WANT LIMITED YEAR THROUGH

New Brunswick and Quebec Members Oppose Plan to Discontinue.

Ottawa, Dec. 10.—A vigorous effort is being made to have the Ocean Limited run all the year through. In view of a report that the minister of railways plans to discontinue this train on January 6, Hon. H. R. Emmerson has given notice of a resolution, which asks parliament to declare that the train shall be continued throughout the winter. The resolution will likely come up tomorrow. Among those who will speak for it will be Hon. Mr. Emmerson, Hon. Mr. Pugsley, Reid, Restigouche, Turgeon, Gloucester, and Loggie, Northumberland, as well as Quebec members.

LUMBERMEN ASK FOR PROTECTION

Vancouver, B. C., Dec. 10.—Tariff protection for the Canadian Lumber industry was the sentiment expressed at a joint meeting of coast and mountain lumbermen. Reports submitted showed that their American competitors continue to dump their surplus products on the Canadian market and the stocks in British Columbia yards aggregate 340,000,000 feet. The members of both associations pointed out that lumbering is the largest industry protection, receiving different treatment from any other national industry.

THE COUNCIL HOLD REGULAR MEETING

The Moores Property Deal is Now Finally Settled—Town Buys the Land

INTERESTING SESSION

The Council met on Tuesday evening in regular session. His Worship Mayor Murray in the chair. There were present Councillors Alexander, White, Lunam, and Samson, and Councillor Pinault made a welcome re-appearance after his visit to New York.

The minutes of the previous meeting were read and confirmed. Communication was read from W. J. Christie resigning his position as Chief of the Fire Brigade owing to his removal from town and notifying the Council that A. E. O'Donnell, his first lieutenant had been appointed to that position.

On motion report was received and adopted, Mr. O'Donnell's appointment as chief being thus ratified by the Council.

Communication was read from G. A. Binet, manager of Campbellton and Gaspe S. N. Co., regarding electric light charges for the wharf. Councillor Pinault explained the facts of the case showing that no charge had been made for light in 1911, and nothing was done this year till September 3rd when a bill for \$23 odd was presented. The total bill paid was over \$47, and the Company claim the charge is excessive. The lights on the outside of their sheds used for lighting the wharf are on their meter which is not correct, as these should be the same as the rest of the wharf, on the street lighting system. The communication was then referred to Electric Light Committee.

A communication from H. A. Alain for refund of license fee paid, he having been assessed for the same year. Letter as laid on the table.

A communication from Mr. Agnes Sproul with regard to taxes against the estate of the late Wm. Sproul was referred to Assessment and Appeals Committee.

A communication was read from the Building Inspector relative to various infringements of the Building By Laws was read and laid on the table.

Councillor Pinault brought up the matter of the lack of emergency exits in the Opera House. He said it was a most serious question and there ought to be a number of these doors with a lighted sign of "exit" over them.

Councillor Lunam said that he was being constantly assailed with the remark that the "by laws are no good." He was of opinion that they were all right the fault lay with the people in not obeying the laws and the Council in not enforcing them.

It was not the wish of the Council to enter into law suits and press the people to obey these laws, as this would entail heavy costs on both town and people, but he would rather that some means could be employed to make the people obey the by laws. He suggested the matter lay over in the meantime.

Communication was read from the secretary of the Board of Trade requesting the council to appoint a delegate to proceed to Ottawa along with the other delegates in the matter of the suggested bridge across the Restigouche.

It was required that the delegates leave here on Wednesday evening and in such short notice, it was difficult to arrange, so after discussion the matter of appointing a delegate was left in the hands of the Mayor.

Regarding the expense of the

(Continued on page 8)

TO HAVE POPULAR PREACHER HERE

Principal McKinnon of Pine Hill College will Preach in St. Andrew's

TO LECTURE

Rev. Clarence McKinnon, D. D., Principal of Pine Hill College will preach in St. Andrew's Presbyterian Church on Sunday first morning and evening. He will also lecture on Monday evening under the auspices of St. Andrew's Club in the church on "The Public Man."

As Dr. McKinnon's powers as a preacher have been noised abroad, it is expected that a large audience will crowd to hear him.

Special music will be rendered by the choir and in the evening a short organ recital will be given before service commencing at 6.40 p.m. by the organist of the church, John G. MacColl. The program will be as follows:

1. Meditation 1st prelude Gounod
2. Humoresque Dvorak
3. La Cinqtaine Gabriel-Marie

Choral opening
Invocation
Choral response Sanctus
Offertory Anthem "Evening and Morning."

THE DEPUTATION LEAVES FOR OTTAWA

The Delegates Who are Looking After Bridge Petition Depart Wednesday

The delegates appointed by the Board of Trade and Town Council left for Ottawa on Wednesday evening. Messrs. John Harquail and D. A. Stewart M. P. P., represent the Board and Councillor Thos. Ells, worth the Town Council.

A meeting with the Hon. Minister for Public Works has been arranged for Friday (today) and the delegation expect to arrive home Sunday or Monday.

NEW MOVEMENT TO UNITE COUNTRIES

Proposal on Foot to Build a Railway Bridge Across River at St. Leonards.

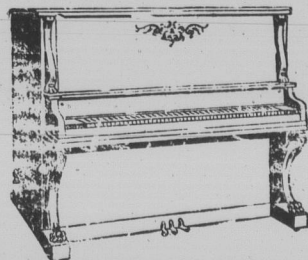

DELEGATION HERE

Campbellton was visited on Wednesday evening by a large and influential delegation of Maine politicians and moneyed business men of various towns in the American state. They were brought over from St. Leonards in a special car arriving here at 8 o'clock. They immediately repaired after a little drive round the town to the St. Louis Hotel where dinner was served and an interesting time spent under the chairmanship of His Worship Mayor Murray.

The delegation which was composed of Senator W. A. G. Hersey, Houlton; A. P. Libbey, Fort Fairfield; D. Eanson, Island Falls; M. Whitter, Caribou; W. B. Hall, Caribou; A. Peterson, New Sweden; I. Cyr, Fort Ke t; A. A. Paterson, Houlton; J. S. Weiler, Houlton; F. K. Theriault, Van Buren; H. K. Bradbury, Van Buren; G. H. Moores, Ashland; Rep. N. L. Viollette, Van Buren; F. Cormier, Van Buren; C. W. Benn, Hodgdon; C. L. Cyr, St. Leonards; Sen. A. H. Powers, Fort Fairfield; W. G. Bither, New Limerick; C. H. Fogg, Houlton; Rep. Peter C. Keegan, Van Buren; J. A. Hammond, Van Buren; C. C. Harvey, Fort Fairfield; W. F. Parratty, Van Buren; H. D. Collins, Caribou; A. E. Hammond, Van Buren; Sen. Burley, Bangor; made the trip over the International Railway to view the country and see for themselves the possibilities of trade.

Twenty years ago the idea of bridging the St. John River between St. Leonards and Van Buren was first mooted, and the speakers of the party made it quite plain that this great project would now be accomplished, and though communication established between New York and Gaspe in a short time.

BRITAIN PRESENTS NOTE OF PROTEST

Ambassador Bryce Reads the
Note to U. S. Secretary
of State

Great Britain's formal note of protest against that section of the Panama Canal Act which exempts American coastwise shipping from paying of tolls for passing through the Panama Canal has been presented to the Secretary of State, Philander C. Knox, by the British Ambassador, James Bryce, who read the note word for word to the secretary at the latter's home. It is an elaboration of points of objection in the note presented to the State Department last July. In brief, these objections are: That while it was clearly in violation of the Hay-Pauncefote Treaty either to remit or refund tolls on all American shipping using the canal, the same objection probably would apply to the coastwise trade shipping in view of the probable impossibility of framing regulations that would not result in a preference to American shipping.

In addition to supporting these points by long arguments, Earl Grey indicates very clearly that strong resistance will be offered to any attempt to exclude from the canal British ships owned by Canadian railroads or whose owners may be guilty of violating the Sherman Anti-Trust Act. He holds that this section of the act cannot apply to British shipping but only to United States vessels.

He also indicates in his note that underlying the objection to the exemption from tolls of American coastwise ships is an apprehension that in the future the principle might be extended to cover American ships in the foreign trade.

Secretary Knox listened attentively to the reading of the note, and promised to take the matter under careful consideration which he felt would require some time. It has been very strongly intimated in official circles that it was the president's intention to settle this important question before closing his administration either by recommending that the senate agree to submit it to arbitration or preferably by the more direct means of an agreement between the two nations referred to in British press notes. The latter holds that the exemption of the American coastwise shipping as well as of Panama shipping clearly conflicts with the treaty guarantees of equal treatment for British and American ships and that the interests of foreign nations would thereby be seriously injured in two respects. First, in placing the entire cost of the building of the canal upon foreign vessels and in the second place in placing the American coastwise trade in a preferential position as regards other shipping. Thus it might be that cargo intended for a United States port beyond the canal in either direction, shipped on a foreign ship, could be sent to its destination more cheaply by being landed at a United States port before reaching the canal, thence forwarded as coastwise trade.

A Washington despatch says: When Great Britain's protest against free passage of American ships through the Panama canal is to be submitted to The Hague, it is to be finally determined by the senate, in any event. It was intimated that President Taft, consistent with his attitude as a principal champion of arbitration of disputes between nations, might recommend such a course, should he and Secretary Knox not hold the question purely a domestic and internal one, and therefore arbitrate. There was considerable leaning to such a view among the senators.

The British government's note was discussed informally by President Taft and his cabinet, but it was said until Secretary Knox had time to study it at length and probably had outlined his reply, it would not be taken up formally, that probably will not be for several weeks.

The suggestion that the question might be kept from arbitration by delay until the existing arbitration treaty with Great Britain expires by limitation next June, was repudiated by a number of senators. Senator Lodge, a prominent member of the foreign relations committee, declared that "the United States would not stoop to tricks." Senator Sutherland declared the question purely a domestic one and therefore not subject to arbitration.

Quails and partridges deserted parts of France when the aeroplane first made its appearance there. But now they have begun to return to their old haunts. Before returning in force, the partridges sent some of their number to scout for them.

TWO POINTERS ON HOW TO CURE A COLD

When you begin to sniff and feel a burning sensation in the nasal passages, or when a tickling irritation in your throat starts you coughing, the first important thing is to act at once. It is the neglected cold that becomes troublesome and dangerous.

The second important thing to do is to take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne, and keep it up till the cold disappears entirely. Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne is absolutely free from harmful drugs, and can safely be given even to moderately young children. It is pleasant tasting and quick acting, promptly relieving the irritation of the throat and nostrils, loosening the mucus, promoting expectoration, and checking the cold.

Your druggist has Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne in 25c and 50c bottles, or can quickly get it for you. Compounded by the National Drug and Chemical Co. of Canada, Limited.

Champion Steer at Chicago Sold for 50cts a lb on the Hoof

Glencarnock, the big Angus Steer declared the Champion of the 1912 International Live Stock Yards, sold for fifty cents a pound on the hoof, \$706 for 1412 pounds of steer. Glencarnock was reared by J. B. McGregor, a millionaire cattle breeder, of Brandon, Manitoba. The grand champion will probably be slaughtered and sold for Christmas beef.

Thirty four miles of wire rope will be used in operating the 28 elevators in the highest building in New York which is now in the course of construction.

Great Britain and the United States have agreed upon the composition of the Tribunal for the arbitration of pecuniary claims as provided in the special arrangement recently ratified by the two governments.

Sir Charles Fitzpatrick, Chief Justice of Canada, and the British member of the North Atlantic coast fisheries arbitration tribunal at the Hague in 1901, will represent Great Britain, Chandler P. Anderson, Counselor of the Department of State, will represent the United States. These two will select a third member who will act as umpire and will be a subject of neither Great Britain or the United States. The third member has been practically agreed upon and his name will be announced later. C. R. Hurst, of the British foreign office will be chief counsel for Great Britain, and Edmund L. Newcombe, Canadian Deputy Minister of Justice, will be associated with him. Salvemio Maliet, Prevost of New York, will be chief counsel for the United States. He was one of the counsel in the Venezuela boundary arbitration. Robert Lansing, one of the counsel for the United States, in the fisheries arbitration, will be associated with him.

A schedule of claims for submission to arbitration has already been agreed upon and the amount claimed on both sides is altogether about \$4,000,000. It is understood that a supplemental schedule of claims is likely to be agreed upon before the tribunal meets.

At Logansport, Ind., Elizabeth Lang a bride of one day, Tuesday night shot and killed Mrs. Mary Cople, who at the wedding supper is alleged to have told other guests that the groom had selected an ugly and a worthless woman, and the police say she made a full confession and expressed pleasure that she had stopped slanderous remarks.

An illustration of how New York hotel employees can become fairly well off through the generous tips they receive is shown in appraisal of the estate of Walter F. Duncan who died a few weeks ago.

As a porter in a big uptown hotel, he received wages of only a dollar a day, but his tips carefully husbanded, enabled him to leave an estate of \$11,000, including a four-story house in East Seventy-third street. Miss Margaret Woodrow Wilson, daughter of President-elect Wilson and the only member of the family who did not make the trip to Bermuda, is expected to spend two days in Chicago this week, on her way to Madison, Wis., where she will speak before the National Convention of the Gamma Phi Society. It is said Miss Wilson has expressed a desire to make an inspection of settlement work while there.

