There is inspiration in the contemplation of the insignificant company of saints and servants of the public weal who simply cannot afford to become rich.

That attitude squares with the New Testament teaching. Jesus taught the world that money is not the best thing and that poverty is not the worst thing. True, this old world has been slow to learn its lesson. With fine irony Jessica Nelson North once put the case in a bit of "Century" verse:

"Draw in the latch-string, lad, and close the door,
Least those who faint without from toll and pain
Should rob thee of thine own too meager store.
Can one poor crust maintain these famished forms?
Can one poor shelter save them from the storm?
And surely those who wait and hope in vain
Shall turn and rend thee when thou hast no more.
So draw the latch-string in and close the door."

Life is for giving, rather than for getting, said the Master. He warned explicitly against the perils of wealth. And he put life on a higher plane than the acquisition and enjoyment of material things. He taught that a man's life consists not in the abundance of things he possesses; but in his relation to the eternal riches of the spirit.

PIMPLES ON FACE CUTICURA HEALS

Caused Disfigurement, Itchy and Burning. Had Restless Nights.
"My face came out in little pimples that were sore, and I scratched them constantly, and then they turned into scales, causing much disfigurement. The skin was so itchy that I scratched it by scratching. The burning was fierce, and I had many restless nights."
"This trouble lasted about a year before I used Cuticura Soap and Ointment, and after using three cakes of Soap and two boxes of Ointment I was healed." (Signed) W. Byrnes, St. Louis, Mo., Nov. 23, 1911.
Make Cuticura Soap, Ointment and Talcum your daily toilet preparations.
Soap 25c, Ointment 25c and Pills. Sold throughout the Dominion, Canadian Depot, 333-335, Cuticura Soap always without soap.

Women Fined For Having Fist Fight

Had to Pay \$3 Each for Staging Battle Over a Debt.
New York, April 22.—It costs \$3 for a woman to fight another woman on the streets of New York. This is about the same as the current rate of fine prevailing in male scraps. The fines were levied yesterday by Magistrate Thos. J. Nolan in Yorkville Police Court on Mrs. John Allere, 26 years old, who is said to be an opera singer, and Mrs. Mary Mitchell, 46 years old, of 231 East Thirty-fourth street. The women staged a fist fight, with coats off, in front of Tammany Hall Sunday afternoon, while a crowd of about 300, mostly men, watched without venturing to interfere.
A minister with a police whistle finally stopped the fight, for he summoned Patrolman Cornelius Walters. After drawing a long breath Walters plunged between the women, who were swinging their fists wildly with eyes tightly shut. Both contestants registered punches on the blouse, and it took another policeman to get them to the police station.
Mrs. Allere alleged that the fight arose from the fact that the other woman owed her money.

Godliness, in his estimate, is more precious than gold.
"Foes it seem like mere 'plonk talk' to declare that the one solution of the problem of poverty and wealth consists in each individual life being rich toward God? Far from it. Nothing else is half so practical. We cannot legislate a solution for this ancient question. Nor can we settle it by revolutions or by new forms of government or economics. Only a new spirit—the Christ spirit—can bring in the new order which we contemplate as the kingdom of heaven on earth."

SEVEN SENTENCE SERMONS

The smaller our world the larger its care.—Martin Maartens.
We treat God with irreverence by banishing Him from our thoughts, not by referring to His will on slight occasions.—Reade.
Greatly begin, though thou have time.
But for a line, be that sublime—
Not failure, but low aim, is crime.
—Lowell.
He giveth power to the faint; and to him that hath no might he increaseth strength.—Isa. 40:29.
There is no greater wisdom than well to time the beginnings and onsets of things.—Lord Bacon.
This world's no blot for us
Nor blank; it means intensely, and means good.
To find its meaning is my meat and drink.
—Browning.
All great things are born out of silence.—J. Martineau.

Aspirin
Nothing Else is Aspirin
Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.
Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and dose worked out by Bayer for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.
Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Girl, 22, Stowaway On Ship From Italy

American, Voice Student, "Brooks," Just Had to Come Home.
Boston, April 22.—Without funds, in a foreign land, Marie Scott, 22, of Seattle, who had ambitions to become a great singer, lost hope, longed for home and came by the first available means—a stowaway.
That was the story she told today to the immigration officials here. She had secreted herself aboard the United States Mail Steamship Company's Princess Mistoka at Naples, and was surrendered to the authorities on arrival here.
She was one of sixteen stowaways—a young woman of apparent refinement in a group of fifteen male non-descripts.
Immigration officials arranged a hearing in which she claim to reside in Seattle and the circumstances of her voyage were to be investigated to determine her right to land.
The young woman said she went to Italy as a student of music, ran out of funds and, rather than cable home again for more money, boarded the first steamship sailing for the United States. She said she merely mingled with the steerage passengers at first, but tried to hide from the officers when tickets were checked up, only to be caught with nothing to show for her passage.

Wife Received.

Apohauk, N. B., April 23.—Mrs. Colby H. Jones received for the first time since her marriage on Thursday afternoon, April 14th. The drawing room, where she was assisted in receiving by her mother, Mrs. John Robinson and Mrs. G. B. Jones, was tastefully decorated with daffodils and carnations. The dining room was decorated with daffodils and lighted by candles. Mrs. Mansel Sheven and Mrs. A. W. Morash presided over the tea-table. The color scheme of the living-room, where Mrs. John Dalting cut the loaves, was rose, the flower centre being carnations. Other assisting were Mrs. W. F. Myers, Mrs. Harry R. Lison, Mrs. G. O. Campbell, Misses Muriel Jones, Marion Reid and Laura Jeffries. Little Miss Hazel Leake attended the door.
The smartest knitted costumes are of black and white, beige and brown, and dark and light shades of a color.

If You Suffer Take
digestive disorders, indigestion, flatulence, constipation, sick headache, biliousness.
a course of the famous Beecham's Pills. Prompt relief often follows the first dose. People everywhere are proving the value of BEECHAM'S PILLS.
Sold everywhere. In Canada, 25c, 50c. Largest Sale of any Medicine in the World.

LEFT LARGE ESTATE

Toronto, April 22.—The estate of the late Hon. Mr. Justice H. M. Burton, who died on Nov. 25, 1920, at Toronto, is probated at \$5,349,124. Members of the immediate family receive the bulk of the estate.

IRISH ATTEMPT ARSON

Cork, April 22.—An attempt was made yesterday night to burn the residence of the Bishop of Killaloe, in the town of Killybeggs, near the front of the house was well obtained when the fire was discovered and extinguished. A patrol of police was sent near the front door. Five men were seen fleeing. Two of them were arrested. A neighboring residence was burned to the ground shortly before the Bishop's house was set on fire.

DODGE BROTHERS SEDAN
The Sedan enjoys, everywhere, a distinctly high social status, and yet its economy is one of the outstanding reasons for its strong hold on American appreciation.
The gasoline consumption is unusually low. The tire mileage is unusually high.
The Varsity Garage & Supply Co., Ltd., St. John. Valley Motor Co., Fredericton. Victoria Garage, Moncton. J. F. Rice & Sons, Edmundston. McWha & Buchanan, St. Stephen. C. T. Black & Co., Woodstock.

Ford TRUCK
THE Ford Truck was first put on the market in 1917. It was designed and built to fill the demand for a light, economical means of transportation at low price.
Our statistics show that every class of user is buying more Ford Trucks every year, the increased volume being a direct result of the satisfaction that owners have had with Ford Trucks. Its increased sales prove its popularity.
A new high speed gear, now obtainable, increases its value for rapid delivery purposes.
Price \$750 F.O.B. Ford, Ontario.
Models Starter and Lighting \$100 extra.
Ford Motor Company of Canada, Limited, Ford, Ontario.

HOW THE CANADIAN RAILWAY

The Big Freight Train
Down Operating
Grand Trunk
Over Crating Will
This article deals with the progress of a railway system of the freight tonnage in last year. It will set out the progress in this respect in which the National Railways stand as the prospects of future improvement. It is recalled that this article dealt with the details of the C.N.R. and end show how, by merely lengthening average haul of its freight cars per annum, without expending any increase in tonnage, the C.N.R.'s traffic density increased to a point where the National in Canada (29,000 tons) as compared with the C.N.R. is a little more than a 20 per cent increase in tonnage per mile of line in Canada. It is difficult for a line of the density to handle its large train loads. An average density of 700,000 tons per mile per day, under conditions this would require one large freight train each day. It can be understood, however, that for purposes of the public this tonnage has to be split into two or three trains each way. In 1920 the tonnage of the C.N.R. was 751,000 tons miles respectively, its load was only 340 and 300 respectively. Moreover, the tonnage of the Canadian Pacific freight train over previous years had been increased to 233 tons in 1920 to 299 tons and then, as stated, it was tons.
That the tonnage per train is a study of the following: The Canadian Pacific freight performance in 1913 and 1920.

Year	Frt. carried (AVG. DAILY)
1913	23,471,514
1920	30,160,134

It will be observed that in the actual number of miles in 1920 as compared with 1913, the tonnage per mile was increased by 2.33 per cent, and P. R.'s 15.4 per cent. increase (11,961.7 to 13,288.5 miles) when worked out on that system actually 4.78 per cent. The tonnage per mile of line, also it will be seen, increased by 23.3 per cent. This increase in the operation of the C.P.R. in their average of 1913, additional tonnage of 10,175,973 was required. It could not run these additional trains without the extra mileage represented a loss in the Canadian Pacific of an amount equal to that company's benefit in operation. The number of railways in the country had, prior to the war, a train load to a point within

HOW THE CANADIAN NATIONAL RAILWAY CAN BE MADE TO PAY

The Big Freight Train is Most Important Factor in Keeping Down Operating Expenses—Consolidation With the Grand Trunk Will Add Much to Density of Traffic.

This article deals with the advantages to a railway system of handling its freight tonnage in large train loads. It will set out the position in this respect in which the Canadian National Railway stands and indicate the prospects of future improvement. It will be recalled that the last article dealt with the density of traffic on the C. N. R. and endeavored to show how, by merely lengthening the average haul of its freight by 10 per cent per annum, without even anticipating any increase in tonnage at all, the C. N. R.'s traffic density would be increased to a point where its own owned system would be within measuring distance of the C. P. R. as it was operating in 1920—977,213 tons per mile of line on the Canadian National in Canada (20,988.87 miles) as compared with the C. P. R. with just a little more than a million tons per mile of line in Canada. It is difficult for a line of light traffic to handle its traffic in large train loads. An annual tonnage density of 700,000 tons in only 1000 miles per mile of line. Under favorable conditions this would represent only one large freight train each week per day. It can be understood readily, however, that for purposes of service to the public this tonnage would have to be split into two, or even three trains each way. In 1920 and 1921 when the tonnage density on the C. P. R. was 751,000 and 758,000 tons miles respectively, its freight train load was only 340 and 336 tons respectively. Moreover, those two years marked a great advance on that system over previous years as its train load had been increased from only 233 tons in 1920 to 290 tons in 1921, and then, as stated, it went up to 340 tons.

That the ton-per-train-factor is of great significance will be clear from a study of the following table giving the Canadian Pacific freight train performance in 1913 and 1920:

Year	Frt. carried each way	Aver. distance hauled, Miles	Tons per mile of road	Tons per mile of train	Tons per mile of freight
1913	23,471,814	339.15	69,091	341.12	2.39
1920	30,180,134	464.01	64,828	5.50	3.50

It will be observed that the increase in the actual number of tons handled in 1920 as compared with 1913 was but 2.83 per cent, and when the C. P. R.'s 15.4 per cent increase in mileage (11,561.7 to 13,558.5 miles) is considered, the tonnage per mile of line on that system actually decreased. The ton miles per mile of line increased by 7.8 per cent, whereas the actual ton miles (when worked out) increased by 23.25 per cent. The train load increased by 28.8 per cent. From this table, also, it will be seen there was an increase in earnings per train mile of 84 per cent, and a great saving in expense in the operation of train miles. To illustrate this point clearly, it might be shown that if the tonnage of 1920 had been handled by the C. P. R. in their average train of 1913, additional train miles to the number of 10,176,978 would have been required. It could not have cost less than one dollar per train mile to have run these additional train miles in 1920 so the extra mileage would have represented a loss in net to the Canadian Pacific of an amount nearly equal to that company's fixed charges. This is a striking example of the benefit in operation that may be obtained by increasing the train load. A number of railways in United States had, prior to the war, increased their train load to a point which would not

allow their position to be sustained by effecting an advance in this position during the war period. Lack of density presented similar action in the case of Canadian National Railways. The advantage to the government-owned lines in this direction, that may be expected to accrue as a result of the thorough consolidation of the National System, lies up, therefore, as substantial in character.