Irritated by the slowness of the donkey he was leading in Golden Gate Park, San Francisco, Eddie Cornfoot, nine years old, let go his hold on the bridle and started to twist the animal's tail. He was kicked in the stomach, the iron shod hoofs of the animal inflicting internal injuries which may cause the lad's death.

There have been 30 serious hunting accidents during the game season in upper New York this fall. Ten of the victims are dead.

AGRICULTURAL BOARD ENQUIRY

Question Raised Regarding
Relative Value of Sheep
or Forest

A very interesting question in regard to the relative value of forests and sheep grazing was raised in the evidence taken a few years ago by a committee of the British Board of Agriculture to inquire into British Forestry. The increase in population makes the question of its future support one of vital importance, and the relative value of the different uses of land in their ability to support population is a valuable index as to the direction in which development of the use of land should be directed.

From the evidence of several witnesses and that obtained at previous investigations it was determined that it took from one to six acres of the land usually employed for sheep grazing in Scotland to support one sheep and the committee was of the opinion that five acres would be about the average. The land used for sheep grazing is high, broken land and some of it is swampy and unproductive of feed. The number of sheep which one shepherd could look after was considered as about 500, so that for the stock necessary to the support of one shepherd and his family 2500 acres would be required.

On the other hand, the evidence brought out in regard to the number of people supported by a forest on such lands showed that 100 acres of forest would be the average per man employed, so that the 2500 acres required to support one shepherd and his family would support 25 woodland men and their families.

This is a comparison of the two uses of the land in a country where each is most highly developed, and shows their final relative possibilities as supporters of population on lands that are rough and elevated.

At the same time and place the father of a bride who was married at Sutton Courtenay, Berkshire, G. B., married the mother of the bridegroom. There was a triple wedding, for on the same occasion the father's other daughter was also married. The contracting parties were: James Bridges, 56, widower and Mrs. Margaret Lovelace, 49, widow; Rose Bridges 22 and Wm. Lovelace, 24; Ada Bridges 28 and Leonard Bailey 24.

Although a year ago more pollock headed by Michael Tracy and the cow which he won from Walter Hine on an election bet, 800 citizens of Derby, Conn., including the Mayor and the Mayor-elect, marched all over the city behind a brass band, in celebration of the Democratic victory.

The story that the C. P. R. had purchased a portion of the Michigan Central line was strongly denied by prominent officials of the road at Montreal. "All rubbish," said vice-pres. McNicholl, while other officials claim that the announcement was premature.

James Sidney, whose wife and child were frozen to death last January, was found dead from cold and exposure, six miles from Biggar, Sask., on Sunday. Sidney had been prosecuted for negligence in connection with the death of his wife and child.

A Pennsylvania hen fancier, said to be one of the best informed men in the country on poultry, announces that fresh eggs will cost at least \$1 a dozen before the cold weather has passed. Save your eggs—Boston Globe.

The entire Fire Department of Jonestown, Penn., was called to quarters at 3 o'clock in the morning when a general alarm was turned in from Engstrom Company No. 3 by Assistant Chief Wm. Haines, who had been notified by a messenger from his home that his firstborn was a bouncing boy. Mr. Haines intended to wake only his comrades of No. 3 company, but in his excitement he turned in a general alarm.

Just Arrived.

WHAT ARE YOU GOING TO BUY FOR YOUR HOME THIS X'MAS?

Why not make it a new **GLENWOOD RANGE?**
WHAT COULD BE MORE ACCEPTABLE?

It will save at least one half of your fuel, give you more heat during cold wind, lighten your kitchen labor and make your cooking a pleasure.

This cut shows one of our leaders. The plain **CABINET GLENWOOD**, famous everywhere for its baking qualities, its a room saver too, no unnecessary hearth, or endshelf unless desired, sits into a very small space and has the largest oven of any stove on the market.

Snug, Plain and Handsome that is the description of the **CABINET GLENWOOD**, no fussy ornaments of fancy nickel to catch the dust or dirt, the Mission Style applied to a range every essential, refined and improved upon.

The construction of the **CABINET GLENWOOD** has been rearranged so as to place the Ash Pan, Broiler Door, Grate, Cleanout Door, and other essential parts within easy reach from the front.

This range is recognised as being the best range that is on the Canadian Market to-day, and is guaranteed to give satisfaction, with a 30 days free trial or your money cheerful refunded.

Call and have us show you the **GLENWOOD** Line, we can supply you with a new **GLENWOOD** Range from \$30.00 up, fully guaranteed.

DALHOUSIE

Dalhousie, Dec. 11.—Notwithstanding the drawbacks of a night trip to Campbellton, twenty-six of our citizens attended the entertainment given on Monday evening in the Town Opera House by the Pollard's. When the notice for this Opera appeared here, one of our citizens communicated with Mr. John M. Lyons, General Passenger Agent of the I. C. R., at Montreal and obtained from him reduced rate from Campbellton to Dalhousie after the performance. At first it looked encouraging for an excursion of about 30 people. When our citizens considered that they had a good hall of their own and to accommodate the average companies that visit the North, with the discomfort they meet with on our Dalhousie Branch train, a large number decided to remain at home, those that went had to travel in a car that is called by strangers a cattle car. How is it that the I. C. R. authorities do not provide a second class and baggage car combined and a neat first class car for ladies and for those who travel without smoking? There is no politics in this. The same state of affairs existed under liberal rule.

Mr. J. W. McDonald of Toronto is here opening a branch bank in connection with the Nova Scotia Bank.

Messrs John, Fred and Wm. Boque, three brothers, with their families have been residing here for a couple of years. They came from Tracadie, Gloucester Co. Last summer they opened a moving picture show in the Mercier and Magee Block and have succeeded well. Their entertainments have been well conducted. Finding that the present hall is not suitable for our growing population they are now in search of a site to erect a modern building to carry on their work on a larger scale.

The Bank of Nova Scotia is opening a branch here, Mr. Paul Roy of Campbellton is making the improvements in a store owned by Mrs. A. J. LeBlanc, postmaster. The work is contracted for by Mr. David Stewart, M. P. P. It is a good sign for the shiretown to see a second bank preparing to do business here.

Before the destruction by fire of the Restigouche Wood working factory, the Royal Bank of Canada had purchased a site to erect a modern stone building. On account of the fire they decided not to build, this was a disappointment to our citizen who stood by their town in spite of all reverses. It is to be hoped that now that the prospects are brightening every day for a greater Dalhousie that the head managers of the Royal Bank of Canada will carry out their original plans and at an early date have erected on their fine site a building that will be a monument for progress in our growing town.

Mr. P. M. Shannon was elected alderman by acclamation to replace Mr. Joseph McIntyre, resigned. Mr. Shannon has already had some experience in our town council. He will make a splendid alderman.

Mayor W. S. Montgomery who is in Ottawa on public business, informed our correspondent that he expected to see a call for tenders at an early date for the installation of an electric light plant in Dalhousie.

The fire brigade was called out on Sunday evening about 6.30 o'clock for a slight fire in the Tail residence.

Miss Josephine Hutchison who has been visiting her aunt, Mrs. H. A. Hilyard for some time left for her home in St. John on Monday.

The engagement is announced of Miss Lena Miller, daughter of Mr. George Miller, and one of our popular school teachers, to Mr. W. A. Hamilton, of River Charles. The marriage will take place on Dec 26th.

Mrs. H. A. Hilyard returned home on Thursday last from a few weeks visit to her friends in St. John.

Miss Susie Montgomery and her brother, Arthur of New Richmond, P. Q. were the guests of Mrs. Wm. Montgomery on Friday last.

Miss Lizzie Uleian of Jacquet River, who is spending a few days with Miss Lawlor at Point la Neve was in town this week.

Mrs. Daniel McNeish of Dalhousie announces the engagement of her youngest daughter, Miss Jean to Mr. John Sabo of Herbert, Saskatchewan. The marriage will take place here on the 20th inst. Miss McNeish, who has been in the employ of our progressive flour merchant, Mr. Daniel McDonald, will make her future home in the west, as the future groom is a successful rancher. He was formerly in the employ of the Dalhousie Lumber Co. After the marriage they will visit St. John on their way to Weymouth, N. S., Mr. Sabo's old home, where they will spend some time. Returning to Dalhousie to visit their friends they will proceed to the western province.

Mr. C. Latz of Campbellton was in town this week obtaining signatures to petitions favoring the early construction of a railway and passenger bridge combined between Campbellton and some point at or near Camp Point. Our citizens signed the documents cheerfully, feeling that the erection of a structure of that kind would complete the missing link, would make Campbellton a very prosperous town.

Among those who registered at the Queen Hotel here this week, were Messrs. E. A. Legallier, A. G. Adams, Alex. McLeish, W. H. Sharpe and John G. MacColl of Campbellton.

Mr. David Stewart, M. P. P. was in town on Monday and was a guest at the Queen.

Mr. Walter Amy is spending a few weeks

holidays here. He is a guest at the Queen. Miss Stella Troy has gone to Bathurst to spend a few weeks.

BLACK CAPE

Death has again visited our community and called away one of our oldest residents, Mr. Angus D. Campbell who passed peacefully away on Friday, Nov. 22nd at the age of 88 years. Deceased was born in Campbellton, Scotland and came to the Bay Chaleur with his parents when a child of 5 years of age.

He leaves to mourn the loss of a kind and loving husband and father, a wife and two daughters, Mrs. Allan Campbell of Bonaventure River and Mrs. Duncan Campbell who resided with him and one son Alexander of Bonaventure River, he also leaves one brother John of Caplin River who is 92 years of age.

The funeral which took place on Monday called forth a large crowd of people showing the respect in which the deceased was held. The service was conducted by Mr. John Campbell of Bonaventure River. The remains were interred in the Black Cape cemetery.

We also record the death of Mrs. John Campbell which occurred at her home on Nov. 22nd at the age of 78 years. Deceased had been in poor health for some time but had always been able to move about when that, evening of her death she spoke of not feeling well and retired for the night when about nine o'clock she passed suddenly away. She leaves a husband, a daughter, Mrs. C. H. Aaskov of Portland, Maine, two sons Robert of Portland, Maine, and John J. of Chaleurs. The funeral took place on Tuesday afternoon and was largely attended. Interment took place at the Black Cape cemetery.

Mrs. William McKenzie who left in May 1910 with her son William for Red Deer, Alberta arrived here on Thursday and is the guest of her daughter Mrs. William Burton.

Miss Annie Campbell of Bonaventure River took the Quebec Oriental express at Black Cape on Tuesday for Montreal where she will spend the winter.

Mrs. Duncan Campbell and her granddaughter, Myrtle left on Tuesday for Montreal where they will be the guests of Mr. and Mrs. John Baker.

Mr. Alvin Jamieson and Mr. Earl Campbell have returned from St. Omer where they have been for the past summer in the employ of the Campbell Bros.

Mrs. Arthur McQuar of New Mills is visiting relatives in Black Cape.

A few of our young ladies are making preparations for a Christmas tree which will be in the No. 2 school house. We wish them every success in their undertaking.

We are sorry to hear that Mr. Hastwell Pritchard had the mishap last week in having one of his fingers taken off while working at the Casapedia Mfg and Trading Co.

The east bound Quebec Oriental express was seven hours late on Monday on account of the west bound freight leaving the rails at Groulx.

Mr. and Mrs. J. A. Campbell of New Richmond entertained a number of their friends on Friday evening. Those that were present from Black Cape were Miss Robina Stevenson, Miss Winifred Campbell and Mr. Archibald Campbell.

RICHARDSVILLE

The reaper of death has again visited our village and has claimed one of our esteemed friends in the person of Weldon Barreau. About three weeks ago he was removed to Hotel Dieu hospital with typhoid fever and later he contracted a serious attack of inflammation of the lungs from which he never rallied. The deceased young man was in his first year and was highly esteemed by all that knew him. His absence will be keenly felt in social circles. He leaves to mourn the loss a kind son and brother, his mother and father, four brothers and four sisters. The bereaved family have the sympathy of the entire community.

Miss Mae Callahan and Mary Campbell spent Sunday in Richardsville.

NEW CARLISLE

J. O. Sherar has returned from a business trip to Montreal and Toronto and reports having a very pleasant trip.

The weather here is quite cold and the young people are anxious to have a skate. The rinks are now preparing ice. The half way rink expects to open about the 14th or 16th if the weather keeps frosty.

The Brass band meets every Thursday evening. Members of the band are as follows:—W. D. Sherar, J. Sherar, Harold Billingsley and George Munard. Cornets, Elmer Scott and Wm. Flowers; Alton, T. Caldwell; Trombones; Ben. LeBlanc, Baritone; Clifford Scott and J. Sherar, Bass; Claud Caldwell and O. Blain, Drummers. J. Sherar, President of the band; Clifford Scott, Vice-President; Elmer Scott, Sec'y. Treasurer.

The I. O. G. T. Lodge has recruited again and a considerable number anticipated joining next Tuesday evening. We wish them every success. The Lodge now has quite a nice library and a fine new piano and we understand the meetings are very interesting and instructive.

Mr. Taps, who had the misfortune of falling on the ice and breaking his arm about two weeks ago, but we are glad to report "available" as to his recovery.

The average woman's idea of a friend is some one she can impose upon.

JACQUET RIVER

Rev. J. M. McLeod, M. A., who, for seventeen years has been pastor of the New Mills congregation, preached his farewell sermon to a large and deeply attached congregation here on Sunday morning the 8th inst.

The cordial relations existing between pastor and people were shown on Saturday evening, the 7th inst., when a large delegation from Jacquet River section of the congregation called upon him at the manse, New Mills, and presented him with an address, and a purse containing one hundred and twenty dollars in gold. The presentation was made by Mr. Harvie McMillan. The address, read by Miss Katie McNair, was as follows:—

Rev. J. M. McLeod, M. A.,

Dear Mr. McLeod:—

Words cannot express the feelings of regret with which we, the members of the Jacquet River section of the congregation have learned of your decision to sever the tie, which for more than seventeen years has bound us in loving fellowship as pastor and people.

As Sabbath after Sabbath you have stood before us, ever faithful, always on time, many and valuable have been the lessons taught by your example. We have come to think of you as belonging to us exclusively, and little thought that another congregation would so soon claim the right of calling you pastor.

In time of sorrow and affliction you have endeared yourself to us as a sympathetic comforter, and by your geniality and hearty good will have shared and enhanced our joys.

The truths which you have so faithfully preached to us, and which must have left a lasting impress on many hearts, will we trust, bear much fruit in the future of our lives, and add many stars to your crown.

And now, although the tie that for so long a time has bound us to you is severed, we trust that we may often again have the pleasure and privilege of meeting you, and of hearing your voice from the pulpit.

Our sincerest wishes for happiness, prosperity and success in your work, will follow you to your new sphere of labor, and we only hope that there you may find hearts to appreciate you as lovingly and truly as do those you are leaving behind.

We cannot allow you to leave us, without a humble expression of our gratitude and esteem, so we ask your acceptance of this purse of gold.

Signed on behalf of the Jacquet River section of the congregation:—

ALEX. BURVEY

HARVIE McMILLAN

Mr. McLeod, who was taken completely by surprise, thanked the delegation in fitting words for this expression of their affection for him and appreciation of his work. He expects to leave for his new field of labor, St. Peter's P. E. I. about the 13th inst.

Farmers supplying milk to New York City will, after December 1, get the highest price ever paid by dealers for milk in the metropolis since the civil war—\$1.80 per forty quart can—an advance of ten cents a can. Retail prices of milk will remain the same, nine cents a quart.

A judge in the Kansas City municipal court gave a decision the other day that women's card parties conducted under the name of clubs, not requiring a membership card or a special invitation, were breaches of the gambling law. It appears that the women had not only played cards for money, but each woman who played cards for prizes, contributed 25 cents.

The number of recruits available for the French Army has been reduced from 238,000 in 1906 to 215,000 in 1911, owing to the diminution of the birth rate in France, according to Joseph Reinach, who made this startling assertion in the course of a debate in the Chamber of Deputies on the bill relating to infantry enrollment.

Reports from the Prairie provinces show that a spell of decidedly cold weather has set in. The zero temperatures were recorded in Manitoba and Saskatchewan. At Moosejaw, on Wednesday night, it was 19 below, at Regina 16 below, at Battleford 14, at Prince Albert 10 and at Winnipeg 19. It was milder in Alberta and there are prospects of mild weather in the other provinces.

If the result of the moose hunting season in Maine, which closed Saturday night, is a true indication, the moose of that State are diminishing in numbers. Only 68 moose arrived at Bangor during the season from the hunting grounds of northern and eastern Maine, as compared with 104 last year. With two weeks of the deer season yet to run, receipts of deer at Bangor have been 2,637 as compared with 2,522 at the corresponding time last year.

Wm. Hamilton Brown, who was 110 years old and as spry as a man of fifty, was killed Saturday, at his home near Louisville, Miss. A giant tree which he was cutting down fell on him, breaking his back and injuring him internally. Woodsmen were attracted by his cries and with much difficulty cut the tree in two and removed it from his body. He died twelve hours later. He is survived by 38 grandchildren and great-grandchildren. He is believed to have been the oldest white man in Mississippi.

YULETIDE GIFTS FOR THE BABY.

Pretty Things That Will Delight the Heart of His Fond Mother.

Do not fail to remember the baby even should it be his or her first Christmas. Nothing will delight the hearts of parents more than some trifle bestowed upon their darling. So many inexpensive toys or dainty trifles may be fashioned out of bits of silk or lace and other odds and ends that accumulate in the scrap bag that so far as expense is concerned baby's Christmas need cost nothing.

A handy bag in which may be tucked a few toys to amuse the little one while traveling is illustrated here. It may be lined with tiny pockets in which baby's small toilet accessories can be slipped.

Doll and Bag Both. The bag looks like a doll, the head and arms being dressed in a tiny coat of Dresden ribbon. The lower part has a round flat section of cardboard covered with wide watered silk. The upper part is made of the watered silk or of ribbon stitched to the round of covered pasteboard. A casing with ribbon run through it finishes the neck of the bag, and the two ends of the ribbon are passed through the coat so that it may be drawn down over the bag and tied in place when baby wishes it for a plaything. Being collapsible, the bag may be slipped into a satchel and will take up less room than an ordinary doll.

A Hoop Rattle. A homemade rattle may be fashioned of ribbon, an embroidery hoop and several tiny tinkling bells. Ribbon is wound around the hoop, crossed from side to side several times and tied in tiny bows, the center of each bow having one of the bells tacked to it. When baby shakes the hoop joyous music is heard and baby is happy.

A sachet cushion of ribbon is a novelty if woven in the birth month colors of the recipient of the gift. This color is combined with white, narrow widths of satin ribbon being used and interlaced as the children make their kindergarten mats. When squares for the top and bottom have been woven these may be stitched together and a silk cord used to outline the edge of the pillow. The pillow may be filled with cotton sprinkled with sachet powder.

Crochet Bottle Cover. A pretty and useful gift for the baby is a crocheted cover for the nursing bottle. The glass surface of the bottle is very apt to slip away from an infant

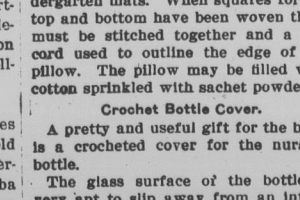

A DOLL BAG.

ered with wide watered silk. The upper part is made of the watered silk or of ribbon stitched to the round of covered pasteboard. Do not forget the place.

RICHARDS' NEW BLOCK.

S. A. POIRIER.

A distinct earthquake shock, or to be more exact, an earth tremor, was felt in different parts of the province yesterday morning, shortly after six o'clock. At St. John the shock was a pretty severe one and was accompanied by a distinct rumbling noise. Some people at first thought it was a blast, but it was soon apparent that the conditions were entirely different from those attending a blast, and were unmistakably due to some violent conditions in the earth itself. In houses where the inmates were awake the shock was distinctly felt and seemed to last a full second. In other houses inmates were awakened by the violent tremble. There were many, however, who slept and appeared skeptical when questioned about the earthquake. A milkman who was just leaving his barn when the tremor came said he saw the trees wave violently. The tremor was felt in all parts of the city, but not so distinctly on the west as on the east side, and it was also felt in various parts of the province. The last previous earthquake shock was felt at 2 a. m. on the morning of March 21, 1904, and was general throughout the Maritime Provinces, the St. Lawrence Valley and the New England States. Shocks in 1869 are said to have been of much greater severity.

At Gagetown three distinct shocks were felt, coming apparently from a northerly direction. All were quite severe and in the home of Wm. Weston dishes were rattled and a clock thrown from a shelf. No serious damage was reported.

The shock was felt at Sussex, Norton, Fredericton, Woodstock and St. Stephen slightly. Despatches from Moncton and Edmundston say the shock was not felt in either place.

Andover, reports a slight shock. A telegram from Charlottetown says there are no reports of shock in P. E. Island.

A slight earthquake lasting several minutes was felt at Calais and Bangor. The shock was preceded by a heavy rumbling. No damage was reported.

On Tuesday morning Yarmouth was the scene of the biggest fire the town has had in almost twenty years, causing destruction amounting to between \$60,000 and \$100,000, and the damaging of many thousands of dollars worth of fancy stock in dry goods and other stores, principally Christmas stock. It broke out in three storey wooden building on the corner of Central and Hawthorne streets, the old shoe factory of the late firm of W. H. Redding & Co., but now occupied by George E. Burrows as a garage. Flames leaped across both streets, burning the Queen Hotel, Mrs. Powell's dwelling, the Hilton double Dane dwelling, the two-story house adjoining the south of Central street, and a small dwelling and five buildings on Hawthorne street. The fire spread to the tailoring establishment of Geo. S. Taylor, on Main street, the rear and workshop upstairs being badly damaged. This store with W. Lloyd Porter's dry goods store, Singer Sewing Machine Co., Lawson H. Bates, paper hangers and painters, were in danger and stocks were removed somewhat damaged. The new telephone exchange stood the onslaught of the flames, as did the brick building of M. P. Cook & Co. When the fire was considered to be under control, the Light Newspaper building was in flames, and is a wreck, the roof being badly buried, and the plant drenched. Had the buildings on the south side of Jenkins street ignited the whole town would have been threatened. The Herald building was saved unharmed. Firemen are still saved unharmed. It is impossible to get the insurance, but the damage is heavy. Fourteen autos were stored in the garage, and but few of them were insured.

Advertising Rates on Application

FRIDAY, DECEMBER, 13 1912

CHRISTMAS

We take pleasure in presenting to our readers our Christmas edition of the GRAPHIC, and with it extend to them the season's greetings.

This edition, which is the largest ever known on the North Shore, is a new departure in the history of the GRAPHIC, and we draw the attention of our readers to the fact that in the whole twenty pages will be found interesting reading and classy advertisements, which should not be overlooked. Read every page, lest you should miss something of importance.

At this time we desire to return thanks to the merchants of the town for their kindness in the past and the solid way they have backed up their local paper, which endeavors even in its small way to give the news of town and country, ever keeping in view its policy of boosting the town at all times.

In return we are giving the merchants of the town the largest advertising medium ever known in this district, the circulation of the GRAPHIC now exceeding 2500, of which 600 are circulated here between Athol and Richards.

The amount of advertising we are carrying shows that the merchants are fully alive to the fact that the GRAPHIC gives the best medium for reaching the people of this district, and it also shows that they are strong and living and are ready to do their part for the benefit of the town.

To our readers then we extend the old old wish "A Merry Christmas and a Happy New Year."

THE NAVAL GIFT.

On the whole, the newspapers of the world beyond Canada think Canada has made a very generous contribution to the defence of the empire by its naval scheme, by its naval propositions. Leading United States papers quickly note that what Canada proposes to do will considerably affect her relation to the empire as a whole, and will make her an influential factor in the transaction of the foreign affairs of that empire. What she proposes to do is regarded as a very generous offering to the unity of the nation. Generally, the people of Canada accept what the government proposes to do with moderation. The Liberal newspapers, apparently, would have gladly supported greater assistance than has been offered, and to urge this will apparently be the Liberal policy in Parliament.—Globe.

Mr. D. Pottinger, member of the I. C. R. Managing Board, with Mrs. Pottinger, arrived in St. John Wednesday morning, in a private car attached to the Halifax express. Mr. Pottinger, in conversation with the Globe stated that while the I. C. R. had at present no special plans for development at St. John, it was the intention of the management to continue the gradual scheme of extension which has heretofore been its policy. The business of the railway there, and over its entire line has been making steady and rapid gains and it is intended to add to the facilities of the road to handle traffic as business increases. Speaking of the I. C. R. elevator, Mr. Pottinger stated that some grain had already been handled this year and the expectation was that the elevator would be kept busy during the winter. More grain will be handled by the I. C. R. at St. John this year than last.

Parliament will adjourn next week for the holidays. There was a government caucus on Tuesday morning at which the pending debate on the navy was discussed. It was decided that to adjourn on Friday of this week might be taken as an indication of weakness or indifference and therefore the decision was reached that the date of adjournment should be arranged for between the whips of the parties Wednesday or Thursday of next week. The Conservatives also decided that in the debate they would meet the Liberals with speech for speech. The decision to carry the debate is next week means that there will be four or five days discussion of the naval programme before Parliament separates for Christmas. Sir Wilfrid is in splendid health, and a notable speech is looked for from him.

NEW STORAGE RATES ON I. C. R.

Take Effect After Goods Have Been Held Forty-Eight Hours.

Increased rates for the storage in freight and railway freight houses all over Canada, went into effect on the 9th. The increase, which is considerable, takes effect after the goods have been ready for delivery more than forty-eight hours. The object of the change is to induce the consignee to make delivery more promptly and thus prevent congestion in the railway sheds. There is only a small percentage of the freight left in the I. C. R. freight sheds here over forty-eight hours, and as the result it is not likely to effect the local dealers very much.

For the first week the consignee will have to pay three cents a hundred pounds, which is fifty percent of increase over the old rate, and for each succeeding week will have to pay six cents a pound which is three times as much as in former years.