The National Railway as constituted at present—not including the lines of the G. T. R. in the case—have a freight traffic density of 874,500 tons per mile of line. The management succeeded, however, in handling this during 1920, in 379 train loads, which was a larger average than that of the National in Canada (20,988.87 miles) as compared with the C. P. R. with just a little more than a million tons per mile of line. This proves, then, that the train load—a most essential factor in efficient operation—has been given the serious consideration by the G. T. R. management that the subject warrants. The low density of freight traffic and the necessity of competing in relative frequency of service, have been limiting factors in the progress possible in this direction.

When it is possible to lengthen the average haul used at the same time increase the train load, a most favorable set of operating conditions is established and without doubt, the relatively good showing of the Canadian Pacific since 1913 is primarily due to the opportunity to do this which presented itself to the management of that system, which, prior to the war had used density of freight traffic and a relatively light train load compared with lines of similar density.

Summarizing, then, the prospects for improving the consolidated National System's freight train situation are bright as the government

owned lines, although having but 50 per cent more mileage than their privately-owned competitor, originate twice as much traffic in tons and to raise the density it is only necessary to increase the average distance haul. As the freight density increases the opportunity to increase the train load becomes greater and this, of all factors, is the one most certain to bring about a substantial reduction in the relative cost of moving freight traffic.

As to character of traffic, those lines of freight in which the present National System is deficient, will be made up by consolidation with the Grand Trunk which carries the manufacturing, and more fully developed industrial districts not previously reached by the National Lines; and the Grand Trunk which carries the manufacturing, and more fully developed industrial districts not previously reached by the National Lines; and the Grand Trunk which carries the manufacturing, and more fully developed industrial districts not previously reached by the National Lines.

As regards passenger service, the Canadian National Railways are now at a great disadvantage compared with the C. P. R. and even when the Grand Trunk lines are consolidated with those of the Canadian National Railways, the consolidated system will start quite a bit behind, but the prospects for improving the situation are good, as will be pointed out in another article.—C. N. R. Publicity Dept.

WITHDRAWAL S.S. "EMPRESS" The S. S. Empress between St. John and Digby will be withdrawn from service, for annual overhaul, and will be off the route between April 25th and about May 4th inclusive.

CORNS Lift Off with Fingers Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly hot corn stops burning, then shortly lift it right off with fingers. Truly! Your druggist has a tiny bottle Frezzone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

A SURE RELIEF FOR WOMEN'S DISORDERS 10 Days' Treatment Free Orange Lily is a certain relief for all disorders of women. It is applied locally, and is absorbed into the suffering tissue. The dead waste matter in the congested region is expelled, giving immediate mental and physical relief; the blood vessels are stretched; and the circulation is rendered normal. As this treatment is based on strictly scientific principles, and acts on the actual location of the disease, it cannot help but be good in all forms of female troubles, including delayed and painful menstruation, leucorrhoea, falling of the womb, etc. Price, \$2.00 per box, which is sufficient for one month's treatment. A Free Trial Treatment, enough for 10 days, worth 75c., will be sent Free to every suffering woman who will send me her address. Send three stamps and address Mrs. Lydia W. Lord, Windsor, Ont. Sold by leading druggists everywhere.

ALBERT OIL SHALES Turning Out Well Yielding Ninety Gallons to the Ton—Hay Very Scarce in Alberta County. Special to The Standard. Hopedale, N. B., April 22.—At the Hopedale shale works the prospects are very bright. The test now being made is yielding ninety gallons of oil to the ton of shale. This percentage of oil is perhaps equal to any in the world, and will give employment to a large number of men.

The Baptist Sewing Circle met this afternoon with Mrs. F. J. Smith. The circle is raising funds for church purposes.

In the outlying districts hay is very scarce and the local market is quite active.

William McGorman, road commissioner, is making some repairs on the Harvey bridge.

SEARCH SEA FOR BOAT. Miami, Fla., April 22.—Steamships and boats left Miami at daybreak this morning to search the waters between here and the Bahamas Islands for Webb Jay, wealthy Chicago broker, and a party of four, who are believed to be missing at sea, in a little speed boat, Sue J.

In the boat with Jay were his wife, Chas. S. Deshields, of Chicago, and wife, and a negro employe.

HIGH SCHOOL YOUTH ADMITS SETTING FIRES SAVED FROM LIFELONG MISERY

Wanted to See the Engines Run in Excuse Given by Lad. And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

HIT ON HEAD THREE YEARS AGO WITH BAT Fifteen Year Old Boy Had Mania for Starting Blaze and Watch Firemen.

Philadelphia, April 22.—Because he "liked to see the engines go," Caldwell Matthews, 15 years 14, 119 Gower avenue, Mount Airy, admitted today that he had set a fire to his home within the last ten months. This he confessed to Fire Starbuck Elliott yesterday after being detained by the police on suspicion. The boy, a first-year student at the Germantown High School, and the son of Frank C. Matthews, a stock-broker, calmly admitted he had a mania for starting fires. He was sent to the House of Detention and will be given a mental examination.

Wanted to See Firemen. Since a blow on the head with a baseball bat three years ago, he has been unable to control his desire to watch firemen at work and started the fires to gratify this impulse.

As numerous houses had been started near his home, neighbors feared that their houses were in danger and notified the police of the German-town station. Detective McPherson and Assistant Detectives Marshall, Whitmore, and yesterday took Caldwell to jail for an examination.

The most recent fire occurred Sunday night, in the home of Mrs. M. Tausig, 112 Gower avenue. A box of rubbish was ignited under a summer kitchen while Mrs. Tausig and her two children were away from home. The fire was extinguished after a loss of \$500. It was the second incendiary fire in the Tausig home since last September.

Mrs. Matthews, the boy's mother, was not present at the examination, and at her home she knew nothing about the affair. His grandmother, Mrs. Edward Falkenberg, 5604 Gower street, Germantown, said that he is an only son and is a spoiled child.

Police and fire bureau officials admit that they have been investigating fires of mysterious origin in Mount Airy and Germantown for nearly a year, and that Caldwell has been suspected for some time. Most of the fires occurred in the latter part of 1920, but after a lapse of five months they began again.

Last October a slight fire was discovered in the boy's home, and during a visit to his grandmother, a blaze of small proportions was discovered there.

Other fires, which the boy admitted starting, were in the homes of Elliott Carpenter, 114 Gower avenue; Henry F. Boyer, 115 Gower avenue; Mrs. Wm. Bauerle, 108 Gower avenue; and Mrs. F. C. Chasler, 108 Gower avenue. He also admitted he was responsible for a fire in the Crestheim Valley apartments, Allen lane and Crestheim drive.

The police also recall several fires which occurred in the Mount Airy Public School, where the boy formerly was a student.

The damage in each fire was slight.

Old Rum Cases Haunt Prisoner Comes Back from Aroostook to Bangor to Give \$1,000 Bail on Three Charges.

Bangor, April 22.—Pope D. McKinnon, of Bangor, was arraigned before United States Commissioner Reid as the result of his arrest by Deputy United States Marshal James Cleary of Bangor on three charges issued on three indictments returned by the grand jury in the United States district court held in Bangor in February, and at previous terms. The charges charged were variously those of selling liquor without a United States stamp, failing to display a stamp in a conspicuous place, and bringing liquor into a dry state.

By an arrangement entered into previously, McKinnon came to Bangor on the Thursday night train from Aroostook county, where it is stated that he has been engaged in business along the border for some months.

On Sunday, Deputy Marshal Cleary was in Aroostook county along the border in search of McKinnon, but it so happened that the latter was over the line in Canada, and therefore immune from pursuit and capture.

McKinnon was not represented by counsel in the arraignment before Commissioner Reid. He gave bail in the sum of \$1,000 for his appearance at the June term of the United States district court in Bangor and was released, his wife being accepted as surety.

FUNERALS The funeral of Charles Randall took place yesterday morning at ten o'clock from his parents' residence, 29 Albion street to the Cathedral where High Mass of Requiem was celebrated by Rev. St. Ignace. Six members of the Assyrian Protective Association acted as pall-bearers. The funeral was very largely attended, and many spiritual and floral tributes were received from relatives and friends, interment in the new Catholic cemetery.

The funeral of William Heathfield took place yesterday afternoon from his residence, 192 Main street, following service by Rev. Dr. David Hutchinson, interment at St. Joseph's.

ELECTRICITY FROM VOLCANO HEAT PLANNED

Hawaiians Hope to Get Unlimited Power from Fire in Kilauea.

ASK LEGISLATURE TO SPEND \$25,000 Believe Light and Power Can be Supplied to Whole Island Very Cheaply.

(Copyright 1921 by Public Ledger) Honolulu, T. H., April 22.—Hawaii's might volcano, Kilauea, may be harnessed within a few years and its heat converted into electricity for the unlimited development of industries on the Big Island. Such is the possibility seen by the Hawaiian Volcano Research Association, which is fostering a bill now before the Territorial Legislature requesting the appropriation of \$25,000 to be used with a license amount provided by the association for borings and other experimental work.

A memorial presented to the Legislature cites the fact that volcanic heat is already being employed in Italy for the production of power on a large scale. Eminent scientists are quoted as being interested in the proposal, among them several of the leading members of the first Pan-Pacific Scientific Congress which met in Honolulu last August. The possibility of recovering sulphur, copper and perhaps other minerals from the gases of the crater, as well as using the power generated to extract nitrogen from the air is pointed out in the memorial, which reads in part as follows:

"The volcano of Kilauea, island of Hawaii, is continuously giving off vast quantities of volcanic heat, at high temperatures, ranging as high as 2400 degrees Fahrenheit, in the form of steam, gas fumes and heated air.

"Your memorialists are convinced that this heat, now being wasted, is a vast unrealized territorial asset, which, at a cost well within commercial profitability, can be made available on a commercial scale, and that

upon being converted into electricity, it can be economically conducted to all parts of the island in quantities sufficient to operate all the machinery now in operation or which will ever be in operation on the island of Hawaii; light every town and hamlet on the island, and supply surplus power for new industries to a virtually unlimited amount at a cost far below the present cost of fuel."

It Costs Only Five Cents a Day or \$1.50 per month for helpful medical treatment if you take Hood's Sarsaparilla. Eminent scientists are quoted as being interested in the proposal, among them several of the leading members of the first Pan-Pacific Scientific Congress which met in Honolulu last August. The possibility of recovering sulphur, copper and perhaps other minerals from the gases of the crater, as well as using the power generated to extract nitrogen from the air is pointed out in the memorial, which reads in part as follows:

"The volcano of Kilauea, island of Hawaii, is continuously giving off vast quantities of volcanic heat, at high temperatures, ranging as high as 2400 degrees Fahrenheit, in the form of steam, gas fumes and heated air.

LUMBAGO

If you feel a touch of lumbago, you can ward off the evils of recurrent attacks, by taking Glaxo Pills without delay. Learn a lesson from the experience of Mr. H. A. Jukes. After suffering with lumbago for years, and being confined to the house at times, Mr. Jukes began to take Glaxo Pills. His letter to us reads, in part: "and much to my surprise, I at once felt a change for the better. I have been taking them at intervals, and, up to date, have had no recurrence of my old trouble; in fact, I have not felt better for years."

Don't delay. Buy a box on our money-back guarantee, or write for a free sample. National Drug & Chemical Co. of Canada, Limited, Toronto, Ont., U.S.A. Residents should address: No-Drug-Co., Inc., 302 Main St., Buffalo, N.Y.

Put CANADA On WHEELS

A MAN of action without a motor car is like a bird with a broken wing. The bird can only flutter instead of fly—the man can only putter instead of work.

Canada cannot putter and prosper—it must motor and progress. Willys-Overland Limited will pay \$5000.00 in cash to get your idea of the utility of the motor car. It is an inspiring movement—open to anyone in Canada who owns a motor car.

Overland owners are particularly impressed with the exceptional utility afforded by their cars. They get from 25 to 30 miles to the gallon of gasoline and other expenses proportionately low. They have the great facilities and greater plans of a leading Canadian institution solidly behind them.