In St. John and other cities it is also expected that the new rates will help to keep the freight sheds clear from congestion.

SHAREHOLDERS RATIFY THE SALE

The Bank of New Brunswick Vote Was Unanimous.

There was a large attendance at the meeting of the shareholders of the Bank of New Brunswick held at St. John on Monday to consider the agreement made for the sale of the Bank to the Bank of Nova Scotia. The terms of the agreement are that the Bank of Nova Scotia will give a share of its stock for each share of Bank of New Brunswick stock, and also a bonus of \$10 with each share.

On motion of Senator Daniel, Mr. Manchester was called to the chair, and on motion of Mr. Hanington, Mr. W. E. Foster was appointed secretary. Mr. A. P. Barnhill, for the secretary read the call for the meeting and notices that the law regarding publication of notice had been complied with; also the agreement made between the directors of the two banks. Senator Daniel, J. A. Belyea and W. A. Ewing were appointed scrutineers. Dr. W. W. White moved the following resolution:

That the proposed agreement between the Bank of New Brunswick and the Bank of Nova Scotia for the sale of the whole of the assets of the Bank of New Brunswick to the Bank of Nova Scotia in form submitted to the shareholders and now read and filed with the secretary of this meeting, be and the same is hereby approved by the shareholders of the Bank of New Brunswick; and,

That the President and General Manager of the Bank of New Brunswick be and are hereby authorized to affix thereto the seal of the Bank of New Brunswick and to execute the same for and in the name of and on behalf of the Bank of New Brunswick; and,

That the Board of Directors be and they are hereby authorized to give all notices and make all applications and do all things they may deem necessary for procuring the approval of the Governor-in-Council to the said agreement and for carrying out the same, and for winding up the affairs of the Bank and distributing the proceeds of the said sale.

The resolution was supported by Dr. White, W. Malcolm McKay and W. H. Thorne, after which J. A. Likier said the best thing to do was to pass the resolution; but he thought the directors were to blame for not accepting the offer of \$325 or \$350 made some time ago.

The vote was then taken by ballot. For the sale, 8,966 shares; against, none.

The meeting then dispersed.

Hon. H. F. McLeod, provincial secretary, left Fredericton on Monday evening by C. P. R. en route to Bermeda to recuperate. He was accompanied by Mrs. McLeod, and to the several score of business men who were out at the C. P. R. station to say good-bye to him, he expressed himself as sure that he would return in a few weeks in his usual good health and full of fight. It was a representative gathering of men of all political shades who gathered to see the provincial secretary off and among the number were most of the officials from the provincial department buildings.

NEW MOVEMENT TO UNITE COUNTRIES

Continued from Page one.

What this means to Campbellton can but be faintly conjectured but the fact remains that the delegation were satisfied with the condition and probabilities of Campbellton and district and the bridge will be built by private enterprise.

The proposed bridge will connect the Bangor and Aroostock Railway at Van Buren with the International Railway at St. Leonard, connect with the I. C. R. at Campbellton and (as there is not doubt the request of the people of this district for a bridge across the Restigouche will be granted) connect on this bridge with the Quebec Oriental and continuing lines to Gaspe.

This is the greatest progressive movement that Campbellton could wish for and no party or government is being asked for a dollar.

The Banquet

Supporting Mayor Murray were Police Judge Matheson, Councillor White (Deputy Mayor), Mr. E. H. Anderson, Mr. Collins, Mr. Hammond and Mr. Chas. Cyr, at the second table, Mr. Thos. Malcolm, Judge Botkin, U. S. Consul, Mr. A. A. Andrew, His Honor Judge McLatchey, County Court, Justice and others.

The toast list was interesting, and the speeches were felicitous and cordial. In this brief article it is impossible to give the speeches in detail, those who took part being most happy in their phrases, and their remarks listened to with keen interest.

Perhaps the most enjoyable speech of all was that delivered by the U. S. Consul Judge Botkin who is always happy in impromptu remarks. He said that he wanted his friends to look at this matter from a Canadian side. He cited the figures to show the enormous increase in exports from this district to the United States, he told of the capabilities of the people of this district, of the love he had for them and the affection and esteem they treasured in their hearts for him, and the great country he represented, and then said in his most inimitable way, "we Americans get credit for knowing a good thing when we see it! Where are your eyes? Where have they been all these years? Look on the country round about you and get busy."

Mr. Keegan of Van Buren gave a most interesting resume of the matters which led up to the visit of the delegation stating that 20 years ago the idea was first mooted, an article appearing in a Maine newspaper of which he was the writer. He paid a high tribute to Mr. Thomas Malcolm for his energy and farsightedness and said that the charter for the New Brunswick side of the St. John River was already granted and that by the 20th of January the charter for their side would be passed and by the 4th of March approved by Congress and continuing said "I am enough of a prophet to state that the delegation which left here to night for Ottawa will be also successful in having their wishes granted in the matter of the bridge across the Restigouche." (Great applause). Other speakers made expressions of suitable remarks after which the meeting was closed with the singing of "Auld Lang Syne."

Money Back Remedy for Dandruff

Falling Hair and Scalp Itch Thos. Wran is Authorized to Guarantee it.

He will do more: if after using two bottles of PARISIAN Sage you don't think it is the finest and most delightful hair tonic and dressing you ever used—money back. Can you be so sure?

The baby son of Mr. and Mrs. Al-sale of everything except food in the restaurants. A public drinking fountain was found on Sunday morning placarded, "Closed for Sunday."

The Pope's brother, Angelo Sarto, who is postmaster of the village of Corasolo, called at the parliament buildings recently to ask deputy Di-bagne to recommend him to the minister of posts and telegraphs for an increase in salary. The Pontiff's brother is 76 years old and earns a half dollar daily. He is compelled to walk ten miles every day in order to carry the mails of his village to the Mantua station. Later in the day, the minister cordially received Sarto, and after talking with him for a while, willingly doubled his pay and, what is more, appointed a postman to help him.

The Bishop of Fredericton was operated upon at his home on Wednesday for appendicitis as the result of an attack several weeks ago. The appendix was found to contain foreign matter, and was much congested. The operation was entirely successful and His Lordship is resting easily.

LOCAL ITEMS OF INTEREST

Newspaper Notes of Town and Country Happenings Gathered by Graphic Reporters.

DANCING CLASS

A dancing class is being formed, which many of the young people are glad of, as a class of this sort was very much needed.

THIS EDITION

Copies of this week's issue for sending to friends may be had at the office or at White Drug Co., and Thos. Wran's store. The Graphic is on sale weekly at these places.

FIRE IN TOWN

On Sunday the Automobile Cafe on Gerrard street was burned. The fire was quickly got under, the roof suffering worst from damage. The place is now closed.

SIGNS OF THE TIMES

Once again it is our pleasure to remind you, that, in our opinion, you will be serving your own best interests in doing your Christmas shopping early.

ANDREW'S CLOTHING STORE

SPECIAL SALE
Read carefully the advertisement of D. Goldenberg & Co., which appears in another part of this issue. The values are extraordinary and the prices low.

THE RIGHT PLACE

See that you go to the right place when you are purchasing. That place is D. Goldenberg & Co.'s on Water street, opposite Bank of New Brunswick.

SLIGHT FIRE

On Wednesday evening the brigade were called out to a slight fire in the home of Mr. L. F. Wallace. The blaze which was of a slight nature was caused from a lamp. Some furniture was burned but the building was not damaged.

SMOKING CONCERT

On Wednesday evening in the Oddfellows Hall a smoking concert was held in honor of Mr. McCabe of the Bank of Commerce who is leaving shortly. In his short stay with us Mr. McCabe has made many friends who wish him well.

TO CORRESPONDENTS

We would again call attention to the fact that we have received a number of communications from correspondents who do not sign their names. No matter how important, items can not be published unless the name of the writer is given, not necessarily for publication but as an evidence of good faith.

SUDDEN CALL

On Friday, Nov. 29th, Mrs. J. E. Purdie received a telegram conveying the sad news that her father, Mr. W. A. Morrison of Brantford, Ont., had died suddenly the previous evening, after a few hours illness of acute indigestion. Mrs. Purdie left on the Limited that evening. Much sympathy is felt for Mrs. Purdie in the loss of her father.

THE SMELT FISHERY

Chatham World: The fishermen have had to contend against open water, anchor ice and other difficulties. Some of them have been rewarded for their efforts, but many of them have little to show for the hardships they have suffered. Ald. Groat was among the lucky ones Monday night. He got a ton, \$80 worth, and immediately bought another ton. The nets took from 300 to 500 pounds each on Tuesday night, the fish being of good size.

BUS SERVICE

A new service for transportation was inaugurated on Monday when Mr. A. Bertrand put his first public conveyance on the road. Bus service runs from Christy's to Doherty's bridge every hour, starting from Christy's at 8.30 a. m. and the bridge at 9 a. m. The last bus will leave the bridge at 10 p. m. Parcels will be carried at 5 cents each, and passengers for Bertrand's store will be carried free of charge. Otherwise the fare will be 5 cents each way.

CONTRACT FINISHED

Mr. Hugh Marquis has completed his heating contract at the new Nelson station. The plant was installed by R. Woods.

CONGRATULATIONS

These are in order to Mr. and Mrs. Joe Pichette on the arrival of a baby girl at their home on December 4th.

JUST MENTION IT

When you are making your purchases at the stores mention the fact that you saw the merchants adv. in the Graphic. It makes him feel good and does you and us good.

READ IT ALL

The Graphic of this week is of 20 pages. Read every part of it for every page there is interesting reading and splendid advertisements, such as you cannot afford to miss.

SUCCESSFUL SALE

The Ladies of the Helpers Union of St. Andrew's church held a most successful sale of work and tea on Thursday afternoon in the hall of St. Andrew's church. Large numbers patronized the booths and a sum of over \$90 was realized.

GUESS?

Some of L. F. Wallace's friends who have been worrying about his appearance lately were glad to see him wearing a large and expansive smile on Wednesday. Can you guess? It's a girl.

PROFESSIONAL

Dr. A. Pierce Crockett, eye, ear, nose and throat specialist, of St. John, will be at the Waverly Hotel, Campbellton, Friday, Dec. 20th, where he may be consulted professionally. Dec. 13-2

COLD WEATHER

With the cold snap of the last few days thick ice is forming above the town and a number of teams have been crossing the river. Thursday evening was very cold, the wind being very keen although the thermometer only registered below zero.

DEATH OF WELL KNOWN RESIDENTER

John B. Christopher one of the notable figures in Campbellton life passed away on Wednesday morning at 2 o'clock. Deceased who was 63 years of age had been ailing for some time and although an invalid for a number of years had enjoyed fairly good health. Mr. Christopher belonged to one of the old settler families and spent some time in the States. He returned from there about 20 years ago and started a wood working factory, which was burned a few years after. Shortly after that he was afflicted with paralysis being confined to the house for the last ten years. He was married to a daughter of Thos. Barclay, Tide Head and leaves his widow and family to mourn his loss. The funeral was held today, the Free Masons taking charge of the body, the deceased for a number of years occupying a high position in the order.

SINKS STEAMER BRITISH WARSHIP

Devonport, England, Dec. 10.—The British battleship Centurion collided with and sunk an unknown steamer to-day off this port. The bows of the battleship were damaged and she is returning to Devonport.

APRONS AS GIFTS.

Attractively Made, They Will Delight the Busy Woman.

This apron will make a delightful gift for the woman who is devoted to her cooking dish or to the one who is fond of fancy work. The three little pockets that can be applied on the points will be convenient for skins of silk or odd spoils.

Fine lawn was the material used in this case. It was cut in a single piece with the three points below, a handsome beading being run around the out-

CHIPPING DIBB APRON.

side. The top was slightly gathered to the waist band. The lower part of the apron was cut out of heavy net and finished with a beading and a lace trim. The band that goes about the waist was made of a beading bordered with rows of narrow lace insertion. Ornaments shaped out of the material and shaped bands of it were applied to the net.

An apron work bag may also be made of plain or flowered muslin, with pink or blue ribbons, if destined as a gift for a girl or of silk, satin or brocade if for an older lady.

The apron lies round the waist by means of a ribbon, while the bottom of it is doubled up to form a deep bag, with ribbon run round the slot at the top of it, so that when the wearer stands up suddenly any needlework, scissors or cottons lying in her lap slide into the bag instead of falling on to the ground.

This makes it a specially useful gift for any one who has any nursing, waiting on older people or looking after small children to do.

SWEET SCENTED SACHETS.

Charming Tokens for the Christmas Gift Maker.

Dresden ribbon quaintly tinted is used in making this sachet handkerchief case. The upper part of the case is open so that the folded handkerchiefs may be slipped inside. A plain satin ribbon is used for the lining. The row of tiny satin ribbon roses wreathed around the edge of the heart and the big plain satin ribbon bow at the left are charming embellishments.

A specially pretty and novel handkerchief sachet is very easily made from a twenty-two inch square of flowered silk, interlined with a layer

HEART SHAPED SACHET.

of nankeenette, lined with Japanese silk and edged all round with a cord chosen to match the lining.