But no matter what car you drive—get an entry blank from your Overland dealer. Write a letter on the subject "What my car means to me," not to exceed three hundred words. You may win the first prize of \$1000.00 or one of the seventy-four other cash prizes.

FOR WOMEN

A MUSEMENTS

Women Want Many Changes In Laws

National Council of Women Presents its Desires to the Hon. C. J. Doherty.

Ottawa, April 22.—A delegation from the National Council of Women waited on Hon. C. J. Doherty, minister of justice, this morning, urging that new laws and amendments to existing laws be enacted.

- 1.—That women be included in the panel of all juries sitting on cases where women are concerned.
- 2.—That adultery be made a crime.
- 3.—That legislation be enacted to give to women the same rights to homestead as are now enjoyed by men.
- 4.—That an extension of the indefinite system of sentence be applied to those men and women convicted under the Criminal Code sections dealing with sexual offenses.
- 5.—That the section 464 of the Criminal Code be amended by substituting the word "eighteen" for sixteen. This section deals with the age of those who come under the jurisdiction of the juvenile courts.
- 6.—That punishment by fines for crimes of an immoral nature be abolished.

Wife Desertion.
1.—That wife desertion be made an extraditable offence.
2.—A uniform divorce law for Canada.
3.—That the English law respecting divorce in force in Alberta, Saskatchewan and Manitoba be so amended that there shall be no distinction of sex in the grounds for granting an application for divorce and that for purpose of granting an order of divorce a wife's domicile shall be considered the place where she resides.

QUAINT HEADRESS

Paris.—An extremely effective headress seen the other night at the Chauve Souris was worn by a young Frenchwoman who was costumed in one of the quaint old-shoulder Victorian robes de style, made of black taffeta. Her hair was parted and pulled back, and from a narrow fillet of jet which went about her hair and across her forehead, fell dangling ornaments of jet placed to give the same effect as the little curlew curls which were worn over the temples in real Victorian days, suggesting that if the vogue for these robes de style (or periwig style) continues, we may see quaint hair arrangements of this sort to accompany.

Dr. Grace M. Norris, of Utica, N. Y., the first woman coroner in the United States, now aspires to be the first woman mayor in the East and has announced her intention of running for that office at the next election.

Unequal Laws And The Stevens Murder

Local Council of Women Adopted Two Important Resolutions at Meeting.

At the meeting of the Local Council of Women held yesterday afternoon at the Board of Trade rooms, Mrs. W. R. Raymond presiding, two important resolutions were adopted, one dealing with the murder of Miss Minnie Stevens and the other on the unequal laws relating to the unmarried mother and a large amount of other business was transacted.

Reports Received.
Reports were received from the Rosebud Day convancers showing a net amount of \$1,231.19, which amount was ordered paid over to the Children's Aid Society.

Milk Distribution.
Mrs. W. B. Tennant, for the milk distribution committee, reported that much good had already been accomplished, and Miss Haslam gave a very interesting account of her work. She reported that at present 29 families were getting milk—25 a quart a day and four a pint a day. She also reported the receipt of \$5 from the Seven Seas Chapter, I.O.D.E. On motion the work of the milk committee was endorsed.

Resolutions Adopted.

"We the members of St. John Local Council of Women in session this 22nd day of April, 1921, express our endorsement and approval of the action of the Local Council of Women of Moncton in appointing a committee to frame a resolution for presentation to the Provincial Government calling on that body to take steps to bring to justice the murderer of Miss Minnie Stevens, who was brutally killed in Edmonton."

HELPFUL HINTS.

- When stewing dried fruits** it is an economy of time and fuel if two pounds or more are cooked at a time. Of course the amount depends entirely on the size of one's family, but the idea is to cook more than enough for just one meal at a time.
- After the fruit is cooked** it may be put into sterilized pint jars and sealed and kept indefinitely.
- Menu For Tomorrow.**
Luncheon: Creamed dried beef broiled bacon, scrambled eggs, brown bread toast, coffee.
Dinner: Liver and bacon, mashed potatoes, baked onions, felled tomato salad, cherry pudding, coffee.
- My Own Recipes.**
Appetizers are a rather tart fruit and therefore especially acceptable in the spring when the appetite is a bit lapsed. It is always a good plan to serve a fruit that is rather acid when bacon makes the breakfast.
- Rhubarb and Orange Jam.**
3 cups finely cut rhubarb; 3 oranges; 2 cups granulated sugar. Remove the outer stringy part of the rhubarb and cut in tiny pieces. There should be 2 cups. Remove rinds from oranges, scrape off as much of the white part as possible and cut in shreds. Take the pulp out of the skin and put pulp, shredded rind, rhubarb and sugar into preserving kettle. Bring slowly to the boiling point. Skim carefully and boil until the jam thickens when a little is tested on a cold saucer. Fill jelly glasses with jam. When cold cover with paraffin and store in a dry, cool place.
- Tomato Salad.**
2 cups canned tomatoes; 3 cloves; 1

REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

A man spends half his struggling to acquire the wisdom of experience—and the other half longing for the lost foolishness of youth!

The old-fashioned "birtation" is a thing of the past. Nowadays, two people plunge into a love-affair as they would plunge into a swimming pool, and never get any practice in playing the delicate little overture that made love such a sweet symphony.

The social uplifters have been so busy trying to save the poor working girl from temptation, that while their backs have been turned, the girl who doesn't have to work has joyously jessed right into them.

COOKING WITH CANNED FRUITS

By using canned fruits in various ways you can make some delightful dishes. Suppose you try this. Drain the syrup from a can of peaches or apricots. Press the fruit through a coarse strainer. While still stiff the whites of two eggs. Cut and fold these into the fruit pulp. Serve heated in high glass dishes and well chilled. Whipped cream or the syrup from the fruit may be used as a sauce.

COMFORTABLE CUSHIONS.

Perhaps one of the latest innovations in the way of down pillows is the saddle bag or chair back. This is an oblong case partially filled with down making a light cushion easily adjusted and thrown over the top of a chair to suit one's comfort. These cushions are shown in all sorts of fascinating coverings.

CHURCHES ARE RIVALLED BY THE TAVERNS

Northern France Busily at Work Rebuilding Devastated Areas.

HOMES TAKE SECOND PLACE FOR PRESENT

The Workmen Must Have Their Inns — Churches Spring up Everywhere.

Both Catholic and Protestant reports from the war-torn districts of Northern France indicate that the two classes of buildings first to appear are taverns and churches. The people get along most any way for homes, but inns must be provided for workmen and religion asserts itself immediately. Money already is being used in liberal ways to provide plans for religious worship, according to the respective faiths. Catholics are putting up again the crucified Christ which dot the landscape throughout much of Switzerland, much of Southern Germany, and which formerly stood at the crossroads in the dioceses of Rheims, Soissons, Lorraine and Verdun. A large Calvary of this description is already up dominating the slopes of the Argonne, and another overlooks the plateau of Orsoy.

Work Must Be Done.

Reports show that organizations there have been reformed, and that congresses of their members already have been held. The cry is that work left undone by those who died in the war must go on. Near Verdun, at the

Priceless Table Is Thrown Away

Restaurant Keeper in Paris Scrape Platform Used by Camille Desmoulins.

(Copyright 1921, By Felicit Lederer.) Paris, April 22.—The latest sensation of Bohemian artistic circles in Paris is the discovery that the new proprietor of the restaurant Procopia, in the street of the Ancien Comte, has checked away as worthless the famous table used as a platform by Camille Desmoulins in exhorting the mob to destroy the Bastille. The restaurant Procopia facing the site of the theatre of Moliere, probably had a more illustrious clientele than any sitting place in the world. It was closed during the war and was re-opened under new management, which apparently either is ignorant or careless of its history and of the treasures within its walls, which still include the table on which Voltaire played checkers and the table frequently used by Napoleon when first consul.

The Desmoulins table was created by the order at the time of the Bastille incident. It was this that probably caused the proprietor to consider it unfit for galloons of today. Any way, it has disappeared, he remembers not how or where.

A lump of camphor kept near all vermin when not in use, will prevent it tarnishing.

Foot of Hill 304, a devastated village had difficulty in locating even its cemetery. Finally, through the aid of some ruins, the location of the parish church was fixed, and near it, in the open air, children born in distant parts since the armistice, were baptized. Some boys dug a bell from the mud, raised it from the ground, and rung it for joy. Not a few vessels used in churches are said to have been made from exploded shells.

His Back Has Not Bothered Him Since

WHY B. WASSON KNOWS DODD'S KIDNEY PILLS ARE GOOD.

New Brunswick Man Is Enthusiastic Over the Remedy That Brought Him Relief—Dodd's Kidney Pills.

Simon Ridge, Victoria Co., N. B., April 22.—(Special.)—"I know Dodd's Kidney Pills are good. These emphatic words come from Mr. B. Wasson, a well-known and highly respected resident here.

"I had an awful lame back," Mr. Wasson continued. "I tried two good doctors and they could do nothing for me. So I tried Dodd's Kidney Pills, and before I had taken three boxes I was as well as ever. My back has not bothered me since. I cannot say too much for Dodd's Kidney Pills.

"Dodd's Kidney Pills are purely a kidney remedy. They strengthen the kidneys and put them in condition to do their full work of straining the impurities, the seeds of disease, out of the blood.

"If you have any of the symptoms of kidney disease ask your neighbors if Dodd's Kidney Pills are not the remedy you are looking for."

HONOR FOR STEFANSSON.

El Paso, Texas, April 22.—Vilhjalmur Stefansson, the Arctic explorer, received here today notice of the award of the founders' medal of the British Royal Geographical Society in recognition of scientific discoveries in the Arctic region. The award carried with it approval of the explorer's report that there is as much aquatic animal life in the Arctic regions as in any other waters, a theory which Mr. Stefansson says the society first ridiculed.

Johany Mitchell says that after a man has helped raise a half dozen of them he realizes that the best way to train children is to let your wife do it for you.

Another Company Is In The Field

In Addition to An Oil Supply Station a Plant for Manufacture May Be Started.

The survey for suitable sites for a fuel oil supply station in St. John is being continued and the Imperial Oil Co. Ltd., has a representative here from Toronto looking over the ground.

In regard to the report presented to committee of the council on Thursday morning, in reference to the petition of the Shell Co. Ltd., the common clerk received yesterday from the board of fire underwriters a signed report, as was asked for by the committee.

Commissioner Bullock states there is a possibility that St. John may have, in addition to a fuel oil station, a plant for the manufacture of gasoline and other by-products. Should developments continue local industrial heads will be brought into the oil question, which at first was confined to shipping interests.

There is considerable favor for a site on Navy Island. Shipping men say that the lighting system is too expensive and that only by means of a pipe line could St. John expect to compete with other ports in the supply of fuel oil. Towage charges in lightering would add too greatly to the fuel cost.

Fondly Did He Hope: Reverently Did He Pray.

You may have heard it, but a Green Line messenger with a balking hip pocket lost his balance and sat down hard when the car hit one of the bumps on Holman street last night. As he recovered himself a look of horror spread over his face. Something wet was trickling down his leg. As he feverishly started an examination he murmured prayerfully, "My God, I hope that's blood."

Hon. Mr. Doherty Shows Where Milk Comes From

Former Resident of St. John Persuades "Bossy" to Educate Torontonians.

It will be remembered that a few weeks ago the former Government of Ontario staged a "use more milk campaign" one of the principal features of which was the milking of a cow by Hon. Manning Doherty, minister of agriculture. The Toronto Saturday night in an article discussing the campaign has the following to say: "Nevertheless, the campaign was truly educational. The promoters, assuming that the teeming thousands of city folk were ignorant of where milk came from, proceeded to show them. They, so to speak, re-discovered the cow. A Holstein queen of the herd—a veritable "gusher" in the matter of milk production—was brought to the Ontario Parliament Buildings, and a reception was arranged for her by the Dairy Government. Then Hon. Manning Doherty, the Minister of Agriculture, proceeded to show where milk came from. Her ladyship was frankly nervous. Mr. Doherty had donned a butcher's apron for the ceremony, and she, poor thing, no doubt imagined that the big edifice in Queen's Park was an abattoir. Though this fear was dispelled, what followed was disquieting, for as a milker, Hon. Manning Doherty's technique is faulty. He lacks the touch of the true artist in the craft of coaxing the lactal fluid from the opulent udder. Despite impressions to the contrary, he was not raised on the farm, though eminent as an agricultural scientist. He is the type of city-reared man who has gone back to the land and made a success of it, but the Holstein celebrity failed to discern in him that rural free-masonry which makes cows almost milk themselves, in response to the caressing touch of the farm-bred expert. No doubt she had also heard

of Mr. Doherty's efforts to promote the Canadian beef industry, and well-regulated cows regard that industry much in the same light as opponents of capital punishment view the gallows. Both cow and demonstrator were glad when the ordeal was over; but a great revelation had resulted.