The materials have been placed together and one corner sewed on the four corners of the square should be folded to meet in the middle, envelope fashion, while four inches from each point sew a wee bow of ribbon to catch the sides together.

The four points should then be turned back at will as far as the four ribbon bows, allowing ample room for getting handkerchiefs in and out.

The effect of the turned back corners, particularly if the lining has been chosen in some pretty contrasting color, is very attractive.

For a large sachet, suitable for a nightdress, a yard of silk measuring not more than twenty-two inches wide in some pretty shade is required, together with a yard of soft white silk for lining.

The two yards of silk are laid together, stitched round three sides and then covered on the inside with a thick pad of wadding. If it is the ordinary sheet wadding one three layers.

Then the wadding loosely to the selvage of the silk. The case then is turned right side out and the fourth side slipstitched. The yard strip is divided into three, and two-thirds are sewed up together on either side to form a bag.

The remaining third of the strip is then cut up somewhere about its center with a yard or rather more of wide ribbon to match the colored silk used on the case or, if it is not possible to obtain a good match, with a double strip of the silk itself stitched together to form a ribbon.

The tied up piece of the sachet is usually turned over, so that the white silk lining and the bow lie on the front of the sachet, and the opening is left ready to be slipped into the nightdress.

NA-DRU-CO LAXATIVES

Women's commonest ailment—the root of so much of their ill-health—promptly yields to the gentle but certain action of Na-Dru-Co Laxatives.

25c. a box at your druggist's.

NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED. 161

San Francisco is to have a handsome and picturesque new railway station erected during 1913 by the Southern Pacific road on the present site of the Coast Line station at Third and Townsend streets. It will cost \$300,000, and will be in the mission style of architecture, which is very well suited to such structures.

An estimate of the government that the world's commerce this year will reach \$31,000,000,000 gives a monthly average of \$2,583,000,000. Oversea trade of the United Kingdom this year has averaged \$478,000,000 monthly; that of the United States has averaged \$325,000,000. Thus, while the United States can boast of 12 per cent of the world's commerce, the United Kingdom can show a ratio of nearly 20 per cent.

The New York Herald says that by the gift of \$125,000,000 to the Carnegie corporation of New York, Mr. Carnegie leaves John D. Rockefeller far in the background as philanthropist. The approximate total now stands: Andrew Carnegie—libraries, \$52,000,000; pensions for college professors, \$22,000,000; small colleges \$20,000,000; hero funds, peace funds and miscellaneous gifts, \$113,000,000; Carnegie corporation, \$125,000,000; total \$332,000,000. John D. Rockefeller—general education fund, \$53,000,000; Chicago university, \$25,000,000; small colleges \$23,000,000; miscellaneous gifts \$74,000,000; total \$175,000,000.

In the personal laboratory of Sir Wm. Ramsay, at University College, London, is a pair of scales so delicately adjusted that they will weigh a seven-millionth of an ounce. The room is in semi-darkness. So delicate are these scales that their balance is disturbed by the turning on of an electric light. The operator has to leave them for an hour in darkness—after he has tipped from the room so that his footfall does not set up any vibration—and then read them swiftly before any change in the temperature has had time to affect them. The scales rest in a metal chamber. The beam, only a few inches long, is placed in a silica case, because silica expands and contracts less than glass.

In one of the Charlottetown schools the other day a number of children ranging in age from five years upwards were found smoking cigarettes. The cigarettes had been sold to these children by a person who could be scarcely ignorant of the fact that he was not only violating the law but that he was committing a much more serious crime, namely, starting innocent children on a road that leads almost invariably to ruin. There is a severe penalty for selling cigarettes to children, and the penalty should be exacted without merciful severity. The man is little less than a fiend who will commit this crime, and we trust that the parents of those who have been given this first push downward will see to it that the villain will get the full benefit of the law.

—Charlottetown Guardian.

Rod and Gun for December, published by W. J. Taylor, Limited, Woodstock, Ont., is an especially readable number. Among its varied list of contents may be found: The Calgary Stampede, a description of the wonderful historical pageant that took place last Sept. in that city of the plains; "Bud Parsons," an amusing tale of a youthful hunter who threatened for the blood of a bear; a funny illustrated article describing the winter attractions of a well known summer tourist rendezvous—Algonquin Park; A Still Hunting in New Brunswick, and a very funny Indian story-poem of "Hole-in-the-Jaws"—so named because his mouth was large and wide, extending clear from ear to ear.

"Food and Feeding" is the subject of the eighth article on the Culture of Black and Silver Foxes and other stories of adventure are of an exceptionally entertaining nature.

Dairying Reminders

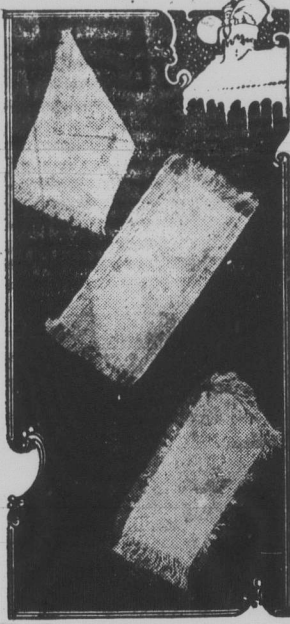

Regularity of milking and feeding are important requisites in every profitable dairy operation.

The most perfect separation of the cream from the milk will be obtained by separating at once after milking.

RIBBON REMNANTS.

Short Lengths of This Make Attractive Holiday Remembrances.

Very dainty powder bags may be made of short lengths of Dresden ribbon fringed at the ends. A bit of chambray is stitched to the under side of the ribbon, and it is with this the powder is put on. Such toilet accessories will be much appreciated by most women and are gifts that are inexpensive yet useful.

RIBBON POWDER BAG.

men and are gifts that are inexpensive yet useful.

Two bits of fancy ribbon thus fringed may be stitched together to make sachet covers.

The dainty colorings and charming varieties in these Dresden ribbons suggest numerous uses for such odds and ends at the Christmas season.

Such a simple thing as a package of good pins can be placed in an attractive holder. Take a piece of ribbon five inches wide, fold it in half and then fold the edges back on themselves. Make this case a little longer than the paper of pins. Fasten the edges at the corners after fringing them and place a bow of narrow ribbon at each end, allowing for a short ribbon handle. This can be made to match the bureau trimmings and can be hung at the side within convenient reach.

MERE MAN'S CHRISTMAS.

The Offerings That Women Friends May Prepare For Him.

In selecting a gift for a man a girl is limited to articles for his desk, sofa cushions, calendars and bits of embroidery.

A man will like this attractive case for brushes, which is made of very

BRUSH CASE.

wide ribbon in a novel blue and white and pale green figured design. It is lined with green china silk and is fitted with separate compartments for the different brushes. The back of the case may be made over a frame of cardboard, while the front can be stiffened with canvas. A narrow dark blue and gilt braid ornaments the edge, binds the two sections of the case together and gives body to the flaring bow of ribbon along whose face it is run.

Do not forget a round bag for col-lars. A circular disk of stiff cardboard six inches in diameter can be cut and covered with linen. Measure off a strip six inches wide and as long as the circumference of the circle. Sketch some simple design on it, repeating the motifs three times and embroider.

Attach rings to the upper edge and whip on the straight piece after joining at the straight edges. Run ribbon through the rings.

Last Minute Giving.

The only Christmas spirit evoked by last minute preparation is a cynical disgust for a holiday that should be attractive. It is like a woman who says she can work only under pressure. Before long she finds the work suffers.

The Christmas List.

Do not think of Christmas giving as compulsory. Examine your list carefully and, blue pencil each name that is not necessary. The instant a Christmas gift becomes a burden it is as useless as the Christmas itself.

FARM TOPICS

Do you Keep "Boarder" Cows?

The cow from an economic standpoint, is simply a manufacturing plant through which is run so much raw material in the form of nutrients to turn out the finished products—milk and cream. Many of these manufacturing plants are run at a dead loss, but their owners do not know it, as they are too indifferent to take the trouble to "keep books" so they can find it out. This is one of the lamentable defects in farming as a manufacturing enterprise. In any other phase of industrial activity such negligence of business methods would spell bankruptcy. The Babcock test and a pair of scales makes it possible for every farmer to keep accurate accounts with each cow in his herd, and where this is done it does not take long to convince the owner that the cow that does not pay her board had better move on. But as yet the major portion of dairy farmers have not risen to the point where they test each cow's production. Through the organization of co-operative cow testing associations in a number of different states improvement is being rapidly made, but it is probably a safe estimate today to assume that 20 per cent of the milk producing cattle in the great dairy state of Wisconsin are not paying their owners for the feed and care which they require.

In these days, when modern machinery has so greatly reduced the relative use of hand labor, a lamentable lack of efficiency is shown where a man spends his time milking and caring for a number of animals whose returns often do not pay for the feed consumed, let alone the labor expended.

Stable Sanitation

In the first place, the carcass of any animal that dies of a contagious disease should be destroyed by burning; otherwise it should be buried deep and completely covered with quicklime. Anthrax especially is frequently spread by neglect of these precautions, as birds, dogs or other animals feed on the unburied carcass and distribute the germs. The stable which has housed an animal that died of a contagious disease should be subjected to rigorous sanitary treatment. All the infected forage and bedding should be raked out and burned; the walls should be well soaked with water and then thoroughly scraped. All rotten wood in the floors, feed boxes or stanchions should be removed and burned. A noted authority has said: "Thorough cleaning will often make disinfectant unnecessary, but no amount of disinfection will take the place of cleaning."

Possible Increase of a Grain of Wheat

It has been calculated by a German philosopher that a single grain of wheat produces fifty grains, and that these fifty grains will each produce fifty grains more, and so on. Thus he finds that the grain would develop in the following way:

In the second year, 2,500 grs.

In the third year, 125,000 grs.

In the sixth year, 15,625,000 grs.

In the twelfth year, 244,140,625,000 grs.

The third year's crop would give 300 men one meal, leaving enough for ten to feed eight pigs for one day. The produce of a single grain in the twelfth year would suffice to supply all the inhabitants of the earth with food during their lifetime.

Four Eggs in Ten Hours

High cost of living does not bother Miss Augusta C. Norling of Brockton, Mass., as long as she can raise hens that lay four eggs every ten hours.

"I just take good care of my hens and they make return by laying plentifully," she said. "I guess no one in this city has got a hen that will lay four eggs in ten hours, and I will wager there isn't one in the country that will beat that record. My Peggy is queen of the flock. I have always made a pet of her. One day last week she was sick, and I took her in the house. When I carried her back to roost there was an egg in the basket at the house. The next day when I went out to see how she was getting along, I found in her nest three more eggs that she had laid during the night."

Care of Dairy Utensils

Rinse all utensils used in the dairy with lukewarm water, then thoroughly wash with hot soda. Do not use soap or any of the washing compounds containing grease. Then rinse with scalding water. This will make the utensils thoroughly clean. The milk and cream will thereby keep sweet longer. Cold water is useless in cleansing milk pails, separator parts or anything else with which milk or cream has come in contact.

Sweetening a Churn

Place several lumps of unslaked lime in the churn with water enough to make the lime creamy. Put on the lid and leave it for a half hour. Churn several minutes. Remove the lime-water. Scald thoroughly with boiling water. If the first trial of this method does not sweeten them churn repeat the operation.

Lime is one of the most efficient disinfectants, as it destroys organic matter as well as bacteria. To prepare milk of lime add a pint and a half of water to each quart of quicklime to be slaked. By weight use sixty parts of water to a hundred parts of lime. One quart of the resultant dry powder can be mixed with four quarts of water. This preparation should be used as fresh as possible to spray the walls, partitions and floors of infected buildings. It should be put through a fine sieve or strainer previous to using to prevent the clogging of the spraying nozzle.

Every stable should be whitewashed at least twice a year, as this inexpensive process not only is a valuable means of disinfection, but also materially improves the interior appearance of the barn. The whitewash should be made from freshly slaked lime, using the same proportions as in the case of milk of lime. The surface of the stanchions and mangers, together with the side walls and ceiling of the barn, should be brushed clean of dust. The whitewash should then be thoroughly sprayed over the stable by means of a hand spraying outfit.

Victoria has spent 15,000,000 dollars on Irrigation Works and the main channels command over 2,000,000 acres. In Victoria, the control and use of all water supplies, rivers, creeks, and lakes is in the hands of the Government, and all water supplies, whether domestic, stock, or for irrigation purposes, are owned and controlled by the State, whilst the charges for water are amongst the lowest in the world. Irrigable land may be purchased under Closer Settlement conditions at prices ranging from £10 to £20, (\$50 to \$100) per acre. The deposit is 3 per cent of the value of the land and half-yearly payments of an equal amount pay off the remainder in 3½ years. The interest charged is 4½ per cent. The charge for water is remarkably low as compared with the charge of \$17.50, which is the price in California, Colorado, Nevada, Washington and other States of the Union. The climate is equable and crops may be grown all the year round, there are no extremes of heat or cold; the mean temperatures are 49.2 (Fahr.) in winter, and 65.3 in summer. Dairying, stock-raising, wool and cereal production, as well as fruit growing are extensively carried on.