A waiting world had learned where milk comes from.

Even in Heaven.

Suppose even in Heaven, plumber will stop the roll call long enough to go back to the office and get his wrench.

Tuxis Boys And Trail Rangers

National Athletic Contest Will Be Run off Next Week All Over Dominion.

Next week, across the Dominion, thousands of boys will be competing in the two second National Athletic contests for "Tuxis Boys" and "Trail Rangers."

Last year there were in Canada six thousand, five hundred and forty-eight "Tuxis Boys" and six thousand, six hundred and seventy-seven "Trail Rangers," a total of thirteen thousand, two hundred and twenty-five. This year there are eight thousand, seven hundred and one "Tuxis Boys" and ten thousand one hundred and twenty-two "Trail Rangers," a total of eighteen thousand, eight hundred and twenty-three boys, who will be mightily interested in this National Contest. In St. John ten "Tuxis" Squares and ten "Trail Rangers" camps, as against nine "Tuxis" Squares and three "Trail Rangers" camps last year will compete.

The contest will be run off in the Y. M. C. A. gymnasium, as follows:

Tuesday, April 26, 7.30 p.m.—Low street "Tuxis Boys," St. George's "Tuxis Boys," Fairville "Tuxis Boys."

Wednesday, April 27, 7.30 p.m.—Central "Trail Rangers," Portland "Trail Rangers," St. Mary's "Trail Rangers," St. Bartholomew's "Trail Rangers."

Thursday, April 28, 7.30 p.m.—Portland "Tuxis Boys," Queen Square "Tuxis Boys," German street "Tuxis Boys," Trinity "Tuxis Boys."

Friday, April 29, 8.30 p.m.—Central "Tuxis Boys," Waterloo street "Tuxis Boys," Carleton Methodist "Tuxis Boys."

Saturday, April 30, 1 p.m.—Rothsay "Trail Rangers," German street "Trail Rangers," 7.30 p.m.—Ladlow street "Trail Rangers," Fairville "Trail Rangers," St. David's "Trail Rangers," Waterloo street "Trail Rangers."

Boys taking part should be present at least twenty minutes ahead of the scheduled time, in order to "weigh in."

Events

"Tuxis Boys"—Three potato race, five potato race, running high jump, standing broad jump, eight pound shot put.

"Trail Rangers"—Running high jump, standing broad jump, one potato race, three potato race, four push.

Scoring

The score of three-quarters of the members of the group will be taken; that is if there is a group of eight, the six high scorers will be aggregated and divided by six, the average being the score of the team.

Awards—Dominion Championships

For "Tuxis Boys"—The Gordon Higgin trophy, now held by the Hampton "Tuxis Boys."

For "Trail Rangers"—The Dominion "Trail Rangers" trophy, now held by London, Ontario.

Awards—Provincial Championships

For "Tuxis Boys"—The New Brunswick "Tuxis Boys" shield, now held by Hampton.

For "Trail Rangers"—The New Brunswick "Trail Rangers" shield, now held by Rothesay.

St. John Championships

The Senator Thorne Cup for the St. John "Tuxis Boys" Square scoring the highest, and another cup for the St. John "Trail Rangers" camp scoring the highest.

A great deal of interest is being shown among the St. John groups, and a very determined effort will be made to hold the Dominion Championship in St. John, as well as the Provincial Championships.

Golf Tournament For St. Andrews

It has been announced that a great golf tournament is to be held on the St. Andrews links in the latter part of September, bringing there all the noted stars in golf from Canada, the United States and Europe, and that, for this reason, the Algonquin Hotel will be open until the tournament is finished.

ESTABLISHED A RECORD.

Daytona, Fla., April 22.—I. P. Goodspeed, driving a stock car at Daytona beach today, established a new world's mile automobile record for cars of the stock chassis type. Goodspeed negotiated the distance in 34.24 seconds or at a rate of 106.1 miles an hour. The record was formerly held by Ralph Mulford.

ELOPING GIRL FORGIVEN

Chesler, Pa., April 22.—Undaunted when they were refused a license to marry at Elkton, Md., Milton Watson, employed by a chain grocery concern here and Miss Blanche Bewick, 16 years old, motored to Baltimore, Md., where they secured the license and had the knot tied, according to a message received by Mrs. William Bewick, the bride's mother, today. Later the couple returned to the home of the bride's parents and were forgiven.

SHEDDING DESTROYED BY CAVES

Chesler, Pa., April 22.—The shed recently building owned by Mrs. Mary Watson, in the 1000 block of West Pennsylvania avenue, collapsed this morning as a result of having been struck by operations of the People's Ice Company in June, 1916. Several tons of ice then fell on the shed and the building was destroyed.

Baseball Games With Big Leagues

NATIONAL LEAGUE.

New York 2; Philadelphia 1.

New York, April 22.—Home run, by Smith and Kelly, the latter's fourth of the season, decided a pitcher's duel between Barnes and Gansy here today, New York defeating Philadelphia by a score of 2 to 1 in the 2nd game of the series. Smith's home run tied it in the fifth. Kelly's four base drive won the game in the seventh. The score:

Philadelphia .. 100,000,000—1 6 1
New York .. 000,010,100—2 5 1
Causy and Bruggy; Barnes and Smith.

Brooklyn 4; Boston 2.

Brooklyn, N. Y., April 22.—Brooklyn made it two straight from Boston today, duplicating yesterday's four to two score. After the third inning Mitchell did not allow a hit and only one man reached first, Beekel, walking in the sixth.

Brooklyn rallied twice in the seventh when Griffith's double scored Olson, who had tripled, and Oeschger forced in another run by hitting Konechky with the bases full. The score:

Boston .. 011,000,000—2 6 6
Brooklyn .. 001,000,000—4 7 6
Oeschger and O'Neil; Mitchell and Miller.

Pittsburgh 6; Cincinnati 1.

Pittsburgh, April 22.—Pittsburgh defeated the Cincinnati team today for the fifth time in succession, since the opening of the season. The score was 6 to 1.

Cincinnati .. 000,010,000—1 10 1
Pittsburgh .. 040,002,000—6 10 3
Leque and Wingo; Zinn and Schmidt.

AMERICAN LEAGUE.

Philadelphia 11; New York 4.

Philadelphia, April 22.—Ruth hit his fourth home run of the season today, driving the ball into the last row of the left field bleachers, but Philadelphia outthrew New York and won 11 to 4.

Frank Baker, reinstated by Judge Landis yesterday made his first appearance in an American League game in several years. He batted for Ferguson in the ninth and ran an easy grounder to second base. Score:

New York .. 000,211,000—4 4 3
Philadelphia .. 004,000,700—11 12 1
Hoyt, Ferguson, Schang; Rommel and Perkins.

Cleveland 8; St. Louis 7.

Cleveland, April 22.—Cleveland made it two straight from the St. Louis today by winning 8 to 7. The entire scoring was played in rain, during the last three innings the field being so muddy that the pitchers floundered about in the box and lost their control. Elmer Smith made his third home run of the season. The score:

St. Louis .. 100,000,000—7 17 2
Cleveland .. 000,102,200—8 7 4
Palmer, Durwell and Seaver; Billings, Caldwell, Odenwald, Uhle and O'Neil.

Postpone Games.

Washington-Boston, postponed, rain. Detroit-Chicago, postponed, rain.

INTERNATIONAL LEAGUE.

Syracuse 11; Newark 6.

Newark, N. J., April 22.—Syracuse won its first game of the season today defeating Newark 11 to 6. Bigbee of Newark was wild and his support unsteady. Dodson of the visitors passed four men in the ninth, three of them scoring on a hit and two inflied outs. Score:

Syracuse .. 000,000,100—11 10 1
Newark .. 000,000,300—6 7 4
Dodson and Prediger; Bigbee, Jensen and Smith.

Jersey City 1; Buffalo 0.

Jersey City, N. J., April 22.—A no-hit, no-run game was pitched today by Harry Biemiller of the Jersey City International against Buffalo. The local team won, 1 to 0. Biemiller struck out five men and passed four. McCabe of the visitors yielded eight hits, two of which were responsible for Skeeters lone run. The score:

Buffalo .. 000,000,000—0 0 0
Jersey City .. 000,001,000—1 8 2
McCabe and Bengough; Biemiller and McNell.

Baltimore 13; Toronto 5.

Baltimore, April 22.—Bunching eight of their twelve hits in the first two innings, Baltimore scored twelve runs and had little trouble downing Toronto, the final score being 13 to 5. In the batting box the second inning, Bishop tripled with three on the bases. Ogden, pitching for Baltimore held Toronto to three hits in the first six innings, then let down. Score:

Baltimore .. 070,010,000—13 12 0

Horse Owner Is Ruled Off Track

P. L. Chinn Is Canned and C. N. Freeman Suspended by Maryland Racing Com.

Baltimore, Md., April 22.—By order of the Maryland Racing Commission, one horse owner, J. L. Chinn, is ruled off all tracks under the supervision of the commission and another horse owner, C. N. Freeman, is suspended until December 31, 1921. This action was taken following a meeting of the board today at which counsel for Chinn and Freeman were heard in executive session. Chinn and Freeman had been charged with conspiring to "fix" a race at Bowie, on April 13. As a result of this trouble their entries were barred from the Havre de Grace meeting. The race at Bowie, which started the trouble was won by a horse named Vulcanite.

Salo at public auction of the horses of the two owners is authorized. Chinn owns 11 horses; Freeman six.

Big English Football Game

London, April 22.—In the presence of a representative of the Royal Family, Prince Albert, King George's second son, and probably the record-breaking crowd, the Tottenham Hotspur and Wolverhampton Wanderers will meet today at Stamford bridge grounds in the final game of the Football Association cup, the prize competed for every year by English league soccer teams. The high water mark of attendance at English games is 129,135 people. Tottenham Hotspur have secured in the historic contest on a previous occasion, when they defeated Sheffield United in 1900. The Wolves have got into the final round for the cup four times before and have won twice. The cup games were begun in 1871. The teams will probably be:

Tottenham Hotspur—Hunter, goal; Clay and Grimstead, half-backs; Banks, and McDonald, backs; Smith, Walters, Seed, Cantrell, Bliss, and Dimmock, forwards.

Wolverhampton Wanderers.

George, goal; Baugh and Woodward, backs; Gregory, Hodnett, and Riley, half-backs; Lea, Burrill, Edmonds, Potts, and Brooks, forwards.

Proposed Scottish Football Schedule

Following is the official schedule of the Scottish Football team after it leaves Montreal. Preparatory to this it will play May 21.

OLD PORTLAND Y. M. A. REVIVED

Elected Officers and Will Enter Team in Intermediate Baseball League.

At a well attended meeting in Portland Methodist church last evening the old Portland Y. M. A. was revived. The membership is limited to forty, and thirty-four young men were present last evening all eager to make the association better than ever.

The officers elected were: Roy H. P. Clark, Hon. President, Kenneth Naves, president, W. T. Howard, vice-president, E. M. Langley, secretary, M. McLaughlin, treasurer, G. Logan, manager, track team.

It was decided to have a ball team in the city Intermediate League and a track team to take part in all the leading meets. The colors of the association are red and black, and wrestling, boxing along with other athletics will be taken up.

Another meeting will be held next Friday evening to further arrangements.

Customs Officers Will Not Work For Allies

Commission Taking Active Steps to Compel Germans to Continue at Posts.

Munich, Germany, April 22.—The Inter-Allied Rhine-Rail Commission is meeting difficulties in the application of the new customs regime on the eastern frontier of the occupied territories which became effective yesterday, as a large percentage of the German customs officers have refused to work, while others are opposing by passive resistance.

Refusals to work for the Allies have been particularly numerous in the region of Ludwigshafen and Dusseldorf. The commission is prepared to take energetic measures to put the men to work, the nature of which, however, has not been disclosed.

Arrest Pair Alleged To Be Making Money

Large Number of Counterfeit One and Two Dollar Bills Are Discovered at Ottawa.

Ottawa, April 22.—Two alleged counterfeiters, giving their names as Joe Bodik and Julius Caspowitz, naturalized Poles from Detroit were arrested here today when police officers were called to suppress a fight between the prisoners and two Russian. A large number of counterfeit one and two dollar bills were found in their possession. Later investigation found a printing press at another house in the uptown district.

MAHARG JOINS GOVERNMENT

Montreal, April 22.—Premier Martin announced tonight that J. A. Maharg, M. P. (Maple Creek), president of the Saskatchewan Grain Growers' Association, agreed to accept a portfolio in the Saskatchewan Government and will be sworn in as soon as his seasonal duties at Ottawa will permit.

FEAR WAR WITH STATES

London, April 22.—In the course of discussions on the question of the signing of the Anglo-Japanese treaty in the Australian House of Representatives some of the Labor members were apprehensive that the treaty fight between the prisoners and two Russian. A large number of counterfeit one and two dollar bills were found in their possession. Later investigation found a printing press at another house in the uptown district.

SCOUTS EXTINGUISH FIRE

Bloomerburg, Pa., April 22.—Boy Scouts of Epsy, near here, fought for several hours last night, and finally succeeded in putting out a forest fire that burned more than 100 acres on the mountain across the river from Epsy. The Scouts crossed the river in boats to reach the scene and prevented the fire from burning over a much wider area.

WANTS WAR RECORD COUNTED

Ottawa, April 22.—In the House this afternoon, Joseph Archambault introduced an amendment to the Naturalization Act providing that in the case of any man who has been in Canada and enlisted in any Allied army, his term of war service shall be taken into account in connection with the five years' residential qualification for naturalization.

Empress of France Sails For Liverpool

Left Near Midnight With 100 First, 170 Second and 625 Third Class Passengers.

The C. P. O. S. Empress of France sailed for Liverpool last night about 11.30 o'clock with 100 first, 170 second, and 625 third class passengers. Several prominent people are on board including Hon. W. E. Foster, accompanied by Mrs. Foster, who are on a two month's trip to England and France. While in England Premier Foster will look into the details of the immigration situation, and New Brunswick's representative in London, R. H. Noble, general inspector of the head office of the Royal Bank of Canada and W. M. Wilson, superintendent of branches, also sailed last night. Others on board include John Villiers Barrett-Lennard of the Star, Whyte theatrical company and his bride, who was Miss Mona Warren, of Victoria, B. C. Mrs. M. Carrick and Misses W. and Eva Carrick of St. John; Mrs. Stanley Crace, of Halifax; Mr. and Mrs. J. L. Hetherington, of Halifax; Lieut. Col. J. H. Roy, of Ottawa; Mr. and Mrs. G. O. Baggett, of Halifax; Mr. Bryant of St. John; Mr. and Mrs. J. B. Leonard of St. John; Mrs. L. E. McIntosh, accompanied by her son, of Halifax; Mr. and Mrs. A. B. Leonard, of St. John; Wm. C. McKee, of Moncton and Mrs. Annie Zwicker, and Master Chas. H. Zwicker, of Halifax; S. J. B. Rolland, Quebec, and wife and daughter, Dr. and Mrs. Chas. W. Hoare of Walkerville; Mrs. Helen A. Macdonald, St. John; C. N. Emery, of Walkerville.

Former St. John Policeman Dead

Patrick Connolly, Born Here Sixty Years Ago, a Victim of Blood Poisoning.

Special to The Standard.

Moncton, April 22.—Patrick Connolly, a well known boiler maker in the C. N. R. shops here, died today at his home after a week's illness of blood poisoning. He was born at Portland, St. John, and came to Moncton about 21 years ago to work for the I. C. R. He was a member of the St. John police force, and in his younger days was an all-around athlete of considerable note. He was about sixty years of age and is survived by one son, Frank, Moncton. The remains will be taken to St. John for burial.

STORM IS COMING

Washington, April 22.—The weather bureau announced tonight that an advisory southwest storm warning was displayed from Cape Hatteras to New London, Conn., and a southeast storm warning from Point Judith, R. I., to Portland, Me. A storm of marked intensity, it said, central over Lake Michigan will move northeastward attended by increasing southeast and south winds, probably reaching Gale force and shifting to west Saturday.

HIGHWAY BILL UP

Halifax, N. S., April 22.—The bill to borrow \$350,000 as a provincial loan for highway purposes came up for second reading in the House of Assembly today. In answer to a question of W. H. Corning, Yarmouth, Hon. E. H. Armstrong said that the money was for the purpose of clearing up the maintenance accounts of the highways board in order to give the new board as clean a sheet as possible. The bill was sent to the committee on law amendments.

Talked Interestingly On Child Welfare

Dr. Helen McMurphy Addressed Women's Canadian Club on Timely Subject.

Dr. Helen McMurphy, of the department of health, Ottawa, addressed a well attended meeting of the Women's Canadian Club in the Germaln street Baptist Institute last evening, on Child Welfare. The doctor stressed the importance of the child to the nation; it was, she said, its greatest asset, and pointed out the importance of proper nursing for the expectant mother and of the equal care and attention required by both mother and babe after birth had taken place. The proper feeding of infants, hygiene and baby clinics, were pointed aids to a decrease in infant mortality and the saving to the nation, of what was better than emigrants from other lands, poor own native born. She urged co-operation with Child Welfare Workers and the health authorities, and the whole-hearted support of the Women's Canadian Club in the Health Week about to be inaugurated.

Mrs. Laura T. Tilley, president of the club, was in the chair, and extended the thanks of the meeting to the speaker at the close of her able address.

Take Fines From Mounted Police

Hon. Mr. Calder Declares Giving Fines to Officers Does Not Aid Force.

Ottawa, April 22.—The House took up tonight the second reading of amendments to the Royal Canadian Mounted Police Act in respect to payment of portions of fines to members of the force. Hon. J. A. Calder stated it was not considered to be in the best interests of the force that the present system should continue. It did not make for the upbuilding of the morale of the force. A mounted policeman should do his duty without looking ahead to receiving a portion of the fine.

A. K. MacLean (Halifax), did not understand the difference between paying the individual policemen a portion of the fines and paying the money into a fund for the general use of the force. Hon. W. S. Fielding thought the amendment, practically amounted to a reduction in pay. The mounted police bill was put through committee and given a third reading.

ATHLETE IS DEAD

Hamilton, Ont., April 22.—Wm. J. Wark, a noted amateur of this city, is dead at his home on Hamilton Beach. Mr. Wark was a member of the famous Nautilus four-oared crew, of this city, which in the eighties won the championship of Canada and also of America.

Nothing to equal MINARD'S KING OF PAIN FOR Sprains & Bruises

THE first thing to do when you have an injury is to apply Minard's King of Pain. It is a scientific, soothing, healing and effective remedy.

CHARACTER TRAITS OF THE LEADERS

Sketches of Those Who Are Directing Destiny of British Industrial Workers.

SOME CURIOUS CONTRADICTIONS

High Intellectual and Economic Attainments Manifested by Some.

London, April 22.—Near little sketches of some of the labor leaders are drawn by M. Thompson, the well-known labor correspondent in the States contributed to the Daily Mail.

Herbert Smith, president of the Miners' Federation, is totally different. He is busy and graft, talks broad Yorkshire and still wears the cap of his mining days.

Smith suggested his daughter to walk on, deposited his prayerbook on the ground, stroked of his coat and with characteristic scorn of superstitious argument, invited his critic to follow his example.

No School Education.

James Henry Thomas, M. P., political secretary of the National Union of Railwaymen, started his career 47 years ago as an orphan boy at the age of 7.

Appearances Deceitful.

C. T. Cramp, industrial secretary of the railwaymen, was formerly a passenger guard on the railway, and I should imagine his genial smiling urbanity in that capacity must have won him at least the offer of a huge surcease of time from first-class passengers.

USE SLOAN TO WARD OFF PAIN

You can just tell by its healthy, stimulating odor, that it is going to do you good.

If I only had some Sloan's Liniment! How often you've said that! And then when the rheumatic twinges subside—after hours of suffering—you forget it!

Sloan's Liniment (Pain Expeller) is a most curious and characteristic contradiction.

How Rheumatism Can Be Overcome

Not by Rubbing, But by Enriching the Blood.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints.

Dr. Williams' Pink Pills for Pale People is the only medicine that can be taken without any special diet or other restrictions.

FACTS FROM FOREIGN LANDS.

The Tartarian alphabet has 292 letters.

The Polish alphabet contains 65 letters.

The Finnish language has no prepositions.

There are 214 letters in the Chinese alphabet.

The blacks of Africa speak 645 languages and dialects.

About one-third of the population of the world speaks Chinese or its allied dialects.

The Japanese have two alphabets; Katakana, for the use of men, and Hiragana, for the use of women.

The Caribs have two distinct vocabularies—one used by men and the other by women when speaking to each other and by men repeating the words of women.

STABBED HIMSELF FATALLY

Montreal, April 21.—Stabbing himself in the region of the heart and then cutting his throat with a bread knife in the presence of his aged mother, Pierre Peroux, 36, of 333 Droile street, fatally injured himself yesterday, dying subsequently in the Hotel Dieu Hospital.

James Winstone was one of the party of union leaders whom I escorted during the way over the battlefields of the Somme. He had a son in the thick of the fight, and his chief care was to seek him out, but all the soldiers from South Wales were loyal to his capacious and catholic sympathy.

The mixture of dreamy idealism and bitterness presents in most labor extremists a most curious and characteristic contradiction.

TUXIS BOYS AND TRAIL RANGERS

Every Tuxis and Trail Ranger boy in Canada, who has anything of a sporting inclination in him is anxious to look forward to the National Athletic Meet to be held commencing April 25th.

ART IN AMERICA HIGHLY PRAISED BY A VISITOR

"Incredible Progress Made," Says Benedite, of Luxembourg Museum, After Visit.

NO LONGER NEED RELY ON EUROPE

Greatest Strides in Sculpture and Architecture—Impressionists Ahead of France.

Paris, April 22.—M. Benedite, curator of the Luxembourg Museum, who has just returned from a tour of American art galleries and universities, said in an interview today:

JOHN DOUGHTY SENTENCE

Toronto, April 22.—John Doughty, who was convicted some time ago of stealing \$105,000 of Victory bonds, the property of Ambrose J. Small, mining industrial magnate, but whose sentence was deferred pending an appeal, on his behalf for a new trial, will come before County Judge Denton for sentence next Monday.

REV. DR. MALEY DEAD

New York, April 22.—The Rev. Dr. A. W. Haley, 62, secretary of the Board of Foreign Relations of the Presbyterian Church since 1899, died at his home here last night. He was born at Elizabeth, N. J.

It's a woman's world, and let me tell you my simple method of home treatment, and you can try it on your own or on your children. It's a woman's world, and let me tell you my simple method of home treatment, and you can try it on your own or on your children.

The car is owned by the Packard Twin Six Auto Leasing Company of 124 West Fifth street, and Hilgrees acted as passengers. Mrs. Mary J. Hirsch of 570 Madison street, her sister, Mrs. Linder, and Miss Linder, the brougham, driven by Halloran, is owned by Anthony Stewart of 694 Lexington street.

Help Beneath the Soil

FIELD CROPS COMPETITION FOR YEAR

Wheat, Oats, Potatoes, Clover, etc. The Crops.

CONDITIONS WHICH GOVERN CONTEST

Several Will be of Distinctive Combining Field Inspection.

Field Crops Competitions conducted in the Province of Ontario during the season of 1921 will be held at the following crops: Wheat, Oats and Clover.

These competitions are for the sole purpose of the growing of good seed, and do not plan to save the surplus, or who do not plan to save the surplus, or who do not plan to save the surplus.

In accordance with the Field Seed Division, the competitions will be nature-determined field inspections, far which there will be fifteen entries in any crop in a county to constitute a contest. Prizes will be given to the best seed, and to the standing seed, fifty per cent. on the seed.

FIELD CROPS COMPETITIONS FOR YEAR 1921

Wheat, Oats, Potatoes and Clover Are the Crops.

CONDITIONS WHICH GOVERN CONTESTS

Several Will be of Dual Nature Combining Field and Bin Inspectors.

Field Crops Competitions will be conducted in the Province of New Brunswick during the season 1921, on the following crops: Wheat, oats, potatoes and clover.