In 1911 Victoria produced Wool to the value of £4,142,747 (\$20,713,735) minerals \$13,088,955; wheat \$17,736,330; butter \$19,300,500. In 1910-11 season Victoria produced 3,502,714 bushels of apples, pears, etc.; 27,390 cwt. of raspberries, strawberries and other small fruits.

The area of this productive Australian State is 87,844 square miles, about equal to the size of Great Britain. The capital of the State, Melbourne, situated on the River Yarra, near Port Phillip Bay, is the eighth city of the British Empire, having a population of 588,000 people.

Any reader who would desire to receive a copy of this publication, gratis, may address F. T. A. Fricks, Esq., Victorian Government representative, General Delivery, San Francisco, Cal., U. S. A., or Elwood Mead, Esq., C. E. (State of Wyoming, U. S. A.), chairman of the State Rivers and Water Supply Commission, Melbourne, Australia. The publishers at 44 William Street, Melbourne would also supply any added particulars which may be desired.

A school to teach society women with large incomes the best way to spend their money, has just been opened by Lady Esher, and at the first lesson thirty six pupils, wrapped up in furs, arrived in their carriages and automobiles to be initiated into the mysteries of petty cash and stamp books. The "school" is situated at Craig's Court House, Charing Cross, where the lessons will be held once a week until Christmas, when Lady Esher will hold an examination to test the progress made.

The first lesson had for its subject "The Duties of Honorary Treasurers of Societies." Each pupil was supplied with an account book, ledger, cash book and petty cash book, and all wrote entries in them as the teacher, who, on this occasion, was Miss Tait, well known as "John Ironside," the novelist, dictated sample incomes and sample items of expenditure. Among the items dealt with during the lesson were:

Account books, how to open and keep accounts correctly, muddle that

result from lack of method, cash book and ledger, petty cash and stamp-books, receipts and payments and of office rules, treasurer's report at committee meetings, financial year, the audit.

Charlottetown Examiner The death occurred at the City hospital under very regrettable circumstances, of Miss Bridget Callaghan. She had been employed at the Revere Hotel and on Wednesday afternoon in a playful mood, dared Jerry Gallant, another employee, to open the cellar hatch after he had gone down for coal. She stood partly on the hatch and partly on the hatch support and when he responded to the dare and raised the hatch Miss Callaghan slipped and fell. The sharp edge of the hatch catching her in the pit of the stomach. A doctor was at once called and she was removed to the Charlottetown hospital where she gradually sank until the end came Thursday at noon. Death was due to internal laceration of the stomach and liver. Deceased belonged to Cardigan and leaves to mourn several brothers and sisters.

An English newspaper owner has purchased thousands of dolls for the poor little girls in London who would otherwise receive no Christmas presents. He has made arrangements with a trans-Atlantic steamship line to place the dolls in small lots on board liners, sailing for New York, with the understanding that the women passengers would be offered the opportunity to clothe them. Sixty dolls were supplied with beautiful gowns on one liner which has arrived in New York. They will be taken back to England on the return trip.

A children's theatre, the only playhouse in the world, devoted exclusively to the entertainment of children, is to be opened in New York next month. The funds for the enterprise were provided by Wm. K. Vanderbilt, but it is expected to be practically self-supporting. The auditorium, which is placed on the roof of the building, erected by Mr. Vanderbilt and other for their new theatre, will seat 800 and has 12 boxes. The wall decorations are in nursery style, and great arched windows looking out over Central Park give an abundance of pure fresh air. Plays are to be given in the afternoon, beginning at 3.30 o'clock.

Florence McQuire, the 13 year old daughter of James McQuire, of Victoria Mills, was drowned a short distance from her home on Sunday afternoon. She was one of a large number of young people skating on the St. John river near the Mills and went through the ice. The swift current carried the body under the ice and after an alarm was given grappling was commenced, but this work was hindered by the snow storm which started before dark. A body of determined workers persevered however, and on Monday afternoon the body was found about 75 feet from the place where the child fell in.

A Des Moines man had an attack of most peculiar rheumatism in his shoulder. A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this liniment he was well. For sale by All Dealers.

The story of eleven years of married life during which not a word was exchanged between husband and wife is told in papers on file in a separation suit in the New York State Supreme Court.

The pair, Mr. and Mrs. Carl Mintz, were married in 1884. For thirteen years they lived happily together with their four children. Eleven years ago they quarrelled. The dispute was over some trivial matter, it is said, but the wife declared that she would never address another word to her husband as long as she lived. He declared that the arrangement was satisfactory to him. Mrs. Mintz asserts that both adhered to the agreement.

Seven years ago their daughter Dorothy died, but even at the funeral service the vow of silence was not broken. Mr. Mintz is now seeking a separation.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness follows. It is entirely closed Deafness. Deafness is not incurable if caught in time. The inflammation can be taken out and this tube restored to its normal condition; hearing will be destroyed forever, if the case is not cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

JOSEPH BOUDREAU
Lower Water St. Campbellton, N. B.

TAX REFORM A LIVE QUESTION

A. B. Farmer Tells Newcastle Audience what he Knows About Subject.

(Newcastle Advocate)

An interesting lecture on tax reform was delivered by A. B. Farmer, secretary of the Tax Reform Association of Ontario before a meeting held under the auspices of the Newcastle Board of Trade in the Town Hall Saturday evening. Owing to the fact that Saturday evening is the busiest evening in the week for a large number of citizens, there were not as many of the leading business men of the town present as might otherwise have been the case, but a gratifying feature was the presence of a large number of working men, who followed the lecturer's remarks with much interest.

On motion of Rev. Dr. Cousins, seconded by W. J. Jardine, the chair was taken by Ald. H. H. Stuart, who briefly introduced the lecturer.

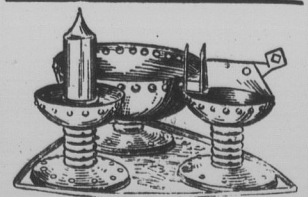

In opening, Mr. Farmer said that one reason why Tax Reform had come into greater prominence during the last few years, was the enormous

A. B. FARMER

growth of cities, and as more money was needed, newer methods were being tried by newer men. Private business firms. If you want to do anything you have got to raise the money. You can get a certain amount of gratuitous public service, but not enough to run a city. There are two ways for the individual to get money. One is by stealing, and you have got to steal on a large scale to be respectable. Another is by begging, and you have got to beg on a large scale, a million acres of land or a few millions of subsidy, if you want to be respectable. Another way is to have money given to you. But the one way you can get money satisfactorily is to earn it, to give service for what you get.

At the present time revenue is raised (1) by poll tax; (2) by tax on personal property and income; (3) by taxes on real estate. The first method is grossly unfair, and the only justification for it lay in the supposition that a man's head was worth more to him in the particular town in which he lived than anywhere else. Because a man's head is taxed, it does not enable him to demand better wages, and the unskilled workman who receives less wages than his skilled brother pays the

Miss J. M. Andrew, Water St. Opp. Subway. Campbellton

same amount of poll tax. Taxes on personal property are an incentive to falsehood for the simple reason that no man pays on the amount which he legally should. He goes on the principle that everybody is paying in too little and he does the same.

Municipal corporations are organized to perform services which it is not desirable to leave to individuals. To run such corporations money is required. We have to find out who gets the most benefit from the municipal services. At first sight it might seem that the owner of houses got the most benefit from the fire protection service. But if the fire protection service was abolished and a lot of houses burned down, there would be more people than homes, and rents would go up, while the price of land would fall. The value of a building cannot rise much beyond its cost of reproduction. Hence the value of fire protection registers itself in increased values of land.

The value of the police service is registered in the increase in the value of land, for if there was no police protection, all goods would be high in price as is the case in new communities, and people would not come there. When police protection is provided people flock in and the value of land increases.

Similarly with the school system; people go to the city where schools are free rather than to another where they have to pay the schooling and the people's demands for new homes increase the prices of land.

A gentleman in New York was very indignant because a street railway was charging 10 cents fare to a certain suburb. So he made a noise and forced the railway to reduce the fares to 5 cents. Thereupon the gentleman being a big land owner in the suburb found he could raise rents, and later he was raised to the position of governor of the state. Similarly with every other public service—cheaper it is and the landlord absorbs the benefits. Land is not property in the sense that other things are. It cannot be made or duplicated, like a house or a piece of furniture. The value of a house is pretty much what it cost to build; the value of land depends on its situation and its nearness to the public services. A man may own two pieces of land of identical size, the one may be worth \$10,000, the other only \$50. The difference in value lies in the public services. Therefore the land should bear the cost of them.

Under the present system assessors usually valued property not so much on the ability of the owner to pay, as on his ability to kick. The rich man gets off easy because he is better able to raise a kick.

The question was often raised—would not a tax on land values amount to confiscation. It would if the landlords' tax was made equal to the rent he received. Cities now were rent confiscators, a large measure of the value of a man's property created by his own labor; in most cases the old tax system confiscated 40 per cent of the value of the home. The city might with more propriety confiscate the value given to land by the growth of a community.

A tax on buildings destroys the land values, while a tax on land has a tendency to promote the development of the land and increase its values.

This paradox was illustrated by instances. He and his partner refused the gift of land in Clinton where there was a high tax on buildings and paid \$40 a foot in Toronto, because of the low tax rate on construction there.

Continuing the speaker said the best method to get at the value of lands was the Somer plan in use in Cleveland; the best man on earth would not get good assessment results without a good system.

The speaker said he would not urge the exemption of improvements all at once, but thought legislation should be secured permitting a reduction of taxes on improvements. So long as you penalize the erection of houses by putting on a municipal mortgage of 35 per cent, then you will have to go on erecting tuberculosis hospitals. One of the principal factors in the solution of various social problems was to establish a tax system which would favor the erection of healthy homes.

Newcastle's tax rate, he understood was \$3.50 per cent. This amounted to the interest on a \$700 mortgage on a \$1000 house, and before any owner could enjoy any income from his house he had to provide for this mortgage interest. It is only necessary to put the taxes high enough to stop building altogether. If you make the taxes high on personal property, no shopkeeper will keep any stock and if you put on a high poll tax, nobody will stay in town.

If land gets tied up, soon people would be out of work; and if it is wanted to increase wealth, then bring land into use. A tax on land values will cause it to be brought into use, for no man can afford to pay heavy taxes on land that is bringing him in

to return.

Continuing the speaker said he could not promise that taxing land values would increase wages, for if it became known that wages were higher at one place than another naturally men would flock to the former and thus wages would be lowered. The interests of labor the world over are one, and it is only by standing together that any improvements may be accomplished. Every man who comes into a community increases its value by means of the money he brings in to circulation there.

Speaking of Newcastle, Mr. Farmer said he understood the area of the town was about 5 sq. miles or rather more than 3000 acres and the value of it between \$700,000 and \$800,000. In order to tax this land at its fair value, it would be necessary to take the most valuable sites in the town and place a value on them. This would be the unit of value. Then sites in the next street might be

worth 98 per cent of the unit and so on until they reached the lands at the very edge of the town, which were worth very little. In this way, lands which obtained the most benefit from the public services would pay the most in taxation. After the fire at Windsor, N. S., in 1897, when the whole town site was swept clean, assessors started in to value the sites and they found when they had finished, that the total value of the bare sites exceeded in value the total assessed value of the town as it was when all the buildings were upon it.

In concluding his remarks Mr. Farmer said he would be pleased to answer questions bearing on the principle of the tax on land values, and several present asked questions of the subject and a great deal of interesting information was afforded.

A hearty vote of thanks proposed by Mr. W. J. Jardine and seconded by Mr. D. Morrison was passed to the lecturer, after which the meeting dispersed.

"The Christmas Stores."

One of the first considerations in the Selection of a Christmas Gift is the USEFULNESS of the article, in keeping with the Holiday Season. We have stocked a variety of Specially selected gifts.

Bordered Dress Goods and Suitings, 5 per cent. off reg. price.
Dress Goods, 15 per cent. off.
Lingerie, 5 per cent. off.
Wrappette, from 10 yds. up, 3c per yd. off reg. price.

H. W. Falconer of the Nelson, B. C. News was a visitor here enroute to spend Christmas at his home at Newcastle.

Miss Alice Mowat, Montreal is spending her Christmas vacation at her home here.

COUNCIL HOLD

REGULAR MEETING

Continued from Page one
delegates it was resolved that owing to the condition of the Board of Trades finances that the town pay the expenses to the limit of \$50 per delegate.

Petitions for license were received from George Gaudet, barber and A. Bertrand for 2 horse cab and were referred to Police and License Committee.

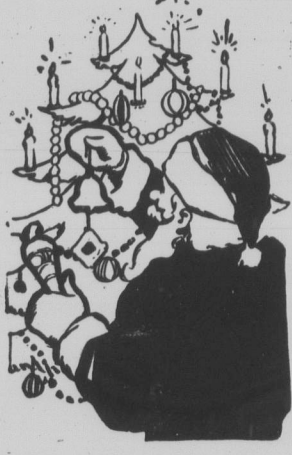

The following reports from committees recommending payment of accounts were received and adopted. Councillor White from Fire Protection, \$27.50; Sansom, Public Charities, \$12; Lunam, Electric Light, \$202; Pinault, Public Property and Streets, \$123.20; Alexander, Water and Sewerage, \$239.91; Alexander, Finance, \$923.75.