These competitions are conducted for the sole purpose of encouraging the growing of good seed, and incidentally better crops. Farmers who do not plan to use their own seed supply, or who do not plan to participate in competitions, of this kind.

In accordance with the wishes of the Federal Seed Division, a number of the competitions will be of a dual nature—combining field and bin inspection, for which there must be at least fifteen entries in any particular crop in a county to constitute a competition.

Prizes will be based on the average yield of the crop, and on the quality of the seed, as determined by the judges on the premises of the competitor on or before December 1st following harvest, and before March 1st, 1922.

The minimum quantity of cleaned seed that competitors must be prepared to submit to the judges on their premises in the bin inspection area is—100 bushels.

Wheat—any named variety, 3 acres. Ten prizes: 1st, \$10.00; 2nd, \$8.00; 3rd, \$6.00; 4th, \$4.00; 5th, \$2.00; 6th, \$1.00; 7th, 50¢; 8th, 25¢; 9th, 12¢; 10th, 6¢.

Oats, any named variety, 2 acres. Ten prizes: 1st, \$10.00; 2nd, \$8.00; 3rd, \$6.00; 4th, \$4.00; 5th, \$2.00; 6th, \$1.00; 7th, 50¢; 8th, 25¢; 9th, 12¢; 10th, 6¢.

Potatoes, Green Mountain type or Irish Cobbler type, 2 acres of either type. Competition in each of these two Westernmost Counties, from which fifteen entries are received, ten prizes: 1st, \$10.00; 2nd, \$8.00; 3rd, \$6.00; 4th, \$4.00; 5th, \$2.00; 6th, \$1.00; 7th, 50¢; 8th, 25¢; 9th, 12¢; 10th, 6¢.

Clover, 1 acre. Ten prizes: 1st, \$10.00; 2nd, \$8.00; 3rd, \$6.00; 4th, \$4.00; 5th, \$2.00; 6th, \$1.00; 7th, 50¢; 8th, 25¢; 9th, 12¢; 10th, 6¢.

General Rules. 1. The variety must be named and source of seed designated when making entry.

2. Entry fee of twenty-five cents per crop will be charged.

3. Entries will not be received for more than one variety of wheat or oats from one farm.

4. Entries accompanied by the stipulated entry fee will be lodged with the Secretary of Agricultural Society, located in the appropriate district, before July 15th, 1921.

5. The Secretary of each Agricultural Society will forward all entries on behalf of fees thus received to the Superintendent of Agriculture, Fredericton, N. B., on or before July 31st, 1921.

6. Entries not lodged with the Superintendent of Agriculture before July 31st will not be accepted.

7. Entries not accepted will not be returned.

8. Entries not accepted will not be returned.

9. Entries not accepted will not be returned.

10. Entries not accepted will not be returned.

Castrate And Dock Your Lambs

There is no better indication of lack of proper shearing than the failure to castrate lambs. No matter how good a feeder and caretaker otherwise a man may be, he is a failure as a shepherd if he neglects these important duties. It is a plain fact that lambs which are castrated and docked are less apt to be lost than those which are not. Contentment and quietness are essential in a flock. The buyer goes to the registered flock only when forced to become properly handled flocks are good ones in the spring of year, fear of fatalities, lack of education or just carelessness on the part of the shepherd it is difficult to state, but the fact remains that in a good mixed flock of sheep, castration and docking are less apt to be lost than those which are not. These two important tasks. The sheepman will find very little employment that will compensate him better than castrating and docking. The operations are simple and easy to learn and can be done by anyone. The sheepman will find very little employment that will compensate him better than castrating and docking. The operations are simple and easy to learn and can be done by anyone.

The best age to castrate is about two weeks. A sharp knife should be used and with it the lower third of the scrotum cut off. Then sever the outer immediate covering of each testicle and draw them out with a pair of forceps, cutting the scrotum with a sharp knife. Wash the opening with a disinfectant solution. Some operators do not sever the bottom part of the scrotum but this is advisable and allows good drainage. Other successful methods followed are to cut the scrotum with a pair of forceps, close up the body, or the emasculator may be used.

It pays the sheep owner to have his lambs castrated. Wether lambs sell at a premium above ram lambs. They make better gain as they are more restful. They do not waste the owner's feed and are less apt to be lost than those which are not. They are also more profitable, whereas it is not possible to do this with any number of ram lambs. If the buck lambs are not castrated the danger exists of having the best ewes bred with a sharp knife or chisel. A good plan is to use a long-handled, red-hot chisel and seal the tail at the same time as it is cut. This is a sanitary method but assists in controlling bleeding. The proper age for castration is about two weeks, but may be done at once. As each sex for males and two-inch for females looks well. Half-tailed lambs are almost as unprofitable as docked lambs.

Docking should not be neglected. The tail tends to collect manure and is frequently the cause of maggots locating on the hips and rumps of lambs. Occasionally the mature ewes and stops the action of the bowels. Docking improves the compact appearance of the lambs and is a sign of good management. Docking conserves the strength of the ewe by facilitating the breeding of the ewe.

Europe Lost Live Stock During War

Who Are Interested in Live Stock Industry.

In the "Agricultural Gazette," the official organ of the Dominion Department of Agriculture, Mr. T. K. Deane, M. P., has written an interesting article on the world-wide loss of live stock during the war. He states that the world-wide loss of live stock during the war is estimated at 1,129,000 head, or at the rate of 1.129,000 head per cent over pre-war figures. Portugal shows a small increase and Germany an increase of 1,108,000 head. Denmark shows a decrease of 1,108,000 head, and France 2,953,000 head, while Germany's drop in hog stock was by the enormous total of 11,200,000.

Amended Bill For Protection of Sheep

1. Section 5 of Chapter 97 of the Consolidated Statutes, 1906, Respecting Protection of Sheep, from Dogs, is amended by section 5 of Chapter 25 of 3 George V. (1917) is hereby amended by adding thereto the following to be sub-section (3) thereof:

2. Whenever this statute is collected under this Chapter are more than six dogs in any one place, the Municipal Council may appropriate so much of the balance as they may deem advisable for other County purposes; provided, however, that in case a sufficient amount is not collected in any one year to satisfy the damage claim the Municipality shall supplement out of its general funds to the extent of the amount appropriated under the sub-section from the dog tax fund for other County purposes.

Amended copy from the statute industrial department 4th about 20¢ per square kilometer.

7. A prize will not be awarded on any crop that does not average 25 points or more than 100 points.

8. In the case of a dual competition, field and bin inspection, the winning entry will be given in any case in which the field inspection does not show a score of 85 points or over.

9. Dual Competitions are conducted in counties where there is possibility of competition between seed-producing centres. The plan worked successfully in Westmorland County in 1917, with a considerable quantity of grain was graded and sold for seed purposes at a premium over the market price.

10. Entries not accepted will not be returned.

11. Entries not accepted will not be returned.

12. Entries not accepted will not be returned.

CULTIVATION OF ORCHARDS IS DESIRABLE

Earlier Land is Broken up Better it is for the Growing Trees.

SHALLOW PLOWING FOUND THE BEST After Middle of June Clover Crop Should be Sown for Fall.

(Experimental Farms Note.)

It is a well known fact that growth in the orchard tree is made during the months of June and July after which the growth will out and ripens. It is also known that early cultivation stimulates growth. The loosening up of the earth aids in the warming of the soil and makes it possible for soil organisms which liberate plant food to become active earlier. Air will penetrate better and these organisms will become active to a greater depth than in the case of a heavy soil. Hence the importance of early spring cultivation to furnish suitable soil conditions for the tree and the organisms upon which the tree is dependent for the liberation of plant food.

Uncultivated areas may be made suitable for the tree by employing nitrogen in an available form early through the use of Nitrate of Soda and by using a mulch to conserve moisture, but on the whole the practice most suitable for general orchard areas is early cultivation followed by frequent cultivation at intervals of two or three weeks from the middle of June or July up to the middle of August.

The first cultivation may be shallow plowing, or a five inch deep, after which surface cultivation with the disc and smoothing harrow to maintain a surface mulch of fine earth. Shallow cultivation prevents the formation of a surface crust; thus checking excessive evaporation of moisture and aiding in the retention of a proper moisture supply for the tree later in the season. As soon as the soil is satisfactory at picking time, the tree should be cultivated.

After the middle of June a cover crop should be seeded to occupy the ground during the fall; take up excess plant food, and develop humus for the following spring. The common vetch seeded at the rate of 1 1/4 bushels per acre is the best cover crop. This plant can extract nitrogen from the air and increase the store of nitrogen in the soil. It is a very vigorous growth on most soils but will do better if the soil is limed. It is a crop fairly easily turned in and its cultivation at the base of the tree looks better if kept well cultivated. The cover crop may be plowed under in the fall or in the spring, but the usual practice is to fall plow and work with the disc harrow in the spring which is considered the best method.

The cover crop should be plowed under in the fall or in the spring, but the usual practice is to fall plow and work with the disc harrow in the spring which is considered the best method.

It is usually better to leave this space untouched and keep the grass cut to give a neat appearance.

With the earliest season in many years as an excuse, many corn growers will doubtless start their planting of the 1921 crop well before the generally accepted date, May 24th, in most parts of Ontario, while growers of sweet corn for market purposes will very likely take a chance on planting in early sorts well before April 1st.

Testing seed at this late date will therefore not be of much help if the idea is to secure new supplies of those who have a little of it in their hands, but the test is worth making, even now, with a view to determining how heavy the planting will have to be in order to ensure a good stand.

The rag doll tester, which can be used to good advantage in testing seed corn consists of a piece of cloth from 12 to 15 inches wide and of any convenient length—6 to 23 feet. This should be made into a bundle and the ears numbered. The samples from each ear of corn are placed on these and tied in a bundle, special care being taken that the seeds do not mix. The bundle is soaked in water a few minutes and then set on end in a wall or other vessel which is at least as deep as the width of the cloth. Then add one-half inch to one inch of water. The rolls must be inverted twice a day. The whole should be covered with a cloth so as to prevent too much evaporation. This is then put in a place with a temperature of 70 to 80 degrees. Too high temperature is as good as too low. A germination count should be made after five or six days.

Whoever makes two ears of corn or two blades of grass to grow where only one grew before, deserves better of mankind and the happiness of people. Exportation represents the superabundance and the good use of both.

Canada Should Keep Her Wartime Lead

In 1918 Canada supplied Great Britain with nearly twice as much bacon as Denmark did. This is a great change since the pre-war year of 1913, when Denmark sent into Great Britain over eleven times the Canadian total.

The fact that our product has made marked advance in popularity in the most discriminating and constant of the overseas markets cannot be too widely known in the Dominion. Figures which confirm the growth of our export trade in bacon, year by year, are given in the report from Manchester by Canadian Trade Commissioner, J. H. Ray. They tell the story with an almost plainness. His reports British bacon imports to have been as follows:

Table showing bacon imports in hundredweights for 1913, 1915, 1917, 1918, 1919, and 1920. Includes data for Canada, Denmark, and United States.

The Commissioner writing at the end of February adds:— "That there will be a bigger demand than in pre-war days for supplies of bacon cured abroad there can be no doubt. The stock of live pigs held in the United Kingdom, as everyone knows, is very low."

Hog producers in Canada have effectively "thrown the hat into the ring." They must be prepared to meet the good challenge to the "ring" in our principal export market. If they do so by intelligently raising the type of hog which can successfully place the required class of lean-and-fat bacon on the English market, against competitors in the undertaking. The opportunity for expansion is obvious for the tables show that even in our record year of 1919 we only furnished about one-third of the bacon imported into Great Britain.

On the 26-acre field used in this experiment sufficient pasturage was produced to furnish an average of 506 days' grazing on each acre for a season of 250 days, or 200 sheep for a 200-day period. This pasturage is much more than could be obtained from perennial grass on land of the character and value of that used in the experiment, the department also specialists say, but not more than can be obtained from the best bluegrass pastures. Good land used for such a succession of temporary pastures should produce from 50 to 100 per cent more than was obtained in this instance.

All the crops used in the experiment stimulated a good flow of milk in the ewes, produced good growth in the lambs, and, after weaning, put the ewes in good condition for fall breeding. In calculating how far the feed actually produced would go, for a lamb at one-fourth as much as a sheep until July 1, and after that one-third as much.

Of the crops used, only soy beans and cowpeas are unfamiliar to the average Canadian farmer. The rest can be depended on to yield as satisfactorily here as in almost any section of the United States.

It is wise to plan for a new plantation every year, as it is difficult to keep weeds under control the second year without much hand weeding. It will be found that the Senator Dunlap is one of the best varieties to plant. Blossoms are likely to develop on the spring set plants and these should be removed to throw all energy into the development of runners as early as possible.

STRAWBERRY PLANTATION IS IMPORTANT

Ground Should be Thoroughly Prepared by Plow and Harrow.

CLOSE PLANTING NOT ADVISABLE

Should be Set Out as Early in the Spring as Possible.

(Experimental Farms Note.)

Whatever else is neglected, one should not fail to start a strawberry plantation during the spring. Any fairly dry area will grow strawberries. The ground should be one on which water will not stand during the winter to form ice.

Manure at the rate of ten to fifteen tons per acre may be applied and should not fail to start a strawberry plantation during the spring. Any fairly dry area will grow strawberries. The ground should be one on which water will not stand during the winter to form ice.

Amount of Fertilizer To Use in Garden

Table Showing How Much is Needed for Best Results from Given Area.

The amount of fertilizer to add to various garden areas is recommended as follows:—

On sandy soil, 15 lb. of 16 lb. fertilizer, 15 lb. of 20 lb. fertilizer, 15 lb. of 25 lb. fertilizer, 15 lb. of 30 lb. fertilizer, 15 lb. of 35 lb. fertilizer, 15 lb. of 40 lb. fertilizer, 15 lb. of 45 lb. fertilizer, 15 lb. of 50 lb. fertilizer, 15 lb. of 55 lb. fertilizer, 15 lb. of 60 lb. fertilizer, 15 lb. of 65 lb. fertilizer, 15 lb. of 70 lb. fertilizer, 15 lb. of 75 lb. fertilizer, 15 lb. of 80 lb. fertilizer, 15 lb. of 85 lb. fertilizer, 15 lb. of 90 lb. fertilizer, 15 lb. of 95 lb. fertilizer, 15 lb. of 100 lb. fertilizer, 15 lb. of 105 lb. fertilizer, 15 lb.

THE STANDARD'S FINANCIAL SECTION

EASIER MONEY BETTER TRADE RAISES PRICES

Wall Street Securities Advance from Two to Five Points During Day.

PREDICT END OF COAL TROUBLES

Rails Slow to Stir But Made Good Gain in Closing Hours.

New York, April 22.—On dealings approximating the largest turnover of any session, so far this year, the stock market today moved forward in an impressive manner, numerous issues sharing in the extreme gain of 2 to 5 points.

Factors which contributed in varying degree to the advance include easier money tendencies, more favorable trade prospects, and cables from London which seemed to justify hope of an early and satisfactory outcome of the British coal strike.

Much of the day's advance was accomplished at the expense of an extensive and over-confident short interest, but no part of the movement was credited to cumulative buying for the long account including out of town demand.

Variety of Dealings.

Dealings comprehended an unusual variety of popular issues, although less prominent and accorded the most substantial gains. Outstanding features of these groups comprised Standard Oil, General Asphalt and Mexican Petroleum, Crucible and United States Steels and several of the popular equipments also evinced unwonted activity.

Rails held back until the last half of the session, when they were brought forward with many of the dominant specialties. Profit-taking proved a strong temptation in the final hour, reactions of 1 to 2 1/2 points resulting from selling of that character, together with a sudden rise in call money from six to six and a half per cent. Sales amounted to 1,125,000 shares.

Dealings in foreign exchanges were comparatively light in comparison with yesterday's activities. Germany's last mediation plea was without visible influence on rates to London and continental points, aside from recovery in market.

In the bond market all Liberty issues strengthened and local utilities also improved. Success of the Good year offering was regarded as indicating a better investment inquiry. Total sales, (par value) aggregated \$9,176,000.

May And July Wheat Advances Sharply In Winnipeg Pit

Tight Situation of the May Contracts Responsible for Movement.

Winnipeg, April 22.—The local wheat market today again showed a strong advance, especially for May and at the close a gain of 6 1/4 was registered for May and 1 1/4 for July. The tight situation in the May contract is responsible for the strength. The July future is not displaying the same strength, thus increasing the already big premium between the two positions.

After the slightly lower opening, May wheat commenced quickly to advance, reaching a high of 1.66 on short coverings. From this high point there was only fractional reaction. Pit offerings were very light. The cash situation was showing an earlier tendency and premiums with offerings fairly heavy, and the expert demand less urgent, broke four cents early in the session. Later a two cent gain was recorded.

CHICAGO

Chicago, April 22.—Close: Wheat, May, 1.30 1/2; July, 1.06 1/2. Corn, May, 60 1/2; July, 63 1/4. Oats, May, 38 1/2; July, 39 3/8. Pork, May, 15.50; July, 16.00. Lard, May, 9.30; July, 10.25; Rib, May, 9.12; July, 9.45.

IN THE PUBLIC EYE

ZEPHIR HERBERT.

Zephir Hebert, who has just been elected to the board of directors of Loew's Montreal Theatre, Limited, is head of the wholesale grocery firm of Hudson, Hebert and Company, Limited, and a director of the Montreal City and District Savings Bank. Mr. Hebert was president of the Montreal Board of Trade in 1917, being the first French-Canadian to be thus honored. He is prominent in charitable organizations and governor of several hospitals.

MEN AND BUSINESS

(By Richard Spillane)

If the individual expressions of a score or more of railroad workers on lines entering this city can be taken as indicating the attitude of the whole body, this is how labor stands on the wage question.

It is recognized there must and will be a cut. In the negotiations the employer's representatives will not contest a reduction if it is limited to 10 per cent.

Labor may threaten or, in some instances, strike if the executives are arbitrary, but labor appreciates that conditions are most unfavorable for success in such an appeal to force.

There are those who insist on slashing right and left and that it will amount to an average of 20, 23 1/2 or 25 per cent. reduction.

The majority of railroad men are bitter in what they say of the shortmen. If it were not for the extreme to which shophmen have gone in their rules, they say, there would not be such a demand for the "criticism" which railroad men have been subjected.

It is practically impossible to tell with accuracy what a 10 per cent reduction would amount to now. The railway wage bill of 1920 was \$3,735,816,188. Today, however, there are perhaps 400,000 fewer persons on the payroll than at this time last year.

That, of course, represents a proportionate curtailment in the bill. The roads are down now where it is almost impossible to reduce the number of employees further.

A 20 per cent. or 25 per cent. reduction in wages today or in July would not be on the \$3,735,816,188 figure, but possibly on a sum nearly \$500,000,000 below that total. And it is doubtful if the railroad force will be so big at any time in the next three or five years as when the roads were relinquished by the Government.

Rome Celebrates 2674th Birthday

Rome, April 22.—Rome yesterday celebrated her 2674th birthday, or anniversary of her foundation, and the city was gay with tunting. The most important feature was a gathering of all the extreme nationalists, known as fascists, in the province, who came to Rome to listen to addresses by Senator Rava, the Mayor of Rome, and other prominent officials. Amid great enthusiasm, five hours of speeches were made. The speeches were distributed to the Fascist, while the historic bell in the capitol was rung. There were great numbers of peasants from the surrounding country among the Fascist. Later in the day it was celebrated with concerts, parades, banquets and lectures and the giving of prizes to school children.

GERMANS ATTACK TOURISTS

Berlin, April 21.—James R. Tobin and his wife, residents of Chicago, were attacked by a crowd of German men, women and children, Tuesday, when they met in the terrace of Sans Souci Park, following the funeral of former Emperor Augustus Victoria. They were subjected for French people to a "lynching".
The day was cold and dreary, in fact—no sun and heavy German bands were in full view.

Asbestos Take Big Fall At Montreal; Riordon Fell Five

No Cause Assigned for Break But Due Probably to Unsettled Markets.

Montreal, April 22.—A severe decline in the asbestos issues and a substantial rise in Toronto Railway were the features of today's trading on the local exchange. Asbestos common, 45 which only 45 shares went through, sold at 64, a decline of 7.54 points while the preferred sold at 80, a drop of 8 1/2 points. No cause was assigned for the break in the price save the general feeling of uncertainty in the market and the lack of public support.

Toronto Railway was run up to 71 3/4 with closing bid of 71 1/4. The utilities generally were strong with Winnipeg Railway up a fraction. Bell Telephone a point, Quebec Railway a fraction and Detroit and Power unchanged. In the papers Riordon was again weak, opening at 43 and closing at 35. The rest of the group was not prominent with mostly fractional up or down turns. Weaker issues took in Dominion Bridge down a point. Total sales, listed, 9,253; bonds \$212,610.

THE WEATHER

Ypres, April 23.—The weather disturbance has moved very slowly north and east and is now centered in Wisconsin. Rain has been general in Ontario, while in Quebec and the Maritime Provinces the weather has been fair. In the West Coast Province it has been mild with scattered showers.

Table with weather forecasts for various locations including St. John, Ypsilanti, Edmonton, Bathurst, Prince Albert, Medicine Hat, Moose Jaw, Saskatoon, Winnipeg, London, Toronto, Ottawa, Montreal, Quebec, and Halifax.

AROUND THE CITY

Those who attend Canterbury church agree it is a helpful place to worship.

ST. GEORGE'S DAY Citizens are asked to fly their flags today, St. George's Day, England's Day.

HIS 80TH BIRTHDAY Isaac J. Olive, ex-Governor Inspector of Halls was congratulated yesterday on his 80th birthday.

MAD HAND INJURED Yesterday morning Harry Dunham, a longshoreman, cut his hand on a piece of loose tin while handling a trunk at No. 6 shed, Sand Point. He was able to return to his work after being treated at the Emergency Hospital.

MARITIME BAPTIST The position of editor of the Maritime Baptist, made vacant recently by the lamented death of Rev. R. J. Oullette, is still unfilled. Rev. S. S. Poole, pastor of German street Baptist church, is the acting editor.

JUVENILES ARRESTED Two juveniles were arrested last evening on the charge of stealing a bicycle from in front of the Bank of Montreal on King street. Three other boys were arrested on Thursday for stealing wheels.

BANK CHANGES A. A. Forrester, coming from Miramichi, Ont., to take the place of John M. Bates, manager of the branch Bank of Nova Scotia, on Paradise row, who retires to go into the automobile business. Mr. Forrester is a Chatham, N. B. man.

CONTINUED TEST The motor fire engine and the new motor ladder truck purchased by the city during the winter will be made this afternoon between two and three o'clock at the foot of Hanover street. A line of hose from the pumping engine will be taken up the extended ladder and its qualities as a water tower will be tried out.

STOLE FOR HIS FAMILY Forden Weaver was arrested in Halifax for stealing and gave as an excuse that he could not read or write, had been out of employment for a long time and stole articles to procure food for his wife and child. Detective Reyno visited the residence of his prisoner Thursday evening and saw the wife and six months' old child. The woman said that up to that evening she had not eaten the whole day, and if starvation must follow.

THE PROBATE COURT In the estate of Mrs. Anna M. Ferguson, probated at Chicago, Ill., an auxiliary probate has been granted, and the executor's account has been allowed to the Royal Trust Co. The estate was probated at \$48,000 personally and is left in trust for deceased's daughter, Mrs. Frances Ritchie, Dr. Fred K. Taylor, K.C., was probated. In the estate of Mrs. Catherine Burns, letters of administration have been granted to Mrs. Mary E. Purcell. The estate was probated at \$600 really. Roy A. Davidson was probated.

FUTTING NORTH END GROUNDS IN SHAPE

North End Improvement League Making Plans for Summer Season.

An executive meeting of the North End Improvement League was held last night in the office of the Blue Ribbon Borough Council, Main street, with the President, C. F. Stevens, in the chair. Plans for putting the North End playgrounds in shape were discussed, and work will be commenced immediately in laying out a baseball diamond.

It was decided to incorporate and the lease from the city is expected by the league in a few days. A meeting will be held in the assembly room of Dufferin School next Friday evening, when all citizens are invited to be present. The executives were very enthusiastic last evening over the prospects for the coming season, and intend to make this year the best in history of the organization.

Dr. Helen MacDonnell arrived from Toronto yesterday and is the guest of Mrs. MacDonnell and Mrs. McKenna.

Ypres Anniversary Was Commemorated

Members of First Canadian Contingent Banquetted at Armouries.