Under unfinished business was taken up the matter of the Moores property in Rosebury Street. The Town Solicitor submitted lease with plan attached which called for an annual payment of \$11. The solicitor stated that the owners of the land were not willing to sign the assignment. Mr. LeBlanc who was present said that he was of opinion that the town should buy the land as Mr. Gerrard was not willing to sign the assignment preferring that the town should buy the land. After some discussion it was arranged that the lease of land as approved by the solicitor and the conditions of purchase be complied with.

Councillor Pinault brought up the question of licenses for moving pictures. The Mayor stated that he had arranged to get the by-laws and legislation committee to take up the whole matter of by-laws and their deliberations would be made known soon.

The communication of H. A. Alain was then taken up, and the license fee and poll tax ordered to be refunded.

Councillor Alexander submitted report of the delegates to the meeting of the Union of New Brunswick Municipalities after which the council adjourned.

THE X'MAS 20TH WILL BE A HUGE ONE. FRIDAY, DEC. 20 AT THE BIG DEPARTMENT STORE.

Oh, what rush and crush there will be at Marquis & Co., on next Friday. What an opportunity it offers to the X'mas shoppers. It is right in the height of the buying season.

What a Raid Will be made on Old Santa's Toys

A Great big 20 Per Cent Off AND WHAT IT MEANS

20 per cent. off at this particular time certainly means a great thing to the people of the town of Campbellton and vicinity. One thing sure it means a big loss to us, but we won't look at it in that light, this being X'mas Tide we will call it

Our X'mas Gift to Everybody

All and everything in our store, excepting Groceries, will be subject to the enormous discount of 20 per cent. You are all familiar with it by this time. Nothing changes. It is straight 20 per cent. off your entire purchase. We have not the space to enumerate the things that come under this sale, but will mention we have the largest stock of Toys, Fancy China, and Fancy Goods for Christmas presents in town.

Ask Those Who Buy at Our 20 per cent Sales and see how They are Satisfied. Although the 20th falls on Friday, the store will not close at 6.00 p. m., as we are open every night until Christmas.

ADDITIONAL HELP WILL BE FURNISHED TO WAIT ON THE THRONG AT THE BIG DEPARTMENT STORE STORE FRIDAY, DEC. 20TH.

IT IS GOING TO BE A BUMPER DAY May this Christmas be a Merry One to All.

AN OLD-FASHIONED CHRISTMAS DINNER

What Washington Irving Saw—Fine Description of the Old-Time Feast of Yuletide

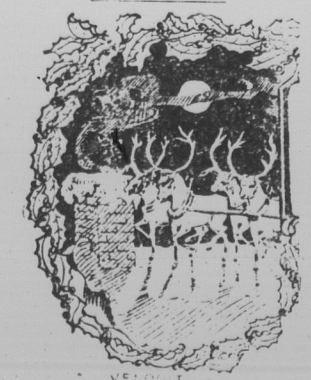

The old-fashioned Christmas dinner, as it was in the days of Washington Irving, is a thing that has long since passed away. It is a thing that has been forgotten by the world, and it is a thing that has been forgotten by the world.

The old-fashioned Christmas dinner, as it was in the days of Washington Irving, is a thing that has long since passed away. It is a thing that has been forgotten by the world, and it is a thing that has been forgotten by the world.

HON. ROBERT GETS HIS ANSWER

Provincial Legislators Almost Unanimous for Freer Trade

Regina, Sask., Dec. 10.—The adjourned debate on the Free Trade resolution of Mr. Robinson, member for Francis, terminated yesterday where the resolution passed on a straight party vote 28 to 2.

An amendment was moved by Mr. Willoughby, leader of the Opposition, urging that no tariff changes be made pending the submission of the report of the tariff commission.

Willoughby maintained that making reciprocity the issue in the elections of last July was justification for the participation in the Provincial election of Hon. Robert Rogers. He did not think any reduction of the duty on agricultural implements should be made until the tariff commission has thoroughly investigated the question.

Wylie, of Maple Creek, said the Conservatives of Saskatchewan are still against reciprocity. He did not think it was the consumer alone who paid the duty. The Opposition amendment was defeated by 25 to 3 and the original motion carried as stated.

A Woman of Few Words
Mrs. Harry E. By, Main street, north, Regina, Sask., writes: "Your remedy for kidney, bladder and stomach trouble has given me great relief. I have taken three boxes and feel like a new woman. I have not felt for years and have not been able to sleep for years."

A. C. BELLE-ISLE, CAMPBELLTON, N. B.

Write Ideas For Moving Picture Plays!

YOU CAN WRITE PHOTO PLAYS AND EARN \$25. OR MORE WEEKLY.

We will Show You How!

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100. and more, for single scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near New York City. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers our Sales Department has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as Vitagraph, Edison, Essanay, Lubin, Solax, Imp. Rex, Reliance, Champion, Comet, Melies, etc., urging us to send photoplays to them. We want more writers, and will gladly teach you the secret of success.

We are selling Photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you can think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25., a low figure.

You Will Earn \$100 Monthly For Spare Time Work.

HER BEST CHRISTMAS

COME on along, Sandy. I'll put to dinner at the Metropolitan.
Sandy, a tall girl who didn't look her thirty years, was busy packing over a type of sheet and for a moment did not answer. Bob stood watching her, casting in the delicate lines of her face and the beauty of the "sandy" hair, which, when he was alone and forgot that Sandy was a newspaper woman and his "girl" he was pleased to call golden.

"Cut that out, Sandy. You'll be back. I have a check and it's Christmas Eve. I'm for a treat, I say." did you hear me ask you to go to the Metropolitan? You take it as calmly as if I had asked you to go around to O'Leary's lunch counter. Deuce take it! Why can't you be a little enthusiastic?"

Slowly the girl raised her head. More than a sheet of copy had been holding her attention. But she caught Bob's frown and immediately the mother instinct in her was aroused. She broke into her usual comrade laugh.
"All right, Bob. The invitation overwhelmed me. The Metropolitan? But I couldn't. Bobby dear. My shirtwaist is sold and you yourself said there was a hole in my beautiful brown coat."
"Oh, come along! I was only joking. You'd outshine all the women at the Metropolitan. If you went there in a khaki suit, I wish you had a little more vanity. Women are awfully tame when they have it."

"Come, now, you know I'm vain of the fact that I haven't any vanity. Don't call me tame. I won't go to the Metropolitan with you if you do. Somehow I feel—"

"Fiddlesticks! Get on your hat. I'm going. The idea of a newspaper woman's feeling! Cut it out!"

The Metropolitan was filled with the "vulgar" rich in holiday attire; but Sandy and Bob were happy in true Bohemian style as they sat at their little table chatting and looking like two boys. Sandy never would play the woman—that was the only objection Bob had to her.

"I say, Sandy, I bet you've no plans for to-morrow and I'm coming to take you out. I've a great plan. Put on that brown silk and play you're a woman for once."
"Yes, a sweet, young, clinging feminine creature with my heart on my sleeve! 'Twill be charming, of course. Do you really think I could play the part?"
"Stop joking, Sandy. You never will take me seriously. You will go, won't you?"
"I'd like to please you, Bobby, but I really must be home to-morrow. I have work that must be done and besides I have a feeling that I ought not to go."
"Peeling me damned! If you had fewer feelings and more feelings for a poor fellow—"

What's the matter, Sandy?"
The girl had cast a glance over the room and had grown suddenly pale. She closed her eyes for a moment. Bob had caught the pallor.

"Oh, nothing. I had a little twinge of that old neuralgia."
Thus the chasm was bridged and the dinner ended happily. If anything, Sandy was gayer than usual.

Four o'clock the next day Sandy's heart was beating loud. Her "studio," as she was pleased to call it, wore its very best attire. Even the inevitable typewriter was out of sight.
She was older, older by six years, than when he had last seen her, but happiness made her wondrously beautiful. Bobby would have lost his wits. If he should not come! But he would come. If he should come and the dream could not be realized! But he would not come unless he could.

A rap at the door!
"Miss, there's a shentlemen a-askin' for ye. Should I send him in?"
"Yes, Mary." The tones were perfectly calm. Six years of patient waiting had not been without their power.
"Margaret!"
"John!"
"I knew you would come. I saw you last evening. I knew you would find me. Oh, John, I am so happy!" She rested her head on his shoulder to hide the tears.
"My Margaret, now and forever!"
"And Constance?"
"Constance is gone—and she wished it to be."
A long silence.
"Sit down, John. There is your chair. How often have I pictured you in it. Let me think. Let me get my breath. I knew you would come. I wonder what Bobby will say! He thinks I have no heart. But—it was to be."—New York Mail.

Useless Presents
Aunt—Yes, Johnny, Santa Claus brought you a baby brother.
Johnny—Great Scott! Another present that ain't any use!

A woman under the mistletoe can look mighty unconscious if the right man is in sight.

ENJOYING THE BEST OF HEALTH

"Fruit-a-lives" Cured His Rheumatism

Prof. J. F. DAVIS,
569 CHURCH ST., TORONTO.
I want to say to the people of Toronto and elsewhere that "Fruit-a-lives" is my only medicine and has been for the last four years. Previous to that, I had been very much troubled with Rheumatism and Kidney Disease, and had taken many remedies as well as employing hot applications of salt bags etc., without getting satisfactory results.
Noticing the advertisement of "Fruit-a-lives", I adopted this treatment altogether and, as everybody knows, since taking "Fruit-a-lives", I have been enjoying the very best health and find it a pleasure to follow my vocation of Dancing and Department Instruction.
Prof. Davis, the celebrated teacher of dancing and deportment in Toronto, is quite frank in stating that "Fruit-a-lives" alone cured him of distressing Rheumatism and Kidney Trouble. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

BRIDE KILLED WOMAN WHO SLURRED HER AT WEDDING SUPPER

Logansport, Ind., Dec. 4.—Elizabeth Lang, a bride of one day, last night shot and killed Mrs. Mary Cople, who at the wedding supper is alleged to have told other guests that the groom had selected an ugly and worthless woman, and the police say, she made a full confession and expressed pleasure that she had stopped slanderous remarks.

Stop that Itch for 25c.

Does it seem to you that you can't stand another minute of that awful burning itch? That it MUST be cooled? That you MUST have relief? Get a mixture of Oil of Wintergreen, Tylenol and other soothing ingredients as compounded only in D. D. D. Prescription.
The very first drops STOP that awful burning instantly.
The first drops soothe and heal.
The first drops give you a feeling of comfort that you have not enjoyed for months, or perhaps years.
Take our word on it as your local druggist. Get a 50-cent or a 25-cent bottle of D. D. D. Prescription today.
A. McG. McDonald, Campbellton N. B.

HER 250 WORDS

The girls of the fifth form were asked to write a 250-word essay on a motor car. The bright hope of the form duly weighed in with this: "My uncle bought a motor car. He was riding in the country, and it broke down in going up a hill. My uncle tried to make it go, but couldn't, although he spoilt a new suit by trying. I reckon that is about forty words. The other 210 words are what uncle said as he was walking back to town; but they are not fit to write down."

White Drug Co., the Up-to-date Druggist, has scored another point. He has imported a large stock of that Great French Tonic VIGOROL

and has been made the sole agent for Campbellton. Every bottle guaranteed.

Being always on the lookout for the best in everything in the drug line, White Drug Co. has placed in stock a large consignment of the Great French Tonic Vigorol. Every day nature is providing us with something new. The latest medicine on the market in Canada is Vigorol. Weak and run-down men, women and children can now be made strong and healthy. Every home should contain a bottle of Vigorol—the Tonic that is a Tonic. The whole human system is at once toned up. That tired dragging feeling disappears and life becomes a joy. If you are not just feeling yourself, go to White Drug Co. store and get a bottle of Vigorol. If you don't feel better in twenty-four hours, go back and get your money. Vigorol acts on the kidneys, liver and blood, and is a perfect restorative system. Price \$1.00 a bottle.

HER CHRISTMAS GIFT

September 17

WHILE, perhaps we will remain a year. I hope it may be ten. I hate to add and loathe Halifax, and want to live the rest of my life in Europe—Africa—anywhere, as far away from Montreal as possible. Mother says I'm a silly little lovesick girl; but can't think I need a change.
I'm not silly—and I'm not lovesick. Carl has behaved in a most ungentlemanly way.
Just because I motored to St. John, with Sam Perkins and his sister, is no reason why he should get cross and take that acrosky-looking person with him everywhere he goes.
Sam's sister says she is a Frenchwoman. I always did hate French, and I'm glad I refused Carl to meet her. glad I snubbed Carl and glad I was out when he called.

Two long, miserable weeks without seeing Carl—and to-morrow we sail. Perhaps I won't see him for months—maybe never again.
I wonder if I care.
October 20.
More than a month has passed since I have written in my little diary. I wouldn't write now, only this morning a letter came from Carl, and I just have to record it.
Carl says he is lonely; he misses me, and he cannot understand why I ran away to Europe so suddenly. The letter is full of reproaches for my treatment of him, when all the time it was HIS meanness to me that made me so ill, so that I had to get away from everybody.
He does not say one word about that horrid French creature. I shall not write. Well—perhaps I will.