The sixth anniversary of the second battle of Ypres was fittingly commemorated by the thirty-four St. John members of the First Canadian Contingent who banquetted at the Armouries last night. Lieut.-Colonel Murray MacLellan presided at the banquet board, and General MacDonnell, officer commanding New Brunswick M. D. 7, Lieut. Michael O'Leary, the first Canadian M. D. 7 winner; His Worship Mayor Schofield and R. McMillan, secretary of the Commercial Club were the honored guests of the distinguished company.

A most enjoyable and tasty banquet was prepared and served by the Fundy Chapter of the I.O.G.E., who had decorated the tables with roses as a tribute to the red patch of the First Division, and had also placed a bowl of red poppies in a prominent place in eloquent tribute to those unsexed soldiers who though sleeping in Flanders Fields, were yet present in spirit with their former comrades.

Sir Arthur Currie Following the toast to the King, which was responded to, with musical honors, the chairman read a telegram from Sir Arthur Currie, former commander of the First Division, and later the whole Canadian force. "We are all with you tonight and for the future," and also a letter from the Fundy Chapter, I.O.G.E., setting forth the privilege they considered theirs in assisting to commemorate the battle of Ypres and the glorious memory of the First Canadian Division.

Brig-General MacDonnell "The First Canadian Division" was then proposed by J. K. Shields, and responded to by Brigadier-General MacDonnell, whose address was proceeded by three hearty cheers and a cigar given in his honor by the men. The General said that so much had been said of the glorious old First Canadian Division, that to fully appreciate it, the source from which it sprang should be considered. This, he said, was from the Canadian militia, than whom there was no finer body of gentlemen or sportsmen in the world. He then traced the history of the Canadian militia from its inception under French regime in 1642, when in the first year of its birth, the heroes of the Long Sault, performed the first of a series of glorious deeds that were culminated by the Canadians in France and Flanders.

Prowess of French He told of the martial prowess of the French militia of Canada and the English from the southern frontier up to the battle of taking Canada by Wolfe; of the transfer of the British flag, and of the meeting of the two militas in 1812; of the repulsion of the Penitents in '64; the expedition of the Voyageurs to the St. Lawrence; the quelling of the Northwest Rebellion in '85 by the Canadians who for the first time were unaided by British regulars. With such glorious traditions behind them, he said, had sprung the initiative of the First Division, which was composed of practically all Canadian militiamen.

Mayor and City "The Mayor and City of St. John" was proposed by Mayor Best, who spoke of what the city had done for the returned men in the past, and paid a special tribute to Mayor Schofield's efforts on behalf of the disabled pensioners, and the establishing of the Soldiers' Memorial Hospital. His Worship in reply said he had had acted as the trustee of the Soldiers' Comfort Association; the Red Cross, and the Commercial Travelers' War Fund, in establishing the shop, the city itself, he said, was trying to do what they could by creating as much work as they could to relieve the unemployment. He advised the soldiers to stick together in the G. W. V. A. and get what was their just due. In closing he spoke of the privilege he felt was his at being able to sit alongside the first Canadian V. C. of the Great War.

Commercial Club "The Commercial Club was proposed by E. J. Paddy, and responded to by H. R. McLellan, who paid eloquent tribute to "The Glorious First Canadian Division." He assured the veterans present that the Commercial Club at all times stood ready to help them in every way it was in their power to do so.

At the request of the speaker, tribute was paid the members of the division who paid the supreme sacrifice. In closing he referred to the fact that Currie's flag of troops was brought back to St. John after his capture by "G" and "H" companies of N. B. and P. E. I. Mr. McLellan said he would give all he had ever had to be able to have carried the honor that was O'Leary's.

Michael O'Leary, V. C. "Our distinguished guest," Lieut. Michael O'Leary, V. C., was proposed and his heroic valor at Giverny. Lieut. O'Leary was cheered to the echo by the company, and replied to the ovation with the characteristic modesty of the true V. C. He stated he enlisted at the outbreak of the war in Regina, went overseas with the 4th Canadian battalion, transferred to his old battalion, the Irish Guards, and just happened to be noticed by the "brass hats" at Giverny. He did no more, he said, than any other man of the PWEE. He stated he was glad to get back to Canada after seven years absence, and hoped to establish a home here for his wife and little ones.

"The Ladies" was proposed by Mr. Anderson and responded to by Mrs. Sandall, on behalf of the Fundy Chapter, who catered to the banquet. As a chapter of the I.O.G.E., companions and sold were ready, as they had been when members of the Young Ladies' Patriotic Association, to assist the soldiers in every way.

New Secretary To Public Utility

E. S. Carter, Succeeds F. P. Robinson—New Regulation Regarding the Board.

E. S. Carter has been appointed secretary to the Public Utilities Commission, in succession to F. P. Robinson, who has retired. His retirement was at the request of the Customers and Inland Revenue Department, of which he is an official, and which prefers that its officials shall not engage in any other occupation while in its employ.

In future the office of the Utilities Commission will be at the Government rooms in the Merchants' Bank building, Prince William street. The government has taken the entire top floor of the building, and W. H. McCusack, inspector of taxation also has his office there.

Heretofore the Public Utilities Commission has been pretty much a law unto itself. It has never issued any annual or other report dealing with the business that has come before it, or in any other manner published an account of its activities. An act of the recent session changes this state of affairs, and requires that for the future the board shall publish an annual report of its doings, in the same way as the Workmen's Compensation Board and other boards do.

Next Annual Meeting In Halifax

Canadian Automobile Assn. Meets May 10—Affiliated With Royal Club of Britain

The Canadian Automobile Association will hold their next annual meeting in conjunction with the Canadian Good Roads' Association in Halifax, on Wednesday, May 11, at noon, with a luncheon followed by the business meeting.

On this occasion it is expected to lay a corner stone of a monument to be erected in Halifax, marking the eastern terminus of the Trans-Canada Highway, and members of the New Brunswick Automobile Association are expected to be present. The C.A.A. has completed an affiliation with the Royal Automobile Club of Great Britain, which will allow N.B.A.A. members become affiliated members of that great organization, and any who travel abroad will find a wonderful assistance in the help they give all these members, not only when touring in England, but also on the continent.

Successful Dance of Graduate Nurses

A most successful dance was given by the St. John Graduate Nurses' Association in the ballroom of the Knight of Columbus Home on Coburg street last evening. A large number were in attendance, and a considerable sum realized which will be devoted to the memorial to Anna Stammers, the heroic member of the Alumnae who lost her life while serving as a nursing sister on a hospital ship during the Great War.

Both the ball room and the supper room were beautifully decorated with cut flowers in the association's colors of red and white. The shapewomen, Miss Ella McGaffigan, Mrs. D. C. Malcolm and Mrs. A. O. Burnham. Mrs. J. M. Barry and Mrs. O. H. Burnham poured, and Miss E. J. Mitchell served the tea. Miss McGaffigan was the general convenor, Miss Mary Fraser, convenor of the ticket committee, Miss Mand Beaulieu, convenor of the refreshment committee, and Miss Mand Gaskin, convenor of the music committee.

WAR VETERANS TO ATTEND SERVICES

Prospects are good for a large parade of War Veterans who are to attend Divine worship Sunday morning. The parade is not only for members of the Great War Veterans' Association, but also for those who served in the army and navy veterans of all wars. The wearing of uniform is optional. The Artillery and 62nd Bands will be in attendance. The men will fall in on King street east at 10:30 o'clock tomorrow morning. The Protestants will attend service at St. John's (Stone) church, and the Catholics at the Cathedral. The military sisters in the city are expected to attend the services, and through the kindness of the New Brunswick Automobile Association, and others, automobiles will be provided for patients at Lacoste and County Hospitals, who can attend the services.

COMMITTEE NAMED FOR 1922 MEMORIAL

Major Ronald McAvity, Major Peat, E. J. Paddy, R. Anderson and Mr. W. C. Taylor were appointed a committee to make arrangements for holding the 1922 Memorial Banquet on the anniversary of the battle of Ypres, at the banquet of the members of the First Canadian Division held at the armouries last night. Brigadier-General Macdonnell offered the use of the armoury for a dance to be given in aid of funds for the division, and Mayor Schofield volunteered to supply the music for the occasion. It was decided to entrust the entire work to the St. John members of the First Contingent in trust with the Officers' Garrison Mess and to the use of the different societies on state occasions.

Anniversary of St. George's Day

Will be Celebrated by Local Society Tomorrow and Monday in Fitting Manner.

The local St. George's Society will celebrate the anniversary by attending St. Paul's church tomorrow evening in a body, when their chaplain, the Venerable Archdeacon Crockett, will preside; on Monday evening a dinner will be held at Bond's restaurant, at which the address on the Day will be by the Right Rev. Bishop Richardson.

The society have had many demands on their charity fund this year on account of unemployment, and strangers coming here for work, but all demands have been fully met.

The following are the officers of the St. George's Society for the current year: President—Hon. Mr. Justice Grimwood. Vice-Presidents—James Manning, D.D. S.; Reginald G. Schofield. Chaplain—Venerable Archdeacon Crockett. Secretary—James U. Thomas. Asst. Secretary—J. H. P. Todd. Treasurer—F. E. Hamilton (Past President). Historical—Colonel E. T. Stardee. (Past President). Charity Committee—The President, the Chaplain; Messrs. A. C. Skelton, Thos. Carter and J. S. Frost. St. George's Life.

St. George was born at Lydda in Palestine, on 23rd April, 270, and as that city was in the vale of Sharon, celebrated for its roses, the English have ever adopted the rose as their national emblem, while ever since the Wars of the Roses, the entwined red and white rose has been the sign of an Englishman and always worn on St. George's Day. The parents of St. George were Christians and he was brought up in the faith, and he was a soldier under the Emperor Diocletian, and was high in favor with that ruler, but the latter began to punish and persecute the Christians when St. George openly defied him and stood up for his faith. He resisted them with money and destroyed the proclamations posted against them by the Emperor; he was therefore prosecuted, but held firmly to his faith and finally met a martyr's death on his birthday, 22nd April, 303, and which was also Good Friday.

St. George's association with the Dragon may be allegorical in making his fight against the dragon, and there may be some truth in the story that he fought and killed a dragon near Beyroot, which beast had infested a pool, and the inhabitants dread to give all their cattle to its appetite, the princess was chosen and she bravely went forth to meet her doom. St. George appeared on horseback and killed the dragon.

St. George was venerated by the early church as a Saint and his name appears today in the Calendar of the Church of England in the Black Letter Saints' Days. Many churches both in the east and elsewhere were named in his honor and his name and memory everywhere venerated, while the armies of England who joined in the Crusades under his special protection, and at this time the victories of the English were ascribed to his intervention, as King Richard carried a vest of his saint wearing a red cross and the next day his army defeated the Saracens, so that he was especially honored by military men in England and about A. D. 1194 was made the tutelary saint of England, and his cross—red on white—made the flag of England, being thus the foundation of the present Union Jack.

In 1922 St. George's Day was made a public holiday, and from that date all soldiers wore the red cross on their coats both before and behind. It will thus be seen that St. George's Society have cause to mark the day and remember their patron saint. That Society stand today for patriotism, loyalty and charity, and are ever at the post in working for these objects. They are continually assisting unfortunate Englishmen and their descendants and many a man and woman today can look back with gratitude on the being saved by their aid by the Sons of St. George.

Women Appointed To Censor Board

Mrs. Arthur Adams and Mrs. A. C. D. Wilson to Pass on Motion Pictures.

Under an act passed at the last session of the legislature, amending the Cinematographic Act, two additional censors of moving pictures were authorized, and at the last meeting the government added two ladies to the board, Mrs. Arthur Adams and Mrs. A. C. D. Wilson. Both of these ladies were very strongly recommended by the several organizations of which they are active and will, no doubt, strengthen the Censor Board materially.

MACHINE BELTING

The Machine Belting business has become a specialty, as there are conditions in transmission of power, which require Belting, based upon special knowledge. Estey & Co., 49 Dock street, St. John, Belt Specialists supply the right Belting in Rubber, Leather, Woven Canvas and Balata.

SUNDAY'S IMPERIAL MEETING

At sharp 3:30 Sunday afternoon His Honor Lieutenant-Governor Pugsley will take the chair at the big meeting intended as the opening shot in the Health Drive, the first undertaking of its peculiar and exact kind ever attempted in Canada. Sunday's auditors will hear something to make them think deeply, while the sentiment aroused during the week throughout the entire province will be helpful to thousands and inspiring to those of every age.