November 24.
At first I hated Paris.
London was nice. Vienna stupid, but Paris—impossible, until last Sunday, when we met Mrs. Harmon. Isn't it strange what a change one day, one hour, can make in a girl's life?
Mr. and Mrs. Field, friends of mother's, gave a dinner for us. Mrs. Harmon was one of the guests. She looks much better in the evening gown than in her street suits; not nearly so frizzy, and the rouge on her cheeks doesn't show at night. I was appalled when mother introduced me to her, to recognize Carl's French friend. She is as handsome as a little girl.
We had a lovely talk. She told me all about her recent visit to Canada, and how good Carl had been in taking her about.

I like her now that I know her. She says Carl was perfectly miserable over a girl he was in love with who had gone abroad for the winter. She did not know the girl's name. I blushed furiously when she spoke of it.
That was Sunday. We have seen Mrs. Harmon several times since then. I made mother promise to take me home. She cabled dad, and said she would be thankful to get back to plain home cooking and her own bathroom. Mother is a dear, and so funny.

December 25
What a happy, happy Christmas day it has been!
The very best I have ever known. Once I said I hated Canada—Halifax—but I don't.
I love Halifax and Canada, home, mother, dad and Carl. Oh, I love Carl best of all!

He has been so sweet, so dear and kind, since we came home two weeks ago. He met us at the pier. I was never so glad to see anybody in my life as I was to see dear old Carl. Dad was there, too.
My Christmas gifts are lovely. Best of all is Carl's love and the ring he gave me as a token of his deep, undying love. I think it was sweet of him to give me such a wonderful diamond, besides the candy and books and flowers. It flashes fire as I turn my hand in the light. Daddy says I'm too young to marry, but I shall coax him to let me marry Carl in June. I'm the happiest girl in the world tonight, and Carl is the happiest man. He has told me so himself. I wish everybody in the world were as happy as we this Christmas night.

Christmas Presents
"I thought it better to get you something useful," said Mr. Dobb to his wife, "so I have bought you a couple of good brooms for your Christmas present."
"That was very thoughtful of you, my dear," replied Mrs. Dobb. "I share your ideas, and have bought a good, strong coat-suit for you to carry up coals from the cellar in."

To Feel Comfortable in Your Position.

IN THE PROBATE COURT OF RESTIGOUCHE COUNTY.

To the Sheriff of the County of Restigouche, or any constable within the said County of Restigouche, Greeting:

Whereas Florence Kelly Stanley, of the Town of Campbellton in the said County of Restigouche in the Province of New Brunswick, now known and in Vermont in the County of Norfolk, in the Commonwealth of Massachusetts, one of the United States of America, married woman, a daughter of James E. Kelly, late of the said Town of Campbellton, deceased, and Arthur V. Harter of Weymouth aforesaid, Counselor at Law, and being associated with the said Florence Kelly Stanley in the petition heretofore mentioned, have filed in the Probate Court in and for said County of Restigouche, a petition in the matter of the estate of the said James E. Kelly, deceased, praying that Letters of Administration of the estate and effects of the said James E. Kelly, deceased, be granted to them in the form of law:

You are therefore required to cite the heirs, next of kin, and all others interested in said estate, to appear before me at a Court of Probate in and for said County of Restigouche, to be held in my office in the Town of Campbellton in said Restigouche County, on Wednesday, the eighth day of December next, at the hour of ten o'clock in the forenoon, to show cause if any they have why the prayer of the said petition should not be granted, and orders of Administration of the estate and effects of the said deceased be granted out of this Honorable Court unto the said petitioners.

Given under my hand and the seal of the said Court this twenty-fourth day of October, A. D. 1912.

YORK CO. LOAN MAY PAY MORE

Asking Permission to Sell
Balance of Property

Monday, December 16, will be the seventh anniversary of the liquidation of the York County Loan and Savings Company. By way of celebrating the occasion, the liquidators, the National Trust Company, announce their intention of applying to the Dominion Parliament this session for a special act to facilitate the distribution of the assets. The purpose of the act will be to distribute among the known shareholders dividends set aside for those shareholders who have made no claim and those whose addresses are known.

WHY HESITATE?

An Offer that Involves No Risk For Those Who Accept it.

So positive our remedy will relieve constipation, that we offer it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or of descending colon. To expect relief you must therefore tone up and strengthen those organs and restore them to their activity. We want you to try Rexall's on our guarantee. They will be to distribute among the known shareholders dividends set aside for those shareholders who have made no claim and those whose addresses are known.

Two sizes, 10¢ and 25¢. Sold only at our store—The Rexall Store.

BUILDING RECORDS GO BY THE BOARDS

All battleship building records are to be beaten by the British navy if the plans of construction of the latest British Dreadnought are carried out.

The new vessel is ordered to be ready for launching five months after the laying of the first keel plates. Somewhat of a sensation was caused at Portsmouth when it was officially announced immediately after the launching of the Iron Duke that the keel plates of the super-Dreadnought which is to follow were to be laid this week. In recent years it has been the practice to allow two or three months to intervene between the launching of a new ship and the laying down of another.

It is said that promises have been made to the Admiralty that the new ship will be ready for launching within the five months and she will be ready for service within one year, thus beating the record of the original Dreadnought by two months.

It is also claimed that the new ship will be as great a departure from prevailing types as the Dreadnought was from its predecessors. Provisions for oil fuel will be made in the new vessel and she will be armored to resist air attacks.

DON'T BE BALD

Nearly Any One May Secure a Splendid Growth of Hair.

We have a remedy that has record of growing baldness and promoting hair growth in 93 out of every 100 cases where used according to directions for a reasonable length of time. That is, we mean it like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall's Hair Tonic will eradicate dandruff, act to prevent baldness, stimulate the scalp and hair roots, arrest premature loss of hair and promote hair growth that we personally give our positive guarantee to refund every penny paid us for it in every instance where it does not give entire satisfaction to the user.

Rexall's "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or rum the hair. Two sizes, 50¢ and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall Store, Thos. Wain.

By the will of Mrs. Kate Boughton, aged 79, who kept a boarding house at Sharon, Pa., Wm. J. Collins an engineer of Cleveland, received \$10,000 Sunday, because Collins had chopped kindling wood and carried coal for her while staying at her house. Ten years ago Collins, then a structural ironworker, went to Sharon in search of work. He asked to stay at Mrs. Boughton's until he could find work, and because he helped lighten the old woman's labors while he remained there was remembered in her will. Sunday he attended her funeral by her request, and learned that a bequest by Mrs. Boughton had been made to him for his kindnesses.

David & Shalala,

Corner Water and Prince William Streets, East End, Campbellton.

ASSIGNEE'S SALE Tender For Stock, Etc.

Tenders will be received by the undersigned Assignee, at his office in Dalhousie, N. B., up to and including Friday, the 20th day of Dec., A. D., 1912, for the Stock in Trade of the Estate of Frank Woodworth, late of the Town of Campbellton. And also for the Store Fixtures.

Tenders for Stock on the basis of so much on the Dollar, based on Stock List.

Tenders for Store Fixtures to name in lump sum.

A separate tender for Book Debts, in lump sum.

The Stock List may be seen at the office of the Assignee, in the Town of Dalhousie, and at A. E. G. McKenzie's office and at A. G. Adams in the Town of Campbellton.

Goods may be examined on applications to A. G. Adams.

The highest or any tender not necessarily accepted.

JAMES E. STEWART, Assignee.

Dated at Dalhousie, N. B. this 4th day of Dec. A. D., 1912.

The Guelph, Ont., Police Commission will consider drafting a by-law to prohibit young people from promading up and down the streets of the city and in the public parks at all hours of the evening until late at night unless they have with them a chaperon. Mayor Thorp, one member of the Commission, states that some stringent measures must be taken to prevent promiscuous promenading in the city for hours at night, as conditions there during the past year have been shocking.

FERGUSON BROTHERS'

GREAT YULETIDE OFFERINGS

MERRY CHRISTMAS

There now remains only ten more shopping days before Christmas. The greatest pleasure of Christmas buying lies in shopping early as it affords prompt attention, intelligent service, ample time and opportunity for a fitting selection. Why not read this adv. carefully for items of interest to you, and do your Christmas shopping to-morrow.

The most essential thought about Christmas buying is that each gift whether large or small, must be pleasing. Much more personal satisfaction is to be derived from the fact that you are giving HIM something that is a constant reminder of your thoughtfulness, rather than an article that costs as much and possibly more, but is certain to be laid aside and forgotten with the passing of the Christmas season.

Our enormous stock of SUITS is also included in this Christmas ten per cent. discount. Why not buy a new one for Christmas?

Through the coming cold winter nights, think how he will bless the happy thought that induced you to buy him one of these WARM HOUSE COATS. Comfortable to look at and comfortable to wear. Cozy patterns in warm Smoking Jackets and Dressing Gowns from \$5.00 up.

If you present him with one of our TIES he won't grow a beard before he wears it. You simply can't help getting one that will please. Each in a fancy lithographed and holly wreathed box.

We specialize a \$5.00 Solid Leather Suit Case. It's a winner and will tickle him immensely. Other lines from 1.50 up to 15.00.

STYLISH WINTER COATS
Why not take advantage of the 10 per cent discount to buy that winter coat. If you need one you will buy upon seeing our showing. **PRICES**
\$8.50, 10, 12.50, 15, 18

10% DISCOUNT OFF
All Goods Bought From Us
From now till
CHRISTMAS
OPEN EVERY EVENING
PHONE 122

We have ties in almost endless variety, patterns, colors, etc. This you will appreciate when you call to make your selections.

LOOK THESE OVER AND SEE IF BUYING ISN'T MADE EASIER:

PRESIDENT SUSPENDERS PLEKO SUSPENDERS MILITARY SUSPENDERS SILK HANDKERCHIEFS
EXCELSIOR HANDKERCHIEFS KNITSILK MUFFLERS PERFECTION MUFFLERS NARROW AND BROAD NECKWEAR
ARMLETS, GARTERS TIE PINS CUFF LINKS SHIRTS GLOVES HANDKERCHIEF BOOKLETS TIE HOLDERS

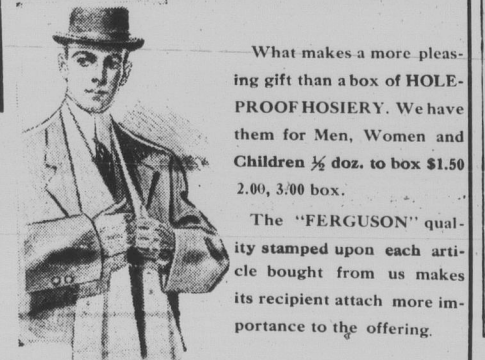

The festive spirit of Christmas prevails through our entire stock. The many exclusive numbers in neat fancy Christmas boxes at the prices we are asking makes us the Christmas store of value.

WE INVITE INSPECTION AND COMPARISONS

Combinations of Tie, Hosiery and Garters, in fancy boxes. Combinations of Tie, Cuff Links and Pin. Suspenders, Armbands and Garters. All in fancy boxes and at popular prices.

House & Bedroom Slippers.
This is one of the neatest and most compact gifts we are showing. Each pair in leather case of same material. Takes up very little room in travelling case, \$2.50 per pr.

MUFFLERS
In all colors, in Wool and Mercerized materials, from 50c and 75c to 1.25. Each in fancy box. They make a very acceptable gift.
The very choicest in Silk Mufflers, tubular knit with fringed edges, in the wanted colors. Each in a fancy Christmas box, \$1.25, 2.00, 2.50, 3.00.

What makes a more pleasing gift than a box of HOLE-PROOF HOSIERY. We have them for Men, Women and Children 1/2 doz. to box \$1.50 2.00, 3.00 box.
The "FERGUSON" quality stamped upon each article bought from us makes its recipient attach more importance to the offering.

UNDERWEAR
GLOVES of all kinds, Calfskin, Mocha Swede, Silk, Fur and Wool lined, 50c, 75c, to \$4.50

Stylish Sweater Coats make a very acceptable Christmas gift for Boys and Men. Men's from \$1.50, 1.75, 2.00, to 4.75 and 5.00.
Two Splendid lines of Boy's Coat Sweaters in Tan and Green, Maroon and Silver, 1.85, 2.00 and 2.50

PYJAMAS that are different from the ordinary make. Made in classy military style that gives them an appearance that strikes the average man right. Ask to see them.

We have not the space to here enumerate all the suitable articles, but make general mention of some of the lines from the many attractive gift suggestions awaiting your selection in our store, upon all of which we will give you ten per cent. discount during the Christmas season.

Don't Sit Up all Night

Trying to figure out just what he would rather have. Come in and see us. We will be of great assistance to you. Try us.

BUY HIM A KING HAT

Find the size of his head. If the shape is not satisfactory we will alter to suit.

Handkerchiefs

We feature Handkerchiefs very largely. Initialed white and fancy bordered silk, from 25c to 75c. One of the neatest Souvenir Gifts we have is a White Silk Handkerchief with crossed flags and Campbellton embroidered in corner, only 35c each.

DO YOUR SHOPPING EARLY
Do not put off your shopping until the last day. Do it at once.
